

**SCOOP SEZ**  
By J. M. Forbes

**FABULOUS** is the production of the rich agricultural lands of the High Plains of Texas. (Stealing a line from The Plainview Herald.)

And fabulous is the word for it. Look here:

Crop reporting districts 1-N and 1-S, comprising the Panhandle and South Plains, accounted for an estimated \$325,320,000 of farm income for 1956, or about 30 per cent of Texas' total.

Our neighbors, Lamb and Farmer counties, were in the top 10 of the area. Lamb had a farm income of \$43 million, Farmer \$24 million. Bailey county has an estimated farm income of \$13 million.

Progressive Farmer has released these figures and we're glad they put them out right when they did. We know a Magic Valley couple, here on a visit, watching us with ferret like eyes, trying to make up their minds about us, probably comparing us every day with their own "God's country."

Be it noted by them and by all of us, that 1956 was a poor year for dryland crops, and Bailey county might increase a few acres in the dryland category. Three things might increase this country's total farm income very considerably in 1957. There are many acres of new, irrigated land in cultivation this year; crops look promising on dry land; our smart farmers might make their land yield more than ever this year.

We throw in a fourth reason, without extra charge: Sec. Benson might resign. Farm products might sell for a more favorable price, quien sabe?

If you think you have been carried along pretty fast the last 50 years it would perk up our ears to read what Changing Times, the Kiplinger mag predicts for 1982. Among other things to come to pass in the next 25 years, it says are:

Population of the U. S. will be 250 millions. There'll be 100 million job holders, twice as many college students as now, 130 million autos on the roads and we'll have a 4 day work week.

Pay will double today's wages; but 1982's dollar will be worth a lot less than today's. It will be an even smaller world. No country or city will be more than 24 hours away from you. Planes will be strung up in the straight ahead. Cars will have 25% more HP; parts may be sealed, so that you may never need a grease job; trains may be atom powered and built to go 2 miles per minute; and some will rocket along on monorails.

A whiff of air will clean and dry the dishes. Electrostatic dust gatherers will keep the house shiny. It's hot, you'll use a blanket that keeps you cool. Look out, Harvey, you and Randy and them: Refrigerators will have lost their importance! Most foods will be irradiated, chemically treated, or dehydrated. Your newspapers, including The Journal, will be as colorful as a slick magazine.

You'll get your party on the phone by dialing one letter or number. Typewriters will respond to the spoken word. Retailers will thrive, biggest lines appliances and recreational equipment.

In 1982 there'll be no more payrolls to worry about, no rent or fuel bills to pay, no taxes to dig for. . . Sorry, we must've dropped off to sleep there for a minute.

We use the word "smart" in connection with our farmers without fear of contradiction as the political orators used to be fond of saying.

One time Verney Towns, who certainly tries to keep abreast of things, told us that "if you keep up with Muleshoe area farmers you got to get up before breakfast." Verney has farmed in other sections of the Plains but that's his opinion.

And from down Maple way, old Edwin Neutzel told us he was sort of awed at the smart, wise tactics of some of his neighbor farmers, who, he said, think a planting or cultivating problem is just something to be solved!

But enough about farming. If we devote the whole column to the subject farmers might get the idea that agriculture somehow is of great importance.

**Trades Day Ends Here Saturday**

Mrs. Gerald Ottwell won \$125 first prize in the final Trades Day drawing held here Saturday afternoon. Second prize of \$50 went to Alvis Burns and M. E. Lee won the \$10 third prize.

The drawing Saturday ended Trades Day drawings in Muleshoe, according to the Chamber of Commerce retail merchants committee. The committee announced that due to weather conditions, farmers and their families are too busy at this season to come into town on Saturday afternoons to attend the drawings.

## School Board - Athletic Boosters Try For Compromise

**HIGH YIELDING BARLEY CROP**

THIS FIELD OF BARLEY, being harvested this week by Cecil Mardis, a mile from Muleshoe, is yielding 71 bushels per acre, for one of the highest yields recorded in this area. — Staff Photo

### Wheat Harvest Begins, First Loads Received

First load of wheat of the current crop was brought into King Bros. Grain elevators Saturday morning, June 15 about 11 a.m. The grain belonged to C. T. Seaman of Morton, and tested 11 per cent moisture, which is considered quite dry for the first load.

Mr. Seaman had 12,800 pounds in the first load, which he placed in government loan and netted \$1.88 per bushel after storage costs were paid. The grain weighed 58 pounds per bushel, and was Westar variety wheat.

Ray Griffiths and Sons received a load of wheat Wednesday afternoon at 4:30 from R. B. Brown, southwest of Morton. The load weighed 13,460 pounds and averaged 58 pounds per bushel, with 14.5 per cent moisture.

### Members of the Muleshoe School Board of Trustees met with members of the Athletic Boosters club Wednesday night to discuss recent action of the board which would eliminate payment of meals for athletic teams on out of town trips. Jack Young was spokesman for the Boosters Club, and asked the board for an explanation of the action and then offered the services of the club in solving any problem which caused the action to be taken.

Paul Scott, president of the Board began the discussion by explaining that although the school athletic program was set up to be self sustaining, it had never been able to pay its own way, and that last year the board had paid between \$3500 and \$4000 into the athletic fund out of general fund to sustain the program.

Scott went on to say that the board is faced with the problem of setting up a budget to take care of an increased emphasis on science and other phases of the scholastic curriculum, without any apparent increase in operating money. Scott then told the group that in seeking ways to better equalize the expenditures made from the general fund, the board had decided to begin by cutting out the least important in their viewpoint, part of the athletic cost.

Then Scott told the group that the board had spent about \$1400 last season for meals for the athletes on out of town games. He suggested that the athletic boosters could assume this obligation and make up the operating deficit of the athletic program.

Members of the club expressed ideas on ways they could make up needed money, and agreed to try to boost the sale of reserved seat seasons tickets for this fall's games, and to take other steps to raise needed funds. However, members of the club asked the Board if it would agree to reinstate the providing of meals if the Boosters were unsuccessful in raising enough money to take care of the item. The board indicated it would go as far as it could in cooperating with the boosters, but without a formal meeting could not take any official action in the question.

Scott pointed out that the Muleshoe school would probably move into class AAA this year, that an additional nine teachers will be required this fall over what the state pays for, and additional equipment and personnel will be needed in the fields of science.

Young agreed that the general public does not want to see the school fall behind in any department, and the boosters club particularly does not want to see the athletic program regress rather progress. Jack said he believed the athletic program is on the verge of a bright future, and the club feels that cutting any part of the program would set a trend for future de-emphasis of the entire athletic program.

Scott stated that this fall there will be only four home games, since Portales cancelled out after the schedule had been arranged. A committee, composed of Martin Oliver, Jack Young and Don Moore was appointed to work with the school board in finding means of helping out on the problem.

### Bob Darnell Transferred To Buffalo Lake, Thomas Martin To Refuge Here

Robert L. Darnell will become refuge manager when Buffalo Lake, near Amarillo, is transferred to the U. S. Fish and Wildlife Service on July 1. Darnell has been manager of the Muleshoe Wildlife Refuge for about two years.

