

The Lynn County News

Volume XXXII

Tahoka, Lynn County, Texas, Friday, November 1, 1935

Number 11

FARM NOTES

By County Agent

T. M. and Harry Poindexter, 4-H Club members of the New Home community, have made excellent gains on two club calves they are feeding. Each of these calves gained 125 pounds in the last 43 day feeding period, from August 26th to October 9th. These two calves were fed together and they consumed approximately 280 pounds of oats, 60 pounds of cotton seed meal, and in addition had access to Sudan pasture and a nurse cow.

Twenty Seven hundred and fourteen second rental cotton checks, amounting to \$113,019.96 were received at the County Agent's office last Saturday. Notices have been mailed out to producers who received a check. There are several hundred checks to come in yet. At this time we do not know when other checks will be received.

Each farm family is entitled to an exemption of tax free cotton, not to exceed 110 pounds, for home use, such as quilts, mattresses, etc. We have the forms for making application for this exemption, and ask that you call at the office for these forms if you want to take advantage of this tax exempt cotton.

Two hundred and sixteen men in Lynn County voted in the corn hog referendum last Saturday. One hundred and sixty six of these men were in favor of a continuation of the program, and fifty voted no.

Lynn county received approximately four thousand bales of certificates out of the 10 per cent State Reserve last Wednesday. Cards have been mailed to producers who received certificates under this issue.

This is about two thousand bales less than was received last year. There seems to be a better distribution of the poundage this year over last year.

Certificates left unsold from the pool are expected within a very short time. Producers will be notified.

Aged Grassland Citizen Is Dead

"Grandpa" Babb, 76, of the Grassland community died at the home of his son, Bob Babb, at an early hour Wednesday morning.

Funeral services were conducted in the Baptist Church in Post Thursday afternoon and burial was in the Post cemetery. Rev. George A. Dale, pastor of the Baptist Church here and a long time friend of deceased, conducted the funeral services. Mr. and Mrs. E. J. Cooper of Tahoka were also friends of deceased and many friends in the Grassland community. He had been a member of the Baptist Church for many years and was a splendid Christian character.

Surviving him are two sons, Bob and Fred, in the Grassland community and one in North Texas, besides many other relatives.

Washington People Visiting In Tahoka

Mr. and Mrs. E. I. Hill Jr. of Washington, D. C., and Mrs. Earl Rochell and two little children of Breckenridge are here visiting the editor and family and Frank Hill and family. They came last Thursday and will be here several days yet.

E. I. Jr. has been employed in the Government Printing Office at Washington the past five years. Having received several promotions since he entered the service, he is now in the Estimating Department. It is his duty to make estimates as to the cost of printing jobs done by the Government, from the smallest and simplest amounting to only a few dollars to the largest and most intricate amounting to thousands of dollars.

The Government Printing Office is the largest printing establishment in the world employing more than 5,000 persons.

Mrs. W. C. Cowan has been visiting the past two weeks with her daughter, Mrs. Harter, in Happy.

LYNN FAVORS HOG PROGRAM

Farmers Vote Three To One In Favor Of Continuing Corn-Hog Set-Up

Lynn County corn and hog raisers voted more than three to one in favor of a continuation of the Federal Corn-Hog program at the nationwide election held last Saturday. The vote was 166 in favor of the program and 50 against.

Corn-Hog contract signers last year and all farmers who have raised corn or hogs during the current year were eligible to vote. Practically all the voters however were persons who had signed contracts last year. There were only four non-contract signers in the county, who voted, according to County Agent V. F. Jones.

Press reports are to the effect that a large majority of the farmers throughout the nation likewise favored a continuation of the program. The heaviest voting, of course, was in the corn belt of the Middle Western states.

It is now suggested that the new contracts will be for a four year period, in line with President Roosevelt's expressed views favoring a permanent AAA program.

Southern Tenant Farmers Organize

J. R. Butler, national president of the Southern Tenant Farmers' Union and editor of The Sharecroppers' Voice, which is the official organ of the Union, addressed a crowd of farmers and farm laborers from the steps of the courthouse at the south entry here Saturday afternoon.

Mr. Butler was here upon the request of Fred Matthews of Grassland, who recently started the organization of the Union in this section and organized a local at Grassland which has been growing rapidly. It is said, Mr. Butler remained over a few days to assist Mr. Matthews in the work of the organization in this section.

The Union is very strong in some sections of the South, particularly in Arkansas, Tennessee, and other states. We shall give a more detailed statement as to its purposes next week, as given by Mr. Butler himself.

Miss Perkins Weds Grassland Man

Announcement was made last week of the marriage of Miss Arlie Perkins, daughter of Mr. and Mrs. Lewis Perkins residing near Tahoka, to Mr. Henry Stewart of Grassland.

The young couple were married at Seagraves on August 31, but they had kept the matter secret until Thursday or Friday of last week. They will reside in the Grassland community.

The bride has been practically reared near Tahoka and is a graduate of the Tahoka High School, having been a member of the class of 1934. The groom has resided several years in the Grassland community and attended high school in Post.

Since their marriage became known they have been receiving the congratulations and good wishes of many friends.

Drunk Takes Charge Big Spring Court

County peace officers returning from a call in the eastern part of the county were rather surprised early Tuesday morning when they heard palavering in the county court room. They wondered if a night session had been authorized in their absence.

They were worse surprised when they found a drunk holding a court of his own and demanding order in the court room.

He threatened to have the officers thrown out if they didn't pipe down. They transferred him to the county jail where he could preside over kangaroo court.—Big Spring Weekly News.

Miss Ethel Mae Johnson left Saturday for Amarillo to spend the winter with her sister, Mrs. Bob Johnson, and attend school the remainder of the year.

KATHLEEN NORRIS

Famous Author, Whose Serial, "Maiden Voyage," Is to Appear in This Paper

Kathleen Norris, daughter of a San Francisco banker, never attended school. She was taught at home by her parents, with an occasional governess for language study.

When she was nineteen—the second child in a family of six—her mother and father died within a month, and she immediately became a wage-earner, her first job being with a hardware house at \$30 a month. Fortunately, however, for the American reading public, she later became a librarian and while engaged in that work she began writing. In 1904 she sold her first story, "The Colonel and the Lady," to a San Francisco newspaper. She served as society editor and reporter for other San Francisco papers but this work ended in 1909 when she married Charles G. Norris, brother of the late Frank Norris, the author, and himself a novelist.

Since 1910 Mrs. Norris has written a great number of novels and short stories, many of which have been published serially in the leading magazines and newspapers of the country. Her best known novels include "The Lucky Lawrence," "Second Hand Wife," "The Foolish Virgin," "Walls of Gold" and "The Story of Julia Page." Now comes "Maiden Voyage."

Announcement of a new story by Kathleen Norris always is something of an event and the editor of this paper feels that it is a great privilege to be able to tell you that "Maiden Voyage" is to be published serially in these columns. You will thoroughly enjoy every installment.

Second Well Of Water Good One

A new water well has been drilled by the City this week, and it promises to be a better well than the first one drilled two or three months ago, according to Mayor Jim Dye.

A fine stratum of water was struck at a depth of a little more than 100 feet. The sand and gravel are of coarser texture than in the first well and caves more. For this reason, it has been impossible as yet to determine just how much water this well will produce but it is thought to be a stronger well than the first one. It is situated a few hundred feet north of the first well.

Mrs. Fred McGinty of the Wells community, whose newly-born twin daughters died a little more than two weeks ago, was taken to the Lubbock Sanitarium Tuesday in a most serious condition. Many friends are hoping for her speedy recovery.

Beautification Program Instituted At Program Of Luncheon Club Tuesday

The musical program at the luncheon club Tuesday was a little different from anything that has gone before.

The first number was a quartet by four of Tahoka's young and promising musicians, Jo Jo Lehman, George Hogan III, Bill Jack Edwards and Venoy Gattis, with Mrs. J. K. Appiewhite as piano accompanist.

This was followed by a violin-piano number, with Jo Jo Lehman playing the bow and George Hogan III at the piano. Both of these boys have heretofore won musical honors here and at Lubbock. They gave two numbers which were greatly enjoyed.

With Mrs. Appiewhite again at the piano, Mr. Kary Mathis gave a vocal solo. His solos are always fine, and this was no exception to the rule.

President J. K. Appiewhite had

OLD SETTLERS HOLD MEETING

Form Permanent Body; Will Hold Annual Meeting For Old Pioneers

Nineteen of the pioneer men and women of Lynn county met in the county court room here Tuesday afternoon and organized the Lynn County Old Settlers Association.

With C. H. Doak of O'Donnell serving as temporary chairman, the body proceeded to elect Judge J. W. Elliott president and Jim Weatherford secretary.

A committee on Constitution and By-Laws was selected, and another meeting is to be held soon, at which time the report of this committee is to be heard and permanent organization perfected. The members of this committee are: C. H. Doak, A. L. Lockwood and W. S. Swan.

Other committees were appointed as follows:

Membership: J. D. Donaldson, W. D. Nevils, and Mrs. Oscar Roberts.

Entertainment and Refreshments: Mrs. G. W. Small, Judge W. E. Smith, and Mrs. Waldo McLaurin.

A second meeting is to be held on Thursday, November 7, beginning at 3 P. M., at the American Legion Hall. It is expected that the constitution and by-laws will be adopted and a permanent organization perfected at this time. At 5 o'clock a basket lunch will be served, and all members and prospective members are urged to bring well filled baskets.

It has been tentatively agreed that all persons who lived in the county more than thirty years ago and who live here now are eligible to membership.

It is contemplated that a great meeting of these old settlers will be held each year and that it may become a great annual occasion. The first such meeting will probably be held some time next summer.

Vote On Corn-Hog Program Mounts

Washington, Oct. 28.—A decision on the amount of the government loan was projected today as AAA officials studied the question behind closed doors.

Authoritative sources said the loan probably would be 40 or 45 cents a bushel. The 1934 loan was 55 cents a bushel. Formal announcement, it was indicated, may not be made before Wednesday or Thursday.

Unofficial returns showed the vote at 9 p. m. to be:

For a new program 574,468.

Against a program 92,839.

Franklin D. Brown Heads Lubbock Bar

Lubbock, Texas, Oct. 29.—In a called meeting of Lubbock County Bar association Monday morning in 99th district court room, Franklin D. Brown was elected president, W. W. Campbell, vice president, and A. V. Weaver, Jr., secretary-treasurer.

They succeeded W. H. (Bill) Evans, Vaughn E. Wilson and Robert H. Bean, respectively.

Popular Show Man

HARLEY SADLER, Popular West Texas show man, who will be here all next week with his tent theatre.

Bulldogs Meet Lamesa Friday

Crippled and battered, the Tahoka Bulldogs are not beaten in spirit, and members of the team declare they are going to Lamesa Friday night to put up the hardest fight they possibly can.

Lamesa has possibly the strongest Class B team in Texas, but Coach Walker and his boys declare it is just another hard game. However, Lamesa has not lost a game in several years.

A number of fans expect to accompany the team.

3022 Bales Cotton Ginned In Town

In spite of unfavorable weather that interfered very materially with the gathering of the cotton crop the latter part of last week, cotton is coming in to the gins rapidly now, some of the gins being kept busy day and night. Since our report last week 763 bales have been ginned here, the total this season up to 11 o'clock Thursday morning being 3022.

While we do not have the figures for the county, yet we have made a sufficient check-up of the county to indicate that about 9,000 bales have been ginned in the county. Estimates of the crop run all the way from 35,000 to 45,000 bales.

The price has changed very little since last week. It is now running from 10.60 to 10.80 on an average, some a little higher and some a little lower. Seed are still selling at \$36.00 per ton.

O'Donnell Man Is Heart Failure Victim

An unsuspected heart weakness, probably leakage, was responsible for the death of L. D. Jackson Monday morning at an early hour Mr. Jackson had been employed for several days in the cotton harvest at the B. F. Burnett farm west of town.

Though we could not reach members of the Burnett family to secure full details, we understand that several of the hands had decided it was too cold to pick cotton, and Mr. Jackson was cranking his car to bring them in to the house when he gasped and fell to the ground.

