

### Boy Scouts Annual O'Donnell Meeting

The 40th Annual Meeting of the Boy Scouts of America was held at the O'Donnell Hotel in Dallas, Texas, on March 27-28.

The Boy Scout Troop No. 40 of Taihoka went to O'Donnell Hotel last night to meet with the O'Donnell Scouts. Some very lively Scout games were played, also contests between the two troops. All local Scouts reported a great time.

The O'Donnell Hotel is the only one in the city that has a swimming pool. The pool is open all day long and is free to all. The hotel also has a restaurant and a bar. The O'Donnell Hotel is a fine place to stay.

THOMAS D. DREW

### The Sammie Cafe

Caters to the tastes of the most fastidious, and we give service.

They are planning to take up their work as soon as the other tests have been passed satisfactorily. The Scouts are going to put the work over in Taihoka. Water, then, is reported.

### SLAP'S DIARY

Friday—We just finished up our work at school and were very busy on Saturday. I had a very good day at school. I will be glad to see you when you come to Taihoka.

Saturday—They are snowed out of the game of Hamlet. I am very glad to see you when you come to Taihoka.

Sunday—I am going to the store to buy some things. I will be glad to see you when you come to Taihoka.

Monday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

Tuesday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

Wednesday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

Thursday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

Friday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

Saturday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

Sunday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

Monday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

Tuesday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

Wednesday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

Thursday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

Friday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

Saturday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

Sunday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

Monday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

Tuesday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

Wednesday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

Thursday—The game of Hamlet is over. I am very glad to see you when you come to Taihoka.

**LIST OF CANDIDATES GROWS**

A number of other names have been added to the list of candidate for city offices since publication of this paper last week.

The names of Judge C. H. Cain and W. S. (Skip) Taylor now appear on the list as candidates for mayor. Chris Adair is an announced candidate but his name has never yet been filed with city secretary or mayor.

S. E. Reid, whose name was published in the list of last week as a candidate for alderman, has notified us that his name was filed without his consent and has requested that his name be not printed on the ballot. His request will be complied with. But five other names have been filed as candidates for alderman, one of these, R. E. Key, with the city secretary, and Hansford Tunnell, Bordon Davis, D. W. Gaignat, and R. W. Fenton, Jr., with the mayor.

Since there does not appear to be any legal regulations or restrictions as to the procedure to be followed in placing names on the ballot for city offices, the News will decline to print any name on the ballot as a candidate for any office unless such name has been filed with the city secretary or mayor, and will print no name on the ballot, even though it has been properly filed, over the protest of the person involved. Unless some of the names appearing below are ordered off and unless other names are yet filed the official ballot for Tuesday's election will contain the following names:

For Mayor:  
JUDGE C. H. CAIN  
W. S. (SKIP) TAYLOR

**CHRIS ADAIR (If Filed)**

For Alderman:  
J. S. WELLS  
L. C. HANEY  
W. L. KNIGHT  
J. D. DONALDSON  
SID SANDERS  
R. E. KEY  
HANSFORD TUNNELL  
BORDEN DAVIS  
D. W. GAIGNAT  
R. W. FENTON, Jr.  
For City Marshal:  
M. C. (MILT) FINCH  
T. A. WIMBERLEY  
D. SANDERS

**FIRST GIRLS DEBATE TO BE HELD AT TECH SOON**

LUBBOCK, Texas, March 26.—The first girls' debate in the history of Texas Technological College will be held some time in April with the girls debating team of Simmons University according to Miss Anne Jo Hendleton, debate coach. Three other contests are scheduled before the close of the season: Howard Payne will come to Lubbock April 15 for the first annual varsity debate between the two schools; the freshmen team will go to Canyon to meet the West Texas State Teachers' College freshmen; and the final contest of the season will be with Baylor University at Waco.

Eastland is to have an exhibit at the Western State Exposition which is to be held in connection with the 75th anniversary of the California State Fair at Sacramento, Calif. An impressive display of western products and resources has been planned.

**LEGUME CROPS HELP INCREASE SOIL FERTILITY**

**TURNING UNDER GREEN MANURES ADVOCATED AS SOIL IMPROVEMENT PRACTICE.**

Green manuring is a practice growing in favor among Southern farmers. Farmers realize that this is an excellent method for increasing the fertility of their crop lands. However, the fact that this is a method of soil improvement and fertilization sometimes leads farmers to try the practice under conditions in which it cannot be successful.

The object in growing a green manure crop, according to forage crop specialists of the United States Department of Agriculture, is to produce especially on poor soil as much material as possible to turn under. On very poor soils it frequently happens that even the strongest feeders can make but a poor growth, and consequently the benefit from the crop is decreased.

Even cowpeas will sometimes make only a poor growth unless the plants are supplemented by commercial fertilizer. When a legume is grown the addition of nitrogen is not usually necessary, as the legume will gather its own nitrogen; but an application of phosphoric acid and potash often increases the crop greatly and thus enables the plants to gather more nitrogen.

**How Much to Use**  
The phosphoric acid and potash that may be applied for the benefit of the green manure crop are not wasted either, as they will all be available for the next crop when the green manure crop decays. The United States Department of Agriculture says that the fertilizer to use and how much will depend on the soil and on the crop, but generally 300 to 400 pounds of 16 per cent superphosphate and 100 pounds of muriate of potash per acre will be found to stimulate the growth of the green manure so as to produce a larger crop than could have been grown without the fertilizer.

The larger crop, if a legume, will

**Vegetables Need Good Land and Cultivation**

Whether the truck and vegetable grower has a back yard garden, a small market garden, or a commercial truck farm, there is need of good land, rich in organic matter, heavily fertilized, and carefully cultivated.

