

Lynn county, in the heart of the best diversified farming country in Texas.

# The Lynn County News

We invite you to locate in beautiful Tahoka. Good homes, good schools, good churches.

Volume XXIV

Tahoka, Lynn County, Texas, Thursday, September 22, 1927

Number 4

## Work Is Started On New City Hall

### HALL TO HOUSE FIRE STATION

Provides Space For City Offices, Trucks, Storage, Club Room And Bunk Room

At a meeting of the city council Tuesday night, the construction of a new fire station was authorized and John Hickerson was employed to superintend the construction of the building. Work begins immediately.

The building is to be constructed on the site of the old building, which is being moved further back on the lot to be used as a storage room. The tabernacle occupying the city lots will be allowed to remain temporarily at least for the use of the people of the city.

The new structure is to be a frame building, with stucco finish, and the estimated cost is \$4,000.00. Its dimensions will be 30 x 40 feet and it will consist of four rooms, as follows: one room for the housing of the City's two fire trucks; alongside of this at the front will be the city office; and in the rear will be a bed room for the fire boys and another room to be used as a club room and firemen's office. There will also be another small room to be used as a bath room and toilet, and also a small storage room. There will be a concrete sidewalk at the front and along the east side of the structure.

The work of construction will be rushed to completion and it is expected that the building will be ready for occupancy within a few weeks.

### Pioneer Couple Celebrate Golden Anniversary

As Miss Marie Warren tenderly sang "Silver Threads Among the Gold" with violin accompaniment by Mrs. Ben T. Brown, Mr. and Mrs. W. C. Cowan, pioneer residents of Lynn county, took their places at the altar in their home in north Tahoka Tuesday afternoon at three o'clock, and when the strains of the music had died away they again pledged to each other their troth, just as they had done fifty years before. Rev. B. N. Shepherd officiated, using the beautiful ring ceremony. It was the occasion of their Golden Wedding anniversary.

Mr. and Mrs. Cowan located in Lynn county a few miles southeast of Tahoka twenty-five years ago and have called this home ever since. They not only reared a fine family of children, all of whom were present to help them enjoy the occasion, but they have accumulated a host of friends, many of whom either witnessed the ceremony or called later in the day to do honor to the elderly couple. Four generations of the Cowan family were present.

Members of the immediate family present were: Mr. and Mrs. G. B. Warren and three daughters of Hereford, Mrs. W. F. Humphries and little daughter of Austin, Mr. and Mrs. S. W. Cain and two children of Canyon, Mr. and Mrs. Charles Harter and three children of Happy, Mr. and Mrs. T. B. Cowan and two children of Tahoka. T. B. Cowan Jr. and Troy Cowan, grandsons, and their wives, and W. O. Henderson, nephew, and Mrs. Henderson, of Tahoka were also present. Out of town guests besides those named were: Miss Faye Steen, editor of the Happy Herald, Miss Annie Mae McClure of Canyon, Mr. and Mrs. C. Gollihar of Balls, and Mr. and Mrs. Guy King of Level-land, all intimate friends of the family.

Friends in Tahoka too numerous to mention, attended the happy affair, and at night the Tahoka Concert Band called and rendered a few selections of stirring music, to the delight of the honored couple and members of their family.

All Tahoka hopes that Mr. and Mrs. Cowan may yet be allotted many years in which to enjoy life and to

### ANOTHER RAIN VISITS COUNTY

Heavy Showers Cover Nearly All Of County; Are Accompanied By Low Temperature

Rain covered most of the northern and western portions of Lynn county again Sunday and Sunday night. A heavy rain is also said to have fallen at Draw and over a large portion of the southeastern portion of the county. A light rain fell at O'Donnell but a few miles west of that place it was heavy. Mr. Waldrip reports that the rain was light at T-Bar and W. D. Nevels says that very little rain fell at his ranch on the western line of the county, but there was a terrific rain a few miles west of Tahoka. New Home and Dixie were again visited with good rains. Wilson received a good rain while Southland just over the line in Garza county was drenched. Very little rain fell east of Tahoka on the Post road. The precipitation in Tahoka amounted to .56 of an inch.

The skies cleared Monday afternoon and the sun has been shining brightly since. If cold weather will delay its coming long enough and if storms do not appear in destructive numbers, these rains will be of material benefit to the cotton. The weather was so cool Sunday and Monday as to give rise to fears of an early frost.

The rain on Wednesday of last week covered much territory north and west of town also. In some places it was very heavy. J. D. Sossaman reports that two or three inches fell in the Dixie community, and they have had all the rain they need throughout that section of the county.

### OIL LEASES BEING RETURNED

Notice is hereby given to all land owners who have given to me oil leases in the block of land north of Tahoka, that these leases are being returned to the owners. If you desire your lease mailed you, send in your correct address and lease will be mailed. We had procured a contract, duly executed, to have a well drilled on this block provided all the land owners would lease their land, but two of the land-owners near the center of the block refused to lease their lands and for that reason the proposition must be abandoned. We are very sorry that we have been unable to get this land blocked, and we wish to thank those who did give leases and who assisted us in any way in this matter.

Very Respectfully,  
W. C. WELLS

### Press Ass'n. Will Meet In Lamesa

The program committee of the West Texas Press Association, met in Colorado recently and fixed the date of the next meeting of the West Texas Press Association as October 21-22.

This Association was organized at Colorado last November and meets twice each year. The second meeting was held a few months ago in Sweetwater.

The association embraces all of west Texas. At any rate newspaper men any where in west Texas are eligible to membership. There was only a one day meeting at Colorado and also at Sweetwater, but the meeting at Lamesa will be a two-days affair and a large crowd of newspaper men is expected. The objects of the organization are chiefly social.

### AMERICAN LEGION BOYS HAVE MEETING TONIGHT

The Marion G. Bradley Post of the American Legion will have their regular meeting tonight, with some important business to attend to. All ex-Service men are urged to be present.

D. H. GOODNOUGH, Post Com.

add to the happiness of others, as they have done in the past.

## CROP EARLIER THAN IN 1926

Cotton More Nearly Gathered Over State As A Whole Than It Was Last Year

The Texas cotton crop on the whole seems to be earlier than last year, according to report of ginnings prior to September 1, made by the Department of Commerce. There were 925,522 bales ginned prior to September 1 against 487,862 bales ginned prior to September 1, 1926. While the crop on the plains is later than last year's crop, it seems to be earlier in other parts of the state than last year. While no cotton had been picked on the plains prior to this date, the major portion of the crop in a number of south Texas counties had been gathered before the end of August. For instance, in Nueces county more than 88,000 bales had been ginned prior to September 1. Since the crop is both shorter and earlier than last year, the picking season in all sections except the plains and some other parts of west Texas will be over much earlier than last year. Picking will hardly begin in earnest on the plains before the first of October.

We give below the number of bales ginned prior to September 1, 1927, as compared with the number ginned prior to September 1, 1926, for a number of Texas counties:

County	1927	1926
Nueces	88,224	51,057
San Patricio	51,472	33,200
Williamson	34,445	2,755
Hidalgo	29,571	70,791
Karnes	29,352	20,199
Fort Bend	27,304	5,626
Wharton	26,395	5,466
Victoria	19,225	4,170
Ellis	18,066	1,650
Milam	16,522	2,940
Cameron	16,437	43,924
De Witt	16,253	13,034

Reports from the following central Texas counties show that the crop is considerably earlier in that section of the state than last year:

County	1927	1926
Bell	11,628	2,189
Falls	14,524	2,688
McLennan	13,423	2,040
Limestone	11,457	836
Navarro	12,909	738
Hill	7,725	492

### Kiwanians Plan Regular Programs

At the Kiwanis luncheon Wednesday, President Harry Smith appointed Judge C. H. Cain, W. B. Slaton, and L. C. Haney to prepare a list of questionnaires as to what matters should be given attention by the club for the remainder of the year.

Quite a lengthy list was submitted at the beginning of the year, but for some reason the club has been running for several months without any definite program and the attendance upon the meetings has consequently fallen off considerably. An effort is to be made to adopt some kind of an objective for the remainder of the year and to revive interest in the work.

At the meeting Wednesday W. O. Henderson made a report on the district convention held recently in Corpus Christi, which he and Sheriff J. W. Simpson attended. Judge Price of Post and Mr. Rice of Joe Stokes were guests of the club, and Judge Price responded briefly to calls for a speech. The Wells-Edwards Orchestra furnished music for the occasion.

### Cotton Is Coming In Very Slowly

Due to the rains which covered most of the county Sunday and to the cool, damp weather which has prevailed most of the time since, the cotton has been opening very slowly and very little picking is being done. Each of the gins here has ginned only a few bales. Public weigher R. C. Wood reports that 65 bales had been weighed at the cotton yard late Wednesday afternoon.

Cotton is worth a little better than 20 cents. Seed are selling at \$32.00 per ton.

Come in to the county club fair Friday and Saturday. You will enjoy the exhibits.

## GRAND JURY IS IN SESSION

Work Of Court Begins Monday; Judge McGuire Pleads For Jury Action

The fall term of the district court opened Monday morning, with Judge Gordon McGuire on the bench and district attorney T. L. Price, district clerk W. E. Smith, and court reporter Conley present.

The first work of the court was the selection and empaneling of the grand jury, which is composed of the following gentlemen: Walter May, foreman, Jim Bannister, R. L. Beat- tie, J. P. Bowlin, J. K. Callaway, R. C. Carroll, C. O. Carmack, J. M. Noble, L. H. Moore, J. H. Smith, J. A. Loyd and John Sanderfer.

In instructing this body as to its duties, Judge McGuire stated that he is of the opinion that crime is on the decrease in this state in those localities where the courts, the peace officers, the grand juries, and the petit juries are "getting down to business." In this connection he spoke of the cry for court reform that has been heard on every side for the past few years. There is probably need for a reform of procedure in some respects, he said, but the rules of procedure for the most part have been well thought out and are the result of long experience. The best brains have been employed in devising them through long years and through generations, and they are not to be lightly discarded for something that is untried. There is a reform that is much needed, however, and that is what may be called "man reform," he continued. We are in the habit of regarding the law too much as an impersonal thing. Every man should regard the law as "my" law, for the law has been devised for the protection of society. The law is a fence surrounding and protecting the public, and no good citizen should break this fence. He should never permit himself to get on the other side of the fence.

