

Lynn County, in the heart of the best diversified farming country in Texas.

The Lynn County News

We invite you to locate in beautiful Tahoka. Good homes, good schools, good churches.

Volume XXV.

Tahoka, Lynn County, Texas, Thursday, June 13th, 1929

Number 42

OFFICERS FOR FAIR ELECTED

Much Interest Shown by Citizens at Monday Night Fair Association Directors Meeting.

The directors of the Lynn County Fair Association and members of other citizens from O'Donnell, Wilson and several of the rural communities of the county met in the county court room Monday night and perfected an organization of the body.

A constitution, which had been previously prepared by C. C. Williams, secretary of the Tahoka Chamber of Commerce, was adopted, after the same had been read and discussed section by section and after having been amended in a few particulars.

The constitution provides that the board of directors shall consist of one member from each rural community in the county; to be selected by the people of these communities respectively, two members from Wilson, three members from O'Donnell and eight members from Tahoka.

It is made the duty of the board of directors to annually elect an executive committee of seven members who shall have active management of the fair to be held each year at the county seat. The board of directors shall also elect from the executive board a president, vice-president, secretary-treasurer and chairman of the fair.

In pursuance of the provisions of the constitution as adopted the executive committee and the officers were elected for the ensuing year on Tuesday night. A nominating committee consisting of E. E. Morgan of Magnolia, T. J. Yandell of O'Donnell, Mrs. A. L. Frazier of Wilson and W. R. Neyland and S. R. Kemp of Tahoka recommended the election of the following as members of the executive committee and officers of the association: President, Claude Wells, Tahoka; Secretary-Treasurer, C. C. Williams, Tahoka; Manager, Taylor White, Tahoka; P. A. Ayer, O'Donnell; Carl Hadden, Wilson; T. M. Brewer, Joe Bailey and L. H. Moore, Lakeview. Their term of office was adopted for the year 1929-30 and members of the executive committee.

Considerable sentiment seemed to prevail in favor of organizing at an early date, resulting in the organizing the association on a permanent basis. In fact, the sentiment seemed to be unanimous that it should be done as soon as practicable.

The attendance throughout the day gratifyingly large, and the representatives of various communities and the interest in the program and fair seemed to be great.

Tourist Camp To Be Complete Soon

Chas. F. Smith states that the \$15,000 tourist camp will be ready for business before the end of the month.

This camp, which will be one of the best in the state, consists of ten apartment buildings, each with two or three bedrooms, fully furnished with modern furniture and the best of appliances. Water, lights, and gas are furnished in each suite, and an extensive telephone department. Hot water and showers are also available.

The camp, of modern design, finished in cream color, and with trimmings, and a swimming pool, with a concrete and fenced-in sidewalk. It has been erected on a large tract, facing the other side of the street, and is the largest of its kind in the county. A wall connects the two on the west. On the east a small office store and filling station building occupies the center, and this is connected by overhead lattice work with the camp buildings on each side.

This building will be a credit to any town and will result in an important drawing of a large additional tourist trade to Tahoka.

Homer D. Wade has been named manager of the West Texas Chamber of Commerce to accept a like position with the Dallas Chamber of Commerce.

President A. M. Bourland has called a meeting of the executive board to be held in Abilene on Thursday, June 20, to elect a successor to Wade. It is said that there are several applicants for the place.

Wayward Girls Land In County Jail

A group of wayward and unfortunate girls who drifted into Tahoka a few days ago and proceeded to disorder themselves in a manner that attracted the attention of the peace officers were arrested and lodged in jail the first of this week. On Wednesday they expressed a desire to appear before the proper officers and tell what they knew. They were accordingly brought into Uncle Ike's court where they were questioned by county attorney G. H. Nelson, and thereafter entered pleas of guilty to charges of vagrancy which had been filed against them. Fine and costs amounted to about \$15.00 in each case, which the girls were not able to pay. They were then all remanded to jail.

Tarrance Opens New Filling Station

W. G. Tarrance has leased the building on Main Street recently constructed by W. L. Knight for a filling station and has opened a station in the building, to be known as the Phillips Service Station, since it is handling the Phillips products. He is the wholesale agent for the Phillips products.

Mr. Tarrance operated the Avoca filling station for a number of years and is experienced in the business. He sold this several months ago and has since been operating a truck. The new Phillips Service Station is one of the most attractive in the city and Mr. Tarrance will doubtless enjoy an excellent business.

Four Firemen Attend State Convention

Fire Chief Pete Coleman and Jim Taylor, Roy Taylor, Rufus Swan and Clay Bennett, all members of the Tahoka Fire Department, are in Galveston this week attending the state firemen's convention. They left Saturday, and since the firemen's convention is not open till Tuesday, some of their friends here have been estimating that the chief attraction in Galveston for these boys was the Blue Bathing Revue, which came to a close Tuesday night. Now that the Revue is over it is thought that the boys will hurry back home and it is believed that they will be able to tell all about the Revue.

A. & M. Men Confer With County Agent

Sterling C. Evans, district agent, and Mr. Durr, a publicity agent, of the Department of Extension of A. & M. College, were here last Saturday in conference with County Agent Ray Shaver.

They discussed with the county agent the plans for the work in this county for the next few months. They are to be held in cooperation with the extension agent.

DR. SINGLETON'S SECTION, P. E. TION

Dr. Singleton, secretary of the Chamber of Commerce, which was published last week, states that he wrote the petition for a highway bond election, that he circulated it, and that it has been signed as individuals, by the President, Vice-President, Treasurer, eight of the twelve directors, and fifty-nine of the eighty-two members of the chamber of commerce. He expresses the confidence that the board of directors will collectively endorse the movement. At least he strongly feels they ought to do so.

NEW PROJECTS GET UNDER WAY AT SOUTHLAND

Building and improvement in Southland during twelve months ending June 1, 1929, totaled \$104,460.00, which we believe, equals that of any other West Texas town of less than 500 population.

Despite such set backs as that of the fire in June, 1928, which wiped out seven business buildings, Southland has never ceased its forward march of progress.—Southland Sun.

