

The Lynn County News

We invite you to locate in beautiful Tahoka. Good homes, good schools, good churches.

Lynn county, in the heart of the best diversified farming country in Texas.

Volume XXIV

Tahoka, Lynn County, Texas, Thursday, April 12, 1928

Number 33

C. C. OFFICIAL VISITOR HERE

Whitaker Explains W. T. C. C. Stand On The Pink Boll Worm Question

R. M. Whitaker of Haskell, Exhibitor Manager of the West Texas Chamber of Commerce, was here last Friday and met with the directors of the local Chamber of Commerce.

Recently when Mr. Bennett of the West Texas Chamber of Commerce visited Tahoka for the purpose of promoting membership renewals, he had very little success, many giving as the reason for their refusal to join their belief that the West Texas Chamber of Commerce was partially to blame for all this pink boll worm agitation. Mr. Whitaker came to explain to the local organization that the West Texas Chamber of Commerce was in no sense responsible for the agitation and that it had done all in its power to protect the interests of the people of West Texas. It had had a representative at all the meetings of the Pink Boll Worm Commission and claimed credit for getting a unanimous vote in the final meeting at Austin for a regulated area instead of a non-cotton zone. Mr. Whitaker also explained that Homer D. Wade, the manager, had attended the Memphis meeting, and he felt that he and other representatives of West Texas at that meeting had prevented the body from taking any drastic action as would have been taken otherwise.

SIMPSON IS WITNESS IN FRAME-UP INVESTIGATION

Sheff J. W. Simpson of this county was one of the witnesses who appeared before the Upton county grand jury last week which returned indictments against J. H. Dumas and another unnamed person for an alleged "frame-up" which resulted in the killing of reputed bank robbers at Rankin and Odessa. Mr. Simpson says that the accused men were here a short time before the Odessa killing, and he has reason to believe that the men killed in Odessa and Rankin were "blinded" there by the accused men for the purpose of getting them killed in order that the accused men might tip off the officers and receive a portion of the reward offered by the Texas Bankers' Association.

STOCK LAW ELECTION ORDERED FOR PREC. NO. 3

At a meeting of the commission held Monday a petition was presented asking that an election be held to determine whether or not horses, mules, cattle, etc. should be prohibited from running at large in commissioner's precinct No. 3, which embraces practically all of the southwest quarter of Lynn county, including the entire town of O'Donnell and a small portion of Tahoka. The election was ordered to be held on April 25.

NEW BRICK BUSINESS BUILDINGS ARE NEARING COMPLETION

The finishing touches are being put on the big brick building on the east side of the square constructed by Sam Sanford and Irs Doak, to be used by Messrs. Snowden and Raymond as a Chevrolet Sales room and automobile repair shop. This building is 50 by 70 feet in size and is handsome in appearance. The contractor will be ready to turn this structure over to the owners by the end of the week. Machinery and equipment to repair shop have already arrived and will be placed in place. The building will be ready for occupancy within a few days.

The walls of the building being constructed by Belton Howell adjoining the Texas Filling Station operated by Messrs. Chas. Thomas and T. S. Williams have been completed and the roof is proceeding rapidly. This building will be occupied as a garage and an office and store room.

C. Of C. Meets At Grassland Friday

Members of the Chamber of Commerce will visit Grassland on Friday night of this week and render a program. A good program has been arranged and the Tahoka Band will go along to pep up things with the stirring music that they are now dispensing on such occasions. The candidates will also be there and make known their desires and ambitions. A good crowd of Grassland folks are expected to be present and a jolly good time is promised.

Judging Team Visits Plains Dairy Show

Four members of the Vocational Agriculture Class of the Tahoka High School, accompanied by the teacher, Prof. Taylor White, visited the big dairy show at Plainview on last Friday and entered the judging contest. Teams from thirteen high schools were in the contest and Prof. White was informed that the Tahoka boys made fourth place. This was considered a very fine record in view of the fact that these boys had never seen a Guernsey cow prior to this show, and Guernseys were one of the breeds to be judged. The other breeds were Jerseys and Holsteins. The Tahoka team consisted of Clifton Janak, Norvel Redwine, Andrew Cooper, and Boswell Edwards.

Mr. White is himself a graduate of the A. & M. College and is well versed in the characteristics of a good dairy cow, and he says that this was one of the finest exhibits of dairy cows he has ever seen anywhere. There was a large number of entries also. More than \$5,000 in premiums were awarded and quite a number of sales were made. Travis Davis of Tahoka bought two fine young heifers and J. O. Tinsley bought one. Others present from Tahoka were: D. C. Davis, Grover Stewart, George Small, Irvin Stewart, and Elton George. There were probably many other Lynn county and Tahoka citizens there whose names were not reported to us.

Big Meeting At New Home Friday Of Next Week

J. P. Fulton of New Home was a visitor in the News office Monday and reported that a big Ice Cream Supper has been planned at New Home for Friday night of next week. The Tahoka Chamber of Commerce has accepted an invitation to go out and render a brief program and the Tahoka band will be there to furnish the music. All candidates are also invited and they will be given an opportunity to strut their stuff. Some New Home people will also participate in the program of the evening.

The News is advised that one Mr. Graves, a prominent citizen of the Garlynn community, died Thursday, April 5, and interment followed in the Grassland cemetery on Saturday.

F. O. Greathouse has completed the brick work on his new structure adjacent to his filling station. Interior partitions are now being constructed and when completed this building will be occupied by the Greathouse family as a residence. Mr. Greathouse is contemplating the construction of an additional building just east of his filling station some time this year.

The frame work on the new edifice of the Church of Christ is going up rapidly now, and the building will be rushed to completion. This house of worship is 40 x 70 feet in size, will be beautifully finished inside with an outside stucco finish, and will be a commodious and handsome structure.

Several residences are also under construction at this time in various parts of the city.

Mr. and Mrs. Lee Wood are back in Tahoka again. Mr. Wood has recently been in a sanitarium at Mineral Wells. Mr. and Mrs. E. C. Wood returned from Mineral Wells early this week after a few days stay in that city.

KIWANIS CLUB HEARS TROUPE

Chautauqua People Appear On Program; Invitation Issued By Lubbock

The Alexander Novelty Four, a company of Chautauqua entertainers, composed of Mr. and Mrs. Alexander, Miss Miller and Miss Hudson were guests of the Kiwanians at their luncheon Wednesday and furnished the entertainment for the occasion, a musical program which was superb. Mr. Purcell, the circuit manager, and Miss Mors, superintendent of the Company now showing here, were also present as guests of the club and made brief but entertaining addresses.

Another very welcome guest present was G. H. Nelson, though he protested that he was not a guest but still a member. Mr. Limly, a farmer, was also present and made a snappy talk. Buster Fenton reported that the committee appointed for the purpose had raised the funds required to keep the band going for the remainder of the year. The names of the contributors and the amounts contributed will be published next week.

Mr. Fenton also read a letter from the Lubbock Kiwanis Club inviting the Tahoka Club to visit the former on May 3 and render a program.

Kiwanians Raising Budget For Band

Some of the local business firms have not yet turned in subscriptions to the support of the Tahoka Band, according to members of the Kiwanis Club who have been working on a cash budget for the support of the organization, and a few more days will be given for those who would like to help. The committee was unable to see some of the business men at the time the campaign for funds was being waged. Those who wish to support the band may turn over their checks to Chester Connolly, B. R. Tate, W. R. Fenton, Jr., or leave with the First National Bank.

Next week a list of contributors and the amount given will be published in The News. Supervision of the band was taken over by the Kiwanis Club April 1.

FIREMEN SELECT DELEGATES TO STATE CONVENTION

At a recent meeting of the Tahoka Volunteer Fire Department, J. E. Nance, Homer Harrison and Roy Taylor were elected delegates to the State Firemen's Convention which meets in Denton on June 12 to 15 inclusive. The boys are expecting to attend and to have a great time.

HIGHWAY MEET AT POST DEFERRED ONE WEEK

Belton Howell requests that we state that the Roswell Airline Highway meet which was announced in the paper last week to be held at Post on Tuesday, April 17, has been deferred one week and will be held on Tuesday, April 24. A number of Tahoka citizens should keep this date in mind and make their arrangements to attend.

Joe L. Brown of San Saba is spending the week here visiting his father-in-law, W. J. Crouch, and other relatives. This is his first visit to the plains. He left San Saba Sunday and says that the ground there was covered with snow when he left.

Citizen Assaulted; Seriously Wounded

W. H. Barber, a prominent citizen of Lynn, was assaulted by two young men of the community Monday and seriously injured. He was unconscious for several hours following the encounter and for some time it was feared that his injuries might prove fatal. He was said to be much improved Wednesday, however, and his rapid recovery is now expected.

A young man named Traylor was placed in jail charged with assault while his brother pleaded guilty of a charge of fighting. It is said that the assault by the young man was provoked by abusive language that Barber is said to have used with reference to their mother.

WORK DELAYED ON GAS MAINS

Pipe For Tahoka Missing; Pipe Line Gang To Reach Tahoka In Few Days

The beginning of work on the gas lines to be laid in the city has been delayed several days by reason of the failure of piping to arrive as expected. A shipment of piping intended for Tahoka was delivered through mistake to the Company at Lamesa several days ago. It became necessary therefore for the work to be deferred here until another shipment could be made, which could not be done prior to the fifteenth of this month. Most of the members of the crew which had been sent here to do the work were called away the first of this week to other points pending the arrival of another shipment of material to Tahoka.

In the meantime ditching and pipe-laying crews are at work on the main line in the north part of the county rapidly coming this way. We were unable to learn Wednesday just how far out these crews are at work but they are expected to reach Tahoka within the next few days.

Miss Lorraine Cumble of Lorenzo was here the latter part of last week visiting Mr. and Mrs. Monte Bowron and Mrs. Joe Cumbly.