The change in assignment was announced Monday by John C. Gatlin, regional director for the Fish and Wildlife Service.

Darnell will be succeeded at Muleshoe by Thomas W. Martin, who has been assistant director of the Wichita Mountains National Wildlife Refuge, near Lawton, Okla.

The temporary headquarters for Buffalo Lake will be at Canyon, Gatlin announced.

Darnell has been active in the work of civic and church organizations in Muleshoe while stationed here. He is a member of the Rotary club of Muleshoe.

For several years Buffalo Lake has been under the administration of the Forest Service, attached to Cibola National Forest with headquarters at Albuquerque. Previously it was administered by the Soil Conservation Service.

### City Steps Up Spray Control Of Mosquitoes

Wet weather this spring and early summer has materially increased the danger of another epidemic of encephalitis, county health officials warn.

Heavy rainfall and water standing in many ponds and ditches offer ideal breeding places for mosquitoes, officials say, and mosquitoes is one of the carriers of the encephalitis disease.

Last summer several cases of the disease were diagnosed at West Plains hospital.

City officials reported Monday that the summer spraying program against both flies and mosquitoes has been stepped up. Mayor W. T. Bovell said that a double strength spray solution is now being used in the fog-type sprayer which the city uses.

### X-Ray Unit Here On July 1 and 2 At C & H Chevrolet

Every person in the Muleshoe area will have an opportunity to receive a free chest x-ray on July 1 and 2 when the mobile x-ray unit of the State Department of Health is set up at C & H Chevrolet Co.

The mobile unit will be in operation from 1:30 to 5:30 p.m. on July 1, and from 8:30 a.m. until 1 p.m. on July 2, according to Lee R. Pool, general chairman of the x-ray committee.

### Road-go Winners Receive Awards At J. C. Luncheon

Ernest Kerr, Mayor pro tem of the City of Muleshoe, presented trophies and plaques to the winners of the Teenage Road-go at the noon luncheon meeting of the Muleshoe Jaycees Monday.

Johnny Allison received an engraved loving cup for winning first place in the regional contest, while David Shepherd won plaques for second place in the regional and first place in the local contest.

The two boys left this morning (Thursday) for Sherman, Texas, with Doc Rogers to compete in the state Teenage Road-go.

### Farmers Will Collect \$159,140 From Soil Bank

Bailey county farmers will receive an estimated \$159,140 in payments from the Federal government for land placed in the soil bank, acreage reserve and conservation reserve programs, Charlie Daniel, office manager of the Bailey County ASC office said here Monday.

Daniel pointed out that payment of \$7.50 per acre for about 4,000 acres of wheat in the program, and \$18 per acre for approximately 2300 acres of cotton would probably be made sometime in June or early July, while the \$9 conservation reserve payment for an estimated 25,000 acres of grain sorghum land would not be paid until after the first of January.

The contracts for cotton and wheat land are for short terms, usually one year, the office manager said, while the conservation reserve program is a long term contract, usually for five years.

A crew of 14 men started last week measuring the cotton land, and measurements of the acreage reserve has already been completed, Daniel reported.

### Former Resident Dies In Amarillo

Mrs. Anna R. Cool, 90, a former resident of West Camp community of Bailey county, passed away Sunday, June 16, in Amarillo. She was born Nov. 28, 1866.

Mrs. Cool came here in 1918. She lived with her sons, D. W. (Bud) Danielson, of Amarillo, a former commissioner for Precinct 2 of this county for several years, and F. E. Cool, now a resident of Captain, N. M. Another son, C. K. Danielson, lives in Wichita Falls.

Funeral services were conducted Monday from Blackburn Shaw Memorial Chapel and interment was in Memorial Park Cemetery, Amarillo. Elders G. A. Lagrove and J. D. Nickols officiated in final rites.

### Warren Field On Recommended List By Pilots Group

A certificate of approval, recommending the service and facilities of Warren Field at Muleshoe to aircraft owners and pilots, has been received by Morgan Locker, operator of the field.

The certificate, signed by the president of the Aircraft Owners and Pilots Association, was received by Locker Tuesday and is good through July 1, 1958.

Locker, who took over operation of the city-owned field in 1955, now offers free taxi service to and from town, 24 hour service on request, lighting service for night landing and takeoff, gasoline and hangar services.

The offers field hangar space for 18 planes, four runways, an air conditioned administration building, two way radio, weather service and related services, with further expansion planned for the future.

Warren Field was given to the city by Edward Warren, now of Las Vegas, N. M., for airport purposes.

Locker also offers aerial crop dusting and spraying, passenger and charter flight service as well as vacation package trips to Florida during the winter months.

## Commissioners Court Seek Public Opinion On Addition To Bailey County Courthouse

The need for additional room in the Bailey county courthouse has been apparent for sometime, and as the population of the county increases, the crowded conditions of the courthouse becomes even more crowded. Recently members of the County Commissioners Court discussed the problem, and authorized County Judge Glen Williams to test public opinion of the idea of constructing additional wings to the building through a bond issue. Judge Williams' letter follows:

### Walter Witte To Retire August 1 From Postoffice

Walter L. Witte will end 21 years and four months of continuous service in the Muleshoe postoffice on August 1, when he retires from the postal service.

Moving to Muleshoe 30 years ago, Mr. Witte has served as postal clerk in the local office for all his active years of government service. He is presently working the parcel post window and is examiner in charge of local civil service.

Walter has announced no definite plans for the future other than some loafing he intends to catch up on. He has one son, Lamar who is in service in California, and a daughter, Mrs. Pete Jenkins of Big Spring, Texas.

"This is being written in an effort to test public opinion relative to remodeling and expanding the courthouse facilities. It is not an effort to enlist support either for or against such a project, but to acquaint you with conditions as they exist and get your reaction as to whether or not something needs to be done."

"The courthouse was built in 1925 and at that time and for many years thereafter it was large enough and filled the needs, but now the county has grown to the point that it is not nearly large enough. All of the offices are crowded and some business that should be taken care of in the court house is having to be transacted elsewhere. Many valuable records that should be kept in vaults are being kept out in open offices because the vaults are full. This is dangerous because it would be easy for some one to tamper with and destroy these records if they were minded to do so, or in case of fire they would all be destroyed.

"We do not have room enough to take care of the different courts when they all need to be in session at once.

"We do not have room for special meetings of worthy groups of different natures when they need a place to meet.

"We do not have a place to take care of juries when they need to be retained over night, either ladies, men or mixed.

"We do not have a suitable place for juries to retire for their deliberations.

"We do not have a suitable place for Grand Juries to meet.

"We do not have sufficient room to maintain good libraries.

"We do not have a suitable place to keep juveniles when they need to be detained.

"We do not have a suitable place to detain mental patients.

"We do not have a suitable place to keep female prisoners and on many occasions we do not have room enough for the other prisoners.

