

The Lynn County News

Tahoka, Lynn County, Texas, Thursday, July 26, 1928

We invite you to locate in beautiful Tahoka. Good homes, good schools, good churches.

Number 48

Excellent Rains Of Week Insure Crop

TAHOKA GETS FOUR INCHES

General Over County Comes At Opportune Time For Cotton And Feed

Crop prospects in Lynn county are never more promising at this time of the year than now. Unless worms or boll worms should make their appearance in unusually large numbers, a record cotton crop should be gathered this fall and winter. It also will be fine.

This rosate outlook is due to the making rains that have fallen through Lynn county and over most of West Texas during the past few days. The rains began falling here Saturday afternoon and up to the time we go to press, Thursday morning, the U. S. rain gauge shows that 4.0 inches have fallen in Tahoka. Reports from other parts of the county show about the same amount of rainfall, heavier in some places and possibly not quite so heavy in others. O'Donnell and Wilson and adjacent territory were thoroughly drenched. Jim Izard out at New Home reports that the rainfall there measured 3.1-2 to 3.3-4 inches. J. D. Soss reports about 4 inches at his place near Dixie. Jackson Bros. report 4.1-2 to 5 inches at Draw. H. P. Wheeler reports 5.1-2 inches at his place. It was not quite so heavy in Magnolia. Three Lakes, New Point, Joe Stokes, Moravia, Weston and other communities along the same reports—grounding and gully-washing rains. These rains could not have come at a more opportune time. Feed in many places was not growing rapidly. The acreage in feed this year comparatively small yet enormous crops are now expected. The large damage is perhaps the largest in the history of the county, and reports are that there will be an increased demand for cotton seed in the fall.

Womens Club New Meeting At Methodist Church

Lynn county luncheons are now given each Wednesday at the Methodist Church. The Baptist has been serving luncheons for the past two years. In spite of the heat and mud there were 18 present Wednesday noon. No program had been arranged out at the club and pleasant hour was had. The club heard an interesting report from Mr. Baze as to the investigation into the matter and the committee will report at an early date. It is hoped that the Club will be able to assist materially in the development of this business in the future.

Womens Club Meeting At Lubbock

Members of the Lynn county Hi-League expect the session of the First District Institute which will be held at the First Church, Lubbock, on Friday, July 26-27. In charge of the Hi-League is Miss Eva May. She is in Tahoka, and will have an excellent program for the visitors. A special music program has been assigned and their Counselor will give a talk on the subject.

In charge of the Hi-League is Miss Eva May. She is in Tahoka, and will have an excellent program for the visitors. A special music program has been assigned and their Counselor will give a talk on the subject.

CROWD HEARS MARVIN JONES

Makes Good Impression With Audience In Talk Here Last Saturday

Congressman Marvin Jones of Amarillo addressed a large and attentive audience of farmers and business men on the court house lawn here Saturday afternoon in the interest of his candidacy for re-election. At the close of his address many of those who heard it shook their heads and assured him of their support. His address was generally regarded as a strong presentation of his record in Congress and of his claims for re-election.

Taking his cue from a remark made by Judge B. P. Maddox, who introduced him, to the effect that Mr. Jones had gained experience in Congress that would enable him to be of greater service to the people than a new man possibly could be, Mr. Jones explained at some length how and why a new member of the House is always helpless and how, by reason of acquaintance with the members, by seniority due to long service, and by knowledge that can be gained only by experience, he has now gained a station in the house that will enable him to accomplish more than any new man could hope to accomplish. He is now the second ranking Democratic member of the agriculture committee, one of the most important committees of the House. By reason of his membership in this committee, he was able during the recent session of Congress to secure an amendment to the 'Pink Boll Worm Bill' which prevented the establishment of a non-cotton zone on the South until and unless live pink boll worms are first found. Only four members of Congress from the South are on this committee, and no new member could hope to be placed on so important a committee. Had not a West Texas Congressman been on this committee during the past session, portions of the South Plains in all human probability would be in a non-cotton zone today.

17 GOING TO SHORT COURSE

Scheduled To Meet At Post Saturday Night To Catch Special A. & M. Train

Saturday evening, July 28, at seven o'clock the Lynn County Home Demonstration Club, Women and Girls will meet at the West entrance of the Fair Building at Two Draw Lake, Post, Texas. Please be there promptly with your picnic supper, and let's all have a good visit together before train time, which is 10:46 o'clock. The tickets will be ready, so you don't have to worry about having them made out, see me.

If you cannot possibly come to Two Draw Lake then meet us at the station in Post before train time and pay for your ticket, so we can get on without delay. The train will not wait.

To date the following names have been registered to make the trip. If you know of any one else who is to go have her notify me at once.

Women:
Draw-Redwine Club—Mrs. A. R. McDaniel
Edith Club—Mrs. R. W. Fenton
Gordon-Hackberry Club—Mrs. C. W. Dean
Lakeview Club—Mrs. S. L. Williams
Midway Club—Miss Ina Floyd, Mrs. L. M. Draper
New Lynn Club—Mrs. Jeff Higginbotham
New Home Club—Mrs. J. P. Umfred
O'Donnell Club—Mrs. N. T. Singleton
Sleah L Club—Mrs. Edd Anderson, Mrs. J. D. Pharr
Tea Bar Club—Mrs. J. A. Beasley
Wilson Club—Mrs. A. L. Faubion

Girls:
Draw Club—Jewell Sewell
Edith Club—Christine Owens, Pearl Hammons
Dixie Club—7

Yours sincerely,
MILIE M. HALSEY, C. H. D. A.

Hail Does Damage Over Small Area

A terrific hail storm visited a very limited area just east and southeast of town Saturday afternoon. About 120 acres of cotton belonging to W. O. Henderson and L. E. Miller was completely destroyed, according to Mr. Henderson. Other fields in that vicinity, belonging to Mr. Gray of the Redwine farm, Jake King, and C. P. Bairington were also badly damaged. Mr. Henderson estimates that 300 acres were almost totally destroyed. We have heard of no other hail at any place in the county.

BAPTIST ENCAMPMENT RAINED OUT

On account of the excessive and continued rains, the Baptist encampment which was to be held this week at Post had to be abandoned. Great preparations had been made, some new buildings having been constructed, and a most excellent program prepared. Officials have announced that they will redouble their efforts for next year.

Fire Destroys New Lynn Farm House

A small tenant house on the J. S. Edwards farm at New Lynn, occupied by Cleo Hickman and family, was totally destroyed by fire Saturday night. The Hickmans were not at home at the time, being in Lubbock visiting friends, and the origin of the fire is unknown. Not only the house but the entire contents were destroyed. Neighbors were in town Monday taking donations for the unfortunate family, who were left in very straitened circumstances. People of New Lynn and business men of Tahoka contributed quite a little sum of money for the benefit of the sufferers.

CLUB GIRLS EXPRESS THANKS

The Lynn county club girls wish to thank Mr. Baze, the school board and all others who helped to make their recent Encampment successful.

They also wish to thank each of you who are patronizing their cold drink stand on the Court House Lawn. They are especially anxious to have you visit them on election day, July 28, and try some of their chicken sandwiches and other good things.

MILIE M. HALSEY, C. H. D. A.

C. of C. MAKES GOOD REPORT

Organization Has Accomplished Many Things In The Past Six Months

Officials of the Tahoka Chamber of Commerce have made a report of the activities of this body during the past six months, which shows an enviable record of achievement. The report as given to the News by Mrs. Paul Miller, Secretary, is as follows:

Supported the band for the month of February and a part of March.

Distributed free, certified maize, kafir, and hegrira seed to a number of boys over the county.

Gave two loving cups in the Inter-Scholastic county League meet.

Made twelve good will trips to rural communities. These trips were said by the merchants to have brought fine results.

Secured the District convention of the West Texas Chamber of Commerce for 1929. This will be the first convention of its kind ever held in this county.

Maddox Attends Anti-Smith Convention

Judge B. P. Maddox represented Tahoka and Lynn county at the Anti-Smith meeting held in Dallas on Tuesday of last week. The Judge declares that the attendance was large and that the enthusiasm was intense. Plans were laid to organize each county in the state, the purpose being to defeat Smith for the President in the November election. Dr. Sander of Abilene, President of Simmons University, was elected temporary chairman. Dr. Hunt, President of McMurry College, was one of the speakers. Many men long prominent in Texas politics were present and indicated their intention of voting and working against Smith. A speaking campaign will be launched later, and it is expected that there will be a hot time in Texas this fall.

BAPTISTS END FINE MEETING

Twenty Church Additions And Many Conversions Are Result Of Revival

The Baptist meeting in progress at the church and tabernacle for ten days came to a close Sunday night. There were a number of conversions and about twenty additions to the churches. The services conducted by Rev. L. L. Cooper were not of the usual evangelistic type but the matter of stewardship was stressed throughout. An effort to induce the members of the church to tithing was made and at the Sunday morning service a number of the members signified their intention of doing so. Quite a number of the members were already tithing.

Virgil Reynolds, who was here in a meeting last spring, was again director of the music.

Advertisements are being run in "West Texas Today" for parties to be put in a hatchery and compress here. They are expected to bring favorable results.

