Number 4

Stage Set For County Fair Next Week

School Enrollment Breaks All Former Attendance Records

700 STUDENTS ARE ENROLLED

Is 50 Above Same Time Last Year; 200 Are Enrolled in High School Classes

Almost 700 pupils have enrolled in the public schools of the Tahoka Independent School District, according to information given us by school authorities. There are nearly 200 in the high school proper and more than sixty in the seventh grade, which is cared for in the high school building, making a total of more than 260 at the high school. We were unable to get the exact number enrolled at Central Ward but the number approximates 370, according to Superintendent Baze. The figures for the various schools and departments are approximately as follows: High school, 197; seventh grade, 64; Central Ward, 370; South Ward, 55; total 686. This is an increase of about 50 over the number enrolled at a corresponding date last year.

Including the superintendent, there are nine teachers in the high school. One additional teacher was made necessary by the adding of commercial courses to the curriculum. There are two teachers for the seventh grade at the high school building. There are 2 teachers for the 7th Grade Ward. In addition to the regular subjects heretofore taught in the grades, music is being taught this year in all these grades. There are also two teachers for the fifty-five pupils at South Ward.

The teaching force is perhaps more nearly adequate in number this year than ever before. In fact, the ratio of teachers to pupils now approximates the standard set by the State Department of Education. With a broader curriculum than ever before, with a more nearly adequate teaching force, and with a high standard of scholarship in the faculty personnel, the Tahoka public schools are being maintained on as nearly an ideal basis this year as possible. In fact, the Tahoka high school has already been classified by the Department of Education as one of the three best on all the Plains. The faculty and the board of trustees should have the united support and co-operation of our entire citizenship.

Baptist Revival to Close Sunday Night

The revival services being conducted at the Baptist Church will come to a close Sunday night according to present plans.

The results thus far have not been large yet gratifying. There have been quite a number of professions of faith and also several additions to the church. Rev. Hulon Coffman, the evangelist, is bringing some strong messages and yet they are presented in a way that even the small children can understand and appreciate them. Johnny Cohen, who led singing in a revival here four years ago, arrived Monday and is conducting the song services in his own inimitable way. His solos are especially beautiful and effective.

Good-sized crowds have been attending the morning and the evening services. The morning services are especially sweet and mellow. The service for those above sixty Wednesday morning attracted quite a large number of elderly people and the service was deeply spiritual. A special service for public school students has been announced for Friday night and a large number of them are expected to be present.

Members of the other churches are co-operating beautifully in the meeting.

The one vote against Texas' annexation to the United States was that of Robert Bache of Houston, kinsman of Benjamin Franklin.

Boosters of Lubbock Fair Coming Friday

From 100 to 150 Lubbock citizens accompanied by the Lubbock High School Band will be in Tahoka, Friday, Sept. 20th, on the annual good will and advertising tour for the Panhandle South Plains Fair, according to word from E. L. Robertson of Lubbock in charge of the trip. The delegation will arrive here about 11:45 A. M. o'clock and will remain here for a short time while the band plays several selections. Several outstanding speakers will accompany the caravan and one will make a short address.

It is important that citizens of Tahoka give the Lubbock citizens a good welcome by being present and getting acquainted with the visitors. Souvenirs and novelties will be passed out to the school children and the Superintendent has been requested to have the children meet the caravan.

TECH PLANNING COURSES HERE

Dr. McDonald to Organize Class Here Tonight; Is Open To All School Teachers

In response to a call issued by county superintendent, H. P. Caviness, a number of teachers from various parts of the county met at the High School Building last Saturday to discuss with Dr. J. F. McDonald, Director of the Extension Department of the Texas Technological College, the practicability of forming a class here to take one or more extension courses offered by the College. As a result of the conference, a meeting for Thursday night of this week was announced to organize a class. The course to be given is Directing Study, and it is open to all the teachers of the county. The course will be given by Dr. Garland of the Extension Department of the College.

Wells and Edith Name Committees

Both the Edith and the Wells communities have announced the appointment of committees to gather community exhibits for the fair within the last few days, according to C. C. Williams.

The Edith committee is as follows: O. L. Sanders, chairman, Mr. and Mrs. C. E. Campbell, Mr. and Mrs. J. H. Kuykendall, W. C. Pritchett, J. D. Pharr, Mrs. T. I. Hammonds. The personnel of the Wells committee was not given to Mr. Williams but there are said to be some excellent crops in the Wells community and a splendid exhibit from that place may be expected.

School Valuations Are Slightly Raised

The board of trustees of the Tahoka Independent School District sitting as a board of equalization Wednesday raised the valuations slightly on many pieces of property in the district. This slight raise was found to be necessary in order to assure sufficient funds to meet all necessary expenses during the current school year. Very few citizens appeared before the board, we understand, to protest against a raise.

The board is composed of level-headed business men who are interested in the welfare of the school and of the entire community and it is a certainty that they are not going to squander the people's money. They are going to spend it wisely and economically and at the same time provide the necessary funds to maintain our school as one of the best in this entire section.

REPORT READY FOR CO. FAIR

Thirteen Communities Have Signed; C. of C. Passes On Important Business Matters Also

At a meeting of the board of directors of the Chamber of Commerce Wednesday night many matters received attention. Taylor White reported everything in readiness for the county fair to be held next Wednesday and Thursday. Thirteen communities have signed up for community exhibits and he thought that there might possibly be one or two others yet.

Whether or not Tahoka's Trades Day should be continued was referred to a committee with instructions to report back later. There will be one more trades day at any rate and the probabilities are that the committee will recommend the continuation of the same.

A committee was also appointed to ascertain the cost and to consider the advisability of having some folders printed giving information as to the resources and possibilities of Lynn County.

The matter of a mid-winter poultry show was postponed until the next meeting of the chamber for consideration. The probabilities are that a poultry show will be staged here some time in the winter.

A number of other matters of minor importance were disposed of at the Wednesday night meeting.

Moran impresses strangers as a "church town" because of its many beautiful churches. Close to \$70,000 is invested in buildings. A good attendance is reported at the churches, and the influence of membership is favorable on the growth of the town.

Miss Ina Floyd left this week for Canyon, where she will again attend the West Texas State Teachers College.

RE-SURVEYING COUNTY LINES

Action Taken To Definitely Set Boundary Line Between Lynn and Garza Counties

There has long been a dispute between Lynn and Garza counties as to the exact location of the boundary line between them. Two or three years ago suit was filed in order to have the line legally and finally established. Upon the filing of the suit it transpired that the boundary lines of many west Texas counties were uncertain. The suit was filed at Lubbock but the case was later transferred to some jurisdiction further east. Some time ago Jeff Williams of Plainview was appointed by the court, with the assent of Lynn and Garza counties, to re-survey the line, taking the southwest corner of Young county as an established continuation and re-surveying the boundary lines with reference thereto. This week Judge G. C. Grider received a communication from Mr. Williams stating that his surveying party was at Throckmorton, explaining that slow progress had been made on account of the rains but that more rapid progress was expected hereafter. We understand that the commissioners courts of Lynn and Garza counties have agreed to accept the line as run out by Mr. Williams, and in that event the line between these two counties should be finally established at an early date.

CARLSBAD, N. M., is expecting a great number of Panhandle and North Plains delegates to the W. T. C. C. convention to pass through their city on the way to El Paso in October. The Carlsbad irrigation project and the Carlsbad Cavern will be two items of much interest to the visitors.

Miss Mary Greathouse returned Sunday from a visit with friends in Haskell and Fort Worth.

Fort Worth "Cats" To Play Here Thursday

The Fort Worth "Cats" may go away from here next Thursday with the big end of the score and their pockets bulging with the \$200 guarantee but the Tahoka All-Stars are assembling a team that will no doubt make the Felines show the audience a brand of high class baseball.

The Texas League team plays here Thursday afternoon at the ball diamond southwest of Central Ward school as the entertaining feature of the second day of the Lynn County Fair. The Marion G Bradley post of the American Legion is sponsoring the game.

Here's the line-up as described to us by "Lefty" Squires:

In "Wild Bill" Ellis, star Oklahoma City pitcher of the Western League, Tahoka lays their main-stay. Ellis has a record of 19 wins and 11 losses with Selma in the Eastern Shore League. Carr Wells, the old Tahoka reliable, will catch Ellis. Bailey White, the star first baseman of the Lamesa club, will hold down the bag here. Bailey has had two years professional experience with Big Spring in the West Texas League. Jack Wells will play second base, and in Jack you find a fast ball player. Jack will be the first man to look over the first ball that Lil Stoner will pitch. Stoner was with Detroit last year in the American League. Gus White, also known as "Chief," will occupy short stop, and in White lies the wrecking crew of the team. He hits the ball far and hard at all times. On third base will be "Windy" Nicklaus,

coach of the Tahoka High School. Nicklaus has never had professional experience, but has played with the Amarillo Metros, one of the fastest semi-pro teams in Texas.

In the outfield, Tahoka has gathered one of the best combinations in semi-pro baseball. Lou White, the Lamesa flash, will play right field. Lou hasn't had professional experience, but won the prize as the best all-around athlete in the Denver tournament of 1925, which is very highly prized by any ball player. "Lefty" Squires will patrol center field. Squires has had professional experience with Abilene in the West Texas League, and has had contracts with Waco in the Texas League and Oklahoma City in the Western League. Squires played against the Cats in 1926 at Childress and states that they are not too tough. Frank Larkin will patrol left field. Frank has had experience in the Eastern Shore League, and Frank states that if "Wild Bill" is right, good-by, Cats. Harley Wells, star pitcher of the Tahoka team, and utility man, will be set off if anything happens.

Every baseball fan knows each of the Cats by name, but, anyway, here's some of them that are coming: Jimmie Walkup, pitcher; Joe Bonowitz, outfielder; Eddie Moore, outfielder; Lil Stoner, pitcher; Fay Pierce, shortstop; Larry Cox, outfielder; Handy Andy Harrington, second base; Cholly Sullivan, pitcher; Nick Urban, third base, Lefty Meadows, pitcher; and Del Baker, catcher.

Many Exhibits And Amusements Slated

ADMISSION TO 'CAT' GAME TO BE 50 CENTS

Fifty cents will be the admission fee to the Fort Worth 'Cats' Tahoka All-Stars baseball game to be played here next Thursday. The price had been previously announced at \$1.00, but has been reduced in order that more people may be able to see the famous 'Cats' in action.

