JANE Y. McCALLUM  
Secretary of State

Lynn County, in the heart of the best diversified farming country in Texas.

# The Lynn County News

We invite you to locate in beautiful Tahoka. Good homes, good schools, good churches.

Volume XXV.

Tahoka, Lynn County, Texas, Thursday, May 9th, 1929

Number 37

## DIRECTORS OF FAIR NAMED

### All Sections of the County Represented on Board; Plan For Big Fall Event

Recently it was decided by the board of directors of the Tahoka Chamber of Commerce that a county-wide fair association should be organized, and that this association should have the full and sole authority to direct and manage the fair to be held next fall, entirely apart from the local chamber of commerce.

A committee was thereupon appointed, consisting of the president and the secretary of the Chamber of Commerce, the County Farm agent, the home demonstration agent, and one or two others to nominate a board of directors for the fair organization. This committee met and made its recommendations back to the board of directors of the Chamber of Commerce and its report was adopted and ratified.

This report suggested the following names as directors of the fair association, and they were thereupon duly appointed. The list is as follows:

- New Lynn, E. B. Terry; Magnolia, J. E. Morgan; Gordon, J. W. Young; Morgan, Clyde Shaw; Grassland, Claude Thomas; Edith, Mrs. T. L. Hammonds; Redwine, Bob Trawick; Draw, Mrs. John Berry; Midway, I. M. Draper; Joe Bailey, Tom Brewer; Wells, M. L. Taylor; Pride, Dave Haynes; New Moore, C. W. Switzer; T-Bar, J. C. McCarley; Three Lakes, G. W. Hickerson; New Home, S. J. Kitchens; Joe Stokes, B. E. Medford; Dixie, A. F. Pitts; West Point, C. T. Tankersley; Petty, D. C. Baker; Lakeview, S. L. Williams; Wilson, E. E. Finley, Mrs. A. L. Faubion; O'Donnell, E. M. Wilder, T. J. Yandell, Mrs. J. L. Earles; Tahoka, J. K. Applewhite, Claude Wells, Chester Connolly, S. K. Kemp, Taylor White, Emory Nance, Mrs. E. W. Fenton.

These directors will be called together at some early date to organize and make plans for the fair this fall.

## MOTHER'S DAY PROGRAM AT METHODIST CHURCH NEXT SUNDAY NIGHT

Rev. E. T. Breedlove, pastor of the Methodist Church, announces that there will be a Mother's Day service at the Methodist Church next Sunday night. He will not be able to preach but an appropriate program is being prepared and a most excellent service is expected. Special music suitable to the occasion will be featured.

Everybody who can attend is urged to be present and take part in the service. The presence of elderly people is especially desired.

## Ash Well Down To 1250 Feet

Drillers had reached a depth of 1250 feet on the Ash Synclate well near west of town at noon Wednesday. Drilling was shut down temporarily for repairs on the boiler. It seems that the lack of water and boiler trouble has been hampering the drillers quite a bit and the program has been made. A water well near the hole furnishes only 200 gallons of water a day whereas 500 gallons are required to keep the well running continuously. The water well is only 80 feet deep and when it is drilled deeper or unless another well is drilled, continued progress may be expected.

While drilling was shut down Wednesday, the drillers expected to resume work again this afternoon.

## Fire Does Small Damage Sunday

The Sunday afternoon destroyed a small shed belonging to Joe Nevils and some near destroying a fine pen of little chickens. Practically all of the chickens were rescued. The shed was old and of no value. The wind was high and the fire made rapid progress, completely destroying the building in a few minutes. The fire department responded promptly to the call but was unable to save the building. It is said to have been started by some children who were playing nearby.

## Brownfield Gas Line Work Begins

Surveyors began surveying out the proposed gas line from Tahoka to Brownfield on Tuesday morning, according to M. O. Bridges, local manager of the West Texas Gas Company. This line will run from the main two miles west of Tahoka almost due west to Brownfield. Mr. Bridges was unable to say just when the work of excavating the ditches and laying the pipe would begin but it is expected to begin soon. Brownfield will have natural gas before cold weather returns.

## JONES STARTS NEW BUILDING

### Ahlesne Dry Goods Man Contracts For Building 25x80 Feet; Started Tuesday

Workmen began Tuesday morning the construction of a brick business house on the west side of the square on the lot lying between Levine Bros. and the Sanarillo Cafe. G. E. Jones, president of the Jones Dry Goods Company, which operates many stores in West Texas, is having the building constructed. The structure is to be 25 by 80 feet in size, and the front is to be finished with a beautiful cream-white face brick. According to Thomas H. Speight of the Jones Dry Goods Company, it is to have one of the most attractive fronts of any building in town. It will be rushed to completion and will be ready for occupancy by the end of the month.

It is understood that the building has been rented but no information as to the nature of the business to be conducted in it is being given out. The construction of this building will leave only two vacant lots on the west side of the square and there are probabilities that these will be filled in before the end of the year.

## Brashear & Son Sell to King

J. A. Brashear effected a sale Monday of his dry goods and clothing business here to E. E. King and associates. Mr. King, who was with the Hogan Dry Goods Company here for two or three years and who recently went to Brownfield as manager of the Hogan store there, will be manager of the new business here, which will be known as The Tahoka Dry Goods Company.

Mr. Brashear retains the building, giving a lease on it to the new owners.

We were unable to get a statement from Mr. Brashear as to his plans for the future. He has been a resident of the town and engaged in business here for quite a number of years. In fact, the town has enjoyed the greater portion of its growth since he came a dozen years ago or more. For a number of years he and W. L. Knight were associated together in business, the firm dissolving four or five years ago. He has been an important factor in the up-building of the town and the development of the country.

Mr. King is a successful and popular young business man will doubtless make a success of the enterprise.

## Shaver Organizes Four 4-H Clubs

County Agent Ray Shaver announces that he has perfected the organization of four county-wide boys' 4-H Clubs in this county: a pig club of about 50 members, a grain sorghum club of 35 members, a poultry club of more than twenty members, and a calf club of eight members, making a total of 115 members.

Planting seeds are being furnished the grain sorghum clubs by the Tahoka Chamber of Commerce.

The members of the pig club are procuring some registered pigs from Brownfield.

The boys are all enthusiastic in the new work and it is believed that great interest will be maintained throughout the year and that much good will be accomplished.

Policeman George Clements of Chicago stopped two men pushing a baby carriage at 3 a. m. and found the perambulator contained stolen silver worth \$3,000.

## NEW TRUSTEES ARE ELECTED

### R. C. Wood, W. T. Clinton, D. W. Gaignat and Claude Wells Are New Board Members

Official returns show that R. C. Wood, W. T. Clinton, D. W. Gaignat, and Claude Wells were elected as members of the board of trustees for the Tahoka Independent School District at the election held last Saturday. The vote for these four gentlemen was as follows: Wood 164, Clinton 117, Gaignat, 125, and Wells, 111. The other three gentlemen whose names were on the ballot each received a most creditable vote.

The three hold-over members of the board are Dr. C. B. Townes, Sid Sanders, and J. W. Russell.

At a called meeting of the old board Monday afternoon, the secretary was instructed to request the new members to meet at his office in the court house at 8 o'clock Tuesday night, May 14, when results of the election will be officially declared and the oath of office administered to the new members. That is the regular meeting night of the board.

BIG SPRING'S first quarterly meeting of the chamber of commerce was attended by more than 400 people. The main topic of discussion was the building of good roads. Howard County will soon vote on a road bond to pave both highways out of Big Spring, and this course was highly recommended by those present.

## Crowd Attends May Day Fete

Several hundred people crowded into the high school auditorium and many others stood in the hallways Tuesday night to witness the May Day festivities staged by pupils of the Central Ward school under the direction of Mrs. Baze and to enjoy the recital following given by the music pupils of Mrs. Jack Jackson and Mrs. W. A. Kercheville.

