

CURRENT EVENTS PASS IN REVIEW

NAZIS OF GERMANY RENEWING FIGHT ON THE CATHOLICS AND THE JEWS.

By EDWARD W. PICKARD

DETERMINATION of the Nazis to put an end to "political Catholicism" in Germany and their consequent drive against Catholic youth organizations may bring on results more serious even than has the Nazi anti-semitism.

Franz Guertner

Goering's injunction. Throughout the country generally the Catholic clergy was cautious, but in Freiburg, Baden, where the Goering order had not been published before Sunday, the priests read in their pulpits a letter from the episcopate calling the Nazi action a violation of the concordat with the Vatican.

This new "purge" by the Nazis includes a renewed crusade against the Jews and dissolution of the Steel Helmets, veterans' organization, in various provinces. The Jews are helpless and, if Julius Streicher has his way, will be all driven out of Berlin or segregated in ghettos.

ANTI-CATHOLIC riots in Northern Ireland brought on fierce anti-Protestant reprisals in the Irish Free State, and it looked as if the entire island might be involved in a religious war.

FARMERS in the Middle West, ready to harvest their crops, found they couldn't get hands to do the work. The idle men ordinarily counted on for this were on the relief rolls and declined offers of farm labor for two reasons: The wages paid by the farmers were less than the sums received from the relief organization or for government works.

The Illinois commission stopped all relief works in the rural areas until after harvest. In Kansas persons refusing any temporary employment were removed from the relief rolls.

Relief workers in Redwood county, Minnesota, shut down works projects and officials in many other counties indicated they would follow the example.

THAT wholly un-American procedure, the general strike, was tried out by organized labor in Indiana and the 67,000 inhabitants of Terre Haute were deprived of all food supplies.

GEORGE, ex-king of Greece, was planning a sudden hop to Athens to resume the throne. Embassaries from Greece were received in the exclusive London hotel where the former monarch resides.

PRESIDENT ROOSEVELT spent the week-end cruising about on the government yacht Sequoia and had as his special guest Attorney General Cummings. It was assumed with reason that one of their chief topics of discussion was the administration's recent defeats in the federal courts and the chances of getting by with the New Deal legislation lately passed or now pending.

PHILIP H. GADSDEN, chairman of the committee of public utility executives, gave out an appeal for fair play. He said: "Millions of men and women who have invested their savings in utility securities are asking the question: Are these savings to be destroyed because a few minor utility officials have resorted to scandalous and even dishonest methods in opposing the public utilities bill?"

REPORTING for the eleven months that ended June 1, 1935, the AAA showed that its expenditures totaled \$767,195,306. The report added that for the eleven months funds available were \$918,045,145, leaving a balance on hand June 1 of \$150,849,839.

TWO to one against the New Deal was the week's score in Federal court decisions. The administration suffered severely. The Circuit Court of Appeals in Cincinnati first held unconstitutional the condemnation of land by the PWA for slum clearance.

Appeals in New Orleans and was that the sale of cheap electric power by the Tennessee Valley authority was constitutional.

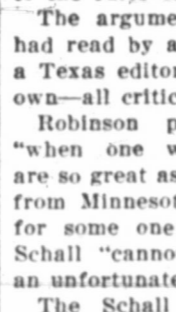

Harold Ickes, who is PWA administrator, said the slum clearance work would be carried on, though necessarily in modified form. But Chester Davis, AAA administrator, openly admitted that "the end of the processing taxes would mean the end of the Agricultural Adjustment administration in all its important aspects."

Most well informed and unbiased persons have never believed the processing taxes would stand up under court test. The Guffey coal bill has some similar features so that those who debate it should read these paragraphs in the Boston decision:

GEORGE, ex-king of Greece, was planning a sudden hop to Athens to resume the throne. Embassaries from Greece were received in the exclusive London hotel where the former monarch resides; a big airplane was kept standing in readiness at Croydon, and at another airport a second plane was prepared to carry George's servants.

DROPPING all their rebellions indignation, the Democrats of the house did everything the administration wished in considering the social security bill as altered by the senate. The conferees had settled all differences after two weeks of hard work, but one of the amendments they accepted was that permitting private pension systems to function under the measure.

THOMAS D. SCHALL, the blind senator from Minnesota, has been one of the sharpest tongued critics of the administration in the senate. Recently he described President Roosevelt as a "megalomaniac," and, though the word was subsequently eliminated from the Record, the Democratic senators were decidedly miffed.

Senator Schall

The argument started when Schall had read by a clerk an editorial from a Texas editor, and an address of his own—all critical of the administration. Robinson protested. He asserted "when one whose moral obliquities are so great as are those of the senator from Minnesota, it becomes necessary for some one to object."

Robinson called Schall the "misrepresentative from Minnesota" and expressed the opinion the senator had "employed" some one to write his speeches.

SENDING floods of telegrams to senators or representatives for or against pending legislation will not be so effective in the future, as a result of the disclosures before the senate lobby investigators. They heard evidence to the effect that large numbers of telegrams against the utilities bill were sent from Warren, Pa., by an employee of the Associated Gas and Electric system, that the messages were signed with names taken from a city directory and that the originals were destroyed at Warren.

SENATOR J. HAMILTON LEWIS of Illinois, a member of the foreign relations committee, long has urged that Great Britain be persuaded to cede to the United States her island possessions in the Caribbean sea in payment of her war debt. The other day he was moved to bring the subject up again and delivered an interesting speech in the senate. This time he based his proposal on the "peace offer" of England to cede a portion of her territory in Somaliland to Ethiopia, which in turn would cede certain territory to Italy with a view of averting the impending war.

The senator also suggested that England surrender all rights she claims to privileges of constructing a Nicaragua canal, recalling, as a precedent, that England compelled France to yield all claims to territory adjacent to the Suez canal.

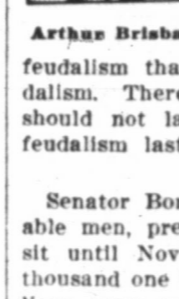

EMPEROR HAILE SELASSIE appeared before the Ethiopian parliament and made an impassioned appeal to his countrymen to fight Italy to the death, declaring he had prepared himself to die in the contest if need be.

Though the League of Nations council was scheduled to meet for consideration of the Italo-Ethiopian quarrel between July 25 and August 2, there were indications that the European nations were about ready to abandon Ethiopia to its fate and that if "The Lion of Judah" doesn't give in completely, Mussolini will be permitted to have his way with him.

BRISBANE THIS WEEK

A Tough Old Bird Five Billions More? News of Hogs Submarines Wanted

Amos R. E. Pinchot, who has leisure and thinks, utters profound truth writing to one of the "professors."

Amos R. E. Pinchot

Senator Borah, one of the senate's able men, predicts that congress will sit until November 1, and that five thousand one hundred and twenty millions more will be appropriated for immediate spending.

Two thousand one hundred and twenty millions of the money would pay the soldiers' bonus in "greenbacks," and three thousand millions would be used to take up mortgages on farms.

Hogs sell up to \$10.10, best price since September, 1930. That comes from Kansas City—ten dollars and ten cents for a hog weighing one hundred pounds.

Rear Admiral Yates Stirling, Jr., commanding Brooklyn navy yard, says America needs long-range submarines to protect our interests in the Pacific.

Newell P. Sherman, choir singer, Boy Scout master, fell in love with a girl sixteen, admits that to make his way clear he upset a canoe, throwing the mother of his two children into the water, kept pushing her away from the boat until she sank and drowned.

You will hope that no tender-hearted parole board will say, "He ought to have another chance."

Rome reports Fascist excitement because "Japan assumes the role of Abyssinian champion."

Mussolini's press says Japan sets herself up as leader of Asiatic and African peoples, "against the civilization and culture of the white race."

A Fascist newspaper calls Japan "the enemy of Europe and America, dreaming of world conquest."

Scientists experimenting with guinea pigs take one or ten or a hundred guinea pigs, never all the guinea pigs at once.