Coming to the matter of crime, the Judge stated that the most serious crimes are the crimes of violence to the person, such as murder, rape, assaults, etc. He charged the jury

(Continued on last page)

### Tahoka Students Off To College

Quite a number of Tahoka young people have gone away to college, possibly not quite so many as last year, however. The following is a list of these who have noted. It is possible that we have overlooked some. If so, we should be glad to have their names next week. The names of students and the colleges they are to attend follow:

Texas Tech at Lubbock: Misses Mary Greathouse, Annette Weathers, Floy Anglin, Doris McGonagill, and Levis Bosworth.

West Texas State Teachers College at Canyon: Mrs. Viva Humphries, Misses Lois Goodrich, Berta Lee Hill, Mary Lynn Scott, Leta Martin, Winnie Freeman, Lillie Belle Slover and Montie Draper.

C. I. A., Denton: Miss Alice Small. Baylor, Belton: Misses Opal Cooper and Hazel Connolly.

Simmons, Abilene: Elie Lam. State University, Austin: Fred Haney and A. P. Edwards.

Yale University, New Haven, Conn: Conrad Lam.

### Little Girl Sticks Nail Trough Foot

Little Dorothy Harter, 3 daughter of Mr. and Mrs. Charles Harter of Happy who were attending the golden wedding anniversary of Mrs. Harter's parents, Mr. and Mrs. W. C. Cowan, suffered a most painful if not serious injury Tuesday when she stepped on a nail, which penetrated entirely through the foot. A physician was immediately called, who carefully dressed the wound, and it is hoped that it will heal without serious consequences.

Mr. and Mrs. T. M. Dobbins of Roscoe came up Saturday to visit their daughter, Mrs. G. M. Stewart, and to attend the St. Tatum funeral at Lubbock Sunday.

## Stage Is Set For County Club Fair

### KIWANIS CLUB VISITS WILSON

Wilson Entertains Royally With Feast; Towns Join In Rendering Program

Those attending the Kiwanis Club meet at Wilson last Friday night report a most excellent meeting. A splendid feast was served by the Home Demonstration Club of Wilson, which the hungry Tahoka crowd enjoyed very much. The Tahoka Concert Band furnished music for the occasion and a snappy program was rendered.

Mrs. Faubion delivered the welcome address on behalf of the people of Wilson and Happy Smith, President of the Kiwanis Club responded. Miss Velma Dawson of Wilson favored the auditors with a vocal solo. Addresses were made by Rev. J. B. Thompson, pastor of the Methodist Church at Wilson, Prof. Faubion, superintendent of the Wilson public school, Judge C. H. Cain and Rev. B. N. Shepherd of Tahoka.

A fine spirit of fellowship and friendship prevailed and it is felt that the good feeling existing between the people of Tahoka and Wilson was strengthened. There is a most progressive citizenship at Wilson, as their splendid school system and excellent churches attest. Our people and the people of Wilson ought to know each other better and to associate with each other more.

### TAHOKA PEOPLE INVITED TO HELP WELCOME LINDBERGH

The News editor on Tuesday received the following telegram from Thomas E. Hayden, Mayor of Abilene, inviting the people of Tahoka to visit Abilene on the occasion of Lindbergh's stop in that city. Many of our people will doubtless take advantage of this opportunity to see the daring young aviator who first succeeded in crossing the Atlantic via the air route. The message is as follows:

"May I have the honor of extending an invitation through the columns of your paper to the people of your community to visit Abilene on Lindbergh day, September 26. We are making plans to give everybody an opportunity to see this most exemplary young man and distinguished citizen, who will be here for two hours, ten to twelve o'clock."  
—Thos. E. Hayden, Mayor.

### Lubbock Visitors Here Last Friday

A number of cars loaded with Lubbock business men, accompanied by the Lubbock High School Band, visited Tahoka last Friday morning in the interest of the Panhandle South Plains Fair.

The welcome address was made by Judge B. P. Maddox and Judge Goodwin of Lubbock responded. A brief band concert was rendered on the streets, after which the visitors hurried away to point's south.

Lynn county is preparing to have a county exhibit at the Lubbock fair again this year, and all farmers who have good farm products are requested to bring same in to the Tahoka Chamber of Commerce Friday. Exhibits will be received at late as 9 o'clock Saturday morning.

### CRIMINAL CASES SET FOR NEXT MONDAY

The criminal docket of the district court has been set for next Monday, September 26, and district attorney T. L. Price has asked that we state that all witnesses both for the State and the defense who have been heretofore subpoenaed are expected to be present without further notice. Failure to appear will render them subject to a fine by the court.

In Athens, Greece, girls under 18 are not allowed on the streets at night without a chaperon.

### MANY EXHIBITS WILL BE MADE

Large Crowd Expected Here To View Them; To Take Display To Lubbock

A county club fair under the direction of county home demonstration agent, Miss Mille M. Halsey, will be held in Tahoka Friday and Saturday. All the women's and girls' clubs of the county are cooperating to make this a most interesting and helpful exhibit of their work.

Under Miss Halsey's leadership, these clubs have been making wonderful progress and have proven to be of incalculable value to the farm women and to all the people of the rural communities as well as to many in the towns.

Their exhibits will be on display Friday and Saturday in the Larkin building.

We hope that the people of Tahoka will show their interest and appreciation by attending this fair.

Mr. Baze, temporary secretary of the chamber of commerce, and Mr. White, teacher of vocational agriculture in the Tahoka high school, have also undertaken to collect a display of farm products, and the prospects are that a fine collection of these will be made. From the products brought in, an exhibit will be prepared for the Lubbock fair. Every farmer who has any kind of fine farm products is therefore requested to bring same in no later than 9 o'clock Saturday morning.

But whether you bring in anything for display or not, don't fail to come in and see the exhibits. Bring all the family. Get acquainted with your neighbors from other communities. Learn more about Lynn county. The more you learn about it the better you will like it. Come to the fair.

### All Are Eligible To Make Entries At Fair—Miss Halsey

The Lynn County Club Fair is to be held in the Larkin Building Friday and Saturday.

Although called a Club Fair, any man, woman or child in Lynn County may enter anything that he or she wishes.

The exhibits will include flowers, fruits, field crops of all kinds, fresh and dried vegetables, soap, sewing, cooking, canning, cottage cheese, butter, and eggs. Also all articles in first, second, third and fourth year club work, women's club work, and single articles for the general exhibit.

As a poultry and livestock show is scheduled for winter we are not entering in that class, except boys' and girl's poultry.

Each poultry club boy and girl will be expected to show two pullets and a cockrel, also his record book, correctly filled out and signed and a story written about his year's work.

Mrs. M. L. H. Baze, who is Chairman of the Better Yards Committee will conduct the Flower Show which promises to be a most attractive and interesting display.

Come to your club fair. Yours sincerely,  
MILLE M. HALSEY, C. H. D. A.

### Premiums Offered For Best Exhibits

Any one in your community who wishes to do so is requested to place on exhibit in the Larkin building at Tahoka, agricultural products of the following kinds: (Premiums will be offered by the business men of Tahoka for exhibits representing the best of each kind. The premiums range from \$1.50 in merchandise to the ginning of a bale of cotton free of charge).

Best 10 heads maize; best 10 heads kafkir; best 10 heads of hegari; best

(Continued on last page)

## Cooking Charts with 6 Famous Cooks

(Courtesy of the Domestic Science Department, Perfection Stove Company)

### VEGETABLES FOR VITAMINES

(Editor's Note: This is one of the annual cooking articles by 6 famous cooks.)

**Vitamines! What are they? We hear about them on all sides. "They are necessary for normal nutrition, necessary for growth," it is said.**

**Their chemical nature is not known. But it is an established fact, that when they are lacking in the diet, health suffers. Certain diseases are attributed to this lack—outstandingly rickets.**

**Vegetables, fruits and milk are rich in vitamins. Spinach and tomatoes contain a higher percentage of vitamins than any other foods.**

#### The Year Around

Can we have plenty of vitamins in the diet the year around? Certainly. And very easily, too, in canned vegetables and fruits, among other things. (Through canning losses the vitamins content somewhat.)

Mrs. Sarah Tyson Rorer, the Philadelphia cooking expert, gives today a few simple rules for canning vegetables.

"Take your stove hot. Put a wash boiler filled with water on a burner, a temper on another, and a large pan of water on the third.

"Prepare vegetables by washing, and spinning when this is necessary." Mrs. Rorer says "Wash in a glass jar, adjust rubbers on top, and screw on the top to test tight."

#### Scald Quickly

"Then open jars, but do not remove the rubbers. Put them, with the lids in one jar, dip over them from the boiler enough water to scald."

"Put the vegetables in a square of muslin, and lower into the top of boiling water for 15 minutes. Lift, drain, and put into the jars at once."

"Add a teaspoon of salt to each jar. Add enough boiling water to fill jar (after vegetables are packed) and place lid once on the jar in the wash boiler or canner."

"Individual wire holders cost but are more easily managed than a solid rack. When the boiler is filled, cover, wait until the water again boils and turn down to low heat."

**Mrs. Rorer's Table for Blanching**

Spinach	10 minutes
Tomatoes to skin	10 minutes
Apparagus	10 minutes
Green Beans	10 minutes
Peas	10 minutes
Peas	10 minutes
Corn, on cob	10 minutes

**Table for Sterilizing**

Spinach	1 hour
Tomatoes	1 hour
Apparagus	1 hour
Green Beans	1 hour
Peas	1 hour
Peas	1 hour
Corn	1 hour
Chicken	1 hour

What a comfort it is to have a stove which needs no watching. One of the modern long-chimney oil stoves has this advantage. Once you set the flames, they will not vary. You can leave the kitchen, and forget all about this stove.

#### Fixing String Beans

Mrs. Belle Le-ral, San Francisco home economics counselor, suggests a new and pleasing way of cooking string beans. String beans are very rich in vitamins. Mrs. Le-ral's recipe follows:

"String and cut beans in two lengths. Cook in a boiling salted water in an uncovered saucepan about 15 minutes. The only exception water to barely cover beans. Drain and season with 1/2 teaspoon salt and a dash of pepper and 1 table-spoon of butter. Put beans aside until sauce is made."

"Put 2 egg yolks in a small saucepan, add 1 teaspoon of flour and 1/2 cup of stock. The stock can either be canned consommé, a bouillon cube dissolved in warm water, or strained soup stock. Cook over a very low fire until sauce has thickened, then add to hot beans. Too fast or too long cooking will make this sauce curdle."

#### Beans Au Gratin

Another good dish is one recommended by Miss Lucy G. Allen, principal of the Boston School of Cookery, string beans au gratin.

