CCCCSD will hold School Registration from 9 a.m. - 5 p.m. (open during lunch) Thursday, Aug. 9, at Ozona Elementary School for all campuses.

Parents or guardians will need to bring most recent immunization records and be ready to update telephone and address records.

They must also bring proof of residency and a photo ID. Only legal parents or guardians are allowed to register students.

If you are not the legal parent or guardian, then proper and legal documentation is required to verify that the child is in your custody.

This is required by the law according to Chap.25.002 of the Texas Education Code.

Crockett County CCSD will offer the opportunity to update guardianship forms by having a Notary Public Table during Registration.

Parents will have the opportunity to fill out a cafeteria application so that it is taken care of and can go into effect as early as first day or week of school.

A Parent Involvement Table will be available for anyone who would like to learn more about the school district and be part of any of the numerous committees.

New students to the district must bring Immunization Record, Birth Certificate, Social Security Card, Previous School Withdrawal Form along with the ad-

dress and fax number of the school the student attended and any other pertinent educational information. Children with disabil-

ities may receive services from public school as soon as they turn 3 years of age. Early assessment and education is available free of charge to children having

disabilities.

The first day of school is Aug. 21.

For more information, call (325) 392-5501 or visit ozonaschools.net.

A Back-to-School Health Fair will also be held from 11 a.m.-2 p.m. sponsored by Methodist Health Ministries. "We had a great turnout and the enthusiasm is really high," said Head Coach and Athletic Director Kyle Freeman.

The Lions have nine all-district selections returning, including Defensive MVP Abraham Rodriguez, All-West Texas quarterback Alec Lara, who were both selected to the San Angelo Standard-Times 2018 Preseason All-West Texas Football Team.

During a special called joint meeting Monday, the Crockett County Commissioners' Court and the CCCC-SD School Board approved placing a school bond election on the Nov. 6 General Election ballot.

The bond will involve moving money from the school district's maintenance and operations budget, which is subject to recapture by the state's Robin Hood plan, to the district's interest and sinking fund. All the money in the I&S fund remains in Crockett County.

The funding that is being moved is the Qualified School Construction Bond (QSCB) loan that the board approved in 2011-2012. The \$3.5 million federal loan has

SAVANNAH VANDERWIER, of Sheffield, is headed to the World Field Archery Championships in Italy on Aug. 30

BY BRENNA HALE THE OZONA STOCKMAN

On Sept. 4-9, Savannah Vanderwier will compete at the World Field Archery Championships in Cortina d'Ampezzo, Italy.

Vanderwier, an 18-year-old from Sheffield, Texas is one of three girls to qualify to attend the World Championship by placing second at the National Championship in Darington, Wash. in June. She was scored and judged on 72 arrows across two courses.

"After everyone competes, the top eight qualify to another round," Vanderwier said. "Then the top four of the eight qualify to another round, and they top three out of four qualify to the World Championship. I placed second behind Sophia Strachan from Maryland and above Cassidy Cox from New Mexico."

Vanderwier began competing in archery at age 10 through her local 4-H club, but has been shooting on a larger competitive scale on her own for the past four years. This will be her second and attend Grand Canyon University in the fall of 2019.

time to compete in the field archery championships, as she competed in Dublin, Ireland two years ago. She placed silver to her team mate, Sophia Strachan.

Last year, she her team broke a world record at the World Target Archery Championship in Argentina, where she placed second again.

"Field archery is the 'smart man's game' compared to target archery," Vanderwier said. "In field archery, you have to shoot at different angles and the different lighting can be really difficult."

Vanderwier will leave for Italy on Aug. 30, and begin practice on Sept. 2.

Though she will be competing through USA Archery, her trip is completely self-funded.

She has a account where she can accept fundraising support online- https://makeachamp.com/savannahbayearcher

Texas landowners subsidize pipelines and powerlines

There is no question, pipeline and transmission line projects are necessary to supply our rapidly growing state. The electric transmission capacity ensures our lights stay on and our homes stay cool during the hottest months of the year. Pipelines carrying oil and gas supply our fuel and a wide array of petroleum-based products, helping feed a booming Texas economy.

