Volume XXV.

Tahoka, Lynn County, Texas, Thursday, May 2nd, 1929

Number 36

We invite you to locate in beautiful Tahoka. Good homes, good schools, good churches.

WAR TROPHIES AWARDED POST

High Record of Local Legionnaires Results in Awarding War Trophies to Tahoka

The following communication which is self-explanatory has been received by Emmett Fleming, Post Commander of the Marion G. Bradley Post of the American Legion:

"The Adjutant General of Texas advises our office that shipment is being made today by freight to your American Legion Post of a fine assortment of small arms captured German and Austrian War Trophies allotted your city an American Legion Post as a result of the fine showing your Post made in membership and other worthy Legion activities in the War Trophy Contest held last year.

"The Governor of Texas, his War Trophy Committee, and the Department Commander of last year, Walton D. Hood, joins with the present Commander, Rufus F. Scott, Jr., and his Headquarters Staff in complimenting your city on having a Legion Post that stood among the first sixty Posts in Texas in this contest.

"It is the desire of the Legion State officials that the general public be allowed full privilege of viewing these Trophies at all times. It must be understood they are not to be distributed to the individual membership of the Legion, but belong to the citizenship and are placed in the care of the American Legion for safe keeping. If your Legion Post has not a suitable Home, Club House, or quarters where they may be kept, it is suggested that they be placed in some suitable municipal or county building or school house until the Legion acquires a suitable place.

"We are asking the Post to see that the Trophies are properly cleaned up, and then to hold dedication services, open to the public.

"If your Legion membership and other activities are below those of last year that secured these Trophies, take full advantage of this opportunity to build your local organization into a permanent and helpful, real community asset.

By direction of the commander.
ROSS R. COLE, Adjutant.
ERNEST C. COX, Asst. Adj.

Tahoka C. of C. Visits at Morgan

The Good-Will party of the Tahoka Chamber of Commerce made a trip to Morgan community last Friday night where they were greeted with a filled house of about one hundred and fifty people of the Morgan community. It was a delight and pleasure to those attending the meeting from Tahoka to meet with these people on this friendly occasion. This was the third Good-Will meeting and was pronounced a great success by those attending it.

Morgan is one of the most progressive and wide awake communities in Lynn County as was evidenced by the wide interest which is manifested by the people of that community last Friday night. Morgan is about eight miles east of Wilson and they have a nice two-room brick school house. A fine community spirit exists in the community and they have a fine school under the direction of Mrs. Taylor.

The program Friday night, well received and enjoyed was presided over by Mr. L. H. Taylor, Principal. The program as rendered was as follows:

"America" sung by the audience.

A talk on the Lynn County Fair by Mr. G. H. Nelson and Mr. Taylor White.

Reading—Mrs. L. H. Taylor
Community Building—Judge G. C. Giddens.

Duet—Mr. and Mrs. Clyde Shaw of Morgan Community.

Chamber of Commerce and Its Work by G. C. Williams.

The Tahoka High School Quartette gave several selections with Mrs. Jackson, teacher of voice in the Tahoka High School at the piano. The quartette was made up of Robert Brown, Frank Sargent, Jim Jackson and Rowell Edwards. Other Tahoka people attending the meeting were G. W. Bradford, Tobe Kennedy, and Mrs. Taylor White.

Lynn County News and Semi-Weekly Farm News, 1 year, \$2.00.

Williams Is Elected Cross Plains Supt.

Prof Nat Williams, who has been principal of the Tahoka High school for the past three years, was notified early this week of his election to the superintendency of the public schools at Cross Plains. The scholastic population of the district is 640. Mr. Williams states, and the faculty is almost as large numerically as our own.

Mr. Williams has tendered his resignation to the board here to take effect at the close of the present school term and requests that he be released from his contract to remain here next year.

Mr. Williams has proven himself to be an excellent instructor as well as a capable and efficient disciplinarian and executive, and many patrons and the public generally will regret that he is to leave Tahoka.

SATURDAY SET FOR ELECTION

Four New Trustees To Be Elected To School Board Saturday; More Names Filed

As stated in these columns heretofore, four school trustees for the Tahoka Independent School District are to be elected Saturday. The election will be held in the court house and Judge J. W. Elliott will be manager of the election.

J. K. Applewhite and M. L. Handley, whose names were published last week as candidates, have withdrawn their names, while the name of W. B. Edwards has been filed since our issue last week. The ballot therefore will contain the following names, unless some of these are withdrawn, which is not expected, and it is possible that other names will yet be added. It is requested that no name be filed without the consent of the person concerned, for no man's name should be printed on any ballot without his knowledge and consent.

The names now on file with the secretary are: Judge B. P. Maddox, R. C. Wood, W. T. Clinton, J. A. Brashear, D. W. Gaignat, Claude Wells, and W. B. Edwards.

Presbyterians Are Holding Services

Revival services are in progress this week at the local Presbyterian Church, with Dr. Jack Lewis, pastor of the Presbyterian Church at Lubbock, doing the preaching. He is bringing some really wonderful messages, as all who are attending attest. In fact, he is without doubt doing some of the strongest preaching ever heard in Tahoka.

Song Services are being conducted by Rev. Mr. Barton, Presbyterian pastor at Clovis. He has a rich, deep voice and his work as director of the music is much enjoyed.

Dr. W. K. Johnston is present, of course, assisting in the services in every way possible.

The congregations thus far have not been large, due partly to so many other attractions in town, but larger crowds are expected during the remainder of the meeting, which will close Sunday night.

Local Tailor Shop Changes Hands

S. N. Weathers has sold his tailor shop to Messrs Clyde E. LeGear and L. A. Cherry formerly of Sanger, and the latter gentlemen have already taken charge. Both are experienced tailors, Mr. Cherry having been engaged in the business for seven years. They have already purchased additional equipment for the shop, including a modern cleaner, and say that they propose to make the shop one of the most complete on the south plains.

DRILLING ON ASH SNY-DICATE WELL IS RESUMED

Drilling was resumed today on the Ash Syndicate well five miles west of town, with a rotary rig, according to J. B. Nance. Drilling ceased several weeks ago to change from a standard to a rotary rig, since it was found difficult to drill with a standard rig on account of caving. With no mishaps, rapid progress should now be made on this well.

MRS. TREDWAY PASSES AWAY

Was Seventy-Three Years Old and A Pioneer of West Texas; Buried Here Saturday

Genuine grief was brought to many Tahoka hearts last Saturday morning as it became known that Mrs. Amanda Tredway, wife of A. M. Tredway had passed away during the night.

Mrs. Tredway had been critically ill for two or three weeks and the end was not unexpected but the grief of hosts of friends was very poignant just the same.

Funeral services were conducted at 3 o'clock Saturday afternoon at the Church of Christ, of which Mrs. Tredway had long been a faithful member, and the remains were laid to rest in the City Cemetery. Elder W. A. Kercheville, her pastor, conducted the funeral services, but Rev. B. N. Shepherd, the Baptist pastor here, who has been a close neighbor of the Tredway family for the past three years, also spoke at the funeral, paying a touching tribute to the virtues of the deceased as a companion and mother in the home, as a neighbor, and as a Christian character.

Mrs. Tredway, whose maiden name was Jones, was born February 7, 1856, in Murray County, Tennessee. She was married to A. M. Tredway in 1875, and the family removed to Texas in 1888. They removed to the plains in 1904, settling first in Borden County, and coming on to Tahoka in 1922, where they have made their home since. A husband and four sons survive, the sons being Ellis and Wm. Tredway of O'Donnell and Tom and Porter Tredway of Tahoka. She leaves also twelve grand children and the pall bearers at the funeral consisted of six grandsons.

A large concourse of relatives and friends attended the funeral services. Included among those from out of town were County Treasurer L. E. Pierce and wife of Gail, Postmaster W. S. Cathey of Gail, Roy Pierce of Big Spring, and a number of friends from Post.

A truly good woman has gone to her reward. The devoted husband and sons have the sincerest sympathy of hosts of friends.

THE MESSIAH TO BE PRESENTED AT TECH

"The Messiah" by Handel, will be given by singers of Lubbock, directed by Mrs. Carl Scorgin and accompanied by Mr. LeMaire's orchestra with Mrs. Neal at the piano. Sunday afternoon, May 5th, at the Tech Gymnasium at three o'clock. This is Lubbock's contribution to National Music Week and is sponsored by the Lubbock Music Club. Come and bring your friends. It is free to everyone. Do not fail to hear this masterpiece in sermon and music.

Church of Christ Meeting Closes

There were 38 additions to the Church of Christ as a result of the revival services held last week, according to Elder W. A. Kercheville. Twenty-six of these were by baptism. This was the greatest meeting in point of visible results the Church has ever had here.

The preaching was done by Elder Glen Wallace, a splendid young evangelist not yet out of school. He is a student in Abilene Christian College. Elder W. A. Kercheville is pastor of the local congregation and has been doing most effective work since becoming pastor here about a year ago.

SPLENDID CHAUAUQUA BUT POOR ATTENDANCE

The Chautauqua course which began here Saturday night came to a close Wednesday night, with the last program being given in the high building on account of the high winds which prevailed throughout the day.

The programs given by the Associated Chautauquas are said to have been excellent but the attendance was somewhat disappointing. Not only were other attractions in town but the weather was very disagreeable during most of the time, which doubtless interfered materially with the attendance.

DEATH TAKES A. A. LAWSON

Prominent Grassland Citizen Dies Suddenly From Heart Failure Early Friday Morning

Many friends in Tahoka and throughout Lynn County were greatly surprised and shocked last Friday morning when they learned that A. A. Lawson of Grassland had passed away during the early morning hours.

