

WIND STORM BRUYS NIGHT DOES DAMAGE

The wind storm Friday night of considerable damage over the county. A large telephone pole in the city was blown down, and a street car on the city street was overturned.

APPROXIMATE DAMAGE

The approximate damage done by the wind storm Friday night is estimated at \$100,000. The damage to the city street car and telephone poles is estimated at \$5,000.

THOMAS BRIGGS, DRUG CO.

and mostly by the wind. The damage to the city street car and telephone poles is estimated at \$5,000.

A number of new brick business houses are to be constructed in Lewis county, according to The Taborian. The city of Tabor is estimated to have a population of 1,000.

The Methodist Church of Tabor is preparing to erect a new parsonage. The estimated cost of the building is \$10,000.

Blindness stood fourth among all diseases of Texas last week, in the amount of building permits issued.

Why Keep Advertising?

When business is slack why advertise?

Did you ever notice that it takes time and persistence to accomplish anything worth while? You can't advertise today and expect to find your store crowded tomorrow, unless you have through constant advertising educated the public to read your ads.

The majority of the people are slow to act. You have to tell them the same thing over and over again before they will heed your message. Advertise now for the business you hope to do next month—it is the cumulative effect that brings results.

For help in your advertising we have Services of Cuts and Ready-written Ads. We'll gladly explain their benefits to you.

ADVERTISE IN

The News

City Bakery Again Open For Business

The new City Bakery is almost complete and the proprietors are today opening for business again. Messrs. W. L. Knight and Henry Nance announce that the bakery will be open for business on Friday, when the public will be invited to visit the bakery and inspect the equipment throughout. Coffee and cake will be served.

A representative of the News was invited to inspect the plant this morning, and demonstrations were given showing how each piece of equipment performs. Even this day, when everything is being done by machinery, it is interesting to watch the processes by which the raw materials are mixed and conveyed into bread and pies and cakes, etc. The City Bakery is a new building with white adobe equipment, designed to be a modern, up-to-date concern.

You will be invited to visit this institution soon.

KANSAS MAN INVESTIGATES SILVER DEPOSITS HERE

Thomas C. Perry of Fortler, Kansas newspaper man and silver prospector, spent several days here last week investigating the silver deposits found on the J. E. Nance section of land six miles south of Tabor. Five different holes were dug in widely separated portions of the land and a thick stratum of silver was found in each instance. In fact, they cover all any place penetrated since through the stratum. Mr. Perry was so impressed that he announced upon leaving that he would be back within a few days prepared to drill through with an auger to determine the depth of the deposit. If convinced that silver exists in large quantities which the preliminary investigation would indicate, and if a deal can be made with the owners, Mr. Perry expressed the intention of mining the deposit, in which instance many men would be employed and an industry developed.

Mr. Perry became interested in this silver deposit through correspondence with C. C. Williams, Secretary of the Tabor Chamber of Commerce.

HIGH SCHOOL RECEIVES ADDITIONAL CREDIT

The following communication of interest to the patrons of the local schools has been received. Mr. M. L. H. Baze, Tabor, Texas, Dear Mr. Baze:

Upon recommendation of the supervisor who visited your school on credit in chemistry will be allowed without submission of material. This method of accrediting was authorized by the Committee on Classified and Accredited schools as a recognition of very superior work. The retention of the credit will depend upon two factors: (1) Whether the school maintains the high standards upon which this credit was granted; (2) whether the material is retained at the school at all times to enable the supervisor to judge the work. It will be congratulated your school upon this evidence of good work. Sincerely yours,

M. M. BLACKMAN, Chief Supervisor of High Schools, Lewis, Texas.

This course in chemistry was given the first time this year under the personal direction of Mr. Baze, who was forced to teach the class in the absence of enough teaching force in the science department. Mr. Allen of Goshport will have charge of this phase of the high school work next year, and Mr. Nathan dividing the time in the science department.

NIGRO MAN AND WIFE PAY FINES FOR AFFRAY

The comical tussle of one Willie Johnson and wife, colored, seems to have been disturbed to the point that both became pugnaous one day last week, and their military operations were brought to the attention of the honor, Uncle Ike. Both pleaded guilty to an affray, and having patched up their differences they returned to their domestic and resumed their amiable friendly relations. The fine fight in which the husband and wife had engaged cost them just one dollar and costs, each.

W. S. Swan is building a new attached residence on W. N. 3rd street. It will consist of five rooms and bath and will be handsomely finished. The estimated cost is \$5,000.

Sixteen registered Jersey calves were distributed to members of the 4-H Clubs of Howard County at Big Springs recently.

Court of Honor Held at O'Donnell

A Court of Honor for the Boy Scouts was held by citizens of Tabor and O'Donnell in the city Sunday night. Quite a number of Tabor citizens were down and participated in the program.

W. M. Walker of O'Donnell served as chairman, and the invocation was pronounced by Rev. J. Joe Wilson, pastor of the O'Donnell Baptist Church.

Comptroller Frank Smith made an able, appropriate presentation, which was followed by singing led by George Kato, assistant scoutmaster of Lubbock.

Tenderfoot badges were awarded by Scoutmaster Clyde A. Ahl of O'Donnell to a number of boys. Second Class badges and certificates were awarded by Scoutmaster Jesse E. Banks of Tabor, and Merit badges by J. P. Apton of O'Donnell.

Tankards were awarded badges were Russell Terrance, Keith Kemp, Jack Gilmore, and Martin Baze, Jr. Frank J. J. Tabor was awarded a badge in the second class.

Following the awards, Scoutmaster Clyde A. Ahl of O'Donnell made a talk after which demonstrations in fire building, by Thomas C. Perry and steel were given, also stethers and re-education demonstrations.

The court was constituted of the following members: O. D. Howard, J. P. Apton, Scoutmaster, W. M. Walker, Clyde A. Ahl, Rev. J. Joe Wilson, all of O'Donnell, and W. S. Anglin, Scoutmaster and Rev. C. E. Johnson of Tabor.

The next court of honor is to be held at Tabor within a few weeks.

FOR WORKING PEOPLE

The best of working people, if they can't get their fair share, they feel disappointed. They feel disappointed. They feel disappointed. They feel disappointed.

A. G. Freeman this week the construction of a new in southwest Tabor. It will of five rooms and be of st. ish.

BLOATED FEELING

And Other Troubles Away After This So-Carolinian Had Taken Black-Draught.