There is, however, a darker side to this pipeline and transmission line development. Every year more Texas landowners find themselves in the path

demn by force the land they **CATTLEMAN'S** want. They are COLUMN common carriers, meaning

their pipeline **BRIAN MCLAUGHLIN** or transmission lines are available for

use by other companies, even though they profit from the projects. Unfortunately, landowners facing the threat of eminent do-

main stand little chance of being treated justly or being paid a fair price for what is taken from them.

Some pipeline and transmission line companies are better than others, but profits often outweigh the rights of landowners who must sacrifice their property for the public good. Lax oversight and little transparency in the process also create fertile ground for abuse.

For instance, it is common for companies to hire right of way agents to secure the easements necessary for their project. Frequently, the agents are given a set budget and then allowed to keep a portion of the leftover money if they come in under budget. It's hard to expect a fair offer from someone when they stand to pocket the

difference. We know condemnors hold a powerful tool to keep land costs low. Intimidation. The threat of being sued, having to hire an attorney and go to court are strong incentives for land-

owners to take less than they're owed and accept inadequate terms and conditions.

We also know the energy sector has teams of attorneys ready on retainer to counter any efforts by landowners to seek a better deal.

Something must change. As landowner organizations, the Texas and Southwestern Cattle Raisers Association, Texas Farm Bureau and Texas Wildlife Association have joined forces to campaign for reforms that create a better and more equitable eminent domain process. We started the reform process during the 2017 Texas Legislative Session but encountered overwhelming opposition from condemnors who enjoy operating under the current law that stacks the deck in their favor. Ultimately, we were not successful, but we learned hard lessons, the kinds that stick with you.

The 2019 session of the Texas Legislature begins in a few months, and we fully intend to fight once again to reform eminent domain laws in Texas. The lessons learned from 2017 have

According to BBB's 2017 Risk Report, online purchase schemes are the riskiest type of scams. BBB offers the following advice to make sure you get what you pay for.

If I may be permitted to do so, I'd like to come to the defense of one of my favorite places on earth: the wonderful state of Wyoming.

The busy-bodies with nothing better to do, who always go around looking for something to be offended by, have now targeted the University of Wyoming in particular, and The Cowboy Sate in general. You may not be aware of this but universities don't just compete on the gridiron, they compete year round in trying to attract the best and brightest students to attend their college. Part of that effort in Wyoming included coming up with a new a catchy slogan that might snare a future President, an NFL quarterback or a Rhodes scholar. Naturally, I loved their new slogan: "The world needs more cowboys.'

Oh, but you should have heard the critics, left wingers, women's libbers and liberal professors cry! They said the phrase is racist, does not make potential students feel welcome and is sexist. They were quick to portray Wyoming as some backwater hick state that needs to enter the 21st century. I say these professors should study their history. If they did so they'd learn that Wyoming was the first state in the nation to give women the right to vote, serve on juries or hold public office. Along with Texas, Wyoming was the first state to have a lady governor. And they did it decades before the hip and cool states on both coasts that produce most women's libbers. Wyoming's motto was "Equal rights" long

cause the word "cowboy' would offend Indians. If those bellering critics went to any Indian reservation in the southwest they'd see a lively cowboy culture. A listing of the top team ropers in the country includes many Indian names and Indian rodeos on the Fourth of July are a staple of reservation life. I've known many Indians who aspired to one day

be called "World Champion Cowboy". So I don't see Indians going on the warpath over the university's new slogan.

The same critics who hate the University of Wyoming's new slogan are the same folks who contend the state's official logo, a rider on a bucking bronc, is sexist and racist. They must have better eyes than I do because from my vantage point I can't tell the race or the sex of the person on the bucking bronc.

They are just looking at it through the Hollywood prism that has brainwashed us all into thinking that the American cowboy was a white male heathen who went around beating animals. Again they should study their history. In the 1870's, one in six cowboys in Texas was black and one third of the cowboys who went up the trail were

or movies never told us that, did they? So who's being "non-inclusive?" The truth is, cowboys come from every race, sex and background and the only qualifications to be a cowboy are courage, a strong work ethic, the ability to out-think a cow and to always put women on a pedestal.

This is just one more stupid example of political correctness and women's libbers trying to turn us all into the same sex. Let's be honest, they hate the word "cowboy" because it contains the word "boy' and because boys eventually turn into men. Not only do they want to rid the future of men, they want to rid the past as well. The problem becomes, what should we replace the word "boy" or "man" with? Cowfolk, cowcitizens, bovinepeoples or how about cow Homo sapiens? No, the latter might offend the HGBTQ community.

