Hers

Life In The Slow Lane

I was incensed Saturday afternoon to overhear a weekend visitor in our community ask a store clerk, "Is there any place else open in this God-forsaken place?" The man went on to complain that the businesses he needed to trade in had closed at noon.

First of all, Ozona is anything but God-forsaken. Just look around you at the beautiful green pastures that have resulted from recent rains, count the churches, and remember how the community came to your aid when you or someone you love needed help.

City folks have a hard time adjusting to the pace of a rural community. There are fewer of us to work and to shop, so many stores close during the lunch hour weekdays and early on Saturday or they don't open at all Saturday.

Frustrating? Yes, sometimes even to locals. But the lifestyle beats the heck out of 20 mile crosstown shopping, traffic jams and the fear of freeway shootings. Even some big city specialty stores close early on Saturday. Just ask a certain ham radio enthusiast I live with.

At least once a year I have a severe attack of "I'm going to die if I don't go to San Antonio". But after about three hours of being a back seat driver in the city, I'm longing for the wide open spaces of Crockett County again. Where you don't have to stand in line for anything, there isn't a 45 minute wait to be seated in a restaurant and where you feel put upon if you have to wait to cross the street.

"The best place on earth to call home!"

We're On The List

Crockett County is definitely on the list for possible state and federal money Judge Kathryn Mayfield said Thursday. Judge Mayfield was notified by Charles Reardon of the Texas Department of Transportation's aviation department that the state expects to receive eight to 10 proposals from firms wanting to do the studies necessary for funding applications.

After the selection is made, the local airport board will meet with a company representative regarding an airport layout plan, the judge said.

The Texas Transportation Commission voted Aug. 26 to add 27 airports to a list of possible recipients of \$13 million in state and federal funds.

School Tax Rate Notice In Error

A tax notice published this week in this newspaper and paid for by Crockett County Consolidated Common School District may leave some local taxpayers scratching their heads in confusion.

The notice incorrectly states that the school tax rate will grow by 707 percent. But in publishing the notice, local school officials are only complying with a state law.

"This is one of those situations where the law doesn't make any sense, but we must nevertheless comply with it or risk serious consequences," said Superintendent of Schools Jim Payne.

Crockett County Consolidated School District is required by the state's "truth-in taxation" law to publish an official notice reporting last year's tax rate, the proposed tax rate for this year, and the percentage increase. However, due to drafting oversight in the new school finance law, the notice significantly understates the tax rate for last year and produces a misleading comparison between last year's and this year's school taxes.

Under the previous school finance law, the county education district (CED) levied part of the taxes used for

operating schools and the school district levied the rest. Under the new school finance law, CEDs are eliminated and all school taxes are levied by the school district.

Last year, the county education district imposed a tax rate of \$.90880 (per \$100 of value) and Crockett Co. Consolidated Common School District imposed a tax rate of \$.15 for a combined school tax rate of \$1.06880. This year, Crockett Co. Consolidated Common School District is proposing a tax rate of \$1.21.

Because of the mistake in the new school finance law, Crockett Co. Consolidated Common School District is required to report a 1992-93 tax rate \$.15, a 1993-94 tax of \$1.21, and an increase of 707 percent, when in reality the rate will increase by 13.2 percent.

In an effort to correct the misinformation, Crockett Co. Consolidated Common School District is publishing alongside the tax notice an advertisement indicating that the official notice is misleading. The supplemental advertisement, also paid for by the school district, provides the correct tax information.

Applications Due Sept. 14

4-H Awards Banquet Set

At the Aug. 30 meeting of the Crockett County 4-H Parent/Leader Association, the annual 4-H Recognition Banquet was set for Monday, Oct. 4, at 6:30 p.m. in the civic center. All 4-H members who completed a project between Sept. 1, 1992, and Aug. 31, 1993, should submit an awards application to the County Extension Office by Tuesday, Sept. 14, at 5 p.m. to receive a project medal or other award.

The meal will be a covered dish dinner. At the adult leaders' meeting, a committee was designated and will be calling each 4-H family to bring some food item for the meal.

The awards banquet follows a long tradition, with all 4-H members, parents and leaders being recognized for their accomplishments and hard work in the past year. Major awards such as Gold Star, Mother Davidson and Dan Bean are given at the Ban-

quet, but according to County Extension Agents Tedra Ulmer and Billy Reagor, "This banquet is to recognize every 4-H member for the development of responsibility, leadership, citizenship and other skills learned through participation in projects."

By completing an application and returning it, each 4-H member receives a project medal in his or her main project. These forms were mailed out in the last 4-H newsletter. However, "If you have not received your newsletter or do not have enough forms for all the 4-Hers in your family, please contact the County Extension office at 392-2721," said Ulmer.

For further information, contact the County Extension Office. Educational programs conducted by the Texas Agricultural Extension Office serve people of all ages, regardless of socioeconomic level, race, color, sex, religion, national origin or handicap.

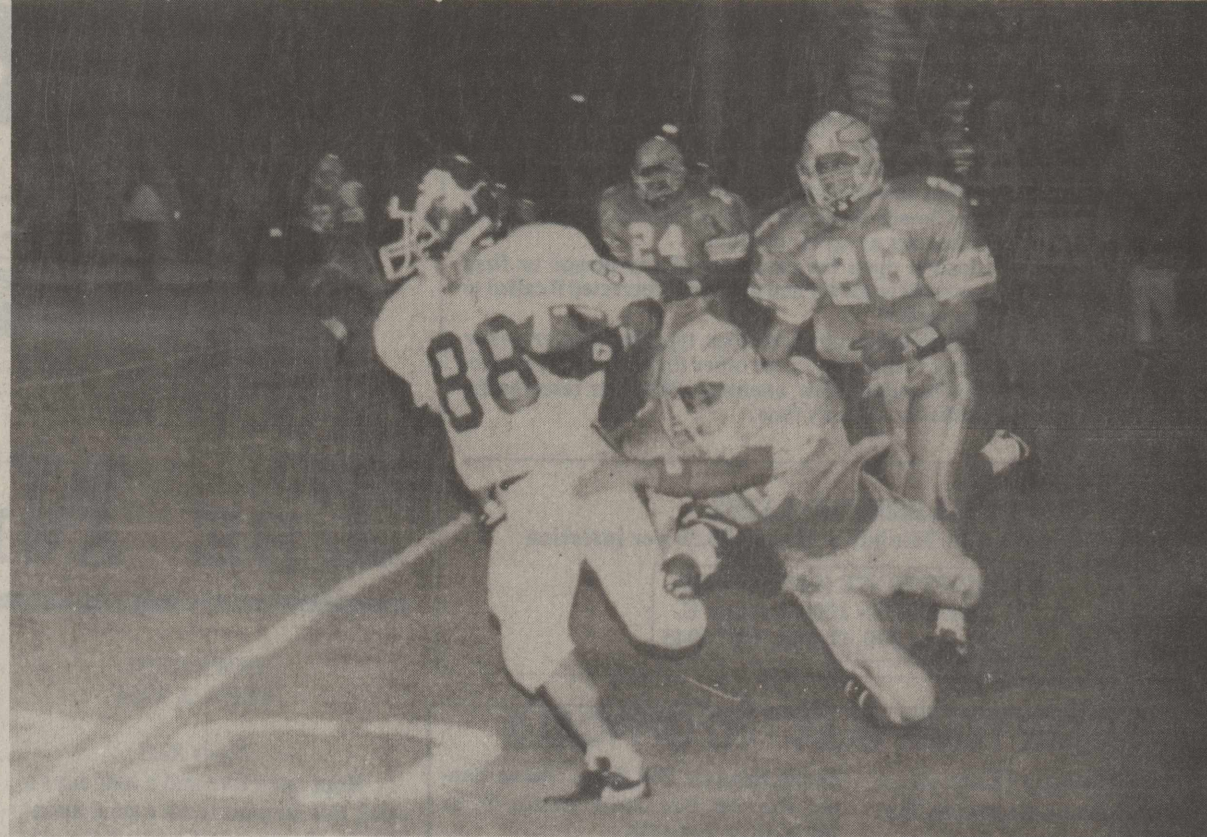

Second Hearing Sept. 13 On Block Grant

The second of two required public hearings in connection with a Community Development Block Grant is scheduled for Sept. 13 at 7 p.m. in the district court room.

Commissioners voted in March to apply with the Crockett County Water Improvement District #1 for a grant for sewer, drainage and street

improvements south of the interstate.

A public hearing on Aug. 24 was conducted by Dan Davidson and Doug Meador of the water district. Attending were: Dee Keilers, also of the water district, commissioners Frank Tambunga and Fred Deaton, Louise Ledoux and Ginger Perner on behalf of the public library, and Linda Moore

#88, JESSE GARZA, runs for yardage after receiving a pass from QB Justin Castro. Garza later caught a TD pass in the Lions' loss to Reagan County 59-7. Photo by Neal Ulmer

Lions Gain Experience In Reagan County Loss

By Neal Ulmer
Stockman Sportswriter

Despite the lopsided score there were some bright spots in the Ozona Lions' 59-7 loss to the Reagan County Owls Friday night in Big Lake - not the least of which was the experience gained from playing a strong 3A team.

First, there were no major injuries. The few injuries during the game were mainly due to muscle cramps in this season opener for both teams. Second, although there were penalties, the Lions were only flagged 8 times for 45 yards. Penalties can be expected at the first of the season and are usually correctable, according to the Lion coaching staff.

"We're really disappointed in the score, and I really didn't think we played that poorly. The turnovers (five) really killed us! They're a good enough team that you can't give them any scores," Lions' coach Don Payne said following the loss.

Payne commented that his offensive team's timing was not there but will improve with more experience. Justin Castro's timing was off in throwing the ball, according to the coach, and likewise so were the receivers' routes. "Justin felt a lot of pressure at times," the coach said.

The Owls scored their opening TD on a first quarter 42-yard run during their second possession of the night. Their next score came four minutes later after an interception of a Castro pass, making the score at the end of the first quarter Reagan County 14, Ozona 0.

Just as in the first quarter, the Lions found it hard going defensively in the second period as the Owls scored on an 11-yard pass, crossing the goal line again only three minutes later on a 1-yard run. The extra point attempt failed, and with 6:23 left in the quarter, the scoreboard showed Reagan County 27, Ozona 0.

One of Ozona's two healthy drives came with 5:48 left in the second quarter, as Lion QB Justin Castro connected on three straight passes. Passes of 32 and 19 yards were completed to junior Jesse Garza - the last of which landed Garza in the end zone. A 27-yard pass to Christ Sanchez also added to the scoring drive.

Ozona received a second chance to score after the Owls dropped a faked punt/pass attempt. The Lions took over on the Owl 49-yard line, and with Castro's receivers covered, the QB scrambled for a 22-yard run. A Castro-to-Garza pass was completed for an-

other 12-yard gain, but as the clock was ticking with 1:25 left in the first half, Castro was dropped for a 10-yard loss. A 9-yard run by Castro and two incomplete passes brought the Lions up just short of a touchdown as time ran out in the first half with Reagan County leading Ozona 27 to 7.

Reagan County had a good third quarter and scored two TD's and one extra point. At 8:24 in the third quarter the scoreboard showed Reagan County 41, Ozona 7.

The Lions continued to be plagued by miscues, incomplete passes, and a tough time blocking. A fumble on Ozona's receiving team was recovered by the Owls on the Lion 8-yard line, and two plays later Reagan County was back in the end zone, but the extra point attempt was blocked by Adam Carroll.

Again the Lions received the ball, tried several plays and were forced to punt. However, the Reagan County receiver fumbled the ball and it was recovered by Lion Tony Valencia on the Owl 45-yard line. The Lions, unfortunately, continued to have difficulty moving the ball and were forced to punt.

