

Birthday Party Given In Honor Of Becky Mason

Becky Jan Mason, daughter of Mr. and Mrs. Raleigh Mason, was the honoree of a surprise party recently on her seventh birthday. The party was held at 6:30 in

the evening at the Mason home. Guests were present when Becky arrived, and when she entered the house, they sang, "Happy Birthday To You."

Following the playing of games, the honoree and her guests were served birthday cake and lime sherbet punch from a table laid with an ecru lace cloth, over green. The cake was pink, decorated with yellow and green. Guests attending were: Judy Putman, Linda Johnson, Barbara

By John C. White, Commissioner

PRECAUTIONARY USE OF INSECTICIDES-HERBICIDES

A word of warning to farmers who spray their own fields: Never use the same equipment for applying herbicides and insecticides without a thorough cleaning between jobs.

In the long run, it is actually better to use two sets of equipment.

Many farmers fail to recognize the killing power of herbicides on broad leaf plants. The chemical 2, 4-D is especially powerful. It does an excellent job on weeds — but its effects are just as potent on your cash yielding row crops.

Even a very small residue of 2, 4-D will remain in your spraying equipment from one season to the next. If an insecticide is mixed in the tanks that left-over bit of 2, 4-D will still be enough to cause serious damage to the crop.

Near Round Rock, Texas, this year, a farmer sprayed his entire cotton crop with the same equipment he used to kill weeds around the barn and house. Even though he had cleaned the tanks, the residue was enough to blight his field. Fortunately, he still had time to replant his cotton.

Cases like this are frequent and thousands of dollars are lost each year. In other instances, herbicides are carelessly applied, resulting in extensive damage.

An employee of a Texas Air Force Base once used too much herbicide chemicals for the job at hand. He sprayed 100 yards of

Jones, Alana Addudle, Randy Addudle, Butch Johnson, LaNan Jones, Ann Dudley, of Lubbock, Barbara Lambert, and Sheryl Mason.

weeds along a railroad track, using 100 gallons of undiluted 2, 4-D. Actually, only one gallon of chemical properly diluted was needed.

The concentrated spray from this job drifted into adjacent cotton fields and killed the plants.

In 1952, some 1,054 cases of damage from herbicides were reported to the Texas Department of Agriculture. Last year, this number was cut to 230—but it is still too much waste from carelessness.

Remember to clean your equipment with the solution recommended by the Texas Dept. of Agriculture. But to be really safe, use two sets of equipment for the two jobs.

Family Gathering Held At Ruidoso

Mrs. I. F. Willman, Dr. K. P. Green and family, Mr. and Mrs. Dick Willman and family, Mr. and Mrs. Kenneth Hanks, and Mr. and Mrs. Ed Moore, recently had a family get-together at Ruidoso, N. M.

Wednesday evening, the group honored Lt. John D. Winters and family, of the Clovis Air Force Base, with a chicken and steak barbecue at the Ed Moore home.

Friday, on their return from Ruidoso, the group took the Dick Willman family's boat and water skis and went to the Lubbock Buffalo Lake, where they spent the day water skiing, swimming and picnicking.

Friday evening Dr. K. P. Green and family returned to their home in San Antonio.

Joyce Adams Is Honoree Of Party

The home of Mr. and Mrs. J. K. Adams was the setting recently for a party honoring their daughter Joyce, on her eighth birthday.

Games were played, after which the honoree opened her gifts. Refreshments of cake and ice cream were served to guests and the honoree.

Those present were Melenda Harris, Max Harris, Ann McReynolds, Jimmy McReynolds, Gary Edwards, Barbara Jones, Prentice Lee Griffiths, Pamela St. Clair, Johnny St. Clair, Charles King, Doris King, Judy Inman, Ronnie Awtry, Sharon Awtry, and Joe Adams.

WAS IN SLATON

Bruce Simnacher was in Slaton over the weekend, and was an attendant in a wedding Sunday.

