DONALDSON DIED FRIDAY

Tahoka Boy: Many
Local and Abilene People
Attend Funeral

The earliest funeral over
in Tahoka was that held
yesterday afternoon when the re-
lative Donaldson, son of Mr.
W. L. Donaldson of this city,
was buried in the City Cemetery.

Donaldson died in a sanitarium
on Friday afternoon of injuries received
when he dove into shallow
water in a swimming hole at McMurry
College, where he was a student
and was buried in the cemetery.

As a result of the in-
juries he was broken and his
shoulder was dislocated, where he was a
student. He was hurriedly taken
to the hospital and surgical attention
A specialist from Dallas
arrived and an operation was
performed as a last resort. Parts
of the bone were removed but
failed to revive and died
Friday afternoon.

Many young men were with
the boy when the accident occurred
and were unable to explain
what had happened. Donaldson
had straight down into the
pool, they say, but
it is not clear if he made the dive or was
not that he was unconscious
when he dove. In Tahoka
for three years he had been
McMurry College
and many honors both
in school and in athletics. He
was in the McMurry football
team just recently been
selected for the team for 1927.
He was a devoted admirer
of his fellow students
and the most poignant
moment of his life was his
death.

Services were conducted
by Rev. E. F. Davis, formerly pastor
of First Baptist Church at this
which deceased was a mem-
ber assisted by Rev. R. T.
the present pastor. Services
were conducted at the home
of the deceased at the cere-
mony.

A large concourse of relatives
and friends attended the obser-
vations and Mrs. Claude Donaldson,
Wallace Donaldson, and Mr. and Mrs.
James of Lamont, were
out-of-town relatives who
attended the funeral.

One of the
most popular was the
time of the fatal ac-
cident, Ovid's mother was
at Lubbock where he
was born May 13,
just a little more than 20
at the time of his death.
He was buried in Tahoka. He
was one of the finest
men of his time and one could
not find fault with him.

He was the brightest and most
talented Tahoka schools
and was popular with faculty
and fellow students.
He was one of the finest
men of his time and one could
not find fault with him. The
public generally to attend these ser-
vices.

Another New Filling Station Being Built

Still another filling station for Tahoka. Work was begun Tuesday morning on the construction of a brick and tile structure on the lot of Mrs. N. A. Jones at the southwest corner of the square, the site on which formerly stood the old frame structure occupied by the Murphy second hand store which was recently destroyed by fire.

The building will be a modern drive-in structure, about 28 by 30 feet, commodious and attractive. It has been leased to the American Refining Company, and J. H. Glenn, agent for the company, who removed here from Plainview last week, will have charge of the station.

The lot and building belong to Mrs. A. Jones. Herbert Stokes has the building contract.

This will make 13 filling stations in operation in Tahoka, as soon as the two new stations now under construction open for business. Situated on the Glacier to Gulf Highway No. 9, at the southwest corner of the public square, this is one of the best locations for a filling station in town.

The big oil companies seem to have the utmost confidence in the future of the town.

CARD OF THANKS

It is impossible for us to express our appreciation of the many acts of kindness done and the many expressions of sympathy given in the terrible catastrophe which took our loved one from us. We are also thankful for the many beautiful floral offerings. We appreciate our friends.

Mr. and Mrs. John Berry

Sweetwater Has Big Water Problem

Sweetwater has a serious water problem. There has been so little rain the past year over the territory that drains into Lake Trammell, the principal source of Sweetwater's water supply, that the lake is almost exhausted. Proposals for the building of another dam or for the drilling of numerous wells to augment the supply are now being considered, but temporary relief must be had. A contract was recently made to procure water from the big Santa Fe lake, but a few days ago the Railway Company canceled the contract, and now Sweetwater is desperate. It is to be hoped that abundant rains will fall soon to supply the immediate demand for water.

Arrangements have been made and funds subscribed to advertise with strip maps and markers, which will be placed at each intersection between Fort Worth and Roswell. The tourist will never be in doubt as to his arrival at destination on account of inadequate markings.

ROAD MEETING SET FOR JUNE 9

Will Be Held At Post City. To Discuss Bond Issuance For Surfacing Highway

BROWNFIELD June 6.—A meeting of the Fort Worth-Brownfield Air Line Highway Association has been called for Post City on June 9, to take preliminary steps toward issuance of bonds in those counties along the line which do not have hard surfaced roads and for the transaction of such other business as may come before the directors.

With the exception of two strips, the road has been hard surfaced in accordance with Government specifications from Fort Worth to Rotan, in Fisher County. It is believed that a favorable bond vote can be had in that county, and that an election will be called within the next few weeks. Kent county, in which Clairmont is situated, has voted \$200,000 for this particular route and plans and specifications have been prepared and placed for approval by the State Highway Commission. It is possible that actual construction will be commenced with in the next few weeks. Counties between Clairmont and the New Mexico line have constructed good dirt and caliche roads which are State maintained and connecting directly with the only hard surfaced State highway running across New Mexico between Pecos City and Farwell. In fact, New Mexico does not contain any other designated or surfaced highway between the two points mentioned that extends to the Texas line.

The Air Line is the most direct route from eastern, southeastern or northeastern points to Roswell, N. M., the mountain resorts of that State, and Southern California. And as short as any other proposed route to Carlsbad, the Caverns, or the proposed highway between Artesia and El Paso, with the additional advantage of traveling over State-maintained and connecting directly.

Arrangements have been made and funds subscribed to advertise with strip maps and markers, which will be placed at each intersection between Fort Worth and Roswell. The tourist will never be in doubt as to his arrival at destination on account of inadequate markings.

LUBBOCK SANITARIUM NOTES

(From Lubbock Sanitarium News)
Mr. W. H. Barber of Tahoka, who had an operation for gall bladder trouble and appendicitis, is able to be up in a rolling chair.

Mrs. P. T. Walker of Wilson had a Caesarean section operation Tuesday of last week.

