

John White Commends Farm Bureau For Their Part In Warehouse Law

AUSTIN —The Texas grain farmer now for the first time has adequate protection for his crops held in storage, according to Commissioner of Agriculture, John C. White.

Because of the Public Grain Warehouse Bill, passed during the recent 53rd legislative session, a depositor of grain in a public warehouse has his commodities insured against fire, theft, misappropriation, damage due to careless handling, or acts of God, White stated.

Also, for the first time, the farmer may use his stored grain receipts from state bonded warehouses as negotiable security.

In commenting on the bill, White said, "This was a long-needed piece of legislation. I am particularly grateful to Mr. J. Walter Hammond, president of the Texas Farm Bureau Federation; Mr. C. H. DeVaney, vice-president; Mr. Loys Barbour and many others for their assistance in helping make

this law a reality."

The state farm organization, representing more than 180 organized counties, maintained a legislative office in the state capital this year for the first time. This office was staffed by DeVaney and Barbour, both farmers.

The new warehouse law, introduced by Rep. W. R. Chamber of May and Senator Andy Rogers of Childress, requires that all public warehousemen, not previously licensed by the federal government, secure a license from the Texas Department of Agriculture. Insurance to fully cover all grain in storage also is required.

The warehouseman further protects his customers by obtaining a bond not less than \$5,000 nor more than \$50,000; the amount being at the discretion of the Commissioner of Agriculture.

Major League Stars Tell "How to Watch Baseball"

Baseball puzzle: The rule says a runner hit by a batted ball is out. This runner was hit, but not called out. Why? (See below.)

If you would like to become a baseball expert in 16 easy lessons, you can do it with the help of a new illustrated booklet, just published, written by twelve famous major leaguers.

Entitled "How to Watch Baseball" the book is intended mainly for spectators, but it also contains plenty of tips on playing the game, as well as American League and National League schedules for 1953. It is available free at Phillips 66 Stations in this vicinity.

Each of these major leaguers has contributed one or more chapters to the book. You'll learn from Robin Roberts, star pitcher of the Philadelphia Phillies, that there is "no better pitch" in baseball than a live, fast ball, "provided the pitcher can keep it where he wants it." Ralph Kiner of the Pirates discusses the secrets of power hitting, while Yankee Phil Rizzuto tells how a properly ex-

ecuted bunt may win a ball game quite as effectively as a home run.

Other players who contribute good advice are Mickey Mantle, Stan Musial, George Kell, Red Schoendienst, Roy Campanella, Whitey Lockman and Bob Lemon.

The problems of a baseball manager are discussed in a chapter entitled "Masterminding," by Paul Richards, manager of Chicago's White Sox. Finally, Bill Stewart, Dean of National League Umpires contributes a chapter on the umpire's point of view. A glossary of common baseball expressions is included as well as two pages of "baseball puzzles" to enable you to test your knowledge of the game.

Answer to Baseball Puzzle

Runner is out when hit by batted ball only if he is hit before infielder has chance to make play. In this case, shortstop missed chance to field ball before it hit runner, so runner is safe.

Aviation Cadet Selection Team Visits Colleges

An Aviation Cadet Selection Team equipped to interview and partially process prospective applicants for flying; training in the Air Force has been established at Webb Air Force Base, Big Spring, Texas under the supervision of Headquarters, 3502d Personnel Processing Squadron (AC-OC), Lackland Air Force Base, Texas. The operating area of this team will be the most of West and North Texas, and will include this community.

According to the team president, Captain Alden C. Clark, the team, supplied with the most current and factual flying training information, will visit colleges, universities, Air Bases and cities in a wide area around Big Spring, Texas.

Aviation Cadets are trained to become pilots or aircraft observers. An Aircraft Observer is schooled in an aircraft specialty such as bombardment, navigation, radar or aircraft performance engineering.

Upon completion of approximately one year of training, an Aviation Cadet (Pilot or Observer) receives his silver wings and a commission as a Second Lieutenant in the United States Air Force Reserves.

To qualify for Aviation Cadet training, an applicant must have a minimum of two years of college credits; be between 19 and 26½ years of age, single, in good physical condition, and be able to pass mental and physical tests. Pilot applicants must have normal 20-20 vision, while aircraft observer candidates need only have 20-50 vision correctable with glasses to the normal 20-20 vision.

physical condition, and be able to pass mental and physical tests. Pilot applicants must have normal 20-20 vision, while aircraft observer candidates need only have 20-50 vision correctable with glasses to the normal 20-20 vision.

Texans Won't Feel Atomic Radiation

Even though the largest atomic blast in history within the continental limits of the United States has just been set off in Nevada, Texans don't have to worry about radiation.

Both William L. McGill, state coordinator of civil defense and disaster relief, and Dr. George Cox, state health officer, have looked into the possibility that winds from the West could bring delayed radioactive dangers this way. They agree that there is nothing to fear along these lines.

The two officials are also agreed that present methods which are used to insure public safety are sufficient.

Dr. Cox, for instance, pointed out that within this state alone

there are seven fixed monitoring stations for the daily sampling of any settle dust which will indicate fluctuations in radiation background from natural sources or from fall-out particles.

Also, the state health officer reported to McGill that if more technical aid or information is needed, it can be obtained thru scientists stationed at Los Alamos, New Mexico, who have been designated by the Atomic Energy Commission for such service.