Th. S. C.—I have used Draught, at intervals, for many years," says Mr. J. F. Collins. "I take it for many years. After eating, I would feel light, bloated feeling, and my chest and stomach. I get up my food, and some of me would not agree with me. I would be hungry, but not eat on account of the indigestion would be constipated, too. "Some one told me that I try Black-Draught, which with good results. I take small dose after meals, and like a different person. "I do not have any more of that kind. I can now eat anything I want to, time, and it does not hurt me. "Black-Draught is a medicine. I can recommend others."

Thousands of people have relief, in cases of common flat, by taking a pinch of Draught after meals, and on this treatment for several days. Take Theodor's Black-D. It is purely vegetable and a helpful way, without the use of mineral drugs.

## BRASHEAR & SON'S STOCK

Continues Through Next Week!  
New Bargains Have Been Added!

### Locals

Mr. and Mrs. J. L. Heare returned last Friday from Eureka Springs, Arkansas, to which place they had been called by the serious illness and death of a brother-in-law, Samuel Edge. Mr. Edge had been a prominent ranchman of Miami but had moved to Eureka Springs some time ago for his health. Mrs. Edge and Mrs. Heare are sisters.

A. G. Freeman this week began the construction of a new residence in southwest Tahoka. It will consist of five rooms and be of stucco finish.

### BLOATED FEELING

And Other Troubles Went Away After This South Carolinian Had Taken Black-Draught.

Dr. S. C.—"I have used Black-Draught, at intervals, for about five years," says Mr. J. F. Gilliland, of this place. "I take it for indigestion. After eating, I would have a light bloated feeling, and pains in my chest and stomach. I would not eat up my food, and some things I ate would not agree with me at all. I would be hungry, but afraid to eat on account of the indigestion. I would be constipated, too."

"Some one told me that I should try Black-Draught, which I did, with good results. I take just a small dose after meals, and I feel like a different person. I do not have any more trouble of that kind. I can now eat almost anything I want to, at any time, and it does not hurt me. Black-Draught is a splendid medicine. I can recommend it to others."

Thousands of people have found relief, in cases of common indigestion, by taking a pinch of Black-Draught after meals, and continuing this treatment for several days.

Take Theodor's Black-Draught. It is purely vegetable and acts in a helpful way, without the bad effects of mineral drugs.

**BLACK-DRAUGHT**  
for Constipation  
Indigestion, Biliousness

W. B. Edwards says that the heavy rains last Friday washed some of the fields badly, his own farm in the Three Lakes community suffering considerably. He thinks that terracing must be adopted in this county to preserve the soil as well as the moisture.

Mrs. W. R. Neyland and little son left Sunday to visit relatives in Globe, Arizona, driving through in her new car. Mr. Neyland received a telegram Wednesday morning advising of her arrival there without any mishap or bad luck of any kind on the long journey.

Miss Attie Belle McGonagil's music pupils at Redwine gave a recital at that place on Wednesday night of last week, which was attended by a large crowd, who pronounced the program a great success.

Bill Burleson returned Tuesday from Dallas and Mineral Wells, where he spent several days. Bill says it rained almost every day he was gone—too much to suit him.

W. O. Henderson and C. R. Riley returned Monday from Hot Springs, Arkansas, where they went to take the hot baths. W. O. says he came back feeling better.

J. W. Winters of Whitney is here this week as the guest of the Connolly brothers. He is an old-time friend and a former associate in business.

Mr. and Mrs. W. M. Bushnell and son, W. M. Jr., of Pecos, spent the week end here as guests of Mr. and Mrs. W. R. Neyland.

Oscar Roberts and family are out at Weed, New Mexico, this week enjoying a vacation.

W. O. Thomas was a business visitor to Abernathy Wednesday.

Mrs. W. W. Nicklaus is spending a few days in Amarillo, visiting her parents, Judge and Mrs. F. P. Works.

Glenn Brashear, who spent several months in the employ of J. C. Penning & Co., at Hillsboro but who is now engaged in the insurance business in Lubbock, was a business visitor in Tahoka Monday. He was much pleased with the splendid growth of the town and the many improvements he noted here since leaving Tahoka last year.

The daughter of Mr. and Mrs. G. C. Lindley, Arlise, about thirteen years old, of the Edith community, underwent an operation for appendicitis in a sanitarium in Lubbock the first of the week. She was in a grave condition when the operation was performed but is said to be improving nicely.

Charles Shook returned Tuesday from a trip to Waco and Houston. Charles came back in a new Willys-Knight purchased in Abilene. He reports good crop prospects down state but says they are having floods of rain.

The addition to Hogan's store, 25 by 30 feet, is almost completed and some changes are being made in the front, the show windows being greatly enlarged and the front beautified.

Mr. and Mrs. W. D. Rhea of the Seagraves Signal were here Wednesday on business. They report heavy rains throughout Gaines county last week.

Closing exercises are to be held at the Edith school tonight with an appropriate program. A great crowd of pupils, patrons and visitors is expected and a good time promised.

W. S. Anglin reports that the wind last Friday broke down several of the poles of the Texas Utilities Company in and near Wilson.

Closing exercises of the Dixie school were held on Monday, Tuesday and Wednesday nights of this week.

Mrs. Rex Rogers left Sunday to visit a few days in El Paso.

**JIMMIE SMITH LAMBASTS "NOLAN COUNTY WIPE"**

Last week we published a frantic attack which the Nolan County News made on the "Scurvy County Times" and its editor in reporting the recovery of the Snyder editor's swiped car. Jimmie Smith is entitled to a "come-back", and we therefore publish the following friendly thrust from his paper, lambasting the Nolan County publishers:

"The 'Nolan County Wipe', known to a few paying subscribers around Sweetwater as 'The Nolan County News', took an awful crack at the Times-Signal editor and his 'puddle-jumper' last week.

"Now, the mast-head of that paper shows one Carbolic Sulphurate Boyles as Editor and Luther Rip Van Winkle Watson as Manager, Boyles, we presume being the perpetrator, since having lived in Sweetwater, he knows from experience of the 'bandits' who inhabit that town. Perhaps Luther, who is devilish as can be, wrote it. Anyhow, it was a terrible arraignment of our 'puddle-jumper' and Editor, and if the poor car had sex of any type, we frankly believe that a 'breach of promise' or libel suit could be instituted. However, there was just one thing wrong with the article wherein 'ten empty beer bottles' were mentioned. Boyles and Watson both fully know they were with us when the 'can' was found and they confiscated every bottle—and every bottle was full. Now that's the sort of thanks you get from these newspaper guys."

