Number 8

TRY CRIMINAL DOCKET HERE

Convict's Scored As Trial Of Criminal Cases Gets Under Way

The Criminal Docket was taken up in the District Court Monday morning, and several cases were disposed of the first two days of the week. The jury was excused for Wednesday, but came back this morning for further service.

The first case taken up Monday morning was that of Joe Salome, an El Paso gentleman, charged with swindling by giving a cold check. The check in the sum of fifty dollars and thirty cents was given to Harry Hewlett of Wilson last February for a truckload of eggs. Following the indictment Salome paid the check and the jury let him off with a three years' suspended sentence. Judge C. H. Cain was appointed by the Court to represent the defendant.

The second culprit brought to the bar of justice was a gentleman of color, Tom Cooper, charged with assault with intent to murder Joe Hale of O'Donnell and he drew a term of 5 1/2 years in the pen. Hale, a brother of Horace Hale of this city, ran a tin shop in O'Donnell. Cooper came into his place of business one night last Winter or Spring and made a vicious assault upon him fracturing his skull and rendering him unconscious. Hale claims that the negro took what money he could find in the shop. Cooper pleaded not guilty, denying his guilt on the witness stand but the jury found against him. Judge Cain also represented this defendant by appointment of the Court.

The third case brought to trial also involved an assault to murder charge against a negro, Boots Grant of Tahoka. Boots, in a difficulty with another negro "over on the hill," in north east Tahoka, shot his victim in the back at close range, but the wounded negro refused to die. The jury decided that Boots should spend two years down at Huntsville. Again Judge Cain represented the defendant.

On Tuesday afternoon the case of The State of Texas versus J. C. Harlan was called. Harlan being charged with the forgery of a check, passed to G. E. Hogan of this city, the check bearing a fictitious name, Harlan's attorney, Ben Kucera of Lubbock, filed a plea of insanity for the defendant and the trial proceeded on that issue. The jury found Harlan to be of unsound mind and he has been taken to the state hospital for the insane at Wichita Falls for treatment.

Two liquor cases against Adolph Wenzel of Wilson were passed until Thursday morning.

The case of Lawrence Jackson of Draw charged with the sale of whiskey was postponed on account of sickness of state witnesses.

George Hervey of Lubbock charged with the illegal possession of beer for sale, through his attorneys, Vickers and Campbell, filed a motion for continuance on account of the serious illness of a daughter residing in Oklahoma. Upon proof of the facts set up in the motion the case was continued.

Another case charging R. E. Thompson with the illegal possession of liquor for sale was postponed on account of the absence of his attorney, Tom Garrard, who was in Austin on business.

The case against C. L. Dickson which has been on the docket here for some time was again continued upon representation that Dickson is now in jail in Clovis, N. M. charged with another offense, and could not be brought into court here.

Mr. Hogan's Mother Dies At Comanche

Mr. and Mrs. G. E. Hogan and their son George were called to Comanche Tuesday by the death of Mr. Hogan's mother, which occurred Monday night. The body was transported back to Batesville, Arkansas, her former home, for burial.

Mrs. Hogan was 91 years of age and had remained active almost up to the time of her death. She had resided with a daughter as Comanche, Mrs. N. E. Gardner, the past few years. Mr. Hogan and other members of the family have the sympathy of a wide circle of friends in this bereavement.

New Members On Relief Board

At a meeting of the commissioners court Tuesday, Grif McConal of O'Donnell was appointed a member of the county relief board. B. L. Burleson was appointed a few weeks ago to succeed W. O. Thomas, who resigned. The county relief committee is now composed of Claud Wells, chairman, L. C. Hancy, W. L. Burleson, all of Tahoka, Howard Cook of Wilson, and Grif McConal of O'Donnell. Judge B. P. Maddox is the county administrator.

Whether there will be any change in the policies of the board has not been disclosed.

O'Donnell Man Died Last Friday

Funeral services were conducted in the Methodist Church in O'Donnell last Saturday afternoon for Mr. Frank Burleson, 83, who died at his home several miles southwest of O'Donnell Friday night. Elder R. P. Drennon, pastor of the Church of Christ here, officiated at the funeral services. Interment was in the O'Donnell cemetery.

Born in Leon county on February 13, 1851, Mr. Burleson was one of the pioneers of Texas. On November 17, 1870, at the early age of 20, he was married to Miss Elizabeth Clabaugh, and hence the couple have lived together almost 64 years. To this union were born five sons and three daughters. Four of the sons are dead. The oldest died in infancy, G. F. in 1931, N. W. in 1904, and A. F. in 1932. One son, C. R. Burleson lives in O'Donnell. The three daughters, Mrs. A. L. Taylor of Lamesa, Mrs. J. W. Pipkin of Barnell, and Mrs. E. J. Baskre, are still living. The aged widow, also 83, still survives. Besides these, deceased leaves surviving 35 grandchildren and 29 great-grandchildren.

Deceased united with the Church of Christ in 1888, and had therefore been a member of that church for 46 years. He was much loved and respected by relatives, neighbors, and friends, and the News joins in extending condolences to the bereaved widow and other relatives.

Urges Payment Of Cemetery Dues

Mrs. George Small calls attention to the fact that many have not paid their cemetery dues this year. This is a comparatively small sum for each individual and should be attended to at once.

Complaint has been made that some of the business men are very indifferent in this matter—that when approached they either refuse to pay anything at all or pay only an insignificant sum. This may be due to either of two reasons: first, because they have no personal interest in the matter, or second, because of the paucity of funds with which to meet the many demands upon them.

Surely every one of our citizens, however, must take some pride in the appearance of that sacred spot where rest the remains of friends and many of the pioneers of this section. Surely we want our cemetery to be a beauty spot whether any members of our families lie buried there or not.

So, if a representative of the Cemetery Association should approach you, treat her with the utmost courtesy and please respond with as liberal donation as you can, and your generosity will be highly appreciated by those who have the matter in charge.

Mrs. Small also says that quite a number of our citizens who have members of their families buried in the cemetery, have not paid for their lots. Unless these come in and pay soon, some steps must be taken to collect, as the association must have funds with which to carry on.

Mr. and Mrs. S. G. Childs and little daughter of Houston were here this week visiting relatives at Draw. Mr. Childs, who formerly lived at Draw dropped into the News office Monday to pay for a year's subscription to the News and was kind enough to say that he liked the paper very much. He operates a filling station in Houston.

CANNING PLANT ALMOST READY

Carpenters Busy Completing New Building; Operation Will Begin Soon

Carpenters will this week complete the building one block east of the southeast corner of the square in which a canning kitchen is to be established. It is a corrugated iron structure with a nice finish inside.

Its dimensions are 30 by 40 feet. It is believed that this is rather small for the demands that will be made upon it, but if necessary the building can be enlarged later.

This is a part of the Federal Relief program, and it is believed that it will prove of great value to the people of Lynn county. It is expected that the plant will be installed and ready to begin operation within a few days.

More Students Are Attending Colleges

In giving the names last week of Tahoka young people who have gone away to college, we omitted the names of George T. Dale, Vernon Thompson, Jack Huffmeyer, and Miss Jewel Pitts, who are students in the Texas Tech, Hoyt Welch, who is again in the West Texas State Teachers College at Canyon, and Miss Virginia Sanford and Lola Belle Edwards, who are taking a business course at Draughon's Business College in Lubbock.

There are doubtless a number of other Lynn county young people who have entered college this fall.

WETSEL SELLS OUT

Jim Wetzel Tuesday sold his stock of second hand furniture to John Russell, who has moved the goods to Brownfield to open up a store there.

O'Donnell Plays Tahoka Friday

O'Donnell, presenting what is reputed to be the best team that city has ever had, will meet the Tahoka Bulldogs here Friday afternoon at 3:30 in a game of football.

O'Donnell has played three games and Tahoka three, the city to our south having won over Seagraves, Seminole, and Slaton "B" team. The Slaton game was last Friday and was won by an overwhelming score.

For the first time since 1925, Tahoka managed last Friday to defeat Post in a thrilling game here, the margin being one touchdown and conversion, 7 to 0. Tahoka had previously won over Lubbock Cowboys and tied Crosbyton 9-0.

From all indications the game Friday will be a nip-and-tuck affair between the two Lynn county metropolises. The pep squad and band will perform, and a large crowd of fans is expected to be on hand.

