

HIGHWAY MEET AT BIG SPRING

Directors Discuss Improvement Of Highway No. 9; Plan Road Educational Program

The writer and Mayor Wilder of O'Donnell attended the meeting of the Highway Association of Highway No. 9 held at Big Spring on Wednesday of this week. I feel that it is the duty of the directors from this county to keep the people informed relative to the progress being made in this association. I am therefore giving a full account of the proceedings of the meeting.

More Units Of Affiliation Sought

More credits of affiliation from the State Department of Education and admittance to the Southern Association of Colleges and Secondary Schools is the mark set by the Tahoka High School faculty.

MUSIC CLUBS ENROLL MANY

Boys Glee Club and Girls Choral Club Among Largest In State; Have 111 Members

Tahoka probably holds a record in number of students enrolled in the Glee and Choral Clubs of the High School. The two organizations at the Tahoka High School have a combined membership of 111 students with a school enrollment of less than 200.

Mrs. Juanita Jackson, teacher of piano in the High School, is director of the two clubs, and Miss Cleone Wells, a student, is pianist.

The first time that work of this kind had been done in the High School was last year when Mrs. Jackson perfected these organizations. The two clubs then had only 42 members.

Wants Material For Lynn County Exhibit

Farmers of the county are urged to bring in the best of their products for show at the County Club Fair next Friday, September 23, and in order that a creditable exhibit may thereby be secured to be taken to the Panhandle-South Plains Fair at Lubbock September 27.

Prof. Taylor White, who will arrange the Lubbock exhibit asks that the following articles, especially, be brought in in the quantity designated after the article: grain sorghums, 10 head samples; cotton, 20 open boll samples; peanuts and cowpeas, 2 gal. and 2 vine samples; Irish potatoes, 1 peck; sweet potatoes, 1 peck; onions, 12; turnips, 12; beets, 6; carrots, 12; cabbage, 3; string beans, gal.; squash, 3; cashaw, 1; pumpkin, 1; watermelon, 1; canteloupe, 3; bell pepper, 6; and cucumber, 3.

Cotton Is Coming In At Draw

Three bales of cotton had been ginned at Draw up until Monday at noon, according to A. R. Hensley, public weigher of the yard at that place. The first bale was brought in by H. Howell Thursday of last week.

Mr. Hensley states that cotton in that section of the county is looking fine and is progressing as well as could be expected. A few more days, he says, and cotton will be rolling in at a fairly rapid rate. Picking was started this week in a number of fields.

(Continued on last page)

CLEANER MADE FROM SILICA

Dallas Company Will Begin Operation Of Mine Here In Short Time

The first products from Lynn county's silica beds were on display Saturday. The writer of this story stepped out of the office for a few minutes on that day, and when he returned, he found the door handles shining brightly. J. B. Nance cleaned them perfectly with a sample of the Shyne-Eze cleaner manufactured by the Shyne-Eze Products Company of Dallas and made from silica taken from the Nance farm six miles south of town which was recently leased for mining purposes.

Development of the beds which are said to contain millions of tons of silica in the very purest of form is expected to start within the next 60 days. Although nothing definite has been made public, it is expected that a switch line will be run to the mine site from the Santa Fe road or possibly a factory built on the land. At any rate, the mining of the product will doubtless be a big thing for Tahoka.

The silica will be used principally for the manufacture of a cleaning compound, and, since the silica on the Nance farm is said to be as nearly perfect as any to be found anywhere in the United States, little cleaning of the material will be necessary. The silica here is already in a pulverized state and will not have to be crushed as usually necessary at silica mines.

The silica is packed in glycerine and oil of almonds, and contains no lye or acids, thus making it absolutely harmless to the skin. The cleaned has a hundred uses. According to the manufacturers, it may be used for cleaning hardwood floors before finishing them, office furniture, stoves, linoleum, oil cloth, painted walls, soda fountains, sinks and bath tubs, porcelain tiling, statuary and marble, Vitrolite, machinery, iron, brass, copper, nickel plate, aluminum ware, pots, pans, kettles, windows, glassware, chinaware, crockery, silverware, earthenware, and tarnish from all metals.

Wednesday's Showers Total .95 Inches

Tahoka received .95 inches of rainfall Wednesday afternoon in two showers, each downfall amounting to approximately one-half inch.

The rain was light over practically all the eastern and southeastern part of the county, according to reports, however nearly all the remaining part received rain varying from 1 to 2 inches. Heavy rains are reported over all the western part, and as far as Woodrow on the Lubbock road. Very little rain was received south of here Wednesday afternoon, but a heavy shower fell during the night as far as 15 miles south of O'Donnell.

THIRTY-TWO BALES HAVE BEEN WEIGHED HERE

Thirty-two bales of 1927 cotton had been weighed at the local cotton yard up until noon today. Cotton is beginning to come in more rapidly, but the season will not be on in full blast until the late cotton opens up, which is expected to be at least two weeks.

Co. Sheriff's Department Captures Still In Barn Southeast Of Tahoka

A 25-gallon still and several mash barrels were taken by Sheriff J. W. Simpson and Deputies W. M. Lee, Dee Sanders and Mel Finch in a raid at the Buck Brewer place several miles southeast of Tahoka last Saturday afternoon.

The still had apparently not been in use recently and was found covered up with cotton seed in the barn. In another outhouse several mash barrels were found buried in the ground.

PROSPECTS FOR FOOTBALL GOOD

Twenty Men Out For Team; Hard Schedule Is Announced By Coach Yewis

With the first game of the 1927 football season only a few days off, the Tahoka High School Bulldogs are going through strenuous workouts to get in shape for a hard schedule of games. Eighteen or twenty men are training daily under Coach O. G. Lewis and M. L. H. Baze in preparation for the game with Amherst at that town Friday, Sept. 23.

The following Thursday, Sept. 23, the Bulldogs will meet the fast team of Littlefield at the Panhandle-South Plains Fair at Lubbock. This is expected to be one of the best games of the season as both teams will likely be very evenly matched.

Coach Lewis has ten old letter men to work with this year, including Clarence Barnes, Harlan Cook, Floyd Thompson, Jesse Roberson, E. S. Evns, Edgar Edwards, Liff Taylor, and Aubrey Redwine. Others who are looking good are Marvin Munn, letter man in 1925, Ellis McPhaul, Bill Speight, Harold Edwards, Frank Sargeant, Frank Fenton, and several others.

Lewis states that prospects for a good team are excellent. The boys are getting the spirit of the game and showing much interest.

The following is the schedule for the football season as it now stands: September 23—Amherst at Amherst. September 28—Littlefield at Lubbock (South Plains Fair). October 7—Lamesa at Lamesa.

PREACHER HAS NEW BOSS Rev. R. T. Breedlove and wife are the proud parents of a new daughter, born Tuesday at 8:55 p. m. The little lady weighed five pounds, has been named Irma Tom, and is reported by the preacher to have very strong lungs.

Much Interest In Club Fair

Much interest is being shown among the people over the county in the Club Fair to be held in Tahoka Friday and Saturday, September 23 and 24.

Boys and girls and members of the Women's clubs are preparing many articles for exhibition, and prospects are that the exhibits will be excellent. The primary purpose of the fair is to display products raised in Lynn county and articles made by club members in order that the people may better know the work that is being done by the clubs, to advertise Lynn county to Lynn county people and to develop more interest in club work.

Mr. and Mrs. Martin Duval of Burkburnett left Tuesday for their home after a visit with Mr. Duval's parents, Mr. and Mrs. K. A. Ferguson of the Central community. Mr. Duval was formerly connected with the Cicero Smith Lumber Company at this place.

Highways 9 and 84 Will Be Improved

ROADS TO BE GRADED AGAIN

Both Will Be Made To Meet All Requirements Of State Highway Standards

Both Highways No. 9 and 84 will soon be completed and put in first class shape to meet all of the requirements of the State Highway Department," said J. B. Giles, Lynn county section foreman, in an interview with a News man Tuesday night.

BAPTIST ASS'N. IS IN SESSION

Annual Meeting Draws Large Crowd; Texas Evangelists Appear On The Program

With 200 visitors in attendance, the Brownfield Baptist Association has been in session for the past three days, opening Tuesday morning and closing today. Not only has there been excellent attendance at the meetings but excellent addresses and fine reports have been made at all sessions. Lunch has been served the visitors each day at the Church.

The annual Associational W. M. U. meeting was held Tuesday, 128 delegates registering from churches in this association and 12 registering from churches in other associations.

Rev. S. F. Baucum, evangelist of the West Texas Baptist Hospital, Abilene, and Evangelist W. C. Ashford, Simmons University, Abilene, took prominent parts on the program and made excellent addresses.

A large part of the day was taken up in reports from the various churches in the Association on such subjects as finance, missions, and education, and reports of this nature

Zone 6 W. M. S. To Meet Here

Ladies representing the Methodist churches of Lynn and Dawson counties will gather in Tahoka Thursday, Sept. 29th, for the annual meeting of the Zone Six Women's Missionary Society. Approximately 100 visitors are expected to be present at the meeting according to Mrs. R. W. Fenton.

The following is the program: Song—All Hail the Power of Jesus Name. Invocation—Mrs. J. W. Watson, Lamesa. Devotional—Mrs. S. T. Sands, Tahoka. Special Music—Mrs. W. E. Sudarth, Tahoka. Welcome—Mrs. G. M. Stewart, Tahoka. Response—Mrs. Harvey Everett, O'Donnell. Song—Jesus Calls Us. Message to Zone—Mrs. W. P. Avriett, Lamesa. Greetings from District President

Lubbock Boosters Coming Friday

A caravan of Lubbock business men and other boosters are scheduled to visit Tahoka tomorrow to advertise the Panhandle South Plains Fair to be held in that city September 27 to October 1st, inclusive.