I thought "cowpersons" might work but it contains the word "sons", so it's out. I got it... the University of Wyoming's new slogan ought to be, "The world needs more he/she cow peoples." Catchy, don't you think? That ought to satisfy the women. Whoops, I just noticed I shouldn't use the word "women" because it contains the word "men". Perhaps we should just use the word "female" when referring to people with xx chromosomes, except the word "female" has the word "male" in it.

Man, ridding the world of males is hard and is going to take a lot more work than I initially thought.

• Use a secure site. When shopping online, the first step is to make sure the URL starts with "https" and includes a lock symbol. The "s" in "https" stands for secure, which means your information is being protected. Click on the lock symbol to verify that it is activated. • Look up the website's privacy policy and contact information. If it is not clearly listed, or they only have an email as the point of contact, take that as a big red flag and shop elsewhere. Protect your personal information. Be sure to use your credit card instead of your debit card, as credit cards not only provide additional protection, but it's also easier to dispute a fraudulent charge with a credit card. Also, be extremely wary of any website or store that asks for your child's personal information to access special deals. For more tips on school shopping, head to www. bbb.org/backtoschool.

A list of qualifying items can be found on the Texas Comptroller's website at: https://comptroller.texas.gov/taxes/publications/98-490/

To make the most out of Tax Free Weekend this year, Better Business Bureau recommends shoppers:

Know the difference between "back-to-school sale" and tax-free items. Retail stores may advertise back-to-school sales because they know consumers are buying items for the upcoming school year. Certain discounts will still have taxes applied to them unless the item appears on the state comptroller's taxfree list.

Read the fine print. Retailers aren't required to collect state and local sales or use tax on most clothing and footwear sold for less than \$100 during Tax Free Weekend. The exemption applies to items that sell for less than \$100, regardless of how many items are sold on the same ticket.

· Save your receipts. You'll need them if you want to make an exchange

GALLEGO, FLORES TO FACE OFF

Former U.S. Rep. Pete Gallego of San Antonio and retired game warden Pete Flores of Pleasanton will face each other in a runoff for Senate District 19. A date for the runoff had not been set as of press time.

Gallego, a Democrat, beat state Rep. Roland Gutierrez of San Antonio for the right to face Flores, who easily outdistanced two other Republicans in the SD-19 special election on July 31.

Gallego, a lawyer, was first elected to the Texas

he was elected to Congress in 2012. He served one two-year term in Congress and in 2014 lost to Republican challenger Will Hurd, a Helotes lawyer, who is now running for his third straight two-year term as the representative for Tex-

Texas Agriculture Commissioner Sid Miller on July 30 shut down a cattle fever tick spray box operation at a South Texas ranch.

This is your brain on type-2 diabetes A recent study confirms the fact that our lifestyle choices profoundly influence not only the risk for Type-2 Diabetes Mellitus but can as much as quadruple the risk for dementia, also known as Type-3 Diabetes. Adding obesity as a factor even worsens the situation.

On April 27, 2017, Diabetalogia, a journal dedicated to reporting on issues related to diabetes, published the findings of a study involving 100 persons in the early stages of type 2 diabetes. Half were overweight and the other 50 subjects were normal weight. "The subjects were all studied with MRI scans of their brains, as well as various tests of memory, planning, and reaction times. All of the results were compared to 50 healthy control subjects who did not have diabetes." – per Dr. David C. Perlmutter, a Board-Certified Neurologist, Fellow of the American College of Nutrition and four-time New York Times bestselling author.

"The results of this study were really quite telling. The diabetic patients demonstrated significant brain changes in multiple areas, in both the deep white matter as well as in the brain's cortex... Blood brain barrier dysfunction is also noted to occur in diabetes. This sets the stage for entry of otherwise excluded proteins and even bacteria into the brain leading to nerve cell damage."

The latest research has shown that even minor elevations in blood glucose/ sugar levels are related to the reduction in size of the hippocampus, the brain's memory center. These levels of blood glucose also correlate to a decline in cognitive function, dementia and mood disorders; including impaired neurogenesis, the process by which we grow new brain cells. This is in addition to the fact that even moderately high blood glucose levels are toxic to all the other body's tissues and organs.

