Farmers Signing Acreage Cut Contracts

HUNT OUTLAWS NEAR COLEMAN

Trammell Brothers, Tahoka Jail-Breakers, Spread Terror In Two Counties

Abilene, July 5—Continuing their success in eluding a posse which has been in pursuit for more than a week, two hijackers believed to be fugitives from the Tahoka jail Tuesday engaged four officers in a gun battle and escaped afoot to a nearby ranch to replace a stolen auto left behind when they were surprised at a farm house between Novice and Glen Cove, in Coleman county.

Series Of Robberies

The pair, sought for a series of robberies beginning with the hijacking last Tuesday of Dr. C. W. Dunn and a companion just south of Abilene, were preparing to eat a noon meal at the home of Sam Light, farmer, when a party headed by Sheriff Frank Mills of Coleman drove up to the house. Fleeing through a back door, the men headed for a shinnery thicket from which they exchanged shots with the officers. They escaped through brush to the Baker ranch two and a half miles away, to commandeer a Pontiac coupe in which a getaway was made.

Heading west toward Runnels county, the men were followed closely by several cars of officers and citizens of Novice, who joined in the hunt. The pursued car turned south at Bragg, and the next report of its whereabouts came from Leaday, in the southwest part of Coleman county, where the hijackers wrecked one automobile and stole another Monday night.

Darkness Stops Hunt
Officers late yesterday scoured the countryside south of Valera, 12 miles west of Coleman, but were forced by darkness to give up the search. Mountainous country in that area of-

Former Citizen Killed By Negro

Sam Lanford, the Dallas police officer who was shot and mortally wounded by a negro ex-convict in Dallas last Thursday morning, was an uncle of Mrs. G. M. Reid and Mrs. M. O. Canaday of this city and resided in this county about three years. Mr. and Mrs. Reid went down to Dallas Thursday night to attend the funeral services, which were held Friday afternoon.

Lanford lived on the Lockwood farm north of Tahoka two or three years, removing to Dallas about eight years ago. He had been on the Dallas police force seven years when he killed R. T. Bennett, the 25-year-old negro who killed Lanford, has signed a statement confessing the crime and also confessing that he is the murderer of Mrs. H. K. Buchanan, who was strangled to death in her room on the night of December 1, 1932.

On Wednesday night, the negro stated, he went out with the intention of burglarizing some house. About 2 o'clock Thursday morning he entered the home of one Mrs. Potter. She was awakened and ran out of the house and collapsed. He left but soon encountered officers. He hid behind a garage in the rear of a residence and when Lanford came around the corner, Bennett, the negro, began firing, inflicting the fatal wounds. Lanford died a few hours later.

Mr. and Mrs. L. C. LeSurre came from San Diego, California, Saturday night to visit Mr. and Mrs. A. L. Lockwood, Mrs. LeSurre and Mrs. Lockwood being sisters. They expect to be here two or three weeks. Mrs. LeSurre was one of the pioneers of Lynn county.

Mrs. J. B. Walker has been ill this week but is improving. Her condition is not regarded as serious. Her sister, Miss Jo Bulloch of Aspermont, was here the first of the week but has returned to her home.

T-BAR YOUTH SHOT TUESDAY

Frank Williams Victim Of Accident While Visiting In Lamesa Fourth Of July

A terrible tragedy came to the home of W. A. S. Williams of the T-Bar community Tuesday afternoon when a son, Frank, a youth of 18, was killed by the accidental discharge of a pistol in the hands of a companion, Herschel Hayes, while the two were in the home of D. S. Hester in Lamesa.

It is said that Hayes was endeavoring to unload the pistol when the accident occurred. Hayes also lives in the T-Bar community. The two were visiting the Hester family and attending Fourth of July festivities in Lamesa, Hester being a brother-in-law of the deceased.

Funeral services were conducted in Lamesa and the remains were interred there. The Williams family is well known in the T-Bar community and many friends of the family deeply regret the terrible tragedy.

PRODUCE FIRM MOVES

The Borden Produce Company has moved its place of business from the building next door to Bovell's Bakery to the building on the corner next door to the News office.

Negroes Celebrate Fourth In Tahoka

The colored population of Tahoka staged a two-days program here in celebration of the Glorious Fourth. Deprived of the opportunity to celebrate the "Junetenth" on account of celebrations in various neighboring towns, the Negroes here decided to pull a good one on the Fourth. Accordingly, they had ball games and other festivities Monday and Tuesday, winding up with a dance "over on the hill" Tuesday night.

People of color were here Tuesday from Ralls, Slaton, Lubbock, Lamesa, and Brownfield. On Monday, the Tahoka Colored Baseball team played Brownfield, running up a score of 21 while the visitors registered only 5. On Tuesday they went to the mat with the Ralls team. This was a closer game, but Tahoka again won with a score of 10 to 8. Earl Lee Lawson, captain of the Tahoka team, proudly declared Wednesday that Tahoka now has the best colored team on all the South Plains. This team lost to Brownfield in that city on Sunday, however. The score was 17 to 14 in Brownfield's favor.

Inspirational Talks At Methodist Church

The inspirational message heard at the Methodist Church Sunday morning was titled "The Afterglow of the Pentecost," and following the sacrament of the Lord's Supper was most impressive and appropriate.

Church school began with a reverie "In A Canoe" by Wright and the feature was a duet "Does Jesus Care" sung by Miss Ruth Suddarth and Boswell Edwards. W. E. Suddarth was "pinch-hitter" for the absent superintendent.

At the evening hour, Rev. Smith assumed an artist role in his really beautiful picturization of the text: "Behold the Lamb of God . . ."