College professors, union labor leaders convinced of their ability to invent a better government, gentlemen who believe in no government at all, and other experimenters, should select a definite number of American guinea pigs for experiment, not practice on the 130,000,000 all at once.

Miss Margaret McDermott, spinster lady of Chicago, left \$25,000 for an old spitz dog. Many write to the executors saying they simply "adore animals," especially spitz dogs, and would like to take care of "Pet" in return for the income on \$25,000.

That interests men that leave large fortunes to daughters or sons. Fortune hunters from abroad are always ready to spend money left to daughters, and scheming ladies, foreign or native, are ready to help a young gentleman spend his inherited money, as recently illustrated in a certain Ryan case.

Moscow dispatches say the Soviet's north polar flight from Moscow to San Francisco may start any day. If three Russian airmen make that 8,000-mile flight, nonstop, from Moscow to San Francisco successfully, San Francisco will be interested, and Washington, D. C., ought to be interested.

Washington Digest National Topics Interpreted by William Bruckart

Washington.—President Roosevelt knows and those close to him realize that sometimes something more than a laugh is required to kill off a rumor.

Whoever occupies the White House is continually subjected to whispered rumors as well as open assertions of one kind or another. Some, as in this instance, reflect on the health of the chief executive. Others, as happened within the last quarter of a century, reflected on the personal habits and practices of the President.

In the current instance the "whispering campaign" was largely unknown to Washington until summer resort residents began returning to the city. They brought back all sorts of stories that were being circulated in distant places concerning Mr. Roosevelt's health. The gossip, for that is what it appears to be, spread like wild-fire in Washington and became of so much concern that it crept into one of the White House press conferences.

The chief executive's answer was the laugh which has endeared him to many people. He was just back from a short cruise aboard a yacht in Chesapeake Bay. His face was sun-tanned. He leaned back in his chair and demanded to know what the correspondents thought about it.

Nevertheless, the rumors continued to go and a good many thousand people apparently believed that Mr. Roosevelt had broken under the strain of his New Deal presidency. So, before the summer is over millions of Americans probably will have an opportunity to see for themselves just as the correspondents saw at the press conference that the President still has his smile; that his hair is no more gray than when he took office in 1933, and that his countenance shows no earmarks of the strain which every President of the United States finds an inherent part of that job.

Let People See for Themselves Roosevelt had broken under the strain of his New Deal presidency. So, before the summer is over millions of Americans probably will have an opportunity to see for themselves just as the correspondents saw at the press conference that the President still has his smile; that his hair is no more gray than when he took office in 1933, and that his countenance shows no earmarks of the strain which every President of the United States finds an inherent part of that job.

One trip upon which Mr. Roosevelt has set his heart is a tour to the Pacific coast and return. It will provide an opportunity for several millions of Americans to see him and a lesser number to hear him speak. It will carry him through territory which contains probably about half of the nation's population.

The program fits well into the Roosevelt methods. In the 25 months of his tenure the President has done a considerable amount of travel. He has made three cruises on the yacht owned by Vincent Astor, two of which lasted more than two weeks each. He traveled to the east coast of Canada in June, 1933, aboard the craft, Amberjack, and returned two weeks later aboard a navy ship. Last year, it will be remembered, he visited Haiti, Puerto Rico, the Virgin Islands, Colombia, the Panama canal, Clipperton Island, and Hawaii. On his return from that cruise he crossed the Northwest, making several speeches before reaching Washington.

In 1933 and in 1934 he visited Warm Springs, Georgia, the colony where victims of infantile paralysis are nursed back to health and with which the President, because of his own affliction, has had much personal connection. In returning from the 1934 visit to Warm Springs, Mr. Roosevelt stopped at Muscle Shoals, Norris dam, and Birmingham for personal visits to points and things which interested him. All of these trips have been in addition to periodical visits to his home at Hyde Park, N. Y., and, apparently, all that he needs to add to his mileage this summer is a period of comparative calmness in Washington.

NOTICE TO THE PUBLIC

Any erroneous reflection upon the reputation or standing of any individual, firm or corporation, that may appear in the columns of The News will be gladly corrected when called to our attention.

For many months now that arrogant dictator, Hitler, has been waging a campaign of racial and religious persecution in Germany. He has been subjecting Jews to all sorts of persecution and has undertaken to suppress all kinds of religion except a conglomerate mess of politics and paganism that he has undertaken to set up as the state religion.

With a WALDORF ELECTRIC RANGE

You say goodbye to Sooty Pots and Pans

You cook with heat from a coil of glowing wire—heat that is as clean as sunlight.

You get cooking at its best

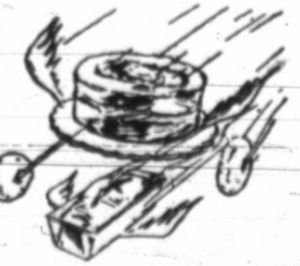

Whether you bake, or roast or broil, the Waldorf turns out food not even approached by any other form of cooking.

If there are children in your home your cooking methods are important

With electric cooking there is no flame to be blown out by a breeze from a kitchen window; no matches lying about in reach of inquisitive little hands.

Waldorf's amazing speed is made possible by specially designed, high speed surface elements and advanced oven design

If there has ever been a doubt in your mind about the speed of Waldorf, your first cooking experience with this range will dispel it.

The price — \$74.50 to \$99.50 installed.

Waldorf's extremely accurate temperature control and automatic timer clock (available at \$10.00 extra cost) enable you to cook a complete meal without even being at home. Convenient terms on all or any part of the cost.

TEXAS UTILITIES CO.

Jews, Catholics, Lutherans, Baptists, and other religious bodies have been placed under the ban. He seems to have been particularly hostile to Jews and Catholics. Naturally such a policy breeds hatred and resentment among the Jewish people and members of the Catholic Church throughout the world. There are millions of Jews and Catholics in New York City, and naturally the resentment against Hitler and the Nazis is strong in that city. So, a few days ago, when a German steamer, the Bremen, was about to leave port, rioters tore the German flag from the stern of the ship and flung it into the North River, in spite of all that police could do. The State Department at Washington immediately expressed regret at the incident but that does not seem to have satisfied Hitler and the domineering element of the German people that is backing him up. The German newspapers have been filling their editorial columns with abuse of the United States. Such an insult to a foreign flag could not have happened in their country, they say. We have an idea that Germany has been tendered the only apology she will get. A government that undertakes to destroy the freedom of conscience in religious matters and that puts men in jail because they assert the right to worship God according to the dictates of their own consciences can not command much real respect in America.

Italy seems bent on war. She seems determined to send her armies and her airships to Ethiopia and while that country into subjection. She probably can do so in a short time, though there are those who claim it will be a long-drawn-out war. We do not know what the consequences will be but we can see that they might easily be most tragic for the entire world. The nation that deliberately starts a fight now is the blackest sort of criminal. Woodrow Wilson's idea was that the other nations of the world should suppress such a nation by putting it on the commercial blacklist. That was the weapon to be used by the League of Nations. But wisely or unwisely the United States refused to go into the League and it has never been very successful in settling difficulties. If the United States had been a member, there probably would have been a different story. If there were really an effective League of Nations now with Uncle Sam as a member, the League could doubtless put an end to Italy's scheme to ravish and to rob Ethiopia in short order—not by threat of war but by use of the commercial boycott. It would be futile for the U. S. alone to boycott Italy but we should like to see her do it just as a protest.