He was placed in the car and rushed to the office of a local physician, but had been dead several minutes before reaching town.

No details concerning funeral arrangements had been announced, so far as we could learn.—O'Donnell Index.

H. D. Club Women Receive \$30 Premium

The County Council of the Lynn County Home Demonstration Clubs was the recipient a few days ago of a premium or gift from the Balls Brothers Jar Co. as an award for their exhibit of quality products recently exhibited here.

The money was divided among the clubs of the county. The New Lynn Club won first place, the Tahoka Club second, and the Dixie Club third.

The exhibits were very attractive and creditable.

COTTON RENT CHECKS ARE IN

2714 Checks Totalling \$113,019.96 Received By Farmers Of Lynn County

The First National Bank here has been rather busy this week receiving deposits and cashing checks of farmers, delivered to them at County Agent V. F. Jones' office on their AAA cotton rental contracts. Mr. Jones reports that up to Tuesday, 2714 of these checks had been received at his office, bringing to the farmers the sum of \$113,019.96. Several hundred checks are yet to be received, which will materially increase this amount.

These are the second series of such checks distributed on this year's contracts. Payment of the first series began in May, when a large number were received. Others have been coming in at intervals since, the total number of first series rental checks being 3306 and bringing a total of \$128,593.73 to the pockets of the cotton farmers of this county. These represent 69,450 rental acres.

The party checks are yet to be paid. County Agent Mr. Jones figures that they will come in about the 1st of January. These checks, he estimates, will bring an additional sum of approximately \$150,000 to the farmers of Lynn county. Thus it may be seen that total rental and party checks coming to our farmers on the 1935 crop will approximate \$400,000. This will far exceed the total processing taxes that the farmers will be required to pay.

It is estimated that the crop in Lynn county this year will run from 40,000 to 45,000 bales. About 27,000 may be ginned tax-free. Since cotton is selling at a price around 11 cents and seed are bringing around \$36.00 per ton, the cotton crop should bring real prosperity back to the people of this county this year. Of course our imported cotton pickers will carry much of the money back to their homes, but even they will spend much of their earnings here.

Slaton Defeats Tahoka Bulldogs

Slaton won a decisive victory over Tahoka on the home gridiron last Friday afternoon, running up a score of 46 to 6.

Starting a touchdown march soon after the opening whistle, the visitors scored in every quarter. Tahoka gained one touchdown after Slaton lost 15 yards on three plays from her own 20 yard line. On fourth down, Captain James Minor broke through the line, blocked the Slaton punt and covered the ball behind the goal line.

Though beaten early in the game, the home boys never gave up, and put up a game fight against their heavier and more experienced opponents.

A fine crowd of fans attended the game.

Boys Are Injured In Football Game

A number of the members of the Tahoka football team suffered serious accidents in the game with Slaton played here last Friday afternoon.

A. J. Thompson was possibly injured the most seriously, having sustained a fracture of the bone in one leg. He is at the home of his mother in Lubbock this week recuperating.

Jim Woods also sustained a fracture of two or three ribs, and he is also laid up for repairs.

Delton Pemberton suffered an injury to the knee. It was not thought to be serious at first but on Tuesday of this week he was taken to Clark's Clinic and a quantity of pus was drained from the wound. He was taken back again Thursday for a repetition of the operation, and has been suffering intensely. It is hoped that the injury will not prove to be permanent.

A few other members of the team received slight injuries.

Mrs. C. E. Gray, who resides over on the east line of the county, came in this week and added her name to our subscription list. She said she had been reading a copy of the News occasionally and liked it.

Nature's Ice Box O. K.; Keeps Food 33 Years

Nature's ice box has even the best of mechanical refrigerators skinned when it comes to food preservation. Keeping food in good condition for years is no trick at all for natural cold storage plants such as the Antarctic wastes. According to Dr. Dana Coman, physician and dietitian for the Lincoln Ellsworth-Sir Hubert Wilkins expedition, food left in a shack in the South Polar region 33 years ago was found to be still edible when discovered. The long-preserved food supplies were left by a Norwegian explorer, Otto Nordenskjold, in 1902.—Washington Post.

Sentinel's Inquiry

According to army regulations the correct inquiry of a sentinel on guard is: "Halt! Who is there?"

Sir Samuel Hoare

EATS OATMEAL TO HELP KEEP FIT

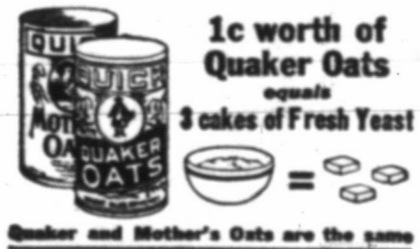

It may be one of Nature's lowest cost foods, but lucky is the boy or girl who gets it for breakfast every morning. Many are nervous, poor in appetite, system out of order, because their daily diet lacks enough of the precious Vitamin B for keeping fit.

Few things keep them back like a lack of this protective food element. So give everyone Quaker Oats every morning. Because in addition to its generous supply of Vitamin B for keeping fit, it furnishes food-energy, muscle and body-building ingredients. For about 1/5c per dish.

Start serving it tomorrow for a 2-weeks test. Quaker Oats has a wholesome, nutlike, luscious appeal to the appetite. Flavors, surpassingly good. All grocers supply it.

*When poor condition is due to lack of Vitamin B

IN VITAMIN B FOR KEEPING FIT...

Quaker and Mother's Oats are the same

News Review of Current Events the World Over

Hoare Promises Britain Will Not Fight With Italy—Laval's Peace Efforts Continued—President Roosevelt Returns to Washington.

By EDWARD W. PICKARD
© Western Newspaper Union.

SIR SAMUEL HOARE, British foreign secretary, assured parliament and the world that Great Britain has no intention of fighting Italy and would not alone apply military sanctions against that nation. He held out strong hopes that the war in Africa could be settled without resort by the league to extreme measures. His speech was plainly an invitation to Italy to talk peace terms.

Denying that the government's policy is hostile to Fascism, Sir Samuel said:

"We have not the least intention of interfering in the domestic affairs of other people."

"The unbroken solidarity of the empire is behind the government's policy," he said. "Let those prophets of misfortune who have marked the empire down for decay and dissolution observe this fact of overwhelming importance."

Hoare hinted at British isolation from continental affairs if the league collapses.

Next day Prime Minister Stanley Baldwin warmly endorsed all that Hoare and Capt. Anthony Eden have done at Geneva. He deprecated even the use of the word war, but called for a rearming of the empire, saying: "In the interests of world peace it is essential our defensive services should be stronger than they are today."

Baldwin announced the adjournment of parliament on October 25 and the election of a new parliament on November 14. The campaign already is under way and is lively, with the international situation furnishing the main issues. The Labor party accuses the government of delaying action in the Italo-Ethiopian imbroglio until too late to prove really effective, and impugns its motive in seeking rearmament.

MUSSOLINI made one conciliatory gesture toward Great Britain when he agreed to withdraw a division of troops from Libya; and at the same time he urged that France and Britain make quick reply to his peace conditions. But it became known the troops were to be moved from Libya to Tripoli, where they would be almost as much a menace to Egypt; and the duce's peace terms were so drastic that there was no prospect that they would be accepted by anyone concerned. They included disarmament of Ethiopia, an international protectorate over the central regions and an Italian protectorate over the remainder.

Addressing the foreign affairs committee of the French chamber of deputies, Premier Laval promised he would seek only a compromise that would be fully acceptable to the League of Nations. He told the committee that France's battalions would stand immediately to the assistance of Britain if the latter's fleet was attacked by Italy.

WHILE Premier Pierre Laval of France was still trying desperately to find a way of settling the Italo-Ethiopian quarrel that would be acceptable to both Great Britain and Italy—apparently without regard to Ethiopia's real interests—fifty-two members of the League of Nations declared a boycott on all Italian goods and an embargo on various key exports to that country. The boycott binds these nations to prohibit importation of "all goods consigned from and grown, produced or manufactured in Italy, or in Italian possessions from whatever place they arrive."

If rigidly enforced, this would cut off about two-thirds of the export trade upon which Italy depends in getting funds for prosecution of the war in Africa. The countries applying the sanctions agree to aid one another in compensating losses by increased trade facilities, credits, cash and loans if possible, and discriminating against league members such as Austria and Hungary which continue to trade with Italy.

Austria, Hungary and Albania spoke against the sanctions. Switzerland, which seeks to preserve her traditional neutrality, was silent. Some South American republics made complicated reservations.

It was decided that the sanctions should be put in force on October 31, and Laval thus had time to continue his peace efforts. These seemed to center on a way to "legalize" Italian occupation of that part of northern Ethiopia which Mussolini's troops were seized to and arrange for Italy's partial control over the entire empire.

GEN. RUDOLFO GRAZIANI'S forces in southern Ethiopia were reported to have won several important victories in their advance toward Harar and the railway. They cap-

tured some towns despite desperate resistance by the natives, and took many prisoners. The main movement in that region was up the Webbe Shilbell river. The Ethiopians were repeatedly dispersed by aerial bombs.

In Tigre province, on the north, the Italians were consolidating their positions and preparing for another big thrust toward Addis Ababa. Their line there extended nearly 70 miles from Adigrat through Aduwa to the holy city of Aksum.

PRESIDENT ROOSEVELT, deeply tanned and in fine spirits, returned to the White House, his holiday tour ended. When he landed from the cruiser Houston at Charleston, S. C., he told a big crowd gathered to welcome him that the country is on its way back to prosperity under the planned economy of his administration, "and don't let anybody tell you differently."

At an informal press conference just before he left the cruiser, the President was asked to comment on the "impending collapse" of his drive to put three and a half million employables on relief to work by November 1. He replied that November 30 was 39 days off and that November 1 had never been set as the deadline, and that he had been very careful to say that substantially three and a half million persons would be put to work. If three million are at work by November 30 he said he would be satisfied with the four-billion-dollar program, and that it could not then be considered to have fallen down.

One of Mr. Roosevelt's first appointments in Washington was for a talk with Secretary of State Hull on the European situation.

FOR the third time in his career Mackenzie King is now prime minister of Canada, following the victory of the Liberal party at the polls. Richard B. Bennett and his Conservative cabinet resigned and King was called on to form the new government, which he did at once. He himself was sworn in as prime minister, president of the privy council and secretary of state for external affairs. Thomas A. Crerar of Winnipeg was made minister of mines, immigration and colonization, interior and Indian affairs. Charles A. Dunning of Montreal is the new minister of finance and W. D. Euler of Kitchener has the trade and commerce portfolio. All the cabinet positions except that of agriculture were filled at once.

The resignation of W. D. Herridge as minister to Washington was accepted and became immediately effective. The department of national revenue announced cancellation of dumping duties on the following commodities entering Canada: Pines, prunes, radishes, spinach, and peaches.

ONE of the government's much publicized efforts to punish alleged income tax evaders of Louisiana failed when a jury in Federal court at New Orleans brought in a verdict of not guilty in the case of Abraham L. Shashan, one of the close associates of the late Senator Long. The prosecution claimed he owed \$71,000 in taxes. The verdict was greeted with loud cheers by the crowd in the courtroom, and in the ensuing confusion several news photographers were beaten up by former members of Long's bodyguard—which seems to be a habit in Louisiana.

NEARLY 5,000 men and women from all parts of the United States gathered in Chicago and held a national convention of the Townsend plan, which, as most people know, would give every person sixty years of age a \$200 per month income if the person agreed to spend it all within the month, did not work or have an income all told of more than \$2,400 a year.

The elderly California doctor who devised the plan was present, and the delegates seriously undertook the work of formulating a campaign to compel the adoption of the plan at the coming session of congress.

FIRST of the big eastern railroads to seek reorganization under the amended bankruptcy act is the New York, New Haven and Hartford, which serves one of the most densely populated sections of the country. Its petition was filed because it was unable to meet taxes of \$4,000,000 and interest of \$2,200,000.

