THE OZONA STOCKMAN

Prayers have been answered, for now.

Crockett County and most of West Texas received much needed rain over the Memorial Day holiday weekend.

Rainfall totals for Crockett County varied with nearly

5 inches at Crockett Heights, 4 inches in Ozona and 1-4 inches around the county. Ozona Airport received 4.57 inches.

For the month of May, the NWS in San Angelo stated that Ozona has received 3-5 inches of rain, with the northern part of Crockett County receiving 8-9 inches in areas.

Prior to May, Ozona had

received less than an inch of rainfall for the year. The normal for Ozona from January-April is 5.34 inches.

"May and June are our big months for rain," said Joel Dunn, meteorologist at the National Weather Service of San Angelo. "You have warm

May is Older Americans Month, honor their accomplishments

The efforts of older Americans built the foundation of our future and our country's future.

As a young child growing up in Alpine, my grandmother lived with us. My parents taught me that she and others of her generation had worked much and sacrificed much to move our family into the middle class.

May is Older Americans Month. In May, we honor the accomplishments of generations before us. We must also pledge to return the favor – the love, affection and sacrifice – that they made for us.

As they get older, we as a society must pledge to take care of them.

As we get older, our bodies become more prone to injury. In 2013, six million older Americans made an accident-related trip to the hospital. Sadly, these accidents result-

GREETINGS FROM WASHINGTON PETE GALLEGO

ed in 30,000 older Americans being buried by their loved ones. Average life expectancy has risen – that makes it even harder when one of our parents or grandparents doesn't make it that far.

This month and throughout the year, we make an extra effort, trip or phone call to ensure our older Americans are safe. We also work to provide them preventative health-care that will ensure they are around for decades to come.

Some items to pay special attention to are hazards around homes – a loose floor

tile or slippery shower. We must also make sure older Americans have means of communication and reliable transportation to medical appointments, the grocery store, a friend's house or church. For more helpful tips, or for questions surrounding elderly care, visit your local Area Agency on Aging Office by visiting www.eldercare.gov or by calling (800) 677-1116.

In Washington, we have much the same type of obligation to our older Americans. Ensuring seniors have access to healthcare, social security,

and other programs is a priority of mine. I will never agree to degradation of services to older Americans. Never.

Congress' obligation to our older Americans is to work together, in bipartisan manner, to meet the commitments our government has made to them. I take this responsibility seriously, and I continue to fight for older Americans in the 23rd District of Texas. If you know of an older constituent in need of assistance with a federal agency, please have them call one of the district offices. In San Antonio,

they can call (210) 927-4592. In Del Rio and Eagle Pass, they can call (830) 488-6600. In El Paso, they can call (915) 872-1066. Recently, the offices helped secure over \$2.5 million in benefits owed to constituents of the district.

During this month, let's all do our part to better enrich the lives of older Americans and keep them and their contributions around for years to come. After all, they've earned it – and we owe it to them.

To the Class of 2014, the world awaits

Another school year has come and gone.

As the Class of 2014 prepares for graduation, I want to offer some advice from someone who was in their shoes when this class was being born.

When you walk across that stage, you are entering into another part of your life.

Someone once told me that the four years spent in high school are the best ones in your life. While I agree that these four years are memorable, I believe that the best is yet to come for our graduates.

The world is at your feet, but it's up to you to decide how you're going to take that crucial first step.

Whether or not you choose to pursue higher education, or jump into a career, opportunities are out there just waiting for you to grab hold of them.

Of course, there will be times when you are met with temptation, both good and bad.

It's in these moments you have to remember what you've been taught because mom and dad won't always be there to ask. Trust me on this one.

For those of you entering college, you will learn more outside the classroom than in, but go to class. Without those classes, there is no degree.

Be nice to everyone you meet, even if they are not nice to you.

Don't expect to receive awards or recognition just because you participated or showed up for work.

Have a good attitude. My dad always told me that one. As always, dad was right. A good attitude will get you through the toughest times and the hardest decisions.

Trust in your faith. It can also lead you down the right path.

Keep in touch with your friends.