LEFT FOR COLLEGE

Benny Bickel and Carlos Garner left Sunday for football training camp at W. T. S. C. Canyon.

MANY THANKS

From the depths of an humble and grateful heart I want to express to you my sincere appreciation for the very nice vote of confidence which you accorded me in Saturday's primary election. It makes one wonder if he is worthy. At the same time I want to compliment the honorable Judge Cecil H. Tate for the gentlemanly way in which he conducted himself throughout the campaign. He was most certainly a worthy candidate. Also I want to pay tribute to that very fine and distinguished gentleman, Mr. Lewis Stewart. His clean and aggressive campaign was in every respect becoming to the dignity of the office which he sought.

To all of you who voted for the other candidates I want to say that I hold no enmity, no ill-will or feeling of malice against you at all— none whatever. And to my many friends who worked for me, spoke well in my behalf, gave me your vote and influence or in any way contributed to my election I feel that I owe you a debt of gratitude which I can never repay in this world. I know that I could never have won without your help and I am deeply grateful for it.

What we most desire now is to render you the kind of service you are entitled to and which we feel you have every right to expect. So I hope that we can have the united support and cooperation of all the people of Bailey County, for without your help we cannot succeed. As soon as we conveniently can we will move into town and will welcome all the suggestions or counsel and advice which you may have to offer. Again we say **MANY, MANY THANKS.**

Most sincerely yours,

GLEN WILLIAMS

PARMER COUNTY Farm Bureau News
By RAYMOND EULER

Phyllis Jean Fairchild, Parmer County Farm Bureau's Queen for 1954 has a busy schedule before her as a result of having been selected number one of thirty-seven very fine contestants. She is to appear with other County winners on Lubbock's KDUB-TV Thursday, September 9, as guest of District Director Hub King, and Texas Farm Bureau. Then, on the 18th, she will participate in the

district contest where we hope she will qualify for state participation.

The judges had an extremely tough job, picking three or four of the loveliest from so many comely entries. Clara Jean Jesko, of Lazbuddie was second, Gay Cass, Friona, third, and LaMona Neff, Friona, fourth.

Mrs. Melba Miller and her assistants did a fine job in securing entries and lining them up. Joyce Miller provided some nice entertainment, though because of some back stage confusion, she didn't have opportunity to present all of it. The stage was attractively decorated by Mrs. Ralph Smith and Mrs. J. Sanders.

Mr. Paul Revere, seed analyst, Mr. Roberts, seed and field inspector and an assistant, Mr. Metcalf of the Lubbock, Texas A & M Office, spent a day last week in fields in Parmer County. To you certified seed planters, they give this bit of important advice: Always keep the tags from the sacks of seed you plant until harvest time. This is the only way checks can be made on the source of faulty or impregnated seed when it appears in the field.

Tuesday night, members of the weed committee and County Agent Joe Jones, along with highway department officials, met to discuss methods of curtailing the progress of Dotter, a parasite type weed that has made its appearance in the county. It springs from the ground and leaches itself to other plants, deriving its livelihood from them at the expense of domestic plants.

Today, Thursday, Farm Bureau Directors and some other farmers are in Clayton, New Mexico, guests of the New Mexico Farm and Livestock Bureau. Allan Kline, AFBF President and an undersecretary of agriculture were to analyze the farm program as it now stands.

Consider this: For the Lord shall be thy confidence, and shall keep thy foot from being taken. Proverbs 3:26.

Hospital News

Mrs. A. Pyrtiz was in for minor surgery, but has gone home. Danny Castle a medical patient, has been dismissed.

Mrs. J. T. Phillips of Morton, was in for medical care, but has returned home.

Kenneth Johnson was in for medical care, but has gone home. Mrs. Hall is resting well.

Miss Scarbrough, of Plainview, was a surgical patient. She has returned to her home.

Hamburgers. Catsup and onions. Potato salad. Carrots. Cherry pie and milk.