Bill Harlesson has been in Portales this week looking after business matters connected with the recent death of his brother, which was reported in this paper last week.

BUSINESS MEN VISIT MIDWAY

Good Crowd Attends And Hears Excellent Program; Roberson Acts as Chairman

By C. C. Williams, Sec'y. C. of C. The Chamber of Commerce Good Will Trippers visited with the people of Midway community last Friday night and they a lending reported an excellent meeting. Though the people of that community were busy planting a good crowd was present from both the community and Tahoka. About twenty citizens were present from Tahoka.

An excellent program was rendered under the guidance of Chairman C. M. Roberson, principal of the Midway School for the past year. Those participating in the program were The South Plains Quartet consisting of Boswell Edwards, Coleman Cowan, Jim Jackson and Taylor Wire substituting for Frank Sargent. Reading was given by Miss Mable Draper, short talks by Uncle Ben Rogers, C. C. Williams, and Taylor White, Mr. I. M. Draper and G. H. Nelson were called on and both responded with short but interesting talks. A splendid spirit of cooperation and a desire to prom to the agricultural resources of Lynn County was such an excellent during the entire evening.

After the program was finished the Ladies Home Demonstration Club of Midway served delightful refreshments and every one was made to feel that a hearty welcome was being extended them. May this same kind of cooperative spirit become so common in all parts of Lynn County that we will truly feel that we are one big community and all work for the common cause, the development of the Agricultural resources of Lynn County.

TO PLAY HERE MONDAY

ELTON BEENE

Twelve year old son of C. W. Beene, attorney and bandmaster at Abernathy. Elton plays 12 different instruments and is the champion cornet player of Texas, and represented this state in the national contest held at Denver recently.

HAND BADLY CUT BY FALLING WINDOW GLASS

Ellis Martin, who lives ten miles west of Tahoka, was struck in a degular and painful accident Thursday. The hail storm of Wednesday had shattered some of the window glasses in his residence and on the next day while he was making some repairs, a piece of broken glass fell from the top of a window and struck the back of his hand. The tendons that control the movement of the fingers were completely severed. Medical attention was promptly given the wound, and it is hoped that the injury will not prove to be permanent.

ANTON DIES FROM INJURIES RECEIVED IN AUTO ACCIDENT

J. F. Anton, 44, of Las Vegas, superintendent of the New Mexico division of the Santa Fe Railway, died in a sanitarium at Clovis Monday afternoon as a result of injuries sustained last week prior to that time when the car in which he was riding turned turtle on the highway near Fort Sumner.

For many years Mr. Anton was superintendent of the South Plains division and as such had charge of the slatton-Lamesa branch line. He had many friends here and along the entire line, who deeply deplore his untimely death.

THEY BELIEVE IN ADVERTISING...

Nearly all the large corporations in America are strong believers in newspaper and magazine advertising, and each year appropriate a large percentage of their revenues for advertising. In proportion to their volume of business, many of them spend several times as much as the largest advertiser Tahoka has.

Last week's issue of the News carried \$36.00 worth of space for an automobile manufacturer, \$18.00 for one oil firm and \$8.10 for another; \$6.30 for an insect powder company, and so on for fourteen nationally known firms. One of these spends between \$60 and \$70 a month for advertising in The News—not just for one month, but that much for a series of months—in a little country weekly away down here in West Texas.

The big companies believe in advertising—that's one way they got to be big companies. Advertising educates the public to the value of their products. It keeps their name before you. It brings them increased business. These big corporations know the actual value of advertising in The Lynn County News. Their advertising gets results, and each of these big firms has a large office force that does nothing under the sun but check the results they get through this and thousands of other papers over this nation. It pays to advertise, folks. It pays to advertise.

MARRIAGE LAW GOES IN EFFECT

Last Minute Rush Made For Licenses; Must File Three Days Notice Of Intention to Marry

The new marriage law went in effect with the striking of the clock at midnight Wednesday night, according to county clerk Truett Smith, and before anyone can procure a marriage license in this state hereafter, application for a license must be filed and notice thereof posted for three full days. Also the male must furnish a doctor's certificate showing that he is free from all venereal disease.

Under the new law, if application for a marriage license is made today, Thursday, it will be Monday before the clerk is allowed to issue the license. The approach of the time when the new law was to go into effect, seemed to stimulate business considerably in the county clerk's office this week. Parties intending to marry soon and desiring to avoid the trouble and expense that would be entailed under the new law, hastened to the clerk's office to procure the license before the new law should take effect. Four marriage licenses were issued by county clerk Truett Smith on Tuesday two on Wednesday. Ordinarily not more than two or three marriage licenses are issued during a week's time at this season of the year.

To Play Here Monday

ELTON BEENE

Twelve year old son of C. W. Beene, attorney and bandmaster at Abernathy. Elton plays 12 different instruments and is the champion cornet player of Texas, and represented this state in the national contest held at Denver recently.

To Celebrate White Way's Installation

PROGRAM TO BE MONDAY NIGHT

K. L. Allen, Abernathy Band, and Other Features Will Appear On Excellent Program

On next Monday evening, beginning at 7:30 o'clock, a program will be given on the court house lawn celebrating the installation of the White Way, which has just been completed, in the business district of Tahoka.

The program will consist of special music by Miss Charlyne Maddox; short talks by H. W. Calaway, past member of the city council and Judge C. H. Cain, the present mayor; Hubert L. Allen, district manager of the Texas Utilities Company; a reading by Miss Snookie Maddox and a band concert by the Abernathy Band.

The Abernathy Band has gained quite a bit of favorable notice during the past year through its visits to the conventions and other outdoor, big-day events. The band has been playing under the direction of C. W. Beene during the past four years and many of the same boys who started in at the beginning are their perseverance and co-operation their perseverance and co-operation. Mr. Beene is now able to furnish music of an unusually fine quality.