R. P. WEATHERS, Pres.
J. C. WELLS, Vice-Pres.
MRS. PAUL MILLER, Sec'y.

Boy Scouts Visit Post Encampment

Eighteen members of the Tahoka Boy Scout troop visited the C. W. Post Memorial Camp at Post last Wednesday and Thursday. The local scouts went over to the camp to take their swimming and cooking tests.

They were accompanied by Jess Eubanks and Mr. and Mrs. M. L. H. Baze.

NEW DISTRICT AGENT

Sterling C. Evans, for a number of years State Boys' Club Leader for Texas, has just been appointed District Farm Demonstration Agent for District Two. This is our District, and Mr. Evans succeeds John T. Egan, who resigned May 15. Our people will enjoy knowing and cooperating with Mr. Evans when our county gets a farm agent.

MILIE M. HALSEY, C. H. D. A.

TRANSFERS OF SCHOLASTICS MUST BE MADE THIS MONTH

We are requested to call the attention of those desiring to transfer their children from one school district to another that applications for transfer must be made this month. August 1 will be too late. Do not neglect this matter.

Beer Is Captured By County Officers

The sheriff's department made a raid on a small house on the outskirts of Tahoka Wednesday afternoon and captured 38 bottles of some potable liquor which they call beer and poured out about ten gallons of the same concoction found in jugs. The exact alcoholic content of the liquor captured has not been determined. A man in charge of the place was arrested and has made bond. A court of inquiry followed in which a number were examined as to their knowledge of the alleged operation of the place at this place of business. The matter is to be thoroughly investigated by the next grand jury.

Expect Big Vote In Saturday's Election

INTEREST IN RACES GROWS

Many Run-Offs Seen; Complete Returns To Be Announced On Main Street

Next Saturday 600,000 to 700,000 Texas voters will go to the polls and register their choice of candidates for the Democratic nomination for all state, district, and county offices. It is expected that 2,500 to 3,000 votes will be cast in Lynn county.

Two weeks ago we published the official ballot as furnished by County Chairman H. M. Larkin.

On this ballot appears the names of five men and one woman as candidates for the U. S. Senate, Alvin Owsley, Thos. L. Blanton, Tom Connolly, Jeff McLemore, Earle B. Mayfield and Minnie Fisher Cunningham. Owsley, Blanton, Connolly, and Mayfield will each run a good race probably in Lynn county. Two of these four will most certainly be in the run-off.

Dr. Smith Tells Big Fish Story

Dr. R. B. Smith last Saturday was exhibiting a picture of himself with a whale of a fish which he caught recently at Freeport while on his vacation. Fearing that his statement about his big "catch" might be accepted with mental reservations on the part of his friends, he had a photograph of himself and the fish taken together. The Doctor calls the specimen a Jew fish and says that it weighed 46 pounds. Specimens of this fish have been caught weighing as much as 800 pounds and other members of his party caught a 200-pounder. The fish are caught in the gulf with a throw line, and after being hooked are allowed to worry themselves down before the fishermen undertake to land them. The doctor declares that they are among the most palatable of all salt water fish. He and family also visited at Dallas and other places on their vacation.

SMITH MAKES BAD MATTERS WORSE

Many Texas Democrats will possibly not fully decide whether they will support Al Smith for President or not until after he makes his speech of acceptance on August 19.

Thus far Smith has done nothing to placate the dry Democrats of the South who are disposed to oppose him on account of his witness. On the other hand everything he has done and said with reference to prohibition since his nomination at Houston has been to alienate the "drys".

Immediately following his nomination by the Houston convention, which had declined to write any kind of a wet plank into its platform, Smith accepted the nomination but declared that he was in favor of fundamental changes in the prohibition law.

Two weeks ago he went into the Republican party to get a chairman of the Democratic National Committee. The gentleman selected, John J. Raskob, is a Catholic and a "wet" of the wettest type. In resigning from the Union League a Republican organization of Philadelphia, Mr. Raskob declared that he had never been

officially affiliated with either the Republican or the Democratic parties, had never voted in a Republican or Democratic Primary, and that he had always been an independent in politics. Then he proceeded as follows: "Now, however, I see an opportunity of performing some constructive service by helping relieve the country of the damnable affliction of prohibition, Governor Smith has taken a courageous stand on that important question and I accepted the chance to help him."

So Raskob regards prohibition as a "damnable affliction" and is going to conduct the campaign for Smith because he believes that if elected Smith will be able to get rid of it. If Smith paramours the prohibition issue in his speech of acceptance next month, we predict that he will have the hardest fight of his life to carry the Solid South.

THERE ARE MULTITUDES OF THE SAME OPINION

Alvin S. Moody of Houston was elected chairman of the Anti-Smith Democrats of Texas, who met and organized at Dallas on Tuesday of last week.

Mr. Moody has long been active in politics, in the service of the Democratic party. He led the only local option fight for the "drys" ever made in Houston and Harris county and has taken an active part in every prohibition fight in this state. He was a delegate to the Democratic national conventions in 1920 and 1928. Recently he gave out an interview which so clearly expresses the views of thousands of Texas Democrats that we pass it on to our readers.

Mr. Moody said:

"It is my firm conviction that it is not only the right but the duty of every man to stand by his principles, regardless of where his party may lead. I further believe that every American citizen owes a greater duty to his country and to the men, women and children of his country than he can possibly owe to any political party.

"However my right to oppose Smith need not be based on these grounds. The Democratic party wrote a dry plank into its platform, and now its candidate, Governor Smith, has bolted that plank. The party gave him no right to make an issue of wetness, but he makes that his chief and only issue. He has bolted the platform and certainly has no right to demand the loyalty of Democrats to him.

"Turning the leadership of our party over to Mr. Raskob, one of the directors of the organization opposed to prohibition, completes the challenge to the drys of the South.

"I, for one, am ready to take up this challenge. I and my friends of Houston and Texas have never bowed before the corrupt liquor gangs of Texas, and I do not propose now to bow before this far more corrupt Tammany liquor gang of the City of New York.

"If there were not this question of liquor, and of Smith's nullification of the party platform, there would yet be many many other reasons why every Democrat ought this year help crush the candidacies of men who have, through misrepresentation of the rank and file, been forced on the party."

Some people are going to vote against Moody because of prejudices of long standing. Some are going to vote against him because of his recent political activities. Such a course, however, is not wise, in our humble opinion. While we have not agreed with everything that Gover-

Political Announcements

The following candidates announce their candidacy for office subject to the action of the Democratic primary election in July, 1928:

- For District Attorney, 106th Judicial District:**
T. L. PRICE (Re-election)
- For County Judge:**
G. C. GRIDER
C. H. CAIN (Re-election)
H. W. CALAWAY
- For Sheriff and Tax Collector:**
B. R. (JAKE) HOLCOMB
J. H. YARBOROUGH
BEN KING
J. W. SIMPSON (Re-election)
SAM SANFORD
- For County Attorney:**
G. H. NELSON
L. C. HEATH (Re-election)
- For County Tax Assessor:**
J. S. (JIM) WEATHERFORD (re-election)
T. W. BROWN
- For County Superintendent:**
H. P. CAVENESS (Re-election)
- For County Treasurer:**
MISS VIOLA ELLIS (Re-election)
- For County and District Clerk:**
W. E. (HAPPY) SMITH (Re-election)
E. W. HOLLOWAY
TRUETT B. SMITH
- For Public Weigher, Precinct 1:**
FRANK EDWARDS
W. O. HENDERSON
R. W. FENTON JR.
W. P. BUSSELL
R. C. WOOD (Re-election)
- For Commissioner Precinct No. 1:**
W. J. FAIRES

- For Justice of the Peace, Precinct 1:**
I. P. METCALF (Re-election)
- For Public Weigher, Precinct 5 (New Home):**
C. W. SETH
W. L. BALCH

nor Moody has done and said, and while we do not yet do so, yet every informed man must realize that to reject Moody and elect Wardlaw would be like jumping out of the frying pan into the fire. Wardlaw is Jim Ferguson's man Friday. Ferguson is trying to turn heaven and earth to elect him. If Wardlaw is elected Jim Ferguson will be in the saddle again. Jim Ferguson will dominate the governor's office. If Moody is objectionable to some on account of his activities in the Beaumont and Houston conventions, what is to be gained by voting for Wardlaw? Wardlaw has been for Smith or some other wet from the beginning. He could not have retained the support of Jim Ferguson without being for Smith. If Wardlaw had wavered, Ferguson would have put some other man in the governor's race. Those "dry" Democrats and Christian citizens who are intending to vote for Wardlaw in preference to Moody are playing into the hands of the most unconscionable political buccaneers that ever captured the government of this state. In spite of his mistakes and shortcomings, every good citizen in Texas, as we see it, should rally to the support of Dan Moody and drive back the hordes of evil that seek again to lay vile hands on the reins of government at Austin.

Political prognosticators are predicting that Senator Mayfield and Tom Connolly will be in the Senatorial run-off, with Owsley third and Blanton fourth. There are always surprise in elections, however, and there may be some surprises in this race. Owsley is Ferguson's candidate and he may succeed in getting in the run-off with either Connolly or Mayfield. Blanton will be strong in west Texas, but is not expected to develop great strength in other parts of the state. Mrs. Cunningham may get a larger vote than has been accorded her by the politicians, since she is a brilliant woman and is eliciting favorable comment wherever she speaks.

