TRUSTEES HEAR STATE SPEAKER

S. E. Clark Of State Dept. Of Education Talks To County School Men On Consolidation

About thirty-five public school trustees assembled in the district court room last Friday afternoon to hear a discussion of school laws and school problems by Prof. S. E. Clark of the State Department of Education.

Mr. Clark explained a number of changes that have been made by the enactments of the present legislature. The tendency for a number of years, according to Prof. Clark, has been to increase the power of the county board of trustees and to provide for the consolidation of small school districts. He pointed out the advantages to be derived from the consolidation of small districts where practicable.

"The one-teacher school and the two-teacher school are greatly handicapped," Mr. Clark stated, "because each teacher has too many grades. Some people seem to expect a teacher with seven grades to do as well as a teacher with one grade. It is an impossibility. In the ordinary country school of one or two teachers, the teacher can give not more than 15 minutes to a recitation whereas in the town schools, like you have here in Tahoka, 30 to 45 minutes are given to each recitation. Each pupil can get two or three times as much attention in the high school as can be given in the one-teacher school. This condition in country schools gave rise to the provision for the transfer of pupils above the seventh grade to high school districts.

"Under the new law, the county trustees are required to classify the schools into elementary schools and high schools. A high school pupil residing in a rural district that does not teach high school subjects may be transferred into some high school district. At the end of the term the high school district presents a bill to the child's home district for tuition, and \$100,000 has been appropriated by the legislature to pay these bills for the next school year and another \$100,000 for the following school year.

"The county board of trustees is also given power to consolidate common school districts for high school purposes. In such case, the elementary schools remain as they are but a high school is designated or established at some central point in the new district and the high school pupils in all the original districts attend this consolidated high school. Also the county board is given power to annex small districts to independent districts which maintain high schools, upon approval by the qualified voters of each district concerned.

"In case of consolidation, the State will pay as much as \$300.00 on the expenses of operating each truck required to transport pupils."

Mr. Clark explained a number of other provisions of the law but since many changes in the laws have recently been made he was unable to say just how some of these laws would be interpreted by the Department or by the Attorney General.

Superintendents Caveness and Baze each made short talks also.

Most of the trustees present were from the rural districts and evinced much interest in the matters discussed.

Household Goods Stolen At Grassland

The News is informed that while Giles Mathews and family of Grassland were at church a few nights ago, thieves entered their home and stole quite a quantity of household goods, including bed quilts, pillows, etc.

Officers were notified but up to this time no arrests have been made.

T. R. Nerdyke, who returned last Thursday from a visit in Callahan county, reports that weevils and worms were destroying the cotton crops there. There is much fine fruit in that section of the West, however, he states.

Does Not Depend On Cotton Alone

R. D. Spruiell of the Gordon community brought in a sample of his corn Saturday. He has only a few acres but the yield was pretty good and he is now having lots of roasting ears at his house. He has our thanks for the fine ears of corn he left us.

Mr. Spruiell does not depend on cotton alone for his living. While he has a very fine cotton crop this year, he also has a lot of very fine maize. He is also in the hog business in a small way. From one sow he has already sold \$159.92 worth of pigs this year and has five pigs in the pen now. He milks 8 good Jersey cows and feeds the skimmed milk to the hogs. These, together with the poultry he has, supply his table with most of the necessities of life. Diversification pays.

PROSPECTS AT WELL ARE GOOD

Kingsland's Brownfield No. 1 Changes To Standard; Officials Here To Test Out Gas

"Not much change from the situation last week," is the way A. E. Krause of the Kingsland Oil & Potash Company described the prospects early this morning at the Kingsland well just over the line in Terry county west of here. "We still have some gas, and the prospect for a well may be even slightly better than last week. We are determined to find out whether we have a well or not. We are going to discard the rotary rig now and resume drilling with a standard. We ought to know within a few days what this gas showing amounts to."

The showing of gas was encountered at 2230 feet last week. Since that time the drillers have gone about 20 feet deeper and are in the gray lime.

W. L. Kingsland, President of the Company, Emmett Lee, a stockholder and other members of the Kingsland Company have been here from Amarillo this week watching developments. Mr. Kingsland was in California when reports became current that gas had been struck last week. All these gentlemen insist that there has been much exaggeration as to the amount of gas that has been found and they say that as yet it is entirely uncertain as to whether or not it will be developed in paying quantities.

At the Elpo location on the Nevels tract, the derrick has been completed and one truck load of equipment is on the ground. The drillers have had trouble in developing a sufficient water supply, however. The water well is now down to 410 feet and the supply is still insufficient. They struck some water at 345 feet but a very meagre supply. It will be fully a week and probably longer before the drillers are ready to spud in, according to F. M. Gill of the Mauldin Drilling Company.

There is nothing new as to the Hart well.

Clairemont To Hold Big Road Meet Saturday

Belton Howell received a communication Monday from J. E. Shelton, secretary of the Brownfield Chamber of Commerce, advising that a meeting of the Fort Worth Roswell Air Line Highway Association will be held at Clairemont next Saturday, August 27. A big barbecue, with polo, horse racing, goat roping, baseball, and other entertainment features, is to furnish amusement for the visitors. Large delegations from every town situated on this highway are expected. Funds have been provided for the improvement of this highway through Kent county, and when this link of this highway is completed it will be an easy matter to make this one of the best east-and-west roads through the state.

It is to be hoped that a number of Tahoka people will find it possible to attend the meet.

Poison the worms.