The May Day fete was quite a colorful affair, beginning with the crowning of the Queen of May, who in this case was little Mary Margaret Tunnell. The Maypole dances and other numbers on the program were all very beautiful and the older folk as well as the kiddies seemed to enjoy the entire program very much.

The recital consisted of piano selections by the pupils of Mrs. Jackson, violin selections by Mrs. Kercheville's pupils, songs by the Girls Choral Club, the Boy's Glee Club, the South Plains Quartet, readings, etc. This program was likewise very fine and was greatly enjoyed by the audience.

## Asks for Up-Town Telegraph Office

C. C. Williams, secretary of the Chamber of Commerce, has taken up the matter of procuring an up-town Western Union Telegraph office in Tahoka. A few days ago he laid the matter before H. C. Robertson, Division Commercial Agent of the Western Union at Oklahoma City. He is also working on the matter through Homer D. Wade, manager of the West Texas Chamber of Commerce, who assured Mr. Williams that he would do what he could to procure this convenience for Tahoka. Mr. Williams has no assurance as yet that his request will be granted, and the people of Tahoka should assist him in every possible way in his efforts to induce the Western Union to place an up-town office here. Our people are 100 per cent for it, and they should bring all the pressure to bear that is possible to induce the Company to act favorably.

## TAHOKA PASTOR TO PREACH 2 BACCALAUREATE SERMONS

Elder W. A. Kercheville, who serves the local congregation of the Church of Christ, has been invited to preach the baccalaureate sermon to the graduating class of the O'Donnell High School next Sunday morning and to the New Home graduating class the following Sunday morning. Elder Kercheville is an interesting speaker and will doubtless have a great message for each of these classes.

Plant a berry patch.

## LIVING ROOM CONTEST ENDS

### Mrs. J. E. Weightman, Lakeview, and Mrs. S. M. Clayton, O'Donnell Win First Places

The Living Room Contest has created quite a bit of interest in Home Demonstration work this year. The County Home Demonstration agent and a committee of judges composed of Mrs. Taylor White and Mrs. M. B. Hood of Tahoka, completed the final scoring last week.

The decision is made on this basis: the one receiving the largest number of points in proportion to the cost.

There are two classes; class one is where the expenditure is below \$50, class two is where expenditures is over \$50.

In the county this year we had only two ladies in class two and the remainder were in class one.

Winners in class one are:

- First—Mrs. J. E. Weightman, Lakeview Club, Meadow, Texas, Route 1.
- Second—Mrs. D. G. Cook, Draw-Redwine Club, Draw, Texas.
- Third—Mrs. J. H. McCarley, T-Bar Club, O'Donnell, Texas, Route No. 2.

In class two the winners were: First—Mrs. S. M. Clayton, O'Donnell; Second—Mrs. R. E. (Boby) Finley, Sell Club, O'Donnell, Texas.

There is no cash prize given, the award to the winner will be a trip to the A. & M. Short Course this summer.

## County Court Tries Several Cases

"Blackie" Bragg of Grassland was tried in the county court last week upon a most unusual charge. He was alleged to have violated the quarantine law, after having been placed under quarantine as a smallpox patient. He was found guilty and a fine of \$10.00 was assessed.

Howard Hubbard, a transient, was tried on a petty theft charge. He was accused of having stolen some automobile tires from Jess Eubanks. He was likewise found guilty and his punishment assessed at ten days in jail.

Jerome Neugebauer was charged with unlawfully carrying a pistol, and the jury was unable to agree, standing three for conviction and three for acquittal, it is said.

The two Scott brothers, who have been operating the dance hall north of town, entered pleas of guilty to charges of gambling on Sunday, and Judge Grider assessed the fine at \$20.00 in each case. They are still in jail, we understand.

## Young Matron Dies From Tuberculosis

Mrs. Eva May Knight died of tuberculosis on the McClintock farm three miles east of town on Thursday of last week, leaving a mother and other relatives including two or three children who are in an orphan's home. The family recently removed to this county from Oklahoma, hoping that the afflicted woman might regain her health but the terrible disease had already done its fatal work. The family were in destitute circumstances, and the burial expenses were borne by the county. Such cases as this are calculated to excite the deepest sympathy and the surviving members of the family have the sincere condolences of all who came to know them.

The funeral services were conducted by Rev. Bingham, the Nazarene pastor at New Lynn, and the remains were buried in the City Cemetery here.

## BAPTIST PASTOR LEAVES FOR MEMPHIS CONVENTION

Rev. B. N. Shepherd left early Monday morning to attend the annual meeting of the Southern Baptist Convention in session in Memphis, Tennessee, this week. He was a member of a party composed of Rev. Joe Wilson, pastor of the Baptist Church at O'Donnell, Rev. McGabe, pastor at Wilson, Rev. Hughes, pastor at Levelland, and Rev. and Mrs. O'Brien, pastor and wife, at Ropes. They went through in cars and are not expected back till the middle of next week.

John Bell, 14, won the Somerset plowing contest at Wiltton, England.

## Making Agricultural Survey of County

C. C. Williams, secretary of the Chamber of Commerce, is now busy making an agricultural and live-stock survey of Lynn County. He was out practically all day Tuesday on this work and will continue it until the entire county is covered. It is believed that this survey will bring in to the possession of the Chamber of Commerce much valuable information as to the resources, development, and possibilities of Lynn County from an agricultural, horticultural, and live-stock standpoint.

## C. B. KELTNER SELLS HOTEL

### J. W. Evans of San Angelo Will Take Charge of Keltner Hotel November 1

A deal was consummated Tuesday whereby C. B. Keltner traded the Keltner Hotel here for a ranch in Lampasas County situated near the city of Lampasas, and J. W. Evans of San Angelo became the owner of the hotel. Mr. Keltner also sold to Mr. Evans for cash his lots lying south of the hotel, comprising a frontage of 62 1/2 feet.

Mr. Keltner will continue to operate the hotel until November 1, and he has announced no plans beyond that date. He will probably sell the Lampasas ranch, however, and remain in this portion of the state.

Mr. Evans, who becomes the owner of the Hotel, is said to be a most excellent citizen, and we understand that it is his intention to remove to Tahoka next fall.

The Keltner Hotel is a splendid hostelry, of brick construction, containing forty rooms and equipped with all modern conveniences. We did not learn the consideration named in the contract.

## Ford Car Stolen; Chrysler Abandoned

A new Tudor Ford Sedan belonging to Henry Douthit was taken from the premises of the high school soon after the noon hour Wednesday, where it had been parked by the Douthit children, who had driven it to school. No trace of the car has been found at this time. The car was almost new and had been driven less than a thousand miles.

A Chrysler car belonging to Franklin D. Brown of Lubbock, formerly a resident of Tahoka, was found near the premises with a flat tire and a badly damaged casing. The Chrysler had been taken the same morning from the campus of Tech college at Lubbock. The driver was seen in this Chrysler by a local filling station man coming into Tahoka from the south, with a flat tire, shortly before the Ford car was stolen and to the surprise of the local citizen the traveler did not stop for repairs.

Having acquired a flat, he evidently decided to swap cars with someone and made his way to the high school building to negotiate the deal. He was seen near the high school building in the Chrysler by some of the students, it is said.

## More Residences Under Construction

In addition to several residences now under construction and heretofore mentioned in these columns, work on at least two other new residences began Wednesday morning. Harley Henderson began the construction of a nice six-room residence on West North Third Street on his lot just east of A. J. Edwards home. This will be a frame structure with stucco finish and will be an attractive home.

Work was also begun on a small but neat residence for young Mr. Faulkner in West Tahoka on the highway.

