Number 13

## MANY CHANGES AT CONFERENCE

R. T. Breedlove Returned Here For Fourth Year As Pastor Of Methodist Church

(By Rev. R. T. Breedlove)  
The Northwest Texas Conference of the M. E. Church, South, met in its twentieth session Wednesday, November 13th, at Pampa, Texas, Bishop John M. Moore, Dallas, Texas, presiding. The session lasted five days closing with the reading of the appointments Sunday night, following a great sermon on "Endure Hardness as a good Soldier of Jesus

Christ" by Dr. B. W. Dodson of Brownfield, which was said by many of those attending to be the greatest sermon preached in the assembly which has within it many great platform men.

The Northwest Texas Conference embraces a territory roughly enclosed by a line drawn from Putnam to Odessa, including a few points below the T. & P. railway, Blackwell and Cross Plains being about the most southerly of these. The Oklahoma and New Mexico lines bound the conference on the northwest, with a shorter line running from the New Mexico line to a point between Odessa and Stanton.

This territory has within it 188 pastoral charges, 288 Sunday schools, 264 Leagues, 177 local preachers, and 61,085 members. These are last year's figures. This year's figures will show a slight gain a little more than 2,000. Last year \$1,357,314 was raised for all purposes. This year being a hard one, a little less than that amount was raised in the conference. Some of the 8 districts, owing to drought conditions, will show a decrease in membership, owing to so much moving around by people looking for work. And there is also a tendency to drop every name from the roll unless the member is in good standing and can be definitely located by the local church. That keeps the membership reported is usually actually in the community where the church reporting is located. This condition obtains until the presiding bishop severely criticized the churches for the practice of too closely pruning the branches and thereby dropping so many members from the rolls. However, the pastors vigorously defend the action of the Churches, claiming that it is better to have a dependable, known membership than to carry so great an overload.

This conference session was said to be the most turbulent in the history of the Northwest Texas Conference. There were probably more moves than at any other meeting. Probably a very considerable major-

(Continued on last page)

## English Procures High Class Pictures

D. B. English returned Tuesday from Dallas, where he spent Monday on business. He stated to the News on his return that he had just booked for his new Theatre here a line of the best and highest-priced all-talking pictures on the market. Among these are such productions as "Glorifying the American Girl", "Half Way to Heaven", "Coconuts", "Welcome Danger" with Harold Lloyd as the leading star, "Devil May Care" with Ramon Navarro as leading star, "Sunshine Up," etc.

Mr. English says that the higher-ups tell him that there are only five theatres in Texas specially built for talking pictures, his being one of the five. He is determined to bring to the people of this section pictures fitting to the splendid building and the unexcelled equipment with which they are reproduced on the screen.

## O'DONNELL BOY WINS CONTEST

Jordan Goddard Selected As Lynn County Representative In State-Wide Contest

Jordan Goddard, route 3, O'Donnell, represents Lynn County among the prize winners of the state wide 4-H club contests just completed, the educational division, Texas Cottonseed Crushers' Association, announced Monday.

Jordan won second place in the dairy calf club contest, his prize being a gold watch. Jordan is 15 years of age. He bought a registered Jersey heifer for \$125 and developed her into an animal rated at \$200 at an expense of \$44.17, his net profit figuring \$30.83 besides prizes of \$15 won at fairs.

The Cottonseed Crushers' Association offered six trips to Chicago for the International Live Stock Exhibit, November 30th to December 7th, six gold watches and six gold medals for the winners of the contests in dairy, sheep, pig, poultry, crop and story and baby beef contests.

Other industries also offered prizes so that there will be approximately 1200 boys from all parts of the country at the exposition.

The boys and girls who took part in the contest were required to join the 4-H club, a national agricultural club having for its symbol a four leaf clover has an H on each leaf, Head, Heart, Hand and Health.

The contestants had to live in a county where Walravan book covers were supplied by a cotton oil mill belonging to the Cottonseed Crushers' Association.

County agricultural agents and Home demonstration agents and the extension division of the A. & M. College cooperated with the Cottonseed Crushers' Association in the contests, the aim of which was to demonstrate better practical agriculture.

## Tahoka To Play At Roscoe Friday

In what promises to be one of the best football games of the state the Tahoka Bulldogs meet the Roscoe Plowboys Friday at Roscoe. The Plowboys are the champions of the west half of their district, having defeated Snyder, Colorado, Lorraine, Koby, Hamlin, etc. From the brand of football the locals showed last Friday against Crosbyton the game at Roscoe will be one worth seeing. It is significant that the Roscoe authorities offered to come to Tahoka for the same money they are offering for the game there, but according to the receipts of past games it would mean a loss of more than fifty dollars to try to bring the team here. As a matter of dollars and cents the game had to go to Roscoe, a town not so large as Tahoka, but one that gets behind its football team win or lose. By the way, a hundred business men of Stanton gave a banquet to their team after its defeat at the hands of Lamessa. Seriously, what is wrong with our boys that they can't get the encouragement other boys get?  
M. L. H. BAZE

## M. E. Pastor Given Reception Monday

The Epworth Hi-League of the Methodist Church will give a reception at the church Monday evening beginning at 7 o'clock in honor of the return to Tahoka for another year of Rev. R. T. Breedlove, the pastor and his popular family. All of the members and friends of the church are cordially invited to be present and indicate their pleasure at the action of the recent Methodist conference at Pampa in continuing Mr. Breedlove's successful pastorate at Tahoka. An interesting program has been prepared and refreshments will be served.

## Offer Agriculture Course At Lynn

The class in Vocational Agriculture for adults will begin at New Lynn in the near future under the direction of Taylor White, teacher of Vocational Agriculture in the high school. There is no charge whatever for these extension courses. The sole desire of the schools and the instructor is to be of help to the farmers within their reach.

## C.-C. DIRECTORS AND COUNCIL ORDER CLEAN-UP CAMPAIGN

There come a time in the life of the people of every community, however small or large, when it is necessary that the entire citizenship of that community work toward one objective. That time has come in Tahoka.

Your Mayor, C. H. Cain, the City Council and the Chamber of Commerce have joined hands in declaring war on all RUBBISH within the city limits of Tahoka, and on Tuesday morning, November 26th, this will begin to move to the official dumping ground, where it will forever rest in peace.

Every person in Tahoka, is being called upon, as good citizens, to help in this city wide undertaking. A 100 per cent Clean-Up is the goal of the above organizations, and it can not be a 100 per cent Clean-Up without the co-operation of every citizen within the city limits.

## SMITH NAMED KIWANIS HEAD

Luncheon Club Elects Officials For 1929-30 Term In Spirited "Party" Contest

At the Kiwanis luncheon Wednesday, officers for next year were elected. These will be installed about the first of January. There were two tickets in the field, the Wildcat-Playmates and the Lion Tamers. Party lines were disregarded, however, and candidates on both tickets were elected. The officers next year will be as follows: President, Truett Smith; Vice-President, W. S. (Skip) Taylor; District Trustee, G. H. Nelson; Treasurer, M. O. Bridges. Directors were elected as follows: R. W. Fenton, Jr., Dr. C. B. Townes, Judge C. H. Cain, E. I. Hill, W. O. Henderson, Rev. R. T. Breedlove, W. B. Slaton.

These will succeed the present officers, who are as follows: Pres., Dr. C. B. Townes; Vice-Pres., Rev. B. N. Shepherd; District Trustee, D. A. Parkhurst; Treas., M. O. Bridges; Directors: G. M. Stewart, W. S. Anglin, W. B. Slaton, L. C. Haney, Chester Connolly, Rev. R. T. Breedlove, and B. R. Tate.

## New Home Club Met Thursday

The New Home Home Demonstration Club met Thursday, November 14th. Mrs. Dora Barnes, our clothing specialist from A. & M. College was with us. She told us the principles of "Shopping" or "How to Shop". This was a very interesting and profitable demonstration. She explained and showed us how to test different fabrics and how to detect the difference in plant and animal fibers and other materials. If you were not there, you missed something worth while.

Our next meeting will be at Mrs. W. V. Starnes home. Miss Greenwade will give the demonstration we were to have had last time. It is also the time for the election of officers for another year. Let's make it a one hundred per cent attendance.—Reporter.

## FIGURES SHOW VALUE OF BULL CIRCLES TO DAIRY FARMERS

(By C. C. Williams)  
There seems to be a doubt in the minds of many of the people of Lynn County as to the value or organized bull circles and the extra cost of registered high grade bulls for their dairy herds.

The continued growth and permanency of any institution is a pretty good measuring stock of its success and worth. Farmers' Bulletin No. 1532 of the U. S. Department of Agriculture contains a record of the number of bull circles in operation during each year since the movement was started in 1908. The first three bull circles were organized in that year in the state of Michigan. From Michigan the movement was spread to all parts of the U. S. and the growth has been gradual but steady until the present time. This same bulletin states: "On January 1, 1927, the membership of the 284 associations was 6,057. The associations

The program is simply this: Monday, November 25th, has been proclaimed Clean-Up day for Tahoka. On or before that date each citizen of Tahoka is requested to have his premises clean of all rubbish and weeds. The inflammable rubbish should be burned, and the non-inflammable rubbish boxed, barreled or sacked and placed in the alley back of his premises.

On Tuesday morning, November 26th a wagon will begin hauling this rubbish to the dumping ground. Simple, isn't it?

Just lend your assistance and let's have all the rubbish of Tahoka piled in the alley on Tuesday morning, November 26th.