T2DM and all other meta-

various wavs. but the com-JIM FISH mon factor is Carbohydrate Intolerance (CI).

People with CI will show various indications and issues at numerous points throughout their lives. One person may progress through the stages of CI rather quickly and have very debilitating conditions as a child while another will go through the first two stages more slowly and not realize a disease until later stages of maturity.

Carbohvdrate restriction for those who are intolerant is scientifically proven better for weight loss, than low-fat diets in studies, regardless of the time periods compared. The most significant course of action for anyone with CI is the elimination of all refined carbohydrates including highglycemic plant foods, processed flour and sugar.

Perlmutter contends, "The actionable information here is that we've got to maintain a diet that's lower in sugar and carbohydrates, welcome healthful fat back to the table, be sure we're getting plenty of good prebiotic fiber, and, by all means, make sure that exercise is part of the plan, every day.'

Perlmutter, also the author of "Grain Brain" focuses on the ultimate role of elevated blood sugar in brain degeneration. He explores the indepth, scientific meta data produced by numerous studies that demonstrate significant risks of Alzheimer's disease or dementia, especially if the individual is also diagnosed with T2DM.

A recent study in the New England Journal of Medicine bolstered Perlmutter's discoveries demonstrating significantly increased risk for cognitive decline with mild elevations of blood sugar... much lower even than those that would indicate diabetes. Diabetes is also known to foster inflammation, and inflammation is the cornerstone of Alzheimer's type dementia, not to mention heart disease and other risks to health and wellbeing.

Exercise has many benefits for the carbohydrate intolerant, diabetics and Alzheimer's sufferers, but the greatest benefit is that it helps make it easier to control blood glucose (blood sugar) levels. Type 2 diabetics either don't produce enough insulin to process it or are insulin resistant (they don't use insulin properly).

Weight lifting helps to reduce blood glucose by using it from the blood and muscle during exercise. When lifting weights, the main fuel used is glucose or glucagon (produced by the liver from protein) that is stored in the muscle for quick release. Building lean body mass also adds greater storage area for muscle glucose. Weight lifting essentially improves the body's ability to process glucose, which is important in managing type 2 diabetes.

If you're insulin resistant, exercise makes your insulin more effective.

The 'nutshell' here is to prevent developing diabetes at all cost. Exercise is a valuable tool in glucose regulation and nutrition should include a way of eating that is low in sugar and other highglycemic carbohydrates. Here's to your health.

OZONA SENIOR HAPPENINGS Senior Bingo Social Monday

BY BRENDA NEWTON SENIOR CENTER DIRECTOR

We tried it before and we are going to try it again. On Friday morning at 10 a.m. we are going to put some jewelry together. If you have broken jewelry, or things that you don't like anymore, bring it with you and we can all work together to get it fixed. I have some tools to work with and a piece of material to spread it out on and the thread to string it on and you can have a new piece of jewelry to wear. Lisa and I have tried it and had a really good time. Come join in!

Please use the new exit on the south side of the center. It is a little hard to see, but it is the crossing that is across from Avenue D. It has been paved so it is really smooth. The exit in from of the center is dangerous because of truck traffic. There will be signs put up on this new entrance shortly. We do not want any of you to be in an accident leaving this facility. Please pay closer attention to traffic when leaving from town. Remember there is a curve there that blocks vision until it is too late.

We had a visit from the Concho Valley Community Action Agency which is the agency that helps you with Utilities. They left some applications for utility assistance. Come by the center and we will give you an application to fill out and send in to the agency. They said they would not be coming to the area facilities anymore and they only way to receive help is through their office in San Angelo or through mailin applications. Please check the website for the required documents or call the number listed: http://cvcaa.org or (325) 392-2411.

We will be having Bingo on Monday, Aug. 13. Out board decided it would be easier for everyone to keep up with the date for the bingo social if it was on the second Monday of each month. We will be serving taco pile up at this social.

We will have afternoon bingo each Thursday. Bring your nickels and play as many cards as you can handle at a nickel a card per game. If you bingo for that game, you get all the nickels.

We serve cokes and popcorn and have a good time. Then we have blackout bingo for a little prize for the lucky winner.

The center will open at 8:30 a.m. and close at 4:30 p.m.

FROM THE PULPIT...

IS THERE HOPE FOR AMERICA?