DEAN LEIDIGH SPEAKS HERE

Tech Professor Emphasizes Under-Privileged Child Work to Local Kiwanians

At the Kiwanis luncheon Wednesday noon, Dean A. H. Leidigh of the Texas Tech gave a cursory report of the work of the recent Tulsa convention and made some helpful suggestions to the local club. He emphasized the fact that nearly all the Kiwanis clubs are making as one of their major objectives the helping of the underprivileged child, and he stressed the importance of this work. On the preceding Wednesday, G. H. Nelson, local delegate to the Tulsa convention, had made a similar report, and work on behalf of the underprivileged child in Tahoka has already begun.

C. H. Mahoney, Professor of Horticulture at the Tech, was also present and made a few remarks.

Following these addresses Supt. M. L. H. Baze reported that the parents of some of the children attending Central Ward School are either unable or unwilling to purchase the song books which it is necessary for the pupils to provide themselves with in order to take the courses in public school music which are being given in all the grades in this school. Mr. Baze stressed the importance of these courses, insisting that a knowledge of music and the ability to sing is a most valuable asset to any child. He suggested that the Kiwanis Club might help some in this matter. As a result a number of Kiwanians present voluntarily offered to pay for one or more of the necessary books and several dollars were paid in promptly for this purpose.

G. H. Nelson announced that the Under-privileged Child Committee would make a report on next Wednesday of the results of the survey of this town and community which it is making.

O'Donnell Visited By Tahoka Citizens

Quite a number of Tahoka citizens attended the Trades Day festivities at O'Donnell Tuesday. They report that a program of music was rendered and that foot racing was one of the diversions. A carnival company was also running at full blast and the town was quite lively. Several of Tahoka's crack domino players were among the visitors and engaged the domino experts of O'Donnell in an entrancing game. The Tahoka bunch came back bragging that they walloped their antagonists. Among the Tahoka citizens who spent the major part of the day in O'Donnell were: Judge G. C. Grider, Bob McCord, Dan Faires, L. C. Heath, H. W. Calaway, Guy Sherrod, Bill Anderson, G. H. Nelson, Truett Smith, L. C. Haney, Dr. C. E. Townes, W. D. Nevels, W. R. Neyland and Otis Davis.

ANNUAL FAIR OPENS SEPT. 26

Large Crowds Expected To View Excellent Exhibits and Entertaining Features

Everything is primed and ready for the biggest and best fair next Wednesday and Thursday ever held in Tahoka.

With the assurance that there will be at least a dozen community exhibits and many individual exhibits in the various departments, C. C. Williams, Taylor White, Ray Shaver, Miss Greenwade and others who have been working on the project are very sanguine of the fair's success in spite of the shortness of the crops raised in the county this year. While it is not thought possible to have as many excellent agricultural exhibits as in some past years, yet the live stock department promises to far exceed anything ever shown. There are many fine Jersey cows in the county and Mr. Williams is expecting many of them to be entered in the fair. The 4-H boys club under the direction of Mr. Shaver will also enter a number of exhibits. They will have some hogs here showing what can be done with hogs by proper feeding. It is also expected that there will be many fine fowls shown in the poultry department.

The women's department is expected to be fine. The women's clubs and the girls' clubs of the county will have many and varied exhibits. The Textile, Culinary, Floral, and Curio departments promise to be fine.

The fair will be held this year just west of the cotton yard, only three blocks from the business section of town. There will be two big tents to house the exhibits, each 50 by 80 feet in size. One of these will house the agricultural and all the women's departments of every character and the other will house the dairy and poultry exhibits. There will also be pens for the hogs and provision will be made to care for any and all other live stock that may be entered.

In addition to the exhibits, there will be plenty of amusements on the grounds. The All-American Shows, a carnival company, with eight big entertaining shows, five riding devices, and numerous other amusement features of various kinds, will be here to entertain the kiddies, the young folks and everybody.

On the first day, beginning at 10:30 A. M., there will be a parade of decorated floats and cars. Several of the school communities are expected to be in line with elaborately decorated floats, bearing numerous school children.

One of the big features of the two-days fair will be a baseball game between Tahoka All Stars and Fort Worth Cats on Thursday afternoon. People are coming from far and near to see this game. This game will be staged on the baseball diamond near the Central Ward school.

Another interesting event will be a football game between Tahoka and Wilson on Wednesday afternoon. This game will be staged at the High School building. Hundreds of football fans are coming to see this game.

Premiums offered this year exceed in value the premiums of any preceding year and the fair is expected to be better and bigger than ever before. Unless the weather should be exceedingly unfavorable, record-breaking crowds are expected on each day.

Barks Of The Bulldogs

Sponsored by the Senior Class of Tahoka Hi School

PURPOSE OF THIS SCHOOL EDITION
 Beginning this week, the Lynn County News has agreed to publish each week such news that may be turned in on a separate page and call that page a school page. This page is to be sponsored by the Senior Class of Tahoka High School. It is not the purpose of the Senior Class to sponsor a page of jokes. We can buy any number of joke magazines, hence we do not intend to make this a joke page. This page is to contain strictly news which pertains to the school. We want the citizens and patrons to use this as a reference sheet, so that they might know what we are doing in the schools.

We have a live wide-awake school system in Tahoka. We are doing things in a big way. Some of our patrons do not know what is going on up this way, therefore this page is for them. Read it—tell us how you like it!

FRESHMEN ORGANIZE
 On Monday, September 16th, 1929, the Freshmen class assembled for class organization. Walter Chaney was elected President, Elsie Woosley, vice-president; Esther Barrington, secretary and Treasurer. All are faithful young ladies and gentlemen and are expected to make splendid class officers.

ASSEMBLY
 On last Friday morning Assembly was called at 9:45. The object of this meeting was to arouse enthusiasm of the student body towards the football games. The lively Pep Squad, recently organized, was called on to give a few yells. This seemed to arouse more enthusiasm so Mr. White and Mr. Allen led the entire student body in that old familiar yell, "Yea, Team!"

VOCATIONAL AGRICULTURE GROWING IN SCHOOL
 Fifty-eight boys have enrolled in the Vocational Agriculture Department of the Tahoka High School. This is an increase of twenty over last year. Our work this year embraces a program covering three years work in Vocational Agriculture. We have set up some very definite objectives for our years work. The following objectives have been adopted by the department and we are striving to accomplish these objectives during the year.

1. To select and carry to completion a satisfactory home project.
2. Read and report on at least 10 farm bulletins and 3 reference books on Agriculture.
3. Make a survey of my home farm including a complete inventory.
4. Read three farm papers regularly.
5. Visit and report on County Fair and exhibit something worthy at the Fair.
6. Represent my school in some interscholastic Judging Contest.
7. Make out a long time program of continuation work.
8. Participate in Master Students of Vocational Agriculture Contest.
9. Complete a satisfactory farm shop job during the year.
10. Introduce some improved farm practice on my home farm, and render some outstanding community service.

PEP SQUAD IS ORGANIZED
 What's a football game without a pep-squad, composed of a real live-wire peppy bunch of students to back and support its players? That's just what we have here at the high school.

A pep-squad under the sponsorship of Mr. Allen, was organized and yells were elected Tuesday. Misses Lola Belle Edwards and Elsie Woosley were chosen and are proving to be most efficient leaders. New yells and songs are being learned, one appropriate for practically every play made. The members of the said organization seem to really have the school spirit, however, in case some may not have the penalty for detaching the emblem from their sweaters which have already been ordered, has been made, for unexcused absence from a pep-meeting or ball game, and in case a so-called "date" cannot wait to be filled after the game. Observance of these rules are absolutely demanded; if not, authorities may see fit to assess the penalty.

Come out and help us yell at these ball games. Not that we can't put it over by our selves, but the football men will appreciate your support.

"THE BULLDOG KENNEL"

Football
 Tahoka's prospects for a football team is exceedingly bright for this year. Many more bulldogs have been added to the Club this year and they are certainly developing the fight. The line is heavier than it has been for some years, and there is considerable more speed in the backfield. Captain Edgar Edwards is proving to be a hard-hitting fighting guard, but there is much controversy as to whether he will be guard or star halfback after the Wilson game. Coach Nicklaus seems to have a strong desire to have him on the line but equally as strong one to have him at half. Well, we shall see.

Ketner is showing up good in scrimmage this year, and everyone is expecting him to show some real ability this year. His side-kick, Jack Minor is back at right-half with more power and speed than ever before, he promises to be one of the most valuable men on the team.

We must not fail to mention our friend from Wilson, Walter Chaney. The Coach had some difficulty in getting Walter to train, but now he has settled down to hard training. He shows as much speed as Minor and has a nice side step. He can be a very valuable man. Stevens is at full-back this year and although it is his first year out he is showing much ability and he certainly "sticks a boot in a football."

We have some very important men on the line also. Line-Captain Benson is heavier and meaner than ever. His hands are equal to two-by-fours when he gets into action. He says when they need a little yardage just come over his side of the line as there will be a hole there. Grider is showing up as a good man and fights like a full-blooded bulldog, even if he is from O'Donnell. Gurley is taking the immemorial Buck's place at center and certainly has a bright future. Graham George has learned to use his hands like nobody's business, when someone gets across the line from him it is just too bad. He shows more fight than ever. In fact, if you will notice you will see that he has already sacrificed one tooth on the football field.

Frank Greathouse is back better than ever before. He is as dependable as the day is long and promises to be a very valuable asset to the team. Baird Fox from New Home is showing up good at end and as this is his first year at football he promises to be a valuable man before the season is out. Vernon Jolly possibly the youngest man on the squad is showing up good ability and has the prettiest left-handed pass on the field. Dee Estridge is showing the same old grit and fight this year and is holding his part of the line.

Other boys that are showing up pretty well but of less experience and training are: Clyde Tankersley, Louis Spears, Woodrow Walker, Edward Welch, Andrew Cooper, J. W. Lowry, all lettermen of last year, and Claud Tankersley, Amel Willingham, Ray Nevill and Seth Brewer.

COMMERCIAL DEPARTMENT

The Commercial Department of Tahoka High School is now a reality. Much interest has been manifested in the Commercial subjects and we now have three classes in Typewriting and one in Bookkeeping. Such courses are very practical in their nature. We do not learn in theory only, but in practice also. The typewriters are clicking away in a characteristic rhythm and every student is actually writing something. In bookkeeping we are really keeping books! Nothing is make-believe. There is nothing more practical for a student than Commercial subjects.

These courses are open to the citizens of the town, and may be taken by any who wish to partake. It may be that in the near future we will offer additional courses in Commercial Law and Shorthand. When these are added we will have a full rounded Business Course equal to any in the State.

ENROLLMENT IN HIGH SCHOOL INCREASED

According to Mr. Hays, the enrollment in the high school is 195 and the seventh grade 61, making a total of 256 students in the high school building. This is quite an increase over last year enrollment.