M. E. REVIVAL COMES TO END

Ten Day Meeting Does Much Good; Rev. R. T. Breedlove, Pastor, Does Preaching

The revival services which have been conducted for the past ten days at the City Tabernacle came to a close Wednesday night. Rev. R. T. Breedlove, pastor of the Methodist Church, did the preaching, and Mr. Eagan of Littlefield conducted the song services.

The visible results of the meeting was a number of professions of faith and more than twenty additions to the church.

It is believed, however, that the real results were far greater than would be indicated by the number of conversions and additions to the church membership. The spirituality of professed Christians has undoubtedly been deepened and enriched by the fine messages that the good pastor has been bringing from service to service.

While the pastor has employed no sensational nor theatrical methods, he has been preaching the gospel as subscribed to by most of the evangelical churches with great clarity and power. In fact, there have been few if any meetings in Tahoka when better preaching was done all the way through.

The song services led by Mr. Eagan were also excellent. A splendid choir was organized and did fine work throughout the meeting. The services of the junior choir was also much appreciated. Prayer meeting by the men, by the women, and by the young people were held regularly each evening just before the services and they were usually well attended.

Baptists, Presbyterians, and others cooperated with the Methodists in these services, and all felt the power of the Spirit in the fine messages delivered by the preacher and enjoyed and appreciated them. While the visible results were not large, yet it was a most successful meeting in some vital respects.

E. L. Hogan and Jim Webb of Archer City arrived Monday night. Mr. Webb, who has been connected with the Hogan store at Archer City, will remain here through the fall and perhaps longer. Mr. Hogan expects to return to Archer within a day or two.

Primitive Baptist Church Organized In 1833; One Of First Non-Catholic Churches Built In State Of Texas

The Primitive Baptists are gathering for their association which will be in session here during the remainder of the week. The following clipping from the Palestine Daily Herald handed to us by Uncle Ben Rogers will accordingly be of interest not only to our visitors but to our readers generally.

Pilgrim Church, located near Elkhart, Anderson county, Texas, claims the distinction of being the first Baptist church in Texas. July 26, 1833, in Crawford county, Illinois, Daniel Parker organized the "Pilgrim Predestinarian Baptist Church." It was to be a "Pilgrim" in very truth, for in September, after its organization it started on a long journey to Texas, the land where only Catholic churches were allowed. Daniel Parker had the idea that a protestant church could not be organized in Texas, but that the law did not forbid the bringing in of a church organized in some other state. In January, 1834, according to the records taken from the church book, belonging to Pilgrim Church and containing the minutes from 1833 to present date (These minutes from 1833 to 1897 were copied verbatim, and are to be found in the Texas Historical Association Quarterly, volumes 11 and 12).

Daniel Parker, and his little band arrived in Austin's colony, Texas, and church was held at the house of Elder Daniel Parker. The minutes of July 4, 1835, show that Pilgrim church had moved into Burnet's grant, Houston county, out of which

Dr. Tate of O'Donnell Elected President, Physicians To Study All Unusual Cases

The physicians of Lynn county met in the county court room and formed a county organization Saturday night under the name of The Physicians Business and Scientific League of Lynn County. Officers were elected as follows: Pres., Dr. Tate of O'Donnell; Vice President, Dr. Howe of Wilson; Sec., Dr. Callaway of Tahoka. A committee was appointed to devise a plan of systematic charges and collections. Physicians present were Doctors Tate, Shepherd, and Campbell of O'Donnell; Doctors Callaway, Turrentine, Townes, Smith, and McCoy of Tahoka; Dr. Howe of Wilson; and Dr. Graves of Brownfield.

The objects of this organization are to discuss unusual cases that may arise in the practice of the members and to devise a better system of charging and collecting fees. At the meeting Saturday night there was a round table discussion of the infantile paralysis cases that recently developed in this county. None of the cases were fatal, however, and no new cases have developed.

The next meeting of the association will be held Saturday night, September 3.

Home Economics Teacher Elected

Miss Lois Bliefluss of Mission has been elected Home Economics teacher in the Tahoka schools. Miss Bliefluss holds a degree from the C. I. A. at Denton and the University of Texas and is spending the summer at the University doing work on her Master's degree. She has had three years successful experience as teacher of Home Economics in the Pleasanton High School, and comes well recommended.

This completes the faculty of the Tahoka public schools for the ensuing year. It is believed to be the strongest faculty in point of scholarship the schools here have ever had.

J. E. Murphy has bought a stock of goods and is preparing to open up a business in Tahoka again. Arrangements for a building had not been made Tuesday.

Primitive Baptists Gather For Meeting

Baptist Meeting To Begin Sunday

According to previous announcement, the Baptist revival services will begin next Sunday and will continue two weeks. Rev. Kellam, pastor of one of the churches in San Antonio, will do the preaching. The song services will be conducted by Prof. Taylor White, who recently removed here. Practically all the services will be held at the City Tabernacle. All Christians of whatever denomination are invited to cooperate.

MEN GOING TO ROAD MEETING

Tahoka To Be Represented At Highway 84 Meeting At Claymont This Saturday

At a meeting of the board of directors of the Tahoka Chamber of Commerce Wednesday afternoon, delegates to the big highway meeting to be held in Claymont Saturday were named as follows: Belton Howell, Chester Connolly, Judge C. H. Cain and Happy Smith.

This meeting is to be held in the interest of Highway No. 84, known as the Fort Worth Roswell Air Line. The occasion of the meet is the breaking of the dirt for the building of the highway through Kent county. Bonds were voted in Kent county several months ago and we understand that state aid for this highway has been promised. Contracts for the building of certain sectors of the highway in Kent county have been let, and work is to begin at once.