"Drain a can of string beans, and place them on a clean cloth to absorb all moisture." Miss Allen says.

"When well dried, put half of them into a shallow baking dish, season lightly with salt and pepper, sprinkle over the beans three tablespoons of grated cheese, and pour over three tablespoons of melted butter. Repeat making two layers and put into the oven to heat and brown about 15 minutes."

#### Glassed Carrots

Miss Allen also gives a recipe for glassed carrots. Carrots also have a high vitamin content.

Wash, scrape and cook five medium carrots. Cut in thin slices. Melt two tablespoons of butter in an enamel pan, and add two tablespoons of cream. Add slices of carrots, and stir well until browned.

Every home with a kitchen pump can now have running hot water. One manufacturer has perfected a simple system of connecting the kitchen pump and the heater. By means of a pipe connection, the hot water is

## South Plains Fair Opens Sept. 27th

Lubbock Sept. 26.—September 27 the "Show Window of the Plains," the annual Fort Worth South Plains Fair opens here at Lubbock and when the gates swing back the display of agricultural, livestock, poultry, and other exhibits, amusements, attractions and other exposition features will be open to the gaze of thousands of Plains people.

All Plains Counties Represented. County exhibits from Bailey, Lamb, Hale, Floyd, Crosby, Hackley, Cochran, Yoakum, Terry, Lynn, Garza, Gaines, and Dawson counties will be seen in the agricultural building. Live stock exhibits include the Largest herd (beef cattle) of Merkel, the Gilt herd (beef cattle) of Odessa, the Taft Ranch dairy herd, and other herd from big breeders known over the Southwest for their fine show stock and about 30 head of baby heaves that have been fed out by Lubbock county club boys. The poultry building will be filled with prize winning fowls. The Women's building will have exhibits of culinary, art, flowers, and other women's products.

The best carnival company in the Southwest will be set up on Mid-Way ready for the eager crowds. Football games are: Lamesa vs Spur; Plainview vs Slaton; Tahoka vs Littlefield; Floydada vs Lubbock; and Texas Tech vs St Edwards University. Fire works each night of the fair will amuse both the young and old. Three troupes will act twice daily.

Lubbock Making Trade Trips. Lubbock merchants are busy visiting South Plains towns re-seeing acquaintances. On these trips the fair is featured and literature and information regarding the fair is being distributed. The first trip was made last Tuesday when Abernathy, Hale Center, Otton, Plainview, Lockney, Floydada, Petersburg, Crosbyton, Ralls, Lorenzo, and Idalou were visited. The second trip is to be made Friday of this week when Slaton, Southland, Post, Tahoka, O'Donnell, Lamesa, Brownfield, Meadow and Ropes will be visited. Next Tuesday, September 20 the third trip will be made including stops at Smyer, Amherst, Littlefield, Anton, and Shallowater.

#### Cars, Windmill, Thousands of Dollars to be Given Away

"Come On Along" is the slogan of these visitors who tell of the attractions, exhibits, and prizes to be found at the fair. Five Chevrolet cars will be given away, thousands of dollars cash for exhibits, a windmill for the best ten heads of maize, and other prizes will be awarded. Dr. I. E. Barr, president of the Fair Board assured the Plains there will be fun and interest for all.

#### Road Dispute In Terry Not Settled

There has been charges and counter charges of people in this county of each trying to hold up the grading of our west road, some true, and some perhaps not true, but in the main mostly the contest for a road has been taken good humoredly, with the people of Tokio wanting the road to continue by their town. You can't blame them for this, some wanting a straight road west to connect directly with the Yoakum county road, but the great majority just simply wanting a road somewhere well built and well maintained. It was hoped that some definite action would be taken by the State Commission this week as to where they wanted the State designated road, but it seems that they have done nothing at this writing. It was supposed at least they would tell their preferences, and that the County Commissioners would, at their Monday session comply with their ideas.

Thus, Terry county has again been delayed in spending the money on the roads that she is justly entitled to and perhaps months will pass without any definite action, and while politics are being played our west side people, not to say anything about thousands of tourists who are passing over a very bad stretch of road, that is not only bad on the wear and tare of motor vehicles, but is causing our county to get a very black eye from tourists, who perhaps think we are too blame for conditions, and we are in a way. In the meantime, these tourists are spreading bad news, bad news spreads very fast and the tourists of 1928 will naturally dodge us.

Too bad that some kind of an agreement cannot be reached and our road got in fine shape for the 1928 season at least.—Terry County Herald.

#### WILL RECONSTRUCTION OLD IRONSIDES

Admiral Andrews, commandant of Charlestown Navy Yard, reports the popular subscription to the fund for the reconstruction of "Old Ironsides," one of the few remaining relics of the American Navy of old time, have reached \$424,966. This represents the pennies of the school children of the United States, the returns from the sale of buttons and the pictures of the old war ship and other contributions. Among the last to be turned into the fund was the sum of \$25,000 raised by Mayor Thompson of Chicago; and other collections are being taken to make up the \$500,000 or \$450,000 additional, which Admiral Andrews says will be needed. There should be no real difficulty in getting this money together, but it is to be hoped that this will be the last time it will be necessary to appeal to the public to do what the government itself should do as a matter of national pride. —The Meadow Review.

#### FREIGHT CARS RUN 14 BILLION MILES

As long as his service is rendered promptly and efficiently, the average man, perhaps, has little thought of the magnitude of the service performed for the country by the railways. The

volume of this service, however, is strikingly shown by figures just issued by the Interstate Commerce Commission showing the results of railway operation in the first six months of this year. In that period, according to the statement totaling almost fourteen billion. Nine billion of these miles were run by loaded freight cars, while to shift the empty cars to the loading points five billion car-miles were required.

These fourteen billion car-miles represented more than 200 million train miles, while to haul these cars and trains, more than 341 million miles were run by locomotives, all within six months.

In the same period, more than 1,800,000,000 miles were covered by passenger-train cars on the Class I railways of the country.

#### GAS HERE TO BE FREE FROM SULPHUR

The natural gas that will be used for distribution here by the West Texas Gas company is free from sulphur and sulphur compounds, and is what is termed a natural, sweet dry gas, it was announced today here by officials of the company, following completion of a test. Many inquiries have been made recently in this connection, but the public may rest assured that the gas is above the average, it was said. No

definite date has been set for turning the gas into the distribution system here, but pressure tests have been completed on the main line and all is in readiness as soon as the distribution system is completed, officials said.—Lubbock Journal.

There were 49,738 marriages performed in Texas in 1925 as against

71,902 in 1924, showing a decrease of 2,254. Figures for 1926 will not be compiled until about December, 1927.

Maleshoe—Construction here started on a 25 x 80 foot building at the business house here. The work is expected to be completed within 30 days.

**MEN'S STUDY-PRAYER LEAGUE HAS GOOD MEETING**

The second meeting of the Men's Study-Prayer League was held Monday night at the Baptist Church, at which time it was decided that the League should meet each Tuesday night at 8 o'clock at the Baptist Church for one hour's study and prayer.

A study course in connection with the devotional services was decided upon. The first book to be studied is entitled "Passion for Men," and the study of this book will be conducted by H. L. Grace. Other books will possibly be taken up after this shall have been completed. Most of the time at each meeting, however, will be devoted to prayer and singing.

This organization grew out of the daily prayer services that were conducted during the revival meetings held by the various churches in Tahoka the past summer. Members of the different churches met together for these meetings and the idea of making these services permanent was suggested and found instant favor, with the result that at the close of the last revival the League was organized.

At the first meeting, which was held on Monday night of last week, fifteen men representing three or four different churches, were present. At the meeting last Monday night more than twenty men and three or four young people were present. The Methodist, Baptist, and Church of Christ were each represented.

resented, and others who were unable to be present Monday night have associated themselves with the organization. Every Christian man of whatever denomination is urged to become a member and all other men are cordially invited to attend the services. Young people, especially boys, are also invited.

The purpose of the organization is that the members may better fit themselves for Christian work and become a more positive Christian force in the town and community.

The League will study the 51st psalm next Tuesday night.

**J. H. HOLLOWAY**

Is ginning and rareing for work, and is able as ever before to give the best of ginning as to sample, turnout, etc. Let us show you. 3fc

**ELIZABETH HUGHES SOCIETY**

The Elizabeth Hughes Society met Monday afternoon at the home of Mrs. R. J. Reed to continue the study of the book of Mathew. The lesson was beautifully taught and discussed by Miss Viola Ellis, after which delicious refreshments of cocoa and cake were served to Mesdames Roscoe Roberts, John Thomas, Byrum West, Herman Turner, N. M. Wyatt, G. M. Reed, Bennie Seago, Misses Viola Ellis, Imogene Flanagan and the hostess, Mrs. R. J. Reed.

—Reporter.

A band concert was given on the public square Tuesday night by the Tahoka Concert Band. It was intended that there should be a meeting of the board of directors of the chambers of commerce in the courthouse following the concert, but the lights were out of commission and his meeting was deferred. Mr. Baze made some announcements, however, concerning the county club fair to be held here Friday and Saturday.

**NOTICE LADIES!**

All women of Tahoka who are interested in the organization of a moral club are asked to meet at the new high school auditorium Friday night at 8 o'clock.

**JUANITA JACKSON**

A number of Tahoka people attended the funeral of L. C. Tatum in Lubbock Sunday afternoon. For many years Mr. Tatum had been connected with the Higginbotham-Bartlett Lumber Company and for the past two years he had been district manager, with headquarters at Lubbock. He had many friends here and throughout this section, who were grieved to learn of his death, which occurred in a Dallas sanitarium, to which he had gone for an operation.

Bring in some products from your farm and your garden to add to the exhibits that will be on display here Friday and Saturday.

**Sargent Visitor To Seven States**

G. C. Sargent returned about the middle of last week from a trip which carried him through or into seven states, including Texas, to wit: Oklahoma, Missouri, Illinois, Kansas, Nebraska, South Dakota and back to his home in Texas.

While Mr. Sargent spent several days in South Dakota while President Coolidge was also vacationing in that state, Mr. Sargent didn't say anything about having met up with the distinguished gentleman from Washington. In fact while Cal was sitting around in the shade or perambulating along the banks of some of the crystal streams of the rugged Black Hills, Mr. Sargent was performing the only manual labor that he executed while on this trip. For five days he assisted South Dakota farmers in threshing their wheat crops. The best land he saw outside of Texas was in Illinois, he thought, but a frost came in that state on August 17, killing the corn over a wide expanse of country. Frost in August is rare in southern Illinois but frosts in September are frequent and Mr. Sargent thinks that the September frosts will likely "get" a lot more of that Illinois corn.