### South Ward Items

We had a nice crowd at Sunday school Sunday morning but let's try to do better.

There is some sickness in our community but none serious.

Some of the men folks went to the negro ball game Sunday afternoon. Well, we have had rain, and gardening and planting cotton seem to be all the go.

We had a nice time at the close of our school. A splendid graduating sermon by Jesse Eubanks of Tahoka. Five were graduated, Laudell Hood, Sherman Inman, Johnnie Inman, J. O. Lowry, Della Pearl Brewer.

Mr. and Mrs. Carsey have gone to California and other States. We hated to give them up but they will return for our school next fall.

Mrs. Greenwood and children visited Tommie Greenwood Sunday afternoon.

Brother Shepherd preached at South Ward Sunday afternoon.

Mr. Burl House will preach Sunday at 11 o'clock, May 26th. Everybody come out.—Reporter.

### SKIM MILK VS. BASIC MASH CONTAIN 20 PERCENT MEAT SCRAPS FOR POULTRY

Is it more profitable to feed poultry grain and a basic mash containing 20 per cent meat scraps than it is to feed grain and all of the skim milk they will drink?

Who knows? Will yellow corn and skim milk (no mash) produce very satisfactory egg yields?

The Kentucky Agricultural Experiment Station has been digging into this problem under the direction of J. Holmes Martin.

The hens used in the experiment consisted of March and April hatched pullets with the exception of two pens, in which case yearling hens were used because results relative to the hatchability of the eggs were desired. All pens were in the same type houses, had lots of equal size to run in and grit and oyster shell were available at all times. When mash was fed it was always available in a self feeder. Each pen receiving skim milk had it available at all times in a large open pan. Such pens received no drinking water. Fresh water was always available for pens receiving no skim-milk. All pens received grain morning and evening in the straw litter. Accurate trap-nest records were kept.

The meat scraps used in the experiment cost \$4.00 per hundred and the skim-milk cost 4.3c per gallon.

Following is a summary of results obtained:

1. Meat scraps in the laying mash in any proportion from 5 per cent to 20 per cent is profitable for the production of eggs.
2. A mash containing 20 per cent meat scraps will yield more eggs and more profit than one containing only 5 per cent, 10 per cent and 15 per cent meat scraps.
3. Although increasing the proportion of meat scrap in the mash increases the feed cost per hen, it also increases the egg yield, thereby decreasing the cost per dozen eggs.
4. A mash consisting of equal parts by weight of bran, shorts, ground oats and corn meal had no apparent effect in increasing egg production of profits.
5. One gallon of skim-milk had the same value for egg production as one pound of meat scrap.
6. When all the animal protein is supplied from skim milk or condensed buttermilk, there is no advantage in feeding a dry mash containing ground grains and wheat by-products.

7. When breeding hens receive whole grain and run on a well sodded lot (green food) there is little difference in the hatchability of fertile eggs, whether meat scrap or skim-milk is the source of protein.

8. Shelled yellow corn and skim-milk (no mash) produce very satisfactory egg yields.

9. It is not necessary to feed a dry mash to secure high egg yield and satisfactory profits if skim-milk is available as a source of protein.

10. Maximum egg yields and

greatest returns over feed costs were obtained (one year's data) when a mash containing 10 per cent meat scrap was fed in addition to skim-milk to supplement the grain ration.

Total fuel consumption of the Rouge Plant of the Ford Motor Company during the last year was 2,700 carloads, enough to make a coal train 100 miles long.

Plant a tree.

**NOTICE TO THE PUBLIC**

Any erroneous reflection upon the reputation or standing of any individual, firm or corporation, that may appear in the columns of this News, will be gladly corrected when called to our attention.

Many good folks are doing a lot of unnecessary worrying over education. Nearly all the text book writers and most of the scientific authors have no other view of the theory of evolution as a theory of knowledge or of any other matter in the field. We advise our readers for anybody to get all the up-to-date news of the world to get at the source of the trouble. There is no conflict between God's word and the word of men. Most scientists believe in the existence of God and many believe in the deity of Jesus who is called the Christ. They are not attempting to discredit the Bible or Christianity. They are simply seeking scientific knowledge. In the other hand, intelligent and thoughtful relations have no other view of the scientific world. They appreciate the fact that most of our material progress has been due to the discoveries and inventions made by the scientists that the average scientist is not an enemy to Christianity but is merely a seeker after knowledge concerning God's universe. It is the religious fanatic who makes the trouble. He is a hypocrite, materialistic, spiritual scientist, who scoffs at all things spiritual and the love, reverence, respect, fraternal relations, who scoffs at all things scientific.

Let the Bible be the basis of the study of the whole truth. The average student will likely continue to believe in Christianity and the Bible. He will doubtless be compelled to revise his preconceived opinions about both many times as he learns more about the Bible and the teaching of Christ. On the one hand and about the universe and the laws of nature on the other hand, science or the other hand. But most sane and sensible Christians will continue to cling to their Christianity, existing or not existing.

The Texas Legislative Committee passed a bill embodying toward reform of court procedure in civil cases. The bill's principal objective was not to be achieved. The measure passed merely provided for an advisory judicial council "to make a study of judicial procedure in civil cases and to make suggestions for the improvement of the same. The council is to consist of the chief justice of the supreme court, two civil appellate judges, two presiding judges of judicial administrative districts, all to be elected by the governor, and chairman of the House and Senate judiciary committees. Seven practicing attorneys and two laymen shall also be appointed by the governor as members of the committee. The bill does not go far and may never get anywhere in the matter of court reform but it is a step in the right direction. Possibly such a committee may work out something tangible to present to the legislature, and then the legislature can pass or postpone the whole work as it sees fit. The chances seem to be that the present legislature would take the present bill over.

Some or later (thinks) is going to meet more often—and as is not going to be much later, according to reports coming to us. We do not know what steps, if any, the city council is planning in order to meet the emergency when it arises, but we are sure that they are not asleep on the job. The wise make provisions for the future, and we believe that steps should be taken at the earliest date possible to solve the water problem for Tahoka for years to come.

Why didn't you go? You could give pleasure and leave a pleasant memory. It is encouraging to feel that you were not forgotten. This person will be remembered by those out in the busy world. It would be a public thing to number certain identity persons on your regularly calling list. You might be surprised at the pleasure you would give and that you would get out of it—the blessing and the benediction of the aged. It is a small little thing that could do much good and that would cost very little to do so. You might as well do it now as never.