Mrs. G. B. Moss of Wilson was brought to the Sanitarium last week on account of a broken arm.

Mr. G. C. Hart of Tahoka had his appendix removed a few days ago.

Local Showers Visit Parts of County

Only a few local showers have fallen in Lynn county within the past week. Nearly every day there has been much promise of rain but just as often the clouds have vanished without yielding much precipitation. On Sunday an apparently heavy rain cloud formed in the northeast and the whole heavens soon became overcast with the welcome clouds but the net result was a severe dust storm for most of the county. At New Lynn a very helpful shower fell.

A. C. Carpenter reports the precipitation at about one inch. The northeast portion of the county was largely covered by the rain. From Central Church eastward to Pong a good rain is reported. Grassland received only a light shower but it was heavier at Draw, growing still heavier a few miles south of that place on the line of Borden county.

G. T. Brewer and H. W. Calaway report a good rain which covered two or three sections of land in the Joe Bailey neighborhood between O'Donnell and Draw, but the rain was generally very light in that vicinity. West and north of town practically no rain has yet fallen in Lynn county.

On Monday night a slow rain amounting to about one-half inch is said to have fallen at Brownfield. It was heavier west an lighter east of that place, staying out entirely before reaching the Lynn county line.

Much of the county has received sufficient precipitation within the past two or three weeks to bring up crops, but a vast majority of the fields are yet barren. This is admittedly the most severe drought in this section since 1917.

Mrs. Viva Humphreys returned from Belton Saturday, where she has been attending Baylor College, and left Tuesday for Canyon to attend the summer session of the West Texas State Teachers' College.

Mr. and Mrs. Belton Howell returned Saturday from Temple, where Mr. Howell went to consult specialists.

NEW TEACHERS AT SOUTH WARD

O. L. Sanders and Miss Mallie McCall, both of Lorenzo, drove down to Tahoka Saturday, succeeded in being elected as teachers of the South Ward School and left town the happy possessors of a marriage license. They were accompanied back to Lorenzo by Pfugler Wampler, Linotype operator for the News, who reports that they were married in Lorenzo at 12 o'clock Saturday night. They left Monday morning for Canyon, where they will attend the summer session of the State Teachers' College.

Mr. Sanders has just completed his second year in the Texas Tech. He has a few acquaintances in Tahoka, who say that he is a most capable and worthy young man. Miss McCall has been teaching the past four years, the first year in a rural school, two years in Crosbyton, and the past year in her home town, Lorenzo. She has been re-elected to each position at the close of her term.

Mr. and Mrs. Sanders will occupy the teacherage at South Ward after September 1. The school board believes that worthy successors of Mr. and Mrs. Griggs have been procured for South Ward school.

Elie Lam, who has been attending Simmons University the past year, returned to Tahoka Friday and has accepted a position for the summer with Park's Market.

Hon. Clyde E. Thomas, an attorney of Big Spring, stopped at the News office on a return trip from Plains, where he had professional business in the district court, just to exchange greeting with the editor. Mr. Thomas was formerly county attorney of Howard county and more recently was mayor of Big Spring. He is an old time friend and fellow practitioner with the editor.

W. A. Sloan of Roscoe and John W. King of Abbott, Hill county, were Tahoka visitors Tuesday. They were out just taking a look at the south plains. It was the first trip of Mr. King to this section and he was very favorably impressed with our country, notwithstanding the continued drought that has prevailed so long.

SNOW TO BE ELECTROCUTED

F. M. Snow, the human degenerate who was convicted of slaying his wife mother-in-law, and stepson in Erath county last year, must go to the electric chair on Friday July 15, according to the sentence recently passed by the Court. After murdering his wife and mother-in-law he burned their bodies in an open grate. He afterwards killed his stepson, beheaded the body, and hid it in a lonely place on a mountain side.

Berlin Welcomes American Airmen

Welcome by 150,000 cheering Germans, Chamberlain and Levine who crossed the Atlantic in the monoplane Columbia and landed in Germany many Sunday, reached Berlin Tuesday afternoon. The enthusiasm of the great multitudes assembled to welcome the visitors was intense. Prior to the arrival of the airmen, bands entertained the crowds by playing German and American airs alternately and American flags were much in evidence. Upon the approach of the airmen the crowd went wild.

Since Lindbergh made the first successful flight across the Atlantic, landing in Paris and visiting Brussels and London, it seems peculiarly fitting and appropriate that Chamberlain and Levine, making the second successful flight, should land in the heart of Germany. Just as Lindbergh'sfeat had a wonderful effect in bringing about more kindly feeling between America on the one hand and France and England on the other, so Chamberlain and Levine's visit to Germany will result, it would seem, in enhancing the friendly relations that exist between America and Germany.

These three Americans have done more for the cause of world peace perhaps than our army and navy could do in a year.

Mr. and Mrs. Alvin Hicks of Midland spent the week-end here visiting relatives. Mr. Hicks reports much building at Midland and he is well pleased with the city. He ordered the News sent to his address for a year.

R. R. Tate and family left Sunday to visit his parents and other relatives in Comanche county. They will probably be gone two weeks.

G. H. Nelson returned Tuesday from Abilene where he spent two or three days on business. Mr. Nelson reports that both W. G. Briley and T. J. Rovell are prospering in Abilene.

Mrs. Viva Humphreys returned from Belton Saturday, where she has been attending Baylor College, and left Tuesday for Canyon to attend the summer session of the West Texas State Teachers' College.

Mr. and Mrs. Belton Howell returned Saturday from Temple, where Mr. Howell went to consult specialists.

It requires one million license plates to supply Texas motor vehicles.

Russell Keltner Run Over By Car Tuesday

As Russell Keltner was crossing the street going from the Hogan corner to the Brashear corner Tuesday morning he was run down by a car which was driven by Mr. Wilson, a highway workman. One wheel of the car passed over both of Russell's lower limbs below the knee. No bones were broken but Keltner received some severe bruises on the ankles and one hip. It was purely an accident.