Earliness is important in truck and vegetable growing. Well drained sandy soils warm up early and for that reason are popular for truck farming. The organic matter may be secured from stable manure and from green manure crops plowed under. Organic matter, however, does not take the place of fertilizer and fertilizer does not take the place of organic matter. Both are needed, and the more organic matter the more fertilizer can be used profitably.

Proper fertilization is only one of the important factors in successful truck and vegetable production. Good seed, thorough preparation of land, careful cultivation, and control of insects and diseases play their part.

**Locals**

We call attention to the announcement in this paper of the opening of the new bakery by T. J. Bovell. Mr. Bovell certainly has a commodious attractive place of business and will no doubt do his part to furnish the people of Tahoka and Lynn County with the staff of life.

Sam Park announces that he will have his new produce open for business in the new Bovell building Saturday. Sam is a good business man and will no doubt do a thriving business.

Vernon Massingale a member of the boys' debating team of the Tahoka High School is reported to be quite sick and will probably not be able to participate in the county contest here Friday night.

Little G. C. Gaither, a pupil at Central Ward will be taken to Lubbock for treatment, we understand. His eyes are seriously affected and there is considerable apprehension as to their condition.

FOR RENT—Front bed room.—Mrs. W. S. Swan. 31-tfc

Mr. and Mrs. E. A. Tarter living six miles northwest of Tahoka are the parents of a fine little fellow who came into their home Tuesday afternoon.

Mr. and Mrs. Herbert Huff of Lynn were made happy Tuesday morning by the arrival of a fine little son. The Doctor says that all parties are doing well and that Herbert is doing exceedingly well.

STENOGRAPHER WANTED for short time. Apply to C. C. Williams, Secretary of the Chamber of Commerce. 31-tfc

Will Montgomery and family visited relatives at Tulla Saturday and Sunday. Will says he saw some fine wheat and some that was needing rain. The rain has since come.

Jack Reaves, now of Miles, is spending a few days here. Jack says that he and family expect to return to Tahoka as soon as school is out. They resided here several years and their many friends will be glad to see them back.

FOR RENT—100 acres good farming land 2 1/2 miles northeast of Tahoka, 200 acres of fine pasture. See Bill Zappe or Oliver Todd for information. 31-tfc

Elder W. A. Kercheville, who with B. B. Street recently embarked into the grocery business here, says he is gratified at the way in which his friends have made the business grow. There has been a wonderful increase in the volume of business done daily since the new firm took charge, he says, and he is thankful.

**GIVES INFORMATION AS TO CITY FINANCES**

Dr. J. R. Singleton, mayor, requested that we give the following information as to the City's finances, since there has been some comment concerning same. He says that on December 13, 1927, just prior to the sale of the electric light plant, the City indebtedness amounted to \$186,000 in round numbers. The indebtedness now is \$130,000 and there is some \$40,000.00 in the sinking fund, \$2,200 in the special electric light fund and some cash in the general fund.

The program of work of the Burk Burnett Chamber of Commerce, Rex Smith, secretary, during the year includes purchasing uniforms for the local band, improvements on roads leading into the town, repairs on the approach to the free bridge across Red River, cotton premiums, and reduction of county tax rate.

The Lynn County News can still be had for \$1.50 per year—52 issues. We are also still offering the combination of The News and the Dallas Semi-Weekly Farm News for only \$2.00

**THOSE WE LOVE**  
They say the world is round and, yet I often think it square,  
So many little hurts we get From corners here and there;

But there's one truth in life I've found  
While journeying East and West,  
The only folks we really wound Are those we love the best.

**NOTICE TO THE PUBLIC**

Any erroneous reflection upon the reputation or standing of any individual, firm or corporation, that may appear in the columns of the News, will be gladly corrected when called to our attention.

**DYNAMITE IN THE WIRTZ BILL**

It seems to be generally conceded that Governor Moody will veto the Wirtz 'Anti-Bolter' bill. He will probably have done so—or will have approved it—before this editorial appears in print. Without references to the consequences that would follow the approval of this bill so far as this editor is concerned, which is of no importance, we believe that Governor Moody would act wisely in vetoing it.

While we believe that every party should have the authority to regulate its own affairs and to prescribe the qualifications for membership in it, and while the Wirtz bill may be objectionable in principle yet its evident purpose is to enable one faction in the party to "punish" another faction. Its passage by the legislature and approval by the governor would not only delegate authority but would virtually amount to a mandate to the Democratic State Executive Committee to bar last years bolters from

**LADY'S SUFFERING**

She Writes That "A Friend Told Me To Take Cardui and I Know It Helped Me."

Greenville, Miss.—In describing how she suffered several years ago, Mrs. Mattie Dalton, of 213 Walnut Street, this city, recently wrote:

"I would cramp, and my hands and feet would draw, so I came near having convulsions. I would have to stay in bed a week, and when I would get up, I just dragged around, and did not feel like doing my work. I suffered a great deal with my back."

"A friend came to see me and saw how I suffered. She told me to try taking Cardui, which I did. I seemed to have more strength, after my first bottle. After I had taken about four bottles of Cardui, I saw a great improvement."

"I quit having such bad spells, and was stronger and better than in a long time. I gained in weight. I took a few more bottles of Cardui, and felt so well that I quit taking it."

"I certainly can recommend Cardui, for I know what it is to suffer, and I know that Cardui helped me."

Thousands of women have written to tell of the benefit Cardui has been to them, in helping them to build up their health.

Purely vegetable. Get a bottle today. All druggists. NC-206

participation in next year's primaries.

