Apartness of The Races

Desegregation in the Deep South seems unlikely in the foreseeable future, according to the current (June 15) issue of The Saturday Evening Post.

The observation is made by John Bartlow Martin in the first of five articles entitled "The Deep South Says Never", a report which tells what has happened there and how the attitude of the people has undergone a change since the Supreme Court decision three years ago.

Martin, who recently won a third Benjamin Franklin Award for distinguished reporting, says that the first reaction to the Court's ruling was that desegregation seemed inevitable and not far off.

"At that time, the South was divided, perplexed, resigned," he comments. "Today the Solid South is a fact, and its resistance to desegregation is granitic."

Martin's report tells that an important factor in the change was the initiative demonstrated by Robert Patterson, of Greenwood, Mississippi, who was instrumental in calling a meeting to mobilize public opinion thru grass-roots organization.

"The outgrowth of that gathering of about 100 townfolk in July 1954 was an organization called the Indianola Citizens Council. This, it is reported, was the first Citizens' Council, a movement that in a few months swept the South and gave loud voice to the Southern resistance to school desegregation.

Martin finds that this resistance movement is a remarkable achievement since it has uncompromisingly set its face against the mainstream of American thought as expressed by the Supreme Court of the land — and has thus far gotten away with it.

Elsewhere in the report, Martin explains that, to Southerners, the Court's decision seemed to do far more than break down segregation in the school; it rent the seamless garment of apartness.

"Apartness of the races," he tells Post readers, "is black and white thread woven into the fabric of Southern life — its social, political, sexual, cultural, economic life. Apartness is like a vine which, rooted in slavery, never uprooted, but merely twisted by the Civil War, flourished and by now entangles everyone and everything in a suffocating net from which no one, white or black, knows how to extricate himself.

"It's manifestations have an infinite richness and complexity."

Mrs. R. C. Cline, the photo lady, has a hobby that ought to help take up all that time she has when not working. She makes dolls, using a clay kiln. Then paints them by hand and makes all their clothes. She couldn't go into it commercially we suppose, because it's a slow process, but they're mighty pretty.

Citizen: If the school brass is going to do what I think they're going to do, I think they ought to be publicly commended. I think they're going to plant grass in front of the two older grade buildings.

Well, that's what they're going to do, in fact already have done, and they're being commended here as well as by many people like you, who long have felt the need for beautifying these grounds.

First and Second Prizes Unclaimed At Trades Day

The first prize in next Saturday's Trades Day cash drawing will be \$125, and for the first time, the second prize will be increased to \$50 for one week only.

After Mrs. Jack Drye won third prize of \$10, no one claimed the first prize, and several numbers were drawn for second prize. After no one claimed the \$25, rain began falling, and the crowd sought shelter.

Officials of the Trades Day voted to carry over the second prize money and add it to the regular \$25 next Saturday.

Cotton Choppers Are Available

Quite a few cotton choppers are available now and waiting jobs, Guy Smith, local manager for the Texas Employment Commission reports to The Journal. He said farmers seeking workers should contact his office.

He placed two crews of choppers in the last few days. Registered at the labor office now are 5 or 6 crews averaging 7 workers each, he said.

Farmers and others desiring additional help from time to time would do well to keep in touch with the TEC office in Muleshoe.

New Beauty Shop Opens This Week

Chubby Douglas and Jessie Waldrop are opening their new beauty salon this week on the east side of the courthouse square, next to Dr. Lewis, dental office.

The shop is known as Chubby's and Jessie's Studio of Hair Fashions, and will feature Revlon cosmetics, advanced hair styling, hair cutting, shampoos, and related beauty care.

Chubby is a graduate of Jessie Lee's and has had three years experience. She was formerly with Bobby's Beauty Box. Jessie Waldrop has had 20 years experience, and is a graduate of Isbell's University of Beauty Culture, and Jessie Lee's advanced training. Connie Powers, the third operator in the shop is a recent graduate of Jessie Lee's.

The shop features three chairs and completely new equipment in a decorative scheme of pink and charcoal.

McReynolds Opens Jewelry In Tot 'N' Teen Shop

David McReynolds is this week announcing the opening of a jewelry store, located in the south side of the Tot 'N' Teen Shop on Main Street in Muleshoe, which is called the McReynolds Jewelry.

Mr. McReynolds was formerly with the Muleshoe Jewelry for approximately six years. A World War II veteran, he received his degree in Horology from Midwestern University in Wichita Falls, graduating in 1949.

\$5 Raises Given County Employees For Insurance

The Bailey County Commissioners Court met Monday and voted to increase the salary of all county employees \$5 per month, and to take out life and hospitalization insurance on all employees at a cost of \$5 monthly. The group insurance policy will become effective July 1.

The Court also voted to employ Alvin Webb, CPA, to audit the accounts of the county for 1957, at a cost of \$5 per hour for his work and \$4 per hour for his assistant.

Ernest Kerr Buys Hicks Tractor Co. From Hicks-Baker

Hicks Tractor Company, local Ford Tractor agency, was sold last week to Ernest Kerr, and the name of the firm changed to Kerr Implement Company.

Sold by Ed Hicks and M. L. Baker, the tractor firm was established in February, 1950 by George and Ed Hicks, and has been located on the Plainview highway since July, 1956.

In announcing the sale, Mr. Hicks did not reveal his what his future plans are, but did state that he will probably remain in Muleshoe.

Ernest Kerr was associated with Muleshoe Liquefied Gas Co. for several years until that firm sold out recently; Ernest is married and has three children. He has had several years experience in the farm implement business in Hereford, before coming to Muleshoe.

A formal announcement of the sale of the business is scheduled to appear in The Journal next week.

Graveside Service For Bates Infant In Sudan June 5

Graveside services were conducted at Sudan cemetery for the infant son of Mr. and Mrs. Leon Bates of Sudan, June 5. The child named Rodney Lynn, passed away in a Friona hospital.

Over 30,000 Acres Cotton Damaged By Seedling Disease, Hail, Water

In addition to hail and high water damage to early planted cotton, many farmers in Bailey county are now plagued by rotting cotton plants in their fields. Wet weather, prolonged during the sprouting period has caused damping off, or soreshin disease on the entire plants in tight land, according to J. K. Adams, Bailey County Agricultural agent.

Adams called Dr. Harry Lane of the Lubbock Experiment Station on June 10, who told Adams that the disease is ordinarily prevalent following long wet periods and often attacks only the roots of the plants. But in tight soil, where the water did not soak in to the ground, and stood in the rows, soaking the entire plant, the stems and leaves were affected also.

Lane said the trouble should clear up with a few hot, sunny days.

The goal, at the experiment station is to save all the cotton patches with stands of one plant per foot, or thicker. The pathologists believe this is more sensible than replanting at this late date. Many farmers in Lubbock county are replanting, although

the experiment station personnel are warning against this practice.

Cotton planted during the latter part of the recent rainy season is not nearly so severely damaged as the earlier planted cotton, the agent reports.

Although thinner cotton is not so well suited to stripper harvesting, cotton stands of one plant every twenty inches will make as much per acre as cotton stands of one plant each two inches, according to records of some twenty years testing by the experiment stations.

Adams reported Tuesday, following a tour of the county, that at least 30,000 acres of cotton was seriously damaged by the water borne seedling disease.

Adams also pointed out that a

lot of cotton has been plowed up because of damage from hail and washouts, as well as from seedling disease.

Where cotton makes one or two clean leaves, the plant will have a good chance of survival, the agent stated.

Insect Danger

The imminent danger of insect infestations, was also stressed by Adams, who says that the wet weather is likely to result in heavy infestations, and that thrip infestations have already been noted in increasing numbers in cotton still standing in the county. Continued vigilance this season will be necessary, the agent warns, if the insect problem is controlled.

Stiffer Graduation Requirements For Students Effective This Fall

Students entering the ninth grade this fall will find themselves faced with additional requirements for graduation, if the recommendations made by the State Board of Education last week, are put into effect.

The new rules and regulations will require more science and social studies for graduation in a state wide curriculum designed to better equip graduates for the world of business and industry.

Diplomas will be issued to all graduates, but transcripts will show what particular subjects the student excelled in, and in which he was the weakest.