Will Install New Officials Monday

At a meeting of the city council last Friday night, the returns of the city election were canvassed and the result declared. The result was found to be different from the returns published in the News last week, since it was found that J. L. Hearse had received 195 votes instead of 105 as stated last week. The error was not our own, however, but was made by the election officers in making their returns.

The new aldermen will be installed on next Monday night, and the official family of the city will thereafter be as follows: Mayor, J. R. Singleton; Aldermen: J. K. Applewhite, Homer St. Clair, H. W. Calaway, W. O. Thomas, and W. S. Taylor; City Secretary, Mrs. J. B. Walker; City Marshal, M. C. Finch.

Several Couples Recently Married

Urshal Whittington and Miss Virian Ritter were married last Sunday. Uncle Ike performing the ceremony. Less Jolly and Miss Bankston of New Lynn were also married last Friday night.

On Tuesday of last week Judge Cain united in marriage Bill Bell of Draw and Miss Eva Mae Yarbrough who resided in the vicinity of O'Donnell.

All these young folks have our best wishes.

WHY TAHOKA IS LOSING TRADE?

Our Chamber of Commerce and some of our business men have long been concerned about getting the trade for Tahoka that rightfully belongs within her trade territory. If they would read regularly the papers published in our neighboring towns they would understand why these towns are invading Tahoka's trade territory. The business men of these towns advertise. They carry frequently half-page and full-page and double-page ads, telling about their goods, wares, and merchandise. Just last week one of our near neighbors issued a fourteen-page paper, well-filled with advertisements of the business concerns of the town, and it regularly is ten and twelve pages. This town is little if any larger than Tahoka. Other neighboring towns are advertising fully as freely. We are not complaining at the home folks, but we are just putting our finger on the reason for our losing trade that belongs in our territory.

Fruit Is Badly Damaged By Freeze

Fruit growers are of the opinion that most of the fruit was killed by the freeze and frost Monday night. Up to that time, the fruit had apparently escaped serious damage. It is impossible to determine yet just how serious the damage was but the consensus of opinion seems to be that the major portion of the crop was killed.

Easter Brings Wintry Weather

Whew! That was a cold, wintry blast that Easter brought us.

Saturday was a cool disagreeable day, but with the approach of evening the wind veered directly to the north and increased in intensity. All night it raged and howled like Fury across these level plains, and Sunday morning dawned with a fine, misty snow falling and every roof and house top carpeted with white. The heavens continued to spit snow throughout the day, which melted as it fell, but with nightfall again the tiny particles began anew the weaving of a beautiful carpet of white, and on Monday morning the whole earth was covered with His glory. The thermometer stood in the neighborhood of 28 and many were fearful that the fruit crop had been destroyed or seriously damaged, but some who investigated reported that no damage apparently has been done.

But it was real winter, and there was little comfort anywhere except in front of a blazing fire. All this on April 7-8-9.

W. L. Harwell and Jim Swope of Abilene were here Tuesday on business. Mr. Swope formerly resided here and Mr. Harwell owns property here, which he acquired from Mr. Swope.

Midway Farmer Winner Of Prize In Windmill Contest

J. L. Lloyd of the Midway community this week received a check in the sum of \$53.20, the retail price of an 8-foot, No. 11, Annu-Oiled Dempster Windmill, through the Cicero Smith Lumber Company, from the Dempster Mill Manufacturing Company of Beatrice, Nebraska.

About a year ago this manufacturing company announced that for every one hundred windmills sold it would give away one windmill to that purchaser who should write the best letter explaining why he purchased a Dempster. Mr. Lloyd purchased one of these mills from the Cicero Smith Lumber Company and entered the Dempster contest. His letter won the second free windmill awarded during the 1928 campaign. Since he did not need another windmill, the retail price of the same was sent to him by the company.

DEMOCRATIC COMMITTEE MEETS; SELECT PRECINCT CHAIRMEN

The Democratic Executive Committee of Lynn county met at the Court House Wednesday afternoon at the call of county chairman H. M. Larkin to make provision for the holding of precinct and county conventions early in May and to transact such business as should come before the body. The following members were present: Chairman H. M. Larkin, J. N. Lemond, Dr. W. J. E. Morgan of Magnolia, H. P. Burkhalter of Grassland, and R. B. Floyd of Tahoka.

The following gentlemen were appointed as precinct chairmen to preside over the precinct conventions to be held in their respective districts on May 5, to wit:

- No. 1. South Tahoka—J. S. Wells.
- No. 2. Wilson—Bob Ferrister.
- No. 3. Three Lakes—G. W. Hickerson.
- No. 4. New Home—J. H. Smith.
- No. 5. Draw—A. R. Hensley.
- No. 6. North Tahoka—W. S. Swan.
- No. 7. O'Donnell—C. H. Doak.
- No. 8. Grassland—W. J. Burkhardt.
- No. 9. Gordon—Ed Milliken.
- No. 10. Magnolia—O. R. Cook.
- No. 11. West Point—J. M. Noble.
- No. 12. New Moore—L. F. Goad.
- No. 13. Dixie—J. D. Sossoman.

At these precinct conventions delegates will be elected to a county convention to be held on Tuesday, May 8, at which delegates to the state convention will be elected. The state convention will be held in Beaumont on May 22, at which delegates to the Democratic national convention to be held in Houston will be named.

SCHOOL MAKES HEALTH SURVEY

Making Effort To Lessen Number Of Underweight Children Through Corrective Diet

The health program instituted at the Central Ward School under the direction of Mrs. Baze and the teachers of that school has been carried out rather consistently and reveals some facts worthy of note. All children were weighed three times during the year. A record has been kept of the weights. Efforts have been made to enlist the cooperation of all parents in correcting one defect—underweight—as much as possible through proper food and supervised lunches. The following has been given in as a result of data compiled this week after the third weighing:

Weighted at the beginning of school, 282; number underweight at that time 103; weighed this week 316; number underweight 94. The first grade had 27 underweight of a total of sixty who were weighed at the beginning of school. The last weighing showed 13 underweight in a total of 74. The second grade showed 15 underweight in the beginning of school of a total of 35. The weighing this week showed one underweight of a total of 48. The third grade showed an increase of underweights from four to 23 during the year. Investigation shows that a great deal of this increase is due to the influx of pupils during the term who have not received the benefit of the supervised lunch. The four higher grades show no material increase in normal weight. Mobile population is found to have materially reduced the per cent of increased weights.

An interesting item in this compilation is the following: During the year, eight pupils of those who have attended all the year and have had three weighings lost a total of fifteen pounds, ranging from 1 to 6 each. Six pupils did not gain. Fifteen gained one pound. Sixteen gained two pounds. Twenty-three gained three pounds. Thirty gained four pounds. Twenty-five gained five pounds. Twenty-two gained six pounds. Twenty-one gained seven pounds. Six gained eight pounds. Twelve gained ten pounds. Two gained thirteen pounds. Three gained sixteen pounds. One gained nineteen pounds.

Quite a number of pupils are overweight. Investigation reveals the fact that they take little exercise such as would tend to remove surplus weight. Three-candy-eaters of the habitual type are fifteen pounds overweight. Three tobacco users of the habitual type are ten, twelve, and twenty pounds respectively overweight.

Two citizens of Tahoka engaged in a controversy one day the first of the week that for a time threatened to be serious but was terminated without and personal violence. One of them paid a fine.

The Houston convention will nominate a candidate for President. Precinct conventions should send to the county convention one delegate for every 25 votes cast for the Democratic candidate for Governor in the general election in 1928. The county convention will send to the state convention one delegate for each 300 votes cast for governor.

It will be the duty of the gentlemen named above to hold the conventions in their respective precincts on May 5. County Chairman H. M. Larkin indicated that he would be out of the state at the time of the county convention on May 8 and asked the executive committee to elect some one to act in his place. The executive committee named E. L. Hill as such substitute chairman. Mr. Hill was not present and at this time has not indicated to the committee whether or not he will accept.

WHO CAN SHOW A BIGGER EGG?

Frank Hill of the News office force has a few hens to help supply the family table, and one of these recently decided that she would furnish the whole family an entire meal in a single egg. At least that seemed to be her purpose, for she presented the family Wednesday with an egg whose circumference around the middle measured 7 7/8 inches and around the ends 9 inches. The hen is of the Rhode Island Red Stock.

TECH PROFESSOR FILLS METHODIST PULPIT HERE

In the absence of the pastor, Rev. R. T. Breedlove, who was at Vigo Park engaged in a meeting, Dr. George Smallwood, one of the faculty members of the Texas Tech, filled the pulpit of the Methodist Church here one Easter Sunday. In spite of bad weather conditions the services were fine and helpful.

Nunn and Roderick Purchase Slatonite

Announcement was made in the Slaton Slatonite last week of the sale of that paper by Mrs. Bessie M. Donald of Slaton to J. L. Nunn of Amarillo, D. D. Roderick of Lubbock and T. E. Roderick of Tulsa, Oklahoma. The new owners assumed control on April 2.

T. E. Roderick will move to Slaton and will be the publisher and general manager. R. W. Collier, who has been editor the past few years, will continue to hold this position. It is announced that plans are being made for installing new machinery and enlarging the paper at an early date.

Messrs. J. L. Nunn and D. D. Roderick are the owners and publishers of the Lubbock Morning Avalanche and the Lubbock Daily Journal, and Mr. Nunn is interested in The Amarillo News and Globe, the Childress Index and Post, and President of the Nunn-Warren Publishing Company, owners and publishers of the Borger Daily Herald, the Pampa Daily News and other Panhandle papers.

The passing of the Slatonite into the hands of these gentlemen assures Slaton of a larger and better paper than it has had heretofore.

S. S. CLASS ENTERTAINS

The members of the "Every Man's Sunday School Class" were host to their wives and the members of Mrs. Fenton's class at a very enjoyable social in the basement of the Methodist Church Friday night.