Sanders Home Is Scene of Social

Monday afternoon, August 30, a social was held at the home of Mr. and Mrs. Homer Sanders, Sr., and Mr. and Mrs. Homer Sanders, Jr., for Wesleyan Guild members and their families, and prospective members of the Wesleyan Guild and their families.

Games were played, under the direction of Mrs. D. Warner, program chairman.

Refreshments of ice cream and cake were served to those attending. They were: Mr. and Mrs. D. Warner and daughter Sandy, Mr. and Mrs. Clyde Bray, Mr. and Mrs. Jim Cox and son Edwin Ray, Mr. and Mrs. Noel Woodley, Dr. and Mrs. M. M. Slemmons and children Tish and Senn, Mr. and Mrs. Ray Edwards, Mr. and Mrs. Fred Johnson, Mmes. Grace Hodges, Mable Dowell, Jim Burkhead, Lois Schoenberger, and Sam McKinstry.

Rev. and Mrs. Clarence Stephens and daughter Linda, Mr. and Mrs. Buford Butts and daughter Patricia, Elizabeth Harden, Mr. and Mrs. Homer Sanders, Sr., and Mr. and Mrs. Homer Sanders, Jr., and son Mike.

RETURNED FROM TRIP
Mr. and Mrs. E. E. Engelking and son Jerry Wayne, returned home Sunday from a vacation tour through New Mexico, Arizona, Nevada and Utah.

On the first part of their trip they visited Grand Canyon, Boulder Dam, and Las Vegas, Nev. From Las Vegas, they traveled to Utah, where they toured the Zion National Park, Bryce Canyon, and Salt Lake City.

They reported seeing a lot of beautiful scenery, and also a lot of desert country, especially in Arizona. Mrs. Engelking said it was quite warm most of the places they went in the day, but usually cooled off at night. She said in Utah in some places they had already had frost.

Farewell Party Is Given For Seniors of '54

The Senior Class of 1954 had a Farewell Party last Friday evening, August 27, at the home of Helen Stovall.

Most of the members of the class are leaving soon for college, and many for work at other places.

Games were played on the lawn of the Stovall home, after which a watermelon feast was enjoyed.

Radar Station Network Will Provide Texas With Best Storm Warning System

AUSTIN — A network of radar stations which will give Texas the best storm warning system now available in the world will soon be completed.

There are now 11 stations in operation, and three more will soon be in operation. Another at Lake Charles, La., which serves a section of Texas will add up to 14 in operation for this state.

E. L. Hardy, regional director of the US Weather Bureau, has advised Governor Allan Shivers

that the last three in the chain will be in operation within six weeks at Austin, San Antonio and Lubbock.

Besides the one at Lake Charles, those already functioning are at Amarillo, Victoria, Brownsville, Corpus Christi, Houston, Abilene, Fort Worth, Galveston, Midland, San Angelo, and Wichita Falls.

Hardy told the Governor that once the network is completed, it will be "the best and most up-to-date storm warning sys-

tem now available anywhere in the world."

Hardy added that storm reporting and the general warning service maintained by the U. S. Weather Bureau will be extended and improved tremendously by the installation of the equipment, which is able to detect heavy rainfall, tornadoes, hurricanes and other severe weather manifestations.

The US Weather Bureau ties the radar net into the Department of Public Safety communications system through special arrangements between the two organizations. All weather Bureau radar reports are received by Public Safety Communications within about two minutes after a warning is issued.

Once reports are received, Public Safety units track the storm and warn people who are in its course. The Public Safety units also advise the Weather Bureau as to whether the storms are turning into tornadoes.

"This one phase will do much to save lives and property," Hardy noted.

William L. McGill, state coordinator of civil defense and disaster relief, agreed. As a specific example of what the network can do, McGill said the radar storm warning equipment would have been of vital use in the recent flood in the Upper Rio Grande Valley.

Federal, state and local government agencies worked out arrangements for the new equipment.