The Young People greatly enjoyed a union meeting held in the afternoon at Draw, and quite a number attended. The Wednesday evening hours beginning at 7, with their splendid four-fold programs, are making new and better friends for the church and its program. Come and enjoy the fun and fellowship in each place. On Tuesday evening the young folk did some manual labor around the church grounds and enjoyed a picnic lunch, preceding their study course hour.

Let's be there Sunday—two hundred strong.—Reporter.

Mrs. T. C. Boucher and baby of Abilene is here this week visiting the Woolsley family, Mrs. Boucher being a daughter of J. K. Woolsley.

Palo Duro Canyon, Scenic Wonder Of Texas, Will Become Great State Park

Announcement was made from Washington, D. C., Friday night of final approval of the Palo Duro Canyon park project. Work will begin immediately, and Panhandle-Plains citizens will now see a thirty-years' dream come true. Success of the project is due to work of public spirited citizens of Amarillo, Canyon, and Claude, the State Park Board, Senator Tom Connolly, and Congressman Marvin Jones.

Palo Duro Canyon is one of the scenic wonders of Texas, and, though not nearly so deep, is said to match the Grand Canyon in color. At any rate, it is well worthy of development into a State or National park.

The canyon opens about three miles northeast of Canyon and extends east about ten miles, thence south and southeast for at least thirty-five miles. The deepest and most picturesque area is about twelve miles east of Canyon, where the park will be established. Here the gorge is 1700 feet deep. The multi-color strata of rock and soil, the sheer cliffs, the vegetation, the buttes in the canyon valley, the wind-

(Continued on last page)

SHOWERS ARE AID TO CROPS

Rain Here Wednesday Totals .47 Of Inch; Other Sections Get Good Showers

Rain amounting to .47 of an inch fell in Tahoka Wednesday afternoon. West and southwest of town the precipitation was much heavier. At the C. E. Donaldson place between T-Bar and Three Lakes, an inch and a half is reported, and a good rain fell in the T-Bar and Three Lakes communities. O'Donnell was favored with a nice shower. North of town a good rain fell, extending out beyond the Cross Roads filling station. At Dixie and New Home light showers fell. The rain extended only a short distance east and southeast of town; no rain falling over a large section of the county.

These showers will be beneficial to the crops in the territory covered. Portions of the county not visited by these showers are exceedingly dry, having received very little rain during the entire year. This is particularly true of the Midway, Redwine, Draw, and Joe Bailey communities.

Williams' Home Destroyed By Fire

A farm house belonging to Carl Williams, situated four miles nearly east of Draw, was totally destroyed by fire last Friday night. Practically all the furniture in the house and a Whippet automobile standing by the side of the house were likewise destroyed.

The fire started from an oil stove that was left burning while Mrs. Williams was out at the barn gathering up the eggs. Mr. Williams was still in the field and could not get to the house in time to save it.

Neighbors and friends and business men of Tahoka and other places made donations of money and merchandise for the benefit of the unfortunate family.

Kellis Buys Old Index Building

The old O'Donnell Index building was sold at sheriff's sale here Tuesday to satisfy a judgment in favor of C. H. Doak and H. E. Baldrige against J. W. and Sam Roberts. The building was bought in by Tom Kellis, a former owner and publisher of the Index.

Kellis indicated that he might establish a new paper in O'Donnell some time next Fall.

Dr. and Mrs. E. E. Calaway and Mr. and Mrs. C. A. Thomas and son Skiles returned Sunday night from Chicago, where they went to see the World's Fair. According to Dr. Calaway and Mr. Thomas, this is some show. Get 'em to tell you about it—too much to print in a country newspaper.

J. Emory Nance, former Security State Bank employee here and a son-in-law of Mr. and Mrs. W. L. Knight, has enlisted with the Naval Reserve Air Corps in Washington, D. C. He will make his first solo flight soon. Nance has been in Washington three or four years.

DICK AGAIN IN TAHOKA JAIL

Jailbreaker-Robber Is Brought Here From Kilgore; Richardson's Car Recovered

S. D. Dick, one of the criminals charged with the kidnapping of J. F. Covey, Santa Fe agent at Wilson, a few months ago, who with six other prisoners broke out of jail here recently, is again in jail.

Upon information which sheriff B. L. Parker had given he was arrested at Kilgore last week. Mr. Parker went down Thursday for him and arrived back home with his prisoner Saturday. The jail here has been repaired and Mr. Parker thinks he will have a hard time breaking out again.

Dick also directed Mr. Parker to the place where he and the other prisoners had hidden the car of Rafe Richardson, which they stole on the night of their escape. The car was hidden in the brakes about thirty miles southeast of Sweetwater. Dick told Parker that the escaped prisoners had remained there four days and upon leaving the place they also left the Richardson car. Mr. Parker brought the car into Sweetwater and left it. Mr. Richardson went down and got the car Sunday. One tire had blown out and the wheel had been ruined. Otherwise there was apparently not much damage to the car.

Other prisoners who escaped with Dick have not been recaptured.

Baseball Team Loses To Slaton

The Tahoka baseball team won the final game of the first half of the split-season series of the South Plains League, which was played with Amberst at that place last Sunday. The score was 4 to 1 in favor of the Tahoka team. Manager Skip Taylor says that it was a good game and was witnessed by a good sized crowd.

At Slaton Tuesday, Tahoka lost the first game of the second half of the series to Slaton in a ten-inning game, the score being 4 to 3. This was likewise a hotly contested game and was witnessed by an immense Fourth-of-July throng.

Tahoka won nine of the ten games played in the first half, placing her far ahead of any other team in the League. The prospects are, however, that she will have more formidable competition in the second half, as some of the teams have been greatly strengthened since the season opened.

