HOME ECO CLUB MEETING
 The Home Eco Club met Tuesday October 15th, in the home of Alixe Weathers. Mary Ellen Pesterfield acted as president in the absence of Tommy Milliken.
 A committee of three was appointed for the entertainment for the next meeting. Jo Russell, Jewel Johnson Robbie Milliken were the ones appointed. A committee was also appointed to select some material for our class mascot, Zona Jane Winchester, who was present at this meeting.
 It was decided that the secretary should send for samples of pins.
 After the business session we adjourned for a social hour. Punch and cookies were the delightful refreshments served by the hostess, Miss Alixe Weathers.—A. M. A.

SEVENTH GRADE
 The Bulldog English Club in room thirty-three have elected new officers. Oran Welch, President; G. C. Shaeffer, Vice-President; and Cleo Francis Powell, secretary.
 Bill Elliott was absent a few days last week.
 Marie Pettigrew enrolled in room twenty-six Monday, October 14th.
 Every six weeks room twenty-six elects new officers. In English, Irma Faye Edwards, President; Florence King, Vice-President; and Anita Goodrich, secretary. In Literature: Howard Goodrich, President; Eura Reid, Vice President; and Preston Strasner, secretary.
 Mrs. Cree sent a fern, geranium, and a Jew for our room.—Reporter.

BASKET BALL GIRLS ORGANIZE
 The basket ball girls met on the Court last Friday afternoon at 3:15 for the purpose of electing a Captain. Fannie Jackson was elected as Captain of the team. We have very good material but need more girls to help us.
 The following have been reporting: Fannie Jackson, Lonzia De Priest, Lorine Clements, Lois Jackson, Quintia Melton, Pauline Jackson, Lucille Cashion, Blanche Swan, Wanda Logan and Jessie Henderson.
 Some of the Seventh grade have been helping as follows: Delma Jones, Dot Ainsworth, Willene Lee and Pauline McClintock.
 We hope there will be more to report every day.—Reporter.
 Echo Milliken attended a singing convention at Edith Sunday.

 Mary Sue Singleton and Sam Singleton toured to Abernathy Sunday.
 Merle Link visited friends in Post during the week end.
 Mrs. J. H. Tunnell went to Lubbock Saturday.
 Reta Lois Colleenback went to Roscoe Sunday to meet her mother.
WELL, THE IMPOSSIBLE HAPPENED JUST THE SAME
 About sixty years ago the following article appeared in a Boston newspaper:
 "A man about forty-six years of age, giving the name Joshua Copper-smith, has been arrested in New York for attempting to extort funds from ignorant and superstitious people by exhibiting a device which he says will convey the human voice any distance over metallic wires so that it will be heard by the listener at the other end. He calls the instrument a 'telephone' which is obviously intended to imitate the word 'telegraph' and win the confidence of those who know the success of the latter instrument without understanding the principles on which it is based.
 "Well informed people know that it is impossible to transmit the human voice over the wires as may be done with dots and dashes of the Morse code, and that, were it possible to do so, the thing would be of no practical value. The authorities who apprehended this criminal are

ASTONISHED BY NEW MEDICINE

"I honestly didn't believe there was a medicine in the world that could help me like Sargon has."
 "I suffered for five long years with stomach trouble and an almost

MRS. J. E. GREEN
 constant pain in my side. I had rheumatic pains in my limbs and it seemed like every joint in my body ached. It got so bad, I could hardly walk. My liver wasn't active and my whole system seemed full of poisons. My husband was taking Sargon and I saw it was doing him world's of good so I decided to try it.
 "I can eat anything I want now and my stomach never bothers me. That terrible aching in my side is gone and there isn't a rheumatic pain in my body. Sargon Pills regulated my liver and drove all the poisons out of my system, without nauseating or upsetting me in the least. Of all medicines I ever tried, Sargon and the Pills are the only ones that really gave me lasting results."—Mrs. J. E. Green, 2218 Cedar St., Dallas.

ROUNTREE CRITICIZES STATE AND FEDERAL AUTHORITIES

LAMESA, October 23.—Carl Rountree, Representative of the 119th District of Texas and Co-Author of the Pink Boll Worm Law passed at the last session of the Legislature in a statement made here today criticized the State and Federal Agricultural Departments for laxness in the enforcement of regulations imposed in this area. Rountree quotes these departments as saying "The pink boll worm can never do any material damage in this section on account of climatic conditions peculiar to this section" and as giving reason for continuing regulations "as being necessary for fear a worm might be carried on seed or otherwise to the cotton belt east of here where it will be very destructive." Rountree points out that it is so necessary for this area to be under regulations as prescribed by this law because "two dead pink boll worms" were found here two years ago and for the protection of the cotton growing belt of Texas and the South, "it is necessary to use every precaution possible to bring about absolute regulation in this affected area. Rountree points out that not until recently did the Department place a quarantine station north of Lamesa on the Lubbock highway, thus leaving this highway free to passing of all kinds and mak-

ing an avenue of escape for all cotton and cotton seed that owners may wish to carry north and of course after reaching an east and west highway north of here the products could go in all directions. In the meeting at Odessa the 23rd of September this laxness of enforcement was pointed out by Rountree and others. Within a few days the Department had a quarantine station on the Lubbock Highway after having left it open for the past 2 years, Rountree says. Rountree further observes that as yet on the Brownfield Highway leading north from Lamesa and into Terry County and thence into the South Plains cotton belt there is exactly the same condition prevailing with no quarantine station on this highway as was the case on the Lubbock Highway where a station has been recently placed. Cotton seed and lint can easily be routed over this highway to a real north of the Quarantine line and thence east to the cotton growing belts were, according to entomologists the pink boll worm could do much material damage. Rountree charges laxness and lack of earnest intention to enforce regulations in this area as demonstrated for the past two years here. He further states "if it is so necessary to place this quarantine" which will cost the people approximately \$100,000 each year "it is just as necessary to strictly enforce the regulations and place quarantine stations on all important highways leading in such directions as might furnish avenues for cotton seed and lint to escape to our Eastern neighbors who certainly do not want to become contaminated with this pest, and such quarantines."

A relatively new export crop for Texas is garlic. From Moulton, South Texas Incorporated reports the shipment of six carloads of this odoriferous vegetable—200,000 lbs. of which ought to be enough, some will think, to flavor all the edibles in the world.

DIETING IS DANGEROUS SAYS HEALTH OFFICER

To the "teen age" girl the fad for a boyish figure is fraught with very real danger, according to Lewis E. Bracy, Executive Secretary of the Texas Public Health Association. "Perhaps the mothers and aunts on the uncertain side of forty need to count calories and carefully eschew large quantities of pastry and potatoes," said Mr. Bracy, "although even for them the advice of a physician should be sought before "reducing" is under taken.

"The ages between 20-24 show the highest tuberculosis death rate of all ages. Physicians are unanimous in blaming lack of rest, scanty clothing and dieting fads for this condition. They say the young girl is not likely to break down from tuberculosis in her twenties if in her teens she gets enough sleep—it not overworked under unhealthy conditions, and has a diet of good plain wholesome food, including a warm nourishing breakfast. She need not fear that any loss of beauty will result from a few pounds added, for her clear skin, shining eyes, glossy hair, and abundant "pep" will make her popular and successful.

The Texas Public Health Association is engaged in a year round campaign for the promotion of better health among Texas children. On the staff of the Association are a public health nurse and a child health education director whose services are available to schools and communities upon request. Also on the staff are a Mexican and a Negro health worker, especially trained for health work among their races. All of the work done by the Texas Public Health Association, which includes not only child health and racial health work, but also general health education toward the prevention and cure of tuberculosis, is financed through the sale of Tuberculosis Christmas Seals. These seals will be sold in every county in Texas from Thanksgiving Day until Christmas.