The guests were entertained by a short but interesting program consisting of two numbers by the High School Quartet.

Reading—Mrs. Harley Henderson. Vocal Solo—Miss Jewel Sargent. Reading—Mrs. Nat Williams.

After the program the guests were passed slips of paper, with such names as Sam Goodlooker, and Jake Juicyfruit on them, with instructions to find the owner of the name. As these gentlemen were located they took their partners to the refreshment table where they were served with a very delicious plate.

THREE TAHOKA GIRLS MAKE CANYON HONOR ROLL

Among those making the honor roll at the West Texas State Teachers College last quarter appear the names of three Tahoka young ladies who are students in that institution. They are Misses Montie Draper, Georgia Slover and Lillie Dell Slover.

Eighty-three of the 1300 students enrolled won places on the honor roll, these places being determined by the high quality of class work and the degree of activity in student affairs.

W. M. Harris of the firm of Harris & Applewhite attended the convention of hardware dealers which was in session in Amarillo several days this week.

Much New Material For Historical Society

Canyon, April 11—Through the recent meeting of the Panhandle-Plains Historical Society, which brought about 200 people to Canyon, the museum and library of the Society have acquired some very valuable pieces. Two photographs of Mrs. Cornelia Adair and a very time oil painting of John George Adair were brought by T. D. Hobart of Pampa.

Mr. and Mrs. John Knight of Canyon presented a framed photograph of themselves. They were the first couple married in Canyon, and the third in Randall county. A very fine photograph of Jot Gunter, the founder of the T-Anchor ranch was presented by Mrs. Jot Gunter of San Antonio. This was secured through the efforts of L. Gough of Amarillo.

An interesting panel showing Dr. and Mrs. J. C. Cornelius, the home of H. T. (Tuck) Cornelius, which was the first house built in Amarillo, Mr. and Mrs. H. T. Cornelius and Mayvi Amarillo Cornelius, the first girl born in Amarillo, was brought to the Society by H. M. Russell. The pictures were collected by Mrs. Jennie Harrell.

Books Added to the Library Charles Siringo of Long Beach, California, well known author of stories of pioneer life, presented the Society an autographed copy of his most recent book, "Riata and Spurs"

Professor A. B. Hays of the Amarillo High School faculty, deposited with the Society an account of the experiences of the Mier prisoners in Mexico. This book was written in 1845. An ancestor of Mr. Hays was a member of this ill-fated expedition, part of whose members were chosen by lot to be executed.

Judge O. H. Nelson of Romero presented the Society a copy of "The Cattle Industry in Texas," a book of valuable history of the range activities during the early days.

Two copies of Bunker's Monthly were presented, and their donor, Judge Thomas Turner will continue to send them to the Society in order that its files be complete.

John Knight of Canyon presented a pair of spurs which were added to the brand collection a famous old T5 branding iron.

The historical collection is rapidly growing, and the officers of the Society are already planning its arrangement in the museum building which it is expected will be built within a short time.

Issue Call For Republican Meeting

DALLAS, April 10—The call for the State Republican Convention to meet in the City Hall Auditorium here at 10 a. m. May 22, has been mailed to County Chairmen throughout the State by the Republican State Headquarters here. The call is over the signatures of Eugene Nolte, Chairman of the Republican State Executive Committee, and of Leonard Withington, secretary of the committee and director of the Republican organization in Texas.

The Republican State Executive Committee is also called to meet May 21 in the City Hall at Dallas at 10 a. m. to canvass the returns and credentials showing the election of delegates to the convention, to prepare a roll for the convention and to hear contests for seats.

Twenty-six delegates and twenty six alternates to the national convention, which meets at Kansas City, Mo., June 12, will be elected by the State Convention. The Dallas gathering will also nominate 20 Republican candidates for presidential electors—two from the State at large and one each from the eighteen Congressional districts in the State.

County Chairmen are reminded in the call that, according to law, they must hold precinct conventions Saturday, May 5 and county conventions on the following Tuesday—May 8. Each County Chairman must post notices in at least three public places in his county ten days before the County Convention is to be held. Each precinct Chairman must similarly post three public notices of his precinct Convention.

In the State Convention, each coun-

ty is entitled to one delegate and one alternate for each 300 votes or major fraction cast for the Republican candidate for President or Vice-President in 1924. In the county convention, each precinct is permitted a delegate for each twenty-five votes or major fraction cast in 1924 for the Republican candidate for President or Vice-President. But each county or precinct holding a legal convention is to have at least one vote.

KNOY-REDMOND

To the great surprise of her many friends last Saturday morning Miss Catherine Knoy, daughter of Mr. and Mrs. G. W. Knoy was quietly married to D. L. Redmond of Brownfield, Texas. Rev. Bishop of Post, Texas officiating, using the beautiful ring ceremony. A few very close friends were present.

The bride was attired in a charming dress of blue Elizabeth Crepe with accessories to match.

The happy couple left immediately for a short trip to several southern towns. Upon their return they will be at home to their many friends in Brownfield, where the groom has a beautiful new bun galow ready for them.

We all join the paper in wishing them all the happiness possible. —Contributed.

BREEDLOVE CLOSSES GOOD MEETING AT VIGO PARK

Rev. R. T. Breedlove closed a good meeting at Vigo Park, a small rural church near Tulla, on Sunday night. Although the weather was inclement during the entire week, good crowds attended the services and there were several professions of faith, with a few additions to the church.

Floy Anglin of this place is reported on the honor roll at Texas Technological College during the last term, having carried 5 courses with an average grade of "B"

R. R. Reagan is building a new home on his farm five miles east of O'Donnell. The house is said to be one of the finest farm homes on the south Plains.

G. H. Nelson was here from Ralls Wednesday and indicated that he and family expected to return to Tahoka within a short time. Mr. Nelson has maintained his citizenship here during his temporary absence and upon his return at an early date he expects to begin an active campaign for the office of county attorney.

D. A. Parkhurst is a gentleman of leisure just now. He is enjoying a two weeks vacation. What we can't understand about it is that he has not left town. Boy, if we had a vacation we would go south where the fish are biting and the birds are singing and would stay all the remainder of the winter.

Rev. Graves Darby, pastor of the Baptist Church at Wilson, declined the call of the church to the Wilson Pastors, and Mr. Darby's friends in this section will be delighted to hear that he is to remain in the section. He is one of the ablest and spirited preachers of the section on all the south plains.

Jaynes maize yields 1-1/2 acre than other kinds.

Mr. C. O. Edwards came in today from Fort Worth to spend a few days here looking after his property.

See The New Delco-Light

This New Delco-Light "does everything but think." And when you see it, you'll believe it. It has all the good points of both Automatic and Battery Service Systems. Small loads run from batteries. Heavy loads start the engine—automatically. Has automatic choke—automatic throttle—automatic pilot balls in the battery, etc., etc., etc.

SLASH-L NEWS

As the Reporter has been gone some time we are proud to be back again.

The club met at the home of Mrs. Ruby Perry Monday, April 3. There were 11 members present and seven visitors. Two new members were added to the club, making a total of 18, of which we are proud.

Those present were: Mesdames T. D. Pharr, Ruby Perry, A. L. Perry, R. E. Seay, G. W. Crutcher, S. A. Anderson, Ed Anderson, H. T. Thomas, W. H. Hodges, H. N. Hodges, and Miss Bernice Anderson.

Visitors from New Moore: Mrs. Lola Mae Baxter, Thelma Pendleton, Joe Curry, Martie Daniel, Ernest Goad, and Mrs. Goad and Mrs. Daniel.

The women also gave an April Fool party Saturday night, March 30, at the home of Mr. and Mrs. A. L. Perry. There were 51 present and all had a good time. After our fun was over we served corn bread sandwiches.

In March we canned a beef for Mrs. H. T. Thomas and Mrs. A. L. Perry. There were 120 cans of meat canned.

Our next meeting will be at the school house. Our subject will be on Education.

REPORTER.

Plainview—The Panhandle-Plains Dairy Show held here April 2, 3, 4, 5, and 6, was declared one of the outstanding ever held in the country.

Abilene—Abilene's new directory shows a population of 32,400 people, a gain of 7,000 people in seven years.

Eden—A carload of corrugated iron cultivators, the first ever shipped here, have been unloaded for distribution through the county.

SENATOR MAYFIELD RE-
LIES TO NEWS EDITORIAL

Senator Earle B. Mayfield has sent to the News the following communication in reply to a News editorial of a few weeks ago criticizing his bill, which provides that the entire expense of remunerating farmers in non-cotton zones for their losses shall be borne by the Federal Government. His communication is as follows:

In the March 15th issue of your paper there is an editorial—"MAYFIELD LINES UP WITH MARRIAGE," which contains erroneous statements with reference to my position on the pink boll worm matter. For instance, you say—"Senator Mayfield would take this matter out of the hands of Texas and place it in the hands of a Federal Bureau at Washington. He would give this Bureau the power to do that which it has been attempting, to induce the 'Pink Boll Worm Commission of Texas, to do, viz.:' to prohibit the raising of cotton in Dawson, Howard, Martin, Midland, or any other county where a dead pink boll worm might be found. We are against the transfer of this power to a Bureau or a Department at Washington." There is no such provision in S-3536 which I introduced in the Senate. My measure only relates to the cost of eradication and provides that the Federal Government shall bear all the expense incurred in the eradication and control of diseases of live stock and of agricultural pests introduced into the United States from any foreign country. My bill does not take from the States one iota of power which they now possess. It does not give the Federal Government one iota of power that it does not already possess. My bill does not confer upon the Federal Government one iota of power to establish non-cotton zones. The question of power to establish regulated zones or non-cotton zones is not mentioned in my bill. As above stated, only one question involved in my bill is the question of expense.