Conservation Corps Man Visits Here

W. W. Coursey of Draw, who was recently inducted into the Civilian Conservation Corps at Fort Bliss near El Paso doing reclamation and reforestation work for Uncle Sam, was here several days enjoying a vacation. He has been in the service a little more than a month, leaving Lubbock on May 28, and he declared that he is exceedingly well pleased with the work and with the accommodations furnished.

He says that the boys are all well-fed and well cared for in every respect, that they are furnished an ample supply of good clothing and many conveniences, that they are given free picture shows, and are allowed the privileges of a free bathing pool once every week. He thinks that Uncle Sam is doing a great thing for the unemployed that he was able to accept for this service.

Miss Martha Jane Dobbins and Jane Young of Roscoe returned to their homes Tuesday after a visit of several days with the former's aunt, Mrs. G. M. Stewart.

Mr. and Mrs. R. A. Hoover and children visited Mr. Hoover's parents in Slaton Sunday.

Judge C. H. Cain went to Roby Tuesday on professional business.

NEW DEAL FOR LOCAL FARMERS

Austin Officials Authorize Committee To Pass On Price To Be Paid For Plowed Up Cotton

Farmers have been signing up contracts for the reduction of their cotton acreage in gangs here this week. So far as Lynn county is concerned the proposition seems to be going over with a bang.

Some uneasiness and dissatisfaction developed last week when it seemed that Lynn county farmers might not be able to get a fair deal on the amount that might be paid them per acre for the acreage destroyed. The authorities at Austin, it seemed, were figuring this county on a basis of 110 pounds per acre, whereas the reports from the Department of Commerce at Washington show a much higher yield than that.

Accordingly, W. E. Smith, county Judge, John N. Thomas, representative in the legislature, R. E. Finley, county commissioner from Wilson, A. M. Cade, tax collector, Deen Nowlin, representing the farm loan board and other money lenders, left Sunday for Austin to seek a more satisfactory basis of acreage yield on which to figure the remuneration that Lynn county farmers would receive for their destroyed acreage.

These gentlemen returned Tuesday night and reported that their mission had been entirely successful. In fact, each farmer's loss will be figured individually, the general average yield being taken into consideration merely for the purpose of keeping a proper check upon the total paid out in any given county. The average yield per acre in Lynn county for the past five years, according to Government statistics, is said to be about 143 pounds per acre. The gentlemen at Austin were found to be most reasonable and accommodating, Judge Smith reports, and all doubtful matters were easily

(Cont'd. on last page)

Baptists Men Will Have Banquet

A toastmaster and necessary committees have been appointed and all things will soon be ready for the laymen's luncheon to be held in the Baptist Church here Friday night, July 14, according to Rev. Lawrence Hays, the pastor.

This luncheon is given by and for the laymen of the Baptist Church, all members of the Down Town Sunday School class, and all other men who are connected with the church through family relation. The women of the church will serve the luncheon. Preparations are being made to serve more than one hundred men.

The program will consist of quartet music and perhaps other musical features. Dr. Thomas H. Taylor, president of Howard Payne College, will be the principal speaker. Dr. Taylor is one of the best after dinner speakers in the Southwest. His humor and natural wit are pleasing and entertaining. He is a layman and knows how to speak to other laymen.

The committee as announced by Rev. Lawrence Hays Monday are as follows: Toastmaster, G. H. Nelson; program committee, J. E. Thompson, H. M. Snowden, and Larkin Weathers; service committee, H. B. Howell, D. H. Goodnough, G. H. Hines, and A. J. Mullins; invitation committee, Deen Nowlin, Jeff Connolly, Fred Barker, and L. F. Frazier; reception committee, H. P. Caveness, E. J. Cooper, G. E. Hogan, H. B. McCord, and Beecher Sherrod.

Mrs. W. E. Sanders and daughter, Norma Jean, of Houston arrived Wednesday to visit Mrs. E. F. Barton of the Dixie community. Mrs. Sanders and Mrs. Barton were girlhood friends.

Little Miss Mary Alice Guy of Waco is here this week as the guest of Mrs. G. M. Stewart.

to our attention.

We believe that the cotton acreage
reduction plan now being offered to
the farmers of the South is the best
relief measure that has ever been of-
fered to them during this or any
other depression. It is not contended
that it should or could be made a
permanent policy of the government.
It is only an emergency measure. It
is intended to restore prosperity to
the cotton farmer. A like plan is
being offered the wheat farmers of
the North and West. The price of
cotton and wheat are to be boosted
by curtailing the acreage and the
consequent production. At the same
time the farmer is to be paid a fair
price for the acreage destroyed. Of
course, in the end, the consumer will
pay the bill. But a fair price paid to
the farmer for the acreage destroyed
and an inevitably higher price which
he will receive for his crop next fall
should bring at least a fair degree of
prosperity to the farmers of this
nation again. The farmers are by
far the largest single group of our
population. Their prosperity is the
basis of all prosperity. Make the
farmer prosperous and the rest of
the country will soon be prosperous.
Hence we are all vitally interested in
any program that means prosperity
for the farmer. The plan now being
offered seems to have real merit. We
sincerely hope that it may be ac-
cepted by a sufficient number of the
farmers of the South to assure its
success.

They say that we must repeal the
Eighteenth Amendment and bring
back the legalized liquor traffic in
order that the Government may get
the revenue. Here is what the Bible
says on that subject: "Better is a
little with righteousness than great
revenues without right."—Prov. 16:8.