WHAT OTHERS THINK

SOME MORE "ECONOMY"

The plight of the Gilmer negro orphanage due to the veto by Governor Moody of a \$7,500 item for feeding the inmates until money appropriated for the orphanage's purchase by the State should become available, is highly regrettable, of course, on humane grounds alone. The institution, which has rendered great service to the State by care of negro orphans, has had a precarious existence. It was due only to the devotion and energy of the old negro preacher, Dickson, who was the head and front of the orphanage organization, that it managed to survive under its heavy burden of caring for more homeless negro children than it possibly could find funds for. The decision by the Forty-first Legislature to take this burden off these devoted shoulders and place it on those of the State, where it ought to be, was wise and just. That the fullness of this justice and humanity should be defeated by the Governor's deletion of the \$7,500 which was to have been used to feed the orphans is deplorable.

But humanity and justice are not all that is involved. The Gilmer orphanage property has a value considerably in excess of the \$25,000 for which the State bargained to take it over. This price was made possible by a subscription in which a number of Texas citizens participated to make up the difference. This donation by citizens was in consideration of the State's agreement to take over the property and operate the institution henceforth as a state institution. Another effect of the veto of the food item is, therefore, to put the State into the position of violating its agreement. The State of Texas' tax revenues

run into the millions of dollars. An item of \$7,500 in all those millions would scarcely be noticed. Certainly the taxes which the people of Texas have to pay will not be appreciably the less because of the elimination of this item by the Governor. But that \$7,500 means almost the difference between life and death for the negro orphans in the Dickson home. If anybody in Texas can be proud of

of this bit of gubernatorial economy he is welcome to do so.—Fort Worth Star-Telegram.

Big Spring and Howard County would certainly benefit if we could secure a north and south railroad. Give us that and it would not be long until we could boast of a population of twenty-five thousand.—Big Spring News.

NOTICE TO THE PUBLIC
Any erroneous reflection upon the reputation or standing of any individual, firm or corporation, that may appear in the columns of the News, will be gladly corrected when called to our attention.

That was a sorry spectacle which has been revealed with respect to the writing of the tariff bill now pending in Congress. The lobby investigating committee of the Senate has brought to light the fact that one Charles L. Evanson, assistant to the President of the Connecticut Manufacturers Association helped to write the tariff bill. But that is not the worst of the affair. Senator Bingham of Connecticut appointed Evanson as his secretary and got him

on the pay roll of the Government in order that Evanson might be present at the secret sessions of the Finance committee of the Senate while it was discussing the tariff bill and rewriting some of the schedules. Evanson was drawing pay from the Government and from the Connecticut Manufacturers Association at the same time. And he assisted in re-vamping the tariff bill that had come to the Senate from the House and succeeded in having some of the schedules revised in favor of the manufacturers that he represented. It does seem that the greed of "Big Business" in this country is insatiable. The tariff barons of the country seem to know no such thing as patriotism. They care nothing for the public welfare except as it affects their own pocket books. They bludgeon their consciences when dollars and cents are at stake. They manifest no regard for common honesty and decency. Yet Senator Bingham professes to see no impropriety in resorting to trickery of the nature above stated to serve the special interests at the expense of the masses. But Senator Walsh of Montana, who is on the investigating committee, has scored again. When Bingham appeared before the committee to explain the situation, Walsh had no mercy on him. He pilloried Bingham with one embarrassing question after another that brought out the whole naked, ugly truth. The more we learn about the crookedness of "Big Business," the more we love and respect the common but honest citizenship of this country.

The negro, De Priest of Chicago, who broke into Congress at the last election persists in making a fool of himself. Not only is he making a fool of himself but he is breeding trouble for his race. If that St. Louis negro, who ran on the Democratic ticket had been elected, we suppose the two of them would have felt as if they just about owned the country. How different was Booker T. Washington! He stayed out of politics but he was a great and wise leader of his race. We need more Booker T. Washingtons and no De Priests at all in this country.

Wilcox and Pinkney and Holbrook and others of their type on the state Democratic executive committee are talking loudly about barring the names of all "Hovecrats" from the Democratic ticket next year, but our guess is that in the end wiser counsel will prevail. We believe that Morris Shepherd and Tom Connolly and Dan Moody and M. M. Crane and Cullen Thomas and other fine gentlemen of their type will not be willing to see the Democratic party become the mere tool of the Ferguson and the ultra wet forces of this state and will prevail upon the committee to use some common sense. They are not yet ready to see the Democratic party commit suicide.

We understand that most of the gin men in Tahoka were indicted by the grand jury which adjourned last Thursday, as was anticipated but not stated in our paper last week, for alleged infractions of the anti-trust law. We know very little as to the evidence on which the indictments were based, and it wouldn't be proper for us to discuss these cases while they are pending in court even if we were in possession of all the facts. But there are few people who know these gentlemen who will believe that they knowingly and wilfully violated the law. Without exception they are gentlemen of the highest integrity and have long enjoyed and still enjoy the confidence and esteem of practically our entire citizenship. If they have transgressed the letter and spirit of the law, we can only believe that they unwittingly drifted into a practice which has possibly become rather common in this state. The whole situation is to be regretted, both on account of the high character of the gentlemen involved and on account of the unfavorable light in which the cotton business in Tahoka is presented to the world.

Jim Ferguson announced in the Forum last week that the Forum this week would carry "an important political announcement." The politicians began guessing at once. The rumor spread that Ferguson was to announce as a candidate for Congress in the Austin district, but Ferguson promptly put that rumor to sleep. The secret will be out by the time this paper reaches the reader. So there's no use for us to venture a guess, but we bet whatever he does will stir up the animals a bit.

Considerable interest has been manifested in the movement to procure more and better dairy cows for Lynn County. But it seems to us that there should have been a hundred responses already to the proposal being made by County Agent Ray Shaver. If any one will take note of what has been done in Hale and Swisher counties, he will certainly be convinced that high-bred dairy cows pay and that scrubs do not pay. Lynn county needs to become more dairy-minded.

We long to see the time come when Lynn County can put on just as good a local dairy cow show as Hale County can. There is no reason in the world why we should not be able to do so. We can raise just as much feedstuffs and climatic conditions are slightly in our favor. We are strong for the dairy cow.

Garza county won first place in farm exhibits at the Abilene Fair, first place at the Lubbock Fair, and third place at the Dallas Fair. Yet Garza County has poorer crops generally this year than almost any other county in this whole section. We should like for them to tell us how they do it.

A poultry show will probably be held here some time this winter if a suitable building can be procured. Tahoka had a dandy poultry show here two or three years ago. We hope that arrangements can be made for an annual show of this kind. Why not?

Any way it is gratifying to note that the Government's campaign against the bootleggers and rum runners is being waged with ever increasing vigor in New York and other wet centers along the Atlantic seaboard. Keep it up, Hoover.

WHAT OTHERS THINK

While Senator Sheppard's bill to make liquor purchasers equally as liable as the bootlegger is being hailed as the solution to the problem of prohibition enforcement, we have a sneaking idea that the ballyhoo is for the purpose of making somebody's election sure. As we understand court procedure there must be some witnesses to a liquor transaction to secure a conviction. While the bootlegger may do plenty of verbal advertising we have heard that he is quite secretive in consummating the sale. If both buyer and seller are amenable neither's testimony could convict without corroboration and neither could be forced to testify against himself—so where would the prosecution be? However if the proposed measure be aimed at drunken drivers and others who endanger human life while under the influence of liquor, it would serve its purpose nobly—provided the law was not full of loopholes so crooked lawyers could free their drunken clients.—Southland Sun.

Governor Moody has appointed Pat M. Neff former governor to take Carence Gilmore's place on the railroad commission. This will suit a great majority of Texas citizens we believe. Neff would in all probability be holding down a federal position at Washington had it not been for the efforts of Earl Mayfield during the lame duck session of congress. Earl played it up that Neff was against labor when as a fact Mayfield was opposed to Neff because Neff did not support him for the Senate.—Terry County Herald.

