Tahoka, Lynn County, Texas, Thursday, September 1, 1927

Number 1

PUBLIC SCHOOLS OPEN MONDAY

TO OPEN NEW BUILDING FRI.

Formal Opening Set For Tomorrow Evening At Six O'clock: Community Invited

On Friday evening, beginning promptly at six o'clock a program will be given at the new high school building, lasting about one hour. Following this the new building will be thrown open to the public for inspection. The program will be given in the auditorium, and all other rooms will be locked until this program is finished. The Tahoka Concert Band will give a concert, lasting about forty-five minutes. An additional number will be given as outlined elsewhere in this paper, and then after a few instructions, all the doors will be thrown open to give opportunity to the public to see all the inside of the new high school building.

The public is urgently requested to be present and enjoy the concert and inspect the new building. The program will be concluded in ample time for those who wish to attend the services of the Baptist meeting.

The following program has been prepared.

- 6:00 to 6:45—Band Concert.
- Invocation—Rev. B. N. Shepherd.
- Piano Solo—Mrs. Juanita Jackson.
- Short Talk—E. I. Hill, President School Board.
- Explanation and Instructions—Supt. M. L. H. Baze.
- Inspection of building.

Opening Program For Next Monday

Very brief programs will be rendered at each of the schools at the opening Monday morning.

- Program at the High School will be rendered as follows:
 - Song.
 - Invocation—Rev. R. T. Breedlove.
 - Introduction of Teachers.
 - Explanation of work and registration.
- The program at Central Ward school:
 - Song.
 - Invocation—Rev. B. N. Shepherd.
 - Introduction of Teachers.
 - Explanation and Registration.
- Mr. and Mrs. O. L. Sanders, the teachers, will arrange the program for the opening at South Ward.

Anti-Theft Ass'n. Formed Saturday

To protect themselves and to assist the officers in stamping out petty theft in this county, quite a crowd of citizens met in the county court room last Saturday afternoon and organized an Anti-Theft Association.

M. A. Dorman was elected chairman and D. D. Odom vice-chairman. County Superintendent H. P. Caviness was elected Secretary-Treasurer. The chairman was authorized to appoint any committees that may be deemed necessary.

There were seventeen members who gave their names for membership and a membership committee is to solicit new members.

Each member of the organization will procure a tattooing device, with which he will tattoo the wing of every fowl and any other property that he can put a tattoo mark upon, so as to be able to identify his fowl wherever it may be found, if stolen. It is believed that the organization can assist very materially in detecting thieves and preventing their operation in this county.

Shower Baths

Each locker room is equipped with shower baths for use by students while in attendance at school, and especially by those engaged in athletics. There are four shower baths for boys and three for girls.

Judge C. H. Cain left Monday day morning on professional business to Sherman.

New \$100,000 Tahoka High School Building

BAPTIST ASS'N. DRAWS CROWD

1,000 Out Of Town People Attend District Association Of Primitive Baptist Church

The west Texas Baptist Association held in Tahoka last week, beginning Thursday night and closing Sunday, was a big affair. The attendance exceeded all expectations, the number of visitors here from points outside of Lynn county being variously estimated at 700 to 1,000. It is said that on Saturday more than 1,100 people took dinner at the long tables which had been arranged near the Primitive Baptist Church. At every service they swarmed in and about the City Tabernacle, under which the services were held, and at several of the services the spacious building was filled to overflowing.

Most of the visitors prepared to camp, though some of them were cared for in private homes and hotels. The principal camp ground was near the Primitive Baptist Church. J. S. Wells had charge of the local arrangements and he did his job well. He reports that the crowds while here consumed 1969 pounds of beef, 100 pounds of bacon, 2,000 loaves of bread and 160 pounds of coffee, this food costing about \$600.00.

The high hour of the meeting was reached Sunday morning, when Elder C. H. Cayce, editor of the Primitive Baptist and pastor of churches at Fordyce and Little Rock, Arkansas, delivered a powerful message. As a result of the meetings there were 21 baptisms on this day. Two joined the local church by letter and one by restoration.

Most of the notables in the denomination in Texas and a few from other states were here. Among those who

(Continued on last page, Section 1)

Meadow Man Will Operate Local Gins

M. L. Handley, who recently bought an interest in both the West Texas Gins here, announces that he will run both of these plants this fall. Mr. Handley recently removed here from Meadow, where he owns another gin and has been operating it the past few years.

He announces that Horace Hale will be the bookkeeper at the Red Gin, West Texas No. 1, and that C. O. Carmack will hold a like position at the new gin.

The new owners will incorporate under the name of The Handley Gin Company.

KIWANIS CLUB VISITS NEWLYNN COMMUNITY

The Kiwanis Club met with the people of New Lynn last Friday night. R. P. Weathers was the master of ceremonies, a short program being rendered. The Tahoka Concert Band furnished music for the occasion and four ladies of the New Lynn community rendered a quartette. Rev. W. G. Shelton pronounced the invocation and also delivered the welcome address. Short talks were made by Supt. M. L. H. Baze, Happy Smith, and Judge Cain. All pronounce it a most pleasant occasion.

KIWANIS CLUB VISITS NEW SCHOOL BUILDING

Dr. J. J. Kellum of San Antonio, here conducting a revival meeting, was guest of the Kiwanis Club Wednesday and made a brief address which was much appreciated, after which the members of the club accompanied Supt. M. L. H. Baze out to the new high school building to inspect the structure. They were greatly pleased with the building, especially commending the beauty of the auditorium.

FIRST BALE IS RECEIVED HERE

C. E. Stewart, Grassland, Brings In Cotton; Brings 23.20 and Premium of \$41

Tahoka received her first bale of cotton of the present crop on Tuesday of this week. The bale was raised by C. E. Stewart, who resides one mile south and one east of Grassland. It was ginned at Holloway's Gin and weighed 445 pounds. It was purchased by W. C. Wells at 23.20 cents per pound and brought the owner \$103.24. A premium amounting to about \$41.00 was donated by the business men of Tahoka, as follows: \$33.50 cash, a sack of flour by Boullion, six dinners by Jake Leedy, and one year's subscription to the Lynn County News by the proprietors.

Mr. Stewart asked that we express his appreciation to the people of Tahoka for their generosity and declared that he was going to come to Tahoka often hereafter. He reports that crops are fairly good in his community.

The first bale last year came from Grassland also. It was brought in by S. L. Browning on September 2, 1926, weighed 454 pounds and was sold to J. F. Stuart at 20 cents per pound. This was a little above the market price at the time. By the end of September the price had gone down to about 14 cents for good middling. A premium of \$50.00 was raised last year.

The first bale two years ago was brought in by Clyde Sargent on September 7 and was sold at 40c per lb. and the first bale three years ago was raised by Mike Redwine and was sold for 30 cents. It came in on August 30, 1924.

Egypt has about 14 million inhabitants of whom more than a million live in Cairo.

WILL IMPROVE HIGHWAY NO. 84

Local Citizens Attend Road Meeting At Clairemont; Prospects For Good Highway Bright

Judge C. H. Cain, Happy Smith, L. C. Heath, H. B. Howell, and county commissioners W. J. Fairies and R. B. McCord attended the highway meet and barbecue held at Clairemont last Saturday. They report a good attendance at the highway meet and about 800 people at the barbecue. Terry, Lynn, Garza, Fisher, and other counties were represented.

It is expected that work will be completed and highway No. 84 will be open to traffic throughout its course by July 1, 1928. Bonds in the sum of \$200,000 have been voted for the improvement of this highway through Kent county and work was begun a few weeks ago. About 33 miles will be graded and graveled and possibly hardsurfaced through that county, 20 miles west of Clairemont and 13 miles east. It is expected that the state will match this aim with another \$200,000, so that \$400,000 will be available for the building of this highway through Kent county. The sum of \$20,000 has also been voted by a road district to improve the road from Clairemont to Jayton, connecting with highway No. 53 at that place, and to build a bridge across the Brazos River.

Judge Smith of Garza county stated that highway No. 84 would be graded from the east line of the county to the Brazos River seven miles east of Post. It is already graded west of that point through the county.

Judge Patterson of Fisher reported that a bond election is to be called soon in that county. Steps were also taken to get a designation of this highway from Rotan to Hamlin. All the county judges and commissioners of the county lying along the route of No. 84 are to present this matter to the highway commission.

Judge Winston stated that Terry county had voted down a bond issue once to pave this highway but he was highly in favor of united action for the improvement of the road.

Judge Cain reported a good graded highway through Lynn county. He assured the other counties that Lynn county would be ready at the proper time and that when she undertook to hardsurface No. 84 she would make it the best there is. He thought that the county would vote a bond issue of \$300,000 to \$1,000,000 at some future time to pave the two highways thru Lynn county.

Baptist Meeting Now In Progress

The last revival meeting of the summer is being held at the City Tabernacle. Dr. J. J. Kellum, pastor of one of the Baptist churches in San Antonio, is doing the preaching. The meeting began with the Sunday morning service, the pastor, Rev. B. N. Shepherd doing the preaching until Dr. Kellum arrived Monday afternoon.

Great messages are being delivered, good-sized crowds are attending, members of other churches are cooperating, and conditions seem propitious for a great revival. The song services are being conducted by Prof. Taylor White.

MEADOW PAPER WILL BE PRINTED IN NEWS SHOP

S. J. Redman, late of Abernathy, has purchased the plant and subscription list of the Meadow Review. He sold the printing equipment and has made arrangement to have his paper published in the shop of the Lynn County News.

Mr. Redman was for a time editor of the Wilson Pointer. He is a good newspaper man and will get out a new paper for the people of Meadow. The first issue under the new management will appear this week.

PROSPECTS FOR SCHOOL BRIGHT

Superintendent M. L. H. Baze Sees Good Year At Hand; Gives His Policies

(By Supt. M. L. H. Baze) Monday of next week the Tahoka School will open for the year 1927-'28. It is always the custom of those immediately in charge of the schools to set forth some of the policies of the administration and to give some important instruction. That is the purpose of this article.

Let us say in the beginning that the prospects are the best that have ever confronted the writer. Good equipment, good buildings, good teachers, and good cooperation should insure the best school that Tahoka has ever had. Let us hope for a continuation of the hearty cooperation that we have had in the past. Our slogan will be "Education for Citizenship." The program that we expect to follow will be similar to the one adopted last year. Education, as we see it, is far more than mere technical knowledge of a few subjects. The education that we hope to encourage is that which will enrich a life and will benefit humanity. The educated man or woman is the person who is fitted for a service. The educated man or woman is the person who lives a full life—a life that touches things and people about it, and, as if by some magic power, set other forces to work for better conditions, better lives, better everything. So you may expect the school to foster the work of the fine arts. Music will receive our hearty support in all its phases. Art will be encouraged. Dramatics will receive due attention. At the same time the regular work as outlined by the Department of Education will not be neglected. Morality, honesty, self-respect, and high ideals will be part of the program. Every student will be encouraged to find himself and his purpose. It is our intention if possible to reach the very soul of each pupil as far as in our power. Through personal conferences and as much personal contact as possible the teachers will endeavor to get close to each pupil and try to be a real power in influencing him for good. It is this kind of a program that we invite you to support.

The physical side of the boys and girls will not be neglected we hope. It is our plan to have each child engage in certain physical exercises. This work will be supervised and will constitute a regular part of the curriculum. Lunch will be supervised, and the child that brings his lunch will be required to take time to eat it under proper conditions. Athletics will be given their proper place. They will be subordinated to regular school work, to be sure. Whether we win a game or not, we will play the game square and shoot straight. Our policy will be "Give us a good student first, and a manly man, and these things shall be added unto him."

A few instructions will here be given for the benefit of those who register Monday morning. Be sure that you have three things at hand: a book card, a report card, and an application blank properly filled. You may get the registration blanks at the Tahoka Drug Store, Thomas Bros. or the Lynn County News office. It will be impossible for a child to be registered until the application blank is properly filled by the parent. Follow these instructions and you will not experience any trouble. The first grade through to the sixth grade will assemble at the Ward School building. The seventh grade and the high school will assemble at the high school building. A short program will be had at each building on Monday morning. Instructions will be given as to where and how to enroll.

Mr. and Mrs. A. L. Jones and children returned last Thursday from a visit with friends and relatives at Brownwood, Goldthwaite, and San Saba.

Side view of New Tahoka High School Building

Shower Is Given For Mrs. Jackson

On Thursday afternoon, August 24, a shower was given Mrs. Jack Jackson at the home of Mrs. Hansford Tunnell.

The guests came in three groups. The first group arrived at 5 o'clock, the second at 5:30, and the third at 6:00. Refreshments of punch and cake were served to each of the groups.

Mrs. W. C. Henderson offered the following toast:

"Here's to the pretty little girl Who to our city came, And faithfully promised the trustees She wouldn't change her name.

She met a handsome, nice young man Who loved him to distraction; How fortunate it was for her This fellow's name was Jackson!"

Those attending the shower were: Mesdames A. Z. Jackson, W. T. Clinton, Coleman Wells, J. H. Tunnell, L. C. Haney, M. L. H. Baze, G. E. Knight, Guy Lemond, W. B. Slaton, B. P. Maddox, Buford Swan, Ben T. Brown, W. M. Harris, Tom Lemond, W. O. Henderson, E. H. Bouillon, C. B. Townes, G. M. Stewart, B. H. Robinson, Skip Taylor, Oscar Roberts Sam Sanford, and Misses Mary Walker, Mattie Will Seroyer, Alta Cassie Lilla Maie Reid, Berta Hill, Jeanette Caveness, Myrtle Hill, Lucille Slaton, Jewell Redwine, Dimple Caloway, Irene Childers, Ethel Campbell, Reta Lois Colleenback, Fay Slater, and Lucille Kemp.

