### Mighty Mules. Beautiful Band

While the Mighty Mules are winning friends and ball games as they go merrily along, leave us not forget about the band. It was worth the trip to Sudan to watch our nattyly clad youngsters perform at half time. They can march and they can play.

And, under the direction of Paul Summersgill, they gave with the Banana Song just as I wanted it done. It thrilled me through and through to watch and hear this group perform.

And so, what with the Mules putting on a top show, and the band going to town as it is, there may not even be standing room in our stadium this fall. Better see about a seat, right this minute.

### Kiplinger Says:

#### NEW BOOM COMING!

If you have been basing your planning for the coming years upon the fear of a general depression, forget about that and make plans for perhaps a few "slow" years, then a bigger boom than ever. That's what our financial advisers say, don't take my word for it.

Kiplinger, the Washington business reporting firm, says normal progress for the next five or six years, a new boom in the early 60s that will set off "the greatest era of economic growth this country has ever seen."

By 1970, say the forecasters, Texas, for an instance 3 million more people, or a population of 12 or more million. California's population has been predicted to be 18 million in a few years.

All these people have to be fed, clothed, housed, provided with furniture, appliances, air conditioning, so factories and farms will have to be busy. Service lines will grow fast; retailing, repair, maintenance, banking, real estate, insurance, recreation, travel, and vacation connected businesses.

There will be however, some bad news: No tax relief, although incomes will rise; and inflation will continue to plague us. But they predict no world wide conflict will eventuate.

Here on the Plains, our population will continue to increase. Firms which have their roots in this community's economic soil will have to be sure these roots are deep and that they stay in healthy condition.

Farmers who continue to study their operation and the world supply situation will prosper and will become more liquid as time goes by.

Let us fear of what may develop from the moves we ought to make, we will have no one to blame except ourselves.

## Funeral Services For B. H. Porter Are Held Saturday

Bulah Hunter Porter, 68, of Rt. 1, Muleshoe, passed away in West Plains Hospital September 12. Funeral services were held at 10 a.m. on September 14 from First Baptist Church of Muleshoe, Rev. E. K. Shepherd officiating. Interment, under direction of Singleton Funeral Home was in Bailey County Memorial Park.

Mr. Porter was a native of Lewisburg, Ky., and had resided in this area for 10 years. He was a farmer and rancher, and a member of the American Legion. Mr. Porter served in the Army in 1918.

He is survived by his wife; two sons, Travis and Bennie, both of Muleshoe; one sister, Mrs. Jessie Jamerson of Bovina; and two brothers, W. D. Porter of Roswell, N. M., and Cecil of Chicago, Ill., and seven grandchildren.

Nephews of Mr. Porter served as pallbearers.

## Engineers Club Plans Exhibits

The Junior Engineers Clubs of America, Muleshoe high school chapter met Friday night, with Harold Cooper presiding.

Mr. Kerr, who teaches science and physics, gave a talk on mechanical drawing and engineering.

The boys discussed plans for their projects and plan to exhibit projects in the spring during Education Week.

## Nurses Entering Second Half Of Vocational Class

The West Plains School of Vocational Nursing has entered the second half of their year's work with increased interest and almost perfect attendance since vacation season is almost past.

Outside interest is high also. There have already been enough showing interest in taking the course to assure a good enrollment for a second class to follow this one.

## City To Widen Avenue B and C To Speed Traffic

The Muleshoe City Council announced plans this week to widen Avenue B and C between Main street and the Morton highway to accommodate a more even flow of traffic and reduce congestion in the two blocks.

The plan calls for the two blocks to be widened 12 feet each. Angle parking will continue in the two blocks, and the additional width is expected to make traffic move more smoothly in the area.

Officials said the project would begin as soon as the paving crews move in to begin work on the west end paving.

Southwestern Public Service has already set back its light poles to allow for the wider streets.

## Young To Head Boosters Club

Muleshoe Athletic Boosters Club will meet each Tuesday evening during the football season at Ligon's Cafe, 730, and Coach Wayne Mantooth will show motion pictures of the preceding Mules game. The pictures are being made by L. S. Barron.

At their first meeting, held Tuesday evening, the Boosters saw pictures of the Sudan game last Friday night. Twenty-three Mules backers were present.

They elected Jack Young as president; Don Moore, vice-president; and Lloyd Alsop, secretary and treasurer. Martin Oliver was appointed publicity chairman. Memberships are being sold by various individuals and clubs.

## Enrollment Hits 1777 Pupils In Muleshoe Schools

Enrollment in Muleshoe schools was totaled at 1777 pupils this week by Superintendent Jerry Kirk, making an increase of 264 students over September enrollment of 1955.

By schools, enrollment is: Richard Hills, 553; Mary DeShazo Elementary, 540; junior high, 260; high school, 390; and colored school, 34.

## EDDIE WILT ENROLLED AT JOHN TARLETON

Eddie Wilt enrolled in John Tarleton College at Stephenville Monday. He was accompanied there by his mother, Mrs. Edith Wilt, and brother, Todd, who spent the weekend in Ballinger with her sister, Mrs. Robert Prather and family.

## ROYCE HANNA MANAGER COBB'S STORE, MUNDAY

Royce Hanna, who has been employed at Cobb's for the past several months has been transferred to the Cobb's store at Munday where he has been promoted to manager.

## New Elevator Near Completion For Texas Sesame Co.

Work is nearing completion on Texas Sesame Growers new grain and sesame elevator in the west part of Muleshoe.

The 170,000 bushel capacity steel tanks and grain storage building will be ready next week to receive some of this year's bumper milled crop, according to Robert L. Parker, executive vice-president of Texas Sesame Growers.

Although sesame is our principal business, explained Parker, the Muleshoe elevator is designed for regular grain handling, and for bonded warehouse storage of farmers grain for Commodity Credit Corporation.

Most of the county's fine sesame crop this year will be received and cleaned by Glibreath and Seed and Grain Co., who has been the local sesame seed dealer for the past three years.

Clyde Black, manager and field man for Texas Sesame Growers, has moved to Muleshoe and will be in overall charge of the operation. An elevator manager will be announced in the near future. Work is being completed this week on the buildings, electrical connections, and the railroad sidetrack for car loading of grain.

Grading and graveling of the roadway and driveways is also to be completed this week, according to general contractor, H. E. Wright of Texarkana.

We are proud to be in Muleshoe and Bailey county, Parker said. We hope to be good, progressive citizens, and we invite you to come to see us at our new plant.

## Student Council Plans Pep Rally

The Muleshoe high school Student Council met Thursday at 12:15 and voted to send congratulatory cards to members of the Muleshoe football team; to Donnie Shafer, Derrell Oliver, Dick Johnson, and to the high school band.

Plans were made for a combination bonfire and pep rally, with a parade. The group voted to try to interest adults in town to receive some of this year's bumper milled crop, according to Robert L. Parker, executive vice-president of Texas Sesame Growers.

## Packers Keep Busy But Market Prices Low On Tomatoes

Although the market price was down to 4 cents for tomatoes, both the E. M. Young Co. and Bolter Fruit and Vegetable Co., were shipping white wrap tomatoes Thursday morning from Muleshoe packing sheds.

Officials of E. M. Young Co., said California prices dropped to 4 cents, but if a forecast cold front moves through the midwest on schedule, the market is expected to climb back to 5 cents or better.

Quality of the tomatoes being picked for shipment by truck and rail was said to be good, and the only complaint Thursday was the low market.

Meanwhile, ripe tomatoes are being canned on a nearly full time schedule at the Muleshoe Canning Co., operator Carl Case said.

The E. M. Young Co. is packing for the newly organized Muleshoe Vegetable Growers Association.

## Child Molester In Jail Awaiting Next Grand Jury Session

A Muleshoe man is in county jail here, charged with molesting two nine year old girls Monday afternoon.

City and county officers said the two children identified the man as one who attempted to get them into his car as they were going home from school.

The suspect subsequently confessed, and is lodged in jail, awaiting the next session of the Grand Jury, which is slated to convene September 23.

## Probable Loss Of Wright May Mar Starting Lineup

Coach Mantooth's Mules suffered the probable loss of one starter when Jack Wright suffered a severe case of asthma, and probably won't be able to start Friday night against Morton.

If this happens, Oakie Alexander will shift to left tackle with junior squadman Ross Langham going to left end.

The starting lineup will probably be:  
LE — Ross Langham.  
LT — Oakie Alexander.  
LG — Doyce Turner.  
C — James Williams.  
RG — Royce Turner.  
RT — Bob Sanders.  
RE — Leon Actkinson.  
QB — Dickie Johnson.  
LH — Derrell Oliver.  
RH — Lee Roy Corralce.  
FB — Bill Black.

## Grand Jury Set For September Term On Monday

Felony charges, including theft, rape, forgery, and child molesting, will be investigated by the Bailey County Grand Jury and petit jury, convening Monday for the September term of the 154th District Court, Judge E. A. Bills, presiding.

Newly appointed District Attorney William H. Sheehan will be making his first appearance in Bailey County in his new position when court convenes at 10 a.m.

Several DWI cases are also docketed for early trial, probably in County Court, before Judge Glen Williams. County Court is slated to convene September 30. Jurors chosen for the last County Court session are expected to be called back.

With the creation of the new 154th District comprised of Lamb, Bailey, and Parmer counties, officers are expected to be held offener, and the loaded docket decreased sooner.

## LOSS SET AT \$1.5 MILLION . . .

# Hail Storm Damages 50,000 Acres Of Crops In County Friday Night

One of the most devastating late season hail storms in recent years struck in a path across the northern end of Bailey county Friday night, causing damage to an estimated 50,000 acres of cropland, cutting approximately 6,000 bales of cotton off the stalks and shattering an unknown quantity of grain sorghum. The storm, accompanied by up to 1 1/2 inches of driving rain, began damaging crops near West Camp and moved in a path three miles wide and an estimated 25 miles long across the county eastward.