This will be one of a series of three trips being made by the Lubbock boosters. One was made Tuesday and another will be made next Tuesday.

ROADS TO BE GRADED AGAIN

Both Will Be Made To Meet All Requirements Of State Highway Standards

Both Highways No. 9 and 84 will soon be completed and put in first class shape to meet all of the requirements of the State Highway Department," said J. B. Giles, Lynn county section foreman, in an interview with a News man Tuesday night.

Both Highways No. 9 and 84 will soon be completed and put in first class shape to meet all of the requirements of the State Highway Department," said J. B. Giles, Lynn county section foreman, in an interview with a News man Tuesday night.

The work is going forward under the direction of Divisional Engineer Geo. A. Field of Lubbock. Much time will be required, Mr. Giles says, to put up a first class road all the way to Tahoka, but it is not expected to be long before the road from O'Donnell to Lubbock will be in first class shape.

The dispute of the route through O'Donnell has been settled, according to last week's O'Donnell Index. A better and safer crossing at the railroad near Brown's gin will be built, and the road will run from that point follow the old route through the city of O'Donnell to the southwest corner of the square. From this corner the road will continue southward to the old Hester place and thence into the present Lamesa road.

Work will also be again started on Highway No. 84 in a few days, Giles states. Some work has already been done on this road several miles west of town, but work this time will start at the Terry county line and come this way. The road east of town was put in temporary condition some time ago, but within a short time it will be put in as good condition as No. 9. Some of the fences along the right-of-way have not yet been moved back, and this will be necessary before the roadbed is widened. Mr. Giles says that No. 84 will be built up to meet all the requirements of the State Highway Department.

MEN OF CITY ORGANIZE STUDY-PRAYER LEAGUE

The men of the different churches met at the Methodist Church Sept. 12 and joined together in one working group known as the Men's Study and Prayer League. H. P. Cave-ness was elected president, H. L. Grace, E. I. Hill, and M. L. H. Baze, vice-presidents, and Geo. M. Reid, secretary.

The meeting opened with a song followed with prayer led by "Uncle Ben" Rogers. After a number of spiritual talks, the League went into discussion of its future work. Plans for the work were laid and resolution adopted.

New Home Receives First Bale Cotton

New Home received its first bale of 1927 cotton Wednesday morning. A. M. Perry of the Lakeview community brought in the fleecy staple and ginned it at the Stith Gin.

Most of the cotton in the New Home community, however, is late and little will be ginned for at least another two weeks.

Mr. and Mrs. George B. Law are the proud parents of a fine baby boy, born Saturday. They named him Geo. B. Law, Jr. Weight nine pounds and eleven ounces.

Penn Well Sets Six-Inch Casing

The Index is daily asked the question: "When are they going to bring in the oil well southeast of town?" The Penn Drilling Company who is sinking this test eight miles southeast of O'Donnell on the Wright ranch puts out no more information to a newspaper man, and in many instances less, than they do to the average citizen who visits the location. The Index would like to see the well blow in tomorrow. It would do our soul good to write a story about the Penn well blowing over the top.

We understand the drillers encountered salt water last week at around 2700 feet and immediately set six inch casing after which drilling was resumed. Today they are drilling around 3100 feet and expect to keep the good work up until they strike the liquid gold or complete their contract which calls for 3500 feet.—O'Donnell Index.

TRUCK SINKS IN QUICKSAND IN RIVER

Sunday afternoon while making an attempt to cross the Double Mountain River, near Justiceburg, a large truck, with two men riding in it, was stuck in the quicksand and buried almost to the top of the cab.

The river was running with water about two feet deep, and on account of the concrete bridge which has been washed away several months, the truck missed the main traveled crossing and got into the quick sand.

Both men escaped before the truck was down very deep in the sand. Up late Monday evening it had not been brought out of the river—Post Dispatch.

CARD OF THANKS

We wish to thank all our friends who so graciously and kindly presented us with presents and said the many kind words to us following the fire which destroyed our home and its contents last Friday afternoon. We will ever be your friends. Mr. and Mrs. Wash W. Johnson.

Mike Redwine and family returned Sunday from Carlsbad, New Mexico, where they visited with Mrs. Chris Norris.

42 Boys Students Of Agriculture

There are 42 boys taking agriculture courses at the Tahoka High School under the direction of Taylor White, vocational agriculture instructor. There are now two courses open to any and all boys of high school classification. This is more than three times as many students of agriculture as there were two years ago when this subject was taught.

Mr. White says that not only will each boy be required to gain a book knowledge of plants, animals and farm work, but he will be required to do laboratory work and to do project work.

ELIZABETH HUGHES SOCIETY MEETS

The Elizabeth Hughes Society met at the home of Mrs. Jack Corley Monday afternoon. After reading and discussing a few chapters from St. Mathew, a delicious refreshment plate of Ice Cream and Cake was served to the nine members present.

NEW DOCTOR MAKES LOCATION IN O'DONNELL

Dr. S. Roaten and family of Weslaco, arrived this week and will make their future home here. Dr. Roaten who is recommended as a first class physician and surgeon will do general practice and has already established office headquarters with Dr. Collins in the Warren building.

Weslaco is located in what is known as "The Magic Valley of Texas," but Dr. Roaten believed he needed a change of climate for his health and finally decided this section of the South Plains was just what he was looking for and we hope the doctor and family never have cause to regret having made the decision.—O'Donnell Index.

Seagraves—A Farmer's Short Course was conducted here recently, extending over three days. The first day was devoted to home and crops, the second day dealt with livestock, poultry and other phases of agriculture. Practical demonstrations of field crops and canning were given during the course, these being directed by the Gaines County Agents.

O'DONNELL CHRISTIAN CHURCH LOSES PASTOR

Rev. Irye L. Townsend, who has been pastor of the First Christian church for the past several months, resigned his position which became effective Sunday to accept the call of the Lamesa church for fulltime.

Having been with the Christian church only a few months, Rev. Townsend has made many friends in O'Donnell as well as among his own congregation who regret to lose the services of such an able preacher. He will be missed by the Christian people and a wide circle of friends in O'Donnell.—O'Donnell Index.

JEFFERIES OF ABERNATHY BUYS NEW MOORE GIN

L. P. Jefferies of Abernathy purchased the New Moore gin last week and has already begun extensive repairs on the plant which he hopes to have in first class shape within a short time.

Mr. Jefferies has moved his family to O'Donnell for future residence where they will have the benefit of a good affiliated school.—O'Donnell Index.

PHEBE K. WARNER CLUB

The Phebe K. Warner Club will hold its first meeting of the club year Friday of this week at four o'clock at the club room. The club will make a study of art and artists during the first few months of the year.

Mrs. H. F. St. CLAIR

Mrs. Drew Hawkins of Wingate is here visiting her parents, Sheriff and Mrs. J. W. Simpson.

TO ERECT MONUMENT ON BUFFALO WALLOW SITE

CANYON, September 7.—The site of the Buffalo Wallow Battle will be marked with a monument on the 53rd anniversary of the fight, September 12, of this year, by the Panhandle Plains Historical Society.

D. E. Holt and A. B. Crump, of Canadian, have given the site to the Society, to be preserved as a memorial park, according to the announcement of the organization. This battle was fought during General Nelson A. Miles' campaign into the Panhandle after the Indian outbreak of 1874. It stands unique among the Indian fights of the country, in that the congressional medal for bravery, was awarded to each of the six men who participated.

The site was located by Mrs. Olive K. Dixon of Miami, widow of the noted scout Bill yDixon who was in the fight, and by the late Johnnie Long, pioneer in the Fort Elliot country. This is the second of the historic sites of the Panhandle to be marked, the first being the site of the Adobe Walls fight.

Silk smuggling, which has become a problem in England is said to be netting some smugglers as much as \$1,000 a week.

Mr. C. C. Wyatt, Colorado, Texas, Writes

I have had rheumatism severely at times. Rheumalax was recommended by my Druggist. I took a bottle and forgot that I had ever had rheumatism. I think it a wonderful treatment and heartily recommend it to all sufferers.

RHEUMALAX will do as much for you. Try a bottle today and see for yourself. Sold and guaranteed by Tahoka Drug Co.

THURSDAY, SEPTEMBER 29, IS SCHOOL DAY AT FAIR

LUBBOCK, Sept. 15—Thursday, Sept. 29, has been set aside as School Day at the Panhandle South Plains Fair here and all school children will be admitted free on that day. Tickets are being distributed in the schools all over the Plains.

The fair, an educational institution for both young and old, will be worth many days in school to the lads of the Plains and the fair association is meeting the parents 50-50 in making it possible for the kiddies to see the fair by giving the free tickets. The parent's part is to be sure his children get to the fair to see it on Children's Day, Thursday, Sept. 29.

Why buy imported bread when you can get as good as there is on the market from the City Bakery? adv

Farwell—The local high school plant will be one of the best in this region when construction work is completed on the new gymnasium and auditorium just started here.

Even Rice Hurt Girl's Stomach

"I had indigestion so bad I was afraid to eat even rice. Adlerika has done me so much good that now I eat anything."—Ardenia Howard.

Adlerika relieves stomach gas and sourness in TEN minutes. Acting on BOTH upper and lower bowel, it removes old waste matter you never thought was in your system. Let Adlerika give your stomach and bowels a REAL cleansing and see how much better you will feel. It will surprise you!—Thomas Bros. Drug Co.

Gin At Draw Changes Hands

The Draw gin has recently changed hands, gentlemen from Plainview having bought the plant from Thomas Brothers. Pete and E. E. Blakney and Walter Fogerson are the new owners.

The men are said to be expert ginners and have operated several gins at different places over the plains.

