Dixie

As school is nearng the time of closing our thoughts are turned to entertainments of various kinds. Mrs. Farris, primary teacher, and Miss Weathers, elementary grade teacher, are combining their programs into a single one which will be Friday night, May 11, in the Dixie auditorium. The program will consist of "Tom Thumb Wedding" and a play, "Vacation Time." Everyone is cordially invited to be present. Mr. Jordan is directing the high school plays, "Flap Goes the Flapper" and "Once Too Often," which will be given Thursday night, May 10. The time for the two plays will be about 21/2 hours.

Black-Draught Brings Refreshing Relief of Constipation Troubles

Constipation produces many disagreeable sensations, several of which are mentioned by Mr. T. E. Stith, of Boonville, Ind., who writes: "I have used Thedford's Black-Draught many years when needed for billousness and other minor ills when a laxative was needed. I have a tight feeling in my chest when I get bilious. I get dizzy and feel very tired, just don't feel like doing my work. After taking Black-Draught, I feel much better. This is why I continue to use it when needed." 1. . . Thedford's Black-Draught is a good, purely vegetable laxative, obtainable for 25¢ a package.

GULF WINS MORE "HILL TESTS" THAN 32 GASOLINES COMBINED

Will your car have more power on any one gasoline? HERE'S YOUR ANSWER...

Gulf tested a total of 33 gasolines on famous American hills-12 hills in localities from Massachusetts to Georgia-and here is what they found ...

The power of different gasolines varies widely! And of all 33 gasolines, Gulf is uniformly best. 7 out of 12 times, it propelled a car and load up mountain grades farther than any other gasoline tested!

It won more hill tests than 32 other gasolines combined! Prove it! Drive into a Gulf station, fill up, and test the power of That Good Gulf for yourself!

Chevrolet Shows Increase In Sales

A total of 62,388 units were delivered by Chevrolet dealers during the first twenty days of April, according to W. E. Holler, general sales manager of Chevrolet Motor Company. Sales for the year through this period total 235,332 units as compared to 154,526 units in the same period of 1933, making the period 152 per cent of the corresponding period in 1933.

Sales reported for the twenty days of April are more than 180 per cent of the corresponding 1933 April figure of 34,354 units.

Retail deliveries of commercial cars and trucks continue to gain; 16,224 trucks were delivered during the April period, which triples the 1933 figure of 5,304 units for the same period. Sales in the commercial field have shown steady increases. Mr. Holler pointed out, and at the close of this April period had reached a figure of 73,619 units for

These crude instruments were used by the Indians for grinding corn, beans, mesquite beans, etc., and would indicate that the Indians once had a lodge or permanent abiding place of some kind in that vicinity, as implements of this kind were not taken with them on their foraging expeditions. Not far away is Guthrie Lake on the north, and other lakes lie to the south.

The metate shows evidences worn through the center of it. The pestle or piece of stone with which the grinding was done is thick and oval shaped at one edge but is sharp like a hatchet on the other edge, also showing much wear.

A tenant residing on Mr. Renfro's farm struck these peculiar stone implements with his plow. The pestle was lying directly under the tray, and some believe that there might have been buried money under both. The tenant sold out and left soon afterward, but Mr. Renfro presented the grinding outfit to Mr. Nance. They are now on display at the News office.

vice of any citizen of the precinct but will be obligated to none. I willbe free to use the best judgment I have in all matters pertaining to the duties of the office.

I have no unkind feelings toward anyone but have a definite work in my mind for the best interest of the precinct and for better rural roads. I think the funds of the precinct should be distributed fairly and evenly and used economically and effectively to whatever purpose they are allotted.

It shall be my purpose, if elected, to co-operate with the other members of the commisioners court and try to merit their co-operation in my efforts to best serve the people of my precinct. I have lived i n precinct No. 4 for 25 years and I own and operate my own farm.

I feel like I know the conditions of the county well enough to make you the kind of commissioner you have a right to expect.

In soliciting your support, I have only one thing to promise anyone and this I promise every one, to render the very best service I am capable of rendering.

E. K. De PRIEST.

The cost of insuring a steady milk flow from his dairy cows was \$1.02 per ton of seeded ribbon cane buried in a trench silo, Dr. J. G. Daniels, dairy demonstrator at Gilmer, has reported to the county agent. "My two trench silos are worth more than any other improvements on my farm," he says.
