

NEW HOME

School News
Recently Mr. Alvis, High School Supervisor from the State Department, visited our school. He praised the work being done and recommended three-year classification. He was surprised at the large attendance here and the interest being manifested by the students, parents and friends of the school.

Sanatoriums are impeding our work for it is difficult to concentrate when the air is full of static and sand. However, we shall have to try, because it is so dry here; and it seems that these storms come almost daily, and sometimes two or three times each day.

Farming
Everyone has his land in good shape now. If it would come a good rain, how we should plant in the next ten days. Small grain is needing rain very badly, and we have much land planted to wheat in this section this spring.

Prof. Taylor White brought out several pounds of begonia, luffa, corn, and maize seed Monday for free distribution to the boys of the Vocational Agriculture Class. These seeds were donated by the Tabora Chamber of Commerce and Mr. D. L. Jones, Supt. of the Lubbock Experiment Station. We are very grateful for these seeds, gentlemen, and we hereby promise that these seeds will be planted and cultivated to the best of our ability to show you that seed selection is profitable and well worth while to teach our young farmers. Our boys are much interested in their agricultural studies and they are learning many valuable lessons in better farming and stock raising. Many projects of terracing, stock judging, cotton classing, spraying of fruit trees, carpentering and building and painting, and many other instructive undertakings have been pursued. We may be able to have some master farmers in our community soon.

Church News
On Saturday and Sunday Rev. E. E. Best filled his regular appointment. There was a large crowd present at Sunday school and preaching. Rev. Best was presented with an Easter gift of over twenty dollars. Rev. Bart Vinson of Brownfield began a revival meeting here Sunday night. Mrs. Loyd McCord was received by letter from the Wilson Baptist church Sunday morning; Mr. and Mrs. J. F. Cunningham and Mrs. Odell were received Sunday night.

Local News
Our director, Miss Addie Jane Hancock, went with the Glee Club girls for a sunrise breakfast out on a pasture north of town last Tuesday morning. We had great fun frying eggs and bacon and boiling coffee, but most fun came at eating time. We played games, sang some of our songs, and then loaded into the Motor Ford and arrived at school before the first bell rang. All hope for a like outing in the near future.

Miss Green, county Clerk of Lubbock, and E. E. Hancock visited in the home of Mr. and Mrs. S. L. Smith Sunday afternoon. Mr. L. G. De Priest who has been seriously ill for two weeks was carried to the Elwood Hospital last Saturday morning. He is reported to be improving.

Mr. and Mrs. H. W. Calaway and Miss Edna Simpson of Tabora spent the week end with F. H. Hancock and family. Mr. and Mrs. J. W. Armstrong and daughters spent last week visiting in Vernon, Texas.

Mr. and Mrs. R. F. Ratliff, of Lubbock visited in the home of Mr. and Mrs. G. N. McWhorter. Mr. Bill McWhorter returned Friday from Colorado, Texas.

Miss Beulah Smith, who is teaching school in Lubbock was in our midst again last week end. The Brownfield Association Worker's Council is meeting with us today with a large representation from the churches from over the association. We are having a great day with good preaching and dinner on the ground.

Mr. and Mrs. Jim Gotcher and family and Mr. and Mrs. T. Simms of Roperville, visited Mr. and Mrs. P. W. Clements.

Mr. J. W. Link was thrown from a horse yesterday about 10:30 a. m. and was found unconscious by Mr. E. K. DePriest about 1:30 p. m. He is resting very well now.

There have been two weddings in this community the last week. Both brides were popular high school students of New Home High. Miss Jeffie Pae Sutton, the daughter of Mr. and Mrs. F. Sutton and Mr. Aubrey Odell, the son of Mr. and Mrs. M. C. Odell, were married last Thursday evening at six o'clock. Both of these young people have hosts of friends who wish for them much happiness and long life. The bride wore a beautiful orchid gown. Rev. W. H. Izard performed the ceremony.

A DUTCHMAN'S LETTER

Dear Alex:
As I had nothing to do, and wish to do nothing, I took my pen and bottle of ink in my hand and typewrite you a lullaby. Please excuse this lead pencil. Be sure all well at home except my brother, he was kicked in the suburbs last night by a male—de male is not opposed to life. Your rich uncle who died from palpitation of the heart: you was here is still dead and doing nicely. Hope de will find you de same. After she die't dey found fifteen thousand dollars sewed up in a old bussel that she left behind, so you are therefore no longer a poor man but a rich Dutchman. Business has been dull since you left—especially the saloon business. Your wife was taken to day insanity asylum yesterday—she is crazy to see. I saw your little pay de morning for the first time. I think he looks just like you, but he is all right other wise, so I would not worry about dat if I was you. I am sending you py Adams express your overcoat, and as dey charge so much de pounds to send it, I cut from de coat de buttons off. Hoping dis will prove satisfaction. You will find de buttons in the inside pocket. I almost forgot to tell you I got married last week. I got a party good wife. She is from Milo, but I think I could'nt find a better one at Naurville, as dey had a much largest stock to select from. And dis is all vat I got to say. I will close my face and expect you to do the same. Hoping dat dis will reach you before you get it, and dat you will answer before dat. I remain your affectionate second to the last kousin. —Bob.

O'DONNELL SCHOOL SUPT. GOES TO STATE UNIVERSITY

After four years of service as Superintendent of the O'Donnell public schools, Prof. J. A. Rickard has declined to accept the position for a fifth term, since he has been offered a position as part time instructor of History in the University of Texas, according to the O'Donnell Index. Mr. Rickard took his M. A. degree at the University of Texas last summer and he desires to complete the work required for a Ph. D. degree. He will pursue his studies further in the University while teaching. The offer of this position was made to him as a result of the excellent work he did on the thesis required for his Master's degree. This thesis dealt with the history of the cattle industry of west Texas, and the subject was so thoroughly and brilliantly treated that his thesis won favor for him with Dr. Ramsdell of the Chair of History.

