OHS adds new technology program to curriculum

By Ted Cotton
Assistant Superintendent

Members of the Ozona School Board, meeting in regular session on Tuesday, May 19, approved the implementation of a Net XV Cisco Network Academies program in Ozona High School that will begin during the second semester of school next year.

In presenting the proposal to implement this program in Ozona High School, Superintendent Larry Taylor said, "During the 20th century, auto shop and similar high school classes taught vocational skills for that era's economy. Today the national and state economies are run on information which revolves around computer and networking technologies. Yet business and industry face a shortage of information workers with the technical expertise to develop, construct, and maintain advanced technology network systems.

According to an Information Technology Association of America study, there are now approximately 190,000 unfulfilled technology jobs in mid-to-large sized United States companies. This is growing every day while Texas schools are struggling to supply the needed skills. More than 80 percent of our nation's schools lack the basic technology for direct Internet connection.

The Region XV Education Service Center in San Angelo and Cisco Systems, Incorporated, a nationwide leader in Internet networking systems, are preparing to implement a Network Academies Program to develop a partnership between public high

schools, colleges and universities, regional businesses, and governmental agencies located in the San Angelo area."

Taylor went on to explain that this innovative training and certification program will help Ozona students accomplish four objectives: develop opportunities for them to receive concurrent high school graduation and college credit with selected colleges, universities and technical schools; help them receive high level certification in networking technology; position them for immediate openings in a talent-hungry job market by providing opportunities for job recruitment and placement for Academy graduates; and, prepare them for engineering and science-focused college or technical school studies.

Taylor also stated that the start-up cost for the networking course will be \$13,000; however, Mr. Don Ickles, Texas Education Agency field service representative who is based at the Region XV Education Service Center, has written an innovative grant proposal that may cover this start-up cost. "For this cost we will receive \$60,000 of networking equipment and material from Cisco to establish our networking course," he said.

Superintendent Taylor went on to explain that the district would not need to employ another teacher for this additional vocational offering. "Mr. Wiley and I are recommending that Pete Maldonado, vocational automotive teacher and coach in Ozona High School, teach this new

1998 OHS Graduates move forward

"Do not fear for us; we are only becoming ourselves," said valedictorian Amber Tarr at commencement exercises May 22. Along with these words for family and friends, she also urged classmates to "give your best to whatever you do with your life."

The welcoming address by salutationist Amber McWilliams brought laughter with her top 10 reasons to graduate from Ozona High School, but she also added a serious note of recognition to those whose guidance had meant much over the years. "Believe in yourself," she told fellow graduates.

"There are many paths to choose," said Lauren Wilkins who also urged her class members to "strive for excellence" as they go out into the world.

The importance of ties to the past was stressed by Evangela Coy when she said, "never forget where you come from and who you are."

Completing the student portion of the program were two other magna cum laude graduates, Leslie Avila, who gave the invocation, and Autumn McWilliams, the benediction.

State Representative Bob Turner was special guest for the event, and State Senator Frank Madla was guest speaker. "Don't worry about coming from a small community," said Madla. He assured the graduates that they had far greater advantages through being closer to families and teacher, receiving

more individual attention and being in smaller classes. "Never allow obstacles to be the excuse for quitting," advised Madla.

Receiving Presidential Academic Awards from Principal Donny Wiley were: Amber Tarr, Amber McWilliams, Lauren Wilkins, Evangela Coy and Kristen Shurley.

UIL Scholar Awards went to Tarr, Amber McWilliams, Lauren Wilkins, Coy, Autumn McWilliams, Traci Screws and Haley Holden.

Recognized for their status as cum laude graduates were: Traci Screws, Haley Holden, Kristen Shurley, Bobbie Bryson, Stephanie Franco, Dena Webb, Araceli Tijerina, Kristy Pridemore and Juli Hall.

Magna cum laude honors were earned by Amber Tarr, Amber McWilliams, Lauren Wilkins, Evangela Coy, Leslie Avila and Autumn McWilliams.

Thousands of dollars in scholarships were awarded to members of the Class of 1998. In addition to the state's scholarship to the valedictorian, Amber Tarr received the Best Citizen Award presented by Jane Black on behalf of Ozona Women's Forum.

Evangela Coy was the recipient of the following scholarships: National Service presented by Mr. Wiley, Beta Sigma Phi Sorority by Laurie Hale, Ozona Women's League by Jeanine Henderson and Lions Club by Jeffrey Stuart.

John Hunnicutt and Lauren Wilkins received the Crockett County Fair Association scholarships presented by Mr. Wiley, and Lauren was also awarded the United Methodist Church Scholarship presented by Karen Huffman.

The Arts and Crafts Guild scholarship presented by Mr. Wiley went to Brian Badillo. He also received the Charlotte B. Phillips Art Scholarship presented by Hope Phillips and a new scholarship from the Guadalupanas presented by Edward Fierro.

Juli Hall was the second recipient of the Charlotte B. Phillips Art Scholarship, and a second Guadalupanas scholarship went to David Martinez.

The Crockett County Youth Center Association's memorial scholarship was given to Maria Trujillo by

Garland Young, and he also awarded a new scholarship from Project Graduation to Terren Marshall.

The Knights of Columbus Scholarship went to Juan Esparza with Edward Fierro making the presentation. Juan also was awarded the Alpha Delta Kappa Sorority scholarship by Jeanine Henderson.

Jimmy Ortiz presented two scholarships. Maria Quiroz was the J and J Productions recipient, and George Hernandez received the scholarship from Ozona Golf Association.

Robert Daniels was awarded the scholarship from Shot's and Shelton Oil and Gas by Victor Newton.

Retirement plans plentiful for Hood

Gene Hood retired last week after 27 years of teaching math and coaching in Ozona. They've been good years according to Hood who is a big supporter of young people and a strong believer in Ozona.

"We came here to make Ozona a home and raise our children here," said Hood. He and wife Doris "believe in Ozona and in trying to make it a better place to live."

During his 20 years of coaching, Hood said he was fortunate to work under some very knowledgeable and proficient coaches, Rip Sewell and Don Abbott in football, John Curry in basketball and John Richie in track.

"I've seen some very, very good athletes go through this school system in almost three decades.

"It's been a lot of fun. I hope I've been a positive influence in the lives of some young people," he said of his career.

Even though he is retiring, Hood doesn't plan to get out of youth work. He and Doris are both active at First Baptist Church and will continue to serve there. He expects to be a more integral part of the community as a worker, a servant, Hood said. He doesn't plan to do any "new work" for a while, however.

The three main things he does plan to do in retirement are golf seven, eight or nine days a week, fish and be more involved in the community.