Key George W. Hays, in the course of his graduation class of the Tahoka High School recently made an observation that many of our citizens leaders need to ponder over the speaking of the theory of evolution. He said that the scientists may be wrong but they are not foolish. In holding them up to ridicule as mistakes sometimes do, they frequently discredit themselves rather than the scientists in the estimation of college and high school students, and thus unwittingly do a grave injustice to the students and to the Christianity which they seek to disintegrate and destroy.

Spoken of grammatical errors, we noted a news dispatch in Monday's Dallas News, under a New York date line, in which reference was made to "three notes" issued by the oil and gas board. This is just such an error as is an often made by people who profess to know something about grammar, even by teachers occasionally, that we here and now take occasion to set everybody right. The phrase should have been written "by her and her husband" since the adjective case and not the nominative always follows a preposition. This is lesson Number five. No charges, thank you.

**WHAT OTHERS THINK**

By a decisive vote the Texas legislature recently turned down the bill providing civil service for state employees and this probably means the end of civil service efforts for the present legislature. Civil service proposals to inject business methods into the handling of the state's business. Lack of civil service provisions means that political means of merit will continue to be the policy in the choosing of state employees. Civil service for the state means the same as commission-manager systems for cities. It means that men who have made good will be continued in their places in respect of a change in administrations. It means that men who do not make good at their jobs will not be retained irrespective of how long they have been in the present administration. Politics oppose civil service and oppose city manager government. Business approves both for they make for efficiency in government affairs. —Hamilton Herald-Record.

Judge James Wilson, federal judge of this district and one of the distinguished jurists in the Southwest, made some very pointed remarks and offered some splendid advice at the opening of the federal court in Amarillo this week. Judge Wilson called special attention to the Jones law dealing with violation of the prohibition amendment, and pointed out that it was a penitentiary offense to have liquor in one's possession. From Washington to the most remote section of the nation comes evidence of a new and powerful determination to enforce all laws, and no exception is to be made in enforcing prohibition. Prohibition is founded on morals and economy and our people must see that it isn't regarded lightly. And they will. —Cleveland News.

Tip in Washington they are having a hot argument concerning Mrs. Longworth and Mrs. Gann, trying to decide which is entitled to sit up near the head of the table near the chicken and dumplings and which is supposed to sit down at the foot of the table by the pickles and beans. Washington society cannot agree as to where Mrs. Gann belongs. Our society editor, after seeing Mrs. Gann's picture, decided that she belongs behind the door. —Rutan Advice.

You doubtless know some old persons for whom the time passes slowly. Not many calls, not many friends who go to see them. About all they do is think of the past, present and future. At present they have little to look upon with pleasure. They are old and may think that aside from their near relatives they are forgotten. Also, but still dead to a number of people who should be kind to say the least. These side-by-side when you know would greatly appreciate a visit from you.

**Locals**

Mr. and Mrs. Cliff Thomas and son, Skiles, attended an old settlers' reunion and barbecue at Lamesa Monday night. Mr. Thomas was engaged in business in Lamesa a couple of years about twenty years ago and has many friends and acquaintances there. He reports a great time Monday night, when he met many of them again. Besides the "eats" and the social converse, a nice program of music and speeches was rendered and much enjoyed.

Miss Zuella Fox, who was one of the seventh grade teachers in the Tahoka school the past year, leaves for her home at Weatherford this week. Miss Fox will return next fall to take charge of Grassland school for the ensuing year. She was principal at Grassland two years before coming to the Tahoka schools.

Prof. and Mrs. Nat Williams are the parents of a fine young lady, weight, ten pounds, who came into their home early Tuesday morning. Prof. Williams just closed his school work here Monday night but found himself under new responsibilities early the next day. The little Miss has been named Natalynn.

Mr. and Mrs. D. C. Davis and daughter, Mrs. J. O. Tinsley, returned Saturday from Eastland, where they visited a few days. They were accompanied home by Mrs. Davis' mother, Mrs. Madding, who will spend the summer here.

J. D. Donaldson, Jr., son of Mr. and Mrs. John Donaldson, developed a case of scarlet fever Monday. The residence has been quarantined and some of the neighbors have been vaccinated. It is hoped that no other cases will develop.

Hooper Cook of Lubbock was a guest of the editor Monday afternoon. Mr. Cook was a real friend in the years long ago, when the editor was little more than a kid, down in Bell County. He is one of God's noble men, and it was a real joy to us to meet him again.

A chartered Training School for Nurses is conducted in connection with the Sanitarium. Young women who desire to enter may address the Lubbock Sanitarium.

Prof Taylor White delivered the address at the closing exercises of the public school at Plains, county seat of Yoakum County, on Thursday night of last week. There was one graduate from the high school and several from the seventh grade.

Mrs. A. B. Seroyer and daughters, Misses Mattie Will and Mary, left Tuesday with Miss Faye Pitts to visit friends and relatives in Cleburne for some time, after which they will visit in Opelika and Tuskegee, Ala.

Mr. and Mrs. Cody Bragg are the happy parents of a son, who came to make his permanent abode with them last Friday morning.

Mrs. G. B. Dixon of Ballinger spent last week here as the guest of her sister, Mrs. J. S. Wells, and other relatives.

Bernard Head of Harlingen is here visiting his uncle, Joe Nevill.

H. S. Barnett is here visiting his son, B. H. Barnett, and family.

**YOUNG PEOPLE'S STUDY CLASS**  
A special class study period, for development of young people is being conducted in the Church of Christ auditorium each Sunday evening from 7:30 to 8:15.

All young folk interested in Bible study and development for Christian service are cordially invited and urged to join in these services.

An outline for Sunday evening, May 26th, included, leading participants, is as follows:

- Subject—The Bible and Its Books.
- Leader—Mr. L. A. Nowlin.
- Song Leader—Robert Benson.
- Prayer—W. A. Kercheville.
- Definition, Origin and Purposes of the Bible—Mr. Nowlin.

Its Main Divisions and Approximate Number of Writers.—Ernest Lamastus.

- Subdivisions.
- 1. Law and History (Genesis three Esther)—Mrs. Wilkinson.
- 2. Poetry and Prophecy (Job thru Malachi)—Virgie Richards.
- 3. Biography and History (Matthew thru Acts)—J. C. Eubanks.
- 4. Letters and Prophecy (Romans thru Revelation)—Thelma Taylor.