NICARAGUA

The refusal of the Nicaraguan Chamber of Deputies to pass the McCoy electoral bill, providing for American supervision and insuring fairness in the approaching presidential election in that country, is evidence of the fact that Conservatives under the leadership of Diaz were not so sincere in their expressed desire to Col. Stimson for a fair supervised election. Obviously, it is clear to them that the majority of their fellow countrymen are not in favor of the administration continuing to remain in their hands, as this bill was defeated by their efforts. Fifteen of the seventeen who voted for its passage are members of the Liberal Party. Before the intervention by U. S. Marines the forces of the Liberals were gradually defeating the forces supporting Diaz and the former were approaching the capital city, Managua. Seeing that they were in imminent danger of defeat and overthrow the Conservatives gladly welcomed the Marines of this country, and when it was proposed by Col. Stimson that both parties lay aside their arms and await the outcome of the next election they agreed along with the Liberals. Now those in power express their gratitude to the United States by refusing to pass a law which makes a fair election possible. This refusal does not back the statements and contentions concerning the integrity and honesty of Diaz and his regime made by those responsible for the seemingly uncalled for intervention by the United States in the affairs of that small country. To state it in a popular phrase "it leaves them without a leg to stand upon."

Conditions in Nicaragua remain about the same and apparently the lives of a goodly number of American Marines have been uselessly sacrificed. Yet the position of the United States is similar to that of one who has crossed a river and burned the bridge. Our word has been given that recognition shall be given to the victorious party of the next election and that that election shall be fairly conducted. Yet, since the Chamber of Deputies has refused to pass laws providing for United States supervision of the election in October, it is wondered how the promise is to be fulfilled. It has been predicted that President Diaz will be called upon to issue an order to take the place of the bill that failed to pass. This prediction causes two questions. Will Diaz give such an order, and even if he should, would it be legal? It has been stated officially that President Coolidge does not know that ratification of American supervision by the Nicaraguan Congress was absolutely necessary. On the other hand, without ratification it becomes necessary to force upon an administration that has been recognized by the United States some that is entirely adverse to their sentiments. All in all the situation presents a dilemma that is hard to solve, one in which most any solution leads to further difficulties. In the meantime the forces of American Marines in that country are suffering almost daily casualties.—Clipped.

CHAMBER OF COMMERCE HAS FINE MEET AT REDWINE

Quite a goodly number of the members of the Tabora Chamber of Commerce accompanied by the band visited Redwine and rendered a program last Friday night. Quite a large crowd of Redwine people were out to participate in and to enjoy the program. The band furnished a lot of good music and Prof. Taylor White spoke in behalf of the Chamber of Commerce, stressing the importance of cooperation in developing this country and calling special attention to the county fair to be held next fall. E. W. Holloway of Redwine responded on behalf of the people of Redwine with a splendid talk. Important features of the program were a number of readings by school children of Redwine, which were well rendered and much enjoyed. The candidates were there—several of them—and made their announcements with fear and trembling.

DAE OF SENIOR WOMEN ARE SET FOR MAY

Austin, Texas, April 3.—Senior Week at the University of Texas have been set for May through May 20, according to the Oona Willoughby of Austin, president of Cap and Gown Society. The activities scheduled for the week by tradition are vespers, singing senior women, a dinner by Reagan Literary Society, initiation of Junior girls into the Cap and Gown Society, and the last named event is the closing of the week's festivities and is to be held time when the senior women wear caps and gowns transferred from the bonnet chain from their student days to the juries. At this time the outstanding women students have been selected for membership in the Mortar Board, national organization, and made their announcements with fear and trembling. Look at our special advertisement.

Pine Bark News

Published in the interest of the people of Tabora, and vicinity by the CHEERO SMITH LUMBER CO. E. C. Blankebecker, Mgr. H. F. St. Clair, Editor. Editorial: Successful farming is like every other business in that it requires a lot of thinking and working combined with a fair measure of luck. And we think this particular little section of the J. S. A. is especially favored in the sound thinking, hard working class of farmers who surround us. The one thing they need is the luck. They say it takes a heap o' livin' in a horse to make a home but it takes more living in west Texas to get used to sand storms. Blow it over so hard there's no place like Tabora. I let the gentle breeze blow in its scent brought back the days of old. Next day I knew what a fool I'd been—I had one heck of a cold. The Chamber of Commerce have worked their old building and are laying the foundation for a new modern little structure. These people believe in being to date. One of the smart things about plating an airplane is that the rear of the motor drives out the back-out doors. Mr. W. L. Knight is making some pre-arranged to his store, that will give it more modern, another progressive firm. Miss Lola Lewis has built a nice double garage for her rent house in west Tabora. SENIOR WEEK ARE SET FOR MAY 14-15
Texas, April 5.—Dates for Senior Week at the University have been set for May 14 and 15, according to Mrs. Houghby of Brady, president of Gown Society, organization of women students. Activities scheduled for the week are vesper services for senior women, a Senior Show at the Literary Society, formal of junior girls into Cap and the Senior Swingout. The event is the climax of the festivities and it is at that time the seniors dressed in gowns transfer the chain from their shoulders to the juniors. At this time also standing women students who are selected for membership in Board, national senior organization, are announced.