"I was certainly glad to get back to Texas," Mr. Sargent confided to the News man, although he greatly enjoyed the trip. He saw his first steamboat at St. Louis, he declared. They had a whole flock of them there, but not figuring that he would have any use for one in west Texas soon, he brought none of them back with him. He was accompanied on the trip by E. S. West of Ft. Worth, his brother-in-law.

**MUCH WHEAT BEING PLANTED AROUND MEADOW**

For the first time in the history of this immediate section considerable acreage of wheat will be tried out this fall. The farmers have already begun to prepare their land for sowing from fifty to one hundred fifty acres and if this proves a success, this country will increase their acreage more and more every year.

Jones Hardware Co. reports last week the sale of the first wheat drill in this community. S. W. White was the purchaser. Mr. White lives a few miles east of Meadow and states that several of his neighbors will experiment this year by sowing fifty and one hundred acres and if it proves to be a success there will be less cotton and more wheat planted next year.

The farmers are beginning to realize that one crop alone is not a paying proposition, but with some cotton, wheat, corn and row stuff, farming can be made to pay in this section. Diversified farming, together with dairy cows, and poultry flocks, the farmer can be independent and with money in the bank. It is said by old-timers—by men that have lived on the south plains, and made a study of the situation, says that dairying and poultry industries the past few years is worth more than all the cotton that has ever been raised, for it has been shown that these industries can be carried on at a splendid profit, and that farmers can keep the household pantry well supplied with the necessities of life and enjoy many of the luxuries through the medium of the cow and hen.

—The Meadow Review.

Mrs. N. A. Clark of Burleson, Johnson county, left for her home Monday after a few days visit with her cousin, Mrs. G. T. Brewer. Mrs. Clark came to place a daughter in the Texas Tech and to see our country. This was her first visit to the plains and she was delightfully surprised at the wonderfully fine country that she found. She expressed herself as being greatly pleased not only with the country but with the little city of Tahoka. She has more than two sections of land in Lynn and adjacent counties, and after seeing the country she places a much higher valuation upon her holdings here.

The proposed road bonds in the sum of \$1,500,000 again lost at an election held last Saturday, in Haskell county, incomplete returns showing a vote of 1648 for the bonds and 1113 against them. A two-thirds majority is necessary to authorize a bond issue. An election was held in August on the same proposition, when the issue lacked only a few votes of receiving the required two-thirds majority.

A franchise was recently granted by the city council of Post to the West Texas Gas Company, according to the Post Dispatch. The service rate is the same as that contracted with the City of Tahoka. Construction is to begin May 1, 1928, and to be completed December 1.

**CROP CONDITIONS IN TEXAS**

The Santa Fe Railroad Company has sent out a bulletin recently on crop reports from the South and Southwestern states. In its report of Texas' crops it states:

In the greater portion of the state the monthly progress of cotton ranges from poor to fair, due mainly to increased weevil activity and dry weather. In many localities cotton bolls have opened prematurely. Where picking has been completed, the total yield has been about 75 per cent of last year's crop, or less. North Texas picking is well under way, with an out for a 25 per cent reduction in yield. Market indications are that greater monetary returns will come from the short crop than came from the heavy crop last year.

An abundance of feed is assured over practically the entire state. Pastures have held up well, but most sections now are showing effects of dry weather. Livestock prospects are more encouraging than they have been since the war.

Rice growers are having an off-year, both in quantity and quality. Much of the current crop is going in storage.

Sweet potatoes in East Texas averaged about 200 per acre. In the absence of storage facilities, the weak markets are causing many growers to feed potatoes to stock.

Greater crop diversification is being practiced than heretofore, and in general farms are in excellent condition.

—The Meadow Review.

If you want Lynn county to make a good showing at the Panhandle Plains Fair at Lubbock, bring in samples of your products Friday or early Saturday morning. The exhibits will be on display in the Larkin building.

The public schools of Lamesa opened Monday, September 12, with an enrollment of 886. This was a decrease of about 90 pupils from the enrollment at a corresponding date last year, the decrease coming chiefly in the intermediate grades.

J. H. Wyatt, who underwent a serious operation in a Lubbock sanitarium a few weeks ago, is reported to be mending slowly. He will probably be in the sanitarium two or three weeks longer yet.

Quite a number of Tahoka people went to Lubbock Sunday afternoon to hear Gov. Dan Moody's address to the Freshman class of the Texas Tech. They say that the Governor made a fine address.

In 1926 cooperative livestock shipping associations and other local associations, about 5,000 in number, handled approximately \$400,000,000 worth of livestock for members.

The Tahoka Concert Band will be on the job for an hour Friday afternoon and an hour Saturday afternoon. Be on hand to hear these concerts.

J. D. Knoy and family of Wayland, Stephens county, came in Monday afternoon for a few days visit with his father, G. W. Knoy and other members of the family.

Mr. and Mrs. Harley Henderson returned Sunday from South Texas points where they spent the summer. Mr. Henderson will buy cotton here this fall.

Mrs. T. H. Sears of Whitewright is here visiting her mother, Mrs. A. J. Lewis, and her sisters, Mrs. H. M. Larkin and Miss Lola Lewis.

Mr. and Mrs. N. J. Cogburn of De Leon and their son, Fayette Cogburn of Littlefield, were visitors of Mrs. Jack Corley Tuesday.

A. M. Willingham underwent a minor operation in a sanitarium at Lubbock a few days ago and is reported to be recovering nicely.

When you order bread from your grocer, don't forget to call for City Bakery product.

**Gas Spoiled Sleep, Made Her Dizzy**

"For years I suffered from gas and constipation. Used to get headaches and dizzy spells. The first dose of Adlerika gave me relief. Now I rest well."—Mrs. B. Brinkley. Just ONE spoonful of Adlerika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowels and removes old waste matter you never thought was there. No matter what you tried for your stomach, Adlerika will surprise you.—Thomas Bros. Drug Store.

**Lynn Co. Day At Lubbock Fair**

Next Thursday has been set apart as Lynn County Day at the Panhandle South Plains Fair at Lubbock. School children will be admitted free. It is possible that the school children of Tahoka will go in a body. Others should do likewise. The Tahoka Concert Band has been engaged to furnish music for the occasion. Other counties on the south plains will have their special days. Lynn county should not fail to make a great showing. She can do it if her people will take the proper interest. Let's all go to Lubbock next Thursday and boost for Lynn county.

Mrs. Hubert Davis and small son are here visiting her parents, Mr. and Mrs. E. S. Davis.

Always call for City Bakery bread and you will make no mistakes. adv

**WHAT OF THE DEMOCRATIC FUTURE?**

William Gibbs McAdoo has announced that he will not be a candidate for the Democratic nomination for the Presidency.

Natural there are widely variant views as to what effect his announcement will have upon Democratic politics.

While we do not believe that McAdoo could have been nominated had he become a candidate, yet he might have mustered such strength as to prevent the nomination of Governor Al Smith. His announcement leaves Al Smith as the only outstanding candidate for the nomination. With

McAdoo out of the running, the opposition to Smith will be compelled to hunt another man around whom to rally their forces.

Can such a man be found? To us it seems doubtful. There seems to be just now a distressing dearth of presidential timber in the Democratic forests. No other name can be called that inspires great confidences and enthusiasm. With Wilson and Bryan both dead and no worthy successors, the Democratic party seems to be in a bad way. It is true that some new man may throw himself into the breach, that some new luminary may burst suddenly forth in the Democratic skies, that even after the convention meets some comparatively obscure man may take the convention and the country by storm as William J. Bryan did in 1896, but unless something like this does occur it seems to us that the situation is well nigh hopeless. Unless something like this does occur, Al Smith will be nominated and the party will be committed through its candidate if not through its platform to a wet program.

What will be the result? The Democratic party will meet the worst Waterloo in its history. The party itself will be divided. Hundreds of Democrats in the South and West will refuse to enlist under the beer-soaked banner of Al Smith and the Tammany wets. They will either go fishing or nominate a candidate of their own or mount the G. O. P. elephant. They will not assist in the overthrow of prohibition, the ravishing of our federal constitution, and the reinstatement of the liquor saloon in this country. They will not place the kingly crown upon the brow of the tyrant John Barleycorn. The wets will be licked to a frazzle, by the Republican party, and then perhaps the Democratic leaders will again come to their senses. The Democratic party can not survive long with a beer keg on one shoulder and a whiskey barrel on the other.

**MATTHEW KIMES MUST DIE**

Matthew Kimes has been given the death penalty.

A jury in the district court at Okmulgee brought in a verdict Monday night to the effect that the bandit must die.

Under the Oklahoma law, six months must intervene between the assessment of the death penalty and the execution, in order to give the convicted man ample opportunity to appeal.

Whether Kimes will ever be executed for the offense of which he has been convicted is yet extremely doubtful. It is not yet contended that he in person fired the shot that took the life of the Beggs chief of police. He is only charged with complicity in the crime. One of his confederates, Roy Brandon, a hopeless cripple, is said to have fired the fatal shot.

Brandon is now on trial for the murder. If the jury should fail to assess the death penalty against him, it is doubtful if the death penalty against Kimes will be allowed to stand. For, if the higher court should sustain the verdict, great pressure would no doubt be brought to bear upon the governor of the state to commute the punishment to life imprisonment.

There are other members of the gang yet to be tried. Their fate is problematical. They robbed two banks in Beggs and when chief of police McAnally engaged them in battle, he was killed.

While the infliction of the death penalty is a most serious matter, yet it would appear that when men deliberately go out to rob and to kill, the doctrine of an eye for an eye and a tooth for a tooth, as promulgated by the first great law-giver, Moses, affords about the only adequate punishment and the most effective means of protecting society.

The jury said that Kimes must die. If other juries will decree that his confederates must also die, and if the higher courts and the governor shall permit the verdicts to stand, one gang of bandits at least will have met a just fate, and the law will have been vindicated.

We heard men on the streets the first of the week wishing that the rains would cease. Possibly these rains were not needed but rain on these plains always sounds good to us. We are thankful.