That this would result in prolonged and intense strife in this state the most obtuse should be able to see. In our opinion it would be disastrous to the Democratic party, which the bill is professedly designed to protect. It would drive a majority of the old-time, old-line, original "drys" out of the party. Not enough "drys" would be left in the party to control it. Those elements in the party represented by such leaders as Wirtz, Barry Miller, Joe Bailey and Jim Ferguson would be in absolute control and such "drys" as Morris Sheppard, Tom Connally, Dan Moody and Tom Blanton would have no more chance with that bunch than the proverbial snowball in the land of high temperatures. In our opinion, Jim Ferguson would again be in the saddle and riding a fast horse. Drive the "drys" out of the Democratic party and there is no man in Texas that can stand a chance with Jim Ferguson among the elements that are left. In any event there would be no chance for a "dry" like Governor Moody or Senator Sheppard or Senator Connally. Then it would be up to these boys to continue to constitute the tail of the Ferguson-Bailey-Wirtz kite or to jump the fence and find refuge among the despised "Hoovercrats".

But even if these dire consequences should not result, at least there would be confusion and consternation next year in local politics in two-thirds of the counties in Texas. Take our own county for instance. In the general election there were a little more than 700 votes for Al Smith and more than 1200 for Herbert Hoover. Suppose these 1200 should be barred from the Democratic primaries while the 700 were admitted. The boys who are now holding county offices as Democrats might decide that a renomination by the old party would be fatal to them. We imagine some of them would be completely "up in the air". This condition would prevail throughout West Texas and North Texas and in many counties in Central Texas and other parts of the state.

We can understand why such men as Wirtz and Barry Miller and Joe Bailey and Jim Ferguson should like to see the Wirtz bill become a law. We cannot understand how dry Democrats in the legislature like Witt of Waco and a few others could make up their minds to place in the hands of their life-long political enemies the

**Chris L. Adair**  
for  
**Mayor**

I will appreciate the vote and influence of every voter in the City of Tahoka in the coming election and if I am elected as your Mayor, I will give my best efforts to the office for a square administration.

Chris L. Adair

whip with which to drive these "drys" out of the party or to drive them into oblivion within it.

There is dynamite in the Wirtz bill and Governor Moody would do well to be aware.

It seems that troubles will never cease in Mexico. One faction scarcely gets control of the government until another arises and raises a rumpus. Many times we have thought that internal warfare was a thing of the past and that the country was at last entering upon an era of peace and prosperity when suddenly rebellion would break out again. But we believe that Mexico is slowly climbing upward toward the light. She may have a long way to go yet. When the time comes that fair elections can be assured, that the populace are capable of casting an intelligent ballot, and that the people are content to re-ly upon the ballot rather than the bullet to secure and maintain just government, then and not till then will this internal strife cease. We again repeat, as we have stated oftentimes before, that what Mexico most needs is more spelling books and more Bibles. With a little red school house and a neat little church in which people are allowed to worship God according to the dictates of their own conscience in every community, Mexico would rapidly emerge from the age of the dictator and the bandit. Americans undoubtedly have a wonderful opportunity and a corresponding duty to carry the light of education and the light of the gospel to this long suffering people.

At the time this is written Dan Moody has not yet determined whether there shall be three hundred thousand or good Democrats on the inside looking out or on the outside looking in—and our opinion is that most of them don't care a whoop personally what he decides about it. Many of them were good Democrats before Dan Moody came on the stage of action and many of them will be good Democrats after Dan Moody has gone the way of all flesh. But, we think Dan will decide that the boys may stay inside.

Rumor has it that R. S. Sterling, John Henry Kirby and Lynch Davidson all of Houston, and Barry Miller of Dallas, each think they can hear people calling them to make the ace for governor. Our observation is that a whispered suggestion that a man run for some high office sounds like the booming of a cannon acclaiming his praise in the ear of the would-be candidate. These are all very good citizens, perhaps, but we don't think any of them are so "nationally" popular.

As this is written it appears that spring is here. The buds are bursting, the birds are singing, the flappers are flapping with increased vigor and loveliness, and even the jelly beans are budding out afresh, but we have not received a single spring poem yet. A lot of poetic sweetness is possibly being wasted on the desert air somewhere but none of it has been wafted into the News office yet. We don't know whether the Democrats or the Republicans are to blame for this.

What Texas needs to curb the crime wave is not more severity but more celerity in meting out punishment. We are so constituted that we do not dread so much what may happen to us a year or two hence. It is what we believe is likely to befall us tomorrow that strikes fear into our hearts. Both our legislature and our courts should do their utmost to speed up the administration of justice.

Five murderers have been given the death penalty in Dallas courts during the past few months. A number of other death penalties have been assessed in various counties in the state. Thus the courts are still functioning pretty well in spite of the legal impediments that the law makers have placed in the way of the State.

**CHRIST TEACHES HUMILITY**

Matthew 18:1-6. At the same time came the disciples unto Jesus saying, Who is the greatest in the kingdom of heaven? 2. And Jesus called a little child unto him and set him in the midst of them. 3. And said, Verily I say unto you, Except ye be converted, and become as little children, ye shall not enter into the kingdom of heaven. 4. Whosoever therefore shall humble himself as this little child, the same is greatest in the kingdom of heaven. 5. And whoso receiveth one such little child in my name receiveth me. 6. But whoso shall offend one of these little ones which believe in me, it were better for him that a millstone were hanged about his neck, and that he were drowned in the depth of the sea.

PRAYER: Lord, put Thy Spirit within us and cause us to walk in Thy Statutes.

Robert Andrews, inmate of an insane asylum in London, has sued his wife for divorce.