Miss Dovie Colleback returned Saturday afternoon from Simmons University, Abilene, where she had been in school the past several months.

A showing of oil has been struck in a wildcat well being drilled ten miles west of Hale Center in Hale county, according to the Plainview News. The well is being drilled on a tract of land owned by Judge Clarke M. Mulligan of Lubbock. The showing was found at a depth of 450 feet. Another test is to be started at Plainview, about 15 miles west of Plainview, at an early date.

CARD OF THANKS

It is with the deepest sincerity of heart that we extend to all of our friends our appreciation for the kindness shown in our great sorrow. The sympathy of our friends makes our grief easier to bear.

Picking Cotton In June In Lynn County

Who ever heard of people on the plains picking cotton in June? But cotton is still being picked in one field between Tahoka and Lubbock, according to J. H. Holloway, gin man. He reports that on the road to Lubbock Monday he saw a bunch of cotton pickers gathering the fleecy staple. A harrow was being run over the field, digging the cotton out of the earth, and the "hands" were following, picking it up.

The price of cotton has advanced considerably within the past two or three months, and since practically no rain has fallen yet this year and the prospect for raising a cotton crop is rather precarious, it is supposed that the owner of this old last year crop decided that it would pay to dig his cotton up and save it.

**Doak, Burleson, and
Smith Have Gone
To Kiwanis Meet**

I. S. Doak, Happy Smith and Bill Burleson left Saturday for Memphis, Tenn., to represent Tahoka Kiwanis Club at the big Kiwanis International convention, in session there this week. They will be gone all the week.

Geo. Hogan of Hogan's stores is here this week.

Kimes, Okla. Bandit Eludes Officers Again

Matthew Kimes, Oklahoma bandit and bank robber, who has been operating both in Oklahoma and the North Panhandle oil fields, again eluded the officers Monday afternoon after a posse of a hundred men thought they had him surrounded in the woods near Pawhuska. Kimes, barely more than 21 years old is wanted for a number of crimes, including murder and bank robbery. Officers have been seeking him for the past six months but thus far have failed to capture him.

Shortly after noon, when news that the airmen had lost their way and had landed at Klinge was telephoned to the watchers at Tempelhof Field, the crowd there began melting away and in less than half an hour the great airship was deserted.

Despite the disappointment, the Americans were credited with a plucky and sensational flight. It was pointed out that Chamberlain encountered thick, muggy weather as soon as he crossed into Germany, and his failure to find the track to Berlin was ascribed primarily to the heavy cloud banks and confusing winds.

Although a flock of scouting planes went out to locate him soon after he was sighted over Dortmund, he wandered too far to the east. Had his course been a direct one after passing over Magdeburg, he would have arrived at the Tempelhof Field.

W. W. Brandon shipped a car of two-year-old steers to Kansas City from Seminole Tuesday morning, he stated to the News. Brandon is said to be the largest cattle shipping point in West Texas, most of the land in that vicinity still being in ranches.

Mr. and Mrs. L. C. Honey are spending the week at Cisco, visiting her parents and other relatives.

CHAMBERLIN CROSSES OCEAN

Fails To Reach Berlin, Being Lost
In Clouds; Huge Crowd Pre-
pards Welcome

Berlin, Germany June 6 (AP)—For the second time in little more than a fort night an American airplane has spanned the vast Atlantic and landed safely on the European continent.

The nonstop flight of the Bellanca monoplane Columbia, piloted by Clarence D. Chamberlin, with Charles A. Levine as his companion, ended at Eiselen, Saxony, 110 miles southeast of Berlin, at 5 o'clock Monday morning (midnight by New York daylight saving time), when the fuel supply was exhausted and motor trouble developed.

Taking to the air again, the flyers made a brave attempt to reach Berlin, but apparently lost their way in the cloud banks and adverse winds encountered during the morning and came down at last in Klinge, near Kottbus, Brandenburg, seventy miles southeast of the capital. In alighting the propeller hit the ground, the wheels of the Columbia settled into the marshy ground and further progress was impossible. The plane had travelled 120 miles from Eiselen and if headed in the right direction, would have landed at Berlin.

The flyers failed to achieve their goal, Berlin, but they established a new long distance sustained flight record, having covered about 3,500 miles from Roosevelt Field, New York, to Eiselen.

Starting from Roosevelt Field at 6:05 a. m. Saturday, they had been in the air forty-two hours when forced to land at Eiselen, as compared with thirty-three and a half hours for Capt. Charles Lindbergh's 3,610-mile flight from New York to Paris a little than two weeks ago.

News of the Columbia's start and the subsequent dispatches telling of their progress had brought Berlin to fever heat and the great Tempelhof Field, nucleus for a web of commercial air lines, was packed with crowds waiting to welcome the Americans. Many waited all night.

An American flag was run up the main flagstaff, the band of the Lufthansa, or German Air League, played lively airs and officials hustled about making arrangements for the reception.

NOTICE TO THE PUBLIC

Any erroneous reflection upon the reputation or standing of any individual, firm or corporation, that may appear in the columns of the News, will be gladly corrected when called to our attention.

The first institution in any town to feel the effects of drought or any other local calamity is the newspaper yet that institution is supposed to stay right on the job telling the world the wonderful resources and opportunities to be found in that particular section. Many of the papers of the South Plains section are mere shadows of what they were last fall before the drop in cotton, and now not only present the appearance of our drought, but almost seem to be already in the famine stage. Many of these editors and their forces have worked

into the night to help their masters in times of prosperity, never charging extra for these little accommodations, but they are the old standbys that feel the pinch first when they come. Even some of the county officials forget the losses the local paper is constantly handing out to them, and if they can save a dollar by giving the order to a high colored gentleman that has no interest in the county except its dollars, he goes off with the order. We ask if you think the best boosters the South Plains has, barring none, are being given a square deal?—Brownfield Herald.