Damage to cotton, grain and vegetable crops ranged from 10 to 75 per cent, insurance adjusters reported Saturday, with the heaviest damage from Progress eastward along the Parmer county line.

All the cropland was hit by heavy rains which in many instances washed shattered grain and broken bolls out of the fields in piles of debris.

Hail also struck in the Baileyboro area, but damage was not considered as heavy as in the area north and east of there.

Observers said the hail damage began on the Myers place near West Camp and became increasingly more severe as it moved eastward. The heaviest concentration of damage appeared in the area north of Progress and eastward.

Insurance adjusters working in the area early this week said they estimated that 15,000 acres of cotton received damage ranging from 10 to 75 percent losses.

Most of the cotton, being on irrigation stage, and loaded with unopened bolls.

Grain sorghum heads, many ready for combining in a few days, were shattered and beaten to the ground.

Several fields of tomatoes, destined for packing and canning, were ruined by hailstones which shredded vines and tore fruit to the ground.

Early estimates of damage to all crops from the hail and high winds which accompanied it ranged to as high as \$1.5 million.

Many cotton bolls bear the imprint of hail stones, which cracked the bolls open, allowing moisture to enter. Agricultural observers report that much of the loss from the storm will be due to lowered grade from damaged bolls.

## First Bale of Season Ginned Last Friday

Virgil Wood, who farms 1 1/2 miles west of Circleback, ginned the first bale of cotton of the 1957 season Friday afternoon at the Gage Gin at Circleback.

Wood brought the 525 pound bale into Muleshoe where it was put on display on main street.

The first bale was ginned from 2360 pounds of seed cotton, and was Macha storm-proof, grown on dryland.

Ginning was completed between 3 and 3:30 p.m. Friday and Wood immediately brought the bale to Muleshoe where a group of merchants made up a premium award.

Wood also received a premium from Gage Gin for the first bale.

## County Booth At Tri State Fair Wins Nine Blues

The Bailey county agricultural booth at the Tri-State fair was judged Sunday and products displayed won nine first place blue ribbons, county agent J. K. Adams reported Monday.

Produce in the booth also won five second place ribbons, three thirds, and five fourth place awards.

The major portion of the cotton, grain and vegetables displayed in the booth were grown on the following farms: Lewis Scoggin, Cecil Mardis, Jack Little, State Line Farms and Alex Daricek of Maple.

Mr. Harris will come back next semester to take orders from the seniors.

### B Team Beaten By Clovis B Thursday

The Muleshoe B-team were beaten Thursday, 26-7 by a revised edition of the Clovis B-team.

J. R. Houston led the Clovis team as he scored most of the points and was the leading ground gainer for the team.

The B-team squad also scored their TD in the third quarter when their halfback sped nine yards for the tally.

### Littlefield Frosh Beat Locals 34-7

The Muleshoe freshman team traveled to Littlefield Thursday, where they encountered the Littlefield freshmen at 8:00 p.m. This was their first game as a team, since their only other game was played with the B-team at Lazbuddie last week.

The Littlefield team triumphed with a solid 34-7 win over the little Mules. The Mules scored their only touchdown when in the third quarter, Jackie Sanders romped 35-yards for the score. Neal Pierce added the extra point, which was all the frosh could do, not even threatening another time.

### Highway Patrol Has Vacancies

### Mrs. Ruth Dunn Reports After Swing Accident

(On September 9 at afternoon recess, Mrs. Ruth Dunn was struck by a swing which broke her right cheek bone. She has been confined to West Plains Hospital since the accident.)

By Mrs. Ruth Dunn

"Oh, my, how did it happen?" Many people have asked this as they gazed at my poor swollen, black and blue face, which at this writing is a vivid yellow and green.

Well, I'll tell you how it happened. It was like this, "It just did", from pure carelessness.

My head was in the clouds; my children needed me; I was making them happy, all was well with my world and then WHAM! A topsy-turvy feeling and then nothing until Mrs. Gorrell shook me back into reality and I slowly upped myself off the ground with a baseball under one eye.

Now I'm wondering if you parents won't help us as teachers in trying, and I mean trying because it will take all of us to make our children a little more conscious of the danger.

Of course even I like to get in the swings which always causes excitement, and sail out into the blue, but there is a constant danger. I don't think a child could have had a chance had she or he been hit as hard as I was. Still, it was my carelessness.

But I can assure you that in this wonderful place of Muleshoe, there is no Care-LESS-ness as far as I am concerned.

Everyone has been so good to me and rather than care less, it has been a matter of care more. I thank God for all of you.

I shall always count my blessings from this, for I feel that a matter of a few inches kept me from waking up in eternity. So I know there are more lessons for me to teach boys and girls, more witnessing for my Lord and more songs to be sung.

Maybe my accident will be the means of saving one of your boys or girls and one thing I am sure we must always be watchful at school and at home for old man "carelessness" is always around.

### Y. L. NEWS

by Roscoe Trostle

Mr. and Mrs. D. B. Head made a trip to Lubbock Tuesday evening, where he attended to business and she visited with their daughter, Irene.

The Y. L. ladies of the WSCS met Monday afternoon to work on their yearbook. There were seven present.

Plans are being made to paint the outside of the Y. L. church. This will be an interesting job, especially the high steeple.

Mrs. B. W. Johnson and son from Ft. Huachuca visited in the home of her parents, Mr. and Mrs. L. O. Norwood last week.

Rev. Lavender, brother to our former pastor, Rev. Darvey Lavender, filled the pulpit at the Y. L. church last Sunday.

The Rev. Darvey Lavender and family made a safe journey to Ft. Worth and are now located, and he is enrolled in the Baptist seminary.

Little Gary Knowlton has been quite ill in the hospital, but is doing much better.

### RETURN FROM VISIT

Mrs. Maude Jones returned home Monday night, after an extended visit in the homes of two brothers, Clive and Arlie Ellis of Oklahoma City, a sister-in-law, and family, Mrs. Archie McImers also of Oklahoma City.

### Rev. Moore Tells Interesting Story Of Trip To Arizona And Revival

PREACHES IN MINING COUNTRY . . . .

Rev. J. E. Moore, pastor of Trinity Baptist church here, recently conducted a revival meeting at Central Heights Baptist church, Miami, Ariz. He was accompanied by Mrs. Moore. His account of the trip, condensed here and there, follows:

Up betime and leaving Muleshoe early, we were on our way to Miami, choosing highway 60 for our route. Vaughn, N. M., was our first stop for coffee and lunch. There the morning air was almost too cool to be comfortable.

That section of the country seemed to have had plenty of recent rain. Leaving Vaughn, for some distance we were slowed down because of the mist and fog. Most of the way the mountains and valleys were covered with a beautiful carpet of green grass, which was evidence of plenty of moisture.

I think the most beautiful of all was some miles this side of Show Low, Ariz. As one looked out upon the mountains and valleys, he enjoyed the beautiful scenery, and he was reminded as the Psalmist of the "handiwork of God", and felt as he, when he said, "I will lift up mine eyes unto the hills, from whence cometh my help."

Driving through the Salt River Canyon was very tiresome to us after already having driven the distance we had. To one who is accustomed to driving on the Plains, those curves were very tiresome. However, we reached our destination in plenty of time for a rest before the evening service.

We had two services daily, at 9 in the morning and 7:30 in the evening. This is a mining district and the men who worked in the mine were hindered from attending the evening services, at least a part of the time.

We were there through two Sundays and the interest grew as the meeting continued. One of the things that we appreciated was the faithfulness of an 86 year old lady, who didn't miss a service during the two weeks of the meeting. How that should shame us who find it so easy to offer excuses for absenting ourselves from the services of the Lord!

The meeting came to a close with a goodly number having come into the church. The pastor, Rev. T. L. Pierce, and the church seemed to feel the Lord had richly blessed our labors together in the Lord.

We were told the mining industry felt they had minerals enough to keep them operating at least 90 years. Space will not permit me to tell of our visiting

### Calvary Baptist Holds Anniversary Services

The Calvary Baptist Church celebrates its eleventh anniversary next Sunday, September 22, with an all day service.

The Calvary Baptist Church was organized as the Lazbuddie Independent Baptist Church, September 22, 1946, with fifteen charter members. On the day of its organization, Rev. E. L. Merriott was called as the first pastor. The church built their first building west of Lazbuddie on the Merriott farm and held the first service in the new building January 26, 1947. After seven years at that site the church was moved to its present location at Avenue G and Main street in Muleshoe. It was at that time the church was renamed the Calvary Baptist Church.

Other pastors who have served the church have been Rev. J. M. Moore of Ft. Worth, Rev. A. C. Graham of Corpus Christi, Rev. Wilburn Coffman of Hurlwood, and Rev. Jack H. Darrow who is serving the church at the present.

This Sunday has been doubly designated as Anniversary Sunday and also as Homecoming Day. Plans for the day include all-day services with meals served at the church. Guest speakers are expected from a wide spread area of West Texas, New Mexico and Oklahoma. Rev. E. L. Merriott will be speaker at the eleven o'clock hour and Rev. Damon Woods, Missionary to the Philippines will bring the closing message of the day.

Dedication services will be broadcast from the church auditorium from 2:30 to 3 o'clock in the afternoon over station KMUL. Judge Glen Williams of Muleshoe, and Rev. Bert Homer of the

### Variety Program On Sesame Being Run At Halfway

Plant scientists of the High Plains Station at Halfway, in Hale county are investigating man's oldest food crop, sesame, as a potential source of cash income for regional farmers.

"The station's sesame program is designed to find those varieties and strains that are adaptable to High Plains soils and climate, that are profitable yielders and that may be easily and cleanly harvested with modern combining machinery", Dr. Johnny H. Davis, associate head of the station, said.

"Such varieties and strains already have been produced for other parts of the state. Sesame now is a profitable cash crop grown on a large scale in north, central and south Texas."