While you may go your separate ways, e-mail, write letters, make a phone call, text message, Facebook, just let each other know how you are doing. I bet they will be in the same

WHAT'S ON MY MIND

MELISSA PERNER

boat as you are.

You will have to work in a job that you don't want, at least one or two times, before you find the right one.

Remember, it builds character and reminds you of what you want to achieve.

This year's class is a unique blend of characters. Yes, I mean characters, not students.

Each one has a story, a tale to tell, is a part of history that will continue on after they receive their diplomas.

They are a class that has grown up with Internet, cell phones and technology at their fingertips.

Remember, face-to-face conversations are still the best.

This is not the end of your book, but only the ending of a chapter.

Ahead of you lies the wide open world ready for you to explore.

That exploration may take many of you to a university campus. It may take some of you overseas to serve our country.

For others, your journey may begin earning a living.

Whatever path you choose remember you are the author of your own book of life. What theme it will be depends on which choices you make.

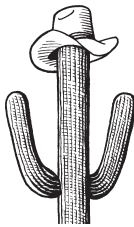

As the Class of 2014 heads out into the world, I want to remind you of some advice from a good doctor named Seuss:

"Be sure when you step, step with care and great tact. And remember that life's a great balancing act. And will you succeed? Yes! You will indeed! (98 and 3/4 percent guaranteed). Kid, you'll move mountains!"

Congratulations to the class of 2014. Good luck to all of you!

MELISSA PERNER is the editor and publisher of The Ozona Stockman. Way to go Class of 2014!

Tall, Dark & Handsome

IT'S THE PITTS

LEE PITTS

I can tell how old you are just by the horses you know. For example, you are well beyond your expiration date if you know that Rex Allen's horse was Koko, Hoot Gibson's was Goldie, Tex Ritter's was White Flash, William S. Hart's horse was a pinto named Fritz and that Tom Mix loved Tony. If, on the other hand you know that Gene Autry rode Champion, Hopalong Cassidy sat on top of Topper, the Lone Ranger loved Silver, and Roy Rogers stuffed Trigger, you are a veritable spring chicken just like me.

Back in the dark ages kids idolized Hollywood cowboys and especially their horses. Kids my age grew up watching these heroes on TV and at the movies on Saturday afternoon. We all knew that Silver would save the Lone Ranger and that Trigger was the smartest horse in the universe. But that was before my high-IQ, mensa-like horse became famous all over the world. Or at least he was in our house.

As a child of the fifties I knew that if I was ever going to be a famous celebrity I had to have a horse for a sidekick. And not just any horse. It had to be a photogenic equine with a hook, something that fans could connect with. Something like the talking horse, Mr. Ed. Remember him? "A horse is a horse, of course, of course."

My search for an equine sidekick started and ended with my cowboy friend Ken Silva who was looking to upgrade. The horse that would someday be known far and wide as Gentleman was playing

minor roles just waiting to be discovered. So I paid Ken \$750 for his horse, loaded him with great fanfare, and much difficulty, in my antique horse trailer and took him back to the ranch.

And a star was born! The first thing I needed was a stage name for Ken's horse, who at the time was named something like Boneyard, Crowbait or Knothead.

The exact name escapes me now. We already had one worthless old nag at the ranch called Lady, so it was only natural that my new mount's stage name would be Gentleman.

Back in the day when cowboys ruled the screen a studio might devote as much as seven years and half a million dollars to train a horse, and that was back when half a million would buy a pretty good cow ranch. I didn't spend quite that much on Gentleman, but I did put a lot of work into the training of my wonder horse. Whereas Trigger knew a few dance steps and came when whistled for, Gentleman did something far more difficult: he disappeared. Completely. Whenever I needed him Gentleman would vanish into thin air.

Hollywood horses could do things like untie their master's hands but, believe

it or not, there were very few times I needed that done. Movie star horses were also adept at falling without hurting themselves and Gentleman did that constantly. He could also fall over backwards effortlessly at any time.