The home of W. E. Taylor in that part of town is also being remodeled, while an addition is being made to the H. L. Tunnell home in North Tahoka.

Mitchell Banks of London, characterized the Institute of Brewing as holy and sacred because it was finding the "best way to use God's milk, hops and water."

## SCHOOL CLOSSES FRIDAY, MAY 17

### Baccalaureate Sermon Sunday Morning, May 12th; Commencement Address Next Friday

Supt. M. L. H. Baze has announced that Rev. George W. Parks of Roscoe will preach the Baccalaureate sermon for the Senior Class of the Tahoka High School at the Methodist Church next Sunday morning. Rev. Mr. Parks was pastor of the Baptist Church at Roscoe for many years and is recognized as one of the best Bible scholars and one of the deepest religious thinkers in all this section of the state. Slow and deliberate in speech, he makes his points clear and forceful, and his hearers will doubtless greatly enjoy the discourse next Sunday morning.

The graduating exercises will be held in the High School Auditorium on Friday evening, May 17, and the Hon. R. A. Baldwin of Slaton will deliver the class address. Mr. Baldwin has recently gained some fame by the publication of a novel entitled "Santi". He is a lawyer and served several terms in the House of Representatives at Austin. He is a pleasing speaker and his address will no doubt be an able one.

The Baccalaureate services for the Senior class of 1929 are to be held at the Methodist Church Sunday morning, May 12th, at eleven o'clock. The following program has been arranged:

- Processional.
  - Invocation—Prof. Taylor White.
  - Song—Congregation.
  - Announcements.
  - Scripture Reading.
  - Special Music.
  - Sermon—Rev. G. W. Parks.
  - Song.
  - Benediction—Rev. Parks.
- The Commencement exercises for the High School will be held at the High School Auditorium on Friday evening, May 17th. Honorable R. A. Baldwin of Slaton will deliver the address.

## CHURCH OF CHRIST SERVICES EARLY NEXT SUNDAY

Elder W. A. Kercheville announces that on account of the Commencement services to be held at the Methodist Church next Sunday, beginning at 11 o'clock, the services at the Church of Christ will begin Sunday morning at 9:30 and close at 10:30. All members are urged to take note and be there at the above-mentioned hour.

## We're Being Made On Bootleggers

At a court of inquiry conducted by County Attorney G. H. Nelson and other officers at O'Donnell a few days ago, evidence was procured involving Joe Wilson of Dawson county in an alleged offense of unlawfully possessing intoxicating liquor. A complaint containing that charge was filed against him and he was required to make bond for his appearance at the next term of district court. The next grand jury will investigate the case.

Evidence was also gathered upon which a complaint was filed against an O'Donnell business man, whose name we did not learn, charging him with the unlawful sale of "extracts" which were alleged to have been intoxicating. The grand jury will likewise investigate this case at the next term of court.

Carl Detsenough who was indicted by the last grand jury for the unlawful sale of intoxicating liquor in this county, was apprehended last week at Roswell, New Mexico. Sheriff Sam Sanford went over to that city last week and brought the prisoner back to Tahoka. His case is to be tried in the district court next fall.

## White Way Light Standards Arrive

Tahoka's White Way is soon to be a reality. The Texas Utilities Company has distributed the standards along the way and W. S. Anglin, the local manager, states that the work of erecting them will begin next Monday. It is expected to have the White Way ready for service about June 1st.

**TWEEDLEDUM-TWEEDLEDEE**

The Forney-McCumber tariff bill  
enacted in 1921 is said to carry the  
highest rates of any tariff measure  
ever enacted in this country. It is  
the most ultra protective measure  
that even the Republican party ever  
proposed.

Yet when Nicholas Longworth was  
recently elected Speaker of the House  
by the Republicans, he was able to  
state truthfully that there is no longer  
any practical difference between the  
Republican and Democratic parties  
on the tariff. "The line of cleavage  
between the two great political parties,"  
he said, "would seem to have crumbled  
in the last few years almost to question  
of detail."

John N. Garner, the newly-elected  
Democratic leader, did not deny the  
allegation. He could not do so.

As proof of the truth of Longworth's  
statement, that keen political analyst,  
Mark Sullivan, points to

the last Democratic platform and the  
utterances of the last Democratic  
nominee on the tariff question. He  
cites these, as well as the position of  
the Democratic leader in Congress,  
John N. Garner, and a vast majority  
of other Democrats in Congress, to  
show that the Democratic party no  
longer has any fight to make on the  
protective tariff policy itself.

In order to accentuate the reversal  
of the Democratic party on the tariff,  
Mr. Sullivan quotes from a speech  
made on the floor of the house by  
Cordell Hull of Tennessee the next  
day following Longworth's pro-  
nouncement. Hull still holds to the  
historic Democratic position on the  
tariff but seems to represent a minority  
in that party. Incited by Longworth's  
statement of fact and Garner's  
failure to deny, Hull entered the  
following solemn protest:

"The most amazing thing in our  
political annals is now transpiring,  
and that is the attempt of the ultra  
stand-pat and embargo tariff forces  
in this country to unify the two leading  
parties behind a fixed and permanent  
policy of super-protection and narrow  
nationalism. I denounce and challenge  
this proposed course as an outrageous  
libel on the great historic Democratic  
party and on sound economics. I admit  
that, as always, there are some Democrats  
who are undertaking to effect ar-  
rangements for the unconditional sur-  
render of the Democratic party to the  
forces of high tariff greed and privilege,  
and they may think that such sur-  
render is now assured. I predict, how-  
ever, that in this they will find them-  
selves as badly mistaken as was  
Benedict Arnold when he felt cocksure  
that he had arranged for the certain  
surrender of West Point. I prefer to  
hold fast to the tested economic wisdom  
and philosophy of Jefferson, Jackson,  
Tilden, Cleveland, and Woodrow Wilson,  
than to follow supinely those who  
would now make the great Democratic  
party subservient to the most corrupt  
partnership between politics and  
vested interests in American history."

But the Democratic party, under  
the leadership of Al Smith and John  
J. Raskob, has already abandoned the  
time-honored principles enunciated  
and steadfastly adhered to by  
Jefferson, Jackson, Tilden, Cleveland,  
and Wilson. The Houston platform  
and the Tammany candidate declared  
in favor of a protective tariff. Most  
of the Democratic politicians fell in  
line, and Cordell Hull is now raising  
his heroic voice of protest in vain.  
The only fight that the Democratic  
leader and a majority of his follow-  
ers in Congress will make upon the  
Republican protective tariff policy  
will merely be a fight over details.  
As between the two parties on the  
tariff, it is henceforth a case of  
tweedledum-tweedledee.

Speaker Longworth told the truth.

The nomination of Oscar Colquitt

for a position on the United States  
Board of Mediation to succeed Pat  
Neff, whose nomination was not con-  
firmed, is likewise being held up for  
further investigation. Neither of  
the Texas Senators protested the ap-  
pointment but Senator Robinson of  
Arkansas did file a protest. Colquitt  
is a Democrat but he worked and  
voted for Hoover in the last campaign.  
Few Hoover Democrats, however,  
have any sympathy for the ex-governor.  
Espousing the dry cause as a  
very young man, Colquitt later swung  
over to the wet side. As a wet he  
was elected to the state railway com-  
mission. As a wet he was twice  
elected governor. No man ever served  
the interests of the saloons and the  
breweries more faithfully than  
Colquitt did. No man ever fought  
prohibition more vehemently or more  
unfairly. A lawsuit instituted by the  
Attorney General Looney against the  
breweries revealed the fact that  
while governor Colquitt had accepted  
"loans" of money from some of the  
brewers. After retiring from the  
governor's office he made the race  
for the United States Senate as a  
wet. He was a wet as long as there  
was a saloon in Texas. But during  
the recent campaign, he posed as a  
radical dry. He opposed the nomi-  
nation and election of Al Smith on  
the ground that Smith was a wet.  
He was conspicuous—entirely too  
conspicuous to suit most real dries—  
in the fight for Hoover. As soon as  
the election was over he set about  
hunting for a job under the new ad-  
ministration. And he has succeeded  
in procuring an appointment to a lu-  
crative position at the hands of the  
President.