STATED MEETINGS OF
Tahoka Lodge No. 1041
the first Tuesday night
in each month at 7:30.
Members urged to at-
tend. Visitors welcome.
W. S. ANGLIN, W. M.
O. A. LUALLIN, Sec.

NOW! PILES
MEET THEIR WATERLOO!

Swiss relief—quick relief—only relief for all
forms of Piles—Bleed, Itching and
Protruding! Pains Obsolete! Not only
relieves the pain, but tends
to correct the condition of
Piles as a whole. Here's why:
Pain is soothing. It stops
the inflammation. Pain is
healing. It repairs the torn
tissues. Pain is absorbing. It
dissolves excess mucus and
reduces the swollen blood
vessels which are Piles.
The method of application
makes Pains doubly effective.
Perforated Pile Pips attached
to tubes reaches up into the
rectum and thoroughly medi-
cates all affected parts. Now,
comfort when you walk or sit
or go to the stool. Get Pains
today!

"We Feed The Thousands"

Under a law enacted by the legis-
lature of this state a few weeks ago,
if the sale of 3.2 per cent beer is
authorized in the election on August
26, license to sell beer may be pro-
cured by any drug store, grocery
store, cafe, restaurant, hotel serving
food, sandwich stand, confectionery,
filling station, tourist park, domino
parlor, fraternal and athletic club
with buffet service, and other busi-
ness concerns. The purpose may be
to eliminate the old-time beer joint,
though the law would hardly do
that, or the purpose may be to ren-
der respectable and popular the sale
and the drinking of beer. No such
legislative regulations of the sale
of whiskey and other strong drinks
have yet been provided, however, and
will not be until the Eighteenth
Amendment is repealed and our own
state constitution amended. It is
hardly conceivable that the legisla-
ture would provide for the sale of
whiskey in the same way as for the
sale of beer. If the legal sale of
whiskey is authorized, we will either
have the return of the old-time
saloon or some modified form of the
same.

It will be a great thing for this
country when farmers cut their acre-
age to about half what it is now. It
is evident to many farmers them-
selves that they are undertaking to
cultivate too much land. If each
farmer would cut his annual acreage
down 50 or 60 per cent of his present
acreage and then cultivate his crops
intensively, we would have far better
crops, on the average, than we have
under the present system. If all our
farms were limited to 80 or 100
acres, this would soon become one of
the richest agricultural areas in the
world. We are not giving advice,
brother; we are just stating some
facts.

We heard a gentleman remark just
a few days ago that he had just that
day seen the finest field of cotton he
had seen this year. The plant was
larger than any he had seen and
was very thrifty. The field was clean
of weeds and was a beauty to behold.
This cotton had been dry planted—
before any rains came, it had been
planted very shallow, came up nicely,
and got a good start on all the other
cotton in the community. This farmer's
experience might afford a good
example for others to follow.

"Can a man take fire in his bosom
and his clothes not be burned?" the
Bible asks. Can our Government hug
the fires of the consuming liquor
traffic to its bosom and not be
scorched?

PRESBYTERIAN SERVICES
Our second Sunday at Tahoka gets
around pretty fast, in spite of all
this wet weather. Always glad to be
there on time. S. S. on time next
Sunday. Preaching service morning
and night. Special music, if not
rained out, and a good attendance
wanted. Had a fine meeting over at
Levelland all this week. Morning
theme: "Resources Unfailing." What
to do next when we have reached our
limits. Subject Sunday night: "Re-
treating and Standing Fire." One of
these we always do under some cir-
cumstances.

Hope we may have a fine attend-
ance at both services next Sunday;
also, at the Sunday School hour.
You are invited.—W. K. Johnston,
Minister.

**STANDING OF CONTESTANTS
IN WORLD FAIR CONTEST**

Mrs. Fred Bucy	299,734
Inez Knight	286,597
Preston Strasser	168,980
Lahru Cade	166,040
Raymond Bulman	118,978

**WHAT OTHERS
THINK**

Ample authority can be found for
the statement that a farm family of
five people can enjoy a comfortable
living on a 40-acre farm and require
less than \$100 per year in cash for
supplies that can not be produced on
the farm. Any town or city, sur-
rounded by 40-acre farms, instead of
"big" farms of 160 to 640 acres or
more, will be a better business point.
And its farm population will be more
independent and more happy than
"big" farmers. They can more easily
get out of debt and more easily stay
out of it. The good years, when yields
and prices are best, will enable them
to equip their homes for more com-
fortable living. The "bad" years will
hold no particular terrors for them,
because they will be able to meet the
condition with a minimum of worry.
They will live well all the time be-
cause they are making the farm pro-
duce practically all they require.—
Clarendon News.

According to anti-prohibitionists,
all of the crime of the day is simply
because we don't have liquor. When
liquor is returned, they tell us that
all of the crime will be settled, and
all of the national ills will be cured;
we shall pay all of the national
debts with liquor taxes, and pros-
perity will return. The sad thing is
that so many of our people really be-
lieve this rot. Wonder if this bunch
will advocate repealing the laws
against murder, theft, arson, kid-
napping, etc., because these laws do
not keep people from continuing to
commit these crimes? The fact
that the national government has
never really attempted to enforce
prohibition is no argument that the
law is not doing some good. Please
remember the saloon days, and see
if you want a return of the open sa-
loon with all of its vices.—Canyon
News.

The Lynn County News reports
that there is more building activity
in evidence in Tahoka than for two
or three years. We will be receiving
just such reports from all over the
country before many months. Tahoka
is a good town and why shouldn't
they be first to catch the spirit of
the day and start a building cam-
paign. Rent houses are scarce at
Tahoka and have been all along, so
we understand. This is a mighty
good sign of the return of prosperity
down Tahoka way.—Lockney Beacon.