Those who sent presents, but did not attend the shower were: J. S. Wells & Sons, Mrs. W. L. Knight, Misses Lola Belle Edwards, and Cleone Wells

THINKS CHILDREN SHOULD BE TRANSPORTED

The News has received a communication from J. R. Bolling of Lubbock but who has interests in Lynn county and visits much in and near Tahoka, advocating the transportation of children to and from school. He notes that a number of districts in Garza, Lubbock, and Hale counties transport the children in trucks and thinks that "a district which can not fix up a truck to send the children to school is not worth having a school."

We haven't space this week for the entire article but the above is the gist of it.

SEVERAL RURAL SCHOOLS OPENED MONDAY

The News is informed that the schools at Three Lakes, Lakeview and West Point opened Monday. The Tahoka, O'Donnell, Wilson, and Dixie schools will open next Monday. The T-Bar school opened Monday of last week and Lynn a week earlier still.

Many of the rural school will run a month or two and then suspend until the cotton crop is gathered.

ATTENDS FAMILY REUNION

J. K. Applewhite and family returned Monday afternoon from Mullins, where they visited relatives. On Sunday all the Applewhite brothers and sisters with their families gathered at the home of their mother for a reunion. J. K. says the house and yard were full of folks and that they had a glorious good time. A great feast was enjoyed at the noon hour.

Baptists Thank People Of Tahoka

The Primitive Baptists extend thanks and greetings to the people of Tahoka and Lynn county for their kindness and hospitality during the session of the West Texas Association, and congratulate you upon the wonderful improvement and growth of your excellent country.

Some of us remember to have crossed the plains when there were only about four or five windmills, but now your country has grown till it fosters a noble citizenship that is surpassed by no country that we have seen, and we hope you a greater future.

THE PRIMITIVE BAPTISTS

No. 9 Directors Meet Sept. 14th

An important meet of No. 9 Highway association for all towns between San Antonio and Amarillo will be held at Big Spring September 14. Judge Kilgore and Judge Carl Roundtree are the two directors of the association for Dawson county who will probably be present. The directors will discuss various phases of the highway.—Dawson County Journal.

Heating Plant Is In Basement

The high school is heated throughout with steam heat, the heating plant being installed by the Sampson Plumbing Company of Post.

The boiler room is located in a basement 23 x 25 feet in dimension under the northwest corner of the building. The basement also contains a fuel room 12 x 18 feet in size.

C. L. Roquemore, J. R. McAtee Jr., C. C. McCormick, C. R. ErnoVn, Lloyd F. McCormick, all of Wilson, and Van Bates of New Home, left Wednesday afternoon with a bunch of hunting licenses in their pockets. We understand that they headed toward Gaines county, where they expect to bag a few prairie chickens.

Announcement is made that Elder Lester W. Fisher of the Church of Christ will conduct a ten days meeting at Magnolia, beginning Saturday night. Elder Fisher is well known here and members of the Tahoka congregation and others will attend some of the services.

W. T. Nichols and grand-son of Ballinger were here last week as the guests of George B. Law. They were neighbors and friends for many years in Milam county.

C. M. Murrah is president of the board and A. F. Pitts secretary. They have an excellent school spirit out at Dixie and will doubtless have a splendid school again this year.

Prof. and Mrs. O. L. Sanders arrived Monday preparatory to beginning their school work at South Ward next Monday.

Megargel—A new \$40,000 high school building is under construction here. Other development in this city includes organizing of a volunteer fire department; putting over a \$150,000 road bond, and the organization of a new chamber of commerce.

Winters—S. W. Cooper, former secretary of the Crosbyton Chamber of Commerce has taken over the duties of the Winters Chamber of Commerce.

Midland—The Midland Chamber of Commerce is sending their secretary, Paul T. Vickers, to the national school for commercial secretaries which will be held at Northwestern University, Evanston, Illinois, on August 22 and through September 3. The school will give its attendants opportunity to hear experiences of from 350 to 400 leading secretaries of the nation.

If deforestation continues, flood sufferers of the future will not have a single log to float on.

The wisdom of the wise and the experience of ages may be preserved by cut-tin—Benjamin Disraeli

County School Values \$560,000

Lynn county is a believer in the construction of excellent buildings in which its children may receive their education. The people of this county have long realized the fact that the better the surroundings and the better the environment a child has, the more knowledge he will be able to acquire and the better citizen will he be able to make.

In practically every district in Lynn county first class school buildings have been constructed, many of them being of brick. A large part of the rural schools have constructed teacherages in order that teachers of the better type may be more easily secured and in order that someone may in this manner be kept on the school grounds throughout a large part of the year to look after the school property.

The total value of all the school plants in Lynn county is well over a half million dollars. In fact, as near as can be determined, Lynn county now has school buildings and teacherages which cost about \$560,000.00. This figure does not include land, most of the equipment and other such property. It may also be taken into consideration that in many districts much labor on the buildings was done free of charge by patrons of the schools.

In Lynn county there are eighteen brick school buildings, one tile and one stucco. There are only a few frame buildings. Fifteen of the rural schools have teacherages.

IMPROVED TALKING MACHINE

Willie—"Did Edison make the first talking machine, Pa?"

Pa—"No, honey, God made the first one, but Edison made the first one that could be shut off."

We are pleased to announce that Antonio Yellini, the opera star, who last month met with a serious automobile accident was able, last night, to appear in three pieces.

Tri-State Fair Plans Announced

Visitors to the Tri-State Exposition in Amarillo, starting Sunday, September 11, and ending the following Saturday, will be entertained absolutely free by one of the highest priced light opera companies now on the road—an organization which will cost the Exposition Management \$8,000.00 for performances.

Directors of the Exposition have decided that Earnie Young's Review, a musical comedy entourage numbering between eighty and one hundred people, mostly comely young women who sing and dance—and how! shall be presented free to grand stand spectators each evening.

This means that the 3,000 seats in the huge amphitheatre at the fair

grounds will be free—first come, first served. The only admission fee will be the 50c a head at the main gate to the grounds.

Boxes in the grand stand are to be reserved for season buyers for both matinees and evening, and the usual 75c admission fee will be charged in the grand stand for the Automobile Races, but for Earnie Young's extravaganza each evening the amphitheatre will be free.

Young, being an authority on public relations, and knowing what the public wants in girl shows and reviews like he produces and put on the road, sends word to the Fair Management that his 1927 edition is the niftiest thing he has ever brought out—colorful, tuneful, full of action, elaborately costumed and proped and with such a bevy of girls as he has never before assembled in any one troupe.

The Exposition Management also has extended invitations to Governor Dan Moody of Texas, Gov. Dillon of New Mexico and Gov. Johnson of Oklahoma, to come to Amarillo for the inauguration of the Fair. Congressman Marvin Jones, Earnest O. Thompson, and officers and directors of the Exposition have extended the invitations. It is anticipated that these executives will all be present when the Fair is launched September 11th.

NOT SO BAD

After the wreck on the logging railroad the superintendent asked the badly injured negro fireman, "Are you married?"

He replied sadly, "No sah, Boss, dis is the worstest fix ah was ever in."

View of Central Ward School Building

Grassland

The dry weather is becoming rather monotonous in this vicinity. Young cotton and feed are both looking bad. But there is a lot of maize being headed and if the old is all we have there seems to be enough of it to run this neighborhood. We have been having a few days of very warm weather.

Mr. and Mrs. J. H. Chapman have a new son at their house. The young man arrived August 16 and seems well pleased with his surroundings.

Friday night, August 19, the Mothers' Club had quite an enjoyable ice cream feast. They made about \$13 and felt happy over it; also had a nice short program. We expect to meet with hoes and rakes and clean the school yard September 1. Everybody invited.

Mr. and Mrs. J. J. Lowry have been visiting in the Reeves home. Mrs. Lowry is Mrs. Reeves' sister and Mrs. Lowry were both former teachers in our Grassland school. Mr. Fayne Bragg is at home after spending several months in Tyler and vicinity.

Messrs T. H. and Flency Moore and their families and Mr. M. Inkleber-

ger and Miss Katie B. Bosworth are all off on a trip to the mountains of Colorado.

The Methodist meeting closed last Sunday night, after one week's preaching morning and night. Bro. Hart did some fine preaching, which was very much appreciated by most of the community. Brother Magee preached several fine sermons during the time.

Robbers seem to be abroad in the land, as Mr. Guyle Mathis's house was broken into and quite a lot of things carried off. We hope that whoever did this will be apprehended and punished.

Mr. and Mrs. Love and family have been visiting with Mr. Love's brother, Mr. Hoover and family. Also Mr. and Mrs. Stephens are visiting the Hoover and Inklebarger families.

Mrs. Edwards of Post spent last week with the family of her son, Mr. Buck Edwards.

Mr. Buck Edwards has returned from Dallas, having carried his sister to a sanitarium at that place for treatment.

Mr. and Mrs. Lovie Shepherd have had as their guests Mrs. Shepherd's mother and brother, Mrs. Gary and son of Dunn, Texas.

Mrs. Ellis Choat and baby of Oklahoma are visiting the family of Mr. and Mrs. Price Thomas.

Mr. and Mrs. Emmett Ramsey have as their guests Mrs. Ramsey's brother and wife, Mr. and Mrs. Stanfield of East Texas.

—Reporter

Locker Rooms Are Very Commodious

Locker rooms (or bath and dressing rooms) and toilets in the new High School building were designed for usefulness and convenience.

The girl's locker room is at the southwest corner of the first floor, is 11 feet and 4 inches by 23 feet in size, has three shower baths and plenty of room for dressing purposes. The toilet is 23 by 9 feet. Doors open into the corridor from each and also between the two. A door also opens from the locker rooms onto the campus. In the northwest corner of the building are similar rooms for boys. On the second floor there are, also, toilets for both boys and girls, each measuring 20 feet by 7 feet and 6 inches.

Little Margaret Tunnell had her tonsils removed in a Lubbock Sanitarium Monday. She is recovering from the operation nicely.

Prospects For Year At Simmons Bright

ABILENE, Sept. 1.—Room reservations and advance inquiries for information that have been pouring into the Simmons University office have already justified the preparations which the school has been putting forward to meet the demands of the largest enrollment in its history this fall. These advance indications point toward a fall registration of over 1,000 and a total for the year exceeding 1,500.

Simmons authorities foresaw this increase before the close of last Spring's session, and began their plans which would broaden the curriculum, improve the facilities and take care of the largest and most varied demands for university work.

Two new buildings are now nearing completion which will help to relieve the heretofore crowded conditions, a new auditorium which will seat 1,600 people and a new cafeteria, which will accommodate the whole university. The auditorium is a temporary structure to take care of the situation until the new \$300,000 chapel and administration building is erected in the future, in the center of the campus. The present chapel hall is a good, practical fireproof, brick structure, however, which adequately meets the situation.

The cafeteria is also a fireproof structure. An experienced New Orleans cafeteria man has been secured to run the eating house.

Other construction which is going on and will be ready for the fall opening is the remodeling of the old auditorium in Abilene Hall into six class rooms and the remodeling of the dining halls and kitchen in the women's dormitories into living quarters.

The teaching staff at Simmons has been increased to take care of new and larger demands. Professional courses have especially been strengthened and expanded. The university plans to meet the growing demands for such work. Business Administration has been reorganized, the department of Home Economics has been expanded to cover every possible phase of that work. A department of Journalism has been added to cover every phase of newspaper work, both reportorial and editorial.

Students who desire work done out of residence will have the service of a new department of Correspondence and Extension at Simmons this year. Simmons plans to keep up her record in extra-curricula activity. The

athletic situation is bright now, reorganized coaching staff in charge. Frank Bridges, famous all over the south is head coach and director. His assistants, Leslie "Fats" Cranfill, and Charlie "Potts" Anderson, two of Texas most promising young mentors will have charge of football this fall while Bridges stays out a contract in California. Bridges will report in January, maintaining in the meantime a direction over the university athletics.

In all other activities, the famous Cowboy Band, the debating teams, the university publications, Simmons offers the best of opportunities to her students.

New Home

Mr. and Mrs. Blondie Crouch and Mr. Ross White left Tuesday for Phoenix, Arizona, where they expect to stay this fall and winter.

Miss Viola Clements spent last week with home folks of this community.

Mr. C. H. Roberts, who has been working in Slaton, spent last week end at home.

Mr. and Mrs. Bill Balch returned last Sunday from New Mexico, where they have been visiting Mrs. Balch's parents.

Mr. Bill McWhorter left last Saturday for San Angelo, where he expects to work.

Mr. Robert Smith left last week for Darnell, Ark.

Mr. G. N. McWhorter left last week for Bryan to visit relatives and see about his property at that place.

Mr. and Mrs. Earl Sloan are the proud parents of a new baby boy.

Mr. E. E. Hancock returned last Monday from Denton, where he attended a summer school.

Mr. John Hickerson and his daughter, Miss Maggie, of Tahoka, spent last Sunday with Mr. and Mrs. J. B. Lowe and family.

Grandpa Williams was taken seriously sick Sunday evening. Grandpa is a pioneer of Lynn county, and we sincerely hope that he will recover soon.

Mr. Henry Newman left last Saturday for Houston, after a short visit with his parents, Mr. and Mrs. John Newman of Lakeview.

Mr. and Mrs. Will Stephens of Vernon are visiting Dr. and Mrs. E. E. Callaway this week. Mrs. Stephens is Mrs. Callaway's niece.

Prof. O. G. Lewis, athletics coach and teacher of science in the Tahoka High School, came in Wednesday night to be ready for his duties Monday morning. He attended A. C. C. at Abilene this summer.

NOTICE TO THE PUBLIC

Any erroneous reflection upon the
reputation or standing of any indi-
vidual, firm or corporation, that may
appear in the columns of the News,
will be gladly corrected when called
to our attention.