Alphin Will Coach Band Beginners

In response to the request of several former American Legion Band members (and the parents of some) who dropped out of playing in early summer, Mr. N. W. Alphin, who is known to most of our readers, proposes to direct them and other new members coming along in a series of weekly rehearsals. For the purpose of determining the number and kind of instruments they have or can get a meeting is called at 7:45 p. m. tomorrow (Friday) at the building formerly occupied by the M System store west of the square. Bring no instruments but come or send word if you desire this opportunity of continuing or beginning band music study and practice.

BOX SUPPER AT WEST POINT SCHOOL HOUSE THIS WEEK

Misses Lucille Robinson and Madeline Ely, teachers of the West Point school, announce that there will be a box supper and "country store" at the school house on Friday night of this week.

A short program will be rendered by the school, and music will be rendered by Miss Ely and the Tahoka band. Everybody cordially invited.

ERECTING NEW LEGION CLUB

Building Site of Marion G. Bradley Post Home is North Of Sunshine Inn

Members of the Marion G. Bradley Post of the American Legion are about to realize a long-cherished dream—the possession of a post home all their own. On Wednesday morning workmen began the construction and work will be rushed to completion.

The new structure is being built on a lot recently acquired by the Legion Post situated across the street immediately north of the Sunshine Inn. The building is to be 30 by 54 feet in size and will face the east. It will consist of an auditorium or assembly room, a club room, kitchen, rest room, etc. It is to be beautifully finished inside with a stucco finish on the outside.

Much of the labor will be done free of charge, according to Pete Coleman, member of the building committee, and sufficient funds are in hand, he says, to complete the building. Other members of the building committee are H. C. Story and Lynn Nevill.

A number of years ago, when money was plentiful and prices were high, the Legion boys purchased a spacious residence here which they used for several years as their hall. With a heavy debt on the building, however, they found themselves unable to pay it out after the depression came on and some time ago disposed of the building. Since that time they have had no building of their own but have been planning and looking forward to the time when they could construct a building according to their own needs. This they are now doing, and the entire citizenship of the town and community will rejoice with them in the realization of their dream.

Collect Record Gasoline Tax

Austin, Oct. 10.—The state comptroller school fund received the record total of \$8,496,212 as its one-fourth "cut" of Texas' gasoline tax income for the fiscal year which ended August 31, or nearly \$1,000,000 more than in every previous year, Comptroller George H. Sheppard announced today. Schools receive one cent of the four-cent state gas tax.

Proportionate boosts went to the Board of County and District Road Bond Indebtedness, which also receives one cent of the tax, and the highway fund, which gets the remaining two cents.

Working his first full fiscal year with an adequate field force under the state's strong new "anti-booth" law, the comptroller boosted last year to an all-time high total of \$33,984,848, his annual report showed.

He attributed almost the entire gain to record enforcement activity and the educational campaign of the Texas Good Roads Association. In his state-wide drive against the tax-stealing "racket," his 50 field men filed 99 felony and 71 misdemeanor charges during the year, he reported.

The \$33,984,848 income is broken up into three parts. In addition to the \$8,496,212 for schools, another \$8,496,212 goes to county tax relief in the refunding of county road bonds. Whereas the fund last year was able to pay all interest on such bonds but only 30 percent of the principal, the increase will permit paying this year of all interest and at least half the principal maturities, if not more, Mr. Sheppard estimated.

The remainder of the gas tax, or \$16,992,424, is still devoted to the original purpose for which the tax was invented—construction and maintenance of state highways.

Mr. and Mrs. Andrew J. Goode of Greenville were brief visitors at the News office Monday. They are distant relatives and were childhood playmates of the editor. Mr. Goode has long been a division engineer of the state highway department. He and wife were spending their vacation visiting relatives in this section of the state and at Roswell, New Mexico.

Work On Highway Starts Next Week

Negro Team Ends Successful Season

Colored boys of Tahoka are most happy over the fact that this year's baseball season was a most successful one for them. They won fourteen games and lost eight this summer. Teams contested were from Brownfield, Lamesa, Snyder, Midland, Post Falls, and Crosbyton.

Dave Washington is manager of the Negro team, Gilbert Hood is captain and Sport Martin is secretary.

Filling Station Robbed Saturday

The money drawer of the Corner Service Station operated by R. S. Evans was rifled last Saturday at noon, about \$19.00 in money being taken. The identity of the thief or thieves has not been determined.

It is believed, however, that two suspicious strangers who loitered about the station most of the morning are the guilty parties. At the noon hour when Mr. Evans had gone out to lunch, one of the gentlemen induced Kenneth Read, an employee of the station, to go around to the rear of the building to look at an old car, under the pretense of desiring to trade or sell it. It is believed that the other stranger took the money out of the drawer while Kenneth was engaged in conversation with the one who proposed to sell the car. At any rate the two gentlemen soon left, soon after which time it was discovered that the money was gone. The sheriff was notified and a search for the strangers was made but no trace of them could be found.

O'Donnell Youth Critically Injured

Clovis, N. M., Oct. 9.—Physicians held little hope for the recovery of J. C. Summers, 20, O'Donnell, Texas, youth, critically injured when he fell beneath a freight train at Farwell, Tex., nine miles east of here early today.

Summers' left leg and one hand were amputated. His right foot was crushed and must be amputated, doctors said. His head also was also severely injured.

Summers who was traveling with Holland Simpson, brother of his stepfather, attempted to board an east bound train as it left the yards at Farwell, and was thrown beneath the wheels when his hand slipped.

Improvement Seen In Cotton Crop

Cotton is still coming in rather slowly but somewhat faster this week than heretofore. Up to an early hour this morning 894 bales had been ginned in Tahoka this season. The best cotton in the county is opening slowly. It has been growing and fruiting well, however, since the rains of a few weeks ago. Barring an early frost, there is considerable acreage in the county that will make as much as a third of a bale per acre.

The price of the local market ranges from 11.75 to 12 cents per pound. Seed are selling at \$36.00 per ton.

Mrs. Sam Sanford, who was taken to a sanitarium in Lubbock more than two weeks ago, is suffering from cancer of the stomach, according to word which comes from the sanitarium and is in a most precarious condition.

Mr. and Mrs. W. T. Jones and children spent Saturday night here with Mr. and Mrs. Andrew Cooper. Mr. Jones is now in the produce business in Coleman.

Mrs. J. B. Stokes, who has been at Bangs the past several months, returned to Tahoka last Friday and expects to remain here several weeks.

FORCE READY TO START JOB

New Grade Will Be Built On No. 9 Highway From Tahoka To O'Donnell

The work of grading highway No. 9 from Tahoka to O'Donnell is expected to begin Monday, according to information given the News.

The contract was let several weeks ago to Hannah & Hall of Waco. The construction foreman has been here several days and much of the equipment together with about twenty mules has already arrived. It is understood that other teams and equipment will arrive soon.

Hannah and Hall themselves are to be here next week, it is stated, and pending their arrival not much information is being given out.

It is understood, however, that the north portion of the highway is to be graded first, beginning at the Nance Lake and coming this way, as soon as that is finished, the workers will again begin at the lake and proceed toward O'Donnell. The work will be rushed and will probably be completed within a few weeks.

W. L. Burleson, a member of the county relief committee, states that it is also hoped that the work of hard-surfacing highway No. 9 from Tahoka to the Lubbock county line may be begun soon. He has learned recently, he says, that the state highway commission issued its order to the state relief commission on July 3 for work to begin on this project. For some reason unknown to the county committee the work has not yet begun. Mr. Burleson states that the county committee is taking the matter up with the state relief committee and will continue to press the matter until results are obtained. He believes that work on this project will begin within the next few weeks.

Traffic In Cotton Certificates Illegal

Asst. County Agent C. A. Lawrence Wednesday received from the assistant state agent at College Station a copy of a telegram which he had received from C. A. Cobb, Washington, warning against traffic in cotton exemption certificates. The telegram is as follows:

"Please advise at once all county officials in charge cotton program and otherwise give as wide publicity as possible to following: Regulations, especially sections 101 to 106, provide only ways in which cotton tax exemption certificates may be lawfully transferred or assigned. Any transfer or assignment not in accordance with regulations is illegal, and in such case both the person disposing of the certificate and party acquiring it are subject to penalty in section 14-E of Act for Violation of Regulations for each certificate involved, and such certificate is subject to cancellation. No one is entitled to possession of certificates except cotton producers and transfer is legal only as above stated to enable growers to use certificates in ginning and marketing this year's crop."