The new minimum requirements are three years of English; 2 1/2 years of social sciences including one unit of world history, one unit in American history and one half unit in government; two years of mathematics and two years of laboratory science.

Two years of vocational courses or two years of a foreign language may be substituted for one year of science, but the re-

maining year of required science would have to be either biology, chemistry, physics or general science taught by the laboratory method.

The number of years of required subjects was increased from 8 to 9 1/2. The total number of units required for graduation will remain at 16, but may not include health and physical education as is permitted now. The plan at present is to require 20 units for graduation by 1961.

Superintendent Jerry Kirk of the Muleshoe school system said that the new ruling would only require an additional half unit of social studies, and would make world history mandatory rather than elective as it now is.

He also pointed out that at least one laboratory science teacher would have to be added to the list of teachers this fall.

Kirk emphasized that the ruling requiring no more than one hour daily devoted to competitive athletics would have no effect on the local school, since that is all the time now devoted to the subject.

Dimmitt Woman Hurt Saturday In Auto Wreck

Mrs. Eva Welch McGowan, of Dimmitt, was treated for cuts and bruises Saturday night at an Earth clinic, after she was injured when her car left the highway six miles east of Earth about 9 p.m.

Highway patrolmen reported that Mrs. McGowan did not see a section of the road under water and when her car struck the water she lost control and the car rolled over in the barrow ditch.

An estimated \$800 damage was sustained by the car.

"Don't worry about dust any more — **AMALIE L. P. G.!**"

"AMALIE must have been thinking about this dusty country, when they brought out AMALIE L. P. G. Oil, the way it holds the dirt and corrosion in suspension, so they filter out. And the way it still flows freely—until drain time. If you burn butane or propane, there's just nothing like AMALIE L. P. G. Oil!"

It was a great oil ENGINEERING job—to get an oil that wouldn't thicken up till it looked like gear-grease. To get it to hold its viscosity, or flowing qualities, like AMALIE L. P. G. Oil. And then the additives that hold that grit in solution. Of course it's 100% pure Pennsylvania—no other oil equal to it, on earth. And it's a cross-graded 20W-30 oil (or 40)—just as efficient summer or winter. Give YOUR engines—and your bank account—a break.

Donna Kaye Actkinson, Ralph Roming Wed In Double Ring Ceremony On June 2

MR. AND MRS. RALPH ROMING

Before an archway of greenery, decorated with white streamers and candelabra in the First Methodist Church, Miss Donna Kaye Actkinson, daughter of Mr. and Mrs. Troy Actkinson of Muleshoe, and Mr. Ralph Roming, son of Mrs. Vernon Roming, exchanged double ring vows Sunday evening at six o'clock with the Rev. Roy Havens officiating.

Given in marriage by her father, the bride wore an original wedding gown of white imported chamilly-type lace and nylon tulle over net and satin. Designed with a high neckline framed with mandarin collar of lace, the fitted lace bodice featured a sheer yoke outlined with scalloped applique, and had long sleeves ending in points over the hands. From this stemmed a voluminous waltz length skirt of tulle, fully shirred with yoke of scalloped lace outlined with a band of scalloped applique. The immense fullness of the lace and tulle over the ruffled net and satin was emphasized by crinoline worn underneath. Her veil was of French silk imported illusion attached to a face hat.

The bridesmaids wore low neck blue lace over taffeta of street length. The gowns featured princess bodices and were accented by small taffeta cord, meeting in front to form small bows at front center.

Sue Actkinson, sister of the bride, was maid of honor, and bridesmaids were Brenda Simmacher, and Toni Billingsley.

Joe Joiner of Lorenzo attended the bride groom, and candlelighters were James Williams

BWC Study Topic Is Missionaries

The Business Womens Circle of the First Baptist Church met Monday, June 10 in the home of Mrs. Lena Hawkins for a missionary program on the Fountain of Youth.

Mrs. Lela Barron gave the devotional, and Mmes. Horace Blackburn, Sarah Payne, and John Watson, reviewed the work of the Auxiliary, Sunbeams, G. A. and YWA.

Mrs. T. W. Goar, YWA counselor, told of the plans of that organization for the summer.

Mrs. Paul Yambert and Miss Lillie Williams discussed the work of youth on the campus and in the church.

Refreshments were served at the conclusion of the meeting.

Mrs. John Gunter Shower Honoree

Mrs. John Gunter, Jr. was honored with a pink and blue shower Saturday afternoon in the home of Mrs. Benny Chapman, with Mrs. Pat Bobo and Miss Elizabeth Harden as co-hostesses.

Mrs. Gunter opened the many lovely gifts and passed them around for the group to admire. White iced cakes topped with pink and blue booties, mixed nuts, and coffee were served.

TO Wed June 23

JUANITA SCOTT

Mr. and Mrs. Glen Scott of Lazbuddie announce the engagement and approaching marriage of their daughter, Juanita to Charles Stafford of Dallas, son of Rev. and Mrs. Stafford of Del Rio. Vows will be solemnized on June 23 at 3 P.M. at the First Baptist Church of Lazbuddie. Friends of the bride and groom are invited to attend.

and Larry Hicks, Ushers were Roy Sooter, Ben Roming, Kenneth Powell, Larry Hicks and James Williams.

Mrs. Joe Walker of Hobbs played traditional wedding music at the organ and accompanied Alva Lee Shofner who sang during the ceremony. Mrs. Freddy Harvey, cousin of the bride, played piano selections during the reception.

At a reception, immediately following the ceremony, the bride's table was laid with an embossed cloth of scalloped organdy draped with nylon net. Flowers from the bride's bouquet decorated the table. The three tiered wedding cake was topped with a miniature bridal couple. The table was set with crystal and silver appointments.

The young couple will be at home in the Progress community where the bride groom is engaged in farming. He is a graduate of Muleshoe High School, class of 1957, and the bride is a senior in MHS.

Tomato Aspic Molds Pep Up Those Cold Cuts

BY DOROTHY MADDOX

THIS is the season when cold cuts make a welcome meat course for the family dinner. How about giving extra appeal to the cold platter by arranging individual tomato aspic molds in the center? But give the aspic extra appeal, too. Combine with the tomato juice, crisp raw cabbage, celery and green pepper—to make a delightful salad aspic.

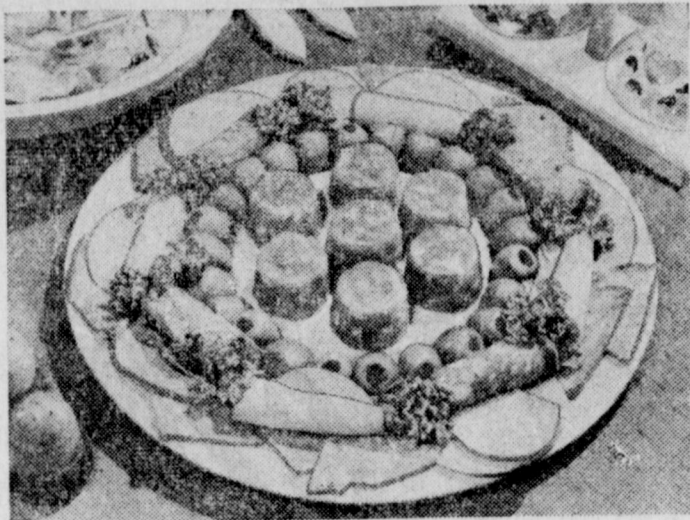

Tomato Perfection Aspic (6 servings)

One envelope unflavored gelatin, 1 1/2 cups tomato juice, 1/2 teaspoon salt, 1/4 teaspoon peppercorns, 1 bay leaf, 1/4 teaspoon whole cloves, 1 small onion, sliced; 2 tablespoons mild vinegar, 1/2 cup finely shredded cabbage, 1 cup diced celery, 2 tablespoons minced green pepper.

Sprinkle gelatin on 1/2 cup cold tomato juice to soften. Heat remaining 1 1/4 cups tomato juice with salt, peppercorns, bay leaf, whole cloves and onion in saucepan; simmer 10 minutes. Strain into bowl over softened gelatin; stir until gelatin is dissolved. Add vinegar.

Chill until mixture is the consistency of unbeaten egg whites. Stir in cabbage, celery and green pepper. Turn into individual molds and chill until firm. Unmold in center of cold meat platter, or unmold on lettuce and serve with mayonnaise.