The Santa Fe railway seems to be mightily keen to connect up some dead end branch lines in the Panhandle and Oklahoma. The time may not be far off—if we tie up with the line from Corpus Christi north—until the Santa Fe will see the need of closing the gap between Sterling City and Lamesa and provide another short line to the gulf.—Big Spring News.

The dries including the officials of the Anti-Saloon League are inclined to oppose Morris Shepherd's latest bill and bid for popularity of making the purchaser of booze equally guilty, with the bootlegger in the sale of

intoxicants. They figure and rightly so, that when such a law is passed it will almost nullify the 18th amendment in that in most cases there will be no chance for witnesses, as no one is forced according to our constitution to incriminate themselves. Some, and this includes wets as well as dries, say the bill would be unconstitutional.—Terry County Herald.

up" over a domino tournament which each town's representatives claim to have won. However, before coming to blows over the matter, it seems that the disputants are to meet again and settle the dispute by domino skill a duly sworn and bonded scorekeeper to be selected to see that everybody gets fair play.—Southland Sun.

We noticed our neighbors around a mile and a half in all directions around Tahoka and O'Donnell are "all hot

When you select the Feed for your Cows look for milk-pail Results NOT low-cost per bag

When anyone offers to "save you money" by selling you a "cheap" dairy feed, remember that the milk pail determines both the cost and the profit of any feed. . . Feeds selling for less than RED CHAIN usually contain an excessive amount of cottonseed meal; they produce milk for a while, but eventually they "burn up" your cows. . . Experienced dairymen know RED CHAIN 24% Dairy Ration is the most economical feed for cows because it produces more and better milk and keeps cows in better condition, insuring a long life of usefulness and profit. Everything considered, the best is always cheapest in the end.

By the Bag, RED CHAIN 24% Dairy Ration May Cost a Little More—By the Milk Pail it Always Costs LESS!

Burleson Grain Company

GAS AFTER MEALS

"Didn't See a Well Day for Weeks—None of My Food Agreed With Me," Says Engineer.

Kansas City, Mo.—"After each meal, distress would come on me, and I would suffer bad pain," says Mr. Peter Seeger, a Missouri Pacific railroad engineer, residing at 320 Elmwood Street, this city.

Mr. Seeger explains that the pain seemed to come from indigestion, as he had a sensation of gas, or bloated feeling in his stomach. "I found that by taking a pinch of Black-Draught, dry, after meals, I would be relieved," he says.

"I would carry Black-Draught to work with me. I took it for about a year and a half.

"None of my food agreed with me. I would frequently taste what I ate, long after my meals, and I did not see a well day for weeks. I began taking a pinch of Black-Draught after each meal, and kept this up for weeks. Gradually the pain left me, and I began to feel better. I ceased to be troubled with gas, and could eat what I liked.

"I have been well now for a year, but I still keep Black-Draught, and take it to avoid constipation.

Have you tried it?

WE CAN'T CONTROL THE WEATHER . . . but

WE CAN CONTROL VOLATILITY!

"There's been a lot said about the weather but very little done about it" —until Phillips 66 was perfected. Here, at last, is a motor fuel in which the volatility of each gallon is controlled to fit the season and the climatic conditions of the locality in which you buy it. The result? Instant starting — any weather. Quick warm-up. Easy acceleration. Mileage and power that gratify. All this at no extra cost! For best results try a full tank of Phillips 66 . . . or 66 Ethyl.

Phill-up with **Phillips 66**

© 1929, Phillips Petroleum Company

CONTROLLED VOLATILITY

WHEN THE THERMOMETER GOES DOWN THE VOLATILITY GOES UP. Gasoline must vaporize before it can be fired in the cylinders of your motor. Volatility refers to the ability of gasoline to vaporize. With volatility controlled, Phillips 66 vaporizes as quickly in cold as in warm weather.

W. G. Tarrance

Half and Half Is Not Best for Plains

(By R. E. Shaver)

Half and Half cotton is not the heaviest yielder, nor the earliest maturing cotton grown on the plains and its staple has no spinning value was the conclusion reached by the group of men that visited the experiment station and Tech college last Wednesday.

After walking over the farm and inspecting the 126 varieties of cotton that are growing there we asked Mr. Jones for data showing the comparative yields, length of staple and earliness of maturity. This data revealed the following facts:

Burnett or Westex cotton has outyielded any other variety grown there for the last seven years with Mebane 804 a close second.

In 1925, the year of the unusually early freeze, the yields of six of the leading varieties was Mebane 804, 154 lbs. lint per acre, Burnett, 144 lbs. per acre, New Mebane, 136 lbs. per acre, Acala, 128 lbs. Half and Half 105 lbs and Kash 70 lbs.

The average length of staple for the last four years has been Half and Half 3-4 inch, Burnett, 15-16ths inch, Kash, 15-16ths inch, Mebane 1 inch and Acala 1 1-16 inches.

The per cent of cotton pick 134 days after planting for the past four years has been: Burnett 25, Kash 25, Mebane 15, Acala 14, Half and Half 14, while in 147 days 66 per cent of the Burnett, 62 per cent of the Kash, 56 per cent of the Mebane, 50 per cent of the Half and Half, and 41 per cent of the Acala was picked.

After noon the group visited the Tech College and interviewed Mr. Nelson of the Textile department and learned that the standard American machine will not handle the short staples and that it either goes to foreign markets or used as waste cotton which puts it in the same class as linters.

METHODIST ASK FOR BREEDLOVE'S RETURN

(Continued from first page)

Conference of the Methodist Episcopal Church, South, Tahoka, Texas, October 20, 1929.

We, the members of the Quarterly Conference of the Tahoka Methodist Church, are glad to make record in our minute and advise our Bishop and Presiding Elder of some of the things which have been accomplished in our church during the three-year pastorate of Rev. R. T. Breedlove which is now drawing to a close.

The spiritual life of the church has been greatly quickened.

The active membership of the church has been materially increased.

There has been a pronounced awakening among the young people of the church; nine of them have become volunteers for lives of Christian service and two of the young men have entered the ministry.

A marked increase has been noted in the number of men who are active in Sunday School and prayer meeting work and who are becoming more and more interested in the general work of the church.

The Womans' Missionary Society has sustained its well known reputation for efficient activity. Much spiritual good has resulted from mission study work and in addition to its usual lines of endeavor, the society has raised a fund of almost \$1,000, now on hand and intended to be used toward the construction of a modern parsonage.

Our pastor has each year raised the Conference Collections in full—some thing which had not been done for a number of years before.

The salaries of the pastor and presiding elder and all other current expenses have each year been paid in full.

The preaching services have been well attended and the church has been both benefited and pleased by the quality of the sermons delivered by our pastor.

We appreciate the fact that Brother Breedlove's qualifications and personality have had much to do with the measure of success which has attended our efforts and we express the earnest hope that he may be returned to this charge for another year.

LEGAL BLANKS—Crop and chattel mortgages and car and cattle bill of sale forms in stock at prices cheaper than you can buy them from any stationer.—Lynn County News.

Yes, Ferguson Is Fixing to Run

A few weeks ago the editor of this paper predicted that Jim Ferguson would be a candidate for governor next year.

Some of our friends and his friends laughed at us about it, saying that he was only tantalizing the boys.

But on Wednesday this paper received a communication from Mr. Ferguson stating that he was not "banking" to run but was willing to run. He also set forth his platform, if he should run.

We believe that our readers are entitled to know what Jim proposes to do and therefore we give the gist of his platform in very condensed form.

1. Promises a business administration. Would veto all liquor legislation, pro or con. "The question of how to get something to eat and wear has become more important than a row over something to drink," he declares.

2. Would abolish some offices and combine others, saving the tax payers \$500,000 a year. Would not permit any county official to receive more than \$6,000 per year. Would make taxes payable quarterly instead of annually.

3. Would prohibit any state bank from loaning over ten per cent of its capital and deposits outside of Texas. Let the New York stock gamblers gamble on their own money, he says.

4. Would give every owner of land upon which a lien is foreclosed two years in which to redeem it by paying the debt and ten per cent interest.