The station's sesame investigation program consists of three parts. One is a study of 50 varieties in 22-foot rows, with four replications, on irrigated land.

In another phase of the program, four varieties in 2-row plots, 100-feet long, with four replications, are being studied for dryland culture.

"The sesame program also includes a 10-acre seed production field of Renner 15 for release to regional farmers next year." He explained that Renner 15 was a newly developed combine type that offered promise as a high-yielding cash crop for the High Plains.

He said that all the station's sesame had received 40 pounds of phosphate an acre at planting time — during the last half of May—and 50 pounds of nitrogen an acre as a side-dressing.

"It is only a matter of time and methodical research before sesame varieties and strains are developed that will prove as profitable in this region as other varieties and strains are proving in other parts of the state", Dr. Davis said.

"Sesame was introduced to this region in 1953, and several farmers already have grossed more than \$100 an acre on it." He estimated that High Plains farmers this year planted 10,000 acres of the crop.

"The sesame program also includes a 10-acre seed production field of Renner 15 for release to regional farmers next year." He explained that Renner 15 was a newly developed combine type that offered promise as a high-yielding cash crop for the High Plains.

He said that all the station's sesame had received 40 pounds of phosphate an acre at planting time — during the last half of May—and 50 pounds of nitrogen an acre as a side-dressing.

"It is only a matter of time and methodical research before sesame varieties and strains are developed that will prove as profitable in this region as other varieties and strains are proving in other parts of the state", Dr. Davis said.

"Sesame was introduced to this region in 1953, and several farmers already have grossed more than \$100 an acre on it." He estimated that High Plains farmers this year planted 10,000 acres of the crop.

### CARD OF THANKS

I want to express my sincere appreciation for the nice gifts of merchandise and cash which I received as premium for the first bale of cotton this fall. I especially want to thank the merchants in Muleshoe and Needmore for their contributions, and to Mr. Raymond Gage, the winner for his contribution. Thanks to all of you.

# FFA Chapter Elects Officers For Year

The Three Way FFA chapter met September 9 to elect officers for the 1957-58 school term. Leon Jones, sponsor of the chapter, met with the boys. Officers elected were: president, Bailey Griffith; first vice-president, Mike Pollard; second vice-president, Butch Tucker; secretary, Pete Tarlton; treasurer, Jessie Hodges; reporter, Robert Sandlin; sentinel, Tom Byers; historian, Wesley Warren; and parliamentarian, Carter Williams.

The chapter voted to attend the Texas State Fair. They will leave October 4 and return October 6.

**Elected Class President**  
The sophomore class elected Patsy Sowder as president for this year. Other class officers will be elected at a later meeting. Leon Jones is the sophomore class sponsor.

Mr. and Mrs. W. C. McCalvy visited relatives at Bula Wednesday.

Mrs. Gaylon Weaver of Slaton, is visiting this week with her parents, Mr. and Mrs. Louis Jordan.

Mr. and Mrs. Frank Griffith visited in Roswell, N. M. Saturday.

Gail Arnn spent last weekend at Olton with a former room mate at Tech, Miss Gwen Phillips.

## SOIL CONSERVATION DISTRICT NEWS

**ANNUAL FALL TOUR** — Last Tuesday, September 10, about one hundred-fifty people consisting of farmers, agricultural workers, business men and FFA boys went on the 5th Annual Blackwater Valley Soil Conservation District Tour. The weather was cloudy and rainy so attendance was not as good as expected. Stops were made on the farms of Dan Darsey, H. E. Schuster, Jack Obenhaus, J. B. McPherson, and Carl Bamert. Conservation practices observed were terracing, stubble mulching, cover cropping, close-spaced sorghums, cotton on clover and vetch land, and grass seed production. These stops were all very worthwhile, reflecting sound conservation farming. Conservation farming as practiced by these farmers shows great promise for above-average yields and farm income.

An excellent barbecue lunch was served at noon on Carl Bamert farm, after which an interesting and timely talk on water conservation was given by the principal speaker, Marvin E. Jensen, Agricultural Engineer, Southwestern Great Plains Experiment Station, Bushland, Texas.

He said that we are, in a sense, mining our water and that this life-giving resource is like all mining — exhaustible. Our job is to get the most efficient use of our limited irrigation water. Our present pumping rate far exceeds the recharge rate. He also stated that in our generation we will not be greatly affected with a shortage of irrigation water but the next generation is in danger of being seriously affected by a limited water supply. Now is the time to start conserving water for our children and their children. We can irrigate to meet the needs of the soil and crops without allowing the water to get into the barrow ditches.

This means using a conservation irrigation system, applying controlled amounts of water according to the needs of the crop being grown and the water-holding capacity of the soil. This more labor and less pumping, irrigation land preparation, conservation cropping systems, elimination of ditches and long runs, and reduction of total watering time. These can be done and should be done. They are some of the objectives of your Blackwater Valley Soil Conservation District.

It was a good tour and the Board of Supervisors again want to thank all who helped and went on the tour. Even though our progress appears slow, we must continue to strive toward sound conservation farming.

## ELECTION

Election of Supervisor for Sub-district No. 4 of the Blackwater Valley Soil Conservation District is to be held Tuesday, October 1, at Gage's Gin office at 8:00 p.m. This Subdistrict includes all the land south of the sandhills and east of Muleshoe-Morton highway. Any person residing in and holding title to land in this sub-district is eligible to vote in this election.

E. N. "Shorty" McCall has served this subdistrict for five years, and has made an outstanding record as a supervisor.

All eligible land owners are urged to attend this election. Community service is rewarding in many ways.

THE MULESHOE JOURNAL, Thursday, Sept. 19, 1957, Page 7

## Study Club Begins Fall Activity With Outdoor Social On September 12

Fall activity of the Muleshoe Study Club began September 12 with an outdoor social and steak supper for members and their husbands at the A. S. Stovall home.

Mrs. Lee Pool, club president, held a short business session during which the club voted to accept the newly revised constitution and by-laws.

## Los Planos Club Met September 10 In McVicker Home

Los Planos Study Club met Tuesday night in the home of Mrs. J. E. McVicker. Mrs. Betty Hopper was co-hostess for the meeting.

The new year books for the year were given to the members, and the subject of study for the year will be "The Art of Being a Woman."

Mrs. Dean Lindley presided during the business session. The Los Planos Study Club and the Muleshoe Study Club will be hostesses at Leigon's Cafe, September 28 for a luncheon, and Mrs. A. J. House, state president of the Texas Federation of Women's Clubs, will be the guest speaker.

Mrs. McVicker introduced the speaker for the evening, Dr. George Chambers, who gave an interesting talk on "How To Help Your Husband Stay Alive."

Refreshments were served to the following: Elaine Darnon, Dean Lindley, Scotty Morris, Jane White, Ruth Roberts, Betty Murray, Frances Griffin, Ruby Lee Kerr, Earlene Kent, Theresa Edwards, guests, Dr. and Mrs. George Chambers, Vera Haire, and the hostesses, Mrs. McVicker and Betty Hopper.

The next regular meeting of the club will be in the home of Ruby Lee Kerr, on October 8.

Mrs. Horace Blackburn told the group about the course of study for the year entitled "Wide, Wide World", which will be brought by local people who have had interesting travels.

The Muleshoe Study Club will sponsor a joint meeting and luncheon September 28 at Leigon's for state president Mrs. A. J. House, The Sudan, Bovina, Friona, Farwell and Earth study clubs are invited.

A planning meeting will be held September 26 at 8 p.m. at Leigon's for the luncheon.

Mrs. Jerry Kirk will be hostess for the October 10 club meeting at which time Mrs. T. M. Slemmons will talk on her visit to Guatemala and Panama.

Attending the steak supper were Messrs and Mmes. W. T. Andrews, Horace Blackburn, Glen Dunn, Jerry Kirk, Gilbert Lamb, John Miller, A. R. McGuire, Lee Pool, Senn Slemmons, R. T. Stack, A. S. Stovall, Sherman Sweatman, Verney Towns and Alex Williams.

## BWC of Trinity Church Meets

The BWC of the Trinity Baptist Church met Monday at the church for their monthly Bible study. Mrs. Winnie Dunn brought the lesson from the 15th chapter of St. John.

Those attending were Mrs. Claudia Hinkle, Mrs. Doris Grimley, Mrs. Gladys Everett, and Jan, Mrs. Winnie Dunn, Mrs. Lorene Quisenberry, Mrs. Ruth Roberts, Mrs. J. E. Moore, and Mrs. Polly Ottwell.

## Friendship Class Party Held At The W. T. Andrews Home

The Friendship class of First Baptist Church entertained their husbands Thursday night with a covered dish supper in the home of Mr. and Mrs. W. T. Andrews.

Tables were set up in the double garage in case of rain. Games were played and lots of visiting done.

Present were Messrs. and Mesdames: Ray Griffiths, Pat Bulloch, Raymond Precure, Henry Schuster, W. B. McAdams, Mrs. R. L. Jones, Mrs. E. H. Kennedy, Mrs. Louise Martin, Mrs. Edna Daniels, and the host and hostess.

## Hi-Lo Piano Club Elects Officers

The Hi-Lo Piano Club met for a called meeting in the home of Mrs. Bob King with Mrs. J. K. Adams as co-hostess.

New officers were elected with Mrs. C. E. Moore as president; Mrs. Clyde Monk, vice-president; Mrs. Mack Ragsdale, secretary-treasurer; Mrs. Don Bryant and Mrs. J. B. Glaze, corresponding secretaries; Mrs. Al Griffin, reporter; and Mrs. Sam McKinstry as club counselor.

The regular meeting date will be the fourth Monday of each month.

Ideas were given on how to get children to practice music lessons.

Congratulations to Mrs. J. K. Adams, the past-president, and to Mrs. George Bragg, the past secretary-treasurer. Mrs. Adams holds a record of three years as president with perfect attendance and Mrs. Bragg with two years perfect attendance.