You will appreciate this new De Laval feature
The Turnable Supply Can
Separate users who have seen and tried the new 1927 De Laval are pleased with the turnable supply can—it is so handy and convenient. The supply can may be turned so that tinware and bowl can be put in place or removed, even though the supply can is filled with milk. This is just one of a number of new features on the 1927 Series De Laval Separators, which are everywhere being praised as the best separators.
Easier Turnings: For three years the De Laval experimental and engineering departments have been conducting extensive tests to develop still easier turning separators. The results of these tests are embodied in this new series, which both turn and turn easier than any other machines.
Old Windows: The new oil window enables you to see at all times the level and condition of the oil. It shows at a glance whether or not the separator is being properly oiled.
Floating Bowl: All new De Laval separators with such splendid results. The floating bowl, runs smoothly without vibration, with the least power and wear, skims cleaner and delivers a richer, smoother cream.
You can't afford to use any other separator, because the new De Laval skin cleaner, are easier to handle and operate, are more convenient, and soon pay for themselves. Trade in your old separator on partial payment. Sold by

DEAD PINK BOLL WORM CAUSES WORRY TO BUSINESS INTERESTS
That poor little dead Pink Boll Worm that was found 7 miles northeast of Lamesa in Block 82, Dawson county has caused a lot of confusion, a world of trouble and has been the direct cause of all of Dawson county and at first a part of Lynn county being placed under restrictions by the Pink Boll Worm Commission. That portion of Lynn county which was at first placed in the restricted area included the southern part of the county, the territory in and around O'Donnell, extending north from O'Donnell in a "Pyramid" fashion all of which was created with out the knowledge and consent of the business interests of O'Donnell. However, the people of O'Donnell believe in justice without politics—a square deal—and that, it seems they have been successful in getting after strongly protesting the action of the commission by sending a committee composed of Mayor E. M. Wilder, C. H. Doak and J. H. Hardberger, to Austin, who appeared before Governor Dan Moody and the Boll Worm Commission. After a heated discussion with R. E. McDonald, state entomologist, the committee persuaded him to agree to having the line moved south to the Dawson county line and at the same time taking in two of O'Donnell's gins so that the Dawson county farmers who have been coming to O'Donnell to have their cotton ginned in the past. It seems that this arrangement has proven satisfactory to the business interests of O'Donnell. When the action of the commission was announced at the Lamesa meeting placing the southern portion of Lynn county in the restricted area and apparently dealing the "Business Interests" of O'Donnell a blow that meant the loss of a part of her trade territory, it looked like some politician had it in for O'Donnell. The committee that was appointed by the business men to represent the interests of the town at the Lamesa meeting was never allowed to enter the committee room where the commission was supposed to hear the complaints and establish the line of the restricted area. Instead, one of O'Donnell's business men who did not know what O'Donnell's territory consisted of, was called in and shown a map of the restricted area which apparently had been previously drawn unknowingly by the business interests of our little city. Such action was naturally resented by the "business interests of O'Donnell."
To be dealt such a blow without a voice in the matter is bad enough, but to be accused of being responsible for the action is just too much. It

AN EXHILARATING EFFECT

MUSIC BOX GIRLS ORCHESTRA FEATURED AT CHAUTAUQUA

How many times when listening to some orchestra on your radio have you longed to see that orchestra, watch them, and enjoy their costumes and stunts?
A radio, excellent though it may be, can appeal only to the ear, while the desire to see and to watch still remains unsatisfied.
The Music Box Girls orchestra is a treat which Chautauqua will provide this year which will appeal to all senses. Five peppy, beautiful, talented girls who are not only instrumental musicians but can sing and dance as well. Wendell Wise, the marimbaphone wizard and soloist, popularity is limited only by the number of towns in which he has played.
The costumes for this number are an added touch of artistry. One has no chance to become tired of the instrumental music since every member of the sextette is unusually versatile.
The company is headed by Wendell Wise, Margaret and Winifred Meer, sisters, are close harmonizers whose vocal numbers are always received with favor. A banjo team of Carolyn Thorp and Hazel Pearson, and a saxophone trio of Wendell Wise, Hazel Pearson and Winifred Meer add distinctive features to this program. Arlene Stackman, the other member of the company, is not only a solo celloist, pianist and marimbaphone artist but can play almost any band instrument.
The program will include many unusual combination numbers by the whole company in popular, semi-classical and classical style. Added to this will be marimbaphone, cello and banjo solos, harmony singing and novelty numbers.

New Canvas Auditoriums This Season
There are to be new, waterproof, canvas auditoriums over the entire circuit this season for Chautauqua. The circuit management plans every year to keep in step with the improvements made in producing and stage setting. More elaborate scenery is to be carried this year than ever before.
The tents were designed and made especially for the Associated Chautauques by the Baker-Lockwood company, the largest tent manufacturing company in the West. They have a specially planned dramatic end and proscenium which adds much to the attractiveness of the interior, and gives a regular stage arrangement for the presentation of programs.
All tents are equipped with beautiful new curtains and the effects to make the auditorium a comfortable and beautiful place in which to meet and listen to Chautauqua treats.

Edith
Mr. E. D. Payne and family visited relatives at O'Donnell Sunday. Several of the singers from the Garlynn community were present at the singing given by Mr. T. I. Tippit Sunday night.
Mr. and Mrs. Freeman and daughter of Tahoka were guests of Mr. and Mrs. J. C. Campbell Sunday afternoon.
S. K. Frazier and family of Lubbock spent Saturday night and Sunday with S. B. Frazier and family.
Mr. Bill Thompson went to Hill county last Friday to see his mother who has been sick for some time.
Uncle Frank Vaughn and Mr. T. I. Hammonds were in Post Sunday.
The party given by Mr. and Mrs. E. D. Payne Saturday night was enjoyed by all.
Mr. and Mrs. Arthur McGonagill accompanied her father and Mr. Moreland and family were guests of Mr. and Mrs. A. R. McGonagill Sunday.
Mrs. J. K. Nowlin is visiting her nephew in Waco. He has been ill since last May.
Some of the patrons of the school met last Friday afternoon and finished setting out the trees on the school ground.