Delegates from Plains, Brownfield, Tahoka, Post, Rotan, Hamlin, and Stamford and possibly other places are expected to attend. A big barbecue will be given and a great celebration held. As many Tahoka people as possible should attend, for the improvement of this highway should mean much to Tahoka and Lynn county.

Jack Applewhite and family left Tuesday morning for a few days visit with his mother at Mullin and with other relatives at Brownwood and Goldthwaite. They were accompanied by his brother, Ted Applewhite and family of Imperial, California, who visited here a few days before the party left for the central Texas points.

H. M. Larkin and son Frank were business visitors in Odessa Monday.

Cotton Crop In Texas Continues To Deteriorate

Reports from many counties in the state published in the Sunday Dallas News indicate that the cotton crop continues to deteriorate, due principally to the ravages of leaf worms, boll worms, and boll weevils.

McFadden and Company of Waco, cotton dealers, sent out a statement early this week showing the condition of the Texas cotton crop to be 60 per cent normal compared with 71 per cent, according to the report of August 8. Visitors returning from various points in northern and central Texas invariably bring reports of great damage by worms.

Due to the unfavorable conditions, the price of cotton has been steadily rising until it has now reached past the 20 cent mark.

Some damage by worms is reported in the Draw, Midway, Joe Bailey, and other communities in Lynn county, but the damage so far has not been serious. Grover Stewart began poisoning his cotton in the Midway community Tuesday morning. Others are preparing to poison. If the weather remains dry it is not believed that the damage from worms will be heavy, although the second crop of worms may prove to be very destructive.

MANY VISITORS ARE ARRIVING

Several Hundred Expected; People Arriving From All Sections Of West Texas

Visitors are arriving today for the meetings of the West Texas Baptist Association, which will be in session here the remainder of the week and through Sunday. Many others are expected tomorrow, and there will probably be several hundred of them here by Friday night.

The West Texas Baptist Association is an organization of the Primitive Baptists and embraces all west Texas. While the denomination is small numerically, yet the members are in the habit of traveling great distances to attend their meetings, especially such important meetings as that which will be in session here the remainder of the week.

Among the visitors will be quite a number of preachers, among them some of the ablest in the denomination. Many people of our city will no doubt take advantage of this opportunity to hear them.

The members of the Primitive Baptist Church are generally reputed to be exceptionally good people and are especially noted for their rugged honesty.

Tahoka welcomes these visitors for the few days that they are among us.

ABILENE CHRISTIAN COLLEGE PROCURES NEW SITE

Announcement is made that a tract of land consisting of 801 acres on the northeastern outskirts of Abilene has been procured on which to build new structures for Abilene Christian College. A tract of 60 to 80 acres will be retained as a campus for the college while the remainder of the tract will be sold as residence lots, the proceeds to be used in the building of the school.

Abilene Christian College now occupies about a block just north of the Texas & Pacific tracks in the southwestern portion of the city. On this site it has no room to expand. The announced removal to a new and larger site augurs well for the future of this rapidly growing school.

BEING MADE HIGHWAY NO. 9

The meeting held Thursday which was attended by representatives from almost every town along the route of State Highway No. 9 between San Angelo and Amarillo and which was held in the interest of a connected system of paving on this section of that highway set the machinery in motion which we believe will eventually give O'Donnell a paved highway and possibly another railroad outlet which will connect the plains country and the Gulf of Mexico.

Towns represented at this meeting included Slaton, Lubbock, Wilson, Tahoka, O'Donnell, Lamesa, Big Spring and San Angelo. Feasible plans for the paving of Highway No. 9 were discussed and at the conclusion committees were appointed to work out some definite plan of action in the near future which will lead to the paving of this important highway.—O'Donnell Index.

Small Shack In Negro Town Burns

A negro shack situated just east of the Fuller gin but on the west side of the roadway, was destroyed by fire Thursday night. It is thought that the cause of the fire was incendiary. The value of the shack was small and no one was injured.

Elder O. Strickland of the Primitive Baptist Church is expected to arrive here Saturday. He is a member of the Primitive Baptist Church of Abilene.

evolution organizations. A few days ago, after a week's illness, he died, at the age of 52. Not only his denomination lost a great leader and and Christianity a worthy exponent but America has lost a great citizen and Texas a great son, for he was born and reared in Grimes county, Texas. Thousands of Texans, and tens of thousands of the citizens of the South and innumerable admirers throughout the nation are grieved at the premature death of this truly good and great man. Texas has produced few greater.

The present legislature passed a law providing for the formation of rural high school districts by consolidating two or more common school districts, such consolidations to be made by the county board of trustees. It also provided that common school districts or small independent districts may be annexed to larger adjacent independent districts for high school purposes. School authorities everywhere are recommending consolidation of districts so that all the children in rural districts may have access to a good high school. In case of such consolidations, the State will pay as much as \$300.00 per truck on transportation expenses. Superintendent H. P. Caveness has suggested to the News that the local situation could be improved by annexing a few of the outlying school districts to the Tahoka district, such as Edith, Midway, and and possibly others. Schools for the primary and intermediate grades should be maintained in the present districts but high school pupils in these districts should be transported to and from the Tahoka High School, he thinks. We have not sufficiently investigated the feasibility of such a plan to pass judgment upon it, but the suggestion is worthy of study.

When Senator Borah was appealed to by misguided social workers to use his influence for Sacco and Vanzetti, he replied that "it would be a cowardly compromise of national courage to pay the slightest attention to mob protests against the men's executions." Senator Borah voiced the sentiment of the great body of American citizens in making that statement. There should be no silly slobbering over red-handed murderers simply because the organized forces of anarchy and lawlessness are making a great noise and issuing ugly threats against the heads of our government and the officers of the law who are simply doing their duty.