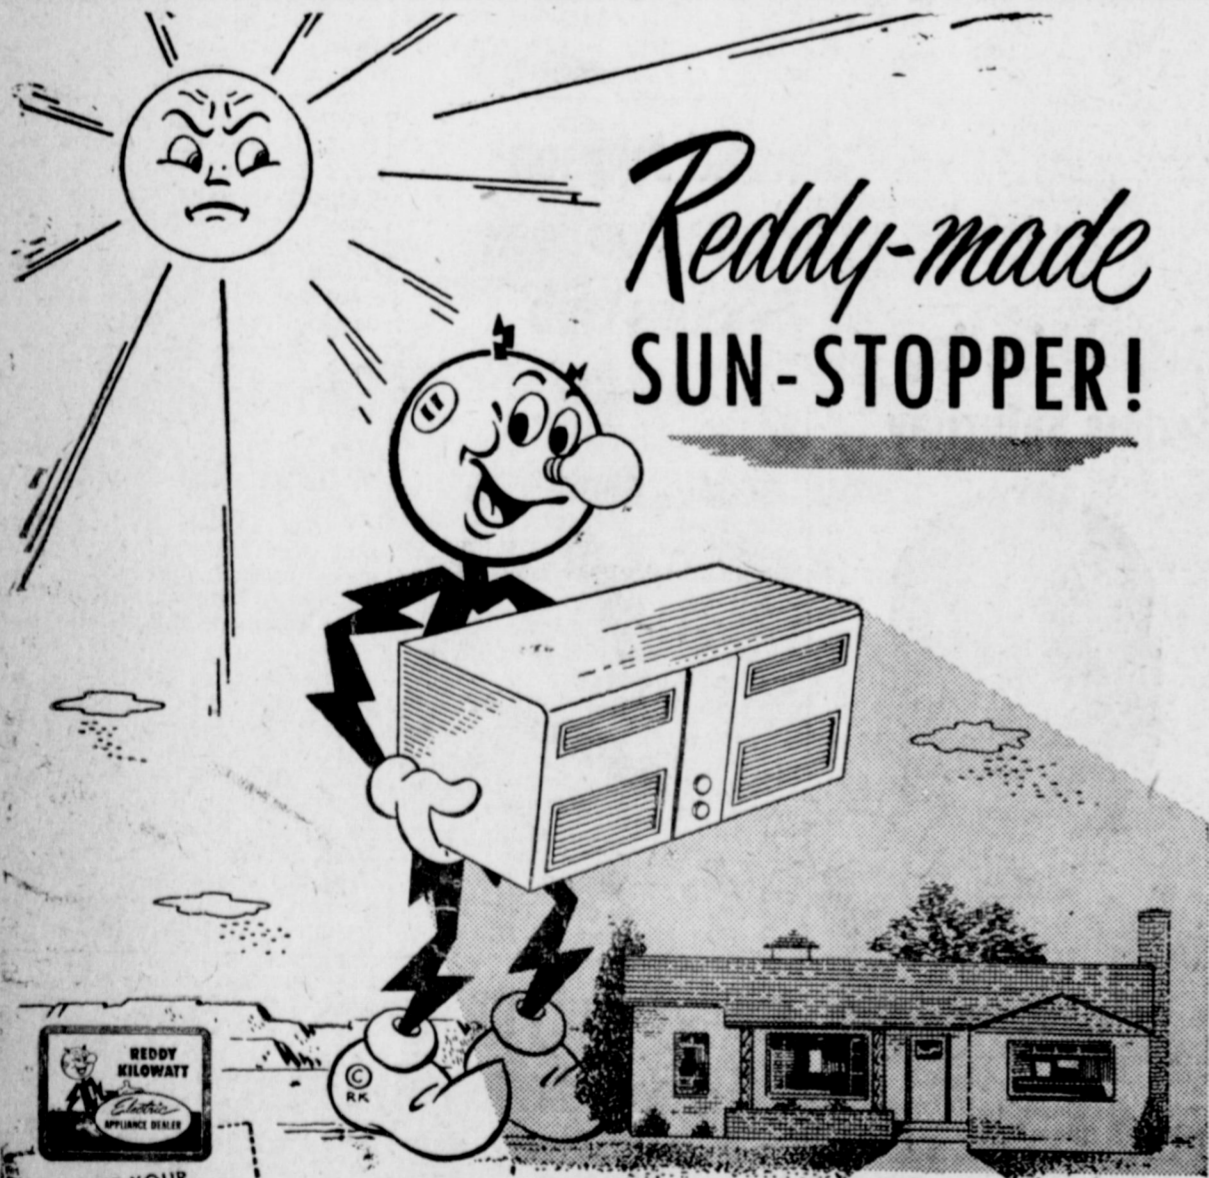

Atomic Energy Commission officials agree with McGill and Dr. Cox.

They have pointed out that neither heat nor nuclear radia-

W. S. C. S. Met Monday Evening

The Women's Society of Christian Service met Monday afternoon, June 15, at 2:30 in the First Methodist Church.

Vice-president, Mrs. W. D. Moore was in charge of the meeting. Mrs. Melba Davis led the song, "We're Marching To Zion."

Bible study was led by Mrs. O. N. Jennings, who gave the second chapter of "Toward Understanding The Bible." Mrs. Roy Bayless led a round table discussion. Mrs. A. C. Gaede read the scripture for the day which was the third through the nineteenth verses of the 28th chapter

of First Samuel. Prayer was led by Mrs. H. C. Holt.

Mrs. Arnold Morris read the minutes of the last meeting and gave the treasury report.

Members present were: Mmes. H. C. Holt, Roy Bayless, O. N. Jennings, W. D. Moore, Arnold Morris, A. C. Gaede, C. R. Farrell, F. B. Pierson, D. B. Lancaster, Cecil Davis, H. M. Shofner, little Claudia Huber, and one visitor, Mrs. S. C. Beavers, of Ft. Worth.

HELP WITH PARTY

Little granddaughters, Brenda and Kathy Wyer, helped their grandfather, H. Jay Wyer, celebrate his birthday Saturday evening with a lawn dinner party. Mr. and Mrs. David Wyer were present also.

Pink and Blue Shower Honors Mrs. Barnes

Mrs. Barnes, of the Enochs H. D. Club was honored June 11, with a pink and blue shower in the home of Mrs. L. G. Harris.

Mrs. Barnes received many beautiful and useful gifts.

Hostesses for the occasion were: Mmes. L. G. Harris, T. H. Sullivan, C. W. Vanlandingham, W. A. Pool, T. A. Thomas, J. B. Vanlandingham, Earl Thompson and C. G. Seagler.

Mrs. Jackson Feted With Shower

Mrs. Waddie Jackson, the former Patsy Boone, was honored Thursday night, June 11, at 8 o'clock with a bridal shower in the home of Mrs. Louis Bolinger.

Approximately twenty five guests attended, and many who were unable to attend sent gifts.

Decorations were in blue and white, the bride's chosen colors. The dining table was laid with a white lace cloth over a blue cloth and centered with red roses.

Lime sherbet punch and white cake decorated with blue icing was served to the guests, hostesses and the honoree.

Enochs H D Club Disbands

The Enochs Home Demonstration Club held its last meeting Thursday, June 11, in the home of Mrs. L. G. Harris.

Fifteen members were present and there was a discussion on whether to keep meeting or to disband the club.

The recent resignation of the Bailey County H. D. Agent and the fact the Enochs is twenty three miles from Muleshoe, which put the club at a disadvantage, were the factors which influenced the club's withdrawal from the Texas Home Demonstration Clubs.

A needlework club was formed and is going to meet regularly to fill a place in the community similar to that the H. D. Club has held in the past.

Dorcas Class Met In Johnson Home

Members of the Dorcas Class of the First Baptist Church met in the home of Mrs. Red Johnson Wednesday morning, June 10, at 10:00 o'clock for a visiting meet and a covered dish luncheon.

Mrs. Vernon Jamison led the group in prayer. Mrs. Byron Griffiths brought the devotional, reading from the 17th chapter of Luke and using as her theme "Jesus Speaking." After the devotional the group visited until noon and had the luncheon.

Mrs. Thurman White, president, presided during the business meeting.

Present for the meeting were: Mmes. Vernon Jamison, Wiley

Estelle Dawson Receives Degree

MISS ESTELLE DAWSON

Miss Estelle Dawson received her B. S. degree from Wayland College in Plainview, May 25, and is now employed in Albuquerque, N. M., as church secretary for the Heights Baptist Church.

VISIT IN SHOFNER HOME

Mr. and Mrs. Ralph Shofner and daughter, Janice Sue, and niece, Janice Merlin of Harlingen visited last week in the home of Mr. and Mrs. H. M. Shofner.