In this connection we again call attention to the statement from C. A. Lawrence, assistant county agent, published in this paper last week in which he stated: "He (the producer) may sell or trade them to another cotton producer living in the same county where certificates were originally issued on the basis of four cents per pound, or he may surrender them to the County Ass'tant in Cotton Adjustment for sale through National Pool. This sale will be for four cents per pound less expense for operating pool. All sales from one producer to another producer in the same county must be recorded in the office of the Ass'tant in Cotton Adjustment."

Misses Baylor Durham and Elizabeth Shott of S'verton were guests last Saturday night and Sunday in the home of Mrs. V. F. Jones.

PRICE FIXING TO END

Probably the majority of American business men will greet with approval and relief the intimation of Donald R. Richberg, recovery coordinator, that price fixing and production control provisions will be dropped in the revision of industrial codes. These provisions were inserted in the codes at the insistence of business groups but they have not been found altogether successful.

It is anticipated that some form of production control will be retained by the AAA over surplus crops, and it is to be hoped that in the interest of conservation of natural resources the oil and lumber codes will have their limitations on the production left intact. In most non-agricultural industries, however, the effects of competition and of price fluctuations may be counted on to prevent any great amount of over-production.

The contemplated changes in the codes of fair competition do not

mean, however, that the codes themselves are to be scrapped. The labor and fair practice provisions of the codes have gone far toward ending sweatshop conditions and unethical merchandising methods and these provisions should be retained as permanent reforms. These regulations will in themselves tend to stabilize production costs and to make prices relatively uniform. Changes to be made in many of the codes during the next few months probably will show a greater concern for the consumer, whose interest did not always have the attention it deserved as the codes were being formulated. Our anti-trust laws were drawn up to protect the usually defenseless consumer. The dropping of price fixing suggests that the authors of the anti-trust laws had more wisdom than some business men in recent years have been inclined to credit them.

Dallas News. As we understand it, a Federal Court recently held that those provisions of the lumbermen's code which sought to fix prices are invalid. We doubt if any price-fixing code would stand the test before the courts of the land. The NRA authorities are perhaps acting wisely in backing up.

Tyler seems to be the rose capital of Texas. It has recently acquired this distinction, however. Only last Fall it held its first annual rose festival. On Thursday and Friday of this week it will hold its second annual festival. It is estimated that one-third of the Nation's roses are found in the Tyler area and last year 6,000,000 rose plants were shipped to distant parts, bringing in an income of \$500,000 to that section, we are told. But exquisitely beautiful roses can be grown in West Texas too. In fact they are being grown here. Many Tahoka rose lovers are growing some marvelously beautiful roses each year. But there should be many more. Severe late freezes the past few winters and the recent drouth have killed many plants in this section, but even now there are quite a good many fine roses here. It is to be hoped that our people will become more interested in rose culture, not for economic reasons but for aesthetic. We should like to see Tahoka become a veritable garden of roses. But if you are not interested in roses, grow some other type of beautiful flower. Let's make Tahoka the little City Beautiful.

Members of nearly every vocation perhaps think their lot and labor the hardest. It is evident, however, that there are a few occupations which entail far more onerous duties on the employees than others. One of these is that of the country printing shop. For the reason that extra help can not be readily picked up when work in the shop piles up and for the further reason that the profits in a country printing shop are meagre, we believe that printers and editors in such a shop do more work for the remuneration received than the followers of almost any other calling. Usually they must work long hours almost every week day and sometimes they must work far into the night. If those who have printing done could fully realize the amount of work that printers do for the money they receive, they would never quarrel much about the prices.

Our readers should remember that another Trades Day is coming along soon and be ready for it. That last one brought an immense crowd to town. It looked good to see the streets lined with cars and a thousand people congregated on the court house lawn. Buy it in Tahoka, folks, and be here on Trades Day.

(By Beatrice Beckham)

The Joe Bailey school started today, October 8, after two weeks vacation for pulling cotton.

There are still several students absent on account of pulling cotton. The Joe Bailey boys and girls will be very busy studying for exams Thursday and Friday of this week. Miss Beatrice Beckham spent last week with her cousin, Miss Jessie Williams at New Moore.

Mr. and Mrs. Bullard and Miss Brown returned Sunday night from their vacation of two weeks.

Mr. Joe Brewer and Mr. Silas Russ returned from their visit in O'Neal, Arkansas.

Mr. and Mrs. Horace Henley and Grandpa Henley, his father, returned from Arkansas.

Church News

There was a large crowd at Sunday school Sunday.

Brother J. C. Cook preached a very interesting sermon. There was a large crowd present for the evening services.

The Junior and Senior B. Y. P. U. has recently organized. They did not render a program Sunday night because they had not received their new literature.

They will render a program next Sunday night.

The doors of Bethel church are open to everyone who wishes to come. You are welcome. Come!

Social News

The Senior Sunday School class entertained Mrs. J. H. Cook, our former Sunday School teacher, with a handkerchief shower Saturday. They served cake and hot chocolate. Everyone reported a nice time. It was a surprise to Mrs. Cook.

WANTED, A FARM

(Under the above caption, some enemy of the New Deal has perpetrated the following.)

Mr. E. J.

I was just talking with a friend of mine who was in the office out of the state. He has just received a government check for \$1,000.00 for not raising hogs this year.

This idea of not raising hogs appeals to me strongly, and I am thinking seriously of buying a farm and not raising some hogs.

Someone told me that you had some farms that you wanted to sell, so I am writing to ask you about them. I would also like to have your advice as to the best kind of farm not to raise hogs on; the best strain of hogs not to raise; and how best to keep an inventory of the hogs one does not raise. Also do you think some capital could be provided by the issuance of a non-hog-raising gold bond, with the thought that the government might later on guarantee the bonds?

The friend I speak of got \$1,000 for not raising 500 hogs. Now I figure it would be quite possible for me not to raise 1,500 hogs the first year, and I might build my business up to a point where I succeeded in not raising 3,000 hogs annually. You see there is a great opportunity in this kind of work as the profits are only limited by the number of hogs I do not raise.

Please let me hear from you at once in regard to this matter as I want to get a farm as soon as possible and try to get started to miss a few winter litters of pigs as I will need the money in the spring for taxes.

Yours very truly,

DID YOU KNOW?

More than a million and a quarter dollars was spent by the United States Rubber Company for materials in Texas last year, according to figures released by the company today.

The major part of this amount was spent for carbon black, the material which gives to rubber the quality of toughness and endurance. In view of this fact, Texas may justly lay claim to providing U. S. Tires with long and satisfactory service.

The second largest purchase was for cotton, a large portion of which was converted into tire cord. Other articles purchased in substantial quantities were sulphur and lamp black, also used in the construction. From these figures it may be seen that Texas plays a prominent part in the tire industry.

IN THE UNITED STATES DISTRICT COURT FOR THE WESTERN DISTRICT OF TEXAS, WACO DIVISION.

No. 236—IN EQUITY J. M. Hubbert vs. Temple Trust Company

Notice is hereby given that the undersigned, as Receiver for Temple Trust Company, has filed his application with the Clerk of the United States District Court in and for the Western District of Texas, Waco Division, for an order authorizing him to sell and convey to Dr. H. B. Mason the following described real estate, to-wit:

Being 146.63 acres of land and being the N. E. Quarter (1/4) of Section 2, Rusk Transportation Co., situated in Lynn County, Texas, more particularly described by metes and bounds as follows: Beginning at 1 inch iron pipe set in E line of Sec. 2, R. T. Co. for the S. E. cor. of this survey, Thence N. at 86.4° vr. the N. E. cor. of this survey, on the E. side of a public road; Thence S. 89°48' W. at 958.8 vrs. set a 2"x2" pine stake under a fence for the N. W. cor. of this survey; Thence S. at 86.4 vrs. set a 1" iron pipe for the S. W. cor. of this survey; Thence N. 89°52' E. at 958.8 vrs. to the place of beginning, together with all improvements thereon situated, for a total consideration of \$3162.55 to be paid in cash.

Said application will be heard by the Honorable Charles A. Boynton, Judge of said Court, after this notice shall have been published for a period of ten days and any person interested in said Receivership Estate may contest this application. Witness my hand at Temple, Texas, this 6th day of October, A. D. 1934.

H. C. Glenn, as Receiver For Temple Trust Company, Temple, Texas.

The News is informed that Miss Lois Jackson, daughter of Mr. and Mrs. O. J. Jackson and a former resident of Tahoka, is now a reporter and proof-reader on the Gladewater Daily Times. She is a graduate of Gladewater High School.