The railroad had sought another loan from the government, but the Interstate Commerce commission rejected the plea. The company had cleaned its treasury of collateral to secure loans of \$7,699,000 from the Reconstruction Finance corporation, \$3,531,000 from the Railroad Credit corporation, and \$16,000,000 from banks. The Pennsylvania system, which controls about 15 per cent of New Haven stock, did not appear ready to guarantee a further extension of credit.

WASHINGTON DIGEST

National Topics Interpreted
BY WILLIAM BRUCKART
NATIONAL PRESS BLDG.
WASHINGTON, D. C.

The African War

In his own mind about the hostilities between Italy and Ethiopia. The fighting is so far away, he said, and the nations involved are of such comparative insignificance in the whole world structure that he found no reason at all to do more than read the black-faced headlines about the trouble as they appeared from day to day in the great metropolitan newspapers.

We were, at the time, reading a rather slow way around the golf links of the Congressional Country club. The course is set in the midst of fine farming country and my friend used the situation as a basis for his argument that there was little reason for any of us to take the Italian-Ethiopian trouble seriously.

"How can it make any much difference to us," he asked, with a wave of his hand toward the fine farms and splendid homes within sight, "when we have a nation so admirably supplied with resources of which those are typical? We can live even if the trouble broadens. If necessary we can close our shores to foreigners and keep out of the trouble."

Unwittingly, my friend supplied a text. In fact, he supplied two of them.

The man in question is able, has a good brain and is doing his job satisfactorily, but it is his true connection with the government in an official capacity. He has not had training heretofore that fits him, or equips him to deal with broad international questions. In time his views will change. Of that I have no doubt, but the fact remains that his attitude on the Italian-Ethiopian situation marks him as one of countless hundreds of government officials, past and present, who are brought in and given responsible posts without regard to their understanding of all of the problems which they must meet.

The other text, which my friend's conversation suggested is, "what interest do we have in the African war?"

Most individuals will agree that at the moment we are in no danger and that immediately there is no prospect of any kind of trouble insofar as the United States is concerned but it is not the immediate prospect that we must consider. It is not the immediate prospect that caused Secretary Hull of the State department to declare and reiterate that the objective of present American policies is to keep this country out of war. That was the reason congress enacted the so-called neutrality resolution and that was the reason President Roosevelt placed an embargo against the shipment of arms and munitions of war to the present belligerents. Again, it is not the present, but where we were in 1914, concerns us.

Undoubtedly congress did a popular thing when it adopted the resolution designed to prevent development of circumstances which may place us on the verge of the catastrophe. I say the action was popular because there has been no indication from any important quarter, except from traders whose business has been handicapped, against the official policy enacted in that resolution.

But the end is not yet. In the first instance, all of Europe is virtually a powder keg. Potential dynamite lies in the differences between Russians and Japanese. Their frontier can be the scene of the fated overt act at any moment. And while the hope is for settlement of all differences between the Japanese and the Russians in a peaceful manner, there is no assurance that there can be so settled.

Since the Italian dictator, Mussolini, brazenly announced that he wanted more territory for his people and proposed to get it at the expense of the black men in Ethiopia, tensions between Great Britain and the French have been increased. The British and the French have comparable interests in Africa. Further, a strengthened Italy means a menace of a continuing embargo to our neighbor, France.

The British have scores of battle ships at sea, from which they can be called into quick use. The British say the fleet is maintained there merely as a "precaution." Mussolini knows better. He knows and every one else will discover after even a superficial examination of the situation that the British will brook no moves by Italy that threaten British control of the Anglo-Egyptian Sudan nor will the British permit Mussolini to gain control of such Ethiopian territory as will jeopardize their supervision over territory through which the waters of the blue Nile flow. These waters are essential to the British.

So it takes no stretch of the imagination to conclude that even a minor incident, accidental damage to a British boat or an injury to a British citizen—of such things and from such

things comes war—will cause trouble. If by any chance one of those "incidents" comes, the British and the Italians will be at each other's throats. Next, should that break develop, every nation in Europe is compelled for one reason or another to align itself with one side or the other. Hitler, for example, would want nothing better than an opportunity to stir up some trouble among the other nations in order that he could spread his power over Austria and Hungary and maybe over some of the Balkan states. He wants more territory and if a free-for-all should get started Herr Hitler will lose no time in subjugating some of the neighboring countries.

Even if these conditions obtain, my friend's statement that the war is a long way off still is correct. It would be three or four thousand miles from American shores but the point of difference is that we are a commercial nation and the European powder keg explodes our commerce would be affected. Indeed, it would be virtually destroyed.

But, it will be asked, why not live within our own shell? The answer is, we cannot do so. Our ships, carrying the products of our farms and factories, would be plying the seas. Nations at war do not take the time always to learn the character of cargo aboard a ship at sea nor do they inquire its destination or the purpose for which it is to be used. Then, we hear of the overt act. An American ship with an American crew and an American cargo is sunk. Or, American-owned and manned business units in some one of the belligerent countries suffers from one of the various things that takes place during the war. It may be the act of some hot-headed foreign national or it may be a deliberate move by a government, but the die is cast. An American citizen is killed, an American flag is insulted. We are in it.

It seems to me, therefore, that we have every reason to watch closely those developments abroad. Our own people are not blameless for some of the conditions that develop. For instance, the following day after Mr. Roosevelt issued his proclamation prohibiting exports of arms and munitions and, by inference, prohibiting dealings of any kind with Italy and Ethiopia, New York exporters rose with a mighty howl and the Port Development Authority in New York protested. One group saw all opportunities for profitable business stricken out by the prohibition against exports and the other, with proper civic pride, complained that the executive action would wreck New York city as a maritime center. Their complaints were natural, quite human, but their refusal to accept the national policy simply represents one of the many things constituting an early step that may subsequently be one of the foundation stones of war.

I do not mean to say in these columns that we should become a peace-at-any-price nation. On the contrary, I think that is a cowardly position for any nation to take. What I do emphasize, however, is that if we are to have an international policy, we should adhere to it.

Now, let us consider the governmental problem. I said earlier that congress undoubtedly had acted in accordance with the views of a majority of our people. President Roosevelt has chosen to accept the neutrality resolution as a mandate from congress which gives him almost no discretion. His arms embargo, his shipping prohibition and his warning to American citizens that if they travel on boats belonging to the belligerent powers they do so at their own risks was the narrowest construction possible to have been placed on the neutrality edict of congress.

Congress is not in session and will not be back here again until January. The President's hands are tied unless he decides to call congress into extra session and that, of course, will not be done unless sudden flames of war sweep over the whole world. Therefore, if Mr. Roosevelt clings to the policy which he has adopted in narrowly constraining the neutrality resolution until the congressional session opens in January, congress can do no more than commend him for following its dictates. But if any of the conditions enumerated above should place the American neutrality position where a test must be had, congress must accept the blame. So, as long as Mr. Roosevelt follows his present course and throws himself completely on the law, the President can make short answer to those who would enlist this country in international action. That position, of course, has its weaknesses because something may develop overnight with which he cannot deal under an inflexible law but, on the other hand, the fact that he can do little without calling congress back, certainly provides a cooling-off period during which the thoughts of a nation may crystallize.

Would Hit Our Commerce

Even if these conditions obtain, my friend's statement that the war is a long way off still is correct. It would be three or four thousand miles from American shores but the point of difference is that we are a commercial nation and the European powder keg explodes our commerce would be affected. Indeed, it would be virtually destroyed.

But, it will be asked, why not live within our own shell? The answer is, we cannot do so. Our ships, carrying the products of our farms and factories, would be plying the seas. Nations at war do not take the time always to learn the character of cargo aboard a ship at sea nor do they inquire its destination or the purpose for which it is to be used. Then, we hear of the overt act. An American ship with an American crew and an American cargo is sunk. Or, American-owned and manned business units in some one of the belligerent countries suffers from one of the various things that takes place during the war. It may be the act of some hot-headed foreign national or it may be a deliberate move by a government, but the die is cast. An American citizen is killed, an American flag is insulted. We are in it.

It seems to me, therefore, that we have every reason to watch closely those developments abroad. Our own people are not blameless for some of the conditions that develop. For instance, the following day after Mr. Roosevelt issued his proclamation prohibiting exports of arms and munitions and, by inference, prohibiting dealings of any kind with Italy and Ethiopia, New York exporters rose with a mighty howl and the Port Development Authority in New York protested. One group saw all opportunities for profitable business stricken out by the prohibition against exports and the other, with proper civic pride, complained that the executive action would wreck New York city as a maritime center. Their complaints were natural, quite human, but their refusal to accept the national policy simply represents one of the many things constituting an early step that may subsequently be one of the foundation stones of war.

I do not mean to say in these columns that we should become a peace-at-any-price nation. On the contrary, I think that is a cowardly position for any nation to take. What I do emphasize, however, is that if we are to have an international policy, we should adhere to it.

Now, let us consider the governmental problem. I said earlier that congress undoubtedly had acted in accordance with the views of a majority of our people. President Roosevelt has chosen to accept the neutrality resolution as a mandate from congress which gives him almost no discretion. His arms embargo, his shipping prohibition and his warning to American citizens that if they travel on boats belonging to the belligerent powers they do so at their own risks was the narrowest construction possible to have been placed on the neutrality edict of congress.

Congress is not in session and will not be back here again until January. The President's hands are tied unless he decides to call congress into extra session and that, of course, will not be done unless sudden flames of war sweep over the whole world. Therefore, if Mr. Roosevelt clings to the policy which he has adopted in narrowly constraining the neutrality resolution until the congressional session opens in January, congress can do no more than commend him for following its dictates. But if any of the conditions enumerated above should place the American neutrality position where a test must be had, congress must accept the blame. So, as long as Mr. Roosevelt follows his present course and throws himself completely on the law, the President can make short answer to those who would enlist this country in international action. That position, of course, has its weaknesses because something may develop overnight with which he cannot deal under an inflexible law but, on the other hand, the fact that he can do little without calling congress back, certainly provides a cooling-off period during which the thoughts of a nation may crystallize.

Neutrality Edict

Now, let us consider the governmental problem. I said earlier that congress undoubtedly had acted in accordance with the views of a majority of our people. President Roosevelt has chosen to accept the neutrality resolution as a mandate from congress which gives him almost no discretion. His arms embargo, his shipping prohibition and his warning to American citizens that if they travel on boats belonging to the belligerent powers they do so at their own risks was the narrowest construction possible to have been placed on the neutrality edict of congress.

Congress is not in session and will not be back here again until January. The President's hands are tied unless he decides to call congress into extra session and that, of course, will not be done unless sudden flames of war sweep over the whole world. Therefore, if Mr. Roosevelt clings to the policy which he has adopted in narrowly constraining the neutrality resolution until the congressional session opens in January, congress can do no more than commend him for following its dictates. But if any of the conditions enumerated above should place the American neutrality position where a test must be had, congress must accept the blame. So, as long as Mr. Roosevelt follows his present course and throws himself completely on the law, the President can make short answer to those who would enlist this country in international action. That position, of course, has its weaknesses because something may develop overnight with which he cannot deal under an inflexible law but, on the other hand, the fact that he can do little without calling congress back, certainly provides a cooling-off period during which the thoughts of a nation may crystallize.

So it takes no stretch of the imagination to conclude that even a minor incident, accidental damage to a British boat or an injury to a British citizen—of such things and from such

things comes war—will cause trouble. If by any chance one of those "incidents" comes, the British and the Italians will be at each other's throats. Next, should that break develop, every nation in Europe is compelled for one reason or another to align itself with one side or the other. Hitler, for example, would want nothing better than an opportunity to stir up some trouble among the other nations in order that he could spread his power over Austria and Hungary and maybe over some of the Balkan states. He wants more territory and if a free-for-all should get started Herr Hitler will lose no time in subjugating some of the neighboring countries.

Even if these conditions obtain, my friend's statement that the war is a long way off still is correct. It would be three or four thousand miles from American shores but the point of difference is that we are a commercial nation and the European powder keg explodes our commerce would be affected. Indeed, it would be virtually destroyed.