Clean-Up Committee:  
Dr. L. E. TURRENTINE, Chairman  
J. K. APPLEWHITE  
CHESTER CONNOLLY

## C.-C. DIRECTORS HEAR REPORTS

Slow Progress Is Reported To Body By Poultry Show and Dairy Committees

Several matters received the attention of the directors of the Chamber of Commerce in session Monday night.

The committee theretofore appointed to arrange for a poultry show here some time this winter reported difficulty in procuring a building suitable for the purpose. A further effort will be made, however, and such a show will be staged if found at all practicable.

The proposition of procuring a car of dairy cows also reported to have made rather slow progress on account of the scarcity of money and on account of the fact that so many have not yet come to realize the importance of the dairy industry and of high class dairy cows. It is believed, however, that a car of first class cows will yet be placed. Persons seeking to build up the quality of their dairy herds should by all means consult county agent Ray

(Continued on last page)

## New Lynn Club Elects Officials

The New Lynn Home Demonstration Club had their regular meeting Tuesday afternoon, Nov. 19th, at Mrs. John Spears.

They elected new officers for the coming year. The following were elected: Mrs. J. A. Jaynes, president; Mrs. R. W. Barton, vice-president; Mrs. H. A. Winkler, Secretary-Treasurer. Miss Dell Winkler, Reporter.

Mrs. Spears and Mrs. Bragg being the lucky ones to receive cup-towels at this meeting. Mrs. J. N. Taylor and Mrs. J. A. Jaynes will receive them at next meeting.

After a delicious refreshment we adjourned to meet with Mrs. Nina Woolley our next meeting day which will be first Tuesday in December.—Reporter.

## TEXAS COTTON CROP BELOW '28

Will Be A Million Bales Short, U. S. Government Report For November 1 Shows

Cotton ginned in Texas prior to November 1st, 1929, from this year's crop amounted to 3,144,983 bales against 3,865,022 bales prior to the same date last year, according to statistics recently made public by the U. S. Department of Commerce. This shows a production of 720,000 bales below that of last year. Since a larger per cent of the crop was gathered prior to November 1st this year than last, it is believed that the decrease will reach almost a million bales by the end of the season. On the plains and throughout West Texas the production was far short of that of last year, and yet the ginnings prior to November 1st exceed those of last year.

Nueces county leads the state this year with 122,771 bales. Her nearest competitor is Ellis county with 88,593 bales.

We give below the figures for a number of West Texas counties for the two years.

	1928	1929
Collingsworth	21,349	21,611
Crosby	6,608	14,514
Dawson	6,237	16,760
Fisher	9,814	11,570
Floyd	6,684	8,208
Garza	2,924	3,354
Hale	3,048	7,893
Hall	34,908	26,859
Haskell	22,394	15,444
Hockley	1,598	14,104
Howard	8,121	12,888
Jones	21,549	17,150
Lamb	4,558	20,081
Lubbock	7,755	27,286
Lynn	6,576	15,071
Mitchell	8,355	18,151
Runnells	32,803	37,005
Scurry	3,192	11,897
Taylor	16,430	17,556
Terry	2,249	11,220

## Carl Brewer Dies In Hot Springs, Ark.

G. T. Brewer was called to Hot Springs, Ark., on Wednesday morning of last week by the serious condition of his son, Carl, who died before Mr. Brewer's arrival, death occurring early Thursday morning. Death resulted from blood poisoning.

The remains were brought back to the old family home and were buried in the Old Pleasant Point Cemetery near Mansfield in Johnson county on Friday afternoon. Mr. Brewer was accompanied to Hot Springs by his son, L. T. Brewer, and as far as Dallas by another son, H. B. Brewer of this county.

Carl Brewer was well known here, and was well known in Tahoka. He was here visiting his father and other relatives for several days about six weeks ago but had not resided here for several years. He was born at Mansfield and was 28 years of age at the time of his death. Many friends here deeply sympathize with the family in the death of their son and brother.

## Abilene Man Buys Out Carlos Courts

J. B. Hollis of Abilene has purchased the Carlos Courts and has taken charge of the property. His family is to remove here this week. We understand that the consideration was \$20,000.

Carlos Courts is one of the best equipped and most attractive tourist parks in West Texas. It has all modern conveniences and is conveniently situated with respect to the business section of the city.

The people of Tahoka will welcome Mr. Hollis and family to our city.

## Open Adult Home Ec. Class At School

The class in Home Economics for adults began Tuesday night under the direction of Miss Lois Bleifus. At that time nine people reported for enrollment. The Home Economics laboratory of the high school is arranged to accommodate sixteen. Miss Bleifus is anxious to have at least seven more people enrolled for this course. The class meets on Tuesday and Thursday evenings at 7 o'clock.

## SHEPHERD GOES TO CLARENDON

Eapitst Pastor Resigns; Has Been Pastor At Local Post For Past Five Years

Rev. B. N. Shepherd, pastor of the Baptist church here for the past five years, tendered his resignation at the services last Sunday morning to take effect at the close of the service next Sunday evening and requested that it be accepted. He explained that he had been tendered the pastorate of the First Baptist Church at Clarendon and had decided to accept the call. In view of the fact that some people are always prone to ascribe improper motives to preachers in general in accepting other calls, he further explained that he was to receive the same salary at Clarendon that he is receiving here. He explained that larger opportunities for service are offered there than in Tahoka and expressed the desire to make his life count for the most possible. There were many wet eyes in the congregation as the resignation was accepted.

Brother Shepherd came to Tahoka as pastor about the first of September, 1924. Since that time the church here of which he has been pastor has had a remarkable growth in numbers and a complete transformation in spirit. With a resident membership possibly not exceeding 150 at that time, it has grown until it now has about 435 resident members. At that time the Sunday School attendance averaged about 75; now it averages about 225. The Church then had one B. Y. P. U. organization of 12 members; it now has six B. Y. P. U. organizations with almost 200 members. It then had a Woman's Missionary Society of 12 or 15 members; it now has W. M. S. divided into three circles and having 40 to 50 members. Y. W. A., G. A. and R. A. organizations have also been effected and are functioning in a fine way.

The spirit of the Church has been transformed, and under Brother Shepherd's leadership it has become a virile and militant spiritual force in the community and has made its influence felt throughout this entire section.

As a gentleman and a citizen Brother Shepherd has likewise enjoyed the confidence and esteem of the entire community and has won friends all over this section of the state who love him as a brother.

In all his labors and service, he has been assisted and encouraged by his faithful and devoted helpmate, who has likewise wrought a splendid work in all the major activities of the church here, and their daughter, Miss Gertrude, has also been an active and efficient church worker. All Tahoka regrets that the Shepherds are to leave but wishes them God-speed in their new and larger field of labor. They will leave some time next week.

Mr. and Mrs. Lee Wood left Wednesday for their home in Lynnwood, California, after several weeks visit here with the Wood and Davis families.

Ben Moore of O'Donnell, the nursery man, was here on business Wednesday.

## JUST A GENTLE REMINDER

This is the time of year when most of our subscribers renew. Most of our subscribers look after their subscriptions before or soon after the date of expiration. Quite a number, however, are rather neglectful in keeping their subscriptions paid up to date. A few have permitted their subscriptions to become considerably delinquent. We expect to revise our list within a short time and unless these delinquent subscribers come in and renew or make satisfactory arrangements, we will assume that they do not want the paper longer and will drop their names from the mailing list. This applies especially to a number of subscribers living here in Tahoka. So, please do not become offended if the paper stops coming to your address.

# Barks Of The Bulldogs

Sponsored by the Senior Class of Tahoka Hi School

## TAHOKA DOWNS CROSBY-TON BY SCORE OF 31-0

The Bulldogs showed up in fine shape in the game of last Friday. They did some excellent playing. The entire team showed up well. Played better than it had all season. Everyone present enjoyed the game. Many fans declared that the team immensely because of the fast way in which the game progressed. The two teams were pretty evenly matched as far as weight was concerned. The Crosbyton boys did some good fighting, but were out-classed all around. The backfield surely did some real playing. Edwards and Minor were almost unstopable. These two boys are real football players as well as the rest of the backfield, Ketter and Stevens. Minor shows his speed on the end runs while Ketter is a marvel in broken-field running. Stevens and Edwards show their power by knocking holes in the line. The line held fine and did good work on the defense too. The ends showed up fine also. The whole team should be praised for it was a ball game by the team as a whole and not just part of it.

The line up was as follows: Gurley, center; Guards, Tankersley and Greathouse; Tackles, Grider and George; Ends, Fox and Spears; Quarter, Ketter; Halves, Minor and Edwards, Full, Stevens.

The following is a summary of the game:

The game started at 4:15. Crosbyton kicked off, and Tahoka returned the ball about twelve yards. Two successive five yard gains were

made and then a pass was attempted by Tahoka but not completed. Minor made a ten yard gain and then Edwards fumbled the ball which was covered by Crosbyton. Crosbyton tried a pass but it was incomplete. Then they tried another one and completed it for a gain of twenty-five yards. Made a few tries to break through the line but failed and the ball went over after which Edwards made a ten yard gain. Then Minor came along and made an identical gain. The quarter was called.

At the beginning of the second quarter Crosbyton was penalized five yards. Minor made a fifteen yard end run. Then the Bulldogs were penalized fifteen yards. Next Minor made one of his famous end runs for a gain of thirty yards. Ketter carried the ball over for the first goal of the game. Ketter failed to kick the goal. Gurley kicked off for Tahoka and Crosbyton returned the ball for about seven yards, and on the first play made a ten yard gain. The half was called.