NEW LYNN SCHOOL WINS 4 CUPS AT COUNTY MEET
Now the long, toilsome days of preparation for the Interscholastic League meet are over and we are happy because our great efforts have been greatly rewarded for we won a large cup for the all-around champion in the rural division of schools; one cup for literary events, another for athletics and yet another for declamation.
We are all so proud of these cups we can hardly stand for admiring them. We are going to try to keep them next year if it is possible.
We wish to thank the people who gave us those beautiful cups. We thank especially the Connolly Motor Company, the Chamber of Commerce the Kiwanis Club and the Teachers of the county.
NEW LYNN SCHOOL.
Mrs. M. L. H. Baze and son, Junior, and Miss Margaret Worthy visited in Roscoe last week end.

CARD OF THANKS
We take this method of thanking the Baptist Church for their assistance and financial aid during the sickness and death of our friend, Corbin Welch, and especially Mr. Geo. E. Law, Brother Shepherd and Brother Breedlove, Harris & Applewhite, and Mr. E. I. Hill. May God's richest blessings fall upon you, for it is the most honorable deed that men can do.
J. W. WHITE AND FAMILY.

CARD OF THANKS
We want to thank each and every one who kindly assisted us during the sickness and death of our little darling Ethel and we wish to thank those for their floral offering. May God bless you all.
Mr. and Mrs. W. C. Pritchett and children.
Big Spring—The WTCC membership drive at Big Spring resulted in securing of 83 members, more than doubling last year's record and placing the city next largest member between Sweetwater and El Paso.

FOR HOME AND STABLE
The extraordinary Borozone treatment for flesh wounds, cuts, sores, galls, burns and scalds is just as effective in the stable as in the home. Horse flesh heals with remarkable speed under its powerful influence. The treatment is the same for animals as for humans. First wash out infectious germs with liquid Borozone, and the Borozone Powder completes the healing process. Price (liquid) 30c, 60c and \$1.20. Powder 30c and 60c. Sold by

SATURDAY, APRIL 7, IS DE LAVAL and DAIRY DAY
At Our Store

Call and see us during the day. Bring your wife with you, also your neighbors and friends. Everyone who is milking cows or planning to do so will learn something of value.
An actual demonstration showing the skimming efficiency of the "De Laval with the Floating Bowl" will be held by reskimming the skimmilk from a cream-wasting separator.
We will explain why the De Laval will skim cleaner under any farm condition and show you why it lasts longer.
The De Laval Milker will be in operation. See how it works and learn how it will save money and time for you.

See Our Window Display
There will be interesting and instructive talks in addition to the Demonstration of Reskimming the Skimmilk from a cream-wasting separator.
We Suggest that You Have Your Wife See This Display

Lynn County News

E. I. HILL, Editor and Owner
Published Every Thursday at
Tahoka, Lynn County, Texas

Entered an second class matter at the
post office at Tahoka, Texas, under
act of March 3th., 1879.

\$1.50 PER YEAR IN ADVANCE
Advertising Rates On Application

NOTICE TO THE PUBLIC
Any erroneous reflection upon the
reputation or standing of any indi-
vidual, firm or corporation, that may
appear in the columns of the News,
will be gladly corrected when called
to our attention.

W. F. Kellia, veteran editor of the
Sterling City News Record, has re-
tired from the active management of
his paper. He will hereafter just
"loaf around the office" and write an
editorial now and then when he feels
like it.

In many towns the band is support-
ed in part by the City. A small tax
is levied for this purpose. It
has been suggested a number of times
that a five-mill tax be voted in Ta-
hoka to support the band.

The death of Senator Willis last
week may materially affect the Presi-
dential situation. He was Hoover's
chief opponent in Ohio for the Repub-
lican nomination.

Newton Byrnes, the fiend who mur-
dered two women and a little girl,
butchered them terribly and impal-
ing the body of the little girl on a
bed post, in San Angelo recently, was
given the death penalty by a jury a
few days ago; and Marshall Ratliff,
the Santa Claus of the bandit band that
robbed the Cisco bank and staged a
street fight with officers and citizens,
was likewise given a death penalty.

The Big Spring Herald, the Colo-
rado Record, The Lamesa Reporter,
and possibly some other papers in
this section have been making a
strong fight in their editorial col-
umns against this non-cotton zone
business and against the whole move-
ment instigated by the experts and
propagandists to frighten the people
of other cotton-raising sections.

When the jury at Eastland brought
in a verdict of guilty and assessed
the punishment at death in the Mar-
shall Ratliff case, a heart-rendering
scene followed. The mother who
was present screamed and wailed out
her grief from a broken heart. How
terribly wicked and foolish the young
man must be who would thus bring
disgrace and sorrow to his mother,
to say nothing of the heinousness of
his crime of robbery and murder! A-
gain we repeat that crime does not
pay.

Announcement is made that the
management of the Big Spring Herald
is to begin the publication of a daily
paper. Big Spring has grown won-
derfully the past few years as a re-
sult of the oil development in that
section, and the weekly Herald has
grown to be one of the best weekly
papers in the state. May the daily
meet with like success.

Jim Ferguson says his wife is a
pro. Still that doesn't deter him from
saying some hard things about the
"Drys." In his vocabulary, most of
them are witch-burners, hypocrites,
fools. We wonder just how he classifies
the lady ex-governor.