A few patrons of the Tahoka district have been asking that the board purchase trucks to transport their children to school. We sympathize with the aspirations of these people and wish that it were practical to grant their requests; but they have probably not figured out the enormous additional expense that this would incur. The board has a limited amount of funds to spend and must spend them in the most judicious manner. If three or four trucks, as requested, were purchased and put in operation, our maintenance funds would be so reduced by this additional expense that our school could not be run more than seven or eight months at the most. This would lose us all our credits of affiliation and play havoc with the school generally. The only alternative would be to raise the taxes, and we have not heard of anybody yet clamoring for higher taxes. Honest critics sometimes suggest that a part of the money that was spent on the building should have been expended for trucks. But the law does not permit it to be expended that way. Funds arising from the sale of bonds can not be used for the purchase of trucks. If the board had done that they

might have been prosecuted and convicted of misappropriating public funds. Trucks can be purchased only with maintenance funds. We hope that the time will come when the district can afford to operate trucks, but that time does not appear to have yet arrived. Some districts are operating them successfully, but others with disastrous consequences. It all depends on the local conditions. We believe that the Tahoka school is undertaking to do the best possible, with the funds available, for all the children of the district.

The public schools in Tahoka will open next Monday. The Tahoka district is now equipped with a splendid building and schoolroom apparatus. We believe that we have an unusually strong faculty. The superintendent, principal, faculty members, and the board of trustees have an ambition to make the Tahoka schools the peer of any in this section, the size of the school and the property valuations of the district considered. We believe that the vast majority of the citizenship share this ambition with the faculty and board. Let's all join hearts and hands to make it so.

We believe that the majority of the people and of the patrons of the Tahoka Independent School District are proud of our schools and of the new high school building and they will back up any board of trustees that undertakes to make our schools more efficient. We hear a few fellows, however, whose school taxes amount to about three dollars and nineteen cents, cussing about the board spending so much money on a high school building.

We have seen donkeys that did a lot of kicking and made a lot of noise not because they had anything to kick about but because it was just their nature to kick and to bray.

It is usually the fellow who puts the least into the school or the church that does the most kicking about the way they are run.

HOW TO MAKE A FLY TRAP

Cut a piece of cardboard with a 1-inch hole in the center. Spread some sweet substance on one side, around the edge of the hole. Fill a glass about three-fourths full of soap suds and place the cardboard over it, sweet side down. The flies will crawl through and drown.

STUDY HALL IS TO SEAT 120

Is Convenient To Library And May Be Overseen By Only One Teacher

A study hall that will at present take care of fully three-fourths of the students who will attend the local high school and which will take care of the high school student body for many years is on the second floor of the new building. The study hall is a room used by students for study purposes when not reciting classes. Many students are grouped together in this room at one time in order that only one teacher may be required to take charge of them at a time. This room is 23 feet wide by 58 feet long, and contains desks for 120 students.

The study hall is adjoined by a library room 12 by 23 feet in size in which will be stored the reference books. A large screened window connects the library with the study hall, and books will be issued to students only through this window. One of the teachers will have charge of the library and keep trace of books issued students both for use in the study hall and for use at home.

Bethel

Our revival began Sunday morning. Rev. Richburgh of Big Spring is doing the preaching and the pastor, Rev. Shumake, is conducting the song services. The men have built a good arbor on the outside and all services will be held there if the weather permits. The meeting promises to be very uplifting and many people from the surrounding neighborhoods are attending. We are glad they're coming and we invite every one.

Mr. Theodore Nordyke has returned from Cottonwood after an extended visit with relatives.

Mr. and Mrs. Frank Liseby have returned from a trip with relatives and friends at Hico, Hubbard, Frost, and other eastern points.

The Midway Home Demonstration Club met with Mrs. Roy Appling Thursday evening. There was a very small attendance. Miss Halsey was present, and Recreation for the Family this Summer was discussed. Mr. Grover Stewart is getting his

wheat threshed this week. Mr. and Mrs. Roberson and family teachers of Midway school, have returned from Grapeland, where they spent the summer.

Mr. Anderson has returned from Glen Rose greatly benefitted in health.

Quite a bit of canning has been going on in our community. Nearly every one has canned some corn, peas, beans, and numerous other things.

Miss Lorene Welch of Tahoka is the guest of Miss Fern Liseby this week.

Mr. and Mrs. Dickson Looney and family of South Ward attended church here and spent the day with Mr. and Mrs. Frank Liseby Sunday.

Mr. J. F. Tharp is at Turnersville on business this week.

—REPORTER.

A. L. Holloway visited down at Sulphur Springs last week. He says that the boll weevil has utterly ruined the cotton crop in Hopkins county, but that the sweet 'taters are fine. The possum crop is pretty good too, and so our good friend Bagwell, the local newspaper man, has hopes of getting through the winter again in pretty fair condition.

Liverpool now has the world's largest organ, with 10,934 pipes, played by power from a 35-horse power electric motor.

Who's Who TODAY

"One Check that can always be cashed is a check on your living expenses."

Ours is a great cotton country, a great feed country, a great cow country, in fact the best agricultural and stockraising country in Texas.

We have the best people on earth.

We stand for progress and education.

It is a delight to do a banking business in such a country and with such a people.

Let us serve you.

OLD BUILDING IS PUT TO USE

To Be Known As Central Ward; Will Be Used By First Six Grades

All high school pupils and pupils of the seventh grade will be given instruction in the new high school building during the coming school term, which opens on Monday, September 5.

Pupils up to and including the sixth grade will be accommodated in the old building, which will henceforth be known as Central Ward School or some similar designation.

There will be at least eight teachers in this building. Eight of the rooms have been fitted up as class rooms, four on the first floor and four on the second floor above the basement. The old physics laboratory room in the basement has been fitted up and will be used as a physiology laboratory for pupils studying this subject. Two other basement rooms in the old building will be used as lunch rooms. Two rooms in the basement under the auditorium will be used for physical education classes. The desks in the rear end of the auditorium have been removed and replaced with the regular auditorium seats, and the auditorium will be used for all necessary purposes.

Regular classes in physical education will be conducted. Athletics affords plenty of exercise for the stronger and more active children, but frequently does not reach nor help those who most need exercise. These physical training classes will be conducted so as to reach all the children.

A system of supervised meals will also be instituted. A period of 15 minutes will be taken for lunch, and no pupil will be allowed to go on the play grounds or to leave the lunch rooms until this fifteen-minute period expires. The reason for this is to require each child to take plenty of time for eating, which is so necessary to its health and proper physical development. The bringing of milk to school for the noon lunch will be encouraged.

Mrs. Baze will be the principal of the Central Ward School. She will also teach writing and will have supervision of writing and drawing down through all the grades. She not only has a permanent teacher's certificate but has a special certificate in writing.

The work in the fourth, fifth, and sixth grades will be done on the departmental plan, and the other teachers in this department will be Mrs. L. C. Haney, Mrs. Buford Swan, Miss Mary Walker, and Miss Imogene Galoway, all of whom taught here last year and are well known to the people of Tahoka.

Miss Mattie Will Seroyer will be the teacher of the third grade, Mrs. W.

O. Henderson of the second grade, and Mrs. L. F. Craft of the first grade. All of these have been members of the faculty for two or more years.

It is possible that a teacher for the pupils under seven years of age may become necessary, depending on the number of these and the entire enrollment in the first grade.

MAINTAINING EGG PRODUCTION DURING SUMMER

(By F. W. Kazmeir, Bryan, Tex.)

We have put off writing on this subject, until we could see an upward trend of egg production. This week, price of fresh laid fertile eggs has jumped up to 30c per dozen net to the producer. A few more weeks and fresh laid eggs will again bring about four cents each. In view of these facts we have the courage to write more on this subject.

Make Them Lay All The Time

The successful farmer and poultry raiser feeds and cares for his flock, so as to receive a good production every month in the year. Don't worry about the hen wearing herself out laying eggs. Give her good care and feeding. she will come thru this hot weather, even when laying heavily, in better condition than the other flock, that is on a vacation and poorly fed.

Keep dry mash before your flock all summer long. This is very important. It is better to cut down on scratch grain feeding, to induce heavier consumption of dry mash in hot weather.

Increase Mash Consumption
In order to be certain that the hens will consume enough dry mash, reduce number of grain feedings to one a day and that preferably in the afternoon, and this should only be a very sparing feed during this hot weather.

We recommend giving one feeding a day about middle afternoon of a moist or crumbly mash, using regular dry mash mixture, moistened with sour milk or buttermilk, to a crumbly consistency. Give all they will eat up clean in 30 minutes. If milk is not available use water.

Watch Green Food Supply
Hot dry weather, will dry up the available green food supply. Plans must be made to provide additional succulent and fresh green food. While the weather is still hot you may plant sudan and if necessary, irrigate it. Later in the fall be sure and start a good sized oat pasture for your flock of laying hens. Remember, fresh, tender, juicy green food is important.

Mineral Supply
Some of the flock are already in the moult and the rest soon will be. It takes mineral matter to form feathers. Since oyster shell is cheap, place a good sized box full of them before your flock and keep a liberal supply always available.

Fresh Water
It ought not be necessary to mention importance of fresh water, yet only recently I made a trip throughout Texas and found fresh water sadly neglected for most flocks. I believe I am confining myself to facts when I tell you more than 75 per cent of the flocks were suffering from a lack of fresh water. In hot weather a hen can do better without feed than without water. Stop to think but a moment and you can readily realize the importance of fresh drinking water for your flock. Laziness alone is responsible for our poultry flock having to do without water.

Ventilate Houses
In our country, he houses, at this time of year should have liberal sided opening in all four sides of the house. Go out at night and see whether the fowls are comfortable. If they are panting and spreading their wings, it is too hot. Open up the house more on all sides. Don't be afraid of a direct draft over the birds at this time of the year. Fresh

air is important, even though it is still free. Not only should they be comfortable while on the roosts at night but also during the day time. If natural shade is not available and close to the house, then artificial shade best be provided. Most anything, no matter how crude and low to the ground will do. A low arbor built out of scraps of lumber, brush, hay, straw or anything else will answer the purpose. If possible soak the ground beneath these shelters once or twice a day with water. This will help provide a cool place. Don't forget the red mites. Spray or paint all fixtures especially roosts and nests with some good disinfectant as crude oil or kerosene.

Amarillo Schools Have Many Teachers From W T S T C

Canyon, August 10—Daily evidence of the widespread service which the West Texas State Teachers College gives to Northwest Texas may be found, if one cares to look about him a bit.

A list of the 220 teachers who will make up the teaching force of the Amarillo public schools, under the administration of Superintendent W. A. McIntosh, reveals that more than fifty per cent of that force have received all or part of their college training at the Teachers College at Canyon.

Amarillo's list is not peculiar in having this high per cent of Teachers College students. Other schools all over this section show a high per centage of those specifically prepared teachers from their own West Texas institution. Some of the smaller schools show 100 per cent.

The tendency toward preference of teachers who are definitely prepared to teach, each in his own particular field, seems to be constantly gaining favor with administrators in the work of education.

When did you first become acquainted with your husband?
"The first time I asked him for money after we were married."

In addition to its numerous other resources, Texas has large iron ore deposits. These lie chiefly in the low hills of Cherokee, Rusk, Harrison, Marion, Cass and other East Texas counties.

"This floor is terribly crowded," said the gasping man as he blew his nose on somebody else's handkerchief.

FLOOR PLAN IS WELL ARRANGED

Board Saves Money By Making Building Three Stories; Many Classrooms

The floor plan of the new high school building was arranged both for convenience and for the sake of economy. People frequently ask why the building was made three stories instead of two. The answer is that by building a three story building the board was able to get more floor space, more rooms, for the money to be expended.

Every inch of space in the building was planned for some definite use. Even the walls between the corridors and the class rooms were recessed and the lockers to be used by the students in which to keep their books, clothes, and lunches were put in these recesses.

As one enters the building from the front he finds the superintendent's office and the principal's office to his left. A reception room for the use of both offices, and a book room for storage purposes is close-by where the administrative authorities may keep close tab on the text books that are issued students. The first floor also contains three recitation rooms, boy's and girl's locker rooms, baths, and toilets, and the main floor of the auditorium.

One may reach the second and third floors by the stairway at either the north or south ends of the building.

The second floors contains the large study hall, the library, three recitation rooms, two toilets, and the balcony to the auditorium.

The third floor contains three recitation rooms, a science recitation room, the biology, physics, foods, and sewing laboratories, the dining room, and a fitting room, in addition to several storage rooms for the science department.

F. E. Redwine and family, I. S. Doak and family, J. W. Simpson and family, H. W. Caloway and family, all of Tahoka, and F. H. Hancock and family and Mr. Armontrout and family of New Home, returned Wednesday from Carlsbad, where they went to see the great cavern. Mr. Caloway says that 215 people went through the cavern that day and that more than 900 people went thru it in a single day recently.

E. T. Henaley, G. T. May, and W. L. Amason and their families left Monday for their homes at London, Kimble county, after a visit of a few days with Supt. M. L. H. Base and family here. They inspected the new high school building and pronounced it a splendid structure.

Abe Spruiell of Wichita Falls visited the Thompson brothers, Bill, Joe,

and Charley, the first of the Spruiells. He also visited the Spruiells of this county.

E. Lam and family moved to Sudan Wednesday. Mr. Lam takes charge of the school. Mr. Lam has been a resident of this county for many years and many here regret the removal of the family from the city.

Mr. and Mrs. Lit Moore of New Home were here Friday looking after the interest of their crop and attended the meeting and spent the night with R. L. Moore and family. Misses Iola and Evelyn Wilkerson of New Home spent the week end with friends here.

Mrs. Lambett of Littlefield returned home last Friday after a week's visit with her brother, J. A. Beasley and wife.

Our meeting closed Sunday night with one convert and one reclaimed. Brother and Sister Denton of Tahoka were with us two nights and helped out much with our singing.

Rev. Denton and Uncle Tom will preach here Saturday night before the second Sunday in September. Everybody come out.

We understand Rev. Hicks will be with us in the afternoon of the second Sunday in September.

Mr. and Mrs. Robert Townsen and daughter Lucille returned Monday from a visit at Ranger.

Misses Wilma and Beatrice Andrews of New Moore visited friends here from Friday till Sunday.

Jeane Dorman and wife, who are located on the Ed Hart farm east of town visited their parents' Saturday night and Sunday.