SAM HOUSTON FORESAW POSSIBILITIES IN TEXAS

Dallas, Oct. 6.—(Special)—If Sam Houston were living today and if the Chambers of Commerce of San Antonio, Houston, Goliad, Brenham, Nacogdoches, Huntsville, Gonzales, Galveston, Dallas and other cities where celebrations of the Texas Centennial in 1936 are to be held, were employing him as their publicly agent, he could hardly improve upon the praise of the State he voiced a century ago.

Writing from Natchitoches, La., under the date of Feb. 13, 1863, Houston forwarded to President Andrew Jackson of the United States an illuminating report of the things he had seen upon his first trip into Texas. This letter is quoted, in part, as follows:

"I have traveled nearly five hundred miles across Texas and am now enabled to judge pretty correctly of the soil and the resources of the country. And I have no hesitation in pronouncing it the finest country, to its extent, upon the globe; for, the greater part of it is richer and more healthy, in my opinion, than West Tennessee. There can be no doubt but the country east of the Rio Grande would sustain a population of ten million souls." The breadth of Houston's vision of this State's potentialities may

be measured now by the realization that Texas today has a population of more than six million people.

Come to Tahoka Trades Day.

Chills

—avoid them now!

The best protection you can have against the chills that are so prevalent at this time of year is a Gas Radiant Heater in your home. You can always be sure then of one warm spot in the house no matter how chilly the rest may be. It gives forth an instantaneous flood of warmth—without more effort on your part than it takes to turn a handle and light a match. The Heater quickly makes the whole room cozy and comfortable—in fact it takes the chill out of the atmosphere of the whole house. You'll find a Gas Radiant Heater that is best for you and when you want at your Gas Appliance Dealer's.

Kept Taking Cardui Until She Got Rid of the Severe Pains

When Mrs. Ida Hege, of Edinburg, Ind., was in a painful, run-down condition, she took Cardui, with the results she describes below: "I had just been what one might say dragging around, feeling miserable and all out of sorts. I remembered how Cardui helped my aunt. I sent for six bottles of Cardui and when I had taken them, I was much better and stronger. I did not suffer so much pain. I continued taking Cardui until I had taken nine bottles. I do not have the severe pains. ... Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician."

THE GROWL

Edited By Sylvester Reese

BULLDOGS DEFEAT POST ANTELOPES 7-0

Tahoka Bulldogs, under the watchful eye of Coach Walker, are developing into a football machine which is to be reckoned with by other teams in this district. With the 7-0 victory over the Post Antelopes last Friday, the local gridsters are in the big fight for conference championship. This is the second victory for the Pups, they having defeated Lubbock Cowhands two weeks ago and tied Crosbyton Sept. 21.

The game last Friday was hard fought from start to finish. Tahoka kicked off to Antelopes but recovered the ball in a very short time. A long pass from Allison, fullback, to Gill, right end, placed the ball on the 4 yard line. Allison succeeded in "totin' the pill" across the line, thus scoring a touchdown for the Bulldogs in the first five minutes of play. Drennon kicked goal for extra point.

In the last half of the game, the Antelopes became desperate and opened up a passing attack which netted them some yardage but no score.

Hester, halfback, seemed to be the outstanding player on the vi-

tor's team and was the only consistent ground gainer on the field. Minor, quarterback, Allison, fullback, and Gill, right end were among those who played good games for Tahoka.

In the game Post proved herself superior in line plunges, making seven first downs compared to Tahoka's three. Nevertheless, the Bulldogs outsmarted the Antelopes and did them up in grand style.

Another hard game is expected when the Bulldogs clash with the O'Donnell eleven here Friday afternoon, October 12. The O'Donnell squad has neither been beaten nor even scored on this season. Some of those O'Donnell guys are said to be as mean as a drunk mad dog fresh bitten by a rattlesnake and may be counted on to give the Bulldogs plenty to do.

In the meantime, the Bulldogs are working hard and you can bet that they'll do plenty next Friday. The line-up for the game Friday has not been fully decided but will probably be practically the same as the last game.

Coach Walker is very modest in regard to prospects and says very little. "I prefer to let the team talk," he said when interviewed.

AGGIE BOYS BUILD STAND FOR PEP SQUAD

At last Friday's game the Pep Squad and band were on the job in a big way. The squad was gaily perched upon a stand built by the Aggies under the supervision of J. D. Strickland which accommodates all of the 30 or 40 girls in the Pep Squad. This stand has three steps, each being 14 feet long and places Squad in the limelight.

The Pep Squad and band continue to do their part in rooting for the Bulldogs. The girls were so enthused after the game last Friday they and the band paraded the town and spread the glad tidings.

SENIORS AND JUNIORS PURCHASE JEWELRY

Following the tradition of the past several years, Seniors '35 last week ordered standard rings with accessories thus carrying on the sentiment attached to the beautiful gold ring on the face of which is Bulldog encircled by the words "Tahoka High School." The rings are indeed specimens of artistic workmanship and no doubt will be greatly valued by the possessors in years to come.

Twenty-six members of the Junior class also placed orders for pins different from those purchased last year.

Rev. Geo. Dale conducted chapel Monday afternoon. He made a short talk and told a few humorous stories which the students enjoyed thoroughly inasmuch as they were getting to skip a class.

WIRES CROSSED

The Senior English Class is studying Chaucer. The other morning Mrs. Tunnell breezed into the room feeling fine and snapped this question: "Where was Chaucer born?"

Quick as a flash Leo Brooks answered, "On the Road To Canterbury."

The teacher had been reading stories of boys who had grown to manhood and achieved fame by their inventions. "Now tell me," she asked Preston Strasser, "What would you like to invent?"

"I'd like to invent a machine so that by simply pressing a button all my lessons would be finished correctly," came the prompt reply.

"And you?" continued the teacher, calling on Sam Garrard.

With an effort Sam rose to his feet and replied in a drowsy voice: "Something to push the button."

Not So Smart

"Your methods of cultivation are hopelessly out of date," said Dorsey Allison, the youthful student of agriculture, to the old farmer.

"Take that tree over there. I'd be astonished if you get eight pounds of apples from it in one season."

"So would I," blandly replied the farmer. "It's a pear tree."

Elmer's Football Dictionary

Cleats—Handy attachments on the sole of football shoes with which opposing players walk on each other's faces.

Defense—Eleven men trying to keep you from winning the fifty cents you bet on the home team.

Can you imagine Joe Bob Billman, a peroxide blonde, dyeing his eyebrows and eyelashes coal black? Well, never mind, you don't have to imagine, it's a reality.

DIAGENES SEX:

The trouble with knowledge is that as soon as you acquire a reasonable amount of it, it is out of date.

Withdrawn from school: Joyce Crenshaw, Nadeen Poole, Coy Cathcart, Mildred Warren.

Dave and John Farnell of Lubbock and J. C. Draper of Southland were business visitors in Tahoka Wednesday. The Farnells knew our night watchman, W. M. Lee, when the latter was a kid. In fact, they were all kids together. Lee declares that he had not seen John Farnell for forty or fifty or sixty years—we have forgotten just how long—but recognized him and called his name when they met on the street here Wednesday. Lee is a politician.

We failed to note the arrival of little Owendolyn Ketter in the home of Mr. and Mrs. Toy Ketter when the event occurred more than two weeks ago. The mother was the former Ora Belle Willingham, and this is their first child.

PICTURE REUNITES WALLACE BEERY AND JACKIE COOPER, CO-STARS OF "THE CHAMP"

After more than two years of preparatory work, actual filming of "Treasure Island," world famous Robert Louis Stevenson story of pirate adventure, has been completed by the Metro-Goldwyn-Mayer Studios, and will be shown Sunday, Monday, and Tuesday at the English Theatre.

In bringing this book to the screen the major problem has been to retain the utmost fidelity to the plot and characters which have been vividly impressed on the minds of millions of readers both young and old.

Dozens of adaptations were prepared and then scrapped because they did not express the full strength of the Stevenson original. Finally each character was analyzed for its value to the story with dialogue as in the original plot.

The result is said to offer a literal translation of the book to celluloid with a maximum of realism and visual power.

An outline of photographic effects was prepared before the filming to insure pictorial values in every scene. Emphasis was placed on the position of players in composition of settings so that each sequence would have the power of a painter's canvas.

The necessity for casting more than fifty individual character parts in addition to the leading roles has resulted in some of the finest players in Hollywood being chosen for the picture.