**HIGHWAY NO. 9 CAN BE EASILY IMPROVED**

Highway No. 9, from San Antonio to Amarillo, Texas, has the possibility of being made a wonderful road. Paving from San Angelo to Amarillo is highly probable. Already part of the Potter county (Amarillo) highway is paved. Randall county has voted bonds for paving part of the highway, an allotment of \$3,000 per mile has been made for preliminary work on drainage structure in Hale county, bonds for which have been voted. Part of the Highway through Howard county is now paved, part of it through Tom Green County is paved. Sterling sparsely settled, offers the biggest drawback to the paving of the entire road from San Angelo to Amarillo. However, there is a good highway through Sterling county and it is not altogether improbable that it will be paved. Each of the other counties are progressive and are able to carry the burden of road paving.

Beyond San Angelo there is only a short strip of road between San Angelo and Brady that will require pavement. The rest of No. 9 to San Antonio is as nearly an ideal road as one could wish. The country abounds in good road building material and is naturally well drained.

From San Antonio to the southern terminus of the highway the road is now good. Paving it from San Angelo to Amarillo will make it an ideal route—Plainview Herald.

The bank at Buda has been robbed again. Last Monday an unmasked man entered the bank, covered the two employees with a pistol, scooped up fifteen hundred dollars, climbed into a coupe driven by his companion, and made his get-away. This is the same bank that was robbed in a most spectacular manner by a girl bandit last December, a University girl who had been employed as a stenographer in the office of the attorney general. It turned out that the foolish but daring girl was a married woman. Her husband has since been confined in a tubercular sanitarium, and the girl-wife has not, been tried yet, but it is announced that she must face a trial soon. It was a big robust man who pulled off the robbery Monday. It is to be hoped that he will meet a sterner fate than has overtaken the quiet little girl bandit. The death penalty is not too severe in a case of this kind.

The district court is now in session. Let's help our court to be efficient by doing our part as citizens. Every good man who believes in the enforcement of law and the administration of justice will support and sustain our courts and our officers in their efforts to bring the guilty to justice and to protect the innocent against the wicked and the lawless. No man should shirk his duty as a citizen. No man should lend any maudlin sympathy to the criminal. Every man should stand four-square against crime and for the courts. The man who will consciously and deliberately help a guilty man to escape is as guilty as the accused himself. What we need throughout our land is a stronger sentiment for law and order and less foolish sympathy for the criminal.

We believe that the organization of the Men's Study-Prayer League is one of the most significant events in the religious life of Tahoka that has occurred in recent years. In this League, the men of the various churches are coming together on a night in each week for prayer and for study in order that they may become more efficient and worthy servants of their Master. While they differ on some matters of doctrine, their desire to promote the cause of Christ and to serve their fellow men outweighs other considerations. United and working together, the Christian men of this little city should be a virile force for righteousness and right living, such as they have not been heretofore.

The Tahoka public schools are starting off most auspiciously. We are sure that our splendid faculty will have the united support of patrons and pupils alike. We do not expect our teachers to be perfect, to make no mistakes. But if we make them feel constantly that they are laboring in a friendly and sympathetic atmosphere, we greatly reduce the probability of their making mistakes and render it much easier for them to correct any mistakes made. The teachers ordinarily have a hard task. Let's help them to make it as easy as possible.

Claude—Contract has been entered into which will give Claude natural gas by November 1. The rate agreed on is 75 cents per thousand cubic feet, less ten per cent if the bill is paid by the tenth of the month, and plus \$1 a month service charge.

For several weeks now both Dr. E. E. Callaway and Judge H. W. Calaway have been importuning the News to correct the impression that they have gained currency that they are cousins. Each accuses the other of having put out the report and each vehemently denies the accusation made by the other. Dr. Callaway declares that at a recent meeting of the city council Judge Calaway tried to get it made a matter of record that he was a-kin to the Doctor. The Judge, on the other hand, declares that any man who says that he is in the slightest degree related to the Doctor is all kinds of a prevaricator. The News begs mutual friends of these two bellicose citizens to intervene in behalf of peace, for if their differences should result in a personal conflict, they would make a Kentucky feud look like a love feast. The terrible controversy has already raged too long, and we suggest that the good citizens of the town undertake to prevail upon the disputants to cease making these slanderous accusations against each other.

**JUST A RHYME**

**"My Town"**  
I'd make my town the best of all,  
In homes and churches large and tall  
And enterprises great and small,  
I'd have them be the best of all.

I'd prophesy her future good,  
I'd wear the optimistic mood,  
I'd be as loyal as I could,  
And love my town the best of all.

I'd advertise my town as best,  
I'd sing her praise with zeal and zest,  
And place her far above the rest,  
I'd rank my town the best of all.

The preachers, each, I'd recommend,  
And to their churches I would send  
All those who would their ways amend,  
They preach and live the best of all.

The schools are best that's in the land;  
The buildings are wisely planned,  
For all that's good they firmly stand,  
I'd class my schools the best of all.

The doctors try to keep us well,  
For all that's good they have their skill to sell,  
To every stranger I would tell  
"Our doctors are the best of all."

The lawyers, too, will plead our cause  
Relieve our titles of their flaws,  
And dispense justice through the laws.  
Our lawyers are the best of all.

Our business men I'd always praise,  
Because they use their nights and days  
To help us in a thousand ways.  
Their service service is the best of all.

So with my powers clearly loosed,  
My own home town I'll always boast,  
Or else I'll find some other roost,  
That I can think is best of all.  
—C. Lem Sone, Slaton.

**Lynn City**

As we have not heard from Lynn City for some time, we will do our best to give a few items to let the public know that Lynn City is not dead but still on the map.

We have one of the best schools in the county with a large attendance of pupils, and as good a gin as there is in the county. We have ginned one bale and it sold for 22 cents. The premium that was made up was the best of any town in Texas. There is a population of thirteen in our town and the premium amounted to \$13.90. So you see we are ahead of any town on the plains or in Texas. Can you beat that? Don't tell me that Lynn City is not on the map.

Now if you want to live in the best community or in the best town, send your children to the best school, buy the cheapest groceries, attend the church of your choice, attend Sunday school and hear the best lectures on the lesson, get the best job of ginning done and your cotton weighed correct, every ounce that is in the bale, just come over and try for yourself and you will be convinced that we are correct.

We had a nice shower of rain Sunday night. Everything looks good to us.

The city marshal stays right on the job and keeps the streets clear of dogs and hogs, so the school children will not be afraid that they will not get to school.

We had preaching twice Sunday. Sister Jones preached at 11 a. m. and Brother White, one of Tahoka's teachers, spoke at 3 p. m. We tried our best to make an impression on him and I think we succeeded in doing so. You may ask him about it. He told us he was coming again; so come ahead, Brother White, you know a good thing when you see it. All the chickens are not sold yet. We will let you dine with us if you will

heard from him for some time. Well, as this is court week and a good many are going to attend court, we hope everything will work out for the betterment of the county at large. We are expecting to hear from Uncle Jim. He must have gone fishing or visiting, as we have not

**IS IT POSSIBLE ON DIFFERENCE OF SEVEN CENTS?**

**City Tax Rate Fixed at \$1.30**  
At a meeting of the city council Monday night the tax rate for the city was fixed at \$1.30 for each \$100 property valuation. This is the same rate that was assessed last year. The property valuations were slightly reduced this year and it was thought for some time that it might be necessary to raise the rate but the council decided Monday night that it would undertake to make ends meet without a raise in the rate.

At this meeting of the council it was decided also to have both of the city standpipes repainted.—The Lynn County News.

Perhaps the mysterious writer that appeared in the Index last week who voiced his opposition to voting bonds for the purpose of building a water system for O'Donnell will do well to smoke that in his pipe. In his article of last week he concluded with these remarks: "We are a new community with our possibilities in front of us, and I think we should profit by the mistakes of the heavy burdened, tax-laden, towns of the earlier settled part of our state, and not tax the opportunity of successful business, free from the excess expense of things that will be worn out and gone before they are paid for."

Tahoka may not be what the mysterious writer would term an earlier settled town. Be that as it may, the editor of the Index will scatter a few flowers in speaking of our neighbor and county capital. It is apparently one of the cleanest little cities we ever visited, modern in every respect, and one in which prospectors will want to live. Their modern improvements include everything that will be found in the heavy burdened, tax laden, earlier settled towns. They have a modern water system, sewerage, and paved streets, hundreds of modern homes with beautiful lawns and shade trees.

O'Donnell has neither a water system, sewerage or paved streets. Consequently, there isn't more than half a dozen lawns in town and very few shade trees, none of which can be grown without water.

Tahoka's city tax rate has been set at \$1.30 the same as that of last year while O'Donnell is paying \$1.23 with only a difference of seven cents. Tahoka is paying for her modern improvements and enjoying them at the same time. Besides paying for the modern improvements for which she is taxed only seven cents more than O'Donnell, she is saving thousands of dollars in excessive insurance rates. O'Donnell property owners are spending thousands of dollars every year in excessive insurance rates, taking the risk of sustaining a total loss of property by fire because of no protection, and at the same time being denied the pleasure, comfort, convenience, protection and increased valuation of property such modern improvements would add to our city.

We are paying for such improvements whether we have them or not. Would it not be better to have them? Would it not make of O'Donnell a better place in which to live? We are living in a progressive age. We must either progress or die by having the life snapped out of our town by our progressive neighbors. To stand by idle is to go backward. No town can grow and prosper unless it keeps step with the march of progress.

O'Donnell needs a water system

for a thousand reasons. If the voters of O'Donnell want to see the town die, then vote down every public improvement and some day fire will break out in some of our empty business houses and wipe the town off the map, blow the ashes off the Cap Rock, and then there will not be any taxes to pay except on the lots upon which once stood prosperous business concerns. The public square would then be suitable for the planting and growing of more cotton.

**DO SPORES SPREAD ROOT ROT?**

The fungus causing root rot has not been known for many years to have a spore or seed stage and it has been thought by scientists studying the disease that the function of these spores is to disseminate the fungus growth. Spores of this fungus gathered during the present season are being germinated in the Experiment Station laboratory, but to date the fungus threads emanating from these spores have all died. Dr. Taubenhaus, who is directing the studies, is proceeding with the work and hopes to discover definitely whether these spores are able to reproduce the fungus under field conditions. The spores certainly do not behave in the same manner as do the spores of other fungi in that they seem unable to grow in the element in which they germinate.