After a good pass play and several good running plays, the Owls scored again, but their extra point attempt failed.

During the fourth quarter, David Browne came in to relieve Castro. Following a fumble, Reagan County recovered the ball and returned it for a

(Continued on pg. 8)

Ozona Fire Department Report

Ozona Fire Department personnel responded to 21 grass fires during August. Other calls were one each for: structure, vehicle, mutual aid, hazardous material and rescue/EMS.

Through August the department has answered 122 calls totaling 286.17 truck hours, 2,201.27 man hours, 224,263 gallons of water and four gallons of foam.

In August, the department logged 70.45 truck hours, 469.21 man hours and 30,450 gallons of water used.

Fire Chief Bob Falkner reports that the tanker the department received in cooperation with the Texas Forest Service has been altered so it carries 4,000 gallons of water to stay within the weight guidelines. The truck has been painted red with funds from the Ozona Fire Department.

At present the truck is out of service waiting parts to correct a failed transmission and rear end. Cost is expected to be \$2,300 to \$2,500.

Falkner said that while returning to the station from a fire, the driver noted that the truck was not going into gear as it should. After checking and

gaining the ability to drive in second gear, the driver was attempting to ease back to the station when the transmission locked down. The truck was traveling at 20-25 miles per hour, but the shutdown not only caused the transmission to fail but the rear end as well.

Larry Glosson has been elected to fill the unexpired term of second assistant chief. He replaces Frank Galvan who resigned to move to Kerrville.

H. O. Misses Only One To Top The Pack

H. O. Hoover missed only one pick (Angelo State over Portland State) to take home the pot.

In close second place with two misses each were Rudy Martinez and Ernesto Vargas.

Third place pickers with three misses each were Ernesto Vargas, Charles Schneider, Joe Connolly and Gene Castro.

Better luck next time girls and boys. You will need it to beat H. O.

ON HAND FOR THE ADULT BASIC SEWING CLASS GRADUATION Aug. 31 at the civic center are: (from left) master clothing volunteer Tina Moran, Madye Jo Humphreys, Bonnie Warth, Rudy Huereca, Blanca Castro, Martha Landin, Inez Ortiz and County Extension Agent Tedra Ulmer.

PUBLIC NOTICE

CROCKETT COUNTY TEXAS COMMUNITY DEVELOPMENT PROGRAM
Crockett County is currently making plans to apply to the Texas Department of Housing and Community Affairs for Texas Community Development Program funds. Two public hearings to solicit the input of the community in the preparation of the Community Development Program will be conducted.

The second public hearing will be held at County Courthouse, 907 Avenue D, Sept. 13, 1993 at 7:00 p.m., to discuss housing and community development needs, use of past TCDP awards, amount of funds available and eligible activities. The County encourages individual citizens and citizen's groups to make their views known at these public

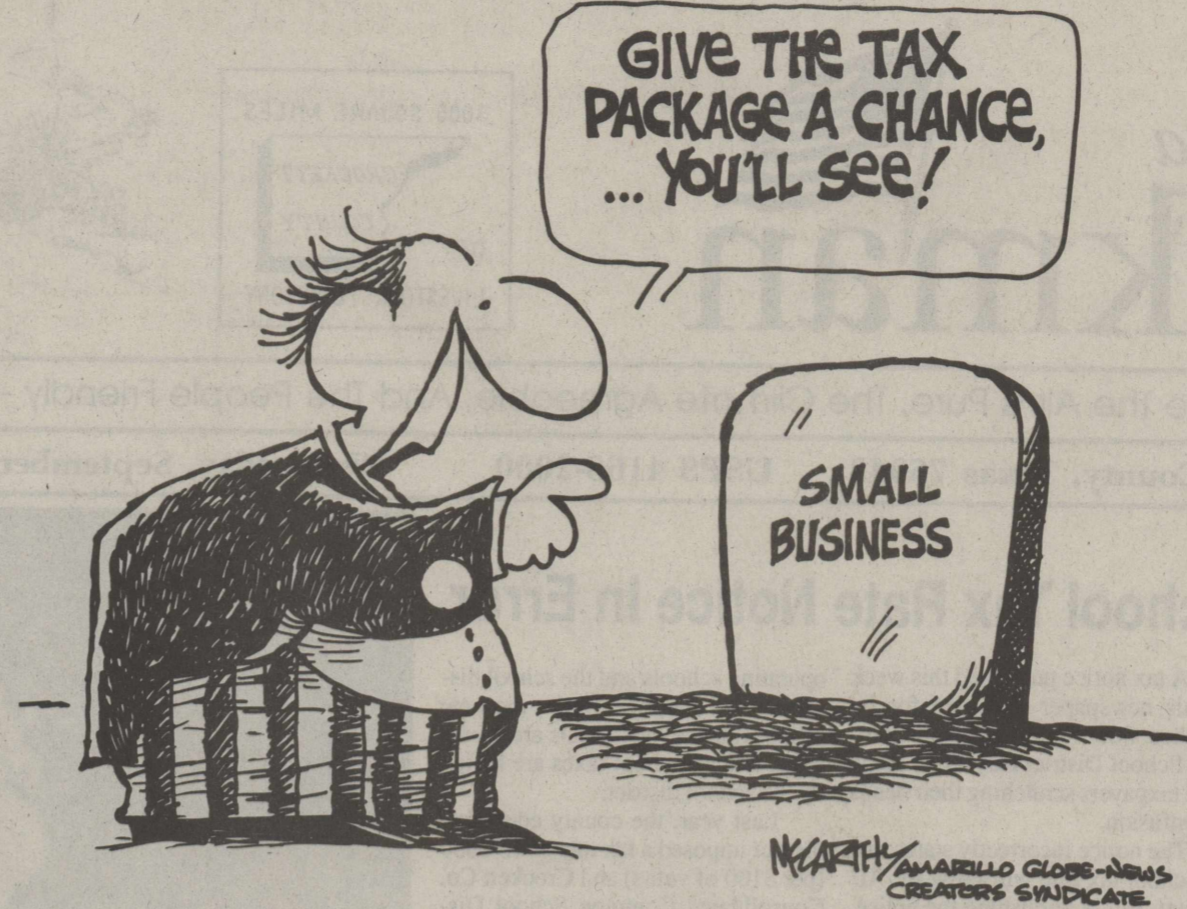

hearings and welcomes the full participation of its citizens in the development of this TCDP application. General information on the TCDP program will be available. Citizen comments may be delivered in advance to the County Courthouse at any time. Groups representative of persons of low and moderate income may request technical assistance in developing TCDP proposals by contacting the person listed below.

More detailed information on proposed activities, amount of funds and proposed location of activities will be available at the hearing. Individuals with disabilities who require special assistance should contact the County Courthouse to arrange for such assistance at least 72 hours prior to the meeting. Para residentes necesitados de interpretacion, favor de comunicarse con la municipalidad antes de las audiencias publicas.

For further information, contact Doug Meador, Superintendent at the County Courthouse at # 915/392-3260. 1c30

Public Notice

Southwestern Bell Telephone Company (SWBT) is asking the Public Utility Commission of Texas (PUC) for approval to offer Caller ID service in Texas. This service includes Calling Number Delivery, Calling Name Delivery and Anonymous Call Rejection (ACR). This service will be deployed statewide on a staggered, city-by-city basis, over a period of years in Texas in association with residence, business single and multiline services, but not PBX, Centrex or Plexar services, where facilities are available. Caller ID is an optional service which allows a subscriber to see date, time, and the phone number (Calling Number Delivery) and/or name associated with the number (Calling Name Delivery) of most direct dialed local calls and some select long distance calls before the telephone is answered. Anonymous Call Rejection is a Caller ID service which permits a subscriber to automatically reject calls from callers who have blocked their number/name. Per-call and per-line blocking will be available when the service is deployed. Detailed information on Caller ID service and how to block will be sent to each customer in their telephone bill during the next few weeks.

Persons who wish to intervene or otherwise participate in this proceeding should notify the PUC before October 6, 1993. Other parties may seek to also obtain Caller ID service in association with PBX, Centrex and Plexar service. A request to intervene, participate or receive further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Blvd., Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the PUC Public Information Office at (512) 458-0256 or (512) 458-0221, telewriter for the deaf. For information regarding Caller ID service, residence customers should call 1-800-464-7928, and business customers should call 1-800-499-7928.

Sorority Sisters Sail The Bounding Main

"Ho, Sisters, on Monday, Aug. 30, at Methodist Fellowship Hall we set sail, Sisters of Xi Sigma Omega, be here at six and a half bells without fail."

Pirates was this year's theme at the kick-off party of the Xi Sigma Omegas. Leslie Wilson, Lisa Branch and Dee Ann Gonzales hosted the party with baked potatoes and all the fixin's, chips, dips, punch and homemade ice cream as the menu.

Questions were asked about favorite sailors and pirates such as Jonah, Christopher Columbus and Popeye to determine the winners of the most tasteful door prizes. Winners were Paula Westmoreland, Cynthia Hokit, Shannon Hunnicutt and Donna Herring.

To top the evening off, three groups were formed and in the pouring

down rain they were treated with a scavenger hunt. The fastest to collect their treasures were: Roylan Sullivan, Della Moore, Barbie Myers, Susan Buchanan and Donna Herring. Fun Fun.

At the end of the evening the scrapbooks and the yearbooks were presented.

Present for this great kick-off were: Connie Jennings, Martha Weant with guest Susan Buchanan, Donna Herring with guest Paula Westmoreland, Shannon Hunnicutt with guest Cynthia Hokit, Lisa Branch with guest Jodi Wilson, Roylan Sullivan, Barbie Myers, Pam Tarr, Dee Ann Gonzales, Leslie Wilson, Carla Green, Della Moore and Kim Caddell.

Reported by Donna Herring, publicity chairman.

4-H Food Workshop Deadline Extended

The sign-up deadline for the Saturday, Sept. 11, 4-H foods and nutrition workshop has been extended to Thursday at noon, according to Tedra Ulmer, County Extension Agent-Home Economics.

"Pastabilities", this year's kickoff workshop for the foods and nutrition project, will feature hands-on cooking workshops for the youngsters while providing in-depth training in nutrition and program planning for parents and leaders.

Any youngsters from third grade through age 18 and their parents are invited to participate. Cost per person is \$4, and includes a pasta lunch and dessert--which participants will make as part of the workshop. The event will be held at the Methodist Church Fellowship Hall on 11th St. from 9 a.m. till 2 p.m.

To register or for more information, call the County Extension Office at 392-2721.

Ulmer said the workshop will feature lessons on making pasta, cooking with lamb and beef, and cake decorating as well as other lessons for youth. Leaders and parents will receive a nutrition update, learn how to plan and teach a lesson, and learn what criteria are used in food show judging.

Anyone who is not currently signed up for the 4-H Foods and Nutrition project and who is interested should do so as soon as possible. 4-Hers in this project learn about nutrition, food preparation and the relationship between diet and health.

Educational programs conducted by the Texas Agricultural Extension Service serve persons of all ages, regardless of socioeconomic level, race, color, sex, religion, national origin or handicap.

Here and There

By Vada Pridemore

Sibyl Howell and I have been **There** and now we are **Here**. **There** means the British Isles and **Here** means that we are at home in Ozona. I was sure that I could compose a good column for the paper this week after such a wonderful trip. But I think jet lag has me moving slow. I will say that we were very glad to arrive in London safely, even if we were seven hours late.