I remember the time I went to town and decided to eat dinner at one of the restaurants before I started home. While I was eating, a young couple came up and sat down at the table next to mine. They looked to be in their late thirties and seemed well mannered. They also had a cute blonde haired little girl with them. When their orders arrived, the father reached out and took hold of his wife's hand and then the two of them tried to take hold of the little girl's hand. She was reluctant at first but then she took their hands. She even bowed her head a little while her father prayed. The father prayed softly so I was not able to hear what they were saying but I heard the softly spoken, "Amen". I watched them and could tell they loved that little girl very much. When I got up to leave, I went over to their table and asked them if they were Christians and they responded with a, "yes". I told the father that I admired what they were teaching their little daughter and I told him to keep on. God tells us in the Bible to seek the kingdom of God first above all things, (Matthew 6:33). It also tells us to train up our children in the things of the Lord, (Psalm 78:5-7, Ephesians 6:4).

certain things that I wouldn't let out of the bag, like how Abraham (the father of our faith) pimped his wife Sarah out to Pharaoh, not once, but twice. God's Word is filled with accounts such as this. There's the story of Judah committing incest with his daughter-in-law whom he thought to be a prostitute. Interesting how Christ came from the tribe of Judah!

among you, let him first cast

If I were God, there are

a stone at her."

Why would God tell such family secrets and hang the dirty laundry out for all the world to see? Because it's hard to cast stones when you know that Abraham and Judah were sinners. Because the Bible is not a rule book, it's a love letter. Because Jesus is not about to let anyone beat us up for our sin.

Sin is never ok. It's bad and it hurts us, but there is a way that God dismisses sin, and it's not by the deeds of the Law or good behavior. He dismisses our sin by the body of His Son, Jesus Christ. This is what the cross of Christ was all about – dismissing our sin by forgiving it. In Christ Jesus, God literally sent the punish-

ment of our sin away.

Christ did not come to defend good or innocent people. He came to seek and to save the lost. Christ is not looking to save the easiest sinner. He is seeking the worst of the worst, the vilest of the vile. Christ's grace is scandalous in that He offers it to the morally bankrupt, the socially unacceptable, the repeat offender.

How's that for a family secret?

TOM SLOAN is the pastor of

Friendship Baptist Church in Ozona, Texas. Mona and Tom have been missionaries in Mexico since 1994. She was raised in a preacher's home in Austin, and Tom was raised in a missionary's home in Chiapas, Mexico. Mona and Tom have been married for 24 years and they have five children with the oldest being 22 and the youngest being 10.

Meals for Vets available in Ozona

Meals for Vets (MFV), a program of Honor Veterans Now, reaches veterans all across Texas who are in need of a hot meal a day. MFV provides consistent access to healthy, nutritious meals for veterans under age 60 who served honorably and are struggling financially. MFV partners with Veterans Service Officer, Frank Tambunga, who can assist in referring a veteran to receive meals.

Honor Veterans Now was founded by Tom Wollny in 2015 after he learned that there were veterans who were going hungry but did not qualify for assistance because of their age. Since then HVN and Meals for Vets has expanded throughout Texas and has been blessed to be able to provide over 100,000 meals to veterans in need who otherwise would not know when their next meal would be.

Veterans needing the services of MFV, or to refer a veteran, please call (800) 676-1389 or visit the HVN website at www.honorveteransnow.org. VSO Frank Tambunga may also be reached at (325) 392-1321 between 8 a.m.- noon and 1-5 p.m.

45th annual Sheep and Goat Field Day,

Texas Sheep and Goat Expo Aug. 17-18

SAN ANGELO - The Texas A&M AgriLife agencies are putting the finishing touches on two major sheep and goat programs in San Angelo, both tailored to all segments of the production side of the industry, organizers said.

The 45th annual Sheep and Goat Field Day will be from 8-11:30 a.m. Aug. 17 at the Texas A&M AgriLife Research and Extension Center on U.S. Highway 87 north of San Angelo.

The Texas Sheep and Goat Expo will headquarter in the 1st Community Federal Credit Union Spur Arena, 4722 Grape Creek Road, located on the San Angelo Fairgrounds. The expo starts immediately following the field day and will run from noon-8:30 p.m. Aug. 17 and from 7 a.m.-3 p.m. Aug. 18.