**WHAT OTHERS THINK**

Since the road to Slaton and Tahoka has been opened down the track, we should be able to get State designation as a highway. At least we should make an effort to get it.

What should be done is to try to have highway No. 9 routed from Tahoka to Slaton via Wilson and intersect highway No. 7 14 miles of paving can be saved by so doing to say nothing of the expense that can be saved on the hauling of material for paving.

We don't know how our neighboring towns feel about this, but no harm will be done any of them by the change and two towns will be benefited. We believe that if the proposition is properly placed before the Highway Commission, and with the aid of Tahoka and Lubbock the change can be effected. If this can not be done then we should co-operate with Slaton in getting a State designation from Lorena to Tahoka, but we contend that the first plan should be tried first.—Wilson Point.

We have been observing that certain communities in several of the West Texas counties have organized dairying schools for the purpose of enthusing the farmers to carry on this industry along with their diversification method of farming. The instructor is the teacher of vocational agriculture. A recent survey in Erath county where these dairying schools are carried on, revealed that little community had 339 dairy cows, of which 238 are now fresh, with a production of 710 gallons per day. On the basis of this showing the farmers were able to convince a ice and cold storage company that a milk truck line would pay. Now the milk truck is picking up an average of twelve cans of whole milk per day, which makes an average of \$27 which is brought into the community daily. One of the members of the school reported that his feed bill for ten cows last year was \$57 and he cleared \$500. It was also brought out that the farmers were rapidly seeing the folly of raising cotton and were turning their attention to dairying and diversification.—Graham Leader.

The National Woman's Committee on Law Enforcement meeting in Washington, has passed resolutions pledging moral support, and calling on all women to decline to participate in social functions where the law will be broken. And that is right. Not only should they decline to participate in such social functions, but they, one and all should condemn such transgressions of the law with every atom of energy in their power. It is the indifference exhibited by supposedly law abiding men and women to infractions of the law that makes it possible for the roughneck element to set the law at defiance. If the good people of the world would let it be known that they would not tolerate some infractions of the law which are so common, we would have a far better world in which to live.—Higgins News.

**NEW LYNN CLUB REPORTS**

(Delayed)  
The New Lynn 4-H club met at the school house Tuesday afternoon, March 19, 1929.

Miss Greenwade met with us and helped us with our caps and aprons. We received one new member, Mary Frances Lester. We welcome her into our club and hope she will be one of the main members.

Everyone is present at the next meeting, which will be the first Tuesday in April.—Reporter.

**SOUTH WARD ITEMS**

(Delayed)

A surprise birthday dinner was given to Mr. Malcolm Smelser at the home of Mr. Wall.

South Ward played Edith in baseball last Friday afternoon. The boys of Edith won the game. Another game is to be held soon between these two teams at South Ward.

Mr. W. A. Hardt and his family have recently returned from a trip to Southeast Texas, where they visited their relatives.

Mr. Warren Lowrie of this community is visiting at Trinidad, Texas, at this time.

**FARM CRAP**

**Farm Wife**—From whom should I get my vegetable seed?

**Home Agent**—It is safest to purchase from a reliable seed house and give enough time and thought to the purchasing of the seed to be sure that the varieties selected are adapted to your locality.

**Farm Wife**—How much seed should I buy?

**Home Agent**—Buy enough seed to make several successive plantings of the short-lived vegetables such as bush beans, radishes, lettuce, English peas, etc. Get Extension Bulletin C. 7 "Gardening" and refer to the table on pages 8 and 9 for a list of varieties and the quantity to plant for a family of six.

**Farm Wife**—How do you get vegetables of the highest quality?

**Home Agent**—Vegetables of highest quality come from soil that has been deeply broken and thoroughly pulverized. Be sure to get the garden plowed in January so you can begin planting hardy vegetables in February.

**Farm Wife**—How much stable manure should be used to make the soil fertile enough to produce vegetables of highest quality?

**Farm Agent**—Four to six wagon loads of manure, and add 50 lbs. of acid phosphate to each load for a garden of 1/4 acre. Be sure to work the manure into the soil at the time of application.

**Farm Wife**—When should I plant my tomato seed to have early plants?

**Home Agent**—The seed should be planted in the hot bed or house box not later than January 2nd. One ounce of seed will produce enough plants to set an acre.

**Farm Wife**—How can I get information on the construction of a hot bed?

**Home Agent**—Write to the Mailing Room, Extension Service, College Station, Texas, for Farm and Home Hint, "Hot Beds and Cold Frames".

**Farm Wife**—How can I grow tomato plants without making a hot bed?

**Home Agent**—It is safest to have a hot bed in which to grow the plants, but they can be grown in shallow indoor boxes. Place stones or crushed rock in the bottom of the box and cover with 4 to 5 inches of fertile loam soil. Sow the seed 8 to 10 weeks before the plants are to be set in the garden. Keep the box outside as much as possible when the temperature is above 50 degrees. Do not water the plants too much. Transplant the plants to a cold frame or larger box.

when the first pair of true leaves has developed. Set plants 2x2 to give plants more room and prevent them from being "spindly."

**Farm Wife**—What is damping-off of plants in a hot bed?

**Home Agent**—Damping-off is a mold attacking the plants at the ground line, causing them to fall over and later die.

**Farm Wife**—How can it be controlled?

**Home Agent**—It is usually caused by giving the plants too much water and not enough sunlight. When plants show signs of damping-off, withhold watering for a few days, and give the plants as much sunshine as possible.

**Farm Wife**—Give me the names of several good varieties of tomatoes for Texas.

**Home Agent**—The Early Detroit is a good early variety. Gulf State Market, Earliana and Globe are early to mid-season varieties, and Marglobe comes along a little later. Marglobe is a new variety that is wilt resistant and gives promise of being one of the best.