SENIOR CLASS ORDERS RINGS

A meeting of the Senior Class was called Monday afternoon to select the graduation invitations and class rings for this year. The rings ordered are of the same design as those of last year's class, as this design was standardized.

SEVENTH GRADE

Monday, Sept. 16th, the Seventh Grade met and organized the class. The officers are as follows: Johnnie Janak, president; James Applewhite, vice-president; Elwayne Redwine, secretary-treasurer; Elizabeth Cree and Anita Goodrich, reporter.

In-room thirty three the Seventh grade English class organized an English club. The following officers were elected: President, W. H. Smith; vice-President, H. C. Reid; secretary, Mary Gene Tippitt, class colors, pink and white, class flower, rose. A committee was appointed by the president to present a name and a motto to be chosen at the next meeting. This club will meet each Thursday afternoon. Various subjects will be discussed so that each one will be trained to speak better oral English.

Our room has been beautified by a beautiful fern given by Pauline Neyland also a bowl and four gold fish given by A. G. Cook and Miss Massengale. Each day we have pretty cut flowers brought to make our room more attractive. We are now planning some way by which we may buy two large pictures for our room.

ORGANIZE CHORAL CLUB

Approximately fifty girls, who were interested in the musical activities of our school, met and organized a Choral Club on Monday of last week—Miss Binnion, director of this organization is very capable and experienced in this work.

Officers were elected and plans for the year discussed. Mable Lee was elected president, Lucille Slaton, vice-president, Mary Fenton, secretary-treasurer and Jaunelle Windham, reporter. Besides the regular Choral Club work, we expect to sponsor and arrange several programs in the form of plays, operettas, and musical programs during the year.

Your attendance at these entertainments will be appreciated both by the director and the Choral Club.

JUNIOR CLASS ORGANIZES

Sept. 16, 1929, the Junior Class was organized. J. D. Donaldson, Jr., was elected president, Clifton Janak, vice-president, Snookie Maddox, secretary, Mary Fenton, reporter from one division of the Junior Class and Merie Link, from the other. After a business discussion the class adjourned.

SENIOR CLASS ORGANIZED

The Seniors met last week and held their first business meeting of the year. In the election of officers Edgar Edwards, president of the Junior class last year was elected President of the Senior Class this year. Mable Lee was elected vice-President, Jaunelle Windham, secretary, May Fair Woosley, class reporter. The class colors were chosen as gold and white, the class flower, yellow rose, and the class motto: "Labor omnia vincit". Plans for the year were discussed and larger and better things are going to be done by this class this year.

Miss Juarine Edwards was the gracious hostess at her home on North Third Street Friday evening to the players and their friends. Delicious refreshments of lemonade and cake were served to the football team and pep squad.

YO YO ENGLISH CLUB

Monday morning, September 16, the Seventh Grade organized an English Club. The officers elected were: Mary Jane Weathers, president, Lucille Tarrance, vice-presi-

dent, Dot Ainsworth secretary. The following were selected: Club name: "The Yo Yo English Club"; colors: Black and Gold; flower, the Sun Flower; Motto, "Wind your Yo Yo for Good English."
 In this club we expect to learn the science of grammar until the grades of our club are the best.—Reporters

PEP SQUAD ENTERTAINS FOOTBALL MEN

After the victorious football game with Wilson last Friday afternoon, the Pep Squad felt they were obligated to the Bulldogs for their good work.

Where can you duplicate the style, comfort and convenience of America's finest medium-priced automobile?

Oakland combines a long wheelbase with a short turning radius—giving greater handling ease. Its bodies by Fisher provide such convenience and comfort features as drivers' seats adjustable as you drive, clear-vision easily-regulated VV windshields and side cowls ventilators.

Foot-controlled headlights—automatic spark control assuring correct spark occurrence at any speed—spring covers which add to riding ease by keeping springs permanently lubricated and free from mud, rain and dust. . . . all these are comfort and convenience features which only the All-American in its field combines.

Come in and let us show you how, on every basis of comparison, today's Oakland is America's finest medium-priced automobile.

Facts Which Prove Oakland Supremacy

The following facts were obtained from a comparison of the Oakland All-American Six with 20 other medium-priced automobiles. All told, 878 individual comparisons were made. Of these Oakland proved to be distinctly superior in 431 or 51.37 per cent. The 20 cars combined were at best equal to Oakland on 287 or 43.50 per cent. And 13 of the 20 were higher priced than Oakland.

FISHER BODY Only Oakland and two other cars in the field offer bodies by Fisher.

WHEELBASE Only one car as low as Oakland priced as Oakland's, which is 117 inches. That car requires a turning circle to the left of 42 feet as compared with Oakland's 46 feet. Six higher-priced cars have shorter wheelbases.

Consider the delivered price as well as list list (f. o. b.) price when comparing automobile values. . . . Oakland-Pontiac delivered prices include only authorized charges for freight and delivery and the charge for any additional accessories or financing desired!

OAKLAND

ALL-AMERICAN SIX
 PRODUCT OF GENERAL MOTORS

Drive a Chevrolet Six!

—so Delightful to Drive!
 The Chevrolet Six delivers its power with that smooth, even, velvety flow which characterizes the truly fine automobile. At every speed, you travel without the slightest annoyance from vibration. Equally delightful are its comfort and handling ease. Four long semi-elliptic shock absorber springs provide the road balance found in the finest cars. And the steering gear is equipped throughout with friction-free ball bearings.

—so Economical to Own!
 Many people still do not appreciate how little it costs to own a Chevrolet Six. You can actually secure a Chevrolet Six for practically the same cash and monthly payments you would expect to make for any low-priced car. Furthermore, it is unusually economical to operate—better than 20 miles to the gallon of gasoline, with unusually low oil consumption. Come in for a demonstration today!

—so Durable and Dependable!
 The Chevrolet Six is built to the world's highest standards. Its design represents more than four years' development and testing. Materials are carefully selected. Highly skilled workmen perform every manufacturing operation. And inspection is rigorous and continuous. The result is quality so high that you can confidently look forward to thousands upon thousands of care-free, dependable miles!

A SIX IN THE PRICE RANGE OF THE FOUR

Draw Items

Last Friday night the public school of Draw gave a program, after which Supt. Rankin addressed the audience on the importance of a parent-teachers association and proceeded to organize with the following officers: A. R. Hensley, president; Supt. Rankin, vice-president; Miss Martin, secretary-treasurer. A cake was given to the "ugliest man", Rev. Pirtle nosing out ahead.

Saturday night the Methodist Missionary Society of O'Donnell gave a play at Draw, and they made a great hit. Come again, ladies.

Miss Leta Martin was carried to the sanitarium at Lubbock Sunday morning for an appendicitis operation.

Claude Lemond was home visiting his parents over Sunday and preached at the Methodist Church. He returned Wednesday to McMurray College, where he is in school.

Morris Evans is at home after a prolonged absence.

Now would be a good time for every farmer to sow twenty or thirty acres of wheat for a winter pasture. It would be a life saver for cows, horses, chickens, and pigs.

Cotton is generally very poor around Draw, though there are some fair crops. After the fine rains feedstuff will be much better than was expected.

Twin babies were born to Mr. and

Mrs. Casey last week. One died and was buried in Draw cemetery.—Reporter.

O'DONNELL C.-C. SEC'Y. TO SERVE ONLY PART TIME

(O'Donnell Index)
After October 1st, G. S. Dowell, present secretary of the O'Donnell Chamber of Commerce, who has been devoting his entire time towards the advancement of the work during the past three months, will serve as part time secretary, devoting the remainder of his time as Superintendent of the McCarty Schools in Dawson county.

This decision was reached at a meeting of the board of directors of the organization on Tuesday morning of this week. Ten members of the board were present and eight of that number were of the opinion that the work could be carried on by Mr. Dowell in connection with his school work, until general conditions of the county warranted a full time man. Each member of the board present expressed himself as being well pleased with the results accomplished during the three months Mr. Dowell has served as secretary of the organization. Mr. Dowell will continue to serve as full time secretary until October 1st and after that time as part time secretary. All projects now under way that are not now completed will be carried out by the organization to completion.

Can't Attrib. Credit for Invention of Compass

The origin of the mariner's compass is obscure. It is said to have been introduced into Europe from the East. Others say it was a Western invention. It was certainly known to European navigators as early as the Twelfth century. Guyot de Provins, whose satirical "biibie" is supposed to have been completed in 1205, described "a contrivance" of sailors which never deceived them. "They have an ugly brown stone which attracts iron," he wrote. "They mark the exact quarter to which the needle points, which they have rubbed on this stone, and afterward stuck into a straw. They merely put it in water, in which the straw causes it to swim; then the point turns directly toward the (North) star, with such certainty that it will never fail." Guyot wrote about the compass as if it were a new thing, but other writings reveal that the English in the Twelfth century had already mounted the needle on a pivot and so done away with the straw and water.—New York Times.

No Prize Offered for "Mare's Nest" Discovery

"Mare's Nest" is a phrase which we occasionally hear and which we understand to refer to almost any sort of a discovery which upon its face and at first sight seems to be of considerable importance, but which subsequently is ascertained to be a hoax. By inference, therefore, a "mare's nest" has acquired the meaning of something that does not exist. Just how the expression originated is not clearly established. However, it is authentically conceded that it was first employed over 300 years ago by John Fletcher and that he himself probably adapted it from an earlier phrase, "horse's nest," which, in the then vernacular, referred to any story worn threadbare by constant repetition. This latter is said to have been first used by Stanyhurst at the end of the Sixteenth century. The line, "He's come upon a mare's nest and is laughing at the eggs," is frequently heard in Ireland to express derision at somebody who thinks he has discovered something startling when it is in fact something known to all.—Kansas City Times.

Swedes Lovers of Beauty

To keep the Swedish railroad stations cheery, the state-owned railroads maintain a special flower garden and hothouse outside of Stockholm. About 50,000 potted plants and 100,000 perennials are annually distributed to the stations of the Stockholm district alone, and the big central station in Stockholm gets not only huge potted laurel trees for the summer season, but fresh cut flowers every day. In the country practically every railroad station has its own flower beds, cared for by the personnel between trains and like the spotless buffets of restaurants inside, they add considerably to the joy of travel. Such refinements the Swedes call "traktkulture."

Had Few Nerves in Teeth

Study of the teeth of the sabertooth cats and of the giant wolves that lived and died in prehistoric times, has shown why these animals and their descendants knew no such things as toothache. Examination of teeth found in asphalt pits in California revealed that, in every case, the teeth of an adult of the species had only a scanty supply of nerves. As the animal grew up, the root canal, which is the main route for the nerves into the pulp chamber of the tooth, became comparatively shut off.—Popular Mechanics Magazine.