Wallace Beery in the role of Long John Silver is said to be an exact personification of the book character; and with Jackie Cooper as Jim Hawkins, boy adventurer, the Stephenson atmosphere of youth and the sparkle of new experience is assured.

Extensive locations were used in the picture, including the Alameda Estuary near Oakland, Calif., Catalina Island, and open sea in the channel and on the seaward side of the island.

In the Los Angeles harbor, the Nanuk, famous whaling ship used by the M-G-M Arctic expedition for the filming of "Eskimo," was rebuilt as the Hispaniola, ship that carries the adventurers on their treasure hunt.

A large assortment of old-fashioned firearms, including muskets, flint pistols, and ancient brass cannon, with cutlasses, and dirks of all descriptions, were assembled for use by the pirates.

Included in the cast with Beery and Cooper are such notable players as Lionel Barrymore, as Billy Bones; Otto Kruger, Lewis Stone, Nigel Bruce, "Chic" Sale, and dozens of others. Victor Fleming, known for his vigorous work on "Rendezvous" and "Red Dust," directed.

LEGION DELEGATES TO MAKE TRIP IN NEW CHEVROLETS

American Legion delegates from Chicago to the national convention at Miami, Fla., October 22-25, will make the trip in a motorcade of 75 new Chevrolets. Five trucks will follow the caravan carrying baggage and band instruments.

The Chevrolet Motor Company has donated this huge fleet, with blue bodies and gold wheels, the Legion colors, and the sides of each car will bear the insignia of the veterans' organization. On arrival at Miami, the cars will be used as Official Courtesy cars to take care of the Legion's distinguished guests who will attend the convention.

The Chicago Legionaires, 350 in all, will be accompanied by the Chipilly Post drum and bugle corps. At Miami they will compete with the drum and bugle corps from other Legion posts for national honors. On the way, this Chevrolet mot-

orcade will bring a touch of the national convention to scores of cities ad towns. At many points local posts are arranging ceremonies of entertainment for the Chicago delegates. The return trip to Chicago will include visits to important points along the Atlantic seaboard.

Mr. and Mrs. W. P. Imman and Gene Roland left Monday morning for Glen Rose. They expect to spend about 2 weeks there for treatments.

LOST AND FOUND

LOST—One red horse mule, 14 1/2 hands high, 10 years old, weight 850 lbs., one bay horse mule, white nose, 14 1/2 hands high, weight 900 lbs. Reward. Notify A. E. Whitehead, Slaton, Texas.

LOST—A brown leather purse. Return to Mrs. T. Cowan and receive reward. 1tp.

PRESBYTERIAN SERVICES HERE NEXT SUNDAY

I greatly enjoyed dropping in there for Sunday School and a preaching service the morning of the fifth Sunday. The flowers raised in the back yards of our folks are just as fine as those raised out in the front yard. They are just as faithful on one Sunday as another. We shall be glad to have a fine attendance at both our services next Sunday. The public is always cordially invited to our services. Preaching is to stimulate thought, courage, faith and responsiveness to the challenge of our day and generation. Godliness hath promise of the life that now is and that which is to come. Worship is faith in reverence and action. Be in our services next Sunday. Morning theme: "The Forgotten Christ," followed by communion service. Subject at night: "A Quitter's Service." A few things good for a Christian to quit. Think it over and bring your number. A few things the very best of Christians need to quit. Also, a few things all Christians can afford to do better in, etc. Tune in to our night service. Bring others. We have a comfortable church, a fine gospel and always glad to have you in our services. You are invited.—W. K. Johnston, Minister.

CHURCH OF CHRIST NOTES

A high water mark was reached last Lord's Day. More families of the church were represented at the morning service than any service for some time. The night audience was larger than usual also.

Hurrah for Lubbock's stand on law enforcement. How about Tahoka following suit, especially at the football games.

Thanks to those who have notified me they missed my church notes. It shows that the News is read, even to the ads. Mr. Merchant patronize your local paper.

To those who do not go to Sunday School—come enroll with us. We began a new quarter last Sunday and the lessons are fine.

Subjects for next Lord's day: "Christian Warfare", morning; "What Must I Do To Be Saved", evening. The time of the evening has been changed to 7 u. m.

Come to the friendly church and worship as it is written.—R. P. Drennon.

Mr. and Mrs. T. Cowan were Lubbock visitors Sunday.

Cotton Pickers

Wanted to try BROWN'S LOTION for relief of occupational ECZEMA, ITCH, RINGWORM, POISON IVY, CUTS, and SCRATCHES. BROWN'S LOTION is highly antiseptic and quickly promotes healing. For sale in 60c and \$1.00 sizes. By Thomas Bros. Drug Company. MONEY BACK GUARANTEE on first bottle.

DOWN TOWN BIBLE CLASS TO VISIT METHODIST MEN

The members of the Down Town Men's Bible Class have accepted an invitation to meet with the Men's Class of the Methodist Church at 10 o'clock Sunday morning, October 14th.

Our new president, Mr. Truett Smith, requests that we assemble at our regular class room in the English Theatre promptly at 9:45 so that necessary class business may be attended to after which we will enjoy the fellowship of our Methodist brethren by attending their teaching service in a body. These classes have exchanged visits in the past with much mutual pleasure and benefit and our president urges that a large percent of our class be present together with any men who will accept the gracious hospitality of our co-workers of the Methodist Sunday School for next Sunday.—Class Reporter.

BAPTISTS ATTEND WORKERS CONFERENCE TUESDAY

Rev. and Mrs. Geo. A. Dale, Mmes. H. P. Caviness, Tom Leonard, R. E. Thompson, and "Mother" Stroud represented the Tahoka Baptist Church at the Workers Conference of the Brownfield association held at Ropesville Tuesday. All report an unusually interesting program. Rev. Dale preached at the eleven o'clock hour.

Central Church twelve miles east of Tahoka was represented by R. Bosworth, B. J. Emanuel, M. E. McCord, D. D. and Ray Odom, G. M., Wesley and Leslie Duckett, and Mrs. Johnson.

There were delegations from other Lynn county churches also.

MRS. HAROLD EDWARDS IS HOSTESS TO MUSIC CLUB

Mrs. Harold Edwards was hostess to the Tahoka Music Club last week in the home of the President. The Club is studying Thurlow Leauran and his Indian music. An interesting business session preceded the program and a delicious refreshment plate followed.

Plans were made for attendance at the Seventh District Convention in Plainview next week end. Two new members were welcomed at this meeting. Mrs. R. L. Moreland will be hostess in her home on Oct. 18.—Reporter.

NAZARENES TO BEGIN REVIVAL MONDAY NIGHT

A revival meeting is to begin at the Church of the Nazarene next Monday night and is to continue until Thursday, October 25, according to J. W. Brown. Rev. F. E. Graham of Grassland will do the preaching.

There will also be the regular services at the church Sunday morning and night, Mr. Brown states.

The general public is cordially invited to attend any or all of the services.

MIMEOGRAPH PAPER at 25c per 100, or \$1.10 for 500—The News.

Whooping Cough Dangerous Disease

Austin, Oct. 3.—"There is no other communicable disease as dangerous as whooping cough to the very young, and there is no other disease causing an equal amount of suffering of which parents show such an unaccountable disregard, not only for the safety of their own little ones, but also for the lives of the neighbor's children," said Dr. John W. Brown, State Health Officer. "There is no natural immunity against this disease during the first six months of life as there is against measles. It is at this age that whooping cough strikes its hardest blow and over 50% of the deaths occurring in children are under one year of age. The disease is usually transmitted by direct contact with the secretions of the mouth or nose, and only a very short exposure is required to contract the infection. Handkerchiefs, drinking cups and toys also may transmit the infection."

"The infection is communicable from the appearance of the first symptoms and is most contagious at this early period when the nature of the affection can only be suspected. The incubation period is commonly seven days. A slight fever, running of the nose and a cough make their appearance so gradually and insidiously that diagnosis is practically impossible unless a history of exposure is obtained. When the "whoop" appears there is no mistaking the disease. If there is whooping cough in your community keep other children away from your little children and keep your children at home. Call your physician early. Isolation of all cases for at least two weeks from the development of the characteristic cough should be rigidly enforced."

STATEMENT OF OWNERSHIP, MANAGEMENT, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912.

Of The Lynn County News, published weekly at Tahoka, Texas, for October, 1934.