**"We're Grateful To Orgatone,"**  
—Lubbock Man

Employee of West Texas Gas Co. Gives Orgatone Praise For His Wife's Health

Among the many Lubbock people who have recently expressed their hearty and sincere approval of Orgatone after putting the medicine to a practical test and deriving convincing results from it, none are more genuinely enthusiastic, than L. L. Taylor of 2002 Avenue W, Lubbock, Texas, who is an employee of the West Texas Gas Co., and is well known in this section.

"I certainly do give Orgatone credit for my wife's improvement," said Mr. Taylor, "for it has helped her over a nervous, run-down condition, that has honestly been with her for ten years and the last few years, she has been getting worse, until she simply felt like she would never find a medicine that would do her any good.

Her stomach just seemed to go back on her entirely for almost everything she ate would ferment and form sour gas and give her a puffed up feeling. She had severe pains in her back, which was true to the bad condition of her kidneys. She had a bad case of constipation and couldn't sleep well at night and she became so badly run down she was not equal to anything, and wasn't hardly able to do her work.

"Orgatone was recommended to my wife, and she decided to try it. She has taken about three bottles and it was just the medicine for her case. Her food agrees with her perfectly and now she is not bothered with gas or nervousness in the least. She sleeps just fine and if there's any reason to believe she is not in perfect health I don't know what it is. She is gaining in weight and says she feels better than she has in ten years. We know where all the credit is due we're both grateful to Orgatone. She took all kinds of medicines and I had several doctors with her, but Orgatone was the only medicine to restore her health, and I am glad to give this statement for we cannot say too much for Orgatone."

Genuine Orgatone may be obtained in Tahoka, Texas, at Thomas Bros. Drug Co.

**WHEN THE LOCAL MERCHANTS DO NOT, THE MAIL ORDER HOUSES DO**

Recently in a radio talk given by John H. Casey of the University of Oklahoma School of Journalism, quoting the statement of the advertising manager of the country's largest mail order business, who says:

"We have a bureau whose duty is to read each week the country newspapers from all over the land. This bureau looks over these newspapers, and when we find a town where the merchants are not advertising in the local papers, we immediately flood that territory with our literature. It always brings results far in excess of the same efforts put forth in territory where the local merchants use their local papers."

**CITY ELECTION NOTICE**

Whereas, the city of Tahoka is in serious need of funds for the extension of the water works system and street repairs and maintenance that cannot be provided for by regular tax levies; and,

Whereas, the city of Tahoka has in a special fund created by the sale of its electric light and ice plants approximately \$4,300.00, which said sale authorized by the election held for that purpose provided that the funds derived from such sale should be used to take up and retire city outstanding indebtedness, but said fund cannot be used for that purpose at this time for the reason that its bonds and warrants cannot be bought at par; and,

Whereas, the City Council is of the opinion that the above named amount should be diverted to the street fund and the water works fund, provided the same shall be approved by the legally qualified voters of the city at an election held for that purpose; Therefore, in accordance with the premises and the order of the Board of Aldermen of the city of Tahoka, an election is hereby called to be held at the Courthouse in the city of Tahoka on Tuesday, May 28th, 1929, to determine whether a majority of the voters of said city are in favor of the diversion of funds as herein named.

A. L. Lockwood is appointed presiding judge of said election and he shall appoint such assistant judges and clerks as he may deem necessary.

The polls for said election shall be opened at 2:00 o'clock P. M. and close at 6:00 P. M. on said date.

Persons favoring the diversion of said fund for said purposes shall have written or printed upon their ballots the following:

"For the diversion of funds for street improvement and waterworks extension."

And persons opposed to the diversion of said funds for said purposes shall have written or printed upon their ballots the following:

Against the diversion of funds for street improvement and waterworks extensions."

All persons who are legally qualified to vote in the city of Tahoka under the laws of this State and who are property taxpayers to said city shall be entitled to vote at said election.

C. H. CAIN, Mayor.

### COUNTY JUDGE ORDERS MARRIAGE MEXICAN COUPLE

It never gets too easy for Judge J. E. Grider to get his work done, and his duties seem just as full when seated at the head of the humble Mexican as when seated at the head of the proud Caucasian.

Judge J. E. Grider received an incident call Friday night while the time was yet falling and the streets were flooded with water, he hurried down to the court house. According to the report the husband and wife, who were married in the state of Texas, had come through the mud and the rain to have the ritual knot fast before another and should rise in the seat to dispel the mist of the morning.

And the judge, too, was happy but he felt that he had earned his money.

### JUDGE MORGAN CRITICIZES SENATE BILL NO. 356

San Antonio, Texas, May 16th, 1929.

Senate Bill No. 356 passed by the legislature of Texas, effective February 7th, 1929, is a sad comment upon poor old Texas, and a reflection upon the lawyer members of the legislature of the state. Under the provisions of Senate Bill No. 356, any party to any civil, criminal or probate in any trial court in the state, is entitled to continuance "as a right" by the simple process of filing his affidavit, to the effect that his attorney is a member of the legislature, "now in session" together with the affidavit of such attorney that he has been retained as counsel by such applicant and no corroboration of such fact is required, nor can such continuance be charged against such applicant in all future applications. Under the provisions of Senate Bill No. 356, any defendant in any criminal case may work a continuance, and every such defendant may employ one and the same lawyer member of the legislature, Texas

never has more than 100 indictments issued, and more than 250 county trial courts. The regular session of the legislature has passed, the first extra session is now holding. Apparently there will be one or more extra sessions this year. The Judiciary Committee of the present legislature is composed of about 21 lawyers. (Boiled down to the legal sentence, Senate Bill No. 356, was and is for the benefit of lawyers and criminals, trial judges, state attorneys, grand jurors, witnesses, and the public, to the contrary notwithstanding. No wonder that crime is so prevalent in Texas, and that so many law holes exist to delay and defeat justice. No doubt but a bill will be introduced to abolish capital punishment, and for more and better facilities for granting pardons, paroles and fullbacks to convicts in Texas, and for more encouragement, inducement and protection for criminals in Texas. Literate and honest people might suppose that the state Bar Association of Texas would naturally denounce Senate Bill No. 356, and also that the intelligent press of Texas would righteously condemn it, but apparently both are deadlier. The late lamented Joe Bailey, while a member of Congress, met his "Walter" by representing the Western Petroleum Company. Will it be necessary to prevent lawyer members of congress and the legislature from practicing law in any court while serving as law makers? If the Bar Association of poor old Texas endorses Senate Bill No. 356 it should quit.

### N. E. MORGAN SLAT'S DIARY

Friday—An Emmy was tickled at a house when we drove up to the city and went around to see one of Mr. Kie's chicken coxens. (When she came to the door she said to me: Well, what ever brings you up here, and go right on and well, we want out seeing the sties and we thought we would drop in and see you later. My was party mad to go the rest of the evening.

