State Campaign for Prohibition Repeal

Majority of District Chairmen Appointed at Fort Worth Conference.

Fort Worth, Texas.—The overwhelming votes by which Indiana and Illinois voted for repeal of the Eighteenth Amendment to the Federal Constitution were hailed today by Judge John M. Mathis, Sr., of Houston, chairman of the Texas Liberal Legion, as an indication of the way the Nation is going.

going.

Judge Mathis recalled a remark made by Dishop James Cannon, Jr., leading prohibition advocate before the Indiana election that "If we can win in Indiana, we can or vent repeat."

"The inference in Bishop Cannon's remark." Judge Mathis pointed out, "was that if the prohibitionists could not carry Indiana, they might as well give up hope of carrying the thirteen

give up hope of carrying the thirteen States necessary to prevent the adop-tion of the Twenty-first Amendment. Well, it looks like the Bishop will have to admit that National Prohibition is doomed. Not only did they not carry Indiana, heretofore one of the 'drycet' States in the mic west, but after the overwhelming majority by which Indiana. Illinois and the other eight States that have voted so far ratifed repeal, it looks as if the prohibitionists will be hard put to it to carry a single State."

hard out to it to carry a single State."

Judge Mathis, whose organization is waging the fight in Texas, for both legalization of 3.2 per cent beer and repeal of the National Prohibition Amendment, went on to say that "of course everybody knew it was a foregone conclusion that Illinois, New York, New Jersey, Delaware, Rhode Island, Michigar, Wisconsin, Nevada and Wyoming would ratify the repeal amendment; but nobody, no matter how enthusiastic, ever dreamed these eight States would pile up such tremendous majorities for real temperance against bootleg liquor.

"Such consistently large majorities, with even the heretofore dry sections

with even the heretofore dry sections of these eight States going for reneal, coupled with the Indiana and Illinois returns, can mean only one thing: that Texas and the entire Nation at last realize what a failure prohibition has

Even when the prohibition wave was at its height, the Houston liberal recalled, the vote in Texas was close, "as all know who can remember the election in which the State adopted State-wide prohibition. So with the present ebb in the prohibition tide, with thousands and tens of thousands of life-long drys convinced by events that temperance can not be enforced by law, it would be a miracle indeed if Texas did not join the parade of States August 26th and vote for repeal and legalization of 3.2 per cent beer."

The judge said, with a twinkle in his eye, that a prohibitionist reminded him

bling. "One thinks he can live without working, and the other that he can make people curb their appetites by passing a law instead of educating them."

In this way, the Houston liberal sought to bring home the point that "the Texas Liberal Legion's aim is the same as that of the sincere prohibition, in his view, would be a wonderful thing if it would work, but it has not.

The State campaign for reneal "real."

thing if it would work, but it has not.

The State campaign for reneal "really got under way this week," Judge Methis said, with the return of the various Senatorial district chairmen to their districts after the State-wide conference at State Headquarters here last Friday. Only a few of these district chairmen remain to be appoint

conference at State Headquarters here last Friday. Only a few of these district chairmen remain to be appointed. Those already named are:

First district, W. A. McCertney, of Temarkann; second, Tom Foster, of Kilgore; third, J. J. Collins, of Luffing fourth, Bill Len, of Orange; sinth Bruce Gillian, of Frost; eighth, John T. Dickson, of Paris; tenth, Guy Marsey, of Greenville; eleventh, Earry P. Lawther, of Dallas; tweltth, E. T. Underwood, of Itarca; fourteenth, Sam D. W. Low, of Brenham; fifteenth, Sanator Gus Russek, of Schulenberg; sixteenth, John H. Kirby, of Houston; seventsenth, Cantain E. Morrest, of Galveston; eighteenth, August C. Hartman, of Cuero; nineteenth, R. E. McKie, of Ern Marcos; twentieth, Polk Shelton, of Austin; twenty-first, Sam Roddy, of Temple; twenty-third, Judge Harvey Harris, of Wichita Falls; twenty-fifth, Claylor Vincen of San Roddy, of Temple; twenty-third, Judae Harvey Harris, of Wichita Falls; twenty-fifth, Clyde Vinson, of Sar Angelo; twenty-sixth, Preston Anderson, of San Antenio; twenty-seventh Sanator Archie Parr, of Benevides; twenty-eighth, Sam Sayers, of Fort Worth; twenty-ninth, A. All over the country, men beautiful park and swimming pool, would certainly be a good thing for our people. All of us should get behind these projects and give the Judge and the court our loyal support in their efforts to procure them.

> We believe that the Industrial Recovery-Public Works measure recently passed by Congress at the insistent request of President Roosevelt has in it remarkable possibilities as a restorer of prosperity. It will put millions of the unemployed to work. When men go to work they begin spending money-buying more clothing, more furniture, more automobiles, more merchandise of every description. That puts still more men to work and at the same time creates a demand for the things that the farmer has to sell. Business in all the stores picks up. Eliminate unemployment and we are already far back on the road to prosperityat least to "normalcy". Better times are coming.

> Our governors should be more careful in appointing men to serve on the state ranger force. For many years there have been men of doubtful character in the service. We have known a number of outright crooks and dead-beats who carried a ranger's commission and a big gun. Only men of proven character, courage, and devotion to duty should be allowed to serve in this capacity.