5. Favors abolishing the landlord's lien or so modifying it as to give the tenant the same right to mortgage his crop to the merchant or the doctor as the landlord has to mortgage his farm for the same purpose.

6. Would abolish the present highway commission, and would substitute a commission of five members, the chairman to be elected from the state at large and one from North, South, East and West Texas each, by districts created by the legislature.

7. Opposes issuance of state highway bonds. Favors reducing tax on cars and giving balance to respective counties for improvement of lateral roads. Says 3 cent gasoline tax is high enough.

8. Says the road hog must go.

Would prohibit the use of the highway by trucks carrying more than a ton or with trailer hitched thereto.

9. To relieve farms and other real estate of part of the tax burden, would favor a luxury tax on factory-made cigarettes and cigars, proceeds to go to the common schools. A tax of this kind amounting to one cent a day to each smoker would bring in five or six million dollars a year, he says, and would reduce the ad valorem tax from ten to twenty per cent.

10. Instead of selling the farms on the state penitentiary system and building five million dollars worth of new buildings, as is now proposed, "I will ask the legislature to appropriate \$500,000 with which I will fix up the buildings at Huntsville and the camps on the farms so the convicts can't dig out, and will pardon about 2,000 of them for good records and good behavior and tell the rest to go to work and if they make good they may get pardons too and believe me, we will hear Farmer Jim's lick and hum in the Brazos and Trinity bottoms once more, and the tax payers will hear a new song about the penitentiary."

FIFTEEN THOUSAND BALES GINNED IN DAWSON COUNTY

LAMESA, Oct. 22.—Fifteen thousand bales of cotton have been ginned in Dawson County to date, according to reports given out here this week. Gins are running night and day in the blast of the cotton ginning season. Nine gins are operating in Lamesa while in the county there are twenty-nine. The crop, as estimated some few weeks ago, is turning out better than predicted. Dawson's yield is now placed at 35,000. Last year the production was 30,800. The county is producing plenty of feed for home consumption, but it is thought little feed will be shipped this season. Last year figures show that 2,000 cars of feed were shipped from the county.

FRANK BROWN SLIGHTLY INJURED IN CAR COLLISION

A Ford roadster driven by Frank Brown, who works at the Connolly Motor Company, and a Chevrolet driven by Miss Eloise Bridges collided at the intersection of two streets at the Dr. Townes residence early this morning. Frank Brown received painful cuts and bruises but was not seriously hurt. Miss Eloise was unhurt except for the shock and the fright resulting from the accident.

It is said that the Ford roadster turned over twice completely and Frank's friends are wondering how he came out alive. It was rather badly wrecked. The Chevrolet was not badly damaged, the front bumpers being knocked off and the radiator considerably damaged.

Neither driver seemed able to explain how the accident occurred. Miss Bridges was coming south on one street and Frank was going west

on another, and they were so close together before either saw the other that it was impossible for Miss Bridges to prevent her car from striking the Ford.

CARD OF THANKS

We wish to express our thanks for the many kind words and deeds during the illness and death of our beloved brother and uncle, Frank Vaughn; also for the beautiful floral offerings.

Judges To Meet At Plainview

PLAINVIEW, Oct. 20.—The next meeting of the West Texas County Judges and Commissioners association, organized Wednesday in Lubbock, will be held in Plainview on December 18th. At the coming session the organization will be perfected and additional counties probably will be represented.

Fourteen counties were represented at the meeting Wednesday which included Lubbock, Armstrong, Scurry, Shackelford, Terry, Dawson, Hale, Floyd, Gaines, Lynn, Swisher, Lamb, Crosby and Castro. Several other counties will probably be represented in the organization.

GRADY HOWARD HONORED WITH "42" PARTY TUESDAY

Grady Howard of Crosbyton was honored with a "42" party Tuesday evening in the home of Mr. and Mrs. Frank Hill on West North Third street.

The living rooms were decorated with vases of beautiful red and white roses and Chrysanthemums. Mrs. Harold Edwards won high score for the ladies in the games and Mr. Edgar Hays scored high for the men. The hostess assisted by Mrs. Harley Henderson served a salad course.

The guest list included Misses Kate Grant, Juarine Edwards, Mae-fair Woosley, Lola Belle Edwards, Lucille Staton, Myrtle Hill, Lucille McCord and Mrs. Harold Edwards; Messrs Grady Howard, Clyde LeGear, W. T. Bovell, Harold Edwards, Floyd Thompson, Russell Kelfner, Edgar Hays, Daniel Davis, Roy Howard of Crosbyton, Harley Henderson and Frank Hill.

Texas advanced to tenth place in portland cement production with an increase of 12 per cent over 1927 as compared with a 2 per cent increase the country over.

"It Certainly Has Proved a Blessing"

Amarillo Housewife Gives Orgatone High Praise For Her Perfect Health

Among the many Amarillo people who have recently expressed their hearty and sincere approval of Orgatone after putting the medicine to practical test and deriving convincing results from it, none are more genuinely enthusiastic than Mrs. J. H. Holston, 305 North East Fourth, Amarillo, Texas.

"I certainly do give Orgatone credit for my great improvement," said Mrs. Holston, "for it has helped me over a bad case of kidney trouble and indigestion that has honestly been with me for years and the last two years I was going from bad to worse until I simply felt like I had no life left in me at all.

"My stomach just seemed to go back on me entirely, for almost everything I tried to eat would ferment and form sour gas and give me such a puffed up miserable feeling that some times I felt like I couldn't get another breath to save my life, the pains around my kidneys and through the small of my back would frighten me and make me so weak and nervous I could hardly stand it.

"I couldn't sleep at all well at night—and I became so badly run down I was simply not equal to anything and for a long time I felt like I was going to be forced to give up my house work. If I hadn't heard about Orgatone and given it a trial I don't know what would have become of me.

"I have taken three bottles of this splendid medicine, and I can say positively and candidly that I have never felt better and stronger in all my life and I am gaining in weight and strength and my stomach and kidney troubles have left me as completely as if I had never suffered with them a day in my life.

"My food agrees with me perfectly now, and I am not bothered with gas or nervousness in the least. I sleep just fine and if there is any doubt to believe I'm not in perfect health, I don't know what it is. I want to recommend Orgatone to my friends for it surely has been a blessing to me."

Genuine Orgatone may be bought in Tahoka at Thomas Bros. Drug Co.

TAHOKA INSURANCE AGENT WINS ANOTHER DISTINCTION

In the October number of the Southwestern Life News published by the Southwestern Life Insurance Company of Dallas, appears a group photograph of all the county officials of Lynn County, together with the information that all of them except one—Uncle Ike—carries insurance in this company. Mrs. Gladys M. Stokes, the local agent, is given the credit for the unusual distinction of having induced the whole bunch to join the Southwestern family. We felt that Mrs. Stokes' photograph ought to have also appeared in the publication but we searched in vain for it. Doubtless she was too timid and modest to permit the reproduction of her photo.

A group picture of the county officials may also be seen in a number of the offices in the court house—and, by the way, that is a fine looking bunch, folks. There are two ladies in the group, Miss Viola Ellis and Miss Gertrude Bishop, who add much delicacy and charm to a group of so distinguished looking men as Nelson and Sam and Truett. Even Grider and Jim Weatherford look handsome enough while Uncle Ike is just natural. It's a fine group.

Mrs. Stokes is to be congratulated in corraling all of them but one for the Southwestern Life.

DRAW H. D. CLUB MEETS

The Draw Home Demonstration Club met with Mrs. C. C. Jackson last Wednesday afternoon. The subject of the lesson was "The Family and Its Food Habits."

Miss Greenwade gave a demonstration on Attractive Ways of Serving Foods.

The subject discussed in this meeting were:

1. Helping Children to form correct Food Habits.
2. Effect of Emotion.
3. Facts to consider in Menu Planning.

These were very interesting and instructive. All members are urged to attend club meetings.—Reporter.