Saturday—Ester being a little party down at her house tonight and we turned on the phonograph and danced to the music. I danced the last dance with Ester and then later on in the evening I sat her out I have the last dance with her and she replied and said to me: You have had the last dance with me. Some times I think maybe she is getting kind absent minded at times or sum thing.

Sunday—Pa was talking about a meeting up with an old friend yesterday which he had had in 20 years and me and how many children did he have and Pa said Well, he has two boys living and one married. A dinky look around.

Monday—There was a tramp came to the door this morning and when An Emmy answered his knock he sat her for something to eat and he said he didn't have a penny to his name. An Emmy said Well I wouldn't worry about that Mister because pennies won't buy you nothing nowadays any ways.

Tuesday—The fellow with works at the news paper where pa has got a job came in this morning with a sore thro and a black eye. When pa sat him down he said it was Comstock's meaning powder and rouge. Pa said why I never heard of cosmetics doing that and the fellow

kindly lifted and said: Well if you wife ever finds it on your shoulder you will find out-mommy.

Wednesday—Pa was a telling an incident about Mrs. Lora Dyer to me. On her twenty-first birthday she set out to go to a party and she was still thirty-two years old. That was just nineteen years ago and she is still thirty years old. Pa says: Well anyways she is a lady which keeps her word.

Thursday—An Emmy was sitting here today if she ever made up her mind to get her sweet heart with her over across the creek. He said they had made it up temporarily and was going to get married Wednesday day.

### CREAMERY SHIPS ENT LOAD OF BUTTER AND EGGS

The first carload of butter and eggs to be shipped by the Slaton Creamery since its formal opening on April 27, was loaded on Wednesday, and started on its way to New York markets, according to W. M. Randle, plant manager.

The car was three-fourths loaded with butter and one-fourth with eggs. Mr. Randle estimated. He said yesterday that heretofore the creamery will ship practically a carload of butter per week, if the supply of cream continues as good as it has been recently.

Cheerful operations day and night at the creamery now, and the second butter maker reached here Wednesday to take charge of the night shift. He is Jerry Milligan of Frederick, Okla., who has been making butter at the company's Frederick plant. Ted Exner is the other butter maker and he is in charge of the day shift.

Mr. Randle, the creamery manager, said yesterday that he is exceedingly well pleased with the progress the creamery is making. He said the plant is proving highly popular with the producers of the territory, and that considerable cream is being shipped in from other points, also.

"If Slaton people want to help in the dairy industry, it would be fine for them to specify that they want Red River Premium butter when they order from their grocer. And, if the grocer should not have it, it would be well to remind him that nothing but Red River Premium butter will be acceptable," Mr. Randle said in commenting upon the value of building up the local market for the Slaton creamery product.—Slaton Slatonite.

### BILL NYE OPENS HIS COW FOR SALE

For many newspaper readers of 30 or 40 years ago, the humor of the late Bill Nye was a refreshing and always a welcome feature. Below will be found one of his characteristic productions that first appeared at least 30 years ago and still finds its way into print every now and then. He lived in Asheville, N. C., at the time and it is not at all unlikely that the advertisement was based on some real exigency in the home economics of the Nye family. At any rate, here is a sample of what he could do as an advertisement writer when he wanted to dispose of a cow:

"Owing to ill health I will sell at my residence in township 19, range 18, according to government survey, one pink raspberry cow, age eight years. She is a good milker and not afraid of the cars or anything else. She is of undaunted courage and gives milk frequently. To a man who does not fear death in any form she would be a great boon. She is very much attached to her house at present by means of a stay chain, but she will be sold to anyone who will agree to use her right. She is one-fourth shorthorn and three-fourths

### Did You Know:

1. That one of the most complete, modern laundries and dry cleaning plants is so close to you as your telephone.
2. That your clothes are carefully sorted, steam white, ironed, and pressed.
3. That your silk, wool, linen, etc., are carefully bagged to prevent sun and washed separately.
4. That no chemical, except soft water and the best soap are used.
5. That your clothes are cleaned through eight waters.
6. That your hand underwear is given special pressing.
7. That the wash man is a trained expert.
8. That we are always ready to make your work satisfactory if it is not already so!

Call 90 for the "SOFT WATER LAUNDRY"

### Your Motor Valves

They are the heart of your motor. When they are filling your whole motor is sick. There was a time when valves were treated by grinding them all with grinding compound. But no more. Not in first class shops like ours. Why use grinding compound, a violent abrasive, on the valves when motors are equipped with air cleaners, oil purifiers and gasoline filters to keep dust, dirt, and grit (abrasives) out. We don't! We use the SWAN-WAY System—a scientific system of valve correction in which grinding compound is entirely eliminated. Drive in—let us show you! We can suit motor—make 'em run like new.

### TEXAS NEW MARRIAGE GOES INTO EFFECT

Texas' new marriage law goes into effect today. It makes a material change in the procedure of obtaining a license, the law passed in 1927.

Article 4603-A.—For ascertaining all facts required by the statutes, the county clerk shall examine the application for the license, the age, and residence, and subscribed to by the applicants. In case of absence when application affidavit shall be made either than the contract to marry and residence party. Said affidavit of the county clerk's office shall be made before the license is issued immediately upon registration for a license clerk shall register it for that purpose and if of intention to marry the expiration of three months after the date of the notice of intention county clerk may issue Article 4604-C.—Before the man shall produce from a reputable lic to show that he is fit for marriage.

The law as passed sixty-day from adj which would make it five June 15, 1929, this has it figured out for

ALL DAY SINGING DIXIE N

Prof. H. M. McEl... requested of the Public... announce that the bi... all the world will b... next Sunday. The s... gin at about 10 o'cl... and will continue... as hour or more w... eating and resting... will "go at it again... as long as they wa... is going to be there... era says, and he s... guests, almost com... everybody bring lunch... that the Dixie folks... of good things to e... they could not unde... anybody who might... had better put a bi... at when you start... sing all day.

Then, before we... era's announcement... along came M. C. J... had, president of t... singing Convention... us about a column... telling about the bi... will be held at Di... He says there will... singers there and... have a gal-lorious... come.