The field day will showcase work being conducted at the center, said Dr. John Walker, Texas A&M AgriLife Research center director. Presentations will include animal evaluation using records, livestock guardian dog technologies, and measuring wool yield and fiber diameter with near-infrared spectroscopy.

"We will also offer a handson fleece judging contest for those who want to show their skill at selecting outstanding fleeces," Walker said.

Following the field day, activities will move to the 1st Community Federal Credit Union Spur Arena for a noon meal and the start of the Texas Sheep and Goat Expo.

Robert Pritz, Texas A&M AgriLife Extension Service regional program director at San Angelo, said the expo is his agency's premier sheep and goat educational event for the entire state, and credits the active planning committee comprised of agency personnel and producers for its continued success.

"New this year, among

Pritz emphasized the expo is tailored for all levels of knowledge, from neophytes just considering entering the industry to those with generations of production knowledge behind them.

"One session that's of major interest to all, no matter their knowledge level, is the mock auction," Pritz said. "It will be manned by professional order buyers and livestock auction operators who will share their thoughts on the market for a variety of animals we'll have on hand to pass before them in the ring. This has been a very well-received session in the past as it brings together a group responsible for the bulk of the bottom line within the whole industry."

Dr. Reid Redden, AgriLife Extension state sheep and goat specialist at San Angelo, said the final activity capping the two days of programming will be the sale at auction of performance-tested animals.

"This year for the first time, we will also be offering ewe lambs." Redden said.

"The sale is designed to showcase performancebased genetic selection techniques," he said. "The sale will give expo participants the opportunity to buy some of the top genetics available within the breeds represented."

Those animals will include fine-wool and Katahdin and Dorper hair sheep and kiko goats from breeders who have used intensive genetic selection technology to make positive genetic improvement within their flocks, Redden said.

Adult registration is \$40 and youth registration is \$15. The fees include all meals. snacks and educational materials associated with the expo. Online registration for the expo ends Aug. 14, though registration will still be available at the field day and again at the door at the expo.

The center field day is free

Summer management of pecan trees

Excessive heat and lack of rainfall in most of west Texas has pecan tree owners concerned about both tree health and nut production.

Lower quality kernels can have lower oil content, poor flavor, darker color, lower percent kernel, etc.

Pecan trees need water at least every 2 weeks now and will do best with weekly watering with 1-1/2 inches of water.

Three inches every 2 weeks is good in deep, well drained soils.

Shallow or rocky sites need weekly watering through September and all trees need adequate rain or irrigation until the shucks begin to split at harvest time.

Overwatering pecan trees during August in west Texas would require constant soaking of the soil until water stands and that is near impossible!

Pecan trees grow wild along creeks, rivers and draws where soils are deeper, remain moist longer and usually have standing or running water nearby.

We need to remember this when growing pecans in landscapes and upland orchards.

Homeowners especially have been indicating their concern for the numbers of nuts dropping now and over the past few weeks.

This occurrence is commonly referred to as August drop, even if it occurs in July.

LIONS MIDNIGHT MADNESS FOOTBALL

LIONS: from page 1

and Zachary Talamantez.

This year's juniors had to "grow up fast" last season and will be looked upon for their leadership ability again this season.

"We depended on them. Once again, this year, we don't have a large senior class. Our seniors are all good kids, though," Freeman said. "They (the juniors) are more mature. They've grown. These kids have been in the program, so we can really do more."

Lara had a good debut last year throwing for 1,072 yards and running for 770 in 11 starts.

"I feel like everybody is on the same page this year. I noticed there is a lot of communication among the returning players to the new players coming in," Lara said. "I feel pretty confident this year. I got the nerves out of way and I feel like I can take control of the game."

Abraham Rodriguez piled up 115 tackles at linebacker last year, a goal he hopes to surpass this season. "The first practice was great. We still need a lot

of work, but we are ready for the season," Abraham Rodriguez said.

The returning juniors all said they are ready to step it up again this year in their leadership roles.

"Not having a lot of upperclassmen last year, made us work harder," said Lazaro Rodriguez.

"It prepared us to be a team," De La Cruz added. The Lions are facing new district opponents this season. Ozona joins Forsan, Hawley, Stamford and Winters in District 3-2A Division 1. Stamford advanced to the third round of the playoffs last year, while Hawley was a second-round team. Ozona is predicted to finish third.