For a warm-weather novelty,

Give cold cuts extra appeal with this appetizing warm-weather platter. Centered are individual tomato aspic molds.

try this unusually good chiffon pie.

Mint and Molasses Chiffon Pie (One 9-inch pie)

One envelope unflavored gelatin, 1/2 cup sugar, divided, 1/2 teaspoon salt, 2 eggs, separated, 1/2 cup cold water, 1/2 cup un-sulphured molasses, 3/4 cup evaporated milk, 1/4 teaspoon peppermint flavoring, one 9-inch pastry or crumb crust shell.

Mix together gelatin, 1/2 cup of the sugar and salt in saucepan. Beat together egg yolks and water; add to gelatin mix-

ture. Place over low heat, stirring constantly, until gelatin is thoroughly dissolved, about 5 minutes.

Remove from heat, stir in un-sulphured molasses, evaporated milk and peppermint flavoring. Chill until mixture mounds slightly when dropped from a spoon. Beat egg whites until stiff, but not dry.

Gradually add remaining 1/2 cup sugar and beat until very stiff. Fold into gelatin mixture. Turn into prepared pie shell; chill until firm. If desired, garnish with whipped cream.

ATTEND WELDING COURSE

Sixteen persons have been attending the second session of an are welding short course held this week, June 10-13 by the Texas Tech agricultural engineering department.

The students include Jerry Adams and Bill Bickel, Muleshoe.

Beat Summer Heat With Delightful Limes

BY DOROTHY MADDOX

BIG, green, shiny Persian limes from Florida are now in the market. For refreshing drinks, they are perfect (usually one lime yields 1/4 cup of juice). Used with melon, in fruit cups, jellied soup, they add a welcome "cool" taste for hot-weather meals.

With limeades, use watermelon balls as the garnish—the color combination is delightful.

Limeade

Limes, ice water or carbonated water, sugar, watermelon balls, mint.

For each limeade pour juice of one lime over ice in tall glass. Add water and desired amount of sugar. Garnish with watermelon balls and mint.

Lime Chiffon Pie

(Yield: one 9-inch pie)

One envelope unflavored gelatin, 1/4 cup cold water, 4 eggs, separated, 1/2 cup lime juice, 1 cup sugar, 1/4 teaspoon salt, 1 teaspoon grated lime rind, 1/2 cup heavy cream, whipped, 1 9-inch baked pastry shell or vanilla wafer crust.

Soften gelatin in cold water. In top of double boiler, beat egg yolks, then mix in lime juice, 1/2 cup of sugar, and salt. Cook over hot water until mixture thickens slightly, stirring constantly. Re-

Florida limes lend a "cool" taste to refreshing, hot-weather drinks. Garnishing with watermelon balls adds attractive color.

move from heat; add gelatin and stir until dissolved. Add lime rind. Beat egg whites until stiff peaks are formed; gradually beat in remaining 1/2 cup sugar. Fold in gelatin mixture, then whipped cream. Turn into baked pastry shell or vanilla wafer crust and chill until firm.

Vacation Bible School In Progress At Enochs

By Mrs. C. C. Dorn

May I say (we), Bro. and Mrs. C. C. Dorn and family are glad to be back to work with such wonderful people at the Methodist Church, Enochs and Monument Lake. We are going to strive to do more next year. We want to thank each member for what they have done for us, thru the spiritual work they are doing.

Our vacation Bible school is now going on at Enochs Methodist church. We ask all parents to come visit with us and urge all boys and girls to attend. Wendy Leach of Stanton and Marvin Hill of Seminole, are visiting in the home of their grandparents, Brother and Mrs. Dorn, this week.

MYF Meeting

The MYF had a sub-district meeting at Morton June 10. They attended to business, such as to ask and see what boys and girls could attend one of the camps this summer. After business, there was 75 or 80 boys and girls served.

Elizabeth Dorn is back home at Enochs after a two weeks visit with her sister, Mrs. G. W. Leach in Stanton.

Don't forget Sunday is Fathers Day. Let's be in some church with our fathers. Don't let him down.

Mrs. Leon Reeves has been in the Muleshoe hospital but is much improved, so has been taken home.

Don't forget to pray a special prayer for our friends, Bro. James E. Harrell, who is still in

DRYDENS TO LEAVE ON VACATION TRIP

Mr. and Mrs. Bob Dryden and two daughters are leaving Sunday for a two weeks vacation trip to the mountains of New Mexico for trout fishing, then a few days on the Gulf Coast trying his hand at deep sea fishing. Mr. Dryden is the manager of the local Dunlap's department store.

Terry Gunter is visiting in the home of his grandparents, Mr. and Mrs. John Gunter, and attending the vacation Bible school.

Lynn Crabtree's mother and nephew are visiting in his home this week.

WMU Meets The Enochs WMU ladies entertained the S. A. girls Wednesday evening with a progressive supper.

The first course was served at Mrs. J. M. Angels, with juice, and the second course at Mrs. Dick Bryants with a Jello salad. The third course was at Dude Altman's with the meat and vegetables. The next course was served at Mrs. E. N. McCall's, with desert and then to prayer meeting.

The girls, Linda Guesendorf, Stella Henderson, Carolyn Whitfield, Kay Peterson, Linda Pearson, Nelda Seagler, and two counsellors, Mrs. J. J. Brockman and Mrs. Bud Thomas thank the ladies for a wonderful time.

Mrs. Sam Gholson Brings Program For Wesleyan Guild

Mrs. Sam McKinstry was hostess Monday night for the Wesleyan Guild of the First Methodist church. Mrs. Gholson, vice-president, presided for the business meeting, due to the absence of the president Mrs. E. C. Leveridge.

"Learning to Live Together," was the title of the interesting program brought by Mrs. Gholson.

The group voted to meet only once a month during July and August, resuming their regular meetings again in September.

Next meeting will be June 24 when an ice cream social will be held at the home of Mr. and Mrs. Homer Sanders, Jr., at which time husbands of the group will be guests.

Present Monday were Mmes. Lois Schenberger, Ray Edwards, Fred Johnson, S. D. Stemmmons, T. M. Stemmmons, Walt Colbert, Sam Gholson, A. S. Stovall, Miss Elizabeth Harden and one new member, Mrs. Edwin L. Hall.

And, behold, there are last which shall be first, and there are first which shall be last. —(St. Luke 13, 30.)

There are always among us the "firsts" in all fields of activity, and it is traditional that we honor their material success and achievement. But, in God's sight, the "firsts" among us may be the meekest, the lowliest, the most humble of people—for they put Him first, and love Him.

Three Way H. D. Club Meeting Hair Care Topic

Three Way H. D. club met June 5 in the club room at Maple with Mrs. Beatrice Dupler as hostess.

The speaker for the afternoon was Curtis Wellborn of Muleshoe. A very instructive talk was given by Mr. Wellborn on hair styles, problems of taking care of hair and different types of shampoo and hair preparations.

Three models were used by Mr. Wellborn to illustrate his talk. They were Misses Gwendolyn Williams and Claudia Cox, and Mrs. Beatrice Dupler.

Refreshments were served by the hostess to Mr. Wellborn, Gwendolyn Williams, Claudia Cox, and Virginia Klutts, club guests, and to club members, Mmes. Virgie Tyson, Sallie Robinson, Evelyn Davis, Hazel Gant, Ruth Eubanks, Bonnie Long, and Chise Klutts.

On June 20 we will have a frozen food demonstration in club.

Littlefield Man Named Assistant At Halfway Farm

Douglas Owen

Douglas Owen, Littlefield, is a new member of the staff at the High Plains Station, at Halfway with the title of assistant agronomist. Mr. Owen will be assisting with the entire research program during 1957 but will be assigned the responsibility for a part of the soils and crops research in 1958.

Owen graduated from Olton high school in 1947 and received his Bachelor of Science in Agricultural Education at Texas Tech in 1951. He was cashier for the Western Cotton Oil Company, Littlefield, prior to his Army service. His Army assignment was with the Counter Intelligence Corps serving the full

Representative Social Security Here On June 20

A representative of the Lubbock Social Security office will be in Muleshoe on June 20 at 9:30 a. m. at the Court Room, Courthouse, and will be glad to assist in all matters pertaining to Social Security.