It is known that the root rot fungus can maintain itself almost indefinitely upon live roots of susceptible plants and that the fungus growth is readily transferred from affected roots coming in contact with them. If this were the only means by which the infestation is spread, then eradication would simply be a matter of cleaning the land of susceptible roots; but if the spores produced by the fungus actually do grow and spread the disease when they germinate, then the disease is spread as widely as the spores are spread, where conditions are suitable for their germination and growth. These spores are light and might be easily spread by the wind or by insects or by various other agencies, and, since they form under favorable weather conditions wherever the fungus is at work, such a finding would disclose the seriousness of the sporadic spread of this fungus growth which kills cotton, legumes and, in fact, almost all of the succulent rooted crops as well as many of the trees and fruits.

Studies in the control of root rot, therefore, involve gaining a knowledge of how the fungus propagates. The broadside attack which has been launched this year by the Experiment Station, under special appropriation for the work, has already revealed a wide distribution of spore spots which have been observed to form under proper conditions of moisture and high temperatures. In fact, experimental work at Iowa Park has resulted in the producing of spore spots at will through regulated irrigation of the land where the fungus is known to be at work and where the temperatures are rather high. It has also been observed that as the drouth conditions have advanced during the present summer the spores have been more difficult to find and it is thought that they do not form under drouthy conditions, regardless of the temperatures. It is known that the fungus works more slowly on the infected roots of plants during a drouth as well as during the winter time than it does when the plants are in vigorous growing condition and no spore spots have been found where the fungus is in this semi-suspended state of activity.

Exhaustive tests are under way in the effort to produce the disease through the germination of these spores in the laboratories. Every effort is being made to provide every sort of condition which the spores might encounter in the field and which would be suitable to induce the disease, but, as yet, no results have been obtained that would throw light on how these spores grow when they germinate naturally, nor for that matter, whether they grow at all. Indeed there is no definite evidence that these spores do produce fungus growth, but until the means of spread of the disease is fully and completely understood, it will be impossible to consistently control or, with certainty, minimize the losses.

The prospects are that old Lynn county is coming back strong. With a good cotton crop and a good price in sight, prosperity seems to be just over the hill. Of course a freeze could yet do much damage, but even if a freeze should come soon much cotton will be gathered anyway, and a big feed crop has already matured. Lynn county is hard to beat.

**FREIGHT CARS RUN 14 BILLION MILES**

As long as his service is rendered promptly and efficiently, the average man, perhaps, has little thought of the magnitude of the service performed for the country by the railways. The volume of this service, however, is strikingly shown by figures just issued by the Interstate Commerce Commission showing the results of railway operation in the first six months of this year. In that period, according to the statement total almost fourteen billion. Nine billion of these miles were run by loaded freight cars, while to shift the empty cars to the loading points five billion car-miles were required.

These fourteen billion car-miles represented more than 303 million train miles, while to haul these cars and trains, more than 341 million miles were run by locomotives, all within six months.

In the same period, more than 1,800,000,000 miles were covered by passengers-train cars on the Class I railways of the country.

Dimmit—Unprecedented building activities are underway here. Among the work is construction of a new school auditorium, costing more than \$3,000. Several business houses are included in the building program. Work is progressing rapidly on the Fort Worth and Denver terminal here.

A bond issue of \$200,000 was authorized by a majority of about three to one in Calhoun county on the Gulf coast last Saturday.

**SHERIFF'S SALE**

THE STATE OF TEXAS, COUNTY OF LYNN

In County Court, Lynn County, J. V. Conner, plaintiff, vs J. B. Clapp, defendant.

Whereas, by virtue of a certain order of sale issued out of the county court of Lynn County, Texas, on a judgement rendered in said court on the 3rd day of May A. D. 1927, in favor of the said J. V. Conner, and against the said J. B. Clapp, No. 387 on the docket of said court, I did on the fifth day of September A. D. 1927 at 10 o'clock a. m. levy upon the following described lots, tracts or parcels of land lying and being situated in Lynn County, Texas, and known as all of Lots No. 3 and 4, in Block No. 3, Shook Addition, to the town of Tahoka, Lynn County, Texas, and on the 4th day of October A. D. 1927, being the first Tuesday in said month, between the hours of 10 o'clock a. m. and 4 o'clock p. m. on said day, at the court house door of said county, I will offer for sale and sell at public auction for cash, all the right, title and interest of the said J. B. Clapp, in and to the above described property.

Dated this 5th day of September, A. D. 1927.  
J. W. SIMPSON, Sheriff of Lynn County, Texas  
Zoe Lowrey, Deputy 2-3c

**SHERIFF'S SALE**

THE STATE OF TEXAS, COUNTY OF LYNN

Notice is hereby given that by virtue of a certain Alias Executio issued out of the Honorable District Court of Lubbock County, of the 5th day of April 1927, by Flora Green, Clerk of said County for the sum of four hundred four and 72-100 (\$404.72) Dollars and costs of suit, under a judgment, in favor of Mrs. Sarah L. Jackson in a certain cause in said Court, No. 2795 and styled Mrs. Sarah L. Jackson vs Ed. C. Russell, placed in my hands for service, I, J. W. Simpson as Sheriff of Lynn County, Texas, did, on the 5th day of September 1927, levy on certain Real Estate, situated in Lynn County, Texas, described as follows, to wit: All of lot 2 in block 92, and all of lots 5 and 6 in block 103 in the town of O'Donnell, Lynn County, Texas, and levied upon as the property of Ed C. Russell and that on the first Tuesday in October 1927, the same being the 4th day of said month, at the Court House door, of Lynn County, in the city of Tahoka, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said Ed C. Russell.

And in compliance with the law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Lynn County News, a newspaper published in said county, on the 5th day of September, 1927.

J. W. SIMPSON,  
Sheriff Lynn County, Texas  
By W. M. LEE, Deputy. 2-3c

**EDITORIALS**

CONTINUED

Pete McKenzie is another murderer who drew a death penalty at the hands of a jury Monday. After being out just twenty minutes the jury said that McKenzie should die. Just a little more than a week before, he had shot and killed on the streets of San Antonio Sam Street, the chief of detectives of that city. He was promptly arrested, tried, and convicted. The old Mosaic law demanded a life for a life, and the San Antonio jury seems to have concluded that the Mosaic law is hard to improve. Of course Mr McKenzie has the right of appeal, and the case may drag along thru the courts for a long time yet, but thus far justice has been flying with swift wings. Whether McKenzie dies in the electric chair or not, he has reason to fear the lash of the law.

**GEOGRAPHY**

The West Texas Chamber of Commerce, the indignation bureau—when necessary—of this big territory, has found it necessary to swing into action to deny allegations contained in a recent issue of a nationally circulated magazine.

The article in question, well written on the whole but evidently compiled from old textbooks and other unreliable sources, refers to the Llano Estacado of Northwest Texas and Eastern New Mexico as a "very dry and almost woodless plateau." The question of "What is the Llano Estacado?" is answered in this fashion:

"The Llano Estacado is a plateau in Northwest Texas and Eastern New Mexico. This plateau, which is roughly 150 miles east and west and 400 north and south, has been known as the Llano Estacado since the Mexican occupation of that region. The term means 'staked plains' in Spanish, and the plateau is now frequently called the Staked Plains. This plateau is very dry and almost woodless. It stands out in prominent relief in contrast to the lowlands around it."

Not enough that you could notice it, says the West Texas Chamber of Commerce. Here are some facts about it:

"The Llano Estacado produces 80 per cent of the wheat grown in Texas, its average crop being worth about 30 million dollars;

"More sorghum grains than any state in the Union outside of Texas, also worth 30 millions a year;

"Enough corn, oats, hay and forage annually to round out a hundred million dollars worth of grains;

"Another hundred million dollars' worth of cotton and cotton seed.

**HOPELESS**

**Weak, Thin, Nervous Woman Gets Strong, Gains Weight.**

Mrs. L. N. Crawford, Jr., of Logansport, La., writes:

"I felt perfectly hopeless.

"Life wasn't worth living, it seemed. I felt like giving up but, you know, a woman with a family just can't do that. I was weak, thin and nervous.

"I tried so many things but didn't get better. Finally I asked my husband to get me some Cardui. After I had taken three bottles, I was like a new person.

"I gradually resumed my work around the house and went places. I quit suffering. Now I am strong, in good weight, and feel fine."

Thousands of women have been helped by Cardui, in a similar way, in the last 45 years.

**CARDUI**

A Vegetable Tonic

area is suited to many other kinds of uses. The potential development of the tract is forecast by the war to build competitive railroad lines into that territory. Very unlike a portion of the "Great American Desert," isn't it? Beware of words from so-called authorities. Too many of the textbooks are compiled from other textbooks, and errors are passed on from year to year. Under-paid professors, who must write a book to make a hit with the college president and the board of regents, are bringing disrepute upon their profession by feeding upon contemporaries or predecessors instead of doing original research.

Publishers are gradually weeding out inferior and inaccurate books, and research from original sources is improving, but there is still need for diligence in combating erroneous statements. The magazine article by the feature writer may be exaggerated often, but the would-be scholar is no better than his source of facts.—Panhandle Herald.

Not only is the Llano Estacado an expansive "desert" but it is a wonderful desert. An aged Methodist minister at Waco, Texas, is trying to dispose of his interest in the Llano Estacado desert. He owns 163 acres of it. He wants that acreage to be converted into cash to make a home for himself. He is Rev. M. S. Hotchkiss, now of Waco, one of the grandest old men Texas ever produced. Last year his holdings in the immense desert produced \$3,000 worth of wheat for him. He likes the desert, has found it profitable, but now wants a home for his old age. The desert will provide for him. Years ago he found out that the geographies slandered a good country and went contrary to their teachings.

The people of this great desert are hungry—hungry for more of its wonderful acres to rest with them in fee simple.

From the bread basket, the great corn belt of the United States, there have come tenant farmers to this great Llano Estacado in all its barrenness. By the sweat of their brow they have eked out an existence—an existence which has kept their families together in good health, provided ample educational facilities, given them independence and home ownership and hundreds of fertile acres of this desert land, even in the poorest years;

"And supports on its broad acre a hundred million dollar's worth of livestock;

"The Llano Estacado in the main has a rainfall of from 22 to 25 inches, the bulk of which comes through the crop growing season. There is also shallow water belt and in many places this water is available at within 12 feet of the surface."

The United States department of agriculture survey states that the while toiling under the load of taxes and interest on land they call their own and farm for the other fellow or on land the other fellow calls his own and lets them farm.

A struggling country town of less than 10,000 population, almost in the center of this expansive desert known each year to more and more people as Plainview, Texas, sustains itself and its banks are custodians for only three or four million dollars of the available cash that the inhabitants of this desert land have accumulated.