Just like the Lone Ranger's Silver, Gentleman was a stud and he did all his own stunts and played himself in all of our pictures. Alas, Gentleman lived up to his end of the bargain as a star but I did not. He got far more fan mail than I ever did and he was everything that I was not. He was tall, dark and handsome, well groomed, smelled good when sweaty and looked good in leather. He had all the attributes of a Hollywood star: he was aloof, spoiled rotten, went through shoes faster than Sarah Jessica Parker and only worked sporadically. He was also a carouser, never settling down with just one female. I was forever being upstaged by my horse as Gentleman was truly the star of our show. Although he's been dead now for over ten years his fans still ask about him.

Old-timers will say that you don't want a horse smarter than you are, but to that I say, "bull pucky." Whether you are fighting off the paparazzi, or just mingling with your fan base, it's important that one member of the duo know what you are doing. And Gentleman did.

Besides... one of us had to have a pretty face.

Big posts at stake in primary election runoffs

STATE CAPITAL HIGHLIGHTS By Ed Sterling | Texas Press Association

AUSTIN — Early voting ended May 23 and Tuesday, May 27, was state primary election runoff day.

Voting records available to the public at the Office of the Secretary of State show that turnout is historically low for mid-term primaries and even lower for primary runoff elections. But what's different about this set of runoffs — and something that should stimulate voter turnout — were the powerful offices at stake.

Tops in that regard was the race for lieutenant governor, the state's second-highest-ranking executive post. Three of the lieutenant governor's many important duties are picking committee chairs and members, controlling the flow of legislation and shepherding the state budget as a member of the Legislative Budget Board.

Republicans voting in the runoff for lieutenant gover-

nor chose between incumbent Lt. Gov. David Dewhurst of Houston and challenger Dan Patrick, a state senator representing northwest Houston. Dewhurst, as lieutenant governor, has presided over the Senate since 2003. Patrick, first elected in 2007, served as chair of the Senate Committee on Education in the 2013 regular session of the Legislature.

The winner will face Leticia Van de Putte of San Antonio, a state senator who ran unopposed in the March Democratic primary. Van de Putte served as a member of the Texas House of Representatives from 1990 to 1999 and has been a member of the Senate since 1999. She joins fellow state Sen. Wendy R. Davis, candidate for governor, on the Democratic ticket. Davis will face Republican

candidate for governor Greg Abbott, current Texas attorney general, in November.

In the Republican runoff for attorney general, the choices were lawyer-legislators Dan Branch of Dallas, a state representative, and Ken Paxton of McKinney, a state senator.

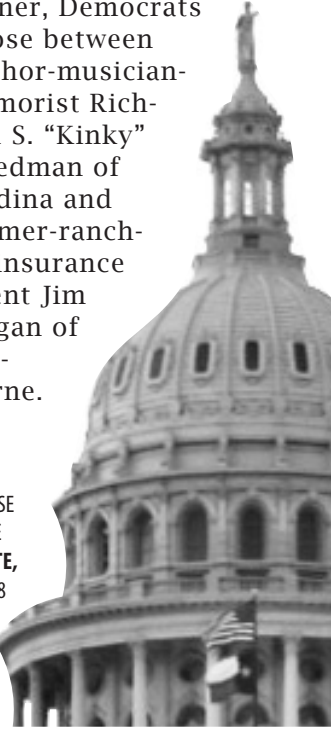

For agriculture commissioner, Republicans chose between former state representatives Sid Miller of Stephenville and Tommy Merritt of Longview.

And, in the race for railroad commissioner, GOP voters chose between former State Rep. Wayne Christian of Center and Ryan Sittton, a Pasadena oil, gas and petrochemical industry consultant.

Democratic voters chose between runoff opponents Dr. David M. Alameel of Dallas and Kesha Rogers of Houston, who are vying to

face incumbent U.S. Sen. John Cornyn on the November ballot. And, for agriculture commissioner, Democrats chose between author-musician-humorist Richard S. "Kinky" Friedman of Medina and farmer-rancher-insurance agent Jim Hogan of Cleburne.

SPECIAL OLYMPIANS were honored during the May 21 school board meeting.

School district forming drug testing policy committee

BY MELISSA PERNER
THE OZONA STOCKMAN

A committee is being sought to review the CCC-SD Drug Testing Policy.

At the May 21 school board meeting, Superintendent Raul Chavarria said the district is looking to form a committee to review the district's current drug testing policy and update the policy.