Allanred—The town of Allanred will have natural gas within ninety days.

Wheeler—Affiliation has been granted to the Wheeler High School upon first application.

Two stalks of cotton grown by L. E. Miller on the Seals farm southeast of town were exhibited to the News Saturday just to show the difference between the irrigated and the unirrigated product. One of these stalks was taken from the Miller field and the other from the garden. The stalk grown in the garden had been irrigated and was fully twice as large as the field plant. But being of quick growth the joints were long and there were fully as much fruitage on the small stalk as on the large one. An inspection of these two stalks of cotton would reveal to any stranger from the east why the small cotton plant of the South Plains often yields more cotton per acre than the rank plant of other parts of the state.

Jim Ferguson has been making appeals to his friends through the columns of the Ferguson Forum for "donations" in order to enable him to keep the people informed as to the present campaign. The "information" that he dishes out consists chiefly of abuse of Dan Moody and praise for Louis J. Wardlaw, criticism of Tom Connolly and Earle B. Mayfield and boasts for Alvin Owsley. Jim asked his friends to give him only \$7,000, and of course many of them dug up. But our prediction is that he will not be able to "put over" either Owsley or Wardlaw.

The indications are that Moody will receive a majority over all his opponents in the first primary. Wardlaw will run well in a number of West Texas counties and in a few Ferguson strongholds in other parts of the state, but the people everywhere regard Wardlaw as Ferguson's candidate, and they have had enough of "Fergusonism" in Texas. Moody will roll up tremendous majorities in the big voting centers of North, South and Central Texas.

BACK FROM VACATION TRIP

The editor and family returned home Friday night from a vacation trip which carried us to many points in Central Texas. We visited relatives at San Saba, Temple, Belton, Pendleton, Moody, Eddy, Waco, Corsicana, Waxahachie and Hamilton, attending a reunion of the Hill families at the latter place. Other places visited were Athens, Dallas, Fort Worth, Cleburne, and many intervening points.

We found the crops in Central Texas to be good. Corn is already

made and the crop will be above the average. Too much rain had damaged the cotton in some localities, particularly in Ellis and Johnson counties, but the hot sunshine that had prevailed for the past two weeks had enabled the farmers to destroy most of the grass and weeds and the cotton was growing rapidly. Over most of central Texas the cotton crop was very promising.

But when we started back west, we found a rather poor prospect. Around Abilene, Sweetwater, Snyder, and in all the intervening territory there was little promise either for feed or for cotton. The rains which have since fallen however should bring out the crops wonderfully in these sections and a normal crop may yet be produced.

Besides attending the family reunion above mentioned, the editor

also attended a "Home-coming" at Salado, Bell county, of the old residents and the ex-students of the old Salado College and its successor, the Thomas Arnold High School, both of which institutions are long since defunct. Salado is one of the oldest towns in Texas and for many years was an educational center. At this "home-coming" we met many school-mates of a former day, and it was a joyous occasion.

MOTHERS

Watch for symptoms of worms in your children. These parasites are the great destroyers of child life. If you have reason to think your child has worms, act quickly. Give the little one a dose or two of White's Cream Vermifuge. Worms cannot exist where this time-tried and successful remedy is used. It drives out the worms and restores the rosy hue of health to baby cheeks. Price 25c. Sold by THOMAS BROTHERS

CHEVROLET
The World's
BIGGEST
Automobile at
such low prices

THE sensational popularity of the Bigger and Better Chevrolet is due in great measure to the fact that it is the biggest automobile in the world available at such amazing low prices.

The 107" wheelbase is of vital significance in a low-priced car. For it means that the buyer can now secure the balance and roadability that only a longer wheelbase can provide—plus the restful comfort of ample room for both driver and passengers.

Come in for a demonstration—and bring the family along!

PICTORIAL LIFE OF HERBERT HOOVER

No. 2 By Satterfield

1. Herbert Hoover's father, settling in Iowa, wrested a hard-earned living from the soil as a pioneer farmer.

2. His natural bent for machinery asserted itself, and he opened a blacksmith shop, and sold the machinery.

3. Grandfather Minthorn, on his mother's side, was a bookish farmer. He used to read as he rode horseback.

4. Hoover's mother was a great reader and a serious-minded critic of such literature as reached the farm.

Brownfield—A thorough little... illustrated with typical... has been prepared to advise Brownfield and Terry county.

Fort Worth — Following instructions passed by the 10th annual resort committee, a WTCC representative has been sent to the Southern Council at New Orleans.

PECOS COUNTY ROAD BOND VOTE CARRIES

FORT STOCKTON, July 22—Pecos County highway bonds amounting to \$500,000 were voted Saturday by an estimated majority of 10 to 1. Fort Stockton, with more than 3-4 of the county vote, gave a majority of more than 50 to 1. Buenavista gave 20 to 1, while Iranan, in the eastern part of the county, went almost solidly against the bond issue.

LOCKHART TO VOTE ON BOND ISSUE AUGUST 21

Lockhart, July 22—The commissioners for the City of Lockhart have ordered an election to be held here Tuesday, August 21, for the purpose of voting \$100,000 worth of bonds to tarviatize the 25 miles of streets in the city limits. It is stated in the call that taxes will not be increased by the issuance of the bonds.

WHEN TO BE MARRIED

In ancient times the most desirable month for marriage was the month of June. Modern dames, however, look with favor upon October as well as June. May sometimes finds favor, yet May, by others, is considered an unlucky month the same as Friday is considered an unlucky day and the 13th of the month an unlucky date, still it is the appleblossom month in the North, and one can have an apple blossom wedding, which is very sweet and suggestive, but who had not rather have a June wedding, with June roses, or an October wedding with the leaves red and golden.

There are 3,753 wage earners in the slaughtering and meat-packing industry in Texas. The products are valued at \$58,000,000 a year.

Raymond Edwards, son of Mr. and Mrs. Wright Edwards of Three Lakes, who underwent a most serious operation for appendicitis in a Lubbock sanitarium a few weeks ago, was able to leave the hospital last week. He is in the home of Uncle Jack Smith here and while his improvement has been very slow it is hoped that he will soon regain his accustomed good health.

The total assessed valuation in Texas for 1927-28 is \$3,898,964,586. This represents about one third of the total value.

Petroleum refining is the leading industry of Texas. The value of products is now estimated at \$344,586,806 annually.

Muleshoe—A substantial reduction in water rates has been made here, giving the city the lowest rate on the Plains with one exception.

Bronte—Good will stops at Bronte, Blackwell, Robert Lee, Post, Snyder, and Slaton were made by WTCC officials recently.

San Angelo—An expert creamery man will serve the dairy products company being perfected by Tom Green county milk producers.

Texas spent \$21,210,623 last year on her schools.

Differ as to Meaning of Name "Guatemala"

The country of Guatemala, which has a population of about 3,000,000, is one of the Central American republics with an area of 48,290 square miles. Except in the marshy forests near the northeast coast, the country is mountainous. Some of the mountains attain an elevation of 11,500 feet.

The most important cultivated products are coffee, sugar, tobacco, cacao, bananas and indigo. Much rubber also is obtained.

The name of the country is believed of Aztec origin and is said by some authorities to mean "Land of the Eagle," or "Land of the Forest." Other experts say it should be interpreted as meaning "mountain vomiting water."

Guatemala City, the capital of the republic, with an estimated population of about 200,000, is situated in a rich and spacious plain.

The country was conquered by the Spaniards in 1522.

Italian's Origin Shown by Method of Eating

The way of eating Parmesan cheese tells the place of origin of an Italian, according to a generally accepted theory. Not only that, but it indicates also his broadmindedness or stinginess in money matters, it is claimed.

If a person pares the covering of his cheese without regard to losing a little of the cheese itself, as a wasteful cook might peel potatoes in New England, that person comes from Rome, one who cares little for money.

However, if the person scrapes the cheese carefully, so as not to waste any of the inside portion, he is a Florentine, careful but not prodigal.

But if the person takes up his cheese in his fingers and merely blows whatever will blow from the outside of the cheese, then he comes from Genoa, never wasting a centesimal, according to the proverb.

Nativity of Corn

Corn, generally believed to have originated in South America, has been found growing in China; but the Chinese corn is of a unique species and it is not a native of the Chinese region in which it was discovered. Researches show that it must have been brought to China long before the voyage of Columbus, for it could not have acquired its distinctive character in the comparatively short time that has elapsed since that period.

Chinese corn is a dwarf plant and its starch is quite different from that of American corn. The leaves grow on either side of the stalk so as to protect it from the hot, dry winds of the desert. They form a sort of horn for the accumulation of pollen.

Chinese corn is excellent for planting in hot countries where common corn does not flourish.

Steamship Success

A phenomenon known as "cavitation" is recognized as one of the most important causes of loss of efficiency in the driving screws of steamships. When the velocity of the screw is increased above a certain limit a cavity is formed in the water inside which the screw revolves and a further increase in power then causes no increase in the ship's speed. Mathematical investigation, tested by practical experiments, has shown that cavitation can be avoided by preserving a certain ratio between the resistance and the propelling surface concerned. Upon this principle the speed of some ships has been greatly increased by simply changing their driving screws.