He had been sick for a few days but his condition was not considered serious. His heart had become affected, however, and it suddenly failed to function, death resulting instantly.

Funeral services were conducted at Grassland at 4 o'clock Friday afternoon followed by interment in the Grassland Cemetery. The services were conducted by Elder L. J. McCarty of the Primitive Baptist Church, Mr. Lawson having been a devoted member of this church for many years. A number of Tahoka people as well as many neighbors and friends attended the funeral.

Mr. Lawson was born on January 5, 1855, and was therefore a little more than 74 years old at the time of his death. He had always taken a lively interest in religion and politics, was a man of very positive character, and had decided views on most questions that arose during his lifetime for public consideration. Enthusiastic and even aggressive in maintaining his views, scrupulously honest, always well informed on public affairs, he wielded a greater influence upon his fellow men than does the ordinary man.

Many friends in Tahoka and throughout Lynn County deeply deplore his sudden death and sincerely sympathize with the grief-stricken widow and children.

NEW PLANT TO REPLACE OLD RED GIN

The old Red Gin is soon to be no more. It has fought a good fight but it has finished its course. It is to be replaced with a brand-new ginning outfit. The old building, to be sure, is to remain standing but the walls are to be covered with shining sheet iron, and a new engine and boiler house is to be constructed. All the old machinery is to be discarded and new machinery throughout is to be installed. "I propose to make it as good a gin plant as there is in West Texas," M. L. Handley stated to a representative of the News Wednesday. "Everything will be new and I will have every kind of machinery and equipment that can be used in a gin. It will be a 4-80 plant," he said.

The work of dismantling the old gin and removing the old machinery has already begun and installation of the new plant will be completed long before the next ginning season opens.

Kiwanians Hear High School Quartet

The Kiwanis Club was entertained at Luncheon Wednesday with a program of music. The South Plains Quartette of the Tahoka High School gave a couple of numbers accompanied by Mrs. Jack Jackson at the piano. Mrs. Jackson then favored the Club with a couple of piano solos, and Rev. Mr. Barton, who is leading the song services this week at the Presbyterian Church sang a solo.

Dr. Jack Lewis spoke most interestingly on Kiwanis work. Dr. A. W. Evans of the Tech faculty also spoke briefly. Dr. W. K. Johnson and a number of Lubbock gentlemen were present.

SEVENTH GRADE TEACHER RETURNS TO GRASSLAND

Miss Zuella Fox, who is teaching one section of the seventh grade in the high school building here this year, has been elected principal of the school at Grassland for next year, and we understand that she will accept the position.

Miss Fox was principal at Grassland two years before coming to Tahoka, and the trustees there this year offer her a salary to come back that she could not resist.

The Texas Syrup Crop, from sugar cane and sorghum, is valued at \$4,000,000 a year.

District Convention A Marked Success

Hamlin Trustees Inspect School

Superintendent C. G. Owen and the entire board of trustees of the Hamlin Independent School District visited Tahoka on Wednesday of last week for the purpose of making an inspection of the high school building here, since they are contemplating the construction of a building at Hamlin in the near future and had heard the Tahoka building highly commended. After a thorough inspection of our building, they expressed themselves as being highly pleased with it.

WORKING ON 3 NEW BUILDINGS

Construction Started on Gas Building; Tourist Park To Be Best On Plains

Construction work began Monday morning on the new building of the West Texas Gas Company to be used as a combination office and residence for the local manager, M. O. Bridges. It is to be built of tile and finished with stucco and will be a neat little structure.

Work is also progressing nicely on the new Knight building to be occupied by the City Bakery and by a filling station.

The new tourist park building under construction in the same part of town, just north of the St. Clair hotel, promises to be a handsome and commodious structure. It is to be equipped with running water, and when finished will be the finest and best tourist park building on the entire plains, it is claimed.

The construction of these three buildings at the north end of the business section all at the same time gives that portion of the city an air of much activity just now.

Popular Couple Married Recently

Harlan Cook and Miss Alice Dugan were married Sunday, April 21, at the Methodist Parsonage, Rev. T. Breedlove officiating. The marriage was known to only a few relatives and intimate friends for several days, and that accounts for the fact that there was no mention of it in our issue last week.

Mr. Cook is a brother of Mrs. D. H. Goodnough and is a splendid young business man. Mrs. Cook is a niece of Mrs. J. H. Edwards and is a most popular young lady. Both have resided here and attended school here for several years and have many friends who have been showering them with congratulations and good wishes.

They are residing temporarily with the Goodnough family.

DALLAS GOOD WILL PARTY VISITS TAHOKA

The Dallas Good Will Tour Party, said to have numbered about 125 business and professional men of Dallas, paid Tahoka a visit during the noon hour Monday. Many cars met the party at the Santa Fe station and conveyed the visitors to the business section of the town, whereupon they staged a parade over the principal business street than then assembled on the court house lawn for a brief program. Taylor White, President of the Tahoka Chamber of Commerce, extended a welcome to the visitors in a few well chosen words and one of their number, whose name we failed to get, responded. His address could be heard by only a few people, however, due to the noise being made by the children with whistles distributed promiscuously among them by members of the Dallas party. Quite a crowd of citizens and school children had assembled to greet the visitors. All seemed to thoroughly enjoy the brief sojourn of the Dallas gentlemen among us.

Texas produces more sheep and goats and more wool and mohair than any state in the union.

DECLARED BEST ONE EVER HELD

Large Delegations and Many Bands At C. of C. Convention Held In Tahoka

The Chamber of Commerce convention here on Wednesday of last week is now ancient history. The daily papers gave detailed accounts of the event a week ago. But there are a few details about the convention that we wish to record.

First, it was declared by all the leaders of the Chamber of Commerce work to have been the biggest and best convention ever held in West Texas. Homer D. Wade, manager of the West Texas Chamber of Commerce, B. M. Whiteaker, agricultural manager, Arthur P. Duggan, ex-president of the West Texas Chamber of Commerce, and many others united in expressions to this effect. Mr. Wade is quoted by the Lubbock Daily Journal to have stated that he had personally supervised forty district and annual conventions of this organization and that "the Tahoka convention was the best attended, the best planned and the best advertised of any in history." There were 827 registrations, which broke all past records. It is conservatively estimated that fully as many more were here who did not register.

This large attendance was due to several contributing causes. In the first place, Tahoka is nearer the center of the district than some other places where the convention has been held, notably Lamesa and Littlefield. In the second place, as Mr. Wade points out, the convention was well advertised. He took pains to give it much publicity himself. Then Mr. Williams, secretary of the Tahoka Chamber of Commerce, sent out many news stories to the various weekly papers in the district regarding the convention. And last, the correspondents of the daily papers sent frequent communications to these papers giving publicity to the convention. And we would not forget to acknowledge our gratitude to the newspapers, daily and weekly, for the generous space they devoted to the convention. Without the co-operation of the newspapers, it could not have been an outstanding success.

Miss Thelma Greenwald, home demonstration agent and the home demonstration club of the county are due much commendation for the manner in which they fed the vast throng. Their work was done in a fine way. And it was indeed fortunate that the old Connolly Motor Building happened to be vacant just at this time otherwise the city would have been "up against it" for a suitable place to hold so large a banquet. The city Tabernacle would have been the only alternative, and with the wind whirling as it was it would have been next to impossible to have so walled it up as to shut out the wind and the dust.

The speaking program was a good one, but that portion of the program was almost crowded out in the afternoon by other events on the program. Mr. Nelson's welcome address had been well prepared and was well delivered, and he did credit to himself and his home town. The response by Mr. Tainter of Crosbyton was brief but appropriate. The address of Judge J. D. Hamlin of Farwell on "This Great Country of Ours" was a restrained, thoughtful, conservative statement of the great resources and possibilities of the Plains Country. Hon. A. M. Bourland, President of the West Texas Chamber of Commerce, who declared himself to be a real "dirt farmer" proved to be an interesting and forceful speaker, and his message was well worth the consideration of every citizen of the South Plains. Hon. E. A. Baldwin of Slaton spoke eloquently on the "Romance and Inspiration of Achievement."

Arthur P. Duggan of Littlefield, former president of the W. T. C. C., presided at the morning session, and he cited briefly some of the accomplishments of this body in recent years.

Duo—Shooting Stars—Reta Lois Colleenback and Gertrude

Shepherd

- The Lady Across the Aisle—Hare
Myrrice Roberts
Valse Chromatique—Godard
Reta Lois Colleenback
Song—High School Quartet
Perpetual Motion—Weher
Mrs. Jack Jackson

TAHOEA DRUG STORE ROBBED WEDNESDAY NIGHT

Burglars effected an entrance into the Tahoea Drug Store during Wednesday night and stole quite a quantity of fountain pens, ladies' mesh bags and other articles of value, the aggregation of which is not known at this time.

The rear door was burst open by the use of a pinch bar or some similar instrument, the prints of the bag being plainly visible on the door Thursday morning. The thief evidently worked in the dark, for they first tore off a portion of a screen and then pried open a window only to find that entry through the window was barred by the presence of iron bars across it inside.

Automobile tracks were found near by Thursday morning while the tracks or boots or shoes could be seen at the rear door.

Officers have a clue which they are working on and it is hoped that the suspected parties may be apprehended some time soon, though it is believed that they were many miles away from Tahoea before dawn Thursday morning.

County court has been in session this week but we failed to get the proceedings in detail. Not many cases are being tried, however.