The plane in San Angelo was having problems so they had to fly another one in from Dallas. This made us more than an hour late. Sibyl's brother and sister-in-law, Harold and Dorothy Simmons, met us at the airport and we had a fast lunch together. With their help we found our gate and were on our way to Atlanta, Georgia. We changed planes there for a nonstop flight to London. We found our seats and everyone settled down - then the Captain announced that there would be a delay - they had to make some adjustments. It sounded as if they were welding a wing on, (remember, this was my first overseas flight) 1 1/2 hours later we started on our journey.

Over Ontario, Canada, the Captain announced that we were turning back to Atlanta to change planes. More nervous delay. We changed planes

and this time landed safely at London's Gatwick Airport and took a cab to our hotel. There we joined our travel group for dinner.

There were 24 in our group, and they came from different states; we were the only Texans. This was a delightful group of people and a joy to travel with. Our tour director lives in London and is a charming lady. Having lived in London all her life, she knew all the places to take us and told us so much about all the places we visited.

The next day we saw the changing of the guard at Buckingham Palace, went to St. Paul's Cathedral, saw Big Ben, Hyde Park. Sibyl and I went to Harrod's and bought tea to bring home. There are 400 parks in London and a population of 7 million. The flowers were beautiful and the old buildings interesting. I would like to have more time there. Our tour director took us to Alberts Pub for dinner. That was a new experience and the food good.

I want to write more about our trip next week. These are my thoughts and impressions of the places we visited. I'm sure each one on the tour would tell a different story.

It's A Girl!

Makayla Badillo arrived Aug. 23, 1993, at Community Hospital weighing six pounds three ounces. She was 18 1/2 inches long.

Sharing the joy of her arrival with parents Ben and Annette Badillo are brothers Brian, Marcus and Bailey.

Makayla's grandparents are Mr. and Mrs. Humberto Cervantez and Mr. and Mrs. Benito Badillo, all of Ozona.

The great-grandparents are Mr. and Mrs. Catarino Cervantez Sr., Mr. and Mrs. Rudy Martinez Sr. and Mrs. Josephina Perez, all of Ozona.

It's A Girl!

Michael J. and Dawn Couch of Bryan are the parents of a daughter, Jessica Lauren, born Aug. 25, 1993, in Bryan. She arrived weighing seven pounds, three ounces.

Joining her parents in making her welcome are a sister, Leah Couch, age 3, grandparents Chuck and Judy Bruegger of Bryan and Alice Couch of Ozona.

McCLEARY USED CARS IS NOW LOCATED ON THE SQUARE at 510 9th Street. Owner Charles McCleary welcomes everyone to stop by his new office. Hours are Monday through Friday from 9 a.m. until 5 p.m. He will be open from 9 a.m. until noon on Saturdays and closed Sundays.

16 De Septiembre Festivities In Big Lake

The Southside League of Big Lake will have its Second Annual Menudo Cook-Off Saturday, Sept. 11, at the Southside Park. Entry fee is \$15 a team, three per team with prizes awarded to first, second and third places. Judging will be at 6 p.m. To enter, contact Lorenzo Flores at 884-6874.

Along with the cook-off, there will be an intermediate power 4-man co-ed volleyball tournament. Entry fee will be \$50 a team. First place will receive \$100, second \$50 and third place prizes. For more information, call Pearl Ramirez at 884-2622.

A washer pitching tournament will begin at 1 p.m. Saturday. The entry fee is \$10 per team. Juan Ramirez has more information at 884-2622.

The Southside League will sponsor a boys and girls basketball tournament for three divisions: elementary, junior high and high school. A team

will consist of three players. Contact Mario Hernandez at 884-3485 for more information.

The basketball tournament will continue through Sunday along with a children's toywalk for all ages. The Tatoo Parlor will also be open. Marco Gomez and some Rod Runners will show antique cars. Big Ed and Co. will provide music both days. There will be a dance at the VFW Saturday night with music by Big Ed and Co.

On Sunday, festivities resume at noon with a 6-man co-ed recreational volleyball tournament. Entry fee will be \$50 a team with prizes for first, second and third places. To enter, call Bertha Garza at 884-2611.

Anyone interested in setting up food or game booths should contact Eusebia Subia at 884-3361.

The Southside League is a non-profit organization with all proceeds going toward senior scholarships.

TSTA Takes Aim At Public School Critics

The Texas State Teachers Association came out swinging at public school critics last week, saying that public education is getting a "bum rap."

TSTA President Richard Kouri, armed with a series of new national and State reports showing significant improvement in student test and IQ scores, said the so-called failure of American public schools is largely a myth fueled by 12 years of negative political attacks, skewed data, and downright distortions of the facts.

The TSTA president named greedy profiteers and Far Right zealots as two groups seeking to discredit public education in order to make a profit through vouchers and tax credit schemes for private and parochial schools.

"Contrary to what these groups have charged, current students are scoring as well or better on standardized tests as those of other decades in spite of the fact that schools are serving more students with more diverse needs and greater problems," Kouri said.

Crockett County Public Library News

THE ACCOMPANYING TAX NOTICE IS MISLEADING

The Crockett Co. Consolidated Common School District is required by state law to publish the accompanying tax notice in this form, even though the notice is deceptive.

Because of an omission in the recently-enacted state law, Crockett Co. Consolidated Common School District may not include revenue collected by the county education district in the calculation of taxes for the 1992-93 school year. The effect of this is to understate last year's actual school tax rate and produce an inaccurate comparison of last year's tax rate to this year's tax rate.

The correct comparison of tax rates is as follows:

Last year's (1992-93) total school tax rate (including county education district taxes):	\$ 1.0688
This year's (1993-94) proposed school tax rate:	\$ 1.21
Percentage change:	13.2 %

This notice is required by the Texas Legislature.

*The percentage increase shown in the first paragraph below may appear unusually high because it does not reflect 1992 taxes levied by the now-abolished county education district (CED). In 1992, the CED levied a portion of the taxes used for school purposes, and the school district levied the remainder of school taxes. In 1993, school districts will levy all school taxes. For an explanation of the increase, attend the public hearing scheduled below or call your school district.

Notice of Public Hearing on Tax Increase

Crockett County Consolidated Common School District #1 will hold a public hearing on a proposal to increase total tax revenues from properties on the tax roll in Crockett by 707 percent. Your individual taxes may increase at a greater or lesser rate, or even decrease, depending on the change in the taxable value of your property in relation to the change in taxable value of all other property.

The public hearing will be held on 9/16/93 8:00 PM at Crockett Co. CSD Adm. Board Room.

FOR the proposal: Elliott Barrera, David Bean, Becky Childress, Gary Mitchell, Wade Richardson, Marcus Sims, George Ybarra
AGAINST the proposal: NONE
PRESENT and not voting: NONE
ABSENT: NONE

The statement above shows the percentage increase the proposed rate represents over the effective tax rate that the unit published on 8/25/93. The following table compares taxes on an average home in this taxing unit last year to taxes proposed on the average home this year. Again, your individual taxes may be higher or lower, depending on the taxable value of your property.

	(Optional) Last Year County Education District	Last Year School District	This Year School District
Average home value	\$ 26,914	\$ 26,914	\$ 26,914
General exemptions available (amount available on the average home, not including senior citizen's or disabled person's exemptions)	\$ 5,382	\$ 5,382	\$ 5,382
Average taxable value	\$ 21,532	\$ 21,532	\$ 21,532
Tax rate	\$.91880	.150/\$100	1.21/\$100 (proposed)
Tax	\$ 197.84	\$ 32.30	\$ 260.54 (proposed)
(Optional) Total 1992 School Taxes	\$ 230.14	(Optional) Total 1993 School Taxes	\$ 260.54 (proposed)

(School districts publishing optional information must publish the following:)

This paragraph compares last year's CED and school district taxes with this year's proposed school district taxes:

Under this proposal taxes on the average home would increase by \$ 30.40 or 13.2 percent compared with last year's total school taxes. Comparing tax rates without adjusting for changes in property value, the tax rate would increase by \$.141 per \$100 of taxable value or 13.2 percent compared to last year's total school tax rate. These tax rate figures are not adjusted for changes in the taxable value of property.

(All school districts must publish the following:)

This paragraph compares last year's school district tax with this year's proposed school district taxes:

Under this proposal taxes on the average home would increase by \$ 228.24 or 707 percent compared with last year's school district taxes. Comparing tax rates without adjusting for changes in property value, the school district tax rate would increase by \$ 1.06 per \$100 of taxable value or 707 percent compared to last year's school district tax rate. These tax rate figures are not adjusted for changes in the taxable value of property.

OZONA PRIMARY SCHOOL LIBRARIAN AND TEACHER'S AIDE SIMPLY CERVANTEZ has help from Humpty Dumpty to make the library more fun for the children.

Simply Cervantez Works To Make Library Fun

Simply Cervantez has worked at Ozona Primary School for 14 years. She works both as a teachers' aide and as school librarian. As a teacher's aide, "I work with children from kindergarten through second grade with whatever subject they need help in. In the afternoon, I am the school librarian and have been for at least six years," Mrs. Cervantez said.

Duties in the library include reshelving books, keeping circulation records, repairing books and making sure that the library is running smoothly.

"Our library is slowly getting a facelift. We are trying to make it as colorful, fun and enjoyable as we can.

We want the children to look forward to coming to the library."

The school library also sponsors book fairs. "The next book fair is scheduled for Feb. 7-11. Hope to see you there!" Mrs. Cervantez said.

Mrs. Cervantez was born in Sonora and has lived in Ozona 39 years. She and her husband, Cat, have four daughters, Regina Sessom, Bianca and Kristal Cervantez, all of San Angelo, and Casey Cervantez, a first grader at Ozona Primary School.

"I am very proud to say that our three oldest daughters have all graduated from Ozona High along with my husband and myself," Mrs. Cervantez said.

Ozona Methodists To Have Combined Service With Sonora

On Sept. 12, the Ozona United Methodist Church will join the Sonora Methodist Church for a worship service at Sonora Caverns.

The choirs from the two churches will provide music, and Rev. Clay

Hall of Sonora will conduct the service.

The Ozona church will provide salads, vegetables and paper goods for dinner on the grounds. The Sonora church will provide meat and desserts.

Students Across Nation To Gather Around The Flagpole

More than 100,000 students across Texas and up to 2 million nationwide are expected to gather around their schools' flagpoles at 7 a.m., Sept. 15, to pray for their friends, school and country, said Chuck Flowers, youth

associate in the Texas Baptist Evangelism Division.

"See You at the Pole" began in Texas in 1989 as a vision of a few students and has exploded into a powerful movement of prayer, sweeping across the nation and world," Flowers said.

Last year, students in Russia, Mexico, England, Germany, Australia, Brazil and Canada participated in "See You at the Pole."

Sonora Receives Grant For Pool

The Texas Parks and Wildlife Commission approved \$9,116,112 in park grants for 28 projects during its regular public hearing Aug. 26.

Applications requesting \$10,860,249 were submitted by 46 sponsors for matching funds from the Texas Local Parks, Recreation and Open Space Funds. The Texas Parks and Wildlife Department sought a \$1.25 million grant from the federal Land and Water Conservation Fund.

Both funding sources were established to assist states, cities, towns, counties and other local governments in defraying the costs of purchasing park land and developing outdoor recreation facilities.

The City of Sonora will receive \$269,000 for the construction of a new municipal swimming pool. The new pool complex will include a greatly-enlarged swimming area, accessibility for physically-disabled persons and a new bathhouse. The pool is expected to serve the community's water recreation needs for a minimum of 30 years.

The Sonora grant application was praised by TPWD staff as one of the "best submitted in the past nine years". The city manager and city secretary, public works director, pool manager and a consulting engineer were involved in preparing the application.

Grants ranged from \$1.25 million from the Land and Water Conservation Fund for TPWD's Government Canyon State Park at San Antonio to a \$17,248 grant from the Texas Local Parks Recreation and Open Space Fund for San Felipe's Richards School Park.