**METHODIST YOUNG PEOPLE
ENJOY EVENING AT CHURCH**

The pastor of the Methodist
Church and a fine group of young
people met at the Church Monday af-
ternoon and established a library for
the Young People's department of
the church.

They felt that they would need a
good appetite for the eats that had
been brought along, so they took
some hoses and went out on the
Church grounds and made war on the
weeds. Another baseball ground was
cleared off, and much other work was
done around the building.

Then, some one shouted "When do
we eat?" You should have seen sand-
wiches, cookies and fruit disappear.
Then came the task of making way
with two full gallons of ice-cream.
This was too much for the young-
sters. After everyone had eaten to
his satisfaction, it was found that
quite a bit of cream remained. But
after spending an hour studying
"This Mind," a course which the
young people are taking, they went
back and did justice to the cream.
Everyone had a wonderful time.—
One who was present.

**How One Woman Lost
20 Lbs. Of Fat**

Lost Her Prominent Hips—Double
Chin—Sluggishness—Gained
A Shapely Figure

If you are fat how would you like
to lose it and at the same time gain
in physical charm and acquire a
clean, clear skin and eyes that spar-
kle with buoyant health.

Why not do what thousands of wo-
men have done to get rid of pounds
of unwanted fat? Take one half tea-
spoon of Kruschen Salts in a glass
of hot water every morning before
breakfast and keep it up for 30 days.
You can help the action of Kruschen
by cutting down on pastry and fatty
meats and going light on potatoes,
butter and cream. Then weigh your-
self and see how many pounds you
have lost.

Kruschen Salts are a blend of six
salts most helpful to body health.
Best of all, a bottle of Kruschen
Salts that will last you for 4 weeks
costs but a trifle. Ask any druggist
for a bottle and start to lose fat to-
day. It's the safe way to reduce but
be sure you get Kruschen—your
health comes first.

**"Lizilu" Is Sailing
On The Clear Fork**

The "Lizilu," that peculiar combina-
tion of boat and automobile trailer,
recently constructed by the eccentric
Chris Adair, is now plying the wa-
ters of the Clear Fork a few miles
above Lueders, if no bad luck has
overtaken this ingenious product of
Chris' brain and brawn. The "Lizilu"
was launched in this unpretentious
stream last Friday, just under the
bridge that spans it on the Dal Paso
highway, seventeen miles east of
Anson.

Hooking this trailer on to his car,
Charles Shook, accompanied by H. C.
Crie and the owner of the strange
craft, piloted it from Tahoka to the
Clear Fork last Thursday, leaving
Tahoka in the afternoon, spending
the night near Rotan, and arriving
at their destination Friday morning.
Upon arrival, they detached the
"trailer" from the car, removed its
wheels, and launched it out on the
deep. Its introduction into the water,
however, revealed some crevices that
had not been adequately stopped up,
and the water poured into the boat
so rapidly that it had to be dragged
out onto the land for further treat-
ment. Chris was engaged in giving
it this treatment when Messrs. Shook
and Crie turned their faces home-
ward and left him "alone in his
glory."

The boat is admittedly a good one,
however, and it is not contemplated
that its owner had any further
trouble with it after thoroughly
plugging up the leaks.

Chris professedly intended to pilot
this craft down the Brazos to the
point where this stream loses itself
in the Gulf of Mexico, but Messrs.
Shook and Crie are predicting that
he spends most of the summer on
the Clear Fork and on Lake Penick
just above Lueders. Fishing is good
down on the Clear Fork and Chris
has cooking utensils and bedding on
board his craft. He is prepared to
live the simple, primitive life, and
is now, no doubt, greatly enjoying
the novelty of it.

Before leaving Thursday afternoon
he came to the News office, armed
himself with a copy of this paper
just off the press, promised to write
us when anything sensational hap-
pens, bade us good-bye, shook the
dust of Tahoka off his feet, and was
gone. He thought he might never
come back. A peculiar but in many
respects a remarkable character is
this long-time resident of Tahoka,
Chris Adair. We shall be curious to
know about his experiences through
the weeks and the months to come
with his strange combination land
and water craft, the "Lizilu."

Mrs. Juanita Crumb and Miss Eva
Adair, sisters, were here from
Breckenridge last week end, visiting
their aunt, Mrs. Chas. Shook and
other relatives. Miss Adair had come
up to enter the Lubbock Sanitarium,
where she was to begin a three years
training course as a nurse. She has
been employed in a doctor's office in
Breckenridge the past two years.
She was accompanied to Lubbock
Friday by Mrs. Shook. Mrs. Crumb
left for her home in Breckenridge
Saturday.

Mr. and Mrs. Ovid Luallin and
children and Mr. and Mrs. Jack
Wells returned Sunday from Cloud-
croft, New Mexico, where they had
spent several weeks. Ovid declares
that they were having much rain
out there. He says it rained eight
days on a stretch. There are few
tourists there this year and business
is dull.

**Renew Your Health
By Purification**

Any physician will tell you that
"Perfect Purification of the System
is Nature's Foundation of Perfect
Health." Why not rid yourself of
chronic ailments that are under-
mining your vitality? Purify your
entire system by taking a thorough
course of Calabaz, once or twice
a week for several weeks—and see
how Nature rewards you with
health.
Calabaz purifies the blood by acti-
vating the liver, kidneys, stomach
and bowels. In 10 cts. and 35 cts.
packages. All dealers. (Adv.)

**Bad Taste in Mouth,
Sour Stomach**

For quick relief from constipation
troubles, such as are mentioned
below, get a 25-cent package of
Theodor's BLACK-DRAUGHT
and begin taking it today.