Entirely Too Healthy

Little nine-year-old Jo Ann came home from school one day looking very much disgusted. Her mother inquired as to the cause and Jo Ann said: "O we had election of officers today and I was elected vice president." "Well, that's fine; why the down cast countenance?" asked mother. "It would be fine," said Jo Ann, "but John, the healthiest boy in our room, was elected president and he's never sick, so what chance has the vice president?"

World Using Old Truths

The modern world is using, and using up, the truths that remain to it out of the old treasury of Christendom; including, of course, many truths known to pagan antiquity but crystallized in Christendom. But it is not really starting new enthusiasms of its own. The novelty of modern ideas is merely a matter of names and labels, like modern advertisements; in almost every other way it is negative.—G. K. Chesterton in the Bookman.

Admonition

An old-stinger was taking a youth to task for betting all he had on a horse race. He pointed out the many misdeeds that may occur between post and finish and called a long roll of sure things that had gone wrong. "Now think, son," he wound up, "how long does it take to run the average horse race?" "Less than two minutes." "There's the point. It may be all right to try to get rich quick, but that's too quick."

THREE "MASHERS" PAY FINES IN O'DONNELL

(O'Donnell Index)
Four young men claiming to be residents of Lamesa, apparently by the strong hand of the law on Tuesday of last week while parading in O'Donnell. Three of them paid fines of \$20 each in City Court and the third appealed to County Court for trial.

It is claimed the young men repeatedly made advances toward a number of young girls of O'Donnell and in each case were ignored, but the boys kept on coming back, finally the law was notified and soon had the boys "run in". Bonds were arranged for each to appear in city court the next day and a large crowd assembled at the city hall to watch the performance but the offenders failed to put in an appearance. The crowd dispersed disappointed but

three of the boys paid fines the following day and the fourth appealed to county court. Fair warning—watch your step or the same thing may happen to you. Subscribe for The News.

NOTICE TO THE PUBLIC

Any erroneous reflection upon the reputation or standing of any individual, firm or corporation, that may appear in the columns of the News, will be gladly corrected when called to our attention.

Twenty-six years ago we heard Barry Miller make a speech in Temple in behalf of the saloon. A local option fight was on and the wets imported Barry Miller to plead their cause. The saloons had long been in the saddle in Bell county but they had been so lawless and corrupt that there was a rising tide of opposition to them. The wet politicians who had always dominated the politics of the county saw that something had to be done. Barry Miller was able, suave, astute and it was believed that he could turn the tide in favor of the wets. He made a masterful effort. He talked eloquently of "personal liberty" and "human rights", extolled the virtues of the Fathers who had opposed prohibition and ridiculed the dries. But when George W. McDaniel, pastor of the First Baptist Church in Temple, got through with him he looked like a thirty-cent politician to that vast throng that heard the debate, and he has looked the same way to us ever since. Barry Miller fought for

the saloon when the justice precinct and the county sought to banish it. He fought for the saloon when the state sought to dethrone it. He was for the saloon when the nation undertook to outlaw it. And he is for the saloon yet. He is one of its most astute proponents, and we are eternally against him for governor.

All Texas will applaud Governor Moody for appointing chief clerk J. H. Walker to succeed J. T. Robison, deceased, as commissioner of the land office. Walker has been in the office for twenty-one years and knows the business of the office better perhaps than any other individual in Texas. But under our constitution and laws, his official promotion means financial sacrifice. As chief clerk in the land office he received \$3,300 per annum, but as land commissioner his salary is limited by the Constitution to \$2,500 per annum. We still claim that our constitution should be so amended as to permit the legislature to fix decent salaries for the governor and some other state officials.

Many Lynn County farmers will receive scant returns this year from the cotton crop. The drought that held on through July and August wrought havoc to many a crop that was quite promising at the end of June. But Lynn county farmers are not of the type that whine or give up in the face of adversity. Most of them learned two years ago how to capitalize on cows and chickens when the cotton crop fails. It is true that feed is going to be short also on many farms on account of the summer drought, but in order to hedge against the feed shortage many of them will sow small patches of wheat to provide winter pasturage. Everything will be all right in the end.

It is hoped that the identity of the assassin who took the life of John A. Holmes, district attorney at Borger, on last Friday night may soon be established and that he may be brought to a speedy trial. Whether the murderer was a member of a bandit band or a bootlegger, or both, seems to be unknown as this is written but it is certain that Holmes was killed because of his activity in prosecuting criminals. It is said that the lawless element in that section are openly rejoicing at Holmes' death. It is high time for Texas to become mightily aroused on this matter of lawlessness. No man who will wink at violation of the liquor laws should be elected to any position of power in this state next year. We need to clean out the crooks and no man who sympathizes with the bootlegger any time anywhere is fit to hold public office.

Nearly all the colleges now are offering extension service courses of one kind or another. In some of the cities, night classes are maintained as a part of the public school system for the benefit of adults who wish to broaden their education. Truly this is a day of education—a day in which rare educational opportunities are being taken to the people. Popular education is becoming more popular—and more thorough. Even if a young man expects to do nothing but jerk soda or dig ditches through life, he is foolish to neglect the opportunities for an education that are offered him on every hand today.

It is said that two big rattlesnakes were killed recently near the Central Ward school building in Tahoka. If one of those snakes had bitten a school child, all of us would have regretted it beyond measure. We make appropriations to fight ticks that prey on dogs and to kill wolves that catch our sheep, but not a cent to make war on the venomous rattlers that take the lives of our children. We still insist that Texas should take some steps to exterminate the rattlesnake.

All of us are hoping that the drillers will strike oil near Tahoka—a big gusher. But why should we? In the light of Borger and Wink and every other boom oil town, where crooks congregate and hold high carnival, why should we hope for any such calamity to strike our town? If oil is to be found in Lynn County, we should hope that it will be near enough to help Tahoka but not near enough to ruin it.

Quite a number of farmers in the northern and northeastern portion of the county were hit hard by the hail that beat their crops into the ground two weeks ago. We don't know how we may be of service to them but we are willing to do our bit to help them weather the storm. At any rate, here's hoping that they make bumper crops next year.

WHAT OTHERS THINK

MOODY USES BEST JUDGMENT
The Record joins hundreds of thousands of Texans in commending Governor Moody for the very excellent judgment he used in appointing J. H. Walker, chief clerk of the land office, to succeed the late J. T. Robison. Of all the citizens of this State, Governor Moody could not have picked a better man, and we doubt very much if he could have picked another man who could handle the duties of the office so proficiently. We are positive that he could not have appointed another who would have been so universally accepted by the people of the State. The appointment of Mr. Walker is indeed a very commendable move and the people of Texas, to a great extent, are under obligations to Governor Moody for having so zealously guarded his appointive power in this important case. The Governor has certainly advanced his standing with a majority of the people of Texas just by this one commendable official act.—Colorado Record.

SMOKING WOMEN
Not exactly the women, but pictures of women and girls shown in the act of smoking cigarettes, will not hereafter be shown on billboards in the states of Kansas, Nebraska and Iowa. Which calls forth from the writer the enthusiastic exclamation, "Hurray for Kansas, Nebraska, and Iowa." Propaganda is insidious. A very large majority of the human race follow the "suggestion" of someone else. Eighty-five per cent of the impressions received by the mind come through the eye. Advertisers know this, and they suggest on billboards, in alluring pictures, what they want the people of lower mentality to do—and the poor saps go and do it.—De Leon Free Press.

ALTERNATE JURORS
Ohio justice was severely criticized in the Remus case, but apparently the Ohio judicial system has some commendable features after all. During the trial of Dr. Snook one of the jurors became ill and went to a hospital, but the trial did not halt. An alternate juror who had been sworn in along with the other 12 took his place and the trial proceeded.

Down in North Carolina the other day the trial of 16 rioters accused of killing a police chief came to a sudden halt when one of the twelve jurors went violently insane. There was nothing for the court to do but declare a mistrial and start all over again. An alternate juror system would have saved the state a lot of money in that case.

Texas might look into the Ohio plan. Many trials in this state are ended suddenly because of illness among the jurors.—Big Spring Herald.

MAKING A LIABILITY AN ASSET

An example of what a community can do with just a little bit of money and a lot of ingenuity and common sense is the new auditorium, athletic park and swimming pool that is being completed at Lockney. The city council issued warrants for the purchase and improvement of the tract of land formerly owned by the old college of Lockney. They got a bargain in seven and one-half acres of land, and the old building for fifteen hundred dollars. At an expenditure of approximately \$25,000 they will have a fenced park of seven and one-half acres, good auditorium and club room, baseball park with grandstand and all and a 40x100 foot swimming pool with concrete bath house.

One of the council members, who could spare the time is supervising the work and is doing a good job of it. No contract was let. Here's a splendid example of a city turning a liability into a wonderful community asset.—Plainview Herald

One of the surest things you can learn from conversation with opponents of the eighteenth amendment is that more liquor is drunk under prohibition than under open saloons. You have heard that argument thousands of times in the last ten years. Now France is one of the wettest countries on earth. During a recent ten-day hot spell in the city of Paris, the Parisians literally "drank the city dry." Signs were put up at bars announcing "No More

Beer." With breweries throughout the country running overtime, they were not able to supply the demand. One paper calculated that 7,324,000 glasses of beer were consumed in Paris in one day. This sort of thing may not prove much, but it does prove that if we Americans drink in proportion, the home-brewing industry is one of the most marvelously efficient industries in the world.—Big Spring Herald.

The Greenville Messenger, Moses like, is trying to lead the people of Texas out of the political wilderness in which they are supposed to have wandered since the Fergusons were superseded by Dan. The Messenger wants all others to rid themselves of preconceived notions and prejudices and doesn't seem to care whom they center on so long as it is the Messenger's choice.—Lynch Davidson, Rogers News.

Recipes Are Given By Agent For New Salads

What can be more pleasing to the eye than a plate containing an attractively arranged, fresh, crisp, colorful salad. A well-made salad will tempt almost any jaded appetite.

A salad is neither an accessory nor a luxury; it is a definite food and fills a definite need. It introduces minerals and vitamins into the diet by the use of fruits and vegetables and it is often an economy. There is hardly a day when the average ice box does not contain left-over cold meat, fish, vegetables or fruits—bits of food that should not and need not be wasted. They are just the things for a salad.