The US Weather Bureau made surplus radar equipment available.

The Texas A & M College Research Foundation was given a contract to modify this equipment for storm warning use.

The Texas Department of Public Safety agreed to cooperate in making maximum use of the warnings which the Weather Bureau gives on a 24-hour-a-day basis.

The Division of Civil Defense and Disaster Relief of the Governor's Office arranged meetings in the cities in which first order weather stations are located. A team of representatives of the disaster relief office, the Weather Bureau, the A & M Research Foundation, and the Texas Department of Public Safety explained the plan to local government officials and other interested agencies.

The initial cost of modifying and installing the equipment was underwritten by the cities involved.

Once the network is completed, Texas will be served by the first storm warning system of its kind ever to be installed by any state or area.

RETURNS FROM CALIFORNIA
Rufus Aylesworth and his aunts, Helen and Arvilla McCurdy, of Port Arthur, have just returned from Ukiah, Calif., where the two ladies have a prune ranch. They stayed there three weeks, during which time they visited in Los Angeles, Calif., and Reno and Las Vegas.

Advices Early Destruction Of Cotton Stalks

COLLEGE STATION, Sept. 1 — Need for early stalk destruction was urged upon Texas cotton growers this week.

Entomologists of the Texas Agricultural Extension Service advise growers to vlek their harvest as incomplete until all stalks either are cut or shredded and plowed under. Their call also went to central Texas, an area free of compulsory plow-up deadlines but where an increase in pink bollworm was noted this year.

Stalk destruction soon after harvest is recognized as an effective and cheap control of cotton insects, especially the boll weevil and pink bollworm. Cotton residues turned under add organic matter and increase the water holding capacity of the soil. Also, this early land preparation readies the land for winter legumes.

Entomologists and cotton specialists alike agree that early stalk destruction, carried out on a county or area basis, will reduce materially insect pest troubles next year. Insects are deprived of their food supply and forced into hibernation in a weakened condition. Thus, fewer insects will emerge next spring.

Several type shredders and cutters are available, but the important step is to cut the stalks into small pieces so all residue is covered deeply by plowing.

In northwest Texas, however, stalks are left standing until

after the first hard freeze. Low temperatures kill the bollworms in the exposed bolls on the plant.

Sgt. John Gauna Is Now In Korea

Army Sgt. John P. Gauna, whose parents live in Earth, is now serving in Korea with the 7th Infantry Division.

Men of the "Bayonet" division are undergoing intensive training to maintain the peak combat efficiency displayed by the unit from Pusan to the Yalu river.

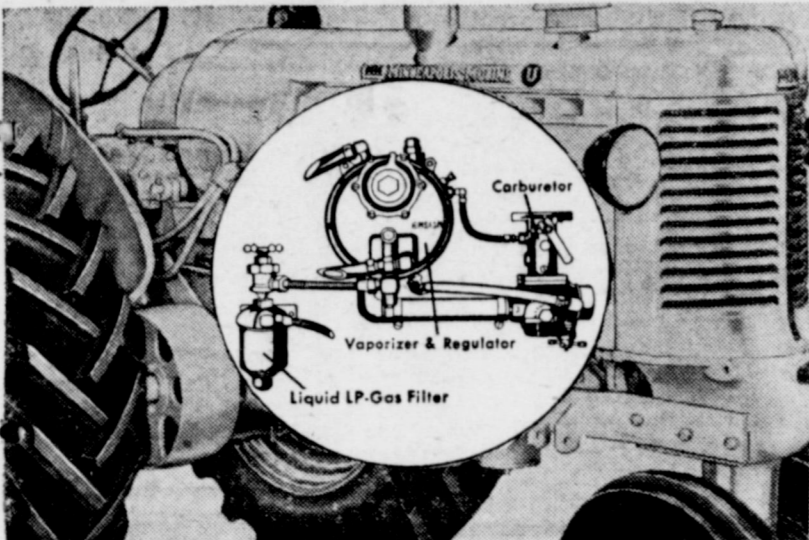

Sergeant Gauna a platoon leader in Company G of the division's 32nd Regiment, entered the Army

during December, 1952 and arrived in Korea the following May.