Spending more time with grandchildren, gardening and working in the yard and "doing a whole lot of

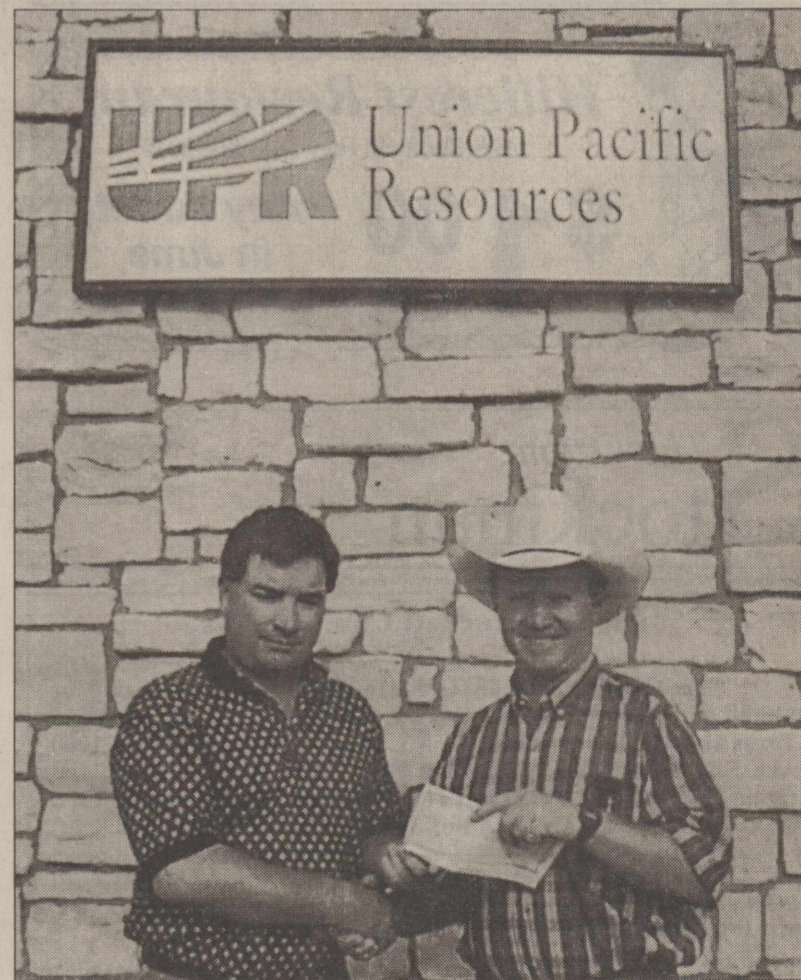

nothing" are also on the horizon. You might even see him "walk barefooted through the garden" if you are near the Hood home at just the right time.

When the Hoods came to Ozona, the town was one big family community, not just a bunch of people living here, he remembers. "Everybody knew and cared for each other. It is still that way, but not the same degree." There was more parental involvement. Today's kids are hurting from a lessening of parents' leadership stability and values, Hood believes.

"Teaching allows you to touch the lives of more families and become friends with more people," said Hood. "Most people are lucky if they get one real friend in their lifetime. We've been lucky. We have, I consider, a multitude of friends in Ozona."

Doris and Gene Hood are both from the Whitesboro area. They grew up on farms five miles apart and attended the same schools. Their children are Eugene Hood and Wendy Tambunga of Ozona and Bret Hood of Houston. Doris is also employed by the school system where she works as secretary to the superintendent.

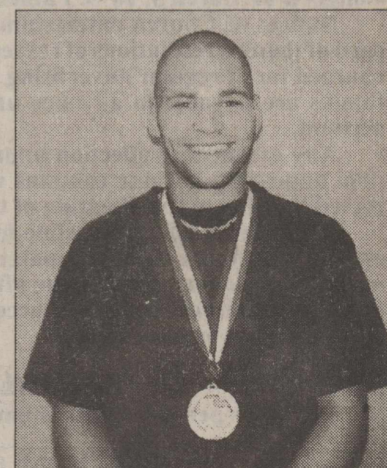

Before becoming a teacher, Hood spent four years in the Navy. He was honorably discharged as a second Class Petty Officer, having worked in guided missile and aviation electronics. He spent 10 years as a production engineer contracts administrator at General Dynamics/Bell Helicopter in Fort Worth before earning a bachelor's degree in mathematics at the University of Texas at Arlington.

Public Notice

STB Docket No. AB-545 NOTICE OF INTENT TO ABANDON AND DISCONTINUE SERVICE

South Orient Railroad Company, Ltd. ("SORC") gives notice that on or about June 17, 1998, it intends to file with the Surface Transportation Board, Washington, D.C. 20423, an application for permission for the abandonment of a line of railroad known as the San Angelo-Presidio Line, extending from milepost 722 south of San Angelo near Mertzon station to milepost 1029 + 767 feet at the end of the line near Presidio station (including the discontinuance of trackage rights over the Union Pacific Railroad Company from milepost 945.3 at Alpine Junction to milepost 956.7 at Paisano Junction), which traverses United States Postal Service ZIP Codes 76903, 76666, 76930, 76932, 79778, 76752, 79735, 79830, 79832, and 79845, a distance of approximately 307.12 miles, in Brewster, Crane, Crockett, Irion, Pecos, Presidio, Reagan, Tom Green and Upton Counties, Texas. The line includes the stations of Mertzon, milepost 745.7; Barnhart, milepost 771.6; Big Lake, milepost 790.6; Rankin, milepost 819.9; McCamey, milepost 838.6; Baldrige, milepost 863.8; Sulphur Jct., milepost 869.4; Fort Stockton, milepost 881.7; Belding, milepost 892.9; Hovey, milepost 917.2; Alpine, milepost 944.3; Alpine Jct., milepost 945.6; Paisano Jct., milepost 956.7; Paisano, milepost 956.9; Tinaja, milepost 969.3; Plata, milepost 993.7; Casa Piedra, milepost 1002.9; and Presidio, milepost 1026.7.

The reasons for the proposed abandonment and discontinuance are that present and anticipated local and overhead traffic volumes are not adequate to make the line viable, that the line is incurring substantial operating losses, and that significant rehabilitation costs are expected in the near future with no reasonable possibility that they can be recovered. The line is unprofitable, will be unprofitable in the future and is an undue burden on interstate commerce. Based on information in SORC's possession, the line does not contain federally granted rights-of-way. Any documentation in the railroad's possession will be made available promptly to those requesting it.

This line of railroad has been included in SORC's system narrative description (filed pursuant to 49 C.F.R. § 1152, Subpart B) in Category 1 since April 17, 1998.

The interest of railroad employees will be protected by the conditions set forth in Oregon Short Line R. Co. -- Abandonment -- Goshen, 360 I.C.C. 91 (1979).

The application will include the Applicant's entire case for abandonment and discontinuance. Any interested person, after the application is filed on or about June 17, 1998, may file with the Surface Transportation Board written comments concerning the proposed abandonment and discontinuance or protests to it. These filings are due 45 days from the date of filing the application. All interested persons should be aware that following any abandonment of rail service and salvage of the line, the line may be suitable for other public use, including interim trail use. Any request for a public use condition under 49 U.S.C. § 10905 (Section 1152.28 of the Board's rules, 49 C.F.R. § 1152.28) and any request for a trail use condition under 16 U.S.C. § 1247(d) (Section 1152.29 of the Board's rules, 49 C.F.R. § 1152.29) must also be filed within 45 days from the date of filing of the application. Persons who may oppose the abandonment and discontinuance but who do not wish to participate fully in the process by appearing at any oral hearings or by submitting verified statements of witnesses, containing detailed evidence, should file comments. Persons interested only in seeking public use or trail use conditions should also file comments. Persons opposing the proposed abandonment and discontinuance that do wish to participate actively and fully in the process should file a protest.