Board members said the committee would consist of teachers, administrators, county officials, parents, juvenile probation officials and sheriff's department officials. Chavarria said the committee would explore options with drug testing, which may include testing all students.

Currently, the district's policy requires random drug testing of any student in grades 7-12 who chose to participate in any school-sponsored extracurricular activity.

Random tests are conducted on as many as 20 dates throughout the school year, with no less than 10 percent and no more than 20 percent of the students participating in the program selected for each random test date.

"I really want us to bear down. We need to send a message to all students. We all agree that if we have a drug situation going on, we need to make our best efforts to stamp this out as soon as possible," said Orlando DeHoyos, board vice president. "If we're going to do this, whatever kid violates whatever policy we set, it doesn't matter."

Board member Roland DeHoyos said he had talked with parents in Ozona and received unanimous recommendations of all students taking drug tests.

"We need to get to the bottom of this and we need to start it here. We don't need this," said Roland DeHoyos. "The parents I have talked to said 'we don't want it, we don't need it, do whatever you have to do.'"

Chavarria said there are options the committee can explore, such as issuing parking permits and requiring student that park to be drug tested.

He also said the committee will review the policy if a student tests positive, and what measures can be taken to help those students that have issues.

"Peer pressure is huge. Our goal is to give as many students that opportunity to say no," Chavarria said.

RESIGNATIONS AND NEW TEACHERS HIRED

The board unanimously approved the resignations of teachers Alison and Erik Thormaehlen, as well as the retirement of Mary Anne Deaton and Nina Martinez.

The board also unanimously approved the hiring of Kim Davis as pre-k and PPCD teacher and Daphnee Peterson for seventh grade English.

Davis is a University of Texas at the Permian Basin graduate and has done her student teaching in Ozona.

Peterson is from Boerne and a graduate from Texas A&M University.

SHOP SAFETY

Chavarria told the board that he is still in discussion on the career and technology shop safety.

At last month's meeting, Donnie Lee spoke to the board about his son being injured in an accident in the OHS shop class.

Chavarria said he has talked further with Lee, and that Lee is willing to assist on seeking donations for better or newer equipment.

Chavarria also said he is looking at having a safety inspector come in to make the shop safer.

One of the other issues with the shop class has been overcrowding.

Chavarria said school

officials are looking at offering dual credit or online programs, such as health occupations, graphic design and other courses, until teachers can be found for these programs.

"Our students can carry these courses with them to college or technical institutions, while securing basic certifications," Chavarria said.

BUDGET

When the board starts budget discussions this summer, a new line item will be added to the budget for any travel or expenses for band, academics, cheerleaders or athletic teams that involves competing above normal district travel.

This includes playoffs and meets, or competitions, beyond the district level.

"If this line item is created, any unused money in that line item will be returned back into the budget," Chavarria said.

Also, the board will be considering funds to assist students who need remediation and tutoring. Principals are also exploring options to place the tutorial period within the school day and form a study hall.

DEVON ENERGY

Chavarria announced that Devon Energy donated funds for annual Teacher Appreciation Lunch that will take place at noon Friday, May 30, at the Civic Center.

Service awards and retiring teachers will also be recognized during that time.

SPRING BREAK

The board approved moving spring break for the 2014-2015 calendar to March 16-20 to match area schools and colleges involved in the OHS dual credit program.

Orlando DeHoyos said he would like for the district to consider a program for Martin Luther King Jr. Day, similar to what the district does for Veterans Day each year.

ADMINISTRATION SUMMER HOURS

The district's Administration Building will be open from 8 a.m.-4 p.m. Monday-Thursday and 8 a.m.-noon Fridays this summer with the Fourth of July holiday off.

OTHER AGENDA ITEMS APPROVED:

•Budget Amendment of \$6,000 for travel due to advancement into the playoffs for baseball, softball and track.

•Instructional materials allotment for all the textbooks on the Texas Education Agency approved list.

•Adjusted contracts for all principals to 12-months and counselors and campus secretaries to 202 days.

•Superintendent's evaluation.

The next regular board meeting will be 6:30 p.m. June 18 at the Administration Building. The meeting is open to the public.