Political
Announcements

The following candidates announce
their candidacy for office subject to
the action of the Democratic primary
election in July, 1928:

For District Attorney, 106th Judicial
District:
T. L. PRICE (Re-election)

For County Judge:
G. C. GRIDER
C. H. CAIN (Re-election)
H. W. CALAWAY

For Sheriff and Tax Collector:
B. R. (JAKE) HOLCOMB.
J. H. YARBOROUGH
BEN KING
J. W. SIMPSON (Re-election)
SAM SANFORD

For County Attorney:
G. H. NELSON
L. C. HEATH (Re-election)

For County Tax Assessor:
J. S. (JIM) WEATHERFORD
(re-election)
T. W. BROWN

For County Superintendent:
H. P. CAVENESS (Re-election)

For County Treasurer:
MISS VIOLA ELLIS (Re-election)

For County and District Clerk:
W. E. (HAPPY) SMITH.
(Re-election)
E. W. HOLLOWAY.
TRUETT B. SMITH

For Public Weigher, Precinct 1:
FRANK EDWARDS
W. O. HENDERSON
R. W. FENTON JR.
W. P. BUSSELL
R. C. WOOD (Re-election)

For Commissioner Prec't. No. 2:
W. Z. FLORENCE
R. B. MCCORD (Re-election)

For Justice of the Peace, Prec't. 1:
I. P. METCALF (Re-election)

For Public Weigher, Prec't. 5 (New
Home):
C. W. SETH
W. L. BALCH

Oklahoma is to send a dry dele-
gation to the Houston convention. Tex-
as will likely do the same. Most of
the Southern and some of the other
states will do likewise. There is a
bare possibility that the nomination
of Smith may be prevented. If he is
nominated he will be defeated in the
general election by a tremendous ma-
jority. If he is not nominated Tam-
many and many wets in other states
will desert the Democratic ship. It
looks like easy sailing for the Repub-
licans next fall whoever the Demo-
cratic nominee may be, in spite of all
the Teapot Dome scandal.

LAMESA EDITOR LAMBRASTS
THE EAST

We notice Mr. Jardine proposes a
non-cotton zone with \$10.00 per
acre remuneration to the farmer for
his loss on account of same. Now
this gentleman is about as capable of
saying what the farmers loss in this
line is as the editor would be to tell
God how to run the universe. He
makes us tired and mad all at once.

West Texans are not Mexican peons.
They are people with as fine intelli-
gence as any part of the known world.
They have taken care of this country
and made it bloom like a rose and if
left alone they will make it the garden
spot of the United States.
We need a divided Texas. We need
a new State. When we are united on
this matter it is coming too, and we
just as well get ready for it. West
Texas is made up of people entirely
out of sympathy with eastern moss
backs. There is no affinity between the
two classes of people. West Texas has
hand picked the east and as the tide
ebbs and flows of human waters it has
left upon her shores only the richest
of life's seas production and washed
back to the east the refuse which has
mingled with life's great waters and
lost their identity. Every West Tex-
an is an individual unto himself who
thinks and acts and must think and
act in order to meet the great prob-
lems of the West. Men among men
with an individuality which towers a-
bove their eastern brethren as the
Alps above the valley of the Nile.

Let the government give us only
the chance to attend to our own busi-
ness and when they stop the boll-
weevil of the east we will have all
the pink worms of the west so com-
pletely annihilated that they can't
even find another dead one. Two

dead worms! Just think how silly all
this is.—Lamesa Reporter.

STATEMENT OF OWNERSHIP

Statement of the ownership, man-
agement, circulation, etc., required
by the act of Congress of August 24,
1912, of the Lynn County News, pub-
lished weekly at Tahoka, Texas, for
April, 1928.

STATE OF TEXAS
COUNTY OF LYNN

Before me, a Notary Public, in and
for the State and county aforesaid,
personally appeared E. I. Hill, who
having been duly sworn according to
law, deposes and says that he is the
owner and publisher of the Lynn
County News, and that the following
is, to the best of his knowledge and
belief, a true statement of the owner-
ship, management (and if a daily
paper, the circulation), etc., of the
aforesaid publication for the date
shown in the above caption, required
by the Act of August, 24, 1912, em-
bodied in section 411, Postal Laws and
Regulations, printed on the reverse of
this form, to-wit:

1. That the name and address of
the editor, managing editor, and busi-
ness manager is E. I. Hill, Tahoka,
Texas.

2. That the owners are: E. I. Hill,
Tahoka, Texas; Frank P. Hill, Ta-
hoka, Texas; E. I. Hill Jr., Corsicana,
Texas.

3. That the known bondholders,
mortgagees, and other security hold-
ers owning or holding 1 per cent or
more of total amount of bonds, mort-
gages, or other securities are: Mer-
genthaler Linotype Co., Brooklyn,
N. Y.; Barnhart Bros. & Spindler,
Dallas, Texas.

E. I. HILL, Publisher.
Sworn to and subscribed before me
this 2nd day of April, 1928.

L. L. WEATHERS
(My commission expires June 1
1929.)
(Seal)

Newmoore

The members of the Newmoore lit-
erary society were entertained at the
school house last Friday afternoon. Af-
ter a jolly time playing many games
ice cream was served. Everyone went
home in fine spirits.

A large crowd came to church Sun-
day evening for the purpose of or-
ganizing some kind of a young peo-
ples Christian union. After two short
talks, the Newmoore Young People's
Christian Union was organized.

Several of the Newmoore church
members went to New Home Tuesday
to attend the Workers' Conference.

Mr. J. W. Pippin expects to move
into his new home, which is rapidly
being completed, about next Thurs-
day.

The reporter was slightly indispos-
ed the first of the week.

A group of young people met Mon-
day evening in the home of Mr. and

Mrs. G. F. Goad to organize a club
for the purpose of giving a play
to help pay for the church piano. First
the business was attended to; then ev-
ery one enjoyed a lively sociable. Re-
freshment consisting of hot choco-
late and cake were served.

Television is going to be a good
thing for the fellow who persists in
getting engaged by mail through a
matrimonial advertisement.

Showing
America's Smartest
Motor Car Creations

Opening Today—Style Week at Buick showroom!
Everyone who loves the new and beautiful—every-
one who plans to buy a new car this Spring—
is invited to attend this special showing of these
smartest of motor car creations, the fine Buick
models.