HOUSE BURNS ON FARM

Saturday morning Mr. and Mrs. Leavesy who live South East of town on Mr. Klatenhops farm had the misfortune to lose practically all their household goods when their home burned to the ground.

Through a mistake some one of the family had poured gasoline in the tea kettle, some one else in the family had come along and placed the kettle on the stove, with the results of an explosion and the burning of the house.

Mrs. Leavesy was in bed as a baby had been born to her only a week previous but she was removed from the burning structure without serious results.—Wilson Pointer.

SELF-FEEDING PIGS INCREASE RETURNS

In a three year test at U. S. D. A. experimenting farms, it was found that self-feeding of sows and litters is not only by far the easiest way of handling hogs, but also saves feed.

According to the research department of the National Association of Farm Equipment Manufacturers, hand-fed sows and litters were fed all they would readily clean up twice a day. The self-fed lot had free access to same rations at all times, the various feeds being placed in separate compartments of self-feeders.

The self-fed lots required 441 lbs. of feed per 100 pounds of gain, while the hand-fed litters required 602 lbs. per hundred pounds of gain. Self-fed pigs made greater daily gains from farrowing to weaning, and both sows and pigs appeared more thrifty. The sows and litters may be put on self-feeders as soon as the sow is on full feed after farrowing.

LAMESA MAN TO PREACH AT CHURCH OF CHRIST

Elder Alvin Mitchell of Lamesa will preach at the Church of Christ here next Sunday morning and night. Everybody cordially invited.

Lampasas, one of the most attractive of the smaller Texas cities and with large possibilities as a resort, is experiencing the greatest building activity it has had in several years, according to a report, which says a new \$80,000 hotel is one of the projects for early construction.

Electric Light Bulb

1929

We Commemorate Light's GOLDEN JUBILEE

By Announcing

Lower Electric Rates to Homes and Business Houses of Tahoka

St. Louis, Missouri,
October, 1929.

To All Managers of Texas Utilities Company.

Gentlemen:

Scenes that told the past and foretold the future greeted President Hoover when he visited Henry Ford's historical village October 21st to participate in the ceremony memorializing the achievements of Thomas A. Edison, according to newspaper stories sent out by the Associated Press telling about the "community of yesterday" which has been created by the purchase of many historical buildings in various parts of the country and restored to their original condition and placed on foundations by Henry Ford in his historical village at Dearborn, Michigan.

As the Edison Day jubilee was to honor mainly Thomas A. Edison, the chief interest was, of course, centered around Edison and his achievements which have moved civilization forward by leaps and bounds.

The utility industry had a well prepared nation-wide program for the purpose of calling attention to the experiments, work and wonderful accomplishments of Edison.

There was interest, too, in Henry Ford, and his achievements as a manufacturer, financier, business executive, and beyond question the "world's greatest industrialist."

Texas Utilities Company appreciates the opportunity to honor Thomas A. Edison and at the same time recognize the outstanding achievements of his intimate friend and admirer, Henry Ford, who said in referring to the achievements of Edison, that mass production would be impossible without electric power.

It occurs to the writer that because Ford is rated as the largest user of electricity among the manufacturers of the world, the public will be keenly interested in his viewpoint as to the best means of promoting the development of the electrical industry of the country, and for that reason call attention to some of the recent statements of Ford in an interview published in Forbes Magazine on September 1, 1929, which are in part as follows:

"I am not afraid of what the newspapers call the Power Trust. I would welcome a real Power Trust. And, as sure as shooting, the country, by and by, will have a real Power Trust."

"By that, I mean that all the power resources of the country should be linked together under one control and every part of the country supplied from the logical distributing point. Power is all-important. You cannot do a thing without power."

"The very best power now is the power distributed by big concerns. But we should and must and will go much further. There are now hundreds, not to say thousands, of different power plants scattered all over the country."

"The whole power of the nation should be generated under one directing organization. It should be thoroughly standardized. All the plants should be connected together."

"No, I am not a bit afraid that a Power Trust would gobble up everything and everybody. There never will be anything without potential competition. Besides, the people will always assert themselves whenever things get out of balance and will effectively demand and get fair treatment."

"A lot is being said about the profits made by those taking part in the power mergers now going on. People shouldn't worry too much about that. Money keeps on flowing. The question is not 'Who gets the money?' but 'What tangible asset is left to the people?' The people always get the real gain, even though some man or groups may get the passing profits. The main thing is to get the power resources of the country put on a more scientific basis. After all, it is the actual results achieved which count most. These people won't be able to take their money with them, and they will leave behind them a country more efficiently equipped with power."

"What they are doing is helping to have the country become more conscious of the importance of what electricity can do for them. Only a beginning has been made in making electricity do the work of the world. The ground has only been scratched."

"Power can revolutionize the lives of the people of this country. It can lift the burdens from the backs of the workers. It can abolish most of the tasks of the housewife. It has hardly made a beginning on the farm—where its possibilities are perhaps the greatest of all."

While Texas Utilities Company does not claim that the unlimited supply of dependable electric service which it has furnished is the sole or even the chief reason for the unparalleled development in West Texas, nevertheless it has every reason to be proud of the part it has played in the development of the territory which it serves.

Everybody knows that every city and town in the Plains country located on the copper highways of Texas Utilities Company, New Mexico Utilities Company, and Southwestern Public Service Company, is receiving 24-hour service which is as dependable and satisfactory in every respect as any metropolitan electric service.

There will be interest, too, in the achievements of Texas Utilities Company and in the rapid growth of the territory which it serves. As a part of the plan of Texas Utilities Company to participate in the Edison jubilee, the company is pleased to announce a reduction in residence and business lighting rates for all cities and towns in the South Plains served by Texas Utilities Company.

The reduction in residence lighting means that all residence consumers will get a reduction of 14 per cent on a consumption of 25 K. W. H. or less per month; A reduction of 10 per cent on 50 K. W. H. per month; and a reduction of 50 per cent on all current used per month in excess of 50 K. W. H. Heating, Cooking and Refrigeration in residences will be on a rate of 4c per K. W. H. on the new schedule. Reductions in the commercial or business schedules for lighting service range from 11 to 15 per cent. This is the eighth substantial reduction in electric rates that Texas Utilities Company has made within the past four years.

In reviewing the history of the phenomenal development of the electrical industry in West Texas the following facts should be noted:

That as late as October, 1924, one of the great banking institutions of the country expressed the opinion that any attempt to finance the requirements of Texas Utilities Company by issuance and sale of first mortgage bonds would not prove successful, giving as a reason for such opinion that the territory served by Texas Utilities Company was too scattered and also too remote from said bank's retail bond market.

That in October, 1925, a party of leading investment bankers from Boston, New York, Chicago, Detroit, St. Louis and other Eastern cities, visited West Texas and Eastern New Mexico. The citizens of West Texas arranged and conducted the Eastern bankers on a tour of the Plains country which was in every sense a decided success. It proved to be mutually helpful to the visitors and local people. The bankers, at various receptions and banquets given in their honor by the citizens of West Texas and Eastern New Mexico, promised without qualification to finance all of the requirements necessary for Texas Utilities Company and New Mexico Utilities Company to take care of their share of the development of the Plains country. The Eastern bankers have made good every promise made to the citizens of the Plains country.

That today, Texas Utilities Company, New Mexico Utilities Company and Southwest Public Service Company are owned and operated as a combined or interconnected property by the same group of individuals as a direct result of the visit of the Eastern bankers and the cooperation of the citizens of the Plains country.

That since the visit of the Eastern bankers to the Plains country in October, 1925, the management of Texas Utilities Company has by merger, acquisition of property as an entirety and (or) the construction of transmission lines built up an electric utility supplying electric service to sixty-three towns in West Texas and Eastern New Mexico covering a territory equal in area to the State of Pennsylvania with approximately one thousand miles of transmission lines in operation and (or) under construction at this time.

That Texas Utilities Company management takes pride in the fact that cooperation on the part of the citizens of the Plains country has made it possible for the company to carry out its building program in advance of the rapid growth of the territory which it serves, and at the same time make so many substantial reductions in rates.