"I have suffered a great deal
from biliousness and constipa-
tion," writes Mrs. D. C. Jones, of
Waterloo, Ala. "When I get bil-
ious I have a bad taste in my
mouth, have sour stomach, my
color is bad, and I get dizzy and
feel awfully bad. I have head-
ache constantly. When I take
Black-Draught it relieves me and
I feel like a new person. I don't
think there is a better medicine
than Black-Draught."
Now you can get Black-Draught in
the form of a SYRUP, for Children.

K. C. Holmes and family returned
Sunday from a few weeks visit with
relatives and friends in Oklahoma
and Kansas. They got to Kansas in
time to enjoy the hottest heat wave
that ever waded in the Sunflower
state. The mercury shot up to dizzy
heights, as high as 110 and 112 de-
grees in some places, and one or
two towns reported as high as 120.
It never rose above the 100 mark in
Tahoka, so K. C. and family hiked
back down south where it is cool.

C. T. Burnett and J. W. Brown and
families spent the Fourth at John-
son's Ranch in Lubbock county fish-
ing. Mr. Brown declares that they
had good luck, catching many fish.

"The Store Ahead"

Tax Enforcement Bringing Revenue

Austin, July 6.—Comptroller Geo. T. Sheppard wore a broad grin today as he announced to the harassed taxpayers of Texas the first comparative figures on collection of the gasoline tax under the drastic new enforcement law. Here's his good news: In the great East Texas area alone gasoline tax payments have increased 150 per cent in 90 days. At the May rate, the state's tax income will be increased over \$2,000,000 a year from this single district. This \$2,000,000 "melon," the comptroller emphasized, will be only a fraction of the state's added revenue as a result of the new law, for it includes no returns from the other five district offices he has created. In these, the bulk of the increases are expected to come from prevention of blending tax-free fuels with gasoline, he said. This practice, as

well as out-and-out evasion, is a felony offense now. "The remarkable record in East Texas proves that we were right," Comptroller Sheppard declared. "In February, the tax was paid in that district on 2,826,347 gallons of gasoline. In March the figures leaped to 4,011,227 gallons, in April to 5,534,313 gallons and in May to 7,004,463 gallons, or 250 percent of the February income. Furthermore, this is only a beginning, if the people will be watchful for evaders and help us. We do not want prisoners. We want tax money. Getting all of it will help everybody."

W. C. Huggins, president of the Texas Good Roads Association, added to the comptroller's statement a reminder of the widespread good which will come from these recovered taxes. "We must not forget," he said, "that under the present distribution of this tax, \$500,000 a year has been added already to the common school fund, \$500,000 to the county bond refunding income and \$1,000,000 to the highway fund. It is literally finding money for the State."

COUNTY AGENT TRANSFERRED FROM HASKELL TO LYNN CO.

Joe C. Williams, who has served Haskell county for the past four years as county agent, was transferred last Saturday by the Extension Department to Lynn county.

Mr. Williams assumed his duties here in October, 1929, and has made a wonderful record in the work in Haskell county. The Commissioners' Court discontinued the appropriation for the work in the county the first of the year as an economy measure and Mr. Williams has been on the job since that time under the supervision of a County Board composed of about 25 farmers co-operating with the extension department.

Terracing lines have been run on 105,000 acres of farming land in the county by Mr. Williams and farmers trained to handle the work of running levels since Mr. Williams assumed his duties here as County Agent. The Federal Land Bank value terraced or water leveled land in increased production and soil protection from erosion at from \$3.00 to \$8.00 per acre. If these figures are correct, the increased value to Haskell county farms at only \$3.00 per acre would show an increase of \$315,000 during the past four years.

A value of more than \$18,000 has been placed by the extension department on the work that has been done, in increased production of crops, livestock and poultry raised by demonstrators and club members.

Mr. Williams has made many warm friends throughout the county and the Extension work has been materially benefited by his efforts in placing the service before Haskell county people.—Haskell Free Press.

CARD OF THANKS

We are very grateful for the donations of money and merchandise by our friends and neighbors and by many business men following the loss of our home, household goods and car by fire last Friday night. These acts of kindness shall ever be treasured up in our memories. Friends, we thank you.—Mr. and Mrs. Carl Williams and family.

Beauty And Health Clinic

Cosmetician and Consulting Chemist

The ancient Egyptians were probably the originators of the bath, a habit which in later years was treated on a much more elaborate scale by the Greeks and the Romans. This form of ablation was undoubtedly necessitated by the terrific heat of the country, and it was followed by a liberal application of perfumed oils and unguents. Doubtless these were employed to give the skin more elasticity as well as to impart a balmy and pleasing effect to these aesthetic people. This practice is still applied by the Eastern nations in order to prevent an undue drying of the epidermis and the irritation that would follow.

Sesame oil was one of the most favored vehicles for aromatics, but oil of sweet almonds and olive oils were used. Some of the odorous constituents were grown in Egypt, but the greater portion were imported from Arabia.

Amongst the former may be mentioned thyme and origanum, together with a substance called balanos, which appears to have been extracted from the shells of some unidentified fruit, while of the latter, myrrh, oilbalm, and spikenard were of great importance.

From the ancient habit of using oils and unguents after bath has developed the modern tendency towards oils and oil creams for cleansing the skin. Such substances, if they are properly compounded, are much safer and more effective than soap and water. Soap, of course, has its place as a cleanser but it is merely a surface cleanser and it should never be used on the face unless the skin is abnormally oily. If the skin is oily soap may be used but great care should be exercised in the selection of the proper soap.