The band now carries a quartet of girls, who, as an added feature of the program, will render some of their favorite numbers. This band also carries possibly the youngest snare drummer of any band in this immediate territory, Rex Beene. He is now able to furnish the drum music for the entire band alone. Other features will be solos on the different instruments, such as Bass by Philip Sterret, Baritone by Edwin Crow, and Trombone by Arno Struve. Possibly one of the best features of the program will be a Cornet solo played by Elton Beene. Elton is twelve years old and has been playing six years. He is now able to play on six different instruments, the cornet being his favorite instrument. Elton won the highest average of any cornet player entering the contest in Texas this year and thereby gained the right to represent Texas in the National Band Contest. He has the distinction of being the youngest boy ever to win a state championship.

The entire citizenship of Tahoka and Lynn county are cordially invited to attend this "Dedication Service", celebrating the installation of the White Way in Tahoka, Monday evening at 7:30 o'clock, on the Court House lawn.

White Way Complete, Lights Turned On

The "White Way" in the business section of Tahoka, is an accomplished fact. The lights were turned on for the first time Tuesday night. The old swinging lights in the middle of the streets were being removed Wednesday, and thus another link in the chain of progress has been forged.

The "White Way" consists of fifty-two lights on standards erected along the main business streets and around the court house square. The installation of this system represents the investment of quite a sum of money on the part of the Texas Utilities Company, but the new system affords the city much better and more attractive lights. Both the city and the Company are to be congratulated upon this improvement.

Locals

Franklin D. Brown, attorney at law, was here from Lubbock on professional business Monday. Mr. Brown stated that six courts were busy in Lubbock Monday, viz: one federal court, two district courts, one county court, and two justice courts, and he wasn't sure but that the city court was also grinding. Judge Wilson of the Federal court was making it rough for the bootleggers, Mr. Brown stated, slapping on fines of \$500.00 and eighteen months in jail without any computations of conscience whatever, seemingly.

O. J. Jackson and family and Mrs. Ed Hamilton returned Saturday from Corpus Christi, where they spent nearly two weeks vacationing. Mr. Jackson says they caught all the fish and bought all the fresh fruit and vegetables they could eat. Mr. Jackson says cotton all the way from Fort Worth to San Antonio seems to be about choked out by grass and weeds due to the excessive rains.

Sam Holland out in the Dixie community reports that he had some horses cut in the wire during the terrific hailstorm which visited a large portion of Lynn county on Wednesday of last week. One of them was very severely cut.

W. C. Cowan reports that he recently shipped fifteen bales of snapped cotton to Houston and received his check for the cotton Monday, which brought 17 cents per pound. He was much gratified at the price obtained.

Mrs. Sam Holland, who resides in the Dixie community, left Saturday for Fort Worth, where she will take treatment in a sanitarium. She was accompanied by her husband, who returned home Tuesday morning.

Mrs. J. H. Kaykendall of the Edith community, who underwent an operation for appendicitis in a Lubbock sanitarium two weeks ago, returned home last Saturday afternoon.

Mr. and Mrs. E. N. Weather left Wednesday to spend several days visiting relatives at Leakey.

A chartered Training School for Nurses is conducted in connection with the Sanitarium. Young women who desire to enter training may address the Lubbock Sanitarium.

In enumerating the college students last week who had returned home, we inadvertently omitted the name of Miss Faye Brown, who has been attending the Tech and who is at home for the summer.

Little Kathryn Sanders, daughter of Mr. and Mrs. Bennie Sanders, who underwent an operation for appendicitis in a sanitarium in Lubbock recently, was able to return home Monday afternoon.

Miss Floy Anglin, who recently received her degree from the Texas Technological College, has accepted a position as teacher of Home Economics in the Morton High School, for next year.

Mrs. Charles Harter of Happy and Mrs. S. W. Cain of Canyon left Monday for their respective homes after a visit of a few days with their parents, Mr. and Mrs. W. C. Cowan.

Prof. Taylor White, teacher of vocational agriculture in the Tahoka High School, left Saturday for the A. & M. College where he is taking special work in his line.

Mrs. Emma Stillwell, sister of W. C. Cowan, returned to Tahoka Sunday, after having visited for some time at Canyon and Happy.

Sam Branch of Ropes was a Tahoka visitor Monday.

WEST TEXAS PRESS
TO MEET JULY 12-13

Plans are rapidly getting under way for the fourth annual booster membership convention of the West Texas Press Association to be held at Sweetwater July 12th and 13th. Officers of the association are: Bowen Pope, Hamlin, president; Eddie Warren, Post, vice president; and George F. Smith, Snyder, secretary-treasurer.

Former President Luther M. Watson and Editor Herschel M. Colbert, both of Sweetwater, and George Hill, Winters and Eddie Warren, Post, are the program committee, and plans include some noteworthy additions to the program.

Hon. Paul T. Vickers, Midland, secretary of the Chamber of Commerce there and one of the most widely known and finest publicity men in West Texas, will be the official toastmaster at the banquet which is being sponsored by the Sweetwater Board of City Development.

19 SECTIONS OF LAND
SOLD FROM OLD CROSS C

LAMESA, June 12.—One of the largest real estate transfers consummated this year in this section was closed here this week when D. Burns et al sold 19 sections of the Old Cross C. Ranch, 15 miles east of here to Dan T. Watley for \$112,000.00. Watley plans to Wolf Fence the Ranch and stock it with sheep and cows. He also plans to build one of the most modern Ranch Homes on the Ranch in the near future. The Burns interest retained six sections of this Old Ranch which lies above the cap rock and which will be developed into agricultural lands according to D. Burns who has charge of these lands and who is credited with having made this deal. These lands lay in Dawson and Borden counties.

BROWNFIELD is rushing its street paving. At a meeting of the city council recently a Wichita Falls firm was employed as engineers on street paving with instructions to start actual construction as soon as possible. It is thought that the proceeds of the bonds recently voted will provide for the paving of several additional blocks.

NEW LYNN H. D. CLUB

MET ON JUNE 4TH

The New Lynn Home Demonstration Club met on June 4th, with Mrs. Spears.

Mmes. Winkler, Yandell, Terry, Price, Spears, Taylor, Barton, Woosley, McCarty and Higginbotham were present and a number of visitors.

Miss Greenwade, County Home Demonstration Agent, was with us and gave several demonstrations on different finishes for the distinctive dress.

Our club voted to give each member a cup towel shower on their birthday. The cup towel shower was given to Mrs. Woosley at this meeting.