Best Flour, \$1.75 Sack; High Patent flour, \$1.60 sack.—Larkin House.

Borden Davis is spending a few weeks in Dallas on business.

CALL 240 for furnished rooms and apartments.—Larkin House.

SIX SOUTHERN COUNTY AGENTS WIN AWARDS

REWARDED FOR OUTSTANDING COUNTY SOIL IMPROVEMENT PROGRAMS.

Six Southern county agricultural agents who have put into effect and are continuing an outstanding soil improvement program and who were rewarded with a free trip to the annual meeting of the Association of Southern Agricultural Workers in Houston, Texas, have been named. These agents come from North Carolina, Alabama, Mississippi, Oklahoma and Arkansas, and are being awarded the trips by the Southern Division, Soil Improvement Committee, the National Fertilizer Association.

First place was awarded to H. K. Sanders, Roxboro, Person county, North Carolina. The other five places are listed alphabetically, as no rankings were made of these five: W. L. Hall, Conway, Faulkner county, Arkansas; H. C. Heath, Lafayette, Chambers county, Alabama; C. L. McNeil, Canton, Madison county, Mississippi; Earl W. Smith, Muskogee, Muskogee county, Oklahoma; and W. G. Yeager, Salisbury, Rowan county, N. C.

To Stimulate Interest

"These awards were made to stimulate interest in soil improvement programs, as recommended and approved by the various State experiment stations and agricultural extension services," according to J. C. Pridmore, director of the Soil Improvement Committee. "The six outstanding reports were selected by a committee of agricultural college workers in co-operation with the extension service of States who have charge of county agent work in the various States. Winners were selected on the basis of a uniform score card which took into consideration accomplished results in soil improvement in the county, methods of getting the programs into effect, and plans for future soil improvement efforts based on an analysis of the situation as it exists in the county."

The winning county agents were given an opportunity of attending the Southern Agricultural Workers meeting and also the agricultural extension workers' jubilee convention commencing the establishment of the first agricultural extension office in the country at Houston 25 years ago.

The awards include gold medal fobs presented by the Soil Improvement Committee as permanent trophies of accomplishment, along with certificates that may become the property of the county represented by the winning agent.

Members of the judging committee were O. S. Fisher, extension agronomist United States Department of Agriculture, Washington, D. C.; W. E. Mercier, director of extension, Louisiana State University, Baton Rouge; I. O. Schaub, dean of agriculture and director of extension in North Carolina State College, Raleigh; T. S. Bula, head of the department of agronomy, Clemson College, S. C.; and J. B. Ricks, director of the experiment station, A. and M. College, Mississippi.

LAMB COUNTY CLAIMS LARGEST WHEAT FIELD

Deaf Smith County isn't right sure about it, but it thinks it has the largest wheat field in Texas and possibly in the world.

The field is in the county northwest of Hereford and it contains 6,000 acres under one fence. It is leased to the Carter brothers of Plainview, well known wheat farmers and merchants. The present crop gives fine promise of a bumper yield, and its owners believe they will get about 200,000 bushels valued at about a quarter of a million dollars.

That's the way they do things in Texas, especially up in the Panhandle where there is plenty of room to turn tractors and combines around in.—Post Dispatch.

Rochester is laying claim to being the smallest town in the world with talking pictures. Greenwade, owner of the Rochester Theatre says that the newly installed machinery will make it possible to feature all the latest vitaphone pictures. All talking pictures will be shown the first three nights of the week.

Munday will keep several hundred dollars at home since the establishment of modern laundry there by Miss Jewell McKee of Knox City. The capacity of the plant will be increased as fast as the patronage justifies. The plant is equipped with several washing machines and a drying closet.

Hobbs, N. M., has organized a Chamber of Commerce with forty charter members, business men, merchants and others, including Alex Reeves, who wrote the WTCC for constitution and by-laws. A delegation was sent to the South Plains district meeting in which Hobbs is located.

Stephenville will start work on the paving of 70,000 square yards of brick pavement to begin soon. The contract went to the Thurber Brick Company whose price on concrete was \$2.01 for six inch thickness reinforced with 40 pound steel. The paving will amount to between six and ten miles.

Vernon, the home of President A. M. Bournland of the West Texas Chamber of Commerce has recently completed its own membership drive and turned in a hundred per cent increase in memberships in the regional organization.

Rowena, where the first building was erected in 1900, now has fifty religious, education, business and amusement establishments. The town has a first class telephone system, electric lights, natural gas, a live Chamber of Commerce, progressive citizens and prosperous merchants and business men.

The West Texas Chamber of Commerce will be represented at the Lometa Chamber of Commerce annual banquet to be held on May 16, by a staff member who will be seated at the Distinguished Guest table, according to Lucius M. Stephens.

Work has started on a white way lighting system for Tahoea's business section. By reducing the city water pumping rates approximately 30 per cent the white way will be practically no expense to the city. The West Texas Utilities Company will bear the expense of installation.

Grading and graveling is almost complete on the two mile stretch of road between the Electra-Archer paving and the Iowa Park road. The end road will give a direct outlet from Electra to the oil field and irrigated valley communities, shortening the route with an all-weather road.

Winters will hold an annual "Living at Home Fair" beginning with June 20, 21, and 22 of this year. Exhibits by communities and individuals, 4-H Clubs, Vocational agricultural judging contests, short courses and field day, a "Live at Home" Banquet and the opening of the airport will be featured.

Shipment of marble from the Jordan Marble mountain about 25 miles southwest of Alpine has begun. The new engines, of 80 and 120 horsepower capacity with new saws, polishing machinery and other equipment have been installed. The lack of an adequate supply of water which was a handicap has been overcome with a new well and a 100,000 gallon reservoir.

Construction has started on Hamlin's large lake, and the site for the big iron reservoir has been cleared. Digging of the ditch and laying of the main to town is under way. This lake will hold sufficient water to furnish a city of 25,000 people and supply Hamlin three years if necessary without rain.

Miami has three study clubs, "Home Progress," "Study Club," and Child's Study Club" which with the Lions Club and the Church Federation are expecting to put over many needed improvements in Miami this year. It is their desire to make Miami a town noted for its beauty and attractiveness, and for its moral and religious attitudes.

Sheriff Sam Sanford went to Rowena on business today.

SOUSA'S BAND TO BE HEARD OVER RADIO

John Philip Sousa and his world famous band will be heard over the radio for the first time on Monday evening, May 6th, in an hour broadcast, sponsored by Chevrolet Motor Company to signalize the achievement of placing on the road over a half million new six cylinder cars in four months time.

The radio debut of the famous "March King" will come through the National Broadcasting Company coast to coast chain during the regular General Motors "Family Hour" starting at 8:30 P. M.

According to H. M. Snowden, local Chevrolet dealer, Chevrolet was particularly fortunate in seeking an attraction to emphasize its latest record to secure the first radio per-

formance of this famous director-composer who has been an American institution for the past two decades.

"Naturally, we Chevrolet dealers are proud that our company has been instrumental in introducing Sousa and his band to the microphone, Mr. Snowden said. "We are equally proud, however, of the occasion marked by Sousa's first broadcast. By putting on the road over 500,000 new Chevrolet sixes since January 1, we have established a record never before duplicated by any dealer organization distributing six-cylinder automobiles. In fact no other dealer organization in the history of the six cylinder manufacture has ever equalled this record in the course of a full year.

The Lynn County News and Semi-Weekly Farm News, 1 year, \$2.00.

CARD OF THANKS

Through this medium we wish to express our sincere appreciation to our faithful, loving friends, neighbors, and the Doctors for their loyalty to us during the short illness and death of our loved husband and father, A. A. Lawson. We also are grateful to those who contributed the beautiful flowers.

May God bless and keep each of you.

PETTY

We had a very good crowd out at Sunday School last Sunday. We want to ask everybody to come and take a part.

Mr. Earl Gibson is visiting Burnett Smith this week. He was a college student at the same school with Burnett.

Quite a number of Petty folks attended church at New Home Sunday night.

Mr. Bill Kennedy of Lynn was a pleasant visitor at Petty Sunday.

The high winds have stopped most everybody from planting in this community. Some think that what they have already planted will be to plant over. The sand has done considerable damage to most of the gardens.

Mr. Brooks Smith's brother and family who have a ranch thirty miles south of Portales, N. M., are visiting at Petty this week. Mr. Smith reports it is dry and blowing in New Mexico, while stock are doing fine.

Our school is getting along fine. All the kiddies hate to see it near the end. We have two good teachers. Miss Ferguson is a favorite among the young folks and is a social leader while Mr. Humphries is a favorite among the big boys.—Reporter.

IT DRIVES OUT WORMS

The surest sign of worms in children is weakness, lack of interest in play, fretfulness, variable appetite, picking at the nose and sudden starting in sleep. When these symptoms appear it is time to give White's Cream Vermifuge. A few doses drives out the worms and puts the little one on the road to health again. White's Cream Vermifuge has a record of fifty years of successful use. Price 35c. Sold by

SOUTH WARD ITEMS

The attendance at Sunday School Sunday morning was excellent. There is an interesting contest to see who reads the most chapters in the Bible being held in Junior Girls class. Rev. W. A. Kercheville will preach Sunday afternoon at 3 o'clock. Let's be on time and hear his interesting and helpful message.

Lucille and Florene Wall spent Sunday with Lorene Lowrie of this community.

All of the school children and their parents are planning to have a splendid time at the picnic which is to be at Post, May 12th. This is to be an all-day affair and everyone will take lunch. We are anxious to have every child go and enjoy this get-together meeting.