E. I. Hill, in company with Hill of Canyon, left last week attending a family in the Hills.

Olton—Olton's new high school auditorium has been finished. The school system is now preparing care of its student body with the best modern and well-constructed structures of this territory.

Announcing

Our Appointment as Agent For The

New Remington Portable Typewriter

The Remington Portable, with standard keyboard is needed by every man, woman and child who has writing to do. Ask anyone who owns a Remington Portable and always you will hear it called the friendly little helper that lightens every writing task.

The busy man or woman finds the Remington Portable indispensable in writing neater letters and more quickly. To young children and high school students it has an added importance, for its value as a teacher of reading, spelling, and English composition is now recognized by all educators. It is becoming an equal necessity of the old and the young—and of ages in between.

The lightness and handiness of the Remington Portable makes its service universal. It is so light, you can carry it anywhere; so convenient, you can use it any where, on your lap if you wish; and so small, you can tuck it away anywhere when not in use.

It is strong and sturdy, and built to stand the hard knocks. Every user can count upon it for years of reliable service.

A demonstration will convince you that this is the machine you have always needed. Call in at any time and we will be glad to show you this wonderful little helper and all of its superior operating features.

Moderately Priced. A Small Down Payment Will Put One At Your Disposal

LEADING LINES

Of wearing material and dry good are handled by us. We carry Carter underwear and Vanette Hosiery for ladies, both in the very latest shades and patterns. A number of high grade ladies coats. New goods arriving all the time.

We urge you to come to see us.

—First Class Merchandise Moderately Priced—

Sawaya Dry Goods Co.

Junction—The Wolf Club of Kimble county met recently and outlined plans for raising funds to start a predatory animal eradication program in this section. The commissioners court is cooperating in the movement.

T-Bar

J. C. McCarley and family returned home last Tuesday from a visit at Florence in Williamson county. They have been gone about three weeks.

Miss Lois Goodrich spent the week end with the Misses Crews. Miss Violet Smith visited last week with Miss Mable Crews, returning home Monday.

Messrs. Waldrip, Dorman, John Moore and Calvin went to New Mexico and got some good apples last week.

Travis and Orvis Richardson were callers at the Johnson home and attended church Saturday night.

Mr. and Mrs. Jesse Dorman are over at Ed Harts again, leaving here last Wednesday. Mr. Ed Hart took dinner with his sister Mrs. M. A. Dorman last Wednesday.

Mr. Lindley of Edith visited his brother, Preacher Lindley, last Saturday.

Brother Denton, of near Tahoka, preached here Saturday night, and Uncle Tom preached Sunday morning.

Brother Rev. Hicks of O'Donnell is holding a protracted meeting here this week.

Mr. M. L. Looney and family of South Ward visited J. M. Looney and family Sunday.

Mr. and Mrs. Cecil Caraway visited J. M. Johnson and family from Saturday till Monday.

Several of the club girls went to Willie Mae McMillian's Saturday afternoon to do some cooking.

Lawton Payne came home Saturday afternoon for a visit with home folks. He is employed at the Brown-field oil field.

Miss Esther Nichols is at the Sunshine Inn, and will greet her friends there for a while.

The Misses Moore, Vivian and Gladys are attending school at Tahoka high school, and were home over Saturday and Sunday.

Mesdames Moore and Johnson were in Tahoka for County Council Saturday afternoon.

J. M. Johnson made a business trip to O'Donnell Saturday.

We had a real good rain here on the 3rd, the first good rain since June 16th. It will benefit late feed and gardens. We are glad to report that we have few worms at present, however, the worms could damage us very much yet.

The protracted meeting will last over next Sunday, we understand.

—A. CORR

Sterling City—The county caterpillar tractor is being used as a stump puller in clearing the Sterling City and Del Rio road on Sterling Creek of timber. The road will be opened for travel as soon as the fences are adjusted.

Grassland

The Christian meeting closed last Sunday night with three additions to the church. Bro. Fisher of Bowie, did the preaching. The meeting started at Magnolia school house but after a few days was moved to the Methodist Church at Grassland. Bro. Fisher is an able preacher and his sermons were enjoyed by large crowds.

Mrs. J. W. Warrick spent a few days last week in the West Texas Hospital, Lubbock, but is at home again.

Miss Fay Ferguson spent a couple of weeks in Burkburnett visiting her sister, Mrs. Martin Duval. She was accompanied home by Mr. and Mrs. Duval. The Ferguson family, also Mr. and Mrs. Duval and Mrs. Reeves spent a few days last week very pleasantly in New Mexico exploring the Carlsbad Cavern and other points of interest including El Paso and Juarez.

Mr. and Mrs. Bryant Childs and children, Mrs. Bob Burk and Rufford Chapman have returned from a few weeks visit with relatives and friends in Shelby County.

The little son of Mr. and Mrs. Emmett Ramsey, who has been very sick, is able to be up again.

The baby of Mr. and Mrs. Man Melton has been very sick for the past week and is still not much better.

Mr. Sid McCord received a message a few days ago that his son Clyde, was in a Dallas Hospital very sick. Mr. McCord went to him and on Sunday last sent a message home that his son was dead.

Mr. J. A. Neal received a message on Friday, September 9th, that his mother was dead.

Mr. Paul Lawson has been at home for a few days with the family of his father, Mr. A. A. Lawson.

Miss Naomi Lawson has just come home after a very pleasant holiday spent in Colorado, Wyoming and other places. Miss Minnie Hood who went with her stayed in Wyoming and commenced teaching.

Mrs. Pribble Adams has had with her for the past few weeks her sister, Miss Childs of Timson. Mrs. Adams and Miss Childs will both teach in adjoining school districts beyond O'Donnell. Mrs. Adams' school is at Mesquite.

Mr. and Mrs. J. A. Neal have a big boy in their home. He arrived last Saturday morning and is doing well. Mr. and Mrs. Price Thomas, Mrs. Ellis Choat and Misses Vera Crawford and Sybil Thomas have been to the Carlsbad Cavern for a few days outing.

The stock of goods and fixtures left here by Mr. E. Trice have been sold and moved away to different places.

The Moore families and Mr. Inklebarger have come back from a trip to the mountains of Colorado and say they had a pleasant time.

We are glad to report that Mrs. R. Bosworth, who has been an invalid for so long is much improved in health.

On last Friday night, September 9th, Miss Violet Williamson, one of our most popular and beautiful young ladies was quietly married to Mr. Bryon West of Tahoka. Mr. West formerly lived near Grassland and seemed to be an exemplary young man.

The Thomas gin at Grassland has ginned over thirty bales of cotton during the first week of the ginning season.

"COOPERATION"

We've observed where we go That the fellows we know, Who "shoot square" in their dealings with men Will refuse to defame Any neighbor's good name, Or a slanderous story begin.

They stick to their bush, Their own business they push, And to make good in life they're resolved; But they'll play the game fair, And will always shoot square Where the other man's rights are involved.

To the man who's in need They will always give heed And will offer a life when he's down.

They are ever alert All their strength to exert, For the good of their fellows and town.

They'll assist if they can In the other man's plan, They'll not block everything they can't lead.

With no envy at heart They will do their own part And rejoice with the men who succeed.

—C. L. SONE, Slaton.

Machine Picker Is Nearly Perfected

CHICAGO, Sept. 2.—The machine age has contrived an apparatus that promises to replace the picturesque plodding cotton picker of Dixie with machines that pick, strip and clean the bolls.

The International Harvester Company stated Friday that after many years of experimentation it has built three machines, a picker of a spindle type for use in the old south; a stripper for use in the Southwest, and a cleaner for general use.

The Company regards the picker as still being an experiment but the stripper and cleaner already have proved their adaptability. A number of pickers have been placed in Dixie where their performance will be carefully noted. The problem in the old South is made more difficult because the entire crop can not be picked at one time and a machine must pluck the ripened bolls without disturbing green ones which may be adjacent. In the Southwest the cotton generally ripens evenly.

Two men can operate the machine, one guiding the tractor and the other controlling the picker, the International statement said. The machine can pick from two to five bales a day equivalent to what two men could do in from eight to 15 days, it continued.

So far all the machines produced at the International plant have been hand-made. Quantity production is awaiting final results of observations this year.

TUNNEY-DEMPSEY FIGHT TO BE BROADCAST IN WORLD NET

CHICAGO, Sept. 8.—Plans for broadcasting a blow-by-blow account of the Tunney-Dempsey heavyweight championship fight September 22 through the National Broadcasting Company were announced today by Tex Rickard.

The voice of the announcer will be heard throughout the world by means of the greatest station pick-up in the history of radio.

When you order bread from your grocer, don't forget to call for City Bakery product.

T. E. Robinson brought the first bale of cotton to be ginned in Wilson this season. Mr. Robinson lives about three miles southwest of town and has a very fine crop of cotton, as well as lots of feed. His first bale was ginned by the Planter gin last Monday and brought 23 cents per pound. He also received a premium of \$35.00 made up by the business people of Wilson—Wilson Pointer.

NEW LAW PASSED BY THE 40TH LEGISLATURE

A law passed by the Fortieth Legislature but not generally understood by most of us relating to buying, selling or trading for second hand cars is as follows: "An act providing that whoever shall sell or trade or offer for sale or trade a second hand motor vehicle shall have in his actual physical possession the tax collector's receipt for the license fee for the year in which the sale or trade is made and shall deliver to the purchaser the said copy of same.

"Also that whoever should buy or trade for a second-hand motor vehicle, shall demand and receive the tax collector's receipt for the license fee for the current year.

"Failure to comply with this law shall be punishable by a fine of not less than ten nor more than two thousand dollars, or imprisonment for not more than one year or both."