More than one hundred thousand and severely disabled people in communities all over the Nation will receive their first social security disability insurance checks in August. John G. Hutton, district manager of the Lubbock Social Security office announced today.

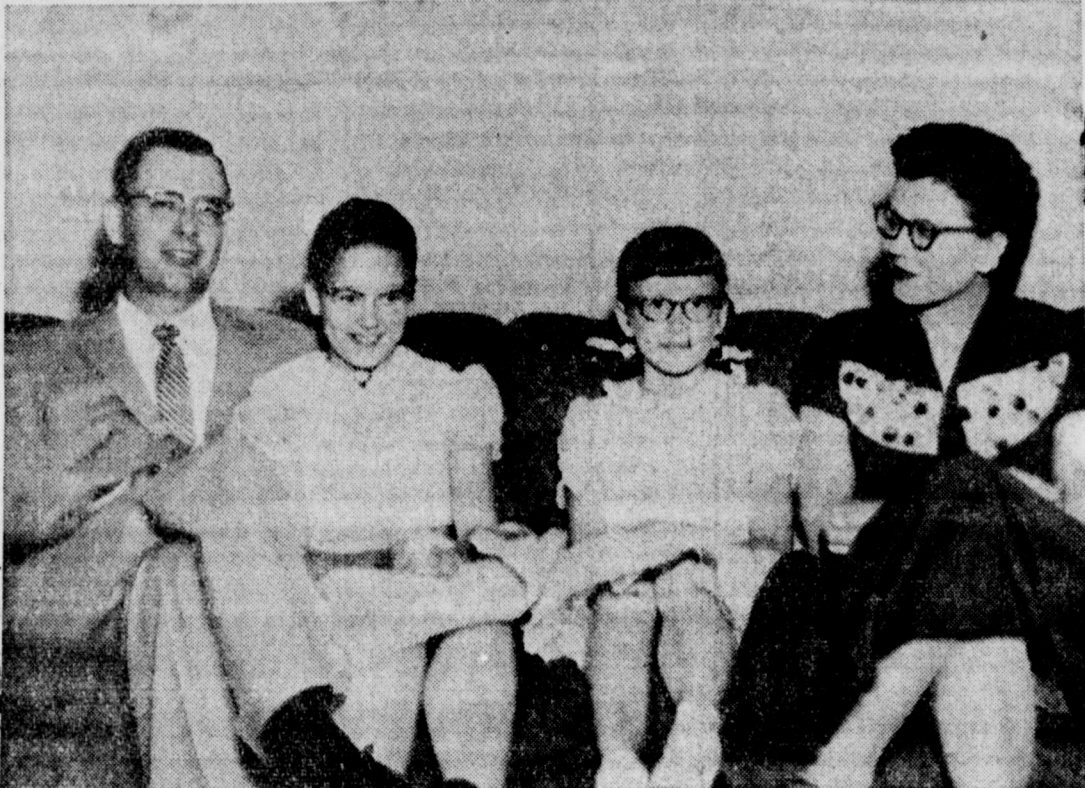

But many other eligible disabled workers 50 to 65 years of age, some of them no doubt living in Texas, have so far failed to make application to their social security offices. Those who have been disabled for work for a long time must apply before June 30. Mr. Hutton pointed out, or they will lose their rights to these new benefit payments.

Any severely disabled person who has worked under social

two years at the Army Intelligence Center in Baltimore, Md. Owen's farm experience was with Euel C. Jones, Olton. He worked most of his way through Texas Tech as a dormitory counselor and was active in Future Farmer and Alpha Zeta organizations at Tech.

Mrs. Owen finished high school at Littlefield and attended Texas Tech. Their home is in Littlefield at the present time but they hope to move to the Olton vicinity within the near future.

NEW MINISTER AND FAMILY

REV. EDWIN HALL AND FAMILY, pose for the Journal camera on arrival here last week where he will be pastor of Muleshoe Methodist Church.

New Methodist Pastor Is Native Of Lamb County; Moved From Pampa

The new pastor of Muleshoe Methodist Church is Rev. Edwin L. Hall, a native of Littlefield, and former pastor of St. Paul Methodist Church in Pampa, Texas.

Rev. Hall, his wife and two daughters, Donna, age 10; and Janet, age 8, moved into the parsonage here last week, and he preached his first sermon here the past Sunday. He was pastor of the Pampa church for five years.

security for at least 5 years and who has been disabled for 6 months or more should get in touch with his social security office right away, the social security manager said.

If he is between 50 and 65 years of age, he may be eligible to have his social security record frozen to protect his future right to disability payments, and also his and his family's rights to old-age and survivors insurance benefits.

Receiving his B. S. degree from McMurry, and B. D. degree from S. M. U., the Rev. Hall served in the 44th Infantry Division in the European, Mediterranean, and African theatres of war.

He is a member of the Jaycees, of the Kawanis club, Masonic lodge, and was Gray county chairman of the Polio chapter. His hobbies are fishing and golfing.

Mrs. Hall is a member of the OES and is a native of Anton, Texas. The children are in the third and sixth grades in school.

June 20 Date For Referendum By Wheat Growers

Wheat farmers will decide by referendum on June 20 whether or not they want marketing quotas on the 1958 wheat crop.

According to R. G. Shrauner, chairman, Texas Agricultural Stabilization and Conservation Committee, the recent proclamation of marketing quotas for the 1958 crop of wheat conforms with legislative directives. Under the governing legislation, the Secretary of Agriculture must proclaim marketing quotas for the next wheat crop when the available supply is 20 percent above the normal supply. The estimated supply of 1,825 million bushels available for the 1957-58 marketing year is actually 56 percent above the normal supply of 1,170 million bushels. The normal supply is based on estimated domestic consumption and exports plus a 20 percent carryover.

The quotas do not become effective, points out the chairman, unless at least two-thirds of the producers voting in the referendum favor the quotas. The outcome of the referendum will decide the level of the available price support for the 1958 crop, as well as whether quotas and penalties on "excess" wheat are used for the crop.

All wheat growers are eligible to vote in the June 20 referendum who will share in the 1958 wheat crop from a farm in the commercial wheat area on which the wheat acreage to be harvested, plus any acreage to be placed in the Soil Bank's wheat Acreage Reserve will be more than 15 acres.

Ballots in the referendum may be cast at local polling places which will be announced prior to June 20.

Shrauner urges all eligible wheat growers to vote and suggests if they have questions regarding wheat marketing quotas, that they get in touch with their local county ASC office.

ELECTRIC LIVING

IS FUN!

"In Guatemala or Texas, the simplicity of **ELECTRIC BROILING** makes delicious steaks!"

SAYS Mrs. R.C. Hutchinson, 1221 AUSTIN, AMARILLO, TEXAS

Mrs. Hutchinson, wife of an air force Colonel, who was Chief of the United States Air Force Mission to Guatemala, was called upon to entertain large groups of people in her Guatemalan home. She says, "At that time I had a deluxe electric range with 2 ovens, 2 broilers and 4 surface elements. Using this range, I have prepared dinner for as many as 75 people." In the upper picture, Mrs. Hutchinson sits beneath a Guatemalan work of art and displays flag of that country presented to her by a high official as a gesture of friendship. In Amarillo, Mrs. Hutchinson often broils steaks and finds the same ease of cooking that she noticed in Guatemala. She says, "The Indians there, who had never been to school, and could neither read nor write, were able to use my electric range, and other electrical equipment, with a few simple instructions". So, for ease of cooking, rely on Mrs. Hutchinson's experiences to guide you to your Reddy Kilowatt dealer store.

Senator Johnson Urges Survey Of Texas Rivers

Senator Lyndon B. Johnson said Sunday he is urging the Army Engineers to survey every river in Texas and recommend steps that would prevent a repetition of the current flood damage.

"I have had a major ambition since I have been in Congress," Senator Johnson said. "It is to live for the day when every river in Texas is controlled against flood damage insofar as we have the knowledge and the intelligence to do so."

Dams already constructed, he pointed out, have saved Texans

millions of dollars in property damage and many lives.

In passing the first four appropriation bills to be considered by both the House and the Senate, Congress saved the taxpayers nearly half a billion dollars, he said. He explained that this amount was sliced from the Presidential requests "and we have just barely started."