"The courthouse is in a good state of repair, and, in my opinion, it could be remodeled and a wing added to either end at the approximate cost of \$250,000 that would look nice and furnish adequate room and facilities for

### Bula Soldier Cook With Army In Italy

Army Specialist Second Class Charles A. Green, 27, whose wife, Ruth Corine, lives at 408 W. 2nd, Littlefield, is a cook with the 45th Field Hospital in Leghorn, Italy.

Specialist Green, who has been overseas since November 1956, entered the Army in August 1953 and completed basic training at Fort Bliss.

His mother, Mrs. Janie Clara Green, lives on Star Route 1, Bula.

### League Leading Colts Tied With Cats Thursday

The League leading Colts were tied in a game called at the end of six because of time, 9-9. Bob White, who struck out 10 batters, pitched for the Colts, Tommy Whately and James Shepherd handled the mound chores for the Cats. Derrel Oliver, with two doubles, paced the Colts, and Everett McAdams led the Cats with two singles.

### Governor Signs Bill Creating New District

Governor Price Daniel signed a bill last Wednesday that established the new 154th Judicial District, comprised of Farmer, Lamb and Bailey counties. The counties of Castro, Swisher, and Hale remain in the old 64th district.

The purpose of creating the new district is to lighten the docket in district 64. This will enable both criminal and civil cases to be disposed of with less delay than has been necessary.

In the new division, a district attorney will be appointed by the governor for the 154th district. Judge E. A. Bills will preside over the 154th, and a new Judge will be appointed for the 64th. District Attorney Joe Cox of Mainview will continue to serve the 64th.

### Last Rites Held For C. L. Busby

Funeral services for C. L. Busby, Sr., who was a brother of Mrs. E. O. Baker of Muleshoe, were conducted Wednesday afternoon in Lamesa Church of Christ, with interment in Lamesa Memorial Park. Mr. Busby passed away Tuesday morning in a Lamesa hospital after an illness of two days. He had been in ill health for some time. He was 69.

Mr. Busby had lived on the Plains for 50 years, moving from Lockney to Lamesa. He was a retired building contractor. He is survived by his wife, a son, his mother, five sisters and four brothers.

Mr. and Mrs. Baker and their daughter, Mrs. Ernest Kerr attended funeral services.

**Lions Upset Sox 6-3 With Tittle Leading The Way**

The American Legion Cubs took an early lead in the second half of the Little League race when they came from behind to score eight runs in the last two innings to beat the Lions 11-9. Paul Shepherd led the Cubs with two doubles and three RBI. Howard Pruitt powered across the winning runs with a triple which drove in two in the fifth. Travis Creamer and Don Finn paced the Lions with two hits and two RBI

**FRIDAY**  
The JayCee Sox kept up their winning ways by outscoring the Rotary club Cards 15-9. David Roberts hit his second homer of the season and added a double to give him a second half average of .667 with three RBI. Gerald White was the losing pitcher, and Jim Moroney was the winner. James Calder had a perfect day at the plate for the Sox with three in as many times at bat. Sammy Gonzales had 4 RBI for the Sox.

**MONDAY**  
The Lions upset the Sox 6-3 behind the five hit pitching of Frank Tittle. Tittle struck out five and walked none. The losing pitcher was Clifford Grey. Jerry Gilbreath was the top hitter of the game with a perfect day of two hits in two trips to the plate. Sammy Gonzales led the Sox with two hits in four official trips.

**TUESDAY**  
The Cubs maintained their second half lead by besting the Cards 12-3. The Cubs were paced by Bobby Actkinson, who had three hits including two doubles, and Paul Shepherd who hit a triple and scored four runs. Glendal King led the Cards with a double. Howard Pruitt was the winning pitcher with a nine strike-out performance. Archie Evans was charged with the loss.

**Bible Comment:**  
**Almighty God Enters an Alliance With Puny Man**  
COVENANTS, in some form or other, implied or specific, have had a fundamental place in human life. They underlie all that is honest or sacred in human relationships. Business could not be transacted without men agreeing with one another to live up to certain obligations. Specific covenants have played a large part in the religious life of the race. The covenant of modern churches is very definitely related to the Covenant in the life of ancient Israel. This was a contract not only between man and man, but between God and man also. The Old Covenant, in contrast to what is called by Jeremiah the New Covenant, was the stipulation with the people in bondage in Egypt—the Covenant that had its expression in the leadership and laws of Moses. But the Covenant went back even beyond that. We have the story in Genesis of a very definite agreement made between God and Abraham, looking toward the building up of a great race, of which the faithful Abraham was to be the head. This Old Covenant, in Jeremiah's thought, had been abrogated not by God but by the people themselves. Through their unfaithfulness, they had forfeited the privileges of the agreement. We're they then hopelessly estranged from God? Was there no recovery for a people who had backslidden and lapsed through idolatry into moral decadence and defeat? Not so, says Jeremiah. This stern prophet, even in his severity, is the prophet of a just yet merciful God. He says that God will make a New Covenant with the people—that it is possible for people with the law of God in their inward parts and in their hearts to enter into an alliance with God, whose presence and power are manifest in the whole universe, covenants with man.

More elegance on the beach is decreed by fashion experts this summer. Carrying out the trend are these lavishly embroidered beach companions designed by Jantzen in rich white polished cotton. The swim dress features double adjustable shoulder straps. The matching jacket boasts two front pockets and self-fabric lining.

erally strong financial position is now enjoyed by most of our best customers. Extension Economist Alvin Wooten says there is also a growing desire abroad for the high quality products in US stocks. He stresses the fact that considerable progress has been made toward easing barriers against imports from this country. The "sold out" sign has gone up on several commodities. Wooten says, including cottonseed oil, linseed oil, and soybeans. Stocks of grain sorghums, rice, barley, butter and dried milk have been reduced and CCC wool stocks are being cut at a fast clip. Exports for dollars are now being emphasized more and more. Dollar sales now total about two-thirds of all CCC disposals. Wooten says the 31 friendly nations now buying from America with foreign money will probably soon develop into dollar markets. A billion dollars in farm surpluses have been bartered for strategic foreign materials and vital defense needs, he says.

### Turkey, Ice Cream On Plentiful Food Lists For July

Turkey and ice cream are the featured foods on the U. S. Department of Agriculture's July plentiful foods list. These two foods will get special promotions during the month, Mid-Summer Turkey Time, July 25 thru August 4 and Ice Cream Festival, July 1-31.

Turkeys have long been thought of in terms of Thanksgiving and Christmas, but changes in production methods have made this old favorite available the year-round. Ice cream just goes with summer time and increased supplies of milk and butterfat have also increased the amount of ice cream available.

John J. Slaughter, southwest division chief of the USDA's Agricultural Marketing Service, says monthly surveys form the basis for determining the plentiful foods.

Fresh fruits are prominent on the July listing and include peaches, lemons and limes. Frozen strawberries will also be in good supply.

Milk and other dairy products, in addition to ice cream, will continue seasonally plentiful. Eggs are another high protein plentiful.

Texas new crop of onions will be abundant, but other fresh vegetables are not listed for the state. Peanuts and peanut butter and vegetable fats and oils are shelf items included on the July list.

ed cotton, most of the plantings have suffered little damage.