**NORDYKE-LISEMBY**  
(Delayed)

Miss Fern Lisemby of Lubbock and T. R. Nordyke of Tahoka were married at the Lisemby home in Lubbock Friday afternoon, March 15.

The bride is the daughter of Mr. and Mrs. Frank Lisemby, who resided in the Redwine community until recently, when they removed to Lubbock. Miss Lisemby was a student in the Texas Technological College prior to her marriage, and is a most accomplished young woman.

Mr. Nordyke has been residing here the past four years and is engaged in the business of drilling wells. He is an excellent gentleman. The News joins hosts of friends in wishing this splendid couple the best that life can bring.

**AN ORDINANCE**  
Setting salaries for pending term and meeting night.

Be it ordained by the City Council of the City of Tahoka, Texas: First, that there be one regular meeting night of the City Council on the first Monday in each month.

Second, that the salaries of the mayor and aldermen be \$2.00 per diem, the per diem limited to two meetings each month, commencing May 1, 1929.

Third, all ordinances and provisions in conflict with this ordinance are hereby repealed.

That this ordinance be in effect after due passage and publication as required by law.

Witness my hand this 4th day of March, A. D. 1929.

**J. K. APPLEWHITE**  
Mayor of the City of Tahoka, Texas. Pro Tem.  
Attest: Mrs. J. B. WALKER, Secretary of the City of Tahoka, Texas.

**DRAW CLUB GIRLS MAKE VERY GOOD REPORT**

Draw Club girls met at the school house Wednesday, March 2. There were five members present. Miss Greenwade met with us and also Miss Murry, our district H. D. agent.

Three gardens have been broken; three girls have purchased all their seed, and one has set out onions. One hen has been set on sixteen eggs; eleven hatched.

There was a program rendered by the girls, "On the Care of Baby Chicks." One dress was completed, which the agents looked over very carefully.—Reporter.

**SICK STOMACH**

**First Trial of Black-Draught Convincing, Says Lady, Who Escaped Suffering By Taking It.**

Jackson, Miss.—"My first experience with Black-Draught convinced me that it was a good medicine," says Mrs. Ida Kern, 311 South Congress Street, this city, who says she has taken Black-Draught for years. "My trouble," writes Mrs. Kern, "was sick headache which seemed to be caused by constipation. I used to have a thick, slimy taste in my mouth, and such a tired, bad headache and sick stomach. I would have to stop my work and go to bed. "I read about Black-Draught and decided to try it. I found that by taking the Black-Draught in time, I could ward off these sick spells. "And so for the last twenty years, when I feel the least bit bad, I take Black-Draught and feel that it has saved me much pain and sickness." Constipation dams up poisons in the bowels, where they are absorbed into the general system, causing many serious symptoms. Thousands of letters of praise from users of Theford's Black-Draught, on file at the laboratories where Black-Draught is made, testify to the high esteem in which it is held for the relief of constipation and attendant ills. **STATEMENT OF THE OWNERSHIP, MANAGEMENT CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912.**

Of The Lynn County News published weekly at Tahoka, Texas, for April 1929.

STATE OF TEXAS, COUNTY OF LYNN.

Before me, a Notary Public, in and for the State and County aforesaid, personally appeared E. I. Hill, who, having been duly sworn according to law, deposes and says that he is the Owner and Publisher of the Lynn County News, and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, printed on the reverse of this form, to-wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: E. I. Hill, Tahoka, Texas.

2. That the owners are: E. I. Hill, Frank P. Hill, and E. I. Hill, Jr.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: Mergenthaler Linotype Co., Brooklyn, N. Y., Barnhart Brothers and Spindler, Dallas, Texas.

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain certain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of bona fide owners; and this affiant has no reason to believe that any other person association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

E. I. HILL Sworn to and subscribed before me this 25th day of March, 1929.

R. P. WEATHERS, Notary Public (My commission expires June 1, 1929)

Plainview is building up. The new Hilton Hotel will bring the skyline from four stories to eight. Montgomery Ward, J. C. Penny and other well known companies are building in the town, and permanent buildings are being erected for the Panhandle Plains Second Annual Dairy Show.

### Experiments Show Value of Fertilizer

Agricultural experiment stations are doing much to develop new facts that are passed on to the farmers. One of the important pieces of work being done has to do with proper amounts and kinds of fertilizer to use on various crops on various soils under different conditions. The picture shows an experiment conducted by the Pee Dee Experiment Station at Florence, S. C., and is typical of experiments being conducted in every State in the South. The cotton on the right received no fertilizer, while that on the left received an application of 800 pounds per acre of an 8-4-4, 8% phosphoric acid, 4% nitrogen, and 4% potash. The difference can be plainly seen.

### Gas Pocket In Water Well Explodes

Ed Sanders and Aubrey Redwine were the victims of a rather peculiar accident early Tuesday afternoon while drilling a water well on the Ed Redwine farm nine miles west of New Home. As a result, Mr. Sanders has his face and eyes laid up, repairs and Aubrey is still thanking his stars that only his hat was seriously damaged.

The drill had just penetrated a very hard rock formation and the bit had gotten hung at a depth of about sixty feet. In order to illuminate the hole so that they might look into it and determine just what was the trouble, they saturated a piece of cotton with gasoline, set it afire, and dropped it into the hole. Just before it reached the bottom and while the drillers were peering down into the hole, there was a terrific explosion. Rocks, dirt and slush were hurled out at the top of the well so quickly that the drillers were unable to get out of

the way. A rock and other material struck Mr. Sanders in the face, wounding it severely and almost destroying the sight of one of the eyes. Aubrey says that his hat was blown off his head and carried a distance of thirty feet.