Senator Johnson also said that the decision to shift to a loan program in foreign aid offers a method of helping other nations "without imposing a perpetual burden on our taxpayers."

He said that the record on foreign loans since the end of World War II reveals that other nations have met their payments on time "almost without exception. He said that Congress would be "reluctant" to vote gifts but will give reasonable consideration of sound loan proposals.

Plymouth Sales At All Time High In Southwest Area

Plymouth automobile sales in the Southwest are at a record level and last month (May) hit an all time high with volume up 97 per cent over the corresponding period last year.

The May sales record topped the previous high month, March 1957, by 5 per cent and was ahead of April sales total by 13 per cent.

S. L. Noble, Southwest zone manager of Chrysler's sales

group, in commenting on the record month said, "This achievement is a strong indication that the economy in this area is firm. We expect sales to continue at this high level."

Noble continued, "It is obvious to us that the auto market today reflects the widespread public acceptance of the advanced styling and engineering features of the new Plymouth and other cars of the Chrysler Corporation."

Plymouth's sales gain contributed to a strong showing by the Chrysler Corporation in the Southwest last month. Sales for Chrysler Corporation cars and trucks in May were up 81 per cent over May 1956.

Since the introduction of the 1957 models last October, Ply-

mouth has moved back into third place in national automobile sales and according to the latest (June 1) Automotive News estimate has a production lead of 105,666 units over the nearest competitor.

To Attend Pastors' School

On Monday morning, June 10, Rev. Bill Watson, pastor of Progress Methodist Church, went to Dallas to attend a five weeks school for pastors at SMU. Mrs. Watson and their sons, Larry, Roy Wayne, Bruce and Phillip are staying with her parents, Mr. and Mrs. Early Daniels in Lubbock.

However, Rev. Watson plans to return to fill the pulpit next Sunday morning, June 16, and also on June 30.

Rev. Luther Kirk will preach July 7, and another preacher will hold the services June 23, possibly one from Whatharral. Some of the evening speakers will be laymen; but all regular services will be held. Constituents of the church are urged to continue regular attendance at all services, with no slacking in the work of the church.

WCSA Names Committees

On Thursday, June 6, the Progress Woman's Society of Christian Service met in the Fellowship hall for mission study. Johnnie Westbrook led the prayer circle. The new president, Fern Davis, conducted the business meeting and named ex-officio members of several committees. Mrs. Verla Stearns was elected as special WCSA member of the Education Commission. Jean Henry taught the study of U. S. Missions and led discussion.

"He sure knows how to pick 'em!"

Bridesmaid: You mean Lucille... or are you talking about their Oldsmobile?
Best Man: Both! But I was really looking at their car. What a beauty!
Bridesmaid: They sure are a lucky couple.
Best Man: And smart, too. That Olds costs less than you'd think. It has style that will stay in style. They get real comfort... a wonderful ride... and the big Rocket Engine...
Bridesmaid: She looked so lovely...
Best Man: They'll really find out how smart they are to own an Olds at trade-in time. Why, an Olds brings a better price than lots of the most expensive cars, even after a couple of years of use.
Bridesmaid: You know what I wish? I wish that someday...
Best Man: That you can own an Olds? Don't waste your wishes. Let's take a ride in my Golden Rocket 88. Maybe your dreams'll come true sooner than you expect.

Babson Discusses COMMODITIES

Babson Park, Mass., June 13 — During recent years, I have discussed in this column a wide variety of subjects, and I hope that these discussions have been interesting and useful to my many readers. Lately, I have been studying supply-demand relationships prevailing in some of the major commodity groups, and give below some of the highlights, as I see them.

BUILDING MATERIAL AND FUELS
Total volume of new construction put in place, on a dollar basis, hit a record high for the first four months of this year. However, the sharp drop in housing starts in 1957, compared with 1956, is curbing demand for some key items, particularly lumber, plumbing equipment, and other materials. I see no immediate major improvement in this adverse situation. Nevertheless, the total dollar volume of new construction will hold at a high level — a fact that will make for a still good total demand for building materials in coming months. Supplies, for the most part, will continue ample.

I see nothing to worry about in hard fuels. Production should continue in good balance with requirements. These will hold at satisfactory levels, allowing for the usual seasonal variations. Liquid fuels also will easily meet current and prospective needs. Gasoline stocks, though heavy, probably will not prove burdensome, now that the season of high consumption is close at hand. Large imports of petroleum and heavy fuel oil are causing concern in some quarters, and will be sharply curtailed, I forecast, either voluntarily or by government decree.

OUTLOOK FOR FOODSTUFFS
The over-all food outlook remains firm. Supplies of most major items will hold at relatively high levels. Supplies of meats, however, may be somewhat smaller this summer than last, largely reflecting an expected drop in the supply of pork. With pastures all over the country in excellent condition, milk production, from now through the summer will hold at a high rate. This should result in larger commercial supplies of dairy products but heavy CCC buying should help maintain prices.

Looking ahead a bit, I forecast that new food

commodities, even with only average weather conditions during the important growing periods, will again be large. Domestic demand for most food products, both fresh and frozen, will continue at a high level, reflecting a continued high rate of national employment and disposable consumer income.

Foreign demand for U. S. food products may, however, be less aggressive than it was a year ago.

GRAINS AND LIVESTOCK
Despite government efforts to reduce them, our grain and feed supplies in the aggregate are still large. Early indications point to another large supply of feed grains for 1957-58; the total may not differ materially from last year's record. Carryover stocks into the new season will be sharply above those of a year ago. These large current and prospective supplies should militate against any sustained price advances.

Supplies of well-fed beef cattle are by no means heavy. Currently, price strength prevails in feeder cattle, which have been in good demand. I forecast a rather heavy run of grass fat cattle, including feeders, this fall, and lower prices. Marketings of the 1956 fall pig crop are now well out of the way — and will probably be followed by temporarily higher average prices; but prices could turn sharply downward as marketings of the large spring pig crop increase.

INDUSTRIAL METALS AND TEXTILES
Demand for industrial commodities should be well maintained at good levels, allowing for the usual summer letdown. Supplies, for the most part, should suffice. Industrial prices may even strengthen moderately later in the year. Supply-demand ratios in the metals group lean more to the easy side than otherwise, but no shortages are indicated.

The domestic textile industry, by and large, has been in the doldrums for a long time. However, I forecast some improvement during the second half of this year. Cotton and wool prices will be the best performers, although I forecast nothing in the nature of a booming market. Supplies of the basic fibers are ample for the months immediately ahead.

TODAY'S MEDITATION

Read Acts 27:21-29.
They let go four anchors.
(Acts 27:29, Moffatt.)

We find a thrilling story of the sea in Acts, chapter 27. In fear lest the storm-tossed ship would be driven upon the rocks, the sailors "let go four anchors." Fearful people today are in search of anchors that will hold. Here are four.

Belief in God. God is the Creator of everything. No man can explain God or life, but you and I can believe. This anchor holds.

Belief in Christ. To believe in His birth, life, miracles, death, resurrection, ascension brings assurance. Do we understand the mysteries? No, but we can believe, have faith in Christ. This anchor takes hold.

Belief in the Bible. By heading and believing it, we find answers to problems, the way to life. This anchor is dependable.

Belief in prayer. We need not worry about a formula, but just talk over our problems with God.

In sunshine or rain, this anchor never fails.
These four anchors will hold. I know.

PRAYER
We thank Thee, Father, that in days of stress Thou hast prepared for us anchors that will hold — belief in Thee, in Christ, in the Bible, and in prayer. With Thy help we will deepen this faith that strengthens us for service. In Jesus' name. Amen.

Sandhill Philosopher Says Moving Inefficient Farmers To Town No Solution To Problem

Editor's note: The Sand Hills Philosopher on his Johnson Grass farm discusses inefficiency this week, a matter he may be an undisputed authority on.

I read a copy of a magazine in a barber shop the other day, you may be wondering what I was doing in a barber shop but it's no odder than some people I know visiting a bank, which set out to solve the farm problem.

According to it, the trouble with the farm situation is there are too many "uneconomic" farmers, by which it means farmers trying to make a living on too little land, or land that's too sorry, or because the farmers don't have enough initiative to farm anyway and if they have they don't have enough efficiency.