Protests must contain that party's entire case in opposition including the following:

- (1) Protestant's name, address and business.
 - (2) A statement describing protestant's interest in the proceeding including:
 - (i) A description of protestant's use of the line,
 - (ii) If protestant does not use the line, information concerning the group or public interest it represents; and
 - (iii) If protestant's interest is limited to the retention of service over a portion of the line, a description of the portion of the line subject to protestant's interest (with milepost designations if available) and evidence showing that the Applicant can operate the portion of the line profitably, including an appropriate return on its investment for those operations.
 - (3) Specific reasons why protestant opposes the application including information regarding protestant's reliance on the involved service [this information must be supported by affidavits of persons with personal knowledge of the fact(s)].
 - (4) Any rebuttal of material submitted by Applicant.
- In addition, a commenting party or protestant may provide a statement of position and evidence regarding:
- (i) Intent to offer financial assistance pursuant to 49 U.S.C. § 10904;
 - (ii) Environmental impact;
 - (iii) Impact on rural and community development;
 - (iv) Recommended provisions for protection of the interests of the employees;
 - (v) Suitability of the properties for other public purposes pursuant to 49 U.S.C. § 10905; and
 - (vi) Prospective use of the right-of-way for interim trail use and rail banking under 16 U.S.C. § 1247(d) and 49 C.F.R. § 1152.29.

A protest may demonstrate that: (1) the protestant filed a feeder line application under 49 U.S.C. § 10907; (2) the feeder line application involves any portion of the rail line involved in the abandonment and discontinuance application; (3) the feeder line application was filed prior to the date the abandonment and discontinuance application was filed; and (4) the feeder line application is pending before the Board.

Written comments and protests will be considered by the Board in determining what disposition to make of the application. The commenting party or protestant may participate in the proceeding as its interests may appear.

If an oral hearing is desired, the requester must make a request for an oral hearing and provide reasons why an oral hearing is necessary. Oral hearing requests must be filed with the Board no later than 10 days after the application is filed.

Those parties filing protests to the proposed abandonment and discontinuance should be prepared to participate actively either in an oral hearing or through the submission of their entire opposition case in the form of verified statements and arguments at the time they file a protest. Parties seeing information concerning the filing of protests should refer to 49 C.F.R. § 1152.25.

Written comments and protests, including all requests for public use and trail use conditions, should indicate the proceeding designation STB Docket No. AB-545 and must be filed with the Secretary, Surface Transportation Board, Washington, DC 20423, no later than August 3, 1998 (or 45 days after the application is filed, whichever is later). Interested persons may file a written comment or protest with the Board to become a party to this abandonment and discontinuance proceeding. A copy of each written comment or protest shall be served upon the representative of the Applicant, Christopher E. V. Quinn, Oppenheimer Wolff & Donnelly (Illinois), Two Prudential Plaza, 45th Floor, 180 North Stetson Avenue, Chicago, Illinois 60601; telephone: 312/616-5841. The original and 10 copies of all comments or protests shall be filed with the Board with a certificate of service. Except as otherwise set forth in 49 C.F.R., Part 1152, each document filed with the Board must be served on all parties to the abandonment proceeding. 49 C.F.R. ¶ 1104.12(a).

The line sought to be abandoned and discontinued will be available for subsidy or sale for continued rail use, if the Board decides to permit the abandonment and discontinuance, in accordance with applicable laws and regulations (49 U.S.C. § 10904 and 49 C.F.R. § 1152.27). No subsidy arrangement approved under 49 U.S.C. § 10904 shall remain in effect for more than one year unless otherwise mutually agreed by the parties (49 U.S.C. § 10904(f)(4)(B)). Applicant will promptly provide upon request to each interested party an estimate of the subsidy and minimum purchase price required to keep the line in operation. The carrier's representative to whom inquiries may be made concerning the sale or subsidy terms is:

Christopher E. V. Quinn
 Oppenheimer Wolff & Donnelly (Illinois)
 Two Prudential Plaza, 45th Floor
 180 North Stetson Avenue
 Chicago, Illinois 60601

Person seeking further information concerning abandonment and discontinuance procedures may contact the Surface Transportation Board or refer to the full abandonment and discontinuance regulations at 49 C.F.R., Part 1152. Questions concerning environmental issues may be directed to the Board's Section of Environmental Analysis.

A copy of the application will be available for public inspection on or after June 17, 1998, at all stations through which business for the line is

received and forwarded from 10:00 a.m. until 4:00 p.m., Monday through Friday (excluding all holidays). The names, addresses, and locations of all stations through which business for the line is received or forwarded are as follows: 1) Presidio station, 5th Street & Churchill, Presidio, Texas 79845, milepost 1026.7; 2) Alpine station, 801 West Del Rio, Alpine, Texas 79830, milepost 944.3; 3) San Angelo station, 2200 East 28th Street, San Angelo, Texas 76901, milepost 714.5; and 4) SORC's operations center, 210 South Main, Brownwood, Texas, 76801. The carrier will furnish a copy of the application to any interested person proposing to file a protest or comment, upon request.

An environmental assessment (EA) (or environmental impact statement (EIS), if necessary) prepared by the Section of Environmental Analysis will be served upon all parties of record and upon any agencies or other persons who commented during its preparation. Any other person who would like to obtain a copy of the EA (or EIS) may contact the Section of Environmental Analysis. EAs in an abandonment proceeding normally will be made available within 33 days of the filing of the application. The deadline for submission of comments on the EA will generally be within 30 days of its service. The comments received will be addressed in the Board's decision. A supplemental EA or EIS may be issued where appropriate. 4c16

Public Notice

NOTICE OF PUBLIC HEARING

Crockett County Water Control & Improvement District No. 1 will hold a public hearing Monday, June 8, 1998 at 6:00 p.m. at 511 11th St. considering the adoption of the following proposed policy.

CROCKETT COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 1 IMPROVEMENT POLICY

A. General: Administration and enforcement of this policy is the responsibility of the Manager or his authorized representative(s).

B. All Improvements: water and sewer, shall conform to TNRC and District specifications and are subject to District inspection throughout the design and construction process.

C. Failure to Comply: Failure to comply with the regulations established by the District shall result in rejection of improvements offered for dedication.

D. Definitions:
 BOARD-The "Board" shall mean the Board of Directors of the Crockett County Water Control & Improvement District No. 1, consisting of five (5) elective members.

Developer-means a person who subdivides land or requests more than two water or sewer service connections on a single contiguous tract of land.

District-Crockett County Water Control and Improvement District No. 1

Service Applicant-means a person, other than a developer, who applies for retail water or sewer utility service.

TNRC-Texas Natural Resources Conservation Commission.

UTILITY IMPROVEMENTS WITHIN THE DISTRICT BOUNDARIES

1. Where a service applicant desires to improve a single property lying entirely within the District boundaries and where this property cannot be construed to be part of, or a result of, a subdivision of a larger tract, the following shall define the extent of District participation in said improvement(s):

A. The District will furnish material and labor for installing the first one hundred (100) feet of service or extension, but same shall not be accumulative to subsequent purchasers or assigns. The service applicant will be responsible for all excavation including the first one hundred (100) feet, as well as any materials and appurtenances for the extension beyond the first one hundred (100) as required for the extension.

B. All extensions will conform to District specifications if applicable, and are subject to inspection by representatives from the District throughout the installation process.