L. V. N. NURSES WILL MEET

The L. V. N. Nurses will have their business meeting and picnic in McKenzie Park, east side of Swimming Pool Thursday, June 18, at 7:30. Come for a good time.

Bowers, Thurman White, John W. West, Earl Humphrey, Byron Griffiths, W. E. English, Lee Pool, Ed Hicks, A. T. Fowler, and the hostess, Mrs. Red Johnson and her daughter, Melba.

Rebekah Lodges In Favor Of Circle

The Muleshoe Rebekah Lodge held their regular meeting Tuesday night, June 16, with Argilee Millen serving as Noble Grand and presiding over the meeting.

The members of the Lodge who attended Lodge meetings in Earth and Littlefield, reported that those Lodges were in favor of forming a circle meeting.

Several ladies from the Lodge are to attend a Lodge meeting in Morton Thursday night, June 18, to see what the ladies over there think of forming a circle.

The Rebekahs accepted one new member by transfer. She is Mrs. Jessie Sisk, formerly of Lamesa.

VISITS OLD FRIENDS

Mrs. W. E. Stevens of Van Nuys, Calif., visited last week in the home of Mr. and Mrs. George Province. Mrs. Province said she and Mrs. Stevens grew up together in Oklahoma and went through high school together. This was the first time she had seen her in four years.

COTTONSEED PRICE SUPPORT IS CONSIDERED

The Farm Bureau, meeting in Lubbock last week, considered the question of cottonseed price support. Farmers won't have a cottonseed price support this year unless they ask for it, is the information received by those who attended the meeting.

Those present at the meeting decided to ask for a 75 per cent of parity support for this year.

HAVE OVERNIGHT GUESTS

Mr. and Mrs. Edward Chandler and two children of Honolulu were over-night guests Friday of Mr. Chandler's cousin, Mrs. A. W. Copley and family. The Chandler family have been visiting his relatives in Virginia for the past month and were en route to their home in Hawaii when they visited here.

VISIT IN MINERAL WELLS

Mrs. J. K. Adams, Joyce and Joe visited in Mineral Wells last week with Mrs. Adams' parents, Mr. and Mrs. W. H. McMillan. Mrs. Adams returned to Muleshoe Friday. Joyce and Joe will visit with their grandparents for several weeks.

TO HAVE BAKE SALE
The Progress Home Demonstration Club will sponsor a bake sale at Piggly Wiggly's this coming Saturday, June 20.

DAUGHTERS VISIT
Visitors in the J. E. Randall home Sunday were Mr. and Mrs. C. G. Davis of Farwell, and Mrs. James Spurlin of Texico.

Rep. Jesse Osborn Reports To Home Folks On Work Of The Legislature

Jesse M. Osborn, representative in the Legislature for this district, who recently returned to his home here after attending the Legislative session, gave some of the home town folks a few of his impressions, not only of the way the body functions, but of some measures that were considered by the solons, when he addressed the Rotary Club at its noon luncheon Tuesday.

Mr. Osborn found the Legislature to be an extremely interesting democratic assembly. He described briefly how a bill is made into law. Bills ordinarily are introduced by a representative or senator in the first 30 days of the session. They may be proposed over the loud speaker,

er, by the representative himself, usually by the House clerk they must be read in the House on three different days.

The caption of the bill must show clearly the object of the bill, and it must conform in its language to that used in the body of the proposed measure. After its third reading, the Speaker refers the bill to one of 43 committees that have been constituted by the House, such as those on agriculture, highways, etc.

Most of these committees are composed of 21 representatives. The committee holds public hearings (there are no secret or "closed" committee sessions.) They take evidence for and against the measure, then vote

New Courthouse For Littlefield

Construction is expected to begin within two weeks on the new Lamb county courthouse and jail, members of the County Commissioners Court announced Wednesday afternoon following the awarding of a contract for the job.

B. F. Horn construction company of Abilene was low bidder on the courthouse construction with a total cost figure of \$191,850, and Southern Steel Company of San Antonio was awarded contract for furnishing jail equipment at a low lease bid of \$31,950.

The bids on the courthouse ranged from the low of Horn to a high base bid of nearly \$500,000 from one of the contracting firms.

Bonds were approved for \$600,000 for construction costs for the building in October, 1952.

The Commission said that architects fees would amount to about \$25,000, and the remainder of the money would be available for furnishing the offices and courtrooms in the building.

Architects Acheson and Atkinson of Lubbock designed the courthouse which will be erected

Hospital News

Mrs. Weldon McCarty was in for surgery, but has been dismissed.

Mr. Johnny McMurtry is confined to the hospital due to an accident. He is slightly improved.

Mrs. R. E. Sowder was in for surgery, but has returned home.

Mrs. Verdell Beasley was in for minor surgery but has returned home.

WESTERN FERTILIZER CO.
MULESHOE, TEXAS

they genuinely want to serve, and not to try to make money on their salary.

Mr. Osborn was one of 41 representatives who voted against the \$900 pay raise, because, he said he knew there was no money to pay it. He favors raising the pay of teachers in the lower brackets to at least \$3,000 annually. Most of those 41, he thinks, are some of the best friends the teachers have in Texas.

Mr. Osborn's talk was folksy, and down to earth, a forthright and interesting report to the home folks. He is scheduled for other talks in the district.

L. S. Barron had charge of the program and introduced the speaker.

WAYNE HOLMES WINS NAVY FIREMAN RATING

Wayne Holmes, son of Mr. and Mrs. J. W. Holmes of Muleshoe, has been promoted to Fireman 3c by the U. S. Navy. He recently received his rating while serving aboard the USS Valley Forge, an aircraft carrier, which has seen service in Japan, Korea, and China waters.

The Muleshoe sailor hopes to visit home soon. The Valley Forge will dock at San Diego June 25, and he is due for service on the east coast.

HOME FOR SUMMER

Francis Wimberley who has been attending college at Bethany, Okla., is home for the summer.

BOB RIDDLE VISITS HERE WITH MOTHER

Bob Riddle, youngest of the children of an early day Muleshoe family, has been here visiting with his mother, Mrs. John Riddle. He is a brother of Mrs. Coby Graves and Mrs. C. R. Roebuck, both of Muleshoe. Bob left here in 1937, and now lives in Fort Worth.

The Riddle family is planning their annual reunion, to be held at Silver Falls.

ATKINSONS HAVE VISITORS

Mr. and Mrs. Edgar Madison and daughter, Dehora, of Hereford, visited his uncle and family, Mr. and Mrs. Troy Atkinson over the weekend.

ATTENDED REUNION

Mr. and Mrs. G. W. Chapman and son Jessie Lynn, of Muleshoe, and Mr. and Mrs. W. D. Chapman of Littlefield, attended a family reunion last weekend in Oklahoma City, Okla.

WERE IN RUIDOSO

Rev. and Mrs. C. M. Jones and family vacationed and relaxed in cool Ruidoso, N. M., last week.