## Varied Blouses Make Fall Fashion Market Bid

BY EDNA MILES

THE blouse has come into its own this fall. In terms of the overblouse and the blouseon, the two-piece costume look and the return of the beautiful dinner blouse, it's important fashion.

The Chanel influence has brought the overblouse back into fashion. Worn with a slim or pleated skirt, it's both chic and pretty. It comes in both waist and hip lengths and invariably is cut from soft and supple fabrics.

The sailor middy, an offshoot of the overblouse, is shown in many versions. It does not always appear with squared collar and tie.

Fluent fabrics for fall and winter include wool jersey, chiffon, georgette, satin, lace, tissue faille, and crepe.

The dinner blouse is a fashion that has been extinct since the 30's. It's back this year in all its elegance, minutely hand-detailed and glorified with pleats, self-covered miniature buttons or ruffles, tucks, beading or embroidery.

Worn with a simple, slim crepe skirt, it creates the costume look.

Sailor collars are used on these blouses. Middy overblouse, left, is all-wool jersey. Regimental stripes are used with brass buttons on the right.

MRS. BILLY WATTS

## Jennings-Watts Nuptial Vows Said In Evening Ceremonies At Lazbuddie

In an evening ceremony at the Methodist Church in Lazbuddie on Tuesday, September 10, Miss Margaret Jennings, daughter of Mr. and Mrs. Finis E. Jennings, Rt. 1, Muleshoe, became the bride of Billy Dwayne Watts, son of Mr. and Mrs. A. T. Watts of Farwell.

Dr. Luther Kirk, Methodist district superintendent of Plainview, read the impressive double-ring service at six o'clock, assisted by Rev. Aaron L. Mitchell, pastor of the Lazbuddie Methodist Church.

Baskets of white gladioli and mums in fan-shape arrangement formed the background, barked with fern trees and palms, and the candelabra background highlighting the altar arrangement was entwined with garlands of plumosa with small pom poms. Accenting the candelabra the six stands were tied with huge white satin bows. The pews on the center aisle were marked with white satin bows.

Mrs. Pat Bobo of Muleshoe sang "Walk Hand in Hand", and during the ceremony, she sang "Wedding Prayer" and "The Lord's Prayer", accompanied at the organ by Miss LaVon Copley of Muleshoe, who also played traditional wedding selections and the wedding marches.

Miss Barbara Ann Lillich of Houston, who was the bride's college roommate, was the bride's maid of honor, and only attendant. She wore an original model in deep turquoise waltz length taffeta with matching satin pumps, white feather head band, and white gloves. She carried a spray of white gardenias attached to a white lace fan.

The bridegroom's sister, Carolyn Watts, a candle lighter, was dressed in a street length frock of deep turquoise crystalline with matching short jacket. She wore white shoes and her corsage was a white feathered carnation wristlet.

Sonny Gentry, friend of the groom, from Belton, N. M., served as best man. Serving as accompanying candle lighter was Derrell Jennings, cousin of the bride, who also served as an usher. The other usher was Al E. Jennings, the bride's brother.

**Bride's Gown**  
Escorted to the altar and given in marriage by her father, the bride was lovely in an original model of imported white Chantilly-type lace and nylon tulle over net and satin. Designed with high neck line and framed with stand-up collar of lace. The fitted bodice had long sleeves ending in points over the hands and terminated with a point at the front waist line. From this stemmed a voluminous waltz length skirt made of tulle, fully skirted and enhanced with appliqued lace. The immense fullness of lace and tulle over ruffled net and satin was emphasized by a thin line worn underneath. Her shoulder length veil of imported silk illusion was attached to a tiara of beads, white sequins and pearls. She carried a lovely bouquet of stephanotis centered with a white orchid, and white ribbon streamers tied the tiny single stephanotis flowers cascading from atop a white satin sible.

For something old she wore pinned to the underside of her dress, a small antique piece of jewelry which had originally belonged to her maternal grandmother. For something new, her wedding dress. Something bor-

rowed, she carried a white linen handkerchief from an aunt, Mrs. John Hughes of Lubbock, also "borrowing" perfume from another aunt, Mrs. Paul Pittman, from El Paso. For something blue she wore a blue garter and the lucky penny encased in a small blue satin fold. These were sent to her from a close friend of the family, Mrs. Miles Warren of Vero Beach, Fla. Her only jewelry was a lovely double strand of cultured pearls, a gift from the groom, and tiny pearl earscrews a gift from her father.

Registering the guests at the church was Miss Barbara Ann Hinkson, friend of and neighbor of the bride. She wore a lovely fall dress and hat accented with white, and a large white mum corsage.

For her daughter's wedding, Mrs. Jennings chose a pearl grey sheer wool sheath dress with iridescent sequin trimmed grey hat complemented with black and white accessories. Mrs. Watts chose a light blue silk shantung two-piece dress with white hat adorned with white sequins, and other accessories were black and white. Both the mothers wore white gardenia corsages.

**Reception**  
At the reception in Fellowship Hall in the church, those assisting with hospitalities were Mrs. J. B. Jennings, Mrs. James H. Jennings, Mrs. Cecil Malone, Miss Agatha Malone, Mrs. J. A. Nickels, all cousins of the bride. Also assisting was Mrs. B. Whitt, a close friend of the family. The bride's table was laid with a pale turquoise cloth topped with lace. The three tiered wedding cake centered the arrangement with crystal punch bowl and an arrangement of white gladioli in a pale turquoise bowl on either side.

For the wedding trip to Colorado Springs and Denver, the bride chose a two piece suit of imported wool jersey in royal blue. Designed on classic lines with three quarter sleeves and short box-type jacket. It had a sheath skirt and was worn with white scarf and gloves. Complementing the costume, she wore a matching blue velvet hat, with black suede shoes and bag. Her corsage was the white orchid from her bouquet.

**Guest List**  
Included in the guest list, those from out of town were Mr. and Mrs. John Hughes and David Hughes from Lubbock; Mrs. Paul Pittman, El Paso; Mrs. Cecil Malone, Ronnie and Agatha Malone, Hereford; Miss Barbara Ann Lillich, Houston; Dr. and Mrs. R. Luther Kirk, Plainview; Rev. and Mrs. Ellis Todd, Sudan; Mrs. Ed Hardage, Mr. and Mrs. Mitz Walling, Edith Ann and Milton Lee, Mr. and Mrs. Alvin Mace and Jimmy, Jim Wallace and Don Gerles all of Farwell; Mrs. H. W. Vining, Plainview; Mrs. J. D. Kirkpatrick and Vicki, Wichita Falls; Donnie and Thelma Findley, Oton; Mr. and Mrs. Buddie Byrnes, Dimmitt; Mr. and Mrs. Glenn Vining, Earh; Mrs. L. E. Burk, Miss Peggy Burk, and Eldon Burk, all of Clovis, N. M.

The bride is a graduate of Lazbuddie high school and attended Southern Methodist University in Dallas. The groom is a graduate of Farwell high school and attended West Texas State College at Canyon. After the wedding trip the couple will be at home in Farwell, where he is associated in business with his father.

# Three Consolidated Schools All That Remain Of Thirteen Of Years Ago

SCHOOLS THAT WERE AND ARE. Upper left is the Watson school building still standing, though abandoned. Upper right is the Baileyboro school building now on the campus of Mary DeShazo school in Muleshoe. Lower right is YL church which was converted from the YL or Liberty, school building. Lower left is the modern building of Muleshoe senior high school.

"Still sits the schoolhouse by the road  
A ragged beggar, sunning . . ."

Thirteen High Schools in Bailey County.

That might have been a headline in an issue of the Muleshoe Journal back in the 1930's, for there were actually that many. And now there are three, two of the original 13, and one an outgrowth of consolidation of four of the original 13.

Let's take a swing around Bailey County on say September 15, 1930 and see which schools were in operation on that date.

There was a high school at Progress, once grandiosely called Alamo; one at West Camp, where the western line camp of the old Muleshoe ranch once was; a school at YL, patriotically named Liberty; one at Fairview, one at Longview, one at Circleback, one at Baileyboro, one at Watson; one at Maple Wilson, named Wilson school, although the town was named Maple; one at Goodland, one at Stegall, one at Bula, and finally one at Muleshoe.

And they were all high schools, although often the teachers outnumbered the pupils, and at least one high school had one

pupil and one teacher. One longtime resident said that even though school districts were small then, they still had the same complaint of districts today, shortage of finances.

Old records in the office of County Judge Glen Williams, who is ex-officio county school superintendent, reveal that teachers would often draw half a month's check one month and the remainder later, especially during the hard times of the 30's.

But in spite of small enrollments and squeaky financial conditions, many of these schools continued until better roads fi-

dent District, is now one of the largest in Texas, with an area of 526 square miles.

The average bus route in the Muleshoe district is 76.06 miles daily, and nearly 1700 children attend classes in the seven buildings located on three campuses in the city.

Almost always, when a writer sets out to tell a story like this bit of history, he finds one point leads to another until soon he is deeply engrossed in not only history but oftimes law and brief glimpses of philosophy.

The records show the dates when many of these smaller schools ceased to exist and became part of larger school districts. And it is easy to write that good roads brought about their consolidation, but that is not the whole story.

The availability of better transportation to larger schools, plus the advantages offered by larger schools were both factors considered in the consolidation. There was also the fact, cold and hard, that the smaller schools like their larger counterparts, were dependent on state aid for survival. As requirements set forth by the state grew more rigid, the small schools found themselves increasingly less able to comply.

And so they consolidated, and their children went to school to the larger schools, and the parents paid taxes for this privilege, and the children were able to be exposed to more of the facts of a well-rounded education.

On May 9, 1945, by election, Goodland School District, Watson School District and Wilson School District were consolidated to form the Three Way Independent School District. Stegall was consolidated with Three Way on May 17, 1947.