Gave It Away

Press agents do not always train their clients wisely. There is, for instance, the now sorry lady who showed the interviewer a pair of silver candlesticks. "They were given to my great-great-grandmother by King of Germany," she explained. "They are very old and valuable, all hand-carved, and have been preserved by my family through generations." So the interviewer handled one tenderly, and just naturally turned to the mark beneath which would testify to their ancient ancestry. "Sheffield Plate, Birmingham, England, 1802," was the precious inscription.

Simmons Secures Many Attractions

ABILENE, July 23—Four premier attractions, the largest series of programs ever brought to West Texas, have been booked by the management of Simmons University to appear at the University auditorium during the coming school year.

They are Sousa's Band, Paul Whiteman's orchestra, Will Rogers, and John McCormick. Sousa's Band will appear on Oct. 18, Paul Whiteman on Nov. 3, and Will Rogers in April. No date has been set for the appearance of McCormick, but the great tenor will probably be here

sometime during the winter. The attractions are being fostered jointly by the university and the Cowboy Band.

Amarillo—Amarillo is one of the first cities to send inquiries of the WTCC '28 motorcade to be staged in August.

Coleman—Indications are that the WTCC board meeting here July 16 will be the most largely attended of any yet held.

Miami—Miami's recently organized Lions Club continues to be a leading factor in civic development and spirit of the town.

Does Your Cream Test What It Should?

If it does not, come in and talk to us about it. We have helped many of our customers to improve their tests, perhaps we can do the same for you. We are not here to just hand you a check when you bring cream to our station. We are always glad to answer any question, or explain anything you wish to know about cream.

Bill Der Says

"It pays to own a home," says the landlord.

Push The Rain Up

It may look like economy to wait until there are frogs in the attic before you start to patch or re-shingle that roof, but when you try to sell that house you'll find out crosswise. Good old-fashioned cedar shingles are one of our best bets, but we carry the classiest of composition shingles, as well.

Give us a buzz.

HIGGINBOTHAM-BARTLETT COMPANY

"EVERYTHING TO BUILD ANYTHING"

G. M. Stewart, Mgr.

Tahoka, Texas

T. M. Dobbins of Roscoe, accompanied by his nieces, Misses Kemble Roy and Mary Crutcher of Sweetwater, came up Saturday to spend the week end with his daughter, Mrs. Grover Stewart. Mr. Dobbins returned to his home Monday but the young ladies remained for a few days visit. A few miles east of town on the muddy highway Saturday evening their car skidded into the ditch and Mr. Dobbins had to get help to get it out and then have it dragged into town, but otherwise no damage was done.

A case was tried in the justice court Tuesday wherein J. B. Walker was suing the City for \$1.00 impounding fees and for the possession of certain live stock of his which were taken up and placed in the city "pound" a few months ago. A verdict was rendered by a jury in favor of the city. The City was represented by G. H. Nelson while Mr. Walker acted as his own attorney. The case was tried once before, resulting in a "hung" jury.

Mr. and Mrs. D. W. Gagnat and Mr. and Mrs. E. L. Howard returned Monday from a two weeks vacation trip out through New Mexico. They went as far north as Taos in Northern New Mexico and spent some time at Ruidoso. They traveled about 1,500 miles and had a wonderful time but came back as tired as when they left.

J. C. Wells and family returned Sunday night from a two-weeks trip to the White Mountains, N. M. Claude says it rained out there almost every day and that all the country between here and there was visited by heavy rains Saturday and Sunday.

Daniel Davis and Bill Speight returned Monday afternoon from Carlsbad, where they visited the wonderful caverns. They say it certainly did rain on the road.

W. E. Suddarth was called to Ft. Worth last week by the death of his aunt, Mrs. Cassia C. Leonard, who was known in Tahoka and throughout the state in her capacity as Grand Secretary of the Order of the Eastern Star for twenty-three years. Mr. Suddarth was accompanied home by his brother, E. W. Suddarth, and daughter, Elizabeth Ann, of Hollywood, Calif., who are making an extended visit with relatives and friends in Ft. Worth and other Texas cities. The two visitors returned to Fort Worth Tuesday night.

Prof. and Mrs. C. K. Fraser of Robstown and Miss Vickie Stone of Carbon are here this week visiting Mr. and Mrs. L. C. Haney. Mrs. Fraser and Miss Stone being sisters of Mrs. Haney. Prof. Fraser is teacher of Vocational Agriculture in the Robstown High School, while Miss Stone is a teacher in the public schools of Eastland county. Prof. Fraser expressed much admiration for the south plains country.

They have a new oil well down in the eastern part of Fisher county near Hamlin that is flowing 75 barrels of high gravity oil per hour, it is claimed. This would be 1,800 barrels per day, if the rate of production is maintained. This would indicate that they have a real oil field in Fisher county. Some day, no doubt, they will find oil on the south plains.

All traffic from Lubbock to Sweetwater is being diverted by Gail, most of it coming through Tahoka, by reason of the concrete crossing of the Brazos River having been washed out at Justiceburg. One car was washed down stream at that place a few days ago and four or five occupants barely escaped with their lives. The car was not recovered.

A. B. Henderson of Arlington is here this week visiting his uncle, W. O. Henderson. This is Mr. Henderson's first visit to the plains, and he expressed great surprise at the wonderfully fine country we have here. "I am just delighted with the country" is the way he expressed it to the News.

Mr. and Mrs. W. M. Harris returned Thursday from a visit to relatives at Naples in Morris county and Marietta in Cass county. Mr. Harris says that crops had been greatly damaged throughout that section by excessive rainfall. The prospects were far from flattering.

Miss Mollie Sargent and Mr. and Mrs. H. J. West and family of Fort Worth were here last week visiting in the home of G. C. Sargent and family. From here they went to Munday to meet other relatives in a reunion.

E. A. Park left Monday morning for Myra, Cooke county, to visit relatives and is expected to return Friday, accompanied by Mrs. Park, who has been visiting her parents at that place several weeks.

Mr. H. R. Vickery, formerly with the South Plains Motor Co., of Lubbock has opened a repair shop in connection with Gordon's Service and Accessory Station and will appreciate an opportunity to figure on general automobile repairing.

The county candidates all visited West Point Tuesday night. They report a big crowd present in spite of muddy roads, which indicates that the people are really interested in the election to be held next Saturday.

B. R. Tate and family returned last week from their vacation of two weeks, which was spent in Comanche county and at Brady. They had a most enjoyable visit.

Mr. and Mrs. J. A. Bell and family from Dawson visited Mr. and Mrs. Henry Douthit and family and Mr. and Mrs. L. F. Prater and family of this city last week.

Miss Sybil Tarrance, who was operated on last week for appendicitis, is reported to be improving nicely. She has been in Fort Worth for the past few months.

G. E. Hogan spent several days the first of the week looking after business interests at Littlefield. He has a store there.

Hon. Franklin D. Brown of Lubbock was here Tuesday on professional business.

Mrs. Robert Noble has been ill the past several days.

Miss Olabel Singleton of Abilene is here this week visiting her parent, Dr. and Mrs. J. R. Singleton.

Burton Hackney is now sales manager of the West Texas Gas Company's Lubbock office.

Sherman Davis has accepted a position as salesman for the West Texas Gas Company at Slaton.

ASKS SPINNERS TO PAY \$2.50 A BALE WHEN WRAPPED IN COTTON

Despairing of obtaining aid from Congress in stimulating the consumption of cotton as bagging for cotton bales, T. H. Thurmond, Shreveport, La., manufacturer, asks that American spinners pay half a cent for cotton wrapped in cotton bagging as against bales wrapped in jute. In this manner, Mr. Thurmond believes there would develop a new outlet for many bales of cotton. The cotton spinner would save the following amounts, says Mr. Thurmond: Seven pounds difference in weight of cotton bagging as compared to jute bagging, at 20c per pound, \$1.40; difference in value of used cotton bagging as compared to used jute bagging, 48c; difference in freight on seven pounds, 21c; difference in insurance, 50c; difference in cotton adhered to jute and not to cotton bagging, 80c; total \$3.39; less premium, \$2.50; balance, 89c.

This shows a profit to the cotton spinner of 89c by buying cotton wrapped in cotton bagging instead of jute bagging, to say nothing of the many million dollars it will mean to the citizens of the United States in cultivation, handling, manufacturing and consuming the low grade cotton that has been the cause of low prices of cotton for many years.

The amount based on a tare of 21 pounds of jute bagging and ties, if the "tare" is more than 21 pounds, as it is on cotton shipped to Liverpool, the saving to the cotton spinner in Liverpool will be \$1.80 more, or \$2.69 per bale.

From a financial viewpoint, it behooves the cotton spinner to notify the cotton buyers they prefer cotton bagging and will pay a premium of 1-2 c per pound more for cotton wrapped in cotton than for jute wrapped cotton.

These figures are based on the price of cotton being 20c per pound. Should the price of cotton advance to 40c per pound, cotton bagging will be cheaper on account of the cotton that adheres to jute bagging and not to cotton bagging; also the seven pounds difference between the weight of jute bagging and cotton bagging, as follows:

Four pounds cotton adhered to the jute, at 40c, \$1.60; seven pounds jute bagging at 40c per pound, 2.80; five pounds cotton bagging at 30c per pound, \$1.50; less value of used jute, 12c, \$1.38; insurance and freight, 71c total saving, \$6.49; less premium, \$2.50; based on 21-pound tare, net profit to cotton spinner, \$3.99; if shipped to Liverpool, add nine pounds tare at 40c, \$3.60; total saving to Liverpool cotton spinner, \$7.59.