In making salads there are a few simple rules which insure success. First, have ingredients as cold as possible, and all juicy or canned fruits and vegetables well drained. Second, vary the salad dressing to see that it is well seasoned. Third, give some thought to adapting the salad to the remainder of the meal. Fourth, serve the salad immediately after mixing while it is still crisp. Exceptions to this rule are potato, chicken or a meat salad which is marinated and allowed to stand for an hour.

There is a general opinion that men do not like salads and there is some reason when the salad is completely drenched in an oily dressing or is not properly seasoned.

Try these salads:

Russian Salad

One cup cooked carrots, 1 cup boiled potatoes diced, 1 cup cooked peas 1 cup cooked string beans, 2 tablespoons chopped onions. Have all ingredients cold, mix and marinate

with French dressing. Be certain that the salad is well seasoned with salt and a little cayenne. A crisp texture may be secured by addition of a cup of chopped celery or very crisp cabbage.

Lima Salad Manhattan

1 cup cooked, dried Lima Beans.
1 cup shredded cabbage.
1 cup pickles, chopped.
½ cup grated American Cheese.
Boiled or Mayonnaise dressing.
Mix Limas, cabbage and pickles with dressing. Serve on crisp lettuce leaves and sprinkle with cheese.

Cheese Salad

Carefully peel a fresh medium-sized tomato and cut in sections point-to-point style almost to stem end. Place tomato on crisp lettuce leaves and spread the sections slightly apart. Dress well with french dressing and fill with grated American cheese. Garnish with a sprig of parsley in center of tomato.

Stuffed Tomato Salad

Select medium sized tomatoes, one for each person to be served, peel with boiling water and chill. Cut a slice from the top of each and remove the seeds and part of the pulp, taking care to leave enough of the outside of the tomato for it to hold its shape. Cottage cheese or a grated snappy cheese may be mixed with tomato pulp and chopped nuts. Add enough mayonnaise to moisten well. This mixture should be seasoned to taste with salt and a little cayenne and the centers of the tomatoes filled with it. A small ring of sweet green pepper may be placed on each tomato. Other popular fillings for

whole tomatoes are chicken salad, finely chopped, baked ham, well seasoned and moistened with salad dressing, and a mixture of tomato pulp, chopped celery and minced onion.

Cabbage-Apple Salad

2 cups shredded cabbage.
2 pimentos minced.
2 tart apples.
¼ cup nut meats.
Lettuce.

Use red skimmed tart apples, and cut into thin strips leaving red peel on. Add shredded cabbage, pimento and nut meats. Serve with salad dressing well garnished on lettuce leaves.

Tuna Salad

1 can tuna fish.
2 apples chopped,
1 cup diced celery,
½ cup diced pimento.
Combine all ingredients.
Serve with boiled salad dressing.

Vegetable Salad

2 cups boiled potatoes, diced.
1 cup carrots, chopped.
3 hard boiled eggs, chopped.
2 pimentos, chopped.
½ cup pickles chopped.
½ medium sized onion chopped.
Mix all ingredients and moisten with Mayonnaise.

The County Home Demonstration Agent hopes these recipes will be helpful to all, both town and farm home makers alike. If you are interested in new recipes and want them published in the paper weekly kindly notify the Home Demonstration Agent in some manner, and she will be glad to continue them.

SLAT'S DIARY

Friday—All most got myself in bad with the teacher in school today.

I and Jake was planning for the game of foot ball for tomorrow vs. the Butcher Cats and all of a sudden she slams her ruler vs. her desk and she looks rite strait at us and says. I hope I don't hear enny buddy tawking over in that part of the room. I looks her right stright in the eyes and I says. I hope

got by with it to.

Saturday—Our church had a 2nd hand social today. They take sum thing that aint enny good to no nobody any more and sell it to make munny to send to the mishunarys over in forren countrys. Ma took I and pa. We had a very good time generally speaking.

Sunday—The teacher ast us how meny of us had bignun to read Ben Hur like she ast us to do a couple of week ago. Harold Treat sed he wassent aloud to read Ben Hur and when she sed Why not, he replied and sed his ma diddent approve of it because it was about horse racing.

Munday—I was down to the store buying sum shoes to wear th's evening and they was a man that um in and he had such a small foot that one foot of his was smallern both of mine put together.

Tuesday—I was a telling Ant Emmy that the Boy Scouts was a going for a tramp next Saturday afternoon and she sed. Well I do hope they ketch one becuz they are getting to be a regular nusants the way they beg you for munny and sum things to eat all the time.

Wednesday—Pa is about in the pushun to unjoin from the golf club on account of he is such a post bridge player when ever they get him to playing bridge here of late.

Thursday—Ma and pa went to a party witch was set for a girl wite. The of a party was gran for is a going away off some wheres to study hospital ty. she can be aurse when she ever sees to a mishunary for the church.

HIGHWAY POLICE

Texas highways will be patrolled by fifty motorcycle officers after about October 1st. The patrolmen will be expected to enforce the Texas highway laws, under an act passed by the last Legislature. Texas is so large and the force will be so small that it will not be possible to bring about entire observance of the laws, but if the patrols do their duty they will secure much better observance of the rules of the road.—Will H. Mayes in Wellington Leader.

Fifty traffic officers apportioned to the highways of this expansive State won't be very conspicuous but they will be effective to some extent. They will soon record in their minds or note books the regular and questionable drivers in their several jurisdictions. And by that means they will learn who's who among the reckless drivers. Tourists are seldom great offenders in their manner of driving. It is the regulars who cause most accidents, partly from their reliance on their knowledge of the road

and partly from carelessness grown out of routine. Drivers of busses and trucks have been under some criticism. Most of these are experts, but just as Jove is said to nod sometimes when the thunders sing a lullaby, so do professional drivers sometimes forget to give half the road. The highway policemen no doubt will keep tab on the too hasty or too indifferent automotive engineers. Also they may be near at hand when Johnny comes zig-zagging home with his bosom full of cross-eyes. The drunks in automobiles are more to be degraded than an army with banners. Out in California they are trying a prominent lady for second-degree murder, on the allegation that she was driving while intoxicated and killed a man who failed to guess which way she was going. If there were some factors in liquor that would make a lady know she was cross-eyed when she wasn't sober probably the unfortunate Californian had not been a prisoner at the bar today.—State Press in Dallas News.

"It's all wrong about these Irish being good fighters."

"Yeh?"

"Once up in the north, my brother and I and two other fellows licked an Irishman. Sure."

LEVINE BROS.

The Magnolia exhibit of several years ago, shown above, is typical of the dozen or more community exhibits that will be shown at the Lynn County Fair next week.

South Ward Items

A Parent-Teachers association will be organized at South Ward this Friday night. Mr. M. L. H. Baze will speak to this group and to the community. Mr. Baze is an excellent speaker and will have a message well worth while to every one. He has not announced a subject but he will speak on something of interest to us all. We are very anxious that every mother and father of children in this community be present at the school Friday night. The whole community is invited to this occasion.

Mr. J. C. Hood returned from East Texas last Saturday.

Mr. and Mrs. Malcolm Smelser, Mr. Euel Smelser and Pauline were called to Lubbock last Sunday on account of the illness of relatives.

The horse races in Mr. Hugh Hunt's pasture are attracting much attention. Another event is to be held next Sunday afternoon.

Mr. Lewis Johnson of this community was married to Miss Jack Hunt. Miss Hunt was very popular among the young people of Redwine and Draw. Mr. Johnson is well known in this community, his father

er being one of the residents of this part of the county.

Mr. and Mrs. F. O. Parr visited Mrs. Parr's parents, Mr. and Mrs. Disheroon, last week.

Dismantling of several plants in California and building several in Texas during 1928 put Texas first in the number of oil refineries in the United States.

Locals

Mrs. Berta McDaniel and daughter, Miss Ione, leave today for their home in Los Angeles, after a visit of six weeks here with her parents, Mr. and Mrs. W. J. Crouch, and her brothers and sisters and their families.

Miss Leta Martin, one of the teachers in the Draw public school, underwent an operation for appendicitis in the West Texas Hospital at Lubbock Sunday afternoon. Miss Martin is a graduate of the Tahoka High School and is a sister of Mrs. H. C. Storey of this city. She has many friends here who are hoping for her speedy recovery.

Charley Lloyd of South Ward and Henry Lloyd of Post and their mother, Mrs. John Lloyd, were called to Abilene Friday by the death of her son-in-law, Mr. Thomas, which occurred that afternoon. J. F. Lloyd, the father-in-law was already there.

Miss Willie Lois Nevels left last week to enter Sullin's College at Bristol, Virginia. She was accompanied as far as Dallas by her mother, Mrs. W. D. Nevels, and her sister, Mrs. A. D. Sanders. Mrs. Nevels visited in Lampassas before returning home.

Mr. and Mrs. Jesse Eubanks are happy over the arrival of a son in their home, which event occurred Monday. The little fellow weighs 8 pounds and Jesse is of the opinion that he will make a dandy boy scout a few years hence.

Mr. and Mrs. Irvin Stewart were called to Brownwood Thursday by the precarious condition of Mr. Stewart's mother, who had just undergone a major operation. Word received here since is to the effect that she is better.

Judge B. H. Howard and son, Grady of Crosbyton came over last Thursday to visit the former's daughters, Mrs. Harley Henderson and Mrs. Frank Hill. Grady remained to visit here a few weeks.

Mrs. L. S. Kuykendall of this city was called to Ballinger early this week by the serious illness of a brother there. It is said that his condition was so serious that he was not expected to recover.

A. M. Tredway was called to Greenville last Friday by the serious illness of a brother. The brother has reached the advanced age of 86 and his recovery is thought to be doubtful.

C. C. Barnes informs us that he is sowing sixty acres in wheat on his farm north of town. He expects it to make good winter pasturage and possibly a good wheat crop next spring.

Mr. and Mrs. C. T. Johnson and Mr. and Mrs. Gene Brashear, all of Lubbock, were guests last Sunday of Mr. and Mrs. E. E. King of this city.

Miss Jeanette Cavens left Monday for Abilene, where she will again be a student in Simmons University.

HIGH SCHOOL GLEE CLUB IS ORGANIZED

On last Thursday afternoon, Sept. 5th, the Young Men of the High School met and organized a Glee Club with 32 enrolled. The officers elected were: President, Boswell Edwards; vice-President, Jim Jackson; Secretary-Treasurer, Coughran Ketner, and Reporter J. D. Donaldson. The director is Miss Bessie Maye Bennion who is teach of voice and piano in the schools. Mr. Baze will assist her in the work. The Glee Club will meet each Monday afternoon.

BULLDOGS PLAY O'DONNELL FRIDAY, SEPT. 20

The next football game of the season will be with O'Donnell at O'Donnell Friday, September 20 at the Community Fair.