In the Farm & Ranch of last week is a group picture of seven brothers the sons of Rev. E. R. Barnes. Four of them are preachers, one is the judge of a court, another is a teacher. One of the preachers is a presiding elder and another is President of Southwestern University at Georgetown. This is indeed a remarkable family of boys. How did it happen? First they are of good stock. Father and mother had good blood in their veins. There are "blooded" people just as there are "blooded" stock. There is much in heredity. In the second place, these boys were well trained. We suspect that there was some family government, that is true. High ideals were kept constantly before the boys before the boys. Nonconformists High standards were maintained. They were given proper training morally and spiritually. Moreover, there was no neglect of their education. Every opportunity possible was given them. Every necessary sacrifice was made. And the boys were taught to work. Good blood, good training, hard work, and ambition can accomplish wonders. They have done so in this case. Texas owes a debt of gratitude that it can never pay to the parents of these seven boys. All honor to Rev. and Mrs. E. R. Barnes, the old-time circus rider and his faithful wife.

In spite of the fact that Lynn county has received less than two inches of rain when this is written, Monday, since January 1, some wheat has been made in this county and is being harvested. The good rains last fall, of course, are responsible for the yield. But this experience shows to us that wheat can be raised successfully in this county and more of it should be sown. With wheat, cotton and feed as its main crops, and with hogs, cows, and chickens as supplemental crops, there would seem to be no good reason in the world why Lynn county should not become one of the richest farming counties in Texas. It will.

An optimist is a man who can stand in the face of a parching west wind, with not a cloud in the heavens, and predict rain. Some call that kind of a man either a fool or a new comer, but we call him a public benefactor. He can drive away more blues in an hour than a sand-storm can pile up in a day. We love the fellow that always sees the bright side of things.

They are going to give that boy Lindy a big welcome when he gets back on this side of the big water. One thing that makes us like Lindy is that the plaudits of the people, princes and potentates, has not turned his head. Another reason we like him is that he has turned down the big money that the show people have offered him. Lindy is still just a real honest-to-goodness old American boy, and we like him.

The trouble with Lynn county just now is that too many of her clouds have had silver linings.

New Home

Mr. Garland McWhorter left last Monday for Amarillo. He is working in that place.

Mrs. Odell returned last Thursday from Winters, where she has been visiting her daughters. Her daughter Faye did not return. She will have quite an extended visit there.

Mr. and Mrs. J. P. Fulton returned last Sunday from Amarillo, where they have been visiting their children the past week.

Mr. Junior Roberts left last Sunday for Midland and Odessa and will go to work at one of these places.

Mr. and Mrs. Con May spent the weekend with Mrs. May's parents, Mr. and Mrs. J. P. Lowe.

Mr. Bradley, who has been in the Elwood Sanitarium, returned home last week.

About twelve or fifteen men of the Baptist Church met and planted the crop they are going to work for the church. They seem to have faith in the rain coming whether it comes or not.

Mr. and Mrs. Harvey King, who left this country about two years ago, have moved back to this country to make their future home.

Mr. Andrus is visiting his son, Perry Andrus, this week. Mrs. Andrus is from New Mexico.

Mr. and Mrs. E. H. Bates spent the week end in Lubbock.

Mr. Erwin Hancock left last Sunday for Abilene, where he will attend school this summer.

CORRESPONDENT**Uncle Jim Talks Politics Again**

Well, as Uncle Pete and the editor have written articles, I was just compelled to pay the News another visit.

I want to say as regards Uncle Pete's article, pour it on, Uncle Pete. I see you are right. Put the right brand on it. The time has come for plain speech and stop this whitewashing.

If anything is black call it black and don't call it colored. We are living in a day of progress.

As the saying is, some people are "not in there ways"—it was good enough for dad, it is good enough for me.

Well, Uncle Pete—**it seems** that there are some people who are so fixed in their minds that if left alone they would retrograde back to the savage state and become as cannibals, go to eating one another. So pour it on, Uncle Pete. Uncle Jim is with you to the last ditch.

Now as for Brother Hill's article, Brother Hill does not think that Smith can be nominated by the Democratic Party for President of the United States. I hope he will not be but I am fearful that he will be.

There is a power behind Smith that we must reckon with. In the first

place every Catholic in the nation and the Philippines will support him.

Every bootlegger and lowdown dive will support him. And that

is not all; many people by not being informed, who think they are Democrats, will support him because he is

on a Democratic ticket, I will. And this is not all.

There is a certain religious denomination advocating the modification of the Volstead Act,

if they can get it modified. He will

get thousands of that vote.

Yes, Brother Hill, I believe Smith will be

nominated and elected President, yet

I pray that he will not be.

The people are asleep, both religiously and politically. They are

going to wake up but I fear it will be

too late. Smith will take his orders

from the Pope of Rome. Say, what

is the matter with Uncle Tom? Come

out and help us to fight the battle

that is before us. Don't be a slicker.

—UNCLE JIM

O. H. Nelson left this morning for

Austin on business.

G. H. Holloway and family ran

over to Carlsbad Caverns last weekend on a sight-seeing trip.

The Godberry and Hancock families

are leaving this week on a short

trip to California.

Haskell County Calls Road Bond Election

At a special meeting of the Commissioners Court Tuesday of this week a county wide Road Bond election was called for August 6th. The amount to be voted on will be \$1,500,000.00.

It is proposed to hardsurface every State and Federal highway in the county if the proposed bond issue carries in the coming election. There is at the present time approximately 115 miles of designated highways in the county. In addition to the main highways a sum will be set aside to improve lateral roads in the different precincts, giving Haskell County one of the most complete systems of roads of any county in this section of the state.

According to the plan adopted and approved by the commissioners from all sections of the County, Precinct No. 2 will receive approximately \$750,000.00; Precinct No. 3, the sum of \$450,000.00 and Precinct No. 4 the sum of \$350,000.00 to offset the \$1,500,000.00 in bonds now outstanding in Precinct No. 1, which will be retired on the county wide issue.