Mr. Frank McInroy of Post was here Thursday and bought some white

Wyandotte cockrels of J. M. Johnson. He says that crops are good in his vicinity.

H. W. Crews lost a good horse the past week.

Tom Medera, son, and daughter and mother came in Thursday to visit his sister, Mrs. J. A. Beasley. He and his son and daughter went home Sunday and Doyle Beasley went with them. They reside at Wichita Falls. Her mother is to make her an extended visit.

The C. H. D. C. meets with Mrs. D. Henderson next Thursday.

Mr. and Mrs. Arthur McMillian are the parents of a newcomer, making his appearance in the wee, small hours of midnight, Friday night.

Mr. Cecil Caraway, wife and baby visited her parents, J. M. Johnson and wife and family Saturday night and Sunday, and also attended the meeting.

J. M. Johnson attended the Primitive Baptist Association at Tahoka Friday night.

W. M. Waldrip and family attended the Baptist Association Sunday at Tahoka.

Miss Violet Smith of Draw returned home Sunday after a week's visit with the Misses Crews, and Mabel went home with her for a visit.

Rev. Matthews and family went to O. K. to fill Rev. Henderson's appointment Sunday.

52 issues Lynn County News \$1.50

Many Going To See Lindbergh

Ablene, Aug 26—Despite the fact that they are fully aware of Col. Chas. Lindbergh's seeming indifference in feminine attraction, members of the committee in charge of arrangements for that well-known young man's visit to this city on September 26 are going ahead with their plan of having on hand to greet him a larger and more appealing collection of pulchritude than he ever encountered previous to his visit in west Texas.

"West Texas girls are different from those in other places," R. S. Stephens, a member of the Committee says, and it is possible that the group to be assembled here will cause the Colonel to have a change of heart.

However, none of the members of this collection will be expecting to exchange osculatory salutations with the pilot of the "Spirit of St. Louis". Probability of such action being attempted is very remote, but each of the West Texas maidens will be given individual instruction on this point before the formal reception is held.

Already twenty-eight of these young ladies from as many West Texas towns have been named, and others will be shortly. A number of popularity contests are now being staged, and the winners of these affairs are to be among the feminine representatives on the The West Texas Lindbergh Reception Committee.

It is expected that approximately 100 towns will be represented in this group. Each of the girls is to be designated the "Spirit" of her home city.

The list is headed by Miss Emily Francis Key of Lampasas, "Queen of West Texas" for this year, who will be the "Spirit of West Texas" for Lindbergh Day in Abilene. Others already named are: Misses Mildred Jones, Rule; Mabel Reeves, Lockney; Pauline Hardesty, Slaton; Francis Snyder, Moran; Dorothy Baxter, Santa Anna; Emily Bailey, Lampasas; Mary Miller, Loraine; Mary Katherine Boon, Brownwood; Katherine Balou, Brady; Mabel Wright, Ranger. Azalea Key, Lamesa; Frankie Wells, Tahoka. Rowena Clark, Rising Star; Luna Lane, Jayton; Mary Gay Thompson, Clyde; Rebecca Harlan, Stamford; Mary Pittard, Anson; Mavis Warren, Dublin; Lois McKee, Sweetwater; Thelma Hurst, Strawn; Edna Bennett, Fort Stockton; Katherine Penn, Ballinger; Louise Jennings, Lubbock. Pearl Wimberly, Midland; Virginia Stoneroad, Colorado; Mary Alice Parramore, Abilene.

Miss Ione Ward, one of the teachers in the Gordon school, called at the News office Wednesday to renew her subscription and stated that the Gordon school would possibly begin Monday. Prof. C. A. Lawrence is its principal, Miss Ward intermediate teacher, and Miss Madie Walker of O'Donnell will teach the primary grades.

Students and Faculty of Lynn County, Texas: We wish to dedicate this space to your past success; and to the following year your future success.

WHAT TEXAS MAKES—MAKES TEXAS

Are Working Highway

According to G. E. Supt-engineer, of the Department, of this district, work will be started on highway No. 7 running east and west of county.

An eighty foot highway will be secured and surveyed to make the highway No. 7 running east and west of county.

Mr. McPherson stated that a number of miles of work will be started by the first of September. He expects to complete the highway to the line and has also completed the county which he hopes to complete by the time the Keeway is opened, when work will be started on highway No. 7. It will be one year to complete.

After the work has been completed it will give a direct route from Worth and Roswell, which will shorten the distance.

Kent county, east of here, has started its concrete highway to within four or five miles of Albany and Fort Worth. The highway is being hardsurfaced.

We feel that by Mr. Pherson as supervisor of county road that highway will be a great improvement on the pavement, for it has done on No. 7.

Harley Sadler Is Coming Sept. 26th

Harley Sadler and his "own company" will be here on their annual visit for one week beginning Monday, September 26. His advance advertising man was here last Thursday and left that information at The News Office.

The show is coming to Tahoka this year under the auspices of the Tahoka Concert Band and the latter organization will get a neat little commission out of the proceeds of the show.

Harley is one of the best known citizens in west Texas and no doubt, one of the best show men in the Southwest, and the citizenship will be ready to welcome him to Tahoka with their attendance at his show each night while in the town.

Dixie School To Open Monday

The trustees of the Dixie Independent School District have fixed next Monday as the opening date of their school. They expect to have an eight months term. The faculty consists of M. B. Hood, superintendent; Miss Alma Hunter, Tahoka, principal; and Ollie and Mollie Barnes of Melvin teaching the lower grades.

Uncle Jimmie Fleming gave a big dinner to some of his bachelor friends Sunday. There were four of the unattached gentlemen present; to wit: Happy Smith, Van Bates, Homer Harrison, and R. E. Fleming. Uncle Jimmie says that the situation is becoming desperate and that something must be done at once to get rid of these persistent offenders or to induce them to enter the matrimonial state. The guests all say the dinner was fine, but further deponents sayeth not.

Drinking Fountains

Drinking fountains are to be found in the corridors on each floor of the new school building. There are four fountains on each floor. Water is piped to all the laboratories, also.

W. H. Barber, formerly the proprietor of the store at New Lynn, returned Sunday from Big Sandy, where he and little daughter spent a couple of months. The weather got too hot down in the sticks and he had to hunt a cooler climate.

Brick Of Blended Colors; Stone White

The face brick of the new school building is of blended colors, black, red and brown brick being used. With white mortar these colored brick make a pleasing appearance.

The building is trimmed with white lime stone and with cast stone pillars running to the top of the building at the front entrance and to the second floor at each of the two side entrances.

HUNTING LICENSES RECEIVED

County Clerk W. E. Smith announces that hunting licenses for the season of 1927-28 have been received at his office. He is ready to accommodate you.

W. S. Anglin and family visited Mr. Anglin's father near Gorman Saturday and Sunday.

PROMINENT CITIZEN IN JAIL ON SERIOUS CHARGE

W. R. Bartley, a prominent citizen of Lynn community, was arrested and placed in jail Monday on a complaint charging a most serious and disgraceful crime, involving conduct relating to a member of his own family. He had not made bond at a late hour Wednesday afternoon.

Prof. and Mrs. Nat Williams returned Tuesday night from a visit of several weeks with relatives at Roscoe, Putnam, and other places.

NEW PIANO PURCHASED FOR SCHOOL AUDITORIUM

A new Baby Grand Gulbransen piano, costing \$850, has been purchased and placed in the new high school auditorium. The piano will be paid for by the Parent-Teachers Club and the various music clubs under the direction of Mrs. Juanita Jackson.

Mrs. Jackson will maintain a studio on the second floor of the new building and will use one of the pianos from the old building. She will teach music two days a week at the Central Ward.

Are Working On Highway No. 84

According to G. E. McPherson, supt.-engineer, of the State Highway Department, of this district, work will be started on highway No. 84, running east and west through Garza county.

An eighty foot highway has been secured and surveyed, which will make the highway even better than highway No. 7 running through this county.

Mr. McPherson states that he has added a number of men to his crew and work will be started about the first of September. He hopes to complete the highway to the Kent County line and has also been given Lynn county which he hopes to complete by the time the Kent county highway is opened, where paving has already begun. It will probably take one year to complete the work.

After the work has been completed it will give a direct route to Fort Worth and Roswell, New Mexico, and will shorten the distance some forty miles.

Kent county, east of here, has already started this construction of a hard-surface highway which will go to within four or five miles of Roman where a fine gravel highway will lead to Albany and from Albany to Fort Worth the highway is to be hardsurfaced.

We feel that by having Mr. McPherson as supervisor of the Garza county road that our part of the highway will be almost as good as the pavement, for from the work he has done on No. 7 we know his ability in road construction.—Post Dispatch.

PRESBYTERIAN SERVICES NEXT SUNDAY

Rev. W. K. Johnston requests that we announce that the regular services will be held at the Presbyterian church next Sunday. All members are urged to be present and other invited.

CONTRACTOR WHEELER DESERVES MUCH CREDIT

Charles W. Wheeler, the contractor who constructed the new high school building, proved himself to be not only a master builder, but a genuinely honest man, and the board of trustees on numerous occasions have expressed their appreciation of his work and of the integrity he has exhibited. We wish to add this word of commendation and appreciation.

The Nazarene meeting which had been running for ten days at New Lynn came to a close Sunday. There were two conversions during the meeting, according to W. P. Bussell of that community. Rev. W. G. Shelton did the preaching.

MAKES WHEAT WITHOUT RAIN

Grover Stewart threshed his wheat and barley this week. His wheat netted 907 bushels and his barley about 200 bushels. The wheat made about 11 bushels per acre, with practically no rain on it after November of last year. He says it is a fine grade of wheat, too.

Well Known Editor-Preacher Is Here

Elder C. H. Cayce, editor of the Primitive Baptist, and pastor of churches in Fordyce and Little Rock, Arkansas, was one of the principal speakers at the West Texas Baptist Association meeting held here last week and paid a call to The News office during his stay in the city.

Bro. Cayce has been editor of the Primitive Baptist for 22 years. The paper has been under the same management for the past 41 years, his father, S. F. Cayce having established the organ in 1886. When his father died, the present editor inherited the editorial chair. This paper, he says, has an exceedingly large circulation over the entire South, and, in fact, has the largest circulation of any Primitive Baptist paper in the entire United States.

W. J. Crouch was in town the latter part of last week exhibiting a sample of the potash being mined in San Saba county. He brought this sample along just to show friends here what the mineral looks like. He says that it is found on the surface or near the surface of the ground. It has been known for a long time that these "rocks" existed, but their composition and value were not suspected until recently.

Texas has made a gain of more than \$7,500,000,000 in wealth since 1900. The wealth of the state has increased 324 per cent. The state's total wealth now is estimated at more than \$10,000,000,000.

The city commission of Lubbock has just authorized the paving of 13 additional blocks in the residential section of that city.

O'DONNELL GETS FIRST BALE COTTON LAST WEEK

The first bale of cotton ginned in Lynn county this season came in to O'Donnell on Thursday afternoon of last week and was ginned on Friday. This cotton came from Dawson county, however. It was sold for 26 cents and a premium of \$56.00 was paid to the owner.

COUNTY BOARD ORDERS INSTITUTE FOR LYNN COUNTY

At a meeting of the county board held in Tahoka last Monday, an institute for the teachers of Lynn county was ordered for two days, October 27-28, which all the teachers of the county will attend and for which attendance they will draw pay. It was ordered that an institute be held on three other days, on Saturdays, on Saturdays, scattered along through the school year at such times as the county superintendent and the teachers may fix, for which the teachers will draw no pay.

Texas motorists will pay about 17 million dollars in gasoline taxes in 1927.

BAPTIST ASSOCIATION DRAWS LARGE CROWD

(Continued from first page)

filled the pulpit, besides Elder Cayce, were Elder J. S. Newman of Stockdale, Elder J. H. Fisher of Newcastle, and Elder O. Strickland of Monday.

Elder Cayce preached on Friday morning and Sunday morning, and his messages are said to have been exceedingly powerful. Local members of the Primitive Baptist Church regard him as one of the strongest preachers of the South.

Elder Joe Newman also bears more than a statewide reputation as an exponent of the doctrines held by his church.

Elder J. H. Fisher is a most vigorous and effective pulpit speaker and he ranks well up toward the front.

Elder O. Strickland, who is also regarded as a leader in the denomination, is a brother of A. Strickland of this city.

There were a number of others scarcely less prominent who were present and preached at different times during the meetings.

Much stress was laid by many of the speakers on unity and cooperation within their own ranks and most of them seemed imbued with an aggressive if not militant spirit.

COUNTY TRUSTEES CLASSIFY SCHOOLS MONDAY

Under a law enacted by the present legislature, it is the duty of the county board of trustees to classify the schools of the county. Accordingly, the county board met Monday and performed this most important duty. Since this is the first classification of this kind made in this county, it is to be expected that some changes will be made next year. In fact an order was passed by the board Monday that after the school term of 1927-28, Pride and Three Lakes shall be schools of eight grades, instead of nine under the present classification, and that Petty and Newmoore No. 2 be schools of seven grades, instead of eight under the present classification.

The classification as made by the board Monday is as follows:

Schools of 11 grades: New Home, Draw and Wells.

Schools of 10 grades: Dixie, New Lynn and Grassland.

School of 9 grades: Pride, Lakeview, Morgan, Three Lakes, Redwine, and Joe Stokes.

Schools of 8 grades: Petty, Magnolia, Edith, Midway, Newmoore and Gordon.

Schools of 7 grades: West Point and Joe Bailey.

No classification was made of the Tahoka, O'Donnell, and Wilson schools.

The county board consists of H. M. Larkin, president, chosen from the county at large, J. E. Morgan from district No. 1, L. T. Brewer from district No. 2, W. M. Waldrep from district No. 3, and S. W. Williams from district No. 4.

New Lynn School Now In Session

The school at New Lynn opened Monday with four teachers, to wit: Prof. and Mrs. Price, Mrs. Rhodes of Slaton and Mrs. Voss of Post.

The school will run two months, when it will suspend until the cotton picking season is over, and will then resume work possibly about January 1.