The theory is that a pocket of inflammable gas had been struck in the well and when the ignited ball of cotton reached the gas stratum, only one result was possible, a terrific explosion. The presence of gas would indicate that there might be some oil in that locality, but we leave that up to the geologists and oil experts.

### T-BAR CLUB RENDER EXCELLENT PROGRAM

The T-Bar Club met at 3:30 P. M. The opening exercises were all carried out with song, pledge, and prayer. The roll was called by the secretary and the following answered present: Mrs. J. C. McCarley, Mrs. Joy Lindley, Mrs. Louis Henderson, Mrs. J. A. Beasley, Mrs. A. E. Leverett, Mr. R. L. Townsen, Mrs. John Moore, Mrs. Virgil Maye, Mrs. Calvin Dorman, Mrs. Ethel Vickery, Mrs. Anna Vickery, Mrs. Earl Davis and there was one new member.

The Club voted to buy the book, "Money's Worth" to be studied by the Club.

Mrs. Louis Henderson offered her resignation as Reporter. The Club accepted her resignation. Mrs. Joy Lindley was nominated and elected to the place.

The subject for the day was on School Lunches.

Leader, Mrs. R. E. Townsen.

1. Value of Fruit in the Child's Lunch—Mrs. J. B. Vickery.
2. Value of Vegetables in the School Lunch—Mrs. Beasley.
3. Variations in the preparation of Fruits and Vegetables for School Lunches—Mrs. Welch.
4. Milk in School Lunch and How to Prepare it—Mrs. Ethel Vickery.
5. Packing a School Lunch Box; the Correct Containers—Mrs. Maye.
6. Adjournment.

Reporter

### ROTARY RIG TO BE INSTALLED AT ASH SYNDICATE WELL

Work on the Ash Syndicate well four miles west of town has been suspended until a rotary rig can be installed according to information given out this week. The change from a standard to a rotary became necessary by reason of the character of the formations through which drilling is being done. The drillers have been handicapped so much by caving that progress has been slow. Much more rapid progress is expected when work is resumed with a rotary and it is said that this change will be effected within the next few days.

A company has been trying to block up a block of leases east and northeast of town, we understand, but they have been unsuccessful thus far on account of the refusal of two or three land owners to lease their property.

There are rumors that another test well will be started soon somewhere near the northwest corner of the county.

## SUGAR TARIFF BOOST URGED BY U. S. FARMERS

### Farm Bureau Federation Demands Adequate Protection for Domestic Sugar Industry.

CHICAGO.—Recent action of the American Farm Bureau Federation, representing 750,000 farmers, in adopting resolutions at its annual convention here urging congress to increase the tariff on foreign sugar and limit the duty-free entry of sugar from the Philippines and Porto Rico is seen as recognition that the present economic plight of the domestic sugar industry is also a factor in the farm relief problem.

S. H. Love.

"We urge that the situation regarding entry of sugar into the United States be brought to the attention of members of congress without delay," the resolutions set forth, "and we respectfully ask them to use their best efforts to place a limit on the free entry of sugar from the Philippines and Porto Rico to a point which will guarantee reasonable protection to the United States sugar industry; and that the tariff rate against all foreign sugar be increased so as to give adequate protection to this great American enterprise."

### Future of Crop at Stake.

"Future of sugar beets as a profitable American farm crop is at stake," said Stephen H. Love, president of the U. S. Beet Sugar Association. "More than 100,000 farmers in the United States raise sugar beets, from which they realize annually from \$50,000,000 to \$80,000,000, while the beet sugar industry covering eighteen states represents an investment in factories alone of over \$250,000,000."

"Interests of the farmers who raise the raw materials and the manufacturers who produce the finished product are identical. If the invasion of the United States market by foreign sugar produced by cheap labor under living conditions far below the American standard forces the price of domestic sugar below the cost of production, the American beet farmer and cane grower are faced with competition they cannot meet. Ninety-nine per cent of all the sugar imported into this country is supplied either duty-free from our insular possessions, or enters from Cuba, which enjoys a tariff rate 20 per cent below that paid by any other foreign country."

### Cuban Situation Menacing.

"The Cuban situation is becoming menacing to the domestic sugar industry. This year with a crop restricted to 4,000,000 tons, Cuban raw sugar is selling in New York at 2 cents a pound, or approximately 1 1/2 cents per pound less than it costs the American farmer to produce sugar in the beets even before the process of manufacture has begun."

"In 1929, Cuba will have no crop restriction and will produce at least a million more tons of sugar than in 1928. The only salvation for the domestic sugar industry is an increase in the tariff sufficient to keep Cuba from dumping this enormous increase on the American market at ruinous prices."

### DUTY-FREE SUGAR THREATENS RUIN TO U. S. MARKET

DENVER.—Expansion of the sugar industry in the Philippines at the expense of the beet sugar industry of the United States is the plan of Philippine leaders, who hope to erect a sugar producing empire in the islands rivaling that of Java, with 1,000,000 tons' production by 1935 and a potentially unlimited output in the future in spite of their present statements to the contrary, according to W. D. Lippitt of Denver, an official of the Great Western Sugar Company.

"Since the introduction of Congressman Timberlake's resolution proposing to limit the amount of Philippine sugar entering this country free of duty to 500,000 tons annually," said Mr. Lippitt, "Philippine leaders have declared that further expansion of their sugar industry is unlikely. Yet only four years ago a statement in the Central and Planter News, the official publication of the Philippine Sugar Planters' Association, predicted a crop of 1,000,000 and commenting on the unlimited possibilities of future exploitation declared, 'Another ten years of development will place us in a class with Java in so far as the production of sugar is concerned.'"