LUBBOCK SANITARIUM NOTES

(From Lubbock Sanitarium News) Mr. J. H. Wyatt, of Tahoka, who was operated on Tuesday, is doing nicely.

Lillie Mae Andrus, a 12-year-old child from Wilson, who was in the sanitarium a few days ago for treatment, has returned to her home.

Mrs. O. R. Davis, of O'Donnell is convalescing, following an operation a few days ago.

Mrs. J. L. Jolly, of Wilson, who was operated on Tuesday, is resting well at this time.

Mrs. T. L. Oliver, of Tahoka, who was operated on last week, is doing well.

Miss Margaret Miller, of O'Donnell is improving, following an appendix operation last week.

Mrs. C. Gillespie, of O'Donnell, had her tonsils removed Monday.

Mr. Maurice Evans, of Tahoka, who was operated on last week, is doing nicely.

Lane-Moreland, who has been studying pharmacy in Dallas for the past few months, is back at his old job at Tahoka Drug Company, arriving last Friday. Mrs. Moreland and the baby are visiting relatives and will not be in for a few weeks yet.

Arlington—A mommoth lake is to be constructed at a point about 3 1/2 miles north of town, and will cover more than twenty acres. The bed of the lake will extend some three miles above the dam, with numerous necks and coves. The place will be stocked with duck and fish.

TERRIBLE PAIN

Mrs. Cox Quite Well Now And Pleased With Cardui.

Mrs. W. L. Cox, 120 Church Street, Chester, B. C., says:

"I suffered awfully . . . I would have a terrible pain, at times; I could hardly stand it. I slept badly; my rest was disturbed and I seemed to get little benefit from it. "I read about Cardui in the papers and thought it might be a good thing to try, so I began taking it. I was so pleased with the way it improved that I kept on taking it until I felt quite well. Cardui helped me so much and so many people have remarked about my improvement."

Cardui has been used and recommended by thousands of other women, for over 45 years. Try it.

\$1.50 PER YEAR IN ADVANCE Advertising Rates On Application

Special Representative TEXAS PRESS WEEKLIES, INC. H. L. Grable, Mgr. 617 Mercantile Bank Bldg., Dallas

NOTICE TO THE PUBLIC Any erroneous reflection on the reputation or standing of any individual, firm or corporation, that may appear in the columns of the News, will be gladly corrected when called to our attention.

Tahoka ranks at the very top among the towns and cities of the Panhandle-Plains section of Texas in the number of rural mail boxes, the advance advertising man of a test show told the News a few days ago. His show has appeared in practically every town of any size on the plains, and he says this city evidently has as good or better rural trade territory than any they have visited. Tahoka leads Dalhart and Amarillo by a large number of rural mail boxes. It also has more than either Clarendon, Canyon, Hereford, Tulla, Lockney, Lamesa, Crosbyton, Ralls, or Floydada, and possibly Plainview. Lubbock, Tahoka, and Plainview run neck and neck for the honors, he says with Lubbock leading Tahoka by a very narrow margin. Tahoka trade territory is one of its greatest assets. Four routes reach out of this city and traverse one of the best agricultural sections of Texas. There is much land left to be broken up into farms and settled by more farmers. More farmers mean a better community and a better town. There are even better days ahead for Tahoka. Only a few years will very likely see Tahoka leading the entire section in number of farmers calling this town their home.

A few months ago a host of tractors and several dozen workmen were put to work and Highway No. 9 thru Lynn county, land owners set their fences back several feet on each side of the road making a wider right-of-way, and we were told that a first class grade would be thrown up making this section of No. 9 one of the

best dirt highways in the state. Practically all of the highway equipment of this district was concentrated in Lynn county at that time to put over a big job in as short time as possible. The highway was put in much better condition than it had been in, but those in charge of the work did not keep faith with their promise to put up a first class dump. Now, since a new divisional engineer is in charge of this work, the job is to be done over again, if our advice are correct. No wild promises have been made, but, at any rate, a good dump is being thrown up this side of Lubbock and reaching to Woodrow. The work is headed this way, and it is to be hoped that a first class grade will be put up all the way through the district. Lynn county will be very thankful for the work, if it is done.

Accidents of more or less serious nature frequently occur in all printing plants. Even very minor ones many times causes the printers and the employer to tear their hair, chew their finger nails and prance the floor. But no matter how serious the accident, the paper must come out. Makeshifts and all night labor are frequently necessary. Here is a very minor accident and yet a very serious one explained by editor H. C. Shelton of The Rotan Advance: Threw some mysterious caeswes this week all of the small letter ewes on the linotype began to disappear ewentil there was not enowegh ewes left to set type with. We were pewet to the task of ransacking oewer brain for a makeshift over this deficiency ewentil we thkoewght of eweing a different size type "ewe" ewentil we cwoelwed get some ewes from the factory.

Last week's Lynn County News carried 181 inches of foreign advertising and 243 inches of local advertising, the latter being a very poor showing for a town the size of Tahoka. In other words out-of-town business men bought three-fourths as much space in last week's News as did the local business men. Local businesses should have carried at least three or four times as much advertising as did the foreign advertisers. Big business has learned that advertising even in the thousands of country weeklies of the nation is a paying proposition, and nationally advertised businesses are rapidly putting the concerns out of business that do not advertise their wares or their service. Small town merchants should profit by what the big business men of the nation have already learned—advertising pays. Start an advertising campaign, advertise judiciously, and we'll guarantee that it will be a paying proposition to you regardless of how long you have been in Tahoka or how small or whatever your business is.

Pampa News: A few years ago Prof. H. W. Morelock, head of the English Department of Canyon Teachers College, was well known in the Panhandle for his Shakespearean lectures and his work with women's study clubs. Then he left this section to become president of the Teachers College at Alpine.

The Morelock name is again in the news but it is a son. Horace Jr., who is getting the headlines. This Panhandle-reared youngster at 17 years of age is an instructor at the Teachers College of Kingsville. He finished high school when 13, took his A. B. degrees last spring, and has studied most of the summer at the University of Texas. He is probably the youngest college graduate in Texas history.

Coming from a cultured family and having been reared in the environment to which he apparently is devoting his life, young Morelock is doubtless efficient in his subject and able to guide the humble Freshmen, who, if they cannot reverse his years, can learn from one who has recently experienced the difficulties they face. West Texas has its prodigy crop, too.

TELLING THE WORLD

Records compiled by the American Newspaper Publishers' Association show the enormous amounts spent last year for the advertising of well-known products.

The sum of \$4,995,000 was expended in advertising the Chevrolet car alone, which heads the list of big appropriations. Other large expenditures in order of size were: Camel Cigarettes and Prince Albert tobacco, \$4,034,000; Postum and Grape Nuts, \$3,527,000; Listerine, \$3,484,000; Ivory Soap and Crisco, \$3,051,000; Dodge Automobiles, \$3,038,000.

It is reported that these will appear moderate in comparison with the amount to be used in advertising the new Ford car during the next year.

All of which, in view of the great prosperity experienced by the concerns manufacturing the products named, once more gives a practical illustration of the trite but true saying: "It pays to advertise."

Tahoka's future looks bright. With some of the best farming lands in Texas surrounding it and more yet to be put into cultivation, with a silica bed said to be one of the best in the nation, and with good prospects for oil development, to say nothing for the possible development of potash and lignite, Tahoka will soon occupy a bigger and blacker spot on the map than it now does.

The boss is out of town this week, and while he is away the force is having a big time—a big time trying to do his work and our's too.

CONGRATULATORY

A creditable edition of the Lynn County News, published by E. I. Hill at Tahoka, announces the opening of the public schools of Tahoka. The edition carries a picture of the new \$100,000 high school at Tahoka, pictures showing student activities. It is a splendid arranged issue and is mechanically perfect.—Plainview Evening Herald.

The Lynn County News issued a special edition last week celebrating the opening of the new high school building which has just been completed. The paper was a sixteen page edition full of interesting information about the Tahoka schools and was well supported with advertising. Congratulations Mr. Hill upon the splendid appearance and creditable way in which the special edition was handled.—O'Donnell Index.

The Tahoka News came to our exchange table this week with a 16 page special school edition. It not only contained lots of pictures and reading matter concerning their excellent public schools, but was well patronized by the business men of Tahoka.—Brownfield Herald.

The Lynn County News came out last week in a big school edition which must have made the printers hump, but which also must have made them feel pleased with their efforts. The edition was one of which to be proud.—The Higgins News.

A creditable edition of the Lynn County News, published by E. I. Hill at Tahoka, announces the opening of school there. It is a splendid arranged edition and is mechanically perfect.—Amarillo Daily News.

Happy—Construction is underway on Happy's new high school building. The contract calls for completion by the first of January.

Even fine school building and well-trained teachers do not make a school. The better the environment, the easier it is for one to learn. But there must, also, be students who are willing to learn, who will apply themselves. Tahoka has good school equipment and well-trained teachers. Now, it is up to the boys and girls to make the local public schools among the best there are, to make the local community among the best educated to be found. Students, properly apply yourselves, and this aim will be accomplished.

Another thing: the boy or girl who goes away to college with a pocket full of money or a free shot at dad's bank account very rarely learns as much as the boy or girl who faces a school year with only enough to pay his first month's board. The college student who has to work for his education is the one who wins all along life's pathway. And, if you are not going to college to learn, it will be much better on dad's pocket-book, if for no other reason, for you to stay at home.

Still another sermon: The fact that you have a degree doesn't count much; it's what knowledge you acquired and the better prepared you become for citizenship while seeking a degree that counts. A dumb-bell may be granted a degree, but that does not necessarily mean that he is an educated man.

COTTON HARVESTING MACHINE

The announcement by the largest manufacturer of farm equipment of a line of cotton harvesting machines may mark the end of one epoch in American agriculture and the beginning of a new one. Whether the transition actually occurs depends, of course, upon the success of these machines in the field.