Crosbyton kicked to Tahoka. On the first play Minor made a fifteen yard gain and then carried the ball fifty yards for a touchdown. Ketter failed to kick the goal. Gurley then kicked to Crosbyton. Edwards intercepted a pass and ran about fifty yards for another touchdown. Ketter tried to kick a goal but failed. The third quarter was called. In the fourth quarter Minor pushed over another touchdown and Ketter kicked goal. Crosbyton tried

two passes but failed to complete either and were penalized five yards. Edwards ran thirty yards for another touchdown. Ketter failed to kick the goal. Before the end of the game Crosbyton completed a pass for a five yard gain.

### PHYSICS CLASS TAKES TRIP

On last Tuesday the Physics class of the Tahoka high school went out about a mile or two on the Brownfield highway to perform an experiment. This experiment was to prove the law of momentum by the use of a gun and some shells. Then a bullet was shot on a level and timed. Then, a bullet was dropped from the same height from which the first one was shot. Data was obtained from these two operations and the result compared with the law itself. The Physics class expects to make a number of outdoor experiments of this nature during the present school year.

### SENIORS GET RINGS

The Seniors were overjoyed Monday morning when the glad news that their rings had come reached their ears. They came trooping into the Senior room one at a time. But lo! Ten cents was due on each and everyone of the rings and the industrious Seniors could be seen rushing up and down the halls, trying to borrow ten cents.

The majority of the rings fit, but some were slightly large and some were a trifle small. Nevertheless, most of them were satisfactory.

### DRAMATIC CLUB ORGANIZED

Those interested in the study of the drama met with Mrs. J. H. Tunnell in room 6, Nov. 12 at 3:15 for the purpose of organizing a dramatic club.

The following officers were elected: Mary Fenton, president; Juanelle Windham, vice president; Bern Aycox, secretary; Mabel Lee, treasurer.

Plans for the coming year were discussed. It was decided that each member would be assessed twenty-five cents a semester for dues. A committee was appointed to select

a motto. The club agreed on using the pens bought last year. The dramatic club will meet every Tuesday at 8:15.

### LOCALS

G. C. Shaffer who has been absent for a week has returned to school.

John Thomas Tippet has made and presented a stool to put the bowl of fish on.

The Seventh grade as a whole is ordering a very attractive class pin. The initials which will be on the pin are T. J. H. S. (Tahoka Junior High School) and thirty for the future year.

Mary Sue Clinton visited in O'Donnell Saturday night.

Evelyn and Estelyn Jeffreys visited in O'Donnell Sunday.

Lola Belle Edwards visited in O'Donnell Thursday night.

Mrs. Tunnell went to Lubbock Sunday.

Jack Childers visited in Fort Worth over the week end.

Virginia Sanford visited in Lubbock Sunday.

Miss Ruth Shaffer visited friends in Lamesa Sunday afternoon.

Miss Jewell Johnson entered a group of friends with a forty-two party Saturday night.

Miss Helen Brasfield visited in O'Donnell Saturday night.

Mrs. C. C. Williams will speak to the Home Economics Club Tuesday afternoon on her Home Economics Club work in the Philippine Islands.

Miss Jewell Johnson visited Draw Sunday night.

The new Gulf Refining Co. plant now nearing completion at Sweetwater and the plant of the United States Gypsum Co. at Sweetwater will use 2,400 horsepower in electric current daily or twice as much as the entire city of Sweetwater uses. The Gypsum Company recently abandoned its own power plant of steam and gas engines because it found electricity cheaper.

Italy has given a Texas asphalt company an order for 10,000 tons of asphalt a year for the next ten years and work filling the initial shipment was begun at Uvalde recently. It will be used for topping of roads that Caesar built 2,000 years ago.

Texas has 973.69 miles of electric railway. New York with 4,792.35 is first in electric railway mileage.

Success of the Houston ship channel has inspired emulation by other ambitious Texas cities. Brownsville has voted \$2,000,000 and promises \$1,000,000 more toward construction of a channel from Brazos de Santiago pass, provided the undertaking is endorsed by the Federal Govern-

ment. Harlingen is seeking a channel along the Arroyo Colorado to Laguna Madre and thence across this body of water and across Padre Island to the Gulf. Texas had 4,500 miles of electric transmission lines with many new miles under construction.

When you select the Feed for your Cows look for milk-pail Results NOT

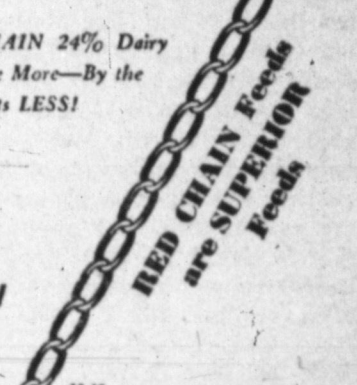

low-cost per bag

When anyone offers to "save you money" by selling you a "cheap" dairy feed, remember that the milk pail determines both the cost and the profit of any feed. Feeds selling for less than RED CHAIN usually contain an excessive amount of cottonseed meal; they produce milk for a while, but eventually they "burn up" your cows. Experienced dairymen know RED CHAIN 24% Dairy Ration is the most economical feed for cows because it produces more and better milk and keeps cows in better condition, insuring a long life of usefulness and profit. Everything considered, the best is always cheapest in the end.

By the Bag, RED CHAIN 24% Dairy Ration May Cost a Little More—By the Milk Pail it Always Costs LESS!

Burleson Grain Company

### FARM LOANS; CITY LOANS

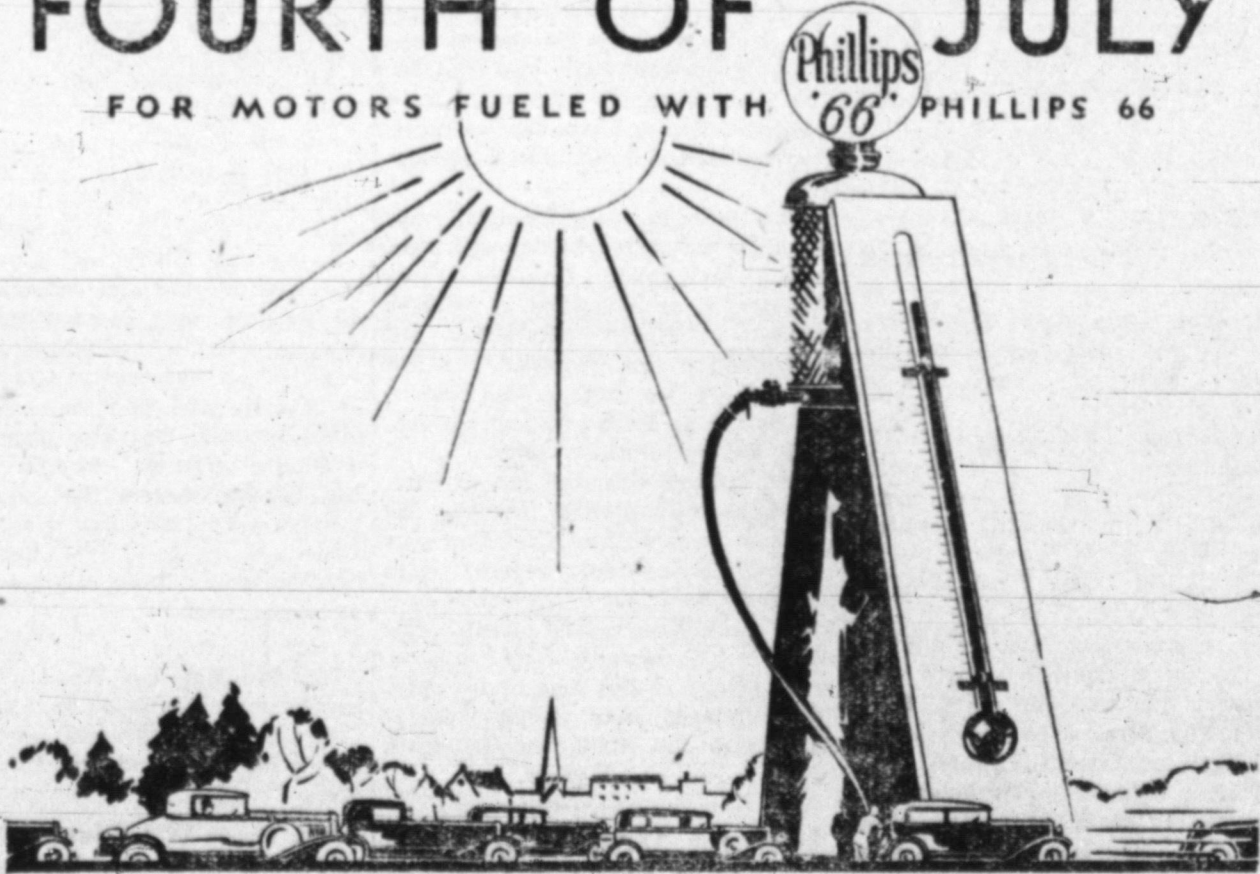

Let us re-finance that old 8 percent loan on your farm into a loan with cheaper rate of interest, or take up those 8 percent vendor's lien notes and convert them into a loan with cheaper rate of interest; see us.

## "EVERYBODY'S SIX"

Smart · Smooth · Safe · Dependable—and Priced Within the Reach of All!

THE new Chevrolet was designed and built to bring the advantages of six-cylinder performance within the reach of all those who can afford any automobile. For that reason it has met with sensational success—more than a million two hundred and fifty thousand on the road in less than nine months!

is smooth, powerful and unusually swift in acceleration. It is designed throughout for greater safety and dependability. And its low first cost, combined with its outstanding economy of operation, makes it truly "Everybody's Six."

Come in today for a demonstration!