Therefore, the magazine concluded, these "uneconomic" farmers ought to move to a city and get a job there, the efficient farmers could take over, and the farm problem would end.

Aside from the fact I know some pretty efficient farmers and ranchers who've been having a little trouble the past few years, if borrowing money is any sign, the thing about this proposal that interests me is the idea of solving a problem by moving to the city where they've already got more problems than they can handle. The last time I was in a city it seemed to me there was already more folks on hand than the city could

handle, and a lot of folks there were wishing they had more room. I understand also there are quite a few "uneconomic" people in town already, at least they just don't seem to be able to make ends meet.

The thing to do is to have the uneconomic people in the country move to town and the uneconomic people in town move to the country.

While this might not solve the farm problem or the crowded city problem, think how much it'd benefit the moving van business. I'll tell you, if you're going to set up the rule that when a man can't quite make ends meet he ought to move some place else, you're going to wind up with the biggest traffic jam in the history of the universe. Uneconomic farmers trying to move to town won't be able to get there for uneconomic town people trying to get to the country. A good portion of the population would have to live in trailer houses, so they'd be all set to move on every time the first of the month bills came in.

Nope, this big magazine will have to try again. It hasn't solved the farm problem yet, but ought to keep trying, and all I hope is that in the interest of entertainment nobody lets em in on the secret there is no solution to it.

Yours faithfully,
J. A.

THIS WEEK -In Washington
With **Clinton Davidson**
Whatever you may think of Ezra Taft Benson as Secretary of Agriculture, and there are all shades of opinion, you would have to give him a high mark for courage under fire.
For nearly four and a half years he has been under a steady barrage of criticism and abuse. Few, if any, Agriculture Secretaries have had a rougher time in Washington than Benson.
He came to Washington as a member of the President's cabinet with the avowed objective of "liberating" farmers from high price supports, strict production controls and other government restrictions. He hasn't wavered from that purpose despite an unwillingness of many, if not most, farmers to be liberated. Politicians and congressional foes, including many Republicans, have said he has no political sense whatever.
Benson has persisted in his contention that throwing off the yoke of government controls and the crutch of price supports, while painful, is the only way farmers can regain freedom of production and marketing.
He spent a year, after coming to Washington, preparing for the campaign to replace rigid 90% of parity supports with a program of flexible supports, ranging from 75% to 90% of parity for some and zero to 90% for others. He won that battle in Congress in 1954.

Cadillac
Greatness Is Never Achieved Suddenly!
It has long been true, in the affairs of men, that only time can confirm the gift of greatness.
Artist, statesman, writer, craftsman—each must await the years for the maturity of his talent and for the verdict of his judges.
And as it is in the affairs of men, so it is in the world of commerce. Nothing great was ever created suddenly—whether the product be that of an individual or of an organization.
Here, most certainly, is the very genesis of the unique position which Cadillac currently occupies in the hearts and minds of the world's motorists.
Since the first Cadillac car made its appearance more than fifty-five years ago, it has always been created to a single objective: to make it as fine a motor car as it is possible to produce.
And, without question, the mission and the accomplishment have been one and the same.
The goodness of Cadillac has, in fact, been so apparent over that lengthy span that the Cadillac name stands today as an accepted synonym for quality wherever highways exist.
The pretenders have come—and they have gone. For time is an exacting taskmaster—and only the principles that have created the great Cadillac car and only the devotion that has given it being have been equal to the challenge.
Never has this fact been more deeply etched in the public consciousness than it is during the present automotive year.
If you have yet to take the wheel of a 1957 Cadillac, you should hesitate no longer to visit your authorized Cadillac dealer.
Waiting for you in his showroom is proof beyond doubt that Cadillac is—in fact as in reputation—the Standard of the World!

Bailey County Farm Bureau News

By Lonnie M. Bass

The Bailey County Farm Bureau directors met Tuesday evening, June 4, in the Farm Bureau office in Muleshoe. Directors present were W. T. Millen, president; W. E. Meyers, secretary; Joe Sooter, Lester Howard, Van Rogers, Partin Austin, W. T. Parker, and Jimmy Wedel. Service agents W. R. Carter and Lonnie M. Bass, and the guest speaker Jesse Osborn, State Representative were also present.

Rep. Osborn reported to the group on legislation that passed and other bills that failed to pass that affected this area. Rep. Osborn stated that all bills concerning water conservation passed that were submitted by the Water Resources Committee. Osborn voted for the reorganization of the Insurance Commission. He voted for HB 123 to give the Insurance Commission the authority to authorize on deviated rates, as your farm Bureau now does. This bill will permit the Commission to Ok or reject any company from writing fire insurance at a rate lower than the one authorized by the Commission.

He voted for the teacher pay raise that wound up at \$399 per year. He voted for the REA bill sponsored by the Rural Electric Co-op Association. Rep. Osborn served on the Conference Committee that writes the appropriation bills. This committee consists of five each from the Senate and House.

The code of ethics bill passed which means any director and/or officer of any business regulated by the State of Texas must file with the Secretary of State. Any-one covered by this bill must report any gifts received. Sometimes gifts have a tendency to carry influence.

The Lobby registration law did not pass. This is a very good bill for the State to adopt, but it tall-

Meilinda Hightower is on the sick list this week.

Move To Lubbock
Mr. and Mrs. Jerry Simpson have moved to 1928 Ave. N. in Lubbock. Jerry enrolled at Draughon's Monday, June 10.

Mr. and Mrs. Mickey Sowder and Bobby of Lubbock, visited in the community Sunday. Robby spent a few days with his grandparents, the Everett Sowders. Mrs. Cole, the maternal grandmother, took him back to Lubbock Tuesday. She was met at Littlefield by Kay, who was returning from her visit at Dimmitt.

Lynda Lowe spent last week at Lubbock with Lynda Rhea.

ed to get out of the Senate Committee. This bill passed the house by a large majority.

Rep. Osborn stated that the Senate voted on 2/3 majority rules. Texas has 31 Senators, therefore 11 can keep a bill from coming before the Senate.

Here is where most people overlook the importance of the Lieutenant Governor. He brings the bills up before the Senate when he so desires, appoints the Chairman of the Sub-Committee, etc. Therefore he can stall a bill he is against, or appoint the Committee that he knows can see it his way.

Those present enjoyed Rep. Osborn's report very much, and were enlightened on several points. We thank Rep. Osborn very much for his time and effort.

Following Rep. Osborn's talk the only other business transacted was the election of a bindweed committee. Those elected to serve on this committee were: Ed Little, B. H. Black, and Oran Gregory.

Parmer County Farm Bureau News

Parmer County FB News

Texas Farm Bureau membership is 1,000 above the same time last year. We hope; this trend will continue through the end of the year so that the membership for convention action will exceed that of any past year. Our county membership is about 20 above the same period last year, too.

Senator Andy Rogers is due expression of appreciation from the farmers of Texas for his staunch support of legislation affecting farmers favorably. He supported all of Texas Farm Bureau's bills. He also stood pat for the REA bill to protect the present and future of REA. In spite of great pressure from big private utilities to let it fall by the wayside. He would be glad to hear from you. Write him a letter after looking at his voting record.

Texas Farm Bureau was successful in gaining enactment of 17 bills it had sponsored as a result of county and state conventions last year. Some of these bills were never even mentioned in newspapers, but still are mighty important to every farmer in Texas. One of these is the law making it legal for you to use your farm licensed pickup to

GROWING IMPORTANCE OF IRRIGATION

Irrigation plays a much bigger part in Lone Star agriculture than most Texans realize.

Nearly a half billion acres of Texas land are now irrigated. About one-fifth of the crop land harvested in the state is irrigated land.

Although many centuries old, the practice of irrigation is relatively new in the state. There were no definite reports on the amount of irrigated Texas acreage until 1930, when less than 895,000 acres were irrigated.

But with the advent of larger, more mechanized farms in recent years, irrigation systems have spread to all corners of the state.

Irrigation has fit well into the ever-changing agricultural picture. It has been the answer to problems of drought, low yields and cost-price squeeze. And there probably isn't a farmer in Texas today who hasn't given some thought to irrigation.