If Robinson and others in the Senate  
prevent his confirmation, no tears  
will be shed by the real honest-to-  
goodness dries in Texas. We do not  
believe in rewarding sham and hypo-  
cricry.

We never glory in human suffer-  
ing. We never gloat over the punish-  
ment even of the criminal. But we  
do find genuine satisfaction in the  
punishment of those who wilfully  
and wickedly violate the laws of  
our country. While we have a de-  
gree of sympathy for almost every  
criminal, yet we can conscientiously  
and religiously rejoice in the con-  
viction of those twenty culprits at  
San Angelo last week who had con-  
spired to violate and set at naught  
the liquor laws. Some of them had  
been city officials of San Angelo and  
as such had accepted money from the  
bootleggers to afford them protec-  
tion, according to the evidence adduced  
on the trial. The officer who would  
accept money to shield any criminal  
is little better than a Benedict  
Arnold. In a sense he is a traitor  
to his country. The penalty of  
eighteen months in federal prison  
and a fine of \$7,500 imposed against  
the ex-chiefs of police of San Angelo  
was therefore richly deserved. The  
other offenders received punishment  
little less severe. Among them were  
several women. That would indicate  
that the Federal government under  
the new administration is really at-  
tempting to enforce the liquor laws.  
So may it be.

In this day of movies, talkies and  
radios and many other means of af-  
fordable entertainment, the old-time  
Chautauqua can find few customers.  
The Chautauqua offers a high type  
of entertainment but the masses pre-  
fer the more "popular" types. Our  
prediction is that within a few years  
the Chautauqua will be a defunct in-  
stitution, just as the old-time opera  
house that many of us knew so well  
has long since become defunct.

Mark Twain is reputed to have ob-  
served that everybody talks about the  
weather but nobody ever does any-  
thing about it. If we could have done  
anything about it we certainly would  
have gotten busy a month ago.

Miss Jane Reichenberg of Mel-  
bourne has begun her 61st year as  
organist of St. Joseph's Church.

**MODEL A FORD DRIVEN  
TO ATOYAC, MEXICO**

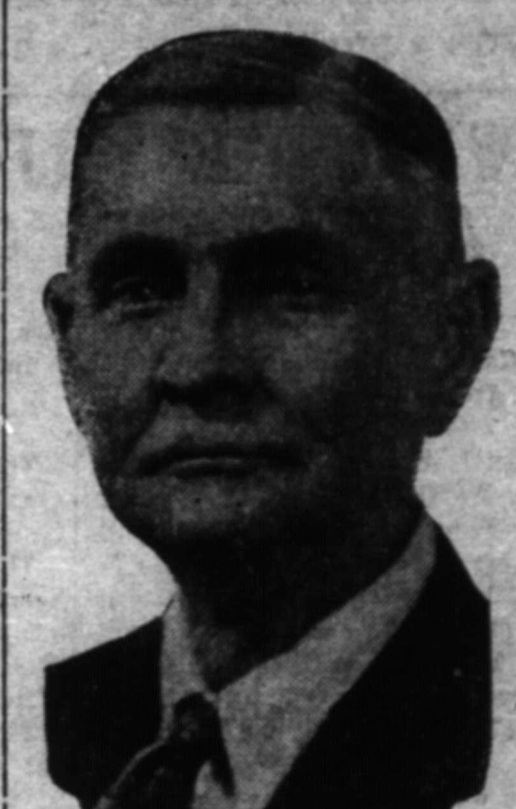

A new kind of machine was seen  
recently in Atoyac, Mexico. Natives  
of the Pacific Coast town viewed this  
modern invention with a great deal  
of curiosity. It was an automobile.

General Rafael Sanchez, command-  
er of State of Guerrero, drove a Mod-  
el A Ford phaeton across country  
from Acapulco of Atoyac, over land  
so rough that none had made such a  
journey before. He sent this wire  
to R. Z. Martinez, Ford dealer at  
Iguala:

For your pleasure please be in-  
formed that the Ford car I pur-  
chased from you is the first automo-  
bile to ever reach this town over a  
difficult country where there are no  
roads at all and the land is strewn  
with rocks and soft sand. Motor in  
perfect condition after terrible test.  
Small native towns along path re-  
garded first automobile with positive  
wonder."

**Finest He Has  
Felt in Years**

"Sargon was a godsend to me, and  
I bless the day I first bought it; I  
feel like a new man", said J. F. Port-  
er of Keller, Texas. Mr. Porter is

J. F. PORTER  
73 years old and has been a deacon  
in the Missionary Baptist Church 52  
years. He is also a Mason.

"I suffered day and night for the  
past three years with stomach trou-  
ble. My gall bladder gave me ser-  
ious trouble and pain. A most se-  
vere pain would strike me about two  
or three o'clock in the morning and  
would continue for hours. My en-  
tire system was out of order. I was  
so constipated I had to take laxative  
almost every night.

"I put off buying Sargon for weeks  
but read so many endorsements for it  
from good people in Fort Worth that  
I bought some and it has worked  
wonderfully for me. I would not be-  
lieve such results could be accom-  
plished unless I had had the experi-  
ence myself. Those terrible pains  
are gone and I sleep the whole night  
thru. My stomach is right and I eat  
what I please. I am stronger and  
feel twenty years younger. My gall  
bladder doesn't bother me; my liver  
is active, and I am no longer consti-  
pated.

"I feel it my duty to my fellowman  
to tell how Sargon has benefitted  
me."

Sargon may be obtained in Tahoka  
at Thomas Bros. Drug Co., and in  
O'Donnell at Corner Drug Store.

**FOR WORKING PEOPLE**

The best of workers get out of work  
in the liver fails to act. They feel  
cold, half-sick, "blue" and discouraged  
think they are getting lazy. Neglect  
these symptoms might result in a sick  
therefore the sensible course is to  
take a dose or two of Herbine. It is just  
medicine needed to purify the system  
and restore the vim and ambition of  
the worker. Price 60c. Sold by  
THOMAS BROS. DRUG CO.

Ernest Palmer, a schoolboy of a young bull raised by himself  
Warren, Minn., received \$1,243.40 for won a state championship.

She Writes That "A Friend  
Told Me To Take Cardui  
and I Know  
It Helped Me."

Greenville, Miss.—In describing  
how she suffered several years ago,  
Mrs. Mattie Dalton, of 212 Walnut  
Street, this city, recently wrote:  
"I would cramp, and my hands  
and feet would draw, so I came near  
having convulsions. I would have to  
stay in bed a week, and when I  
would get up, I just dragged around,  
and did not feel like doing my work.  
I suffered a great deal with my  
back."  
"A friend came to see me and  
saw how I suffered. She told me to  
try taking Cardui, which I did. I  
seemed to have more strength, after  
my first bottle. After I had taken  
about four bottles of Cardui, I saw  
a great improvement."  
"I quit having such bad spells,  
and was stronger and better than  
in a long time. I gained in weight.  
I took a few more bottles of Cardui,  
and felt so well that I quit taking it."  
"I certainly can recommend Car-  
dium, for I know what it is to suffer,  
and I know that Cardui helped me."  
Thousands of women have writ-  
ten to tell of the benefit Cardui has  
been to them, in helping them to  
build up their health.