Hospital/Care Center Lunch Menu

Dr. Woods To Speak At Methodist Church

Dr. Prenza Woods of Austin will be at Ozona United Methodist Church Sept. 19-21 for a preaching mission. Dr. Woods is chairman of trustees at Huston-Tillotson College in Austin. His sermon topics will be: Sept. 19, morning, Glorious Encounters; evening, Spiritual Security; Sept. 20, evening, Whom Do You See?; Sept. 21, evening, When Faith Bogs Down.

Along with Dr. Woods there will be a gospel choir from Huston-Tillotson that will present a program Saturday evening at 7:00. The group will also assist with worship on Sunday morning. Special offerings will be taken to help cover some of the expense.

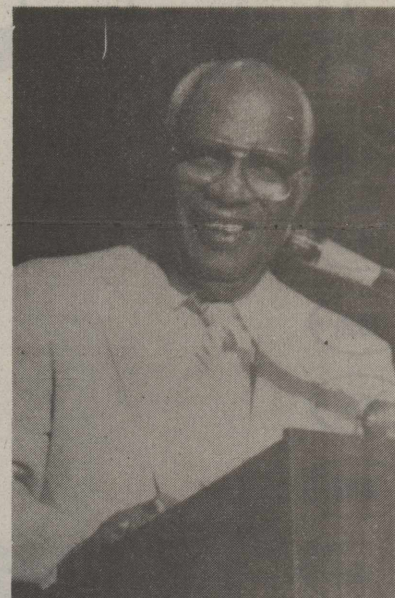

Prenza L. Woods was born in San Antonio and grew up on the east side, graduating from Phyllis Wheatley High School in 1940 with honors. His service to God and The United Methodist Church began in 1945 when he was ordained a Deacon in the New England Conference. He was ordained an Elder in the Southwest Texas Conference in 1948.

Woods has served as pastor for: St. Andrews UMC, Worcester, MA; Sanford Chapel UMC, San Antonio; Jacobs Chapel UMC, San Antonio; Wesley UMC, Austin; and St. Paul UMC. He has served two terms as the district superintendent. Other conference appointments include conference program director, Associate Council on Ministries, and conference council director.

He has been a delegate to six jurisdictional conferences and five general conferences of the United Methodist Church. He has also been delegate to the World Methodist Council and the Texas Conference of Churches. His service to the general church has included 12 years as a member of the board of directors of the United Methodist Publishing House, and a four year term as a member of the general board of Global Ministries. While a member of the board of Global Ministries, he served as chairman of the committee on nominations and personnel. He has served as a trustee for Southern Methodist University and Southwest Texas

Marriage Is Honorable

By Dennis J. Prutow

It's true! Mom and dad set the tone in their family. If mom and dad trust each other, help each other, love each other, and confide in each other, their children will learn from them. Their children will learn to be faithful and to trust others. Their children will learn to be helpful. Not only so, they will learn to confide in mom and dad.

And they will learn to be loving to their parents and friends. They will learn from the good models of loving parents.

But suppose mom and dad drink too much. And what if mom and dad not only carouse a lot but also have wild parties at home? Perhaps mom and dad argue and use abusive language and profanity. And if they reject the God of the Bible and His rules for living, won't their children follow them? Yes, in all likelihood, they

will. Sons and daughters will learn to drink and carouse. They will learn to quarrel and curse.

Suppose parents don't tell children the Good News of God's love through Jesus Christ. And like their parents, they reject God and His Son, Jesus Christ. Then children will not model the love of God in their marriages. Their homes will be battle grounds rather than havens of rest. It's time to think about the examples our marriages are setting.

•Lions (Continued From Page 1)

26-yard touchdown. Browne and the Lions came right back on a 12-play drive covering 50 yards, but the team couldn't get past the Owl 25-yard line.

That was the Lions' last scoring opportunity; from that point the Owls took over the ball and ran out the clock. The final score was Reagan County 59, Ozona 7.

"Our offense will come along with time," Coach Payne said, adding that

in the third quarter, "We need to be good physically, and we have to continue to play well." The coaching staff plans to spend a lot of time this week on conditioning drills.

The next test for the Lions will come Friday, Sept. 10, in Lion Stadium when the Lions take on Class 1A Garden City at 8 p.m. The Bearkats won't be a pushover for the Lions, however, with quickness and a tradi-

tion of success to their credit. A solid win over Garden City could be a good confidence-builder for the young Lion team.

Ten Commandments For High Blood Pressure Patients

(AUSTIN) -- An estimated 54 million American adults have high blood pressure, according to the American Heart Association. The association estimates almost half of these people don't know about their life-threatening condition.

Blood pressure is the push of blood against the walls of the arteries. High blood pressure indicates the heart is straining to pump blood through the arteries. High blood pressure is unhealthy because it can result in an enlarged heart (congestive heart failure), kidney failure, and increased hardening of the arteries and kidney disease. "These ailments can lead to a stroke or a heart attack, perhaps causing disability or death to the sufferer," indicates Addison A. Taylor, M.D., president of the Texas Affiliate of the American Heart Association.

The American Heart Association urges high blood pressure patients to control their condition and offers ten commandments to help:

1. Know your blood pressure. Have it checked regularly.
2. Know what your weight should be. Keep it at that level.
3. Don't use excessive salt in cooking or during meals; avoid salty foods.
4. Eat a low fat, low cholesterol diet according to American Heart Association recommendations.
5. Don't smoke cigarettes; smok-

ing can increase your chances of having a stroke or a heart attack.

6. Restrict your drinking of alcoholic beverages.

7. Take your medicine exactly as prescribed; don't run out of pills even for a single day.

8. Keep your appointments with the doctor.

9. Follow your doctor's advice about exercise and live a normal life in every other way.

10. Make certain your parents, brothers, sisters and children have their pressure checked regularly. High blood pressure tends to run in families.

"You can also help your doctor control your blood pressure by being honest and specific with him or her regularly about your treatment plan," advises Taylor.

"The more your doctor knows about your concerns and problems, the better he or she can adjust the plan to your needs."

Eden Fall Fest Sept. 18

"From Sparking to Happily Ever After, my Grandparents' Love Letters", will be presented at 2 p.m. at the Eden Public Library in Eden by Margaret Anna Cox on Sept. 18.

Ms. Cox's presentation is one of many activities scheduled for the Eden Fall Fest in downtown Eden.

Sharp Predicts New Hemispheric Trade Alliance Beyond Mexico

(AUSTIN)—"Texas last year exported \$4.3 billion worth of goods to the Americas to the south, not including Mexico," State Comptroller John Sharp says.

"That's a 40 percent increase since 1988, and it has created 82,000 good Texas jobs.

Texas trade with Latin America is explored in the latest issue of Fiscal Notes, a monthly publication of the Comptroller's Research Division. The Fiscal Notes article foreshadows a larger look Sharp is taking at this and other critical issues in The Forces Or Change, which is scheduled to be released later this year.

Sharp said that Mexico is still

Texas' largest Latin American trading partner, accounting for four-fifths of the state's total exports to Latin America.

"Texas did more than \$23.1 billion worth of business with the hemisphere in 1992," Sharp said, "and nearly \$19 billion of that was with Mexico, supporting some 360,000 Texas jobs. Clearly, our immediate southern neighbor is our most important Latin American trading partner—and will remain so for years to come."

Still, Sharp said that the other Americas to the south represent an enormous emerging market for Texas goods and services.

"The unique geography of Texas, which has set us astride the world's most dramatic boundary between an industrialized power and a developing one, highlights an undeniable link to the South," Sharp said. "Texas should now seize the opportunity to become the catalyst for a new spirit of energy and genuine partnership with Latin America and the Caribbean over the next generation."

Sharp said that the continuing debate over the North American Free Trade Agreement (NAFTA) has underscored the importance of multilateral trade and investment growth among the nations of the Western Hemisphere.

"Since 1988, Texas trade with the Mercosur trading bloc—Argentina, Brazil, Paraguay and Uruguay—has increased 21 percent, from \$727 million to \$878 million a year.

"Trade with the Andean Pact nations—Bolivia, Colombia, Ecuador, Venezuela and Peru—has increased 36 percent, from \$1.8 billion to more than \$2.4 billion a year.

"Trade with the countries in the Central American Common Market—Guatemala, El Salvador, Hondu-

ras and Costa Rica—has grown 69 percent, from \$376 million to \$636 million a year," Sharp said.

Sharp also said that Texas' top five exports to Latin America last year were electronic and electrical equipment and parts—appliances, consumer electronics and communications devices—industrial and commercial machinery and computer equipment, transportation equipment, chemicals and allied products and primary metals. These five industries alone accounted for \$14.7 billion, or 63 percent, of the state's total shipments to Latin America in 1992.

"These emerging economies offer Texas the potential for unprecedented, dynamic growth," Sharp said. "Latin America's total gross domestic product is more than \$860 billion, a market three times as large as Central and Eastern Europe and greater than the entire Southeast Asian market, excluding Japan."

Sharp said that regardless of the ultimate fate of NAFTA and other trade liberalization efforts, Texas is positioned as a "natural bridge" among the nations of the hemisphere.

"The economic integration of the Americas is moving forward—with or without Texas participation," Sharp said. "Texas should lead the way toward general agreements beyond the specifics of NAFTA and help establish broad principles for the conduct of commerce throughout the hemisphere.

"This is the moment to consolidate our inevitable partnership with the rest of the hemisphere—and to devise a statewide economic strategy that places Texas securely in the center of a new hemispheric alliance," Sharp said.

Fast Food Reported To Increase Asthma In Adults

America's passion for fast food has resulted in an increase of asthma in adults, a Baylor College of Medicine physician said.

The culprits linking asthma and fast foods, such as hamburgers and french fries, are metabisulfites, preservatives commonly used to keep fast food looking fresh.

The preservatives cause about 200,000 asthma cases in the United States, with the majority in adults, said William T. Shearer, M.D., Ph.D., an asthma and allergy specialist at Baylor and Texas Children's Hospital in Houston.

In some individuals, an allergy to metabisulfites, commonly called sulfites, can be life threatening.

Sulfites are often used to preserve the color in dark wines and liquors, the shelf life of some liquid medicines, and the freshness of salad bar items, hamburger garnishes and sauces, and french fries. The presence of the preservatives is not usually noted on containers, but Shearer said many fast food restaurants will voluntarily inform customers if they use preservatives.

Asthma is caused when air passages in the lungs become narrow. Breathing becomes difficult because air collected in the lungs cannot be blown out.

Shearer said that individuals who already have allergy-related asthma should be aware that sulfites may cause a severe allergy attack.

Adults who have recently developed asthma may find that some detective work may point to sulfites as the cause, Shearer said.

An asthma attack related to preservatives is different from the usual attack. While the usual attack progresses over a period of hours, the sulfite attack usually occurs within 30 minutes of consuming the preserved food or medicine.

The most common symptoms of the preservative attack are a severe cough and chest pain, which require immediate medical attention. The usual treatment involves drugs that open the air passages in the lungs, such as theophylline.

The best way to avoid sulfites is to avoid fast foods, salad bars, dark wines and liquor

Stealing electricity is against the law!

Stealing electricity is a felony.

Some people tamper with their electric meters to avoid paying for the energy they use. Stealing electricity is a felony offense in the state of Texas and violators will be prosecuted. West Texas Utilities' Current Diversion Department is working hard to help combat the growing problem of energy theft.

Energy theft is dangerous.

Not only is service theft a crime, but it is also very dangerous. Serious injuries can result from meter tampering.

A crime against you!

When someone steals electricity, they are not only stealing from WTU — they are also stealing from you, as a rate-payer. Just as shoplifting increases the cost of items you buy in the store, power theft increases the cost of your electric service.