Fairview consolidated with Muleshoe on August 11, 1945, and part of this district was annexed to Sudan on November 6, 1945.

Longview transferred all pupils to Muleshoe for the 1946-47 school term, and West Camp transferred to Farwell school the same term.

West Camp school district divided into two districts in 1948 and the North West Camp District pupils consolidated with Farwell on May 10, 1948, and the Oklahoma Lane and Far-

well districts consolidated June 5 that same year.

The Pleasant Valley district in Lamb county consolidated with Muleshoe on May 14, 1949 by election.

On August 6, 1946 eight grades were being taught at Progress, Circleback, Liberty, and Baileyboro. Twelve grades were offered at Three Way, Muleshoe, and Bula.

But on August 6, 1947, eight grades were being taught only at Progress and Circleback, the intervening summer having marked the elimination of Baileyboro and Liberty school districts.

And that briefly is the history of what has passed.

But what of the future . . . The trend toward fewer and larger schools continues . . . state educational requirements continue to become more and more rigid . . . small schools are fighting for their existence and some of them won't make it . . . They call it progress and in order to justify our automation-controlled existence, we must agree.

Ah, but who cannot become nostalgic for the one room school house . . . the common water bucket and wash bowl . . . and the scuffle of muddy feet on the bare wooden floor . . . the lunch in the lard-pail dinner-bucket . . . They are gone.

## Last Call For Submitting Gas Refund Papers

Farmers and ranchmen are reminded by C. H. Bates, extension farm management specialist, that September 30 is the deadline for submitting applications for a refund of the Federal tax on gasoline used for farming purposes since July 1, 1956.

Farm operators who have not filed a claim may obtain Form 2240 — the reporting form—from local county agricultural agents or Internal Revenue Service offices.

Bates points out that claims will be checked for accuracy and claimants, therefore, should be certain that figures are correct. Sufficient records should also be kept to verify the claim, he adds.

Claims should be submitted to the same district Internal Revenue office to which income tax returns are sent.

The legislation which makes possible the refund was passed by Congress in the spring of 1956.

## Dunn Tells Of Trip To Alaska

Glenn Dunn brought the program for the Rotary Club Tuesday, showing slides of pictures he and Mrs. Dunn made on a trip through the northwest and to Alaska. They were accompanied by another couple, the party camped out virtually all the trip and had a great time fishing and sightseeing. Mr. Dunn narrated and the program was extremely interesting.

Earl Harris had charge of the program. Arvel White of St. Clair's and Ed Hicks are new members of the club.

Preparations are being made for the official visit here next Monday night and Tuesday of Morris Higley, Childress, the district governor.

Mr. R. A. Scifers of Littlefield was visiting with old friends in Bula Friday.

### (Omitted Last Week)

by Roscoe Trostle  
Family night was well attended at the Y. L. Church Wednesday evening, September 4. This was the first meeting after our fine revival, and there was a good spirit among everybody. The evening consisted of a delicious covered dish supper, wonderful fellowship, and an unusual musical program, arranged by Jack Julian and the Y. L. young people.

Everyone is invited to attend our Family Night every month. We always have a good time.

Sunday, September 8, was a good day for Y. L. There has been a good spirit since our revival, and in spite of a summer average of about 50, there were 101 for Sunday School and about 110 for church Sunday morning. We had a good service with four additions to the church.

## Babson Discusses

### COMPETITION

Babson Park, Mass., Sept. 19 — Competition will increase constantly and severely during the next few years. This "few years" probably means until a severe business depression comes which will wipe out the weak concerns and leave the field only to the strong.

#### REASONS FOR SEVERE COMPETITION

The basic reason is that manufacturers—in order to counteract increased wage demands—are constantly reducing their other costs of production. Although the retail prices of most goods have gone up, yet except for labor, the cost of actual manufacturing has declined. New machinery, electronics, automation, and other new developments are seeking to overcome the effects of higher wages. As a result, there is a constant struggle between the labor-leader and the inventor. This results in increased production and a surplus of goods. Manufacturers then are forced to create more customers and sell more goods in order to keep their plants running at full volume. Only as a manufacturer is running at full capacity is he able to pay higher wages and produce goods at lower cost.

Certainly if farmers—who are really manufacturers—receive subsidies and other helps from Congress, many manufacturers are entitled to the same help. All of this, however, results in severe competition which is profitable to no one. To keep labor employed and the factory working at full volume, manufacturers have encouraged installment sales and other means of coaxing people to buy more goods than they really need, or to buy them before they need them. This means that when unemployment begins, housewives will be so stocked with new furniture, electric utilities and clothes that they will be able to stop buying almost everything other than food. Furthermore, the food bill can be greatly cut, probably resulting in better health for the family.

The future of employment is therefore in the hands of the consumers. As long as consumers continue to increase their purchases, conservative manufacturers will get on satisfactorily. When,

however, consumers begin to economize, then unemployment will follow and most manufacturers will be headed for trouble. This means that retailers have a great responsibility. Although retailers are dependent on the consumers, who are the source of real power, yet consumer buying is largely influenced by the attitude of retailers.

Most retailers are now not doing their part to prolong prosperity. Golf courses, luncheon dates, bowling alleys, boating and automobilizing are taking the time of retailers who ought to be in their stores. Customers are not being given the individual attention which they like. Merchants are making it harder to buy through self-service, poorly arranged stock, and careless advertising.

#### WHAT RETAILERS SHOULD DO

The next depression will be brought on by automobile congestion or by the fear of Fallout due to the threatened Russian "tests." Parking meters are helpful in preventing all-day parkers from hogging the streets; but parking meters may reduce the amount of merchandise sold. After I drop my coin into a parking meter, I cannot forget the meter. I have it constantly in mind as I am shopping. This worry about the parking meter causes me to buy fewer goods than I would buy if it were not for my parking meter worry. All of this means that downtown retailing is in a chaotic condition. Evening shopping may be an answer to the parking problem.

I once asked John D. Rockefeller, Sr., how a retailer could make more money. He replied, "Live over the store and be available to customers from 6 o'clock in the morning until 9 o'clock at night." This does not necessarily mean that the store will be "open," or that the retailer will spend more money for more employees. (Mr. Rockefeller, of course, was a great believer in better lighting, whether by candles, kerosene, gas, oil, or electricity.) Then he continued:—"Next to well-trained employees and proper lighting and advertising, merchants should keep their stores open longer hours. Evening shopping is coming."

## CHRISTIAN SCIENCE SERVICES

Man's God-given dominion over disease and discord will be emphasized at Christian Science Services Sunday.

Keynoting the Lesson-Sermon entitled "Matter" is the Golden Text from I John 2:15: "Love not the world, neither the things that are in the world. If any man love the world, the love of the Father is not in him."

Selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following (381: 20-21): "Think less of the en-

## TODAY'S MEDITATION

Read II Timothy 2:15-26. The foundation of God standeth sure, having this seal, The Lord knoweth them that are his. (II Timothy 2:19.)

As a surgeon I was called to the Philippines during World War II. At one time our regiment got into a quagmire. The more we struggled, the further in we sank. Many lost their lives. Someone called out, "Don't struggle. Just stand still and wait till help comes." We did so, and soon men came with ropes and pulled us out.

In the Christian life it is very important that one stands on a solid foundation. We need such a foundation of moral mind, and you will sooner grasp man's God-Given dominion.

Scriptural passages will include the following from Romans (8:5): "For they that are after the flesh do mind the things of the flesh; but they that are after the Spirit the things of Spirit."

firm foundation if we are to accomplish things in this life. There are so many experiences of life that tend to throw people off an even keel! It is not our own struggle, but our faith in God and His son Jesus Christ, that enables us to stand on firm ground and not fall into the quagmire of sin and the distractions of this world.

#### PRAYER

Our Father in heaven, we thank Thee for the gift of Thy Son Jesus Christ. He has become the foundation of the Church and our only hope of salvation from the quicksands of sin and despair. Help us to have childlike faith that will be a firm foundation for our daily lives. In Jesus name. Amen.

#### THOUGHT FOR THE DAY

Jesus Christ is my firm foundation.

# AMALIE L. P. G.!

That old common-grade oil I used to use in these irrigation engines sure did let the dirt and dust and rust cake up in those engines! But worse than that, with butane or propane, it thickened up when it looked almost like gear-grease! Man, what a change with this AMALIE L. P. G. Oil!

AMALIE L. P. G. is more than just a good oil, it's a super oil. When you burn butane or propane (Liquid Petroleum Gas), ordinary oil won't do. It must be ENGINEERED for L. P. G. And AMALIE L. P. G. is just that. 100% pure Pennsylvania—no other crude like it on earth. Special additives, to hold that dust, grit, etc. in suspension—so they filter out. And above all, it holds its viscosity—its "flowing" qualities.

Give YOUR engines—and your bank balance—a break!

## Sandhills Philosopher Amazed To Find Out From Town Friend Inflation Is Bothering Him Too

Editor's note: The Sandhills Philosopher on his Johnson grass farm has had a visitor from town, his letter this week indicates.

I've got a situation this week I don't know how to handle, so I'll just report on it and let somebody else decide on it.

A friend of mine from Muleshoe was out here visiting me on my farm yesterday afternoon after he got off from work in town and he said he was getting tired of hearing how inflation has hit the farmers.

"You farmers think inflation is limited to the farm, but I'd like to tell you it's in town, too", he said.

"I sympathize with you country folks, I know what it must be to fight low prices and high costs, but I'd like to point out to us folks in town have got some problems, too.

"One tractor tire blows out I know, and you're on the rim, but did you ever stop to think if one motor burns out on one of my appliances, I'm sunk? Have you ever stopped to think what a strain it is on a man's constitution to hear the washing machine motor stop suddenly when the machine ain't paid for yet? Do you know what it is to have the television set go blank thirty days after the guarantee runs out and a year before the last payment is made? You ever stepped on the starter of your car and found the battery dead on the day you're overdrawn at the bank? You ever stop to think a man in town has problems,

too? You know how hard it is to feed and clothe and educate and doctor and entertain a family in town? It doesn't make any difference how much a man makes, it never is quite enough, even when salaries are high."