"Imports of duty-free sugar from the Philippines in recent years have shown the highest rate of increase of any source supplying the United States, while the domestic industry has suffered losses in the majority of sugar producing states. The problem is chiefly agricultural, due to the production of sugar in the islands under low oriental standards of living and wages, with which the American farmer cannot compete."

### COURSE IN TEACHING MEXICAN AND SPANISH CHILDREN TO BE OFFERED AT U. OF T.

AUSTIN, Texas, March 26.—Education of Mexican and Spanish speaking children is the subject of a course to be offered in the School of Education at the University of Texas during the next summer session. Conditions in Mexican education will be taken up and an attempt will be made to arrive at some conclusion regarding the value of different methods of administration and treatment of Mexican children in Texas communities. Dr. Manuel will base his lectures on the material he has gathered and is still gathering in his study of the Mexican education problem in Texas. The course is expected to be of particular interest to superintendents, principals and teachers in communities where there are Mexican children enrolled in the schools.

### SLATON LAWYER TURNS OUT TO BE AN AUTHOR

The News has received from the Meador Publishing Company of Boston announcement of the publication of a novel written by Hon. R. A. Baldwin, a lawyer, of Slaton.

The story entitled "Santi," pictures a cold-blooded "Intellectual" who is egotistic enough to believe that he can plan and execute the commission of a most heinous crime and then outwit the most astute detectives in their efforts to unravel the mystery. The story is represented to be a most gripping one.

Mr. Baldwin, the author, was representative from the district in the legislature for several terms and is a successful practitioner at the bar.

Louis Hoyt of Haverstraw, N. Y., reported to police that chicken thieves raided his hen coop and carried off 56 hens, passing up six young chickens, but left a note which

read, "fatten them up and we will be back later."

Two miles of gravel base of the Highway No. 7 have been laid near Sweetwater. Work has started on the Coke county line and the crews are working northward. A gravel base 11 inches deep has been rolled about 8 inches.

This is the way your car will look after we get through washing it. We'll really make you

## Most Business Men Know---

### That Persistent Advertising Makes New Customers and Keeps Old Ones Satisfied

- THAT failure to advertise kills many a profitable business.
- THAT advertising is essential to success.
- THAT to "ask 'em to buy" makes selling easier.
- THAT progressive dealers don't waste time trying to sell unadvertised, unasked for merchandise
- THAT the busiest, most helpful thing in any business is advertising.
- THAT a live business concern can't afford to mark time.
- THAT the only business that can afford to mark time is dead.
- THAT the ones who get the business are the ones who go after it in a vigorous way.
- THAT a going business should be a growing business
- THAT business men today are building their businesses on a basis of truthful advertising.

The Crosbyton High School band was here Saturday performing on the streets under the direction of their instructor. One of the teachers in the high school at Crosbyton gives instruction in band music as a part of his regular school work. In fact, a good many schools are now including this in the regular school curriculum. The young men who were over here Saturday rendered some good music.

L. P. Jeffreys, the gin man says that this rain hit him just right. He has 625 acres of land out in the New Moore community within three miles of his gin ready to plant. Furthermore he says that nearly all the land in that part of the county is ready for the planters, and he predicts that it will not be long now until planters will be running everywhere.

**MOTHERS**

Watch for symptoms of worms in children. These parasites are the great destroyers of child life. If you have reason to think your child has worms, act quickly. Give the little one a dose or two of White's Cream Vermifuge. Worms cannot exist where this time-tried and successful remedy is used. It drives out the worms and restores the rosy hue of health to baby cheeks. Price 35c. Sold by THOMAS BROS. DRUG CO.

W. J. Crouch dropped in Monday suggested that we sound a warning against permitting Johnson grass to go to seed upon and along the public roads and highways of the county. It is much easier to prevent the spread of Johnson grass than to eradicate it after it has once gotten well scattered, and Mr. Couch thinks that now is the time to act. He will probably have something further to say along this line in these columns soon.

Miss Lois Bliefus, teacher of Home Economics in the High School, Smith Lawson, and Misses Lowell Douthit and Myrtle Hill went to Southland Monday afternoon, where the latter two engaged in a practice debate with the girls team of the Southland High School. The Southland team was here last Friday afternoon for a like debate.

A number of articles and news items were crowded out last week, which we greatly regret. Some of them are found in the paper this week, but some of them were consigned to the great dumping ground of Ancient History. It is impossible to print all the news while it is news.

Mrs. Harley Henderson spent last week at Crosbyton helping nurse her brother, Grady Howard, who recently sustained a compound fracture of the bones of the leg in an automobile wreck. Mrs. Frank Hill is spending this week over there.

Everton Nevil recently purchased the small Curtis Crouch house on East North Second Street and moved it upon a lot which he owns in the northwest part of town.

Mrs. A. L. Standefer and children and Misses Helen Brasfield and Myrtle Hill spent Saturday and Sunday visiting in Slaton.

Scoutmaster Jess Eshanks states that as a community good turn, the local Boy Scouts are making a special study of fire fighting and fire prevention. They will co-operate with the fire department in helping put out fires, patrolling at fires, etc.

Horace (Skinny) Edwards, son of Mr. and Mrs. J. H. Edwards underwent an operation for appendicitis Sunday morning in a sanitarium at Lubbock. He is reported to have stood the ordeal well and to be improving rapidly.

Herman Turner is building a nice, five-room stucco residence near the Baptist Church just between the new residences of Larkin Weathers and Curtis Crouch.

Mr. and Mrs. T. M. Dobbins of Roscoe returned to their home Sunday morning after a few days visit here with their daughter, Mrs. Grover Stewart.