On this point, it is well to remember that during the post-war period few if any half-baked machines have been placed on the market by the well-established manufacturers. So well organized are their experimental staffs, made up as they are both of men from the old school of practical designers as well as the scientifically trained mechanical and agricultural engineers, that the possibility of radical error in design and workability practically has passed.

The very fact that the company is ready to give the trade information about its machines prior to the regular production is fairly good evidence that, in the minds of company executives, the period of doubt is passed. They believe the machines will do the work for which they are intended and do it with an economic saving to the farmers who purchase them.

The general use of cotton harvesting machines in the South will have momentous results in many ways. It is not a matter simply of one machine displacing a less efficient one, as is now in process in many sections where the combine is displacing the equipment previously used in grain harvesting. With the cotton harvester, it is a fundamental proposition where a machine displaces human labor, and that labor can be largely dispensed with in all other steps in cotton growing, even in cotton chopping.

According to statements of Southern experts, in the past year or so cotton planters have been developed which, if used with tested high-vitality seed, will eliminate the need for cotton chopping, for they put the seed in hills in sufficient quantity so that a reasonably uniform stand is secured.

If hand chopping can be dispensed with, and if the cotton can be efficient ly and rapidly harvested by machinery, then the day has come when the Southern farmers will be as independent of outside labor as is his Northern brother who raises corn, small grain and hay on an extensive scale with but little hired help.

The significance of such a transition, should it occur, is a matter more for sociologists than for trade reviewers. But in this connection we recall a statement in a bulletin on cotton harvesting sent out from Washington last fall. It was said, as we remember it, that large numbers of Mexicans who had been imported by cotton planters in the Panhandle for cotton picking suddenly found themselves without work, for when they arrived at the towns ready to go to work the practice of sledging had developed so rapidly that there was no field work available for the majority of the pickers. Some had no funds with which to return to their homes, and to prevent them from becoming public charges, certain towns raised funds to ship the Mexicans back to the border.

That situation, if not overdrawn, furnishes a picture of what may occur on the Southern cotton plantation which has equipped itself, through tractors, pickers, etc., for efficient la-

bor-saving production. The negro farm hand, unless he is the unusually intelligent and energetic sort, will be eliminated. His means of livelihood in the country will disappear, and by pressure of economic change he will be forced to the industrial centers.

That is why, in our viewpoint, the successful introduction of labor-saving cotton harvesting machines has such potentialities. The machines are

more than machines. They are key to a new system. Farm Implement News.

T-Bar

(Delayed)

Part of our community received a good rain Tuesday evening. Maize is ripening fast. The cotton looks fine. Some report a few worms bothering their crops.

Sunday was our day for the election of Sunday School officers and teachers. Those elected were: Mrs. Henderson, president; Lucy Crews, secretary; Lucille Townzen, pianist; Carl Richter, choirster; Mr. Mathews, senior teacher; Mrs. Townzen, junior teacher; J. W. Nichols, adult teacher, and Grandma Nichols, primary teacher.

Our school attendance decreased in number this week. Vera Nichols, Gladys, Vivian and Ruby Moore are attending high school at Tahoka. We are very sorry to have Moman Johnson and Buster McMillian absent from school this week.

There was no prayer meeting Sunday night on account of bad weather.

Rev. Hicks of O'Donnell will begin a Methodist meeting here the second Sunday in September. Everyone is invited to attend.

Mabel Crews, who has spent the past week with Violet Smith in the Draw community, returned home Sunday evening accompanied by Violet, who is visiting her this week.

Mr. J. C. McCarley and family and Louis Henderson returned from Williamson county Tuesday evening. They report a wonderful trip.

Mr. and Mrs. L. F. Lindley visited the latter's parents aunt Monday and Tuesday.

The Women's Home Demonstration Club met with Mrs. Dee Henderson Thursday evening. Miss Halsey was present.

The Girls Club meets this morning (Wednesday). The canning of vegetables will be the subject.

PEGGY

JUST A RHYME

Speak Now—Don't Wait
When you have some good friend you would like to convince
Of the errors they sometimes espouse,
Do you seek to entice them with sweet sounding words,
Least their bitter resentment arouse?

Is it best just to say what you have in your heart,
To a friend who's gone in the way?
Or allow him to drift to Destruction's own gate
E're his steps you make effort to stay?

Speak the truth! speak it now, though it stings like an asp!
Speak it kindly and firmly, although it may drive them in fury and anger away.
You have done but your duty you know.

Don't despair, they'll come back and they'll love you the more
Since your courage and love made you speak,

And they'll ask for your help, your forgiveness implore,
And a clean, better life they will seek.

Many men drift along from the bad to the worse
With the thought, that no friends have a care;
Many lives have been wrecked on Sin's breakers, alone,
When we failed their sad burdens to share.

Let us watch from the lighthouse, signals to flare,
Let us warn of the dangers in store
Let us "Throw out the lifeline to danger-fraught men,"
As we point to the have ashore.
C. LEM SONE, Slanton.

WILSON HAS FINE RAIN

One of the finest rains of the season came to Wilson last Saturday night, which will be of great benefit to the young feed and some think will also help the cotton.

Quite a number of farmers are planning to plant wheat and the rain will be a big help to them in getting their land in shape for planting—Wilson Pointer.

Gorman—The Leon Highway is to be hard surfaced to the Erath county line. This work will benefit materially trade operations and activities in the Gorman section.

Cooking Chats with 6 Famous Cooks

(Courtesy of the Domestic Science Department, Perfection Stove Company)

FIVE DESSERTS FROM OLD NEW ENGLAND

(Editor's Note: This is one of a series of unusual cooking articles running exclusively in this paper.)

Sweets belong in the daily food quota. And what more logical than that they be served as desserts? Almost every lunch and dinner is better when topped off with dessert. But never serve a heavy, rich dessert with a hearty meal. Light, easily digested desserts—fluffs or custards—are the rightful accompaniments of such meals.

Miss Lucy G. Allen, principal of the Boston School of Cookery, and author of several cook-books, gives tested recipes for five pleasing desserts.

Pineapple Fluff
To one-half cup of juice from a pineapple add one well-beaten egg, one dessert spoon of sugar mixed with one-half teaspoon of cornstarch. Cook till thick in a double boiler, or in a saucepan over hot water, stirring constantly.

When thickened, remove from stove and add one cupful of pineapple cubes cut from slices of canned pineapple. When cool enough, fold in gently one-third cup of heavy cream beaten stiff with an egg-beater and flavored with one-eighth teaspoon of vanilla. Place in sherbet glasses or in a large glass dish, if preferred, and chill. This amount will serve six persons.

For a Lighter Meal
Baked Indian pudding makes a filling addition to light salad-and-soup meals.

Mix six tablespoonfuls of corn meal with three tablespoonfuls of flour and dilute with half cup of milk. Add this to one pint of scalded milk and cook until thickened. In a bowl having a foot and heat slightly, add one-half cup of sugar and one-third cup of molasses, one-half teaspoon of salt and one cup of cold milk.

Add this mixture to the hot mixture, add another cup of cold milk and pour into pudding dish. Do over with tiny lumps of butter and bake in a slow oven for three hours or more. Sweet apples or pears sliced and added last, using two or three of either, makes a pleasing addition. Serve with cream or with butter.

A woman can always use shelves in the kitchen. One up-to-date oil stove has a handy basket which can be used to hold utensils.

Cracker Plum Pudding
Just about as hearty as the baked Indian pudding is cracker plum pudding.

Roll quite fine eight cooking crackers, add five cups of milk, one-fourth teaspoon of salt, two-thirds cup of sugar and four eggs slightly beaten. Add three-fourths cup of seeded raisins, mix with a few gratings of nutmeg.

Place in buttered pudding dish; cover top with a layer of three tablespoons of butter in small pieces, and bake in a moderate oven about two hours. Serve with or without sauce.

Delightful Bread Pudding
No one will ever object to eating chocolate bread pudding. It just touches the spot when one's sweet tooth is aching. And, from the cook's point of view, it uses up stale bread.

Soak one pint of milk, add one cup of stale bread crumbs which have been rubbed through a sieve, and set aside for an hour. Beat one egg slightly, add one-third cup of sugar, one-eighth teaspoon of salt and add to the milk.

Melt over hot water one square (one ounce) of cooking chocolate, stir to a smooth paste with three tablespoonfuls of boiling water and add to mixture.

Pour into a buttered pudding dish, set dish in a pan of hot water and bake in a moderate oven. It will take about one hour. Serve with either cream or a hard sauce.

Apple Pan Dowdy
Inexpensive and quickly made. These are two of the old-fashioned apple pan dowdy.

Take five or six large apples, cut in eighth and put into an aluminum saucepan. Add three tablespoonfuls water, one quarter cup of sugar, one-half teaspoonful nutmeg, or one-half teaspoonful cinnamon if preferred.

Cover and cook about five minutes. Mix thoroughly a cup bread flour, three teaspoonfuls baking powder and one-half teaspoonful salt. Cut in with knife two teaspoonfuls butter, then add one-half cup of milk, stirring with knife.

Handle as little as possible and spread the dough over the apples. Cover closely, place on an asbestos mat over the flame and cook until done without lifting cover, for about one-half hour. Invert pudding upon serving dish and serve with sugar and cream or the following sauce.

Sauce: Beat very stiff the white of one egg and then beat in a cup of powdered sugar; transfer egg beater to yolk of one egg and beat until thick and light-colored, then beat in a cup of powdered sugar. Cut out and fold mixture together, beat in two tablespoonfuls hot cream or top milk and flavor with vanilla.