In a short speech made in the Senate on this matter I said: "Acting under the authority of the law of the state, in which the invasions may take place the Federal Government assumes direct control. The policy to be followed and the measures to be employed are determined by the Federal Government, the States being given no power or authority whatever." This is the law today. In 1917 the Legislature of our State enacted its first pink boll worm legislation. I was making reference to that legislation. Under no circumstances does the Federal Government impose its authority upon a state but acts under State authority.

The Federal Government outlines its attitude and offers its cooperation, but of course that co-operation must take place under the statutes of the state in which the invasion occurs. Now, if a state should fail to enact legislation under which the policy of the Federal Government could be carried out or should decline the conditions of Federal co-operation tendered, the Federal Government simply withdraws its tender of co-operation and then takes whatever action it deems necessary to protect the remaining part of the Nation in the way of quarantines, etc.

The present policy is for the Federal Government to pay not more than one-third of the cost of eradicating agricultural pests and the State must pay the other two-thirds. In my opinion it should be the policy of the Federal Government to bear the entire expense for eradicating agricultural pests, including all damages to farmers by reason of the establishment of regulated zones or non-cotton zones by Federal or State authority, and that is all my bill undertakes to bring about. The Farm and Ranch answered this question so thoroughly, and with your permission I will use its editorial as part of this letter:

"Were we to suffer the invasion of armed soldiers from a foreign land, the resources of the entire country would be called upon, if necessary, in driving them back. The United States, because Texas is an integral part of the whole country, has been invaded by a foreign enemy, the pink boll worm which, if allowed to multiply and spread, will do more material damage than an invading army. It would be ridiculous to demand that a State Government pay two-thirds, or even one-third of the cost of an enemy invasion, just because the enemy happened to cross the border into some one State. It is just as logical to ask a State to pay a greater portion of the cost of repelling a foreign insect which is a menace to a large and valuable National industry.

"The pink boll worm is not a Texas problem any more than it is the problem of the entire South. Why should Texas be asked to bear a large part of the expense in the fight to eradicate it or compensate for the damage done during the battle?"

"If the pink boll worm is of National concern, and the Federal Government has assumed it is, by taking charge of the fight against it and making its own rules and regulations, then the Federal Government should bear all the cost of the battle and compensate the innocent bystanders who are injured during the conflict."

making its own rules and regulations, then the Federal Government should bear all the cost of the battle and compensate the innocent bystanders who are injured during the conflict."

T-Bar

The community was visited with a snow Sunday night, although it was rather light.

Easter was not celebrated much here Sunday. On account of bad weather we did not have any Sunday school or church.

The Baptist meeting which was to have started here Sunday night did not begin until Monday night, when there was a large crowd out to hear a wonderful sermon. The meeting is being conducted by Rev. Johnson, a missionary preacher, and the singing is being led by Brother Shumake. Now, folks, come out to these services and let's make this a great revival. It will last this week and probably next week.

Mrs. Welch, the primary school teacher, gave her pupils an Easter egg hunt Friday afternoon. When Mrs. Charley Henderson came in and presented her pupils a big galvanized bucket of salted peanuts, you readers may not think these little fellows thought this a treat but they expressed, "My, I wish Easter would come every day." Ben Moore was champion egg-finder, the amount being 14 eggs.

Lena Shumake is here in our midst during the revival.

Girls, let's not forget that Monday is our club day. Bring money to pay for your patterns.

The school girls played ball with the outside girls Friday evening, the scores being 22 to 2 in favor of the school. We did not learn the boys' scores.

Mrs. J. A. Beasley is on the sick list at this time.

There was just a small crowd at the club meeting on Thursday on account of the sand storm.

APPLE BLOSSOM.

ENTERTAINS WITH BRIDGE PARTY

Mrs. Travis Stewart entertained with a bridge party Thursday afternoon from 3 to 6 o'clock in her home. Mrs. Chas. F. Shook won high score.

The hostess served brick ice cream and angel food cake.

Vases of lilacs added fragrance and beauty to the rooms.

Score cards depicting old fashion ladies were drawn by Mesdames H. M. Larkin, E. E. Callaway, Chas. F. Shook, L. E. Turrentine, Paul Miller, Robt. H. King, Elbert Boullion, Oscar Roberts, Layne Moreland, W. B. Slaton, G. M. Stewart, Skip Taylor, Jack Alley, K. F. Knight, W. O. Thomas, Marshall Swan, Frank Larkin, B. H. Robinson, Bill Burleson and Frank Hill.

Textline—A franchise for natural gas has been granted by the city council, and it is expected to be in use here before next fall.

Sweetwater—Sweetwater's official West Texas Chamber of Commerce Band will attend the Tenth Annual Convention at Fort Worth with brand new uniforms.

DIVERSIFY AND PROSPER

Agriculture can only be stabilized by a diversity of Farm Products. One-crop farming has proven unprofitable over a term of years even in the most favored sections.

In West Texas it is imperative that you have a few good dairy cattle, poultry, and hogs, something that will bring a revenue at all times. Raise enough of these to insure a living, and you will have your staple farm crops as a profit.

**DRY DEMOCRATS DIVIDE INTO
FACTIONS**

The "drys" are fighting among
themselves about what their position
should be in the Houston convention.
One wing led by Governor Moody is
favoring an instructed delegation for
a dry plank in the platform and a
dry candidate to stand upon it but
opposing any instructions against
any particular candidate, wet or dry.
They also insist that all persons who
would participate in the precinct and
county conventions shall pledge
themselves to support the nominee of
the Houston convention, whether it
be Al Smith, Jim Reed, Governor
Ritchie, or any other "wet".

The other wing led by Cone John-
son and Tom Love is advocating an
instructed delegation for a dry plank,
for a dry candidate, and against Al
Smith or any other "wet" and insist
that the proposed pledge is merely a
political move in the interest of Smith.
They take the position that a situa-
tion might arise wherein food Democ-
rats would feel it their duty to God
and country to scratch the Democra-
tic ticket, but they do not feel that
these should be barred in advance
from participating in a Democratic
precinct convention.

The News believes in party organ-
ization and some degree of party dis-
cipline, but it does not believe that
iron-clad oaths and pledges should be
exact of those who participate in its
primaries. A man's conscience or a
woman's conscience should be his or
her guide at the ballot box. If one who
has been a Democrat all his life and
who has consistently voted the Democ-
ratic ticket should feel it his duty to
enter a Democratic convention to pre-
vent what he feels would be disas-
trous to the party, to wit: the nomi-
nation of an unworthy candidate, with

the intention of voting against that
candidate if he should be nominated,
we believe that is a matter for his
conscience and not for strict party
discipline. Otherwise, only the brass-
collar partisan would have any voice
in the selection of the candidates of
either party. A great and possibly a
growing number of our citizens would
be left entirely out in the cold in so
far as the selection of party candi-
dates is concerned. We believe that
the more we encourage political inde-
pendence, the better will our govern-
ment be in both state and nation.

The dairy show at Plainview last
week seems to have turned out to be
bigger and better than anybody ex-
pected. Nearly 350 head of fine dairy
cattle were on exhibit, consisting of
Jerseys, Guernseys, and Holsteins.
Judging teams from thirteen plains
high schools were there to judge the
stock. Many visitors were there
from all over west Texas and from
Oklahoma and New Mexico, as well
as some from a number of western
states. A few Lynn county people at-
tended. There should be a deeper
interest in the dairy business in this
county. Every farm owner should
have one or more high-bred dairy
cows. Every tenant farmer should
have one or more. Inferior stock
should be weeded out. This is natu-
rally one of the finest dairy sections
of Texas, no doubt about it. Let's
cash in on our resources. Let's give
more attention to the dairy cow. We
ought to have several bull circles in
this county now.

In conversation with the News edi-
tor Monday, J. R. Thomas, a promi-
nent farmer of O'Donnell, expres-
sed the opinion that this county ought
to have a county farm agent. He
cited the good which a farm agent
had accomplished in Parker county
while he was a citizen of the county
and he believed that an agent
could be of much service to the
farmers of this county. He stated
that he had heard several farmers ex-
press similar opinions.

The Plains section should give en-
couragement to the building of a rail-
way direct to San Antonio and the
sea. We need this outlet now; we
may need it more urgently in days to
come.

We have an idea that it would tick-
le those Tammany Tigers to death
to get to make a deal with Texas
Democrats whereby the "drys" might
write the platform if the Tigers were
allowed to name the candidate.

We do not know just what all
these railway propositions mean,
but we would like to see a network
of railways on the south plains. They
are threading the country north of
Lubbock; why not south?

**Political
Announcements**

The following candidates announce
their candidacy for office subject to
the action of the Democratic primary
election in July, 1928:

**For District Attorney, 106th Judicial
District:**
T. L. PRICE (Re-election)

For County Judge:
G. C. GRIDER
C. H. CAIN (Re-election)
H. W. CALAWAY

For Sheriff and Tax Collector:
B. R. (JAKE) HOLCOMB
J. H. YARBOROUGH
BEN KING
J. W. SIMPSON (Re-election)
SAM SANFORD

For County Attorney:
G. H. NELSON
L. C. HEATH (Re-election)

For County Tax Assessor:
J. S. (JIM) WEATHERFORD
(re-election)
T. W. BROWN

For County Superintendent:
H. P. CAVENESS (Re-election)

For County Treasurer:
MISS VIOLA ELLIS (Re-election)

For County and District Clerk:
W. E. (HAPPY) SMITH
(Re-election)
E. W. HOLLOWAY
TRUETT B. SMITH

For Public Weigher, Precinct 1:
FRANK EDWARDS
W. O. HENDERSON
R. W. FENTON JR.
W. P. BUSSELL
R. C. WOOD (Re-election)

For Commissioner Prec't. No. 2:
W. Z. FLORENCE
R. B. McCORD (Re-election)

For Justice of the Peace, Prec't. 1:
I. P. METCALF (Re-election)

**For Public Weigher, Prec't. 5 (New
Home):**
C. W. SETH
W. L. BALCH

**MORE ABOUT MAYFIELD'S BOLL
WORM BILL**

In another column we publish a
communication from Senator Earle
B. Mayfield complaining that in a re-
cent editorial we made "erroneous
statements with reference to his po-
sition on the pink boll worm matter.
The particular statement to which he
takes exception was that his bill
would give the Department of Agri-
culture at Washington the powers
now exercised by the State Pink Boll
Worm Commission to declare a non-
cotton zone and to prohibit the rais-
ing of cotton where pink boll worms
might be found. Senator Mayfield
points out that his bill does not pro-
vide for any such transfer of power.