C. All tap fees and deposits must be paid in advance. Priorities will be set by the District and all District work will be done on a priority basis.

D. The District will install meter coupling and unspecified length of pipe not to exceed twelve (12) inches on customers side. The owner/Customer must install a manual cutoff for owner/customer use when making repairs or during times of an emergency on the private side of the line.

E. Upon completion to the District's specifications. The District will assume ownership and control of the new sewer and/or water mains, meters, and other appurtenances associated with the extension, and any new connections to the main will be made to District specifications. Tap fees will be retained by the District for new connections.

F. All mains will be located within the County owned streets and alleys or upon easement granted to the District in writing and properly recorded at the County Clerks office.

2. Where a developer, who subdivides land or request more than two (2) water or sewer connections on a single contiguous tract of land, this developer is responsible for all costs involved to extend mains to service the developed property in addition to Paragraph 1 A-F above.

IMPROVEMENTS OUTSIDE DISTRICT BOUNDARIES

1. Property owner(s)/customer outside the District Boundaries requesting water, sewer, and sanitation service, shall make an application to the Board for said services. If approved by the District, the property owner(s)/customer shall follow the same rules and regulations as set in paragraphs 1 and 2 above, with the exception of:

A. The District will furnish material and labor for the first one hundred (100) feet within the District only. The service applicant/developer shall furnish all excavation including the first one hundred (100) feet of the extension.

B. The District shall not furnish any excavation, material or labor for the first one hundred (100) feet for extensions outside the District boundaries. 2c15

Cook of the Week Virginia Hubbard started baking when she was a little girl and admits to having a sweet tooth. At the same time, she is health conscious and works at preparing nutritious foods and at exercising.

Virginia loves her kitchen. She is especially proud of the hummingbird stained glass window over the sink. The window was done by Deborah Lindsey.

In addition to cooking, Virginia is an avid yard and greenhouse gardener. She is a member of First Baptist Church, Ozona Woman's Forum, Ozona Garden Club, 42 Club and the Ozona/Sonora Sewing Club. Virginia also loves making decorative needlework pieces in counted cross stitch.

Her husband, Perry, ranches. They love to travel and hope to go to Nashville this year. They celebrated the 50th anniversary of their wedding with a trip to New Zealand.

The Hubbards have two children. Connie and her husband, Tom Hall, live in Ruidoso. Steve is an Ozona resident. Three of their four grandchildren, Marshall, Ashley and Nathan and his wife, Missy, also live in Ozona. Renée and Mike Walth are at home in Lancaster, CA, with daughter Maddie.

Most of the recipes Virginia shares this week are quick and easy to make in keeping with the busy lifestyles of families today.

- Pecan Oven Fried Chicken**
- 1 1/2 c. buttermilk
 - 1 T minced garlic
 - 2 tsp. grated fresh ginger (optional)
 - 1 tsp. ground cumin
 - 1 tsp. salt
 - 4 chicken breast halves on bone (6 oz. each) with skin removed
 - 1/2 c. dry unseasoned bread crumbs
 - 1/4 c. pecans, finely ground
- In sealable plastic bag, combine buttermilk, garlic, ginger, cumin and

salt. Add chicken. Shake to coat. Seal bag, refrigerate 8 hours or overnight, turning occasionally.

Heat oven to 425°. In flat dish combine bread crumbs, pecans. Place chicken meat side down in crumbs to coat. Place, coated side up, in nonstick baking pan. Discard marinade.

Bake at 425° for 20 minutes, then at 350° for 15 to 20 minutes.

- Hawaiian Banana Nut Bread**
- 3 c. flour
 - 2 c. sugar
 - 1 tsp. soda
 - 1 tsp. salt (may omit)
 - 1 tsp. cinnamon
 - 1 c. chopped nuts
 - 1 1/2 c. oil
 - 3 eggs, beaten
 - 2 c. mashed bananas
 - 1 8 oz. can crushed pineapple, drained
 - 2 tsp. vanilla
- Combine dry ingredients, stir in nuts and set aside. Combine remaining ingredients and add to dry ingredients, stirring until batter is moistened. Bake in two greased loaf pans for 1 hour at 350°. Cool completely.

- Virginia's Refrigerator Cake**
- 1 Duncan Hines yellow cake mix
 - 1 can Mandarin oranges
 - Use juice from oranges for water and follow directions for cake mix.
- Frosting:**
- 1 6-oz. can crushed pineapple, drained
 - 1 med. Cool Whip
 - 1 lg. box instant vanilla pudding
- Mix altogether, frost and refrigerate.

- Oven Fries**
- 4 sm. baking potatoes (about 1 lb. total)
 - 1 T margarine, melted
 - 1/4 c. grated Parmesan cheese
 - 1/2 tsp. garlic salt
 - 1/4 tsp. paprika
 - Onion powder if desired.

WE GET LETTERS

Dear Scotty and Linda,
Friday afternoon the Fire Department responded quickly to a call about a grass fire between our place and Guy Hester's. He was cooking in the yard and had discarded the previous night's ashes on the dry grass on the hill a few yards from where he was. The dry conditions and wind combined to ignite those ashes, and the flames quickly spread north toward the only home we have. When we noticed the smoke in the back yard we ran out the front door to see Guy with his water hose trying to put out the flames. Our water hose

wasn't much more help. We have VERY LITTLE water pressure at our place, like a lot of Ozona homes. The Fire Department saved the day, and we're very grateful. However, we think the Water Department needs to do some serious thinking about this problem. It isn't just our hill, it seems to be in a lot of parts of Ozona. And we shudder to think what could have happened if the fire trucks had been called somewhere else first.

Thank you,
Len and Mary Hillman

*Graduates (Continued from page 1)

National Bank was presented to Amber and Autumn McWilliams by Mel DeHoyos.

Stephanie Castro, a 1984 graduate of Kiddie Klub at Ozona Community Center, was given the community center scholarship by Corey Seahorn.

Five seniors received Becky Childress Memorial Scholarships. Awarding this new scholarship was Vicki Stokes. Recipients included: Justin Browne, Melissa Childress, Leslie Avila, Dena Webb and Traci Screws.

Ushers for the Class of 1998 were: Leana Baggett, Rachel Murr, Jomie Tebbets and Mark Childress.

Graduation programs listed the class roll as follows: Amber Tarr, Amber McWilliams, Lauren Wilkins, Evangela Coy, Leslie Avila, Autumn McWilliams, Traci Screws, Haley Holden, Kristen Shurley, Bobbie Bryson, Stephanie Franco, Dena Webb, Araceli Tijerina, Kristy Pridemore, Juli Hall, Brian Badillo, Jason Baker, Wesley Bean, Byron Beasley, Russell Bishop, Justin Browne, Esequiel Castillo, Stephanie Castro, Louis Cervantez, Melissa Childress, Connie Cowen, Robert Daniels, Alma DeLaCruz, Mary Helen DelaGarza, Gary Dominguez, Maribel Dominguez, Juan Esparza, Anna Fierro, Lindsey Flanagan, Jim Bob Flanagan, Shannon Fleming, Armando Flores, Molly Flores, Benjamin Forehand, Emily Galindo, Veronica Garcia, Gabriel Garza, Misty Gomez, Cecilia Gonzalez, Hilario Guadarrama, Richard Hamon, Robert Hamon, George Hernandez, Susan Hester, Nicole Hodges, John Hunnicutt, Kristen Kasburg, Micheal King, Angelica Longoria, Terren Marshall David Martinez, Courtney Mitchell, Donald Molinare, Misty Moore, Robert Nelson, John Ortiz, Melissa Oviedo, Brandon Parlow, Maria Quiroz, Efran Ramirez, Felicia Ramirez, Frankie Ramos, Jaime Ramos, Stacy Ramos, Brandon Rodgers, Samuel Rodriguez, Michael San Miguel, Amanda Shaffer, Loretta Stewart, Felix Suarez, Juan Tambunga, Magdalena Trujillo and Dennis Vargas.