Here is one of a thousand tragedies that should have its lesson for any young man who is inclined to go wrong. This young fellow had a good job with an oil company in Fort Worth. He had a wife and two little boys. But something went wrong in the home; we don't know whose fault it was. The young husband and the young wife separated. Two months ago he resigned his position. Two weeks later, he and a young woman of twenty were traveling at night on a highway near Houston. The car turned over and pinned the young woman beneath it. Passing motorists discovered the wreck and stopped to investigate. The young man seemed dazed but helped release the dying young woman from the wreckage. Then he walked a few steps away and fired a shot into his own body. But

Keep a Good Laxative always in your home

Among the necessities of home is a good, reliable laxative. Don't be without one! Do your best to prevent constipation. Don't neglect it when you feel any of its disagreeable symptoms coming on. "We have used Theodor's Black-Draught for 21 years and have found it a very useful medicine that every family ought to have in their home," writes Mrs. Perry Hicks, of Belton, Texas. "I take Black-Draught for biliousness, constipation and other ills where a good laxative or purgative is needed. I have always found Black-Draught gives good results." Sold in 25-cent packages.

BLACK-DRAUGHT

death was not instantaneous, as he had evidently intended it to be. For six weeks he lingered on the brink of death and then on last Friday his soul passed into the great Beyond. A filling station had been robbed near Houston on the night of the car wreck, and the newspapers the next day stated that the young man had been identified as the robber. That young fellow found that crime doesn't pay. It never does. It always ends in tragedy of some kind. Any young man who can see only the glamour and the excitement of the criminal career is as blind as a mole.

WHY SUPPORT YOUR PAPER?

The merchant who says that everyone knows his place of business and therefore he doesn't have to advertise, may be found right here in Hooker as well as other communities in the county. This same merchant also says that customers come to him when in need of the goods he handles, so why should he waste his money in advertising? An answer has been made to that question by a newspaper whose advertising man no doubt stumbled into places of business where the owner possessed that frame of mind. This newspaper answered the question, "Why should I advertise?" as follows: "Everyone in this community knows all that happens here, so what's the use of reporting the news, what's the use of having a newspaper?"

If the community can get along with a newspaper, it can get along without a newspaper, it can get along which are of value. For instance: the adults are educated and can teach the children, thus doing away with the needs of schools. The parents are religious, therefore, they can train the young ones in the creeds, thus doing away with ministers and the churches. Folks can lend their money to one another and thereby eliminate banks. They can swap their old clothes or learn how to make homespun, thereby greatly reducing expenses and actually putting the clothing merchant out of business.

All trade is based upon a desire for goods. Necessity is, mostly, an augmented desire. Advertising has the function of reminding people of their requirements, but its greatest function—a prime factor in all progress and prosperity—is the creating of new desires; therefore stimulating trade and production and making for the greatest possible of employment.—Hooker (Okla.) Advance.

QUESTION THE PEDDLER

The peddler that comes to your door is probably a man or woman trying to make an honest living. As such they deserve courtesy and kind treatment, but not your patronage. There is no reason for prejudice against the out-of-town houses that try to get our money. They are only pushing their business as they have a right to do.

The reason the peddlers visit this town, and the mail order catalogs come, is because there are a number of suckers living in Augusta. Most of them think they are doing the wise thing in getting a "bargain," but that is because they do not think. They do not accept a community of interest that will eventually lead to a community of progress and success.

The next time a peddler raps at your door greet him with a smile, and these questions:

Do you pay taxes to support our streets, public schools, and other public institutions? Do you support or contribute to our churches. Do you contribute anything to worthy community projects? Are you a member of the Augusta Chamber of Commerce? Do you spend the majority of the money you make here in Augusta like our business men are doing? Are you eligible to vote in Augusta in any election?

If the peddler stays long enough to hear all of your questions and if he fails to show that he is one of your community builders, you have your strongest point for refusing to listen to his sales line. A pleasant good day will send him on his way.—Augusta, (Kan.) Gazette.

COURAGE

Advertising tests character, because to succeed in it a man must have faith, courage and trust in himself.

When James B. Duke, the tobacco king, died, he was rated as worth ninety million dollars. His father, Washington Duke, founded the business of which James B. Duke was at the head at the time of his death. It is related that while father and son were both living partners in the tobacco enterprise, the younger man pledged the firm's credit for \$750,000 to be spent in advertising during a period of twelve months. When the old man was informed of this, he lay awake for three nights, worrying over what he regarded as certain

ruin, for the company's entire assets didn't equal the amount contracted for to be spent in publicity.

Finally, when the advertising began to pull, orders poured in so fast they could hardly take care of them. At the end of the twelve months every cent of the advertising was paid for and assets of the firm were several millions.

PLAN FOR EMPLOYMENT

Lubbock, Texas, July 29, 1935. The current Employment Report just issued by Draughon's Business Colleges, of which E. C. Hatton is local manager, shows a long list of young people who have been placed in excellent positions during recent months. Because the students recommended by Draughon's Colleges have been making good for more than fifty years, many firms continue to call Draughon's for help even though they may have many applications on file. A new illustrated booklet "Planning Your Future" describes the far-reaching methods for placing graduates, training and time required, cost of tuition, etc. Young people interested in good starting positions and opportunities for advancement, should mail Coupon at once for free copy of "Planning Your Future," showing how we can train and place you, at a saving in time and expense. Address Draughon's Business College, Lubbock, Texas or see this paper about a Special Scholarship.

STATE ACT FOR DISTRESSED DEBTORS DECLARED VOID

The Court of Civil Appeals for the Eleventh Supreme Judicial District of Texas, in an opinion just rendered, has held the Texas counterpart of the Federal "Frazier-Lemke" Act void.

The opinion is the first interpretation of the statute by an Appellate Court. In construing the Act, the Court stated that "this Statute turns the contract and security for debts over to the Court for it to make a new contract for the parties and to parcel out the assets of the debtor when and as it may deem advisable."

Attention was called, in the opinion, to the similarity of the provisions of the State Act, and the Frazier-Lemke Act (Federal Farm Moratorium Act), which was recently declared unconstitutional by the Supreme Court of the United States.

South Ward

Mary Ellen Inman, Reporter

There was a pretty good attendance at Sunday School and church Sunday morning. Bro. Dykes preached both morning and night.

A large crowd was present for singing Sunday afternoon.

Mr. and Mrs. Pierce and family of Taoka visited Mr. and Mrs. Will Eaton and family Sunday.

Miss Margie Ethridge of Post, Miss Verna Lee Wilkens of New Home spent Sunday with their aunt, Miss Vera James.

Mr. and Mrs. Otto Langlotz of Lubbock visited Mrs. Langlotz's sister, Mrs. W. A. Hardt, Sunday. Mrs. Hardt's father, Mr. Whaley, remained to spend this week with her.

Miss Mary Ellen Inman spent Saturday night with Mr. and Mrs. Ceburn Weaver, at New Home. They accompanied her home and spent the day visiting friends here Sunday.

Mr. Jesse James left last Friday for the rodeo at Snyder. He hasn't returned home yet.

Mr. J. M. Wood of Lamesa spent the week end with Mr. and Mrs. Luther Wood and Johnnie Inman.

Miss Norene Mason spent Saturday night and Sunday with home folks. She is working in town.

Miss Opal Newton, Messrs. Cecil Champion, Bruce and Chuck Woodie of Cottonwood are here visiting Mr. and Mrs. Champion and family.

Messrs. Rex and Weldon Richardson of Midway were visitors in our community Sunday afternoon.

Mr. and Mrs. Marvin Walker and baby went to Lubbock last week.

Everybody meet for Sunday School earlier next Sunday morning.—Reporter.

An electric policeman's glove for handling unruly mobs was recently demonstrated before New York police. It incapacitates without injuring.

Lady's Painful Trouble Helped By Cardui

Why do so many women take Cardui for the relief of functional pains at monthly times? The answer is that they want results such as Mrs. Herbert W. Hunt, of Hallsville, Texas, describes. She writes: "My health wasn't good. I suffered from cramping. My pain would be so intense it would nauseate me. I would just drag around, so sluggish and 'do-less.' My mother decided to give me Cardui. I began to mend. That tired, sluggish feeling was gone and the pains disappeared. I can't praise Cardui too highly because I know it helped me."... If Cardui does not help YOU, consult a physician.

Washington News Made Understandable

The vast amount of news emanating from the national capital today is apt to be confusing to the average reader. The rapidly changing scenes, the many new projects that are being undertaken, are difficult to follow.