The Roadster, \$535; The Phaeton, \$535; The Coach, \$595; The Coupe, \$595; The Sport Coupe, \$645; The Sedan, \$675; The Imperial Sedan, \$695; The Sedan Delivery, \$595; Light Delivery (Chassis only), \$400; 1 1/2 Ton Truck (Chassis only), \$545; 1 1/2 Ton Truck (Chassis with Cab), \$650. All prices f. o. b. factory, Flint, Michigan.

Consider the delivered price as well as the list (f. o. b.) price when comparing automobile values. Chevrolet delivered prices include only authorized charges for freight and delivery, and the charge for any additional accessories or financing desired.

We cordially invite you to come in and see this remarkable car. Its smart Fisher bodies are styled in the latest mode—with tasteful moldings, concave front pillars and oblong windows. Its great six-cylinder valve-in-head engine

## Snowden Chevrolet Co.

A SIX IN THE PRICE RANGE OF THE FOUR

**BAPTIST PASTOR TRIED AND CONVICTED WEDNESDAY**

Members of the Baptist Church "framed" their pastor, Rev. B. N. Shepherd Wednesday night. They organized a moot court in one of the back rooms of the church and proceeded to try the genial pastor on a charge of having perjured and used another man's sermon. W. D. Nevels was the trial judge, G. H. Nelson and R. E. Key were the prosecuting attorneys and Truett Smith and Taylor White were counsel for the defense. Mrs. Taylor White was sheriff and Mrs. J. B. Walker was clerk. A number of witnesses, including both men and women who affirmed that they would tell nothing that resembled the truth, were used by the State and the defense. Present to witness the proceedings were three "visitors from Clarendon."

The trial was a roaring farce from start to finish. Judge Nevels presided with an iron hand and yet with a degree of fairness and impartiality that was astounding. The testimony given by the witnesses had been fearfully and wonderfully contrived. The jury, composed of six of the good pastor's members, were selected for the sole purpose of procuring a conviction, Judge Nevels announcing at the outset that no continuances, on changes of venue, and no acquittals were allowed in his court.

A plea of insanity was interposed in behalf of defendant but the issue was never passed upon by the jury. In fact, the jury was instructed by the judge to return a verdict of guilty but after retiring they never returned into court. At the close of the session refreshments were served and all proceedings terminated happily.

**JACKSON BUYS DOLLINS MARKET AND GROCERY**

O. J. Jackson has purchased the Dollins Market, taking charge Monday. Mr. Dollins has announced no plans for the future. Mr. Jackson has been running a small cafe here for some time and has enjoyed a good business. Members of his family will continue to operate the cafe while he will devote his time to the market, which will be known hereafter as Jackson's Market.

**SEWING CLUB MEETS**

The Wednesday Sewing Club met with Mrs. J. K. Appewhite at 3:00 o'clock. Two hours were spent in sewing and pleasant conversation. Ten cents dues are paid by each member to provide flowers for the sick.

Hot chocolate and wafers were served to the following members: Mesdames Small, Redwine, Lockwood, Story, H. B. Powell, Claude Wells, J. K. Appewhite and E. A. Thomas.

**BOX SUPPER AT DIXIE**

There will be a box supper at the Dixie school house on this Friday night, November 22nd, for the benefit of the 4-H Club girls of the community. Everybody is invited and urged to bring a box or plenty of money to buy one. There will also be a music recital in connection with the supper.

**THOMAS BROTHERS DRUG COMPANY**  
Tahoka, Texas

**Locals**

J. W. Roberts, editor of the O'Donnell Index, was a pleasant caller at the News office last Friday. Roberts thinks that the Read Bonds proposition in Dawson county will carry after which he thinks it high time for the people of Lynn County to start a similar campaign. He thinks, however, that the people of Tahoka and O'Donnell should get together and agree upon a plan, just as Lubbock and Slaton have done, before any petitions are circulated, and we believe that he is eminently correct.

Marvin McCord requests that we announce that John F. Taylor of Clovis, President of the Plateau Singing Convention, will attend the Lynn County Singing Convention to be held at T-Bar next Sunday.

R. L. Saxon and family left last week for Pickett, Hopkins county, where they will reside. Mr. Saxon operated a filling station on the highway six miles south of town until recently.

Feix Upton, brother-in-law of Dr. G. W. Williams, fell on a coal scuttle one day last week and sustained a strain of the hip that put him in bed. He is not yet able to be out.

J. E. Richardson, secretary of the school board at Wilson, was a business visitor in the News office this morning. He reports the school as doing excellent work as usual.

The little ten-months-old child of Mr. and Mrs. Milt Finch, who has been so seriously sick of diphtheria has almost recovered. No other cases have developed.

While working on the new residence of C. P. Church Monday J. A. Williams fell and fractured a rib. He is "laying off" until the injured member heals.

J. T. Bridges, who was taken to the hospital again last week, was able to come home Saturday. He has not been improving very satisfactorily.

**FOR SALE**—One four-disc tractor plow, one four year old cow, fresh with calf, two Jersey heifers, seventy bushels Vandever Heavy Fruit-Cotton seed, one new four-section harrow, three-row stalk cutter, one slide go-devil, one four wheel trailer, fifty hens, for sale 10 miles southeast of Tahoka. See me in town Saturday.—H. M. Anthony. 13-1tc

**MR. ENGLISH HONORED ON HIS BIRTHDAY**

Mrs. D. B. English was a charming hostess Sunday in her home on West North Third Street, when she honored Mr. English with a beautifully appointed surprise birthday dinner.

The lovely dinner consisted of turkey and all its trimmings and a huge pink and white birthday cake bearing candles placed in the center of the dining table. The flowers used were pink carnations.

The guests list included: Mr. and Mrs. Raymond Hatch and little son, Raymond Brison of Lamesa Mr. and Mrs. C. M. Traylor and little daughter, Virginia Lee of Lubbock, Mr. and Mrs. J. M. Small of Sudan, Mrs. Eloise Evans of Lubbock, Mrs. Sam Cooper of Amarillo, Mr. and Mrs. George Small and Miss Ida Small.

**PROCLAMATION**

Pursuant to the order and approval of the City Council of the City of Tahoka, and for the general welfare of her citizenship and in order that Tahoka may continue to be a clean city, I, C. H. Cain, Mayor of the City of Tahoka do hereby proclaim Monday and Tuesday, November 25th and 26th, 1929, to be known and observed as "Clean-Up" days, at which time each resident of the City of Tahoka is requested to have all tin cans, garbage and other unsightly rubbish removed from his premises, and to assist in gathering up such rubbish from the streets and alleys adjoining their respective places of residence. This rubbish should be placed in boxes, barrels, or piles convenient for loading in the alleys.

The Boy Scouts, to whom credit is due for promoting this work, will have active charge of the work and supervision of removing such rubbish as may be collected as above stated.

It is not intended hereby to relieve any person from the penalties and provisions of the general sanitary ordinance, requiring that rubbish and garbage be kept collected and be removed from the premises at intervals as therein provided.

Let every citizen join with the Boy Scouts in making the two days hereby proclaimed real "Clean-Up" days.

Done at Tahoka, Texas, this 20th day of November, A. D., 1929.  
C. H. CAIN, Mayor

Rev. Philip McGahey of Wilson was a business visitor in the News office Wednesday. He is pastor of the Baptist Church there and reports his work as moving along nicely.

**Cost To Purchaser Reduced By Ford Financing Company**

Officials of the Universal Credit Company, which is associated with Ford Motor Company for the exclusive purpose of financing purchasers of Ford products on a time basis, issued the following information to Connolly Motor Company, local Ford dealers.

The reduction in financing costs announced on November first by the Universal Credit Company, were made in conformance with Ford policy to contribute towards the continuation of good business throughout the country, and in contemplation of lower money costs to them as a result of the general softening of money rates.

The reduction amounts to from 8 to 15 per cent of previous financing costs on a general average over previous costs for the same model car, and appreciable savings are possible in all territories, depending upon the amount of the unpaid balance, the number of months the transaction is to run and the amount of the reduction in the price of the particular Ford car purchased.

Universal Credit Company was organized in February of 1928 and began operations on June 1st of last year when the first Branch of the organization was placed in operation in the City of Detroit. In 1928, 35,000 purchasers of Ford products took advantage of the economics of this financing plan, with a resulting volume of business amounting to \$15,000,000.00.

During 1929, which is the first

complete year of the Company's operation, nearly 500,000 customers will avail themselves of this economical plan and a total volume of business of nearly \$225,000,000.00 will have been handled in the twenty-five Branches of Universal Credit Company which are now in operation.

**MR. SWAN HONORED WITH BIRTHDAY DINNER**

Mr. Marshall Swan was honored with a lovely and pretty birthday dinner given by Mrs. Marshall Swan Sunday at the noon hour in their home on West North First Street.

A large birthday cake of pink and white bearing candles centered the dining table. A turkey dinner with all the good things that go with it was enjoyed. Pink and white flowers were used in decorating the dining table.

Places were marked for the following guests: Mr. and Mrs. W. S. Swan Mr. and Mrs. Elbert Boullion and little son, Elbert, Jr., Miss Lucille Cormack, Mr. and Mrs. Buford Swan and the honoree, Mr. and Mrs. Marshall Swan.

**MOSCOW "DRY WEEK" ENDS IN MANY SPREES**

MOSCOW, Nov. 16.—The Anti-alcoholic Week, recently conducted by the Anti-alcoholic Society here, gave curious results. The last two days of the dry-campaign were marked by a big increase in the number of arrests for disorderly conduct and debauchery, police records showing arrests for the two days at 682 and 330 persons.