ESTERBROOK pens, points, pencils, at The Journal.

ATTENDED REUNION
R. C. Giles was in Lubbock Sunday to attend the Hill County reunion. The reunion was held at MacKenzie State Park.

make your tractor a MODERN tractor

CONVERT TO LP-GAS With ENSIGN Carburetion

Right there in the circle above you've got the key to modern tractor efficiency — LP-Gas fuel plus Ensign Carburetion. It's just good business sense to find out how modern LP-Gas efficiency scraps ordinary performance standards. Get the facts on profit-boosting fuel savings and phenomenal freedom from maintenance expense (3 or 4 seasons without service!). The six points below suggest a few LP-Gas and Ensign Carburetor advantages. Keep the profit-angle in mind as you read them!

1. Fuel savings 25 to 40 percent.
2. Lube oil lasts four times as long.
3. 50 to 75 percent fewer overhauls.
4. Increased power. 100 octane fuel permits high compression.
5. Smooth-running engine — no vibration.
6. Same fuel storage serves tractor and household.

Let your Authorized Ensign Dealer check your engine. He can tell you what you can save by making your tractor a MODERN tractor with LP-Gas.

J. M. FORBES Editor and Publisher
BABSON SAYS—
Every Reader Has A Gold Mine

Babson Park, Mass., Sept. 2. — A prominent educational institution was recently presented a life-sized sculpture of my head for its library. This gift came from a group of admirers of my 33 years of writing these weekly columns. Naturally, I am pleased. It has aroused within me thoughts which each reader should consider regarding his head and what it contains.

WHY A GOLD MINE?
First, my reader, remember you have in your head — as you read this column — the most marvelous machine in the world. It is the greatest creation of God, the workings of which have never been understood by any scientist or physiologist.

Second, psychologists tell us that we Americans are using our most wonderful brains only to about 2 1/2% of capacity. Some great thinkers have perhaps

reached 5% or more; but probably the men who run our Government at Washington or who head our corporations average only about 3% efficiency.

WHY I AM BULLISH
For the "long pull" the above sad thought should make us very hopeful. If the brain of the average high-school graduate works, even after graduation, at only 2% capacity, think what this would mean if this average of 2% could be increased to 4%. It could result in doubling the prosperity of our nation; doubling both our production and our standard of living. Surely, we all have a gold mine in our head.

Considering the entire world, the brains of its three billion people probably are working at less than 1% efficiency. If this average could be increased only slightly, think what it would mean in better living and a high-

DEPARTMENT IN WEST TEXAS

Muleshoe Phone 2100

er life for these billions. In addition, it should result in greatly increased foreign trade for us all. The "chain reaction" caused by a small increase in the efficiency of our brains is beyond the most optimistic dreams.

NEED OF SPIRITUAL AWAKENING
This need not mean we are headed for a mechanistic age. One trouble today is that we all need to catch up spiritually. Brains have made it possible for us to travel faster, hear over long distances, and now — by television — see what is going on anywhere. But, what have the inventive brains and chemical laboratories done to bring us nearer to God? I forecast that a changing attitude is ahead.

Increasing the efficiency of our brains to 4% or more does not necessarily mean inventing new miraculous machines or discovering free power from solar radiation or gravity. I further forecast that use of increased brain power will result in helping us to make correct decisions and will give us the will power to carry out these decisions. This power is our greatest need. Lack of concentration and lack of faith are due to our weak, unused brains. In fact, it is hard to draw the line between physical brain power and spiritual faith power. Health and happiness are dependent upon both.