But, it will be asked, why not live within our own shell? The answer is, we cannot do so. Our ships, carrying the products of our farms and factories, would be plying the seas. Nations at war do not take the time always to learn the character of cargo aboard a ship at sea nor do they inquire its destination or the purpose for which it is to be used. Then, we hear of the overt act. An American ship with an American crew and an American cargo is sunk. Or, American-owned and manned business units in some one of the belligerent countries suffers from one of the various things that takes place during the war. It may be the act of some hot-headed foreign national or it may be a deliberate move by a government, but the die is cast. An American citizen is killed, an American flag is insulted. We are in it.

It seems to me, therefore, that we have every reason to watch closely those developments abroad. Our own people are not blameless for some of the conditions that develop. For instance, the following day after Mr. Roosevelt issued his proclamation prohibiting exports of arms and munitions and, by inference, prohibiting dealings of any kind with Italy and Ethiopia, New York exporters rose with a mighty howl and the Port Development Authority in New York protested. One group saw all opportunities for profitable business stricken out by the prohibition against exports and the other, with proper civic pride, complained that the executive action would wreck New York city as a maritime center. Their complaints were natural, quite human, but their refusal to accept the national policy simply represents one of the many things constituting an early step that may subsequently be one of the foundation stones of war.

I do not mean to say in these columns that we should become a peace-at-any-price nation. On the contrary, I think that is a cowardly position for any nation to take. What I do emphasize, however, is that if we are to have an international policy, we should adhere to it.

Now, let us consider the governmental problem. I said earlier that congress undoubtedly had acted in accordance with the views of a majority of our people. President Roosevelt has chosen to accept the neutrality resolution as a mandate from congress which gives him almost no discretion. His arms embargo, his shipping prohibition and his warning to American citizens that if they travel on boats belonging to the belligerent powers they do so at their own risks was the narrowest construction possible to have been placed on the neutrality edict of congress.

Congress is not in session and will not be back here again until January. The President's hands are tied unless he decides to call congress into extra session and that, of course, will not be done unless sudden flames of war sweep over the whole world. Therefore, if Mr. Roosevelt clings to the policy which he has adopted in narrowly constraining the neutrality resolution until the congressional session opens in January, congress can do no more than commend him for following its dictates. But if any of the conditions enumerated above should place the American neutrality position where a test must be had, congress must accept the blame. So, as long as Mr. Roosevelt follows his present course and throws himself completely on the law, the President can make short answer to those who would enlist this country in international action. That position, of course, has its weaknesses because something may develop overnight with which he cannot deal under an inflexible law but, on the other hand, the fact that he can do little without calling congress back, certainly provides a cooling-off period during which the thoughts of a nation may crystallize.

So it takes no stretch of the imagination to conclude that even a minor incident, accidental damage to a British boat or an injury to a British citizen—of such things and from such

THE MIND

It is interesting to notice how some minds seem almost to create themselves, springing up under every disadvantage, and working their solitary but irresistible way through a thousand obstacles.—Washington Irving.

BOYS! GIRLS!

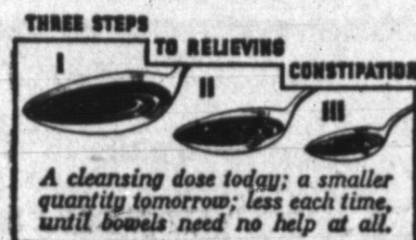

Read the Grape Nuts ad in another column of this paper and learn how to join the Dizzy Dean Winners and win valuable free prizes.—Adv.

Our Conscience

Conscience is not merely a quality that inspires regret; it is often a principle that removes the faintest desire to do wrong in the first place.

DOCTORS KNOW

Mothers read this!

A cleansing dose today; a smaller quantity tomorrow; less each time, until bowels need no help at all.

Why do people come home from a hospital with bowels working like a well-regulated watch?

The answer is simple, and it's the answer to all your bowel worries if you will only realize it: many doctors and hospitals use liquid laxatives.

If you knew what a doctor knows, you would use only the liquid form. A liquid can always be taken in gradually reduced doses. Reduced dosage is the secret of any real relief from constipation.

Ask a doctor about this. Ask your druggist how very popular liquid laxatives have become. They give the right kind of help, and right amount of help. The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara—both natural laxatives that can form no habit, even in children. So, try Syrup Pepsin. You just take regulated doses till Nature restores regularity.

Unbalanced

There is a lack of balance in the speed acrocher.

CHAPPED SKIN. To quickly relieve chapping and roughness, apply soothing, cooling Mentholatum. MENTHOLATUM Gives COMFORT Daily. Have you tried the NEW MENTHOLATUM LIQUID for head colds? Like Mentholatum ointment it brings soothing comfort.

Despite It It is astonishing how some neglect children thrive.

FOUND! My Ideal Remedy for HEADACHE. "Though I have tried all good remedies Capudine suits me best. It is quick and gentle. Quickest because it is liquid—its ingredients are already dissolved. For headache, neuralgia, acute, periodic pain." CAPUDINE

Quick, Complete Pleasant ELIMINATION

Let's be frank. There's only one way to your body to rid itself of the waste matter that causes acidity, gas, headaches, bloated feelings and a dozen other discomforts—your intestines must function. To make them move quickly, pleasantly, completely, without griping thousands of physicians recommend Milnesa Wafers. (Dentists recommend Milnesa wafers as an efficient remedy for mouth acidity.) These mint flavored candy-like wafers are pure milk of magnesia. Each wafer is approximately equal to a full adult dose of liquid milk of magnesia. Chews thoroughly in accordance with the directions on the bottle or tin, then swallowed they correct acidity, bad breath, flatulence, at their source and at the same time enable quick, complete, pleasant elimination. Milnesa Wafers come in bottles of 2 and 48 wafers, at 35c and 60c respectively, or in convenient tins containing 12 at 20c. Each wafer is approximately an adult dose of milk of magnesia. All good drug stores carry them. Start using these delicious, effective wafers today. Professional samples sent free to registered physicians or dentists if request is made on professional letter head. SELECT PRODUCTS, Incorporated, 4602 23rd St., Long Island City, N. Y.

MILNESIA WAFERS. The Original MILK OF MAGNESIA WAFERS.

CHAPTER XI—Continued

As Stephen hung up the telephone receiver, chuckling, Miss Ordway brought in his mail. In it he found a registered parcel that had been through the custom house, with duty prepaid on it. It contained the finest and most expensive combination stop-watch and time-piece he had ever seen, and a note that read: "Dear Doctor Burt: "I know it would not be as full for me to ask you for a bill for professional services, for I realize that what you did for me was done as one human being to another and quite without thought of financial remuneration. Moreover, I prefer to remain forever your debtor. You will never know what you have done for me. Christ, restoring life to the dead son of the widow of Nala, performed no greater miracle than did you in restoring life and happiness to my dead soul. I would try to thank you if words were not so pitifully inadequate to express the profundity of my gratitude. Will you not please accept the enclosed trifle as a token of that gratitude, and add one more debt to those already owed you by me? "It is not easy to learn to live with my secret, now that I have found it out. I am trying to regard the past as one hark back in memory to a very serious illness. Some days, when I have achieved sufficient courage I am curious about my other self, evolved from darkness. There are blanks in my life. Perhaps you can fill them in. Perhaps you will not care to, knowing that they are better left blank. I do not think, however, that I was ever terribly wicked. If so, I have no recollection of it. "Your grateful "Penelope."

"Old Mother Nature is speaking to Penelope," he soliloquized, and replaced his father's old watch with the one Penelope had sent him. "Give Nature a chance—give her an even break—and she'll prove herself the greatest physician of all." After some consideration he wrote the following to Penelope: "Come home and let me iron out the few remaining wrinkles so your life will be as smooth as you could wish. The watch is wonderful. Thanks and I think you are very wonderful, too. Love as usual. "Stephen."

It occurred to him to tuck that last phrase in for good measure. Love—not merely the love of a man for a woman but the love that is a fine friendship—was, he knew, very necessary to Penelope. She must, he knew, be assured that in all the world somebody really cared. Nobody knew better than he the wreckage that kindness and love denied can make of human lives; never a day passed without leaving him evidence of this. He was not getting quite his little slice of life. Money, success, the joy of accomplishment, professional standing, the respect of his colleagues, he had, plus some good friends and true. But he was lonely. He decided not to dine alone. It would be far better to drop in unannounced on Lanny and Dan, take pot luck for dinner.

CHAPTER XII

It was late fall. Stephen had just returned from his vacation; it was his first day back at the office and he was a bit rebellious at the flood of patients that awaited him. He finally got rid of the last one at five-thirty, and following his custom, settled back for a pipeful of tobacco, when Miss Ordway entered. "There's a young lady calling," she announced. "She says she is Miss Elliott."

"I don't know her, Miss Ordway. A prospective patient?" "I imagine she is. I didn't ask." "Tell her it's beyond office hours and suggest that she call during office hours tomorrow." Miss Ordway departed to deliver the message, but returned presently to say that the young lady begged to be permitted to see him. "Very well, show her in," he acquiesced irritably, "but remember Professor Finnegan if she stays too long." Miss Elliott entered. Stephen rose and waved her to a chair. Then: "Well, Miss Elliot, what seems to be the trouble?" "Does my general appearance indicate to you, even remotely, that I am one who requires the services of a neurologist and psychiatrist?" she asked him. Stephen smiled. "Scarcely. What is it, then? You want a subscription to something?" "How astute you are, Doctor. I am soliciting subscriptions to a fund designed to furnish expert medical attention to a very deserving public servant.

I refer to Detective Sergeant Patrick Joseph Flynn." "I know him, Miss Elliott. What's wrong with Flynn?" "His blood pressure seems to be very high—" "Nothing doing, Miss Elliott," Stephen interrupted. "I admit I sold this terrible Flynn the notion that he had high blood pressure, but I did that for a reason I do not care to explain. The man has the arteries of a boy. What's Flynn to you? And just who might you be?" "You have my name. What I want to know is this: Are you ashamed to take me out to dinner?" "No, of course not," Stephen blinked. "I appear eminently respectable?" "Quite. In fact, a most presentable lady." "Not so homely, eh?" "On the contrary. But I shall not go to dinner with you." "Why?" "Well, while the experience might be delightful, I think you're too pert." The lovely face drooped sorrowfully. "Oh, Stephen, would you be that mean to poor little Penelope?" "Good god of love!" Stephen almost yelled. "Are you my little Penelope?" "Of course I am. Oh, Stephen, you great booby, not to recognize me!" He came from behind his desk, took her fiercely by the shoulders and gazed down at her, too amazed to speak. "That's a pretty good second-hand nose, isn't it?" Penelope queried, with just the suspicion of a quiver in her tone. "Don't tell me you disapprove. I adore it myself." Very soberly he quoted: "And you, my sweet Penelope, out there somewhere you wait for me, With buds of roses in your hair, and kisses on your mouth." "Oh, Stevie!" she whispered. "Take one."

He took three, and Penelope rested contentedly in his arms. "My dear, dear girl," he declared, "if I were a praying man I'd get right down on my knees and send up a prayer of gratitude to Omnipotence. You're well?" "Oh, yes, indeed I am," the girl cried with a catch in her voice. "I'm happy—not perfectly happy but—hug me! Oh, Stephen, Stephen, it was so hard not to come back when I received your cablegram. But I had to fight things out and I didn't want to come home until I could meet you bravely. Stephen, are you truly glad to see me again?" "I am," he answered, and marveled that he should be so glad as he was.

"With Buds of Roses in Your Hair, and Kisses on Your Mouth."