A great railroad system, waxing fat off its profits in the more favored sections of the United States, sympathizes with the desert folks and is now undertaking and accomplishing a rail extension into the desert, of greater proportions than any other rail extension in the country for years, just to poop off some of the shekels garnered from the garden spots.

A subsidiary of one of the strong Standard Oil Companies, noted for foolhardy business ventures is planking millions of dollars into an extension of hundreds of miles of gas mains and distributing systems, to protect the people of the desert from the cold of the chilling blasts of rig-

orous winters. Rather than brave the dangers of the desert, or for some other reason, the compilers of business condition maps of this great republic let the great desert area remain white on their maps, indicating best of general conditions.

The pastime of the inhabitants has so long been tracing legends in the sand that the percentage of illiteracy in the desert is so low as to be negligible.

The people of the desert are to be pitied by their more fortunate contemporaries. Humble homes, increasing wealth, growing churches, flourishing schools, independent citizenry are the lot of the inhabitants of the desert which they bear without a murmur, stoic, he-men that they are.—Plainview Herald.

**Editor Attends Reunion Of Family**

The editor returned last Friday from Moody, where he attended a family reunion of the Hill family at and near the old home place. Ten children grew to manhood and womanhood and are all still living. All these with many others were present to do honor to the mother, now, almost 81 years of age, and a happy reunion it was.

While in that section we took a note of the cotton crop, which will probably average a third of a bale per acre. Two months ago, we were told, the yield promised to be heavy, but the dry weather which then set in, the ravages of boll worms and the cotton flea, together with the fungus disease known as root rot, have resulted in great damage to the crop. The root rot is especially severe on the hill lands, where from a fourth to almost half the plants in some fields have died, many of them before maturing any cotton bolls. A fine corn crop has been raised, however, and this, together with the good price being realized for cotton will put the country in better financial condition than it has enjoyed for a number of years.

**JUST A RHYME**

"My Town

I'd make my town the best of all, In homes and churches large and tall And enterprises great and small, I'd have them be the best of all.

I'd prophesy her future good, I'd wear the optimistic mood, I'd be as loyal as I could, And love my town the best of all.

I'd advertise my town as best, I'd sing her praise with zeal and zest, And place her far above the rest, I'd rank my town the best of all.

The preachers, each, I'd recommend, And to their churches I would send All those who would their ways amend, They preach and live the best of all.

The schools are best that's in the land; The buildings are wisely planned, For all that's good they firmly stand, I'd class my schools the best of all.

The doctors try to keep us well, Although they have their skill to sell, To every stranger I would tell "Our doctors are the best of all."

The lawyers, too, will plead our cause, Relieve our titles of their flaws, And dispense justice through the laws, Our lawyers are the best of all.

Our business men I'd always praise, Because they use their nights and days To help us in a thousand ways, Their service service is the best of all.

So with my powers clearly loosed, My own home town I'll always boost, Or else I'll find some other root, That I can think is best of all. —C. Lem Sone, Slaton.

**Another Furniture Store Will Open**

W. A. Angley of Slaton has leased the south half of the lower floor of the Larkin building at the southwest corner of the square and will open a furniture store therein Friday. He will handle both new and second hand furniture, we understand. His stock of goods is being moved into the building.

Mr. Larkin is having the north half of the building fitted up for occupancy but it has not been rented yet.

Don't accept an inferior quality bread. Call for the City Bakery product.

Maoris of New Zealand have developed from cannibalism to a high state of civilization in 60 years.

**APPOINTMENT OF NORFLEET AS CAPTAIN OF RANGERS URGED**

Appointment of J. Frank Norfleet, of Hale County, as captain of the Texas Rangers Company, is being urged by the West Texas Chamber of Commerce. This recommendation by this body was prompted by newspaper dispatches from Austin stating that two ranger captains are to be named by Governor Moody, and due to the brilliant record of Norfleet who some years ago apprehended a band of confidence men who had swindled him out of the savings of a life time in a man hunt covering most of the United States.

The policy of the West Texas Chamber of Commerce has always been to take no sides in political appointments, but states that since the Texas Rangers are not political officers the body feels it is not officiating in politics in recommending Norfleet for this position. —The Meadow Review.

Hon. Dayton Moses of Fort Worth and his nephew, Mr. Moses of Post, county attorney of Garza county, visited W. J. Crouch Saturday. Judge Moses and Mr. Crouch were close friends while the latter resided in San Saba county and Mr. Moses in an adjoining county, several years ago.

### T-Bar

Our protracted meeting we spoke of last week failed to be, and is in progress at present at this place, Rev. Hicks of O'Donnell preaching.

Rev. J. D. Knoy and family of Wayland, Texas, and his parents, G. W. Knoy and wife of Tahoka, visited his sister, Mrs. J. M. Johnson, and family last Tuesday.

L. D. Looney and family of South Ward visited J. M. Johnson's family as it was an error in last week's news, J. M. Looney.

The C. H. D. C. had a real get-acquainted picnic and party last Thursday eve. Most of the club women and their families were present and a few visitors. All had a delightful time. We were contemplating having our editor out with us, but he was unable to be here.

We are going to do our best to have an exhibit this year, but it is going to be hard on us, because our late garden truck is not very much and did not get to plant anything till June 20. We will do well to have anything to exhibit.

We had a very nice rain Sunday. Feed is just tolerably good, cotton worse, in some fields. Some pretty fair cotton.

Mrs. Johnson visited school last Friday eve.

D. Henderson and wife returned last week from a visit with relatives in a distant county.

Misses Jamie McCarley and Lucille Townzen are going to school in O'Donnell.

Rev. and Prof. Matthews is one and the same man and is principal of our school the present term and preached for us Sunday.

We have begun to harvest our crops. W. M. Waldrip, who happens to have the oldest feed in our community, is about through heading

his maize.

Grandpa Townzen was out to the picnic last Thursday. He is looking well and is strong for one of his age. We welcome the older ones out with us always.

Mrs. H. W. Crews and Miss Lucy were in the Bethel community the past week on business.

Mr. and Mrs. M. A. Dorman went to Sunday School and church at Bethel Sunday morning.

Mr. Jesse Dorman and wife of Grassland visited his parents, M. A. Dorman and wife Saturday night and Sunday.

J. M. Johnson, wife and family visited her parents, G. W. Knoy and wife of Tahoka last Thursday and Friday.

Mr. and Mrs. M. A. Dorman went to Sunday School and church at Bethel Sunday morning.

Mr. Jesse Dorman and wife of Grassland visited his parents, M. A. Dorman and wife Saturday night and Sunday.

J. M. Johnson, wife and family visited her parents, G. W. Knoy and wife of Tahoka last Thursday and Friday.

Mr. and Mrs. M. A. Dorman went to Sunday School and church at Bethel Sunday morning.

Mr. Jesse Dorman and wife of Grassland visited his parents, M. A. Dorman and wife Saturday night and Sunday.

J. M. Johnson, wife and family visited her parents, G. W. Knoy and wife of Tahoka last Thursday and Friday.

Mr. and Mrs. M. A. Dorman went to Sunday School and church at Bethel Sunday morning.

Mr. Jesse Dorman and wife of Grassland visited his parents, M. A. Dorman and wife Saturday night and Sunday.

J. M. Johnson, wife and family visited her parents, G. W. Knoy and wife of Tahoka last Thursday and Friday.

Mr. and Mrs. M. A. Dorman went to Sunday School and church at Bethel Sunday morning.

Mr. Jesse Dorman and wife of Grassland visited his parents, M. A. Dorman and wife Saturday night and Sunday.

J. M. Johnson, wife and family visited her parents, G. W. Knoy and wife of Tahoka last Thursday and Friday.

Mr. and Mrs. M. A. Dorman went to Sunday School and church at Bethel Sunday morning.

Mr. Jesse Dorman and wife of Grassland visited his parents, M. A. Dorman and wife Saturday night and Sunday.

J. M. Johnson, wife and family visited her parents, G. W. Knoy and wife of Tahoka last Thursday and Friday.

Mr. and Mrs. M. A. Dorman went to Sunday School and church at Bethel Sunday morning.

Mr. Jesse Dorman and wife of Grassland visited his parents, M. A. Dorman and wife Saturday night and Sunday.

J. M. Johnson, wife and family visited her parents, G. W. Knoy and wife of Tahoka last Thursday and Friday.

Mr. and Mrs. M. A. Dorman went to Sunday School and church at Bethel Sunday morning.

Mr. Jesse Dorman and wife of Grassland visited his parents, M. A. Dorman and wife Saturday night and Sunday.

J. M. Johnson, wife and family visited her parents, G. W. Knoy and wife of Tahoka last Thursday and Friday.

Mr. and Mrs. M. A. Dorman went to Sunday School and church at Bethel Sunday morning.

Mr. Jesse Dorman and wife of Grassland visited his parents, M. A. Dorman and wife Saturday night and Sunday.

J. M. Johnson, wife and family visited her parents, G. W. Knoy and wife of Tahoka last Thursday and Friday.

Mr. and Mrs. M. A. Dorman went to Sunday School and church at Bethel Sunday morning.

Mr. Jesse Dorman and wife of Grassland visited his parents, M. A. Dorman and wife Saturday night and Sunday.

J. M. Johnson, wife and family visited her parents, G. W. Knoy and wife of Tahoka last Thursday and Friday.

Mr. and Mrs. M. A. Dorman went to Sunday School and church at Bethel Sunday morning.

Mr. Jesse Dorman and wife of Grassland visited his parents, M. A. Dorman and wife Saturday night and Sunday.

### New Home

Mr. Perry Andrus was called to the bedside of her brother, Mr. Holden of Lamesa, last Saturday night. Mr. Holden was operated on last Sunday morning. The last report he was doing nicely.

Mr. and Mrs. Grady Gore spent last week end with Mr. and Mrs. Arthur King.

Mrs. H. R. Minor and Mrs. Grady Gore attended the Federation at Tahoka Saturday afternoon.

Mr. Homer Franklin spent last week end in Lubbock.

Miss Velma Hancock, a teacher at West Point, spent last week end at home.

Mr. and Mrs. Hancock and family spent last Sunday at Wilson.

Mr. and Mrs. Charley Pinkley are visiting friends and relatives in this community.

Last Thursday afternoon the home demonstration club met at Mrs. H. R. Minor's. The club girls were present to take part in the culling of chickens.

Correspondent.