It is hoped that a large part of the student body and citizens will attend.

SOPHOMORE CLASS ORGANIZED

The Sophomore Class met Thursday morning, Sept. 12th, for the purpose of organizing their class.

The following officers were elected: Kenneth Reid, president; Bob Caveness, vice-President; Mary Ellen Pesterfield, secretary; Kieth Kemp, treasurer, Helen Applewhite reporter, and Curtis Stevens, Sergeant-at-arms.

LOCALS

The following Juniors went to Wilson to the football game: Lola Belle Edwards, Mary Sue Clinton, Mary Fenton, Reta Lois Colleenback, Evelyn and Estysen Jeffries, Lucille Slaton, Fern Aycox, Snookie Maddox, Virgie and Jettie Faulkner, Boswell Edwards, Clifton Janak, Lorene Childers, Jack Childers, Elizabeth Martin, Glenda Milliken.

The freshman class was very sorry to hear of the loss of one of our newly acquired friends, Estella Rice who is moving back to Mansfield Arkansas. She was loved by all the freshmen class and each one regretted to see her go.

Helen Brasfield and Ruth Shaeffer visited friends in Slaton Saturday night and Sunday.

Sybil Prater visited in Littlefield Sunday.

Merle Link and Mary Sue Clinton visited friends in Lubbock Sunday.

Mary Fenton visited friends in O'Donnell Sunday.

Fern Aycox visited in Slaton during the week end.

Mrs. Tunnell spent the day in Lubbock Sunday.

The following are the Juniors who have caused the Junior class to swell with pride: Lucille Slaton, elected vice-president of the Choral Club; Mary Fenton elected secretary of the Choral Club; Boswell Edwards elected president of Glee Club; Clifton Janak elected vice-president of Glee Club; Coughran Ketner elected secretary of the Glee Club; J. D. Donaldson elected reporter of the Glee Club; Lola Belle Edwards elected one of the pep leaders.

Do you realize that there are only a very few more days until the Lynn County Fair will be a reality and not a thing to be planned for as some of us have been doing for the last few months.

The Lynn County Fair is a county institution and should have the hearty co-operation of all the citizens of this county. There is the only secret of its success. Therefore you see you are as much responsible as any individual in the county.

There are the various departments of the Fair, that each woman in the county may enter, and she will make the department better by placing her articles on exhibit; so therefore you are urged to enter either one or all of the following departments:

Textile Department—Embroidery, Knitting, Crochet, Quilts, Plain Sewing, Fancy Sewing and Old Ladies Work. The Superintendent is Mrs. E. E. Callaway, phone 147. Call her if you wish to enter anything in this department.

Culinary Department—Bread, Cakes and Cookies.—Supt. Mrs. Taylor White, phone 129W. Call her if you wish to enter anything in this Department.

Canning Department—Mrs. Jack Applewhite, phone 207, superintendent in this department. There will be all the canned products, preserves, jellies and pickles.

Plants and Cut Flowers—Enter Pot plants and cut flowers, hanging basket and window boxes. Mrs. J. L. Heare will be superintendent of this department, phone No. 135.

Relics, Antiques and Curios—Mrs. Claude Wells, Supt., Phone 164.

Read your Fair catalogue as to the time things should be entered and be sure to have them in on time for we do not want to leave out any exhibits this year.

Each Supt. is working and making plans as to how she can make her exhibit attractive; so give her your hearty co-operation.

The Women's Home Demonstration Clubs of the County plan to have a larger exhibit this year than last, and far better. There will be several phases of our work that will be worked out this year in a booth at the Fair. Be sure and see it.

Miss Bess Edwards, Assistant State Home Demonstration Agent, College Station, Texas, will do the judging for this department. This judging will be done on the 24th at the American Legion Home. All exhibits save the butter and cottage cheese will be brought in on the morning of the 24th as the committee comes from your club to be here that day. Be sure not to forget and be here.

Texas has 491 ice plants with a daily capacity of 21,129 tons.

ETHYL to stop knocks

CONOCO gasoline to give you extra miles

the greatest combination you can put in your car

THE amazing way in which Ethyl stops knocks and gives a steady flow of power, no matter how old or how full of carbon the motor may be, is one of the marvels of modern engineering skill. By adding "Ethyl" to a gasoline especially refined to give you extra miles in every gallon used, Conoco Ethyl offers you a motor fuel different from anything else you can put in your car. Driving economy plus the greatest of driving comforts—no need

to worry about every little extra load on your motor, no need to throw her into second on every hill, no need of frequent carbon removal!

Conoco Ethyl is another example of the extra value in gasoline and motor oil which the greater Continental Oil Company is offering to motorists.

Stop at the new red triangle Conoco sign and fill up with Conoco Ethyl today. Enjoy the greatest driving pleasure you have ever known.

EXTRA KNOCKLESS MILES

Marquette DELIVERS PERFORMANCE THAT ONLY BUICK BUILDS

Into the Marquette, Buick has built an extra margin of every quality that makes an outstanding leader. On the road the brilliant performance of this swift, smart new six is unmatched by that of any other car of comparable price. Nowhere in the thousand-dollar field can you find such thrilling response, such effortless speed, such big reserves of power.

more to offer than supreme performance and economy! In its class, Marquette is the only car with the remarkable new waterproof, dustproof, wearproof upholstery and the wonderful new non-glare windshield. A host of other exceptional features contributes to its completeness: Dustproof, tilt-ray headlights. Four Lovejoy hydraulic shock absorbers. Big, smooth, fully-enclosed brakes. Airplane-type stepped-size bearings. A completely sealed engine. Beautiful, harmonizing finish, inside and out. Perfect fittings and appointments.

Only Marquette with its priceless background of Buick craftsmanship can offer such superlative performance at moderate cost. Only Marquette in the thousand-dollar class has an engine of 212.8 cubic inch piston displacement. Marquette alone provides the extra endurance and extraordinary economy of operation that Buick alone knows how to build.

Here is one of the smartest cars on the road... setting the style with new, low-slung, faultlessly tailored bodies by Fisher... and providing performance unmatched in the moderate-price field. See it—drive a Marquette today and know why the world is saying: "A GREAT PERFORMER!"

And this handsome new six has even

Free Football Games At Lubbock Fair

LUBBOCK, Texas, Sept. 18.—Twelve of the best high school football teams in the South Plains section will be seen in action at the Panhandle South Plains Fair September 30th to October 5th, as a free attraction.

No charge will be made for the football games and as everyone inside the fair grounds will be admitted to the games free, a record breaking crowd is expected each of the six afternoons.

W. W. Nicklaus, former Texas Tech star will bring his Tahoka High School Team here Thursday, October 3rd, for a battle with the Littlefield High School team. Littlefield and Tahoka have been rivals on the Fair Park Gridiron in past years and every game has been a stirring contest for honors.

Other games scheduled will be: Lubbock second team plays Lorenza Monday, Sept. 30; Brownfield plays Falls Tuesday, October 1st; Crosbyton plays Levelland on Wednesday, October 2nd; Post plays O'Donnell, Friday, October 4th; and Slaton plays Plainview, Saturday, October 5th.

DON'T MISS A MINUTE OF THESE TWO BIG DAYS—BE IN TAHOKA WEDNESDAY AND THURSDAY

FALL TERM OF DISTRICT COURT OPENS NEXT WEEK

With a long civil docket ahead of it and many criminal matters to investigate and dispose of, the district court will meet here next Monday morning.

The first work of Judge McGuire will be to empanel a grand jury and this body is expected to get down to work before noon, with district attorney T. L. Price and county attorney G. H. Nelson to assist them in their deliberations.

Among the important cases for this body to investigate is the charge against Mrs. Delois Walker, wife of the notorious “Whitey” Walker, who is now in jail at Post charged with

the burglary of the store of the Tahoka Drug Company here a few months ago. “Blackie” Wheeler, out on bond, is also charged with being implicated in this burglary.

Two cases against Jack Clayton will also be investigated, one charging the theft of a cow from B. H. Clark and one charging the burglary of Cook's store at Wells.

A number of parties will also receive the attention of this body in connection with the burglary of Swan's store at Wilson a few months ago, and one man will be investigated on a charge of having burglarized a store at Draw.

Also there are some chicken theft cases and at least one forgery case to be looked into.

It is expected that a larger number of felony indictments than usual will be returned at this term of court and district attorney Price is hopeful of bringing several of them to trial.

The case of the State of Texas vs. Mrs. Mollie Turner who was tried and convicted on a murder charge here a year ago but whose case was reversed and remanded by the Court of Criminal Appeals a few months ago, is set for trial on Monday, October 14th. A special venire will be summoned in this case. Mrs. Turner is charged with the murder of her husband, Mr. Turner having come to a violent death at his home near Wilson about nine years ago.

Truett Smith reports that there are fifty-five cases on the civil docket to be disposed of. Fifteen or sixteen of this number are divorce cases, there being an unusually large number of this character of cases this term.

The prospects are that the court will be rather busy during the four weeks of the term. No jury has been summoned for the first week. This time will be devoted to the trial of the non-jury docket. Juries have been summoned for the last three weeks, and the present prospect is that they will be kept busy much of the time.

A Mr. Nowlin, who had a “church directory” together with advertisements of various business men printed on a placard here several weeks ago, was again a visitor in Tahoka Wednesday. This time he was undertaking to induce some local organization to put over for him an electrical advertising scheme of some kind. We are not advised as to what success he had, if any.

The STAMFORD offices of the West Texas Chamber of Commerce were recently visited by the committee composed of R. L. Penick, Stamford, O. P. Thrane, Snyder, and Walter Chne, Wichita Falls, who drew up a preliminary report of changes in the constitution and by-laws of the West Texas Chamber of Commerce.

SPECIAL FOR SATURDAY!
 Large Devil's Food Cake—50c
 City Bakery

TAHOKA DEFEATS WILSON; PLAY HERE WEDNESDAY

In their first football game of the season, Tahoka Bulldogs won over Wilson High School on the Wilson gridiron last Friday afternoon by the score of 18 to 0.

The first half ended 0 to 0 with Wilson showing a slight edge over the visitors, but in the second half Tahoka came back with blood in her eyes, scoring two touchdowns in the third quarter and one in the fourth. Stars of the game for Tahoka were Minor, Chaney, Stephens and Edwards.

Those playing were Baird Fox, LE; Robert Benson, LT; Frank Greathouse, LG; Jess Gurley, C; Edgar Edwards, RG; Earl Grider, RT; Graham George, RE; Coughran Ketner, Q; Walter Chaney, LH; Curtis Stephens, F; Jack Minor, RH. Substitutes playing were Eastridge, Tankersley, Spears and Welch.