ATTENDED METHODIST ASSEMBLY

Barbara Jones, Gerald Dean Webb, Wanda Zollinger, Mona Mitchell and Wayne Johnson, all of the Progress community, attended the Methodist Youth assembly in Abilene, last weekend.

VISITED PARENTS

Mr. and Mrs. Joe Walker visited last weekend in the home of Mr. Walker's parents in Floydada.

TO CALIFORNIA

Mr. and Mrs. E. W. Evans and children, Archie, and Elaine, and a friend, Jo Ella King, left for a weeks vacation in Bakersfield, Calif., where they will visit with Mr. Evans' parents, Mr. and Mrs. A. V. Evans.

BACK FROM OKLAHOMA

Well we people here in Muleshoe think we are bad off, but Mr. and Mrs. Joe Dameron and daughter Mrs. Jimmy Reese have returned from a weeks vacation in various parts of Oklahoma, and they reported that they have had no rain in Oklahoma and it is even dryer and hotter there than it here.

HAD WEEKEND GUESTS

The Dave Aylesworths had as guests last week Dr. and Mrs. V. Schneider and children of Lubbock, Mr. and Mrs. J. E. Lovelady and family and Rufus Aylesworth, of Amarillo, and Mr. and Mrs. Johnnie Moore, W. A. Edwards and Elaine Moore, of Claude.

HARVEYS HAVE GUESTS

Mr. and Mrs. H. G. Harvey had as guests for the week end, their daughter and family, Mr. and Mrs. Jim Shuttlesworth ofampa.

DALLAS, June 22 — The state's outstanding soil conservation district supervisor, John D. Faught of Roanoke, was awarded a \$500 check in recognition of his work in soil conservation during 1952.

Faught, supervisor for district five in north central Texas, received the \$500 state award from W. W. Overton, Jr., chairman of the board, and P. B. (Jack) Garrett, president of Texas Bank and Trust Company of Dallas, which sponsors the state-wide awards program each year.

The award will be used for an all-expense trip for the 43-year-old Faught and his wife to Oregon and Washington to observe and study various methods of soil conservation on farming and ranching.

DAMRONS HAVE VISITORS

Mr. and Mrs. Eli Jordan and Mr. Brodie of Mason have been visiting in the home of their daughter and granddaughter, Mrs. Sam Dameron and family.

LAREDO VISITOR

Lt. Robert Smith of Laredo, son of Mr. D. O. Smith has been visiting in the home of Mr. and Mrs. D. O. Smith this week.

VISITED OVER WEEKEND

Pvt. L. D. Estep and Pvt. Teddy Harrison of Ft. Hood, were home over the weekend.

RETURN FROM MISSISSIPPI

Mrs. Jack Lenderson and daughter Kay, Mary Ellen, and Linda Wingo, of Muleshoe, and Mrs. L. M. Fowler of Littlefield, have returned from a trip to Mississippi, where they visited with relatives.

DRY IN MATADOR

Mr. and Mrs. Arthur Cooper and family were in Matador Sunday and report that it is very dry down there, and the farmers haven't even broken the ground this year.

IN NEW YORK

Mr. Hoyt Morgan is in New York City for the Fall Market, which will last for two weeks.

CALLS ABOUT EARTH QUAKE

Lloyd King of El Centro, Calif., called his parents, Mr. and Mrs. J. M. King Saturday, to report that no one in his family was hurt in the earth quake out there. He said it shook some of their dishes out of the cabinet and broke them but otherwise there wasn't much damage.

MOTHER VISITS

Mrs. L. A. Roe of Roswell, N. M., visited in the home of her daughter, Mrs. J. M. King last week.

Miss Tommie Lee Bovell Is Bride Of Charles Bratcher

MR. AND MRS. CHARLES BRATCHER

Miss Tommie Lee Bovell exchanged nuptial vows Sunday morning with Mr. Charles Bratcher in the First Baptist Church of Muleshoe.

The double ring ceremony took place before an archway of greenery and wedding bells flanked on either side by candelabrum and baskets of white gladiolus and white stock.

The bride is the daughter of Mr. and Mrs. W. T. Bovell and the bridegroom is the son of Mr. and Mrs. L. E. Bratcher.

Rev. C. C. Morgan, pastor of the First Baptist Church of Progress officiated at the wedding. Miss Mona Ellen Wilhite presented the nuptial music.

Given in marriage by her father, the bride wore a street length dress of white linen and white accessories. As something new she wore a string of pearls given her by the bridegroom. She carried a bouquet of red roses on a Bible belonging to her mother. The Bible was an old one which was brought over from the Holy Land, and the cover was made of cedars of Lebanon.

Mrs. Hulan Bass was her sister's matron of honor. She wore a blue dress with white accessories and carried a nosegay of pink carnations. Bridesmaids, Evelyn Bratcher, sister of the groom and Kaye Edwards, cousin of the bride, wore blue dresses fashioned after that of the matron of honor. Their accessories were white and they carried nosegays of pink carnations.

Carl White was best man and ushers were Melvin Bratcher, brother of the groom and Howard Watson.

For her daughter's wedding, Mrs. Bovell chose a navy blue, two piece dress worn with white accessories and a white carnation corsage. Mrs. Bratcher was dressed in a beige dress with

pink accessories and a pink carnation corsage.

After a short wedding trip the newlyweds are at home near Muleshoe, where the bridegroom is engaged in farming.

The bride and groom attended the Muleshoe schools and both graduated with the spring graduating class.

Immediately following the ceremony, a reception was held in the home of the bride's parents. Refreshments of wedding cake and coffee were served to the guests from a table laid with a white lace cloth and centered with red roses.

Signing the bride's book were the following: Mr. and Mrs. T. J. Bratcher, grandparents of the groom, and their children, Alton and Glen Dale, of Artesia, N. M.; Mr. and Mrs. Don Payne, Lovington; Mr. and Mrs. Homer Bratcher and Mr. and Mrs. Carlton Bratcher, Tucumcari; Mr. and Mrs. Earl Bratcher, Abilene; Mr. and Mrs. Kermit Ward, Morton; Mr. and Mrs. J. C. White, Portales; Mr. and Mrs. T. J. Bovell, Tahoka; Mr. and Mrs. A. P. Edwards, and Mrs. Inez Knight, Lubbock; Hulan Bass, Ft. Stockton; Pat Morgan, Mrs. Arch Fowler, Mr. and Mrs. Spencer Beavers, Mr. and Mrs. Horace Blackburn, Mrs. A. C. Bray, and Roy Thomas Bratcher, all of Muleshoe.

Muleshoe Club To Sponsor A Craft Sale

The Muleshoe H. D. Club is sponsoring a craft sale at the Harvey Bass Appliance store Saturday, June 20. The proceeds will go on the park fund. These articles are on display this week in the window at the above mentioned store.

RETURN FROM TRIP

Mr. and Mrs. E. T. Lambert and son, David, returned last week from a trip they took to various points of interest in New Mexico, including: Red River, Santa Fe, and Albuquerque. Mrs. Lambert said that in Taos they visited the Pueblo Indian Reservation and saw quite a few very interesting things.