There are about 100 pupils in attendance, and the prospects are said to be bright for an excellent school.

Tahoka To Have Exhibit At Lubbock

F. O. Kelly and Garnet Reeves of Lubbock representing the Panhandle South Plains Fair were in Tahoka Monday. While here the visitors arranged for a county exhibit for Lynn County which Taylor White, vocational agriculture teacher of the high school will gather. Miss Millie Halsey, home demonstration agent will also take an exhibit to the fair, representing the work of the women's and girls' clubs of Lynn county.

Thursday, September 29 has been designated as Tahoka and Lynn county day. On this day the Tahoka High School football team will be in Lubbock to play the Littlefield High School team and hundreds of local people are expected to attend.

The South Plains Fair has the greatest prospects this year of any year in its history, Garnet Reeves stated while here. The exhibits, amusement, and prizes will be of the best.

Ten counties have already been signed up to bring an agricultural exhibit and as many more are expected to be there September 27 when the fair opens. About ten communities in Lubbock county will also have exhibits which will be in a class to themselves. The counties that will exhibit are: Terry, Lynn, Garza, Yoakum, Hockley, Crosby, Floyd, Hale, Lamb, and Bailey.

The live stock barn will be filled to capacity with swine, beef cattle, dairy cattle, horses, mules, sheep, and other stock. The poultry building will be filled with poultry. The women's building will have a variety of products including the Girls' Club exhibit from all the South Plains counties, art, culinary, textiles, plants and cut flowers, relics and curios.

The Sunshine Shows, one of the best carnivals in the Southwest will set up on midway. A spectacular fireworks display will be set off each of the five nights, five football games will be played, three free act troupes will act twice each day of the fair, and other amusement features will be enjoyed by fair visitors.

The football games that will be played are as follows:

Tuesday, Sept. 27, Lamesa vs. Spur; Wednesday, Plainview vs. Slaton. Thursday Tahoka vs. Littlefield. Friday, Lubbock vs. Floydada; Saturday Texas Tech vs. St. Edwards University.

Premiums and prizes to be awarded include thousands of dollars in premiums, including \$200 for the best county exhibit; five Chevrolet automobiles, a ten foot Standard roller bearing windmill for the best ten heads of milo maize and other prizes.

Last year Tahoka came to the fair in a body on Tahoka day, bringing more people than any other city on

the Plains had ever seen. The delegation headed by the Tahoka Band made a big hit. East Texas timber has a large percentage of pine used to carry the wire telegraph and electric power companies. The pine it is estimated, makes board feet of pine.

CONGRATULATIONS

We wish to express our appreciation to our schools, both in Tahoka and throughout the county.

We invite those who drive in to school come by and let us fill their gas tanks.

Tahoka, Lynn County, Texas, Thursday, September 1, 1927

Number 1

SCHOOLS HAVE STEADY GROWTH

STUDENT BODY GROWS RAPIDLY

Increases From 325 In 1920 to 703 In 1927; Four Superintendents In 11 Years

As showing the growth of the city of Tahoka, we take the following figures from the school records showing the number of scholastics in the Tahoka Independent School District for the years given. We have been unable to obtain the figures for the years of 1917, 1918 and 1922. The scholastic census for the other years since the independent district was created is as follows:

1919	222
1920	274
1921	276
1922	435
1924	537
1925	548
1926	617
1927	620

It might be interesting to know how many pupils actually enrolled in school during these years. We have been able to get the figures for the following years only:

1920-21	325
1921-22	379
1922-23	520
1923-24	576
1924-25	63.
1925-26	670
1926-27 (white)	70.
(colored)	17.

The enrollment for the year 1926 consisted of the following Grades 4, of which 79 enrolled in the 7th grade. High School, 169. Seventh grade pupils will be taught in the new high school building this year. H. C. Zorns was superintendent of the Tahoka school when it was converted from a common school district to an independent district, serving for the school terms of 1916-17 and 1917-18.

Prof. H. P. Caveness, now county superintendent of schools of Lynn county, was superintendent of the Tahoka schools for seven years, beginning in 1918 and closing in 1925. During the school year of 1919-20 the school was classified by the State Department of Education, and during the next year, 1920-21, the school was awarded its first credits for affiliation. It gained affiliation in 1922, and at the close of the school term of 1924-25, when Mr. Caveness' long service as superintendent came to a close, the school had 20 1-4 credits. This put it in the class of the best high schools in all this section. Since that time three additional credits have been gained, and the school now has 22 1-2 credits.

Prof. G. H. Nelson served as superintendent during the years 1925-26 and Prof. M. L. H. Baze is now beginning his second year in that capacity.

When the Tahoka Independent School District was created there were eight teachers in the faculty including the superintendent. This same number of teachers constituted each faculty until the school term of 1921-22, when another teacher was added. In 1922-23, the faculty consisted of 12 teachers; in 1923-24, 15 teachers; 1924-25, 17 teachers; 1925-26, 18 teachers; 1926-27, 11 teachers; and for the year 1927-28, 20 teachers have already been employed.

The vocational Agriculture and Home Economics departments were established in 1923. Vocational Agriculture was dropped last year but has been reinstated this year. The Home Economics department was established and has been running continuously under the provisions of the Smith-Hughes Act, and both departments participate in the state and federal funds provided for schools doing this work and meeting the requirements of the Smith-Hughes law.

Public Speaking was added to the curriculum last year and a full credit was granted for the work done in that subject. Latin and possibly biology will be added to the curriculum this year.

Read The Want Ads.

M. L. H. Baze, Superintendent, (above) and Nat Williams, principal of High School (below). Mrs. M. L. H. Baze is Principal of Central Ward and O. L. Sanders is principal of South Ward.

NEW BUILDING COST \$100,000

District Now Has Two Ward Schools And One High School; Growth Rapid

The first brick school building in Tahoka was built in 1911. This was then a common school district. In that year bonds in the sum of \$15,000 were voted and with the proceeds a two story building with a basement was constructed. This served the district adequately until 1920, but by that time the scholastic population had increased to such an extent that more room was absolutely necessary. In the meantime, in 1917, the district had been converted into an independent district and later enlarged.

In 1920 another bond issue in the sum of \$30,000 was submitted to a vote of the people, and though some opposition developed, the bonds were authorized. With the proceeds, an auditorium and a basement containing six class rooms were added to the existing public school building at 5 per cent interest, were sold to the

Central Trust Company of San Antonio at a premium of \$1,025.00 and a cost of about \$22,000, improvements on the original building were made at a cost of a few thousand dollars, and a 2-room school building was constructed at South Ward. In the summer of 1926, a neat teaching of two rooms was built at South Ward.

Owing to the advance in the price of material, the above school properties are now valued at \$60,000 to \$75,000. A bond issue in the sum of \$100,000 was submitted to a vote of the people of the district for the purpose of constructing a new high school building, the election being held on March 6, and the proposition carried by a vote of 184 to 137. Owing to a technical defect in giving the notice of the election, however, this election was declared invalid and another election was called for April 17. This election resulted in favor of the bonds by a vote of 273 to 135.

On April 23, the site for the new building was selected, the Zappa Land Company having offered to donate to the board five acres and to sell an additional five-acre tract for \$800.00 if the board desired as much as ten acres.

On June 29, the bonds of the district in the sum of \$100,000, bearing accrued interest.

On August 2, the Board let the general contract for the building to Charles W. Wheeler at \$75,000. The Sampson Plumbing Co., of Post was awarded the plumbing and heating contract at \$9,800.00, and the W. W. Electric Co. of Lubbock was awarded the wiring contract at \$2,723.00. A few changes were afterwards made which slightly increased these figures.

Work was begun on the structure early in the fall of 1926, but owing to much rain through the fall and cold weather during the winter, rather slow progress was made, and the building was only recently finished.

Building Is Fireproof

Brick, concrete, tile, stone, structural steel, metal lath, and plastering were used in the building. Floors in the auditorium and class rooms are of maple, and window and door frames and doors are of wood. The building is almost as nearly fireproof as it is possible to make it. The blackboards are of slate. The roof is of standard type "AA" pitch and gravel.

Growth Of District Calls For Buildings

FIRST SCHOOL WAS IN 1903

Only Two Teachers Used at Tahoka For Many Years; Taught In 24 x 36 Building

(By H. M. Larkin) Lynn county was organized April 7, 1903 and Judge Elliot was elected County Judge and Ex-Officio County Superintendent. There being no school nor school house in the county, the citizens of the new county set to work for the organization of the first school in Lynn county, which was to be located in the county seat, Tahoka.

Judge Elliot appointed as first Trustees to look after this matter, M. E. Gilmore, J. S. Wells and W. F. Henderson. These trustees were confronted with a difficult proposition as there was no school building and no funds with which to build one. Consequently it was up to the citizens to build by private subscription and a small frame building 24 x 36 feet with a partition was erected in the Summer of 1903, the lumber being hauled from Big Spring.

The writer has searched the records of the county Superintendent's office but has failed to find any record of trustees elected or teachers employed up until about 1922 and most of the information he has secured was from the older settlers of the county.

It is impossible to give a complete list of all the principals and grade teachers that have been employed since our school was organized, so we mention only a few of the earlier ones.

In the Fall of 1903, Prof. W. S. Norton and wife were employed to teach the first school. They taught two very successful terms, considering the handicaps of the situation.

In Fall of 1905 Prof. J. B. Walker, assisted by Miss Minnie Chambers was employed. These two taught several terms and as the school was growing Miss Annie McLarry was employed as a third teacher. Another room was added to the building, making a three room building.

During the year 1910 the trustees began agitating a movement for a \$15,000 bond issue for the purpose of building a brick. At that date this seemed to be an extravagant amount to waste (?) on a school building and a few of the citizens bitterly opposed this issue, but it was carried by a nice majority, and in 1911 the building was completed. It is useless to say, that the ones who opposed the bond issue, were the proudest of the building when completed.

After Prof. Walker, Prof. Spears was employed and resigned during the term, Brother Bishop, the Baptist Minister at Tahoka, finishing the term. O. T. Bryant was next, followed by E. H. White, who taught two or three terms. Prof. H. C. Zorns was next employed for two terms and was followed by Prof. H. P. Caveness who was Superintendent for seven years and who was instrumental in securing affiliation for our school. G. H. Nelson followed Mr. Caveness and then M. L. H. Baze, our present Superintendent.

In 1917 by special act of the legislature, the Tahoka Independent School District was created and in 1920 by another special act, the district was enlarged to its present bounds.

A bond issue of \$30,000 was voted, the South Ward building and the present auditorium of the old school building were erected. The school was growing so fast in scholastics, as the county was settling fast, that another bond issue of \$100,000 was necessary and was voted in 1926. The trustees have just completed the

THIS DISTRICT CREATED IN '17

Growth Has Been Rapid; Valuations \$1,244,866 In 1917; \$3,055,918 In 1926

The Tahoka Independent School District was created by a special act of the legislature approved March 28, 1917, which became effective 90 days after adjournment. Prior to that time it was common school district No. 2, comprising 90 sections of land. Another special law, enacted in June, 1920, enlarged the district, moving the western boundary line two miles further west and the southern boundary line one mile further south. It also reached out and took in four additional sections at the southeast corner of the district. The independent district therefore comprises 124 sections.

The new high school building at the western limits of the city of Tahoka is situated just five miles west of the eastern boundary line of the district, seven miles east of the western boundary line, a little more than five miles north of the southern line and a little less than five miles south of the northern line. In other words, the district extends five miles north and five miles south of highway No. 84 and five miles east and seven miles west of highway No. 9, except where the latter drops back east to pass through the town.

Only a small portion of the district lying west of highway No. 9 has been converted into farming lands, however, and nearly all the population outside of Tahoka is to be found east of this highway.

When the independent district was created in 1917, the assessed property of the district, according to the tax records, was \$1,244,866. The valuation for 1926 was \$3,055,918. The valuation for the present year is now being compiled. In 1918, following the creation of the new district, the valuations shrunk to \$1,001,945, due chiefly to the severe drought which visited this section. We fall to find the records for the years 1919 and 1922, but the valuations for the other years since 1917 are given below, just to show how the valuations have increased:

1917	\$1,244,866
1918	1,001,945
1920	2,021,993
1921	2,124,313
1923	2,552,915
1924	2,509,076
1925	2,655,883
1926	3,055,918

Size of Building

The new school building is three stories high, with the exception of the auditorium, which is two stories in height. The ground dimensions of the main part of the building is 97 feet by 60 feet, exclusive of auditorium and entrance abutments. The auditorium section extends 59 feet and 6 inches further west, making the building 119 feet and 6 inches in depth. The auditorium is 47 feet wide, outside measurements.

Texas stands second among the states in foreign exports, shipping Texas products to foreign lands to the value of \$648,991,594 as against shipments from the state of New York of \$761,249,789.

new High School building with this issue and it is a building second to none in west Texas, and a building all Tahokaites ought to be proud of.

Thus we have seen the two teacher school of 1903 grow from a miserable shanty with few students, to a 600-student school, with 20 teachers and an investment of \$145,000 in buildings and equipment, of which all Lynn county citizens are proud.

Tahoka Girls' Basketball team 1926-27

IS EQUIPPED FOR SCIENCE

New Building Provides For Physics, Bio'ogy, Chemistry, Domestic Science And Agriculture

In present day high schools, practically every student wishes or is possibly required to study some one of the sciences. In the past the Tahoka Public Schools have placed some emphasis on sciences, but with the addition of more room and much better equipment for the teaching of these essential subjects, even more emphasis will be placed on science in the future than has been in the past.

In the southeast corner of the second floor is a room built primarily for a commercial room where some day typewriting, bookkeeping, business arithmetic and kindred subjects will be taught. Since these subjects are not now offered in the Tahoka High School, this room will be used temporarily as a recitation room.

All the other science rooms are located on the third floor.

The biology laboratory is in the southeast corner of the building and is equipped with special tables for this work with various electrical and water connection for use in experimental work.