The election will be held in all precincts at the regular voting places. The entire election will be found as issued in today's paper.—Haskell Free Press.

Miss Nora Craig of Plainview is here the guest of her aunt, Mrs. S. N. McDowell.

Mrs. Gray, mother of Mrs. George Knight, returned to Eastland Wednesday after a visit of several weeks with the Knight family.

Mrs. R. N. Shepherd and George returned Monday from Abilene where they had spent two weeks visiting.

Mr. and Mrs. Henry McMillin returned Tuesday morning from a vacation trip spent at Christoval and in the Davis Mountains.

Mr. and Mrs. Jack Rivers left Friday for Corpus Christi, Galveston, and other places in south Texas. They expect to be gone several days.

TIGHT FEELING

Medical Merchant Recom-
mend Black-Draught Fer-
tilizer of Indigestion.

Mr. D. W. Huff, a retired
resident of Centerville, Miss.,
is very well known in his
part of the state, makes the
following statement, in regard
to his experience with Thelford's Black-Draught:

"About thirty years ago, I
had myself in need of a
medicine and I began using
Black-Draught, as it had been
highly recommended to me.
I found it good."

"I used to have a tight feel-
ing in my chest, after meals,
caused from indigestion, and
was very uncomfortable. I
would feel tired, not like
working. I would take a few
doses of Black-Draught, and
feel like working. I call it 'my
medicine.'

Let Thelford's Black-
Draught be your medicine,
in sold everywhere. One
dose a day.

CHICAGO MAN DESCRIBES CARLSBAD CAVERNS

The great Santa Fe system has undertaken to capitalize on the wonders of Carlsbad Cavern. In a bulletin recently issued it announces that for the benefit of passengers on its main line, it has instituted motor car service from Santa Fe and from Albuquerque, while passengers over the Belen cut-off may reach Carlsbad over the Pecos Valley line. One of the main highways over which the Cavern may be reached from the east is No. 84, which passes through Tahoka. In announcing the motor car service for the Santa Fe, R. W. Birdseye of Chicago gives the following word picture of this indescribable natural wonder:

The Carlsbad Caverns do not display their full glory immediately upon entrance, leaving the rest of the trip as an anti-climax. Rather, exactly the opposite is true.

Eerie shapes, sometimes resembling birds and beasts or figures in profile, and again in the form of pillars, fluted and ornate, seem to step into the sharp circle of lantern light and then out again. In these weird formations, and the delicate encrustations that cover the huge blocks of fallen rock, we are making our first acquaintance with the wonder-working of water, charged with carbonate of calcium and dripping slowly from the roof through the endlessness of time.

As we pass along winding galleries, whose roofs are hundreds of feet above us, and through vast chambers of transcendent beauty, time, distance and direction are forgotten. In this unbelievable shadowland, where the pleasant walking temperature of 56 degrees stands unvaried throughout the year, an overwhelming sense of the vastness, the sublimity, and unearthliness of our surroundings struggles vainly for expression.

All that has gone before shrinks by comparison when at length we enter the Big Room. Nowhere else on earth has man discovered so stupendous a subterranean chamber. Upon its floor our party is of no more consequence than a line of ants on the floor of a warehouse.

In dimensions alone the Big Room is awe-inspiring, sublime. When we study its decorations, upon which the Great Artist has worked for countless ages, it becomes bewildering. No photograph yet taken reveals more than an infinitesimal part of its glories.

The ceiling has disappeared under millions of pendants. These stalactites, resembling icicles, range from needle-like points to enormous masses whose length and weight cannot be estimated. Against the walls are frozen cascades of flowstone. Jutting rocks support other clusters of stalactites that ring at a touch with the rich tones of chapel chimes; crystalline formations resembling bunches of cedar tips or tangled masses of protruding roots; or slender stalagmitic columns of living stone that are often many feet long, no thicker than macaroni and more fragile than pipe stems.

The floor of the Big Room is lost under stalamitic formations of infinite variety in size and shape. There are complicated coraline encrustations, branched and delicate. From smooth mounds of flowstone 200 feet across rise carved and fluted domes 60 or 70 feet in height. Jewelled splash-cups, supported on slender shafts covered with fretwork, might be the drinking cups of the Gods. Ghostlike totem poles, tall and graceful, reach upward into the darkness. The irregular basins of old springs, some empty and others filled with water clear and silent as glass, are lined with crystalline onyx marble. Within the boundaries of these pools rise "lily pads"—thin sheets of onyx, built in concentric circles and supported on heavy pedestals.

This indescribable glory of form and substance has been created in utter darkness, particle by particle, through perhaps a million years. Yet even the finishing touch of color has been added.

There is the smooth whiteness of salt, the blue-green white of ice, the sparkling brilliance of frost; the black and grey and brick red of the basic rocks; the jade green of flow-stone, the shell pink and tea rose in the stone curtains and portieres; the light cream of the great domes and the turquoise blue of the pools.

The greatest descriptive writers have failed to adequately portray the Grand Canyon of Arizona. The words have yet to be coined that will do justice to the Carlsbad Caverns of New Mexico.

Mr. and Mrs. B. H. O'Neal went to San Angelo to visit relatives last Thursday. Mr. O'Neal returned Sunday but Mrs. O'Neal will remain several days. Mr. O'Neal went through Odessa and the oil fields and says it is very dry the entire route except for a short distance this side of San Angelo, where cotton and corn were good.

BRED-TO-LAY STOCK

(F. W. Kazmeier, Bryan, Tex.)

Have you ever taken a Sunday afternoon off and made a trip out in the country for say twenty miles for the special purpose of studying the kind of chickens kept on our farms? Mongrel stock still predominates. Scrub stock still seems to be considered by many farmers, to fill bill. Many still believe that a chicken is a chicken one as good as another. No doubt those same people believe that one chicken lays as another, and that there is not much difference between the different chickens from standpoint of egg-production.

Yes, mongrel poultry is the thing, according to many farmers of today.