All of these desserts are simple and easily made according to Miss Allen's tested recipes.

For cleanliness. And freedom from smoke and odor. That's why some oil stoves have long chimneys. The extra length of the chimney insures complete combustion of the oil.

Moody To Speak At Tech Opening

LUBBOCK, Sept. 7—An address by Gov. Dan Moody to the freshmen of Texas Technological College will be one of the features of the opening of the third annual session. President Paul W. Horn has issued a special invitation to the patrons of the college and the public generally to hear the Governor's address which will be Sunday afternoon, September 18, at 3:30 o'clock in the gymnasium.

President S. P. Brooks of Baylor University will deliver the annual sermon address to the student body Sunday evening, September 25, at 8:00 o'clock in the gymnasium. The public is also cordially invited to hear Dr. Brooks. Other speakers for the opening week will be announced later.

Much emphasis is to be given this year to the freshmen orientation period September 16th-19th, during which time all first year students are urged to be present. They will be assisted in finding boarding places, in mapping out their courses of

study, and in getting acquainted generally with the institution and its activities. Entrance examinations for students who don't have sufficient accredited units to enter will be held at the College September 15th-17th.

President and Mrs. Horn will tender a reception to faculty members and their wives at the President's home opening of September 16th. They will give a general reception to all students at the Administration building September 24th. On Friday night, September 23rd, the churches of Lubbock will hold open house for students of their respective denominations. Everything possible will be done to welcome both old and new students back to Lubbock and to College.

Actual registration of freshmen will take place September 19th and 20th, and advanced students will register on the 20th and 21st. Regular class work for the fall terms begins September 22nd at 8 a. m.

Clean heat

No black kettles to scour!

How much pleasanter cooking is, when there are no black pots and pans to scour afterward! Every woman who cooks with a Perfection Oil Stove is spared that horrid nuisance.

There is never a speck of soot. For in the long chimneys, every drop of oil is completely burned before the heat reaches the cooking.

Perfection flames stay at the height you set them, so you need never fear they will "creep up" and make the kitchen sooty.

Soot, as you know, is half-burned kerosene—just wasted heat. With Perfections you have real fuel economy, as all the oil is changed into cooking heat. They burn only kerosene, the safe household fuel.

Miss Allen says—
"Utensil bottoms are free from soot when cooking is done on the Perfection Stove."
MISS LUCY G. ALLEN
Principal, Boston School of Cookery.

With Perfection you will have wonderful cooking results, and your utensils will stay shiny as new. See the newest Perfections at your dealer's—1 to 5 burner sizes. Priced from \$7.25 to \$130.

NAUSEA

This and Other Troubles Relieved By Black-Draught.

Mrs. Ada Blackmar, of Alexandria, Ala., writes: "From time to time, I would have spells of nausea... which would put me to bed. I would turn a dull, yellow color and, for days at a time, would have no appetite. Everything I ate sickened me."

"My mother had been a user of Black-Draught for years, so while I was at home, visiting, she asked me why I did not try Black-Draught for my troubles.

"I began taking a small dose, three times a day, before meals. I kept this up for several weeks, and it was just a little while before I began to notice an improvement in my condition."

"Black-Draught is certainly a fine medicine."

You will say the same thing, once you have tried **Theodor's BLACK-DRAUGHT**

Midway News

Things do not happen thick and fast out here. But a thing or two have happened since we last saw you. The Midway School Board met in business session last Saturday night and settled some very important questions. Every member of the board was present except two who were out of the county. The first number on the docket was that of the school board vs. the teacher. The case was settled by unanimous vote that teacher should have a garage built right away. Lumber for this was purchased last June and used for a stage and seats for the play at the close of school. I will say right here that the people met at the school house the next day after the plays and in one hour had drawn every nail and stored the lumber in the house. The contract for the building was given to a neighbor and patron, Mr. Burroughs.

The board agreed to have school opening on Monday of this week for all who were entitled to attend and to run one month. At the end of the month there will be another board meet and if it can be shown that 20 or more will attend, the school will not close. This was done by a separate contract and if conditions are favorable this short term may meet the long term in November and will give a continuous term of nine months to those who wish to use the opportunity. School opened with 45 and today, Tuesday, there are 48.

POOR CHARLIE

HARD TO EXPLAIN WHY EARTH QUAKES

Still Much to Be Learned on the Subject.

Seismologists' explanations of the earthquake prevalence in the Far West offer no basic reasons. They say that the Santa Barbara temblor was tectonic, that it was caused by a recurrent slip along old fault lines near the Pacific coast, and that the slip was probably set in motion by the slight quakes in Montana. This really gets nowhere, for it has long been known that the Pacific coast has many fault lines, and there is not even an effort to explain why the preliminary tremors were felt in Montana, where there are no fault lines, and where there had been no earthquakes in the memory of man.

It is predicted there will be continuing quakes for some time, and they may be felt in widely separated parts of North America. This is, however, no cause for alarm. Except in regions of known earthquake prevalence, where the faults are marked, an earthquake seldom or never does any large damage. The earthquake which a few months ago was lightly felt in Cleveland and more markedly in New England and Canada, was quite innocuous. The Montana quake was one of the severest in a non-earthquake region, but the damage was comparatively small and there was no loss of life.

As for California, the danger is more real, but it is to be borne in mind that only two disastrous earthquakes have been recorded in that state, the really calamitous San Francisco temblor and the one which recently caused considerable damage in the small city of Santa Barbara. By the law of probabilities no more cities are due for visitations for a long time. That the danger is considered very slight is proved by San Francisco's magnificent rebuilding on the ruins of the destroyed city.

We cannot tell the wherefore of earthquakes and we cannot predict when or where they will occur. It is possible, of course, for cities in earthquake regions to build with some thought of earthquake possibilities, but otherwise nothing can be done, and American life is not to be disturbed by phenomena as yet so inadequately explained.—Cleveland Plain Dealer.

Big Road Program Planned By State

Texas program of road building is now the most ambitious in the state's history, including some twenty thousand miles of highway, declared Governor Moody before about ten thousand people Friday at Palestine at the formal opening of the new bridge over the Trinity river at that place.

The Governor's address was mainly concerning the great program of Texas for highway development. He said that never before in the state's history was there as much road building now, or as good. He attributed much of the progress to the automobile.

He stated in part, that under the state's plan a limited number of miles of highway might be added to the primary system for improvement each year, with the provision that none might be removed from the system without consent of the legislature. Revenue from automobiles license, taxes, and gas with Federal aid will give this state about \$25,000,000 a year to spend on highways and this is as much as can be carefully and judiciously spent in a year. In course of time it will give Texas one of the best highway systems in the country, including in which should be good laterals and country roads to serve the rural residents of the main traffic ways.

"Since you are providing most of the highway funds through Texas your County Commissioners should have the right guaranteed by law to sit in with State and Federal Highway Department officials in the matter of selecting routing, the type of construction and to whom the contracts are let in my opinion," asserted Gov. Moody. "If this had been the provision two or three years ago, our State wouldn't have lost a big sum in highway funds about that time."

Can you afford to spend 25¢ a week to save 50¢?

It is reliably estimated that it costs on the average \$20 per year for removing carbon from a six-cylinder motor. This does not include the cost of necessary repairs due to the wear and tear which carbon causes.

That's why you save money when you use **Conoco Ethyl Gasoline** even though it costs 3c more per gallon than ordinary gasoline. It costs you about 25c more a week—\$13 a year—but it saves you double this amount by reducing carbon removal and wear and tear bills. Isn't that wise economy?

Three Lakes

Monday afternoon a sudden shower approached in this community unexpected to any one and we got a nice rain.

Prayer meeting was held Sunday night at the school house by Mr. J. W. Edwards. A fine service was conducted.

Mr. and Mrs. W. W. Johnson happened to the misfortune of their home burning down last Friday afternoon. Mrs. Johnson was away from the house at the time the fire sprang out. Mr. Johnson was at town. There was not anything saved except a trunk and a small mattress. It is said that the house was caught from an oil stove. These good people have our sympathy.

Miss Lillian Shewmake is on our sick list this week. We hope she will get along nicely now.

Miss Thelma Hickerson left last week for Wichita Falls, where she will teach school this term.

—REPORTER

M. E. Meeting Is Closed Sunday

The Methodist meeting, conducted by Rev. Watkins of Seagraves, closed Tuesday night after a ten days successful meeting. Large crowds attended both day and night services. The order was everything that could be asked for, which is characteristic with the Meadow people, when attending public worship. The cooperation of all the citizens of the town was splendid. There were about 20 reclamations and confessions to the church. Rev. Watkins is a forceful speaker and endeared himself to the citizens of this community while holding the meeting.

—The Meadow Review.

El Paso—Manager Homer D. Wade has issued invitations to Governors of two states and the governor of Chihuahua, Mexico, as well as other high officials of Texas and New Mexico, to attend an international highway conference in El Paso September 24, the occasion of Col. Lindbergh's visit to the Border City. The prime purpose of the proposed meeting is to coordinate better the highways that lead from West Texas and the Republic of Old Mexico, and New Mexico.

Expositions Costly

Such exhibitions as the one recently in progress at Wembley entail an enormous expenditure to put over properly, and whether they will result in loss or gain is always problematical. London's first big exhibition, that of 1851, was a great financial success, says the Montreal Star. More than 6,000,000 people visited the Crystal Palace, and the surplus, after paying all expenses, was nearly \$750,000.

The next one, held in 1862, was not so successful. Shortly after its opening the prince consort died and when the American Civil war broke out its receipts were so impaired that, although they totaled about \$2,250,000, there was a final deficit of \$50,000.