That the advantage of the policy of Texas Utilities Company for the development of the Plains country by building transmission lines and operating interconnected power plants, is clearly reflected in both the quality of service and reasonableness of rates in all of the towns located on the lines of the interconnected plants.

While Texas Utilities Company has regarded itself as an integral part of every community served by it and is proud of the productive power and the material greatness of the territory developed, nevertheless the company has at all times bottomed every investment made upon its abiding faith in the spirit of fair play and cooperation manifested by the citizens of the Plains country. Every town on the lines of Texas Utilities Company and New Mexico Utilities Company in the Plains country has recently granted a standard 50-year statutory electric franchise, and with one exception, every town in the Plains country is being supplied with electric energy to do its city pumping and street lighting service under a 20-year statutory street lighting and city pumping contract.

It was the spirit of fair play manifested by the people of the Plains country, and not the potential possibilities of the territory served, that caused the Eastern bankers to publicly commit themselves on the occasion of their visit in 1925, to furnish all the money necessary to enable Texas Utilities Company and New Mexico Utilities Company to do their full share in the development of the territory.

Texas Utilities Company management has always recognized and appreciated the fact that the spirit of co-operation on the part of the citizens of the Plains country was due in a large measure to the constructive leadership of the press of this section. This appreciation has been acknowledged from time to time by literature circulated throughout the country by Texas Utilities Company.

The future growth and development of the Plains country, depends very largely upon the vision of the press published in the territory, and the continuation of the practical spirit of co-operation on the part of the people of the Plains country which has been the chief factor in the rapid growth and development of the entire territory served by Texas Utilities Company during recent years.

Texas Utilities Company takes great pride in recording the fact that a market was found for the sale of all bonds and securities necessary to meet its requirements as a result of the visit of the bankers to the Plains country.

Yours truly,

I. R. KELSO,

President, Texas Utilities Company

Texas Utilities Company

H. D. Living Room Contest Is Opened

Again, the women of Lynn County have the opportunity of entering the State Living Room Contest. No matter how little you plan to do now, enter the contest and as your interest increases you will find more improving than you planned to do.

Do you remember the story of the lady at Lakeview who did so much with so little money last year? Wasn't it great? You can do the same thing by a little effort. Read what this woman did:

History of My Living Room Improvement

When I entered the Living Room Contest last November, I hardly knew where I would get the money necessary for the improvement but by selling a few hens in February at a good price I obtained the money I used.

We were not out anything for hired labor since my daughter and one son helped me when not in school.

The paper on the ceiling was very badly torn and dark from coal smoke so we tore all that off, canvassed and repapered with a light cream paper and added a new border. The wall paper was fairly good so we did not alter it. The woodwork was unpainted and dark from age, we painted it a buff, putting on three coats. The rug was very much worn so we replaced it with a tan lineoleum of a good grade.

Bought buff shades for the windows and hung white marquette curtains with a gold dot, used curtains with tie backs.

Since the room was very dark, the high color paint, paper, shades, cur-

tains and lineoleum made it much lighter.

Now for the furniture—I had an old bureau that had been in the family forty-five years and was my mother's. We removed all the unnecessary parts, made a chest of drawers of it and hung the mirror on the wall above.

We removed several coats of varnish by using a lye paste and by scraping and sand papering several times, we varnished, let dry and sand papered again and then put on a clear varnish.

An old secretary, equally as old was given a good scrubbing and treated to a coat of clear varnish. The picture frames were also treated to a coat of walnut varnish. An old wall pocket used long ago for holding papers was sandpapered and treated to a coat of walnut varnish. The chairs were scrubbed and varnished. I have a bed in my room and it was given a coat of ivory paint.

I can't say I got very much thrill out of it while I was doing the work for it was no easy task, but when I look at it now and hear my children say, "Such an improvement, how pretty," I feel that I am repaid for my hard labor. My cost is as follows:

Wall paper and Canvass,	\$ 2.50
Two Window Shades,	1.12
Two Window Curtains	2.15
Sand Paper	.10
Canvas Tacks	.20
Paint	2.25
Varnish	.80
Glaas Drawer Knobs	.56
Three Scarfs	.68
Lineoleum	18.00
Total	\$28.36

TURKEYS

The turkey market will open about the first of November. We want to buy your Turkeys if it is one or a car load.

We will pay top prices. Try our service. We want to buy your Poultry, Cream, Eggs and Hides too.

Frazier Produce

South Side Square Phone 120

two members shall be appointed by the county home demonstration agent. It shall be the duty of this committee to assist the county home demonstration agent in conducting this contest. This committee shall grade the living rooms at the beginning of the contest, according to a score card which is sent out by the College.

At the end of the contest, the original committee shall make a final score of the living rooms. The final judging in the county must be done between April 15, 1930 and May 1, 1930.

Each district home demonstration agent will visit the two winning living rooms in each county of a prescribed district and select the winner in Class 1 and Class 2 for the district. The district judging will begin immediately after May 1, 1930 and will be completed as rapidly as possible by the district agent.

After the winning living rooms in each district have been decided upon, the state honors will be awarded by the state committee, which shall be appointed by the Extension Service. This committee will visit the prize-winning living rooms in each district. The state judging will follow the district judging immediately, beginning not later than June 1st, 1930.

Announcement of the state prize winner will be made, if possible, during the 1930 Farmer's Short Course at the A. & M. College.

No expense need be recorded for voluntary labor performed or the use of materials on hand, although itemized lists shall be made of each.

Gifts shall be valued and considered as that amount expended. If a new living room is built during the contest period, whether it is in a new house or a remodeled house, its score should be compared with that of the room actually used as a family living room at the beginning of the county contest. Due to the difficulty of estimating what part of the cost of building was spent on the living room, the contestant may be allowed the following without considering the cost.

a. Bare Room. b. Bare unfinished floor. c. Unfinished wall. d. Any thing additional must be counted furnishings used previously. Any at exact cost.

The following information regarding each living room shall be filed in the office of the Home Demonstration Agent. Copies of these records and pictures shall be given to the district agent upon her arrival for district judging.

a. Story of the activity; b. Simple floor plan before improvement; c. Simple floor plan after improvement; d. Kodak pictures before improvement; e. Kodak pictures after improvement; f. List of improvements made; g. Use of materials on hand; h. Gifts and value of each; i. Voluntary labor performed; j. Cash expenditures.

It is suggested that the judging committee and the contestant assist as far as possible in collecting his data.

The county home demonstration agent will offer suggestions for improvement.

The Semi-Weekly Farm News through

its columns will give information regarding the contest and reports of the accomplishments of the contestants.

District Prizes
Six prizes will be offered for each district by the Semi-Weekly Farm News as follows:

Class 1.—For the Living Room making the Greatest Improvement in the Allotted Time in Proportion to the Expenditure. (Cost not to exceed \$50.00)

First Prize—\$10.00.
Second Prize—\$5.00.
Third Prize—One Year's subscription to the Semi-Weekly News.

Class 2.—For the Living Room Making the Greatest Improvement in the Allotted Time in Proportion to the Expenditure. (Cost Exceeding \$50.00.)

First Prize—\$10.00.
Second Prize—\$5.00.
Third Prize—One Year's Subscription to the Semi-Weekly Farm News.

State Prizes
Eight state prizes will be offered by the Semi-Weekly Farm News as follows:

Class 1.—For the Living Room making the greatest improvement in the allotted time in proportion to the expenditure. (Cost not to exceed \$50.00.)

First Prize—\$50.00.
Second Prize—\$25.00.
Third Prize—\$15.00.

Fourth Prize—One year's subscription to the Semi-Weekly Farm News.

Class 2.—For the living room making the greatest improvement in the allotted time in proportion to the expenditure. (Cost exceeding \$50.00)

First prize—\$50.00.
Second Prize—\$25.00.
Third Prize—\$15.00.