Washington Digest

written by William Bruckart, noted capital correspondent. Mr. Bruckart's clear interpretation of what is going on makes the Washington scene understandable. No matter what your political beliefs you will find Bruckart's column interesting and fair because it is always unbiased. Make a habit of reading this feature every week if you want to be well informed.

PARENTS SHOULD SEE NOW IF CHILD IS READY FOR SCHOOL

Austin, Aug. 1.—Now is the time, according to Dr. John W. Brown, State Health Officer, that every parent should ask himself if his child is physically ready for school. A visit to the family physician and dentist will answer this question and give time for the correction of minor defects before time for school to open.

A child with defective vision cannot be expected to do the required work in school until this handicap is removed. Inflamed, watery eyes, granulated lids, chronic styes, nervous actions as habitual winking, may be caused by defective vision and should be attended to immediately.

The far reaching effect of infected tonsils on the system has been recognized by health workers for many years. Many of the ills of later life, as heart disease, arthritis, deafness, etc., are directly traceable to tonsils that became infected during childhood and were allowed to remain untreated.

Dental defects are found in more children than any other imperfection, and for this reason children should be taken regularly to the dentist for examination and cleaning of the teeth. This precaution keeps the mouth clean and makes it possible to discover dental defects as soon as they appear.

Postural defects appear in the life of a child much sooner than we formerly suspected. Have your family physician see if your child's shoulder blades project and if his arches are low. Simple exercises, diligently adhered to, when the child is young, will prevent later serious developments in many cases.

A hippopotamus can stay under water only about five minutes, and a baby hippo only 20 seconds, tests show. It was previously claimed they could remain submerged for a half hour.

SOME LEAF WORM POISONS DANGEROUS TO COTTON

College Station, July 30.—Due to the scarcity of the usual poisons used in the fight against leaf worm infestation, and in reply to numerous inquiries regarding the advisability of the use of white arsenic and lime mixtures, R. R. Reppert, Extension Service entomologist, has said that the danger to the cotton itself is so great that he cannot advise their use.

Mr. Reppert said, "We are fully aware of the fact that farmers are using such mixtures as well as liquid mixtures of white arsenic and soda. We also appreciate the fact that by careful use, based on experience, farmers with such mixtures will be able to kill insects and yet experience a minimum of injury to the plant itself. However, in many other cases, inexperience will result in serious injury to the cotton plant, approaching in some cases an almost entire loss."

He advised against the use of any poisons other than calcium arsenate, lead arsenate, or Paris green. The latter poison should be diluted with four to five parts of lime, Mr. Reppert said.

HOW MUCH FOR ADVERTISING

If in doubt as to how much money you should spend for advertising, the following budget compiled from Harvard University statistics, various business surveys, trade journals and associations, may be helpful.

Most of them indicate what percentage of gross sales is allotted to advertising, average for each group. Some of this kind are:

- Auto tires and accessories, 1.1 per cent.
Beauty shops, 5 per cent.
Building supply, 3 per cent.
Department stores, 4.1 per cent.
Drug stores, 1 per cent.
Dry goods stores, 3 per cent.
Furniture, 3.96 to 10 per cent.
Grocery stores, 2 per cent.
Hardware, 1.35 per cent.
Jewelers, 3.9 per cent.
Meat Markets, 0.9 per cent.
Men's apparel, 3.83 per cent.
Restaurants, 1.8 per cent.
Shoe stores, 3.6 per cent.
Specialty shops, 3.85 to 4.2.

Mrs. George Bovell returned Friday from Crowley, where she had been visiting. She was accompanied home by Mr. and Mrs. Harold Thompson and two sons and Miss Mary Sager. Mr. Thompson is a brother of Mrs. Bovell and Miss Sager is a long-time friend. They will remain here a couple of weeks.

Eggs are about 65 per cent water.

KENNETH REID

SHERIFF'S SALE

State of Texas, County of Lynn.

By virtue of an order of sale issued out of the Honorable District Court of Bell County on the 12th day of June, 1935, by the Clerk thereof, in the case of The Board of Pensions of the Presbyterian Church in U. S. A., a private corporation, versus J. B. Miller, a non compos mentis, Higginbotham - Bartlett Company, Distributors Investment Company, S. B. Bates, W. G. Briley, C. P. Church, Myra G. Miller, individually and as Guardian Ad Litem of the said J. B. Miller, non compos mentis, No. 21,514, and to me, as Sheriff, directed and delivered, I will proceed to sell, within the hours prescribed by law for Sheriff's sales, on the First Tuesday in August, A. D. 1935, it being the 6th day of said month, before the Court House door of said Lynn County, in the town of Tahoka the following described property, to-wit: 320 acres of land County, Texas, and being all the S-1/2 of Section 18, Block "A", Cert. 649, E.L. & R.R.R.R. Co. Survey. Levied on the property of J. B. Miller, a non compos mentis, and Myra G. Miller (individually and as Guardian of the said J. B. Miller, N. C. M.) to satisfy a judgment amounting to \$9,263.10 in favor of The Board of Pensions of The Pres-

byterian Church in U. S. A., a private corporation, and cost of suit. Given under my hand, this 26th day of June, 1935. B. L. Parker, Sheriff. 45-3tc.

Some people will believe anything.

Tourists are finding the scenery more beautiful than ever this year because many states have caused the removal of thousands of highway signs which were either objectionable as traffic hazards or spoiled the attractive natural scenery.

WITH AN-EYE TO COOL SIMPLICITY

PATTERN 9354

The smart girl has one eye on the budget and the other anticipating a rise in temperature—and makes a cool decision to include several summer sports in her wardrobe right now. It took a lot of ingenuity to design that clever yoke-cape-panel in one. It makes sewing so easy, and briefly, that cape is much cooler than a sleeve. Pattern 9354 sports an action pleat back and skirt just to help you "get places." If you find a simple flat neckline becoming, omit the dashing revers (but we like 'em). Very correct for spectator sports, office wear or week-end jaunts. Make it up in washable sport silk or shantung. Try a novel "cork" buckle and buttons.

Pattern 9354 may be ordered only in sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42. Size 16 requires 4 yards 36 inch fabric.

Send FIFTEEN CENTS in coins or stamps (coins preferred) for this pattern. Be sure to write plainly your NAME, ADDRESS, the STYLE NUMBER and SIZE.

Complete, diagrammed sew chart included.

Send your order to Sewing Circle Pattern Department, 232 West Eleventh Street, New York.

Aged Mother Of Mrs. Fowlkes Dies

Death came to Mrs. Elizabeth Hamilton, 89, at the home of her daughter, Mrs. J. B. Fowlkes, in Abernathy, Saturday afternoon, death resulting from injuries sustained in a fall a week before. Deceased was also the mother of Mrs. Bert Fowlkes and Mrs. Val Morris of Tahoka, who were at their mother's bedside when death came. Funeral services were conducted at the First Baptist Church of Abernathy at 2:30 o'clock Sunday afternoon, and burial was in a Lubbock cemetery. The services were conducted by Rev. Griffith.

Mrs. Hamilton fell at her home on Friday, July 19, and dislocated one hip and sprained a knee. Though she lived for eight days after the accident, she was never able to recover from the shock, and finally became unconscious a day or two preceding her death.

Mrs. Elizabeth A. Clardy was born in Mississippi in 1846 and was married to John E. Hamilton in that state on November 1, 1866. The family moved to Texas in 1882, and the husband died in Cooke county in 1915. Mrs. Hamilton removed to Hale county in 1921 and she had lived in Abernathy the past seven years. She united with the Baptist Church in 1863 and had been a devoted member of that church for 62 years. She was a noble Christian woman and enjoyed the esteem and affection of a large circle of friends.

She left surviving her one son and six daughters: R. B. Hamilton of Woodrow, Mrs. Mollie Bevers of Meadow, Mrs. Florence Newton of Woodrow, Mrs. Adlee Fowlkes and Mrs. Val Morris of Tahoka, and Mrs. J. B. Fowlkes of Abernathy. She is also survived by thirty-six grandchildren and thirty-seven great-grandchildren.