The report for May was as follows:
Turkeys Hatched 287
Chicks Hatched 563
Eggs sold \$38.36
Cream \$43.96
Ducks hatched 17
Delightful refreshments were served.—Reporter.

WATER SYSTEM IS PAYING DIVIDENDS AT O'DONNELL

O'Donnell's new water system is now paying dividends to all property tax payers in the form of lower insurance rates. Fact is, the amount saved in insurance reductions will approximately double the amount of tax increase.

Mr. B. M. Haymes, the insurance man, explained to the Index editor this week that the Dr. J. F. Campbell residence in the northeast part of town formerly carried a fire insurance policy costing \$60.90 per year and only this week the policy was renewed at a cost of only \$38.08. This is a saving of \$22.82, while the increase in taxes caused by the water bonds amounted to approximately \$10.00. Figure it out for yourself.

Besides paying dividends to the tax payers, the new water system affords protection, convenience and added pride to our progressive citizenship. We are proud of it.—O'Donnell Index

NOTICE!

All male residents of the City of Tahoka, between the ages of 21 and 45 years, are hereby notified that the \$3.00 street tax for 1929 becomes delinquent if not paid before July 1st, costs and penalties accruing after that date. All subject to this tax, who have not yet paid it, are requested to call at the City Office and do so.

MRS. J. B. WALKER
Sec'y. and Tax Collector

The COLEMAN Chamber of Commerce recently elected Sim O'Neal to serve another year as secretary of the civic body. Elmo V. Cook, head of the agricultural department and teacher of agriculture in Coleman High School, tendered his resignation to accept a position as agricultural agent in Bosque County.

A BIG SPRING building is nearing completion. It is the \$55,000 Read building which contains seven stores on the ground floor, and a 25 room hotel on the second floor. It extends the business district one block on East Seventh. Other buildings nearing completion are the Alta Vista Apartment house, Studebaker plant and six-story Petroleum building.

The WICHITA FALLS cheese plant is buying 27,000 pounds of milk a day from farmers and dairymen in the area, which means an income of \$600 daily and \$20,000 monthly from a source that was non-existent only a few months ago. Other creameries and purchasers of milk in that city swell the total considerably.

BORGER, the world's largest carbon black manufacturing center, has ten plants now operating or nearing completion, with 63 units, consuming 315,000,000 cubic feet of residue gas daily. Four hundred and seventy-five thousand pounds of carbon black

for tires, etc., are made every day.

The Lynn County News can still be had for \$1.50 per year—52 issues. We are also still offering the combination of The News and the Dallas Semi-Weekly Farm News for only \$2.00

YES - we know
green GRASS looks as good to YOU as to the COW

AFTER you've been paying feed bills all winter, it's only human to want to turn your cows out into pasture when the first Spring grass appears. BUT don't let your desire to cut feed bills outweigh your better judgment. TO maintain condition, milk production and profits, you should keep them on a full feed of SUPERIOR Dairy Ration for at least a month longer. And, when you do put them on grass, continue feeding SUPERIOR; it keeps cans full of milk and bank accounts full of profits—the year 'round!

By the BAG - SUPERIOR May Cost a Little More; By the MILK CAN - It Always COSTS LESS!

South Ward Items

Our meeting at South Ward came to a close Sunday night. We all regretted to see it close; only one addition but we think great good was done by Bros. Eubanks and Niles. Lina Mae Greenwood was baptized. Mr. and Mrs. Greenwood fed a good crowd Sunday at noon. Those present were Mr. and Mrs. Eubanks

It Has Certainly Been a Blessing

Two years ago specialists in Louisiana advised me to come to San Antonio to recuperate from a bad spell of malaria, which had poisoned my system and left me in a run-

MRS. E. PRUDHOMME
down condition. My complexion and eyes had turned an unhealthy yellow. Everything I ate gave me trouble, instead of strength. Constipation kept my system from throwing off poisons. I was almost hopeless. "Sargon did more for me in less than a month than all the medicines I used in five years. My friends say they have never seen such a remarkable change in anyone in such a short time. Every trace of indigestion is gone. My food gives me the proper nourishment and I have gained five pounds. I feel good all the time." "Sargon Soft Mass Pills overcome constipation in a natural way. They not only have rid me of constipation but have driven the malaria poisons out of my body. "I take the greatest pleasure in telling all my friends about it." The above statement was made recently by Mrs. E. Prudhomme, 616 West Woodlawn, San Antonio, Texas, who is highly regarded by her friends and neighbors. Sargon may be obtained in Tahoka at Thomas Bros. Drug Co. and in O'Donnell at the Corner Drug Store.

Mr. and Mrs. McNeas, Mother Eubanks and Edd Cobb. There was a good crowd out at the baptizing Sunday evening at Mr. Greenwood's.

Mrs. Maude Rhine and her brother, Marvin Walker, are on the sick list this week. Hope they may be out again soon.

Mrs. Jewell Witt and little stepson are visiting her parents this week, Mr. and Mrs. Morris.

Mrs. Cobb was called to the bedside of her daughter, Letha, at Winters, who was operated on for appendicitis. At last report received she was much better.

Mr. Boyd's little boy that got run over by his father's car did not seem to be hurt very badly although the car ran over his head.

We had a good crowd out at Sunday School Sunday. Let's try and turn out that way every Sunday and study the word of our Lord.

The Chamber of Commerce met at Midway last Friday night and reported a good time but failed to have the music that had been announced as Mr. Whittington failed to be present.

Mr. Don Jackson of Anton visited in our community Saturday night.

Some of the farmers are fighting General Green, and you know I believe it is a good plan to fight him while the sun shines.—Recorder.

SHORT CHANGERS VISIT OUR CITY SATURDAY

There were and still are a couple of short changers in our city for they are even now behind the bars waiting for justice to be meted out to them. They bluffed in some time Saturday, but waited for a crowd to get here before beginning operation in order to take advantage of it to catch the merchant and clerks in a hurry and somewhat off guard.