Fourth Prize—One year's subscription to the Semi-Weekly Farm News. Those of you who are planning on entering the contest, clip these regulations for future reference and send your name and address, and class you wish to enter to the County Home Demonstration Agent, Tahoka, Texas

Edith

We are glad to report a few items this week, to let the world know we are still on the road of progression.

There was a large crowd at Sunday School Sunday, although some few of the teachers were absent, but the reports from the classes were splendid. Come next Sunday and let's work together for the good of God's Work.

Brother Reed of Gar-Lynn brought us a splendid message after Sunday School. It was enjoyed by all that were present.

Mr. Downey and family visited friends and relatives in the Newmoore community Sunday.

Mr. Ira B. Krebs and family of

CHICHESTER'S PILLS
THE DIAMOND BRAND
SOLD BY DRUGGISTS EVERYWHERE

Tahoka visited his parents, Mr. and Mrs. C. W. Krebs, Sunday.

We have ordered our 1930 song books. They are expected to arrive this week.

Folks, don't forget the Lynn County singing convention that will be held at T-Bar, October 26-27.

Big singers are expected to be present. Let's go.—Reporter.

Not including express and l. c. l. shipments, East Texas shipped over 500 cars of peaches this season with returns ranging from \$1.25 to \$1.75 per bushel.

New English 'Talkie' Theatre

Will Have Its

ON TUESDAY OR WEDNESDAY, OCTOBER 29 OR OCTOBER 30th

Will Have Its Opening

WILL ROGERS

In his first talking picture

"THEY HAD TO SEE PARIS"

ALL TALKING

Fox Movietone Comedy Drama

With

Owen Davis, Jr., Marguerite Churchill, Irene Rich, Fifi Dorsay and other movietone stars.

Will Rogers is the most publicized man in the country. Two hundred leading newspapers carry a daily message from him. In his first talking picture, he is a laughing knock-out. Scenes laid in Claremore, Oklahoma, and Paris and Bordeaux, France.

D. B. ENGLISH, Proprietor

Tahoka's new talking theatre is one of the most modern and best equipped on all the Plains. Come and enjoy the opening performance.

The first show will begin at 6:00 P. M. when the doors will be closed until the first show is over, so that there will be absolutely no disturbance during the first show. The second show will begin at 8:00 and the third show at 10:00.

Don't fail to hear America's great humorist in his first talking picture in the first talkie show, to be given in the New Talkie Theatre in Tahoka.

Locals

Mrs. W. D. Nevels received a communication Tuesday—from a member of the Rotary Club of Bristol, Virginia, stating that the Rotary Club of that city had given a picnic in honor of some of the girls attending Sullin's College there, among whom was her daughter, Miss Willie Lois and highly commending her. Of course, Mrs. Nevels is much pleased at receiving such a letter. It also shows that the Rotary Club of that city is an active, live, going concern, that is looking out for the welfare of the young people.

Miss Lillian Peek, inspector of home economics in the public schools for the State Department of Education, visited the Tahoka high school Tuesday. She had a good report to make of the work being done here but as usual recommends changes that would entail considerable expense.

Presiding Elder D. B. Doak of Lubbock and Rev. Z. B. Pirtle of Draw were the guests of the Kiwanis Club at its Wednesday luncheon. Each made a brief address but both appeared to be almost too full for utterance. They had just been treated to a chicken dinner.

Reports from Dallas are to the effect that Sanford McCormack, who is there under treatment by a specialist, is improving and it is hoped that he will soon be able to undergo an operation, which is thought to be necessary to insure his recovery.

Many friends here and throughout the county will be glad to learn that Mrs. L. Lumsden of Wilson is recovering nicely after having undergone a serious operation in a Lubbock Sanitarium last week.

Mrs. Rex Rogers and Mrs. Bill Burleson left Tuesday to attend the convention of the West Texas Chamber of Commerce in session at El Paso on Thursday, Friday and Saturday of this week.

G. E. Hogan was a business visitor to Littlefield Tuesday and he says they have a bumper cotton crop in that section—possibly the best crop they have ever had.

Sterling Evans, district farm agent, of College Station was here Monday on official business. While here he was the guest of Ray Shaver, county farm agent.

Mrs. Clark M. Mullican and her sister-in-law, Miss Maurine Mullican, of Lubbock were the guests last Thursday of Mrs. Gladys M. Stokes.

E. M. Schenecker, capitalist, of Fort Worth was here this week "just prospecting," he said. He already owns much land in this section.

Sam Ellis arrived Tuesday from Christoval, bringing a bunch of pecans with him but he says the crop is not large this year.

Mesdames H. T. Bridges, Connolly, Brown, Shaeffer Sherrod, and Miss Floyce Sherrod visited in the country Monday afternoon.

Rama Grigg, local manager for the Rockwell Bros. Lumber Company at Wilson was a business visitor in Tahoka Tuesday.

Mrs. B. R. Tate spent a couple of days this week in a sanitarium at Lubbock after having her tonsils removed.

Mr. and Mrs. Albert (Dad) Rushing of Plains visited friends here Saturday.

Miss Eloise Bridges and Miss Reta Lois Colleenback were in Roscoe last Sunday.

William Zappe of Wilson was a business visitor in Tahoka Tuesday.

IT PAYS TO ADVERTISE
"The Codfish lays a million eggs. The modest hen but one. But the codfish doesn't cackle. To inform you what she's done. And so we spurn the codfish egg. The helpful hen's we prize. Which indicates to thoughtful minds It pays to advertise."—Exchange.

South Ward Items

We had our most successful program of the year last Friday night. The debate followed two short plays and some songs. The negative side in the debate won over the affirmative. Mr. Hood and Mr. Boyd represented the negative while Mr. McNeese and Mr. Lowrie represented the affirmative.

The P. T. A. finance committee composed of Mr. Euel Smelser, Mr. Hood, and Mr. Inman, has announced a box supper for Friday, November 1st. The proceeds will go for the piano and school necessities.

If the weather permits, the South Ward ball team will play Draw today.

The B. Y. P. U. has started again with renewed interest. Brother Crume made a talk last Sunday night and brought with him some new B. Y. P. U. literature. Be present next Sunday night.

Mr. and Mrs. F. O. Parr are to return to pay a visit to Mrs. Parr's parents, Mr. and Mrs. Disheron, this week end.

Miss Linnie Mae Brewer, who has undergone an operation, is now at home, and is rapidly regaining her strength.

We are planning an exhibit at the school in the near future. This will be held in the afternoon. Ray Tunnell left last Thursday for Houston.—Reporter.

ADULT B. Y. P. U. PROGRAM
October 27th, 1929

President—Mr. Edwards.
Bible Drill—Mrs. Crume.
Introduction—Mrs. Jackson.
Why State Missions?—Mrs. J. L. Reece.

"Laborers Together" in Promoting The Organized Work—Mrs. Kelley.
"Laborers Together" in Helping Weak and Struggling Churches—Mr. J. L. Reece

"Laborers Together" in Enlisting the Churches—Mrs. Kemp.
"Laborers Together" in Supporting the Co-operative Program—Mr. Hill
State Missions Fundamental—Mrs. Heath.

MRS. H. T. BRIDGES, Cor. Sec'y.

Texas stands eighth in production of electric power for the first six months of 1929 with an increase of 25 per cent over the same period of 1928, a rate of growth which promises to give it much higher ranking within the next few years.

For Regularity—
NYAL FIGEN

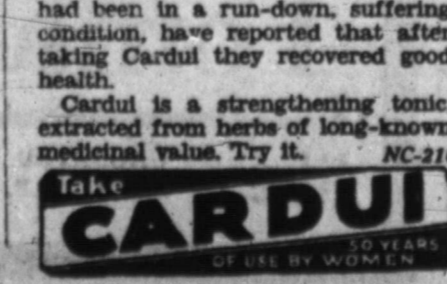

The Friendly Laxative. Figen tablets contain Cascara, Figs and Senna and are valuable in the treatment of constipation which is the underlying cause of many ailments. Figen tablets do not purge or gripe. They are pleasant to take, gentle in action and satisfactory in results. Good for all ages.