His heart, for some mad reason, was singing within him. "Sit down," he commanded, and went back to his own chair. "I'm going to talk to you for five minutes, and then the subject will be taboo for ever. Imagine a long hill with a deep pond at the foot of it—a pond all scummy green and slimy—a miasmatic pond. Imagine that you started running down that hill in the dark, that you stubbed your toe and rolled the remainder of the way—into that pond. Well, that's exactly what happened to you. You were running in the dark and you stubbed your toe and landed in a social stratum equivalent to that scummy pond. Do you remember your foster-mother?" "Faintly—as one remembers faces and events of one's childhood." "Well, don't bother to remember her. Her cruelty almost ruined your life, but she is out of your life now, never to return. There are four human beings living who know that Penelope Gattila and Nance Belden were one and

the same. I wrote you a meticulous account of your illness, so you understand all about that, but what I want you to know now is that no power on earth can ever discover you for the purpose of making you pay the penalty for the misdeeds of Nance Belden. By the way, where did you get that name?" "I had forgotten who I was and I had to have a name. So I picked that one out of a book." "The new nose has helped wonderfully, hasn't it?" She nodded. "I do not want to hide from people now, Stephen." "You must not. That would be depriving the people of the sight of something very sweet and wonderful." The eager wistfulness in her fine eyes thrilled him. "Do you think I'm sweet and wonderful, Stephen? I want you to, most of all."

"My dear, come here," he commanded, "and sit on my knees just as you used to do when you were Nance Belden and a simple child of impulse—when you hadn't the least compunction about making love to me." Penelope flushed, but nevertheless obeyed. Stephen drew her cheek down to his. "I want to tell you something," he murmured. "The first night I saw you, my heart went out to you. And when Dan told me how it all happened, I had a tremendous admiration for your courage and wit. I love brainy people, Penelope, and you have brains. I knew what was wrong with you and I felt so sorry for you, my poor dear; I wanted to help you more than I ever wanted to help any human being. I understood all about you; you were just a little lost out crying so pitifully to be saved, to know love and protection and happiness, that you developed into a game, and Lanny and Dan and I just had to play it to the finish."

"Have you thought of me sometimes?" "Often than I cared to admit to myself. Penelope, I know all about you. In this box on my desk are all the records. Look at them, Penelope dear." "Then you bothered to find out everything—you cared for me just a little bit?" "A considerable bit—just how much I didn't realize until now. I want you for my patient always, or as long as we both live." "What do you mean, Stephen?" "I'm clumsy, I dare say, but I have more than a suspicion that I've been in love with you—and now that I have you back I'm quite certain I love you enough to want you to marry me. I think my love for you will grow with the years that we are going to spend together."

"And you'll never think back—never be ashamed of me—never regret your course? And are you sure this isn't just pity?" "Pity is akin to love. It started in pity, sweetheart—and it's growing every minute. Fast work, my Penelope, but I'm not afraid to trust my instinct. You're my woman. You love me a little, do you not?" "Why," said Penelope soberly, "I've loved you from the day Dan brought me to this office. You were kind to me, and you didn't seem to see my nose. I was so grateful—and ever since I've been waiting out there, somewhere." She hugged him fiercely. "Oh, Stevie, darling, all the rest of my life I shall devote to you. I'll not be oppressive with my love and I'll not be possessive, but I do want the task of adding to your happiness. I know what happiness is. I can appreciate even a little bit—and I'll never forget to cherish what you gave me and give back all I can."

"That way happiness lies. You seem to have the formula," he replied gravely. The door from Miss Ordway's office opened and the nurse looked in. "I'm sorry, Doctor Burt, but Professor Finnegan has just telephoned that you are fifteen minutes late to your engagement to meet the great German savant, Herr Doktor Uffitz." "But I didn't press the button, Miss Ordway." "I know you didn't, Stevie, dear," Penelope spoke up, "but I did—accidentally." Miss Ordway blushing withdrew. "Who is Professor Finnegan, darling?" Penelope wanted to know. "Just a fictitious person Lanny and I invented to help rid me of nuts that stay too long, sweetheart. You don't have to consider him at all." "I wouldn't, of course," said Penelope. "I'm queen here, am I not?" [THE END.]

Neak Webster's "Best Seller" In 1783, Neak Webster published "A Grammatical Institute of the English Language." It was written in three parts: A spelling book, a grammar and a reader, observes a writer in Cosmopolitan Magazine. Webster's royalty, though less than one cent a volume, still must have been pretty handsome, for the book was the first of the American best sellers. Before the beginning of the Civil war it was selling at the rate of more than a million copies a year. Webster began work on his famous dictionary in 1807; it was published in 1825, and contained 12,000 words, and about 30,000 definitions that had not appeared in any other dictionary.

Snake Spits Poison The snake which spits poison is the Egyptian spitting cobra. The mechanism of this spitting appears to be that by compression of the poison glands the venom is forced out through the fangs, and at the same time a blast of air is exhaled. This carries the liquid forward as a spray for a considerable distance, and if it strikes a person in the eyes, intense irritation is set up which results in temporary and sometimes permanent blindness.

Uncommon Sense By John Blake

Shall I be carried to the skies On flowery beds of ease, While others fight to win the prize Or wade through bloody seas? So sang Doctor Watts, in a hymn you will not remember, but your grandparents probably will. The answer, which the good doctor merely hinted at, is in the negative. If flowery beds of ease were ever used to slumber on, that day has passed, as far at least as this world is concerned.

In spite of all our inventions, our philosophy and our aids to happiness, life is and will continue to be a struggle. And that, although there are times when you do not think so, is an excellent thing. We have not yet passed out of the shadow of war, as the situation in Europe just now too plainly discloses. We still have thieves and grafters and gunmen with whom to cope, and very often they cope with much success. We still must live and learn—and fight. There are still so many ways of getting into alluring mischief that— if there is such a thing as a personal devil he will get us in the end. As long as gun-toting people can terrorize whole districts, and out-shoot the most eagle-eyed of the local constabularies, there is work for the preachers—not to mention the civilians—to perform.

Here, in civilized America, we must deal with far worse banditry than any to be found in the wilds of China. Here we must keep a stern vigil lest we be sold inferior and sometimes harmful food. We must maintain jails and penitentiaries, and we must watch our step whenever we go out in the night. I don't know exactly how old civilization is, but it is certainly old enough to know better. We are, it is true, making progress, but it is not so rapid as to take our breath away.

We seem to have mismanaged our industrial situation so badly that strikes can put business to at least a temporary and almost overnight. And taxes are high and getting higher because without an adequate fleet of warships we fear that foreigners may drop in at any time and demand things that we do not care to give them. We are, it is true more civilized than China, and more enlightened than the Kafirs. But considering how long we have had control of this country, we might perhaps do better.

The world doesn't owe anybody a living. You will find you can't hitch hike very long on the progress cart and get away with it. Sooner or later it will be discovered that you are excess baggage, and you will have to stand for a long time beside the road, motioning with an outstretched thumb, before some foolishly amiable person takes you up and gives you a lift. I admit that chances are not always equally distributed. But if you are willing to do all you can with such ability as you may have you can keep a pretty good lead on the wolf. Make up your mind to try to do something, and to do it just as well, or a little better than the man just ahead of you on the ladder is doing it. Don't say you never had a chance to get an education. Everybody who is not crippled or imbecile has a chance to get an education.

We are far, far past the time when only one man in a hundred could read and write and cipher. Schools are open to everybody. Day schools and night schools. Competition is keen. But, if you have the right kind of stuff in you it will help you along. Many of the greatest men and women have profited by the very difficulties that they found in their way. Paraphrasing a well known advertisement, don't envy a good mental outfit, go to work and get one.

Life is not going to be worth very much to you if you are always in the tail of the parade. Use such mental ability as you possess. It will increase by use. You have one life to live—make the most of it. Have all the fun you can—but get the most of it out of your job. You will not need to elbow your way through life, thrusting other people aside. You will not need to lie or cheat or steal. Set a goal, and shoot at it. Model yourself on some hero if you want to—better that than be without any ambition at all. Be friendly and considerate. But be determined. Nobody without determination ever got anywhere that was worth going to. Chart your course and keep a record of your progress. Look back at the end of a working day and check up.

Great Stone Blocks Are Island of Guam Mystery

The great blocks of stone which, by some unknown process, were hoisted in place to build the Egyptian pyramids have caused many to marvel, yet on the island of Guam there are stones larger than those used in the pyramids, evidently marking the burial place of an ancient native chief. The huge stone blocks weigh approximately 2,500 pounds each, and when found one rested on the other. Both are of coral formation. The finding of many such burial places on Guam indicates that this island once had a big population. Little is known about its early inhabitants.

Easy to Spend

There is only one way to save money: By doing without something. But there are countless ways of spending it.

Find Out

From Your Doctor if the "Pain" Remedy You Take Is Safe.

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches, or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with Genuine Bayer Aspirin. We say this because, before the discovery of Bayer Aspirin, most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of Bayer Aspirin largely changed medical practices. Countless thousands of people who have taken Bayer Aspirin year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: Genuine Bayer Aspirin is rated among the fastest methods yet discovered for the relief of headaches and all common pains... and safe for the average person to take regularly. You can get real Bayer Aspirin at any drug store—simply by never asking for it by the name "aspirin" alone, but always saying BAYER ASPIRIN when you buy.

Bayer Aspirin

Understood Jud Tunkins says music speaks all languages, but so does a gas bomb.

Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled. Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

True Service Small service is true service while lasts.

Lady's Painful Trouble Helped By Cardui

Why do so many women take Cardui for the relief of functional pains at monthly times? The answer is that they want results such as Mrs. Herbert W. Hunt, of Hallsville, Texas, describes. She writes: "My health wasn't good. I suffered from cramping. My pain would be so intense it would nauseate me. I would just drag around, so sluggish and slow. My mother decided to give me Cardui. I began to mend. That tired, sluggish feeling was gone and the pain disappeared. I don't praise Cardui too highly because I know it helped me. . . . If Cardui does not help YOU, consult a physician."

Beautiful SKIN. —needs more than cosmetics. Beauty of skin comes from within. When complexion disappears with increasing wrinkles, use GARFIELD TEA. NALLY with Garfield Tea. Helps relieve dryness, restores natural beauty, promotes healthy, effective skin. Your druggist stores 25c & 50c. GARFIELD TEA

NOTICE TO THE PUBLIC

Any erroneous reflection upon the

firm or corporation, that
may appear in the columns of The
News will be gladly corrected when
called to our attention.

The glamor of gangster life is as
short-lived as it is false and unsat-
isfying. It looks most inviting to a
lot of amateurs or other young
squirrels who read about the esca-
pades of the gangsters in the news-
papers. There are no successful
gangsters. In fact there are few old
gangsters. Most of them die young,
in most cases with their boots on—
slain either by officers of the law or
by other gangsters. A few days ago,
that noted New York-Newark
gangster, Dutch Schultz, was slain
by some other crook. A few days
later, Albert Stern, only 31 years old
but suspected as one of the murder-
ers of Schultz, was himself found
dead and was pronounced a suicide.
Whether he took his own life or was
assassinated matters little. His dress
was shabby and his room rent was
unpaid. His short life had been a
hell to him and he came to a shabby
end. The young fellow who dreams
of happiness or glamor or pleasure
or any kind of satisfaction in a crim-
inal career is as dumb as any idiot
in an almshouse. Boys who are
brought up in a crime environment
and who know nothing else may be
expected to lead criminal careers,
but any boy brought up in decent
surroundings who will break into
the crime business thinking it is
smart to do so or that a glamorous
life is in prospect for him will find
out a little later that he is the
dumbest sort of fool in the universe.

Our business men may be ap-
proached soon for a small pittance
with which to buy trees to be plant-
ed out along the paved portion of
highway No. 9. The state highway
department has the trees planted
out without expense to our local
people. All that is required is that
we furnish the trees. The state au-
thorities even suggest the kind of
trees that are to be used and super-
vise the planting. Usually the trees
are planted in groups at points

**Hard to Smile on Milk
Diet—Salesman Happy
Able to Eat Food Again**

"A salesman can't smile on a milk
diet, and no smile, no sale!" said
C. J. Sutherland,
2410 W. 27th St.,
North Fort Worth.
For 3 years I had been
on a diet of milk and
liquids. Indigestion, pain
in stomach, heartburn,
bloating, made my days
miserable and my nights
sleepless. My druggist
recommended Gordon's
Compound. In just two
days it gave the first
relief in three years.
I'm smiling again, for
I eat anything I want
now, and not a sign of
distress. Have advised
10 soups."