NELSON AND CADE HEARD AT LUNCHEON PROGRAM

(Contin'd. from first page)
 to this network of "facts" presented by our more or less distinguished district attorney, we felt that he should forever hereafter be stopped from questioning the veracity of any witness appearing in any case which he may prosecute. It was indeed a marvelous and somewhat "spirited" story.

David Lemon, superintendent of schools in Slaton, was a visitor, and he told off a bit on "Jim Dye" when Jim was a different kind of boy from the Jim we know.

Murray Ellison, a traveling salesman of Amarillo, after hearing the great mass of alleged facts presented by those who had already spoken, declined to say a word. Traveling salesman though he was, he did not feel that he could compete with the other speakers in the art of spinning yarns.

Luncheon was served by the ladies of the American Legion to thirty-six.

WORLD'S DEEPEST HOLE

Man has just set another record. A dry well recently completed in Texas by an oil company is 12,786 feet deep. This is the greatest distance man has ever dug in Mother Earth's crust, and the well has given some interesting data on her internal temperature. At the bottom of the hole the temperature was 182 degrees Fahrenheit. This is only 30 degrees below the sea-level boiling point of water, and since the rocks grew 33 degrees hotter during the last 2,000 feet of digging it is believed that down another 2,000 feet would at least equal the temperature of boiling water. The notable point was the increase in the rate at which the temperature rose as the well grew deeper.—The Pathfinder.

Mr. and Mrs. N. M. Wyatt and children returned Saturday from a pleasure trip to Corpus Christi, San Antonio and other South Texas points.

Dr. L. E. Turrentine and Pete Coleman made a business trip to Carlsbad and the mountains of New Mexico over the week end.

CITIZENS HEAR OF PROPOSED PWA PROJECTS IN COUNTY

(Contin'd. from first page)
 structured only by piecemeal.

As a result of the conference, County Judge W. E. Smith and the commissioners court are preparing to make application for the construction of several important roads in this county. Since not more than \$25,000 ordinarily can be spent on any one project, the court is preparing to ask for the construction of five miles on each of four different roads in the county. These are: 5 miles on the Tahoka to Wilson road, 5 miles on the public road leading from Highway No. 84 to Draw, 5 miles of the public road from Newmore to Wells, and 5 miles of the road from Highway No. 9 to New Home. If and when these projects are completed, then the court will make application for the building of other sectors of these roads, and so on until the same are completed.

It will take a few weeks however to get the applications approved and all the preliminaries out of the way. It is not believed that much relief labor will be available this fall, and therefore it is estimated that actual work will not begin on any of these projects before January.

The court contemplates that the improvement of these roads will consist of grading and drainage structures with a single coat of topping. It is estimated that such a road will cost about \$8,000 per mile.

Just when work on these projects will begin and just how rapidly it will proceed will depend upon the amount of relief labor that may be available. Relief labor will be paid at the rate of 15 cents per hour unless a different rate is announced later.

Diabetes strikes more women than men, more married women than single women, and is most common among Jews.

The Lynn County News

Volume XXXI

Tahoka, Lynn County, Texas, Friday, August 2, 1935.

Number 50

Parents Of War Dead Entitled To Pension Fund

There are doubtless a number of Lynn county people who are entitled to federal benefits for sons killed in action during the World War which they are not receiving," said Jim Dye, Commander of the Marion G. Bradley Post of the American Legion, Wednesday.

He called our attention to a story recently published in the Austin American, a part of which follows:

"Mr. and Mrs. John Creaton of 306 East 11th Street, learned in late August, 1918, that their only son, Leroy Bats Creaton, had been killed in action at Hill 212 in France. They have been receiving monthly payments from his insurance in recent years, but only Thursday learned they might receive also a federal benefit amounting to \$35 a month, simply by applying for it."

Mr. Dye explains that any widow or orphan of a World War veteran killed in action or who dies as a result of war injuries or any dependent parent of such a veteran is entitled to a monthly benefit payment upon making application. Through this fact has been widely advertised, there are yet many like the Creatons of Austin who do not yet know about the service, he said.

Any person in this county who may desire further information should consult Mr. Dye.

Band Concert Monday Night

There will be a concert by the Tahoka band on the courthouse lawn next Monday night, beginning at 8 o'clock, according to announcement made by Curtis Crouch. The people of Tahoka and surrounding territory are invited to come out and enjoy the program.

All band members are requested to meet for rehearsal at the Legion Hall at 5:30 P. M. Monday. The rehearsal and the concert will be given under the direction of the Amherst Band director. Every member of the band should be present if possible, Mr. Crouch says.

Four Couples Married Here

Fletcher Johnson, coach of the O'Donnell school, and Miss Hazel Burk of O'Donnell were married here last Sunday, Judge W. E. Smith officiating.

Solon Van Kirk and Miss Mae Cunningham of O'Donnell were married at the Baptist parsonage here Tuesday afternoon, Rev. Geo. A. Dale officiating.

W. L. Walker and Mrs. Katie Gasdon, an elderly couple, were united in marriage by Uncle Ben in his office Wednesday.

Otis Bosworth and Miss Opal Moore of Grassland were married on July 25 by Rev. T. M. Scott.

Mrs. Alley Collects Rocks As Hobby

Mrs. Jack Alley, pioneer Lynn county woman, has an interesting collection of rocks up at the Sunshine Inn.

She started the hobby of gathering peculiar rocks several years ago. Part of them she finds herself, and many others are brought by friends and guests at the hotel.

Her collection consists of many big round sandstone rocks, rocks resembling animals, rocks containing minerals, stalactites from caverns, petrified wood, fossil sea shells, volcanic lava, etc. all of which attract quite a bit of attention. The larger ones she used to form a small rock garden near the hotel entrance but the smaller and more valuable specimen she keeps in the lobby.

Mrs. Alley is a real pioneer. In fact she was one of the first three women in Lynn county, the other two being Mrs. Enos L. Seeds who is now dead and Mrs. Eva LeSure, better known here as Mrs. Bill Petty, who now lives in California. As the wife of the late Jack Alley, prominent early-day ranchman and former Long-S and Tahoka Lake ranch foreman, Mrs. Alley came here in the late '90's. She enjoyed riding the range with the cowboys, and helped trail cattle to shipping point. But, then, as now, those who liked good oats would drive a long way off their route to get a chance to eat at the Alley ranch house, it is said.

Mrs. Elbert Rogers, who underwent an operation for appendicitis in the Mercy Hospital in Slaton, July 15, was able to return to her home here last week but is still confined to her bed most of the time.

A. M. Miller and family of Wichita Falls were here Sunday visiting his mother, Mrs. Annie Miller.

Mrs. Martha Stroud has been sick the past few days.

Road Projects Given Approval

Mineral Wells, July 31.—Chairman Harry Hines of the Texas highway commission estimated today that the West Texas area would be allocated \$6,000,000 in road projects from the \$15,500,000 state and federal funds, not including WPA projects.

He made the estimate after the commission had announced highway designation and important projects for a wide area.

Highway 15 was extended west from Fort Worth through Mineral Wells, Metcalf Gap, Caddo, Breckenridge, Albany, Anson, Roby, Snyder, Lamesa, Seminole and to the New Mexico line.

A project on No. 9 from O'Donnell, Lynn county, was approved and the commission authorized a project in Howard county northwest from Big Spring to Martin county.

Another project called for completion of No. 66 west of Amarillo to the New Mexico line. Closing of gaps in No. 24 in Dickens and King counties and work on practically all gaps on No. 9 from Corpus Christi to Amarillo were also approved by the commission.

Important projects were approved on No. 81 and 83 through West Texas to Fort Worth. Immediate action on projects from the New Mexico line east through Gaines, Dawson and parts of Borden and Scurry counties was ordered. Approval of a new road from Mineral Wells to Weatherford on that highway was announced.