HOME BREW RECIPE

Chase wild bull frogs: ten miles and gather up the hops. To this add one pint good shellac, one pound of home made soap, ten gallons of tan bark. Boil and strain through an I. W. W.-sock to keep from working, then add one pound of grass-hoppers to give it a kick. Pour a little in the kitchen sink, and if it takes the enamel off, it is ready for bottling.

A friend of the News handed us the above recipe to be published for the benefit of those curious individuals in other parts of the state who have been wondering what brand we drink out here in Lynn county. Follow the above recipe and the result will be a wonderful, wonderful concoction. Come to Lynn county.

BOOSTING OR LYING

In commenting on the pressure that is often brought to bear by civic organizations and private boosters to get free publicity, Paul S. Hedrick, oil editor of the Amarillo News-Globe, says: "I will not carry a report on a test unless I am convinced I have an accurate report."

A new chamber of commerce secretary in a nearby town which promises a good oil play, recently went to the bat with Hedrick because the Amarillo oil editor insisted on printing the truth in oil stories emanating from that place. When there was salt water, Hedrick called it salt water and when there was oil he called it oil. The chamber of commerce secretary became indignant when the newspaper man confined the stories to facts rather than promises, claiming the publicity would hurt the town.

There is a pretty widespread view among laymen that newspapers should color their news in boosting their community. Local businessmen who would not consider printing an untruth in their advertisements or using misleading statements in their correspondence, insist a newspaper should print that part of the truth which is directly beneficial and omit all else. What strange logic.

A prerequisite to a newspaper career or any other career, is implicit confidence of your trade. In the newspaper business it is your subscribers. Exaggerated publicity is worse for a community than none at all. If you tell a man one lie your next remark will command less respect and so on down. Boosting is a splendid thing but the word is no synonym for lying.—The Shamrock Texas.

INVEST IN GOOD ROADS

This nation is interested in the building of good highways is constantly in evidence in different sections of the country.

The Sumter Board of Trade of Sumter, South Carolina, uses the paved roads of Sumter County as a leading argument showing the progressiveness of that agricultural section. This county of 43,000 people has a total of 137 miles of paved roads outside of the city of Sumter which has in addition 16 miles of paving.

All of these roads are of concrete base, with heavy city type asphalt top. They are well graded and are giving excellent service at low cost. Good roads pay steady dividends in any community. County after county is learning that with modern tractors and road machinery, they can build new highways and keep old roads in good condition at less cost per mile than was formerly spent to build makeshift roads which were impassable a large part of the year.

Sumter county and other counties with similar road systems are to be congratulated.—Industrial News Bureau.

You can put it down that the live wire citizens of Corpus Christi are going to stay on the job until they secure a line of railway to the plains section. If Big Spring is to be on this line we are going to be compelled to do some hustling as many other ambitious cities and towns in West Texas want the line to be built thru the sections in which they are located.—Big Spring Herald.

About the time the other railway systems get all pepped up to capture that rail line from Corpus Christi to the Plains you will wake up to find the Santa Fe has "gummed up the works" by connecting up a few gaps and walking off with the prize.—Big Spring Herald.

ABOUT ONE MORE BOND ISSUE is about all we will be very strong for, and that will be for a bond issue to pave the highways of Howard county. We know this would be a great investment for our county and our property owners.—Big Spring Herald.

Twenty-five years ago there was a local prohibition election in Bell county. The brilliant young pastor of the First Baptist Church at Temple took the stump for the dries. He got the ablest men that the anti-temperance movement could get out, among them George C. Houston, a noted politician of his day, and Barry Miller, one of the anti-war heroes. He not only met the enemy, he demolished it. We well remember a remark made by the then chief of police of Temple, who was a typical saloon politician and who, if he had lived in New York, would doubtless have been an able ward-heeler in the Tammany organization. "That man should quit the pulpit and go to Congress," he stated after having heard the preacher unmercifully annihilate every argument that his antagonist had advanced. But Dr. George McDaniel did not quit the pulpit. Soon he was called to the pastorate of the Gaston Avenue Baptist Church in Dallas. A little later he was called to the First Baptist Church of Richmond, Va., which church he served for twenty-two or twenty-three years. During this time he served in many other important positions in his denomination. For a number of years he was president of the Baptist State Convention of Virginia. For three years he was President of the Southern Baptist Convention. He has been a leader in numerous other religious and ben-

evolent organizations. A few days ago, after a week's illness, he died, at the age of 52. Not only his denomination lost a great leader and a Christian and a worthy exponent but America has lost a great citizen and Texas a great son, for he was born and reared in Grimes county, Texas. Thousands of Texans and tens of thousands of the citizens of the South and innumerable admirers throughout the nation are grieved at the premature death of this truly good and great man. Texas has produced few greater.

The present legislature passed a law providing for the formation of rural high school districts by consolidating two or more common school districts, such consolidations to be made by the county board of trustees. It also provided that common school districts or small independent districts may be annexed to larger adjacent independent districts for high school purposes. School authorities everywhere are recommending consolidation of districts so that all the children in rural districts may have access to a good high school. In case of such consolidations, the State will pay as much as \$306.00 per truck on transportation expenses. Superintendent H. P. Caveness has suggested to the News that the local situation could be improved by annexing a few of the outlying school districts to the Tahoka district, such as Edith, Midway, and possibly others. Schools for the primary and intermediate grades should be maintained in the present districts but high school pupils in these districts should be transported to and from the Tahoka High School, he thinks. We have not sufficiently investigated the feasibility of such a plan to pass judgment upon it, but the suggestion is worthy of study.