C. J. SUTHERLAND
TAHOKA DRUG Co. Tahoka, Texas

favorable for their growth. Of
course all our people have noted the
trees planted at intervals along
highway No. 9 in Lubbock county
and along other paved highways.
Many of these trees did not survive
the sandstorms last spring but some
of them did, and while they did not
make much showing the first year,
it is obvious to any one that in a
few years time they will be very at-
tractive. Tree planting time will
soon be here, and some of the ladies
as well as some of the men are in-
terested in having our own highway
beautified. So, a committee may call
soon to collect an insignificant sum
necessary to buy the required trees.
Let's give this committee a cordial
reception and a worthy contribu-
tion.

The evil and injurious effects of
alcohol should be taught in our
public schools, our churches, our news-
papers and magazines, everywhere.
If the wets were sincere in their
professions of a desire to promote
temperance, they will now join with
the dries in teaching the truth to our
children about the ruinous effects
of alcohol. They will advise the
youth of our land to avoid its use as
they would avoid the taking of
poison, for alcohol is a poison. They
will teach how its habitual use de-
stroys the mentality, the moral fibre,
the will power, and the self-respect
of the habitue. They will teach how
its immoderate use drives men to
crime and to prison, to the mad
house, and to death. They will join
the writer of Proverbs in declaring
that "Wine is a mocker, strong
drink is raging, and whosoever is
deceived thereby is not wise."

The League of Nations is really
functioning in this Italy-Ethiopian
scrap. It has declared a commercial
boycott of Italy which was to take
effect Wednesday night. The League
members propose to extend no credit
and furnish no war supplies to Italy.
It will do its best to choke Italy
loose from its bull-dog hold on
Ethiopia. The methods of the cave
man among the nations is being dis-
credited and frowned upon by the
League members. The United States
has virtually declared its approval
of the action taken by the League.
Although the United States, is not
a member of the League, yet it was
the President of the United States,
Woodrow Wilson, who proposed it.
Great was Woodrow Wilson—a far-
seeing statesman he was, a giant
among the Presidents of the United
States and the rulers of all time.

In spite of the fact that prohibi-
tion laws were generally flouted in
the cities of Texas before they were
wiped off the statute books, yet it
is a fact according to statistics pub-
lished in the daily press, most of
which is wet, that deaths and in-
juries from car accidents have in-
creased alarmingly in this state
since repeal. It's terribly dangerous
to mix whiskey and gasoline.

Red tape is delaying the work
program to such an extent that
hope of getting any appreciable
number of men off relief and on-
to WPA projects by November first
have gone a glimmering. They may
be able to wade thru this red tape
and get work going by January
first.—Big Spring News.

Metal door hinges can be kept
from rusting by washing occasion-
ally with warm soapy water, wiping
dry and then rubbing with oil.

Congressman Tom Blanton is re-
ported as declaring recently that
"Our safest and surest way to keep
out of war is for us to be able to
whip the very devil out of any na-
tion having a desire to attack us,
and no nation is going to attack us
if they know we are amply prepared
to defend ourselves and repel all in-
vasions." We do not always agree
with the Abilene congressman but
in the above statement he forcefully
expresses the sensible view, it seems
to us. Further commenting, Mr.
Blanton says that the old doctrine
that "might makes right" and the
practice of strong nations subjugat-
ing weaker ones and taking their
lands away from them has fallen in-
to disrepute. "In this modern era of
Christian civilization," Mr. Blanton
says, "that kind of banditry has
been outlawed and the society of
nations has decreed that no country
has a right to war on another—
either with or without declaration—
unless there is just cause." Sounds
very much like one of our editorials.
Blanton doesn't call any names, but
he must have been taking about Italy.

After quoting our editorial of a
couple of weeks ago respecting the
United States Supreme Court, Sena-
tor C. W. Taylor, editor of the Rog-
ers News and a veteran newspaper
man, comments as follows.

"What Bro. Hill says about the
Supreme Court as a body and its
carefully picked personnel is, in our
opinion, true, and we rejoice that
our Country possesses such a great
tribunal which serves as a mighty
bulwark to the personal liberties of
our people—a powerful defense a-
gainst despotism. Yet there seems
to be arising a strong sentiment,
particularly with a certain radical
element in the U. S. Senate, to bar
any man from this august body un-
less he subscribes to their highly
dangerous sentiments and tenets."

THE "PIOUS" SCOT

A Scot was walking with a Ro-
man Catholic friend in London. On
passing Westminster Cathedral his
friend raised his hat, and the Scots-
man followed suit.

At this his friend said: "You're
getting very pious, raising your hat
as you pass the cathedral."

"Was that the cathedral?" the
Scot replied. "I thought it was the
Bank of England."

**Statement Of The Ownership, Man-
agement, Circulation, Etc., Re-
quired By The Acts Of Con-
gress of August 24, 1912, and
March 3, 1933**

Of The Lynn County News pub-
lished weekly at Tahoka, Texas, for
October, 1935.
State of Texas
County of Lynn

Before me, a Notary Public in and
for the State and county afore-
said, personally appeared E. I. Hill,
who, having been duly sworn ac-
cording to law, deposes and says
that he is the publisher of the Lynn
County News, and that the follow-
ing is, to the best of his knowledge
and belief, a true statement of the
ownership, management (and if a
daily paper, the circulation), etc., of
the aforesaid publication for the
date shown in the above caption,
required by the Act of August 24,
1912, as amended by the Act of
March 3, 1933, embodied in section
537, Postal Laws and Regulations,
printed on the reverse of this form,
to wit:

1. That the names and addresses
of the publisher, editor, managing
editor, and business manager is: E.
I. Hill, Tahoka, Texas.
2. That the owner is: E. I. Hill
and wife, Frank P. Hill, Berie Hill,
and Billie Hill of Tahoka, Texas, E.
I. Hill Jr. of Washington, D. C., and
Mrs. Myrtle Rochell of Brecken-
ridge, Texas.
3. That the known bondholders,
mortgagees, and other security hold-
ers owning or holding 1 per cent or
more of total amount of bonds, mort-
gages, or other securities are:
NONE. E. I. HILL, Publisher
Sworn to and subscribed before
me this 28th day of October, 1935.

**How Cardui Helps
Women To Build Up**

Cardui stimulates the appetite and
improves digestion, helping women
to get more strength from the food
they eat. As nourishment is im-
proved, strength is built up, certain
functional pains go away and wom-
en praise Cardui for helping them
back to good health. . . . Mrs. C. E.
Ratliff, of Hinton, W. Va., writes:
"After the birth of my last baby, I
did not seem to get my strength
back. I took Cardui again and was
soon sound and well. I have given
it to my daughters and recommend
it to other ladies. . . . Thousands
of women testify Cardui benefited
them. If it does not benefit YOU,
consult a physician."

**Testimonial Dinner
Held By Chevrolet**

Flint, Mich. Oct. 30—With the
largest banquet ever held in Michi-
gan, the city of Flint paid tribute
to the Chevrolet Motor Company,
and the executives who have piloted
it to its position of leadership in
the automotive industry.

Honoring especially M. E. Coyle,
president and general manager of
Chevrolet, and W. E. Holler, vice
president and general sales man-
ager, and timed on the eve of the
presentation of the company's new
1936 models, the appreciation dinner
had 2600 guests, including William
S. Knudsen, executive vice president
of General Motors Corporation; six
other members of the executive com-
mittee of the corporation and the
entire Chevrolet executive person-
nel.

Flint, virtually the birthplace of
Chevrolet, seat of the company's
main motor manufacturing plant,
employing the highest number of
workers engaged in any General
Motors single operation, welcomed
Chevrolet into its industrial life in
August, 1913, when Detroit opera-
tions of the company were tem-
porarily discontinued.

**Laxative combination
folks know is trustworthy**

The confidence thousands of pa-
rents have in good, old reliable, pow-
dered Theford's Black-Draught has
prompted them to get the new Syrup
of Black-Draught for their children.
The grown folks stick to the pow-
dered Black-Draught; the youngsters
probably will prefer it when they
outgrow their childish love of sweets.
Mrs. C. W. Adams, of Murray, Ky.,
writes: "I have used Theford's
Black-Draught (powder) about thir-
teen years, taking it for biliousness.
Black-Draught acts well and I am
always pleased with the results. I
wanted a good, reliable laxative for
my children. I have found Syrup of
Black-Draught to be just that."

BLACK-DRAUGHT

From a few hundred cars turped
out in the beginning with slightly
more than a thousand men, Chevrol-
et expanded meteorically as the
automobile entrenched itself in popu-
lar favor, speakers felicitously re-
called.

In 1915, the Flint plant produc-
tion 6106 cars; in 1928, when Chev-
rolet's total car production was 1-
193,212, the Flint assembly plant
produced 129,363 cars. Peak motor
production of the Chevrolet plant at
Flint, building engines to supply all
the company's assembly plants
throughout the country, attained its
peak record of 1,328,605 in 1929.

In preparation for increased pro-
duction for 1936, Chevrolet has ex-
panded and re-equipped its Flint
manufacturing and assembly plants,
which received a large share of the
\$25,000,000 that the company has
spent on its nation-wide facilities to
increase its production capacity by
25 per cent.

SOCIETY

THE METHODIST CHURCH

There is always a Welcome waiting you in each service at The Methodist Church. A new Sunday school class has been organized for the young ladies and men who have felt that they really did not have a class suited to their age. This class is for single and young married folk. Mrs. Mathis, as teacher. Be there next Sunday, let this be the outstanding adult class.

Bro. Smith brought two fine ser-

mons, Sunday morning, his subject: "Son Remember" some very fine thoughts were brought in this service.

Mrs. G. M. Reid, and Mrs. H. C. Smith sang a very beautiful duet at the evening hour.

The young people had charge of the first part of the service, which was conducted in a very fine way. Bro. Smith made an excellent talk on "The Things that make Life Worth Living." Eva Douthett sang a special number.

At the close of the service Mr. Sewell made a short, snappy talk after which a special collection was taken for The Young Peoples Work.

Come be in your place next Sunday. We need you.—Reporter.

DIXIE HOME D. CLUB

The Dixie H. D. club met Monday afternoon in the home of Mrs. F. E. House.

The house was called to order by our chairman, Mrs. Buel Draper, and eleven of our seventeen members were present, also Miss Robb. After our program plans were completed for our "Mexican Supper" that is to be given October 31 at the home of Mrs. Buel Draper.

Miss Robb gave a demonstration on Kraut making that was of interest, as several of the members had never made Kraut.

Our next meeting will be with Mrs. Howard Basye.—Reporter.

CHURCH OF CHRIST NOTES

We were greeted with the largest audience last Lord's day morning since the meeting. If the attendance continues to increase as it has the last two Lord's days our building will be full before long. We were

especially glad to have with us two sons in the gospel from Meadow but formerly of Roaring Springs. We are striving to give lessons at the morning hour that will make us more spiritual.

At the evening hour we are giving lessons calculated to reach the lost. Oh that each member would have a greater passion for lost souls.

We preached to an interested audience at Petty last Sunday afternoon. I would be glad to preach for some rural community every Sunday afternoon.

Services next Lord's day: Bible study 10 a. m., Preaching 11 a. m. and 7:15 p. m.

Come worship with us, at the friendly church.

—R. P. Drennon

THE MELODY MAIDS CLUB

The Melody Maids junior music club met Thursday for participation in a Federation program. The Constitution and by-laws were read. A talk on "Advantages of Belonging to a Federated Club" was given by the counselor, Robbie Milliken. The report used at the district convention at Pampa was read. The names and District officers of greatest importance were given. This was a called meeting and not on the regular day. On November 13, Mary Margaret Tunnell will be hostess.—Reporter.

SEWING CLUB

The Sewing club met with Mrs. Woodworth Thursday October 24. The following officers were elected:

Mrs. Mathis, President; Mrs. Jones Vice-President; Mrs. Leslie, Secretary; Mrs. Lockwood, Treasurer; Mrs. Story, Reporter.

A lovely refreshment plate of blushing apple salad, sandwiches, and spiced tea was passed to Mesdames E. I. Hill, Mathis, Smith, Lockwood, Story, Jones, A. I. Thomas, Reid, South, C. A. Thomas, and the hostess.