COULD HARDLY REST

Lady Says She Hurt Nearly All Over and Was Very Nervous. Took Cardui and Got Well.

New Albany, Ind.—"About ten years ago, I was just about run-down," writes Mrs. David Brock, of 1102 West Main St., this city. "My back and limbs ached; in fact, I hurt nearly all over. I had had, sick headache spells, and my nerves were all to pieces. "I could not sleep at night; could hardly have any rest at all. I was barely able to get around to do my work. I kept up just because I was a mother with five little children to care for. "I read about Cardui. I thought it might help me, so I bought a bottle and began to take it. "It was such a benefit to my health. By the time I had taken the first bottle, I felt so much better. My husband insisted on me giving Cardui a fair trial, so I kept on until I had taken several bottles, and at last found myself a well woman. "Thousands of other women, who had been in a run-down, suffering condition, have reported that after taking Cardui they recovered good health. Cardui is a strengthening tonic, extracted from herbs of long-known medicinal value. Try it. NC-276

Tahoka Dry Goods Company
"The Dependable Store"

Millions of Miles of Constant Testing
to maintain the outstanding quality and dependability of The Chevrolet Six

In spite of the fact that a million Chevrolet Sixes have already been placed in the hands of owners, and have proved their performance and stamina by billions of miles of service over every type of highway the nation affords—
—the Chevrolet Motor Company continues to take new Chevrolet Sixes from the assembly line at the factory and subject them to pitiless testing on the roads of the General Motors Proving Ground!
This passion for proof—this consistent refusal to accept any tests as final—is one of the fundamental reasons for the overwhelming popularity of Chevrolet cars. For in no other way is it possible to make the Chevrolet Six so sound in design and materials—so dependable in performance—and so economical to operate!
If you are considering the purchase of an automobile, come in and see the new Chevrolet. You will find that it is more than a Six in the price range of the four. In every way it is a finer car than you ever thought possible in the low-price field!

C. OF C. DIRECTORS HAVE BUSY MEETING

(Continued from first page)

the town to make up a deficit. Books to Be Audited. Upon Mr. Williams' request, President Taylor White was also authorized to appoint a committee to audit the books of the fair association. W. L. Burleson, D. A. Parkhurst, and Truett Smith, were named as this committee.

Report on Dairy Cows
A report was also made by Mr. Williams for the committee on dairy cows. This report showed that applications for fifteen Jersey cows and possibly two bulls had already been made to Ray Shaver, county farm agent. Others are expected to come in and it was thought there would be no trouble in securing orders for a full car load.

1000 Dairy Cows Here
Messrs. Williams, White and Nelson reported that a partial survey of dairy cows and heifers in the county was made during the fair, and the number reported amounts to 1,073. It is known that there are many other dairy cows in the county which were not included in this number, possibly as many unreported as were reported. Six registered Jersey bulls were also reported.

Poultry Show Discussed
A poultry show for the county some time this winter was favored but the greatest difficulty in the way was the lack of a suitable building in which to hold it. Finally a committee was appointed, however, to make arrangements if possible for such a show. This committee is composed of Ray Shaver, Taylor White and Miss Thelma Greenwade.

Folders to Be Printed
The board of directors authorized the printing of 5,000 folders containing pictures and much general information about Lynn county. These folders are to be mailed to the more than 4,000 individuals throughout the country who have written to A. B. Davis of the South Plains, Inc., of Lubbock in response to the advertising campaign which this organization has been conducting throughout the country. This will get specific information about Lynn county direct to the persons who are already interested enough in this section to make written inquiry about it. It is possible that some of these folders will be distributed through other channels also. The committee and the board of directors felt that this would be the most effective and economical way to advertise the resources and possibilities of Lynn County.

County Judges to Be Invited
It was also voted to invite the County Judges convention of West Texas recently organized at Lubbock to meet here in April, 1930. It is understood that about seventy-five county judges and commissioners attended the initial meeting at Lubbock and it is expected that fully that many will be in attendance upon the first semi-annual meeting to be held next year.

Grand Jury Report
(Continued from first page)
has also extended to Burglary and the theft of cattle in our county, there being some instances where the thief has stolen cattle and with trucks taken them into New Mexico for sale, and but for the diligent and quick work of our local officers perhaps this would never have been known.

The violation of our Liquor Laws, while not perhaps as alarming as some periods of the past, yet we find the professional bootlegger still in our county, and with this we find in some parts of our County the Public Dance Hall being run. Many complaints have reached us concerning the public dance hall and our investigation of this matter reveals that this is a practice that should stop. We brand the Public Dance Hall as a menace to our citizenship, a breeding place for crime and a place to ruin and wreck the lives of our girls and boys and make criminals of them. This practice should stop and all good citizens should assist in seeing that their boys and girls are kept away from such places.

In regard to the sale of various extracts in this County, which in many respects are nothing but intoxicating liquors, we are glad to report that some of our merchants in this County have been before us and expressed a willingness to refrain in the future from the sale of any character of extracts and especially to use the utmost precaution to sell to no one for beverage purposes. The business men who have been before us on this matter have been very generous in offering to assist in the enforcement of this law in every way possible, and we certainly feel that we can count on all others handling extracts to be more careful in the future about selling to any person for beverage purposes where they have any suspicion this is what it is being bought for.

We wish to recommend to our District Attorney and District Clerk that they take steps at once to secure for this County a Grand Jury Docket to be used by the Grand Juries in their investigation of crimes, that a permanent record may be better kept of these matters.

We have very carefully inspected all departments of our Court house and find same in an excellent and sanitary condition, however in this connection we wish to report that our jail for this County is in a bad state of repair and we recommend to our Commissioners Court that steps be taken at once to place same in a safer condition for the safe keeping of prisoners.

We thank all officers of our County and District for their help and support given our work, and wish to say in this connection that while we have only done our duty, or tried to do it as we saw it, yet it has been very expensive to us, financially, to continue in session as long as we have, however we are glad to contribute this time and money to the betterment of our County and ask that our work be taken up by the citizenship at large and carried on and that we as citizens as a whole stand out solidly against the criminal invasion of our County until our next Grand Jury meets to again resume our work.

We ask that a copy of this report be handed to the local papers of our County for publication, and urge through our papers that our citizens of Lynn County stand solidly against Crime and support our County officers in every way possible that our County may be made a better and safer place to raise our girls and boys upon whose shoulders soon the responsibility of our government must rest.

Having devoted as much time to this work as this term of Court will permit, we most respectfully ask that we be finally discharged for the term.

JNO. HECK
Foreman of the Grand Jury.

ANOTHER PIONEER PASSES
(Continued From First Page)

for the funeral. Those noted from a distance were: Walter Vaughn, nephew and his family from San Angelo; R. O. Mayes, nephew, and his family from Anton; Mrs. J. C. Wilmett, niece and her husband from Hale Center; Jim Colvill, grand-nephew, and daughter Mildred from Ralls; and Mrs. Lon Hester, niece and her husband and children from Rochester. Surviving relatives residing here include: T. I. Hammonds, nephew, and his family of Edith community; Mrs. Charley Finch, niece, and her husband, and children; Mrs. Lillie Sanders, niece, and her children.

Uncle Frank was born in Arkansas on March 30, 1849. In his boyhood he moved with his parents to Missouri. In 1884 he removed from

Missouri to Hill County, Texas, and removed from there to Armstrong County in the Panhandle in 1900. The next year he came down to Lynn county prospecting and bought land just south of the road near the Vaughn home six miles east of Tahoka. On March 10, 1902, in company with Sid Sanders he removed to Lynn County and filed on two sections of land north of the road. There

he built his home and there he resided until the time of his death. He was one of the earliest settlers and one of the first citizens of this county. Even-tempered and jovial, he made friends readily and held them to the end. Possibly he never had an enemy in the world. Everybody recognized "Uncle Frank" as one good man, and hosts of friends are grieved at his departure.