### Cotton Out-Look In The Meadow Section

Cotton in this section of the south plains is putting on rapidly and prospects are brighter as maturing time approaches. The acreage in Terry county, as a whole, is much smaller than last year, this is due to the dry spring, causing planting to be late. Prior to three or four weeks ago, prospects were not very bright but during the last few weeks, on account of ideal weather conditions the crop has advanced to such an extent that farmers are more than pleased over the out-look. On some farms in this section it is claimed, will make more than one half bale to the acre. This of course is from early planting.

—The Meadow Review.

### OIL TEST ALMOST TO CONTRACTED DEPTH

Work is steadily going forward on the wildcat test eight miles southeast of O'Donnell which is being drilled by the Penn Drilling Company and so far has not caused any undue excitement. Thursday morning they were drilling at 3325 feet in a red sand.

The contract calls for only a \$500 foot hole and it is expected the contract will be completed by the last of the week provided the drillers experience no unforeseen trouble.

Efforts are being made to induce the Penn Drilling Company to sink another test about three miles north of the present location. Mr. Penn is expected to arrive here today and inducements will be offered for another test.—O'Donnell Index.

### The total number of cattle in herds fully accredited as free from tuberculosis exceeds 1,886,000.

The work of tuberculosis eradication is going forward systematically in all States. During the last month of the fiscal year the inspectors engaged in tuberculosis testing applied the test to more than 800,000 cattle, of which approximately 24,000 were found to be affected with the disease. The removal of such reactors from contact with healthy cattle, followed by the slaughter of diseased animals under Federal inspection, is gradually reducing the extent of bovine tuberculosis throughout the country benefiting both the livestock industry and public health.

Emmett Fleming, who has been employed the past several weeks as assistant cashier in the Santa Fe Freight office at Lubbock, has returned to Tahoka and taken his former position as cashier for the Santa Fe here. This position was discontinued during the dull summer months but has been reinstated and Mr. Fleming was called back to resume his duties in that position.

A big feed crop has been raised in Lynn county. If freezing weather will not show up for four or five weeks an immense late crop will be made and likewise the cotton crop will be good. The rains which recently visited most parts of the county will make much of the cotton fine if the frost doesn't get it.

### LUBBOCK COUNTY INCREASED AUTOMOBILE POPULATION

According to the Avalanche, Lubbock county now can boast of an automobile population of 7,425 cars, according to the records of county tax assessor. A majority of the licenses which are being obtained recently are for new cars.

The Post public school opened September 12 with enrollment of about 475 pupils, which is a slight decrease from last year.

### A TIRE BAPTIST CHURCH

Next Sunday will be the first Sunday in the new associational year that we will have services. We are anxious for a great year for the Lord. In order to attain this high aim we should have a good beginning. Be at the church and help us begin right. We should have at least two hundred and fifty in Sunday school to begin with. We need your presence, and must have it if we reach this goal. What will you do about it?

Next Sunday is promotion day in our Sunday school and B. Y. P. U.'s. The pastor will speak to the children at the morning hour. We expect to make a special service of it. We are expecting several telegrams for the children concerning the morning service. Be there. You owe it to your children to take a special interest in their spiritual welfare and growth. If your child is to be promoted you will sure want to be there. Every one has a special invitation, and is urged to help.

The B. Y. P. U. will have their promotions at the B. Y. P. U. hour, 7:00 p. m. The text for the evening sermon is found in 1 Cor. 15:57. "Thanks be to God, who give us the victory through our Lord Jesus Christ."

Announcing the services for the week:

Sunday—  
10:00 a. m.—Sunday School.  
11:00 a. m.—Preaching and Children's Service.  
7:00 p. m.—B. Y. P. U.  
Tuesday—  
8:00 p. m.—Men's Prayer League  
The Ladies Missionary Society will observe their week of prayer Monday 3:30 p. m., Tuesday 3:30 p. m. and Wednesday 8:00 p. m. The Wednesday program will be in connection with the prayer meeting. All are urged to come.

### THE PASTOR.

The first real northern of the season struck Sunday. Cold weather prevailed for the first half of the week. A few overcoats were dug out of the closets and some of the hotels had fires in the heaters. A lot of folks were afraid that a frost was imminent, but the weather is growing warmer and here is hoping that we have no frost for a month yet.

Buy the Morning Avalanche at the limit it arrives in town early in the day on the same date that it is printed it brings the first news to town every day. adv.

## Commercial College Has Many Branches

A magic expansion of the Bond Commercial Institute whose headquarters are located in Lamesa is evident throughout West Texas. Miss Alice Bond, the "power behind the throne", in this enterprise is a plucky little woman who is doing something unusual in the matter of "chain business colleges." The Journal and her many friends are boosting her, feeling that she merits all the encouragement of business and profession men, industries and other enterprises.

Last Monday Miss Bond established the Slaton branch of the Bond Commercial Institute, with an enrollment of 12 students. Miss Laynette Smith, former teacher in the main college here, is in charge. It is located in the Williams building. The new Institute was somewhat inauspiciously ushered in and christened, according to Miss Bond. The first night a slick thief entered the college, stealing all the commercial text books and an L. C. Smith typewriter.

The Tahoka branch was started several weeks ago with Mrs. M. E. Bond, formerly of Lamesa, in charge. Rapid progress is being made by those enrolled and we have hopes of several new students soon.

The Stanton branch school added three new students last week. It was established about four months ago. Miss Edna Wheeler of Lamesa is in charge of this school.

Next Monday morning the Littlefield branch of this rapidly expanding institution will open with a guarantee of 20 pupils. The business men of the town are very much elated over Miss Bond's intention to open a branch there and are giving her all sorts of encouragement. No location has yet been selected, but Miss Bond is now arranging for that.

The Snyder branch of the Bond Commercial Institute will open Monday, also, with at least ten or probably more pupils, Miss Bond said Tuesday when seen by a Journal reporter. Miss Pearl Carver will be in charge of this branch. Her parents live there.

In addition to these branch colleges which are subordinate and contributory to the big local institution there were three additions to the student body last week. When students complete the courses in the branch colleges they may transfer to the Lamesa advanced college with credits accepted and pursue their course through the best possible commercial perfection.—Dawson County Journal.

Mrs. G. H. Nelson came over from Ralls Saturday afternoon, and she and brother, Burton Hackney left that night for Hopkins county to visit relatives.

## PREMIUMS OFFERED FOR BEST EXHIBITS

(Continued from first page)

three stalks and exhibit of 20 open bolls of cotton (a special prize of the ginning of a bale of cotton free). Best 20 stalks of seeded ribbon cane. Best exhibit of alfalfa hay (bundle 3 inches); best peck of sweet potatoes; best peck Irish potatoes; best exhibit of one gallon of peanuts; best exhibit of one gallon of cowpeas; best 4 inch bundle of red top; best 4 inch bundle of Jaro; best bundle of amber cane; best bundle of millet; largest and finest watermelon; largest and finest pumpkin; largest and finest cushaw, finest dozen onions; finest three cabbage heads; finest three canteloupes; finest half dozen bell peppers; finest three squashes; finest gallon dry beans; best ten ears of white dent corn; best ten ears of yellow dent corn; best bale of native hay; best quart canned peaches; best quart canned apples; best quart canned cherries; best quart canned pears; best quart canned plums; best quart canned grapes; best dozen tomatoes; best ten heads feterita; best ten ears pop corn.

Be sure to get your products to the place of exhibit. You may have a prize-winning product. Exhibits will be accepted up until nine o'clock Saturday morning. Five dollars is offered by the Tahoka Chamber of Commerce for the best all-round exhibit; three dollars for the second best. The merchants are making it possible for premiums to be offered for almost everything that takes first place. It is impossible to give a list of the premiums well worth trying for. The products exhibited will go also to make up the exhibit for the County Exhibit at Lubbock next week. Your products will be cared for and either returned or paid for.

The Concert Band will play Friday from 4:30 to 5:30 p. m., and Saturday from 1:30 to 2:20 p. m. Come Friday and Saturday to Tahoka!

## Flower Show In Connection With County Club Fair

In connection with the Home Demonstration exhibit and the exhibit of farm products on Friday and Saturday of this week there will be a flower exhibit. Whether you entered the yard contest or not you are urged to bring flowers. Those who entered the yard contest will please tag their flowers so that they might be separated from the others and given a specially prepared place. All flowers entered will be judged for first, second and third place. All flowers must be entered by noon Friday. They will be judged Friday afternoon. Come and help make Lynn county's first flower show a success. Ribbons will be offered as first, second, and third prizes.

- Best bouquet of roses (not less than 10.)
- Best six white roses.
- Best six red roses.
- Best six pink roses.
- Best bouquet of American Beauty Roses.
- Best bouquet zinnias (any kind).
- Best bouquet red zinnias.
- Best bouquet yellow zinnias.
- Best bouquet cosmos (not less than 24 blossoms).
- Best bouquet Dahlias.
- Best bouquet snapdragons (not less than 12 blossoms).
- Best bouquet Golden Glow (not less than 24 blossoms).
- Best bouquet daisies.

## GRAND JURY IN SESSION THIS WEEK

(Continued from first page)

to give careful attention to crimes of this character that have been committed in this county. Next in importance come involving property rights, such as theft, swindling, and forgery. One of the meanest and most criminal is the man who will swindle or who will swindle or defraud honest men have accumulated what honest men have accumulated. The bootlegger also comes in for attention. The bootlegger will be of kind of poisonous concoction, which he makes out of the business. He sells not only to men but to the boys and even women will come into the hands of the bootlegger. He is polluting the boyhood and girlhood of the country, and he is to be dealt with severely. In same connection the Judge called attention to the danger resulting from automobiles with drunken drivers. It is a violation of the law for a man to operate an automobile and be charged the grand jury to give attention to all cases of this kind. Upon the completion of his charge, Dees Sanders and Porter Tredwell were sworn in as bailiffs and grand jury retired to the room provided for them and began their investigations.

There is none better than Home Toast. Try one loaf and you'll see for it next time.

## NEW LYNN CLUB HAS MEETING

The New Lynn C. H. D. Club met with Mrs. McCarty September 20th, with nine members present. Miss Halsey, our agent, made an interesting talk, which we all enjoyed very much. We wish that more could have been there. The Club voted to extend to Mr. Baggett and Mr. Price and all others who helped us out at the Kiwanis supper a vote of thanks. Members and visitors present were: Miss Halsey, Mesdames Price, McCarty, Hones, T. E. Park, Jeff Higginbotham, Henry Higginbotham, and Misses Geneva Voss, Bobbie Lee Rhodes, and Margie Higginbotham. Our next meeting will be at Mrs. Hones' on October 17. —REPORTER.