We accept the correction, but we
insist that if we misconstrued the con-
tent and purport of his bill, this mis-
construction was due to the fact that
he misconstrued it himself. If his
bill does not make any such transfer
of power, if it does not "take from
the states one iota of power which
they now possess", if it does not give
the Federal Government one iota of
power that it does not already pos-
sess", if it does not "confer upon the
Federal Government one iota of
power to establish non-cotton zones,"
then what did Senator Mayfield mean
when speaking in favor of his bill,
he stated: "The policy to be followed
and the measures to be employed are
determined by the Federal Govern-
ment, the States being given no pow-
er or authority whatever?"

While his letter which we publish
this week seems to state that this is
the law already, surely he can not be
so densely uninformed as to make
such a contention. The present law
of this state not only provides that
non-cotton zones and regulated zones
can be established only by the Gov-
ernor upon the recommendation of a
Pink Boll Worm Commission provided
for by the law of this state, but also
that the amount of compensation for
losses to farmers in non-cotton zones
shall be determined by a Board of
Claims also established by state law;
and when a regulated zone is declar-
ed by the Governor, the regulations
and restrictions under which cotton
may be grown in the regulated zone
are prescribed by the State Commis-
sioner of Agriculture. There is now
no Federal law authorizing the United
States Department of Agriculture or
any other Federal Department or
Bureau to declare a non-cotton zone
that we are aware of. Under the
present State and Federal laws, "the
policy to be followed and the meas-
ures to be employed" in dealing with
the pink boll worm are determined

solely by the State and not by the
Federal Government, except in so far
as the State's action may be influenc-
ed by pressure brought to bear by
the Federal Government and by the
one member of the State Pink Boll
Worm Commission who is appointed
by the United States Secretary of
Agriculture.

Now, while Senator Mayfield's bill
would not specifically transfer any of
these powers to any department or
bureau at Washington, yet it would
in effect largely do so. It would be
incongruous and absurd to require
the Federal Government to furnish
all the funds for combating the pink
boll worm and give it no voice in de-
termining when or how these funds
should be expended. If required to
put up all the money, we have an
idea that the Federal Government at
Washington would feel that it had
the right to make suggestions and
even requirements as to the condi-
tions upon which it is to be expended
and the manner of its expenditure; and
since the State Government would be
putting up none of the funds, it would
feel that the suggestions and demands
of the Federal authorities should
have the force of law. In other words
the State can hardly shift to the Fed-
eral Government the responsibility
of financing the fight without sur-
rendering to the Federal Government
the right to direct the fight and to
dictate the policies to be adopted. If
the Federal Government furnishes all
the funds and then demands that a
non-cotton zone be established, how
is the Texas Pink Boll Worm Com-
mission going to resist the demand?
Such a demand will not be resist-
ed. This view was expressed by the

Dallas News Monday, when, in com-
menting on the Buchanan Bill which
has been favorably reported, it used
this language: "But if live boll
worms should be discovered before the
crop had matured, both our statute
and the resolution would allow the
establishment of non-cotton zones,
even though that would entail the de-

struction of a growing cotton zone
maturity. These who would
our law could not well object
ing that done, since the
of the operation would be
the Federal Government
ing to assessments made

**Millions of
Model T Fords
are still in
active service**

FOR nearly twenty years, the Model T Ford led the motor
industry and it still is used by more people than any other
automobile. More than eight million Model T Fords are in
active service today—an indication of their sturdy worth,
reliability and economy.

Because of the tremendous investment which people
have in these cars and because so many of them will be
driven for two, three, and even five more years, the Ford
Motor Company will continue to make replacement parts
until, as Henry Ford himself says, "the last Model T is
off the road."

For the Ford Motor Company has always believed that
its full duty consists not only in making a good automobile
at a low price, but also in keeping it running efficiently for
you as long as possible at a minimum of expense.

No matter where you live, therefore, you can still buy
Model T Ford parts with the same assurance as formerly,
knowing that they will give you the kind of service you
have a right to expect, and at the same time protect the
money you have invested in your car.

All Ford replacement parts, as you may know, are made
of the same materials and in the same way as those from
which your car was originally assembled, and are low in
price because of the established Ford policy.

So that you may get the greatest use from your Model T
Ford over the longest period of time, we suggest that you
take the car to the nearest Ford dealer and have him esti-
mate on the cost of any replacement parts which may be
necessary. You may find that a very small expenditure
will maintain the value of your car and will be the means
of giving you thousands of miles of additional service.

EDITORIALS

(Continued from Editorial page)
provisions of that law.

Now this may be an ideal situation from the view point of Senator Mayfield and of those who are clamoring for the establishment of a non-cotton zone in west Texas, but it can hardly meet with the approval of West Texas people who believe that the establishment of such a zone is unnecessary and would be ruinous to the agricultural and business interests of the territory involved.

We are opposed to the Mayfield bill and to the Buchanan bill, which has been favorably reported by the House Agriculture Committee, for three reasons:

First, because we believe they pave the way for the establishment of a non-cotton zone in west Texas this year in every county where a single live boll worm may be found. With funds already provided by the Federal Government, the cry for the establishment of a non-cotton zone when a pink boll worm is found in any county will be irresistible. A non-cotton zone will be immediately declared and the growing cotton immediately and completely destroyed, to the great damage of the people of the county.

Second, since the entire funds are being furnished by the Federal Government there will be a much stricter test applied at Washington as to the amount of compensation to be allowed the farmers who file claims than would be the case if the major part of the funds were being furnished by the state; and our prediction is that farmers will experience much difficulty in getting their claims allowed in amounts even approximately commensurate with their losses.

Third, we believe that the proposal to require the Federal Government to furnish all the expense is wrong in principle. It is claimed that the pink boll worm problem is a national problem and that the Federal Government should therefore bear the entire expense. We do not believe that it has yet reached the proportions of a national problem, but even if it has, it is much more a state problem. The destruction of the Texas cotton crop by the pink boll worm would be many times more disastrous to Texas than it would be to the people of the nation as a whole. It is a hundred times more important to the people of Texas from a business standpoint than it is to the people of the North and the East. Therefore, if a fight on the pest is necessary, we believe that the people of Texas should be willing to share with the Federal Government the expenses of making the fight.

We think that the Mayfield and Buchanan bills are wrong in principle and if enacted into law are calculated to bring an unnecessary disaster upon the people of any county in which a live pink boll worm may be found this summer or fall.

For sentimental reasons we have never favored the division of Texas. We sometimes think that the material advancement of the west portion of the state would be helped by the creation of a new state. Many people are thinking along the same lines.

We believe that it is time for West Texas to get behind some man for Commissioner of Agriculture who has as much sympathy for the farming interests of this section as he has for those of East Texas and the Black Land Belt. Who can suggest a good West Texan for this position?