The Lions lost in the first round to a strong, seniorled, Post team, after finishing second in district play.

Even with the tougher district, the Lions are determined to win the district championship.

"I think we will do fine. We will fight for that district championship, but I don't see why we don't have the tools to take care of it. If we come out of non-district play healthy, we can make a good run," Freeman said.

Ozona's non-district schedule is loaded with tough opponents, including the season opener against Sonora, followed by Iraan, Reagan County, Harper, Junction and Crane.

"It's going to be a really good challenge," said Abraham Rodriguez.

"It's tougher, but our pre-season opponents will help get us ready," Lazaro Rodriguez added.

Meet the Lions will be 7:30 p.m. Aug. 17 at Lion Stadium. Ozona will scrimmage Roscoe at 10 a.m. Aug. 18 in San Angelo and then Coahoma at 5 p.m. Aug. 23 in Coahoma.

Season opener is 7:30 p.m. Aug. 31 against Sonora at Lion Stadium. Reserve Tickets are on sale at the Administration Office at 797 Avenue D. Cost is \$30 per ticket for all five home games.

CCCCSD 2018-2019 Free/Reduced Price Lunch Program

Crockett County Consolidated Common School District

Dear Parent/Guardian:

Children need healthy meals to learn. *Crockett County CCSD* offers healthy meals every school day. Breakfast costs *Free for OES*; \$1.45 for OMS and OHS; lunch costs \$2.45 for OES; \$2.60 for OMS and OHS. **Your children may qualify for free meals or for reduced-price meals.** Reduced-price is \$.30 for breakfast and \$.40 for lunch. If you received a notification letter that a child is directly certified for free or reduced-price meals, do not complete an application. Let the school know if any children in the household attending school are not listed in the letter.

The questions and answers that follow and attached directions provide additional information on how to complete the application. Complete only <u>one application</u> for all the students in the household and return the completed application to *Ludy Vargas, PO Box 400, Ozona, Tx 76943, 325-392-5501 ext 5547.* If you have questions about applying for free or reduced-price meals, contact *Ludy Vargas, PO Box 400, Ozona, Tx 76943, 325-392-5501 ext 5547, ludy.vargas@ozonaschools.net.*

- 3. *My Child's Application Was Approved Last Year. Do I Need To Fill Out A New One?* Yes. An application is only good for that school year and for the first few days of this school year. Send in a new application unless the school has told you that your child is eligible for the new school year.

The Cattle-Fever Tick Eradication Program is managed by the USDA and the Texas Animal Health Commission. The use of pesticides is regulated by the Texas Department of Agriculture, over which Miller presides. The goal of the program

is to limit the cattle fever tick to the eight-county quarantine zone along the border with Mexico, and ultimately to eradicate the pest from Texas entirely.

On Aug. 1, the Fort Worthbased Texas and Southwestern Cattle Raisers Association issued a statement critical of Miller's action.

"We are very disappointed that Commissioner Miller made such a rash decision to take away this vital tool from Texas cattleraisers," wrote the organization's president, Robert McKnight Jr. "His action could seriously endanger cattle welfare and prevent Texas ranchers from participating in commerce at a time when

galvanized our resolve and made us rethink how we approach the issues and those who seek to block progress.

One fundamental component is to require that common carriers make an adequate offer to the landowner at the outset of negotiations. If a landowner is presented with a fair offer, he or she is more likely to be a willing seller, thus sparing both parties from time-consuming and expensive litigation

Millions of barrels of oil and gas flow through the common carrier pipelines that exist today, but production far exceeds the capacity of these existing pipelines, especially in the Permian Basin. As an attorney based in San Angelo, I have had clients tell me of initial of-

REVENUE **TOTAL INCREASES**

Texas Comptroller Glenn Hegar on Aug. 2 announced that state sales tax revenue totaled \$2.74 billion in July, 6.9 percent more than in July 2017. "Sales tax receipts from

almost all major economic sectors were up compared with last year," Hegar said. "The most notable increases were from oil and gas mining and manufacturing sectors, followed by wholesale trade, restaurants and services. Recent tax collections have also been boosted by a tax amnesty, including more than \$39 million in delinquent state sales tax revenue, most of which was processed in July."

Also, total sales tax revenue for the three months ending in July 2018 was up 10.2 percent compared to the same period a year ago.

fers that are a pittance compared to the value of the millions of dollars' worth of product that will flow through the pipelines.