This is no wishful thinking on the farmer's part — to want "rain" at the right time in the take your family to church or town for fun. This has been illegal in Texas. Another provides raises in pay for certain groups of school teachers. The commercial feed bill is one that should prove valuable to purchasers of feeds, insuring that they have in the sack what the tag says.

The weed committee, with Raymond Schueler as chairman, and with the assistance of extension service and ASC staffs is getting under way with a very active program against the spread of bindweed this year. We hope you are giving attention to this program if you have any bindweed on your place.

The fifth annual Farm Bureau Queen Contest for Parmer County will be held on the night of July 20. Mrs. J. T. Jones and her helpers are making steady progress with the event and it will surely be better than ever.

CONSIDER THIS: Do they not err that devise evil? But mercy and truth shall be to them that devise good. Prov. 14:22.

During the past year, numerous "clinics" and demonstrations have been held under auspices of county agents, Soil Conservation Districts and irrigation engineers and manufacturers. Economical, low-cost sprinkler systems have been devised for use on small tracts. Many of these operated last summer in East and Central Texas.

All indications point to an even bigger role for irrigation in Texas agriculture's future.

The New York Yankees and the Brooklyn Dodgers baseball teams each receive \$750,000 for the television rights to their games.

But if any man love God, the same is known of him. (1 Corinthians 8:3.)

The man who loves God — and lives that way — doesn't need to go about professing it. His goodness shows in his face, in his every word and deed, for he reflects the love of God upon his fellowmen, by expressing true brotherhood.

ed to get out of the Senate Committee. This bill passed the house by a large majority.

Rep. Osborn stated that the Senate voted on 2/3 majority rules. Texas has 31 Senators, therefore 11 can keep a bill from coming before the Senate.

Here is where most people overlook the importance of the Lieutenant Governor. He brings the bills up before the Senate when he so desires, appoints the Chairman of the Sub-Committee, etc. Therefore he can stall a bill he is against, or appoint the Committee that he knows can see it his way.

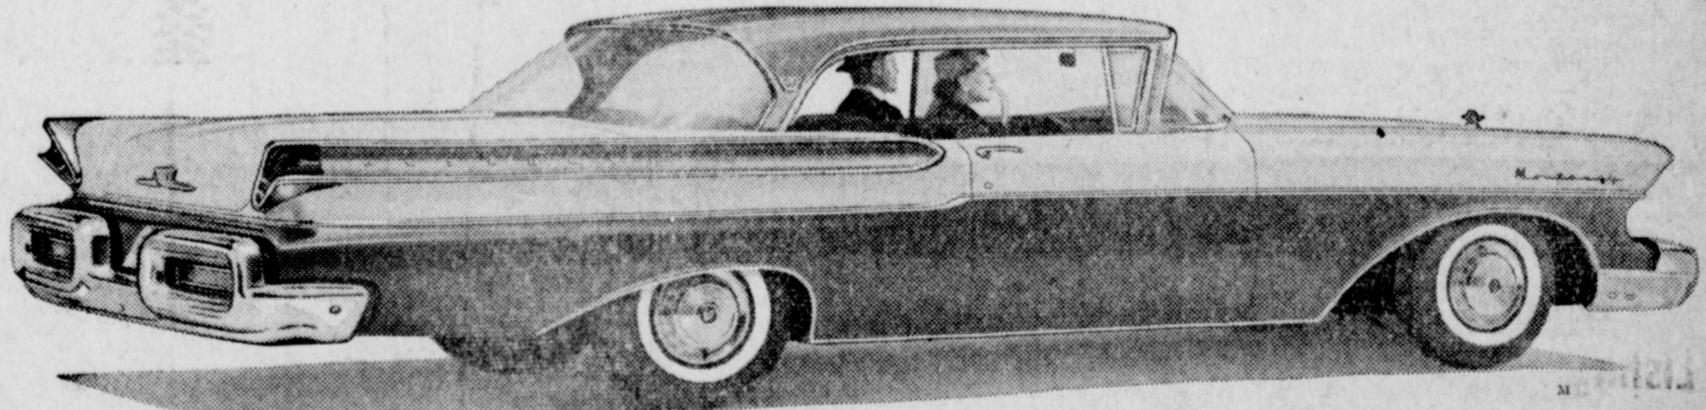

Those present enjoyed Rep. Osborn's report very much, and were enlightened on several points. We thank Rep. Osborn very much for his time and effort.

Following Rep. Osborn's talk the only other business transacted was the election of a bindweed committee. Those elected to serve on this committee were: Ed Little, B. H. Black, and Oran Gregory.

The big things you want cost less in a Mercury Monterey!

- YOU HAVE TO PAY OVER \$88 MORE** to get a 4-barrel carburetor as standard equipment in any competitive car. And Mercury's Thermo-Matic Carburetor is the only one that controls the temperature of the air the engine breathes.
- YOU HAVE TO PAY OVER \$130 MORE** to match the Monterey's brake size in any other car. The Monterey actually has bigger brakes than most of the highest priced cars!
- YOU HAVE TO PAY OVER \$150 MORE** to match Mercury's standard 255 horsepower in any competitive car. And the Monterey's optional engine offers a blazing 335 horsepower!
- YOU HAVE TO PAY OVER \$200 MORE** to get any other car with real dual headlights. No other car at the Monterey's price even offers duals. You can get Quadri-Beam headlights, a true 4-beam system, on all 19 Mercury models.
- YOU HAVE TO PAY OVER \$500 MORE** to match the Monterey's standard compression in any competitive car. Its compression ratio of 9.75 to 1 is close to the highest you can get in any car.
- YOU HAVE TO PAY OVER \$1,000 MORE** to match The Big M Monterey's hip room and rear seat leg room. Mercury has the biggest size increase in the industry — bigger in every important dimension!
- YOU HAVE TO PAY OVER \$2,000 MORE** to match Mercury's width in any other car. You can match it only in America's three costliest cars!

The price comparisons stated are based on factory suggested retail delivered prices.

BIGGEST VALUE INCREASE IN THE INDUSTRY! The Big M is up in size, in power, in luxury, in everything that counts in a car. But the price is still low — just an easy step up from the low-priced three.

WHY re-enlist in the small-car army?

READ THIS STARTLING FACT

5 out of 10 Smaller Cars wear a Pontiac Price Tag —yet none gives you Any of Pontiac's Advantages

PONTIAC GIVES YOU UP TO 8.9% MORE SOLID CAR PER DOLLAR!

Not one of the smaller cars can give you the heavy-duty construction, the road-hugging heft and solid security that surround you in every Pontiac. Yet Pontiac's the nimblest heavyweight you ever managed—and your Pontiac dealer can show you more than six dozen advanced-engineering reasons why! Pontiac has gone all out to make this genuine big car the best behaved beauty that you ever had the pleasure of bossing. You'll find Pontiac's exclusive Precision-Touch Controls make steering and braking the surest, easiest you've ever experienced! Park it, cruise it, try it in stop-and-go traffic... this is driving the smaller jobs can't duplicate.

PONTIAC GIVES YOU 4 TO 7 INCHES MORE WHEELBASE!

The small cars extend bumpers and fenders to look big—but Pontiac puts the extra length where it counts—between the wheels! Pontiac's longer stride brackets the bumps instead of riding on them. And this extra length shows up inside, too, in stretch-out space for six footers. Add to Pontiac's bonus in length its all-new suspension system and you have an exclusive Level-Line Ride no car at any price can surpass... and a built-in sense of direction and security that will spoil you for the smaller cars forever!

PONTIAC'S PERFORMANCE TOPS THE BEST THE SMALL CARS CAN OFFER—BY A WIDE MARGIN!

Not one of the smaller cars can measure up to Pontiac Performance. Whether you judge a power plant by engineering statistics or on-the-road performance, Pontiac's Strato-Streak V-8 stands head and shoulders above anything in the low-price field. Your Pontiac dealer will be happy to show you a complete facts-and-figures comparison—then an eye-opening test drive in traffic or out on the highway will supply all the heart-lifting proof you need that Pontiac has separated the men from the boys when it comes to performance!

—AND PONTIAC HAS ALWAYS BEEN FAMOUS AS ONE OF AMERICA'S TOP TRADE-INS!