State of Texas, County of Lynn, ss. Before me, a Notary Public in and for the State and county aforesaid, personally appeared E. I. Hill, who, having been duly sworn according to law, deposes and says that he is the Publisher of The Lynn County News, and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, printed on the reverse of this form, to-wit:

1. That the names and addresses of the publisher, editor, managing editor, and business manager is: E. I. Hill, Tahoka, Texas.

2. That the owners are: E. I. Hill and wife, Tahoka, Texas; Frank P. Hill and William E. Hill, Tahoka, Texas; Miss Berta Hill, Dallas, Texas; E. I. Hill Jr., Washington, D. C.; and Mrs. Myrtle Hill Rochell, Breckenridge.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: None.

Sworn to and subscribed before me this 10th day of October, 1934. FRED B. HEGEL, Notary Public, Lynn County.

MODE OF NOTIFICATION OF SAN JACINTO INTERESTING

Dallas, Oct. 3.—(Special)—Details of how the President of Texas was notified of the decisive victory, gained at San Jacinto, a battle that realized the independence of Texas, constitutes an interesting sidelight in connection with the Centennial, which in 1936 will be commemorated by celebrations at San Antonio, Houston, Galveston, Brenham, Nacogdoches, H Martineville, Dallas and cities associated with the early history of the State.

David G. Burnet, the first provisional President of Texas, for safety's sake had moved with several members of his Cabinet to Galveston Island, and while the battle took place April 21, 1836, the President did not learn of the victory until six days later.

News of the victory was carried by Robert J. Calder, who commanded Company K in Burleson's regiment in the battle, and Judge B. C. Franklin, accompanied by two soldiers. Their only means of transportation was a leaky skiff, which they rowed and towed, sleeping at night with difficulty and having a hard time getting anything to eat.

On the fifth day, they rowed alongside the war schooner "Invincible," the commander of which fired a cannon three times to celebrate the news of victory. The mes-

senger pertook liberally of the best liquor on the ship and then were taken to the "Independence," the flagship of Commodore Hawkins, who fired a cannon thirteen times in celebration and wined and dined the messengers. He then advised them to go and tell President Burnet the news, which the executive received in his tent the sixth day after the battle. It is said that the President was "miffed" that everybody on the island knew that the victory had been won before he was informed.

TAHOKA BAND WILL PLAY AT WEST POINT FRIDAY

The Tahoka band will play at an entertainment to be given in the West Point School building Friday night of this week, according to Herbert Neill, a member of the band.

The band played at a box supper at Redwine last Thursday night, and Mr. Neill says that they had a wonderful time. The school children rendered a program and everybody seemed to enjoy the occasion.

Prof. A. B. Griffith of Midway dropped into the News office Wednesday night and gave out the information that Midway had just defeated T-Bar in a couple of basketball games, one played by the boys and one by the girls. The Midway school is again progressing nicely.

Buy it in Tahoka and be here next Trades Day.

Tahoka Lake Is Historic Point Of South Plains

(By Frank F. Hill)

Possibly no other one spot on the Plains has seen more history than Tahoka Lake, though the lake has been known to the Anglo-American scarcely more than sixty years.

For fully four hundred years, no one knows how much longer—Tahoka Lake springs has been an oasis in the desert of wasteless plains for man and beast.

Here the Indian camped, first as a hunter, and later as a fugitive

from the white settler down state. Here the Spaniard found water for a dry throat. Here the New Mexico Indian herded his sheep. Here the U. S. soldier, the Texas Ranger, and the Buffalo hunter made "wet" camp. Here the pioneer cattlemen, opening up the country to settlement, found water for his stock. And, here, the trail driver and the freighter found a convenient stopping place.

Graves on the hilltops, arrowheads and broken pottery indicate a favorite Indian camping ground. Nobody knows how long since the Indian discovered this retreat. It is known that the Comanche trail from the North to the Mexican border passed the lake. The Apache of the West received his last Plains water here before going down the caprock. A well-beaten Indian trail was recognizable in the '70's from Yellowstone River to Tahoka Lake, west to Double Lakes, Sulphur Draw, and across the Texas border to Ranger Lake, Four Lakes, Mesalero Springs, and on to the Pecos. Tahoka Lake was a favorite meeting place of the Comanche and the New Mexico traders and other Indians from that state following the raids made on Texas settlements by Comanches, who traded their loot by the cool waters of the springs to the New Mexicans. Who knows what thievery and murder was the result of plans laid around the shores of this historic lake?

A number of historians claim that Coronado, who crossed over into Texas in 1541 in his search for Quivira, went down the Brazos, possibly as far as the Double Mountain region. Here Coronado sent his main army, under Captain Arellano, back to New Mexico. They took a directly westward course across the Plains; and, no doubt, being guided by Indians, they followed the old Indian trail by the Tahoka and Double Lakes.

Nearly a hundred years later, the Spanish were getting well established in New Mexico—opening up missions and carrying on trade with the Indians. Down on the headwaters of the Colorado, in Texas, the Spanish found the friendly Jumano Indians. In 1629, Fathers Salas and Lopez, with a few soldiers, left the Santa Fe country for the Colorado to work among these Jumanos. Old maps show their trail across the Plains from the Pecos at about Fort Sumner by way of Portales Lake, down the Yellowhouse draw to the Lubbock area, south across the Plains by Tahoka Lake, and on to the Colorado headwaters in Borden county. Again in 1632, other friars made the same trip; and for the next fifty years, until the Pueblo Rebellion of 1680, New Mexican traders visited this region regularly. In 1650 and again in 1654, important military and trading expeditions from Santa Fe, the first under Captains Hernandez Martin and Diego del Castillo, the latter under Diego de Guadalajara, visited the Jumanos and went on down the Colorado to the land of the Texas Indians.

For the next two hundred years,

we find little account of white man's visit to this section of the Plains. Old timers tell us New Mexican shepherders frequented Tahoka Lake, with their herds, in the 1860's.

During the '70's numerous scouting expeditions by Texas Rangers on the Indian trail came to Tahoka Lake, several being from Camp Cooper, six miles above Fort Griffin. Soldiers from both Fort Griffin and Fort Concho likewise followed the depredated Indian to the springs. One notable expedition visiting the lake was that of the 10th Colored Cavalry from Fort Concho in 1877 which party became lost northwest of Double Lakes and was forced to go ninety-six hours without water, relying on horses blood for sustenance. Four of the soldiers and one buffalo hunter in the party did die of thirst. Capt. Arrington and a company of Rangers followed an Indian band here in 1879 from their headquarters at Camp Roberts, Crosby county.

Just when the Fort Concho-Fort Sumner military trail by Tahoka Lake was established, this writer does not know; but for years, possibly as far back as the Civil War, soldiers traveled almost the identical route followed by the Spanish over two hundred years previously.

Because of its water, Tahoka Lake was a favorite buffalo hunting ground in the '70's, such hunters as John and Wright Moorar, Jim Harvey, the Causey brothers, John R. Cook and our own F. M. Sherrard hunting in its surrounding territory.

The first ranch on the lower South Plains was located at Tahoka Lake in 1879 or 1880 by Shaw and McDonald, sheepraisers. Ruins of their old dugout and rock corrals may be detected now at the north spring. They were followed in a few years by F. G. Oxshire, cattle ranchman, and later by Col. C. C. Slaughter, who at one time controlled more than two million acres of land in this section. The old house at the north spring was built by him as his north headquarters, known as Tahoka Lake ranch.

When the railroad built to Colorado in 1883, the main freight road to the North Plains came by Tahoka Lake. Supplies for the Capitol Syndicate's 3,000,000-acre KIT were hauled by here, as were those for Col. C. C. Goodnight and the Adairs, the T-anchor, the LIT, and other famous large ranches to the north. After establishment of Lubbock, freight and hack lines went by Tahoka Lake to Gall and on to Colorado, and later from Tahoka to Big Spring.

Today only a few sections of grass remain around this lake, the bed of which covers nearly two sections of land.

Too, the lake is interesting geologically—formed as the result of some great sinking-in of the earth's surface long ago. Evidence of the great Cretaceous sea which covered Texas millions of years ago may be seen. Though fed by constantly running fresh water springs, the bed of the lake remains dry a greater portion of the time. The white sand in its bed is potash, common salt, epsom salt, mica, and a number of other salts and minerals to be found in several similar Plains lakes.

South Ward

There was a large crowd at Sunday School and church Sunday morning. Bro. Niserton of Tahoka preached for us.

Next Sunday is Bro. Dyke's day to preach, so everyone come for Sunday School at 10:15 and church at 11 o'clock.