Aphids were reported in light infestations on cotton in a number of the earlier plantings in Bailey and Yoakum counties. Such infestations were generally found throughout fields.

Thrips occurred in light infestations in some fields in most communities. Hard rains have tended to hold thrips in check, but these insects may appear in large numbers during clear weather. Cotton should be checked frequently so that timely control of damaging infestations may be effective.

For control measures for various insects, consult the 1957 Cotton Insect Control Guide which can be obtained from the County Agricultural Agent's Office.

The information contained in the Cotton Insect Situation release has been compiled from reports received from county agents, vo. agri. teachers, personnel of Texas A. & M. College System, branches of the U. S. Dept. of Agri., commercial cotton inspectors, chemical companies and others.

### Parmer County Farm Bureau News

BY RAYMOND EULER

It is commonly recognized that the solution to our cotton production and sales program problem is a difficult one, and that trial and error are necessary to the probable solution. Everyone growing cotton is interested in producing a fair quantity and selling it at a profitable price.

Farm Bureau, along with the National Cotton Council has for the past year or longer, been advocating methods of making increased acreage possible, with a view to selling on a competitive market in enough volume to keep government warehouses from overflowing.

Farm Bureau coined the phrase "Amount sold times price minus expense equals net income," several years ago, and has based proposed solutions to the problem of net income for farmers on this premise. When cuts in acreage began, many people believed they could stand the cuts, so long as the price stayed high enough.

It soon developed that prices could not be expected to rise high enough to allow a decent net income for producers with

the cuts in acreage brought about by production of synthetic materials at just under the price of cotton.

Farm Bureau was unpopular in some quarters because it stated that it believed competitive (slightly lower) prices would give assistance to the producers in making a better net income. We are happy now that several opponents of this theory have come up with the same idea, and are giving their support in Washington to it. We hope Congress will lead an ear to this plan soon.

## Latham-DeSautell Marriage Vows Solemnized At Bula On June 16

Before an archway of greenery flanked by baskets of gladioli in the Bula Baptist church, Miss Beverly Ann Latham, daughter of Mr. and Mrs. John L. Latham of Rt. 1, Sudan, became the bride of Mr. Warner Lowell DeSautell, son of Mrs. Norene DeSautell of Littlefield, June 16 at 3 p.m. Rev. Walter Smith of Merkel, Texas, officiated.

### Bridal Gown

Given in marriage by her father, the bride chose an original model gown of imported Chantilly lace and satin in a soft shade of ivory. Designed with a Sabrina neckline, it was outlined with scalloped net, embroidered with iridescent sequins. The lace over satin bodice had long sleeves ending in points over the hands, a long torso waistline accented with a point at center front. It featured a waltz length skirt with full bustle-like bows highlighting the back center. She carried a bouquet of white carnations atop a white Bible.

### Reception

At the reception in the home of the bride's parents, Meses. Clyde Hogue, Fred Locker, W. L. Clawson, DeWitt Tiller, J. R. Teaff, Bill Stewart and Glenn Yaught assisted at the hospitalities.

The reception table was centered with a bouquet of white carnations. Lime frosted punch and a three tiered cake were served.

Miss Joan Eaker of O'Donnell, cousin of the bride was maid of honor. She wore a Nile green nylon organdy dress with lace picture hat, matching gloves and a white carnation corsage.

Given in marriage by her father, the bride wore a white dress of cotton and a small hat of white flowers. She carried a white Bible covered with pink carnations.

The matron of honor was Mrs. Ruby Batchelor of Jal N. M., sister of the bride. Best man was Eldon Holley of Wellington, Texas, brother of the bridegroom.

"Whither Thou Goest" and the traditional wedding march were sung by a quartet composed of Mrs. Maxine Parkinson, Christine Rutherford, Jaque Baker and Leon Wilson. "The Lord's Prayer" was sung by Jaque with melody in the background.

A reception followed for relatives and friends of the young couple.

The couple is at home in the Stegall community where he is engaged in farming.

### VISIT IN MOORE HOME

Weekend guests in the J. M. Moore home were A. C. Moore and son Bobby; Mrs. Lillie Reeves, Mrs. Naomi Reeves, Mrs. Willa Dean McGee, Mr. and Mrs. Albert Stewart, Mrs. A. P. Reeves.

## Bible Comment: Jonah Set Example Which We Would Do Well to Follow

JONAH'S book, although it is only a few chapters, marks the very highest point of Old Testament teaching in its conception of God and His grace.

Nineveh, at the time of the story, was a great and wicked city, and Jonah received the call of God to go there and speak for right and truth. It was not unnatural that he should rebel against such a task. It was unpleasant to go as an individual and set himself up as a preacher in a hostile environment of luxury and wickedness. He might well have asked what his lone voice, crying in such a scene, could accomplish.

But there was further antipathy in Jonah to obedience to this call. Nineveh was a foreign city and Jonah, as a Jew, might have been expected to be prejudiced against it. Jews believed themselves members of the chosen race.

Here emerges the central idea of the book and its teaching. It is a missionary book, presenting with considerable clarity the conception of God as the God of the whole world whose grace and mercy are for all people and not for a chosen few.

In this respect, Jonah's reluctance to go and preach in Nineveh is typical of the narrow conception of religion and life, that lack of any apprehension of the richness and fullness of God's mercy, which has led people to be apathetic regarding the spread of the Gospel. This view has its adherents in all ages.

Is it not true that we are most content to live within our own narrow circle of home, community or nation, disregarding the world and its needs?

If the world would be more a world of Christian missions, in the spirit of the Book of Jonah, it would be a better world than it is today.

## Wedding Is Set For July 14

Three Way Baptist Church will be the scene of the July 14 wedding of Miss Lynda Sue Lowe and Wayland Altman, with the Rev. A. R. Coleman officiating.

Their engagement and approaching marriage has been announced by her parents, Mr. and Mrs. Jack Lowe, Maple, and Mr. Altman's parents, Mr. and Mrs. P. A. Altman, Enochs.

## Homemakers In Tour Of Lubbock

Girls of the homemaking class of Muleshoe high school who are taking summer projects enjoyed an all day field trip in Lubbock Tuesday. They traveled to Lubbock in one of the new school buses, which was driven by J. W. Johnson.

The day's activities included a visit to Texas Tech, where they toured the home economics building, Student Union building, and the historical museum; also tours of KDUB-TV station, Baldridge's Bakery, Bell Creamery, Jessie Lee's Beauty College. They had two hours of recreation and a picnic lunch in the MacKenzie State Park.

The group was sponsored by a mother, Mrs. Dave Coulter, the homemaking teacher, Mrs. Ola B. Jones and Mrs. Dorothy Brock.

## SCHOOL OPENS ON SEPTEMBER 2 Three Way School To Build Science Building

By Archie Sims

THREE WAY (Special) — The Three Way school will open for the 1957 fall term on Monday, September 2, 1957, with a new science laboratory in operation and more than \$1400 worth of new library books and science laboratory equipment. New venetian blinds have been ordered for the front windows of the school building.

The school will have the same number of teachers as last year, despite the recent loss in enrollment and drop in average daily attendance. This is due to the school being declared a sparsely settled area by recent legislative action.