Here are assembled a wide variety of Buick body-
types by Fisher. All are arrayed in alluring new
spring-time color harmonies. All are endowed
with the most luxurious upholstery and appoint-
ments. And all are months ahead of the made in
cheap, low, dashingly lines, low without any loss of
head-room or road-clearance.

Be sure to attend this magnificent Style Show!
See the most beautiful motor car creations of the
day—and the most durable, dependable
and vibrationless of cars as well. Come
any day or evening during the next seven
days. A cordial welcome awaits you.

CITY ORDINANCE

AN ORDINANCE GOVERNING THE INSTALLATION OF GAS FITTINGS AND PROVIDING FOR THE INSPECTION THEREOF.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF TABOKA.

SECTION 1 There is hereby created the office of gas inspector to be conducted under the supervision of the City Secretary.

SECTION 2 It shall be unlawful for any person, firm or corporation, except a licensed master gas fitter, to engage in the gas fitting business in the town of Taboka without first having secured from the City Secretary a gas fitters license.

SECTION 3 The applicant shall execute and deliver to the City Secretary a good and sufficient surety bond in the sum of one thousand (\$1,000). Such bond shall be conditional for the protection of the Town against loss or damage by reasons of carelessness, defective material or negligence of the person or persons furnishing such bond to properly execute and perform and protect any and all gas fitting work performed by him or under his supervision during the period of such gas fitter's license.

SECTION 4 Upon the approval and acceptance of such bond, and the payment of a fee of twenty-five dollars (\$25.00) to the City Secretary, the City Secretary shall issue to the applicant a gas fitter's license in proper form to engage in the business of gas fitter for the period stated upon such license.

SECTION 5 It shall be unlawful for any person, firm or corporation to begin any job of gas fitting until the person so doing has secured from the gas inspector permit to do said work in order to secure said permit, the gas fitter shall make a written application upon blanks furnished for that purpose. Said application shall show the name of the owner or agent of the premises where the work is to be done, the location of said premises, the lot, block, and addition, street and number, and the name of the gas fitter having charge of the work.

SECTION 6 No work of any kind shall be permitted upon any gas pipes without first securing a permit for such work.

SECTION 7 It shall be the duty of any person, firm or corporation installing any gas work to notify the gas inspector, when the work is ready to be tested or inspected.

SECTION 8 If it is necessary for the inspector to make a subsequent test of any piece of work, the minimum charge of 2.50 and 25 cents for each opening over six in number.

An applicant for a permit under this section to do gas fitting shall file a duplicate application with the Gas Company which is to furnish gas to be used, and the said gas Co. shall approve the said application or protest against the issuance thereof before the permit shall be issued.

SECTION 9 Before any gas may be turned on to any consumer by the Gas Company, a certificate must be filed by the gas inspector with the company, stating that this particular work has passed inspection.

SECTION 10 The following rules must be explicitly followed by any gas fitters doing any work in the town of Taboka:

Rule 1: All service lines must be tested before meter is connected and if they show leakage, meter will not be connected until leak is repaired.

Rule 2: All service lines must have lock service cocks at the meter.

Rule 3: All gas ranges, hot water tank heaters, and closed gas heaters must be vented to chimney flue.

Rule 4: The space used by the meter must be ascertained. The size of the meter will be determined by the number and kind of fires.

Rule 5: Where pipes run through walls, both sides of the walls must be carefully cemented.

Rule 6: All service and house lines, including all valves and stop cocks up to the caps or plugs, must be tested with an air pressure of at least ten pounds, with an air pump and mercury gauge, the test to hold at least ten (10) minutes in the presence of the gas inspector.

Rule 7: A fire test will not be allowed under any circumstances.

Rule 8: No bushings or cast iron fittings can be used, and no cement of any kind shall be used to repair faulty fittings or pipes.

Rule 9: Valves which need repacking from time to time should not be placed under floors or in any inaccessible place.

Rule 10: All valves should be packed with asbestos packing; soft steel valves should not be used.

Rule 11: Place a damper in the pipe on all stoves and furnaces. (Dampers with open centers must be used.) Mixers on stoves must not be placed in air tight ash boxes. Nipples between mixer and burner must bereamed out to allow a free flow of gas to the burner.

Rule 12: It shall be unlawful for any gas fitter to make provisions for rubber hose connections. They will not be allowed under any circumstances.

SECTION 9. Before any gas may be turned on to any consumer by the Gas Company, a certificate must be filed by the gas inspector with the company, stating that this particular work has passed inspection.

SECTION 10. The following rules must be explicitly followed by any gas fitters doing any work in the town of Taboka:

Rule 1: All service lines must be tested before meter is connected and if they show leakage, meter will not be connected until leak is repaired.

Rule 2: All service lines must have lock service cocks at the meter.

Rule 3: All gas ranges, hot water tank heaters, and closed gas heaters must be vented to chimney flue.

Rule 4: The space used by the meter must be ascertained. The size of the meter will be determined by the number and kind of fires.

Rule 5: Where pipes run through walls, both sides of the walls must be carefully cemented.

Rule 6: All service and house lines, including all valves and stop cocks up to the caps or plugs, must be tested with an air pressure of at least ten pounds, with an air pump and mercury gauge, the test to hold at least ten (10) minutes in the presence of the gas inspector.

Rule 7: A fire test will not be allowed under any circumstances.

Rule 8: No bushings or cast iron fittings can be used, and no cement of any kind shall be used to repair faulty fittings or pipes.

Rule 9: Valves which need repacking from time to time should not be placed under floors or in any inaccessible place.

Rule 10: All valves should be packed with asbestos packing; soft steel valves should not be used.

Rule 11: Place a damper in the pipe on all stoves and furnaces. (Dampers with open centers must be used.) Mixers on stoves must not be placed in air tight ash boxes.