Adjoining this room on the north is the science lecture room, where recitations in the various sciences will be heard. The floor in this room is elevated and seated in order that each student seated in the room may see the instructor and the instructor's experiment with ease. This desk is equipped with electricity, water connections, etc., and may be used for the teaching of biology, chemistry, and physics.

To the north of the lecture room is the physics and chemistry laboratory, equipped with the most modern of high school laboratory equipment.

A room has also been set aside on this floor for the agriculture lecture room and much equipment for the teaching of this subject will be placed there. The old shop building which has been in use at the old school building will be moved to the High School campus and used by the agriculture teacher as in the past.

On the west end overlooking the auditorium roof are the domestic science laboratories. One room contains the foods laboratory and another the sewing laboratory. A dining room, a fitting room and two closets are also contained in this department. No new equipment has been bought for the teaching of domestic science, as the old stoves, cooking utensils, tables, sewing machine, etc., have been moved from the old building to the new one and

High School Students At Work In Sewing Laboratory

Girl Students Are Taught Modern Methods of Cooking

will be used for the present time.

With the expenditure of a little more money whenever the board feels that the district is financially able to stand it, the departments of science in the Tahoka schools can be made among the best to be found in any school on the plains. Citizens of the town should visit these various laboratories and acquaint themselves more fully with the work that will be done.

Sun Electric Co. Furnishes Fixtures

The beautiful electric fixtures in the new High School building came through the Sun Electric Company of Abilene, who are among the leading electrical contractors and furnishers in the western half of the state. This firm has only been established since 1923, but they have built up a big business in these few years. Members of the firm are W. K. Jennings, Sr., W. K. Jennings, Jr., W. G. Jennings, and H. Holly.

Among the larger jobs which this company has handled in the past few years are: Fine Arts Building of Simmons U., Country Club, City Hall Park Office Building, First Presbyterian Church, Alexander Building, and the new Hilton Hotel building of Abilene; the Coleman hotel and High School, Coleman; High School, Colorado; Lubbock State Bank, Lubbock; High School, Big Lake, and the Mc-Lemore Hotel, Albany.

Temple Company Furnishes Seats

Seats for the auditorium and the seats for the various class rooms were bought by the local board from the Texas School Equipment Company of Temple, Texas, pioneers in bolt constructed pupil's desks. All of this new equipment for the building of study build and constructed to last for many years.

This company in addition to supplying much furniture for the local High School building has installed the equipment in the following schools in this section of west Texas: Hereford, Amherst, Spring Lake, Littlefield, Levelland, Snyder and others.

Austin — great progress has been made by the schools of West Texas during the past year. The State Department of Education reports that scores of west Texas towns have been granted increased affiliation and have increased their rank. Unusual efficiency has been reported in administration and instruction in the high schools of west Texas. Remarkable increase is reported in the number of new school buildings in west Texas and the same improvement is reported in school equipment in that section.

"Hello, Brown, why, you've shaved off your beard and moustache—I really wouldn't have recognized you if it hadn't been for my umbrella.

Correspondence Work At W. T. Popular

CANYON Aug. 17—The unusual number of requests for catalogs and the heavy correspondence in the administrative offices of the West Texas State Teachers College indicate that the best year of its history is opening with the beginning of the fall session on September 22.

The added space provided by the new \$300,000 education building will be thoroughly appreciated by the large student body when it is occupied next summer.

Every day's mail brings inquiries concerning the correspondence courses to be offered during the coming year. By far the greater per cent of these come from teachers who will be in the field during the 1927-28 term. Some come from business men, housewives, and high school students who have been graduated but cannot attend college because of financial reasons.

Correspondence courses were first offered from the Teachers College during the long term of 1923-24. Five departments in the College and three in the high school division gave instruction by mail to one hundred seven students during that year.

Since that time the number of courses offered by the high school have not been added to, but the number of departments in College offering work has increased to seventeen, with a wide variety of courses in each department.

The total number of students enrolled during the three years was 710. The work has grown so much that additional assistance has become necessary.

Prof. S. H. Condon, who has been Dean of Clarendon College, will assume his duties as a member of the Teachers College faculty with the opening of the fall term. Mr. Condon will be a member of the history department and will direct the greater part of correspondence courses for that department.

Lyceum Courses
Every year a variety of Lyceum courses are offered to Panhandle schools by the West Texas State Teachers College, including musical numbers, dramatic programs, lectures, etc.

The schools have recently written the College authorities asking for programs to be given during the fall quarter in order to be sure of getting their entertainments booked.

Institute Lectures
Dr. Albert Barnett, professor of rural education at the College, has had more invitations to appear as a lecturer at institutes than he was able to accept.

President J. A. Hill will appear before the teachers institute at Tahoka on October 27 and 28 and at Borger on October 29 and 30.

San Angelo — Efforts are being made to secure a fish hatchery for Tom Green county. This county has more miles of running streams than any other county in Texas and the streams are frequented by fishermen. A hatchery is necessary to keep the streams properly supplied. Commissioner W. J. Tucker is expected here at an early date to go over the situation with officials of the San Angelo Board of City Development.

Hermleigh—A city water system is to be established here and the city council has already begun preliminary work on the system.

Renew Your Health by Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs,—once or twice a week for several weeks,—and see how Nature rewards you with health. Calotabs are the greatest of all system purifiers. Get a family package, containing full directions. Only 35 cts. At any drug store. (Adv.)

Building Is Planned By David S. Castle

The new High School building was designed and planned by David S. Castle Company, architects and engineers. This company is one of the oldest and best known architectural firms in west Texas and has a state-wide reputation for planning only buildings of the very best type.

This company has its headquarters in Abilene, where it has been located for the past fifteen years.

In the city of Abilene, David S. Castle has superintended the construction of almost every major building project since its location in that city. They have planned all the buildings at Simmons University for the past ten years, buildings which have cost in the neighborhood of \$500,000. Other buildings in the same city they have planned include: five public school buildings at \$310,000; McMurry College buildings, \$250,000; Baptist Sanitarium, \$150,000; the Alexander building and the Mimms building. Those planned for other cities include: Breckenridge courthouse, \$500,000; Colorado courthouse, \$200,000; Midland High School, \$150,000; Lamesa Sanitarium \$50,000; an dare at present super-\$50,000, and are at present super-bauer Hotel and the Thomas office building at Midland, two of the largest commercial buildings between Ft.

DIZZY SPELLS

They Would Come On This Lady And Last For Several Days.

"I have known Cardui for a long time," writes Mrs. Hattie Bourk, of Jacksonville, Fla.

"Recently, I used Cardui for bad spells which came on me . . . I would get very dizzy and would often be out of my head for a short space of time, from sheer weakness.

"Having taken Cardui before as a tonic, I began to use it regularly. I improved at once. I kept on taking it and do not know how I should have got through this time, without it. I have been feeling normal now for some months."

Cardui has helped thousands of others. It should help you.

Buy it at your druggist's.

Texas Has Many State Colleges

There has been a wonderful growth in the number of educational institutions of higher learning in Texas during the last quarter of a century and also in the number of college students.

The A. & M. College at College Station was the first institution of higher learning established by the State. It was founded in 1876. It is one of the greatest and is the largest institution of its kind in the South. Dr. T. O. Walton is the President.

The North Texas Junior Agricultural College at Arlington was established as a branch of the A. & M. in 1917 and the John Tarleton College at Stephenville, which had been operated several years as a private institution, was taken over by the state in 1917 and is being operated as a branch of the A. & M.

The University of Texas was established at Austin in 1881. It is now the largest state university in the south and one of the largest in the country. Dr. W. M. W. Splan is President but has tendered his resignation and Dr. H. Y. Benedict has been elected to succeed him.

The Medical Branch of the University is located at Galveston, established in 1891, and the College of Mines and Metallurgy, another branch of the University, established in 1914, is located at El Paso.

The first Teacher's College was the Sam Houston State Normal, established at Huntsville in 1879. H. F. Estill is the President.

Since that time seven other State

Teachers' Colleges have been established, as follows:

North Texas State Teachers' College, established at Denton in 1901; R. L. Marquis, President.

Southwest Texas State Teachers' College, established at San Marcos in 1903; C. E. Evans, President.

West Texas State Teachers' College, established at Canyon in 1909; J. A. Hill, President.

East Texas State Teachers' College, founded at Commerce as a private institution in 1888 and taken over by the State in 1917; S. H. Whitley, President.

Sul Ross State Teachers' College, established at Alpine in 1920; H. M. Morelock, President.

Stephen F. Austin State Teachers' College, established at Nacogdoches in 1923; A. W. Birdwell, President.

South Texas State Teachers' College, established at Kingsville in 1925. R. B. Cousins, President.

In 1901, the College of Industrial Arts was established at Denton. It has grown to be one of the largest, if not the largest, college for girls in the South. President, L. H. Hubbard.

In 1925, the Texas Technological College was established at Lubbock. It had the largest first-year attendance of any school in Texas and has already become one of the great educational institutions in the state. President, P. W. Horn.

The Prairie View Normal for negroes was established by the State at Prairie View in 1880. It is doing a great work for the negroes of Texas. President, W. R. Banks.

Besides these state institutions, there are a number of other great

colleges and universities in the state. The oldest of these is Baylor University, Waco, established in 1845; maintained by the Baptist Church; President, S. P. Brooks.

Southern Methodist University at Dallas was established in 1915 and rapidly took its place as one of the leading universities of the South. President, C. C. Seelman.

Texas Christian University at Fort Worth developed from a smaller school established in 1873. It is now one of the leading educational institutions of the state. President, E. M. Waits.

Rice Institute, Houston, was founded in 1912. It is a private, undenominational school, and takes high rank among the best educational institutions in the country. President, E. O. Lovett.

Texas Woman's College, Methodist, was established in Fort Worth in 1912. It is recognized as a school of high rank. President, H. E. Stout.

Baylor College, Belton, was established at Independence in 1845 and was later removed to Belton. It is the largest denominational school for girls in the South. Baptist; President, J. C. Hardy.

Southwestern University is another of the older institutions of the state, established at Clarendon in 1873. Methodist; President, J. S. Barcus.

Simmons University, Baptist, Abilene, was founded in 1891, being one of the oldest educational institutions in west Texas. President, J. D. Sandefer.

There are numerous other private and denominational schools and colleges in Texas, such as Howard Payne and Daniel Baker at Brownwood, McMurry and Abilene Christian College at Abilene, St. Edwards University at Austin, the University of Dallas, Trinity University, Waxahatchie; Austin College and Kidd-Key College at Sherman, and numerous others of equal or lower rank. The Catholics maintain a large number of secondary and elementary schools.

Besides Prairie View Normal maintained by the state, there are numerous private and denominational schools for negroes.

Texas is fast forging toward the front along educational lines.

Lefors—A large swimming, fishing and boating resort has been opened here on the M. B. Davis Ranch.

Tech Announces Football Schedule

LUBBOCK, Aug 30—Eight games all of them offering hot football competition for the local collegiates having been announced for the 1927 schedule of the Texas Tech Matadors by Coach Ewing Y. Freeland.

Beginning September 6, the 75 or more aspirants for the eleven, will be put through a strenuous training period, the first two weeks to be spent in preliminary and fundamental football tactics.

Coach Freeland will be assisted by Assistant coaches Gldy Higginbotham and Victor Payne. These three men plan to present one of the most formidable elevens ever to appear on a Texas college gridiron.

With the array of freshmen players who have signified their intentions of attending school and with the return of practically every one of the 20 lettermen, the coaches are assured of plenty of material for the team.

The Tech youngsters will face some of the strongest teams of the state, two of them being leading contenders for the Southwestern conference title. T. C. U. will meet them at Ft. Worth on October 8 and Texas A. & M. will journey out to Lubbock for a game on October 28. Sprinkled in between will be games with the leading teams of the T. I. A. A. and Texas Conference.

Below is the schedule for the season:

September 24 — Phanhanle Jr. A. & M., Goodwell, Okla., Lubbock.

October 1 — St. Edwards, Austin, at Lubbock.

October 8 — T. C. U. at Ft. Worth

October 15 — Simmons, Abilene, at Lubbock.

October 22 — Sul Ross, Alpine, at Amarillo.

October 28 — Texas A. & M., at Lubbock.

November 5 — Daniel Baker, Brownwood, at Lubbock.

November 11—A. C. C. at Abilene.

Thanksgiving — West Texas State Teachers College, Canyon, at Lubbock.

Floors Are Of Best Construction

Only the best of materials, as were used elsewhere in the building, were

used in the construction of the floors. In fact, the flooring in the Taboka High School building is among the very finest to be found anywhere in the state of Texas.

All of the corridor floors and baseboards are of the famous Terrazzo material and construction. Floors in the class rooms, offices, and the auditorium are maple with concrete base. Locker room floors and bas-

es are of solid cement. Toilet floors are of tile. The balcony floors are also of cement. Resilite flooring is used in the physics laboratory, but the other laboratories are floored with maple.

The famed cathedral at Rheims, France, terribly damaged during the war, has been restored and opened for use.

Get The Habit!
SEE SADLER!

SAY! GET THIS BOYS

Two fool jackasses, so runs the dope, were tied together with a piece of rope. Said one to the other, "you come my way, while I take a nibble from this new mown hay."

"I won't," said the other, "You come with me, for I, too, have some hay, you see." So they got nowhere, just pawed up dirt, and Oh, by golly, that rope did hurt. Then they faced about, these stubborn mules, and said, "We're acting like human fools. Let's pull together. I'll go your way, then come with me and we'll both eat hay."

Well, they ate their hay, and they liked it too, and swore to be comrades, good and true, as the sun went down they were heard to bray: "Ah, this is the end of a perfect day!"—Washington Bulletin.

Douglas Carver Recently Married

Rev. Douglas Carver, pastor of the First Baptist church of White Deer, Texas, and a former citizen of Lamesa, was married Tuesday evening in the College Height Baptist Church at Abilene to Miss Nellie Ernestine Rosser, by Rev. Ross A. Smith, pastor of the First Baptist church of Lamesa.