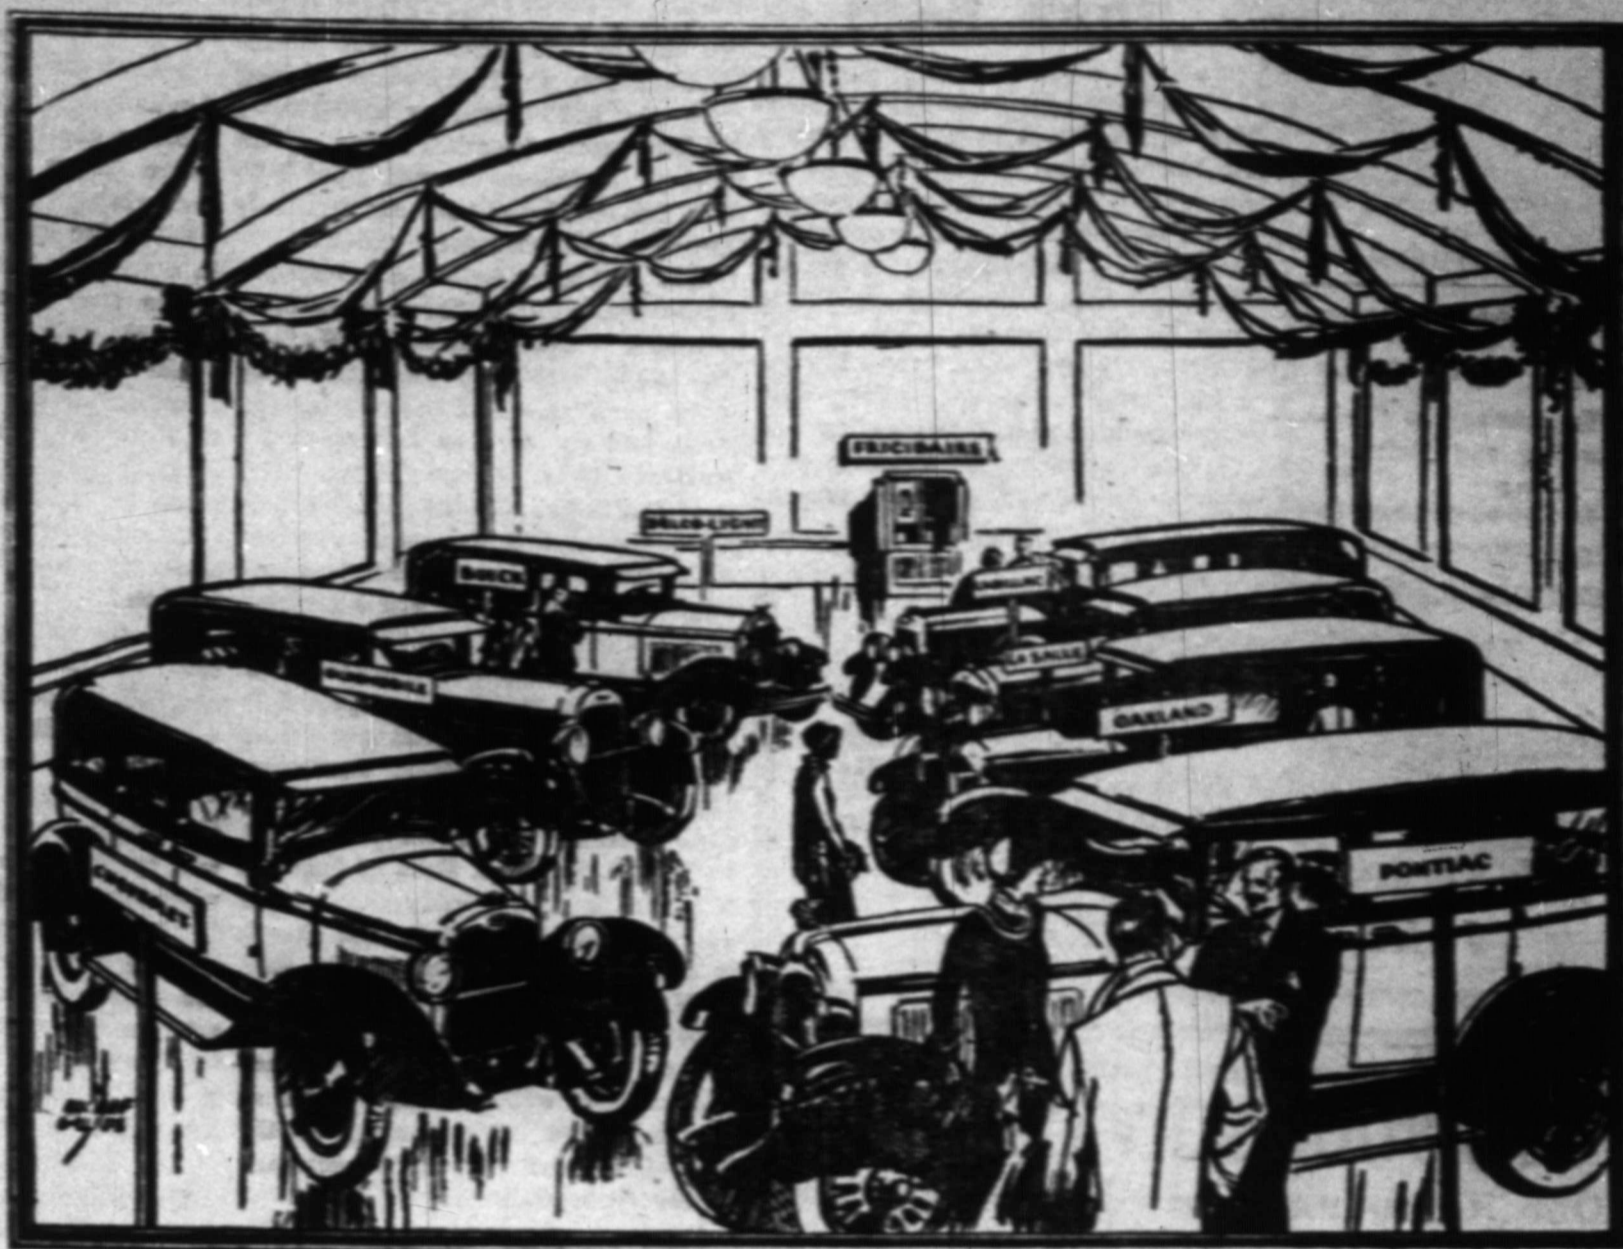

Midland-Hotel Wallace, a first class seven-story hotel, is to be erected here at once.

Bring this complete automobile show into your own home

THE national automobile shows in New York and Chicago were too far away for most Americans to attend. But by clipping the coupon below, you can bring a representative automobile show into your home.

At the shows General Motors exhibited a complete line of automobiles — "a car for every purse and purpose."

They are the quality cars of their respective price classes. They range in price-at-the-factory from \$495 to \$5,500. They include 89 models of every type and kind. They embody improvements tested and proved at General Motors' Proving Ground, which, together with the Research Laboratories, is maintained to assure continuous progress.

"A car for every purse and purpose"

The General Motors cars are briefly described below. The new models offer more performance, more comfort, more beauty than ever before in automobile history. All have 4-wheel brakes. All closed bodies are by Fisher. All have Duco finish. All are built of quality materials. And for their convenient purchase, General Motors has provided the standard low-cost GMAC Plan.

CHEVROLET. 7 models, \$495 to \$715. Bigger and better than ever before. 4-wheel brakes. Longer wheel base. Still more powerful engine. Luxurious Fisher Bodies. Shock absorber springs. New hood. New Duco colors. New instrument panel and other improvements. ALSO truck chassis: 3/4-ton, \$395. 1-ton, \$495.

PONTIAC. 8 models, \$745 to \$875. The lowest priced quality "six." Improved from radiator to tail-light. For example: 4-wheel brakes, new GM cylinder head, increased power, locking device, more luxurious Fisher Bodies. Finished in Duco in new colors.

OLDSMOBILE. 7 models, \$925 to \$1085. Entirely redesigned by General Motors, the new Oldsmobile has earned the title of "The Fine Car at Low Cost." Longer, roomier, more powerful — and the best word in styling. Fisher Bodies. 4-wheel brakes.

OAKLAND. 9 models, \$1045 to \$1375. The All-American Six. Advanced engineering and precision construction. Longer, lower and more beautiful. Bodies by Fisher. Every convenience. 4-wheel brakes. New Duco colors. Harmonic balancer.

BUICK. 16 models, \$1195 to \$1995. The largest value in Buick's famous history. Beautiful low bodies by Fisher. Getaway like an arrow from a bow. Vibrationless beyond belief. Famous 6-cylinder "Valve-in-head" engine. Sealed-in chassis.

LASALLE. 16 models, \$2350 to \$2975. This beautiful car was designed as a companion car to Cadillac. Has V-type 90 degree 8-cylinder engine which has made Cadillac the standard fine car of the world. Built in Cadillac factory. Continental in appearance.

(All prices F. O. B. at the factories)

CADILLAC. 26 models, \$3295 to \$5500. "What," General Motors asked last year, "can possibly be done to improve Cadillac?" The result is embodied in the new models now on display, representing the high-water mark of Cadillac's long history. Sumptuous bodies by Fisher and Fleetwood. 500 color combinations to choose from.

FRIGIDAIRE—The Electric Refrigerator. General Motors has applied the processes which have made the automobile available to every family, to the production of electric refrigerators. Frigidaire is the refrigerator made by General Motors and it is now the world's largest selling product in its field.

DELCO-LIGHT Electric Plants. Provide the conveniences and labor-saving devices of the city for the farm. Electric light and power plants, water pumps, etc. Used in more than a quarter-million homes.

CLIP THE COUPON

Mark on the coupon below the General Motors product or products that you would like to see. Check all of them, if you wish, for the illustrated catalogues are so detailed as to form a show in themselves. In your own home you may examine the whole General Motors line, point by point, at your leisure. With the catalogues will be sent free a little book entitled "Principles & Policies." You will find it unusual reading, for it takes you behind the scenes and shows just what General Motors is and what it is doing to continue to merit public goodwill.

Draw Items

Hindrances of sandstorms, snow and
 sleet and sickness have not prevented
 the Methodist revival meeting row
 under way here from being a success.
 Seven conversions and exclamations
 have resulted since the meeting got un-
 der way. The preaching is being
 done by the pastor, Rev. Ham
 Wright. There were three additions
 to the church Sunday evening, with
 others to join later. The meeting will
 continue forenoon and evening dur-
 ing the remainder of the present

**HOUSE APPROVES BOLL
 WORM APPROPRIATION**
 Washington, April 6.—The House
 Agricultural Committee reported for
 passage the resolution by Representa-
 tive James P. Buchanan of Texas,
 authorizing an appropriation of \$5-
 000,000 for compensation to farmers
 in event any State establishes a non-
 cotton zone in an effort to extermi-
 nate the cotton pink bollworms.
 While the resolution is general in ap-
 plication, it has particular reference
 to seven West Texas counties where
 dead specimens of the worm have been
 found and to Brewster County, adja-
 cent to the Mexican border, where a
 non-cotton zone, has already been es-
 tablished.

The committee's report will be
 made to the House in a few days
 and the House Rules Committee ask-
 ed to expedite consideration of the
 resolution by the House.
 At its session Friday, the commit-
 tee adopted two amendments. One
 was by Representative Marvin Jones,
 which provides that no part of the
 funds shall be available for compensa-
 tion to farmers in connection with
 the establishment of a non-cotton
 zone in any county unless and until
 the live pink boll worm is found with-
 in such county or within a radius of
 five miles thereof.

Many families in the Draw com-
 munity have been sick during the
 present week. Flu, la grippe and some
 scarlatina have been reported. Among
 the families which report sickness,
 but not serious, are Thomas J. Wil-
 liams, John Sherrill, A. C. Caswell
 and A. H. Porterfield.