Everyone remember singing next Sunday afternoon at 3 o'clock. We are expecting some good singers so come!

Mr. and Mrs. W. P. Inman and Mr. and Mrs. Gene Roland went to Glen Rose Monday. There Mrs. Inman and Mr. Roland will take treatments. Mr. Inman says he is going to fish and hunt while the others rest. We hope they all return home soon feeling fine.

Miss Norene Mason spent Sunday with her parents, Mr. and Mrs. Ed Mason and family. She is working at Midway.

Several from this community attended the pie and box supper at Redwine last Thursday night.

Folks! Don't forget Sunday school, church and singing Sunday. The young folks Sunday School contest is coming along just fine. We young folks should urge more to come and join our class.

Clay Hughes was scouting around down about Seminole a few days ago and visited the sand hills near that little city, where he found a number of Indian corn trays similar to the one that was on exhibition in the News office several weeks. Clay has picked up a lot of Indian relics here and there in his pilgrimages.

The Rattler

Published by Students of the Redwine School

Editorial Staff:

Editor-in-Chief Edith Willingham
Society Editor-Howard Mae Grayson
Sports Editor Beatrice White
9th Grade Editor Thelma Wallace
6th Grade Editor Donald Giles
3rd Grade Editor Robert Giles

Our box supper and auction sale on last Thursday eve was a success. We got a neat sum out of it which could not be appreciated more than by the school.

The school is planning on having a Halloween carnival in the near future.

Each Monday is current event day for the 7th, 8th and 9th grades. We are planning to organize a current event club in the near future. Each pupil will tell an article from the paper.

The 9th grade is planning to organize a Spanish club very soon, which means we will present Spanish plays and programs.

This week is examination week for the 7th, 8th, and 9th grades which will be our first for this term. We hope each pupil will do well in the examinations which we are sure they will.

There was a large crowd at Sunday School Sunday morning. The attendance and interest of our prayer meetings are increasing each Sunday evening.

Misses Laverne and Janette Jones of Tahoka visited Edith Willingham this week end.

Visitors in the home of Mr. and Mrs. A. T. Beard Sunday were Mr. and Mrs. Sark Wagley and son Clayton Beard and children and Misses Howard Mae Grayson, Melba Evans, Ruth Garrison and Zella Phillips.

Mr. and Mrs. Joe Warf of Corona, New Mexico, and Mr. and Mrs. Bob Warf of Canada were visitors of Mr. and Mrs. Charlie Patterson Thursday and Friday.

Mr. and Mrs. Cunningham visited Mr. and Mrs. Holloway Sunday.

Mr. Kitty Bartley of New Lynn was a visitor of Fred Stone this week end.

Miss Maurice Giles entertained the young folks with a party Saturday night.

Mrs. C. L. Patterson and daughter Frances visited Mrs. Jesse Hawthorn of Ragtown Sunday.

Next Sunday is Brother Braswell's day to preach. Everyone come!

The fourth, fifth and sixth grades have instituted Friday afternoon story telling hour from 2:45 until 3:45. The rooms are doing this in an effort to improve the public speaking ability of each individual. The school patrons are urged to visit the intermediate room at this hour.

Those who made the honor roll in the 1st, 2nd, and 3rd grades the past six weeks were Robert Giles and Frances Patterson.

We are making a farm scene in our sand table. We planted our wheat last Thursday and it is now about six inches high. We made our house, garage and windmill from cardboard. Our horses, cows, pigs and chickens and other animals are made from cardboard too. Our fence posts are made of sucker sticks and our wire is twine. The table as a whole is very attractive and represents a typical West Texas farm.

Our pupils are doing some good work in their studies and everyone is improving their grades. We hope to do even better the next six weeks of school and hope to have more pupils on the honor roll.

Sports On Parade

(By Beatrice White)

The venomous tribe of Rattle Snakes made a sojourn into the land of the New Homeites last Friday and lost a three game match with that school. It seemed that the Rattlers were suffering from the evil effects of boll pulling. Their fingers were not adapted to the handling of the air inflated sphere with which the gentle game of basketball is played. Many times they had the ball down under the

Cardui Helped Lady

For Nervousness and Run-Down Condition

"I have taken Cardui several times for weak, run-down condition and it has helped me," writes Mrs. Walter M. Coulon, of Forsyth, Ga. "I was nervous and suffering from a weak condition. There were days when I had to lie down during the day. I sent for six bottles of Cardui, as it had helped me before. Cardui gave me strength, stopped the nervousness and helped me in every way. . . . Cardui may be just what you need. It can't do you any harm, so why not try it? Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician. \$1 a bottle, at drug stores."

goal for an easy trip only to let it trickle through their fingers out of bounds or into an opponent's lap. The game was not entirely without bright spots for the Redwine team however, as the players Mart and Myri Willingham and diminutive Carl Stone gave great promise of better days to come. For the girls Edith Willingham and Mildred Ruth Garrison played jam up good games while the work of the rest of the team although at times erratic showed well against the fine play of the New Home team. In the Junior boys' game the work of Truett Holloway was the whole show. In previous games played, Truett, who is very small in stature, has held himself in reserve but Friday night he came alive to give the best performance of guarding in either of the games played. It was the brilliant work of Truett Holloway that held the score of the larger New Home team to a lower level.

The New Home team is to be complimented on its fine team spirit and good sportsmanship. We are hoping to turn the tables on them when they return the games to Redwine this week.

CARD OF THANKS

We wish to express our sincere thanks and deepest appreciation to our neighbors and friends for the many deeds of kindness shown us and for the beautiful floral offering upon the death of our daughter, Miss Francis Thornbrough. The Family.

Texas Lady Tells How

Black-Draught Laxative Helped Her Family

Here's how Black-Draught fills the needs of a family laxative in the home of Mrs. W. S. Stoker, Fort Worth, Texas: "The grown-ups in my family," she writes, "have always taken powdered Thorford's Black-Draught for biliousness, headaches and other ailments (due to constipation) and found it a reliable remedy. I was very pleased when I saw a Syrup of Black-Draught advertised. I bought it and gave it to my little-daughters, ages 6 and 4. They needed something to cleanse their systems and Syrup of Black-Draught acted well. . . . Your druggist sells this reliable laxative in both forms."

THIS LIGHT COSTS Less THAN MY EVENING PAPER

I USED to skip myself on light—but no more. It's not worth it. I sit here and read all evening and all it costs me for light is one cent. Lighting is really a small item in the cost of operating this house.

Of course, you have to use good lamps. No more of these cheap ones for me; they send your lighting bill sky high and they don't last. I always buy Mazda Lamps. They're the best I can buy and they save me money in the long run.

REPORTS FROM THE COUNTY CLUBS

Miss Sylvia Robb, H. D. Agent

Edith 4-H Club Held Meeting October 5.

The Edith 4-H club held its last meeting October 5, 1934.

Miss Robb showed us some jelly. Vera Evelyn Webster also brought a glass of jelly to be judged. Miss Robb showed us a dress that a 4-H club girl had made at South Ward. Then we started on our dresser scarfs.

The following were elected for the purpose of getting up a play for our club. Birdie McKee, Leah Mae Bell, and Inness Anderson.

The following were present: Paulina Mae Harper, Birdie McKee, Lodema Garnett, Wanda Dyer, Dorothy Faye Kahl, Vera Evelyn Webster, Jeffie Lynn Stephens, Leah Mae Bell, Effie and Inness Anderson.

Visitors were Geneva, Ivy, Myrtle and Becky Jenkins.

Southward-Redwine Club Met October 6

The Southward-Redwine club met Friday, October 6, with Mrs. C. B. Evans. An interesting talk was made by Miss Robb, county home demonstration agent, on the reduction plan. Mrs. Garland Pennington had charge of the recreational program which was enjoyed by all.

Those present were: Mmes. H. W. Pennington, Hugh Robertson, C. C. Johnson, Chas. Patterson, M. Smelser, C. B. Evans, W. Z. Florence, Roy Tunnell, Willis Pennington, and our agent, Miss Robb, and Mrs. Garland Pennington from the Edith Club.

Southward 4-H Club Met October 5

The Southward 4-H Club girls met Friday morning, October 5, at the home of our sponsor, Mrs. G. H. Boen.

The demonstration agent, Miss Robb, met with us and gave a demonstration on making dresser scarfs.

Those present were Nell Dudgeon, Juanita Eaton, Odean Boen, Martha Burden, Madell Hardt, Juanita Boen, Violet Hardt and Georgia Burden.