Well, I said, I guess you've got a point. What I want to know, is, what're you going to do about it?

"Well", he said, "I've been thinking about it a lot and I've come to the conclusion that the only way for a man in town to make ends meet is to take on a second job in the country."

Wait a minute, I said, You've got this thing backwards. The agricultural experts are recommending that us farmers take on a job in town to supplement our income.

"That's where I got the idea" he said. "I'm not making quite enough in town to suit me, you're not making quite enough in the country to suit you, so the only way out is for you to work part-time in town, me to work part-time in the country. This way we'll both get ahead."

Frankly, I don't know whether this idea will work, but it's sure something to think about. I've got plenty of work all right he could do out here on my farm, but I'd sure have to work a lot extra in town to get the money to pay him for it. Until further notice, though, I believe I'll just stick to the country.

Yours faithfully,  
J. A.

## Cotton Insect Report

Light to occasional heavy rains fell over the area during the week. Showers and strong winds delayed applications of insecticides for control of cotton insects in some localities.

Cotton insect activity was decidedly less than that of the previous week. A widespread use of insecticides for leafworm control accounted for such decline in insect populations on cotton. Many fields, where no recent insecticide applications had been made, had sufficient infestations to warrant control.

Leafworm infestations were reported heavy in Floyd, Hockley, Swisher, and Howard counties. Heavy ragging of leaves occurred in scattered fields in Crosby and Lubbock counties where control was delayed. The worms are now appearing in sufficient infestations to require control in many fields in the northern part of the area.

Bollworms were reported in light infestations in a majority of fields. Medium to heavy infestations were found in scattered fields of cotton in Crosby, Floyd, Hale and Lubbock counties.

Cabbage loopers were present in heavy infestations in Mitchell county. Looper population increased in many fields in other localities. Egg counts were generally much higher than previously observed.

Heavy aphid infestations were reported in Hall and Howard counties. In some other localities populations have declined, due to control by beneficial insects.

Spider Mites were present in heavy infestations in a few fields in Floyd county. Light infestations were found on cotton in scattered fields in a number of other localities.

### March of Missions Topic For WSCS

WSCS met Wednesday afternoon at 2:30 at the church building with five ladies present.  
Mrs. Young had charge of the lesson from the new program books. Program opened with group singing, "This is my Father's World". Opening prayer was by Mrs. Medlin. In introducing the new lesson, "March of Missions", Mrs. Young gave a brief story on how the Methodist church is helping throughout the world with missions.  
The scripture reading was taken from Psalms 19 verses 1-6, and Matthew 22, verses 36-40. First talk was made by Mrs. Johnson on "How Large is Our World". She ended her talk by asking questions and having group discussions.

Mrs. Kyle had the second prayer, then she brought a part from "Methodist Woman". It was a story of a girl's father selling her marriage right to three different men and comparing education in Africa to education in the United States. The writer of this article said in Africa a fifth grade girl was highly educated.

Mrs. Johnson had the third part on "A Doctor and His Work in China". Mrs. Medlin gave the fourth talk, "Enlarging Our World", and Mrs. Young gave the closing prayer.  
The worship center display, the world globe standing in the shadow of the cross was used for the center, with a display of flags from different countries around it.

Ladies present were Meses, Paul Young, L. H. Medlin, D. T. Johnson, P. M. Lancaster, and H. W. Kyle.

Mr. and Mrs. W. L. Clawson spent last weekend visiting with their daughters Mr. and Mrs. Olin Phipps and Mr. and Mrs. Archie Clawson at McLean, and also on their return home they visited friends, Mr. and Mrs. Oscar Lee at Lockney.

**FHA Girls Meet**  
FHA girls met Monday night in the school lunch room, with their sponsor, Mrs. Mildred Miller. Appointments of committees and chairmen were made and planned to have an executive council meeting in the near future.

Program was given by the sophomore class on "Duties of Officers."  
A sing-song was enjoyed by the group.  
Refreshments of punch and cookies were served.

The regular meeting will be the first Monday night of each month.  
Mrs. Cora Lawhon of Little Rock, Ark., spent several days last week visiting in the F. L. Simmons home.

Mrs. Anita Clawson and a girl friend, Lois Towns of Vesta, Calif., are visiting here with Anita's grandparents, Mr. and Mrs. W. L. Clawson and also with Mr. and Mrs. J. L. Clawson and Mr. and Mrs. J. D. Rowland.

Mrs. Mildred Miller, home-making teacher, started Monday to visit with each girl and her mother in their homes, and make plans for the girls home project.

**Attend MYF Meeting**  
Those attending from Bula the Sub-district MYF meeting at Spauld Monday night were Rev. and Mrs. Dub Kyle, Mr. and Mrs. Billy Bradford, Linda and Betty Holt, Sue Johnson, and Jerry Cox.

Mrs. Tommie Carter of Lovington, N. M., spent several days last week visiting her mother Mrs. B. L. Blackman.

### Vestal Family Has Reunion On Sunday

The K. A. Vestal home was the scene of a family reunion last Sunday. Those present besides Mr. and Mrs. Vestal were: Mrs. E. L. Young and children, Wayne Lee, Lennon and Marilyn of Olton; Mr. and Mrs. James Couch and daughter, Doretta, and Mrs. Florence Hancock, Plainview; Mrs. Bea Mercer and children Lynn, Sandra, David and D. Layne, Wichita Falls.  
Mr. and Mrs. B. B. Vestal, Charlotte and Tom Ed, and Mr. and Mrs. G. E. Vestal and Linda and Mr. and Mrs. Kenneth Vestal, Kenneth Dan, Steve and Robby, all of O'Donnell; Mr. and Mrs. Dexter Nebbitt and children, Glennella, Deletta and Teri, Morton; Mr. and Mrs. B. J. Sikes, El Serrano, Calif., and Mr. and Mrs. Jim Drake and daughter Karen of Bula.

To spend the day Wednesday in the Ray Spence home were Mr. and Mrs. W. C. McKelvey of Stegall.

**Attend Conference**  
Several from the Bula Baptist Church attended the Annual Baptist conference held in Amarillo Thursday. Those going were Rev. Travis Hain, C. W. Parkman, and R. L. McCord. Ladies going were Meses, C. A. Williams, C. M. Tidwell, T. R. Teaff, P. R. Pierce, and Rub Marrow.

Enjoying this past week fishing and cutting at Lake Whitney were Mr. and Mrs. Eual Batteas, Mr. and Mrs. A. J. Wallace, and were accompanied by Mr. and Mrs. R. K. Wallace of Rusk.

**High School Party**  
Mr. and Mrs. Ray Spence were hosts to a party in their home Thursday night for the entire high school and also the students that will soon be leaving for college.

Games were enjoyed by the group during the evening on the lawn. Refreshments of punch and cookies were served.

After the party, the senior girls went to the home of Mr. and Mrs. Ray Seagler and enjoyed a slumber party. Senior girls present were Sandra Spence, Betty Hallford, Kathy Phillips, Patsy Lane, Doris Stroud, and Gennell Seagler.

Curtis Clevenger, son of Mr. and Mrs. Leonard Clevenger, was able to be brought to the home of his parents Thursday, after being confined in the Littlefield hospital for six weeks recuperating from an electric shock. Curtis is still under care of the doctors, and will soon have to return to the hospital for some skin grafting. But despite that, and also having to wear a back brace, Curtis is very happy to be out and visiting with friends.

Mr. and Mrs. L. G. Hoover and girls spent Wednesday night with Mrs. Hoover's sister, Mr. and Mrs. T. L. Harper.

Mr. and Mrs. Doyle Hasteley of Littlefield visited with his parents Saturday afternoon, Mr. and Mrs. L. V. Hasteley.

### Mrs. J. G. Wilcoxon Dies

Funeral services were held Monday afternoon, September 16 at 3 p.m. in Charlie, Texas, for Mrs. J. G. Wilcoxon, who was 77 years of age. Mrs. Wilcoxon had been here visiting her daughter Mrs. Lutter Hall for the past two months from her home in Oakland, Calif. Mrs. Wilcoxon, wishing to return to her home, was accompanied there by Mrs. Hall and she was home almost a week before she passed away September 12, due to a heart attack. Mrs. Hall was still with her mother at the time of her death.

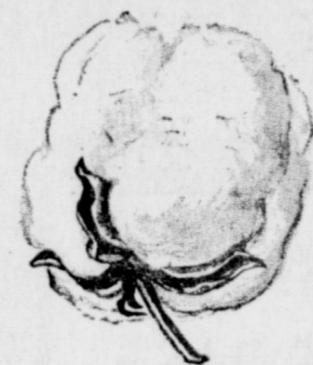

She was brought back to Charlie and buried beside her husband, who had preceded her

in death in 1937.  
Besides Mrs. Hall, two other daughters, Mrs. H. L. Brown, Oakland, Calif., and Mrs. A. C. Townsend, Fresno, Calif. survive, four sons, C. J. and Calvin Wilcoxon, Oakland, A. B., Portland, Ore., and J. W. Dallas. Also 19 grandchildren and 12 great grandchildren survive.