**CHAMBER OF COMMERCE ACTIVE PAST FEW WEEKS**

(By C. C. Williams)

The following letter has been received from Mr. Wade, Manager of the West Texas Chamber of Commerce, relative to the District Convention held here Wednesday, April 24th: "I want to say that I have never attended a District Convention that I more thoroughly enjoyed and certainly none with such wonderful attendance, and where the arrangements for the entertainment were so perfect. I was so thoroughly surprised at the crowds that came and the good fellow ship. We want to thank you most heartily and sincerely for the splendid effort put forth by you and your citizens, and add our congratulations upon the successful attainment of your ambition to make this the largest district meeting in the history of the organization.

Sincerely Yours,  
HOMER D. WADE,  
Manager

This piece of work, this success in our undertaking, is just an example of what can be done when we get the co-operation of the entire citizenship. We did get practically 100 per cent co-operation on this project, and it was put over in a big way. Several news papers carried head lines the following day that read something like this: "District Convention

at Tahoka Breaks All Records." That is splendid advertising and is well worth the effort put forth to get it.

The Fair Exhibits Committee of the Chamber of Commerce has formulated plans for the organization of a Lynn County Fair Association, naming a Director from each rural community, two from Wilson, three from O'Donnell and seven from Tahoka. The Committee has named the directors and a meeting will be called in the near future to complete the organization. The Directors from Tahoka are Mrs. R. W. Fenton, J. K. Applewhite, Claude Wells, Chester Connolly, Taylor White and Emory Nance. With a good sound Fair Association there is no reason that Lynn County should not have a good County Fair. The first thing is to begin thinking about securing permanent Fair Grounds. Land values are not going to decrease in this county, so the longer you wait to buy, the more the land is going to cost. Without a permanent Fair Ground, practically half of the expenses of the fair is spent for temporary building, fencing, rentals on tents, etc. Secure a Fair Ground and begin building for permanency. If we will put our shoulders to the wheel and work there is no reason why we cannot have the best County Fair in West Texas. People do things about like they want them done. How do you want the Lynn County Fair put on?

The Board of Directors at their last meeting appropriated \$6.00 to purchase certified grain sorghum for the 4-H Club Boys of Lynn County. This was money well spent, and will show the people of the county that the Chamber of Commerce is really trying to promote better farming. It is through mediums such as these that we hope to draw the farmers to Tahoka.

The Chamber of Commerce has recently had two requests for samples of the Silica which is deposited south of town in order that tests may be made of it. The inquiries came from people who are manufacturers of Silica products in other states. Samples were forwarded to each of the parties making the requests.

There is a movement on foot by the Highway Department to ask Lynn County for the right-of-way through Lynn County for Highway No. 9. Their proposition is that Lynn County grant the right-of-way and let their engineers pick the location and the state will build a road bed that will be ready for hard surfacing. The Commissioners Court has refused to act on the proposition for two reasons, one that they have asked for a 100 foot right-of-way and second that the road which would be satisfactory to the Commission would pass through the western part of Tahoka. The Commissioners Court should be congratulated for the position which they have taken to protect the interest of Tahoka and Lynn County.

The Civic Committee of which Emory Nance is Chairman wishes to urge that every citizen of Tahoka help to put over the sidewalk building program. City free mail delivery is being held up because of the lack of sufficient sidewalks to meet the requirements of the Post Office Department at Washington.

**WHY NOT FEED MORE OF IT?**

A newspaper report from Tahoka Texas, says:

"More than 500 carloads of maize, Kafir and other sorghum grains have been shipped from Tahoka this season. One hundred cars are yet to be shipped."

This report was sent out as a news item, and probably with some little pride, because it shows that the Tahoka country is productive. Shipping 600 carloads of grain sorghums from one station appears to be evidence of industry on the part of the producers and something to boast about. But is it?

Grain sorghums have but one use. They are grown for livestock feed, and somewhere in the country these 600 carloads of grain shipped out of Tahoka will be converted into meat and the fertility removed from Lynn county soils will be added to the soils in other States. After awhile Lynn county soils, through the one-crop system, will cease to produce profitably, and as the rainfall is not sufficient to make it profitable to use commercial fertilizer, the farms of today will be turned back to pastures or abandoned.

Lynn County produces some of the best Hereford cattle to be found in Texas. Thousands of these cattle are shipped to other sections of Texas and to distant States every year. They go to the feedlots to provide a market for feedstuffs produced by Northern farmers. They are finished for the market and some of the meat is returned to Texas, probably to Tahoka, where fancy prices are paid for it.

Inasmuch as Lynn county produces both the cattle and the grain sorghums, and cottonseed meal can also be secured in that section of Texas as well as other feedstuffs, would it not be more profitable as well as more commendable to feed a fair portion of the feedstuffs produced to baby heaves and steers, sending a finished product to the market. It is being done elsewhere, why not at Tahoka?—Farm & Ranch.

**CORRECTS ERROR AND THANKS FRIENDS FOR HELP**

Tahoka, Texas,  
May 5th, 1929.

Editor Lynn County News:  
We wish to correct a report printed in The Lynn County News a few weeks previous so as to reach the many people who so kindly assisted us after the burning of our household on Friday, April 12th. The house six miles south of Tahoka on Highway No. 9 formerly belonged to J. B. Nance but at present the property of V. S. Cassel but occupied at the time of the fire by myself, wife and four small children.

The fire, of unknown origin, occurred about 2:30 in the afternoon seemed to start in the roof at rear of building. My wife was on the front porch, children at filling station out on highway. Mr. Cassel and a negro helper were working on a plow near the barn when the fire was discovered. It seemed to have already gained considerable headway,

and all efforts were in vain. It was consumed in a short while. We had no fire insurance on our household goods. Mr. Cassel had some insurance on the building.

We wish the people who so readily donated to our welfare to know that we thank each and every one of you. Especially do we thank our friends from Tahoka, where we lived last winter, for remembering us at this time. And to the Sunday School class, we wish we might know each of you better.

The new residence erected by Mr. Cassel is near completion. We moved in May 1. Hoping no such calamity will ever befall you, may God's richest blessings go with you. We are

Sincerely,  
R. L. SAXON AND FAMILY

**MR AND MRS ALLEN ARE ELECTED TO TAHOKA SCHOOL**

Mr. and Mrs. John C. Allen have been elected to teach in the Tahoka schools another term, announcement was made last week by the Tahoka school board. Mr. Allen will have science and commercial subjects, and Mrs. Allen will be in the primary department. There is no school band there and Mr. Allen expects to organize a band.

Mr. and Mrs. Allen have been teachers in the Crosbyton schools for the past two years and have accomplished a good work. Mrs. Allen has been in the grammar school and Mr. Allen has had the same subjects that he will have at Tahoka. Mr. Allen organized the school band when he came to Crosbyton and now Crosbyton schools have a first-class high school band. This band has had many calls to furnish music, and have gone to several out-of-town gatherings such as conventions and celebrations where they have furnished music.

In Mr. and Mrs. Allen the Tahoka schools will have splendid teachers.—Crosbyton Review.

**PETTY 4-H CLUB HAS MEETING**

The Club at Petty met last Thursday, May 2nd. We were to have met on the fourth Thursday but on the fourth Wednesday Miss Greenwade worked until she was not able to come the next day.

Miss Greenwade helped us to cut aprons and caps and also taught us to hem-stitch. The Petty girls are a little behind with their work because we didn't get organized until late, but we will catch up soon.—Reporter.

QUITAQUE's entrants in the local City Beautification contest have passed 21, with more entries coming in every day. Prizes aggregating \$50 are to be awarded place winners in

the contest. Judges are to be chosen from town landscaping experts. John Bell, 14, won the Somerset plowing contest at Williton, England.