Forum members meet at the Devil's River

On May 9, members of Ozona Woman's Forum met at the Devil's River. Lucille Littleton and Crystelle Childress were co-hostesses.

Shirley Kirby, president, presided at the meeting. Roll was called, and the minutes were read and approved.

Shirley had received a GFWC certificate commending the Forum on their report on the 911 project. She had also received a letter from GFWC stating that Jennifer Evans had received a \$1,000.00 scholarship. Jennifer plans to attend University of Texas-San Antonio for her graduate work.

Resignations were received and accepted from Marcille Long and Joyce Maness. Arlene Clayton was received as a member.

Dorothy Montgomery gave the installation program. This was very

well done. New officers of Ozona Woman's Forum are: Jane Black, president; Beverly Evans, first vice-president; Vada Pridemore, second vice-president; Sandy Bebee, recording secretary; Dorothy Montgomery, corresponding secretary; Glenda Henderson, treasurer; Shirley Kirby, parliamentarian.

Shirley Kirby presented Jane Black with the president's pin.

Projects were read by Vada Pridemore and accepted by club vote. These are: increase the donation to the GFWC scholarships; lead the drive for Project Clean-Up; assist on the county landscaping on the new courthouse annex; assist on the Charlotte B. Phillips Art Scholarship to be given to a qualifying senior boy or girl who plans to continue their art education in

college; and donate to the museum.

Shirley Kirby was presented a gift of appreciation by Benny Gail Hunnicutt for the outstanding work done as president.

Brunch was served by the hostesses as everyone arrived. Members brought their own sack lunch, and ice cream and cake were served for dessert.

Jane Black dismissed the group with a prayer.

Members attending were: Jewel Bailey, Marolyn Bean, Sandy Bebee, Jane Black, Geniece Childress, Nancy Childress, Charlotte Harrell, Glenda Henderson, Benny Gail Hunnicutt, Lu Ingram, Jimmie Jacoby, Georgia Kirby, Shirley Kirby, Lucille Littleton, Dorothy Montgomery, Willa Perry, Vada Pridemore, Mary Sellers, Helen White and Patsy White.

Day camp planned for community center

Summer day camp is a fun and exciting program developed for children ages 2-12 at Ozona Community Center. There will be 10 one week sessions beginning June 1. Children may be signed up for one week or all ten. Each week will have a different theme with crafts, projects, visitors, field trips, songs and games to go along with the theme.

There will also be water fun, volleyball, badminton and bowling for bubbles and more.

Here is a list of sessions and a few of the activities planned.

June 1-5: Introduction Week. This will give the children a chance to get to know each other by making self-portraits. There will be a birthday party for all and a dance on Friday.

June 8-12: Nature Week. Children will explore the wonders of nature, make bird feeders, learn about butterflies and gardening.

June 15-19: Old McDonald's Farm. Learn about life as a farmer and farm animals.

June 22-26: Outerspace Week. Spaceships, robots, stars and planet exploration.

June 29-July 3: Carnival Week. Kids will make game booths and put on their own carnival.

July 6-10: Wild Wild West Week. Pioneering, panning for gold, stick horse rodeo.

July 13-17: Safari Week. Kids will make safari gear and go on a

safari.

July 20-24: Mardi Gras Week. Masks, necklaces and Mardi Gras floats.

July 27-31: Chef's Week. Kids will learn cake decorating, making bread and butter.

Aug. 2-6: Transportation Week. How people get places. They will make their own transportation.

These are just some of the many activities planned. It's going to be great fun, says a spokesperson for the center. Don't miss out. Spaces are limited, so sign up now.

Pecan trees need foliar zinc

By Miles Dabovich, CEA-AG

A famous horticulturist once said that the pecan industry would never have developed if foliar zinc sprays had not been accepted by growers as part of their pecan management program. Foliar zinc sprays are absolutely essential in Texas, especially in West Texas where high pH soil and low relative humidity predominate.

Classroom lectures can go into great details as to why zinc is an essential minor element needed by plants. Pecan growers need to understand that the pecan tree has great difficulty in removing zinc from the soil. Scientists do not fully understand why, but it is true nevertheless. Unsprayed pecan trees in West Texas do not grow poorly. They die.

Common zinc-deficiency symptoms are small leaves, light-colored leaves, wrinkled leaf edges, brown patches between leaf veins, curve-shaped leaves, shoots growing in tight bunches, numerous small shoots at the base of leaves up and down current-season shoots, and most serious of all, dead shoots in the tops of trees. If pecan could absorb zinc from the soil as other horticultural crops do, these symptoms would not be so obvious. Pecan trees can be in need of zinc before any of these symptoms are apparent.

The following suggestions are for growers who want to have healthy trees; they are not for persons wanting

a lengthy discussion of technical details about pecan nutrition. There are many ways to manage zinc deficiency, but the following is the simplest, least expensive and most effective.

Spray zinc onto newly opening buds, young shoots, and young leaves. The rate and product are not as important as coverage and frequency. Powdered or liquid zinc sulfate will do an excellent job. The standard recommendation is two pounds of zinc sulfate in 100 gallons of water. Variations of one to four pounds per 100 gallons of water could be used with success if leaves are well covered and sprays are frequent.

The use of zinc nitrate produces optimum zinc absorption when sprayed on leaves in mid-July. Many growers in the irrigated west have learned that zinc sulfate plus nitrogen is the very best combination for increasing zinc uptake. All of these treatments are adequate. The pecan tree does not care if zinc comes from zinc sulfate or zinc nitrate, just as long as coverage is delivered with adequate frequency.

Young pecan trees in the second growing season respond to zinc sprays every two weeks from April to August. If the trees are on good soil with excellent irrigation, nitrogen fertilization, and weed control, weekly foliar zinc sprays will push growth even faster. In the third and fourth season, young trees can be pushed to grow six to 10 feet in a single season with very

frequent foliar zinc sprays. There is a limit to how much growth is best, however, because a freeze in October can kill young pecan trees to the ground if growth does not slow down in September and stop in October. So, most growers stop pushing young trees in late July or early August.

Mature bearing trees are sprayed entirely differently. One good zinc spray before pollination is better than no zinc spray. Two sprays are better than one, and five sprays are ideal. The very best system for spraying mature bearing pecan trees in Texas and in the irrigated west is as follows: first spray at bud break; second spray seven days later; third spray seven days later; fourth spray 14 days later; fifth and final spray 21 days later.

The volume of water and coverage is very important. Make sure every leaf is wet. Spraying to runoff is best but not always practical. As with all management practices, one helps another. Zinc sprays alone are of little value. A good management program includes giving trees deep, well-drained soil, two inches of irrigation water every week from April to October, frequent nitrogen fertilization, good weed control and frequent foliar zinc sprays.