Several persons enjoyed a singing at the home of Mr. and Mrs. J. C. Hood, Sunday night.

Mrs. Inman was honored with a surprise party and shower Saturday night, as this was her birthday. The hostess of this attractive event was the honoree's daughter, Mrs. Shearer of Tahoka. Mrs. Inman received many lovely and useful gifts.

Mrs. Warrick is now in Coleman County where she has sick relatives. Ima Jo Johnson has recovered from a very serious case of measles.

The program at the school Friday night was very successful. A debate proved to be the most interesting part of the program.

Mrs. Lee McFadden was a visitor at the school Monday afternoon.

Two music clubs have been organized at the school and meetings are held at 8:30 on Monday, Wednesday and Friday mornings. Laudell Hood was elected President of the advanced group and Lorene Lowrie is president of the other class.

Florene Wall, who has been seriously ill, has improved after a treatment from a specialist at Temple, Texas. Everyone has missed Florene from school and is anxious for her recovery.

There were eight pupils absent Friday and the group picture was therefore incomplete but all of those who were able to come were anxious for the photographer to arrive.

Lina Mae Greenwood is well again, after having the mumps and measles.

Mr. and Mrs. Buck Brewer and daughter visited relatives at Joe Bailey Sunday afternoon.

There are several children in the community who have had the measles but are not able to attend school on account of weak eyes. W. T. McFadden, Mildred and Birdie Hardt, Cecil and Willie B. Hammonds, and Ila Warrick have already been out for over a month.

Mr. Malcolm Smelser was sick during the past week.

Mr. and Mrs. J. C. Hood gave a "42" and bridge party Saturday night. Every one always has a good time at this type of social event.

Bula Beard was winner of the Story Telling Contest Friday night and she received a box of candy.

Miss Mamie Blackstock, teacher in a ranch district near Plains visited Mrs. Casey Sunday afternoon.

It is now time to sell the school pigs. These two pigs have been fed by the children and the money will be used for school ground equipment.

Mr. and Mrs. Hodge of this community went to Lubbock Friday.

There is one thing that everybody is agreeing upon and that is that we have had plenty of rain but we need the other kind to settle the dust.

Plant a berry patch.

COLDS, INDIGESTION

Tennessee Lady Tells About The Long Use of **Theford's Black-Draught** In Her Family.

Rutledge, Tenn.—"For thirty years or longer we have been using Black-Draught in our home as a family medicine, and have found it to be very handy," says Mrs. John McGinnis, of near here.

"Since I have been married and had children of my own, I have found it to be a fine medicine to give them for colds and indigestion. I have three little girls, and when I see one of them fretful and 'drowsy' in the morning, I begin treating her with a course of Black-Draught. It is not long until she is lively and well again. I make a tea of it and give it to the children, as they take it best that way.

"I take Black-Draught for constipation and indigestion. If I wake up with a bad taste in my mouth and feel sluggish and dull, I know it is time for a dose of Black-Draught.

"We try to keep a box of Black-Draught always in the house and are seldom without it. My health is generally good, but I think it is a good thing to keep a mild, dependable remedy on hand for spells of constipation."

In use nearly a hundred years. Twenty-five doses 25c. NC-265

Theford's BLACK-DRAUGHT For Constipation, Indigestion, Biliousness

NEEDED REFORMS IN OUR COURT PROCEDURE

Judge C. H. Jenkins of Brownwood, who was a member of one of our courts of civil appeals for many years and who is now a member of the legislature, recently sent the following communication to the Dallas News, and since it sets out some of the things that those who favor reform are advocating we pass it on to our readers for their consideration:

"The Hon. Charles J. Long, president of the American Bar Association in his annual address at Denver said: 'Procedure should be simplified in the United States as it has been in England. They had the same confusion and delay there. They reformed their procedure. We have not.' The reforms accomplished in the English and Canadian procedure have been highly commended by Judge Taft, Judge Hughes, Elihu Root, Dean Pound, Professor Sanderland and many other eminent members of the American bar. What are these reforms?

"Some of them are (1) abolishing appearance day as known to our practice and requiring parties to answer within a reasonable time after service, thus avoiding continuance until next term of court which is in most cases six months. (2) Disposal of dilatory pleas before the case is called for trial on its merits, thus avoiding much expense for jurors. (3) Abolishing the general denial and requiring that the pleadings shall show the facts that are to be tried, thus avoiding the delay and expense of proving facts which are not in dispute. (4) Testing the qualifications of jurors to serve in any particular case by the court only, thus avoiding unnecessary delay in obtaining a jury. (A distinguished Canadian Judge has stated that the average time for obtaining a jury in Canada in civil cases is thirty minutes and in capital cases never more than three hours; in this country the time for securing a jury in civil cases is two hours and in capital cases the average is said to be three days.) (5) Permitting the Judge to present to the jury an analysis of testimony thus helping them to analyze and apply the evidence. (6) Abolition of the archaic practice of bills of exceptions to be wrangled over by the attorneys and the court and substituting therefor the objections to proceedings as shown by the notes of the

official stenographer.

"All of these reforms, as well as others that are needed in Texas, can be secured by the adoption of a few simple statutes, as doubtless they will be in the near future. We can not afford to continue an outworn, expensive and vexatious system which originated in the dark ages and which has been discarded by all other civilized people.

C. H. JENKINS"

Between 1920 and 1925, 75,000 new farms were brought into cultivation in the United States. Thirty thousand of them were in Texas.

LIKE NEW MAN, GORDON SAYS

"Words cannot express the good I derived from Sargon," recently declared B. H. Gordon, Southwestern Representative of Dodd Mead & Co., one of the largest school book publishing houses in America.

B. H. GORDON

"I was in a terrible run-down condition and suffered constantly from stomach trouble. My kidneys gave me so much trouble I had to get up eight or ten times every night. I was under weight and had so little strength I could attend to no business at all that required physical exertion. Treatments and medicine consistently failed to help me.

"I talked with several people who had taken Sargon. They were so enthusiastic over the medicine I decided to try it. I was greatly surprised by the actual results. I am like a new person. I am no longer troubled with my kidneys, and I sleep like a child. I relish my meals and everything agrees with me. I have gained ten pounds and attend to my every duty now without tiring.

"Sargon is wonderful and I would tell everybody in the world about it if I could."

Mr. Gordon maintains offices in the Gunter Bldg., San Antonio. He is one of the foremost authorities on educational matters in the Southwest.

Sargon may be obtained in Tahoka at Thomas Bros. Drug Co. and in Odessa at the Corner Drug Store.

SLAT'S DIARY

Friday—I got a mitey poor grade in spelling today. The teacher sed she never seen eny buddy witch cud spell the way I spelt them.

Saturday—Well his Saturday evening was spoilt pretty bad by a cuple parence which happened to belong to me. Wen pa cum home this evening I herd him say to ma. How cum you give me that dirty look when I steps in the house. And ma replied and sed. I didden give you not dirty look, you hev had that dirty look ever since you got up this morning. We was a going to the pitcher show. We didden go to the pitcher show. Just

Sunday—Pa and me got confiden-shal today and I ast him did her ever no enny man witch cud get the last word in when him and his wife had a Argument and pa sed. Yes, he new of I man like that and I sed who was it and he told me it was a fellow witch married a woman witch was deaf and dumb. Ma wassent let in on this conversation. Looked risky.

Monday—A tramp cum to are door this morning when Ant Emmy goes to the door he ast her, he sed. Lady will you give me a dime for a sandwich and Ant Emmy sed to the tramp. I don't care for no sandwich. I just had my Brekfast. I don't beleave they under stood each another. A speshully Ant Emmy.

Tuesday—I was walking home with Jane this evening and she sed to me. Did you ever taste lip stick and I answered in reply and sed. No but I have wanted to every time I look at you honey. Then she opened her vanity Case and handed me her lip stick and sed to me Well go ahead and take a good bite of this one. I gess she is kinda dumb becuz that aint what I ment a tall. Nor nothing like it.

Wednesday—We just got a letter from a cuzzen of pa witch is rich and he says he just fell air to ten 1000 \$ more. It kinda made pa feel blue for the rest of the evening. He sed uther people seems to have all the luck. Having ritch relatives slye. The ony thing he ever got without wishing for it was the measles.

Thursday—As we started for a ride this evening Ant Emmy was the last one to get in to the masheen and pa sed to her. Emmy look and see how much gas we got and she looked and then she sed. Well the blamed thing points to 1/4 but I can't tell whether it is 1/4 empty or 1/4 full. Pa and me just smiled in our sleeves figerately speaking.

Friday—I was just about down in bed and so weak I was past going. writes Mrs. Jennie Goodman, of 718 Portsmouth Avenue, this city. Mrs. Goodman says her family was very uneasy about her condition, as she seemed so weak and thin.

Before I had taken Cardui a week, I was feeling much better. I continued taking it for awhile, as my health kept on improving. I gained in weight, and soon was feeling like a new person. Since then I have taken Cardui several times, and it has always done me good. I can recommend it to others.

Cardui has been in use so long that its merit has been proved by the experience of several generations of women.

A purely vegetable, medicinal tonic. For sale by all druggists. MC-204

Take CARDUI

Locals

Leta Frances, the little six-year old daughter of Mr. and Mrs. N. M. Wyatt, underwent an operation for appendicitis at a sanitarium in Lubbock on Tuesday of last week.

Frank Keltner has accepted a position with J. C. Penny & Co., at Portales, N. M. Mr. Keltner is a splendid young business man and his friends here regret that he is leaving Tahoka.

A. P. Ort brought to the News office Saturday a sample of some of the vegetables he has already grown in his garden. We hope he visits this office often.