FINAL THOUGHT
Once children were considered an asset. Today too many families look upon children as liabilities or luxuries. If you, my reader, come in this latter group, please think of the wonderful brains you can create and nurture by raising and training more children. This may be your best opportunity for serving mankind. Furthermore, the brains of these children may be far better insurance for your old age than any paper policy you can buy.

One more thought: If you are a woman who loses your job during this "push-button" age which we are entering, do not be discouraged. Remember that a far greater opportunity is awaiting you to stay at home and help develop the brains and souls of your family — or to teach, or even "baby sit". These also have great opportunities.

VISITS HERE
Mrs. Jim Hodges, of Amarillo, is visiting in the home of Mr. and Mrs. Noel Woodley this week.

Roald Johnson left Monday for track training camp at Texas Tech.

SAND HILLS PHILOSOPHER DISTURBED— Over City Man Whose Car Was Hauled Off After He Left It Parked 8 Years

Editor's note: The Sand Hills Philosopher on his Johnson grass farm seems disturbed this week, but it's probably needlessly.
Dear editor:
Newspapers are all right when they print pleasant news, but when they print disturbing news it makes a man wonder sometimes whether it was worth the trouble of bending over to pick up the thing, although I understand if I was the editor I would print whatever news that turned up and anybody too lazy to stoop over to pick it up could stay ignorant.

What put me to think in this vein was an item I read in a newspaper out here yesterday afternoon. According to it, there was a man in Brooklyn who left his car parked at the curb in

Today's Meditation

SERVING GOD WITH REVERENCE
Read John 12:20-26.
Sir, we would see Jesus. (John 12:21.)
One day the beloved Bishop William Oldham was taking a walk in the garden of one of our Latin American schools. While there, he met two sisters who were playing. As was his custom with children, he laid his hand on the head of the younger and looked at her with a smile. Then, without saying a word, he continued his walk. The little girl, amazed, ran to her sister and asked, "Is he Jesus?"
Something different and unusual in the bishop's face had connected itself, in her childish imagination with the picture she had created of Jesus. Now that picture in her mind had become real in the face of Bishop Oldham.

Have we surrendered our lives to Jesus Christ's power and influence? Are we showing to this world of chaos and misery the radiant face of Christ? Today, more than ever before, the unchristian world needs to see the reality of Jesus Christ in our faces and our lives. Thus we can help others to find peace, faith, and hope through Christ, our Redeemer.

PRAYER
Eternal Father, grant us so to surrender our lives to Thee that Thy power and influence may be seen in us. Forgive us for failing Thee and our fellow men by closing our hearts to Thy love and strength. In Jesus' name. Amen.
THOUGHT FOR THE DAY
Is my life a testimony to Christ's presence and power?
Samuel Araya (Chill)

AND A JOY FOREVER...

You can help make your new home "a thing of beauty... and a joy forever," if you finance on terms that are easy on the family budget. Put more pleasure into home-ownership—thru sensible financing. See us for a home mortgage plan—fitted to your needs—and that leads to free-and-clear ownership.

car, it puts me to wonderin'.
And it involves more than just me and that man in Brooklyn. For example, I know a man in town who has been sittin on the same bench for at least eight years. You reckon the law might take a notion to come and drag him off? Also, there's another man, Mr. Baruch, who has been sittin I understand on a bench in Central Park in New York for years. They after him too?

I tell you, it's things like this which disturb a man. Say this Brooklyn man drove his car once around the block every day and parked it back in the same place, would that satisfy the law? This idea that a car or a cultivator or a man has to keep movin to avoid bein hauled off, has got to be stamped out before it spreads.
Yours faithfully,
J. A.

BACK FROM TRIP
Mr. and Mrs. J. K. Adams and children Joyce and Joe, have just returned from a trip on which they visited various points of interest in Texas and New Mexico. On the first lap of their trip they toured the Carlsbad Caverns, and then went over to Van Horn, where they took a tour of the irrigation district. Following this they went to Balmorhea Springs, Ft. Davis, Alpine, and Big Bend National Park. Leaving the park they went to Ft. Stockton, then to Rankin, where they visited Mr. Adams' brother, W. O. Adams, who is postmaster there. They reported a very enjoyable trip.