Missing Cibolo man dies in vehicle accident

A man family members and New Braunfels police have been searching for nearly a week died Friday, May 23, in a fatal crash between Big Lake and Ozona, officials said.

William Patrick Abel, 39, died at the scene of a crash on Texas Highway 137 after his 2004 Chevrolet Silverado hit a Peterbilt semi-truck head-on about 20 miles south of Big Lake around 2:30 p.m. Friday, an official with the Texas Department of Public Safety said.

Abel, a Cibolo resident, had been southbound on the highway when his truck crossed the center line while driving around a slight curve. The driver of the semi-truck was not injured, DPS said.

Police had been searching for Abel since May 17 after he failed to show up for his daughter's wedding in New Braunfels.

Officials thought Abel might have headed to Austin to collect a gambling debt from a man named "Ray" or was possibly in the Hillsboro area.

Numerous calls made to his cellphone went straight to voice mail, according to police.

The accident investigation is still ongoing.

According to Abel's family he had no medical or mental issues and was not taking any prescription medications.

The Pecos River rose 20-25 feet and flooded the Pandale area.

The Texas Department of Public Safety spent Sunday searching the area for three hunters and three kayakers in the Pandale area.

All six were found safe, according to DPS officials.

DUNCAN IS TECH'S FINALIST

Texas Tech Board of Regents on May 19 announced state Sen. Robert Duncan, R-Lubbock, as the sole finalist for chancellor of the Texas Tech University System. He is expected to resign from the Texas Senate and start in his new capacity on July 1.

As chancellor, Duncan will serve as chief executive officer and will report to the system's board of regents. Current Chancellor Kent Hance reportedly will become chancellor emeritus at that time.

Duncan, 60, was born in Lubbock, grew up in Vernon, and earned his bachelor's degree and law degree from Texas Tech. He was elected to the House in 1992 and in 1996 won a special election to the Senate.

PERRY WRITES TO PRESIDENT

Gov. Rick Perry, who ran for president in 2012 and may run for president again in 2016, on May 19 posted an 873-word letter he signed and sent to President Obama about energy and the economy.

"You reassured the American people of your commitment to an all-of-the-above energy strategy to bring our nation closer to energy independence while creating needed jobs," Perry wrote, and then suggested that the president take a "Texas approach" to create jobs and stimulate the nation's economy by switching to a less-regulated strategy. That strategy would include such actions as stepping up coal-burning power plant capacities, opening the Keystone XL pipeline and increasing oil and gas operations on land and offshore.

HURRICANE SEASON NEARS

Texas Department of Public Safety on May 19 drew attention to the upcoming hurricane season, June 1 through Nov. 30, and urged Texans to assemble an emergency kit.

An emergency kit, the DPS suggested, should include essential documents, supplies and provisions. And, Texans should:

- Review hurricane evacuation maps and pick routes to safe locations;
- Plan how all family members and pets will evacuate safely and consider any special needs for individuals with disabilities or older persons; and
- Stay informed about changing weather conditions.

Best High School Memory: Red Ribbon Week my junior year, having to meet with a furry four legged friend in regards to some empty aluminum cans in the bed of my father's truck that I just so happened to drive that day. I soon discovered the situation itself was completely exaggerated when I was called out of class only to see the truck blocked in by two cop cars with their lights on. Needless to say, the situation was understood.

Future Plans: To attend Texas A&M University in College Station and major in petroleum engineering.

Best High School Memory: Ironically, the most vivid memories of high school that remain were not spent on campus. Half of them are found on the long road trips to different out-of-town events where I stared out the windows with my earphones plugged in pretending I was in a movie montage. The other half were experienced when spending time with my band, cross country, one act, and yearbook families. Life was at its peak when surrounded by so many amazing friends.

Future Plans: Ultimately, I intend to make an impact on society through my music and acting. That process begins at The King's College in New York City where I will study Media, Culture and the Arts, as well as exploring performance opportunities around the city. Photography, writing, and reality TV will most likely also be involved

in my future. To be honest, though, I'm just placing my future in God's hands and going along for the ride. For all I know, I may end up back here in Ozona as a teacher.