The matter of consolidation of sev-
 eral rural high schools in this area
 was discussed before a small assem-
 bly Saturday evening. The weather
 was bad. Representatives of the en-
 tire state department of education
 were present to discuss the matter.
 Draw people are very much inter-
 ested in the proposition of building
 a railroad westward from Snyder to
 Roswell, N. M., through the South
 Plains. If the railroad enters the
 plains country through the easy as-
 cent of Moore's Draw, this village
 will be just a mile or two from the
 line, it is said. Draw would rapidly
 grow under the developing force of
 a highclass railroad.

Farmers are waiting patiently for
 a good rain. Most of them have com-
 pleted the preparation of the soil.
 A gar caught in the San Saba
 river by local people was on exhibit
 in the Draw business section a few
 days ago. It attracted quite a deal of
 attention.

Several Easter egg hunts were
 given in Draw during the Easter tide.
 The young folks enjoyed the occa-
 sions.

The young men's and young ladies'
 prayer meetings did not hold weekly
 services last week due to the revival
 meeting which is going on at the
 Methodist church.

Rev. Pete Winters of the Church
 of God left with his family the early
 part of last week for Flomot, to hold
 a revival meeting. He had just
 closed out a meeting at the local
 church. He will be gone probably
 two or three weeks.

The Women's Missionary Society
 at its last session devoted the hour
 to prayer for the success of the re-
 vival meeting now going on here.

Several students of the local school
 played an April fool prank March 30,
 not reporting for school. A truckload
 or so of them spent the day in the
 "breaks." School however went on as
 usual with an excellent attendance.

J. R. McIntyre is building a hand-
 some and commodious residence in
 West Tahoka. It will be of stucco fin-
 ish.

CONSTIPATION
 And Attendant Ills Relieved
 By Taking Black-Draught.
 The Rev. Granville Ed-
 wards, who lives at School-
 field, near Danville, Va., was
 troubled for a long time with
 constipation and its attend-
 ant ill, which kept him from
 feeling ill. He writes:
 "Lately I then, which was
 about twenty years ago, heard
 about Black-Draught and be-
 gan to take it. After taking
 Black-Draught for a little
 while I noticed that my trou-
 ble began to disappear. The
 poisons, which had accu-
 mulated in the body, as a result
 of constipation, were elimi-
 nated, and I felt a hundred
 per cent better. The dizzy
 feeling, which I had felt al-
 most every morning before
 breakfast, was gone."
 "Black-Draught is a house-
 hold article with us. We al-
 ways keep it on hand."
 Try Theodor's Black-
 Draught for constipation.
 Sold everywhere. 25c.
Theodor's
BLACK-DRAUGHT
 Purely Vegetable c-c

Limited to 1928
 The other amendment, by Repre-
 sentative Fort of New Jersey, limits
 the Federal appropriation for com-
 pensation only for the crop of 1928,
 unless the State in which the non-
 cotton zone is established shall there-
 after appropriate each year a sum
 equal to the amount expended by the
 United States.

The effect of the Fort amendment
 is to limit the use of the Federal mon-
 ey to 1928 cotton, and arises from
 the fact that in passing on the Buch-
 anan resolution the budget bureau re-
 commended that the appropriation be
 limited to \$2,500,000, and leaving
 Texas to pay a like sum. The amend-
 ment, however, would make the Fed-
 eral government meet all of the farm-
 ers' loss by reason of a noncotton
 zone in connection with this year's
 crop only. Members of the Texas de-
 legation are unable to understand
 why Texas should be made to bear
 any of the burden of protecting the
 American cotton crop against a pest.
 The state and its farmers paid more
 than 90 per cent of the cost in fight-
 ing this worm in the instance of other
 Texas non-cotton zones and the Fed-
 eral Government paid less than 10
 per cent.

Congress has appropriated \$10-
 000,000 to fight the European corn
 borer in Northern States without re-
 quiring State co-operation, and only
 a few days ago the House Agricul-
 tural Committee authorized an addi-
 tional \$7,000,000 for the same pur-
 pose.

Power Rests With Texas
 The Jones Amendment would re-
 quire the discovery of a live worm
 in a county or within five miles' ra-
 dius before such county could be
 made a non-cotton zone if farmers'
 losses are to be paid by the Fed-
 eral Government. The Buchanan re-
 solution does not require or direct
 the establishment of non-cotton zones
 in Texas. There is no Federal power to
 do so. Judging from telegraphic
 protests coming here from some of
 the West Texas counties, belief ex-
 ists that the Buchanan resolution
 carries a mandate that non-cotton
 zones must be established. It does
 nothing of the kind. The only power
 to establish non-cotton zones rests
 with the Texas pink bollworm com-
 mission. If the Texas commission es-
 tablishes non-cotton zones within the
 limits of the Jones amendment as
 the resolution now stands, then the
 Federal appropriation is available to
 pay farmers' losses, but not other-
 wise.

The committee rejected by a vote
 of 1 to 5 Chairman Haugen's rental
 plan for compensating farmers in
 their losses. The amount of dam-
 ages sustained by the individual
 farmer will be determined according
 to terms of the Texas law, which stip-
 ulates the losses must be "the ac-
 tual and necessary" losses, but in ev-
 ery instance the amount must be ap-
 proved by the Secretary of Agricul-
 ture in Washington before being paid.
 Roughly speaking, this loss is ar-
 rived at by balancing against the
 farmer's loss by not being permitted
 to produce cotton, his revenue from
 substitute crops. Since the pink
 bollworm attacks only cotton, the
 farmer would be at liberty to grow
 any sub-crop he desired.

Crowell—Eighteen cars of pipe
 have been unloaded here for the gas
 extension of the Stamford and Wes-
 tern Gas Company from Chillicothe
 to Stamford.

ODD FELLOWS NOTICE

April 26th is the 109th Anniversary of the founding of the Independent Order of the Odd Fellows. Therefore all Brothers of the Order in the vicinity of Tahoka are invited to meet with us next Tuesday night, April 17th, to make arrangements for the fitting celebration of the origin of our beloved order. If you are or ever have been an Odd Fellow, you are urgently requested to meet with us, no matter where your home lodge may be. Remember the date, April 17th.—H. C. Crie, Secretary. TAHOKA LODGE N. 653 I. O. O. F.

MOTHERS CLUB ANNOUNCES PROGRAM

The regular meeting of the Mothers' Club was postponed until April 18, at which time they will meet in their new club room in the American Legion Hall.

The program for that date will be as follows:

Mrs. Oscar Roberts, Leader: Paper: Do we fail in teaching love, gratitude and respect? If so, why?

Mrs. Shook—Discussion of paper and of Mrs. Birney on Good Manners.

Mrs. Layne Moreland—Moral Duties of a Free Citizen; the Good Samaritan.

Mrs. Marshall Stewart—The Ten Virgins.

Mrs. Frank Edwards—The End of Play: the Toys.

Mrs. Travis Stuart entertained the 1924 Bridge Club Thursday afternoon with a bridge party at her home.

Mrs. C. F. Shook won high score. Others present were Mesdames W. B. Slaton, G. M. Stewart, Jack Alley, Hall Robinson, E. E. Calloway, Frank Hill, Marshall Swan, Frank Larkin, L. E. Turrentine, W. O. Thomas, Skip Taylor, Bill Burleson, Tom Le Mond, Rob't. King, Paul Miller, K. F. Knight, H. M. Larkin, E. H. Boulion, Oscar Roberts.

LUBBOCK MAN IS HELD IN PROBE OF BANK CASES

(Lubbock Journal) J. H. Dumas, Lubbock man, one of the two indicted by an Upton county grand jury Saturday on a charge of murder in connection with the alleged "frame up" bank robberies at Rankin and Odessa, early in the year, when four men were killed, was taken presumably to Upton county Sunday by Texas Rangers, following his arrest by the sheriff's department here late Saturday, it was announced today.

Dumas was lodged in the Lubbock county jail upon advices from Upton county officers, and immediately, through his attorney, Owen W. McWhorter, filed habeas corpus proceedings in 99th district court here, but later waived the hearing, and was taken in the custody of Rangers Aldrich and McCoy, presumably to the county where charges originated. Indicted Saturday.

The indictments in the case were returned by the Upton county grand jury Saturday and the arrest was made soon after the notification of Sheriff Johnson.

Dumas, according to local authorities, had been making Lubbock his home at various intervals for the past three years. He said he was at one time an employee of the Texas and Southwestern Cattle Raisers association.

HAMER SAYS MAN IS ENROUTE TO AUSTIN

AUSTIN, April 9—Ranger Captain Frank Hamer said here Monday that he understands officers are bringing to Austin for safe-keeping one of the two men indicted last week by the Upton county grand jury investigating charges that the Rankin and Odessa night bank robbery jobs were "framed."

The indictments are for murder. Hamer's theory is that the men hired "weak characters" to attempt the robberies and tipped officers to shoot them down in efforts to share in the \$5,000 dead bank bandit reward offered by the Texas Bankers association.

Officers Exonerated The fact that indictments had been returned was disclosed here Saturday afternoon by the ranger captain after reports from Rankin indicated that the grand jury had done nothing except exonerate the peace officers involved in the Rankin "bandit" killings. The bankers association paid \$10,000 for the two men killed at Rankin and \$10,000 for the two killed at Odessa. Captain Hamer claims that both jobs were alike and planned by the same "murder ring."

Expect Competition In District Meet

LUBBOCK, Texas, April 11, 1928.—The track and field meet of the district interscholastic league which is to be held at Texas Technological College Friday and Saturday, April 20 and 21 is expected to bring out some very strong competition in many events. Tech is offering attractive loving cups and medals to the winners.

Lubbock high school won the meet by a margin of about 20 points but the biggest school in the district is not expected to walk away so easily with this year's meet. Coach E. Y. Freeland will be the director of the meet with the rest of the Tech coaching staff and a number of letter men acting as officials.

Perryton—A twelve weeks course on dairying is being offered by County Agent G. R. Sheets to Perryton farmers.