The groom is well known here, where his parents reside. He has been preaching for sometime at the College Height Baptist, Abilene. Several friends of the groom from Lamesa attended the function, including Owen C. Taylor, county clerk.

The newly weds expected to spend a day or two with the groom's parents here before going to White Deer which will be their home in the future.—Dawson County Journal.

The plant lice that are found on cucumbers, cantaloupes, and watermelons may be controlled by the use of "Black Leal 40." The peach tree borer can best be controlled by running a wire into the hole in which they are and killed.

Some of the Beautiful Homes

AUDITORIUM IS VERY PRETTY

Well Lighted And Designed; Will Seat 582 With Ease; Has Large Stage

One of the most attractive features of the new school building is the auditorium. The main floor of this room is entered from the first floor corridor.

The main floor measures 65 feet in length by 45 feet in width and has seats for 462 people. The balcony is 17 x 45 feet in size and seats 120 people, making a total seating capacity, without crowding, of 582 people, or about the same number that may be seated in the auditorium of the old high school building. On the main floor are three aisles which will allow plenty of room for passage in getting in and out of the room.

The three aisles lead to three double doors in the rear. The balcony has two aisles and two sets of double doors.

A very sturdy built make of seat was selected by the board to be used in the auditorium, the cost of which totaled about 2,700. There are also 36 chairs for use on the stage as needed, which would make a grand total of 618 seats.

Space has been left in the rear of the balcony for the installation of a motion picture or projection machine at some time in the future.

Though not exceedingly large, the stage is plenty big for the average performance in a town much larger than Tahoka. The front of the stage is 25 feet and 10 inches wide, the back 21 feet and 10 inches, and the depth is 21 feet and 7 inches.

Across the front of the stage are 70 foot lights in sections of 15 encased in disappearing receptacles. One-third, two third, or all, of these lights, as needed may be turned on at a time from switches in the south ante-room, where all the lights of the room may likewise be controlled. On each side of the stage is an ante-room 11 x 16 feet in size which may be used for music and expansion rooms and dressing rooms. The stage is entered through folding doors. Each ante-room has an entrance from the main auditorium and an exit to the out side with doors opening outward to comply with the requirements of the State Fire Department.

Large windows on the north and south will flood the room with light in the day time, while an elaborate set of lighting fixtures is provided for lighting the room at night and flooding the stage. The room may be brilliantly lighted, mediumly lighted, or dimly lighted, all lights being controlled from the south ante-room. Wall lamps are provided as ornaments and to produce a soft and mellow lighting effect when needed.

Though not exceedingly large, the auditorium is as large as is deemed practical by the builders and will take care of the average crowd at High School entertainments for many years to come. On special occasions, of course the room will be crowded, but it is thought that seven or eight hundred can easily gain admission to the room at such times.

Martin County To Improve Highway

The Martin County commissioners' court gave assurance last Saturday to the Dawson county commissioners that they would immediately begin the improvement of the Stanton highway from the south end of Dawson county to Stanton, thus giving a much better highway.

Of recent months Dawson county has regarded and made the Stanton highway one of the best earth roads in this section, with the result that traffic over it has become very great. The drawback has been that the Martin county officials did not connect up with the Stanton end with as equally good road, Judge Kilgore said. Now this is to be improved.—Dawson County Journal.

MANY TRUSTEES IN TEN YEARS

J. S. Wells President First Board Of Trustees Of Tahoka Independent School District

J. S. Wells, one of the pioneer settlers of Tahoka, was the president of the first Board of Trustees of the Tahoka Independent School District. That was in 1917. This board consisted of the following well known gentlemen, five of whom are still residents of Tahoka: J. S. Wells, S. N. McDaniel, A. J. Edwards, G. W. Small, I. S. Doak, Ed Meyers, and R. S. Davidson.

In 1918, Wells, McDaniel, Meyers, and Davidson retired. The new board consisted of J. E. Stokes, Pres., H. M. Larkin, Sec., J. B. Reese, J. M. Adams, I. S. Doak, G. W. Small, and A. J. Edwards.

In 1919, the board consisted of the following gentlemen: J. E. Stokes, Pres., H. M. Larkin, Sec., J. B. Reese, J. M. Adams, R. C. Wood, S. D. Sanders and G. E. Lockhart.

J. E. Stokes continued to act as president and H. M. Larkin as secretary, in 1920 and G. E. Lockhart, A. J. Edwards, R. C. Wood, S. E. Reid and J. S. Wells were the other members of the board.

In 1921, J. E. Stokes was again president, H. M. Larkin, secretary, and the other members were G. E. Lockhart, J. S. Wells, R. C. Wood, and S. E. Reid.

In 1922 the board consisted of G. E. Lockhart, S. E. Reid, W. M. Lee, N. M. Bray, R. C. Wood, T. J. Bovell, F. K. Popplewell for part of the year and W. S. Anglin for the remainder.

R. C. Wood was elected president of the new board in 1923 and W. S. Anglin secretary. The other members were W. M. Lee, H. E. Baldridge, G. E. Lockhart, T. J. Bovell, and N. M. Bray.

In 1924: R. C. Wood, H. E. Baldridge, J. C. Welch, W. M. Lee, Dr. C. B. Townes, W. L. Tunnell, G. E. Lockhart.

In 1925: E. I. Hill, Pres., C. A. Thomas, W. C. Wells, S. W. Sanford, Dr. C. B. Townes, J. C. Welch, and John Russell appointed to fill out the unexpired term of W. L. Tunnell, resigned.

In 1926: E. I. Hill, Pres., C. A.

Thomas, W. C. Wells, S. W. Sanford, Dr. C. B. Townes, J. W. Russell, W. G. Briley elected and resigned, S. D. Sanders appointed to fill unexpired term.

In 1927: E. I. Hill, Pres., C. A. Thomas, W. C. Wells, S. W. Sanford, Dr. C. B. Townes, J. W. Russell, and S. D. Sanders.

Prof. and Mrs. C. M. Roberson and family returned Thursday from their vacation visit to Grapeland and Crockett, Houston county, where they spent the summer with relatives.

Prof. and Mrs. Roberson taught the Midway school last year and will teach the same school this year.

W. T. Library Gets Historic Volumes

Canyon August 17—The library of the West Texas State Teachers College has recently received some volumes, several of which date back to 1811 and 1813. These were given by Dr. J. H. McNeil of Trenton, New Jersey, in the name of his sister, Miss Rosa McNeil.

Miss McNeil, whose death occurred last week, has been a resident of Canyon since 1909 and leaves many friends.

SCHOOLS HAVE BIG FACULTY

All Teachers Are Well Educated; M. L. H. Baze Heads System For Second Term

Supt. M. L. H. Baze is entering upon his second year as superintendent of the Tahoka public schools. He holds an A. B. degree from Abilene Christian College and the University of Texas. He has had extensive experience both as a teacher and as superintendent, having served four years as superintendent at Roscoe before coming to Tahoka. He has gained the reputation of being one of the best school men in all this section. Besides his duties as superintendent he will teach social science classes this year.

Prof. Nat Williams likewise is entering his second year as principal of the Tahoka High School. He holds an A. B. degree from Simmons University, Abilene, and successfully taught mathematics in the Abilene High Schools before coming to Tahoka. Mr. Williams proved himself last year to be highly efficient both as principal and as a teacher. He teaches mathematics.

Prof. O. G. Lewis will again be coach and science teacher. He will also do some work in mathematics. He has been doing some special work in the West Texas State Teachers' College at Canyon this summer, working toward his degree and the better preparing for his work during the coming year. This will be Mr. Lewis' second year with the Tahoka schools.

Prof. Taylor White is the new teacher of vocational agriculture. He holds a B. S. degree from the A. & M. College and has done post graduate work in this institution and in the Peabody Teachers' College at Nashville. He is recognized as one of the best vocational agriculture teachers in the state. He has had much experience as a teacher, having been at Muleshoe four years before coming to Tahoka, and having taught previously at other places.

Miss Lois Bliefuss will be the Home Economics teacher during the coming year. She holds a B. S. de-

Most of These Football Men will be Back to Fight For T. H. S. This Year.

gree from the C. I. A. at Denton and the University of Texas. She has also done special work in this subject, and has successfully taught for several years. She comes highly recommended. Her home is at Mission.

Miss Irene Armes of Slaton will be the head of the English department. She holds an A. B. degree from Sim-

mons University, Abilene, and has done graduate work in the University of California and the University of Texas. She likewise has had several years successful experience as a teacher.

Miss Margaret Worthy of Roscoe will teach Spanish and English. She is an A. B. graduate of the University of Texas and has been doing special work in Spanish in that institution this summer. She has had little experience as a teacher but comes highly recommended by Supt. Baze, to whom she is well known, having been a pupil in the Roscoe school a year or more while he was superintendent there. She has also been well known from childhood by the president of the board of trustees and other Tahoka citizens, who commended her most highly as a young lady.

Mrs. Lenora Tunnell, well and favorably known to all patrons and pupils and others, will again be at the head of the History department. Her success in the past attests the character of work that may be expected of her during the coming year.

Mrs. Story, who is also well known to our people, having taught here the past two years, will have charge of the seventh grade. She has proven her efficiency and worth and no words of commendation are necessary.

All Tahoka is delighted that Mrs. J. E. Jackson, better known as Miss Juanita Jackson, is to teach music in the High School. She will have a room at the high school building for her work. A Baby Grand piano has been purchased and placed on the

faculty of the Tahoka high school for the ensuing year. Seven of these ten teachers hold degrees, and while the other three are not degree teachers, yet they are well qualified for the work they are doing, and we believe that the faculty of the high school is the best in point of scholarship Tahoka has ever had.

The above members constitute the

ies of the Lake Cisco Bathing Beach said to be the largest in the world. Visitors also inspected the new bridge built over Williamson Dam, and the new State Fish Hatchery just completed here.

Cooking Chats with 6 Famous Cooks

(Courtesy of the Domestic Science Department, Perfection Stove Company)

WELL-BALANCED MEAT-LESS MENUS

(Editor's Note: Paste this article in your cook book. It's one of the series by six famous cooks running exclusively in this paper.)

It's really a good thing to leave meat out of our diet once in a while. Cheese and eggs are very good substitutes for meats, and can be used in many enticing ways.

A very attractive menu is given to-day by Miss Margaret Allen Hall, nutrition specialist at the Battle Creek College of Home Economics. This entire meal can be cooked at the same time in the oven, too.

A Good Menu
Macaroni and cheese
Baked onions
Stuffed tomatoes
Strawberry shortcake

You may serve any beverage with this meal. Perhaps the family would relish iced tea, served with slices of lemon, or lemonade.

Macaroni and Cheese
1 1/2 cups macaroni
1 1/2 cups grated cheese
1 cup buttered crumbs
2 tablespoons butter
2 cups milk
1 teaspoon salt

Cook the macaroni in boiling salted water, until tender. Drain and pour over it a dash of cold water. Make a white sauce of the last four ingredients and mix with the macaroni. Stir the grated cheese into the mixture. Turn into a baking dish, cover with buttered crumbs and bake in a moderate oven until nicely browned.

Stuffed Tomatoes
Stuffed tomatoes are a real addition to almost any menu.
4 large tomatoes
1 cup stale bread crumbs
2 tablespoons butter
1 teaspoon salt
2 tablespoons finely chopped onions

Cut off the blossom end of firm, ripe tomatoes and remove the inside portion. Prepare dressing by placing the butter and onion in a saucepan and cooking until nicely browned. Add salt and bread

Fill tomato shells with the dressing. Place in a buttered pan and bake in a moderate oven about one-half hour.

Strawberry Shortcake
This favorite American dessert, strawberry shortcake, is always a treat.

2 cups flour
4 teaspoons baking powder
4 tablespoons fat
2 tablespoons sugar
1/2 teaspoon salt
1/2 cup milk

Sift dry ingredients. Cut fat in with two knives, add milk slowly. Turn mixture into deep cake pan and bake in hot oven twenty-five minutes. When baked, remove from oven, split, spread with butter, and place sweetened, crushed berries between layers and on top of shortcake.

A huge super-burner which cooks as fast as gas is one of the most recent improvements found on one of the newest and most modern oil stoves.

Also Meatless
Another good meatless meal has corn omelet for its main dish. These recipes are also Miss Hall's.

Corn omelet
Spinach a la Bechamel
Broiled mushrooms
Cream puffs
Beverage

In planning several menus you can save using your oven two days in a row if you make the cream puff shells when you cook Menu No. 1. Do not fill the puffs, however, until ready to serve. Fill with whipped cream, slightly sweetened, or a thick custard.

Cream Puff Shells
1 cup hot water
1/2 cup butter
1/2 cup white flour
4 eggs
1/2 teaspoon salt

Heat the butter and water to boiling. Add the flour, mixing thoroughly, and cook for a few minutes, stirring constantly. Set aside to cool. When cool add the unbeaten eggs, one at a time, and mix each thoroughly before another is added. Drop from a tablespoon upon a buttered baking sheet and bake in a moderate oven twenty-five minutes or until light when lifted from the pan.

Corn Omelet
4 eggs
1/2 cup drained stewed corn
4 tablespoons bread crumbs
4 tablespoons milk
1 teaspoon salt

Separate eggs, beat the yolks until thick. Add milk, drained corn, one-half of salt, bread crumbs. Add remainder of salt to whites of eggs and beat until stiff. Fold stiffly beaten egg whites into first mixture. Heat frying pan, grease well, pour mixture into pan and cook slowly over low flame until set. Insert spatula or knife around edges of omelet to determine when mixture is sufficiently set. Place omelet in oven for a few minutes to brown on top.

A Spinach Change
After you have cooked spinach as usual, boiled for 25 minutes in the least possible water, serve it with Bechamel sauce. Put three tablespoons butter in hot omelet pan; when melted add chopped spinach. Cook three minutes. Sprinkle with 2 tablespoons flour, stir thoroughly and add 1/2 cup milk. Cook five minutes.

Teach your son, it is the only remedy the world has ever known.