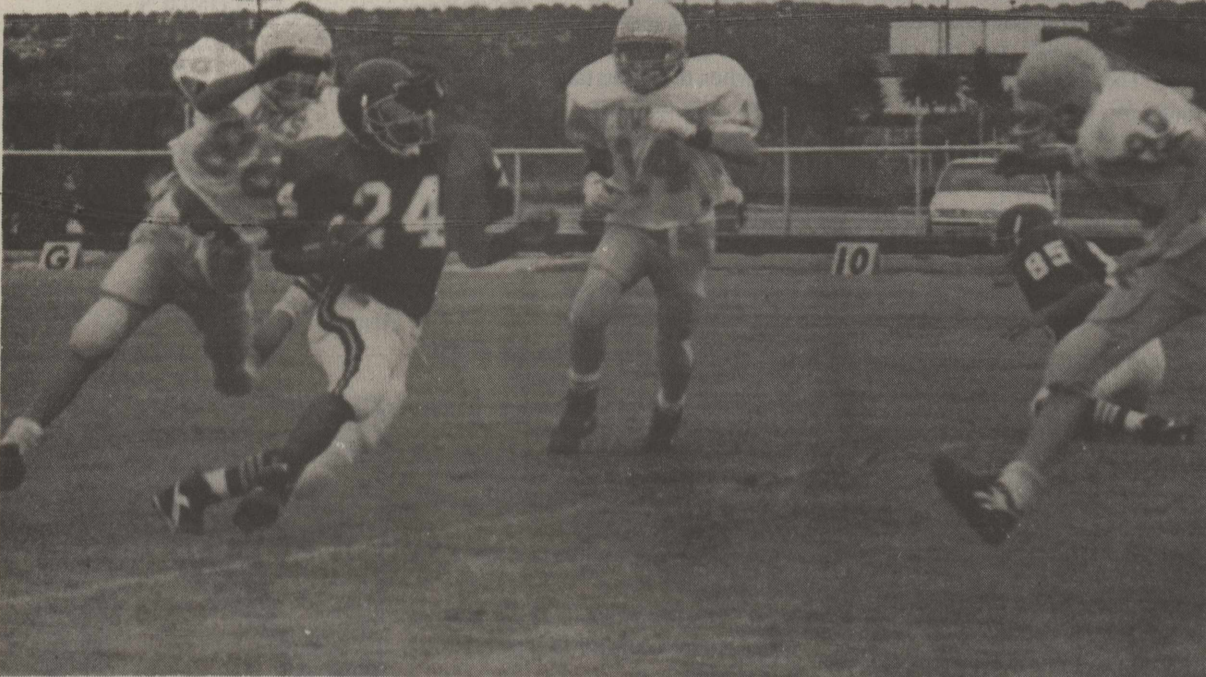

WTU will prosecute.

Because we are concerned about the dangers and costs resulting from meter tampering, West Texas Utilities will prosecute energy thieves.

Hargett Named President Of Amax Oil & Gas

Amax Energy Inc. announced recently that Williams G. Hargett has been named president of its Amax Oil & Gas unit.

Hargett, 43, has more than 20 years of experience in the oil and gas industry and was most recently president and chief executive officer of North-Central Oil. He was previously with Tenneco Oil Company for 14 years in a variety of exploration and management positions. He earned his B. S. and M. S. degrees in geology from the University of Alabama, and has completed the Duke University Executive Education Program.

In his new position, Mr. Hargett

will be responsible for the company's overall exploration and production activities. In 1992, Amax sold 53.1 billion cubic feet of natural gas, 2.8 million barrels of oil and 2.6 million barrels of natural gas liquids. At year-end, proved and probable reserves totaled 865 billion cubic feet of natural gas equivalent.

"Mr. Hargett's strong technical background in the exploration and production area and management expertise will help Amax continue to grow and expand its natural gas business," said Thomas A. McKeever, president and CEO of Amax Energy. "He has demonstrated an ability to

create added value by using a combination of sound business judgment and proven exploration and development strategies. He is a most welcome addition to our organization."

Amax Energy, a supplier of high-quality fuels primarily under term agreements to electric power generators and major industrial customers, recently consolidated the headquarters of its coal and natural gas subsidiaries to Houston. The company includes Amax Oil & Gas, Amax Gas Marketing, and Amax Coal Industries, the nation's third largest coal producer.

PUBLIC NOTICE BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS SPECIAL ELECTION NOVEMBER 2, 1993

PROPOSITION NO. 1 ON THE BALLOT

Senate Joint Resolution 9 proposes a constitutional amendment that would authorize the Texas Legislature to provide for the issuance of bonds for the state financing of start-up costs for historically underutilized businesses. The amendment provides that the legislature by law may establish a Texas historically underutilized business capital growth and start-up fund. The money in the fund may be used without further appropriation and only for a program established by the legislature to aid in the start-up costs of a historically underutilized business, as defined by the legislature. To carry out the program, the legislature may issue up to \$50 million of general obligation bonds to provide funding. The legislature may require review and approval of the issuance of bonds, the use of the bond proceeds, or of the rules adopted by an agency to govern use of the bond proceeds. Bonds authorized by the amendment constitute a general obligation of the state.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the legislature to provide for the issuance of \$50 million of general obligation bonds for the recovery and further development of the state's economy and for increasing job opportunities and other benefits for Texas residents through state financing of the start-up costs of historically underutilized businesses."

PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 86 proposes a constitutional amendment authorizing the legislature, by general law, to exempt from ad valorem taxation all or part of real and personal property used, constructed, acquired, or installed wholly or partly to meet or exceed rules or regulations adopted by any environmental protection agency of the United States, Texas, or a political subdivision of this state for the prevention, monitoring, control, or reduction of air, water, or land pollution. The amendment applies to real and personal property used as a facility, device, or method for the control of air, water, or land pollution that would otherwise be taxable for the first time on or after January 1, 1994. The amendment does not authorize the exemption from ad valorem taxation of real or personal property that was subject to a tax abatement agreement executed before January 1, 1994.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to promote the reduction of pollution and to encourage the preservation of jobs by authorizing the exemption from ad valorem taxation of real and personal property used for the control of air, water, or land pollution."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 3 proposes a constitutional amendment to clear land titles in which the State of Texas relinquishes and releases any claim of sovereign ownership or title to an undivided one-third interest in and to the lands and minerals within the Shelby, Frazier, and McCormick League (now located in Fort Bend and Austin counties) arising out of the interest in that league originally granted under the Mexican Colonization Law of 1823 to John McCormick on or about July 24, 1824, and subsequently voided by the governing body of Austin's Original Colony on or about December 15, 1830. Title to such interest in the lands and minerals is confirmed to the owners of the remaining interests in such lands and minerals.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing for the clearing of land titles by the release of a state claim in a fractional interest, arising out of the voiding of an interest under a Mexican land grant, to the owners of certain property in Fort Bend and Austin counties."

PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 49 proposes a constitutional amendment that would prohibit a state personal income tax without voter approval and would dedicate the proceeds of any income tax, if enacted, to property tax relief and education. The amendment provides that a general law enacted by the legislature that imposes a tax on the net incomes of natural persons, including a person's share of partnership and unincorporated association income, must provide that the portion of the law imposing the tax not take effect until approved by a majority of the registered voters voting in a statewide referendum held on the question of imposing the tax. The referendum must specify the rate of the tax that will apply to taxable income.

The amendment also provides that a general law enacted by the legislature that increases the rate of the tax, or changes the tax in a manner that results in an increase in the combined income tax liability of all persons subject to the tax, may not take effect until approved by a majority of the registered voters voting in a statewide referendum held on the question of increasing the income tax. The referendum must specify the manner in which the proposed law would increase the combined tax liability of all persons subject to the tax. The legislature may repeal, or amend without increasing, a tax approved by the voters without submitting the amendment or the repeal to the voters. If the legislature repeals a tax approved by the voters, the legislature may only reenact the tax without voter approval if the effective date of the reenactment of the tax is within one year of the effective date of the repeal of the tax.

The amendment also provides that, in the first year in which an income tax is imposed, and during the first year of any increase in the tax, not less than two-thirds of all net revenues from the tax shall be used to reduce the rate of ad valorem maintenance and operation taxes levied for the support of primary and secondary education. In subsequent years, not less than two-thirds of all net revenues of the tax shall be used to continue such ad valorem tax relief. The net revenues of the tax remaining after the dedication of money for reduction of ad valorem maintenance and operation taxes shall be used for support of education. The maximum rate at which a school district may impose ad valorem maintenance and operation taxes is reduced by an amount equal to one cent per \$100 valuation for each one cent per \$100 valuation that the school district's ad valorem maintenance and operation tax is reduced by the minimum amount of money dedicated under the amendment, provided that a school district may subsequently increase the maximum ad valorem maintenance and operation tax rate if the increased maximum rate is approved by a majority of the voters of the school district voting at an election called and held for that purpose. The portions of the amendment relating to dedicating tax revenues to reduce the rate of ad valorem maintenance and operation taxes apply on or after the first January 1 after the date on which an income tax takes effect, except that if the income tax begins to apply on a January 1, the amendment applies to ad valorem maintenance and operation taxes levied on or after that date.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment prohibiting a personal income tax without voter approval and, if an income tax is enacted, dedicating the revenue to education and limiting the rate of local school taxes."

PROPOSITION NO. 5 ON THE BALLOT

Senate Joint Resolution 18 proposes a constitutional amendment that would authorize the legislature to prescribe the qualifications of sheriffs. Currently, the constitution authorizes the legislature to prescribe the duties, perquisites, and fees of office, but not the qualifications for the office of sheriff.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to allow the legislature to prescribe the qualifications of sheriffs."

PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 21 proposes a constitutional amendment that would abolish the office of county surveyor in Jackson County. The amendment also provides for the powers, duties, and functions of the county surveyor to be transferred to the county officer designated by the commissioners court.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment abolishing the office of county surveyor in Jackson County."

PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 57 proposes a constitutional amendment that repeals article XII, section 6, of the Texas Constitution, which currently provides that no corporation shall issue stock or bonds except for money paid, labor done, or property actually received, and that all fictitious increase of stock or indebtedness shall be void.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment repealing certain restrictions on the ability of corporations to raise capital."

PROPOSITION NO. 8 ON THE BALLOT

House Joint Resolution 22 proposes a constitutional amendment that would authorize the commissioners court of McLennan County to call an election to abolish the office of county surveyor. The office of county surveyor will be abolished if a majority of the qualified voters of McLennan County voting on the question favor the abolition. If the office of county surveyor is abolished, the amendment requires the maps, field notes, and other records in the custody of the county surveyor to be transferred to the county clerk of McLennan County. After abolition, the amendment also grants the commissioners court of McLennan County the authority to employ or contract with a qualified person to perform any of the functions that would have been performed by the county surveyor if the office had not been abolished.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to abolish the office of county surveyor in McLennan County."

PROPOSITION NO. 9 ON THE BALLOT

Senate Joint Resolution 19 proposes an amendment to article VIII, section 13 of the Texas Constitution that would modify the provisions for the redemption of real property sold at a tax sale. The amendment deletes current language in article VIII, section 13 that allows the legislature to provide for the sale of property without trial to pay for delinquent taxes. It also states that the deed to the new owner vests a good and perfect title subject only to redemption as set out in this amendment or impeachment for fraud. Language is added limiting application of the current two-year redemption period to former owners of residence homesteads and land designated for agricultural use sold for unpaid taxes. When property is sold as the result of a suit to enforce collection of unpaid taxes, the amendment would allow the legislature to limit redemption to property used as a residence homestead or designated for agricultural use at the time the suit was filed. The amendment creates a second year of redemption for former owners of real property when property is neither a residence homestead, nor designated for agricultural use. These owners would have a six-month period in which to redeem their property by paying the amount of money paid for the property, including the Tax Deed Recording Fee, all taxes, penalties, interest, and costs paid plus an amount not exceeding 25 percent of the aggregate total. The amendment applies to redemption of properties sold at a tax sale for which the purchaser's deed is filed on or after January 1, 1994. For redemption of properties sold at a tax sale for which the purchaser's deed was filed before January 1, 1994, the former law is applicable and remains in effect.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to modify the provisions for the redemption of real property sold at a tax sale."