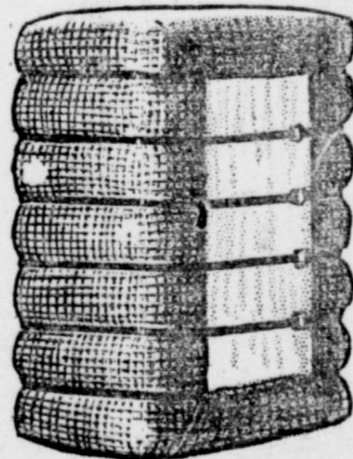

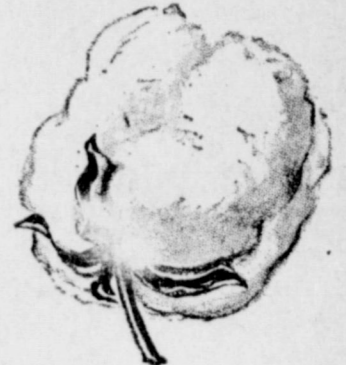

Attending the funeral services from here were Mr. and Mrs. Lutter Hall, Mr. and Mrs. Eddie J. Hall, Kenneth, Glena and Mona Hall and Mr. and Mrs. James Beavers from Kress.

Others attending were Mrs. Elaine Mills, Bill Harmon, and Bill Tittle from Muleshoe, and Mr. and Mrs. T. R. Smallwood.

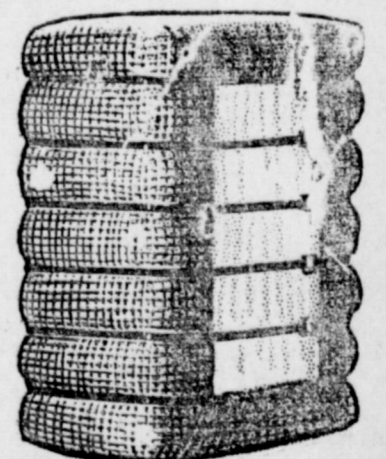

Mr. and Mrs. C. J. Wilcoxon, Mr. and Mrs. H. L. Brown and Calvin Wilcoxon, all from Oakland, Mr. and Mrs. A. C. Townsend from Fresno, and Mr. and Mrs. W. Wilcoxon from Portland, Ore., all visited in the Lutter Hall home last Sunday night and again on Monday night.

### Mules-Morton In Twenty-Fifth Game Tomorrow

The Muleshoe Mules travel to Morton tomorrow night, Friday, to meet another of their oldest rivals, the Morton Indians, in a contest slated for 8 p.m. The meeting will be number 26 between the two schools on the gridiron, surpassed only by Sudan and Springlake in length of duration.

Tomorrow's game will mark the first meeting of the two teams on Morton's home field since 1950, and Muleshoe will be trying to avenge a 14-6 defeat handed Coach Woody Green's eleven, who were in their first season officially as "Mules."

The Yellowjackets had romped over Anton in their first game, and were perhaps a bit cocky when they travelled to Morton for their second outing. The game turned out to be quite a lesson for Muleshoe, as they had to fight to win, 6-2 their closest shave of the year.

Coach Vernard Alexander lost heavily from graduation last year at Morton. He told reporters that his squad (which numbered 16 at the beginning of practice) would be "lucky to win a game". He may have been a bit surprised, then, when in the opening game two weeks ago his Indians upset Seagraves, 13-12, enabling Morton to carry a 1-0 record into the match tomorrow.

Coach Wayne Mantooth is expected to start basically the same lineup which blasted Sudan last week. It should read:

- LE — Okie Alexander.
- LT — Jack Wright.
- LG — Doyce Turner.
- C — James Williams.
- RG — Royce Turner.
- RT — Bob Sanders.
- RE — Leon Atchison.
- QB — Dickie Johnson.
- LH — Lee Roy Corrales or Donnie Shafer.
- RH — Derrell Oliver or Gerald Shanks.
- FB — Bill Black.

BILL BLACK, senior fullback for the Muleshoe Mules, took over the scoring lead among district 1-AA players last week, with a three-touchdown spree against the Sudan Hornets. Black, seeking his third Muleshoe letter this fall, scored on runs of 1, 8, and 17 yards, and added three extra points running to capture the district lead. In addition, the 170-pounder who is one of the tri-captains of the team, got off a tremendous 57-yard punt, upping his average to 45.3 on three kicks for the year.

### WILCY MOORE NOSED OUT OF TL ALL-STAR BERTH

Dallas Eagles placed four players on the Texas League all-star team. Wilcy Moore, of Muleshoe, described by the Associated Press as Dallas' brilliant left fielder, was edged in the voting by Jim Frey, Tulsa, the league's top hitter. Frey also was picked as the league's most valuable player.

### ALL TIME GRID RECORDS LISTED

## Absence of Detail Makes Some of MHS Football Records Incomplete

NOTE: The following is the fifth in a series of articles on the history of football at Muleshoe High School. Lack of detailed information in research material has hampered the author in compiling a set of records. He would appreciate anyone who can help him correct or add to the records.

by BILLY ELLIS  
In compiling a set of Muleshoe's all-time records, I have been hampered by the lack of detail in writeups of early games, and the fact that some records were not kept in early games. In fact, it has been only recently, for example, that accurate records of individual rushing yardage gained by each player has been kept.

Thus, the listed record for individual rushing is taken from the best performance of those where the rushing figure was kept. Not properly treated, because the yardage figure was not available, are such performances as Bobby Seid versus Crosbyton in 1957 (four touchdowns), Buck Johnson vs. Springlake in 1952 (three TD's), Eugene Shaw vs. Lockney in 1954 (three TD's) and D. L. Morrison vs. Lockney in 1953, where only the touchdown yardage was available.

Writeups of games in the earlier periods did not always even include the touchdown yardage, explaining why all of these latter performances came after 1950. Some of the other records, however, such as kickoff returns, punt return, pass interception returns, and others include performances as early as 1925.

Following from all the research material I've compiled, are the best three or four performances in each category by a Muleshoe player, including the team the record was scored against, and the year of the game. The first figure in each case is the number of yards.

(Anyone who can supply me with proof of a better performance, or a reasonable argument, is invited to give me a call.)

### Mules Dominate Sudan In 56-7 Win Friday Nite

by Billy Ellis  
The Muleshoe Mules, dominating their ancient rivals as they never had before, scored almost at will and threw up a near invincible defense in downing the Sudan Hornets, 56-7, last Friday at Sudan. The overflow crowd of 2,500, a major portion of them Muleshoe fans, were treated to a display of Muleshoe power such as had not been seen in many, many years.

The win broke an 18 year old jinx Sudan had held over Muleshoe at its home field. Muleshoe had last beaten the Hornets there in 1939. Coach Wayne Mantooth, whose personal record against Sudan is now 2-1, becomes the first Muleshoe coach since Roy Stevens (of the 1930's) to hold an edge over the Hornets.

The Mules took an early lead in the contest, when after forcing the Hornets to punt on their first series of plays, Derrell Oliver ran the kick back 47 yards to the Sudan 13. A moment later the sophomore halfback set up a first and goal on the Sudan one yard line. From which point fullback Bill Black barreled over for his first 1957 touchdown on the next play. Dickie Johnson made his first of five points after on a quarterback keeper.

Later in the initial period Muleshoe scored again when on the option play, Johnson, who had already gained about 5 yards, pitched out to Oliver, who traveled the remaining 40 yards, for his second touchdown of the year. Black plunged for the point, making it 14-0 Muleshoe.

The second period was the mildest of the night, as Muleshoe scored only one touchdown, that by sophomore Donnie Shafer on a 16 yard run midway of the period. Black again ran the point, to send the Mules to the dressing room with a 21-0 lead.

Muleshoe made the game a runaway in the third period. Lee Roy Corrales, who had been making sizeable gains on pitchouts from Johnson in both games to date, got the scoring machine rolling in the second half with a 55 yard jaunt for his first score of the year, Johnson making it 28-0 with the point after.

Moments later the Mules were again knocking on the door, with a third down and one to go on Sudan's eight. Black took the handoff, crashing through the line for not only a first down, but also across the goal line for his second touchdown. Johnson's keeper gave the Mules a 35-0 advantage.

A high snap from center on a punt attempt by Sudan put the Mules in business again in Sudan territory, resulting in another touchdown for MHS. Donnie Shafer capped the drive by making an excellent recovery of a high pitchout and scampering nine yards for his second TD of the night. Black's plunge gave Muleshoe a 42-0 lead at the end of three quarters.

Muleshoe scored its first touchdown via a pass for the year in the fourth quarter. The Johnson-Okie Alexander combination, which had already worked twice for a total of 34 yards, clicked beautifully on this particular play, and the 178-pound left end, aided by some good blocking, went all the way for a touchdown on a 40-yard play.

Johnson's extra point made the count 49-0, a new high both for points scored and margin of lead by one team over the other in the series rivalry, but there was more to come.

The hard-charging Muleshoe line, which had racked up Sudan ball carriers for losses all night, forced the Hornets to kick from their own five after three straight setbacks. Quarterback Dan Woods, who had trouble with his punting throughout the game, got off a high kick which rolled dead on the 17.

On the first play from scrimmage, Johnson took the ball on the option play and headed around right end. The 145-pound field general pitched back to his fullback as he hit the line of scrimmage, and proceeded to run interference for the 170-pounder, as Black skipped into the end zone for his third TD of the evening.

All seemed over but the shouting when Johnson punt after made it 56-0 as Muleshoe again made every extra point, so Coach Mantooth inserted his reserves for the remaining seconds. Sudan took advantage of this move to avert a whitewashing.

Taking the kickoff on his own four, quarterback Woods steamed up the middle, through a pack of would-be tacklers, then cut for the left sideline, racing 96 yards for a touchdown. Macky Ballard ran the point over from the six after an off-side penalty, as the game ended 56-7, the worst defeat for either team in the long rivalry which dates back to 1921.

Although the Mules backs seem to be the show, praise is also due to the Muleshoe line, whose all-out onslaught on Sudan ball-carriers, passers and punters caused losses which held Sudan's rushing yardage to a mere 15 for the game.

### Leads District In Scoring Honors

Billy Ellis

Bill Black's three touchdown upburst against the Sudan Hornets last week placed him atop the pack of District 1-AA scorers, which for the most part had in off night, Black leads by virtue of three extra points he made during the night, since the runner-up, Tulsa's Chris Ward, has three TD's and one conversion.