AGGIE WORK IS AGAIN OFFERED

Many Phases Of Practical Farm Work Is In Curricula Of Agriculture Dept.

BY TAYLOR WHITE
(Vocational Agriculture Teacher)

The Tahoka High School will have a department of Vocational Agriculture this year. This is not altogether a new type of work for the school, the work having been taught here previously. However, the work will be reorganized somewhat along different lines from what has been offered in the past.

The aim of this course shall be to train young men who are now engaged in farming or who anticipate engaging in farming as a vocation in life, to be efficient and practical in carrying out the various enterprises conducted on the farm. The subject of agriculture is so broad and covers so many phases of work that it will be impossible to master every phase. However, work will be done in Agronomy, Horticulture, Animal

Husbandry, Poultry Husbandry, Farm Mechanics and Agricultural Economics.

The work in Agronomy will deal with the types and varieties of grain, cotton and hay. Intensive work will be given in type and varietal study. Adaptability and cultural methods will be emphasized.

In the field of Horticulture, such subjects as pruning, budding, grafting, spraying for insects and fungus growth will be emphasized. The care and importance of the home orchard will be stressed.

In the work in Animal Husbandry, much emphasis will be placed upon selection, feeding and breeding livestock. The dairy husbandry will be given much study and encouragement. In the work in Poultry Husbandry, feeding, brooding and marketing poultry products will be emphasized. Culling and breeding will also receive attention.

We expect to make much of our work in Farm Mechanics. We will have a fairly well equipped shop on the ground where the boys will be taught some of the most practical mechanical operations, such as rafter cutting, soldering, concrete work,

general woodwork, how to handle and care for tools. Work will be done in Agricultural Engineering, such as laying out terraces, constructing plans for water systems in the home, etc.

The work in Agricultural Economics will deal with the problems of marketing agricultural products, factors that affect prices, production cost and utilization of capital.

We hope to have the whole-hearted cooperation of the parents and citizens in carrying on this program. We are in the center of one of the greatest agricultural areas in the United States. By applying sound business principles coupled with scientific knowledge of production to our farm operations, there is no reason why we should not become one of the most prosperous and contented agricultural sections in the country.

This work will also be carried into adjoining communities in the form of evening classes and part time classes among adult farmers.

Thirty-five blocks of paving at a cost of \$300,000 has just been completed in Slaton.

LUBBOCK SANITARIUM NOTES

(From Lubbock Sanitarium News)
Mrs. Chester Connolly of Tahoka returned home Wednesday, after having been in the sanitarium a few days for medical treatment.

Reid Townes, the fifteen year old son of Dr. Townes of Tahoka, had his tonsils removed Wednesday.

Earl McManis, a fifteen year old boy from Tahoka, had his tonsils removed Monday.

Mr. O. Williams of Tahoka was operated on for appendicitis Monday and is doing well.

Dalhart — A. T. Holcomb, secretary of the Dalhart Chamber of Commerce has requested the West Texas Chamber of Commerce to create a new district in the north plains section. According to Mr. Holcomb, the present north plains district is too large to permit the entire section to have representation at the district convention. Mr. Wade has the matter under advisement and will announce his decision at an early date.

CITATION BY PUBLICATION

STATE OF TEXAS
To the Sheriff or any Constable of Lynn County, Greeting:

You are hereby commanded to summon G. W. Small, Administrator, of the Estate of Ferdurand Becker, Deceased, and the heirs of Ferdurand Becker Deceased, whose names are unknown, to appear at the next regular term of the District Court of Lynn County, Texas, to be held at the Courthouse thereof, in the City of Tahoka on the 3rd Monday in September, A. D. 1927, being the 19th day of September A. D. 1927, then and there to answer a petition filed in said Court on the 18th day of August A. D. 1927 in cause Numbered 692 wherein B. H. Robinson is Plaintiff and G. W. Small Administrator of the estate of Ferdurand Becker Deceased and the unknown heirs of Ferdurand Becker are defendants, the cause of action being alleged as follows: (See certified copy of Plaintiff's original petition accompanying this citation and made a part thereof.

B. H. Robinson vs. No. 692, G. W. Small, Administrator et al. In the District Court of Lynn County, Texas, September Term, 1927.

To the Honorable Judge of said Court:

Now, comes B. H. Robinson, hereinafter styled plaintiff, complaining of G. W. Small, administrator of the Estate of Ferdurand Becker, deceased and the unknown heirs of Ferdurand Becker, deceased, and for cause of action, plaintiff would respectfully represent to the court:

1. That the plaintiff resides in Lynn County, Texas, that the defendant, G. W. Small, administrator of the estate of Ferdurand Becker, deceased, resides in Lynn County, Texas, that said Ferdurand Becker died on or about the 23rd day of December, 1922, and that thereafter on or about the 26th day of December, 1922 G. W. Small was appointed by the county court of Lynn County, Texas, as administrator of the estate of said Ferdurand Becker, deceased, and duly qualified as such and as such administrator the said G. W. Small has never been discharged and is still the qualified acting administrator of the estate of said Ferdurand Becker, deceased, and that the names of the heirs of Ferdurand Becker, deceased are unknown to the plaintiff and that the place of residence of said heirs of said Ferdurand Becker, deceased, are unknown to this plaintiff.

2. That on or about the 1st day of January 1927, the plaintiff was lawfully seized and possessed of the following described land and premises, situated in Lynn County, Texas, holding and claiming the same in fee simple, to wit: Being 200 acres of land out of the S. W. corner of Survey No. 14, Abstract No. 644, Block No. 7, Certificate No. 624, of the E. L. & R. R. R. R. Company, and being described by metes and bounds as follows, to wit:

Beginning at the S. W. corner of said section No. 14, for the S. W. corner of this tract;
Thence north on the west line of said survey, 1129 Vrs to a point for the N. W. corner of this tract;
Thence east parallel with the

CONSTIPATION
And Attendant Ills Relieved By Taking Black-Draught.
The Rev. Granville Edwards, who lives at Schoolfield, near Danville, Va., was troubled for a long time with constipation and its attendant ill, which kept him from feeling fit. He writes: "Lately I then, which was about twenty years ago, heard about Black-Draught and began to take it. After taking Black-Draught for a little while I noticed that my trouble began to disappear. The poisons, which had accumulated in the body, as a result of constipation, were eliminated, and I felt a hundred per cent better. The dizzy feeling, which I had felt almost every morning before breakfast, was gone."
"Black-Draught is a household article with us. We always keep it on hand."
Try Theodore's Black-Draught for constipation. Sold everywhere. 25c.
Theodore's BLACK-DRAUGHT
Purely Vegetable

Tahoka High School Basketball Team Of Last Year

All of these men but two will be back in school this year, Coach O. G. Lewis included. The school hopes to have a winning team

void so far as it affects the title to said 200 acres of land described in paragraph No. 2 of this petition, that the cloud cast upon plaintiff's title to said 200 acres by reason of said deed be removed, and that a writ of restitution issue, and for his damages, and all costs of suit, and for all such other and further relief special and general, in law and in equity, that plaintiff may be entitled to and in duty bound plaintiff will ever pray.

B. P. MADDOX, Atty, for plaintiff.

THE STATE OF TEXAS
COUNTY OF LYNN:

I, W. E. Smith, Clerk District Court, Lynn County, Texas, do hereby certify that the above and foregoing is a true and correct copy of the Plaintiff's original petition in cause No. 692, styled B. H. Robinson, vs. G. W. Small Administrator, et al as the same appears on file in my office in Lynn County, Texas. Given under my hand and seal of District Court, Lynn County, Texas, this the 18th day of August, A. D. 1927.

[Seal]
W. E. SMITH,
Clerk District Court, Lynn County, Texas.

You are further commanded to serve this citation by publishing the same once each week for four consecutive weeks previous to the return day thereof in a newspaper published in your county, but if no newspaper is published in said county, then in the nearest county where a newspaper is published.

Herein fail not but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same. Witness W. E. Smith, Clerk of the District Court of Lynn County, Texas. Given under my hand and seal of said Court in the City of Tahoka, this the

18th day of August, A. D. 1927. [Seal]

W. E. SMITH, Clerk of the District Court, Lynn County, Texas.
I, J. W. Simpson, Sheriff of Lynn County, Texas, do hereby certify that the above and foregoing citation is a true and correct copy of the original citation now in my hands. This the 18th day of August, A. D. 1927.
J. W. SIMPSON, Sheriff Lynn County, Texas

Weinbert-Cotton in this community is reported as good. There is but little complaint of worms, this coming from the sandy land district. A good rain is needed. Many farmers here are spending more time on poultry, turkeys, hogs and better type milk cows.

CO. SCHOOLS ARE MODERN

Twenty-Four School Districts in Lynn County Have Twenty-eight Buildings

Twenty-four years ago this coming fall Lynn county's first school, conducted in a one-room shack, was opened. This fall twenty-four districts in Lynn county will conduct schools in twenty eight buildings, nineteen of which are brick. The first school in 1903 opened with one teacher. Today there are a total of 105 teachers giving instruction in the county in addition to a county superintendent who is doing much to improve the work being done as well as the physical plants.

Through the efforts of County Superintendent H. P. Caveness and through the cooperation of the teachers of both city and country schools much better work has been done during the year that has just closed than during any other previous year. The work of all the schools is being stand-

ardized. A county educational association has been formed, and monthly meetings held during the school term at which the problems, both large and small, of the county educational system are discussed. Noted educators of the state are invited to these meetings.

Lynn county has far better physical educational equipment than many West Texas counties, and in fact, stands near the top in this matter, without a doubt. With this equipment and with the improvements that are sure to come within the coming few years, as a basis on which to work, the school authorities of the county have begun a program to make the school system of this county the best on the Plains of Texas.

Tahoka has just completed a new \$100,000 high school building of the most modern type, equipped for the teaching of chemistry, physics, home economics, biology, and commercial subjects. The old high school becomes a ward school. South Ward, a two room building, is equipped with a teacherage. There is also a small negro school. Twenty teachers are employed in the district, in which 620 scholastics were enumerated recently.

The total value of the physical plant at Tahoka is placed at near the \$200,000 mark.

O'Donnell has two brick buildings, one of which was built last fall, valued at \$125,000. She has 16 teachers and 495 scholastics.

Wilson has a \$50,000 brick building 10 teachers, and 416 scholastics.

Wells has a \$25,000 brick building with 6 rooms and an auditorium of 325 capacity, built in 1925; a teacherage, 5 teachers, and 149 scholastics. Draw also has a \$25,000 building, 6 rooms, 300 capacity auditorium, electric lights, teacherage, 5 teachers and 135 scholastics.

New Home—\$20,000 building, 6 rooms, 300 capacity auditorium, electric light, teacherage, 5 teachers, and 173 scholastics.

Dixie—\$20,000 building, 4 rooms, 325 capacity auditorium, \$1400 teacherage, 4 teachers, and 120 scholastics.

T-Bar—\$4,000 brick building, 2 teachers, and 80 scholastics.

Lakeview—\$5,000 brick, 3 rooms, teacherage, 3 teachers and 87 scholastics.

Morgan—\$6,000 brick, 3 rooms, teacherage, 3 teachers, and 121

scholastics. Joe Bailey—\$6,500 brick, 4 rooms, 2 teachers, and 78 scholastics. Edith—\$4,000 brick, 2 rooms, teacherage, 2 teachers, and 89 scholastics.

Three Lakes—\$7,000 brick, 3 rooms teacherage, 2 teachers, and 43 scholastics.

Grassland—4 room brick, 4 teachers, teacherage and 115 scholastics.

Joe Stokes—4 room brick, 3 teachers, teacherage and 97 scholastics. Midway—3 room brick, 2 teachers, teacherage, and 73 scholastics.

Redwine—3 room building, teacherage, 3 teachers and 106 scholastics.

Among the better class frame buildings in the county are the following:

Pride—\$3,000 frame, 2 rooms, 2 teachers, and 69 scholastics.

Magnolia—\$2,000 frame, 2 rooms, 2 teachers, teacherage and 86 scholastics.

New Lynn—\$2,500 frame, 4 rooms, 4 teachers, teacherage, and 148 scholastics.

Other schools having frame buildings are as follows: West Point, Gordon, Petty and Newmoore.

FACTS ABOUT OIL INDUSTRY

The oil industry today represents a total of \$11,000,000,000 invested capital.

It furnishes employment to about 1,500,000 people.

It is owned by 1,500,000 stock holders, bond holders, and royalty owners.

Its products furnish to American railroads more than one-sixth of all tonnage of manufactured articles which they transport.

Of the 800,000,000 horsepower of mechanical power used in our country, more than half is produced from petroleum.

More than 75 per cent of the entire petroleum industry of the world is in the United States.

In addition to furnishing fuel to over 24,000,000 vehicles, this industry makes a larger contribution to the nation's annual export of man-

ufactured products than any other single industry, thereby contributing more than any other group of manufactures to maintain the country's trade balance.

An industry which performs such services, which thus distributes to the public the benefits of large production, high efficiency and improved methods and which occupies so large a place in the country's economy, is entitled to be understood by the public and to receive fair treatment at a time when it faces a peculiarly difficult complexity of internal problems.—Industrial News.

Brady—The City Council of this city has provided a market square adjacent to the business section which is to be used by farmers and producers to market their products in this city. The market plaza is to be free to all who grow or manufacture the products which they sell but is to be closed to others. An ordinance has been passed prohibiting the peddling or marketing of products on the streets of the city. The market plaza is to be provided with sanitary facilities, and will have a competent care taker to enforce the rules of the city ordinance.

NOTICE
I shall appreciate it if those wishing to study either piano or voice would see me this week so that we may be able to begin work Monday, September 5th. Prices \$6 per month.
JUANITA JACKSON

An Internal Antiseptic for all of the Organs of Elimination and for the quick relief of High Blood Pressure from whatever cause, and especially beneficial in disorders of the Stomach, Liver and Bowels, such as acute, chronic and Nervous indigestion, acid stomach, gas formation, biliousness, torpid liver and constipation.