Leaders - The annual Leaders Baptist Encampment has opened with record attendance to continue until July 22.

ONLY A NICKEL FOR THE LORD

Yesterday John wore a rose on the lapel of his coat, but when the plate was passed to-day he gave a nickel to the Lord. He had several bills in his pocket and sundry change, perhaps a dollar's worth, but he hunted about, and finding this poor little nickel, he laid it on the plate when the offering was received.

On Saturday afternoon he met a friend, and together they had refreshments. The cash register stamped thirty-five cents on the slip the boy presented to him. Peeling off a bill, he handed it to the lad and gave him a nickel tip when he brought back the change. A nickel for the Lord and a nickel for the waiter.

John had his shoes polished on Saturday afternoon and handed out a dime without a murmur. He had a shave and paid fifteen cents with equal alacrity. He took a box of candies to Mary and paid eighty cents for them, and the box was tied with a dainty bit of ribbon. Yes, and he also gave a nickel to the Lord.

Who is the Lord? Who is he? Why, John worships him as Creator of the universe, the One who puts the stars in order by whose immutable decree the heavens stand. Yes, he does, and he dropped a nickel in to support the work of the Lord!—Copartners.

FARMERS NOT FOR FREE TRADE

In commenting on the Houston convention and its possibilities the New York Times said recently:

"Of all times to retreat from the historic Democratic position on the tariff, this would be the most ill judged. It is not because it is extremely opposite to present conditions. An effort is being made to win over the disgruntled Western farmers. But the tariff is precisely one of the causes of their discontent. They say that it protects the Eastern manufacturer but penalizes them. They have professed a willingness to ally themselves with any party which would strive to reduce customs duties that raise the price of articles which the farmer must purchase because they are necessities. For Democrats to tell them that nothing could be done would be a piece of strategic folly."

Stamford—An article under a New York date-line says that Wall Street has its eye on West Texas and that the effect of is prosperous condition is being felt.

Fort Worth - Following instruction passed by the 10th annual resolutions committee, a WTCC representative has been sent to the Southern Cotton Council at New Orleans.

Lubbock—Building permits for Lubbock for the year, 333 in number, amount thus far to \$1,885,598.

CARD OF THANKS

We wish to thank the many friends of Tahoka and adjoining communities for their many deeds of kindness and for the beautiful flowers during Boswell's sickness. Words or actions can not express our appreciation for the kindness that was shown us and the pleasant visits made by so many of our good friends during his stay in the hospital. We especially thank Brother and Mrs. Shepherd and Brother Law for assisting us to and from the hospital. May God's richest blessings rest upon each and every one.

Boswell Edwards
Mr. and Mrs. W. B. Edwards and family.

Yarborough Makes Statement To Voters

Ladies and Gentlemen: As the date for the primary election draws close, let me say that I have endeavored to see all the voters of the county and to present to them personally my candidacy for the office of sheriff and tax collector, and while I have met a great many of the voters it has been impossible for me to see each and every one, and I take this method of soliciting the support of those I have failed to see personally.

I have conducted my campaign on a high plane and have refrained from all questionable methods, for I am asking the support of the voters of the county on my merits as an officer and I will at this time renew my promises made personally to the citizenship during my campaign that I shall strive diligently to enforce all the laws with the age-old principle of equal rights to all and special privileges to none as my guide in discharging my duties to the people. If you see fit to give me your support I shall greatly appreciate it and I promise you that I shall give you the very best service that I am capable of rendering as your law enforcement officer.

Sincerely,
J. H. SARBOROUGH

Sam Sanford Makes Statement To Voters

In these closing days of the campaign I wish to thank my friends all over the county for their assurance of support in the primary election to be held next Saturday and to assure every voter that I will appreciate his or her support, for for any reason I have failed to see you personally, I wish to say that it is impossible for any candidate to see every voter, but I want you to know that I will appreciate your support just the same.

Regardless of charges which designing men may circulate, I wish to assure the people that if I am nominated and elected sheriff and tax collector, I will go into office perfectly free to do my duty in every particular and under all circumstances. I have had no campaign manager and will be under obligations only to the people of the county. No man has any strings on me and never has had and I wish to state emphatically that if I am elected I will fairly and efficiently enforce the laws without fear or favor.

Again thanking you for your support, I am

Yours truly,
SAM SANFORD

BOY SCOUT CAMP

With the opening of the annual Boy Scout Camp only a week off every scout and scout official is thinking of camp. Sunday afternoon, 35 or 40 of the scout officials and their families will gather at the Post camp site to work out the final details of camp.

The annual camp for the Boy Scouts of the South Plains is held at Post, Texas, on a four hundred acre site presented the boys by the estate of the late C. W. Post. This camp site is probably the wildest and roughest country in the vicinity of the plains. It is a natural home for birds and all kinds of wild animals, trees and shrubs of many kinds give the scouts an opportunity for all kinds of nature study. There are a number of natural springs on the campsite around which the Indians of former days probably gathered. Buffalo bones and arrow heads have been found on the campsite. The heavy rains last winter have exposed many arrow heads and the scouts will probably make a nice collection this summer. The camp has many interesting and romantic features that appeal to the imagination of the growing boy.

As the ancient Indian hunted thru these ravines with his bow and arrow so the modern boy will hunt with his bow and arrows. As the scout is interested in the conservation of wild animal life, artificial targets of natural size are being made by W. G. McMillan and Lennis Baker, who will have charge of the archery work in camp. Bow staves and bows for making archery tackle will be available at the scout canteen.

A scout bank is always maintained in camp to take care of the scouts spending money. Mr. R. S. Williams of the Citizens National Bank will spend part of his vacation in camp acting as banker for the boys. All money will be deposited with Mr. Williams and each day canteen checks for the purchase of candies and cold drinks will be issued. The purchase of scout equipment and paraphernalia will be handled on regular checks drawn on the scout bank. A Boy Scout is limited in the amount of money he may spend for sweets in order that his digestive system may not be upset and thereby spoil his camp.

A carefully prepared menu of balanced foods that are best suited to the meals of a growing boy will be prepared by expert camp cooks. Parents are cautioned not to send candy, cake, and other sweets to their boys at camp, as the boys have plenty of well cooked food and any extra dainties may spoil their camping program.

The joy of every boy's life is the opportunity for swimming. The camp itself does not have swimming facilities but arrangements have been made to take the boys each day to Two-Draw Lake just outside of Post. Here the boys are taught swimming and life-saving. Every Boy Scout should be a swimmer as he is a potential life saver. Many new scouts who are unable to swim are taught to swim during the camp period. Swimming activities are under the direction of an expert waterman. Life guards are on duty during the entire camp period to see that the proper rules of safety are carried out and to affect a rescue in case of an accident of any kind. The "Buddy System," used universally by scouts, will be used in the Post Camp.

The camp this year will specialize to a great extent on handicraft work and preparation for the coming county and community fairs. Mr. Frank White will spend some time in camp instructing the boys in plaster of Paris casting and modeling. Indian head work and many other kinds of Indian handicraft are on the program. The scouts will also have an opportunity to observe and study a number of different types of tents and shelters. A number of these will be constructed from natural material obtained on the campsite. A number of burros will be available in camp in order that the scouts may learn to throw the diamond hitch and other ways of packing the equipment over the mountain trails. Burros will also be used for polo and other games.

A number of special awards are being offered for camp. Chief among them is the McMillan Camping Trophy offered by W. G. McMillan, chairman of the camping committee, to the scout troop making the best record in camp. The Slaton Chamber of Commerce is offering a banner to the boy making the best record in tent-typing while in camp. The Spur Chamber of Commerce is offering a banner to the boy who makes the best firemaking set from natural material at camp. Special prizes of archery tackle will be awarded to the boy who makes the best showing in archery work. Other prizes will be awarded for knife, and axe work, rope making, rope spinning, swimming, camping and many other activities. The Post Chamber of Commerce has made arrangements with the Pathé News to take several reels of these camp activities.

HE'S STILL HARPING

Still harping on the highway commission, L. J. Wardlaw continues his campaign for governor of Texas. By its record of accomplishment, by its record of economy; by adhering strictly to the establishment plan of allotting aid only where local steps have been taken to secure this aid; the highway commission has proven itself to be one of the outstanding constructive forces of the Moody administration.

That West Texas is receiving aid in the matter of highways is a well-known fact. That West Texas had not previously received state and federal aid is apparent by the condition her highways were in eight years ago. It is not enough that West Texas alone is profiting by this present system of road building, but every one who reads and everyone who rides knows that the work of this highway department extends into every section, and that projects in every part of the state have been given aid.

What would Wardlaw do? Abolish the highway commission and elect a board of five, one from each of four districts, and a fifth from the state at large. Apportion the state and federal aid on the basis of the amounts paid in by counties in registration fees. It does not need to be pointed out that such a highway board would be under the control of East Texas politicians, and that three fourths of the money received from registration fees would be spent in (fifty or fewer) counties, leaving 200 Texas counties with out adequate funds for road maintenance.