Cheap soaps are likely to contain an excess of alkali and this irritates the skin. Only a pure, neutral castile soap should be used. If the skin is normal or if the skin is dry, soap

and water should not be used on the face. Soap will emulsify and remove the natural oils which keep the skin soft and pliable, and it will not penetrate below the surface and cleanse the pores. If the skin is dry it should be cleansed with a cream which will help to alleviate dryness. Cheap creams and cleansers should be avoided because many of them contain paraffin; paraffin will clog the pores and may cause permanent damage. Other cheap creams contain borax and sodium carbonate. These are alkalies which are apt to cause irritation.

Hereafter, this section will be largely devoted to the consideration of questions submitted by readers of this paper. Mail your questions to this paper, in care of Health and Beauty Clinic.

Oscar Roberts accompanied by Miss Frankie Wells joined his family at Weed, N. Mex., early this week. The Roberts family has a summer camp up there and spend several weeks each summer in this invigorating mountain retreat.

Take a Pinch of BLACK-DRAUGHT For Distress After Meals

He had suffered distress after meals, but by taking Theodor's Black-Draught he was relieved of this trouble, writes Mr. Jess Higgins, of Dawsonville, Ga. "I had sour stomach and gas," Mr. Higgins explains, "and often I would have bilious spells. I read about Theodor's Black-Draught and began to take it. It relieved me of this trouble. I keep it all the time now. I consider it a fine medicine. I take a pinch of Black-Draught after meals when I need it. It helps to prevent sick headache and to keep the system in good order." You can get Black-Draught in the form of a SYRUP, for CHILDREN.

PALO DURO CANYON WILL BE MADE A STATE PARK

(Continued from first page)

ing river bed, and the blue haze in the distance form a picture which artists from all over the nation come to paint on canvas.

The Government's plans call for the ultimate expenditure of about half a million dollars in developing this park, which will be three miles wide, eight miles long, and will cover 14,000 acres. Right-of-way has already been secured for the State Highway Department, which will connect Highway No. 9 paving at Canyon with the park, and will construct a highway from the canyon rim to its floor—a highway engineering feat such as Texas has never before undertaken.

Eight hundred of President Roosevelt's Reforestation workers are expected to move from Fort Sill, Oklahoma, to the camp site this week.

They will build driveways down the canyon, clear out underbrush and plant thousands of trees, erect administration buildings, etc. Dams will be built to form lakes for fishing, boating, and bathing. These bodies of water will be stocked with fish from Federal and State hatcheries. Many deer have been placed in the canyon in the past few years, and to this Amarillo has offered to add its rapidly growing zoo.

The Government has another project in the canyons twelve miles south of Amarillo and seven miles northeast of Canyon that is already underway, known as the Palisades Park. Though much smaller and in a section where the canyon has not yet reached great depth, this also promises to be a beauty spot. Two hundred men are already working on this park.

South Plains people should visit the Palo Duro this summer, or this winter—it is even more picturesque in the winter. The best view from the canyon rim is 12 miles east of Canyon, Texas, about 155 miles from Tahoka, and may be reached over excellent roads. The visitor is advised not to attempt a hike to the bottom unless he has the greater part of the day to spend. But there's plenty to be seen from the rim. No place in New Mexico offers a greater scenic surprise to one who has not seen the Palo Duro before.

ACREAGE REDUCTION CONTRACTS SIGNED

(Continued on last page)

solved in favor of the farmers. Judge Smith says that Commissioner of Agriculture, R. E. McDonald, in particular was accommodating, and he is of the opinion that the farmers of the South are indebted to McDonald for working out of the plan now being submitted to the farmers for acreage reduction.

Judge Smith, Joe Williams who was sent here to handle the matter for Lynn county, and the committees selected last week to help, have all been very busy since Wednesday morning waiting upon farmers desiring to sign contracts, and great numbers of them have signed. In fact this proposal seems to have met with general favor and most of the farmers are enthusiastic with respect to it. Most differences between landlords and tenants and other difficulties are being ironed out satisfactorily, and Judge Smith is of the opinion that a vast majority of the farmers will have signed up before Saturday night.

Reports indicate that the proposal has likewise met with general favor throughout Texas and the entire South, and it is believed that enough acreage will have been signed up by the end of the week to assure the success of the movement.

If this movement succeeds, the production in the United States will be greatly curtailed and a good price for cotton assured. Just a fair yield and a good price will bring prosperity back to the South in a hurry, and business men throughout the country are exceedingly optimistic as to the outlook.

LOCAL JAIL-BREAKERS SOUGHT AT COLEMAN

(Cont'd. from first page)

ferel numerous hiding places for the duo.

Included in the group gaining liberty at Tahoka were S. D. Vowell and S. D. Dick, indicted for kidnapping and hijacking of J. F. Covey at Wilson; J. R. Romaine, car theft; Clyde Davis, robbery; Jim Brooks, burglary; and Dave and Luke Trammell, felony theft. Dick was recently arrested at Kilgore and returned to Tahoka. The other six are still at large.

Coleman and Runnels counties are known to be the home grounds of the Trammell brothers, who lived in that area for many years.

Officers said Light reported the pair had visited that vicinity previously during the week's chase.

Six Stolen Cars
 The hijackers have commandeered six cars in their flights, covering the hilly section of Runnels and Coleman counties and extending over a period of seven days.

Officers of Runnels and Coleman counties have been joined by police of all surrounding areas in the search. Taylor county and Abilene officers have been active, with six from here aiding in the Tuesday chase.

CORRECTION IN STORY OF LESLIE'S STOLEN CAR

Our story of the recovery of Roy Leslie's stolen car published in this paper last week, contained the following statement: "Explaining that he thought Mr. Leslie had taken the car out, the custodian of the storage room said nothing to Mr. Leslie about the car being gone until the following Saturday afternoon."