Little Hazel Jean, weight 9 pounds, arrived in the home of Mr. and Mrs. R. F. Barton last Saturday morning. Mother and babe are doing nicely and dad is happy.

Mrs. D. W. Gagnat wired to her husband from Temple Tuesday that

her brother, Sanford McCormack, who is in the Scott & White Sanitarium there, was much improved. He went down to that institution early last week for a physical examination and it was disclosed that he was suffering from meningitis, and he has been receiving treatment since. Mrs. Gagnat has been at his bedside several days.

E. H. Johnson of Plainview, son of Mrs. Ollie Johnson of this city, is having a brick veneer residence of five rooms constructed on a lot just north of the Brownfield highway near the high school building. We have not learned who will occupy it.

Lockett Cherry, one of the new proprietors of the Weathers tailor shop, fell and broke a bone in one of his hands a few days ago, and the member is out of commission for the present.

S. S. Howard of Plainview visited his son, E. L. Howard, and family here Wednesday.

John Brewer of Durham, Oklahoma, visited his brother, G. T. Brewer, here last week.

Regular meeting of Tahoka Chapter No. 743 O. E. S. Friday night, May 3rd. Election of new officers. All members urged to be present promptly at 7 o'clock.

IVA TURRENTINE, W. M. LORETA STORY, Sec'y.

NOTICE

Our offer to furnish labor and materials and make the connection of your cess pool or septic tank to the Tahoka Sewerage System will be withdrawn May 10th.

Those desiring to take advantage of the above offer must file their request for connection with Mr. M. J. Finch before that date.

SOUTHERN SEWER COMPANY 36-1tc

NOTICE, LEGION BOYS

There will be a meeting of the Marion G. Bradley Post of the American Legion at the Legion Hall on Thursday night, May 9th, to consider important matters. All members are urged to be present.

No Conflict

No conflict exists between the idea that a large surplus of any farm product such as cotton is not desirable to the producer and the idea of larger yields per acre.

At first thought those who are urging larger yields per acre would appear to be encouraging the farmer in the direction of a greater total production and even larger surplus. However, the agricultural leaders who are advocating higher yields per acre are doing so with the thought not of increasing total production but with the thought that by increasing yields the cotton that is produced can be made at a low cost per pound.

Many times a fair-sized crop has a larger total value than a large crop as illustrated by the cotton crops of 1926 and 1927. All who are interested in improving the farming situation hope to avoid large surpluses so that there will be less tendency to force the farmer to take a low price for his cotton.

Yields Affect Cost

But it has been clearly shown by the United States Department of Agriculture that farmers with only low yields of cotton per acre have such high costs for producing cotton that they cannot make a profit even when their prices prevail. Surveys of thousands of farms conducted by the United States Department of Agriculture to determine the cost of producing cotton have shown that on farms with high yields per acre, cotton is produced at a low cost per pound, while on farms with low yields the cost is high.

The survey in 1926 showed that on the farms where about one-quarter bale per acre was produced the cost 20 cents per pound, while on the farms where almost a bale per acre was produced the cost of a pound of lint was only 9 cents. The importance of increasing yield per acre in order to lower cost of production is seen, for profit is the difference between the selling price of the product and what it costs. Commercial fertilizers afford a profitable means of producing high acre yields.

By making larger yields per acre on a fewer number of acres, cotton can be produced at a low cost per pound and land and labor will be released for use in growing feed. The production of more home-grown feed will, in turn, tend to make still cheaper cotton production possible and will help to furnish the feed that is vital for the growing dairy industry.

CORN SHORTAGE DUE TO LOW ACREAGE YIELD

In spite of the fact that with the exception of cotton the South plants more acres to corn than all other crops combined, corn is shipped into the South for feed. The shortage of corn is due largely to the low average acre yield.

The average yield of corn in the Southern States is only 17 bushels per acre. This low acre yield not only results in insufficient feed, but also in high cost of production per bushel. Cost studies made on a large number of farms by the United States Department of Agriculture have indicated that where a yield of 17 bushels per acre was obtained, the corn cost more than one dollar per bushel, while on farms where a yield of 41 bushels per acre was secured the cost was only 66 cents per bushel.

Proper fertilization is one of the means for increasing yield per acre and lowering cost per bushel. Experiments all over the South and experience of farmers as well have shown that money wisely spent for plant food to be used under corn will produce much more corn than it would buy.

Under usual conditions a complete fertilizer gives best results with corn. A fertilizer such as 10-4-4 or one which has given satisfactory results

FOR WORKING PEOPLE

The best of workers get out of work on the liver fails to act. They feel tired, half-sick, "blue" and discouraged. Think they are getting laxy. Neglect these symptoms might result in a sick therefore the sensible course is to take a dose or two of Herbin. It is just medicine needed to purify the system, restore the vim and animation of the liver.

Wants Every Body to Know About the Good Orgatone Has Done Him—Gains Daily

"I was determined to try Orgatone after hearing and reading about the good results it was accomplishing so I bought a bottle and began taking it and the results, are, I have gained in health and feel better than I have in four years." This is what C. J. Spraggnor, residing on Rural Route 2, Plainview, Texas said.

"I have suffered from indigestion and stomach trouble until it just seemed as if nothing was ever going to help me at all. In fact, I hardly knew what it was to have a well day in four years until Orgatone straightened me out. I had gotten to where I couldn't eat anything without suffering from it. After every meal gas would form and bother me for hours afterwards and cause me all sorts of trouble.

Plainview Farmer Hardly Had Well Day in Four Years

"I was determined to try Orgatone after hearing and reading about the good results it was accomplishing so I bought a bottle and began taking it and the results, are, I have gained in health and feel better than I have in four years." This is what C. J. Spraggnor, residing on Rural Route 2, Plainview, Texas said.

"I have suffered from indigestion and stomach trouble until it just seemed as if nothing was ever going to help me at all. In fact, I hardly knew what it was to have a well day in four years until Orgatone straightened me out. I had gotten to where I couldn't eat anything without suffering from it. After every meal gas would form and bother me for hours afterwards and cause me all sorts of trouble.

"I was in a very bad run down condition and had practically no appetite at all and what I did eat would sometimes turn as sour as vinegar on my stomach. No one but those who are troubled with indigestion knows how I did suffer, and although I had tried every thing I knew of nothing seemed to reach my case or do me any good.

"I kept on going down hill and the day I started on Orgatone I was suffering from the same old troubles. I started to feel better in a few days after I began taking Orgatone and have gradually picked up ever since. I now feel like my old self once more and have not only gained in strength but can eat anything I want and as much as I want without it bothering me in the least. My constipation is broken up. I sleep like a dog and simply feel like a different man."

Genuine Orgatone may be obtained in Tahoka, Texas, at Thomas Bros. Drug Co.

EDUCATIONAL PREP

GROWING REQUIREMENTS
SUCCESS IN BUSINESS

Death-Knell Sounded for Old Methods by Advancing Finance, Trade and Industry Are Developing a Profits Generation of Youth

By HAROLD S. American Bankers

THE great school of Experience America, but the scientific methods which have largely been training laborer no longer run a try methods of experience was it would be any pre-eminent industrial organization today but what is schooled in the specific field, with its standards of with their reliance as the only hope of struggle for the despatched method

As a result the techniques finance are virtually essential to a field, as it is already an absolute recognized professions. This is no native ability and experience in business, but education after all is merely a means for helping the individual to apply the net good of the accumulated experience of many to his own day's work—a means for helping special native ability to come into its own more rapidly and surely and for enabling all classes of ability to gain the maximum of success to which they are entitled.

These facts are plainly recognized by practical, work-a-day business in every line. Every progressive business organization in America is emphasizing the importance of education as never before. Education has come to be looked upon as the answer to many of the problems within the organization as well as to problems affecting industry as a whole.

Business Organizing Institutes Institutes for developing specifically qualified workers are being operated or organized in many fields of commercial and industrial activity. These institutes are trying various types of educational work with a distinct trend toward more and more emphasis upon education for the rank and file of business employees of all grades.

We have been having business failures in this country at the rate of about 2,000 a month. This score speaks for itself. It is glaring evidence of incompetence on the part of thousands of business men in handling the problems inherent in their fields of endeavor. The detailed records show that practically 75% of business failures in this country is due to lack of training and competence on the part of those who failed. This is conclusive evidence that no one can afford to undertake executive business responsibilities without adequate education and training. It is for that reason that every enlightened business organization is today investing as never before that its employees take advantage of some type of technical training.

American banking is fortunate and has just cause for pride in that it has a record of twenty-eight years of steadily organized educational activity among its workers to its credit for developing trained bankers. People in banks in large numbers are taking advantage of the educational opportunity given by the great non-commercial college of the banking business, the American Institute of Banking. They see on every hand evidence of the value of the training it gives. Of the 35,000 graduates of this institute, 70% were occupy official positions in American banks. The other 30% are still in young to have attained such heights. Here is an example and an encouragement to the people of all times of business.

The American Institute of Banking has a membership of 64,326. Of these 22,251 are class enrolments, comprising younger bank people, both men and women, who are learning the scientific techniques of their chosen business at the same time they are engaged in the practical work of earning their livings at it. The difference between the 22,251 enrolled in classes and the 42,075 total membership comprises older bankers who have taken the institute courses in the past or are at the present time sponsoring some type of educational work in "the organization."

Banking Educates Its People It has been estimated that there are probably 375,000 bank officers and employees in the United States at the present time. These figures would mean that about one banker in every six is either enrolled in institute courses in banking or is actively sponsoring some educational function of the organization. No statement could possibly give more emphasis to the importance placed on education by the banking interests of America than these facts.