H. D. Council To Help With Park Improvement

The Bailey H. D. Council met June 15, in the Bailey County Court House. Three Clubs were represented. Each of the Bailey County Clubs are asked to bring material for the Council year-book to the next meeting.

Mrs. S. C. Caldwell gave a report from the park committee and asked that each club cooperate in helping to build up the park.

The Muleshoe H. D. Club donated \$25 to the general fund, for the park and voted to have each member donate 50c toward the pancake breakfast to be held June 26. The Progress club donated \$10 to the general fund. Mrs. Caldwell said they would like to have as many Bailey County Club women as possible out on the 26th to help with the breakfast and with setting out the grass.

Mrs. G. T. Maltby, T. H. D. A. announced that there would be a collection of delegates to the state meet at the July council. Each club is to elect one nominee in June to attend the council meet, from which delegates will be elected. Only presidents and delegates from each club will be eligible to vote in the election.

Mrs. Maltby said she had received a letter from Girl's Town, saying they would appreciate any help the H. D. Clubs could give them.

VISIT IN MISSISSIPPI

Mr. and Mrs. H. Jay Wyer have returned home after a few days visit with their daughter and son-in-law, J. Ann and Jerry Parsley who are now in Biloxi, Miss., where Jerry is stationed. Jerry has completed all but two groups of his work there. He applies himself most diligently and hopes for a transfer in the near future. He and J. Ann send their regards to all of their friends in Muleshoe.

Wheat Allotment For New Farms

Farmers on land on which no wheat was seeded for any of the years 1951, 1952 and 1953 may apply for a 1954 wheat acreage allotment, according to H. E. Schuster, Chairman of the Bailey County Production and Marketing Administration Committee. To be considered for an allotment on a farm which had no wheat seeded for any of these years, the farmer must apply in writing to his county PMA office by June 30, 1953. Blank application forms are available at the county PMA office for use in filing requests for allotments.

Wheat Yield Is Nice Surprise

The amount of wheat being brought to Muleshoe elevators is surprising everybody, including the grower and grain men.

One elevator man told The Journal today that three times as much wheat will come to Muleshoe as was expected before harvest started.

And he said the yield most everywhere has exceeded expectations. Price being paid for wheat this morning was \$1.75 per bushel. Most of the wheat coming in is of good quality and has no excess of moisture.

Elevators here include the Muleshoe Elevator, King Bros. Grain and Seed Co., Ray Griffiths and Sons, Paymaster Elevator, and S. E. Cone Grain and Seed Co.

American Legion Auxiliary Meets Tuesday Evening

The American Legion Auxiliary met Tuesday evening in their regular meeting with nine members present.

Several business matters were discussed and it was decided to have a party some time in the near future.

Present for the meeting were: Wanda Newsome, Louise Busbice, Lynn Connell, Jo Wood, Edith Evans, Rosemary Barbour, Tiny Forbes, Naomi St. Clair, and Mary Lane.

VISITED PARENTS

Mr. and Mrs. G. B. Chambless and daughter, Mr. and Mrs. Richard Chambless, and Mattie Mae Chambless, all of Amarillo, visited their parents, Mr. and Mrs. George Chambless over Sunday.

WANTED TO BUY: Bundles or Baled Pummies. Also want pasture for 18 head of cattle. W. W. Branscum. 16-28-3p.

J. M. FORBES Editor and Publisher

BABSON Discusses — JUNE JOBS

Babson Park, Mass., June 18— It is time for both businessmen and educators to put an end to the reckless overexpansion in the field of engineering education. Many educators and their young students counselors are being misled by the current strong demand and high wages for "physicists, engineers and draftsmen." I predict a lot of disappointments. In just a few years many of these hopeful engineering students may well become mere technicians simply because the supply will far out-run the demand.

Business Depends On What People Do

The economic welfare of any nation depends upon two general factors: (1) the development of its material, educational and spiritual resources; and (2) the efficiency and fairness of its distribution methods. In a free economy this is the way the real, lasting welfare of a people is improved, by producing more and distributing same at less cost with less waste. My years of studying business conditions have forced me to conclude that reckless overexpansion in any field can never become permanent.

Our economic history has usually consisted of distinct movements, and these movements have usually consisted of four periods: (1) a period of overexpansion; (2) a period of depression; (3) a period of depression; and (4) a period of improvement. Our history clearly outlines periods of intense activity, high prices, speculation, and borrowing, followed by periods of falling prices, periods of depression and failure. The movement which business follows depends on what people think and do. When people get careless and fail to heed the danger signs, when people become greedy and try to get more than they give, overexpansion usually follows. Following the crowd is usually followed by panic, contraction and readjustment. Remember 1929!

Realistic Planning Needed
 The trouble with most of our high school and college youths is that they don't remember 1929. I'm glad they don't. But they

should know the lesson that 1929 taught. And then teachers, and business, should try to help prevent another such period by avoiding the temptation to over-expand and get the last dollar in profits or wages.

Let me be more specific. I read dozens of newspapers and periodicals each week; and I have dozens more digested for me. I read everywhere about the demand for engineers. One recent study of 174 companies indicates companies are hiring about 25% more engineers this June than last year, and at salaries nearly 10% higher than last year, ranging up to \$400 per month. Not once in my readings have I run across any warnings from company recruitment officers or top management that the demand for engineers is coming perilously near the saturation point. Is this not a responsibility of both business and the school?

Emphasis On Distribution

In the last half century we have succeeded in doubling our manhour output and at the same time in improving our quality of manufacturing. We can now produce in most industries more than we can consume. During the last ten years, however, we have improved our distribution very little indeed. As a matter of fact, some sales forces have lost ground. They have forgotten what efficiency and service require. I predict the second half of this century will see a belated revolution in our distribution efficiency. This is where the jobs really are! Why aren't our high school and preparatory school counselors calling attention to these opportunities? Why isn't business doing a better job of long-range planning and making those long-range distribution needs known?

Young people, in fairness to them, should be made aware of the fact that no company can guarantee to hold them at the drawing board or on the production line when business declines. As readjustment develops out of our postwar period of overexpansion, only the most fit engineers will survive. Demands for engineers are at a maximum now. Those who will graduate from engineering schools and colleges

THE SAND HILLS PHILOSOPHER —

Wants Price Supports For Cattle, With Storage Problem Left To Congress

Editor's note: The Sand Hills Philosopher on his Johnson grass farm is trying to be helpful on the cattle price situation, but we can't see that he succeeds.

Dear editor: I have been reflectin on the cattle market situation out here, and as you know the market has been pretty rough, not only on the cattlemen but also the bankers, as any banker who had a hundred dollars loaned on a two hundred dollar cow is now about in the cattle business with a seventy-five dollar cow and a grazing around most banks I've been in is pretty short. Naturally, somebody ought to come to the rescue of us cattlemen and bankers, especially us cattlemen, and I don't know of anybody who's better equipped or had more experience than the government in Washington.