PROPOSITION NO. 10 ON THE BALLOT

Senate Joint Resolution 34 proposes a constitutional amendment that adds a

new section 49-b-2 to article III of the Texas Constitution. This new section provides that, in addition to the general obligation bonds authorized to be issued and sold by the Veterans' Land Board (the "Board") by sections 49-b (\$950 million) and 49-b-1 (\$1.3 billion) of article III, the board may provide for, issue, and sell general obligation bonds of the state in an amount not to exceed \$750 million to provide financing to Texas veterans. \$250 million of the bonds authorized by this new section shall be used to augment the Veterans' Land Fund (the "Land Fund"). The Land Fund shall be used by the Board to purchase lands situated in Texas owned by the United States government, an agency of the United States government, the State of Texas, a political subdivision or agency of the State of Texas, or a person, firm, or corporation. The lands shall be sold to veterans in quantities, on terms, at prices, and at fixed, variable, floating, or other rates of interest determined by the Board. Lands in the Land Fund that are offered for sale to veterans and that are not sold may be sold or resold to the purchasers in quantities, terms, prices, and rates of interest determined by the Board.

New section 49-b-2 creates the Veterans' Housing Assistance Fund II (the "Housing Fund II"), and \$500 million of the general obligation bonds authorized by the section shall be used for the Housing Fund II. The Housing Fund II is a separate and distinct fund from the Veterans' Housing Assistance Fund (the "Housing Fund") established under section 49-b-1 of article III. Money in the Housing Fund II shall be administered by the Board and shall be used to make home mortgage loans to veterans for housing within this state in quantities, on terms, at fixed, variable, floating, or other rates of interest determined by the Board. The principal of, and interest on, the general obligation bonds authorized by this section for the benefit of the Housing Fund II shall be paid out of the money of the Housing Fund II. The principal of, and interest on, the general obligation bonds authorized by section 49-b-1 of article III for the benefit of the Housing Fund shall be paid out of money in the Housing Fund. If there is not enough money in the Land Fund, the Housing Fund, or the Housing Fund II, as the case may be, available to pay the principal of, and interest on, the general obligation bonds authorized by this section or by sections 49-b or 49-b-1 of article III, there is appropriated out of the first money coming into the treasury in each fiscal year an amount that is sufficient to pay the principal of, and interest on, the general obligation bonds that mature or become due during that fiscal year.

If the Board determines that assets from the Land Fund, the Housing Fund, or the Housing Fund II are not required for purposes of the fund, the Board may transfer the assets to another of those funds or use the assets to secure revenue bonds issued by the Board. The revenue bonds shall be special obligations of the Board and payable only from and secured by receipts of the funds, assets transferred from the funds, and other revenues as determined by the Board and shall not constitute indebtedness of the State of Texas or the Board. The Board may issue revenue bonds from time to time, which bonds may not exceed an aggregate principal amount that the Board determines can be fully retired from the receipts of the funds. The revenue bonds shall be sold in forms, denominations, and in installments, and bear a rate or rates of interest as the Board determines.

The general obligation bonds authorized to be issued by the Board by this section or by sections 49-b and 49-b-1 of article III shall be issued and sold in forms and denominations, on terms, at times, in the manner, at places, in installments, and shall bear a rate or rates of interest the Board determines. The bonds shall be incontestable after execution by the Board, approval by the Attorney General of Texas, and delivery to the purchaser.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing issuance of \$750 million in general obligation bonds to augment the Veterans' Land Fund and the Veterans' Housing Assistance Fund and to fund the Veterans' Housing Assistance Fund II."

PROPOSITION NO. 11 ON THE BALLOT

Senate Joint Resolution 31 proposes a constitutional amendment relating to the duties of trustees of local retirement systems which provide retirement and related disability and death benefits for public officers and employees and that do not belong to a statewide retirement system. The amendment provides that the

board of trustees of such a system shall (1) administer the system of benefits; (2) hold the assets of the system for the exclusive purposes of providing benefits to participants and their beneficiaries and defraying reasonable expenses of administering the system; and (3) select legal counsel and an actuary and adopt sound actuarial assumptions to be used by the system.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing that the trustees of a local public pension system must administer the system for the benefit of the system's participants and beneficiaries."

PROPOSITION NO. 12 ON THE BALLOT

House Joint Resolution 23 proposes a constitutional amendment providing that any person accused of a violent or sexual offense committed while under the supervision of a criminal justice agency of this state or a political subdivision of this state for a prior felony may, after a hearing and evidence substantially showing the guilt of the accused, be denied bail pending trial. If the accused is not, however, accorded a trial within 60 days from the time of his incarceration upon the accusation or indictment, the order denying bail shall be set aside unless a continuance is obtained upon the request of the accused. In the amendment, the term "violent offense" means murder, aggravated assault (if a deadly weapon was used or exhibited during the commission of the assault), aggravated kidnapping, or aggravated robbery. The term "sexual offense" means aggravated sexual assault, sexual assault, or indecency with a child.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment permitting the denial of bail to certain persons charged with certain violent or sexual offenses committed while under the supervision of a criminal justice agency of the state or a political subdivision of the state."

PROPOSITION NO. 13 ON THE BALLOT

Senate Joint Resolution 13 proposes a constitutional amendment that amends article VII, section 17(a), of the Texas Constitution to provide that, of the \$100 million currently appropriated by that section for the use of public institutions of higher education during each fiscal year, those institutions may also utilize this money to pay for acquiring, constructing, or equipping or for major repair or rehabilitation of buildings, facilities, other permanent improvements, or capital equipment used jointly for educational and general activities and for auxiliary enterprises to the extent of their use for educational and general activities. For the five-year period beginning on September 1, 2000, and for each five-year period thereafter, the legislature, during a regular session that is nearest, but preceding, a five-year period may, by a two-thirds vote of the membership of each house, increase the amount of the \$100 million constitutional appropriation for the five-year period. The amendment also reflects name changes that have been made to some of the institutions of higher education for which such funding is available. The amendment adds the Texas State Technical College System to those institutions eligible to receive such funding, but limits its allocation of the annual appropriation to 2.2 percent of the total appropriation each fiscal year. The amendment also provides that each governing board authorized to participate in the distribution of money under article III, section 17, may also issue bonds and notes for the purposes of refunding bonds or notes issued under that section or prior law for the purposes of acquiring capital equipment, library books and library materials, paying for acquiring, constructing, or equipping or for major repair or rehabilitation of buildings, facilities, other permanent improvements, or capital equipment used jointly for educational and general activities and for auxiliary enterprises to the extent of their use for educational and general activities. The amendment deletes language in article III, section 17, which authorizes the legislature to designate a single agency to issue such bonds or notes in lieu of the governing bodies, and to transfer to that agency the authority to collect and pledge money to the payment of such bonds and notes as directed by the governing body of each eligible institution. Funds appropriated under article III, section 17, may not be used for the purpose of constructing, equipping, repairing, or rehabilitating buildings or other permanent im-

provements that are to be used only for student housing, intercollegiate athletics, or auxiliary enterprises.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment relating to the amount and expenditure of certain constitutionally dedicated funding for public institutions of higher education."

PROPOSITION NO. 14 ON THE BALLOT

Senate Joint Resolution 45 proposes a constitutional amendment that adds a new subsection (e) to article III, section 49-h, of the Texas Constitution. The new subsection provides that, in addition to the amounts authorized by subsections (a) (\$500 million), (c) (\$400 million), and (d) (\$1.1 billion) of section 49-h, the legislature may authorize the issuance of up to \$1 billion in general obligation bonds and may use the proceeds of the bonds for acquiring, constructing, or equipping new corrections institutions, including youth corrections institutions, and mental health and mental retardation institutions and for major repair or renovation of existing facilities of those corrections and mental health and mental retardation facilities. The amendment also provides that the provisions of subsection (a) of section 49-h, relating to the review and approval of bonds, and the provisions of subsection (b) of section 49-h, relating to the status of the bonds as a general obligation of the state and to the manner in which the principal and interest on the bonds are paid, apply to bonds authorized by this amendment.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the issuance of up to \$1 billion in general obligation bonds payable from the general revenues of the state for projects relating to facilities of corrections and mental health and mental retardation institutions."

PROPOSITION NO. 15 ON THE BALLOT

House Joint Resolution 37 proposes a constitutional amendment that would authorize the county commissioners court of a county to call an election to abolish the office of county surveyor. The office of county surveyor is abolished if a majority of voters of the county voting in the election approve the measure. If the office of county surveyor is abolished, the maps, field notes, and other records of the county surveyor are transferred to the county officer or employee designated by the commissioners court.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to permit the voters of a county to decide, at an election called by the commissioners court, whether to abolish the office of county surveyor in the county."

PROPOSITION NO. 16 ON THE BALLOT

Senate Joint Resolution 44 proposes an amendment to article III, section 49-(b) of the Texas Constitution, which currently limits the principal amount of bonds outstanding at one time for the Texas agricultural fund to \$25 million and for the rural microenterprise development fund to \$5 million. The amendment would raise the principal amount limit for the Texas agricultural fund to \$100 million. The amendment would also make the principal amount limit for each fund apply to the total principal amounts of both bonds and notes issued or sold rather than just the principal amounts of bonds outstanding at one time.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing up to a total of \$100 million in bonds and notes to be issued or sold to finance the Texas agricultural fund for providing financial assistance to develop, increase, improve, or expand the production, processing, marketing, or export of crops or products grown or produced primarily in this state by agricultural businesses domiciled in the state."

Este es el informe explicatorio sobre la enmienda propuesta a la constitucion que aparecera en la boleta el dia 2 de noviembre de 1993. Si usted no ha recibido una copia del informe en español, podra obtener una gratis por llamar al 1/800/252/8683 o por escribir al Secretario de Estado, P.O. Box 12060, Austin, Texas 78711

Crockett County Sheriff's Report

Week ending 9-6-93

Arrests:

9-1...25-year-old Corene Guerrero of Midland was arrested on charges of public intoxication. She pleaded guilty in JP Court and was released after paying her fine.

9-1...Rangel Florencio Castillo of Ozona was arrested on charges of driving while intoxicated and traffic offenses. He is in county jail, unable to post bond. The driving while intoxicated case will be tried in county court.

9-3...18-year-old Melissa Gail Mitchell of Ozona was arrested on a warrant charging her with assault. She pleaded guilty in JP Court and was released after paying her fine.

9-3...29-year-old Roy Franklin Miller of Ozona was arrested on warrants out of Kendall County charging him with theft by check. He was released after posting bond. The case will be tried in Kendall County.

9-4...43-year-old Alexander S. Borrego of Ozona was arrested on a grand jury indictment charging him with forgery. He was released after posting bond. The case will be tried in district court.

9-4...32-year-old Elizabeth Castro of Ozona was arrested on a grand jury indictment charging her with welfare fraud. She was released after posting bond. The case will be tried in district court.

9-4...30-year-old Joanne M. Villanueva of Ozona was arrested on a grand jury indictment charging her with theft. She was released after posting bond. The case will be tried in district court.