EDUCATIONAL PREPARATION A GROWING REQUIREMENT FOR SUCCESS IN MODERN BUSINESS

Death-Knell Sounded for Guesswork and Slipshod Methods by Advancing Technical Proficiency in Finance, Trade and Industry—How Banks Are Developing a Professionally Qualified Generation of Younger Bankers.

By HAROLD STONIER
American Bankers Association

THE great school of Experience is still holding classes in America, but the scientific spirit of the age has so generally invaded the workshops of industry and trade that they have largely become technical research and training laboratories in themselves and are no longer run on the old-fashioned cut-and-try methods of former generations when Experience was considered the only teacher. It would be hard to find a working force in any pre-eminent successful business or industrial organization in the United States today but what the dominating leadership is schooled in the scientific principles of its specific field, whether manufacturing, merchandising or finance. The rapidly advancing standards of business in this country, with their relentless demands for efficiency as the only hope for survival in the competitive struggle for economic existence, has sounded the death-knell for guesswork and slipshod methods.

HAROLD STONIER.

As a result, educational preparation in the techniques of commerce, industry and finance are virtually essential to outstanding success in these fields, as it is already an absolute prerequisite in the various recognized professions. This is not to depreciate the value of

native ability and experience in business, but education after all is merely a means for helping the individual to apply the net good of the accumulated experience of many to his own day's work—a means for helping special native ability to come into its own more rapidly and surely and for enabling all classes of ability to gain the maximum of success to which they are entitled.

These facts are plainly recognized by practical work-a-day business in every line. Every progressive business organization in America is emphasizing the importance of education as never before. Education has come to be looked upon as the answer to many of the problems within the organization as well as to problems affecting industry as a whole.

Business Organizing Institutes
Institutes for developing specifically qualified workers are being operated or organized in many fields of commercial and industrial activity. These institutes are trying various types of educational work with a distinct trend toward more and more emphasis upon education for the rank and file of business employees of all grades.

We have been having business failures in this country at the rate of about 2,000 a month. This score speaks for itself. It is glaring evidence of incompetence on the part of thousands of business men in handling the problems inherent in their fields of endeavor. The detailed records show that practically 75% of business failures in this country is due to lack of training and competence on the part of those who failed. This is conclusive evidence that no one can afford to undertake executive business responsibilities without adequate education and training. It is for that reason that every enlightened business organization is today insisting as never before that its employees take advantage of some type of technical training.

American banking is fortunate and has just cause for pride in that it has a record of twenty-eight years of definitely organized educational activity among its workers to its credit for developing trained bankers. People in banks in large numbers are taking advantage of the educational opportunity given by the great non-commercial college of the banking business, the American Institute of Banking. They see on every hand evidences of the value of the training it gives. Of the 10,000 graduates of this institute, 70% now occupy official positions in American banks. The other 30% are still too young to have attained such heights. Here is an example and an encouragement to the people of all these businesses.

The American Institute of Banking has a membership of 64,330. Of these 24,851 are class enrollees, comprising younger bank people, both men and women, who are learning the scientific technique of their chosen business at the same time they are engaged in the practical work of earning their livings at it. The difference between the 24,851 enrolled in classes and the 64,330 total membership comprises older bankers who have taken the institute courses in the past or are at the present time sponsoring some type of educational work in the organization.

Banking Educates Its People
It has been estimated that there are probably 275,000 bank officers and employees in the United States at the present time. These figures would mean that about one banker in every six is either enrolled in institute courses in banking or is actively sponsoring some educational function of the organization. No statement could possibly give more emphasis to the importance placed on education by the banking interests of America than these facts.

LAMESA IS TO HAVE TALKING PICTURES

LAMESA, May 1.—Lamesa is to have a Vitaphone and talking pictures. According to Audrey Cox, picture show owner and operator here, no expense is going to be left undone to place in Lamesa the very best Vitaphone and talking picture equipment. According to Cox, the equipment will be such that both Vitaphone and talking pictures can be used on the machine that will be installed, beginning about May 6th. It is hoped, according to Cox, to be ready to show the first talkies for Lamesa near the 12th of May. There is some talk of operating the Vitaphone and talking pictures on Sunday afternoon to satisfy a public demand for such programs here.

GOOD ATTENDANCE AT NEW LYNN CLUB

The New Lynn Women's Home Demonstration Club met with Mrs. H. A. Winkler April 16. The meeting was very much enjoyed. Eleven members and four visitors were present. The next meeting will be with Mrs. J. H. McCarty on May 7th.—Reporter.

George Hogan, Jr., is constructing a six-room frame residence on West North Second street. It will be modern in arrangement and attractive in appearance, when completed.

MRS. BURLISON ENTERTAINS WITH BRIDGE

Mrs. Bill Burlison entertained the Sans Souci Club Thursday afternoon in her home on Sweet Street. Five Tables of bridge players enjoyed the afternoon. Mrs. Elbert Boullion won high score. The hostess served dainty refreshments to the following members: Mesdames T. Lemond, E. E. Callaway, W. B. Slaton, L. E. Turrentine, Frank Hill, Marshall Swan, Robert H. King, B. H. Robinson, Jack Alley, A. D. Sanders, Jr., and Elbert Boullion. The guest list included: Mesdames Lum Haney, Harley Henderson, C. C. Williams, Powell, C. B. Townes, Oscar Roberts, Laney Moreland and Skip Taylor.

REVIVAL SERVICES AT THE CITY TABERNACLE

There is an old time revival meeting now going on at the City Tabernacle by the Rev. R. M. Thomas Evangelistic Party. The meeting has been well attended so far, and the slogan of the Evangelist is "Jesus Christ the same yesterday, today and forever."

The subject Saturday night, May 4, will be Divine Healing, after which the sick will be prayed for. The public cordially invited to attend these meetings, so come and bring your sick friends. Also services each evening at 8 o'clock.—Contributed.

NEW HOME DEMONSTRATION CLUB MEETS ON APRIL 23RD

The New Home Demonstration Club met on April 23, with Mrs. Acie Bailey. Individual members brought chicken and canned beans and peas which was to be sent to Tahoka to help serve the visitors during the South Plains Chamber of Commerce convention. After attending to business a very interesting program on facts about Lynn County was rendered.

Light refreshments were served to the following: Mesdames J. B. Lowe, J. P. Unfred, L. V. Starnes, Loyd McCormack, W. W. Balch, J. R. F. Ratliff, J. B. Sutton, G. N. McWhorter and A. Bailey.—Reporter.

West Texas, which according to the West Texas Chamber of Commerce comprises the area west of the M. K. & T. Railroad to Waco and thence southwest through Fredericksburg and Rock Springs to Del Rio, includes 135 counties and approximately 91,000,000 acres of land. Into it could be dropped Maine, New Hampshire, Rhode Island, Connecticut, New York, New Jersey, Delaware and Maryland and still leave unoccupied 10,000 square miles or eight more Rhode Islands.

Little Buddie Grider, son of Judge G. C. Grider, is quite sick of tonsillitis this week.

WESTERN UNION AT LAMESA ENLARGES QUARTERS

LAMESA, May 1.—The West Union of this city has recently enlarged its office, which enables it to better serve the public. It is located directly across from the Dal-Piso Hotel. This office now has one of the most complete and well equipped offices in the West.

FIRE DESTROYS FEED ON THE MCGONAGILL FARM

Fire of unknown origin destroyed a stack of feed of the estimated value of \$200.00 belonging to Wheeler Ashworth on the A. R. McGonagill farm eight miles east of town Wednesday. The fire had gained much headway before it was discovered and the high winds rendered it impossible to then save the feed.

Texas stood ninth in number of individual income tax returns in 1926 and also in net amount of income, 111,438 Texans reporting \$547,562,501 net income. California, Illinois, Massachusetts, Michigan, New Jersey, New York, Ohio and Pennsylvania were ahead of Texas. Texas had one tax payer on more than \$5,000,000 net income.

We handle Climax chick feed—scratch feed—egg mash—chick starter—shorts—bran, and bulf rolled oats.—Larkin Store, Phone 41.

C. OF C. MEETING

(Continued from first page)

years. Mr. Wilson, secretary of the Lamesa Chamber of Commerce was master of ceremonies at the Banquet served at the noon hour and he presided with dignity and ease.

Max Bentley, editor of the Abilene Reporter, was the only speaker at the banquet table, his subject being "Western Ways". After showing that all human beings are in many respects alike and that every composite group is very similar to every other composite group, east, west or south, he pointed out that the people of this section are just a little friendlier than the people of other portions of the country because they have gone through seasons of trial and adversity together.

In the afternoon, Col. C. C. French of Fort Worth, Dr. Paul W. Horn of the Texas Tech, and B. M. Whiteaker of the West Texas Chamber of Commerce official family, each spoke briefly but had to cut their addresses short for lack of time. Dr. Horn made one statement that was of peculiar interest to the people of Tahoka. After stating that one of the members of the Tech College Glee Club which had entertained with a number of selections was a Tahoka young man, he recounted that recently upon the visit of the party of Senators and Representatives at the Tech, after hearing the Club render a program, one of the Senators requested the privilege of shaking hands with one of the members of the Glee Club and congratulating him particularly upon his fine voice. That member was Earnest Cowan of Tahoka.

The "My Home own Contest" was by far the most spirited and most lengthy ever heard at a district convention. There were thirteen contestants. Most of them were excellent, and the judges must have had a difficult task in rendering a decision. This feature of the day's program, was, in our judgement, one of the very best.