We do not like to call a spade a spade when it hurts people's feelings to do so. Truly, however, it is discouraging to notice how many farmers persist in blocking all efforts of progress. They have fallen into a "rut" so deep they do not care to exert themselves sufficiently to get out.

Mongrel chickens on a farm means that the owner is a very unprogressive individual, prideless, shiftless, and almost hopeless.

The International Harvester Co. has published a book entitled as follows:—"This book is not written for those unfortunate farm folks who are so far behind the march of progress that they still keep only scrub hens, hem of such uncertain breeding and so carelessly cared for that they produce no eggs in the winter dirty unmarketable eggs in the Spring and bloodringed, ill flavored, unmarketable eggs in the summer and leave a few scraggly, undersized hatched in stolen nests chicks to carry on the unprofitable business another year. One owner of such a flock, when urged to get better hens and take better care of them, replied:

"It's a right smart trouble pickin' up the eggs." Such folks have a right smart trouble making ends meet, and sooner or later they will be driven out of the farm business by those who keep in step with present day developments."

Gentlemen of the farms, read the above paragraph again. The author of that statement undoubtedly knows what he is talking about. Take off an hour after supper and check up on your self. Mr. "Puttin' Off" himself.

Half a dozen mongrel dogs and a few more non-descript chickens, greet you, as you stumble past the front gate on the average farm. Surely this cannot be a sign of progress or of prosperity.

There is no earthly excuse for keeping mongrel chickens. They are failures from the day they are hatched to the day the hog or mule puts them out of business.

Mongrel chickens are poor layers. Why should they be otherwise? They have no breeding and no bringing up. You don't know what they are or where they came from. All you know is that they look, act and maybe smell like chickens.

Here are a few facts for you to think about:—Some chickens lay 350 eggs in one year. Some chickens lay 100 eggs in one year. Many chickens lay only 50 eggs in one year. Some don't lay any eggs. Is there a difference in chickens?

Egg-production is a hereditary characteristic. Trapnesting and selective breeding are the only means of breeding for egg-production.

You breed eggs into a chicken, add by proper feeding bring them out.

The average mongrel hen lays less than 50 eggs in one year.

A hen must lay 90 eggs in a year in order to pay room and board bill.

A flock of bred-to-lay hens are like thoroughbred race horses pulling at the bridle, anxious for the word "go".

Breeding in chickens is probably one of the most important factors necessary to profitably production.

Present price of bred-to-lay stock, is such that any one can own good chickens. It is only the shiftless and indifferent, that are not able to keep standard-bred or sometimes called pure-bred chickens.

Mr. Farmer, who works his farm like a miner, believes in making excuses and putting it off instead of asking means by which he can replace his flock of mongrels with standard breeds, he spends his time in thinking up excuses or in some other justifications for his mongrel flock.

The mongrel hen eats just as much feed in a year as a standard-bred hen and lays an average of only 1-1/2 as many eggs. Still she reigns supreme on many of our farms.

The start, the foundation, the success, in fact everything of a profitable poultry flock depends upon, whether they are mongrels or thoroughbreds.

Cross-bred stock is but little better than mongrel stock.

LINDSEY OF LUBBOCK BUYS LYNN THEATRE

A deal was consummated the past week whereby the Lynn Theatre became the property of the Lindsey Theatre Enterprises, Inc., with headquarters at Lubbock. This announcement was made by Mr. G. Bert Davis the first of this week. The purchase price was given as \$5,500.00 cash.

The Lindsey Theatre Enterprises, Inc., are owners of a number of first class show houses over the South Plains and bear the reputation of being the leading show men of this section of the country. C. C. Lindsey closed the deal for the Lindsey estate.

Mr. Lindsey announced that in addition to showing the highest types of pictures as the Lynn Theatre has been doing in the past, he would in the very near future install a blizzard cooling system for the comfort of the patrons.

For the present Mr. G. Bert Davis will remain as manager.—O'Donnell Index.

CITATION BY PUBLICATION

STATE OF TEXAS

To the Sheriff or any Constable of Lynn County, Greeting:

You are hereby commanded to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Lynn County, a copy of the following notice:

THE STATE OF TEXAS

To all persons interested in the Estate of J. B. Curtis Deceased. Eliza C. Curtis has filed in the County Court of Lynn County, an application for the Probate of the last Will and Testament of said J. B. Curtis Deceased, filed with said application, and for Letters Testamentary which will be heard at the next term of said Court, commencing on the 4th Monday in July A. D. 1927, the same being the 25th day of July, 1927 at the Court House thereof, in Tahoka, at which time all persons interested in said Estate may appear and contest said application, should they desire to do so.

Herein Fail Not, but have you before said Court on the said first day of the next term thereof this Writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court in Tahoka, Texas, this 25th day of May, 1927.

W. E. SMITH, Clerk County Court,
Lynn County, Texas

THE LYNN COUNTY NEWS

THURSDAY, JUNE 9, 1927

HARVEST UNDER WAY: YIELDS ARE SURPRISING

Wheat harvest is getting under way in Hale county, gathering steam since beginning last Saturday and by Monday of the coming week 50 per cent of the combines will be running and by the end of the week harvest will have reached its peak of activity.

Surprising yields are being reported. One farmer near Halfway is making 25 bushels to the acre. W. W. Parrish, southeast, near the Calahan Ranch, is making about 20 bushels to the acre and his wheat in testing 62 pounds. W. H. McDuffie and Guy McDuffie, southeast are harvesting on an 800 acre field that promises a good yield.

L. L. Mitchell, east of town, started today. G. B. Aycock's wheat is making about 15 bushels. M. H. Plunkett, southeast of town on the A. G. Cox place, has finished a 38 acre patch that averaged 23 bushels and the entire field will average 22 bushels, it is believed. Others who are harvesting now are J. L. Perdue, Ben Flentge, Joe Huub and V. M. Lee.