The City of Post has let the contract for the construction of a new city hall at a cost of about \$18,000. It will be of red brick, two stories in height. On the first floor will be offices for the mayor, city assessor and collector, quarters for the fire boys, a ladies' rest room, and billiard parlor. On the second floor there will be a nice assembly hall. The location of the building is said to be ideal.

D. W. Gagnat says that his dairy demonstration at McCormack's hardware store last Saturday attracted large crowds in spite of the very disagreeable weather, which shows that the people of Tahoka's trade territory are becoming more and more interested in the raising of dairy products.

Miss Maurine Davis of Ballinger is here visiting the Larkin and Lewis families.

FOR SALE OR TRADE—The Edwards Co., stock of merchandise at a real bargain.—Paul Miller. 33tfc

Miss Otabelle Singleton is here from Port Worth visiting the home folks.

AGED MAN VICTIM OF SERIOUS ACCIDENT

Mr. W. F. Marchbanks, 85 years of age, who makes his home with his daughter, Mrs. Don Edwards, happened to a serious accident Saturday morning while walking in the yard when he stepped in a small puddle of water, and fell, breaking his hip.

Mr. Marchbanks has made his home with Mrs. Edwards seven years and this is the first time in the whole time that he has been confined to his bed. He has been extremely healthy and strong for his age and is bearing this trouble with amazing fortitude.—O'Donnell Index.

HACKBERRY

Easter was cold and snowy. Ed Denton, J. C. Ferguson, John Taylor, Floyd Meers, Audley Kerney, S. W. Gregory, and John Sisk have gone fishing on the San Saba.

Mrs. W. C. Dean is sick with a rising on her nose.

Lolalee Cordell and Lolel King of Southland were married Saturday eve.

All the Hackberry school was vaccinated for smallpox, a some of the children have had it. So there are lots of sore arms.

The Auxiliary of the American Legion met April 5th in regular business and social meeting. Plans were made for the up-building of the Auxiliary. We find there is lots of work, and fun as well, ahead if we keep step with the Legionaries, and we are sure we can do it. We want to make the Auxiliary one of the best, that standard can be attained by each of us doing our bit.

All members, and those eligible are urged to be present at our next business meeting April 19. Your time will be well spent, as there are some interesting plans to be discussed at that meeting.

Another meeting of the Dal-Paso Cavern Highway Association has been announced for April 19 to be held in Snyder. It is stated that Fisher county is now ready to start a campaign to vote bonds to hard-surface this highway through that county. Scurry county is also said to be ready to vote bonds to build its section of this highway. The Dal-Paso in the course of time is destined to be a splendid highway.

A. R. Hensley, postmaster and cotton weigher at Draw, has just completed a nice new stucco home of six rooms and containing all modern conveniences, including a Delco light plant.

Edith

On Friday night, April 27, there will be a box supper at Edith for the benefit of the school. Everybody is cordially invited. Candidates will be given an opportunity to make their announcements.

Mr. A. Seals and daughter, Mrs. H. C. Miller left Saturday for Mrs. Miller's home in Detroit, Michigan. Mr. Seals intends to visit there a few months.

Rev. R. T. Breedlove of Tahoka will preach here Sunday afternoon at 3 o'clock.

There was a large crowd at the party given by Mr. and Mrs. S. B. Frazier last Saturday night. Everyone seemed to have enjoyed the occasion.

Mr. Bill Thompson returned last Friday night from Hill County where he has been visiting with his mother. Mr. and Mrs. W. T. Hall have spent the week with her mother and father, Mr. and Mrs. C. J. Campbell. They will leave for New Mexico April 11.

Mr. M. L. Haynes and children, May and Alvin and Mr. Henderson have gone to Iredell, on a visit.

Mr. and Mrs. O. A. Nixon have just returned from Ballinger where she has been visiting her mother, who has been ill.

GORDON H. D. CLUB DISCUSSES HOUSEHOLD PROBLEMS

The Gordon H. D. Club met with Mrs. Ed Denton on April 3. Miss Halsey was present, and nine members and four visitors were present. There were two new members.

Our subject was Milk. We had several good talks on Milk and all enjoyed Miss Halsey's talk on Milk and her test on the butter, the points she gave us on our living room contest, and the help she gave us on making rugs and pillows.

Mrs. E. Milliken, Mrs. Alfred Basinger, and Mrs. Ed Denton went to Lubbock and went through the practice house Wednesday.

Our report for March from five members, while we have 26 members, is as follows:

- Gallons of milk daily — 36 1-2
- Eggs setting — 1,885
- Cream sold — \$75.01
- Eggs sold — \$104.43
- Baby chicks — \$4.51
- Cans of lye made into soap — 4
- 1 magazine rack
- 1 book end.
- 1 coal box
- 2 child dresses.
- 2 girl dresses.
- 2 new subscribers for the Lynn County News.
- 2 linoleum rugs cemented to floor.
- 9 varieties of garden plants.

The Club wishes to thank the News for the \$1.50 we received for the two new subscribers.

The club invites the county superintendent to come to Hackberry on April 17 and give us a talk on Education.—Reporter.

PROF. WHITE STARTS CHICKEN RANCH

Cheep! Cheep! Cheep! Chirp! Chirp! Chirp! There's lots of chicken music up at Prof. Taylor White's house. Just think of one thousand baby chicks all in one flock! Well, that is a sight one may behold by visiting the Professor. On last Tuesday he received one thousand White Leghorn baby chicks from a hatchery at Lubbock. But that is not all. Read on.

Next week he will add seven hundred more to his flock. These will come from a hatchery at Lamesa. Seventeen hundred white baby chicks all in one man's yard will make things a bit lively around that domicile.

Prof. White is teacher of Vocational Agriculture in the Tahoka School and he believes in pure-bred, high-grade poultry, cows, hogs, horses, turkeys, tom cats, horned frogs, or anything that wears hair, horns or feathers.

The editor is elated. He feels that his living is assured for the present year. The Professor lives just across the street from us.

SHEPHERD REPORTS GOOD MEETING AT MULESHOE

Rev. B. N. Shepherd, the Baptist pastor, returned Monday from Muleshoe, Bailey county, where he closed a successful revival meeting on Sunday night. He says that the conversions and reclamations totaled about thirty and there were about 15 or 20 accessions to the church by baptism.

Rev. Spruiell of Lynn filled the pulpit in his absence here Sunday morning.

Mr. Bernice Fralin and bride of Crosbyton are here this week as the guests of Mr. and Mrs. Travis Davis. Mrs. Fralin was Miss Neva Campbell until last Sunday, when she became the wife of Mr. Fralin. Mrs. Fralin and Mrs. Davis are sisters.

Home Ec. Club Visits Lubbock

The different classes of the Home Economics Department went in a group from here Monday noon, to visit the Texas Technological College at Lubbock. Some twenty five or thirty girls were in the group, being chaperoned by: Miss Bleifuss, local Home Economics teacher; Mrs. Doak, Mr. and Mrs. White and Mr. Jeffreys.

The practice house was the first building we visited. It is a two-story brick structure with every modern convenience. The furnishings, decorations, and colors blend very nicely. Everything is very conveniently arranged and kept in absolute order. The Home Economic girls of the college take turns living there and doing the different duties.

The Home Economics Class building was next to go through. It is fixed with every possible need for teaching the girls to keep the home and to make and design different phases of clothing. Several class rooms and offices occupied this building. It is equipped with everything in order to give any phase of Home Economics.

The Textile building proved to be equally as interesting as the other building visited. We saw every step taken in the process of manufacturing cotton cloth. Every step from the raw cloth until it enters the dealers hand. It was a very interesting and educational trip.

All the girls and older patrons enjoyed the trip to the greatest extent. If any readers are interested and would enjoy a trip of this kind, I think it would be well worth your time to go, and after the visit I feel you will have quite a broader view of what the younger generation is going through with and what they really can and are doing.

The people of the college were nice and polite to us, every courtesy being shown.

REPORTER

FARM BUREAU ANNOUNCES IMPORTANT MEET HERE

Farm Bureau Members, Notice: Our regular meeting will be held Saturday week, April 21, and everyone is urged to attend.

This district has been divided into three, and Lynn county has a chance to get a state director to the Farm Bureau Cotton Association. R. F. Overstreet, present director, will be down to explain the situation.

Also have some good news regarding our Farm Bureau gin, according to D. A. Adam, Field Representative. Come, for it is important.

LOCAL SCHOOLS ENTER DAY LIGHT SAVING PROGRAM

Beginning Tuesday of this week the local schools moved up the program to begin at eight fifteen o'clock. The purpose of the change was to make use of the extra morning hours when the mind is fresh and the air cool. The long days that are fast approaching mean longer daylight hours. By beginning the work forty-five minutes earlier the pupils who are required to assist at home in farm work will be enabled to come on to the end of the term and at the same time be able to render assistance after school hours in farm work. The change also enables the pupils

and teachers to visit in the afternoon hours. Work will begin at eight thirty and end at five.

Mrs. Hubert Davis is here visiting her mother, Mrs. E. S. Davis.

Pine Bark News

Vol. 1 April 12, 1928

Published in the interest of the people of Tahoka, and vicinity by the CIGERO SMITH LUMBER CO. E. G. Blankenbecker, Mgr. H. F. St. Slair, Editor

Editorial

Every once in a while we have a chance to join in some sort of "trade at home" campaign and we admit that such campaigns have a lot to recommend them, but it has also been our observation that people do not mind buying goods from home stores, and paying for them, providing they get their money's worth.

The reason why airplanes are referred to as "she" is because it takes a he-man to run one.

There is a fortune awaiting the man who can be depended on to do garden plowing when you want him.

A brilliant boy is one who succeeds in school despite his mother's conviction that everything is the teacher's fault.

The best place to live is just within your income.

A chip off the old block is often a blockhead.