There were two of them, one a rather short dark complexioned fellow, while the other is a tall blonde, and they work in pairs. They gave their home as Lubbock, but Sheriff Telford is of the opinion that they live further away than that. They would go in a store, make a small purchase and throw down a ten dollar bill, and the merchant would then give the proper change. Whereupon, the other guy would say that he had the proper change and that it was not necessary for his friend to break his ten dollar bill. In the hurry of making the change back, and with a little slight of hand, the merchants would only get four ones and the silver change back.—Terry County Herald.

TAHOKA is to have a new business block. C. A. Hill of Lamesa has announced that he will erect a brick building 50x125 in size to house a chain grocery store and an auto agency. The old Howell building, one of the first garages ever erected in this section will be razed for the new structure.

POULTRY HINTS FOR JUNE

(From Texas Extension Service Poultry Calendar)

Watch For Worms

Are your fowls thin and droopy? Have they almost quit laying? Are they idle, quiet and sleepy? If so, suspect worms, but don't guess. Kill one or two of the poorest, slit open the intestines from end to end and see for yourself. Probably the house is dirty. Possibly there are one or more stagnant water pools about or wet places around the drinking fountains. Whatever the cause, remove it now for it is a barrier to profits.

In the mean time worm the flock. For round worms, which are commonly found, mix two pounds pulverized tobacco to each 100 pounds of mash. Feed for three weeks. Stop three weeks and feed again for same period of time. The pulverized tobacco used should be fresh and contain from 1 1/2 to 2 per cent nicotine.

Regular nicotine sulphate capsules are also recommended, as are capsules containing tetrachlorethylene. These capsules can be secured ready prepared. A liquid mixture of free iodine introduced into the gizzard is also very effective and may be purchased ready prepared.

For tapeworms kamala tablets or capsules are effective. The iodine mixture noted above is also good. More detailed directions about prevention and treatment of worms are contained in Extension Circular C-69 which can be secured from the county agent.

Shade Is Necessary This Month
Many heavy producing hens die from being over-heated. If trees or other large foliage plants do not supply natural shade, provide artificial shade this month. A few poles set in the ground supporting other poles covered with hay, makes an excellent and cheap shade. The thatch should be at least four feet from the ground.

Water Facilities
Supply plenty of cool, fresh water during the summer. Look over the supply of water vessels and furnish enough of them so that no bird will have to wait for a drink. Place part of them on the outside of the shade, the others within the house. Avoid wet, sloppy watering places.

SUMMER BOY SCOUT CAMP

The fourth annual Boy Scout summer camp will be held at Camp Post, Post, Texas, in two periods July 1st to 10th and July 10th to 19th. From all prospects this will be the biggest and best Scout camp ever held in the South Plains and an attendance of 200 Scouts is anticipated.

This camp will hold to the strict requirements laid down by the National Camping Department, Boy Scouts of America, as to health and safety of the Scouts and every known precaution will be taken to safeguard the boys.

Every boy will be taught to swim and given every opportunity to pass Scout tests and the Red Cross Life Saving test. Boys will also be given the opportunity of making their own bows and arrows, firebuilding sets, bead work and leather work trinkets, etc. A regular camp program will be followed every day including drill, Scout work, swimming, life saving, hikes, games, camp fire programs, and three big meals.

The camp will be ably supervised with one adult leader for every ten Scouts. H. B. Yates who had charge of the 1927 camp will be the camp director. L. G. H. Williams, Council President, and K. N. Clapp, Scout Commissioner, and many of the Scoutmasters will be on the camp all of the time.

The camp has telephone connections with Post, Texas.

The camp fee will be \$10.00 for the ten day period. Scouts are urged to make application through their Scoutmasters or direct to Scout Headquarters, Lubbock, Texas.

ANSON is doing a great deal of building. A theatre with a capacity of 450 on the main floor and 100 in the balcony is to be erected by Knox Pittard. The plans call for a modern theatre front, three entrances, the foyer of tile. Floor will be of cement and tile. The dimensions will be 30 by 120 feet.

For 9 Years Gas Ruined Her Sleep

"Due to stomach gas I was restless and nervous for 9 years. Adlerika has helped me so that now I eat and sleep good."—Mrs. E. Touchstone.

Just ONE spoonful Adlerika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adlerika will surprise you.—Thomas Bros. Drug Co. A1

CHINESE RED COWPEAS GROWN SUCCESSFULLY HERE

Chinese red cowpeas, used extensively in South Texas as a dairy feed, have been successfully grown for three years by R. L. Rains who lives 10 miles east of O'Donnell in the edge of Borden county. The first year he got a yield of two tons on one acre planted in late May and harvested in August. The fact that this variety of cow peas is upright in growth and has few runners makes it possible to cut it for hay, and as a dairy feed Mrs. Rains says it is a wonder.

Last year Mr. Rains planted these peas down every third row of maize and after the maize was harvested in the fall, stock grazed the field and then peas and stalks were plowed under. "You can sure tell the difference where the peas were," he declared the other days. This year he has planted two and three-fourths acres in rows for cow feed and is drilling peas down every third row of maize on his entire crop of more than 30 acres.

Strengthened His Entire System

"Orgatone Has Made a New Man of Me and Relieved Me of My Trouble"

"Since Orgatone relieved me of my troubles I just can't help praising it to everybody," said J. T. South of Lubbock, Texas. Mr. South is a well known ginner in this part of the state and owns and operates the J. T. South Gin Company.

"For several years," he continued, "I have suffered from stomach disorder and a general run-down condition. I had very little appetite and three or four hours after eating gas would form and cramp my stomach so that nothing would relieve me of the agony. I was in a very weak condition and was tired and worn out and didn't feel like doing my work. I had a severe case of Constipation and had severe headaches."

"My first bottle of Orgatone seemed to hit the spot and I have been getting better ever since. I can eat with a relish and eat anything and everything I want. I don't have any trouble with gas, my stomach is toned up and I feel better in every way than I have for a long time. Orgatone has saved me a lot of suffering and money and has made a new man of me. I want my many friends to know about it."

Genuine Orgatone may be secured in Tahoka, Texas, at Thomas Bros. Drug Co.