Maybe it comes as a surprise to you that so much more car can be yours at the same price you've seen on the smaller cars. But there's the fact! And Pontiac is a wonderful investment, too! As you know, it has always commanded a top trade-in. So why not step out of the small-car class and into a Pontiac... there's nothing in your way. Your Pontiac dealer has the keys and an eye-opening offer waiting for you right now!

So why not look and feel like a million—instead of a million others?

PERSONALS

I AM NO LONGER RESPONSIBLE FOR MY WIFE'S ACTIONS

(Since she got her new kind of Ford)

"If she is unbelievably happy at 7:00 A. M. every morning, I now hold her 1957 Ford responsible. If she is off for the day at 7:02 A. M., I suggest that it is the power of Ford's Thunderbird V-8 engine. If she appears vastly more style-conscious, it is the longer, lower lines of her new kind of Ford that have made her so.

"If she arrives home remarkably refreshed, I refer you to the lower, more comfortable seats, the wider wrap-around windshield and the other peace-of-mind features of her new "Inner Ford." If she's just a bit more spoiled, don't blame her. With optional power steering, power brakes, power windows and seat—who wouldn't be?

"And if she is constantly raving about the savings her new car brings her, she's merely confirming what I've been telling her about Fords for years! Sure, we're a too-Ford family now. But even having one Ford in the family was more fun than you can imagine! Try a new '57 Ford at your house. It's Terrific!"

Washington News Letter

by LYNDON JOHNSON

Dear Friend:
The Administration's Foreign Aid Bill will come to the floor of the Senate soon. The entire record of the foreign aid program should be studied carefully in order to find the best course for our country.
Two types of assistance have been included in our economic aid program since the end of World War II: direct grants in which we simply give another country money or goods; loans for which we expect repayment.

Personally, I believe that nations are like people. At times a direct grant may be necessary to someone who is suffering and in distress. But, generally speaking, people who are in trouble prefer a loan that helps them get back on their feet.

The U. S. is collecting on time practically every loan it has made since the end of World War II. The Treasury has been enriched by \$127,000,000 interest payments on 1948 loans to foreign countries. In other words, we have helped these countries and in the long run they will feel better about it and our taxpayers will not suffer.

On April 26, speaking in San Antonio, I said:
"We are NOT seeking to buy friendship or to create a system of satellite nations. We seek rather to help people become self-supporting. And gifts, however well intentioned, rarely accomplish that end."
"A shift from grants to a loan program will help other people help themselves. It is a concept I have long favored."

I was pleased to find the same thought in the President's message to the people explaining his program. He said:
"In this whole program, we do not seek to buy friends. We do not seek to make satellites. We do seek to help other peoples to become strong and stay free."
The President's shift to this concept is realistic and wise.

Tips on Control Of Bindweed In Cotton Fields

Bindweed can put cotton farmers in a real bind. This rapidly-spreading menace will completely dominate infested field sites with a deep-rooted persistence unless properly treated.
Before you declare war on bindweed, knowledge of a few basic facts are essential. It has arrow-shaped leaves and small, white, bell-shaped flowers, making it relatively easy to identify. Some times called the "mosi" (bindweed in Texas), it is rather common in wheat growing regions.

However, it is widely scattered in many other areas.

Fred Elliott, Extension Cotton Specialist, says small spots of bindweed can be controlled in cotton with "Kuron" and kerosene. Start immediately, the specialist urges, destroy the crop in bindweed spots if necessary. On 1/4 acre or less spots, apply 1 1/2 to 2 gallons "Kuron" mixed in 100 gallons kerosene to the foliage and crowns of bindweed in or close to cotton.

Spray below 8 inches for best results, using a 5 pound per square inch pressure or less. Spray surviving plants the next day and leave soil undisturbed for remainder of the season. Treat any new bindweed at emergence for two seasons, Elliott adds.

The specialist figures 100 percent control from two or more treatments will cost about \$75 to \$150 per acre in the spot for first season work and \$5 to \$10 the following spring.

Watch for bindweed seedlings several years and destroy them immediately to prevent reinfestation. Crops many times fail to emerge in treated spots the following year.

CAUTION: minor drift damage near the spot sometimes occurs the first year, Elliott advises using a cheaper method for reducing extensive infestations before starting with the "Kuron" oil mixture. Your county agent can provide more details.

HOLMES FAMILY SPENT VACATION IN CALIFORNIA

Mr. and Mrs. J. W. Holmes and children, and Mrs. Holmes' niece, Mrs. Ethyl Lea Mieson spent a week and a half in Long Beach, Calif. The Holmes were visiting their son and family, Wayne Holmes, who is in the Navy and stationed there.
Going out there they went through the Mojave Desert. As they were driving along the temperature was well over 100 degrees; there appeared a white cloud on the mountain, and in a very short time the mountain top was white with snow. A few points of interest they visited were: Disneyland, Ghost Town, and Marine Land. They also drove through Beverly Hills.

EVEN if the food is supplied by a caterer, someone usually cooks his own goose at a company picnic.

The amount of lemon in the lemonade decreases in geometric proportion to the number of unexpected guests at a lawn party.

Fellow we know isn't going anywhere this summer. He spent his vacation all during the past year.

Small craft warnings should be displayed for parents whose children own a set of boats for use in the bathtub.

Board Of Trade Film Shown Here

A film on the set-up and functioning of the Chicago Board of Trade was shown for the program at the Tuesday meeting of the Rotary Club. Called "After the Harvest", the film was very educational in nature and interesting to those present.
It was secured for showing here by E. O. Baker, who with J. M. Forbes and their wives visited the Board of Trade building on their trip to Chicago. Earl Ladd, Muleshoe implement dealer, was projectionist.

The film showed how transactions on the Board of Trade in both cash and futures trading, serve to stabilize prices throughout the world; preventing runaway prices for grain and consequently higher prices for many foodstuffs.
Visitors included W. M. Kunkel, Cooperative elevator manager; Doc Botkin, new manager for Pioneer Gas; Arthur Crow of C. & H. Chevrolet; Tom Henderson, Sudan Rotary Club; and Gus Shaw, Littlefield Rotarian.

He will work with the young people of the church and the MYF organization.

Special Services Begin On June 19 Nazarene Church

Rev. J. Reynald Russell

Mr. Russell served as pastor in Mississippi and Texas for 10 years and organized two new churches. He received his religious training at Treveca Nazarene College in Nashville, and Bethany Nazarene College in Bethany, Oklahoma.
Mrs. Russell will accompany her husband, and assist with the music of the meeting.
Rev. Orval Akers, pastor of the church, extends a cordial invitation to the public to attend these special services.

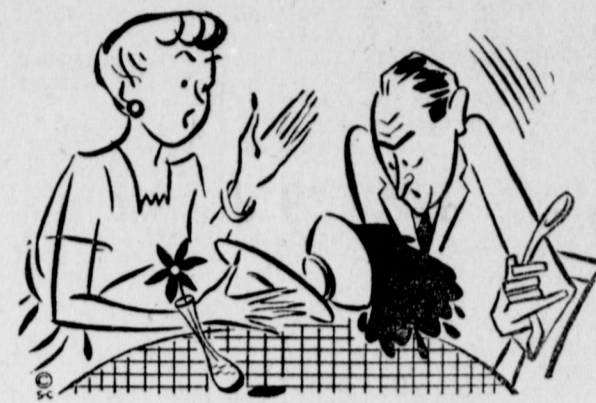

Rev. J. Reynald Russell, considered by many as one of the outstanding ministers of the Church of the Nazarene, will begin special services at the Muleshoe Church of the Nazarene June 19, through June 20. Services will begin at 7:45 each evening, and Sunday morning services will begin at 11 a.m. Prior to entering evangelism.

HERE FROM ILLINOIS

Mrs. Beulah Clarke of Mt. Sterling, Ill., is here for a visit with her daughter and son-in-law, Mr. and Mrs. Babe Barbour. She was accompanied here by her son and family, Mr. and Mrs. John Clarke and son, Dickie, also of Mt. Sterling, who went on to California for a visit with relatives and friends.

CARD OF THANKS

We wish to thank this means of expressing our thanks and appreciation to each one that helped in any way during the illness and death of our beloved husband, and father. Especially to those that set up and brought food, for every word of comfort. Also to Dr. Green and the nurses that worked so hard and were so kind.
May God bless each of you.
The Buchanan Family.