Since the publication of this story, the custodian of the storage room has stated to us that not only did he have a key to this room but that Mr. Leslie himself had a key to it so that he might enter and take the car out at any time, and therefore he naturally thought nothing of it when it was noticed that the car was out.

Our account of the matter was not intended to place any blame on any person in connection with the affair, but fearing that incorrect inferences might be drawn from it, Mr. Snowden has asked that we state the above additional fact, and we do so gladly. Of course nobody in all the world who knows Mr. Snowden would for a moment place any blame on him with respect to this unfortunate incident.

YEH! THE KNOT MIGHT SLIP

"Now Charles, said the instructor, "can you describe the meaning of nonsense?"

"Yes, sir," said Charles promptly. "An elephant hanging over a cliff with its tail tied to a daisy."

"Say, Josh, how can you tell the gander from the goose?"

"Well, we don't bother about that. Jest let them run together and figger that out for themselves. They are the ones interested."

New Home

Mrs. L. N. Hancock visited her daughter, Mrs. Mauriel Taylor, at Olton last week end, and attended the commencement programs of the Olton high school. Mrs. Taylor, who is one of the teachers there, and little son Tommy returned here for the summer.

A number of young people enjoyed the singing at the church Sunday afternoon.

Mr. and Mrs. Will Izard and family of Lubbock visited relatives here Sunday afternoon.

Mr. Joe Hilton of Woodrow was a week end guest of his brother G. H. Hilton and family.

Mr. and Mrs. Loyd McCormick and family visited relatives in Wilton Sunday.

Mr. and Mrs. P. W. Goad and family returned Saturday from an extended visit to points in East Texas and Oklahoma. Mrs. Goad's health is somewhat improved.

Mr. and Mrs. Chester Smith of Joe Stokes visited Mr. and Mrs. S. L. Smith Sunday.

Mr. Morris Renfro of Ruidoso, N. M., visited his parents, Mr. and Mrs. P. H. Renfro, this week.

Mr. and Mrs. D. R. Magee and little daughter Ada Jane arrived here Saturday to make this their home. They will open their grocery store in a few days. Mr. Magee's nephew is visiting with him.

Mr. and Mrs. Elmer Rice and Wanda Lee visited Mr. and Mrs. Acie Bailey at Spur Saturday and Sunday. They reported that the official

Relieves Women's Pains

Here is an example of how Cardul has helped thousands of women: "I was very thin and pale," writes Mrs. F. H. Scott, of Roanoke, Va. "I suffered from weakness and a severe pain in my back. This pain unnerved me, and I did not feel like doing my work. I did not care to go places, and felt worn, tired, day after day. "My mother had taken Cardul, and on seeing my condition she advised me to try it. I have never regretted doing so. I took three bottles and it built me up. I gained in weight, my color was better and the pain left my back. I am stronger than I had been in some time."

Cardul, the purely vegetable medicine which so many women take and recommend, is sold by local druggists.

opening of the Bailey Grocery Store was a huge success.

Mr. W. E. Farrie, who has been working at Spur for several days, returned Sunday.

Our community was well represented at the Wilson picnic July 4th.

Messrs. and Mesdames J. H. Izard and children and Oscar Izard and son enjoyed a feast in the home of their parents, Mr. and Mrs. W. H. Izard, the Fourth.

Mr. C. W. Seth attended the Cow-

boy Reunion at Stamford this week. Mrs. Seth visited with her son and wife, Mr. and Mrs. A. D. Seth, at Tahoka.

Mr. and Mrs. R. W. Fenton Jr. and children, Jack Fenton, and Mr. and Mrs. Summer Knight are enjoying a vacation this week out in the mountains of New Mexico.

C. F. Blakemore of Abernathy was a business visitor in Tahoka Monday.

Phillips 66 higher anti-knock

NOW Phillips offers motorists even greater value than ever before! **Extra Anti-Knock Value** is now added to every gallon of high-test Phillips 66—at no increase in price. For your protection, the new **high test** and **higher anti-knock** Phillips 66 is **colored ORANGE**.

Remember, Phillips does not merely say "high test." Phillips proves it by printing the actual gravity in plain figures. For example, Phillips 66 gravity in June ranged from 62.1 degrees to 67.9 degrees. One trial tankful will tell you more than a dozen pages of words. Compare the cost and performance. Your own motor quickly **proves the improvement** in power, mileage, and anti-knock—when you Phill-up with Phillips 66.

"HIGHEST TEST" and Anti-Knock at the price of ordinary gasoline!

Also—Phillips Ethyl, Unique, and Phillips 66 Motor Oil.

STEEL ALONE IS NOT ENOUGH!

—neither strong enough, nor safe enough, nor quiet enough for the body of a quality car like

CHEVROLET

CHEVROLET Why is it that every 12-cylinder and 16-cylinder car in America has bodies of steel reinforced by hardwood? Why is it that every make of car selling for over \$4000 uses bodies of exactly the same type? Why? For the same reason that Chevrolet uses it exclusively. Because every test and every experiment has definitely proved: **STEEL ALONE IS NOT ENOUGH!**

The trouble with steel alone is that it stands just so much shock and punishment! Steel alone is also inclined to rattle and rattle. BUT—when you put the two together—a heavy, staunch steel body over tough, solid hardwood—then the hardwood reinforces the steel—and vice versa! And the result: the strongest, safest type of body, such as Fisher builds for Chevrolet.

CHEVROLET MOTOR COMPANY, DETROIT, MICHIGAN