Now I've been thinkin over how the government can do it, and it's not easy. A price support deal on grass might help, and I suppose there are experts in Washington who could work out a system where Bermuda grass could be supported at so much, Johnson grass at so much, etc., but the thing will be complicated as there's not much way to determine how much a pasture has been producin over the years, except to take my word for it, and some experts might not consider that reliable evidence. I always judge my pasture by the shape of my cows when the bones begin showin I know the grass is playin out and if a neighbor's fence doesn't give before long the situation will get serious.

But the best system I've figured out is just a price support program for the cattle themselves. You buy a good Jersey steer for 18 cents a pound and keep it a year and sell it for 8 cents and there ain't no way on earth to come out ahead without goin through Washington and pickin up something on the way, and when it comes to a choice,

a few years hence will not have it so good. They should learn it now so that they can plan realistically for a productive job in our economy and avoid being disappointed by present rosy engineering promises.

Washington goin in the hole or me, I always figured Washington was designed to bear the brunt.

Naturally, the program is gonna have to be a little different from the price support program for grain or cotton. The government can buy grain and hold it for a better price, but you try storin a cow and you run in to all kinds of complications.

But I believe Washington can do it, and if it can't, that's Washington's worry, not mine.

I hope Congress will turn up the air-conditioning and really give some heavy thought to this problem. Me and my cows can't hold out much longer.

Yours faithfully,
 J. A.

J. A.

Today's Meditation

THE FATHER'S FAITHFULNESS
 The Lord thy God in the midst of thee is mighty; he will save, he will rejoice over thee with joy. (Zephannah 3:17). Read

Ephesians 3:14-21.

We may be assured that the Christian today has absolute right to claim the promises made to the righteous long ago. God spreads His Word before us like a map by which to travel. He points out definitely the destination.

Occasionally He makes a statement so forceful that we feel its impact in our innermost being. The above text is an example. We say the words. We test their strength. We stand assured of victorious and triumphant living because of that pillar of strength within us. With God in our midst, we cannot be moved.

When the going is rough, let us say it over and over: "The Lord thy God in the midst of thee is mighty." When sorrow and suffering seem overwhelming, we can repeat that blessed assurance until we take on the might at our disposal, and use it for the glory of God who so freely and fully sustains us.

PRAYER

Lord God, Thou knowest how weak we would be without Thy constant companionship, how helpless in temptation, how prone to despair in the face of trouble. Implant Thy Spirit within our hearts that we may move forward, strong and purposeful.

because of Thy inner, sustaining might, in His name. Amen.

I will lay hold of God's eternal might. Grace Noll Crowell (Texas)

NOTICE

During the summer months we would appreciate your bringing the hens you have for sale in on Fridays. The chickens are picked up by truck on Saturday and we find it difficult to keep them several days. However, if it inconveniences you too much, you may bring them in when you feel the need.

Thanks

From where I sit... by Joe Marsh

Heard About the Electric Weather Predictor?

Squint Smith built up quite a reputation last month by predicting the weather. What he said usually came true.

It got so that folks would sit around his little Antique Shop just to get his opinion.

Last Monday, though, he said he didn't know what the weather was going to be like next day. That surprised us and when we asked what happened, Squint said, "Slipped up on my electric bill and was turned off. I'll get to my radio again tomorrow though." Squint had been getting

the weather over the radio—just like anyone else!

From where I sit, that's the way it goes with some "experts." They often don't have any more inside information than you can get for yourself. Like those who "know" cider is the only thirst-quencher after a day's work. Far as I'm concerned, I'll take a temperate glass of beer. But—I won't try to "predict" your choice for you.

Joe Marsh

Copyright, 1953, United States Brewers Foundation

Air Conditioning on wheels* comes of age!

Now you can have a car that's as comfortable on hot days as your air-conditioned home, office or favorite theater.

Now you can ride in draft-free coolness at the temperature level you choose—even when the outside reading is 110° and more.

Now you can take a full complement of passengers through the thick of traffic on a sweltering day—and each one of you will keep looking and feeling fresh as a daisy at dewtime.

Air intakes on each side of car introduce outside air into system.

You do this with the compact Buick AIRCONDITIONER—the completely practical unit available at extra cost in 1953 SUPER and ROADMASTER Sedan and Riviera models.

But note this: what Buick put into its AIRCONDITIONER goes beyond the usual.

For the advanced design of this Buick unit provides dual roof ducts that distribute up to 300 cubic feet of cooled, freshened, filtered, air per minute to all parts of the car interior evenly and constantly—without icy blasts and drafts on your neck, shoulders, legs.

Grilles in Buick's exclusive dual roof ducts insure draft-free distribution of conditioned air—and also provide individual control of air direction as desired.

Return air grilles on package shelf help maintain continuous circulation of conditioned, pollen-free air.

What's more, these exclusive roof ducts have individually controlled air directors above the side windows. So each window-seat passenger can guide a gentle breeze of conditioned air exactly where he wants it.

Of course, the Buick AIRCONDITIONER is automatic.

You switch it on, choose the temperature setting you want—and that level of coolness is maintained constantly. It thoroughly conditions the air around you—automatically. It carries off heat, stale air, tobacco smoke—automatically. It continuously introduces outside air into the system—automatically.

It's fast-acting, too. Even after an hour or more locked up under summer's hottest

Parmer County Farm Bureau
By RALPH SMITH

Bovina Farm Bureau meets Monday night, June 22. Wilbur Charles, program chairman, says Andy Rogers, Senator, will be there to speak, and everyone in the county is invited to attend. Andy, in the opinion of many, has come as near to keeping faith with his constituents as anyone of the legislators. His "Rogers Roundup" reports of legislative activity and pending bills helped keep people informed. The meeting will be at the Bovina school house.

Texas Cotton Association has made some voluntary improvements in the dockage basis for your under and overweight bales, but not as much as most growers feel should be made. A Farm Bureau Committee is still working to find who benefits from the dockage and then they can work on the right people.

Mr. Walter Hammond, State President of Texas Farm Bureau, presented the resolutions formulated by the district 2 legislative committee to the proper authorities in Washington a couple of months ago. It is believed there is a good possibility of humidity control, one of the most important factors in the hi-plains area grading, being incorporated in the Lubbock grading plant.

The National Cotton Congress will be held in Lubbock June 25, 26, and 27; that's Thursday, Friday, and Saturday of next week. This is the first time the congress has been in this area, and those who know say it is well worth the three days to attend and sit in on the meetings. Ezra Benson, our new Agricultural Secretary, will speak at Tech Stadium Saturday. Maybe you would like to hear what he has to say about farmers in relation to the national economy. Consider this: All the ways of a man are clean in his own eyes; but the Lord weigheth the spirits. Proverbs 16:2.

BAGS FOR BALL GOWN

It's hard to believe, but this glamorous ball gown was made almost completely of cotton material from feed bags. Six pretty pastel pink bags were salvaged from the feed bins for this attractive formal with a full, full skirt. A bit of gleaming cotton sateen was combined with the feed sacks for the smart, strapless bodice.