It's time that companies with the power of eminent domain begin treating landowners more like a partner and less like a commodity. We need to ask why the pipeline and transmission line industries are being carried on the backs of private property owners.

To create the kind of change that is necessary to protect landowners from abusive eminent domain processes, we must educate our elected officials on the realities we face when that right-of-way agent comes knocking.

Lawmakers will face intense pressure to keep the eminent domain laws as they are. We need to show how the eminent domain process works and where the abuses lie.

If you have had an experience with a pipeline or electric company in a condemnation process, we want to hear from you. Your experiences can help show the public and the legislature how dire the situation is for their constituents, Texas landowners.

The district budgets \$231,000 each year for the QSCB loan payment.

By moving the loan to the I&S fund, the district will be able to pay off the loan faster and have more money in their M&O fund to use for salaries, teaching supplies and daily operations, said CCCCSD Superintendent Raul Chavarria.

To move money from one fund to another, it takes a bond election, Chavarria said.

If approved by voters, it would add \$231,000 a year to the maintenance and operations budget, save taxpayers \$446,511 in interest and there is no tax increase to the taxpayers of Crockett County, Chavarria said.

The district has \$1.85 million in principle and \$446,511 in interest left on the QSCB loan, which will take the district until 2026 to pay off.

"We have the opportunity to move the loan over, pay it off and increase our budget and not increase taxes," Chavarria said.

The M&O tax rate is currently at 1.06. The I&S rate is .14 with two bonds the district is currently paying off.

'It takes three times longer to pay it out due to Robin Hood," said School Board President Dwight Childress. Both commissioners and

board members said that the biggest challenge would be educating and explaining this bond to the public.

"This is a great deal but explaining this is a tough job you all will have to do," said Commissioner Pleas Childress.

"We had a courtroom last week full of people that realized bonds had a negative effect on getting them a raise," added Commissioner Wesley Bean.

Chavarria said he would be holding public meetings and is open to talking to any groups, or anyone, about the district's financial situation and the bond election.

"If someone is open-minded and willing to see the benefits, it's a win-win situation for our kids and especially our taxpayers," Chavarria said.

TRAPPERS

The commissioners also approved changes to the county's predator control.

Approval was given to create a budget for the program and to advertise for two County Wildlife and Livestock Protection Specialists.

Members of the county predator management board attended Monday's meeting.

Commissioner Pleas Childress said the county has been working with the state's Animal Damage Control program, but that quite a bit of funding was required to be sent to the state program.

This Order is adopted pursuant to Local Government Code 352.081, and other applicable statues. This Order does NOT prohibit outdoor burning activities related to public health and safety that are authorized by the Texas Natural Resources Commission for: (1) firefighter training; (2) public utility, natural gas pipeline or mining operations; (3) planting or harvesting or agricultural crops; or (4) burns that are conducted by an approved Prescribed Burning Association, Natural Resource Conservation Service, the and/ or Texas A&M Agricultural Experiment Station, or prescribed burn manager certified under Section 153.048, Natural Resources Code, and meet the standards of Section 153.047, Natural Resources Code.

money there and not getting the benefit," Pleas Childress said. "We have put a lot of thought into this deal. It addresses our personal needs here in the county."

The county will hire two specialists. The budget approved Monday night listed the Head Trapper's Salary at \$37,200 and the other trapper's salary at \$33,600. Both employees would be full-time and receive county benefits.

The budget also included \$20,000 vehicle expense, \$10,000 Ranger expense, \$6,000 equipment and \$4,000 trappers-hot spots.

Under the county, the trappers will be able to work one-on-one with landowners, without having to go through the ADC.

"We're trying to be more effective. The ADC just kept nibbling and chipping away," said Fred Chandler.

A help wanted ad for the specialists can be found on page 11 of this edition of The Ozona Stockman. Job description and applications are available at the county auditor's office. Deadline for applications are Aug. 20.

THE COMMISSIONERS ALSO:

 Held a budget workshop.

Kept the burn ban instated.

Approved paying the bills.

· Canvassed the July 31 Special Election for State Senate District 19.

The regular county commissioners' court meeting will be 9 a.m. Monday, Aug. 13, at the courthouse annex. The meeting is open to the public.