Sophomore Donnie Shafer is third among district scorers with 8 points, and Derrell Oliver, another soph, is fifth with 13. Those who, along with junior Lee Roy Corrales, are the top rushers for Muleshoe after three games.

Quarterback Dickie Johnson has completed five of seven passes, a fantastic 71 per cent, for an even 100 yards through the air. Top receiver is Okie Alexander with four catches for 83 yards, one a 40-yard touchdown aerial.

Black has gotten off to a grand start in the punting department. Having punted only three times in the first two games, the 170-pound fullback has booted for a 45.3 average. Oliver's 47-yard punt return against Sudan boosted his average in that department to 26.0, tops for the team.

Your Farm Bureau weed committee, having gained the support of a number of agencies, is endeavoring to help you get rid of it while you can do it by the plant or "spot" for a few dollars and a few hours of time. Inquire, if you are not familiar with the plan. Raymond Schueler is the chairman. Most of the FFA supervisors are co-operating in the program through their boys in class now, too.

We wonder if you know of any good reason for the U. S. Supreme Court's altering the constitution of accused criminals, when the alteration could benefit no one but those accused ones. We can't. **CONSIDER THIS: As snow in summer, and rain in harvest, so honor is not seemly for a fool.** —Prov. 26:1.

### Parmer County Farm Bureau News

You Farm Bureau members who may not have read the last issue of your paper, Texas Agriculture, might be interested in reading the abbreviated listing of Texas Farm Bureau accomplishments during the last fifteen years. Parmer County Farm Bureau, having been organized only ten of those years, did not have a voice in all of it. These accomplishments have to do primarily with Texas Legislation.

In checking them, we find that you members in Parmer county actively supported or opposed twenty-four of the bills that became law, or were defeated, in line with your resolutions. Two of those laws that are now on the statutes of Texas originated here in Parmer county at our county conventions in 1953 and 1956.

In 1953, a resolution from Parmer county, requesting an improved elevator law guaranteeing protection for grain producers and assuring them of negotiable warehouse receipts was put on TFB books of resolutions and was enacted into law in 1954. From our 1956 convention came the resolution that also was accepted by TFB delegates and enacted into law this year.

ENOCHS NEWS EVENTS

### Third Sunday Singing At Methodist Church

(Omitted Last Week) by Mrs. C. C. Dorn  
The MYF of Enochs Methodist Church attended a Sub-district meeting at Spade Monday. There were 12 boys and girls and their sponsor, who went.

The WMU women at the Enochs Baptist Church are having a week of prayer.

Mr. and Mrs. P. A. Altman, Gracie, Wayland and Lynda visited in Tucuman, N. M., with the Altman's daughter and family, Mr. and Mrs. Vicker Byrum over the weekend.

We are proud to report Mr. Red Parsley is doing fine after a heart attack.

Mr. and Mrs. Robert George visited their parents over the weekend at Enochs. Brenda is to enter Texas Tech at Lubbock.

Junior Austin and Richard Blanton are also to enter Texas Tech. This will be the second term for Richard Blanton.

Mr. and Mrs. Perry Fort enjoyed a trip to Harrison, Ark., with Mr. Fort's nephew and wife, Mr. and Mrs. Dick Porter of Lubbock.

Mrs. Fort visited her home place at Eras, Ark. She left there with her parents at the age of eight years. This is the first time in 28 years to be back there.

They visited with Mr. Fort's sister in Harrison and were told that the painting, "The Lord's Supper" that has been placed in the Muleshoe Methodist Church, came from Harrison.

Mr. and Mrs. Doyle Fowler and family attended the funeral of

her nephew, Rickie Melton, in Dallas over the weekend. They also visited their daughter and husband, Mr. and Mrs. Dan Morgan.

Our revival at Monument Lake was wonderful. Those who missed hearing Bro. R. L. Bowman, from Halfway, missed some wonderful sermons.

Mrs. L. B. Fox and family visited in the home of Mrs. D. S. Fowler and family.

Bro. and Mrs. C. C. Dorn had as visitors their daughter and family, Mr. and Mrs. G. W. Leach and daughter Wendy of Stanton, Mr. and Mrs. H. P. Iglehart and family, Mary Paul, Marvin Douglas, of Colorado City. Doyle Ray Fowler stayed there while his parents were in Dallas.

Mrs. Bobby Cook spent the Monday in the home of Mrs. D. S. Fowler.

Mrs. Fowler and Peggy visited in the home of A. N. Underwood.

We are to have the Third Sunday Singing in the Muleshoe Methodist Church.

#### THE BILLY BEAVERS HAVE NEW SON

Mrs. Clay Beavers of Earth, left last week for Ft. Worth to assist a new grandson to get off to a good start. Paul Ronald, weighing 4 lbs., 6 ozs., arrived September 11 to make his home with his parents, Mr. and Mrs. Billy Beavers of 3301 McClain, Ft. Worth. Billy is a former resident of Muleshoe and well known throughout this area. They have one other son, named David.

**DARK AND LONELY NIGHT**—By day mothers watch their children at play, and the elderly rest in Highridge Park, in the Washington Heights section of New York. By night, a deadly silence fills the abandoned place of fear. A lone policeman watches the shadows. For here a 15-year-old boy, crippled by polio and unable to run, was stabbed to death by a teen-age gang. Nightfall and fear has emptied this park. But the police are there trying to check the awful rise in juvenile crime.

#### Proper Harvest Methods Can Add To Cotton Price

Proper harvesting and handling of seed cotton can add from \$2.50 to \$19 a bale to the income from this year's cotton crop, says Fred C. Elliott, extension cotton specialist. Careless methods of harvesting and handling on the other hand can cause great damage to lint quality and lower its value.

Here are his suggestions for maintaining the inherent qualities of the crop. Do not harvest cotton when it is wet. Wait until 9 or 9:30 to start harvesting operations regardless of whether hand or machines are used. Cotton harvesting machines should not be operated at night when few are present.

Machines should be kept clean and in good repair and serviced at the end of each day in accordance with the operator's manual. It must be remembered that the most elaborate gin cannot be expected to remove grass from lint cotton. Elliott advises defolating when necessary. It will check or prevent boll rot and aid in preventing green leaf stain which lowers quality.

If a stripper is to be used, the specialist advises waiting from 7 to 14 days after penta or other desiccants are applied before starting the stripping operation. A green boll box should be used on the front of a wire-sided or slit-sided trailer and bolls caught, if infested with boll weevils or pink bollworms, should be burned. The stripper should be equipped with a blower under the elevator and cotton should not be tramped in the trailer.

Elliott says cooperation with the ginner in grouping cotton on the gin yard according to method of harvesting, moisture and trash content can add dollars to price of a bale of cotton.

Mechanical harvesting of cotton, points out Elliott, means much more than putting ma-

#### Fall Feeding Can Aid Lawns Thru The Winter Months

A beautiful, well-kept lawn adds to the material value of a home and is a basic requirement for an attractive yard. A properly established and well-managed turf also provides a cool, restful cover and prevents soil blowing and washing.

Fertilization is the main practice to emphasize in the fall care for lawns, says E. M. Trew, extension agronomist. Lawn grasses will go into the winter in a vigorous condition if they are well nourished. The grasses will remain green longer in the fall and will grow off earlier next spring.

The fertilizer should be applied about a month before the first expected frost, advises Trew. When summer grasses are pushed into lush growth by late fertilization, some grass may be damaged by a hard freeze. Also, applying the fertilizer too late prevents the grass from getting chimes into the field. It includes all aspects of production including plant breeding, field arrangement, soil care, crop residue disposal, seedbed preparation, planting, fertilization, weed, insect and disease control, harvesting and improved ginning.

the most out of it before going dormant. Apply a complete fertilizer with a 2-1-1 or 1-1-1 ratio at a rate to supply two pounds of actual nitrogen per 1,000 square feet of lawn, recommends the specialist. This amount of nitrogen would be found in 20 pounds of 10-5-5 or 10-10-10, or in 25 pounds of 8-8-8.

After the fertilizer has been spread, Trew advises watering it down. Soak the soil at least six inches deep. Plenty of moisture is necessary, for the plants can't use the fertilizer until it is dissolved. If the soil is already wet, just wash the fertilizer off the grass and onto the soil.

Ryegrass is sometimes overseeded on Bermuda to give green color during the winter. But, Trew says, this is sometimes harmful to the Bermuda. The ryegrass is usually growing in the spring when the Bermuda should start and unless the ryegrass is kept closely clipped, it often gives the Bermuda serious competition for light, moisture and plant food. If ryegrass is seeded on a Bermuda lawn, Italian or annual ryegrass should be used. For these plants die in the spring. Ryegrass should not be overseeded on grasses other than Bermuda.

#### New Booklets On Irrigation Are Now Available

Irrigation is a means of maintaining a continuous supply of available moisture in the plant root zone of the soil throughout the growing season. The irrigator should keep a careful check on soil moisture conditions, for irrigation must be started soon enough to arrive at the last portion of the field before its available water has been exhausted, says R. V. Thurmond, extension agricultural engineer.

A practical method for estimating the available soil moisture is to take a small amount of soil, squeeze it in the hand so as to form a ball; then refer to a chart that is given in a leaflet, L-355, "How to Estimate Soil Moisture by Feel", for a description of the feel and appearance of different textured soils for various moisture percentages.

#### Water District Seeks Injunction Against Farmer

Interest in Irrigators is L-358, "Irrigation Siphon Tubes". These tubes are used to divert water from a supply ditch to the land. They permit easy control of water and reduce labor and ditch maintenance. The leaflet gives a description of the tubes and contains sections on the flow from siphon tubes and how to start siphons. It also contains a chart that is helpful in determining the rate of flow from siphons.

Both leaflets are available from local county agents or from the Agricultural Information Office, College Station, Texas. The High Plains Underground Water Conservation District No. 1 filed a law suit recently involv-