COURTHOUSE RECORDS

Chamber Of Commerce News
By RAY FRANZ

"Community Citizenship" is a term becoming increasingly prominent in the minds of those

who run a progressive business, large or small. Webster defines business as—Employment; trade; occupation; affairs; etc. In other words, you are in business. Everyone in Muleshoe and Bailey County is in business, farmer, merchant, wholesaler, realtor, employee, etc. Anyone doing business in a

community basically has a vital interest in its affairs, recognizes the tangible value of it and in turn wants to be regarded as a good citizen and good neighbor in the community.

To be a good citizen and good neighbor in the community means to be an "active" one, and there are many ways of accomplishing activity. Owners of local business, managers of branches of large companies, farmers of our community, and individuals, fortunately for us, give their services as committeemen of various clubs and civic organizations in an effort to promote our community interests.

This responsibility can never be taken from these community leaders, but it can be carried out through an organization specifically devoted to constructive activity in your community, namely your

Chamber of Commerce and here are some pretty good reasons why.

1. The Chamber of Commerce operates on a continuing long-range basis and can thereby achieve maximum results. At the same time, the expenditures of time and effort by your civic leaders is consolidated and minimized.
 2. The Chamber should serve as a focal point, and will be geared to meet the most important needs of your community.
 3. Your Chamber of Commerce is self-governing, which means the most practical approach for any local community problem.
 4. Your Chamber of Commerce, through the National Chamber will help crystallize opinions on national issues as indicated by its local membership.
- Why Not Help Your Chamber of Commerce Help You? Work With it and For it!

Cancer Crusade Goal Announced

A quota of \$640 has been announced in the 1953 Bailey County Cancer Crusade, according to announcement of W. M. Pool, Jr., county chairman.

"There is no better news than the fact that early cancer is curable", Mr. Pool said in announcing the crusade. "For", he said, "many people attacked by cancer can be cured if warned to act in time."

Mr. Pool reminded that the American Cancer Society is the only organization working in every corner of the land, and in our own community, that is devoted solely to the discovery, alleviation and cure of cancer. Donations are being accepted now and may be sent to Mr. Pool.

TEXAS NEW GRAIN WAREHOUSE LAW

Texas now has its first grain warehouse bill. And for the first time, the farmer has adequate protection for his grain and field seed held in storage by a state licensed grain warehouse.

Long needed as a protective measure for stored bulk seed, the Public Grain Warehouse bill was passed during the recent 53rd legislative session. As a result, a depositor has his commodities insured against fire, theft, misappropriation, damage due to careless handling, or acts of God.

Also for the first time, the farmer may use his stored grain receipts from state licensed warehouses as negotiable security.

The bill is Texas' answer to the grain scandals which rocked the nation in late 1951 and early 1952. Briefly, it requires that each public warehouseman obtain adequate bond, secure a license of operation from the Texas Department of Agriculture, and carry sufficient insurance to cover the full value of bulk grain stored in his bins.

Bonds are set at \$5,000 minimum and \$50,000 maximum, subject to the decision of the Commissioner of Agriculture who can raise or lower it as he deems fit for the best in-

terests of depositors. The licenses are issued over his signature.

The law has an exception. Warehouses having a license from the Federal Government are not required to meet the state provisions. The regulations are so similar that it would make for unnecessary duplication.

The first eight licenses of operation were issued early this month to J. R. Cooper, representative from the J. C. Crouch Grain Co., headquartered at Dallas. By law, other public warehousemen will follow suit until every holder of public grain can offer the proper protection necessary to depositors.

Frequent inspections of the warehouses will be made by Texas Department of Agriculture personnel. Copies of the bill and regulations are available without charge by writing: John C. White, Commissioner of Agriculture, Capitol Station, Austin.

TO NEW JERSEY

Mr. and Mrs. Bob Burkett and daughter, Juanita, have been on an extended vacation trip to the south and east. In Clifton, N. J., they visited his parents. On the way they saw many parts of the scenic southern and eastern states.

VISITORS FROM ROSWELL

Mrs. George Didlake and children of Roswell, N. M., are here this week visiting with her sister, Mrs. Andreas and her brothers, Oscar, Gerald, and Harold Allison, and Jim Grizzle.

What is the most valuable thing General Electric ever built?

Is it the jet engine? In 1942, General Electric gave America's air arm its first jet muscles. Would you say that is our most valuable product?

Or would you elect the fluorescent lamp? We placed the first ones on sale in 1938. With the growth of fluorescent lighting Americans are using 3 1/2 times more light than even 10 years ago.

Maybe you would say our star performer is the steam turbine. All you do is flip a switch, and a turbine somewhere instantly responds to provide the power to pump for you, or push or lift.

How about x-ray? Your doctor holds a negative up to the light and peers at bones he says are really yours. Who can say how many lives the x-ray tube has saved?