At the present time there are two teacher vacancies in the system. Miss Vada Frasier, the second grade teacher will teach this fall at O'Donnell, and John Criner, the high school principal, will become superintendent at Amherst. Both have been at Three

## Alfalfa Gains In Importance As Texas Cash Crop

About 318,000 acres of alfalfa having a value of 18 million dollars, were harvested for hay in Texas in 1955 making it the principle legume used for hay in Texas.

A publication just released by the Texas Agricultural Experiment Station, "Alfalfa Production in Texas", contains much information on the economic importance of alfalfa, the more important areas of production and the varieties grown including Lohontan which may be used widely in the next few years because of its high degree of resistance to the spotted alfalfa aphid which is causing increased damage to alfalfa crops. The publication also contains valuable information on the regional adaptation of alfalfa, seed production, better utilization through pasture, silage, dehydration and soiling, plus helpful tips on production practices including soil, climate, land preparation, fertilization, inoculation, seeding and irrigation.

Alfalfa is not only one of the

way three years.

Teachers elected for the fall term include: Mrs. Cynthia Hughes, Mrs. Lorena Carter, Mrs. Juanez Green, Gerald Edler, Sam Green, Elbert Adams, Katherine Sims, Betty Adams, Bill Wood, Leon Jones, Nan Dyer and Archie Sims.

Going to school this summer are Mr. and Mrs. Green, Mr. and Mrs. Adams, Mrs. Sims, and Bill Wood. Mr. Sims plans to attend the national Educators Association meeting in Philadelphia the latter part of June. His family will accompany him and visit Washington, Philadelphia, New York, and other points of interest.

In August, the school district will publish a breakdown of the financial structure of the school including the amount of taxes collected and the amount delinquent, a lunchroom statement and a statement reflecting the general financial condition of the school system.

Board members include Carl Pollard, president; Earl Bowers, secretary; Pete Tarlton, M. T. Gant, Willie Welch, Charlie Byars, and Ed Latimer.

## Louise Ham Cheerleader At Howard Payne

Six cheerleaders will lead the Howard Payne College student body for the 1957-58 school year. Among those chosen by popular vote by the student body at the close of the school year was Louise Ham of Muleshoe.

She is the daughter of Mr. and Mrs. Luther Ham.

Miss Ham was a cheerleader this year and was the only cheerleader re-elected by the HPC students.

## Scholarship Of Rotary Club Goes To Don Copley

Don Copley, recently awarded the Muleshoe Rotary \$100 scholarship for this year, was a guest of the club Tuesday, and in a brief talk expressed his appreciation of the award and of the encouragement it expressed. He will enter A. & M. College in the fall to study engineering.

The club will have its annual installation ceremonies for new officers and directors next Tuesday, June 18.

Reports on the charter night banquet of the Denver City Rotary Club were given by Sam Cook and Myron Pool. Five local

## Doyle T. Evans With Engineers In Germany

Specialist Second Class Doyle T. Evans, son of Leonard E. Evans, Muleshoe, is a member of the 249th Engineer Battalion in Germany.

Specialist Evans, a tractor scraper operator in the battalion's Headquarters and Service Company, entered the Army in January 1949, and arrived in Europe in February 1953. He has also served in the Far East.

Evans was graduated from Muleshoe high school in 1948. He was employed by the Rural Electric Association before entering the Army.

Rotarians attended the meeting. Guests included Rotarians J. C. Melcher, Port Lavaca, and A. L. Kirk, Seminole; and Doc Botkin, Muleshoe.

## Miss Muleshoe Pageant Rules Given By Sponsoring JayCees Committee

Rules for the Miss Muleshoe beauty pageant to be sponsored here July 12 by the JayCees, and

also for the Miss America contest, which might be the ultimate goal of the winner of the local event, were released this week by Doc Rogers, chairman of the committee in charge of the contest.

Contestants must be a resident of the Muleshoe trade territory for at least six months, a graduate of high school by September, 1957; single and never been married, not under 18 nor over 28 years of age. In addition contestants must possess good character, poise, personality

charm, intelligence and beauty of face and figure.

Contestants must possess and display in a three minute routine a talent, such as singing, dancing, playing a musical instrument, give a dramatic reading, dress designing, or give a three minute talk on the career which she hopes to pursue.

Participants in the pageant must furnish their own costumes and stage props including swim suits.

The contest is scheduled here in the Valley Theatre. The winner will compete in the Miss Texas Pageant at Kerrville August 2, 3 and 4, for a chance to represent Texas in the Miss America Pageant at Atlantic City, N. J.

## Rev. Watson To Pastors School

Rev. Bill Watson, newly appointed pastor of Progress Methodist Church, is in Dallas to attend the annual Pastors School at Perkins School of Theology. Just before he left for Dallas he was informed that he had been elected advisor for the student council and faculty of the school. Pastors are attending from several southwestern states.

Rev. Watson graduated this spring from McMurry College, Abilene. Previously he had the Methodist charge at Cone.

Rev. and Mrs. Watson and their four sons, two of school age, came here immediately after his assignment to the local charge at the annual Northwest Texas Methodist Conference.

### COUNTRY PLAYERS

LES CARROLL

LATELY the recording success pattern seems to be to give a singer material with a pretty melody, or strong beat, and a rhythmic quartet or choral backing. Typifying this trend is Mac Wiseman's beautiful "Because We Are Young" which should be a big one. Also on this pattern is White Knight's rhythmic "The Blues Walked In" and melodic "Lately," and T. Tommy's pretty "I Saw You, I Saw You" and the rocking "Bye Bye Love" (All Dot). Fuller Todd also uses this formula on "Proud Lady-Heart Stealer," which is very intriguing (King).

In the inspirational field, Gene Davis and quartet have a beautiful rendition of "I Won't Tell Anybody but My Lord" and "Sweet Victory," sung in the old-time style (King). And Elvis Presley and the Jordanaires have an excellent album, "Peace in the Valley" (RCA).

A very haunting number is Gary Walker's "It's Only a Matter of Time," backed by the appealing "Everybody's Gotta Go Sometime" (MGM). And Wiley Barkdoll has added a new sound to the oldie, "No One Will Ever Know" (Hickory). Unusual and catching is Tommy Blake's "Freedom," with overtones of early folk music (RCA).

There are several real cuties among the new releases, too. Rusty Gabbard's "So Sorry, Joe" is a humdinger (MGM) and Jimmie John's "Rosie's Gone Again" is very catching (Dot). Johnny and Jack have two snappy "A" sides in "That's Why I'm Leav-

in'" and "Oh, Boy, I Love Her" (RCA), and the Carlisles put plenty of bounce in "Ladder of Love" and "Wouldn't You Like To?" (Mercury).

In the ballad field, Carl Smith has two fine sides in "Mr. Lost" and "Try to Take It Like a Man" (Columbia), and Bob Gallion's "Out of a Honky Tonk" (MGM) is very appealing. Benny Barnes sings nicely "Nickel's Worth of Dreams" (Mercury) and Eddie Dean's "One Foot Caught in Quicksand" and "Lonesome Guitar" are beautiful (Sage).