There were bands and glee clubs and other musical organizations galore. They furnished music not only in the theatre and the banquet hall, where the speaking programs were held, but also for the crowds that thronged the streets. The music of these bands and other organizations, and the stunts pulled by members of some of the delegations, furnished diversion and amusement for the visitors and home folks alike. They were much enjoyed by all who like a "little nonsense now and then."

If there is any fault to be found with the way these chamber of commerce meetings are conducted, it lies in the fact that the bands, the noise-makers, and the stunt pullers render it difficult for the speaking program to be carried out undisturbed. Matters of importance are supposed to be discussed and considered at these meetings but it is difficult to give them serious consideration while bands are playing and other attractions are being staged just outside the building. Manager Homer D. Wade tried in vain to eliminate these distractions during the morning program at the English Theatre. But, most of the visitors doubtless attend these meetings not to discuss serious problems of state or to listen to such discussions but to have a good time. And we do not object to their having it.

The Ralls delegation attracted more attention than any other. This delegation had come bent on securing the next convention for their town. They were strong in numbers and in voice; they had a lot of good shows to stage, and they staged one at every opportunity. And they got the next convention. It was evident almost from the beginning they would get it. Levelland and Abernathy each put up a game fight, but Ralls had the in-

side track and kept it. So, we'll all go to Ralls next year.

One word personal we wish to say. The News published more than four hundred extra papers last week, and we had them ready for distribution early Wednesday morning. These extras were distributed among the visitors at the banquet, more than four hundred papers being distributed there. We were gratified to note that very few of these papers were thrown away or left in the hall. The visitors evidently took the papers home with them. Master of Ceremonies William A. Wilson kindly complimented the publishers upon this issue and asked the visitors to take the papers with them and most of them were taken. These papers contained considerable matter pertaining to the resources and the development and growth of Lynn county, and we believe that they will prove to be seed sown in good ground. We wish to thank the business men of Tahoka for their fine co-operation in assisting us to get out this edition before the convention came by furnishing us their ad copy early. Their thoughtfulness and assistance in this respect is genuinely appreciated.

Erroneous Report Corrected by Board

As a result of erroneous information coming from the office of Registrar of the University of Texas, relating to the work of Supt. M. L. H. Baze, due to the mis-spelling of his name by the person making the inquiry, a report seems to have become current that Mr. Baze had not been a student in that institution. In order to correct this impression, Mr. Baze has requested that we publish the following statement:

"Tahoka, Texas, April 29, 1929.

This is to certify that we have examined transcripts of the college work done by M. L. H. Baze in Texas University, Abilene Christian College, and Texas Technological College at Lubbock. These transcripts were signed by the Registrars of these respective institutions and are genuine.

They reveal the following facts: "M. L. H. Baze attended the University of Texas during the years 1912-13 and 1913-14, the summers of 1921 and 1922, and has done correspondence work equivalent to 21 term hours. In all this constitutes a little more than 81 per cent of the work required for the Bachelor of Arts Degree. In addition he has completed work in Abilene Christian College of the standard type, such as would be accepted at any college or university in the state to apply on a degree, to the extent of forty three term hours, meeting all the requirements for the standard Bachelor of Arts Degree from either of the above institutions, now holding a degree from the latter and entitled to a degree from the former. We find also that M. L. H. Baze attended the latter institution during the summers of 1924, '25, '26 and at the same time taught courses in "Freshman English", "Advanced English Grammar" and "How to Teach English in the High School". We find also that he did twelve hours more than required for the Bachelor of Arts Degree and has spent one summer in Texas Technological College in work on the Master of Arts Degree. It is significant that everything that he claimed for his qualifications when he was elected to his present position has proved to be just as he represented them to be. There is on file in the Secretary's office a complete transcript of this work for the inspection of any one who might want to examine it.

Very respectfully yours,
Signed:
E. I. HILL, Pres.,
C. B. TOWNES, V.P.,

F. SWANN. 1tp

FOUND—A watch. Owner may procure same by making proof of ownership and paying for this notice.—News Office.

JOE BAILEY 4-H CLUB REPORTS MUCH ACTIVITY

The Joe Bailey 4-H Club met in regular meeting at the school house April 26. Twelve members and two visitors were present, one member absent. Miss Thelma Greenwade, county home demonstration agent, was not present at this meeting, but Mrs. Alma Ragan, club sponsor, was present. She called the roll of the eggs the club girls had setting, which was as follows:

Bertie Payne, sixteen R. I. Red eggs; Mildred Cottrell, sixteen R. I. Red eggs; Allie Brewer, thirty-two black Langshang eggs; Pauline Cope-llin, thirty-two white Wyandotte eggs setting, and fifteen little chicks; Theo Warren, nineteen R. I. Red chicks, no eggs setting; Laverne Godwin, fifty R. I. Red chicks, no eggs setting; Fay Perkins, forty-five R. I. Red eggs setting; Dorothy Payne, sixteen R. I. Red eggs; Lois Cottrell, sixteen R. I. Red eggs; Beatrice Beckham, forty-five brown Leghorn eggs.

The entire club is interested and we are hoping to do good work this year.

500,000

New Six Cylinder

CHEVROLETS

since Jan. 1st

Sweeping constantly ahead to greater and greater heights of popularity... making and breaking new records of success with impressive regularity... the new Chevrolet Six has established one of the most remarkable records in automotive history—more than 500,000 on the road since January 1st!

Not only does this brilliant accomplishment surpass the greatest record that Chevrolet has ever achieved in the past—but it brings to Chevrolet the significant honor of having built in only four months a greater number of six-cylinder cars than any other manufacturer has ever produced in an entire year!

Even with such a record to focus attention upon the outstanding value of the Chevrolet Six—many people still do not appreciate what “a Six in the price range of the four” actually means!

To such persons, consideration of the features responsible for this tremendous popularity will prove a revelation. So read the adjoining column carefully—and then come in and ask for a ride in this sensational six-cylinder car.

All prices f. o. b. factory Flint, Michigan

COMPARE the delivered price as well as the list price in considering automobile values. Chevrolet's delivered prices include only reasonable charges for delivery and financing.

Outstanding Features of the New Chevrolet Six that have created this Tremendous Popularity—

6-Cylinder Smoothness

Due to the finer inherent balance of its six-cylinder motor—the new Chevrolet Six provides that smooth, quiet, flexible performance which is characteristic of the truly fine automobile. At every speed, the power is delivered easily, freely and without annoying vibration.

6-Cylinder Getaway

In sheer brilliance of performance, as well as in smoothness and quietness of operation, the new Chevrolet Six is a revelation. Acceleration is remarkably fast. And a new non-detonating cylinder head eliminates every trace of “lugging.”

6-Cylinder Speed

The new Chevrolet Six has speed in abundance—but even more important than its speed is the smooth, quiet, restful comfort you experience at every point on the speedometer. You can open the throttle wide with a feeling of complete security.

Better Than 20 Miles Per Gallon

The marvelous performance of the Chevrolet Six would be exceptional in any car. But in the new Chevrolet Six it is actually sensational—for here it is combined with an economy of better than 20 miles to the gallon of gasoline!

Exceptional Riding Comfort

Another vital factor that has influenced over a half-million people in their selection of the new Chevrolet Six is its marvelous riding comfort. It travels smoothly over rough roads—and its balance on turns and corners is exceptional.

Beautiful Fisher Bodies

Longer, lower and roomier—finished in attractive, long-lasting colors—and upholstered in rich, deep-tufted fabrics—the new Fisher bodies on the Chevrolet Six introduce into the low-price field an entirely new measure of style and distinction.

Proved Dependability

Tested for more than a million miles on the roads of the General Motors Proving Ground—the new Chevrolet Six went into the hands of its owners thoroughly proved in every detail. And now reports of its performance on the highways of the nation pay glowing tribute to its endurance and dependability.

Amazing Low Prices

An achievement that surpasses even the brilliant performance qualities of this sensational six-cylinder car are the prices at which it is offered. Study these prices, and compare them with any other car and you will recognize the remarkable value represented in this Six in the price range of the four!

EDITORIALS
CONTINUED

The Dallas News reporter who is accompanying that bunch of Dallas Trade Trippers on its western tour needs to learn his Texas. In reporting the trip through Haskell, Jones and neighboring counties, he spoke repeatedly of that section of West Texas as the "plains", and in reporting the tour through our section he gave it a new name, the "South High Plains". Also, he gave our soil credit for a degree of productivity that the most enthusiastic real estate agent has never claimed for it. He stated that "from Tahoka to Lamesa the train passed through the cotton country where two bales to the acre are a fair average." It should be noted, however, that the party had just returned from a visit to El Paso and Juarez and may therefore be excused for seeing double. A half bale to a bale per acre is a mighty good crop even in Lynn and Dawson counties, gentlemen. We hope the Dallas folks will come back each succeeding year but we timidly suggest that they change their itinerary so as to visit Tahoka before visiting Juarez.

James L. Dow, who has been in the newspaper game for many years, has resigned as editor of the Lubbock Avalanche and will devote his time to his private business, it is stated. He recently purchased the Falls Banner and will devote a portion of his time to the publication of that splendid paper of which his son, Rankin Dow, is editor and business manager. Mr. Dow has been editor of the Avalanche for almost 24 years, and he has seen Lubbock grow from a cross-roads frontier village to the splendid city that it is today, and as editor of the Avalanche he has done his part in contributing to that growth. His many friends throughout West Texas will genuinely regret Mr. Dow's retirement from the Avalanche.