Gordon Club Meets With Mrs. R. E. Jones

The Gordon club met at the home of Mrs. R. E. Jones October 2 with twenty members and one visitor present. House called to order by president.

Motion made and carried to have Halloween party and charge admission for benefit of the club.

Talk made by president on parliamentary law.—Reporter.

Lynn County H. D. Council To Meet Saturday

The Lynn County H. D. Council will meet Saturday P. M. at 2:30 in the county court room. Mrs. Roy Tunnell will give a demonstration on glove making. All club members are invited to be there.—Reporter.

Baze Heads Unique North Plains School

(The News has received the following communication concerning the unique work being done by the Hopkins High School, of which M. L. H. Baze is the superintendent. For four years Mr. Baze was superintendent of the Tahoka Schools and did some outstanding work here.)

The Hopkins Public Schools of the Panhandle of Texas are setting a mark at which other schools of the state may shoot. There are at least half as many fathers and mothers attending school as there are children. This adult school is not a set-up under the Emergency Education program, but it is a program instituted and carried on by the local schools and the people of the community. It was organized under the supervision and call of Supt. M. L. H. Baze of the local schools. Many ex-students and former teachers are being given assignments in promoting the organization. This section of Gray county is given over largely to oil production and refining. Workmen have much leisure time. They are ambitious to improve their positions in life, to live a fuller life in every way, to take advantages of an opportunity that they did not have in younger days or failed to utilize. It is an interesting sight to see on Tuesday, Wednesday, and Thursday evenings a long row of cars parked in front of Hopkins No. 2 building. Investigation will provide ample proof that there is something going on inside the building. English, practical and useful in character, is being studied; as also are such subjects as government, business and practical arithmetic, chemistry, and even the three "R's". Interest in these classes has grown from the very beginning.

Each succeeding meeting finds new faces; adults ranging from twenty to forty years of age. A primary class for the study of reading, writing, arithmetic, etc. is being organized for adults, the majority of whom are past fifty years of age.

People from Phillips, Texas, Magnolia, Stanolind, Skelly, Gulf, and other oil companies are attending and adding their cooperation to the movement. Many young men of these companies are assisting in the chemistry experiments. People from California, Oklahoma, Texas, Kansas, and other states are joined together in the movement, forgetting their local or traditional likes or dislikes, prejudices, etc. and entering the work of making life more worthwhile and of arriving at a better understanding of their privileges and duties as citizens.

The local school board authorized school officials to go forward with the adult education movement, believing that school facilities should be placed at the disposal of as many people as possible. The adult school is not following any precedent; in fact, the feeling among teachers and pupils is that a precedent is being set. They believe that leisure time spent in study and association with each other will yield greater returns than such time spent in worry over economic and political conditions. The movement is purely experimental and local in its application, but it promises to keep employed in useful pursuits a group of people that find leisure time heavy on their hands, and it also promises to prove, by actual tests whether or not the new idea of adult education being advanced by educators is practical and worthwhile.

RECORD BREAKING ENROLLMENT AT TECH THIS YEAR

Lubbock, Oct. 10.—Friday's registration swelled the enrolment figure for the first semester of the tenth annual session at Texas Technological College to 2,282, according to President Bradford Knapp. This enrolment exceeds that of last year at the same time by 430 students, and that of any semester by a few less than 300, and shatters all records for first semester enrolment. The total is expected to reach 2,400 when registration for late students is complete. The tabulation of 2,282 does not include 165 part time students.

"In the event that we have 2,400 enrolled it will mean a 20 per cent increase over the first semester enrolment of last year," President Knapp stated, "and this number will exceed the enrolment for last year's two-semester total."

Classes in all divisions were full and many over-crowded. The two new dormitories were filled after the first day of registration, and many reservations were turned down. Students were housed in approved places in the city.

October 10 is the last day that a student may register for a full time course.

Edith

Only a small crowd attended Sunday School Sunday. We hope there will be more next Sunday. Everyone come. We need your help in Sunday School.

Mr. and Mrs. J. M. Faubion, Vera Evelyn Webster and Effie Anderson ate Sunday diner with Miss Lola Smith. They spent Sunday afternoon at Tahoka Lake.

Mr. and Mrs. J. T. Owens and family made a business trip to Lamesa Tuesday.

Mr. Scott Stephens returned home Friday from Tyler where he has been working.

Mr. and Mrs. Joe Anderson and family and Inness Anderson spent Sunday with Mr. and Mrs. A. H. Nelson of New Lynn.

Mr. and Mrs. Garnett and family spent Sunday with Mrs. Harris of Meadow.

Mr. Lee Sanders returned to Spring Lake Thursday.

Miss Dora Edith Weathers was taken to the Lubbock Sanitarium in a bad condition but is now improving.

Mrs. E. D. Payne was taken to Lubbock Sanitarium Sunday night.

Mr. and Mrs. Virgil White of Three Lakes and Mr. and Mrs. Sherman Inman of South Ward spent Sunday with Mr. and Mrs. T. I. Hammonds.

Mr. and Mrs. Nixon from Grassland spent Sunday with their daughter, Mrs. Oran Welch.

Miss Paulina May Harper spent the week end visiting her brother of Now Home.

Mr. and Mrs. Art Nixon left Saturday for Oklahoma accompanied by his sister, Ellen Nixon of Grassland.

A group of young people enjoyed a "42" party and afterwards a dance at Eurie Tippitts Saturday night.

A large crowd attended singing Sunday night. We hope they will keep coming as we enjoy having visitors attend. Come back Sunday night and bring some one with you.—Reporter.

Mrs. N. A. Duncan, the former Mrs. Deacon Jones, was here on business Wednesday. She now resides in Lubbock. She was accompanied by her cousin, Mrs. John W. Agnew, who has been a resident of Lubbock for more than thirty years. She stated that her husband built Lynn county's first court house.

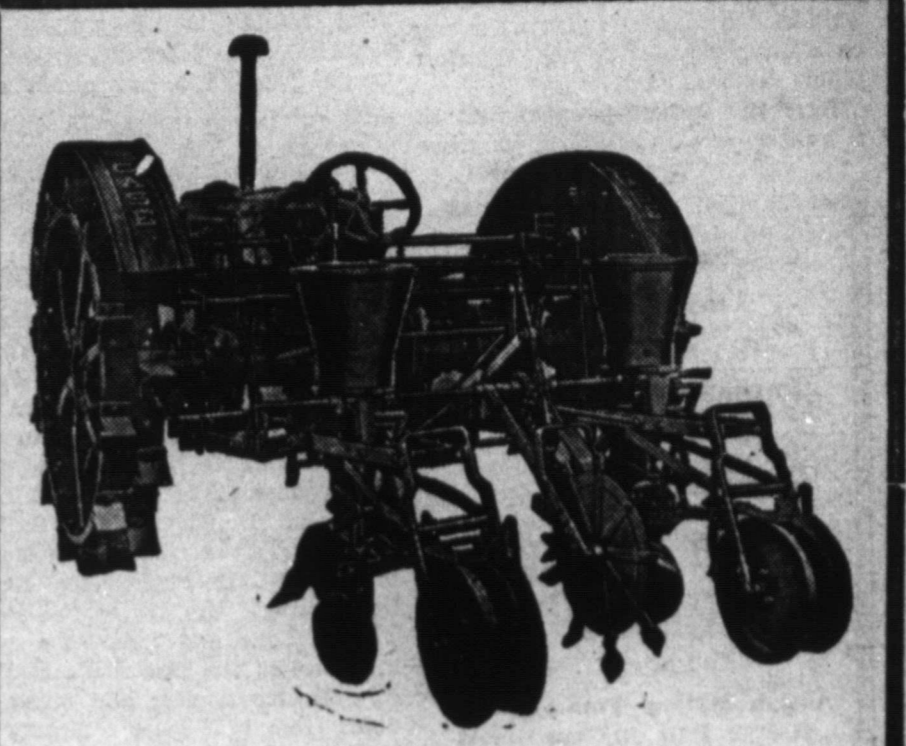

TIME TO THINK OF FIRE PREVENTION

It will soon be time to start that gas heater or the coal or wood heater and before you hook them up be sure to see that gas lines and gas jets are in good condition and that the old flue is safe. Many homes would be saved from destruction by flames if a few common sense precautions were taken at this season of the year. The week beginning October 8,

has been designated as fire prevention week and everyone of us should observe same and help prevent fires in our homes.