The present administration and the present highway board have not favored West Texas, West Texas, just as every other section of this vast state, and it is reasonable to assume that this policy will be continued through another two years of service.

West Texans should express this confidence with their votes.—Sweetwater Reporter.

BOY SCOUTS TO MAKE INDIAN TOTEM POLES

One of the many interesting features of handicraft planned for the Boy Scouts at their summer camp at Post, from July 30th to August 8th is the making of Indian Totem Poles. These wiers symbols, which formed such a vital part in the history and religion of the North American Indian, will be of great interest to the boys. Mr. T. A. White of the Lubbock District for the Southwestern Bell Telephone Co. has agreed to supply some old telephone poles for this activity. An Indian Totem Pole is a series of grotesque figures representing the history of the Individual, Tribe, or some event of special importance. One of the poles at the camp will give the story of the Post Camp in Indian Sign Language. It will show how the heirs of the C. W. Post Estate have deeded the land to the Boy Scouts for the development of their camping program. Totem poles are painted in very

gaudy colors and make a very attractive addition to any camp. Some of the troops are making plans to carve special poles to be displayed at the South Plains Exposition at Lubbock this Fall. W. P. Knox, scout executive for the South Plains, has made a special study of totem poles. Several thirty-five foot Totem Poles have been carved, decorated, and erected, under his supervision, at Austin, Beaumont, and other places in the Southwest.

Make Plans For South Plains Fair

Lubbock, July 25—Officials of the Panhandle South Plains Fair are busy getting ready for the annual exposition which will be held in Lubbock, October 1, 2, 3, 4, 5, and 6. The exposition which has become known as the "Show Window of the Plains" will be the biggest this year of any exposition ever held on the Plains. The fair was increased to a five day exposition last year and this year has been let out to a six day show. Agricultural and live stock exhibits last year rivaled the best regional fairs in the Southwest and assurance has been given that practically all the exhibitors will be back this fall with many others. Fire works, free attractions, and other entertaining features will compare with the best offered by a Texas fair. The association is making improvements that will benefit the annual exposition. Addition to the attractive and increase in exhibits will draw a

better crowd. Last year's attendance ran over 100,000 and this year, with an extra day and better features, the crowds are expected to be substantially increased.

SANTA FE SURVEYORS ARRIVED WEDNESDAY

A crew of men, surveyors for the Santa Fe railroad, arrived in the city Wednesday of this week for the purpose of making surveys relative to sidings and team tracks to be built at some future date. We understand two or three additional sidings besides team tracks will be constructed by the Santa Fe in the near future.—O'Donnell Index

Floydada—Floydada building permits for the first half of 1928 total a little over \$169,000

Locals

The school board received their first "remolunents of office" on Wednesday afternoon. The remuneration came in the form of a big Parker county watermelon, compliments of Miss Zoella Fox, a member of the faculty next year. Miss Fox advised the Board that the melon was grown on her father's farm near Weatherford and every member of the Board can testify to its superior quality. As soon as it became known that the big fifty-pounder was in the News Office it was no trouble at all to get a meeting of the board. All members were present, together with the secretary, Jim Weatherford and the Superintendent, M. L. H. Baze.

Mr. and Mrs. G. E. Knight returned Tuesday with a week's visit in San Antonio, Uvalde, and other places in that section. Mr. Knight says that they encountered no rain nor mud until they reached Big Spring. It is exceedingly dry from Big Spring south. Crop prospects around San Antonio and in all that section are exceedingly poor — except the pecan crop. He says it promises to be immense. That sounds good to us.

J. B. Nance, who spent most of his time in Poyote the past few months, is in Tahoka this week. Mr. Nance is planning to remove his family here from Plainview within the next few weeks.

Writer's Fine Tribute to Forest Patriarch

I watched some time ago the cutting down of an oak. It was a huge tree, an old patriarch among the trees in the neighborhood; the kind and size of a tree that is regarded with a sort of attachment by friends and strangers. In the lives of those along the road it was a landmark. It wore its rusty robes with an air of majesty. It possessed a distinguished appearance on account of age, and to look at it was to be aware of something ancient. The Indian stepped with moccasins feet the paths when it was in infancy, and its last years saw the automobile, airplane, the magic things of a modern world.

It went through much in the lease of life; it weathered everything, as an oak should do; but it had to surrender before the assault of a very small but numerous enemy—the leopard moth. It fought as a giant fights bravely. It lost courageously and gamely, as a man loses when overpowered by superior numbers. It battled to the end.

It seems a ruthless act to cut down a tree. It is the taking of life itself. Such a tree enters the very lives of those who dwell in its shadows, and it is a part of their histories. And the more we know of such trees the more are we convinced they have a soul, a personality.—Edwin C. Hobson, in the Boston Globe.

Skunk Harmless if He Is Treated Right

Periodical reports are regularly and frequently printed in the papers at this time of year of skunks appearing and stampeding citizens, policemen and other officials as if they were the German army and yellow fever combined instead of being as friendly and harmless as an ordinary cat. One was found in a schoolhouse and instead of being allowed to depart in peace a posse was raised and the "critter" shot and school dismissed for the day. The interesting feature is that the skunk always has to be killed and trouble started; in the country the incident attracts little attention and the skunk is not molested, but city people seem to take an aggressive course.

A skunk is usually able to depart the way he entered and if not imposed upon will seldom start anything. If set on the sidewalk, porch or in the woodshed as a social equal, he will be as friendly as you are.—Cassius Reporter.

The Lynn County News can still be had for \$1.20 per year—52 issues. We are also still offering the combination of The News and the Dallas Semi-Weekly Farm News for only \$2.00

BAYLOR COUNTY VOTES \$275,000 PAVING BONDS

SEYMOUR, July 22 — Baylor county voted a \$275,000 road bond issue Saturday, as a step toward completion of the county's projected 90-mile paving. The issue, approved by more than a 2 to 1 vote, will provide for paving State Highway No. 30 from Seymour north to the Archer County line, a distance of 16 miles, and of the Westover Road from Seymour, west to the Baylor County line.

Baylor County's plan for 90 miles of paving is almost a third completed. Thirty miles of road have been finished or is under construction

now. Work is being rushed now on the road toward Throckmorton also. Vote on the bond issue Saturday was 800 for and 340 against the issue.

Austin—Representatives of Texas' three regional organizations met here July 23 to formulate a general legislative road program.

Spearman—Spearman is already looking forward to the entertainment of the Trans-Canadian District of the WTCC early next fall.

The largest custom smelter in the world is located at El Paso, utilizing copper, silver, lead and other ores.

IRRIGATION PROJECT IN FUTURE DEVELOPMENT

(O'Donnell Index)

Doubtless few people ever dream of irrigation on the South Plains and less thought has been given to a possibility in Lynn County. However, within the next few years things will take place that would have been laughed at a few years ago.

The next important step toward future development of this great "cultural" area will be irrigation. A big utilities corporation of the state and nation have their eyes on West Texas and the South Plains. They realize what the future holds for this section and are making plans to take advantage of the situation by developing irrigation. Yes, irrigation!

The question may arise, where the country would obtain its water supply from so rivers or streams on the Plains. That problem has already been tested which resulted entirely satisfactorily to the big utilities of the country. Irrigation from wells tapping the inexhaustible water supply that the country is blessed with is the plan being worked out.

The fertile soil of the South Plains will grow anything with irrigation. This fact was made more impressive the past two years when the country was found wanting with nothing but cotton for a money crop. Diversification is gradually taking its rightful place in this section and within another few years the country will finally come into its own. It will be known as the greatest agricultural section in the United States.

The coming of natural gas to the South Plains will have much to do in hastening the development of irrigation.

CHICHESTER'S PILLS

SIGNS YOU CAN BELIEVE IN

If your breath is bad and you have pain of swimming in the head, your appetite, constipation and a general nervous feeling, it is a sign your liver is weak. The one really dependable remedy for all disorders in the liver, stomach and bowels is **Chichester's Pills**. It starts powerfully on the liver, stomach and bowels, pushing the bowels and restoring the feeling of energy, vim and cheerfulness. Price 25c. Sold by THOMAS BROTHERS

IN DESPAIR

Run-down and Nervous Woman Picked Up. Got Strong.

"I can heartily recommend Cardui, because I have found it so helpful," declares Mrs. Barton Smith, of Warrenville, Georgia.

"I was very much run-down, and was hardly able to get about. I could not sleep at night, and was in a highly nervous condition. Nothing seemed to help me, and I was almost in despair. I decided to try Cardui and sent for a bottle. I soon began to improve. I got so I could eat. My appetite was good. My nervousness and I was able to sleep well at night. I gained up in weight and my color was much better." Cardui is sold by all druggists. Try it.

IRRIGATION PROJECT IS FUTURE DEVELOPMENT

(O'Donnell index) Irrigation has long been a dream of the people of the South Plains... The next important step toward the development of this great agricultural area will be irrigation.

tion in Lynn County. The gas company has already made extensive tests on a sandy plot of ground south east of Lubbock and is demonstrating just what can be done with natural gas and the fertile acres of the South Plains.