Helped By Cardui

Here's the true story of how Car-dui helped Mrs. H. E. Dunaway, of McComb, Miss., as written by

"I was sick and rather discouraged. I was so weak and thin, I was not able to do my work as it should be done. This made me fret a good deal, and did not help my condition.

fret a good deal, and did not help my condition.

"I had pains across my back and lower part of my body. My nights were spent in rolling from one side of the bed to the other, hoping I would soon go to sleep. Then when morning would come, I would be just as tired as when I went to bed. A neighbor, seeing how badly I felt, told me to try Cardui. After I had taken one bottle, I was much better. I kept on taking Cardui, and I was stronger and slept much better at night."

A COMPANY THIRTY YEARS OLD

Last Friday the Ford Motor Company completed 30 years of automobile

It is also my fortieth year at the same job. I made my first engine making. in 1893, and it still runs. This is the engine that won the Selden Patent Suit-which took the motor car out of the exclusive class, and opened the automobile industry to hundreds of manufacturers who started during the last 30 years.

Some of the men who began with me that June day in 1903, are working here yet. All of the principles we laid down then, are still operative; we find that they have great survival value for the future. To date they have produced and sold over 21,000,000 Ford cars.

Although we created the automobile market we have never thought it was good for anyone to monopolize it. We have always believed that before business could be good for one, it must be good for all. Our discoveries and improvements have always been open to other manufacturers without patent restrictions.

Of course, there is one thing we cannot share—everyone must get it for himself-and that is experience. Money could duplicate our buildings and machines, but it cannot duplicate 40 years of experience. And it is experience that makes a motor car.

But the past does not especially concern me; it has all been a preparation for the future. For myself, I feel that I have just been gathering the tools to do something worth while, and that my real task is still ahead.

Great changes are upon the world. False ideas of every kind are vanishing in the general upheaval. Those who built truly on principle will survive-their service will carry over. Business integrity and commodity . honor will be fully justified. And newer and better ways of living will

That is the outlook for this young thirty-year old Company of ours.

A TREE TOAD VETOED

Tongue twisters are always interesting, and if used as speech exercises they will aid one's pronunciation. Here is a dandy twister with a bit of modernism in it.

A tree toad loved a she toad that lived up in a tree. She was a three-toed tree toad, but a two-toed toad was he.

the she toad's friendly nod, or the two-toed tree toad loved the ground that the three toed tree

toad trod. ut vainly the two-toed tree toad tried; he couldn't please her whim. In her tree toad bower, with her veto power, the she toad vetoed him.

SLATON IS PLANNING JULY 4TH CELEBRATION

Slaton, June 22-Arrangements are being made for Slaton's Fourth of July celebration, which is sponsored by the American Legion, assisted by the chamber of commerce, retail merchants' ashociation, Rotary club members, and others.

The day will open with a street parade, starting on Texas avenue and marching around the business portion of the city square and then to the community house. The Legion, boy scouts and chamber of commerce band will head the parade.

At the community house there will be some speaking, music, a ball game between teams of juniors, a girl's bicycle race, a terapin race and other amusements. A basket lunch on the club-house lawn is planned.

In the afternoon there will be a baseball game between Slaton and Tahoka, a square dance, old fiddlers'

contest and other contests. At night a dance is promised by

the American Legion. Invitations have been sent out to surrounding communities and nearby towns. Prizes for first and second places will be awarded in each con-

RED CROSS VOLUNTEERS PRINT BOOKS FOR BLIND

One of the most appealing services that is carried forward by women volunteers under the American Red Cross is that of transcribing popular and scientific books into Braille for reading by the blind. This work was started at Evergreen hospital, where blind veterans of the World War were sent after the Armistice.

The Red Cross now has 1,155 volumteer Braille transcribers, and last year they produced 442 titles in 1,849 volumes, or 175,000 pages of Braille. The majority of the books go to the Library of Congress and public is throughout the country, albraries some of the books go to schools for the blind and, in a few instances, text books are transcribed for some individual scholar in order to help him complete his course is some study.

The work is supported from the Red Cross Roll Call for members which occurs each year from Armistice Day to Thanksgiving Day.

What Makes a Safe Tire? KNOW!

ARE you willing to risk your life on advertising statements claiming blowout-proof and unblowable tires? One manufacturer gives as the reason for claiming plowout-proof tires-the use of one ply of another color-another, a patented "no breaker" construction-a mail order house, high stretch "slastie" cords, etc., etc., Actually the fundamental cause of a tire blowout is the flexing of the tire which causes friction of the fibers in the cord, resulting in heat

THE MASTERPIECE OF TIRE CONSTRUCTION and causing the rubber to soften

Features Give You Greater

STRENGTH and SAFETY

Firestone Spark Plugs Save Gasoline

Each in Set

and the cords to deteriorate. There is a reason why Firestone Tires have won the 500-mile indianapolis race for 14 consecutive years, the most gruelling tire test. The reason is the Firestone patented extra process of Gum-Dipping which saturates every fiber and insulates every cord with pure rubber—which gives strength to the cords and prevents friction and heat in the fibers. This year 42 drivers in this race equipped their cars with Firestone Gum-Dipped Tires and not a single driver had any tire trouble.

Race drivers know why Firestone Cum-Dipped Tires are safer and not subject to blowout and will not risk their lives on ordinary tires. Your life and the lives of your family are often in danger at the high road speeds of today and you should not take greater risks than the race drivers who make sure that they have the best and safest tires they can buy—Firestone. Come in today. We will give you a liberal trade-in allowance for your old tires on new Firestone High Speed Tires—the safest tires in the world