The team is in good shape for the game with O'Donnell at O'Donnell tomorrow afternoon. Next Wednesday the first day of the Fair, Wilson will play a return game here.

O'DONNELL C. C. SECY. TO SERVE ONLY PART TIME

(O'Donnell Index)
 After October 1st, G. S. Dowell, present secretary of the O'Donnell Chamber of Commerce, who has been devoting his entire time towards the advancement of the work during the past three months, will serve as part time secretary, devoting the remainder of his time as Superintendent of the McCarty Schools in Dawson county.

This decision was reached at a meeting of the board of directors of the organization on Tuesday morning of this week. Ten members of the board were present and eight of that number were of the opinion that the work could be carried on by Mr. Dowell in connection with his school work, until general conditions of the county warranted a full time man. Each member of the board present expressed himself as being well pleased with the results accomplished during the three months Mr. Dowell has served as secretary of the organization. Mr. Dowell will

continue to serve as full time secretary until October 1st and after that time as part time secretary. All projects now under way that are not now completed will be carried out by the organization to completion.

SONORA is soon to be covered by a special edition of the Devils River News, which will be published on October 9th, when several hundred people from Florida, Louisiana, Mis-

issippi, Alabama and Texas will compose a motorcade through the town. News of Sonora and Sutton county will be played up.

CLARENDON showed a gain in cream production from eighty ten gallon cans the first week to 136 cans the last week of August even though it was the hottest and driest of the summer months.

WELCOME!

We hope you have a good time at the Fair next Wednesday and Thursday. Many of you will win premiums. But let us remind you that if your

Cows and Poultry

are to give you the best service, they must have ample protection from the winter weather; they will need good sheds. We have the material with which to build them. Call and let us figure with you.

HIGGINBOTHAM-BARTLETT COMPANY

welcome
FAIR VISITORS

WE URGE YOU...

To come to the fair next week. The Fair is designed to help the farmer, and we all depend on the farmer. There is nothing more inviting than a well-improved farm. All improvements on a farm should be constructed of the best material. We will take a pride in helping you to plan any improvements that you desire to make, figuring the expense to the minimum. Come in and see us while at the Fair.

Forrest Lumber Co.

Boys' Club Will Have Many Exhibits

Boys' 4-H Clubs will contribute much to the success of the Fair this year from the standpoint of exhibits. Although these clubs have been organized only a few months, since the coming of County Agent Ray E. Shaver, they are setting forth some excellent examples in the raising of livestock and feedstuff.

Some of the boys who will exhibit their products at the Fair are: Fat Barrows; O. J. and Paul Sproles, Lige Holley, Lonnie and Wilson King, all of Dixie; Avvie Lee and W. H. Norman of Grassland; Horace Lindley and J. W. Owens of Edith; and Herbert and Bertram Hatchell of Wilson.

Registered Pigs: Boyd and Landon Smith of Redwine; Carman Morgan, Magnolia; Eugene Jaynes, Doyle

and Burrell Terry and "Doc" Everett, New Lynn. There will also be about ten Jersey heifer calves, and about twenty-five exhibits of maize and hegar. Eight or ten boys will exhibit poultry.

Locals

Skip Taylor announces that admission to the big baseball game between the Tahoka All Stars and the Fort Worth Cats on next Thursday afternoon, the last day of the Lynn County Fair, will be only 50 cents for adults. At this popular price every baseball fan in this entire section is expected to be here to see the big game.

J. W. Henderson of Arlington and O. H. Evans of Lindale Smith county, are here this week as guests of the former's brother, W. O. Henderson. Mr. Evans had come out to Lubbock to enter his son in the Tech College. He is a cousin of Mr. Henderson. They report crops short in their part of the state as well as in West Texas.

County Superintendent H. P. Caviness and County Judge G. C. Grider attended the opening of the public school at T-Bar last Monday morning, and both gentlemen made talks. They report a good attendance on the first day, with prospects for a good school.

Coleman Wells is constructing a handsome and commodious residence of six rooms and bath two blocks southeast of the high school building. It will be of stucco finish outside and beautifully finished inside.

Chester Connolly and A. Z. Jackson returned Wednesday night from Commerce and Dallas, where they went on business.

Texas has 491 ice plants with a daily capacity of 21,129 tons.

BILIOUS, DIZZY

Lady Says She Suffered Much Discomfort Until She Tried Black-Draught; Found It Brought Relief.

Townville, S. C.—"I had a bilious spell. I would get very dizzy and have such a bad taste in my mouth," says Mrs. Bertha Whitfield, of this place.

"When I would stoop over, I felt like I was going over on my head. When I would get up mornings, I felt as tired as when I went to bed. A friend told me how she had been helped by taking Black-Draught, and how she kept it in her home. So I thought I would try it, any way, which I did, and from then on I have used Black-Draught when I feel bad, get up tired, or feel that I need anything. Now I recommend it to my friends.

"If I get tired and sluggish, feeling like I must sit around when I have lots to do, I take Black-Draught. A few doses seem to be what it takes to cleanse my system of impurities that may cause this trouble."

Black-Draught is made from finely powdered herbs and roots carefully combined, weighed and packaged by automatic machinery.

Easy to take—no disagreeable after-effects. Sold in 25-cent and \$1.00 packages at all druggists. Try it. *NC-215*

BLACK-DRAUGHT
For Constipation, Indigestion, Biliousness

Miss Berta Hill left Wednesday for Canyon, where she will again be a student in the West Texas State Teachers College.

Orvis Weathers, now of Quanah, spent several days here this week with his parents, Mr. and Mrs. Larkin Weathers.

Rev. Philip McGabey, pastor of the Baptist Church at Wilson, was here Monday and Wednesday attending the revival services.

Alex Chaney left Monday for Alpine to enter Sul Ross College as a student this school term.

Miss Noel D. Bray leaves today for Abilene, where she will enter Abilene Christian College for the coming session.

Miss Lowell Douthit will attend Tech College the coming session.

MORGAN CLUB GIRL MAKES GOOD RECORD

Miss Mollie Cato of Morgan 4-H club makes a very fine record this year canning. Mollie is very interested in club work and is working very hard to get all that is possible out of club work. She chose poultry for her project and has had very hard luck with her chickens but has made up for her hard luck in her Food Preservation work.

According to the estimate given to the products by A. & M. College of the Extension Service her products may be valued as follows:

Plums	\$6.00
Peaches	\$15.50
Jelly	\$1.00
Plum Butter	50c
Apricots	\$1.00
Grapes	50c
Peach pickles	\$3.00
Peach Butter	\$2.70
Beets	\$2.25
Plum Preserves	90c
Kraut	\$3.00
Beans	\$1.75
Pickles	\$2.50
Grape Juice	\$3.50
Tomatoes	\$8.00
Cucumbers	\$2.50
Apples	\$6.50

Chili Sauce \$4.00 Study given in the Morgan school.
Total \$65.20
This girl is a first year club girl and has completed the Course of

NERVOUS SUFFERING

Lady Says She Took Cardui, Felt Better In a Few Weeks, and Steadily Gained Health.

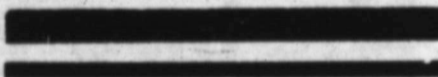

Moscow, Ohio.—"I had been in awful, bad health for months and months," says Mrs. Cynthia Staton, of this place. "My nerves were all to pieces, and I was all run-down. My back hurt all the time, and I had to drag myself around the house. My legs ached and I worried all the time. I could not stand the least noise. The least little thing upset me.

"One day, I read a Ladies Birthday Almanac that my husband brought home, and I thought I would try the medicine I read about in it—Cardui.

"I began taking Cardui, and in a few weeks I felt myself getting much better. I took it for several months, as I was steadily gaining in health. When I finished taking Cardui, I felt fine.

"Since that time, thirty years ago, I have taken Cardui several times when I needed a tonic to help build me up, and it has always helped me. I give it to my daughters and I have recommended it to others. I think it is a fine medicine."

Great numbers of women, of all ages, have written to tell how they have been helped back to good health by taking Cardui. NC-218

THE NEW FORD Light Delivery Car

FAST DELIVERIES to your customers at low cost to you

The New Ford Light Delivery Car has the same chassis as the Ford Model A car of proved performance and reliability. The simplicity of its design contributes both to its reliability and economy.

No better samples of simple design could be found than the Ford electrical, ignition, lubrication, cooling and fuel systems. In the fuel system, for example, the fuel line is only 18 inches long. The ignition system is equally simple and direct. There is only one high-tension cable. It connects the distributor with the coil.

- FEATURES OF THE NEW FORD LIGHT DELIVERY CAR**
- 40-Horse Power Engine.
 - Sturdy, rugged body.
 - Silent, fully enclosed six-brake system.
 - New transverse springs with four Houdaille double-acting hydraulic shock-absorbers.
 - Triplex shatter-proof windshield.
 - Reliability, long life, safety and economy.
 - Universal Credit Company Plan of time payments.

Come in and let us show you the other unusual features of the new Ford Light Delivery Car.

Connolly Motor Company

Unerring Instinct Is Nature's Gift to Seal

Seals are possessed of most marvelous instincts, says Gas Logie. They know, for instance, exactly where to bore the ice to make their bobbing holes and never waste time or effort on ice too thick to be penetrated. They have some mysterious way also of knowing the width of a field of ice that must either be swum under or passed around.

A mother seal will leave her pup on an ice floe, slide off into the water, travel for a great distance and be gone for hours fishing. Meantime the ice floe, carried by winds and currents, drifts far also. Yet when "quitting time" comes the mother unerringly returns to the right floe, comes up through her own bobbing hole and at once finds her waiting child. Seals normally travel through the water at about 20 miles an hour, but on occasion will "bolt" for a short time at a rate of about 100 miles an hour. They cannot remain submerged without drowning for more than about 20 minutes.

A mother seal among a swarm of seal "pups" is said to be a very curious sight. Many of the "pups" solicit her maternal attention, but she angrily repels them all, finds her own baby and nurses no other. The seal youngsters all look precisely alike to man, but her nose knows!

Belated Honors Paid First British Aeronaut

In honor of James Sadler, the first British aeronaut, a memorial tablet has been erected at Oxford.

On October 4, 1874, he "did astonish the people by ascending into the atmosphere with firmness and intrepidity." His balloon was 170 feet in circumference, and carried a small brazier, suspended under the envelope, in order to maintain heated air to give the power of ascension. It shot up to a height of 3,500 feet, and was blown northwest.