GWENELLE WORKMAN HAS COMPLETED FLORAL COURSE

Miss Gwenelle Workman of Muleshoe, has been a student at the Benz School of Floral Design, Houston, completing the course August 27.
She specialized in shop management, flower arrangement, corsages, wedding decorations and bouquets, and funeral pieces. She is associated with Muleshoe Floral.

By ROY DYER
Mario Lanza, whose voice once again rings out in the hit movie, "The Student Prince", comes out of his personal semi-retirement to star in one of the "Shower of Stars" shows on CBS-TV for Chrysler Corporation. Lanza's co-stars on this extravaganza, part of a new series starting this fall, will be a famous husband-and-wife team, bandleader Harry James and long-reigning movie queen Betty Grable.

One of the innovations planned for Ed Sullivan's "Toast of the Town" during the coming season is the local "cut-ins". What this means is that local talent in small towns all over the country will get a chance at the big break, with their acts being done locally but spliced into the national show.

An ex-boxer turned actor, Paul Grant bragged about never having been knocked from his feet in the ring. His first TV assignment as an actor found him being beaten unmercifully by villains in the "I Led Three Lives" series. Then came his second chance, in a Fireside Theatre show, starring former child actor Bobby Driscoll. Lo and behold, the script called for Driscoll to knock Grant out for the count! Now he's thinking of going back to boxing, so he can stay on his feet.
Maybe you'd like to have that new big screen television set, but you figure the cost would knock your budget out for the count. Well, you can stay on your financial feet and still get quality big screen TV with the new PHILCO models at DYER HARDWARE & FURNITURE, Phone 2590, Muleshoe.

CHRISTIAN SCIENCE SERVICES

The ability, power, and sinless perfection which characterizes man's real nature in God's likeness will be brought out at Christian Science services Sunday.

The Lesson-Sermon entitled "Man" includes the following passage from the King James Version of the Bible (Ephesians 4:7-13): "But unto every one of us is given grace according to the measure of the gift of Christ. Till we all come in the unity of the faith, and of the knowledge of the Son of God, unto a perfect man, unto the stature of the fulness of Christ."

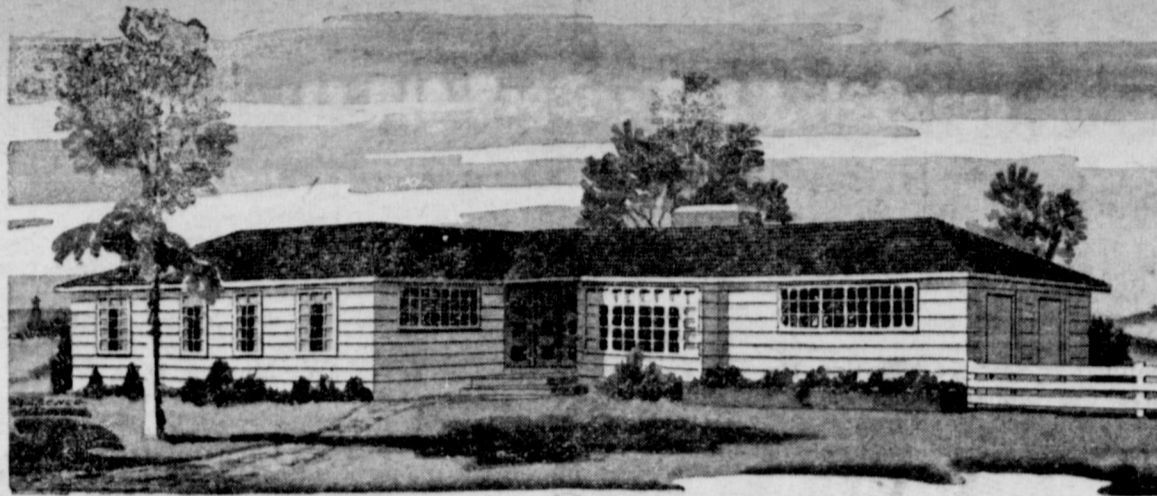

Prim "Science and Health with Key to the Scriptures" by Mary Baker Eddy the following pass-

age will be among those read (258:21): "The human capacities are enlarged and perfected in proportion as humanity gains the true conception of man and God."