**TEXAS NEW MARRIAGE LAW GOES INTO EFFECT JUNE 15**

Texas' new marriage law, which County Clerk Tom W. Deen understands goes into effect on June 15, makes a material change in the procedure of obtaining a marriage license, the law passed reading as follows:

Article 4605-A.—For the purpose of ascertaining all facts required under the statutes, the county clerk, at the time the license is applied for, shall examine the applicant or applicants for the license under oath as to age, and residence, which shall be attested to by writing by the county clerk, and subscribed to by applicant or applicants. In case either party is absent when application is made an affidavit shall be made by a person other than the contracting party as to age and residence of the absent party. Said affidavit to be filed in the county clerk's office.

Article 4604-B.—Application for license shall be made at least three days and not more than thirty days before the license shall be issued. Immediately upon receipt of an application for a license the county clerk shall register in a book kept for that purpose and marked "Notice of Intention to Marry," and after the expiration of three and not more than thirty days after the signing of the notice of intention to marry the county clerk may issue said license.

Article 4604-C.—Before the county clerk shall issue a marriage license the man shall produce a certificate from a reputable licensed physician to show that he is free from venereal disease.

The law as passed, carried the ninety-day from adjournment clause which would make it become effective June 15, 1929, the way Mr. Deen has it figured out from the calendar.

**MASON AND DIXON'S LINE**

**Few Southern People Know The Details of This Most Talked Of Imaginary Line**

Nearly two centuries after the trouble began, which caused this survey to be made, Louis F. Hart recently visited the border line between Maryland and Pennsylvania, in a pilgrimage to the original Mason and Dixon's line. Mr. Hart not only visited the actual spot where Charles Mason and Jeremiah Dixon started their famous survey but spent a great deal of time gathering data and illustrations around which to build the story of the famous piece of engineering.

Using Holland's, the Magazine of the South, as his vehicle, Mr. Hart says, "Time changes all things. Old hatreds die and new loyalties are born, but the demarcation between peoples—especially when it goes back as this does, to the Roundhead and Cavaliers of Cromwell's day—cannot be wiped out in an hour. Customs and modes of thinking remain when material landmarks have crumbled and vanished. Thus it is that in setting out to relocate Mason and Dixon's Line after so many years, we must take into account not only the bench marks which took from the estate of Charles, Lord Baltimore, three thousand square miles or so, but also those which give double unity to some forty million people living in the South today.

"Opinion may differ as to where the line should run, but no one can deny that it is there. Nor would anyone go so far as to say that on one side dwells the practical, and on the other the ideal. Humanity is too imperfect to achieve the absolute in either direction, were that result desired. The fact remains that the home of romance is the South, her threshold guarded with uncompromising loyalty by her sons."

**BROWNFIELD VOTES BONDS FOR PAVING**

BROWNFIELD, Texas, May 20.—In the largest vote ever polled in the city, Brownfield citizens approved the \$60,000 paving program here today by a vote of 215 for and 99 against, a majority of more than 2 to 1. The program provides for paving of approximately twenty blocks.

The city square and main street from the Santa Fe station to the high school will be paved in the program. Mayor Joe J. McGowan will ask for bids on the work within the near future.

**3 Glasses Water For Constipation**

One glass of water is not enough—take three glasses one hour before breakfast. Much better results are obtained by adding a teaspoonful of simple glycerine, saline compound (known as Adlerika) to each glass.

Adlerika acts on BOTH upper and lower bowel and removes old waste matter you never thought was in your system. Stops gas and sour stomach in TEN minutes! Relieves constipation in two hours—Thomas Bros Drug Co.

**MRS. FORRESTER OF WILSON UNDERGOES OPERATION**

Mrs. R. C. Forrester of Wilson, well known and having many friends in Tahoka, underwent a most serious operation Monday morning in a sanitarium in Lubbock. R. E. Key, who is a close friend of the family, was at the sanitarium at the time and he reports the patient as doing well, apparently, when he left there Monday afternoon. Friends here and at Wilson hope for the patient's speedy recovery.

At the Kiwanis luncheon here Wednesday noon, Supt. M. L. H. Baze read some statistics showing as well as figures can show the progress and improvement made in the work being done by the Tahoka public schools during the past three years. These figures showed a healthy increase in the total enrollment during this period but showed a much larger increase in the average daily attendance and a much larger proportion of pupils being promoted during the last year than the first.

Petroleum and natural gas represent the most important mineral resources of Texas, but granite, marble, graphite, gold, silver, copper, iron, ichthyol, lead, zinc, tin, quicksilver (mercury), sulphur, borax, gypsum, and mica are found in either the Central Mineral or the Trans-Pecos region, while coal and lignite are produced in many parts of the state. Potash and other valuable minerals are known to exist in Texas, but have not been developed. Asphalt, carbon black, celestite, cement, clays, including several deposits of kaolin, Fuller's earth, gas, natural gasoline, gault, lime-stone and lime, manganese—all are produced in Texas.

The first shipment of Wise County cream ever sent North was the carload recently shipped by the Tennessee Dairies from Decatur to Philadelphia. The cream tested 40 percent butterfat and it was shipped in a refrigerated express car. Skim milk is being processed into powdered and condensed products at the Decatur plant, which is handling 35,000 pounds of milk daily.

**CYCLONE AT HACKBERRY DOES SMALL DAMAGE**

A miniature cyclone descended upon Hackberry about five o'clock Sunday afternoon, the worst damage being on J. E. Noack's farm, where all barns, chicken and other outbuildings were razed, the windmill demolished and a portion of the wheel hurled through the double wall of the house; killed a great number of chickens wringing the necks of some and blowing the feathers off of others, according to eye witnesses, tearing up the pickett fence, but missing trees a few feet away where the men were clinging for safety. The women rushed to the storm cellar. Freaks of the storm included that of lifting a cow into the air about eight feet and dropping her, apparently unhurt, lifting the barn from its foundations and turning it around without damaging it greatly, and rolling up the hog pen fence.

The wind also tore up feed stacks on the W. I. Huff farm and broke out window lights at Carl Foster's place.

Neighbors are helping Noack repair the damage wrought by the cyclone.—Southland Sun.

Every business concern in Tahoka except three holds membership in the Tahoka Chamber of Commerce, according to Secretary C. C. Williams. We believe this is as excellent a record as may be found in any town in Texas.

Although relatively a new crop, Texas now ranks third in citrus fruit production in quantity and first in quality.

Plant a tree.