Locals

Our good friend J. V. Dyer says that he has five acres of Indian corn that promises to be very fine. It is just now bunching to tassle and the soaking rains which have just fallen came just at the right time.

Hon. Carl Rountree of Lamesa, candidate for Representative in the legislature from this district, was here Friday meeting the voters.

Fred Good and Joe Curry of the Newsmore community were here Saturday accompanied by C. P. Taylor and R. L. Chaney of Bell county.

Rev. C. A. Duncan pastor of the Meadow M. E. Church and editor of the Meadlow Review, was a business visitor in Tahoka Monday and declared that the rainfall at Meadow Saturday and Sunday amounted to eight inches, according to the Government rain gauge.

Frank E. Burkhalter of Nashville, Tenn., publicity director of the conservation commission of the Southern Baptist Convention, and Miss Ina Burkhalter, teacher of Home Economics in the Waco High School, were week end visitors in the home of their brother, H. P. Burkhalter, of Grassland.

Mr. and Mrs. Billie Sanders of San Angelo are here visiting their parents, Mr. and Mrs. J. V. Dyer. From this place they will go to Wichita Falls, where a bone graft will be made in an effort to heal the serious fracture of a leg sustained by Mr. Sanders several months ago.

Judge Heath went to Church Sunday night, as is his custom, and came away with another man's hat, as is not his custom. Some gentleman who owned a hat almost exactly like that swapped the judge, a brown sky-ponie, evidently took the judge's hat through mistake. The judge says he knows it was a mistake, for the gentleman left a better hat than the one he took. But the judge says he is willing to trade back, if the swapper will make his identity known.

J. W. Burleson of Lubbock spent Sunday night here with his son, Bill Burleson. He was on a return trip from Dallas.

Mrs. W. D. Nevels spent a part of last week visiting her daughter, Miss Willie Lora, who is attending Simmons University at Abilene.

CITATION BY PUBLICATION

The State of Texas County of Lynn. To the Sheriff or any Constable of Lynn County—Greeting: You are hereby commended to summon Lanella Wilson by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at the next regular term of the District Court of Lynn county, to be holden at the court house thereof in Tahoka, on the 4th Monday in September, 1928, the same being the 24 day of September 1928, then and there to answer a petition filed in said court on the 2nd day of July, 1928, in a suit numbered on the docket of said court No. 728, wherein O. L. Wilson is plaintiff, and Lanella Wilson is defendant, said petition, alleging that on or about the 20th day of January A. D. 1928, the defendant, Lanella Wilson, abandoned the plaintiff, O. L. Wilson, without cause or provocation on the part of plaintiff; that the plaintiff has not since the above date heard of the defendant, wherefore, the plaintiff asks that the defendant be cited to answer this citation and show reasons why the plaintiff should not have a decree from the above court dissolving the relationship of marriage between the plaintiff and defendant. Herein fail not, but have you before said court on the said first day

of the next term thereof, this writ with your return thereon, showing how you have executed the same. Witness W. E. Smith, Clerk of the District Court of Lynn County, Texas.

Given under my hand and seal of said court in the City of Tahoka, this 2nd day of July, A. D. 1928. W. E. SMITH, Clerk of District Court of Lynn County. Issued this 2nd day of July, A. D. 1928.

Court of Lynn County (SEAL) 45-46c

Mr. and Mrs. Walter Rhyne visited Mr. and Mrs. T. B. Cowan Jr. Everybody remember Sunday School next Sunday. Let's all try to be there and bring some one with us.

A SUBSCRIBER

O'DONNELL PLANS TRADES DAY Plans for a Trades Day are being worked out by the O'Donnell Luncheon Club, according to the Index.

Ottom—Substantial wheat crops are being harvested by farmers in this section.

Amherst—A new business building is under construction here to be completed by September.

CARL ROUNTREE

Of Lamesa, Candidate For STATE REPRESENTATIVE, 119th DISTRICT

ROUNTREE QUALIFIED FOR THIS OFFICE

Judge Rountree is well qualified to represent this district at Austin and in the State Legislature. He is well educated, is one of the leading practicing attorneys of the South Plains, is thoroughly familiar with the needs of this district from a legislative standpoint and above all else always exercises good judgment on all matters that come before him.

ROUNTREE INDORSED BY CITIZENS OF LAMESA AND DAWSON COUNTY

Below are indorsements for Rountree from several organizations, public officials and civic bodies in Lamesa. This spells one big thing. Rountree is one of the best liked men in Lamesa and Dawson county. Not only is he popular but his home people recognize in him ability and efficiency for this high office. Read what they have to say:

To the Democrats of the 119th Representative District: Hon. Carl Rountree, my fellow townsman is seeking your nomination for State Representative.

I have known and been closely associated with Mr. Rountree for many years, and it gives me much pleasure to recommend him to you as an exemplary citizen, an untiring worker for West Texas and her institutions, and a competent lawyer, and in his nomination and election you may be sure our District will have one of the leading representatives in our Legislature. Respectfully, GORDON B. MCGUIRE

Bar Endorsement We, the undersigned attorneys, members of the Lamesa Bar, heartily endorse the candidacy of Hon. Carl Rountree for Representative of the 119th Representative District of Texas and commend him to the Democracy of this district. Gordon B. McGuire A. W. Gibson, Co. Att'y. W. F. Robinson. V. O. Key. Phillip Yonge J. E. Garland. V. B. Morgan E. B. Warren C. P. Rogers.

Peddlers To Meet In Lubbock Soon

Lubbock, Texas, July 25—While every possible means is being used to get the word spread to all peddlers over the Southwest that Lubbock wants all traveling men to be guests of this city August 25 on the occasion of the seventh annual Peddlers' Jubilee, Committees from the Lubbock Chamber of Commerce and from the Lubbock peddlers' organization are laying plans to make the entertainment this year "up to snuff."

Hotel managers over the Southwest are being invited to come along as special guests to meet with the peddlers and chamber of commerce officials in all South Plains towns are being invited to come in and help welcome the "Knight of the Grip" to this section.

A large number of hotel managers are expected here. The occasion gives the hotel men a chance to be one of the "fellows" at the party and to meet new peddlers.

The trade evangelists go out from the annual jubilees telling the commercial world about Lubbock and the South Plains. For this reason, South Plains commercial executives and

officials are glad to welcome the peddlers and be sure that they feel at home in this section.

Placards and windshields are being scattered over the Southwest and all traveling men who see one or who read the stories in the newspapers about the jubilee are urged to consider the publicity as a special and personal invitation to plan his route so that he can be in Lubbock for the big jubilee, B. Sherrard, president of the Lubbock Chamber of Commerce says.

E. M. WILDER DISPOSES OF LUMBER INTERESTS THIS WEEK

E. M. Wilder returned Tuesday from Levelland where he closed a deal disposing of his lumber interests at Levelland and O'Donnell. The yard at O'Donnell will be closed and all material moved to Levelland according to a statement made by Mr. Wilder Wednesday.

In conversation with the Index editor Wednesday Mr. Wilder stated: "You can tell the people of O'Donnell and territory I will always be found at the Wilder-Hubbard Chevrolet Co. My time will be devoted to selling Chevrolets in the future." O'Donnell Index.

CONGRESSMAN MARVIN JONES ADDRESSES LARGE CROWD HERE

(Continued from first page)

length the importance to the farmers of the South of his bill recently enacted into law providing for an investigation into the new uses of cotton. By reason of this investigation, several new uses for cotton have been found and the prospects are that as a result of this investigation many hundreds of thousands of bales of cotton will be consumed each year, thus creating new demands for cotton.

Mr. Jones also called attention to the fact that he was joint author of the bill requiring the listing separately of the merchantable and non-merchantable cotton in the surplus carry-over. Therefore the "dog-tail" cotton has been listed along with the good cotton in the figures showing the amount of the carry-over and thus has helped to depress the price.

Mr. Jones closed with the statement of his views as to our future policy as to war. He declared that he would seek the passage of a law requiring the drafting of the wealth as well as the manhood of the country if another war should ever come. "The best way to prevent war," he declared, "is to take the profits out of war." His remarks along this line were heartily approved, and the crowd present gave evidence that the vast majority were in sympathy with the speaker. In fact, some were heard to remark that they had changed their minds as to the race for Congress since listening to this address.

Mr. Jones left Tahoka for Lamesa where he was to fill a speaking engagement Saturday night.

To The Voters Of Precinct No. 1

As it is impossible to see many of the voters of this precinct personally again before the election, I take this method of thanking the voters for the consideration shown me during my campaign for public weigher of Precinct No. 1. If elected your public weigher I promise that I will personally be on the job and that nothing will interfere to keep me from attending to the duties of this office. I intend to have public platform scales in use during the season that the farmer needs them and that I will stand every bale of cotton on end so that it will not damage during bad weather. I believe that the farmers are entitled to the very best service that can be rendered and if elected public weigher, I will appreciate any suggestions that will tend to give better service.

I will appreciate your vote on July 28th.

Yours very truly,
R. W. (Buster) Fenton Jr.

LIFER TURNS SING SING'S CINDER PILE INTO GARDEN

A former newspaperman, now Convict 69,690 has turned the cinder heap at Sing Sing Penitentiary into a rose garden.