Care Center Chatter

Everyone was winning last week in bingo. Residents were very excited about winning Care Center Bucks. These are to be spent at the care center's country store which had its grand opening Thursday morning.

A special thank you to all the help getting the country store open. Donations were made by Art Expressions, Duckwalls, The Teacher Store and Happy Hollow. Thank you!

Tuesday evening we had a Spanish Social. Several of the Spanish residents gathered for Spanish Bingo. Mary Ortiz is one of our volunteers helping with the social. These ladies have really enjoyed getting together in the evenings. Activities will be different each week, ranging from just sitting around talking to doing crafts. Thanks, Mary!

Wednesday morning, we enjoyed reading The Ozona Stockman about all the graduating seniors and their future plans.

The ladies all got more beautiful Thursday morning thanks to the hairstyles of our wonderful volunteers JoAnne Williamson, Jerri Pesson, Gloria Wilson and Kay Baker.

A Chat Social was held Thursday afternoon on the front porch. The residents love any reason to get together to visit and drink lemonade.

The May Birthday Party was thrown Friday afternoon. Residents having birthdays this month are: Anne Parker, Polly Mayes, Jeff Owens, Bonnie Warth and Jessie McCary. Happy Birthday!

Thank you to Mrs. Camarillo for the delicious birthday cake.

Friday evening around 8 p.m. several of the residents were found sitting on the porch listening to the graduation ceremony.

From all of the Seniors at the care center to all the graduating Seniors - may your life be filled with everything you dream of! Good luck!!

Library declares amnesty, plans summer programs

Crockett County Public Library is celebrating Family Month with Amnesty Days through the end of May.

"If you have an overdue book or cassette, bring it in the next two weeks

and your fine will be free," says Louise Ledoux, librarian. The amnesty is especially for students and teachers. "Get those books back now and your fine will be forgiven."

CCPL will have summer children's programs every Monday in June and July. The theme for 1998 is *Furry Tails, Funny Tales*. Programs are being planned around animals and fairy tales. There will be two age groups, 3-5 years and 6-12 years. "We need story readers and craft and activity volunteers each week," said Mrs. Ledoux. "If you would like to help with the summer programs, please call 392-3565 or come by the library."

School district offers Title 1 summer school

The Crockett County School District will offer a summer school program for grades 1-12 beginning June 2 and ending June 25. The summer school curriculum will be in the areas of reading and mathematics. Hours for summer school will be Monday through Friday from 9 a.m. to noon. Location for summer school is the Ozona Intermediate School Campus.

Summer school instruction is a supplemental program for students who need assistance in any area of reading or mathematics that he or she is having difficulty mastering. The goal is to ensure the student success on the Iowa Test of Basic Skills for grades K-2 or the Texas Assessment of Academic Skills (TAAS) for grades 3-12.

Meador achieves distinguished ranking

Doug Meador completed the spring semester at Tarleton State University in Stephenville with a 3.63 grade point average. His average for the fall semester was 4.0. These grades earn him a place on the Distinguished Student List at the university.

Meador is a 1995 graduate of Ozona High School. He will graduate from TSU in December with a mathematics/physics degree. He will then teach undergraduate courses at Texas Tech University while working on a masters degree. He plans to pursue a doctorate in applied math.

His parents are Barbara and Doug Meador of Ozona.

Christ's Work, Not Ours

By Dennis J. Prutow

Here is an astounding statement. "So you shall keep My statutes and My judgments, by which a man may live if he does them; I am the Lord: (Leviticus 18:5).

If we keep all the laws and commandments of God, we earn eternal life. But we have to be perfect. Enter the work of Christ. Christ died on the cross to pay for the sins of people like you and me. We fail to meet the standard of perfection.

We sin. We deserve the death penalty. The wages of sin is death. Christ took the death penalty in the place of sinners. You need to turn away from sin and trust sacrifice of Christ.

Christ also lived a perfect life. Christ fulfilled the requirement for eternal life given in Leviticus 18:5. "Being found in appearance as a man, He humbled Himself by becoming obedient to the point of death" (Philip-

pian 2:8).

Christ lived a perfect life of Christ as the life that earns you a place in heaven. You are not saved by your own works. You are saved by the works of Christ.

When you trust in Christ, God places your sins on Christ. You are forgiven. God also gives you the gift of Christ's righteousness, His good life. You have a place in heaven.

Dottie Gonzales wins big on Wheel of Fortune

Ozona's Dottie Gonzalez, now a coach and teacher at Somerset, will appear on *Wheel of Fortune* June 1 and June 5. Dottie recently traveled to Los Angeles to be a contestant on the show. "It was so much fun," she said. "I hope my hometown people decide to watch."

Dottie won more than \$87,000 in cash and prizes, including a 1998 Infiniti, two trips, one a shopping trip to Rodeo Drive in Beverly Hills, CA, and one to New York, a jet ski and cash.

"Vanna White even opened the door to my new car for me," said Dottie. "Pat Sajak was just plain fun and funny."

She made the most of the trip, touring all over Los Angeles, including attending a Dodgers baseball game against Montreal. She also sat in on a taping of Bill Maher's show: *Politically Incorrect*. She visited the Chinese Theater in Hollywood and took a tour of NBC studios in Burbank. She also visited Venice Beach and Beverly Hills.

Now that she's back home in San Antonio, "my students and co-workers in Somerset are so happy and excited for me! We've known since February that I would be a contestant, so to us, it seemed as if the tape date took forever to arrive!"

Tryouts were held in San Antonio. Over 20,000 people submitted their names in a random drawing. The show's recruiters selected 120 names to take the *Wheel of Fortune* test. Eighteen passed the test and were interviewed. Of those 18, all or none could be selected to be contestants.

"They did not notify us right away," said Dottie. "We simply had to wait to see if we received a letter from them. Just when I had given up on the letter arriving, I received it the day before my birthday."

This summer Dottie will begin working on her master's degree while waiting for her prizes to be delivered to her home.

She is the daughter of Mari Longoria of Ozona.

class one-half of the day and auto mechanics the other one-half of this day. To do this, he needs to lessen his load in coaching. In time, due to the teaching demands of both these courses, he will be phased out of coaching. Mr. Maldonado is enthusiastic about this opportunity, and this fall he will receive his training. The class will begin in the spring semester of 1999."

Larry Harvey, district architect, met with the board to discuss renovation plan proposals for Ozona Middle School, Ozona Middle School Gymnasium and Davidson Gymnasium for the purpose of making this gym Americans with Disabilities Act (ADA) handicapped accessible. The members reviewed and discussed a list of renovation items that Mr. Harvey had prepared for these three facilities, and at the end of the discussion they asked him to finalize cost estimates for these renovations and present them at the June regular meeting of the board which will be on Tuesday, June 16, at 7 p.m.

Rod Miller, district technology director, gave a report on districtwide networking progress, and he also demonstrated the new Gateway laptop computers that the district approved for purchase and use by students. The trustees approved a computer Acceptable Use Policy that will be used in the district next year. The Acceptable Use Policy specifies the rules of conduct for using the Internet and the consequences associated with any misuse. All teachers, students, administrators and any other school personnel using school equipment to access the Internet will have to sign the Acceptable Use Policy and agree to its terms and conditions before Internet use will be granted. The board also approved a budget amendment to provide funds for computer workstations for the Ozona Middle School Computer Lab and for networking costs at the school.