THE TELEPHONE GIRL
"Thank you". That's exactly what the telephone girl said the other day when I rang and told her "two-five-

Rupture Shield
Expert Coming to Lubbock
On Monday and Tuesday, May 6 and 7, At LUBBOCK HOTEL From 10:30 A. M. to 3:30 P. M. Evenings by Telephone Appointment Only TWO DAYS ONLY No Charge for Consultation

Mr. C. F. Redlich, the successful expert says: The "Perfect Retention Shields" hold the rupture perfectly, no matter what position the body assumes or how heavy a weight you lift. They give instant relief, contract the opening in a remarkably short time and strengthen the weak tissues (the real cause of rupture) so that they frequently recover their previous natural retaining power, needing no further outside support. Stomach trouble, backache and constipation often caused by rupture promptly disappear. Truly remarkable and prompt results have been obtained not only with recent and fully developed ruptures but also with old, long neglected ones. Ingenious, recently perfected devices are now holding ruptures firmly which heretofore never had been retained. No elastic belts nor filthy legstraps are used. I guarantee the durability of my absolutely sweat and moist proof sanitary appliances. 75 per cent of ruptured children recover completely through expert mechanical treatment according to statistics. Do not waste your money on widely advertised mail order contraptions. You cannot fit yourself. C. F. REDLICH, Rupture Appliance Expert, Home office, 535 Boston Block, Minneapolis, Minnesota.

nine". And I thought why should that pretty, sweet girl say "thank you" to me. I had rendered no service, had performed no courtesy to deserve a thanks. But anyway that "thank you" sounded good, and I just felt a little more friendly, a little more sympathetic, a little more considerate for the telephone girl who said "thank you". And then I thought how much brighter and happier this old world would be if everybody, Son-of-a-Gun included would make a practice of saying "thank you" more often. And musing along it occurred to me that there had been possibly a thousand opportunities that very day for me to say "thank you" and I forgot to say it. That gentle "thank you" will command what money cannot buy. Money can't buy friendship. Oh, it can command flattery, fawning and make believe. But genuine friendship and respect is unpurchasable with filthy lucre. But at this counter "thank you" is the coin of the realm. Every day, in every way it is "cash-on-the-barre-head" currency undepreciated and uninfated, undepreciated and undeflatable. If there is anybody in this world who deserves the good will of the public more than others, that is the telephone girl. All day and all night it is the same grind, and always kind, always courteous. Most people can be grouchy if they want to, and are not afraid to, but the telephone girl never. And then she is a long ways off and a lot of uncouth, uncivil, unkind, ungenerous people sometimes seem to take a delight in "bawling" her out. Folk's let's be more considerate with the telephone girl. (She says "thank you" —San Saba News.

More than \$35,000 is being spent on changes and additions to the telephone system in Pecos-Northwestern Telephone Company. Changing over to the common battery system is expected to be completed by May 1. Pecos has one of the four transcontinental repeater stations in Texas.

H. J. R. No. 7.
A JOINT RESOLUTION
Proposing an amendment to Section 5 of Article 4 of the Constitution of the State of Texas fixing the salary of the Governor; providing for its submission to the voters of the State of Texas as required by the Constitution, and making appropriation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:
Section 1. That Section 5 of Article 4 of the Constitution of the State of Texas be so amended as to hereafter read as follows:
"Section 5. The Governor shall, at stated times, receive as compensation for his services an annual salary of Ten Thousand Dollars and no more, and shall have the use and occupation of the Governor's Mansion, fixtures and furniture; provided that this amendment shall not become effective until the third Tuesday in January, 1931."

Section 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on July 16, 1929, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the words: "For the amendment to the Constitution of the State of Texas fixing the salary of the Governor." And those voters opposing said proposed amendment shall write or have printed on their ballots the words. Against the amendment to the Constitution of the State of Texas fixing the salary of the Governor."

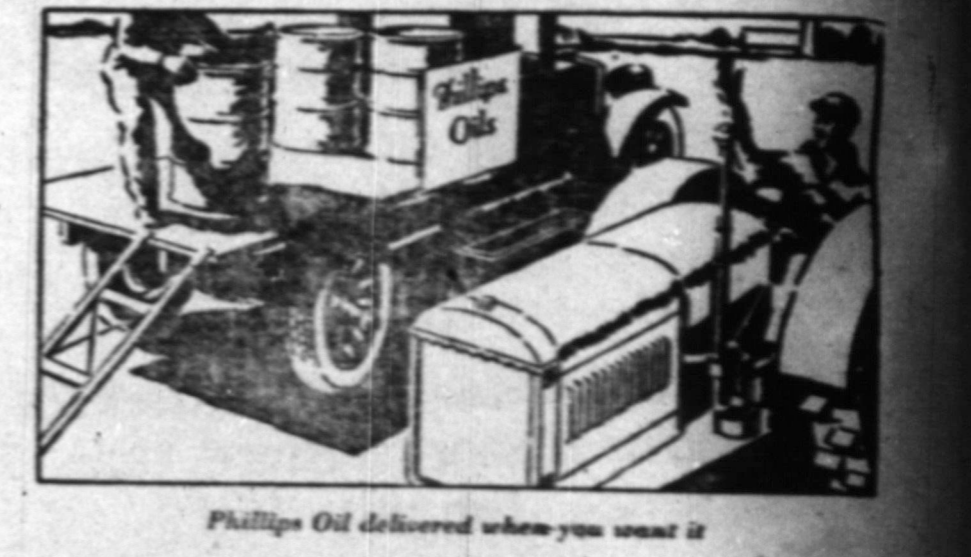

Section 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution for amendments thereto.

Section 4. The sum of Five Thousand (\$5,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in

the Treasury of the State of Texas not otherwise appropriated to pay the expense of such publication and election.
Approved March 19, 1929.

Phillips Oil delivered when you want it

Quick Deliveries to Your Farm

One of the many Phillips Bulk Stations located in Texas and western Oklahoma

There's full satisfaction in Phillips Products

THE map at the left shows the location of Phillips stations in west Texas and southwest Oklahoma. Free deliveries of Phillips Oil, Kerosene, and 66 are made to any farm. All of these stations keep on hand a good big supply of Phillips products. You don't have to wait to get what you want. You won't be told "that we are just out and that a supply is coming in a few days." You get your kerosene, oil and gasoline within a few hours after you order it. Phillips knows what it means to the farmers to get prompt service, especially at harvest time, and guarantees fast delivery on a quality line of products. Look over this map. Pick out the Phillips station nearest you and drift over right soon to see the Phillips agent about your harvest supply of oil, kerosene and gasoline. Phillips products are favorably known in the entire Southwest. It will pay you to use them.

Volume XXV. DIRECTORS OF FAIR NAME

All Sections of the County Registered on Board; Plan For Big Fall Event

Recently it was decided by board of directors of the Tahoka Chamber of Commerce that a county wide fair association should be organized, and that this association should have the full and sole authority to direct and manage the fair to be held next fall, entirely apart from the local chamber of commerce.

A committee was then appointed, consisting of the president and the secretary of the Chamber of Commerce, the County Farm agent, the home demonstration agent, and one or two others to nominate a board of directors for the fair organization. This committee met and made recommendations back to the board of directors of the Chamber of Commerce and its report was adopted and ratified.

This report suggested the following names as directors of the fair association, and they were thereupon duly appointed. The list is as follows:

- New Lynn, E. B. Terry; Magnolia, J. E. Morgan; Gordon, J. W. Yon; Morgan, Clyde Shaw; Grimes, Claude Thomas; Edith, Mrs. T. Hammonds; Redwine, Bob Travis; Draw, Mrs. John Berry; Midway, M. Draper; Joe Bailey, Tom Brev; Wells, M. L. Taylor; Pride, D. Haynes; New Moore, C. W. Swift; T-Bar, J. C. McCarley; Three Lakes, G. W. Hickerson; New Home, S. Kitchens; Joe Stokes, B. E. Medf; Dixie, A. F. Pitts; West Point, C. Tankersley; Petty, D. C. Baker; Lakeview, S. L. Williams; Will, R. E. Finley, Mrs. A. L. Finley; O'Donnell, E. M. Wilder, T. J. Dell, Mrs. J. L. Earles; Tahoka, J. Applewhite, Claude Walls, Chas. Connolly, S. R. Kemp, Taylor W. Emory Nance, Mrs. R. W. Fenton

MOTHER'S DAY PROGRAM AT METHODIST CHURCH NEXT SUNDAY

Rev. R. T. Breedlove, pastor of Methodist Church, announces there will be a Mother's Day service at the Methodist Church next day night. He will not be able to preach but an appropriate program is being prepared and a most excellent service is expected. Special music suitable to the occasion will be rendered.

Everybody who can attend is asked to be present and take part in the service. The presence of elderly people is especially desired.

Ash Well Down To 1250 Feet

Drillers had reached a depth of 1250 feet on the Ash Syndicate five miles west of town at noon today. Drilling was shut temporarily for repairs on the rig. It seems that the lack of oil and boiler trouble has been holding the drillers quite a bit. The progress has been making water well near the hole furnished 500 gallons of water a day. 500 gallons are required to the drill running continuously. When it is drilled deeper or another well is drilled, the progress may be expected.

Fire Does Small Damage Sunday

Fire Sunday afternoon destroyed small shed belonging to Joe and came near destroying much of little chickens. The chickens were old. The shed was old. The wind was high. The fire made rapid progress, completely destroying the building in minutes. The fire department responded promptly to the call and was too late to save the shed. It is said to have been caused by some children who were playing with matches.