Unfortunately, Sadler dropped the fork used to handle the fuel, and it is said he avoided coming down in a wood by using ears. Eventually, after half an hour's flight, he had traveled about six miles. In his second flight he used hydrogen, and in three minutes was lost to sight in the clouds. Twenty minutes later he came down near Aylesbury, 14 miles away.

For 25 years Sadler worked as a chemist, engineer, and inventor, but when fifty-seven he returned to ballooning. In 1814 he ascended from Burlington house, Piccadilly, before a huge crowd. Subsequently, however, he failed in an attempt to cross from Ireland to England.

LUBBOCK PLANS BIGGEST BEST FAIR IN HISTORY

LUBBOCK, Texas, Sept. 18.—"The people of the Plains will find that their fifty cents will go farther in buying entertainment at the fair this fall than it ever before has", Byron C. Dickinson, president of the Panhandle South Plains Fairs says, in commenting on the fair that will be held this fall, Sept. 30 to October 5.

"Fifty cents will take you to everything on the grounds with the exception of the carnival shows", Dickinson says. "And the word 'everything' applies to a free football game each afternoon, six vaudeville and circus acts twice daily, fire works each night, and many other forms of special entertainment as well as to all the exhibits in the agricultural building, the industrial building, the machinery building, the live stock barns, the poultry build-

Like Man Made Over New Now

"I feel like a new man—made all over again and I'm glad to tell the whole world what Sargon has done for me.

"For the first time in 15 yrs. I am free from pains and feeling fine. I've gained 12 lbs. too, and that's something to talk about, because I certainly was in a terrible run-down condition.

"I had pains in my side for three years and they were so bad I could hardly stand them. My blood pressure was low and people my age know what that means, because it brings on all sorts of complications like headache, shortness of breath, and low vitality. That's not worrying me any more for my blood has been built up and even though I am 52 years old I feel fine and full of energy.

"I'm through now with losing lots of time and spending lots of money on useless medicine. I know Sargon does the work and I'm not going to be without a bottle handy from now on."—H. M. Curtis, 725 Frey Ave., Fort Worth.

Thomas Brothers Drug Co., Agents

ing, the women's building and other exhibits over the grounds."

Many improvements this year are expected to attract a big number of new people to the fair to smash the 1928 record attendance of over 120,000 people.

County agricultural exhibits are expected from every South Plains County. First prize in this class is \$200 and other prizes in proportion. Premiums on live stock, poultry, articles in the Women's department and other prizes are in line with prizes and premiums of leading fairs of the Southwest.

"We're offering the people of West Texas a real fair for a total cost of fifty cents and we are expecting a big attendance", Dickinson says.

Booster trips advertising the fair are being made over the South Plains of Texas and Eastern New Mexico Friday, Sept. 20; a caravan

will swing around a loop to the southeast making stops at Slaton, Southland, Post, Tahoka, O'Donnell,

Lamesa and Wilson. The Lubbock high school band and from 25 to 30 cars are going on the trips.

'Always Better Values'

STATISTICS ON POULTRY DEMONSTRATIONS GIVEN

Poultry has been one of the phases of club work stressed in the county this year. There will be three good demonstrations in the county this year. Watch their reports. Mrs. J. B. Lowe of New Home has the Rhode Island Reds and is conducting a demonstration. Mr. S. A. Cummings of Wilson is conducting a demonstration, and so is Mrs. I. M. Draper of Midway.

Below is given a report from the Extension Poultry Specialist of A. & M. College of Texas.

The following is a state summary for June, on 204 poultry demonstrators for 39 counties:

The first item in the figures give the proceeds and number 85 flocks of less than 100 hens.

The second item is from 98 flocks of from 100 to 300 hens.

The third or last item is from 21 flocks of over 300 hens.

Total hens in flocks: 5,374; 15,105; 9,328.

Total eggs produced: 72,929; 235,993; 150,962.

Average eggs per hen: 13.5; 15.6; 15.8.

Sale of fowls: \$812.46; \$116.33; \$802.27.

Sale of eggs: \$1,312.09; \$1,265.30; \$3,090.58.

Total receipts: \$2,124.55; \$5,428.67; \$3,892.85.

Eared cost: \$651.62; \$1,957.11; \$1,792.89.

Income above feed cost: \$1,492.93;

\$3,471.56; \$2,099.96.

Feed cost per dozen eggs: 10.7 cts.; 9.9 cts.; 14.0 cts.

Profit per hen over feed: 27.4 cts.; 22.9 cts.; 20.9 cts.

Per cent mortality: 1.9 per cent; 1.5 per cent; 1.4 per cent.

Total of 30,007 hens make up the combined totals of the above three columns. Thirty thousands hens is a fair sample of anybody's state and these Texas hens cackled to the tune of 23 1/2 cents profit each for the month of June.

All the hens averaged 15.3 eggs for the month and produced a dozen eggs for 11 1/2 cents worth of feed.

Mrs. J. B. Lowe of New Home Community believes in early hatching. In this way they are not so susceptible to the diseases and insects that come when they are hatched later. She hatched 423 chickens this year and has raised 75 or 80 per cent. Some of these, however, were late chicks and that is where the greatest loss has been.

Mrs. Lowe has culled her chickens twice since the first of January and will cull all along through the year studying her flock as she goes.

At the first of January she had about 140 hens having culled twice and taken out 26 leaves her 114 hens. Since the first of the year she has sold the following:

Eggs \$188.76
Chickens \$58.44

Of course her egg production has been far more than this because she has a family of four, and they have an adequate supply for the table and

then she used a very large number for hatching purposes.

Does Poultry pay? As Home Demonstration people we believe it does. Watch for the other reports later.

Pipe to Cure Pain

The shaman or doctor of the Wiyot Indians wore a pair of feather dusters draped on each side of the head and carried a bundle of condor feathers, an elkhide belt and a pipe.

Among the Wiyot, unlike the modern custom, doctors were chiefly women. Some of them diagnosed the illness of their tribespeople by dancing or singing, others sucked out the pain through their magic pipes. The condor feathers were pushed down the throat, much as a sword swallower would handle a knife. A very complete shaman's outfit which has passed from one member of the tribe to another for several generations, has been recently acquired by the Museum of Anthropology of the University of California.

Small Farms in India

"India is essentially a country of small holdings," says Sir Verney Lovett, author of "India." "In many parts of the country the land is held usually by families of peasant proprietors. In other parts the bulk of the land is owned by large properties, but even in such cases the tenant in chief has generally been protected by a series of rent acts which not only insure him fixity of tenure during his lifetime but often grant the right of descent of the tenure to his heirs on his death. The disruptive tendencies of the Hindu and Mohammedan laws have profoundly affected agricultural economy through encouraging the minute subdivision of land." Fragmentation is the rule.

Ireland's Famous Hill

Tara is the name of a hill in County Meath, Ireland. It was here that the triennial convention of the Irish kings was established by Ollam Fodhla, about 900 B. C. According to tradition the palace of Tara was 900 feet square, containing 150 apartments and 150 dormitories. The early kings of Ireland were said to be crowned here and tradition further states that Tara at the time of the advent of St. Patrick to Ireland was the principal seat of Druidism in Ireland. It is said to have been abandoned through the curse of St. Ruadan, 450, on account of its idolatry.

Amber and Meerschaum

Amber can be made to burn when heated to a high temperature in the air. It is a fossil resin from trees of the pine family and is dug up from the shores of the Baltic sea and the North sea and a few other places. It is a compound of carbon, hydrogen and oxygen. Meerschaum is a compound of magnesium, silicon and oxygen and resembles a white clay. It is found chiefly in Asia Minor, where it occurs in masses of clay. Of course, the only connection between the two substances is the fact that they are both used in making pipes.

Names of Cloud Formations

The idea of giving names to various kinds of cloud formation was first attempted in the early part of the Nineteenth century by a man named Lamarck, but his terms were not well chosen. A simpler form was devised about 1808 by Luke Howard, which seemed to answer the purpose and was generally accepted. Howard classified clouds according to their appearance, recognizing three primary types—cirrus, cumulus and stratus—and four derivative, or compound forms—cirro-cumulus, cirro-stratus, cumulo-stratus and cumulo-cirro-stratus, or nimbus. Thus, he defined seven varieties.

Bad News

Jenkins married, and in due course his wife presented him with a son. His friends flocked round to tender their congratulations and, incidentally, smoke Bill's cigars.

Jones was on his way to the house when he met Browning returning. "Where are you going?" asked the latter.

"Oh, I'm just going round to see Bill and wish him luck with that youngster of his."

"Then you're too late."

"What? Surely it hasn't died?"

"No, the youngster's all right, but the cigar box is empty."—Pittsburgh Sun Telegraph.

Camels in Australia

Many camels are used in Australia as beasts of burden. For instance, from Wyndham in northwestern Australia the cattle stations are served by camel trains which carry supplies for hundreds of miles into the interior. "The camels are driven by Afghans," says the National Geographic society. "Camel teams are familiar sights in the streets of the little township, hauling in the great wagonloads of firewood from the outlying district. The first camels were brought to Australia for the use of the early explorers. Later a fine type of dromedary was imported for breeding purposes."

JAUREZ, Mexico, will play a great part in entertaining WTCC convention goers. The convention proper will end with a Spanish fiesta on the streets of the unique and picturesque old city.

FOR SALE OR RENT—A 10-disc wheat drill—A. I. Thomas. 4-tfc.

HEREFORD has shipped three carloads of butter to the eastern markets within one month's time. The Farmers Creamery has provided a ready market, and interest in dairying is very much on the increase. Cream is being received regularly from a radius of up to 60 miles.

ped from the town this season than any time since 1924 when 213 cars were exported. Two hundred cars had been billed up to a recent date by the Fort Worth & Dever freight.

In Randolph Field, San Antonio, Texas, is to have the largest and most modern airport and flying school in the world. Plans have been accepted by the War Department for its construction.

No. 1515 Exquisitely sheer chiffon with popular French heel—all silk interlined picot top, \$1.95

ASK FOR ROLLINS HOSIERY BY NUMBER!

Ten excellent reasons why buying two pairs of hose at a time is economical:

1. Two pairs of the same hosiery shade enable you to alternate the wearing—thus enjoy longer wear from each.
2. One stocking from each pair usually wears out before the other, then the two good hose may be matched giving the wear of three pair.
3. Two pairs purchased at a time, eventually means a saving in cost.
4. Two pairs of hosiery from the same box usually have come from the same dye bath and will not vary in shade.
5. Two pairs beat a single spare.
6. Two pairs always assure you freshly laundered hosiery on hand.
7. Two pairs save shopping time.
8. When one pair snags the other is ready to wear.
9. The extra pair means triple wear.
10. Two pairs assure having that extra tucked away for an unheralded occasion.