The Browns have another big one in "Getting Used to Being Lonely" backed by a new arrangement of their oldie, "I'm in Heaven" (RCA). Jean Shepard's voice is very enchanting in "Under Suspicion" (Capitol).

**OTHER GOOD RELEASES** are "Wild Heart" (Wade Ray, RCA); "The Texas Blues" (Steve Schulte, ABC-Paramount); "All Alone" (Sleepy LaBeef, Mercury); "Flash, Crash and Thunder" (The Farmer Boys, Capitol); "Cheyenne" (Sons of Pioneers, RCA); "Long Time Gone" (Tibby Edwards, Mercury) and "Red Sweater" (Dave Rich, RCA).

# Bridal Shower Honors Miss Patsy Tirey

**Mrs. John Blackman** Miss Patsy Tirey, bride-elect of Chesley Pierce, was complimented with a bridal shower in the home of Mrs. Gene Bryan Friday afternoon, June 14. The other hostesses were Mmes. A. G. Aaron, John Hubbard, Eld Austry, Cecil Jones, Charlie Clevenger, and Bennie Claunch.

The serving table was laid with a white cloth. Table appointments were of silver and crystal. The centerpiece was a miniature bride and groom standing under an arch that was cleverly accented with pale colored garden flowers and greenery. Pale blue streamers flowed from the center arrangement bearing the names, "Patsy and Chesley".

Misses Gene and Bonnie Tirey, sisters of the honoree, sang "Born to be with You". Reading, "How to build a home", was given by Miss Jo Ann Hubbard and little Miss Jackie Sims also gave a clever reading.

Miss Nancy Aaron and Miss Gloria Clevenger served pink punch and Angel food cake to the 30 guests that registered.

Miss Doris Stroud registered the guests.

Hostess gift was a blanket.

**WSCS Meeting** WSCS met Wednesday afternoon in the home of Mrs. W. L. Clawson, with 14 ladies present. Program opened by Mrs. Blackman reading the scripture, II Timothy 1:2-10, followed by Mrs. Paul Young reading an article from the Methodist Woman title, "Give the Best To Your Master". Song by the group led by Mrs.

in Detroit.

Out-of-town guests Sunday for the Latham-Lee dinner wedding were Mrs. Beulah Wardlow, Mrs. John Fort and son, Jerry, Nettie, Dicky and Peggy, all of Hobbs, N. M.; Mrs. Pauline Eaker of O'Donnell, Mrs. Laverne Vaught and Cynthia and Celia of Eunice, N. M.; Mrs. Estelle Stewart and Jacqueline and Gary of Sweetwater, Mr. and Mrs. Bennie Cox of Plainview, Mr. and Mrs. J. D. Kyle of Morton, and Mr. Leighton Knox of Tahoka.

Mrs. Carolyn Reynolds of Lubbock spent the weekend with her parents, Mr. and Mrs. H. A. Reynolds.

Mr. and Mrs. Claud Morrison and children left Friday to visit for two weeks with relatives in and near Fort Worth. Then they will go for several weeks on a sight-seeing tour thru several states. 16-MILE HAUL — 4200 FEET UP — When Sheriff Cal Boies of Maricopa County, Arizona, sends his 4-wheel-drive GMC to his radio transmitting station on a mountain peak, one round trip deals out more punishment than a year's ordinary use.

IT CROSSES 3 MOUNTAIN CHAINS, wades through shifting sand, picks its way over boulder-strewn passes—goes where no sane horse would set foot. The deal includes climbing up a 45% grade. But—"It hasn't even breathed hard yet," says the Sheriff.

# How tough could you make it for this GMC 4-WHEEL DRIVE?

You probably never would push a GMC truck this far.

But it's great to know that GMC's can do incredible jobs, beyond all normal requirements for their class—and still run longer, cheaper and with fewer repairs than other trucks.

Got some tough assignments for this GMC 4-wheel drive? It's just about the handiest truck ever built—goes anywhere, makes its own roads, has full traction in muck or deep snow, has clearance on high-crowned roads.

With a few accessories, it pulls stumps, drills postholes or wells, stretches fence, pumps water, hoists anything. It takes a king-size cargo and—in 2-wheel drive—gives you full road speeds.

The GMC 4-wheel drive is really two trucks in one—and it costs surprisingly little. Just ask your GMC dealer!

# These Forty Years!

Forty years ago, in June of 1917, the Humble Company received its charter from the State of Texas.

The Company was formed through a merger of the properties of a number of independent oil operators. Its founding brought together a remarkable group of men who occupy an important place in the annals of the oil industry:

R. S. Sterling and his brother, F. P. Sterling, the principal organizers of Humble Oil Company from which the present company acquired its name; W. S. Farish and R. L. Blaffer composing Blaffer and Farish; H. C. Wiess with assets from Paraffine and Reliance Oil Companies; Walter W. Fondren and C. B. Goddard, producers; and L. A. Carlton and E. E. Townes as lawyers.

All of these men contributed greatly in adopting the principles, in shaping the policies, and in laying out procedures that have guided the Company's progress through these forty years. Their influence will survive as long as the Company continues.

They possessed courage and business judgment. They established high standards of performance. They built a strong organization of competent men and women.

The Company, as it stands today, is a tribute to the leadership, the vision, and the work of its founders.

But it is doubtful that these men, with all their foresight, visualized the changes that have occurred in the oil industry since 1917, or the size and complexity of Humble's present operations, or the extent of the Company's contributions through the years to the progress of our society.

To all who have made those contributions possible—employees, customers, shareholders and the people of the states in which the Company operates—Humble extends its thanks.

### MEMO

TO: All Our Friends  
SUBJECT: A Cordial Invitation to stop by and see us and inspect our new offices. We are "bustin' at the seams" with pride, and we want you to share this proud moment with us.

Our many good friends have in this area have helped our business to prosper, and it is to them we dedicate this building.

You have made it possible for us to occupy this fine office & we look forward to seeing each of you on this happy occasion.

Pool Insurance Agency dates back to 1940, when it was founded by Myron R. Pool. Myron has been a Bailey county resident since February 5, 1925. In 1945, Lee R. Pool joined his brother in a partnership that has prospered to the present culmination in this fine building.

We are confident that with our expanded faciities we will be better able to render prompt and personalized service to you, our clients and friends.

## Seventeen Years of Service To West Plains By Pool Insurance Agency

Seventeen years of service to the Muleshoe country have gone into the making of the Pool Insurance Agency, which is holding open house Saturday in new offices they have just completed.

W. M. Pool, Jr., founded the agency in November 1940. At the same time he opened the Muleshoe office of Plainview Production Credit Association and was local manager of the Association until 1946.

On January 1, 1945, Pool was joined by his brother, Lee Pool. The two formed a partnership and have continued to operate under the name Pool Insurance Agency.

W. M. Pool, Jr., was born in Bell County, Texas, August 18, 1900. He moved at the age of 8 with his parents to Knolls, near the present site of the town of Hobbs, N. M. In 1910 the family moved to Dickens county, where they lived until in 1924 W. M. and his father came to Bailey county and bought farm land near Needmore.