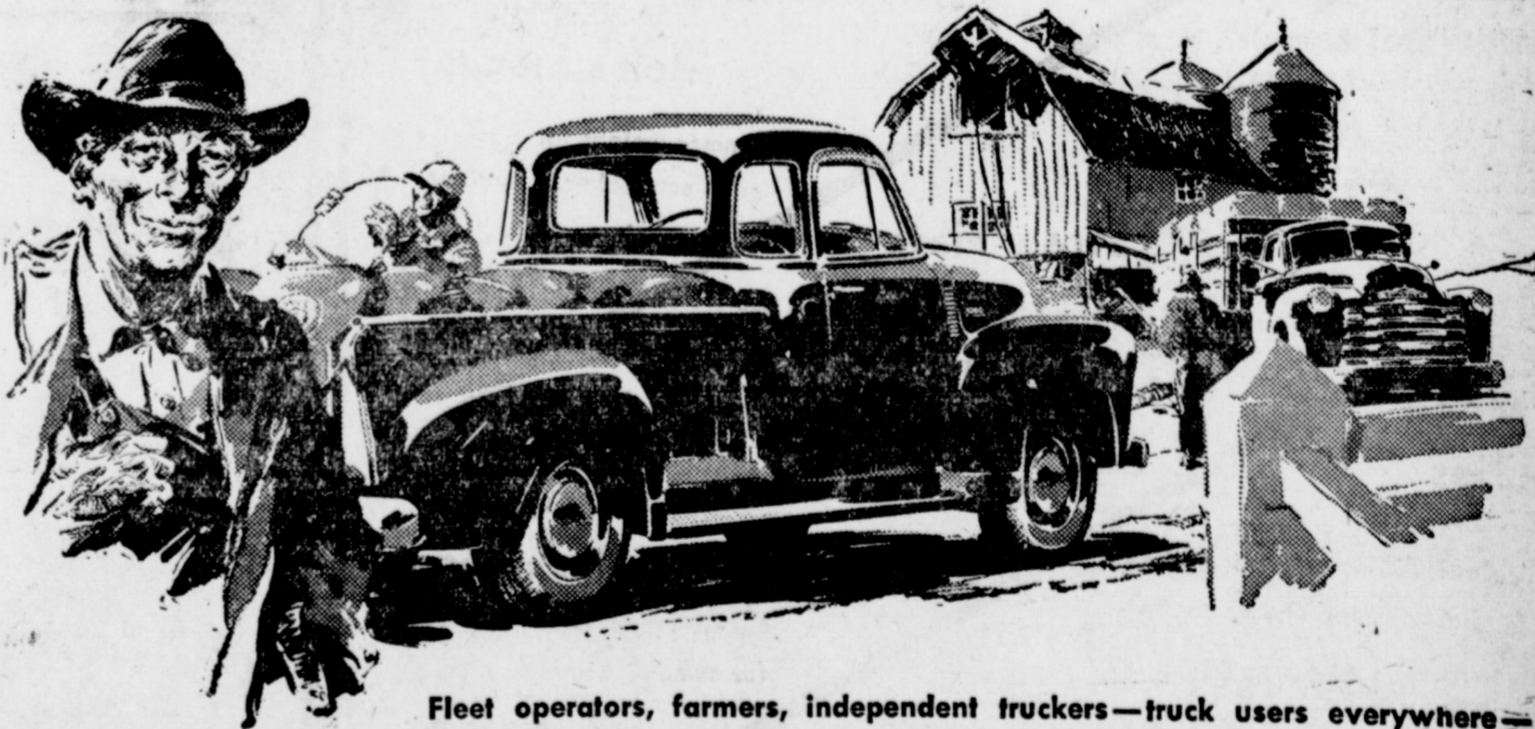

Important as these products are, more valuable to us—and to you—is something these products have helped to build. Something born quietly in 1878, when electricity was still a curious toy. And something that has grown steadily through the years.

The most valuable thing we ever built is your good will. For your year-after-year confidence in the things we make has given us the means to serve you better. Better engineering, research, manufacturing—all have come from your belief in us. It returns to you in a constantly improving and expanding way of life.

There's only one answer...

Chevrolet trucks must be the best buy!

Fleet operators, farmers, independent truckers—truck users everywhere—buy more Chevrolets than any other make. There can be only one reason for that: Chevrolet trucks offer more of what you want.

As the official registration figures keep rolling in, they keep telling the same positive story about truck popularity and truck value: Again in 1953, for the twelfth straight production year, truck buyers show a clear-cut and decisive preference for Chevrolet trucks. If you're a truck user, this fact is mighty

important to you. Why? Well, as you know, trucks are built and bought for just one reason—to do a job. So isn't it logical then that since Chevrolet trucks outsell all others, they must do a better job at lower cost? That's why it will pay you to stop in and see us before you buy your next truck.

MORE CHEVROLET TRUCKS IN USE THAN ANY OTHER MAKE!

C. & H. CHEVROLET CO.

MULESHOE, TEXAS

Progress HD Club To Singer Sewing Demonstration

The Progress Home Demonstration Club met Tuesday afternoon, June 16, in the home of Mrs. O. C. Thomson, with eight members present. Roll call was answered by telling of a neighborly act which was appreciated.

Plans were made for the group to go to the Singer Sewing Center in Clovis, N. M., for a demonstration of how to embroider on a sewing machine. The demonstration will take place on July 1, and all members wishing to go will meet at the home of Mrs. Gordon Murrah, at 1:30 p. m., of that day.

A discussion on building adequate clothes lines was led by Mrs. Albert Davis.

Mrs. Thomson, the hostess, served iced tea and delicious sponge cake topped with lemon sauce to the following members: Mmes. Arnold Gross, Ray Quesenberry, Wilbur Thomson, Gordon Murrah, Albert Davis, Alfred Patterson, and G. T. Maltby.

The next meeting will be held Tuesday afternoon, July 7, at

Local Men Visit Research Farm

Several hundred farmers, including J. R. Bartlett, D. Oneil Rocky and George Striskulic from this area, visited the Purina Research Farm at Gray Summit, Mo., last week and spent the following day touring the mills and research laboratories in St. Louis.

The 738-acre farm is devoted exclusively to research projects concerned with livestock and poultry nutrition and is annually visited by more than 10,000 farmers from all sections of the United States and Canada.

VISITED IN HEREFORD

Mr. and Mrs. Harold Wyr spent Sunday in Hereford in the home of Harold's sister, Mrs. Vance Hennington.

MOTHER IS ILL

At latest reports, Mrs. Cox, of Littlefield, mother of Mrs. W. J. Woodard was very low in the hospital there due to a stroke she suffered last week.

VISITS HERE

Kay Williams of Denton, has been visiting for the past two weeks with her grandmother, Mrs. Snow Davis, and her aunt, Mildred Davis.

2:30 o'clock in the home of Mrs. G. T. Maltby. The program will be on "What Do We Play", a recreational discussion.

Home Economics Class To Display Summer Projects

The summer class of the home economics department of the Muleshoe High School will have an achievement day Wednesday, June 24, in the Home Economics Department of the high school building, according to Miss Alice Rowan, homemaking teacher.

Each girl will bring a summer project or some piece of work which she has done representing her project to be displayed.

Some thirty girls have participated in this class. There have been several group meetings in which they have made cup-towels and ironing board covers for the home economic department. The girls have also planned and executed projects at home, including repainting rooms, refinishing floors and woodwork, improving yards, gardening, planning and preparing meals, preserving foods, care and construction of clothing, care of the home and children and almost every phase of homemaking.

Everyone is invited to come to the high school and see the display in the home economics department between the hours of 3 and 5:00 p. m.

Refreshments will be served.

BRAYS HAVE VISITORS

Mrs. Thelma Bray and children Rodney, Ronney and Debbie, of Pampa, and Mr. and Mrs. Horace McAdams of Amarillo visited over the weekend in the home of Mr. and Mrs. Clyde Bray. Saturday night Mrs. Bray and Thelma visited in Earth with her father and grandfather, Mr. George Carpenter. Mr. and Mrs. Bray and Thelma visited in Lubbock Sunday with Dan Bray and family and with Keith, who is attending summer school at Texas Tech.

ATTEND FAMILY REUNION

Mr. and Mrs. T. H. Clem and children, Jean and Troy, attended the Clem family reunion in Gatesville last week. They also visited Pvt. and Mrs. Willard Heathington of Killeen. Willard is stationed at Ft. Hood, near Killeen.

ATTEND EXERCISES

Mr. and Mrs. C. I. Cobb, David and Susan of Abilene, Texas, attended the N. M. I. graduation exercises in Roswell. From there they went to Denver, Colo., to

visit Mr. and Mrs. Sam Newman. Carter Taylor went with them.

VISITS SISTER

Mrs. Margaret Kirk, of Spearman, visited her sister, Mrs. L. D. Tipton, over the weekend. Mrs. Kirk attended a writers convention in Portales, N. M., last week.

MURRAHS NOW ARE LOCATED AT SEYMOUR

To The Muleshoe Journal: Just a few lines. We are located in Seymour and think it's an awful nice town. Good wheat crop this year and the fruit is fine, peaches, plums, apricots, and pecans. Natural growth berries do good here also.

Lake Kemp is awful low. Lake Olney is dry. The Graham lake caught 7 ft. of water. Possum Kingdom caught about 12 feet. Seymour gets its water from wells and it is fine.

T. H. MURRAH