PROGRAM

For Services to Be Held at the Church of Christ Sunday Evening, June 16th

There will be a general assembly of both intermediate and senior classes promptly at 7:30. Robert Benson will be general assembly leader.

Senior Class Program: Who Was Abraham?—Aileen Taylor.

What Can You Say Concerning Abraham's Faith?—Mr. Wilkinson. Name Period in Which Abraham Lived and Leading Dates of His Life—Mr. Brunson. Give Some Instance Illustrating Abraham's Great Faith—Bonnie Marie Allphin. Did His Faith Alone Justify Him in God's Sight?—Robert Benson. Name the Two Great Promises God Made to Abraham—Tobe Kennedy.

The TRIP you've planned for this SUMMER HOW MUCH will it cost?
CONOCOLAND invites you to use its picturesque, broad plains and its cool, towering mountains as your summer playground. In Conocoland—the land of better and cheaper vacations—there is amusement for everyone, whether your fun is found in the thrills of strenuous mountain climbing or in the peaceful contemplation of majestic scenery.
And wherever you go, you will always find Conoco Gasoline—to cut down your cost per motoring mile.
To assist you to plan your entire vacation trip at home and to find your way easily when you are on the road, we offer you, absolutely free, new and improved 1929 road maps of fourteen of the great states of Conocoland—the states in which Conoco Gasoline is most widely distributed. Just send in the coupon and the maps will come by return mail.
Such a trip isn't nearly as expensive as you think. But whether economy is important to you or not, you will save money through extra mileage and save peace of mind through extra motor efficiency if you make it a rule to stop always at the Conoco sign.
CONTINENTAL OIL COMPANY
Producers, Refiners and Marketers of high-grade petroleum products in Arizona, Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming.

THOUSANDS OF DOLLARS OFFERED FOR BEST STALKS OF COTTON

Somewhere in the South this year a single stalk of cotton will be grown that will be worth \$1,000. Two others will bring prizes of \$500 each, and several thousand dollars will be divided among 57 other stalks, prizes ranging from \$300 down to \$10, at three sectional fairs—Memphis, Atlanta, and Dallas.

These prizes are being offered by the National One-Stalk Cotton Show, which will be staged again this year by the Sears-Roebuck Agricultural Foundation and the Southern Division, Fertilizer Association. The National Fertilizer Association. The show will be held in three sections as follows:

Tri-State Fair, Memphis, Tenn., Sept. 28 to Oct. 5.
Southeastern Fair, Atlanta, Ga., Oct. 5 to 12.
State Fair of Texas, Dallas, Oct. 12 to 27.

Stalks winning first prize at each of the three fairs will be judged at the State Fair of Dallas, and the winner awarded \$1,000, which will include the sectional prize.

This show is to be held again this year to stimulate interest in economical production of better cotton from which the farmer gets bigger profits, according to those in charge of arrangements.

Any farmer, whether landlord or tenant, white or colored, or any one member of his family will be allowed to enter a single stalk for competition. Only one stalk may be shown from each farm unit. Premiums for single stalks will be given as shown in the table at the top of the next column.

Rules of Contest

The stalks exhibited must be grown in 1929.

Stalks must come from a field where at least one acre of cotton was grown in 1929. However, any special fertilization, protection, or cultural practice may be used.

Stalks shown must contain the cotton that grew on the stalk. Pickings and seed will not be permitted.

Branches must not be cut from stalks exhibited. All leaves must be removed.

PREMIUMS FOR BEST SINGLE COTTON STALKS

For the Best Stalk in the South (Including sectional prize) \$1,000

	Atlanta	Memphis	Dallas
1st	\$500	\$500	\$500
2nd	300	300	300
3rd	200	200	200

20th	10	10	10

The name of the variety must be shown on the stalk.

Score cards to be used in judging the stalks will be prepared by competent agricultural leaders, including agricultural college experiment station workers. Actual judging will be done by competent authorities from each section.

Exhibitors need not necessarily accompany exhibits, but may ship same, charges prepaid, to the National One-Stalk Cotton Show, in care of the fair in their district. Entrants living in Virginia, North Carolina, South Carolina, Georgia, Alabama and Florida should enroll by sending their names and addresses to The National Cotton Show, Atlanta, Georgia. Those in Oklahoma and Texas to The National Cotton Show, Dallas, Texas, and those in Tennessee, Mississippi, Arkansas, Louisiana, Missouri, and Kentucky to The National Cotton Show, Memphis, Tenn.

Locals

Mr. and Mrs. R. H. Turner returned Tuesday from a visit with relatives at Hico, Hamilton, Dublin, and other places in that section of the state. They were accompanied home by Mrs. Turner's mother, Mrs. L. E. Waldrep of Hico, and her brother, Lige Waldrep of Pottsville. Mr. Turner says that wheat and oats in that part of the state are good, that corn is fine, and cotton is promising though late.

Alex Johnson, who has been employed recently at the Harris & Applewhite Hardware store, was taken to Lubbock in a very critical condition Wednesday morning for an operation for appendicitis. The appendix had already burst and an immediate operation was necessary. His condition is necessarily still critical but it is hoped that he will soon pass the crisis successfully and recover rapidly.

Mr. and Mrs. W. R. Neyland had as their guests last week end the former's father and mother, Mr. and Mrs. J. H. Neyland of Teague, Mr. and Mrs. W. H. Bushnell of Pecos, and Mr. and Mrs. E. L. Hutchinson of New York City. Mrs. Bushnell and Mrs. Hutchinson are sisters of Mr. Neyland. Little Miss Pauline Neyland accompanied her grandparents home to spend a few weeks.

A. L. Dunagan says that he has a heartless brother. Mr. Dunagan, who lives out toward Dixie, had every sprig of his cotton destroyed by hail last week and is running two planters now, hoping for the best. To add to his discomfiture, he received a letter from a brother at Frost, Navarro county, Wednesday, enclosing a cotton bloom. A. L. says he believes it was

Miss Eva Shroyer, who has been employed recently in the City Cafe, was taken to a sanitarium in Lubbock Tuesday and underwent an operation Wednesday morning for appendicitis. Reports from the sanitarium Wednesday afternoon were to the effect that the patient was apparently doing as well as could be expected.