DEPENDABILITY, SATISFACTION AND HONEST VALUE

# YOUNG MEN AND WOMEN WHO THINK CLEARLY THE GREATEST DEMAND OF AMERICAN BUSINESS

### Bankers Association President Gives the Five Essentials of Sound Thinking in Business—Greater Opportunity Than Ever Before for Young People With Educational Training and Power to Analyze Problems.

By CRAIG B. HAZLEWOOD  
President American Bankers Association

ONLY half a century ago Michael Pupin, a shepherd boy, guarded his flocks by night among the fields of Serbia. Thieves often lurked in the bordering cornfields awaiting an opportunity to make off with a part of the herd. Serbian boys were taught a method of signalling one another for warning and help. Each carried a knife with a long wooden handle which he would thrust deep into the ground and in case cattle thieves approached he would strike the wooden handle. The sound would be transmitted through the ground to other boys some distance away who could hear and interpret the message.

"Why is it," Pupin asked his mother, "that we can signal this way? Why is it the sound can be heard through the ground, but not through the air? Why is it the signals can be heard in the pasture land so much better than in the plowed fields?" The boy's mother could not answer his questions, nor could the village teacher. However, having an eager mind and great determination, the boy decided to go to America, where he might find an education and find out the answers to these and other perplexing questions. Hundreds of other boys under the same circumstances and with the same set of conditions merely accepted these things without once questioning them just because they had always done them that way.

**The Land of Education and Success**  
So a penniless immigrant boy from Serbia at the age of fifteen landed in New York in 1874 and, years later, having worked his way through Columbia University, concentrated the wonder and simplicity of his mind upon the problem of sound, which had puzzled him as a shepherd boy. The results of his thinking—what he has accomplished for the long distance telephone and for radio communication by his inventions—are known to the world over. "It during the past twenty-two years this company had been compelled to do without one invention of Michael Pupin," an official of the American Telephone and Telegraph Company once said, "and yet give the same service it is giving today it would have had to spend at least \$100,000,000 more than it has expended."

These inventions, in which millions of dollars of capital have been invested, were the result of the thinking of a mere country lad who had the simplicity to wonder, the determination to know and the power to apply what he learned.

Stimulating the imagination and thinking is the greatest purpose of education. What American business needs more than anything else is young men and women to think—individuals who are not mentally anchored to tradition, who do not merely appropriate other people's ideas, but who are hard, purposeful thinkers, independent and unprejudiced, with the ability to concentrate and strike straight for the heart of a problem.

**Business Needs Folk Who Think**  
America has astounded the world by its readiness in casting aside traditional viewpoints, disregarding traditional difficulties and pioneering new short-cut formulas in the realm of business. Business is undergoing special changes.  
Business problems are crowding in upon us so rapidly that the executive knows not where to look for adequate help or relief. With the enormous increase in size and intricacy of business affairs the problems have become so complicated and the mass of information necessary to their solution so great that the "days are not long enough." The demand for managerial and executive ability is rushing ahead—the opportunity for young men and women who have the professional training and who develop genuine thinking power is greater than ever.

All business feels the same crying need for the men who see clearly and think conclusively. Wherever we look—manufacturing, wholesaling, retailing, banking, financing—new forces are at work. Vast movements are under way and executives are seeking light upon perplexing problems daily. Let us consider briefly the five essentials of a sound thinker. If I were looking for a young man of exceptional promise I should hope, first, to find a man the simplicity to wonder. Every great advancement in business has been made by men who dared to wonder, who had the courage to inquire into present procedure and who had the audacity to ask whether something that had been done a certain way for a long time might not be wrong. Although the history of America's progress from its very discovery to the present time has shown the value of an inquiring mind, there is still an inevitable tendency in most men to accept in a docile manner the opinions, methods, supposed facts, procedures and processes of the past. With due reverence to the effort, the spirit, the accomplishments of the past, let us make it our rule that everything be looked at with the clear, questioning mind of the scientist.

### SCHOOL SAVINGS BANKING MOVEMENT REACHES IMPRESSIVE PROPORTIONS

Almost 14,000 of America's schools now have school savings banking plans in operation, and about four million pupils are learning systematic savings through this type of thrift, with deposits in excess of \$26,000,000, recent reports of the American Bankers Association's Savings Bank Division show. The schools included in the reports are attended by 4,609,325 pupils, of whom 3,980,237 are participants in the school savings banking plans as depositors. During the year these pupils received interest in the amount of \$947,810 on their deposits.

The reports gathered by the association also show that there are 35 cities in the United States in which a full 100 per cent of the grammar school enrollment is participating in school savings banking. The figures covering high schools show that in 67 cities 100 per cent of the attendance in this class are school savers.

### METHODIST PASTOR RECOVERS FROM SMALLPOX

Rev. R. T. Breedlove, who has been confined to his room about three weeks with smallpox, is able to be on the streets again, the quarantine on the pastor's home having been raised Monday.

So far as reported, this is the only case of smallpox that has developed in Tapoka and the good pastor does not know when or from whom he contracted the disease. It is said that there have been several cases in the country recently.

Brother Breedlove doesn't have a favorable opinion of the malady. Although smallpox rarely has fatal results in these modern days and is not dreaded as it were a generation ago, yet the good minister says that his fever ran high and he vomited like sin. And one of the mean things about this attack was that he thought he had already had the smallpox many years ago. He knows now that the former attack was a joke. This last one was the real thing.

### DEPARTMENT OF LABOR FOR NEGROES ORGANIZED

The colored people of Tapoka met on May 4th, 1929, and set up a Department of Labor and Burial Department under the auspices of the Western Mutual Aid Association. George Bivens was elected chairman of the Burial Committee.

Charles Deo was elected Secretary of Labor. Anyone desiring colored labor will apply to Chas. Deo, who will gladly put them in touch with reliable colored labor.

Anyone desiring to assist in arranging for a Colored Cemetery will see George Bivens. It is our aim to insist upon a Colored Cemetery of Tapoka that will be an honor to the South Plains. We cordially invite the co-operation of every good citizen.

CHAS. DEO, President.  
NETTIE RANSOM, Sec'y.

HERFORD real estate records indicate that within a few years the great cattleman's paradise will soon become the land of the crop grower. The 110 transfers of agricultural land completed around the town has had a total acreage of 48,175 acres or approximately 75 sections, averaging 438 acres.

WHITE DEER has recently organized a chamber of commerce and elected Odis Dean, president, and G. H. Russell, editor of the White Deer Review, secretary. Regular meetings were inaugurated at the Palo Duro Cafe on Mondays.

JUNCTION'S new ice cream plant will have a daily capacity of five hundred gallons of cream and will be as modern as any to be found in the state. All new and the latest machinery is to be installed in the plant which will be a stucco building of Spanish architecture.

Last week we stated that Frank Keltner has accepted a position in a mercantile establishment in Portales. He is in Las Vegas instead.

Look at the bottom, look inside . . . and listen to it!

## GENERAL ELECTRIC Refrigerator

When you buy an electric refrigerator, do a bit of investigating on your own. Look under the cabinet, look carefully inside it, and, above all things, listen to it.

When you look under the cabinet do you find moving parts of machinery or no machinery at all? In the General Electric Refrigerator, you'll notice at once that all the models are up-on-legs. This means an easy job cleaning under them. And it also means that all the machinery is safely scaled away in the air-tight steel

casing which you see mounted on the top of the cabinet.

Look inside. Is there really ample food space? You will find in the General Electric Refrigerator that the chilling chamber is amazingly compact. It actually takes little more space than the trays in which your ice is frozen.

Then listen. This you must do. We want you to judge for yourself the quietness of this remarkable refrigerator. Come in today. Time payments can be arranged, if you wish.

## STRESSES YIELD PER ACRE AND LOW PRODUCTION COST

The average yields of crops in the South, taking the region as a whole, are not more than one-third to one-half of what they should be, according to Dr. H. W. Barre, director of the experiment station, Clemson College, S. C.