Figures issued by the society as

of October 1st, asserted that Moscow and it environs in 12 months gulped down 37,000,000 quarts of alcoholic drinks. There are 58 special vodka stores, 145 beer halls and 200 wine shops in the Soviet capital.

Trade union statistics credit the average Moscow worker with consuming 98 quarts of vodka, 93 of beer, and four of wine each year, spending about \$90 of his limited income on these beverages.

Texas has an annual mineral production in excess of \$500,000,000. Its mineral, farm, ranch and lumber production is around \$2,000,000,000, a year.

**NOTICE TO THE PUBLIC**

Any erroneous reflection upon the reputation or standing of any individual, firm or corporation, that may appear in the columns of the News, will be gladly corrected when called to our attention.

**GRAHAM EDITOR ERECTS AND DEMOLISHES A STRAW MAN**

Referring to an editorial which appeared in this paper recently concerning agricultural exhibits at the fairs, the Graham Leader interprets our editorial as being a criticism of the practice of "visiting the fields and selecting the better specimens of the crops" for display at fairs. Then he proceeds to defend this method of selecting displays, concludes that this editor was moved by jealousy, and proceeds to give us a lot of advice to the effect that we should boost for our entire section. The Leader has built a man of straw and demolished it. If any intelligent human being under the sun, except Editor Kelly, can read our editorial and construe it as a criticism of the practice of "visiting the fields and selecting the better specimens" for display in the fairs, then George Washington was a Chinaman. This was the method that the editorial clearly approved. Brother Kelly should put on his monocle and read it again.

As for our being "jealous" of a neighboring county, as Brother Kelly intimates, Great Jehoshaphat!

Our editorial columns ever since we have been at the helm of this paper will show that we have been boosting almost incessantly for this entire section. We love every county of the plains from the Tee-Pee on the south to the northern line of the Panhandle. We love all West Texas, stretching from the winding course of the Rio Grande to the swift waters of the Canadian and thence on north almost to the Kansas border, from the fine little city of Graham on the east over a vast expanse of rich lands and sand dunes and mountain scenery that finds its western terminus at El Paso. We love every sprig of grass, every flower and tree and river and mountain and plain and rock in this vast domain. We even like a sand storm now and then. We love not only the soil and the flora but we love also the fauna of this region, from the hardy horned frogs of Eastland that refuse to die to the superb short horn Herefords of everywhere in this territory that grow and fatten as nowhere else in the world. We think there is no animal so cute as a West Texas prairie dog, none so cunning as our coyotes, none more fleetfooted than our jack rabbits, none more lithe and beautiful than the few antelope that are left, none more majestic than the buffalo that once roamed these plains in countless multitudes but which have become extinct except for a few specimens at Canyon and Goodnight.

We love everything, Kelly, that has a West Texas flavor. You ought to read our editorials more carefully.

**WE ARE KEEPING OUR SHIRTS ON**

Well, well, well; so the D. O. P. (dry old party) staged a wall street booze party in Washington and gave us favors nice silver fasks of pure Scotch. Now, maybe some of our good friends who bolted the ticket

last fall who had a bad case of "conscious conviction" will wake up to the fact that they voted with just as bad a bunch as they thought they quit. There is no such thing as a wet or dry democratic party any more than there is a wet or dry Republican party. There are differences of opinion in the ranks of each, and probably will be for some time to come. But that does not mean that either party will menace the Volstead Act or 18th Amendment for years to come if ever. So hold your horses; also, keep your shirts on.—Terry County Herald.

No, there is not much danger that "either party will menace the Volstead Act or the 18th Amendment for years to come"—not since those who undertook to "menace" it got such a drubbing last year. So we are holding our horses and keeping our shirts on. Furthermore, we are mighty well satisfied with the efforts and the progress that Hoover is making in the enforcement of the liquor laws. But suppose Smith had been elected and Tammany enthroned at Washington—well, we bolters are just awfully glad until this day, Jack, that we follow our consciences. We realized last year what you state now: that there are wets and dries in both parties; but we knew that Smith was wet and Hoover was dry. We voted, not for the Republican party and against the Democratic party, but for Hoover and against Smith, for a dry America and against a wet America. Neither did Tammany vote for the Democratic party and against the Republican party. It voted for Smith and against Hoover, for a wet America and against a dry America. It was not so much a party contest as a prohibition contest. The dries won and the ultra-wets in both parties are now sore because Hoover is making it hot for the rum-runners and the bootleggers.

So after fighting it all over again around the bluffs of the rivers and red hills of Virginia, the old party of Jefferson and Madison proved victors over a conglomeration of Republicans and Anti-Smith Democrats by overwhelming majorities. If present indications point to anything the same old kind of battle is in store for Texas next year. Of with the battle when the time comes. In the meantime, let's try to keep warm some other way. What say, Bishop? —Terry County Herald.

Most of those Democrats who bolted the ticket last year and refused to vote for Smith are life-long Democrats. They are Democrats today—far better Democrats than that Tammany crowd of New York who imposed Smith on the Democratic party last year and who always bolt the national ticket when it doesn't suit them. Those Virginia dry Democrats merely voted the state ticket straight this year as they did last year. A great majority of the dry Democrats of Texas, including those of Terry and Lynn counties will do the same unless Wilcox, and his bunch insists on kicking them out of the party. If Wilcox, Pinkley, Boyle, Ferguson, et al do kick the "Hoovercrats" out, then there will be a battle all over the bluffs and red hills and rolling prairies and level plains of Texas, Jack, that will make that Virginia battle look like a mere skirmish.

We have decided to join the All-Cotton Club being sponsored by Jack Applewhite and L. H. Perkins. For years we have been preaching diversification without satisfactory results. Farm agents and home demonstration agents and newspapers have met with some success but

we have decided that Applewhite and Perkins have hit upon the best scheme. Therefore, we are urging that everybody join their club. Kill the old red rooster, get rid of Bidly the hen, sell all the Jersey heifers, take all the turkeys to market, cut out the maize and the kaffir and higeri. Plant cotton. Urge everybody else to plant cotton. Let's raise a hundred thousand bales in Lynn County next year. Use the half and half variety. It brings a good yield and a short price. The more cotton we raise and the shorter the price, the more ideal our country will be. If we can't sell the cotton we can eat it. So let's cut out everything else and raise nothing but cotton, cotton, cotton, till we all starve to death.

**SHERIFF'S SALE**

THE STATE OF TEXAS, COUNTY OF LYNN.

Notice is hereby given that by virtue of a certain order of sale issued out of the Honorable District Court of Lynn County, on the 23rd day of October, 1929, by Truett Smith, District Clerk of said Lynn County, Texas, for the sum of Fourteen Hundred Twenty-Seven and 18-100 Dollars and costs of suit, under a judgment in favor of D. N. Arnett in a certain cause in said Court, No. 763 and styled D. N. Arnett, Plaintiff vs. G. G. Adams, et al, defendants, placed in my hands for service, I, S. W. Sanford as Sheriff of Lynn County, Texas, did, on the 1st day of November 1929 levy on certain Real Estate situated in Lynn County, Texas, described as follows, to-wit: The Southeast one-fourth of section No. 55 in Block No. 20, H. E. & W. T. Ry Co. survey, cert 655, patented to Ida M. Charles, assignee, by Patent No. 572, Abst. 404, situated in Lynn County, Texas, and levied upon as the property of G. G. Adams and that on the first Tuesday in December, 1929, the same being the 3rd day of said month, at the Court House door of Lynn County, in the town of Tahoka, Texas, between the hours of 10 A. M. and 4 P. M., by virtue of said levy and said order of sale I will sell described Real Estate at public vendue, for cash to the highest bidder.

as the property of said G. G. Adams. And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Lynn County News, a newspaper published in Lynn County. Witness my hand, this 1st day of November, 1929.

S. W. SANFORD Sheriff, Lynn County, Texas.

**WHEELER-LINK**

On Thursday, November 14th Miss Opal Link, charming daughter of J. W. Link, who resides two miles east of Tahoka, was married to Mr. Howard Wheeler in Roswell, New Mexico. Mr. Wheeler is a son of Mr. Martin Wheeler of Grassland and the young people will make their home at Grassland for a while. We wish them many years of joy and happiness together.—Contributed.

**Just like MONEY in the bank**

Two major qualities of the Pontiac Big Six—its reliability and long life—offer motorists a definite cash advantage which is just like money in the bank. For they increase still further the demand for used Pontiacs—which means that the Pontiac Big Six you buy today will have a high resale value when you are ready to turn it in. . . . Investigate the features which contribute to this reliability and long life—such as the Harmonic Balancer, the adjustable pressure feed lubricating system, and the crankcase ventilation system. Come in today and let us show you all of the wonderful advantages offered by the Pontiac Big Six.

Pontiac Big Six, \$745 to \$925, f. o. b. Pontiac, Mich., plus delivery charges. Bumpers, spring covers and accessories regular equipment at slight extra cost. General Motors Finance Payment Plan available at minimum rate.

Consider the delivered price as the "list" price when comparing automobile values. . . . Pontiac-Pontiac delivered prices include only authorized charges for freight and delivery and the charge for any additional accessories or financing desired.

**PAINFUL INDIGESTION**

Lady Says She Obtained Relief By Taking Small Doses of Theford's Black-Draught.

Ardmore, Okla.—"I have recommended Black-Draught to a great many people, and they always thank me, afterwards," says Mrs. Czarina Duke, 118 "B" Street, this city.

"Fifteen years ago, I was in very bad health. I suffered a great deal with indigestion, and I traveled from one place to another in search of health, but nothing helped me. I lost in weight, and my food disagreed with me, and I could scarcely eat a bite that did not give me indigestion. "Often I had bad gas pains across my stomach, and I would wake up in the mornings with very bad headaches. I had a bad taste in my mouth, and would feel dizzy when I was on my feet.