The board also held a public hearing on the use of the district's Title I and Title VI federal funds for the 1998-99 school year. The district's Title I federal allotment is \$255,640 and will be used to improve reading and mathematics at Ozona Primary and Ozona Intermediate School, provide summer school for students in grades one through 12 based on student performance, and to employ a grades prekindergarten through eight counselor whose salary will be completely paid for out of the allotment. The counselor's office will be located

at Ozona Primary School, and duties will include one day of counseling at the primary school, one day of counseling at the intermediate school, and two days of counseling at the middle school. The remaining day will be for counselor related paperwork or additional counseling needs at any of the three campuses.

The district's Title VI entitlement is \$3,696, and it will continue to be used to help pay for improving and modernizing the district's libraries.

During the meeting the trustees voted approval to: take bids for gasoline products (regular unleaded and diesel) for the 1998-99 school year to be approved in the June regular meeting of the board; take quotations for band instruments to be purchased during the 1998-99 school year to be approved in the June regular meeting of the board; take bids for athletic supplies for the 1998-99 school year to be approved in the June regular meeting of the board; take bids for property, liability, vehicle and workers' compensation insurance for the 1998-99 school year to be approved in the July regular meeting of the board; take bids for cafeteria products for the 1998-99 school year to be approved in the July regular meeting of the board; and, take bids for employee health insurance for the 1998-99 school year to be approved in the August regular meeting of the board.

The members approved an update to their school board policy manual, the continued participation of the district in the Texas Goals 2000 Grant as provided through the Region XV Education Service Center, and the appointment of Superintendent Larry Taylor as the regional advisory member to the Region XV Education Service Center. They also approved extended leave for Mrs. Tommie Galan, the employment of an additional teacher at Ozona High School for next year, and the resignation, effective at the end of this school year, of Bridget Sewell, business teacher at Ozona High School.

During the meeting, recently re-elected board members Wade Richardson, Elliott Barrera and Marcus Sims were administered the oath of office by Mae Lay, school business manager. The trustees also voted to re-elect Wade Richardson as board president, David Bean as board vice-president and Elliott Barrera as board secretary for the 1998-99 school year.

College classes offered in Ozona

Midland College will again offer courses this summer through the interactive video lab at Ozona High School. These classes will be conducted through real time interactive video instruction. Students will be able to converse with and observe the class and interact with the instructor. The approximate cost will be \$178.00 plus textbooks for each three hour course. In addition, students will be able to take these classes before taking the TASP exam. However, the student must take the TASP before completing nine semester hours. Students who will enter college this fall must take the TASP before registering for college.

Registration for the Midland College courses will be this Wednesday, May 27, through Friday at the Ozona High School office. If you have any questions, please contact David McWilliams at 392-5502.

Students graduate from Del's Little School House

Del's Little School House students held their spring play and graduation on May 13 at the civic center. Seven graduates received diplomas following two short programs and songs.

Del Vinton, owner and teacher of Del's Little School House, presented seven graduates their diplomas. Those receiving diplomas were: Jayce Logan, Rebecca Ramos, Christian Smith, Raelynn Arredondo, Richard Chavaria, Haley Hargrove and Kristen Mendoza.

Eight of the 12 students present gave a great performance of "The Three Little Pigs". Narrators for the play were: Christian Smith, Kelsie

Ramirez and Rebecca Ramos. Characters were: mother pig, Haley Hargrove; three little pigs, Richard Chavaria, Kristen Mendoza and Jayce Logan; and wolf, Raelynn Arredondo.

The second program was a dance called *Shakin' It*. All students participated. The students also sang seven songs, which included: *Fuzzy Caterpillar*, *Five Little Squirrels*, *Did You Feed My Cow*, *Squirrely*, *The Hummingbird*, *Pretty Butterfly*, and *Pop Corn Popping*.

After the program Ms. Del was surprised with a lovely gift given by the seven graduates. Students and parents enjoyed refreshments.

Write your congressman and win scholarships

The Texas Sheep and Goat Raisers' Auxiliary is sponsoring a letter writing contest to encourage young people to take an interest in writing members of the U. S. Congress. The contest is open to American students who are juniors or seniors in high school or enrolled in a university in the spring semester of 1998. Former Texas or national contestants who wish to enter must totally rewrite their previously entered letter.

The subject is the effect of environmental regulations of private property rights in the United States. Entries must be postmarked by Aug. 31, 1998.

First prize is a \$1,000.00 college scholarship. Second prize is a \$750.00 college scholarship, and third prize is a \$500.00 college scholarship. Fourth through tenth prizes are \$100.00 U. S. Savings Bonds.

Letters must be typewritten and not over two pages in length. The

heading must include your address and telephone number. The first paragraph must state the student's age, classification in school or college attended. Then state that this letter expresses your views. Address the member of Congress properly, be polite, be specific, be concise, and use examples to support your position and ask that the congressman please respond to your concerns.

Letters will be judged in September of 1998 by an industry leader.

You are to write both United States Senators from your State. Letters to state senators will be disqualified. Use the same letter but change the addressee. Mail the original letters to your U. S. Senators and copies of each letter to: TSGRA Auxiliary Contest, C/O Mr. Ben Love, P. O. Box 387, Marathon, TX 79842.

You are to also write your 1998 U. S. Representative. Use the same letter, but change the addressee to your national representative. Letters to state representatives will be disqualified. Mail the original letter to your U. S. Congressman and mail a copy to: Doris Haby, P. O. Box 1496, Brackettville, TX 78832. If you have any questions, you may call Mrs. Haby at 830-563-3020 or 830-563-9316.

Museum Notes

from Mary

Harvey Hill has been constable for Crockett County for a few years, but before that he was a deputy on the Sheriff's Department. He's been upholding the law for longer than he wants to admit. I think everyone knows Harvey, one way or another. Len and I have seen him around town since we came in 1981.

He drives the most distinctive car I've ever seen. He said folks traveling from all over the world have photographed him and his car. Some say, "You couldn't tell it's Harvey" cept for those horns on the front!" I asked him about them one day. I knew it would be a great story, because he grinned, leaned back in that chair and told me this tale.

"An old boy got 'em from his girlfriend for Valentine's Day one year, oh, a long time ago," said Harvey. "He was real pleased about this gesture of love she'd gotten him from the gift shop at the truck stop, and put 'em on his car right away. Well, they weren't there too long when she ran off with some truck driver, and he was really mad. He was ready to just tear 'em off and throw 'em away, when I told him he shouldn't do that. He said he'd give 'em to me if I'd mount 'em on my official car and leave 'em there. I said I would, and I did, and we're headin' for 30 years together now."

One time someone got ornery and stole them off his car, and it sure didn't look the same. It was about a week later when some kids gave them to Granny Williams, who was working at the truck stop gift shop at the time. The kids didn't want to give them to Harvey themselves, but they knew who took them, and they got them back for him. They had been held with screws into the hood of his car, which was just light metal or plastic, but after he got them back, he fixed them real good. He said he's rather

Easterwood wins national recognition

The United States Achievement Academy has announced that Rayanna Easterwood of Lamesa has been named a United States National Award Winner in business education. This award is a prestigious honor very few students can ever hope to attain. In fact, the Academy recognizes fewer than 10% of all American high school students.