When Senator Borah was appealed to by misguided social workers to use his influence for Sacco and Vanzetti, he replied that "it would be a cowardly compromise of national courage to pay the slightest attention to mob protests against the men's executions." Senator Borah voiced the sentiment of the great body of American citizens in making that statement. There should be no silly slobbering over red-handed murderers simply because the organized forces of anarchy and lawlessness are making a great noise and issuing ugly threats against the heads of our government and the officers of the law who are simply doing their duty.

The ocean seems to have swallowed up Erwin and Eichwaldt, who went in search of the other missing aviators, who had undertaken to fly across from Oakland to Honolulu. The man who will deliberately risk his life for any worthy cause is a hero. Erwin and Eichwaldt are due all honor. They were made of the right kind of stuff. It is courage, and the spirit of service and sacrifice, that make men great. Such outstanding exhibitions of these virtues serves to renew our confidence in the human race.

HOME BREW RECIPE

Chase wild bull frogs ten miles and gather up the hops. To this add one pint good shellac, one pound of home made soap, ten gallons of tan bark. Boil and strain through an I. W. W. sock to keep from working, then add one pound of grasshoppers to give it a kick. Pour a little in the kitchen sink, and if it takes the enamel off, it is ready for bottling.

A friend of the News handed us the above recipe to be published for the benefit of those curious individuals in other parts of the state who have been wondering what brand we drink out here in Lynn county. Follow the above recipe and the result will be a wonderful, wonderful concoction. Come to Lynn county.

BOOSTING OR LYING

In commenting on the pressure that is often brought to bear by civic organizations and private boosters to get free publicity, Paul S. Hedrick, oil editor of the Amarillo News-Globe, says: "I will not carry a report on a test unless I am convinced I have an accurate report." A new chamber of commerce secretary in a nearby town which promises a good oil play, recently went to the bat with Hedrick because the Amarillo oil editor insisted on printing the truth in oil stories emanating from that place. When there was salt water, Hedrick called it salt water and when there was oil he called it oil. The chamber of commerce secretary became indignant when the newspaper man confined the stories to facts rather than promises, claiming the publicity would hurt the town.

There is a pretty widespread view among laymen that newspapers should color their news in boosting their community. Local businessmen who would not consider printing an untruth in their advertisements or using misleading statements in their correspondence, insist a newspaper should print that part of the truth which is directly beneficial and omit all else. What strange logic. A prerequisite to a newspaper career or any other career, is implicit confidence of your trade. In the newspaper business it is your subscribers. Exaggerated publicity is worse for a community than none at all. If you tell a man one lie your next remark will command less respect and so on down. Boosting is a splendid thing but the word is no synonym for lying.—The Shamrock Texas.

Local Men Are On Lindbergh Committee

When Colonel Charles A. Lindbergh arrives in Abilene in Monday, September 25 for his visit to West Texas, he will be officially greeted by a group truly representative of West Texas and of the forces impelling the development of this section of the Southwest.

Tahoka will have a part in the ceremony. Honorable J. R. Singleton, mayor, and E. L. Hill, editor of the News, have each been given an invitation to serve on the Reception Committee for this affair.

In addition, each West Texas town is to have a feminine representative on the Receiving Committee. Miss Frankie Wells, popular daughter of Mr. and Mrs. J. S. Wells, has been selected as the "Spirit of Tahoka" and together with sponsors from other West Texas towns, will, in addition to taking part in the official welcome to be given the distinguished flier, be guests of honor at a number of elaborate social functions which will be arranged for them by Abilene people.

Miss Emily Frances de Lampasas, who was crowned "Queen of West Texas" at the Wichita Falls Convention of the West Texas Chamber of Commerce will attend the affair and represent "The Spirit of West Texas".

Miss Mary Alice Parramore, daughter of a pioneer West Texas family, is to be "The Spirit of Abilene" and as such will be the official hostess for the visiting "Spirits".

Lindbergh's stop in Abilene will be the only one for West Texas and the people of that city, through their Chamber of Commerce, are asking the assistance of all West Texas in making this affair a memorable one.

Miss Alta Cassie, one of the teachers in the Tahoka public schools last term, is spending the week here as the guest of Miss Mattie Will Seyroyer and Rev. and Mrs. E. N. Shepherd.

A chartered Training School for Nurses is conducted in connection with the Sanitarium. Young women who desire to enter may address the Lubbock lum.

NERVOUS Louisiana Woman Tells Why She Relies On Cardui For Her Troubles.

"When just a girl," writes Mrs. G. W. Britt, of Haughton, La., "I suffered quite a bit at times... I would be so tired all the time that I didn't really enjoy anything. I took three bottles of Cardui and very soon, I saw quite a difference. Later on in life, after I got married, I was very weak and nervous, before my baby came. I remembered what Cardui had done for me when a girl and sent for it again. I only had taken two bottles when I felt so much stronger and better. I am a great believer in Cardui because I know it did me good. Cardui should do you good, too. Try it."

South Ward Items

The people of this community are most all through with their work and most all are taking their vacations.

Miss Dessie Smith, who has been visiting in Foard county, returned home Saturday evening. She reported a nice time.

Mr. and Mrs. J. T. Eason motored to Frederick, Oklahoma, last Thursday on business, returning Saturday.

Mr. and Mrs. D. L. Pinkley and family of New Home are visiting this week with his parents, Mr. and Mrs. J. T. Pinkley of this community.