"I began taking Black-Draught and soon found that I was getting better. I took a dose about the size of a pea, four or five times a day, for three or four days.

"After I had taken several courses of Black-Draught, in that way, I felt fine. I no longer had indigestion. I could eat what I liked, and enjoyed my meals. I gained in weight, and felt able to care for my children and do my housework."

In use nearly a hundred years. Twenty-five doses 25¢. NC-213

### South Ward Items

Brother Crume brought Uncle Ben Rogers out to preach to us last Sunday morning. Brother Shepherd preached his last sermon at South Ward last Sunday afternoon. Be at Sunday school next Sunday morning and hear Mr. Haynes preach. B. Y. P. U. will be held Sunday night and probably preaching service.

Mr. Inman and Mr. Hood went last Saturday to Lubbock to determine how much was due on the piano. They tell us that the last box supper money pays out the indebtedness completely. The whole community is glad that this is paid, especially Mr. Hood and Mrs. Inman. We should all appreciate the efforts and expense that these two men have given to this cause. They have made it possible with the co-operation of the community in box suppers for us to have a piano clear of debt. The piano is indispensable to any gathering at the school or school work.

The P. T. A. meeting and program announced last Friday night, was put off until this Friday night because Mr. Joe R. Griggs, the speaker could not come until Friday of this week. Be present and hear Mr. Griggs. He will talk on school work.

The school is sponsoring a carnival this week. The proceeds are to go to school necessities that are not furnished by other means. The receipts and expenditures will be announced and published in this column of the paper as they are spent.

Our exhibit was a big success. Many parents visited the school and viewed the exhibit. Everyone that came including the Superintendent were very complimentary of the work done.

Linnie Mae Brewer has returned to school. She has been out some time on account of sickness. Harvey Johnson has also returned to school.

Some people of the community have mentioned the feasibility of a community Christmas tree. Be thinking about this and have some opinion to render at a program in the near future.

#### WHAT OTHERS THINK

A number of senators heckled Chairman Legge of the farm board by asking why the farm problem had not been settled during the two months he had been in office. Inasmuch as the politicians have been working something like eleven years on the project we think it no more than fair that Chairman Legge be allowed another month to effect a solution.—Claude News.

Notwithstanding the governmental principle involved there will be more domestic peace and tranquility in the United States when the social status of the purchaser of liquor is reduced to the level of the legal status of the seller.—Claude News.

Saturday afternoon in Amarillo interested citizens from over the Panhandle representing chambers of commerce, commissioners courts, city commissions, civic organizations and the various state senators and representatives, will gather for the purpose of effecting a permanent organization looking to the establishment of a state park in the Palo Duro Canyon. At last sentiment has grown sufficiently strong to warrant a permanent organization for this worthy objective, and led by such a body there is every hope that before many years it will be possible to secure through state funds a large tract in the most picturesque section of the canyon and throw it open to the people of Texas and to tourists from all over the nation as one of the outstanding recreational and sight-seeing reserves in the beautiful Southwest. Let us lend our best thought and efforts to this worthy movement.—Clarendon News

ADDING MACHINE PAPER, 15c per roll; reduction on larger quantities. The News.

### President Of Big Firm Endorses It

"At the age of 79 I'm still active in business, and I attribute my splendid energy and vitality to Sargon. I believe it added years to my life."

DAVID S. BEEKMAN  
"Before I took Sargon my health had been failing steadily for five years. What I ate soured almost as soon as it reached my stomach. My nerves were all to pieces and I hardly ever got a good night's sleep. I was continually bothered with constipation and biliousness. I tried many medicines but kept losing weight and getting weaker every day. I thought I would have to give up by business, which would have cost me thousands of dollars.  
"Six bottles of Sargon made me like a different man. If I have an ailment left I don't know it. My appetite is keen, all trace of stomach trouble is gone, and I sleep like a top. I've gained seven pounds and feel as well and strong as I did 25 years ago. I go to my office every morning ready for a real day's work. It's a pleasure to endorse this remarkable treatment."—David S. Beekman, President Beekman Steel Fence Co., San Francisco.  
Thomas Bros. Drug Co., Agents

Texas is first in railroad mileage with 16,429.43 miles. More new construction is under way now than in any other state and will increase that total by several hundred miles within the next year. Illinois with 12,004.17 and Pennsylvania with 11,261.05 are second and third.

#### SHERIFF'S SALE

THE STATE OF TEXAS, COUNTY OF LYNN.  
Notice is hereby given that by virtue of a certain order of sale issued out of the Honorable District Court of Lynn County, on the 23rd day of October, 1929, by Truett Smith, District Clerk of said Lynn County, Texas, for the sum of Fourteen Hundred Twenty and 65-100 Dollars and costs of suit, under a judgment in favor of D. N. Arnett in a certain cause in said Court, No. 762 and styled D. N. Arnett, Plaintiff vs. E. X. Minor et al defendants, placed in my hands for service, I S. W. Sanford, as Sheriff of Lynn County, Texas, did, on the 1st day of November, 1929, levy on certain Real Estate, situated in Lynn County,

Texas described as follows, to-wit: The South west one-fourth of section No. 54, in Block No. 20, H. E. & W. T. Ry Co. survey, cert. No. 654, patented to Albert Taylor, by patent No. 250 Vol. 28A, Abst. 707, in Lynn County Texas, and levied upon as the property of E. X. Minor, and that on the first Tuesday in December, 1929, the same being the 3rd day of said month, at the Court House door of Lynn County, in the town of Tahoka, Texas, between the hours of 10 A. M. and 4 P. M., by virtue of said levy and said order of sale I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said E. X. Minor.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Lynn County News, a newspaper published in Lynn County.

Witness my hand, this 1st day of November, 1929.

S. W. SANFORD,  
Sheriff, Lynn County, Texas.

### CRAMPING SPELLS

Mississippi Lady Tells How She Suffered Until She Had Taken Cardui on a Friend's Advice.

Greenville, Miss.—In describing how she suffered several years ago, Mrs. Mattie Dalton, of 112 Pecan Street, this city, recently wrote:  
"I would cramp, and my hands and feet would draw, so I came near having convulsions. I would have to stay in bed, sometimes a week, and when I would get up, I just dragged around, and did not feel like doing my work. I suffered a great deal with my back.  
"A friend came to see me and saw how I suffered. She told me to try taking Cardui, which I did. I seemed to have more strength, after my first bottle. After I had taken about four bottles of Cardui, I saw a great improvement.  
"I quit having such bad spells, and was stronger and better than in a long time. I gained in weight. I took a few more bottles of Cardui, and felt so well that I quit taking it.  
"I certainly can recommend Cardui, for I know what it is to suffer, and I know that Cardui helped me."  
Thousands of women have written to tell of the benefit Cardui has been to them, in helping them to build up their health.  
Having helped so many others, Cardui should help you, too. NC-217

**Officers Elected By Grassland H. D. Club**

The Home Demonstration Club met November 11th and elected officers for the coming year. Mrs. C. C. Lawson was elected President, Mrs. L. L. Reeves, vice president; Mrs. E. L. Short, secretary and treasurer; Mrs. C. M. Greer, Better Homes Chairman; Mrs. W. P. Thomas, Mrs. E. M. Walker, Mrs. E. A. Thomas, program committee.

Meeting was adjourned until Friday at 2:30 when regular meeting was held with several members present. After reporting the lesson Mrs. C. C. Lawson gave a wonderful report of her trip to College Station. She was greatly enthused over what she saw and learned. She says she would love to go again. Our regular meeting days are every first and third Friday of each month and everybody is invited to come.—Reporter.

**MESDAMES HOGAN AND NICKLAUS ENTERTAIN**

Mesdames George Hogan and W. W. Nicklaus were joint hostesses in the former's pretty new home on West North 2nd Street Saturday afternoon, when they entertained a number of friends with a lovely bridge party.

The color scheme of green and yellow was used throughout in the decorations and refreshments. The flowers used in decorating were bowls of yellow and white chrysanthemums.

A lovely refreshment plate consisting of green and yellow bread sandwiches, chicken salad and coffee, and pumpkin pie topped with green whipped cream was served.

The guest list included the following: Mesdames Jack A. Jay, J. C. Allen, Bill Burleson, Jerry Nash, Tom Lemond, Charles F. Shook, G. M. Stewart, W. B. Slaton, L. C. Haney, W. R. Fenton, Jr., Marshall Swan, J. C. Townes, Frank Larkin, A. D. Sanders, Jr., L. E. Turrentine, Robert H. King, Otho Thomas, C. C. Williams, J. H. Powell, Oscar Roberts and D. W. Gagnat; Misses Hazel Pruett of Post, Margaret Worthy, Imogene Galloway and Faye George.

N. J. Hudspeth called Saturday on business and stated to the editor that he was in favor of long-staple cotton for this country. He thinks half-and-half is ruining the price.

**45 Enrolled In H. S. Commercial Dept.**

With an enrollment of 28 in type-writing and 17 in bookkeeping, the commercial department of the high school has begun to justify itself fully. The school hopes to add short-hand as soon as a class can be arranged. This will possible take place at the beginning of the second semester.

**HUMPHRIES WILL CONDUCT AN INTERESTING COLUMN**

The News is going to try an experiment. It is not an Educational or Literary journal, but we believe that our readers—many of them—would enjoy something of a literary nature each week.