The club adjourned to meet with Mrs. English November 7.

BEETHOVEN HARMONY CLUB

The Beethoven Harmony Club met at the High School on the night of October 28, 1935.

There were eleven members present. Mrs. Applewhite, the sponsor of the club, discussed the various instruments of the orchestra. The club voted to extend invitations to six prospective members.

The club will meet with Miss Dana Anglin the night of November 13, 1935.—Reporter.

BOY WHO SCORED IN "DAVID COPPERFIELD" NOW PLAYS GARBO'S SON

Freddie Bartholomew has inspected America and has found it satisfactory.

The talented English youngster who gave life to Dickens' immortal character, "David Copperfield," on the screen, and who appears as Greta Garbo's son in M-G-M's "Anna Karenina," running 3 days starting Sunday at the English theatre, has been in America just long enough to arrive at some very definite conclusions.

Nine months ago he came to the United States unheralded and unnamed, an unknown lad who had been found in England by Producer David O. Selznick as the ideal child to play Copperfield's boyhood.

Since then he has achieved fame as one of the outstanding child actors on the screen.

"I have seen almost all of America," says Freddie, "and I find the country very lovely and interesting."

"I believe the two biggest thrills I have experienced were meeting President Roosevelt's mother and seeing New York from the top of the Empire State Building."

"The President's mother is a very lovely lady and she amused me when she told me I must meet her little boy, who is only fifty-three years old."

"Picture work has been very thrilling to me. I love it because I have met so many charming people. Best of all, in 'Copperfield' I believe I liked Elizabeth Allan, who was my sad little mother, and my Aunt Peggotty."

"I was glad to return to Hollywood because I have had the pleasant experience of playing Miss Garbo's son in 'Anna Karenina.'"

Magnet Nail Picker Gets The Job Done

Many of us have cause to wonder why we have flat tires when traveling over West Texas highways—the reason is nails, tacks and scrap iron.

Over a ton of nails, tacks and scrap iron have been picked up during the past month by T. E. Vance, who operates the 'magnet nail picker' over division 5 of Texas highways.

Mr. Vance who has been operating the machine over highway 84 the past week informed a Dispatch reporter Tuesday that he had weighed 604 pounds of nails and scrap iron gathered over 84 from Post west to the New Mexico State line. Tuesday morning 94 pounds were picked up between here and Tahoka along one side of the highway.

The machine is required to make four trips back and forth along the

highway to cover the width of the roadbed. An average day's run for the "nail picker" is 40 miles, which equals 10 miles of completed work.—Post Dispatch.

School Play Honors Father Of Texas

Dallas, Oct. 30—The heroic simplicity of Stephen F. Austin's life will be dramatized in hundreds of Texas communities during the next fortnight as school children honor the Nov. 3rd birthday of the "Father of Texas."

The state publicity department for Texas Centennial celebrations was busily engaged this week in fulfilling requests for a commemorative play. A modest pageant, simple in design but historically accurate throughout, has been created, and copies are being mailed to all sections of the state.

It is the first time since the Forty-third Legislature proclaimed Stephen F. Austin's birthday a state holiday that the schools of Texas are joining in state-wide observance of the Texas patriot's birth. In conjunction with the school Ben T. Brown of Belton was here the first half of the week visiting his parents, Mr. and Mrs. W. L. Brown, and Mr. and Mrs. Coleman Wells. Mr. Brown is manager of a lumber yard in Belton. He formerly lived here.

F. J. Smith, 4-H club boy of Stonewall county, bought two Hereford calves in May weighing 190 and 205 pounds. The calves now weigh 430 and 465 pounds. They were not started on feed until the latter part of August.

Action!

(By A. B. Griffith)

For many years the citizens of this country complained at the lethargy of our national officials and demanded that we have action. The President, Congressmen, Judges, and all, were said to be doing nothing but drawing salaries. The people cried long and loud for action.

For hundreds of years there have been two distinct schools of thought concerning governmental policies: one contends that the government is best that governs least; the other favors governmental control.

The laissez-faire group, that is, the group that believes government should not be very active, especially toward the regulation of economic conditions, was represented by the Hoover Administration.

The group believing in the principle of governmental control is now in charge of affairs with Mr. Roosevelt at the helm of government.

Hoover pursued the policy of laissez-faire, or "let alone," and the people continued to cry, as they had ever done: "Give us action." He refused their demands and they put him on the shelf.

In came Roosevelt, champion of government control, promising action and "boy," he has given us ACTION, and HOW. Now we are crying with a loud voice: "Stop," you are breaking the speed laws, you are exceeding your authority, you are ignoring the constitution; "Stop," or you will wreck the whole political machine.

Political prophets used to declare that our national leaders would never do anything; now they predict that they shall always do too much. We are like the darkey who speaking of his work declared: "It's allus too much or too none." When he had a job the work was too hard; when he had no work he needed it.

Our predictions concerning governmental trends are similar to the predictions of the "Arkansawyer" as he beheld his first train. He said, as it stood on the track and puffed and wheezed: "They'll never start her." Presently the train got moving, and as he watched it speed away, he turned his cud of tobacco over into the other cheek and spat a couple of times before solemnly declaring: "They'll never stop her."

Maybe the laissez-faire principle of government is best; maybe the principle of governmental control is best. Maybe we are going too fast and too far in the administration of government, or maybe in the past we have failed to go fast and far enough in that respect.

At any rate it behooves us as citizens to learn more about governmental affairs in order that our votes shall be cast more intelligently. One thing is generally conceded: The Roosevelt Administration Has Given Us Action Whether We Like It Or Not.

Although his subscription had not expired by more than 2 months W. E. Edmunds of Southland called at the News office Tuesday and paid his subscription for another year. "You are getting out a mighty good paper," he said, and I want it to keep coming." Kind words like these always pep the editor up a bit and make him resolve to do just a little better. By the way, Mr. Edmunds reported some cotton in his community that would make almost a bale per acre.

J. A. Suits of Jayton, a member of the commissioners court of Kent county, was a brief caller at the News office Tuesday morning to see his grandson, Tom Suits, Linotype operator in this establishment. He and other commissioners of his county were enroute to Dawson county to inspect some of Kent county's lands.

Our good friend Burton Edwards dropped in Monday and paid up a little back subscription and set his figures into the future. He is gathering cotton now at the rate of several bales per day. He is making a fairly good crop in spite of so many set-backs in the spring and summer. If any man in Texas deserves a good crop, it is Burton Edwards.

Magic Valley Plans Centennial Exhibit

Mercedes, Oct. 30—Lower Rio Grande Valley counties have united in plans for a \$50,000 exhibit at the Texas Centennial central exposition at Dallas next summer which will be representative of their rich agriculture region.

The outdoor display planned would reproduce a citrus orchard with bearing orange, lemon, and grapefruit trees. Palms and other tropical and semi-tropical plants indigenous to the Valley would also be used.

An organization has been formed to enroll 20,000 members in Starr, Hidalgo, Waller and Cameron counties in order to finance the project. S. I. Jackson, named general manager of the corporation, has opened offices in Mercedes.

Cecil Johnson, who has been nearly blind in one eye, is back in school after a long absence after having his eyes fitted with glasses.

This year, in addition to the library, the school has a magazine rack. Students and some of the teachers have brought magazines to place on this rack and although there are some, the students could use more. If anyone has any magazines at his home, and if he does not keep them on file, the student body would appreciate very much his bringing them to the high school so that they may be put on the magazine rack for them to read.

Mr. Babb was cashing his monthly check at the bank. The teller apologized for the filthy condition of some of the bills he handed him saying: "I hope you are not afraid of microbes."

"Not a bit," he replied. "I'm sure no microbe could live on my salary."

In the football game Friday afternoon, between Tahoka and Slaton, there was a number of Tahoka boys who received injuries. During the first half of the game A. J. Thompson was removed from the field with a broken leg. Jim Woods has some broken ribs and Clifton Rogge and James Minor suffered minor bruises. The score was 46-6 in favor of Slaton. The Tahoka boys played a good game and although they did not win they played hard.

Last Wednesday the Tahoka school children, as well as the teachers, enjoyed the half-holiday granted them by the School Trustees in order that they might see Harley Sadler's circus.

Honor Roll—First Six Weeks
 The honor roll consists of those students who made all grades as high as 90 per cent or above.

Juniors

Lois Montgomery
 Luda Strasner
 Lottie Jo Townes

Sophomores

Joe Alice Brooks
 Truett Cooper

Freshmen

Dick Bosworth
 Mary Margaret Tunnell

Seventh Grade

Beulah Jones
 Max Minor

The senior class planned to have a Hallowe'en party on Thursday night October 31, but they have postponed it to a later date because of the football game scheduled for Friday night at Lamesa.

The chapel program was given by the seniors Wednesday afternoon. It was as follows:

Piano solo—Dance of the Roses.
 Pansy Tankersley; Talk, Clifton Rogge; Vocal solo, Eva Douthit; Talk on Hallowe'en, James Minor; Piano number, H. P. French; Talk, Jim Van Dyke; Vocal solo, Johnnie Janak; Reading, Pauline McCord; Piano duet, Neida Jem and Ina Bess Hicks.

The Tahoka Bulldogs consider that the hardest game of the year is to be played Friday night November 1st, at Lamesa, with the Lamesa Tornados. The Bulldogs will miss some of their players, who were hurt Friday while playing the Slaton Tigers. The pep squad is being directed by Mrs. Budworth during the absence of Mr. Stubbs. A pretty formation was given at the game Friday evening. The pep squad are planning to go to the game at Lamesa.

Marguerite Hall, a freshman, and her sister, Bernice, a senior, have recently transferred from the Brownfield school.

Mrs. H. C. Story is substituting for Mrs. Clay Bennett, who has been ill for the last week.

Women Who Have Pains Try CARDUI Next Time!

On account of poor nourishment, many women suffer functional pains at certain times, and it is for these that Cardui is offered on the record of the safe relief it has brought and the good it has done in helping to overcome the cause of womanly discomfort. Mrs. Cole Young, of Leesville, La., writes: "I was suffering with irregular . . . I had quite a lot a pain which made me nervous. I took Cardui and found it helped me in every way, making me regular and stopping the pain. This quieted my nerves, making my health much better." . . . If Cardui does not benefit YOU, consult a physician.

The Home Ec. Department
 The freshman classes are completing their pajamas. Then they will start studying color design for school dresses.

The sophomores are studying family dinners.

The junior 331 class are studying entertainment. Some of the things that are studied under this are: garden teas, formal and informal entertainments.

The seventh grade is proud of their new library which consists of one set of World Books and ninety-four other volumes.

Since our last report five new students have enrolled in our room they are: Baylor Hale, Ernest Alexander, Rex Hester, Wendall Lamb, and Hazel Thomas.

Report cards were given out last Thursday. The highest general average, 96 1-9, was made by Max Minor. Beulah Jones ranked second with an average of 95 4-9. There were three other honor students: Marjorie Lawrence, Hue Irene Man- or, and Lorene Jones.

The first six weeks of school have come and gone. Report-cards were given out on Thursday. These reports are a revelation or an account of the work done by the pupils. To one student his card will be an inspiration; to another, a forceful reminder of his weakness, so that he will resolve to make better grades the next term; while to another student, his card will represent his work and he will not be interested enough to endeavor to do better. Each student should look forward to the day when he can get his report card with the hope that he will do better in the future, or that it will show that he has done better. If his grade is low, then he should take notice of the reason. If his grade is lowered because of his citizenship, he should remember the points that are considered in giving a citizenship grade. First, has he had the right attitude? This means, does he try to do his best? Does he cheat or does he do his own work? Does he really seem interested and willing to cooperate and do his part? Then, too, the time he turns in his assignments also is considered in citizenship. If he is a good citizen he will not keep the teacher waiting for days for him to get his lesson. No teacher enjoys having a student who loafs on the job or who is not cooperative. So, with these points in mind, and with a resolution for greater improvement, each student should resolve to merit a better report card the next six weeks. A definite aim and a medium amount of work will accomplish surprising results.