Rayanna Easterwood attends Lamesa High School. She was nominated for this national award by Mrs. Telchik, a teacher at the school.

Rayanna will appear in the United States Achievement Academy Official Yearbook, which is published nationally.

"Recognizing and supporting our youth is more important than ever before in America's history. Certainly, United States Achievement Academy winners should be congratulated and appreciated for their dedication to excellence and achievement," said Dr. George Stevens, executive director of the United States Achievement Academy.

The Academy selects USAA winners upon the exclusive recommendation of teachers, coaches, counselors and other qualified sponsors and upon the standards of selection set forth by the Academy. The criteria for selection are a student's academic performance, interest and aptitude, leadership qualities, responsibility, enthusiasm, motivation to learn and improve, citizenship, attitude and cooperative spirit, dependability and recommendation from a teacher or director.

Rayanna is the daughter of Jimmy and Nikkie Dunn from Lamesa. Her grandparents are Mr. and Mrs. H. Ray Henderson of Ozona and Mr. and Mrs. Doyle Easterwood of Aransas Pass.

Hearing scheduled for May 28 on adding Devil's River minnow to endangered list

The U. S. Fish and Wildlife Service will hold a public hearing in Del Rio on May 28 to accept comments from the public regarding a proposal to add the Devil's River minnow (Dionda diabolus) to the Federal list of endangered species. The hearing will be held from 5:30 p.m. to 8:30 p.m. at the Freshmen School Cafeteria at 90 Memorial Drive.

The minnow, a small fish found only in spring-fed streams in Val Verde and Kinney Counties, Texas, and in northern Mexico, is threatened by declines in water quality and quantity, plus predation from non-native fish such as the smallmouth bass. The fish is currently recognized by the State of Texas as a threatened species.

Concern over the Devil's River minnow dates back more than 20 years when the Service initially proposed the fish as threatened in 1978. Due to a lack of information, the Service withdrew the proposal in 1980 when a two-year time limit for finalizing the decision expired. Since then the Texas Parks and Wildlife Department has monitored the status of the fish and found substantial declines in abundance and range of the species.

During the 1950s and 1970s, biologists found the Devil's River

minnow to be one of the most common fish in the Devil's River. However, by 1989, the fish was one of the least abundant, and in 1997 and 1998, the fish has been found in only one location. The exact reasons for decline are unknown; however, the quality and quantity of spring waters of the Devil's River and other streams that provide habitat for the fish are key to its conservation. Coordination between the Service, the Texas Parks and Wildlife Department, local landowners and community leaders has resulted in an effort to develop a conservation agreement which should improve the status of the species and

reduce the threat of extinction. The Service will accept the information and comments from the public on its proposal until July 27, 1998. Written comments and materials concerning the proposal should be sent to the Field Supervisor, Austin Ecological Services Field Office, U. S. Fish and Wildlife Service, 109711 Burnet Road, Suite 200, Austin, TX 78758. After the comment period closes, the Service will evaluate all available information and comments, and within a year of the date of the proposal, decide whether to add the minnow to the Federal list of threatened and endangered species.

Rosalio Razo Cabrera, age 24, of Mexico was arrested for being an illegal alien. Subject was picked up by a Border Patrol Agent the same day.

Controlling Broadleaf Weeds in Soybeans

This time of year many soybean growers in our area will begin experiencing problems with a variety of broadleaf weeds, especially morning-glory, pigweed and cocklebur. Finding an easy-to-use postemergence herbicide that eliminates weeds fast can help take the hassle out of weed control, as well as reduce competition for valuable nutrients. Also, a good postemergence herbicide can effectively control weeds without harming soybeans, which helps increase yield potential. The right herbicide for the job should:

Kenny Hamm
Zeneca Ag Products

- offer effective broad-spectrum weed control
- be gentle on soybeans
- be easy to use.

REFLEX® is a selective, non-ALS post herbicide that fits these criteria. The herbicide controls or suppresses 50 tough broadleaf weeds in only one application, which saves valuable time. Because Reflex is a non-ALS herbicide, there are no weed resistance problems. The herbicide works well on most species of morning-glory. And for grass control, Reflex easily tank mixes with FUSION® or FUSILADE® DX® herbicides.

Although tough on weeds, Reflex is gentle on soybeans. Research indicates Reflex has one of the lowest phytotoxicity levels among broadleaf herbicides. This means there is less leaf burn and stunting, which could improve yield potential. Plus, Reflex is easy to use and works quickly. The herbicide works equally well in conservation or conventional tillage situations and narrow or wide rows. Best of all, Reflex is absorbed on contact and its effects can be seen in one to three days.

For excellent weed control without harming your crop, rely on Reflex herbicide. Contact your local ag chem dealer for more information about Reflex.

Weekly Drilling and Completion Report

Compiled by Charles Lewis Communications, Lindale, Texas

May 27, 1998

Wildcat drilling action is slated for Crockett County. It has been designated the No. 1 A. C. Hoover with Texlor T&T Corp. of Houston as the operator.

Located 27 miles northwest of Ozona, the venture is in a 960-acre lease in the B&B Survey A-5404. It is under permit for 8,200 feet of hole.

Union Pacific Resources has completed a couple of developmental gas wells 24.3 miles southwest of Ozona in Crockett County's Ozona Field.

The No. 3309 Moody flowed 803,000-CFD on a 1.5-in choke and earned a 990,000-CFD evaluation on absolute open flow. With 7,400 feet total depth, it will produce from 6,334 to 6,919 feet into the wellbore.

Bottomed at 7,400 feet, the No. 3305 R. Moody received a 584,000-CFD rating on absolute open flow and showed ability to yield 483,000-CFD on a 1.25-in. choke. Production will be from 6,320 to 7,230 feet into the hole.

---0---

The same operator has staked location for the No. 88H Union Pacific about 10.9 miles southwest of Ozona in Crockett County's West Hunt-Baggett Field.

Location is a 4,304-acre lease in the GC&SF Survey A-2415. Strawn Formation will be the target at a depth of approximately 10,000 feet.

---0---

Flowing 116 barrels of oil per day on a 20/64 choke, the No. 20 C. E. Davidson, Jr. "B" has been brought on line in Crockett County's Ozona Field. Texaco Exploration & Production Co. is the operator.

The new oil well was taken to 8,350 feet total depth with plugback to 6,643. It will produce from a Dean Formation interval ranging from 5,303 to 5,357 feet into the wellbore.

---0---

At a location 10 miles southwest of Ozona, the No. 1 Meadows 1004 is scheduled for spudding in Crockett County's Ozona Field. J. Cleo Thompson of Dallas is the operator.

Drill site is a 195-acre lease in the Mrs. J. L. de Gonzales Survey A-4140. Canyon Sand Formation will be the target at a depth of approximately 9,200 feet.

---0---

Harrison Interests Ltd. of Houston has filed for permit to drill the No. 10 Vada Bean "A" 14 miles southwest of Ozona in Crockett County's Ozona Field.

Location is a 320-acre lease in the GC&SF Survey A-4607. Authority has been granted for 9,000 feet of hole making.