Mr. and Mrs. J. A. Brashear returned last Friday night from a trip to San Saba, where they own a big pecan farm, and from Del Rio, to which place they went on a pleasure trip. Mr. Brashear says that the pecan crop this year promises to be fine. He complained of the oppressively hot weather at Del Rio.

At the Kiwanis luncheon Wednesday, Truett Smith, county and district clerk, made a report of his attendance upon the county and district clerk's convention held in Fort Worth on Thursday, Friday and Saturday of last week. About 350 clerks and deputies were present. Mr. Smith stated

Jack Hannah, who underwent a very serious operation in a sanitarium in Lubbock a few weeks ago, was able to return home on Thursday of last week. He is still not strong, however, and it may be several weeks before his recovery is complete.

Friends here and elsewhere will be gratified to know that Mrs. E. C. Forrester of Wilson, who was in so serious condition for so long a time in a sanitarium in Lubbock, was able to return to her home last Friday afternoon.

Mr. and Mrs. Emory Nance left Tuesday for a vacation trip to the eastern states, where they will spend a few weeks seeing the sights of Washington, Philadelphia, New York, and other large cities.

Mrs. Ollie Johnson is building a nice seven-room stucco residence in southwest Tahoka. When completed it will be one of the best homes in that part of the city.

D. W. Gagnat says business has been unusually good in his line and he believes it pays to advertise. Sure it does.

Judge C. H. Cain returned Wednesday from Benjamin, where he attended district court the first of the week.

Mr. and Mrs. W. L. Mier of Lubbock were guests Sunday of Mr. and Mrs. W. R. Neyland.

Mrs. A. L. Jones is this week visiting her daughter, Mrs. E. A. Metcalf in Wilson.

Miss Alma Hunter of Abilene was a guest of her friend, Mrs. M. B. Hood, over the week end.

G. E. Hogan and son, George, are at Archer City this week on business.

T. J. Bovell was a business visitor in Fort Worth this week.

Mr. and Mrs. A. D. Sanders returned Wednesday from California, where they spent a few days enjoying the scenery and climate. They also visited Catalina Island thirty miles off the coast. A. D. says he had a great time but that Texas looks good to him.

Mr. and Mrs. A. L. Patterson and children of Smiley, Gonzales county, are here this week visiting Elder W. A. Kercheville and family. Mrs. Patterson is a sister of Brother Kercheville.

Myrtle Standefer, the little daughter of Mr. and Mrs. A. L. Standefer, who underwent a mastoid operation in a Lubbock sanitarium one day last week, is improving nicely and will soon be able to return home.

BALANCED RATION IS NECESSARY FOR GOOD COTTON STALK

To produce a prize winning stalk of cotton for the National Cotton Show, which will be held at the Memphis, Atlanta, and Dallas fairs this fall, good seed should be planted and special care should be taken to see that the plants have everything that they need in the way of good cultivation and plenty of plant food. Good care and plenty of plant food will bring out the good qualities that have been bred into this particular strain of cotton.

Although, as in the production of a beef animal, the cotton stalk should have all of the balanced plant food it can use to make rapid growth and put on fat or fruit, some care must also be exercised not to throw the plant "off feed" by overfeeding or by using an unbalanced ration.

There is little danger of overfeeding a crop of cotton. In fact there is no question but that more profitable crops of cotton could be made if better balanced plant food rations were fed to the crop and there is danger of overfeeding or producing too much stalk at the expense of the fruit where unbalanced fertilizers are used in forcing a stalk too early for development.

The prize winning stalks of cotton at the National Cotton Show, which is being sponsored by the Sears-Roebuck Agricultural Foundation and the Soil Improvement Committee of The National Fertilizer Association, will likely be produced by farmers who have found good cottons that are well adapted to the particular soil conditions where grown and who appreciate the importance of ample amounts of balanced plant food.

DR. E. W. CHANEY MASSEUR

Who Gives the Famous Magnetic Masseur Treatments

Will Be In

Tahoka for 30 Days Beginning Saturday, June 22

And Will Be Located At The Keltner Hotel

Chiropractic adjustments are given as a preliminary to each treatment. The following diseases are successfully treated without use of drugs or knife: Stiffness of Joints, Rheumatism, Stomach Trouble, Catarrh, Constipation, Paralysis, Liver Trouble, Neuralgia, Lumbago, Female Complaints, Gout, High Blood Pressure, Tonsillitis, Nervous Troubles, and all kindred stubborn chronic cases are successfully treated.

Dr. Chaney has valuable training and experience in Sanatorium and Private practice. During the World War he was Instructor in a Naval Hospital School and now holds a Reserve Commission in the U. S. Army Medical Administration. He thoroughly understands his work.

PERSONAL MAGNETISM—Personal Magnetism is a scientific method of healing and has been practiced as far back as history dates. It is not an experiment but a natural law of healing. So we must turn the hands back on the dial of time and let nature prevail in her liberating of suffering humanity. Men have recognized the existence of this power of force and given it various names. History says this force is "Life". Physicians say it is "Thought" or "Ethic Energy" and Philosophy, as represented by Herbert Spencer, who says it is "An infinite energy from which all things proceed."

Man's powers may safely be called magical and measureless. Never until this present twentieth century have men understood the meaning of this statement. It is through the advancement in the study of the relationship between the physical and mental forces of man that the great truth is dawning upon the minds of men and women.

If you want to investigate the success of this kind of treatment you need make but little inquiry to find those who have had this treatment at Cisco, Mineral Wells, Glen Rose, or on request you will be supplied with a list of patients who have given their names to be used as reference.

A Benefactor Of Mankind

The monument shown below, to Louis Pasteur, was recently unveiled and dedicated in Grant Park, Chicago, at the west end of the Field Museum

In the fine open plaza between that structure and Michigan Boulevard, it is peculiarly appropriate that this monument should have been erected in this great center of our nation's food supplies. Pasteur was the man who, among other things, perfected the process of canning discovered by Nicholas Appert, another Frenchman. Without the modern commercial canning industry, neither Chicago nor any of our other great cities could exist, since it would be impossible to assemble sufficient food in any other form to feed their teeming populations.