The commission announced the next regular open meeting would be held Aug. 19 and 20 and that bids would be opened on a few small state projects Aug. 19. Commissioners said it would be impossible to have any federal projects ready for letting before September or October.

Mrs. J. S. Wells, Mrs. J. H. McCoy, Jack and Miss Evelyn Wells returned Wednesday night from a few days pleasure trip out to Ruidoso and Cloudcroft, New Mexico.

Many Bargains For First Monday Event

County Trustees Meeting Tuesday

County Superintendent H. P. Cavness announces that there will be a meeting of the county school board in his office next Tuesday for the purpose of finally passing upon all applications for the transfer of children from one school district to another.

Any persons who may wish to interview the board with respect to any transfer or transfers should appear at that time.

Measure County Cotton Acreage

Twenty-eight crews are busy measuring the cotton acreage and government rent acreage in Lynn county. A crew consists of at least two men and there are in many cases one or two helpers. The work is being done mostly by the local committees and supervisors, but it is all under the direction of the county supervisor, Marshall Stewart. It is estimated that two more weeks will be required to complete the job. The work started last week.

Mr. and Mrs. O. M. Reid attended the state convention of Rural Letter Carriers at San Angelo last week. They were accompanied home by Mr. and Mrs. Robert Reid of Mercedes, who came to visit the former's parents, Mr. and Mrs. J. M. Reid of DeQueen, Arkansas, who are visiting here.

Miss Minnie Hood of the Grassland community will receive her Bachelor of Science degree at the West Texas Teachers College, Canyon, at the end of the summer session.

R. A. Hoover, manager of the Jones Dry Goods Store here, will leave for St. Louis Sunday to make purchase of fall and winter goods for the store.

Next Monday is again Trades Day—and the last one to be had this summer, under the present plan at least.

Some of the business men, for various reasons, have dropped out, making it too burdensome on a few to carry on. Several of the leading business men, we understand, desired to continue the system and it may be that a plan will be worked out whereby the Day will be continued. So far as we know, however, Monday will be the last Trades Day this season.

Many of the merchants are offering special bargains on this day, however, and it is hoped and believed that a large crowd will be here to take advantage of them.

So come in, folks, and take advantage of the bargains, swap jokes, and have a good time.

The regular special attraction will be held on the court house lawn at 3:30 in the afternoon only.

R. P. Weathers, who has been acting secretary-treasurer of the First Monday organization, states that any funds left over which the merchants have raised to stage these events will be presented to the county fair committee of the Tahoka Luncheon Club. The Club has voted in favor of holding a fair, this fall.

State Tax Rate Cut To 62 Cents

There will be a decrease next year of 15 cents on the \$100 in the state tax rate, according to a statement received this week by County Tax Assessor and Collector A. M. Cade from State Comptroller George H. Sheppard. The tax rate for 1934 was 77 cents on the \$100. The rate for 1935 will be only 62 cents on the \$100.

This tax is divided as follows: General revenue 35 cents, school 20 cents, Confederate pensions 7 cents.

Mr. and Mrs. Cliff Thomas and Mrs. Skiles returned last Friday from an extended trip to California. They had a most enjoyable vacation.

WEEK'S PROGRAM

ENGLISH

THEATRE

FRIDAY and SATURDAY NIGHTS ONLY

Mr. and Mrs. Martin Johnson's "Baboona"

Where all other animal pictures left off... this one starts... because these fearless adventurers dared what no man had dared before... they took to the air... and by plane fought their way to the untouched heart of the African jungle!

SATURDAY MATINEE ONLY

JOHN WAYNE

"Paradise Canyon"

SUNDAY, MONDAY and TUESDAY, AUG. 4, 5, 6

ANN HARDING and HERBERT MARSHALL

"The Flame Within"

Maureen O'Sullivan, Louis Hayward and Henry Stephens

Don't give up the man you love... fight for him...

She believed that in her heart. And then she fell in love.

What is the secret spark in a woman that some one man can fan into a consuming flame?

You'll live every thrilling moment of this powerful romance!

An impassioned story of a headstrong girl tremendously in love. Katherine Hepburn is simply

STUNNING!

In gorgeous gowns by the fashion designer of "Roberta"

Daredevil Crash May Mean Death At Air Show Here Sunday

One of the most dangerous stunts ever conceived will be put on here Sunday afternoon when Johnnie Holden, the state's most noted "stuntist", will crash through a solid board wall on a motorcycle at 60 miles per hour. The show will be at the landing field west of Tahoka High School.

Joe Benson of Stamford, one of the Southwest's outstanding parachute jumpers, will make a half mile high parachute jump from an airplane piloted by O. L. Holden.

Gulf Is Sponsor

The Air Show is being sponsored by E. S. Evans, local agent of the Gulf Refining Company, whose products will be used exclusively by the performers. Nowlin Bros. Gulf Service Station and the Corner Service Station, both dealers in Gulf products, are cooperating in sponsoring the show.

Air Show Free

The entire air circus will be free to the public, the only charge being made for rides in the planes. The wall-crashing stunt will also be free. No collection will be taken.

The company consists of Johnnie Holden, wall-crasher on the motorcycle; O. L. Holden, his brother, pilot and stunt flyer, instructor of Hatch Flying Service School, Fort

Worth; and A. D. Hatch, owner of the ships and of the Hatch Flying Service; Joe Benson, parachute jumper.

Holden has suffered numerous injuries while doing the wall-crashing stunt, but has never failed to go through on schedule with the event.

"The only thing that bothers me," said Holden, "are the knots in the wood. They fly by my head like bullets from a machine gun and I've had many a knot raised on my head from the wood knots."

Joe Benson, daring parachute performer, will make a drop from the height of 2640 feet from a plane piloted by O. L. Holden who is recognized throughout the stunt world as a master in the art of flying and performing daring stunts in the clouds.

No charge will be made for the show, although those attending will have the opportunity of being taken for an airplane ride for the small charge of 50 cents. The time is Sunday, August 4, and the place is the Oscar Roberts pasture, where you see the planes landing.

Experiments on mice and monkeys show that nasal sprays of dissolved alum may prevent infantile paralysis and sleeping sickness.

O'Donnell Seeks Deeper Water

O'Donnell, July 31.—Casing has been ordered and drilling arrangements made for a deep water well to augment the city water supply, according to a statement from the city council.

Through an agreement between the City of O'Donnell and C. H. Doak, founder of the town and prominent property owner, actual drilling of the well will be done by C. C. Nunnally, and will be financed by Mr. Doak. The well is to be drilled on a lot owned by Mr. Doak, located near the present storage tanks and city wells, and the city is to furnish the casing. If the well is a good one, the city will purchase the property from Mr. Doak and will reimburse him for his expense. If it is a failure, the city loses nothing but the purchase price of the casing.

At present nine shallow wells are being pumped to supply the town with water.

STONEWALL COUNTY AGENT IS AWARDED FELLOWSHIP

College Station—James W. Potts, Stonewall county agricultural agent and former 4-H club boy, has been awarded a \$1000 fellowship for nine months' study in the U. S. Department of Agriculture offered by the Payne Fund of New York City, according to Extension director Williamson.

Potts was raised on a farm in Lubbock county and was graduated from Lubbock High School in 1929. In 1933 he received a B. S. degree from Texas Technological College, majoring in agronomy.

Potts started 4-H club work in 1921 with a pig that won third place at the county fair. With premium money won on a registered gilt in 1922 he bought a Jersey calf and started a dairy herd which practically paid his way through college. He also carried demonstrations in pure line grain sorghum seed production, beef cattle and cotton. Total profits for one three-year period were \$2,499.55 or an average of \$829.85 per year.

Come to Tahoka Trades Day.

"I Saw It in the News Review"

is a common expression among those who keep well informed on current events. They know that the "Weekly News Review," which appears regularly in this paper, they obtain a comprehensive interpretation of world events written by Edward W. Pickard, one of the nation's most widely-known news commentators.