Mr. and Mrs. C. A. Pinkley of Big Spring spent Monday night with his parents, returning to Big Spring Tuesday morning.

Singing at South Ward Sunday afternoon was enjoyed by all.

Mr. W. E. Hammonds and sons spent Thursday night with his relatives near Tahoka, Mr. W. C. Carver and family.

Mr. and Mrs. W. L. Reames were visiting in this community Tuesday and Wednesday, leaving for Corpus Christi Thursday, where they will spend a month or two.

A phone call from Lynn Monday morning advised parties here that the much-discussed animal of unknown species which had been haunting the territory east of town had been killed and would be brought to Tahoka.

Accordingly, a short time afterwards Frank Williams of that community drove into town with the dead body of an animal that nearly everybody here pronounced to be a stag hound.

Some believed it to be a mixture between a stag hound and a wolf. Mr. Williams himself thought possibly it was a timber wolf. But the parties who had been haunted by the mysterious animal in the Sargent neighborhood declared that the slain animal was not the beast that had been mystifying the people of their neighborhood.

When Mr. Williams discovered this stag hound, or wolf, or mixture, he gave chase on his horse and fired one shot. He then notified his neighbors and they gathered for the hunt in large numbers. The animal was driven out of a corn field in close proximity to Mr. Williams, who was then in his car. He suddenly stopped and the animal whirled about and was in the act of springing upon him when he shot, he told the News man.

A number have indicated the belief that the animal killed was a stag hound which was lost a few days ago when Amarillo parties were here with some stag hounds hunting the mysterious beast that had been alarming the people of the Sargent community. One of their hounds was lost, it is said.

The panther, or whatever it is, is yet to be captured.

RUMORS OF SANTA FE EXTENSION TO THE SOUTH FROM SEAGRAVES

There has come to our knowledge much talk in the past few weeks of a rail extension of the Santa Fe south from Seagraves to connect with the oil fields south of us in Crane and Winkler counties, possibly connecting with the T. & P. at either Odessa, Pyote, or Pecos. Thus the Santa Fe would then tap directly a new oil field and would share with the T. & P. the privilege of hauling it to refineries.

Of course all this is mere talk like all other mere rail talk at present, and the officials of this road, so far as we know have given out nothing. They may never have even made application to the I. C. C. for authority to make the extension, but should they do so, it would certainly be a paying branch of the road, especially at present.

Then too, it would mean much to the towns along the road, as mixed trains of this 200 mile stretch would be out of the question, and we would then be served by real passenger trains or at least a motor train to take care of the passengers, mail and express—Brownfield Herald.

Mr. and Mrs. J. T. Owen and family living east of town have as their guests this week Mrs. Owen's parents, Mr. and Mrs. Stokes Williams of Ladonia, Fannin county, and her sisters, Mrs. Elgin Fowler of Ladonia and Miss Mildred Williams of Dallas.

Oil On South Plains Proven

All doubts of a shallow oil field being located in Hale and Swisher counties, and embracing portions of Floyd, Castro, Briscoe, Crosby, Terry, Lynn and Garza counties, were swept away when the L. L. Donnell Petroleum company found oil in its No. 2 Mullican Ranch, in the north part of section 21, block B, of R. M. Thompson survey, west of Hale Center, in Hale county.

It topped the grass roots pay at 404 feet, just one foot deeper than where it found the oil in the No. 1, some 200 feet to the south and in the same section several months ago.

A two foot cap rock was found Sunday and when it was penetrated a good rainbow showing of oil was had.

Monday it was deepened and considerable oil showed up in the water being carried in the hole. There is 70 feet of open hole in the L. L. Donnell company's second well, and John Kegans, vice president and general manager of the Donnell company, is now debating what to do.

He stated Tuesday that a liner may be run and a test made, but other oil men are recommending that he run a string of 6 5-8 inch casing to the sand and test, so if it is not a commercial well the hole can be drilled deeper with out any extra delay.

The discovery of the second showing proves that the oil found in the No. 1, at 403 to 417 feet, was real. Nothing has been done with the No. 1 well and now that the oil fraternity is convinced that a shallow oil area is there, further developments may occur.

Inquiry at Plainview shows that oil leases over Hale county are now bringing \$25 to \$40 an acre and other areas in the district are also attracting buyers.

A flock of drilling is due to start in the area, but because of the crude price reductions they may not be pushed as vigorously as would have been the case with a strong crude market—Amarillo News.

To Resume Drilling On Penn Wildcat

The Penn Drilling Company wildcat seven miles southeast of town is still shut down. Some delay has been caused in making the change from the rotary to the standard equipment due to the failure of some material to arrive on scheduled time. However, the work of changing is now steadily going forward with all possible speed and it is believed that by the last of the week the change will have been made and drilling will be resumed with the standard string of tools.

When the standard string of tools have been set to work all eyes will be turned in that direction as it is supposed production will be found within the next few hundred feet.

Leasing has been more active the past ten days than it has been for some time. Considerable acreage has been purchased east, west, north and south of O'Donnell. A cash consideration of \$1.00 per acre is being paid for most of the acreage—O'Donnell Index.

University Students Writing Histories Of Texas Counties

AUSTIN, Aug. 20.—In order to obtain minute histories of each of the 252 counties in the state of Texas, the History department of the University of Texas is offering work on such histories as thesis material for master of arts degrees. It is hoped by the department, according to W. P. Webb, acting chairman, to have not less than 100 or 125 such histories written by 1936, or at the time of the Texas Centennial.