Dr. Barre, at the 29th annual convention of the Association of Southern Agricultural Workers, of which he was president, pointed out in his presidential address that yield per acre and production per unit of labor are of outstanding importance in a consideration of cost of production. Proceedings of this convention have just been published.

### Profit or Loss.

"In the case of cotton, cost studies made in South Carolina show that, for each increase of 100 pounds in yield per acre of lint cotton above the average, the cost decreases 3 cents per pound," Dr. Barre said. "This difference in cost of production frequently makes the difference between profit and loss. Our average yields, taking the South as a whole, are not more

than one-third to one-half of what they should be, and there are certain factors that we know are of prime importance in increased yields. Among these we might mention stalks to the acre, probably 20,000 stalks to an acre, more intelligent use of fertilizer, better cultural practices, and more intelligent fight against the weevil. With corn, some studies indicate that it costs \$1.40 per bushel to make 15 bushels per acre, about \$1.00 per bushel to raise 25 bushels per acre, and 75 cents per bushel to produce 35 bushels per acre. The difference in yield is largely due to the amount of available plant food which has been applied as commercial fertilizer or by soil improving crops or barnyard manures. The cost of producing practically all of our staple crops is just about as closely correlated with yields per acre as I have mentioned in the case of corn and cotton. And if we are to meet competition in the future it is absolutely imperative that we increase the fertility of our soils to where we can get profitable yields."

## KIWANIS CLUB OBSERVES MOTHER'S DAY AT LUNCH

A Mother's Day program was rendered at the Kiwanis luncheon served by the ladies of the Methodist Church Wednesday.

Frank Sargent sang a vocal selection appropriate to the occasion with Miss Jackson of Abilene, sister of Mrs. Jack Jackson, at the piano.

Judge Maddox was present as an invited guest and delivered an eloquent and touching tribute to Mother, following which Dr. Townes read a poem on Mother.

The matter of sponsoring another Boy Scout troop and of having an All-Kiwanis and Ladies' night were referred to the board of directors for action.

## KEY ADDRESSES GRADUATING CLASS AT DRAW

R. E. Key of this city made the address to the graduating class of the public school at Draw Wednesday night. Mr. Key was superintendent of schools at Wilson several years and has had several additional years of teaching experience. He is therefore much interested in public education and in young people generally, and we are guessing that his address was much enjoyed by the pupils and patrons of the Draw school.

## E. A. PARK, HOG BUYER SHIPPING MORE HOGS

E. A. Park, local hog buyer, shipped three car loads of hogs to market yesterday, this making a total of forty-nine car loads, or nearly 4,000 hogs that he has shipped since January 1st. Two car loads were shipped a week ago last Friday.

This year's hog shipments have already exceeded the total for the entire year of 1928, forty cars having been shipped last year.

We handle Climax chick feed—scratch feed—egg mash—chick starter—shorts—bran, and bull rolled oats.—Larkin Store, Phone 41.

David Swanberg, an Oakland, California, boy, is very proud of a personal letter received from President Hoover, to whom he had sent a letter of congratulations.

Mr. and Mrs. E. H. Boullion and Elbert, Jr., will leave Friday morning to spend two or three weeks visiting relatives in Arkadelphia, Ark. E. H. expects to do a lot of fishing and have a good time generally. He will be back on the job here on June 1, however.

Best Flour, \$1.75 Sack; High Patent flour, \$1.60 sack.—Larkin House, CALL 240 for furnished rooms and apartments.—Larkin House.

CISCO entertained the Brazos Valley Pecan Growers association on April 27th. J. H. Burkett, owner of the famous Burkett pecan tree from which more trees in West Texas are budded than any other, was present. Burkett was presented a bronze plaque in recognition of his influence on the growth of the industry.

LAREDO begins her shipment of Bermuda onions early and has already shipped over 200 car loads. Special train loads carrying from 75 to 100 cars will leave the town tonight while prices remain good. Then dealers will be prorated as to the amount they can ship in order to prevent the glutting of the market.

The LEVELLAND Ice Company completed the installation of its plant recently and began freezing ice. The ice is clear and I. F. Lea, the manager, states that water in Levelland is particularly adapted to making fine ice according to the methods used. This is a new industry for Levelland and another mark of progress.

Police raided a prize fight in Dresden in which the combatants were two nude women, and more than 200 spectators were arrested.

When 18-year old Jane Gillen of Buffalo was arrested for wearing male clothing, she had three pairs of trousers.

The Lynn County News can still be had for \$1.50 per year—52 issues. We are also still offering the combination of The News and the Dallas Semi-Weekly Farm News for only \$2.00.

The Lynn County News and Semi-Weekly Farm News, 1 year, \$2.00.

## ADJUSTING COTTON PRODUCTION TO MEET MILL REQUIREMENTS

Spinners pay for the cotton they use on the basis of its spinning utility. The higher the grade, the longer, stronger and more uniform the staple, and the better the character of the staple, the more they pay for it. Unfortunately, however, the premium paid for the better cotton frequently is not passed on to the farmer, and the producer of the quality cotton is therefore not rewarded as he deserves.

The need for the adjustment of production to meet the mill requirements is brought out by the Division of Cotton Marketing of the United States Department of Agriculture in reports issued this season for the first time, showing the classification by grade and staple length of the cotton crop of the Belt as a whole and for the several states. A recent report indicates that of the cotton ginned up to February 15, 1929, more than 50 per cent was short staple— $\frac{3}{8}$ -inch,  $\frac{13}{16}$ -inch and under in length. Contrast with these figures those of another report which indicates that 84 per cent of the cotton consumed by domestic mills for the year ending August 1, 1928, consisted of about equal parts of staples  $\frac{3}{8}$ ,  $\frac{15}{16}$ , and 1 to 1  $\frac{1}{32}$  inches.

One of the objects of the National Cotton Show to be held this fall is to stimulate interest in production of better quality cotton to meet the requirements of the mills. The show which is being sponsored by the Sears-Roebuck Agricultural Foundation and the Soil Improvement Committee, the National Fertilizer Association, will be held in three sections, at the Tri-State Fair, Memphis, Tenn.; the Southeastern Fair, Atlanta, Ga.; and the State Fair of Texas, Dallas.

**TAHOKA DID ITSELF PROUD IN DISTRICT CONVENTION**

Without doubt, according to information given out by our citizens who attended the South Plains District Convention of the West Texas Chamber of Commerce at Tahoka last Wednesday, and who have attended most of the others since the organization has been holding these district conventions, Tahoka not only had the largest crowd of any, but gave the best service and the best entertainments. Of course, this is no reflection on any other town, but Tahoka people have been attending others and have learned by experience. They have profited by observation of the weak points of other towns, and strengthened them.

The boys from here all report having a great time, and did their share in entertaining the visitors from a distance. And most of them are now in favor of paving the streets here, saying that on account of the streets being paved, at Tahoka, they were able to stay on the streets all day, despite a fierce wind and were not uncomfortable. It would have been a job to have done so here that day, for it was almost blinding on the streets here at times that day. Some of them say we are not entitled nor should we ask for the convention until we pave.

We have before us a letter from the secretary of the Chamber of Commerce at Tahoka in which he asks us to convey to the citizenship of Brownfield the best wishes of the people of Tahoka for the way our people came over and helped them put over the affair, and promise that at any time they are called upon, they stand ready to return the visit and help us.—Brownfield Herald.

**LITTLE ERRORS EXPLAINED**

All of us are so human that a little error now and then can create a lot of trouble.

In our issue of September 1, 1927, we stated that Supt. M. L. H. Baze held an A. B. degree from Abilene Christian College and the University of Texas.