John McGarr, veteran wheat farmer of the Happy Union community, is making about 20 bushels to the acre and his wheat is weighing out 60 pounds to the bushel.

Many had predicted that wheat would not make over 10 bushels to the acre so the yields are surprising indeed. Especially the early wheat is fine, but a smaller yield is predicted for the late crop.

Wheat started off at \$1.35 here, but went back today to \$1.30. A surprising part of the big turnouts here has not received any rain since before Christmas. Mr. Parrish's wheat had not seen a rain in seven months. The tremendous ground season received between September 1st and December 15th is solely responsible for the yields this year.—Plainview News.

ELIZABETH HUGHES SOCIETY HAS MEETING

The Elizabeth Hughes Society met at the church Monday afternoon for business session and bible study. The book of Esther was read and discussed by the entire class.

COTTON MADE BIG YIELD AFTER JUNE 25

Coleman Wells says everybody is getting scared too soon. Cotton can be planted very late here and still make a big crop. "There was no rain here from October, 1903, till June, 1904," Mr. Wells said Wednesday to a representative of the News, "and yet I remember that J. H. Cowan planted ten acres of cotton after that date and made four bales. He had it ginned at Big Spring. There was no gin here then. In 1923 Henry Reed's crop was hauled out and he replanted. He finished replanting on July 6 and made half bale per acre. There is plenty of time for cotton yet, if we don't have an early frost." Mr. Wells declared.

Rev. D. B. Doak, presiding Elder of the Lubbock District of the Northwest Texas Conference and Rev. W. C. Hinds, pastor of the Methodist Church at Big Spring, were visitors in Tahoka Wednesday.

Slaton—Construction is in progress on between fifteen and twenty blocks of street paving in the residence section of the city. When completed, there will be 40 blocks of pavement in Slaton. It is all of brick laid on a concrete base.

Exports from Texas in 1926 amounted to \$648,991,564. This was exceeded only by New York. The next state was Pennsylvania with about one-half the value of exports as compared with Texas.

Rev. B. N. Shepherd, Mr. and Mrs. W. B. Edwards, Mrs. J. B. Walker, Mrs. E. N. Weather, Mrs. I. S. Doak, and Misses Mattie Will Sawyer and Mary and Margaret Preston attended the Baptist Workers Council at Meadow Tuesday. The next meeting will be at Brownfield.

Prisoner Breaks Jail

One of the prisoners in the county jail sawed his way out and escaped Wednesday night. He was in jail upon a complaint filed in the justice court several weeks ago charging him with the burglary of a box car on the tracks of the Santa Fe railway and the theft of a case of cigarrettes valued at \$75.00. He was apprehended at Sweetwater two or 3 weeks ago and was brought here and placed in jail by Sheriff Wesley Simpson. He gave his name as Jack Barnett. His place of residence is unknown.

There were only two prisoners in the county jail, the other being charged with the theft of gasoline. He refused to leave but remained in the county lock-up. He claims that Barnett found a saw in his mattress. The escape was effected by sawing the bars from an outer window the prisoner having been left in the run-around for the night. A rope was made of a bed sheet, one end of which was made fast inside the building and down which Barnett descended to the ground. No trace of him has been reported at the time of going to press.

TER-BAR H. D. C. REPORT

The ladies club met with Mrs. McCarley as hostess, called to order by Vice President Mrs. Crews; roll call by secretary, Mrs. McCarley.

After a song and prayer by the club the club voted to send Mrs. John M. Johnson to College Station as representative of our club, to the farmer's short course in July.

We made a good start on one rug and have everything in readiness for the oval rug which will be started on or before our next meeting. We are anxious to get them finished.

There were nine members in attendance. Pineapple cream and pineapple cake were served to the following: Vice President Mrs. Crews; Secretary Mrs. McCarley; Club Reporter and Corresponding Secretary, Mrs. Johnson, and Mesdames Henderson, Lindley, Arnold, Leverette, Nichols, John Moore, and Miss Edith Nichols; visitors, Misses Lucy and Mabel Crews and Jamie McCarley.

The next meeting will be with Mrs. J. A. Beasley the first Thursday in July.

—Corresponding Secretary.

We extend our heartfelt sympathies to Mr. and Mrs. Berry in the loss of their son.

T-Bar Ladies Club.

Clyne Thomas says that advertising usually pays. Recently he advertised some special prices and made a number of sales early the next morning after the paper went into the mails, on the strength of the advertising. If you have anything good to offer the public, tell them about it through the News and watch results.

Dalhart—Cream receipts for the Kaufman Creamery company, which has been located in Dalhart for the past two years, totaled \$3300.60 for the month of May up to noon of May 27. This amount is more than twice the business of May 1926. More than 450 farmers are patrons of the creamery. The establishment has promoted introduction of several car loads of dairy cattle.

INSTRUCTION IN

RED CROSS FIRST

AID SAFETY FACTOR

Its Industrial and Educational Service Spreads Throughout the United States.

Signs that the United States is awake to the menace of its increasing accident toll are apparent in the growing interest in first aid instruction as offered by experts of the American Red Cross.

Approximately 30,000 Juniors and seniors completed the First Aid course during the second year, passed rigid examinations and received Red Cross First Aid certificates. This represents an increase of 2,500 over the preceding year, and this gain is attributed to the emphasis on health education by various public bodies including not alone the American Red Cross and Government agencies, but life and accident insurance companies, and athletic and recreational groups.

In Dallas, Texas, playground supervisors are required to hold First Aid certificates. In many high schools the subject is included in the regular curriculum. In order to assist in training instructors for this phase of the work, special courses have been conducted in the summer schools of such leading institutions as the University of Maryland and the University of Virginia. Instruction was continued during the year at Loyola University, New Orleans; University of California, San Francisco; University of Kentucky; Temple University, Philadelphia; Peabody Teachers' College and similar educational centers.

Work with the public utility group has shown an exceptional increase during the year. Classes conducted by fourteen of the associated Bell Telephone companies were continued with increased interest and a number of the companies sponsored intensive courses in First Aid for instructors.