The histories of Smith and Archer Counties have already been written and students are at work on the histories of Matagorda and Presidio Counties.

STATE OF TEXAS
To the Sheriff or any Constable of Lynn County, Greeting:

You are hereby commanded to summon G. W. Small, Administrator, of the Estate of Ferdinand Becker, Deceased, and the heirs of Ferdinand Becker, whose names are unknown, to appear at the next regular term of the District Court of Lynn County, Texas, to be held at the Courthouse thereof, in the City of Tahoka on the 3rd Monday in September, A. D. 1927, being the 19th day of September A. D. 1927, then and there to answer a petition filed in said Court on the 18th day of August A. D. 1927 in cause Numbered 692 wherein B. H. Robinson is Plaintiff and G. W. Small Administrator of the estate of Ferdinand Becker Deceased and the unknown heirs of Ferdinand Becker are defendants, the cause of action being alleged as follows: (See certified copy of Plaintiff's original petition accompanying this citation and made a part thereof.)

B. H. Robinson vs. No. 692, G. W. Small, Administrator et al. In the District Court of Lynn County, Texas, September Term, 1927.

To the Honorable Judge of said Court:
Now comes B. H. Robinson, hereinafter styled plaintiff, complaining of G. W. Small, administrator of the Estate of Ferdinand Becker, deceased, and the unknown heirs of Ferdinand Becker, deceased, and for cause of action, plaintiff would respectfully represent to the court:

1. That the plaintiff resides in Lynn County, Texas, that the defendant, G. W. Small, administrator of the estate of Ferdinand Becker, deceased, resides in Lynn County, Texas, that said Ferdinand Becker died on or about the 23rd day of December, 1922, and that thereafter on or about the 26th day of December, 1922, G. W. Small was appointed by the county court of Lynn County, Texas as administrator of the estate of said Ferdinand Becker, deceased, and duly qualified as such and as such administrator the said G. W. Small has never been discharged and is still the qualified acting administrator of the estate of said Ferdinand Becker, deceased, and that the names of the heirs of Ferdinand Becker deceased are unknown to the plaintiff and that the place of residence of said heirs of said Ferdinand Becker, deceased, are unknown to this plaintiff.

2. That on or about the 1st day of January 1927, the plaintiff was lawfully seized and possessed of the following described land and premises, situated in Lynn County, Texas, holding and claiming the same in fee simple, to wit: Being 200 acres of land out of the S. W. corner of Survey No. 14, Abstract No. 644, Block No. 7, Certificate No. 624, of the E. L. & R. R. R. Company, and being described by metes and bounds as follows, to wit:

Beginning at the S. W. corner of said section No. 14, for the S. W. corner of this tract;
Thence north on the west line of said survey, 1129 vrs to a point for the N. W. corner of this tract;
Thence east parallel with the south line of said survey, 1000 vrs. to a point for the N. E. corner of this tract;
Thence south parallel with the west line of said survey, to the south line of said survey, 1129 vrs. for the S. E. corner of this tract;
Thence west on S. line of said survey 1000 vrs. to the place of beginning, and containing 200 acres of land, all being in Lynn County, Tex.

3. That on the day and year last aforesaid the defendants unlawfully entered upon said premises and ejected plaintiff therefrom, and unlawfully with holds from the possession thereof, to his damage in the sum of \$2,000.00.

4. That heretofore, to wit: on or about the 5th day of June, 1913, J. H. Edwards, as sheriff of Lynn County, Texas, by deed of that date, conveyed to, among others, F. Becker, who is the same person as Ferdinand Becker, deceased, all of said Survey, No. 14, Abstract No. 644, Certificate No. 624, E. L. & R. R. R. Company, which included the said 200 acres above described, said deed having been executed by virtue of an execution issued by the District Clerk of Lynn County, Texas, by virtue of which said execution the sheriff aforesaid levied upon and sold said lands above described and made the deed of conveyance aforesaid.

5. Plaintiff would show to the court that at the time of the levy of said execution upon said lands, and at the time of the sale of said lands aforesaid, the said lands were the property of Jack Alley and his wife, Effie Alley and that at the time of said levy and sale and at the time of the execution of said deed aforesaid, the said Mrs. Effie Alley was occupying, using, claiming the said 200 acres of land above described as her homestead, she having never abandoned same as her homestead and that said levy, sale and conveyance of said land by said sheriff aforesaid as to said 200 acres above described was void as to the said Mrs. Effie Alley and her husband, Jack Alley and that the said Mrs. Alley, joined by her husband, Jack Alley, conveyed said 200 acres of land above described to this plaintiff by their deed of conveyance, dated the 6th day of December, 1924, and that said sheriff's deed cast a cloud upon plaintiff's title.

6. Plaintiff would further show to the court that plaintiff and those under whom he claims title that he and they have had and held peaceably, continuous, and adverse possession under title, from and under the State of Texas, of said 200 acres of land above described at paragraph No. 2 of plaintiff's petition, for more than three years after the defendants cause of action accrued, and before the commencement of this suit.

7. And now comes the plaintiff, and for further plea, would show to the Court that the plaintiff and those under whom he claims title has had and held peaceably the lands and premises described in paragraph 2 of this petition and claimed by him aforesaid and adverse possession of same, cultivating, using and enjoying the same for a period of more than 10 years next after defendants cause of action accrued and before the commencement of this suit.