9-4...18-year-old Juan DeLuna of Ozona was arrested on a grand jury indictment charging him with sexual assault. He is in county jail, unable to post bond. The case will be tried in district court.

9-4...46-year-old Sammy Don Smith of Mission was arrested on traffic warrants out of Kendall County. He was released after paying his fine.

9-4...53-year-old Robert M. Vargas of Ozona was arrested on a grand jury indictment charging him with theft. He was released after posting bond. The case will be tried in district court.

9-5...21-year-old Mario DeHoyas

Jr. of Big Lake was arrested on traffic charges. He was released after paying his fine.

9-6...23-year-old Holly Lo Allen of California was arrested on traffic charges. She was released after paying her fine.

9-6...20-year-old Cesar A. Villarreal of Ozona was arrested on traffic charges. He pleaded guilty in JP Court and is laying out his fine in county jail.

9-6...45-year-old Alberto S. Borrego of Ozona surrendered to sheriff's deputies to begin serving a sentence in Texas Department of Corrections for driving while intoxicated. On 9-7-93 he was transported to Huntsville.

Incidents:

9-1...Glenda Capps reported the theft of a .22 pistol from her residence. Sheriff's deputies are investigating the offense.

9-1...Sheriff's deputies and Texas Railroad Commission investigators are investigating the theft of oil field equipment from a lease southwest of Big Lake. A set of tongs, weight indicator, and weight indicator pads were taken in the offense.

9-3...Sheriff's deputies received a report of a 13-year-old girl who had run away with a 20-year-old Ozona man. The pair were located between Big Lake and Garden City. The 13-year-old was returned to the custody of her parents. A report was made to the county attorney's office requesting a warrant for the 20-year-old man, charging him with enticing a child.

9-3...Casiana Alsbrook of Rowlett reported the theft of several rifles from a residence on Santa Anna Street. Sheriff's deputies are investigating the offense.

9-6...Elizabeth Gonzales of Ozona reported that she was threatened by another woman at the truck stop. Sheriff's deputies investigated the offense and have forwarded it to the county attorney's office for prosecution.

9-6...Zella Cullins of Ozona reported that she was bitten by a stray dog in the 200 Block of Ave. K. The animal will be held for observation.

9-6...A 5-year-old child was bitten by a dog on Ave. I. The child was treated and released at Crockett County Hospital. The parents of the child and the owner of the dog are acquainted and have made arrangements to place the animal under observation.

On Sept. 6, the jail census included eight district court prisoners, one county court prisoner and one JP court prisoner.

Crockett Co. Grand Jury Indictments

The following indictments were handed down by a Crockett County grand jury on Aug. 19, 1993.

Thomas Earl Drago, theft of livestock

Poitierist Topez White, possession of marijuana/tax stamp

Ruben Reyes Reyes, driving while intoxicated

Robert Mares Vargas, theft

Michael Ryan Vitela, aggravated sexual assault of a child

Juan Alejos DeLuna, sexual assault

Joann Rodriguez Villanueva, theft

Maria Luisa Sandoval, possession of controlled substance, methamphetamine

Freddy Ybarra, aggravated sexual assault of a child

Oscar Borrego Vargas, theft

Elizabeth Ann Castro, welfare fraud

Alexander Sifuentes Borrego, forgery

Juan Yruegas Ybarra, burglary of a building

Kimberly Ann (Forsyth) Stiff, burglary of a habitation

Dean Cleveland Stiff, burglary of a habitation

Guadalupe Porras, forgery

Juan Aranda Fierro Jr., driving while intoxicated

Ana Lorena Venegas, injury to a child

Ana Lorena Venegas, criminal mischief

Jimmy Perez Longoria, aggravated assault

Albert Sifuentes Borrego, driving while intoxicated

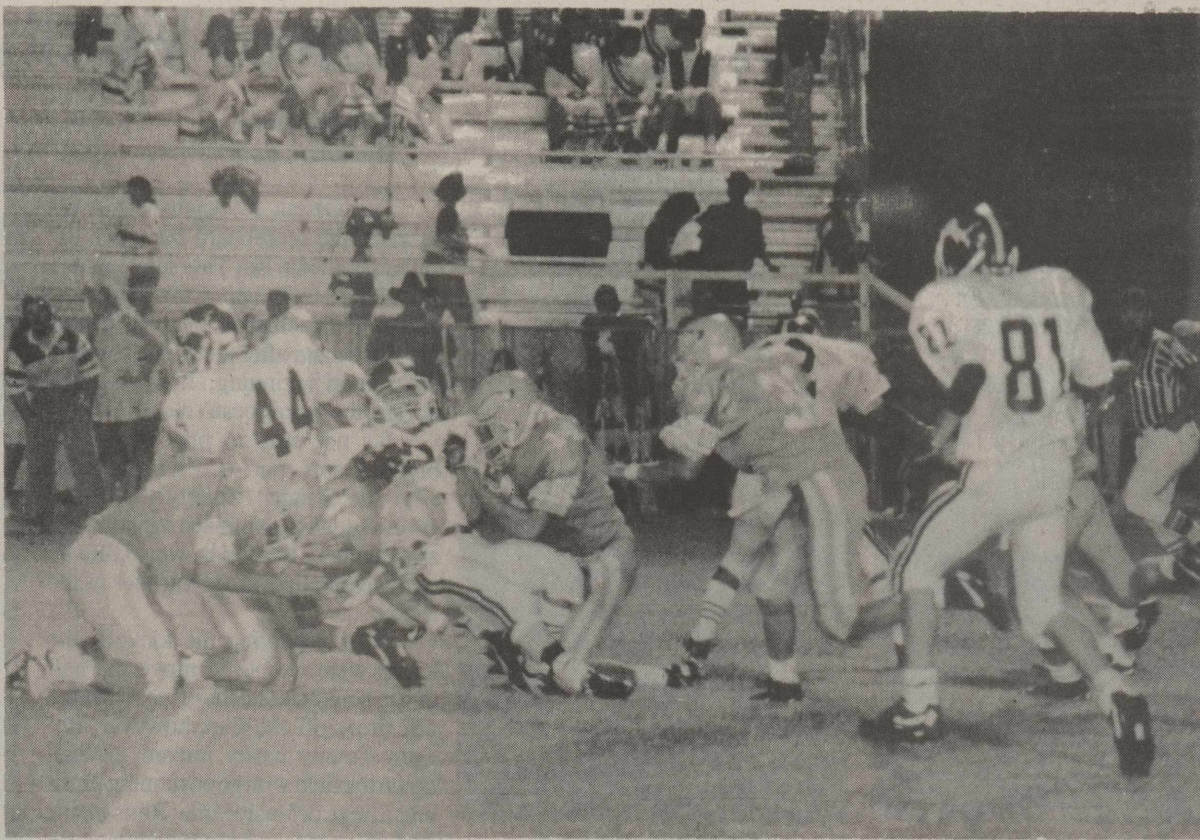

Bobby Joe Lillegaard, possession of a controlled substance, methamphetamine

Jeffrey Kurt Adams, driving while intoxicated

David Loera Gonzalez, retaliation

Mario Alfonso Flores, burglary of a building

Jesse Carlos Badillo, burglary of a building

"Mail For Our Military" Gives A Big Morale Boost

The 1993 "Mail for Our Military" program is now underway! Mail from participants from every part of the U.S. will be combined and then separated into more than 1,000 bundles of varying size and sent to units, bases and support activities (other USOs, Armed Services YMCAs, hospitals, etc.) all across the U.S. and around the world.

"Thank you very much for...the Christmas cards and letters. They added enjoyment to our Christmas deployment," wrote one commander in response to the bundle of Christmas mail his unit received last year. A chaplain wrote, "...I have enclosed five photographs of Navy men and women...responding to the Christmas Mail Call. The joyful look on their faces speaks greater volumes of thanks than I can express!"

"Mail for Our Military" is an exciting project for individuals, families, schools, churches, and groups of all kinds. For information on how to help achieve such results, not at five or ten, but at more than 1,000 places all across the U.S. and around the world,

interested readers should send a first-class postage stamp (a stamped, self-addressed envelope cannot be used—just the stamp for return postage) to: MAIL FOR OUR MILITARY, P.O. BOX 997, FORT KNOX, KY 40121-0997.

Notice of REWARD
I AM OFFERING
\$500 REWARD
for apprehension and conviction of guilty parties to every theft of livestock in Crockett County - except that no officer of Crockett County may claim the reward.

New Teachers At Ozona Schools

Coach John Cox

By Neal Ulmer
Stockman Sportswriter

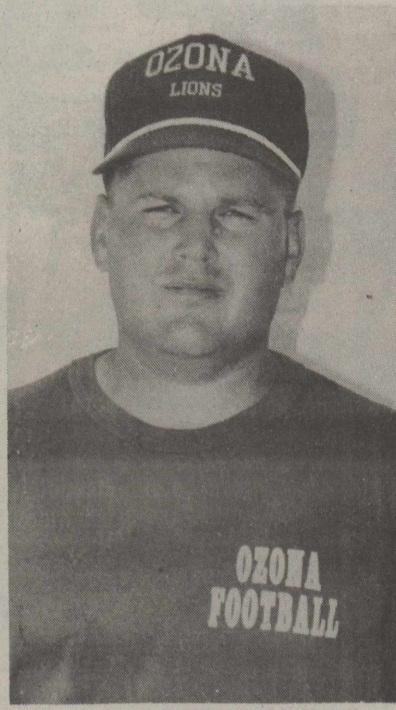

A 1980 graduate of Abilene Christian University, John Cox obtained his bachelor's degree in business administration. His teaching assignments will be eighth grade math, junior high football and track.

Fishing, tennis, woodwork and working on cars are hobbies of Coach Cox when there is some spare time.

Originally from Rotan, a class 1A school, he played quarterback and defensive safety. After college he went back to Rotan and coached the varsity defensive secondary, 7th and 8th grade football and was head tennis coach. He has also coached at Roby and Jacksonville, a 4A school.

His goals at Ozona are to give the football program kids basic techniques, help them to continue to improve during the season and make a good showing this year. "My self goal is to see the kids pick up and show enthusiasm," said Coach Cox.

Coach Cox and his wife, Adriana, are the parents of two energetic boys, Stefan, age three, and Cameron, age 15 months.

Coach Keith Hall

By Neal Ulmer
Stockman Sportswriter

Keith Hall, originally from Menard, last coached at Mt. Pleasant, a class 4A high school. He has also coached at Kemp, a 3A school, and at Kress, a 1A school. His past football coaching duties have been defensive coordinator and secondary, and he has been a head track coach.

In Ozona his coaching duties will include the JV football team and the varsity wide receivers and defensive secondary. He is also high school algebra teacher.

Hall is looking forward to working in a smaller community and getting a chance to know each student. A main goal in working with the older athletes is to make the playoffs year-in and year-out. In working with the younger athletes he sees his goal as helping them to: have a successful season, learn the fundamentals of football, learn how to compete, develop team unity and growing up.

"I think with younger kids a successful season is not necessarily whether you win or lose!" Coach Hall said.

Keith and Kathy Hall are the parents of two children, Jamie, age 7, and Lindsey, age 4.

ASU To Host Fall "College Day"

Sept. 3 -- Angelo State University will host a fall "College Day" for high school seniors and juniors on Saturday, Oct. 2.

Prospective students and their parents are invited to the program, which includes presentations on academic offerings, student activities and organizations, scholarship offerings and financial aid packages.

The program begins at 10 a.m. and runs through 3 p.m. Saturday, Oct. 2. Registration begins at 9:15 a.m. in the Houston Harte University Center. The prospective students are invited to be guests when the ASU Rams meet the Ft. Lewis College Raiders at San Angelo Stadium at 7:30 p.m. that evening.