Accordingly, Prof. J. A. Humphries, principal of the Three Lakes school, has consented to conduct such a column for us. He will conduct it in his own way, using material of his own selection, and we believe that our readers will enjoy it. We have known Mr. Humphries from boyhood and know him to be a capable, cultured gentleman, who knows and appreciates the power and the beauty of the English language, and who loves good literature.

His first contribution will appear next week.

All the dairy experts say that the best and quickest way to get a high-class bunch of Jersey cows is to use only registered, high class bulls. The mere fact that a bull is registered, however, is not enough. His pedigree and record should be of the highest type. Your county agent has had much experience in judging dairy stock. He is an expert. He is anxious to help the people of Lynn county to build up fine dairy herds, such as they have in Hale and Swisher counties. If the people of Lynn county will follow his leadership, we believe that in three years Lynn county will take rank with the best as a dairy county. Why not do it?

**SHADE TREES, FRUIT TREES AND SHRUBBERY**

Planting season will open December 1st, and I will have plenty of trees in Tahoka with Uncle Will Brown south of the square. Ben Moore, O'Donnell Texas. 13-14c

**Lubbock Calls New Road Bond Election**

An election to be held on Tuesday December 17, was ordered by the Lubbock County Commissioners' Court just before noon today (Friday) for the purpose of voting on a county-wide road bond issue to provide funds to pave Highways 7, 9 and 53.

The court voted unanimously to order this election, and were cheered by several dozen citizens from Slaton, Lubbock and other parts of the county, when the order was passed. The three petitions before the body were deferred for action until later, this election order having followed presentation of a petition, signed by more than 700 voters, which was placed before the court shortly after 11 o'clock.

**Slaton For Plan**  
Out of the 222 voters approached in Slaton, according to J. H. Brewer of that city, only one refused to sign it. In the city of Lubbock only a very few were reported to have refused their signatures and these were known to be opposed to any bond issue. Signers in Lubbock included men from every side of the long-drawn-out controversy over this county's road problems.

The petitions were circulated both here and at Slaton late yesterday evening or early this morning after a compromise proposition had been suggested at the hearing yesterday by Slaton representatives. Proponents of the district plan agreed and immediately prepared petitions and began their circulation.

Following is a copy of the petition presented this morning:

"We, the undersigned resident property tax paying voters of Lubbock county, Texas, respectfully pray this Honorable Court to order an election in said county to determine the following proposition:

Whether or not the bonds of said county shall be issued in the sum of \$991,000.00 for the following purpose, "The issuance of county bonds for the purchase of district roads and the further construction, maintenance and operation of macadamized, graveled or paved roads and turn pikes or in aid thereof, throughout such county as follows:

**Sum Is Explained**

(1) Bonds to be issued in the aggregate sum of \$21,500.00 for the purpose of the purchase of district roads in said county, and which bonds shall be issued in similar denominations, bearing the same rate of interest, having the same date or dates of maturity and with similar options of payment as the bonds heretofore issued and now outstanding against Road District No. 1 of said county.

(2) Bonds to be issued in the aggregate sum of \$969,500.00 for the further construction, maintenance and operation of macadamized, graveled or paved roads and turn-pikes, or in aid thereof, throughout such county and which bonds may mature serially or other wise at the discretion of the Commissioners' Court and may run for a term not to exceed forty years from their date and shall bear not more than five per cent (5) interest per annum.

"We further pray your Honorable Court that at said election there shall be submitted to the resident property tax paying voters of the county the question as to whether or not an ad valorem tax shall be annually levied upon the property of said county subject to taxation for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity.

"We further pray your Honorable Court that the proceeds derived from the sale of said bonds to the extent of \$969,500.00 if necessary, be expended for the construction, maintenance and operation of macadamized, graveled or paved roads and turn pikes, or in aid thereof, in Lubbock County, in accordance with the amount set opposite each of the following sections or units of road construction, or so much of said amount as may be necessary to wit:

**Points Explained**

"Texas State Highway No. 7 from Hockley County line by Shallowater, Lubbock and Slaton to the south line of Lubbock county, \$325,000.00.

"Texas State Highways No. 9 from Lynn County line by Woodrow and Lubbock to Abernathy, \$247,000.00.

"Texas State Highway No. 53 from Crosby county line by Idalou and Lubbock and Wolforth to Hockley county line, \$370,500.00.

"Total \$969,500.00.—Lubbock Journal.

**CHICKEN STEW SUPPER AT NEW HOME FRIDAY**

On Friday night, November 29th, there will be a chicken stew supper at the New Home school house for the benefit of the Home Demonstration Club and the community.

There will be plenty of entertainment also. Please remember the date and be there.—Reporter.

**Dawson Road Bond Election Dec. 21st**

Saturday, December 21, is the date set by the county commissioners court for residents of Dawson county to vote on the proposed bond issue of \$1,250,000 with which to pave highways in this county.

The date was fixed Monday morning at the regular meeting of the court when petitions bearing hundreds of signatures from residents in all sections of the county were presented to the commissioners by Henry J. Price, president, and other officials of the Dawson County Good Roads association.

Calling the election came as the climax to a six-weeks period of hard work on the part of more than 100 of the most prominent residents in each section of the county.

**Six Roads Affected**  
If voted, the bonds will be used to pave the six important highways to market in the county: Highway No. 9, north and south; Highway No. 83, east and west; and the Brownfield and Stanton highways.

Of the million and a quarter \$105,000 has been reserved to improve lateral roads in the county leading into these main highways.

Hence, according to officials of the Good Roads association, the bond issue will benefit every farmer living in Dawson county who uses these main roads to market.

**Success Seen**  
Those who have had charge of presenting the petitions report that advance sentiment indicates an easy success for the bond issue. By far the preponderance of sentiment, they say, is in favor of paved roads for the county.

With the milk plant almost ready to begin construction, farmers and dairymen in the county are behind the good roads move in order to insure prompt and easy delivery of the milk daily.

Further details on the election, in-

cluding polling places and so forth, will be announced by county officials later.—Lamesa Reporter.

### LIVING ROOM CONTEST STILL OPEN FOR ENTRY

There are a number of women who have entered the Living Room Contest; yet there is a larger number who should do so for the sake of your family and your home.

Consider how much better it makes your home to have a Living Room and how much more pleasure your family will get out of being at home.

Your names must be in A. & M. by the first of December. So if you plan to enter do so real soon.

Send name and address and class Demonstration you want to enter to the County Home Demonstration Agent, Tahoka, Texas.

Read what this woman did. Who could have a more difficult problem?

#### My Living Room

(By Mrs. Acie Bailey, Wilson)  
The room which I was using for my living room before I began remodeling was anything except livable.

It was ten by fourteen with about 9 foot ceiling. Two walls were nailed to planks which were nailed to the top of the ceiling. The ceiling

was rough and unpapered although about one-half of it was painted a faded blue. There was no paper on the walls and one could easily see into an adjoining room through the cracks. The floor was very rough and uncovered. Only one window and one door afforded light and ventilation with no access to the outside except by going through the bedroom and kitchen. There was no flue any where in the house and we are far from a gas line.

I faced a large problem—a problem of insufficient light, heat, ventilation and scarcity of room.

My living room furniture consisted of: 1 overstuffed suite (Divan and two chairs), table, piano and home made roll cabinet and magazine rack combined. All pieces were in need of some slight renovating.

I had neither shades nor curtains no floor nor sofa pillows, no rug and only one good picture. Altho the furniture was good the effect in the room was disgusting.

At first my family and friends said of my room "why worry" or "hopeless", but now invariably they all say "Pretty."

I began by having a door put in

I bought a second hand door facing out and screen complete at a minimum cost.

This solved my outlet problem and I began working for light. The window was large but the reflection was lost on dark bare walls.

I put white building paper on the walls (doing the work myself) then calaminated them a light green to within 1 foot of ceiling. This space I calaminated blue to harmonize with ceiling which I painted with the same shade of blue. A harmonizing inexpensive border was hung to blend the drop ceiling of blue and the light green walls. My husband became interested and supplied us with light green and blue linoleum rug. I picked up from around the place pieces of 1 by 4 and used them for base-boards. These I stained a light brown also staining around the rug. The two doors and windows were given a coat of blue paint the exact shade of the ceiling.

A new shade of buff and curtains of green sun parlor scrim which made very effective drapes, added to the appearance of the room.

An old smoking stand was converted into a flower stand in which

an air fern and artificial flowers (which were not in use) were placed.

Two pillows which had not been in use for some time were brought out and renovated.

A home made book shelf that had been used in a back room was brought in and its cold color of blue and gold retouched until it looked like new. A picture (which was given with gold bond stamps), a new table, scarf, bowl of artificial sweet peas and an oil cloth door stop and floor pillow of blue finished the room and added color. A few old but good books lended coziness.

The wall paper cost 75c (The calamine was some left over (yellow and blue) from another room and by mixing bluing with the yellow I secured the desired shade of green.)

Paint for ceiling and door 80c  
Stain for floor and base board 45c  
Door 3.00  
Curtain cost 1.50  
Shade cost 2.25  
Floor pillow and door stop 3.00  
Flowers and flower bowl 70c  
Wall paper border 64c  
Table runner 98c  
Rug 10.00

Total \$24.07  
Lights connected to a Delco plant 82c  
Initial cost for this room \$24.89  
We bought a gasoline heater 3.25  
which is moved to any room in the house where needed and yet to count it on my contest would yet leave the total of only \$31.37

Large and small, Texas' manufacturing plants exceed 44,000 in number with an output valued at \$1,200,000,000 a year.

## a revolutionizing Motor Oil, a new principle and a Challenge

### the Challenge

Several years ago, the exclusive North American patent rights on the Germ Process were acquired by this Company. It was evolved and patented by two British scientists after exhaustive chemical and physical laboratory tests.