A. G. Freeman is building a new garage and expects to begin the construction of a new residence soon upon a lot in the southwest portion of town.

Miss Jeanette Caveness who is attending Simmons University spent the week end here with her parents, Prof. and Mrs. H. P. Caveness.

Mrs. A. D. Shook of Waco is here visiting her son, Charles F. Shook, and daughter, Mrs. S. D. Sanders, and their families.

**SECOND PLAINS DAIRY SHOW IS SET FOR APRIL 2-5**

PLAINVIEW, March 27.—The second annual Texas Panhandle-Plains Dairy Show will be staged in Plainview, April 2-5 in the new quarters that are being erected as a permanent home for the institution by that city. Indications are that the show will far exceed in volume and interest the first show of a year ago.

The new quarters giving a ground floor space of 25,000 feet, are composed of five different buildings joined together. Three barns for housing the entries, each 50 by 100 feet in size, project from three respective sides of the 75-foot square building. The building has a seating capacity of over 700 people around a commodious show ring which forms the center of the entire set of structures. Another building which contains the main entrance to the show, projects from the fourth side of the show ring building and is used for housing the commercial and dairy products exhibits. The buildings will cost approximately \$20,000, exclusive of the site, a 10-acre tract adjoining the Plainview municipal park.

**\$4,392.50 Offered in Prizes**  
Premiums totaling \$4,392.50 are being offered as follows: Jersey department, \$1,850; Holstein-Friesian, \$1,060; Guernsey, \$1,060; Grade cow, \$250; production contest, \$200; county herd, \$300; Dairy Calf Club, \$270; vocational agricultural students dairy cattle judging contest, \$115; Boys 4-H Club judging contest, \$115; and dairy products, \$172.50. The show is entirely free, entries being confined to members in the Texas Panhandle-Plains Dairy Show Association. The premium list is underwritten and paid by the business interests of Plainview through the Plainview Chamber of Commerce and Agriculture, augmented by premiums from Amarillo and other cities in the area.

Last year, 241 entries were received from the 54 counties comprising the Texas Panhandle area to which exhibits are limited. This year the indications are that this number will be exceeded. Four hundred animals can be housed in the space that is being provided. While Jerseys constitute the predominant breed in this area, superintendents of the other breed departments, who are in touch with the situation, declare that their departments will show a decided increase both in quality and in the number of entries this year.

Catalogs have been mailed to a list of over 3,000 dairy farmers of the Panhandle-Plains area, and numerous requests are coming in daily for them from people who are not on the list most of whom are residents of the Panhandle-Plains and interested in exhibiting.

**DRAW-REDWINE CLUB HAS AN ALL DAY MEETING**

(Delayed)  
The Draw-Redwine Women's Home Demonstration Club met in an all-day session at the home of Mrs. C. C. Jackson Wednesday, March 20. An elegant dinner was spread, in which each member took a part in preparing and furnishing.

Besides the district agent, Miss Murry, and the county agent, Miss Greenwade, eight members and six visitors were present. One new member was enrolled.

The entire afternoon was spent in demonstrations on renovating old furniture, rug making, selection of drap-

eries, and in suggestions on living room improvement in general.

The meeting adjourned to meet with Mrs. J. H. Cook on the next regular meeting day.—Reporter.

**South Ward Items**

Bro. Crume and Bro. Taylor White filled the place of Rev. B. N. Shepherd at South Ward last Sunday afternoon. Everyone enjoyed the visit and the services led by these gentlemen. We are to have Rev. W. A. Kercherville on the first Sunday of April.

We have an epidemic of measles in our school and neighborhood. We are unable to find out how it started. Laudell Hood, Scannie Cobb, W. T. McFadden, Mildred Weatherby, Dunelle Hood and Harvey Weatherby, all school children, have measles. Some others are sick and are suspected to have them but not sure. These are Pauline Smelser and Levi Finley. These cases of sickness are going to handicap the school in the coming interscholastic meet.

Mr. Malcolm Smelser and Mr. Greenwood went to Lubbock last Sunday.

Our school attendance has been lowered during the last week. This is probably due to sickness. We have fifty one pupils enrolled but the attendance does not measure up to that.

**THREE LAKES HOME DEMONSTRATION CLUB**

The Three Lakes Home Demonstration Club met with Mrs. J. C. Spears on March 22nd.

Seven old members were present, and four new members and one visitor were also present. Miss Greenwade, County Home Demonstration Agent, was present and gave demonstration on the Liveable Living room.

The following report of home work was given.

Baby Chickens	250
Eggs Setting	738
Eggs Sold	242 doz.
Butter sold	\$10
Cream sold	\$45.35
Turkeys on Hand	60

Club Reporter

Forty blocks of paving of alleys and down town, residential section streets will be started in Stamford beginning April 1. The contract was let for this several weeks ago. The work will be done of brick and concrete.

Contract has been let for a 40 bed sanitarium at Paducah to cost \$41,490. The structure will be three stories, of fire proof construction and will be equipped with every modern convenience. The building was made possible by the will of the late W. O. Richards, pioneer ranchman, who gave \$50,000 for the building and \$10,000 on an endowment.

**SIGNS YOU CAN BELIEVE**  
If your breath is bad and you have spells of swimming in the head, poor appetite, constipation and a general no-account feeling, it is a sign your liver is torpid. The one really dependable remedy for all disorders in the liver, stomach and bowels is Herbine. It acts powerfully on the liver, strengthens digestion, purifies the bowels and restores a fine feeling of energy, vim and cheerfulness. Price 60c. Sold by THOMAS BROS. DRUG CO.