The Paris exhibition of 1889 showed a profit of \$540,000. In Vienna in 1873 a loss of nearly \$2,000,000 was sustained; the Philadelphia exhibition showed a loss of about \$1,250,000, while the Paris international exhibition, although it attracted 16,000,000 visitors, showed a deficit of \$6,250,000. Then luck changed. A series of small exhibitions held at Kensington were all successful, while the Chicago World's Fair and the great exhibition at St. Louis both showed big profits. In 1908 London's White City proved a fairly profitable undertaking in spite of a wages bill of \$4,000,000.

Flute Centuries Old

A flute which made music on the Nile in the balmy air of Egypt 3,000 years ago, recently played an encore in the University of Pennsylvania's museum, says Capper's Weekly. Unlike our flutes, the wind enters through slits in the side of the reeds instead of the ends, and each note and its octave are sounded at the same time, as if two flutes were playing. The notes have a soft and mellow sound. The flute was found in the tomb of a noble of the time of the Pharaohs. If somebody could find a way to make it reproduce the tunes he played on it the Twentieth century might hear some new and interesting music.

Proof

A beautiful young murderess had been acquitted of murder, and had gratefully kissed all the Jurymen, and the Jurymen had wept and patted her pretty shoulder and bidden her to go and sit no more.

"Modern woman!" said Butler Glanzer, the New York critic, as he derided the episode. "It reminds me of a police court scene."

"You are unmarried? a magistrate said to a man in a police court."

"Unmarried?" granted the man. "Where did I get this broken arm, then?"

Toy Theater Comes Back

In Europe the toy theater has again taken hold of the popular fancy with the result that there are some interesting offerings being made. The smart set of London is back of it. The entertainment is given by means of miniature toy actors manipulated by strings. It is a far cry from the days of the manipulated punch and Judy shows, as even Shakespearean dramas are being given in these modern toy theaters.

TAHOKA GINS START RUNNING

Any Repairs And Additions Made: Are Well Ready To Handle Big Business

Cotton is coming in. The gins are again ready for business.

In fact, most of them are already ginning some cotton which has begun to straggle in from fields that were lucky enough to get early showers that produced early cotton. Ginning will be slow for two or three weeks, ginners say, but it will only be a short time until the season's work will be on in full blast.

All the gins of the city say they are ready for business following weeks of repair work. All of them announce that they are in first class shape, having made all necessary repairs and added new machinery.

Tahoka has an excellent bunch of gins, equipped to give the very best of turn-outs. The ginners in every instance are men of long-time experience in the gin business and know how to do the work best.

Tahoka invites you, Mr. Farmer, to give these ginners a trial, to bring your cotton to Tahoka, and promises you a good market price in addition to good ginning service.

The News has just finished printing a club book for the Phebe K. Warner Club which contains the roll of club officers, members, the programs for the year, and it's constitution and by-laws. The book will be a great help to the club. The Phebe K. Warner is a credit to Tahoka and is doing much good as an educational agent.

TO HOLDERS OF SECOND LIBERTY LOAN 4 PER CENT BONDS EXCHANGE OFFERING OF NEW TREASURY NOTES

Second Liberty Loan bonds have been called for payment on November 15th next, and no interest will be paid after that date. Notice is given of a new offering of United States Treasury notes, in exchange for Second Liberty Loan Converted 4 1/2 per cent bonds. The new notes will be dated September 15, 1927, and will bear interest from that date at the rate of 2 1/2 per cent. The notes will mature in five years but may be called for redemption after three years. Interest on Second Liberty Loan Converted 4 1/2 per cent bonds surrendered and accepted in exchange will be paid to November 15, 1927. The price of the new issue of notes, is 100 1/2. Holders surrendering Second Liberty Loan Converted 4 1/2 per cent bonds in exchange will receive, at the time of delivery of the new notes, interest on each Second Liberty Loan Converted 4 1/2 per cent bond from May 15, 1927, to November 15, 1927, less the premium on the new notes issued. Holders of Second Liberty Loan Converted 4 1/2 per cent bonds who desire to take advantage of this opportunity to obtain Treasury notes of the new issue, should arrange with their bank for such exchange at the earliest possible date, as this offer will remain open only for a limited period after September 15th. Further information may be obtained from banks or trust companies, or from any Federal Reserve Bank. A. W. MELLON, Secretary of the Treasury. Washington, D. C., September 6, 1927.

National Guard To Greet Lindbergh

ABILENE, Sept. 7.—All National Guard units in the territory contingent to Abilene have been invited to attend the Lindbergh celebration in this city on September 26.

Assurances have been received, W. G. Kinsolving says, from the commanding officers of the Snyder, Merkel, and Ballinger companies that their organizations will be here with each man in uniform and carrying regulation army rifles. He is expecting during the next few days from the others invited and hopes to have at least 500 uniformed militiamen in Abilene for the ceremonies to be held on the day Col Lindbergh visits West Texas.

Abilene's three companies of guardsmen will take part in the program at full strength. During part of the day the soldiers will assist in directing traffic, parking vehicles and in other ways.

With the assistance to be had from the military units, it is thought that the civil officers of Abilene and Taylor county will be able to handle the mammoth throng expected to be here for the event with a minimum of confusion and disorder.

It is the aim of the committee handling arrangements for this occasion to do everything possible to keep down accidents, embarrassment and anxiety.

Meadow Receives First Bale Cotton

The first bale of cotton for the season, was brought in Saturday by B. K. Wisdom, living ten miles east of town. The bale was ginned by the Handley gin and weighed 470 lbs., grading strict middling with a staple measuring one inch. The bale was bought in by The Jones Hardware Co., paying 25 3/4 cents, with a \$31.50 premium, made up by the business men of the town. It took only 1,340 pounds of seed cotton to make the 470 pounds of lint. Mr. Wisdom has about thirty acres of early cotton and says he will gather four or five bales next week. The later cotton, he says, it not opening as fast as the early thirty acres, but if frost don't catch it, he will make a good yield even though it is a little late.

Gas Turned On In Lubbock

Wednesday night gas was turned into the mains at Lubbock to test the pipes. A pressure of 50 pounds was registered at the turning in of the gas, and later rose to more than 400 pounds.

"Lubbock citizens are anxiously awaiting the day when they will be able to have the gas for use in their homes," says the Avalanche. Work on the line to Slaton is being rushed and it is expected to be filled with gas within a few weeks.

ATTENTION, MR. FARMER!

Just a word in regard to our gins in Tahoka; Will say I have bought an interest in both of the West Texas Gins and have put in quite a lot of new machinery, and we are prepared to give you the best of service.

We will be in the cotton market and will see that your cotton brings the highest market price. Mr. W. O. Henderson will be our cotton man.

Our gins are now ready to run. Give us a part of your of your business and I will assure you that it will be appreciated, let it be large or small.

I am new in your town, but old in the gin business.

"Service and Courtesy" Our Motto

Handley Gin Co.

M. L. Handley, Mgr.

A FAMILY DINNER

Saturday last was a gala day at the home of Mr. and Mrs. H. C. Crie. Two small grand daughters, little Misses Adella Shook of Waco and Elizabeth Crie of Tahoka, prepared a dinner in honor of their grand-papa, H. C. Crie. The little ladies made a very handsome exhibition of their culinary skill with a course luncheon, the menu of which would have done credit to more advanced artists. The table was dressed in white linen and was spread with the famous old Crie and Griswold silver and China, some pieces of which have had more than a century of use in the homes of these two New England 'first families'. A fern and danthus shower bouquet formed the centerpiece, the color scheme being of green and the varied shades of dianthus. Place cards indicated chairs for the guest-of-honor, H. C. Crie, Mrs. H. C. Crie Mrs. Elizabeth Adair, Chris L. Adair, Mrs. T. J. Coopwood, Del Rio. Miss Adella Shook, Waco; and Miss Elizabeth Crie. Four courses, followed by ice cream, cake and watermelon was greatly enjoyed, especially by the honoree. The "guests" look forward to a future occasion when they may again enjoy the result of the culinary skill and graceful serving of the two young hostesses; who prepared such a pleasantly memorable occasion for the elder member of their admiring family.

Mr. and Mrs. Will Humphries of Austin, the first couple to be granted a marriage license and the first couple to be married in Lynn county are here this week visiting Mrs. Humphries' parents, Mr. and Mrs. W. C. Cowan. Mr. Humphries expects to return home today, while Mrs. Humphries will remain over next week to attend the family reunion in honor of Mr. and Mrs. Cowan's golden wedding anniversary.

NOTICE TO THE PUBLIC

We, the undersigned physicians of Tahoka, O'Donnell, Wilson, and Post have met and organized a "Physicians Scientific and Business League, Lynn County Unit." The purpose of this organization is to discuss subjects of scientific interest to the medical profession and to the public; and to adopt a system of uniform fees, also some effective cooperative method of collecting the same. Believing that the Doctor is just as much entitled to his pay as the Banker or Merchant, we have agreed that those owing us for medical services in the past, and who have not made any settlement, or any arrangements to have their accounts carried, should do so within a reasonable time if they expect further service and credit. Some people will patronize one doctor for a while and then he wants his money they change and impose on another doctor for a while and not pay either. We have decided to inform each other of this kind of patron, and keep each other posted in regard to him.

We would like to advise the public that cash is expected for confinement cases, unless other arrangements satisfactory to the Doctor have been previously made. We necessarily must have some cash to keep our expenses up. As confinement cases are expected several months in advance one can arrange to have the money or can arrange beforehand with the doctor for credit. Other kinds of cases arise often without notice and of course we can make allowances for them. But a doctor bill is due when the case is dismissed, and we naturally and justly expect some kind of a settlement. If the account is carried it is done only as a matter of accommodation.

However we do not wish to be unjust to anyone and will give plenty of time and make any other allowances, the circumstances in any individual case seem to justify. If you are strictly charity, we will take care of you without pay, but if you own and operate a car, or if you pay other bills we expect you to pay your doctor bill.