Weekly News Review

deals with the important happenings and their effect upon our country. It is more than news—it is an interpretation of the news, and therefore much more valuable to the person who wants to understand what is going on in the world today.

Read it carefully from week to week. You will find it interesting and helpful in your discussion of world events with your neighbors and friends.

THE CALF PATH

(Sam Walter Foss)

One day through the primeval wood
A calf walked home, as good calves should;
But made a trail all bent askew,
A crooked trail, as all calves do.
Since then three-hundred years have fled,
And I infer the calf is dead.

But still he left behind his trail,
And thereby hangs my moral tale.
The trail was taken up next day
By a lone dog that passed that way;
And then a wise bell-wether sheep
Pursued the trail o'er vale and steep
And drew the flock behind him too
As good bell-wethers always do.
And from that day, o'er hill and glade,
Through these old woods a path was made.

And many men wound in and out,
And dodged and turned and bent about
And uttered words of righteous wrath
Because 'twas such a crooked path;
But still they followed—do not laugh
The first migrations of that calf.
And through this winding wood-way stalked,
Because he wobbled when he walked.

This forest path became a lane,
That bent and turned and turned again;
This crooked lane became a road,
Where many a poor horse with his load
Toiled on beneath the burning sun,
And traveled some three miles in one.

The years passed on, in swiftness fleet,
The road became a village street;
And this, before men were aware,
A city's crowded thoroughfare.
And soon the central street was this
Of a renowned metropolis;
And men two centuries and a half
Trod in the footsteps of that calf.

Each day a hundred thousand rout
Followed this zigzag calf about,
And o'er his crooked journey went
The traffic of a continent.
A hundred thousand men were led
By one calf three centuries dead.
They followed still his crooked way,
And lost one hundred years a day;
For thus such reverence is lent
To well-established precedent.

A moral lesson this might teach
Were I ordained and called to preach.

For men are prone to go it blind
Along the calf-path of the mind,
And work away from sun to sun
To do what other men have done.
They follow in the beaten track,
And out and in and forth and back,
And still their devious course pursue.
To keep the path that others do.
They keep the path a sacred groove
Along which all their lives they move;
And how the wise old wood-gods laugh,
Who saw the first primeval calf.
Ah, many things this tale might teach—
But I am not ordained to preach.

R. E. Doak of Lubbock, formerly of Tahoka, has returned from a visit to Mexico City and other parts of Old Mexico.

Making Steady Progress On Well

Steady progress is being made on the Wanete-Hart test oil well on the T-Bar Ranch ten miles southwest of town. The drill had reached a depth of 3450 feet at mid-afternoon Thursday.

The log of the well thus far is very similar to that of the first hole that was drilled at this location, which was abandoned on account of an accident before the well was finished.

YOUNG MEN ELIGIBLE FOR CCC SHOULD APPLY SOON

Austin, July 31.—Young men throughout Texas eligible for Civilian Conservation Corps enlistment have been advised by State Enrollment Supervisor Neal E. Guy to make themselves known to their county administrators if they are interested in being among the 16,000 to be enrolled by August 31.

Guy advised county administrators of their quotas and asked that they examine their relief rolls for probable enrollees, with the possibility that quotas will be increased when administrators show enough CCC candidates to warrant.

An eligible candidate is any single man between 18 and 28 whose family is on the relief rolls.

While administrators were asked to search their rolls for probable enrollees, Guy suggested that the young men themselves notify their administrator if they are eager to enroll in the CCC.

Approximately 16,000 Texans are to be enrolled by August 31, with about 10,000 expected to be sent to out-of-state camps, Guy said. Out-of-state assignments are made because Texas camps already have their quotas, while camps in some of the other states have not, he explained.

Enrollment will be made at intervals during the next month, and enrollment instructions have already been issued to the first allotment of 3224.

Forty-three news camps are being built in Texas, bringing the total in this state to 96. Approximately 30,000 Texans will be in the CCC by August 31.

SCIENCE NIBBLES

Artificial tremblings made by setting off tons of explosives now offer more opportunities to study the earth's interior than are given by earthquakes.

Small vanity jars of lip rouge, face powder, etc., have been found in Greece. They belonged to Greek ladies of 3,000 years ago.

Dr. J. H. Matthews, of Wisconsin University, has announced a device for determining the make and model of a gun from the study of its bullet.

Soya beans are used in auto manufacture. Oil useful in enamel is pressed from them and the remaining meal made into solid material used for various parts.

Experiments indicate that dust storms may threaten health through mechanical injury to the lungs; but that the dust does not carry disease.

Two French doctors claim to have obtained a culture of leprosy bacillus—the first since the bacillus was discovered 64 years ago.

A new tomato, the Glovel, which matures early, resists wilt and rust, remains free of growth cracks, and gives a high yield has been developed by the Department of Agriculture at the Florida Experiment Station.

No one knows the origin of chess.

Fair For County Is Bright Prospect

Ten communities were represented Thursday afternoon at a meeting held in the county court room to discuss farm matters and also the advisability of holding a fair here this fall.

Preliminary steps were taken to put the fair over. Each community is to have a representative on the board of directors and another meeting will be held at an early date.

O'Donnell Opens Three-Day Picnic

O'Donnell, July 31. — Beginning Thursday, O'Donnell business men and merchants will be hosts to visitors from throughout the South Plains, as the second annual Tri-County celebration is started.

This event was held for the first time last year, and brought an estimated attendance of 5,000 persons on the second day. It is hoped that attendance this year will be even larger.

Baseball games each of the three days of the celebration have been matched between the O'Donnell Hubbers and strong opposing teams. Horse races will be held each day, with a purse of \$15 daily. Dances have been planned for each evening, and an Old Fiddlers' contest will be one of the main features Friday evening. A \$7.50 purse is being offered in this event.

O'Donnell extends a cordial invitation to South Plains folk to come and enjoy the fun.

Japanese and German scientists claim to have made a cotton substitute from common straw.

DUNNING BY POST CARDS FORBIDDEN BY POSTAL LAWS

Despite all that has been said on the subject of dunning by postal card there still exists some confusion on this matter. Section 471 of the United States Postal Laws and Regulations says, in part: "Any postal card up on which, any delineations, epithets, terms or language of an indecent, lewd, lascivious, obscene, libelous, scurrilous, defamatory, or threatening character, or calculated by the terms or manner of style of display and obviously intended to reflect injuriously upon the character or conduct of another, is un-mailable."

The Post Office Department has ruled that this "threatening" provision covers cards which threaten bringing of suits or legal action in the event accounts or debts, etc., are not paid. However, this does not include notices of fraternal and other organization of dues, assessments, etc., even though they call attention to the fact that failure to remit will result in suspension or other action. Neither does it include notices of when accounts will be due nor a respectful request for settlement of current account. But in any case such payments must not appear to be nor be referred to as past due.

Business Firms Change Locations

Three business institutions are preparing to move to new locations this week end.

Tahoka Recreation Club, the pool hall operated by Buster and Jack Fenton, will be located in their new brick building next door to the Security State Bank building Monday.

Jane's Beauty Shoppe, of which Jane Barrington is proprietor, will be located by Monday in the building on the corner next door to the News building. The interior of the building is being re-decorated.

Myrtle Cooper, owner of the Co-Ed Beauty Shoppe, will move at the same time from her location in the Larkin building to the Hub Barber Shop in the space vacated by Jane's Shoppe. She announces she will improve her shop considerably.

COMBINATION DESK AND BOOKCASE IS VERY USEFUL

Crowell—A combination bookcase and writing desk is declared by Mrs. S. E. Tate of Post county to be the most useful piece of furniture that she has ever owned.

The desk was made from an old folding bed which had been discarded years before. It was found that the wood was solid oak. The desk was made with shelves for books above a drop leaf which forms a convenient writing desk, with pigeon holes for stationery and pencils. Two small drawers held papers.

Mrs. Tate sandpapered all the old varnish off the case and refinished it in natural color.