Wherefore, premises considered, plaintiff prays that the defendants be cited to appear and answer this petition and that upon final hearing hereof, he have judgment for the title and possession of said lands and premises described in paragraph No. 2 of this petition, that said sheriff's deed mentioned in paragraph No. 4 of this petition be cancelled, held void so far as it affects the title to said 200 acres of land described in paragraph No. 2 of this petition, that the cloud cast upon plaintiff's title to said 200 acres by reason of said deed be removed, and that a writ of restitution issue, and for his damages, and all costs of suit, and for all such other and further relief special and general, in law and in equity, that plaintiff may be entitled to and in duty bound plaintiff will

ever pray.

B. P. MADDOX, Atty, for plaintiff.

LUBBOCK SANITARIUM NOTES

(From Lubbock Sanitarium News)
Mr. Herbert Neese of Wilson is doing nicely, having had an operation for appendicitis a few days ago.

Mr. O. Williams of Tahoka had an operation for appendicitis Tuesday and is doing well.

Audrey Maxcey, the fourteen year old child of Mr. and Mrs. A. W. Maxcey of Wilson, had her tonsils removed Tuesday.

Mr. D. S. Todd of O'Donnell is in the sanitarium, having had a nose operation a few days ago.

Mrs. W. H. Crunk of O'Donnell is in the sanitarium, having been operated on last week. Mrs. Crunk is doing nicely.

Mrs. M. C. Hamilton and her daughter, Pauline, of O'Donnell, were in the sanitarium this week, both of them having had a tonsil operation.

O'Donnell Votes For Gas Franchise

A most important mass meeting was held Wednesday night at the City Hall which was attended by some twenty-five or thirty representative citizens of O'Donnell. The meeting was called for the purpose of discussing the gas franchise presented by the West Texas Gas Company to the Council last week. After some discussion those present voted unanimously to grant the franchise. Representatives of the West Texas Gas Company will meet with the city council tonight (Thursday) at which

time it is supposed the franchise will be granted, and O'Donnell will have natural gas from the strongest gas field in the world, near Amarillo.

The West Texas Gas Company is a subsidiary of the Prairie Gas Company and represents a capital stock of fifty million dollars which enables them to competently fill every agreement embodied in their franchise. Since the city council was petitioned for the franchise they have made a thorough investigation of the details of the franchise and feel it is fair to all concerned. The franchise calls for the completion of the mains in O'Donnell by October 1, 1928.

Natural gas for O'Donnell will mark the beginning of a new era of advancement in the future progress and development of our city. It means the saving of hundreds of dollars in fuel to the people of O'Donnell, greater comfort and the most convenient fuel obtainable. It will possibly mean the locating of industries in O'Donnell that in the past we have never been able to invite. It will offer many opportunities to outside capital which O'Donnell needs and must obtain to ever grow and de-

velop into a city worth while. —O'Donnell Index.

CATCH THE THIEVES

There should be a large attendance by farmers and business men at anti-theft meeting to be held in court house Saturday afternoon. The attendance and the interest sufficient, it is the plan of the organizers to form an anti-theft organization. The plan is that outlined by Capper's Farmer, and it occurs to us that it ought to be very effective.

Only lawful means are to be employed; no secret meetings; no violence used or threatened but effective means of identifying stolen property and apprehending the thieves. With no organization, as in the

Livestock Market

(By Cassidy Southwestern Commission Co.)

Cattle receipts have been the heaviest this week they been for some time, both here and at Northern markets. Most all classes of fat steers are 15 to 25c lower for the week. Good to choice cake-fed steers are selling from \$9.75 to \$10.25; medium to good kinds, \$9 to \$9.50; good to choice grassers, \$8 to \$8.50; medium to good kinds, \$7.25 to \$7.75; common kinds around \$6.50. Good to choice-face stocker steers of all ages are selling from \$8 to \$8.50, and could be good enough to bring a little more; medium kinds around \$7.50 to \$8. Choice red stockers, \$7.25 to \$7.75; medium to good kinds, \$6.75 to \$7.25; common kinds, \$5.50 to \$6.25.

All classes of fat cows are around 25c lower; stocker heifers about 25c lower; fat heifers 50c lower. Choice kind of heifers on the baby beef order would not sell that much lower, and strictly choice grain feds would not be any lower. Best fat cows are selling from \$6 to \$6.50, though prime kinds would bring a little more. Good cows, \$5.25 to \$5.75. Common kinds, \$4.75 to \$5. cutters, \$4.25 to \$4.75; canners, \$3.50 to \$4.

Bulk of the white-face stocker heifers selling from \$7.25 to \$7.50, though choice, light-weight muley heifers selling from \$6 to \$6.50; common kind around \$5.50. Good to choice young white-face stock cows are about 25c higher. We sold a little over a load of young white-face muley stockers at \$6, averaging 600 pounds. This is the highest sale of stock cows here this season.

Bulk of odd white face stock cows, \$5 to \$5.50, bulk red cows and aged white-faces, \$4.50 to \$5. Heavy calves generally 50 to 75 per cent lower for the week, bulk of best heavy calves selling from \$8 to \$8.50, a few choice ones up to \$8.75 today. Medium kind of calves, \$7 to \$8. There have been a good many half-fat kind of calves here this week and some sales are around \$1.00 lower, and very slow sale at the decline. Good veals are about steady, choice kinds selling up to \$12.50; bulk of the good veals \$10 to \$12; medium kinds \$9 to \$10.

Hog market 10 to 15 cents lower, top for light butcher hogs \$10.55. Hogs weighing 220 to 230 pounds, selling from \$9.75 to \$10.25.

Sheep steady. Best wethers selling from \$7.75 to \$8; fat yearlings, \$10 to \$10.50; feeder yearlings around \$9. Choice fat lambs, \$11 to \$12.