Somebody questioned the fact that he held a degree. Somebody else wrote to the registrar of the University for information on the point but mis-spelled Mr. Baze's name. The registrar wrote back that they had no record of any such person having ever attended the institution.

A few weeks ago Mr. Baze learned that some people in Tahoka were laboring under the impression that he had never even attended the University. To correct this erroneous impression, he procured the record of his attendance upon both of the institutions above named and requested the publication of the statement signed by the board of trustees which was published last week.

The first error was made by the editor of this paper. We stated that Mr. Baze held a degree from the University of Texas. We were mistaken. He had taken his degree at the Abilene Christian College. The error was insignificant, however, for both are standard A-1 institutions and Mr. Baze had done sufficient work in the University of Texas and in the Abilene Christian College to entitle him to a degree from either institution. In fact, he had done more work in these institutions than was required for a degree in either of them.

The second error was made in the mis-spelling of Mr. Baze's name, which led the registrar of the University of Texas to give out incorrect information as to his attendance upon the University.

Now, the individual who made the inquiry of the registrar did not question the fact that Mr. Baze had attended that institution and did not intend to leave the impression on any one that Mr. Baze had not attended it, but the registrar's reply to his inquiry left that impression, and this impression seems to have gained some degree of currency in the town. This was calculated to do Mr. Baze a grave injustice and hence his desire to have the error corrected.

**Lubbock Woman Is Glad That She Found Orgatone**

Says Her Troubles Disappeared After Taking One Bottle of ORGATONE

"I was in a general run-down condition and couldn't digest a thing I ate hardly, before I started taking Orgatone, but now I can sit down and eat three square meals a day and enjoy them and am gaining in weight every day I live," is the statement of Mrs. R. Wynn residing at 2012 9th Street, Lubbock, Texas.

"I was all run-down in general and was so nervous that I couldn't get but little rest at night. I was awfully constipated and everything I took to relieve it just helped me for a little while and I was worse than ever after a while. I didn't have any appetite at all, and what food I had to cram down myself just worried the life out of me because I didn't digest it properly. A friend of mine recommended Orgatone to me so highly and told me what it had done for them, so I thought it would benefit me and I gave it a trial.

"Well Sir, I feel a hundred per cent better in every way since I finished that first bottle of Orgatone. Why, I can just eat like a farm hand and I have already gained in both weight and strength. I began to pick up in strength and to improve after the first few doses I took and now I can go to the table three times a day and enjoy the biggest meal put before me as well as any woman. When I go to bed at night I can drop off to sleep like a healthy baby and when I get up in the morning I feel as full of life and energy as I ever did in my life. Orgatone is the only thing that is responsible for the remarkable improvement in me, and I gladly recommend it to anyone suffering from a general run-down condition like I was. I am sure glad that I found Orgatone when I did."

Genuine Orgatone may be obtained in Tahoka, Texas at Thomas Bros. Drug Store.

**IT DRIVES OUT WORMS**

The surest sign of worms in children is paleness, lack of interest in play, fretfulness, variable appetite, picking at the nose and sudden starting in sleep. When these symptoms appear it is time to give White's Cream Vermifuge. A few doses drives out the worms and puts the little one on the road to health again. White's Cream Vermifuge has a record of fifty years of successful use. Price 35c. Sold by THOMAS BROS. DRUG

**1930 C. OF C. MEETING WILL BE HELD IN RALLS**

Ralls was named as the 1930 convention city for the district meeting of West Texas Chamber of Commerce after the close of the convention at Tahoka Wednesday, April 24th.

About sixty delegates and thirty-five members of the East Ward Primary Band attended the convention from Floydada. Miss Robbie Archer represented Floydada in the "My Home Town" speaking contest in which twelve other girls and boys entered. First place was given to the Tulsa representative.

More than five thousand delegates attended the convention which is said to be the best ever put on in West Texas during the eleven years that the West Texas Chamber of Commerce has been in existence.

A letter from C. C. Williams, secretary of the Tahoka Chamber of Commerce, to Ed Bishop read in part: "The Tahoka Chamber of Commerce wishes to take this means of expressing our thanks to you, your Chamber of Commerce and your citizens for the wonderful co-operation in making this great convention the success which it was pronounced. The district convention cannot be a success without the cities of the South Plains and your city has shown its spirit. Let's start planning to show the citi-

zens of Ralls that the old co-operative spirit remains on the South Plains."—Floyd County Hesperian.

**SICK STOMACH**

First Trial of Black-Draught Convincing, Says Lady, Who Escaped Suffering By Taking It.

Jackson, Miss.—"My first experience with Black-Draught convinced me that it was a good medicine," says Mrs. Ida Kersh, 311 South Congress Street, this city, who says she has taken Black-Draught for years.

"My trouble," writes Mrs. Kersh, "was sick headache which seemed to be caused by constipation. I used to have a thick, slimy taste in my mouth, and such a tired, bad feeling. This would be followed by headache and sick stomach. I would have to stop my work and go to bed."

"I read about Black-Draught and decided to try it. I found that by taking the Black-Draught in time, I could ward off these sick spells. And so for the last twenty years, when I feel the least bit bad, I take Black-Draught and feel that it has saved me much pain and sickness."

Constipation dams up poisons in the bowels, where they are absorbed into the general system, causing many serious symptoms. Thousands of letters of praise from users of Theiford's Black-Draught, on file at the laboratories where Black-Draught is made, testify to the high esteem in which it is held for the relief of constipation and attendant ills. ### NEW TRUSTEES TAKE OFFICE

R. C. Wood Elected President Weatherford Will Continue As Board's Secretary

At a regular meeting of the school board Tuesday night, four old members of the board retired and new members took their places. The new board proceeded to organize by electing R. C. Wood President, C. B. Townes as vice-president while J. S. Weatherford will continue as secretary.

The new members of the board are R. C. Wood, D. W. Gagnat, V. Clinton, and J. C. Wells, succeeding C. A. Thomas, S. W. Sanford, V. Wells, and E. I. Hill, who declined to stand for re-election. The old members of the board are Dr. Townes, S. D. Sanders and J. W. Sell.

The new board transacted business Tuesday night other than to perfect organization and to hear applicants for places on the board for next year. Another meeting of the board was set for Saturday when it is expected to fill vacancies now existing on the board.

The old board transacted business at the meeting Tuesday, except to wind up some unfinished matters and to canvass the returns, declare the result and in the new members.

One of the last acts of the board was to make a contract with the Sewer Company to connect the Central Ward school sewer system. All the work necessary to connecting up was done to retirement of the old members was not made until the next meeting. The old board also took steps to install additional toilets in the Central Ward but this was a pending matter for the new board to complete.

We wish to take this opportunity to commend the fidelity and efficiency with which the old board served the people of this district, excepted. They have done much for their time and the interests of our schools. We believe that they have succeeded remarkably well. The new board composed of progressive members who likewise have the best of our schools at heart and that they will serve with efficiency and wisdom.

### Seniors Are Honored By Baptist

The W. M. U. of the Baptist Church served a banquet to the graduating class of High School in the dining room of the Church Monday night.

A most excellent program was given. The principal speaker was Dr. G. V. President of Wayland College. Mr. McDonald, some length the hindrance to the program was closed by setting the advantages to be gained by attending a junior college. Wayland, before entering institutions of learning.

Mrs. J. K. Applewhite, chairman of the program, members of the Senior class spoke words of commendation and encouragement. Clarence responded on behalf of the seniors. Two musical selections by the South Plains High School, Tahoka High School, eight of all present, Jackson favored the two piano selections. Mr. Nat Williams, High School for the program was on the program and he did full justice. His humor was his words of wisdom. This was one occasion where the Senior class was on the program.

Besides the members and others already mentioned, Mrs. Baze and faculty members were a most delightful addition to the program.

Orvis Weathers, along with the Hogg family, beginning the program.