Rule 12: It shall be unlawful for any gas fitter to make provisions for rubber hose connections. They will not be allowed under any circumstances.

Rule 13: Pipes must be strapped or hooked up to ceiling or walls, and all drops and bracket strips must be securely fastened in place before the inspector is called.

Rule 14: Unions will not be allowed in any lines except to connect stoves. The union to be placed between the valve above the floor and the stove. Right and left couplings must be used in connecting lines.

Rule 15: All gas ranges must have a stop cock or globe valve on the connection above the floor.

Rule 16: A pilot light burner shall be installed in all hot air furnaces, hot water and steam heating house boilers as approved by the gas inspector.

Rule 17: An application for inspection and test must be made for all extension made.

Rule 18: Red lead and oil must be placed on male threads only.

Rule 19: No pipes shall run up or through any flues.

Rule 20: It shall be unlawful for any person, persons or corporations other than the West Texas Gas Company, or its duly authorized agent to tap the main supply lines furnishing gas to the inhabitants of the town, which said lines run through the alleys or streets of the town of Taboka or its additions or vicinity, and in all cases where installations are required by the West Texas Gas Company, or its duly authorized agent shall tap the main.

Rule 21: No pipes shall be concealed until they are inspected.

Rule 22: Electric wiring for circuit of over 25 volts shall not be grounded on gas house piping.

Rule 23: (a) No pipe smaller than 1/2 inch size shall be used in any concealed gas piping installations; and no pipe smaller than standard 1-2 inch size should be used for horizontal concealed piping.

(b) All supply lines, branches, drops, and other parts of any piping installations shall be made up of pipe of a size suited to the length required and the number and character of the outlets to be supplied. It is recommended that the minimum size for and pipe shall be indicated in the following tabulations:

If any outlet is larger than 3-8 inch, it must be counted as more than one, according to the following table:

Sizes in inches 1/2 3/4 1 1 1/2 2 2 1/2 3 4

Value in outlets 1 2 6 11 14 14 2 20 32 66

STAKES BEING SET FOR NON-COTTON ZONE

The Powers-That-Be seem to have decreed that there shall be a non-cotton zone this year in west Texas.

The Sweetwater meeting was called in order to prepare the people for such a catastrophe.

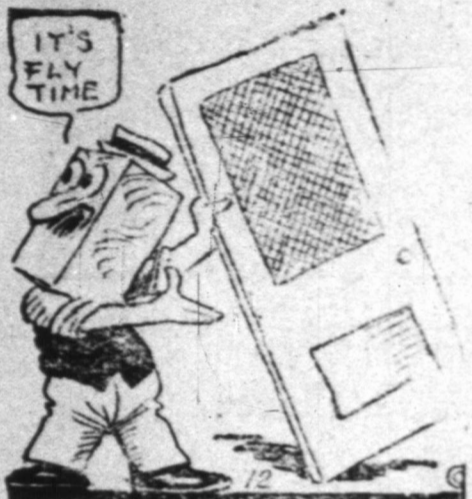

It seemed to be on the program that the menace of the pink boll worm

should be played up and the damage from a non-cotton zone should be played down; that a double dose should be given the people, one an excitant and the other a sedative, one to excite fear of the worm and the other to allay fear of the proposed remedy.

But things went awry. The people thought some for themselves. They refused to get excited because of the alleged discovery of a few dead boll worms. They did sense the terrible calamity that a non-cotton zone would bring upon them. So, at Sweetwater, at Lamesa, at Big Spring, and everywhere in the so-called infested territory the people spoke out in thunder tones.

Bill Der Says

"Stepping on the gas is about as dangerous as blowing it out."

Spring Time is Screen Time

Flies carry disease and they will soon begin their season's campaign against every household.

Our screens are sturdy in construction and of excellent quality.

Get your screens fixed before the flies begin to fly.

HIGGINBOTHAM-BARTLETT COMPANY

"EVERYTHING TO BUILD ANYTHING"

G. M. Stewart, Mgr.

Tahoka, Texas

lators were there. They were all there, and all crying for a non-cotton zone this year in west Texas.

When C. T. Watson of Big Spring, representing the people of the so-called newly-infested territory, in west Texas, reminded that distinguished body of bugologists and calamity howlers that possibly the menace of the pink boll worm had been greatly exaggerated and that any proposed compensation would not and could not really compensate the people of the prescribed territory for their losses, and pleaded for the establishment of only a regulated zone in lieu of a non-cotton zone, Mr. Wilson, the chairman, told him where to "head in" and threatened to "invoke a state quarantine against Texas cotton and all cotton products and perhaps other products unless Texas backed up the Federal Horticultural Board's program of eradication."

A telegram was read from Governor Johnston of Oklahoma stating that Oklahoma "demanded drastic measures of Texas to safeguard the Oklahoma cotton industry" and threatening to "proclaim a quarantine against Texas cotton and other products" unless a non-cotton zone were established.

B. R. Coad of the U. S. Department of Agriculture was there and "voiced the view that it is time for reconsideration of the entire pink boll worm problem." In other words the action of the Texas commission in declaring merely a regulated zone should be reconsidered and a non-cotton zone established.

R. E. McDonald, entomologist for Mr. Terrell down at Austin, was there and stated that the "program should be eradication with compensation."

Mr. J. E. Graf was there, representing Dr. Charles L. Marlatt, Chief of the Federal Horticultural Board at Washington, and he recommended that the Conference should adopt a resolution, comprehensive in its scope, "for the guidance of the committee in Congress dealing with the problem," and of course he favored "eradication" through the non-cotton-zone route.

A resolution was adopted. They all voted for it. It urged the establishment of a non cotton zone in West Texas, and that without delay. "Immediated action" would be necessary.