There is no charge for attending "College Day", and lunch will be provided for participants.

Campus tours and visits with academic departmental personnel are also scheduled.

Faculty members, administrators, student organization leaders and representatives of the admissions, housing, financial aid and the Carr Academic Scholarship offices will be available.

The University bookstore, snack bar, and "Super Slab" recreation facility will remain open all day during the program.

For more information, contact the Office of University Affairs at (915) 942-2117.

Another "College Day" at ASU is scheduled for the Spring Semester, March 5, 1994.

4-H Market Lamb And Ewe Lamb Projects Begin

Market lambs will be distributed Thursday, Sept. 9, starting at 4 p.m. Those 4-H members who need market lambs should come to the 4-H Feeding Barn directly behind the Rodeo Arena to pick up their lambs.

The 4-H commercial ewe lamb project will officially begin on Monday, Sept. 13. Starting at 9 a.m., commercial ewe lambs will be weighed, tagged and sheared at the 4-H Feeding Barn.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socioeconomic level, race, color, sex, religion, handicap or national origin.

Junior Varsity Lions Work Together In Scrimmage

By Neal Ulmer
Stockman Sportswriter

The Ozona JV Lions came up short on the scoreboard but came together as a team last Thursday in their 42 to 7 loss to Reagan County in Lion Stadium. Coach Brad Brevard, in talking to his team after the game, said, "It was a good beginning...It will get better, and the score doesn't mean a thing."

It's not easy to play older and bigger teams, but such was the case with the Reagan County JV Owls. With a squad of oversized sophomores and juniors, the Owls were able to easily capitalize on the miscues of the Lions.

After receiving the kickoff, the Lions were unable to move the ball due to penalties and the offensive line's not firing off the line; however, Reagan County easily moved the ball down the field with good running backs and a huge offensive line. Runs of one and 65 yards scored touchdowns for the Owls in the first quarter of play.

The Lions continued with their problems on a bounced ball off Pete Castaneda, but a good recovery by Glen Tinney saved it from being lost. The alternating of quarterbacks Richard Gonzales and Jeremie Castro along with running backs Pete Castaneda and Anthony Sanchez was an attempt to keep the Owls off balance.

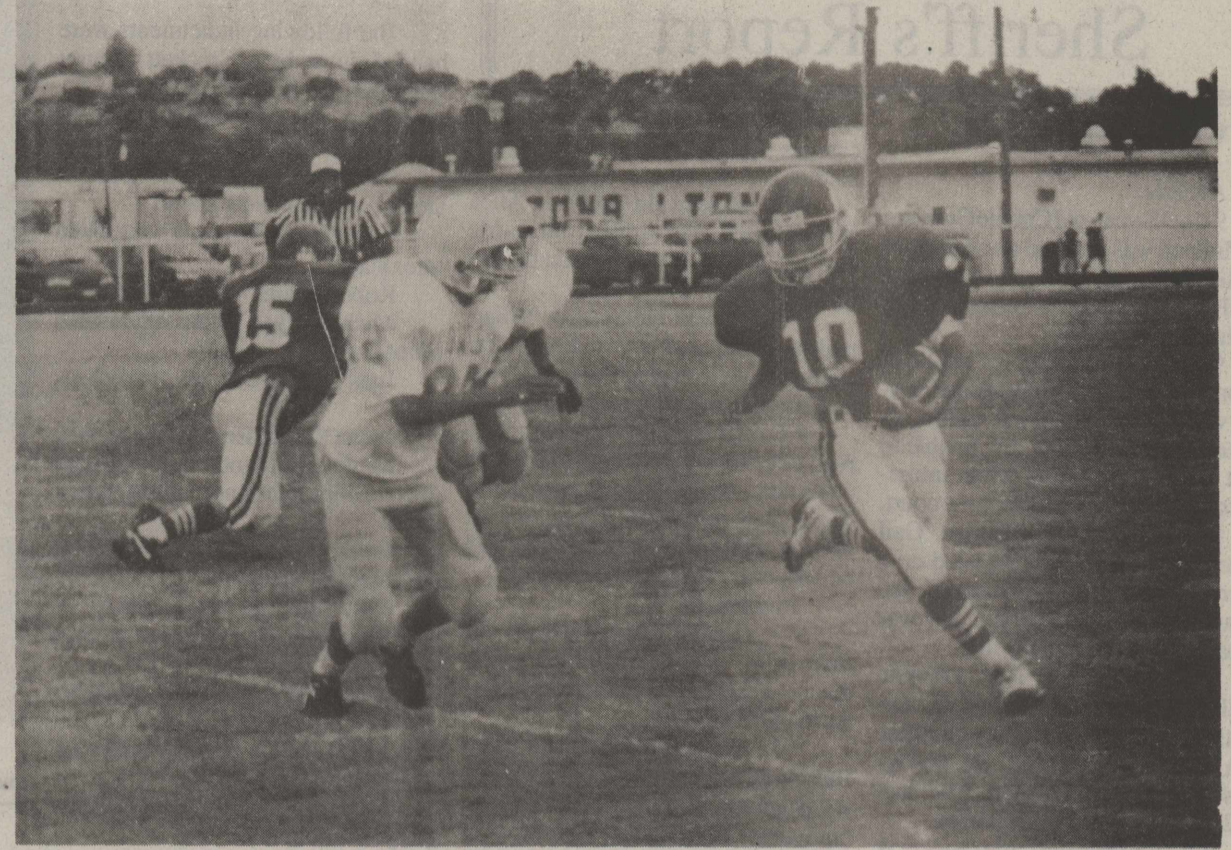

In the second quarter, Reagan County scored twice, once on a 57-yard reverse, and the other on a 2-yard run. This left the halftime score at Reagan County 34, Ozona 0. During the game, good pass-defense efforts by Casey Upham, Lynne Haire and Jeffrey Ybarra prevented several two-point conversions.

Close to the end of the second quarter, the Lions came near to scoring using their two quarterbacks, Castro and Gonzales. They advanced the ball to the 8-yard line, but were unable to convert and ran out of time.

In the second half, Reagan County received the ball, but good defensive efforts by Patrick Sanchez and Upham forced the Owls to punt. With Gonzales again at quarterback, the team advanced to the Reagan County 24-yard line, then a penalty against the Owls helped move the ball to the 10. The Lions eventually scored on a 15-yard pass from Castro to Jon Sanchez.

Reagan County fumbled the ball after receiving it on the 36-yard line, and it was recovered by Korte Jones. With Castro at the helm, the ball was advanced to the 20, but the ball was fumbled by Gonzales, recovered and advanced to the 40-yard line by the Owls before the Lions could come up with a score.

Reagan County was stopped on fourth and 31, and punted to the Lions. Ozona had the ball at the beginning of the fourth quarter, fumbled, recovered, and on fourth and 11, a run by Castro was unsuccessful as Reagan

QB RICHARD GONZALES, #10, runs around a Reagan County JV defender as #15, Casey Upham, gets a block.

Photo by Neal Ulmer

County took over on their own 37-yard line.

The Lions put up a good defensive effort but were still unable to stop Reagan County's running game, and the Owls eventually scored on a 35-yard run.

The Lions cranked up their offense after getting the ball on their 38-yard line, and advanced the ball through an excellent combination of running

plays featuring Jon Sanchez, Bryan Mendez and Richard Gonzales to the 1-yard line, but were unable to convert and Reagan County took over the ball on downs.

Reagan County put together some good runs before fumbling, but as the Lions recovered, the clock ran out with the final score Reagan County 42, Ozona 7.

Following the game, Brevard told the team they showed a lot of poise and there were people in the right spots making big plays. "They didn't cool off, and they played even with the Owls in the second half," the coach said.

Thursday evening, Sept. 9, the Lions will take on the Iran Braves at 6 p.m. in Iran.

Leave Fawns, Other Newborn Wildlife Alone

AUSTIN—Many Texans are concerned about wildlife and will do what they can to protect them. The Texas Parks and Wildlife Department has been inundated with calls from concerned citizens who want game wardens or biologists to come get a fawn they've found, then get upset when they're told the fawn more than likely is okay and should be left alone. This is not a new problem. Each spring brings the birth of deer fawns and other wildlife, and the urge by many Texans to take these animals home for fear that they have been abandoned by their mothers.

In addition to being illegal to handle most wildlife except during legal game seasons, newborn wild animals are almost never abandoned and should be left alone.

"Every year during late spring and early summer, fawns are found by people in rural areas and, thinking the fawns have been abandoned by their mothers, the well intentioned individuals take the fawns home with them to try to bottle feed and raise," said David Rideout, a TPWD technical guidance biologist from College Station. "They often end up calling the local game warden, park ranger or biologist wanting to find out what to do."

The fawn should be left where it is found, "no matter how cute and appealing it may be," he said. "It is perfectly normal for the doe to leave her young fawn in grassy, weedy areas while she's off feeding. The doe returns occasionally to check on the fawn and allows it to nurse. Because of the fawn's natural instinct to lie still at this early age, people are able to walk right up to fawns."

David Palmer, director of field operations in the law enforcement division, said it is a violation of the law

to handle wildlife species. It also is illegal to possess wildlife unless it is legally taken during a legal, open season. Anyone violating this law could be charged with a Class C Parks and Wildlife Code misdemeanor and would be subject to a fine of up to \$500.

New Findings On Cause Of Lou Gehrig's Disease

HOUSTON - Antibodies attacking the nervous system may be the primary cause of Lou Gehrig's disease, or amyotrophic lateral sclerosis (ALS), say researchers at Baylor College of Medicine in Houston.

"It appears that in ALS the body attacks itself, making it an autoimmune disease," said Dr. Stanley Appel, Baylor's chairman of neurology.

The findings of the Baylor team led by Dr. Glenn Smith, assistant professor of neurology, are published in the Dec. 10 issue of the *New England Journal of Medicine*.

ALS involves the progressive breakdown of motor neurons, nerve cells that control muscular activity. It results in severe muscle weakness and difficulty in speaking, swallowing and breathing.

"Prior research by Baylor's Dr. Enrico Stefani demonstrated that antibodies attack the outside of calcium channels in these cells," Appel said. "These channels serve as the opening through which calcium enters the cells."

Changes in calcium levels can damage motor neurons, resulting in loss of muscle control.

The study involved 144 persons, including patients with ALS, other motor neuron diseases and certain neurologic disorders.

In 75 percent of the ALS patients, researchers found that blood samples contained an antibody that attacks

calcium channels.

The only other significant reactions were seen in patients with an autoimmune disease, Lambert-Eaton syndrome; however, the antibody attacked at a different location on the channel.

Other diseases did not show high amounts of the antibody.

Smith believes several factors indicate the antibody attack causes the disease rather than occurs as a result of ALS.

"The amount of antibody present correlated with how fast the disease progressed, regardless of whether the condition was recently diagnosed or the patient was well into the disease," Smith said.

If something else caused the disease, he said, the amount of antibody would most likely correspond to the disease stage.

"Also, the antibody only attacks the outside of the calcium channel, not the inside," Smith said. "If the antibody developed after the disease had begun, it would also attack the inside of the channels."

In addition, family-linked ALS, which occurs in 10 percent of ALS patients, showed no signs of the antibody.

"If the antibody resulted from motor neuron destruction, then hereditary cases should also have had antibodies," Smith said.

This research encourages the

development of new therapies designed to "soak up" the antibodies as well as suppress their production, Appel said.

Collaborative research involved Stefani's lab in Baylor's Department of Molecular Physiology and Biophysics and Dr. Franz Hofmann of Universität des Saarlandes in Hamburg, Germany.

The ALS study is funded by the Muscular Dystrophy Association and Cephalon, Inc.