Services rendered by American hospitals during 1934 were equivalent to those which would be required were every person in the country to spend two days in the hospital.

Some of the larger universities have co-ed rifle teams. Part of the domestic science course, we presume.

To remove egg stains from metal spoons dampen the spoons and rub with table salt on a damp cloth.

Little Misses Colleen and Dorothy Lee Carmack visited relatives in Lamesa last week.

Barney Davis of Abilene is here visiting his parents.

Some unbreakable buttons are made from blood.

Buy it in Tahoka and be here next Trades Day.

Large glass balls, fish net floats, tumbled from Japanese docks seven years ago by earthquakes are now reaching the Oregon coast, according to E. W. Anderson of Lakeview.

Come one, Come all to Tahoka's Trades Day.

ROOSEVELT INTERESTED IN RURAL ELECTRIFICATION

"President Roosevelt is one of the greatest rural electrification enthusiasts," says Morris L. Cooke, new Rural Electrification Chief, in the July Progressive Farmer.

"As a farmer he is tremendously interested in the welfare of the rural people, and he has often stressed the necessity for giving the country people those advantages now found in the cities. He has aided in building better roads, in improving rural schools, and in raising the level of of prices which the farmer obtains for his products. Now he is intent on bringing electricity to the farm.

"In the President's opinion electricity can relieve the drudgery of the housewife and lift a great burden off the shoulders of the hard-working farmer. Fifty million Americans are directly concerned with the future of agriculture. What affects them affects the whole nation, and in this program of rural electrification, the President and the Rural Electrification Administration see an opportunity to bring substantial help not alone to the farmers but to the nation as a whole."

Patricia Hill is recovering from slight injuries received when she fell off a windmill while visiting her grandparents at Crosbyton last week.

ON TEXAS FARMS

Trench silos are getting filled this month in Texas. Corn, red top cane, seeded ribbon cane, hegarl, kafir, mlo, and a few more such crops are going into them.

E. R. Eudaly, Extension dairyman, says these crops had better be ripe because if they are cut too green the silage will contain a surplus of acid and as a result scour the cattle if fed liberally.

He says that the leaves on the upper half of the stalk should be green—but the riper the crop the greater the feed value of the silage.

A trench silo six feet wide at the top, four feet wide at the bottom, five feet deep and 100 feet long will hold 30 tons of silage. That makes three tons per cow for a ten cow herd. Eudaly says three tons is just about what a dairy cow needs.

But that isn't all. Each cow should be supplied with one ton of hay and one of feed per year. He says cannily, "Remember, the more roughage the cow will consume, the less of grain mixture will be required. Hay and silage are cheaper than corn and cottonseed meal."

On a recent trip to the Gulf coast territory spreading the gospel of trench silos or "canning the cow's winter food supply," Eudaly found that Refugio county had only one trench silo. Since he spoke there two months ago, 100 silos have been dug and filled.

Mrs. Annie Miller has returned from a three weeks' visit with relatives in Wichita Falls and Burkburnett.

The total cost of accidents in 1934 is estimated at \$3,500,000,000.

SOCIETY

Club and Church News

MUSICAL PROGRAM PLANNED FOR METHODIST SERVICE

A large crowd heard Rev. Hamilton of Lubbock at the eleven o'clock hour at the Methodist Church. Bro. Hamilton is a very able speaker and brought a good spiritual message. The choir did some very good singing, directed by Mr. Sewell. The pastor was in his pulpit at the evening hour. A large crowd was there to hear him. He brought us a wonderful message, as he always does, reminding us that we are all making a name for ourself. Which is it like unto—the life of Judas or Jesus. If you did not hear Bro. Smith you missed something worth while.

Be in the services Sunday. Bro. Jackson, Asst. Pastor of First Church, will have charge at the eleven o'clock hour. He is a good speaker. Hear him. At the evening hour there will be a musical program—something you will really enjoy. A lot of hard work and time is being put in on this program for you, so be there and hear these people.—Reporter.

ROYAL SERVICE PROGRAM GIVEN IN W. M. S. MEETING

The Royal Service program, "Lifting the Banner in Africa" was the subject for the three circles of the Baptist W. M. S. Monday afternoon. The Lucille Reagan Circle met with Mrs. Jim Burleson, who passed a refreshment plate to ten members during the social hour. The Sallee Circle gave the program and the Blanche Rose Walker Circle served iced punch and cake when these two circles held a joint meeting in the home of Mrs. H. C. St. Clair. Those attending were: Mesdames H. P. Caveness, E. N. Weathers, A. J. Edwards, H. B. Howell, F. M. Billman, J. L. Reese, R. C. Forrester, R. C. Wells, Geo. A. Dale, W. E. Heathman, C. T. Oliver, J. L. Nevill, E. I. Hill and the hostess, Mrs. H. C. St. Clair.

REV. SAM MORRIS TO SPEAK HERE TUESDAY AFTERNOON

Rev. Sam Morris, pastor of the First Baptist Church of Stamford and operator of radio station XEPN at Eagle Pass, announces he will speak on the Courthouse lawn here on Tuesday, August 6, at 3:00 P. M., in the interest of retaining prohibition. He has loud speaker equipment.

Morris is a forceful speaker. The people of Lynn county are invited to hear him.

ELDER DRENNON WILL BE BACK IN PULPIT SUNDAY

The News received a card from Eldr R. P. Drennon the first of the week stating that he would be here to fill his pulpit next Sunday.

He is engaged in holding a meeting at Close City and reports fine results.

Recent visitors in the home of Mrs. A. J. Glasgow and Mrs. Annie Miller were: Mr. and Mrs. Dan H. Smith and daughter, Nyla Evelyn, of Portales; Mr. and Mrs. E. F. Sparks and son, Norman, of Breckenridge; Mr. and Mrs. Edgar Luttrell of Stamford.

Coughran Ketner arrived Tuesday from El Paso to spend a few days here visiting his father, J. E. Ketner, and other members of the family.

Miss Evelyn McCasland of Lubbock is spending this week with Miss Eunice Mullins.

PLAN FOR EMPLOYMENT

Lubbock, Texas, July 29, 1935. The current Employment Report just issued by Draughon's Business Colleges, of which E. C. Hatton is local manager, shows a long list of young people who have been placed in excellent positions during recent months. Because the students recommended by Draughon's Colleges have been making good for more than fifty years, many firms continue to call Draughon's for help even though they may have many applications on file. A new illustrated booklet "Planning Your Future" describes the far-reaching methods for placing graduates, training and time required, cost of tuition, etc. Young people interested in good starting positions and opportunities for advancement, should mail Coupon at once for free copy of "Planning Your Future," showing how we can train and place you, at a saving in time and expense. Address Draughon's Business College, Lubbock, Texas or see this paper about a Special Scholarship.

UNIVERSITY CLIPPING BUREAU GIVES GIRLS EMPLOYMENT

Austin, July 30.—Approximately 180 young women have been enabled to attend The University of Texas, and in many cases, to complete their University education by means of part-time work in the Students Clipping Bureau, it is estimated. The bureau is operated as an adjunct to the University Office of Publicity.

Started in 1915 for the sole purpose of obtaining a check on the amount of space devoted in Texas newspapers to mention of the University, the clipping bureau was a few years later expanded to give part-time employment to University girls. A small list of other clients was built up, among State departments, State-wide associations, and commercial and industrial firms. All proceeds from the sale of clippings were and continue to be used to pay the salaries of young women students employed.

Claude M. Snow, a rat expert of Portland, says a pair of Oriental gray rats can produce 359,760,824 young in three years.

Miss Eunice Mullins returned Thursday from a two weeks' visit with the Robert Reid family in Mercedes.

Mrs. W. L. Burleson returned last Sunday from a visit with Mrs. Frank Larkin at Elizabethton, Tennessee.

Al Lehman, manager of Levine's Dry Goods store here, has gone to Houston and to market this week.

Mrs. Belton Howell has been ill this week.

Buy it in Tahoka and be here next Trades Day.