It was pointed out, since cotton planting would begin in "the West Texas infested area about April 15 to 20."

So, the plan is to slap on the non-cotton zone, if possible, before cotton planting time. If that can't be done, then it is to be slapped on later and all the cotton in the smitten district is to be plowed up or destroyed. That's the plan of the bugologists at Washington and Austin.

That's the plan of the State and Federal Departments of Agriculture. That's the plan of some of the officials of neighboring states. They propose to do all this, to ravish the farming and business interests of a rich and rapidly developing west Texas empire, when they do not know that a live pink boll worm can be found within a hundred miles of its outermost limits; when they do not know that a single boll worm will be found in all this vast territory during the present year.

If our people believed that there were any reasonable grounds for alarm on the part of the people further east by reason of the discovery of a few pink boll worms in west Texas, they would be willing to submit without a murmur. If they felt that the State and Federal Departments were proposing reasonable measures to combat the pest, they would likewise submit without complaint. But they feel that the menace has been unnecessarily and wickedly exaggerated and that the proposed remedy is entirely too drastic and oppressive.

That the pink boll worm is not the terrible menace that it has been represented and that there is no need for the drastic action proposed is amply proved by the history of infestation in this and other states, as given by the experts themselves.

In 1917, five pink boll worms were found in five separate fields at Hearne, down in the humid atmosphere of the Brazos bottom, in Robertson county. Was the whole county placed under quarantine? Was a non-cotton zone drawn around the county? Not at all. An area comprising 1624 acres, or little more than two and a half sections in terms of west Texas measurements, were cleaned up and placed in a non-cotton zone for three years. But the pink boll worm was eradicated the first year and has not been found there since.

The pink boll worm was likewise found around the shores of Trinity Bay in 1917, extending from Smith's Point on one side of the Bay clear a-

round to Texas City on the other side and covering parts of Chambers, Harris and Galveston counties, the hottest and most humid section of Texas. It is claimed that worms were found in 156 fields. Was a non-cotton zone drawn around all these counties? Not at all. A non-cotton zone of limited area was established in 1918 but was lifted the next year. In 1919 only 51 fields were found to be infested, and although there was no non-cotton zone this year, worms appeared in only 28 fields the next year. A non-cotton zone was declared again in 1920, 1921 and 1922. Only one field was found to be infested in 1921, and not a worm has been found in that vicinity since.

In 1919 the worms were found in 22 fields in Cameron Parish in Louisiana. The infestation was destroyed the same year. Yes, they established a non-cotton zone but it was not for the entire county. It was limited to the fields infested and adjacent territory.

Ten fields were found infested near Shreveport in 1920. A non-cotton zone was maintained over a small area in 1921 and 1922 but not a worm has been found in that section since 1920.

Worms were found in 5 fields near Ennis, in the heart of the biggest cotton-producing county in Texas, in 1921. Was Ellis county placed in a non-cotton one? No so. Only the fields in which the worms were found and a few adjoining fields were placed in such a zone. Not a worm was found the next year and not one has been found since.

We claim that these and other experiences show that the worm can be easily stamped out in those portions of the state where the climate is mild and the atmosphere humid as well as in those portions where the whole country is one vast cotton field, as at Ennis in Ellis county, the home of Commissioner Farris.

But, when Three or four dead pink boll worms are found in Howard county and two are found in Dawson county, where the entomologists say the climate is too severe for the infestation to ever become heavy, they want to place both these entire counties with their nearly 300,000 acres of cotton lands, producing nearly 70,000 bales of cotton last year, in a non-cotton zone.

If a single worm could have been found in Lynn county, which has produced more than 90,000 bales during the past two years, they would be seeking to place it in a non-cotton zone also. They are seeking to do so. Their scouts will be here all summer and fall, if that length of time is required to find one, hunting for the pink boll worm, and we be to the county if one should be found.

Our people love our great Government. Their attitude is: Though it slay me, yet will I trust it. But tyranny breeds disloyalty. For the federal Government to demand the establishment of a non-cotton zone covering seven or more west Texas counties, when only 24 fields in all this vast territory have been found to be infested with the worm and when all these worms were dead when found, indicating that they can not survive our winter climate, and for the state Government to declare a non-cotton zone and thus bring incalculable loss and in many cases utter financial ruin upon our inhabitants, would be an act of tyranny unsurpassed in our opinion by anything that the British Government ever did with respect to the thirteen American colonies.

Our people should protest immediately to our Congressmen and our Senators against the perpetration of so foul an act of injustice—against the employment of the strong arm of government, at the behest of theorizing scientists and self-serving citizens of other sections, to strike down and to ravish a virtuous, loyal, patriotic people, struggling to pay out their homes and to feed, clothe, and educate their children.

of not more than 30 days, or by such fine and jail sentence and may be determined by the court, and each day such person remains on such property in violation of this ordinance shall be deemed a separate offense.

Section 4. This ordinance shall be in full force and effect after its passage and publication as required by law.

Passed and approved this 2nd day of April, A. D. 1928.

J. R. SINGLETON, Mayor.

AN ORDINANCE An ordinance providing for the segregation of the white and negro races in the city of Tahoka and making penalty for the violation of said ordinance. BE IT ORDAINED BY THE CITY OF TAHOKA: Section 1. Definition of the negro race. The term negro includes any person of mixed blood descending from negro ancestry from the third generation inclusive, although one ancestor of each generation may have been a white person. All persons not included in the definition of negro shall be deemed a white person within the meaning of this ordinance. Section 2. It shall be unlawful for any negro to purchase, rent or otherwise occupy any lot or block in the city of Tahoka adjacent to or within three hundred feet of any property occupied by a white family. Section 3. Any person violating the above and foregoing ordinance upon conviction shall be punished by a fine of not less than five dollars nor more than one hundred dollars or by confinement in the city jail for a per-