Now seventy years old, Charles E. Chapin, convicted in 1919 for murder, has found peace for his soul and has retained more fire than many men of forty, says Farm and Fireside Magazine.

At one time Chapin was a very wealthy man. He owned a yacht, race horses, and had a town and country house. For twenty years he was city editor of the New York Evening World. When he was at his peak, he invested heavily and won for a while. But in the war crash of 1914 he lost all his profits and savings and was \$20,000 in debt. Death for himself and his wife seemed the only answer. Chapin planned suicide but instead gave himself up to the police the following day.

Chapin's garden, according to Warden Lawes of Sing Sing, has had more effect on the discipline of the prisoners than "all the rules in the book." His birds, also, developed under the severest handicaps, are praised by visitors to the prison.

Among the prominent men who visit Chapin is Irvin S. Cobb, short story writer, who once served under him as a reporter. Many other people of note write him or send garden materials, birds, or money with which to buy them.

H. L. BREWER TELLS A STRANGE STORY YESTERDAY

H. L. Brewer who lives six miles east of town was here yesterday and called at the Index office for a friendly chat. While here Mr. Brewer told us a very strange story. If we had not known Mr. Brewer to be an honest man we probably would have doubted the story. He told of a sixteen months old Holstein-Jersey heifer that has never been with calf that is now milking daily. The heifer will not be fresh until Dec. 1st.—O'Donnell Index.

EXPECT BIG VOTE IN SATURDAY'S ELECTION

(Continued from first page)

of Davis also but we know practically nothing about him.

George B. Terrell is the only candidate for Commissioner of Agriculture, being the present incumbent. Of course he will be nominated and elected again, but it is expected that he will get many "scratches" in Lynn county and other counties in this section on account of his activity a few months ago in the pink boll worm matter. Many people lay much of the blame for the unnecessary agitation of this question at his door.

There are four candidates for Commissioner of the General Land Office: A. J. Britton of Wood county, J. T. Robison of Morris county, Otis Terrell of Travis county, and E. I. Flynt of Hardeman county. We know practically nothing about any of these except J. T. Robison, who is the present incumbent and has been in this office for many years. He has been very efficient and is very popular.

Two Smiths are running for Railroad Commissioner, Lon A. Smith and Jefferson Smith. Both are residents of Travis county. Lon A. Smith is the present commissioner and is well and favorably known throughout the state. We know nothing of his opponent.

W. C. Morrow, Judge of the Court of Criminal Appeals, is opposed by Lee P. Pierson. Morrow is an able and experienced judge. Pierson is probably a good man but he has had no experience as a judge and strikes us as being rather radical and intemperate in his public speeches and we doubt if he is fitted to make a successful record on the bench.

Ross Bell is opposing Marvin Jones for Congress. Jones has been in Congress twelve years and holds some important committee assignments. He has made a splendid record. Bell has been a successful district attorney and is a brilliant young man.

Carl Rountree of Lamesa and J. K. Wester of Lubbock are opposing candidates for Representatives in the Legislature. Both are well known to the voters of Lynn county.

Through error, the name of Gordon B. McGuire appears upon this ballot as a candidate for the Democratic nomination for the office of District Judge. As a matter of fact no district judge is to be elected this year, Judge McGuire having been elected two years ago and his tenure of office being four years.

There are numerous county candidates, all of whom have been busy the past few months presenting their claims and qualifications to the people of this county.

Election returns will be announced on a big blackboard that will be erected in the middle of Main Street Saturday night by the Tahoka Drug Company and The Limit. A large crowd is expected to be in town to learn the result of the election.

Edith

Everyone has changed their frown to a smile since the rain. They will possibly go back to work with a better spirit. Crops are looking fine now.

Mrs. Pritchett and two children left Thursday night for Dallas where they will spend a few weeks for one of the children's health.

Mr. N. E. Wood spent the week-end in our community.

Mr. W. M. (Bill) Thompson's mother and relatives left last Monday.

Mrs. Stines from Ft. Worth, visited her Mother, Mrs. Coker a few days last week.

Mr. and Mrs. Johnson from Perrin and Mr. and Mrs. Carille from Terrell have been visiting J. C. Campbell and family. Mrs. Johnson is Mrs. Campbell's sister.

Uncle Frank Vaughn returned last week from Lubbock. He has been undergoing chiropractic treatments there the past month.

The sick folks of our community are improving nicely.

Mr. and Mrs. Ray Appling from Redwine visited in the home of J. C. Campbell Sunday.

There wasn't very many folks at S. S. Sunday. I guess it looked too rainy. But any way we had a fine S. S. and Bro. Winters preached. Everybody is invited to come next Sunday.

The Pentecostal meeting which has been going on nearly two weeks will probably close Wednesday night. God has been giving us some great services. There has been sixteen or more conversions as several have received the Holy Ghost.

Midland—Effective September 1, Midland county will have a full time home demonstration agent.

Leaders—The annual Leaders Baptist Encampment has opened with record attendance to continue until July 22.

Canyon School Asks For Million Dollars

Canyon, July 26—The budget of \$1,250,000.00 for the West Texas State Teachers College for the years 1929-30 will be presented Monday or Tuesday to the Board of Control at Austin by President J. A. Hill and Business Manager Travis Shaw. A hearing of all eight teachers colleges will be given on those days by the Board of Control. The Board of Regents for the teachers colleges will be with the presidents of the institutions when the hearing is in progress.

Homer D. Wade, manager of the West Texas Chamber of Commerce, will assist in presenting the needs of West Texas institutions.

The Board of Regents met a few weeks ago and approved the budgets of the teachers colleges. Four buildings were approved for the West Texas State Teachers College, including a library, museum and arts building to cost \$225,000; a science building to cost \$200,000; and addition to the power house building for the use of the manual training department to cost \$30,000; a home demonstration building to cost \$110,000.

The salary schedule for the teach-

ers colleges was placed on the same scale as that of other state institutions.

Dr. H. H. Harrington, of the Board of Control, together with W. T. Ganton, chief of estimates of this board, recently visited Canyon and made a personal investigation of the needs of the college. He was especially interested in the needs of the science building.

The Board of Control will make recommendations to the legislature when it meets in January.

Work on O'Donnell's water system is proceeding rapidly. The new 75,000 gallon reserve concrete reservoir has been completed, five wells have been dug, and a 50,000 gallon stand pipe is being erected. Five plugs have been installed in all parts of the city and everything is expected to be ready for the turning on of the water within a few days. Bonds in the sum of \$40,000 were issued to construct the plant. With the completion of this plant, one of the dreams of J. W. Roberts, editor of the O'Donnell Index, has been realized. Roberts has long been preaching the necessity of a water system for his city.

MAYFIELD AND CONNOLLY

U. S. Senator And Lieutenant Governor Bacon Will Run In A Run-Off Election

Final returns of the primary election held throughout Texas in July have not yet been announced. We publish below the returns which had been collected by the Texas Election Bureau on Tuesday night. We hope to publish the final returns as they are received by this agency as to all candidates next week.

The partial returns are sufficient, however, to indicate the removal of Governor Moody by a landslide majority over all opponents. Returns up to Tuesday night accounted for 671,621 votes for Moody against 224,798 votes for Wardlaw. The combined votes of the other candidates amounted to 126,177 votes. Conclusive returns are expected to swell this tally to an even larger figure. Moody carried perhaps nine-tenths of the counties in the state. He even carried Tom Green county and most of the counties lying to the south of Tom Green, where the oil and gas industry thrives and Wardlaw was supposed to be strong. Moody carried Tarrant county and a majority in spite of the fact that Fort Worth is Wardlaw's headquarters. In the State of Texas he carried Dallas, Houston, Waco, Austin, San Antonio and other cities by overwhelming majorities. He carried most of the counties as well as the counties below the capitol.

Lynn county was one of the counties that fell into the Wardlaw camp. It took its place along with a few others in South Texas in opposition to the other candidates. This strange situation is from the unnatural and ill-advised alignment of the political forces in this county. Again the elimination of Wardlaw as a candidate to win, but even if he had won against him he lost the vote. He lost South Tarrant county by 89 votes. He lost to Wardlaw by 2,000 votes. Wilson rolled up a majority of 35 for Wardlaw in this county. The vote in West Point. All other counties carried by Wardlaw, except the counties of Waco, San Antonio, Austin, Waco, San Antonio and other cities by overwhelming majorities. He carried most of the counties as well as the counties below the capitol.

Wardlaw here as everywhere else in the U. S. Senate, with the second and Tom Connolly in the state, Mayfield won the election and Connolly second. There is a general belief that Connolly will support Connolly in the election, who supports Wardlaw, who supports Mayfield. The recent for lieutenant governor has a large plurality in the state. Tom Love won out in the run-off between Wardlaw and Connolly with the advantage of a narrow margin.

Wardlaw carried the county of Lamesa, J. Ross Bell, for a vote of 1535 to 858. In both boxes in Tahoka more than 2 to 1. The vote in Tahoka was, Bell 125, Wardlaw 116. In south Tahoka, Bell 116, Wardlaw carried the district of 1,000.

Lamesa carried the vote of 2 to 1 over J. Ross Bell for Representative. In the legislature, the vote between Wardlaw and Connolly was elect-

Tuesday night will not reach the Texas Tuesday night