The First Aid Instruction Car of the Red Cross was busy throughout the year. In the 125 cities visited by the car 500 meetings were held with an aggregate attendance of 34,000 persons.

Membership of the people in the American Red Cross makes such services possible, the annual opportunity of pledging support through membership being offered in the Roll Call from November 11 to 26 this year.

Educators Give Junior Red Cross High Praise

Growing recognition by leading educators all over the world has been an achievement of the Junior Red Cross in the last several years.

Included in those which have taken especially favorable cognizance of Junior Red Cross efforts are the World Federation of Education Associations at Edinburgh, Scotland, in 1925, the Department of Superintendence of the National Education Association, at Washington, 1926, and the National Education Association in Philadelphia, June, 1926. Various State educational bodies have confirmed this approval, the report adds.

As a phase of their work, the Juniors have developed contacts through exchange of correspondence, with similar Junior organizations in virtually every part of the world, and through the development of this medium many leaders see a better chance for world peace in future.

An especially notable development of Junior organization has occurred in Porto Rico, with an enrollment of 127,000, and the Philippines, with 912,000.

More than 5,000,000 Americans Juniors are at work in this organization of the American Red Cross. Their example is held out by the American Red Cross during the Tenth Annual Roll Call for membership, as one for all Americans to endorse by joining the parent organization during the period November 11 to 26 this year.

War Over, But Red Cross Nurses Are Ever On Duty

Has the romantic picture of the Red Cross Nurse faded with the war days? It has been more than 12 years since that first contingent of brave women to go to the war zone sailed from America to make an unending record of service behind every battle front.

For an answer to their whereabouts today, it is only necessary to refer to any large disaster of recent years in which the Red Cross rendered relief.

Wherever there was injury and suffering the Red Cross nurse will be found to have been on active duty.

These nurses are enrolled under the American Red Cross as a reserve of the Army, Navy and U. S. Public Health Service, at all times ready to serve in war or peace. This reserve of Red Cross nurses aggregates 42,500 women who have met the highest standard in the nursing profession.

The Roll Call for membership in the Red Cross this year is November 11 to 26, when the American people identify themselves with the broad services of the organization by joining the ranks.

Miss Hazel Connolly is at home to spend the summer. She graduated in the Whitney High School two weeks ago and was the valedictorian of the class. Mr. and Mrs. Connolly went down and attended the graduating exercises and Miss Hazel accompanied them home. She expects to enter Baylor College at Belton next fall.

OVID DONALDSON DIED LAST FRIDAY AFTERNOON

(Continued From First Page)

was shipped to Tahoka Saturday morning. The entire student body of the college was at the station Saturday morning as the body of their honored mate was placed on the westbound Texas & Pacific passenger train.

At Post City a large delegation of friends and relatives met the train to form a funeral procession to Tahoka. Some 25 of Donaldson's classmates were in the cortège.

All Tahoka was in mourning and for one hour during the funeral all business houses of the town were closed. Rev. R. F. Dunn, former pastor of the Tahoka Methodist church, officiated at the ceremony held at the Donaldson home. Dean Boyd M. McKeown, dean of McMurry, also paid tribute to the departed youth, and special music was given by the McMurry College male quartet.

Quartet Slags

Their song might have been "Soliders Rest," for it was a gallant stand that the 20-year-old student made against death. "He was brave" Ovid's father, John D. Donaldson, who arrived the night after the fatal mishap said, "He knew that his only chance was to undergo the operation. He went to the operating table with great confidence, willing to take the consequences, whether of life or of death."

That attitude was characteristic of the captain-elect of his football team for 1927 who had fought as brilliantly when losing as when winning during his three years of service.

Vertebrae Fractured

Donaldson was injured Thursday shortly before noon while in swimming with J. A. Wilhite and "Dub" Harkrider, two other McMurry students. His head struck the concrete bottom of the pool when he dived from the top of a 12-foot sliding board into four-foot of water. His neck was broken and his body paralyzed from his shoulders down.

Pallbearers at the funeral were Grady Martin, Marvin Boyd, Eugene Luker, Coach R. M. Medley, Anthony Hunt, Orie Mitchell, Herbert West, Clyde Park, and E. R. Wharton.

Donaldson was born in Tahoka May 11, 1907. He is survived by his parents, Mr. and Mrs. J. D. Donaldson; three brothers, C. O. of Wichita Falls, J. W. of Houston, and J. D. Donaldson Jr., of Tahoka; one sister, Mrs. G. A. Thomas of Lamont.

His mother, who has been in a hospital at Lubbock, was able to attend the funeral, but returned after the service to the hospital—Abilene Reporter.

FIGHTS 18 YEARS TO GET RID OF GAS

"I had stomach trouble for 18 years. Since taking Adlerika I feel better than for years and have not been bothered with gas."—L. A. Champion.

Even the FIRST spoonful of Adlerika relieves gas and often removes astonishing amount of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you.—Thomas Bros Drug Company.

TO HOLDERS OF

SECOND LIBERTY LOAN BONDS

EXCHANGE OFFERING OF NEW TREASURY BONDS

Notice is given of a new offering of UNITED STATES TREASURY BONDS dated June 15, 1927, and bearing interest from June 15, 1927, at 3% per annum. The bonds will mature in fifteen years, but may be called for redemption after sixteen years.

Second Liberty Loan bonds will be accepted in exchange for the new bonds offered in the Exchange offering.

Second Liberty Loan bonds have been called for payment on November 15, 1927 and will cease to bear interest on that date.

Holders of such bonds who desire to take advantage of the exchange offer should consult their bankers or trust companies at once.

The exchange privilege will be available for a limited period only after the date of June 15, 1927.

Further information may be obtained from banks or trust companies, or from any Federal Reserve Bank.

A. W. MELLON,
Secretary of the Treasury

Washington, May 31, 1927.

Renew Your Health by Purification