**IT DRIVES OUT WORMS**

The surest sign of worms in children is painless, lack of interest in play, fretfulness, variable appetite, picking at the nose and sudden starting in sleep. When these symptoms appear it is time to give White's Cream Vermifuge. A few doses drives out the worms and puts the little one on the road to health again. White's Cream Vermifuge has a record of fifty years of successful use. Price 35c. Sold by

THOMAS BROS. DRUG

**ALL DAY SINGING AT DIXIE NEXT SUNDAY**

Prof. H. M. McEachern, Superintendent of the Public Schools at Dixie, requested a few days ago that we announce that the biggest singing in all the world will be held at Dixie next Sunday. The songfest will begin at about 10 o'clock in the morning and will continue till noon, when an hour or more will be used up in eating and resting. Then the singers will "go at it again" and continue as long as they want to. Everybody is going to be there, Prof. McEachern says, and he suggests—no, requests, almost commands—that everybody bring lunch. He intimated that the Dixie folks would have lots of good-things to eat there but that they could not undertake to feed everybody who might come. So you had better put a biscuit in your pocket when you start and go prepared to sing all day.

Then, before we got Mr. McEachern's announcement ready to print along came M. C. Richey of Grassland, president of the Lynn County Singing Convention, and asked us to use about a column on the front page telling about the big convention that will be held at Dixie next Sunday. He says there will be a lot of good singers there and they all expect to have a gal-lorious-time. So you come.

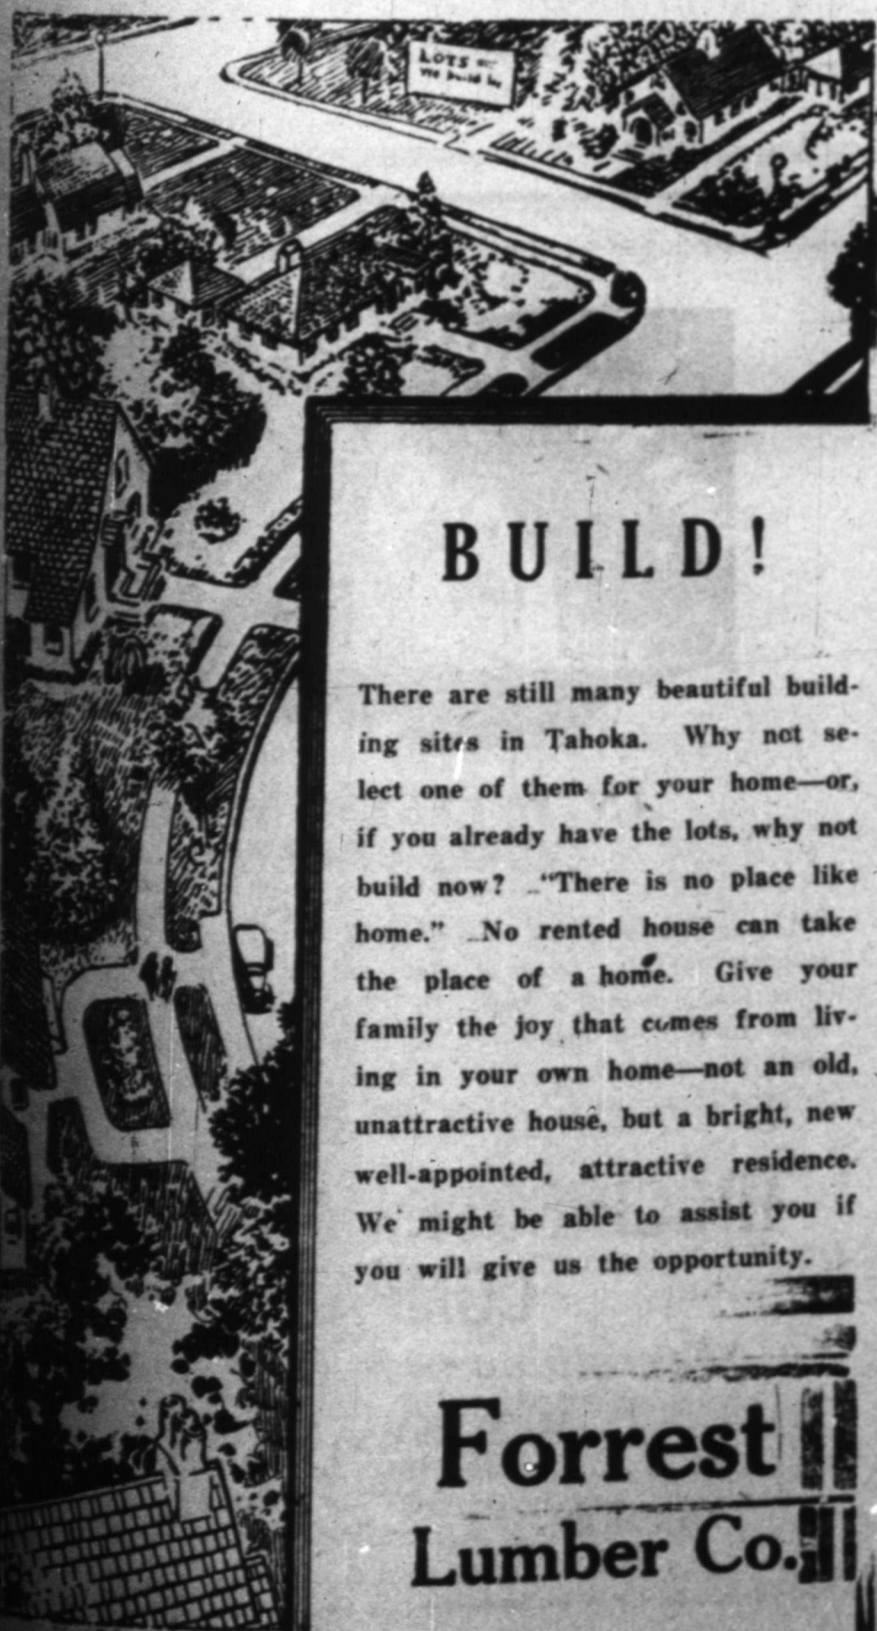

# Prompt Service and Quality

Are demanded by everyone in their job printing—and justly so, for a letter head that isn't neat and artistic is a detriment to your business. Bad printing costs you much more than the right kind of printing, even if the price quoted is less.

Artistic Printing at Reasonable Prices

**BUILD!**

There are still many beautiful building sites in Tahoka. Why not select one of them for your home—or, if you already have the lots, why not build now? "There is no place like home." No rented house can take the place of a home. Give your family the joy that comes from living in your own home—not an old, unattractive house, but a bright, new well-appointed, attractive residence. We might be able to assist you if you will give us the opportunity.