In February, Myron moved on to the land and the following year went into the business of growing certified seed, with the business name of Pool Seed Farm. He continued to live at the farm and operate it until 1942 when he moved into town.

Lee Pool's history also has been bound up with West Texas. After graduating from A. & M. College, he entered the Extension Service as county agent. He resigned as county agent of Dawson county to become a partner in the insurance agency.

The firm operated from an office in the Gilbreath building until they bought the building on Avenue C to make it the Muleshoe quarters of Steed

### Large Window Areas Add To Appearance of Pool Building

The Pool Insurance building, which is the scene of an open house Saturday, June 22, measures 25 by 60 feet, facing on Avenue C. It is constructed of buff brick facing and hollow tile, with shaded glass window areas to reduce the glare.

The interior of the building comprises two separate office areas. The Pool Insurance offices include a full length reception room decorated in shades of green with a mat-bine darker green dado of plastic wall material. Floors are in variegated vinyl tile, and lighting fixtures throughout are fluorescent.

The adjoining offices are similarly decorated and contain a reception room and private offices of E. O. Baker and Cecil Tate.

The private offices of Lee R. and Myron Pool and Bob Jacobs, all are decorated in shades of tan and brown.

Personnel of Pool Insurance Agency includes Mrs. Jackie Tate, receptionist and Mrs. Melba Phipps, who is bookkeeper and office manager.

The building is so constructed that a second floor may be added at some future time, officials of the firm point out.

Cooling and heating of the building is automatic through the controls of a Mathes heat pump which regulates the year round temperature.

### Many Companies Represented By Pool Insurance

Pool Insurance Agency represents a large number of reputable, old line insurance, lending and bonding agencies on the west plains.

Included in these companies serviced by Pool Insurance Agency are: Aetna Insurance Company, American Insurance Company, Continental Insurance Co., Echlin-Irvin-Crowell Co., Fidelity and Casualty Co., of N. Y., Continental Casualty Co., Home Insurance Co.

### CLYDE BRAY ATTENDS REAL ESTATE MEETING

Clyde A. Bray, Muleshoe realtor, is attending the Texas Real Estate Ass'n. convention being held in Dallas this week, with sessions at the Statler Hilton. The convention opened at 1:30 Wednesday with a farm brokers meeting, at which Mr. Bray presided.

The convention was to end Saturday, June 22, with a meeting of the board of directors at 9 in the morning.

### LEE POOL ACCOMPANIED 4-H BOYS TO ROUNDUP

Lee Pool accompanied Bailey County's delegates to the 4-H Roundup held at A. & M. College last week. The boys selected to attend are Freddie Carter and Mike Pollard.

Lee, an ex-student of the Col-

lege, had the opportunity to meet up with old instructors and student friends. Also, he found time to visit with his son, Buddy, who is studying there this summer.

### VISIT PARENTS

Sgt. and Mrs. Jim Vandergriff,

over the weekend here with her parents, Mr. and Mrs. Bill Lambert.

### TO RUIDOSO

The hot, humid weather over the weekend prompted Mr. and Mrs. Homer Millsap to take off

for cool mountain country around Ruidoso for a vacation of several days. However, the morning they left the situation here had cooled off considerably.

## Babson Discusses AUTOMOBILE CONGESTION

Babson Park, Mass., June 20 — Of two things I am certain, either radical steps must be taken to head off the increasing automobile congestion in cities, or else the sale of automobiles will decline. Either a hundred billion dollars must be expended for road improvements, or else readers had better sell their General Motors stocks on the next good rise. Furthermore, I believe that instead of spending money on new turnpikes, it would be better to double the width of our ordinary two-lane roads, making four lanes with a barrier in the middle. However, this would increase the congestion in cities.

**CITY LEGISLATION NEEDED**  
Of course, the first thing which all cities should do is to keep all trucks off streets during the busy hours, — with deliveries permitted only between 6 p.m. and 8 p.m. This should be done at once, in every city having a population of over 50,000. The next step would be to eliminate all parking on downtown streets. A start has been made on this; but the problem has not been tackled heretofore. Parking meters are a step in the right direction, but they are not the ultimate solution.

Frankly, if I were a young man today, instead of going into the automobile business, I would purchase land for a good downtown parking lot and gradually build a chain of parking lots. It seems as if garages for parking would be a good investment if properly located. I shall watch with interest the new mechanical "push-button garages" and note how they "take". I understand that such an open-air four-story garage costs about \$400,000. At any rate, my guess is that during the years ahead there may be more money in parking automobiles than in selling automobiles! Wise are the city authorities who now spend money to buy up old buildings and install parking lots. In fact, such parking lots are a city's main hope, combined with proper advertising and service for downtown retail stores. In this connection I repeat a former forecast that all new retail stores will be larger, will be confined to one floor, and that the clerks will be on roller skates.

### MOTORSCOOTERS, BICYCLES, AND ROLLER SKATES

**TODAY'S MEDITATION**  
The Fatherlike Love of God  
Read John 12:44-50.  
Jesus saith unto them, Thomas, because thou hast seen me, thou hast believed; blessed are they that have not seen, and yet have believed. (John 20:29.)

I was teaching my four year old daughter how to pray. She said, "Mother, I do not believe in God; I cannot see Him."  
"My daughter," I said, "who gave you your rubber doll?"  
"Where did I get it?"  
"You bought it at the store," she replied.  
"Do you know who made it?"  
"No, but I know somebody made it."

If parking on streets is eliminated, this will speed up traffic and should help the bus companies of each city. On the other hand, more traffic lights should be installed at crossroads. The speedier the traffic, the more traffic lights will be needed. The question is, how will the waits and congestion at these cross streets be eliminated? This brings me back to Sir Isaac Newton's great basic Law of ACTION AND REACTION.

Automobiles will only continue to grow longer for a period, after which a reaction will set in and cars will be made shorter and shorter. Shorter cars, however, will not end the congestion at street crossings. In accordance with the Law of ACTION AND REACTION, when the sale of cars begin to decline, the sale of motorscooters, bicycles, and roller skates will begin to increase. Now let me give my final forecast on the solution of the traffic problem.

**OVERHEAD THROUGHWAYS FOR MOTORSCOOTERS, BICYCLES, AND FOOT PASSENGERS ON ROLLER SKATES**  
In most cities, awnings are now permissible for retail stores. These provide protection to pedestrians against both rain and extreme sunshine. In most cities there are miles of these awnings over the sidewalks. My forecast is that these awnings will be replaced by throughways for the use of motorscooters, bicycles, and perhaps foot passengers on roller skates. These throughways could be overhanging from the buildings just as the awnings now are; but they would be built by the city authorities and a small toll charge could be made for their use. They would be no wider than the sidewalks and would be elevated over all streets. This would enable a cyclist to go from the city line into the heart of the city without stopping for crossroads or intersections.

These elevated "throughways" would serve also as protection from rain and sun to pedestrians on the sidewalks below. They would have outlets at every building. Just inside each building would be a place to park vehicles. Cities would soon be repaid for building these elevated "throughways" by increased assessments. They would make the second stories as valuable as the first floors.