A Great Discoverer
Pasteur was eminent in many fields. This latest monument to him was built by local subscription from more than a thousand contributors, including medical societies, Chicago French societies, and other organizations and individuals. On the opposite side of the shaft from that shown in this picture is a bronze plate which explains their motives as follows:

LOUIS PASTEUR
1822-1895
Benefactor of Industries, Redeemer of Myriads of Diseases of Man and Animals and Discoverer of Methods for its Control, Whose Discoveries Have Lessened Suffering and Prolonged Life and Added Immortality to the Comfort, Security and Dominion of Man.

The most dramatic of Pasteur's discoveries was his treatment for rabies, now in practically universal use wherever civilization has spread, but it was his perfection of the canning process which undoubtedly prolonged life and added immeasurably to the comfort, security and dominion of man.

Lakeview H. D. Prize Winner Tells Of Living Room Improvements

According to a letter received by Miss Thelma Greenwade, County Home Demonstration Agent, Mrs. J. E. Weightman, Meadow, Route 1, won Honorable mention or what is termed third place in the district contest.

This is something to be very proud of, when we think that she didn't even have a music center in her room, that is what counted off on her score. Where would she have landed if she had had a music center, one of the required centers in the Living Room. The agent feels that she would have been given: either first or second place.

Below is given a story of her improvement. The story of other winners will be published later.

My Living Room
Last fall I became interested in the Living Room Contest and entered it. The County Home Demonstration agent and the two judges came out and scored my room. That night and for a few days afterward I worried. Here I was with a living room to improve and nothing to do the improving with.

My walls and floors were bare and the walls had no baseboard. My first problem was the selection of my paper. I chose a small figured paper with a grey background with small pink and blue flowers mingled. For my rug I chose a congenial slate color foundation with small flowers in each corner.

I bought baseboards and put them around the base of the walls. Then these baseboards and the floor around the rug were stained.

In my living room I had a bed dresser, machine, two rockers and a string across the corner for my papers. Just an ordinary bed room being used as a living room.

I wanted a lounge or a settee of some description. One day I was out at the barn and saw my husband's cotton frames he used this fall. As cotton picking was over I dragged these into the yard and began to take them apart.

My husband came in from the field at noon and asked what I was doing. When I told him he smiled and went into the house. That afternoon when he came back I had the settee well underway. He said "It looks pretty well old girl, if you will wait until I go to Meadow I will get you some springs from the junk yard and that will make it a lot better." He got me those springs. I put them on, covered the entire couch with blue denim and it looks real well and is very comfortable.

My next problem was that I wanted a table, there was the money proposition again. Nothing to pay for it with. I found a 1x12 inch board in one of the partitions of the house. I took this out and made the top of my table. For the legs, I went around the pasture fence and picked out four stags that seemed to be useless and with a little help from my husband we soon had a nice table 24x36 inches.

I wanted a magazine rack I got some apple boxes and made my rack from these and laquered it blue.

One of my rocking chairs had a hard bottom in it covered with leather. I had some of the springs left from my settee. I removed this top and put the springs in. When did this then the leather took off the top was not large enough. I used blue denim in its place.

I took the leather and seven tin cans and a strip of blue denim, fastened the cans together, covered the top with leather and side and bottom with blue denim and made me a real nice foot stool.

I had no way to go anywhere so my shopping had to be done by the mail order catalogue.

For my curtains I used plain light rose gingham for my side drapes and cream marquisette for the glass curtains; because my rug and paper were figured the solid material would look better than figured.

For my door prop I used a three pound coffee bucket filled with dirt covered with light blue percale and with a strip of pink about two inches wide across the top.

I made a quilted pillow out of pink and blue percale for my settee.

For my pictures I selected good

Grows Chinese Red Cowpeas Successfully

"I believe Chinese red cowpeas offer a mighty good prospect for a good dairy feed in this country," J. R. Burkert, of O'Donnell stated the other day in telling the county agent his experiences with this crop. Last year he planted a small patch in three foot rows and let his cows graze it for lack of facilities for cutting and curing it for hay. The cows liked it and gave more milk while grazing there. This year he has drilled these peas in with Sudan grass and the joint crop is up to a good stand.

Chinese red cowpeas, according to R. E. Shaver, county farm agent, are a drought resistant pea imported years ago by the United States Department of Agriculture and developed by Texas Experiment Stations. They were found by Kieberg county dairy demonstrators a few years ago to be an excellent legume hay crop for dairy cows and that county is said to be growing them extensively now. They mature in about 65 days and are easily handled for hay. They have not been recommended for this section, but where tried they seem to have done well and are worth watching.

Mr. and Mrs. J. T. Ashworth and four children of Commerce are here this week visiting their son and brother, J. W. Ashworth, and his family who reside on the McGonagill farm east of Taboka.

Chicks Hatched	1,575	
Cream Sold	\$110.50	
Eggs Setting	975	
Turkey Eggs set	132	
Turkeys hatched	34	

Labor Head Asks Nation's Workers to Support Red Cross

William Green, president of the American Federation of Labor, in Washington, calls upon the workers of the nation to support the twelfth annual roll call of the American Red Cross, November 21-29, in the following statement:

"Through the American Red Cross we find expression for some of our noblest ideas. It is an effective instrument for magnifying many times our personal service to humanity.

"In the face of great disasters, when the insured and homeless run into the thousands, there is little we can do individually. Consolidating our strength through membership in this great organization, our opportunity for service is unlimited.

"We must not forget that every day is a day of disaster to thousands of people where disaster strikes you. Red Cross goes to your name to be tried and counselor to those upon whose misfortune has laid her heavy hand.

"As President of the American Federation of Labor, I hope and feel confident that the workers of the nation will respond to the Red Cross Roll Call and have a part in this organization's great work."

(Signed) WILLIAM GREEN, President, American Federation of Labor

THE HOME BUILDERS

That's Us

Let us make you an estimate and otherwise assist you in your next building. We are fully prepared to give you just the service that we know you would appreciate and our stock is always ample to take care of your every need.

Our stock of screens for the oncoming summer is complete. Keep the filthy flies out.