Germ Process oils were revolutionary in that they met every requirement, through special characteristics, for each type of internal combustion motor. These scientists, by the Germ Process, eradicated the prevalent weaknesses existing in motor oils regardless of their base.

This Company has made innumerable laboratory and road tests, under every conceivable condition, over the past seven years, and we are now prepared to state definitely that your motor oil problem is solved by the Germ-Processed Motor Oils.

By comparison, our tests prove that the "Germ Essence" creates the only safe motor oil under all conditions and at all times operates at the highest obtainable efficiency.

We are now prepared to meet any challenge of competitors. I confidently believe that Conoco Germ-Processed Paraffin Base Motor Oils are superior to any other motor oils made from any crude by any process.

More than twenty thousand outlets are now prepared to offer to the public such a motor oil for the discriminating buyer, and for a technical problem which has always been recognized but not solved until now.

*W. M. Moton* President,  
CONTINENTAL OIL COMPANY

### Here are our Claims for Conoco Germ-Processed Motor Oil— Check against the oil you are now using

**1** Under the Germ patents . . . exclusive to CONOCO for North America . . . there is imparted to CONOCO Germ-Processed Motor Oil an "oiliness" which is responsible for its greater lubricating value, greater film strength, greater penetrativeness, greater adhesiveness, greater tenacity, greater permanence, greater stability, greater stamina and a more nearly perfect compression seal than any other oil on the American market. Because of this affinity for metal—this actually combining with the metal itself, CONOCO Germ-Processed Motor Oil never leaves the bearings. Where other oils drain out and leave the surface dry, Germ-Processed oil penetrates the metal surfaces, forming a film that adheres for months. This "carry-over" film—this always present film gives ample lubrication to all parts needing it when a cold motor is started, until such time as oil from the crank case can reach them.

**2** This remarkable and exclusive feature of CONOCO Germ-Processed Motor Oil is reinforced by the fact that these oils are refined from only carefully selected paraffin base crudes by the most modern and scientific methods known to the petroleum technologist. Patented processes are used to remove all objectionable elements, leaving a perfectly balanced, stable product that is 100% lubricating oil. Thousands of tests demonstrate its remarkable resistance to corrosion. The majority of motor oils never receive this degree of refining. None ever exceed it.

**3** Increased gasoline mileage and improved motor performance are realized through the use of this new oil. The exclusive CONOCO Germ Process so adds to the "oiliness" of this lubricant that metal-against-metal friction is eliminated, even in motor starting after all oil ordinarily would have drained from the motor into the crankcase. The perfect sealing qualities of the CONOCO fracture-proof

film insures a high compression efficiency that results in greatly increased motor performance. Marked improvements in power, speed, acceleration and flexibility are noticeable.

**4** Due to the Germ Process and the select, premium, paraffin base crude stocks used, CONOCO Germ-Processed Motor Oil positively does not break down under the most intense cylinder wall heat. A climb, high speed, heavy load, temperature extremes—none of these strains cause this oil to heat sufficiently to actually burn, break down or evaporate to any appreciable degree. By comparison with many oils on the market, you may confidently expect a saving in oil consumption up to 50%.

**5** Automotive engineers agree that 40% to 60% of all motor wear occurs during the starting period. This destructive wear is definitely reduced by the use of CONOCO Germ-Processed Motor Oil. Ordinary oil, thinned by heat and dilution, drains down past the piston rings when the motor is stopped, leaving little or no protective film. On starting the motor, a considerable time is required for the oil to reach all bearings and working surfaces. Under adverse conditions, such as winter temperatures, this time may be from 15 to 20 minutes or even longer.

Since CONOCO Germ-Processed Motor Oil never leaves the bearings and working surfaces, it is always there under any and all conditions to provide needed lubrication until the normal supply of oil arrives.

**6** Unlike other oils, dilution does not impair the "oiliness" value of CONOCO Germ-Processed Motor Oil.

**7** CONOCO Germ-Processed Motor Oil retains its fluidity at sub-zero temperatures. No practical operating conditions in winter will affect its immediate lubricating value at the first touch of the electric starter.

We invite you to enjoy the many additional miles of pleasure your motor car owes you by using this amazing new motor oil regularly. You will find it today at all stations displaying the CONOCO Red Triangle.

## FOR RENT

FOR RENT—A stucco house, with all conveniences; also two furnished rooms, and still two other unfurnished rooms. Miss Lola Lewis. 11-tfc

## METHODIST CONFERENCE

(Continued from first page)

ity of the preachers of the conference will move this year as a result of the general conditions prevailing in the country this year. A great many of the 33 pastors of the Lubbock District were moved almost all of them moving at their own request, however.

Ed A. Tharp, brother of our local Mr. Tharp, replaces T. J. Rhea at Post, who goes to Albany. Dr. B. W. Dodson of Brownfield goes to Baird and is succeeded by Geo. E. Turrentine, who goes from Littlefield, being succeeded there by R. B. Freeman of Munday. C. A. Duncan goes back to O'Donnell and H. W. Whatley returns to Lamesa Circuit. W. P. Garvin of Lamesa first church goes to San Jacinto Heights, Amarillo. L. S. Webb goes from Slaton to Lamesa first church, and is followed at Slaton by I. A. Smith of Wellington. G. P. McCollum returns to Asbury Church, Lubbock, and H. L. Munger returns to First Church. J. W. Shepherd, brother of B. N. Shepherd of the local Baptist Church returns to Levelland. F. L. Naugle replaces J. B. Thompson at Wilson, while Thompson goes to Lorenzo. A. O. Graden was appointed to Draw instead of Zora B. Pirtle who goes to Bovina-Oklahoma. Hamilton Wright returns to Ackerley-Sparenburg.

## ARE BULL CIRCLES WORTH THEIR COST

(Continued from first page)

Thirty-two pounds of butterfat at 40 cents amounts to 12.80 which is the gain per daughter per year. Ten daughters per year makes the bulls increased production amount to ten times 12.80 which is \$128.00 increase per year. The bull being good for eight years of service would cause us to multiply \$128.00 by eight and we would have \$1,024.00. Granting that each of the daughters were milked for five years we would have an increase production equal to five times \$1,024.00 which would be \$5,120.00.

The above is not guess work, as the figures were taken from tested herds where accurate records were kept. Neither is it a select group of high grade bull's records as the bulletin states that the figures were the average of all those tested. Some made a much greater gain while others made a smaller gain but the above is what one could expect, as it is an average.

Would it be a good investment to buy a \$200 bull when records show that that bull has in other cases returned an average increase of \$5,120.00?

## WANTED

WANTED—To rent place on shares by man with 4 hands. Reference J. S. Gilbert, O'Donnell, care of Mrs. Ethel Duckett. 12-2tp

WANTED—to rent farm 160 to 240 acres with good improvements. Would buy teams, tools, and feed. Write Tahoka, P. O. Box 801, 12-2tp

## CHAMBER OF COMMERCE MET MONDAY NIGHT

(Continued from first page)

Shaver before buying cows for he is an expert in this line of work.

A report was made for the clean-up committee that the city council had agreed to set aside a sum of money to get the rubbish that may be gathered up hauled out of town. The Chamber of Commerce will therefore co-operate with the City in

## Was Discouraged—Almost Gave Up

"I Wasn't Able To Walk Up Stairs Without Falling, but Orgatone Has Restored Me To Health When All Else Failed," Says Amarillo Woman

"I actually believe Orgatone saved my life, for it pulled me up when I was nearly past going and I feel better than I have in several years," said Mrs. Vina Neel, residing at the King Hotel, Amarillo, Texas, while talking to the Orgatone representative at the City Drug Store.

"My stomach got into such an awful condition," she continued, "that everything I would eat caused gas to rise and press against my heart and I felt as if I would smother to death. After eating I would turn sick at my stomach and get so dizzy I would nearly fall and everything I had eaten would come up sour and undigested. My sleep was very restless and broken and I hardly ever got more than three hours any night. I was constipated, took laxatives all the time. My limbs would get numb and again I would feel like needles sticking in my flesh. My fingers would get numb and I thought it was poor circulation. I was extremely nervous and had such sick headaches, and felt miserable all the time. I wasn't able to walk up the stairs without falling. I became so discouraged, over my failure to get relief, that I grew despondent, and almost gave up hope.

"I saw Orgatone had helped so many people and saw it advertised in a drug store in Missouri, and decided to try it. I am completely relieved and feel like a well woman, in every way. My indigestion has improved and I eat anything I want, without suffering afterward. I'm not nervous and sleep fine every night, and the gas, dizzy and bloating spells no longer bother me, and I want you to know that I have tried all kinds of medicines and treatments. I have even gone through Clinical Examination and to no avail and I want you to know that only Orgatone has brought me out of it. All my old troubles are over and I am thankful and grateful to Orgatone, and I know it will help anyone suffering as I was."

Genuine Orgatone may be bought in Tahoka, at Thomas Bros. Drug Store.

every way possible in cleaning the town up. Monday and Tuesday of next week have been designated as clean-up days.

The secretary reported that all debts of the organization had been paid, including the cost of all office furniture purchased.

After discussion, the sum of at least \$100.00 was authorized to be used to pay the expenses of the Inter-Scholastic meet to be held here in March.

Steps were also taken to procure a short course for Tahoka again next spring, if possible, similar to the one which was given in the high school auditorium here last spring.

Other matters were also given attention, which it is hoped will develop later.

Ottis Davis accompanied Mr. and Mrs. Lee Wood back to their home at Lynnwood, California, leaving Wednesday morning. He expects to spend some time out there.