The Golden Texas is from Genesis (1:27): "God created man in his own image, in the image of God created he him."

IN LUBBOCK

Mr. and Mrs. Delma McCarty and grandchildren LaLauri and Gary, and Elizabeth Harden, were in Lubbock Sunday, the McCartys to visit their son Fuston and family, and Elizabeth to attend the Wichita and Electra counties reunion for folks in this area. The reunion was held in MacKenzie State Park, and it was decided to have it again next year, the last Sunday in August.

Its Bigger Than You Think

Farm and Ranch House Plan No. 5244 has plenty of conveniently arranged space for all of the family activities.

The workroom and kitchen are served by the same plumbing lines that serve the bathroom. In fact, all of the utilities needed to make a complete home are located in the area only 19 ft. by 24 ft.

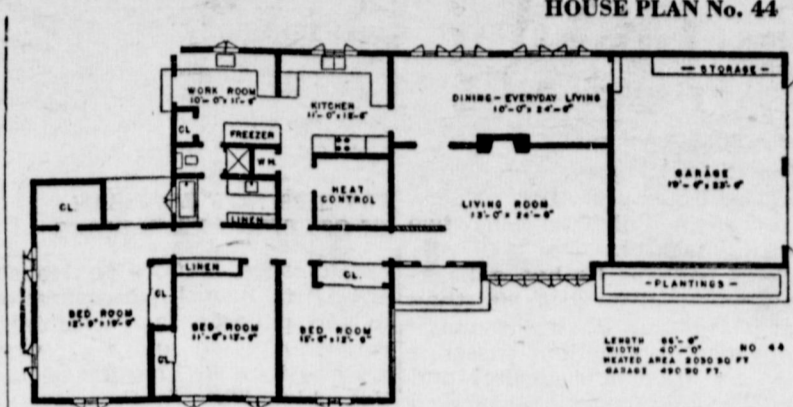

The dining-everyday living area is designed with one "window" wall to make it an especially bright and cherry spot. When the sliding doors are opened, the two areas will give a sense of spaciousness and will accommodate your largest group of guests. The living room is located so that it can be closed up when not in use.

Each bedroom has more than adequate closet space — note the closets in the master bedroom. The closet for the front bedroom is designed with sliding doors on both sides so that it may serve the bedroom and also can be used for the visitors' coats.

The back entrance into the workroom allows the field hands convenient access to the bathroom to wash up before entering the rest of the house.

The wide overhanging eaves were designed for your comfort. They will keep the sun off the walls in the summer and will prevent your having to close the windows during light showers. In addition, they keep the rain off the walls and thus lower maintenance costs.

This home will be very attractive if done with casement windows and asbestos siding or double-coursed sidewall shingles. You can obtain blueprints for this The Muleshoe Journal's Farm & Ranch House Plan No.

5244 and a handy list of materials by which you can figure your construction cost accurately. Send \$2 to Building Editor, Farm & Ranch Southern Agriculturist, Dept. L-36, Nashville, Tenn. Order by number, plan No. 5244. Blueprints are adequate for any farm carpenter or for any farmer handy with tools.

TO ABILENE

Mr. and Mrs. Noel Woodley and Ann were in Abilene last Thursday. Her brother, Jamie Jamison, received his Masters Degree from McMurry.

HOME FOR WEEKEND

Pfc. Teddy Harrison, of Ft. Hood, was home over the weekend to visit his parents, Mr. and Mrs. W. F. Harrison and other relatives and friends.