This notice is not intended to apply to our good patrons, but only for those who are inclined to forget the doctor after they get well.

South Ward Items

Some people of this community are beginning to pick some cotton. Mr. Hood of our community has left to hunt work. We all wish him success.

The singing at Mr. A. C. Samford's was enjoyed by all who were there. The teachers of this community motored to Lubbock Friday.

Mrs. Looney visited Mrs. A. C. Samford Monday afternoon.

Mr. and Mrs. R. M. Hunt is visiting Mr. Hunt's folks of Redwine this week.

Miss Marie Driver of New Home and Miss Vera Eason spent Saturday night with Miss Thelma Smith.

Mr. and Mrs. G. E. Lockhart of Lubbock spent Saturday night and Sunday with Mr. W. E. Hammons and family.

Mrs. J. R. Pinkley and little son, J. R. Jr. left Wednesday for Matador where she will visit with her parents, Mr. and Mrs. M. L. Smelser.

Mr. and Mrs. G. T. Smith and children left Wednesday for Ford county, where they will make their future home.

Mr. and Mrs. W. E. Hammon attended the meeting of Bethel last week where Brother B. G. Richburg of Big Spring was holding a meeting. He spent Monday nite with Mr. and Mrs. W. E. Hammons, as he was an old acquaintance of theirs.

They have known him for 19 years. They were members of his church in Eastland county, and he certainly is a good preacher.

Mr. and Mrs. J. L. Kirkpatrick and children, Mr. and Mrs. C. A. Pinkley of Joe Stokes spent Sunday afternoon with Mr. J. T. Pinkley and family.

Our school has begun and is progressing nicely.

We are still having Sunday school here and wish every one would attend.

People of this community are attending the Association at Tahoka this week.

—REPORTER

Miss Myrna Fancher of Pride visited relatives and friends in Tahoka Tuesday.

Mrs. L. C. Leftwich of Dallas is visiting her sister, Mrs. H. P. Burkhalter, who lives east of town.

HALL TO HOUSE

FIRE STATION

Provides Space For City Offices
Trucks, Storage, Club Room
And Bank Room

At a meeting of the city council Tuesday night, the construction of a new fire station was authorized and John Hickerson was employed to superintend the construction of the building. Work begins immediately.

The building is to be constructed on the site of the old building, which is being moved further back on lot to be used as a storage room. The tabernacle occupying the lots will be allowed to remain temporarily at least for the use of people of the city.

The new structure is to be a fr building, with stucco finish, and estimated cost is \$4,000.00. Dimensions will be 30 x 40 feet. It will consist of four rooms, as follows: one room for the housing of the City's two fire trucks; a lot of this at the rear will be the office; and in the rear will be a room to be used as a club room firemen's office. There will be another small room to be used as a bath room and toilet, and also a storage room. There will be a concrete sidewalk at the front, along the east side of the structure. The work of construction is rushed to completion and it is expected that the building will be for occupancy within a few weeks.

Pioneer Couple

Celebrate Golden

Anniversary

As Miss Marie Warren sang "Silver Threads Am Gold" with violin accompaniment Mrs. Ben T. Brown, Mr. and C. Cowan, pioneer residents of county, took their places at a table in their home in north Tuesday afternoon at three and when the strains of music had died away they pledged to each other that just as they had done fifty years before, Rev. B. N. Shepherd, using the beautiful Golden Wedding anniversary.

Mr. and Mrs. Cowan of Lynn county a few miles of Tahoka twenty-five years have called this home. They not only reared a fine children, all of whom were helped them enjoy the life they have accumulated friends, many of whom witnessed the ceremony on the day to do honor to the couple. Four generations of the Cowan family were present.

Members of the immediate present were: Mr. and Mrs. Warren and three daughters Hereford, Mrs. W. F. Hill little daughter of Austin Mrs. S. W. Cain and two Canyon, Mr. and Mrs. Ter and three children of Mrs. T. B. Cowan's son of Tahoka. T. B. Troy Cowan, grandson, and Mrs. Henderson, of sides those named were Steen, editor of the Miss Annie Mae McCall Mr. and Mrs. C. G. and Mr. and Mrs. Guy land, all intimate friends.

Friends in Tahoka to mention, attended fair, and at night the select band called and certificates of stirring delight of the honor members of their families. All Tahoka hopes Mrs. Cowan may yet years in which to

BAPTIST ASSOCIATION IN SESSION HERE

(Continued on last page)

are being made today. The next meeting place will also be decided today.

The Associational Board, composed of one member from each church, voted yesterday to put a missionary on the field again. This work was dropped several months ago.

The Sunday School and B. Y. P. U. meeting was held Wednesday night, and reports were made on this work in all the churches. Mr. Mason of Lubbock was the principal speaker of the evening.

Among the principal talks of Tuesday were those by President and Mrs. McDonald of Wayland College, Plainview. Each made forceful addresses in the interest of Christian education. An inspirational address by Mrs. Joe Wilson of Idalou and another by Rev. E. V. May of Brownfield were also outstanding numbers on the program.

Others who appeared on the program during the day included the following: Mrs. M. I. Davis, Close City; Mrs. Pounds, Brownfield; Mrs. Jeff Higginbotham, Tahoka; Mrs. I. S. Doak, Tahoka; Rev. Graves Darby and Mrs. Darby, Wilson; Miss Mary Preston, Tahoka; E. V. May, Brownfield; Rev. M. I. Davis, Close City; Mrs. J. W. West, Wilson; Mrs. B. H. Holloway, Slaton. and Miss Eleanor Barker, Tahoka.

Through negligence on the part of The News, we failed to announce to the world the arrival of a baby girl in the home of Mr. and Mrs. R. W. (Buster) Fenton Jr. on Tuesday, August 31st. She weighed nine pounds.

J. A. Brashear sold his home on Main Street last week to Marshall Swan.

Mr. and Mrs. M. L. Handley and daughter, Lavada, visited in Meadow Sunday.

Closing Songs—Higher Ground; God Be With You Till We Meet Again.

Benediction.

HIGHWAY NO. 9 ASSOCIATION MEETS AT BIG SPRING

(Continued from First Page)

ico and that this was done in the face of strong competition and there was some hint of withdrawing the federal designation and re-routing the highway unless some move should point to a concerted effort to make it a first class highway. It was further pointed out that the state looked with more favor upon this highway and was more anxious to get the gaps in this highway closed up than any other highway in Texas; for that reason the state with the help of the federal government was ready to give two-for-one aid on this highway. A note of warning was sounded that the time might come when each county would be permitted to keep its own money in the county with which to build its highways, in which case the counties containing the seven largest cities would get as much as half of the money now being spent on highways by the state. It was also pointed out that there is agitation for the state to take over the road-building of the state as a whole and refund to the counties what has been expended for highway building, in which case counties that had already built road would receive a refund of the money, which refunding would deplete the road-building funds for several years and prevent any further state aid for that length of time. These statements are passed on for what they might be worth.

A motion was made by Wild of San Angelo that the President appoint a committee to gather data and statistics to show the advantages of the paving of the highway to the counties through which it passes. It was suggested by Secretary Watson that the four counties of Howard, Dawson, Lynn and Lubbock might make a concerted effort toward the hard-surfacing of the road from Lubbock through Howard county, and that the County Judge and Commissioners Court of each county might get together and work out a plan of action and set a time that would be mutually agreeable.

During the course of the discussions it was pointed out that at one time appropriations were made to each county along the entire line of highway No. 9 by the state for the improvement of the highway. While the amount at that time was not sufficient to hard-surface the road, it was evidence that the state has always been ready to help put the project over.

Highway Commissioner Ely sent regrets at his not being able to attend the meeting. Commissioners Sterling and Johnson assured the delegates that the state was ready to match the counties with a sixty-six and two-thirds appropriation.

Hale county has voted bonds in the amount of a million dollars for the completion of this and other highways. Randall county has the money ready and has already settled definitely the location of the route. Tom Green is now completing the work of hard-surfacing the road to the Concho county line. Concho and McCulloch counties have their local problems that must be solved at the time of the highway building. All in all Lynn county is about as far advanced toward completing the project as any other county along the line with the exception of Potter,

Anti-Theft Ass'n Enrolling Members

There are now thirty members in the Lynn County Poultry Association as a result of a membership campaign being conducted by the farmers and other producers of the county in a stamp out the theft of chickens which has been so prevalent the past year.

The Association was organized weeks ago with 17 members. The meeting last Saturday of a number of new members signed up. Another meeting is scheduled for Saturday afternoon at 2 p. m., when members will be enrolled for branding the fowls.

Fifty or sixty chickens were stolen in the T-Bar community on the night of Sept. 7 and 125 were stolen of O'Donnell on the following night. The organization will seek to stop to much of this theft by flying stolen chickens by the fowling.

September 14, A. M.—Lynn—H. J. Bingham.

September 15th, P. M.—New Home—H. R. Minor.

September 16, A. M.—Draw—C. C. Johnson.

September 21, P. M.—T-Bar—R. L. Moore.

Will make other announcements later.

(Millie M. Halsey, C. H. D. A.)

The state of Texas has a very small bonded indebtedness and all of it is owned and held by the permanent funds of the public schools and state institutions. At the close of the last fiscal year the total of this debt was \$4,002,200.

Mr. Junior Robert has gone to Slaton to join his father in work there.

A good rain fell here Monday.

ERROR MADE IN OPENING DATE OF NEW STORE

In announcing the opening of the Saway's Dry Good Company last week, The Lynn County News stated that the new store would open Friday, September 19, when we should have said September 9. We wish to apologize to Mr. Saway for this error. His store is already open for business.