By faith we find the guiding hand of God.

## One More Barrier to Go

## THIS WEEK - In Washington

With Clinton Davidson  
The battle of the budget goes grimly on in Washington, with the deadline for start of the next fiscal year only a week away.

Economy has become the watchword of the embattled 85th Congress entrenched on Capitol Hill. "Cut that budget" has become the battle-cry as congressmen rally to throw back the spenders.

President Eisenhower, who as a field general directed the crushing of the military might of Germany and Italy, has been unable to resist the onslaught of Congress on his \$71.8 billion budget.

When Congress would not heed his pleadings, the President turned to those who started the whole economy drive in the first place, the tax payers. Congress, he warned, was trifling with our national defense.  
It was just over 12 years ago that Gen. Eisenhower almost suffered his worst military defeat in the source of supplies. Republicans who have joined the Democrats in the attack on the budget, Mr. Eisenhower, however, believes that in politics, as in military strategy, a good attack is the best defense.

An old-timer is someone who can remember when "pool room" was something other than sufficient space for a water-filled hole in the back yard.

Fence in your back yard and the neighbors will know exactly where to find all their children.

to Spirit; but the so-called laws of matter would render Spirit of no avail, and demand obedience to materialistic codes, thus departing from the basis of one God, one lawmaker.

The Golden Text is from John (1:1, 3): "In the beginning was the Word, and the Word was God. All things were made by him, and without him was not any thing that was made."

## Washington News Letter

by LYNDON JOHNSON

Dear Friend:

Throughout my life, I have held firmly to a fixed belief. It was summed up by Thomas Jefferson when he said:

**"Know of no safe depository of the ultimate power of society but the people themselves; and if we think them not enlightened enough to exercise their control with a wholesome discretion, the remedy is not to take it from them, but to inform their discretion by education."**

Because of this belief, I did not deplore the fact that the Russian communist leader Nikita Krushchev was able to come into our homes by television and state his case. I believe Americans have too much sense to be deceived by open communist propaganda.

I did regret, however, that we did not answer his broadcast with a demand that the Russian leaders grant spokesmen of our own choosing the right to appear uncensored — on Soviet television and radio. I am willing to back the American case against the communist case any time — because I am confident the American case will win.

Since the end of World War II, this nation has taken the lead consistently in trying to rescue mankind from atomic conflict. We have offered to reduce armaments; to share our atomic secrets; to allow "open skies" in respect to enforce disarmament agreements. We have asked in return only reasonable safeguards to insure that the Soviets will not violate the agreements and use them to further the communist cause.

These agreements have come to nothing because the communist leaders have been able to conceal the facts from the Russian people. Future agreements will meet the same fate unless we find a way of penetrating the "iron curtain" so the Russian people will hear our side of the story.

I believe we should demand the right to make weekly telecasts and radiocasts to the Russian people. They should have the chance to hear our businessmen; our labor leaders; our professors; our leaders of agriculture. In return, we should be willing

## Sandhill Philosopher Wants To Qualify For New Type Loan On The Grounds He's Weak Too

Editor's note: The Sand Hills Philosopher on his Johnson Grass farm may be showing a lack of grasp of the international situation, his letter this week indicates.

Dear editor:  
After one of the greatest surpluses of my life yesterday — I found a copy of a newspaper lying on my front porch, right beside my chair where I could pick it up without moving — I settled down to reading and hadn't gone far when I ran across an article that made me sit up straight and think.

According to it, the United States has figured out a new way to attack the agricultural surplus problem.  
Under this plan, for example, Washington is going to lend Poland 95 million dollars with the provision that she had to use the money to buy farm surpluses from us.

Also, because Poland needs help in strengthening herself against Russia, part of the loan will be interest free.

Now this opens up a brand new method of dealing with surpluses, and I wish you'd use your influence if you haven't misplaced it to swing a deal like that for me.

That is, I don't know exactly off hand what

I'd do with a lot of farm surplus, but if the government will lend me some money interest free, I'll be glad to see what I can figure out. We've all got to pull together on this thing. And while I don't need strengthening against Russia, I do need strengthening against a lot of creditors, and I don't see why Washington should quibble over this small point. If a man or a country is weak, they both need strengthening, it doesn't matter what against.

Also, it seems to me that the idea ought to have even wider use. For example, the agricultural surplus isn't the only surplus we've got in this country. I know some merchants in town who have a surplus of drygoods on their shelves. I think one or two car dealers have some cars they'd like to dispose of, and I've never seen a supermarket that didn't seem to have a surplus of groceries.

If Washington will furnish me the money interest free, I'll do my part — I'll prove I'm weak and need strengthening, and both together we'll eat into this surplus that's bothering this country.

Please let Washington know I'm ready to sign the loan papers.

Yours faithfully,  
J. A.

### Return From California

Mrs. Alfred Steinbock and Jenny Lynn returned Saturday from California, where they have been visiting and attending a family reunion. Mrs. Steinbock reports that when they left Billy Joe Whalin, who was recently in a car wreck at Mojave, Calif., he had been moved to the Santa Fe hospital in Los Angeles, and much improved. There wasn't another car involved in the wreck, Billy Joe says he apparently went to sleep at the wheel and in waking tried to put the car back on the road and when he did turned it completely over. He is suffering from a fractured shoulder, broken collar bone, and a fractured rib and lung besides the scratches and bruises with his face badly torn. Mrs. Whalin and the children were in Fresno when they returned for the family reunion at the time of the accident.

Mr. and Mrs. Duane Darling and family spent the weekend in Mangum, Okla., visiting her father, Mr. J. B. Clevenger, and her sister, Mr. and Mrs. Alvin Owens. On Sunday the Darlings went to Portales to be at the bedside of her brother, Mr. Hilda Clevenger who had undergone surgery on Saturday.

Linda Baxter, a sophomoric student with two sisters in homemaking. Her teacher, Mrs. Quentin Adams, says, "AB" with our department has both types of household cooking equipment, most of our girls prefer to use the electric range".

Why not "take a tip from your teenager"? If you are not yet cooking electrically, ask your daughter to tell you why you should.

says Mrs. CLYDE BAXTER College and 5th Streets LOCKNEY, TEXAS

Mrs. Clyde Baxter, like many adults, has had the advantages of electric cooking pointed out to her by her high school student daughter, who learned that the modern way is the accurate, dependable way.

Of course, it's electric! Says Mrs. Baxter, "In my night glad we installed an electric range when we built our new home. The counter-top height even gives perfect baking results and we get more broiled foods since getting the new range".

Having your car brushed out is one of those extra gestures of hospitality that explain why people say "the service is fine" at Phillips 66 Stations.

You'll like the conscientious way your Phillips 66 Dealer cleans your windows all around. You'll like his clean rest rooms. You'll appreciate the way he checks your tires, battery and radiator. To Phillips 66 Dealers, "Hospitality on the Highway" means more than just selling gasoline and motor oil. It means pleasing you.

Drive in soon at any station where you see the orange and black Phillips 66 Shield.