According to the sophomore reporter, the aim of the class is to have the best department of any class in school. To date, the class has been getting the fewest demerits.

The sophomore boys hope that Mr. Stubbs will be back in Tahoka by Monday November 4, if not before. He has been missed very much by this class.

Also the class is very sorry to lose one of the school's best football players, A. J. Thompson, who broke his leg in the Slaton Tahoka game last Friday.

The pep squad had a nice formation last Friday evening at the football game. A T was formed and some stunts were given by Eloise Roberts.

Senior students remembered their classmate, A. J. Thompson, with a letter shower Tuesday. He is in Lubbock and the students hope that he will soon recover.

Cecil Johnson, a senior, is back in school after a two week's absence.

CONTRACTORS NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 7.880 miles of Caliche Base Course with Asphalt base preservative from 6.201 miles north of Dawson County line to Tahoka on Highway No. 9, covered by U. S. Works Program Highway Project No. WPH 613-B in Lynn County, will be received at the State Highway Department Austin, Texas, until 9:00 A. M., Nov. 5th, 1935, and then publicly opened and read.

The attention of the bidders is directed to the required special provisions covering subletting or assigning the contract, the use of domestic materials, the selection of labor hours and conditions of employment, required employment, methods of undertaking the work and violation of Special Provisions. Except as otherwise specified, the minimum wages paid to all laborers, workmen or mechanics employed on this contract shall be Seventy-five (75c) cents per hour for "skilled labor," Fifty-five (55c) cents per hour for "Intermediate Grade Labor," and thirty (30c) cents per hour for "Unskilled Labor."

Attention is directed to the special provisions, included in the proposal to insure compliance with the requirement of House Bill No. 54 of the Forty-Third Legislature of the State of Texas.

For the classification of particular position under the above types

of Laborers, Workmen, or Mechanics, see the required special provisions.

Type of Laborer Workman or Mechanic	Prevailing Minimum Per Diem Wage (Based on an eight (8) hour working day)	Prevailing Minimum Hourly Wage Rate
Skilled Labor	\$6.00	.75c
Intermediate Grade Labor	3.60	.45c
Unskilled labor	2.40	.30c

The above prevailing minimum wage rates shall govern on the contract. Overtime and legal holiday work shall be paid for at the regular governing rates.

A local employment agency from which the Contractor shall obtain employment list will be designated prior to the award of contract. Plans and specifications available at the office of G. M. Garrett, Division engineer, Lubbock, Texas, and State Highway Department, Austin. Usual rights reserved. 10-22c

Refreshing Relief When You Need a Laxative

Because of the refreshing relief it has brought them, thousands of men and women, who could afford much more expensive laxatives, use Black-Draught when needed. It is very economical, purely vegetable, highly effective. . . Mr. J. Lester Roberson, well known hardware dealer at Martinsville, Va., writes: "I certainly can recommend Black-Draught as a splendid medicine. I have taken it for constipation and the dull feelings that follow, and have found it very satisfactory."

How Calotabs Help Nature To Throw Off a Bad Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed. How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminants, thus cleansing the intestinal tract of the germ-laden mucus and toxins. Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the system. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds. Calotabs are quite economical; only twenty-five cents for the family package, ten cents for the trial package. (Adv.)

What is there that does not appear marvelous when it comes to our knowledge for the first time?—Pliny the Elder.

ENGLISH THEATRE

Friday and Saturday Nights Only

Will Rogers

AMERICA'S ETERNAL FAVORITE!

BELOVED . . . as a Star! . . . as a Humorist! . . . as a Man!

LET JUNIOR MAKE OWN SIMPLE FROCK

PATTERN 9006

Lives there a Junior Miss who couldn't "fall" for this smart yet simple school frock? We just know she will want to make her first fall frock from this pattern, because it's so very easy to cut, assemble and stitch, and if Mother is too busy to supervise the operation, take the pattern and some pretty cotton to sewing class and work on it there. The youthful, square neck adopts a scarf-like collar to slip under its tab, the puffed sleeves have a hearty slash, the Action pleats grace back bodice and skirt, a box pleat, the side front skirt.

Pattern 9006 may be ordered only in sizes 6, 8, 10, 12 and 14. Size 12 requires 2 3/4 yards 36 inch fabric and 3/4 yard contrasting. Complete diagrammed sew chart included. Send FIFTEEN CENTS in coins or stamps (coins preferred) for this pattern. Be sure to write plainly your NAME, ADDRESS, STYLE NUMBER and SIZE.

Send your order to The Sewing Circle Pattern Dept., 232 West Eighteenth St., New York, N. Y.

PASS THE SMELLING SALTS

Gushing Young Thing—It was wonderful of you to drop 10,000 feet in a parachute. Do tell me your sensation.

Bored Aviator—Oh—er—it was just a kind of sinking feeling.

Quite a Difference Lawyer—All right. I'll take your case. I feel sure that I can get you justice.

Client—Why, you little nitwit. It ain't justice I want. You've got to get me off.—Pathfinder Magazine.

Height of Dullness New Guest (at resort hotel)—Dull here? Old Guest—Dull! Why, I almost wish that I had brought my wife.

Taking a Spin "Why do autoists talk of taking a spin?" "Oh, that's because they go at top speed."—Detroit News.

Just a Beginner Dentist—"I'm afraid I'll have to drill." Patient—"My goodness, can't you work without a rehearsal?"

"DUTCH BOY" STRING HOLDER

By GRANDMOTHER CLARK

If you take the little Dutch Boy into your kitchen we feel sure he will work well for you. You will like him. Size when made up about 8 by 12 inches.

This package No. A-12 contains the stamped material for the pants and suspenders to be cut out, also died-out head, body and shoes printed in colors on heavy board. Material with directions how to make up this holder will be mailed for 15 cents for one package or four packages for 50 cents.

Address Home Craft Co., Dept. A, Nineteenth and St. Louis Ave., St. Louis, Mo. Inclose stamped, addressed envelope for reply when writing for any information.

Approach of Age

The easiest thing for our friends to discover in us, and the hardest thing for us to discover in ourselves, is that we are growing old.—H. W. Shaw.

OLD MOTHER HUBBARD HAS FILLED HER BARE CUPBOARD WITH OYSTERS AND CHEESES; HER STOMACH FEELS GRAND SINCE SHE KEEPS TUNS ON HAND... SHE EATS WHAT SHE DARN WELL PLEASES!

NO ALKALIES FOR ACID INDIGESTION

MILLIONS have found they do not need to dredge their stomachs with strong, caustic alkalies. Physicians have said this habit often brings further acid indigestion. So much more, safe and suitable to simply carry a roll of Tums in your pocket. Munch 5 or 4 after meals—whenever troubled by heartburn, gas, sour stomach. Try them when you feel the effects of last night's party, or when you smoke too much. Tums contain a wonderful antacid which neutralizes acid in the stomach, but never over-alkalizes stomach or blood. As pleasant to eat as candy and only 10c at any drug store.

FREE: This week—4 your drug store—10c supply \$1.00. Satisfaction guaranteed or money refunded. Box 11, Denver, Colo.

Wintersmith's Tonic

Not only the old reliable remedy for MALARIA in all its forms, but A Good General Tonic which stimulates the appetite and helps restore the strength. USED FOR 65 YEARS

Special Introductory Offer! Twenty double-edged razor blades only 15c postpaid, plus supply \$1.00. Satisfaction guaranteed or money refunded. Box 11, Denver, Colo.

PARKER'S HAIR BALM Removes Dandruff—Stops Hair Falling—Lustrous Color and Beauty to Gray and Faded Hair—Keeps Hair Soft and Silky. 50 cents by mail or at drug stores. Hiram Chemical Works, Paterson, N. J.

Rid Yourself of Kidney Poisons

DO you suffer burning, scanty or too frequent urination, backache, headache, dizziness, swollen feet and ankles? Are you tired, nervous—feel all unstrung and don't know what is wrong?

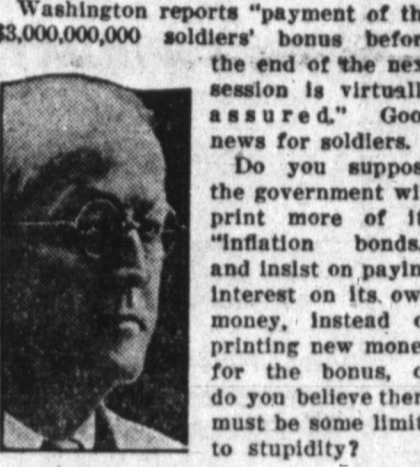

Then give some thought to your kidneys. Be sure they function properly, for functional kidney disorder permits excess waste to stay in the blood, and to poison and upset the whole system.

Use Doan's Pills. Doan's are for the kidneys only. They are recommended the world over. You can get the genuine, time-tested Doan's at any drug store.

DOAN'S PILLS

BRISBANE THIS WEEK

The Bonus at Last? A Little on Account Teagle Will Sell Oil The Oceans Are Closer

Washington reports "payment of the \$3,000,000,000 soldiers' bonus before the end of the next session is virtually assured." Good news for soldiers. Do you suppose the government will print more of its "inflation bonds," and insist on paying interest on its own money, instead of printing new money for the bonus, or do you believe there must be some limits to stupidity?

Walter Teagle, head of the Standard Oil of New Jersey, disposes sensibly of the suggestion that all Americans should refuse to sell oil to Italy. He says Standard Oil is not in the League of Nations and he will continue selling oil through his Italian subsidiary.

This is news, important especially to California, where real estate prosperity grows with improved transcontinental trips.

The Santa Fe railroad, with a diesel engine, hauling nine steel cars and using 3,600 horsepower, has cut 15 hours from the running time between Los Angeles and Chicago.

Queer things happen in Ethiopia. The Daily Express says former War Minister Fitowary Berra, in disgrace with the emperor because he spent too much money, walked, as a penitent, into the presence of the emperor, carrying on his back a heavy grindstone, and knelt down in sign of submission. The emperor rolled the stone off his back, meaning forgiveness, and Fitowary Berra is off spending money again. Some of our baked potato and "little pig" ministers might try that.

Here is war news: England's soft-voiced Foreign Secretary Hoare begs, implores, beseeches Italy to make peace with Ethiopia while there is still time. "Sanctions" have not yet been applied. England and other countries are selling goods to Italy. "While the lamp holds out to burn, the vilest sinner may return."

You may see a new kind of "Olympic game" with long-distance runners wearing gas masks. In future wars soldiers will wear masks and civilians will wear them. Ability to run in gas masks will be important.

Russia knows that, and "training for the next war" eight men and women of the Osoaviakhim (society for aviation and chemical defense) marched 31 miles in gas masks in 10 hours 47 minutes, a world record.

General Smuts, minister of justice in England's Union of South Africa, says: "Annexation of Ethiopia or its domination by a great European power will mean training one of the biggest, most dangerous black armies the world has ever seen."

General Smuts worries about the conquering power of such a gigantic "black army" unnecessarily. One pale chemist inventing a better poison gas, or more destructive explosives, and a few first-class pilots could take care of any "black army" that Ethiopia might send forth.

The American Federation of Labor asks American athletes not to attend the 1936 Olympic games, if they are held in Germany. As a reason for "banning German Olympics," the federation says Hitler is crushing labor unions "with blood and fire."

There is a better reason for not holding the 1936 Olympics in Germany.

The chief value of sport is in the fact that many exercise is supposed, primarily, to develop and inspire courage.

The spectacle of 60,000,000 Germans cruelly persecuting and suppressing 600,000 German Jews is not exactly a picture of courage.

President Roosevelt has said that he intends to keep out of European complications. He will not let Europe complicate our foreign business, making it impossible for American concerns to operate merely to oblige European competitors. In any case our European friends should at least start paying the ten thousand million dollars they borrowed before asking the United States to lose more money for their sweet sake.

Dr. C. H. Mayo predicts that drugs will cure insanity. With the drug now used experimentally, Doctor Mayo hopes to effect permanent cures, by changing the blood circulation in the brain.

Lesson for November 3 JUDAH TAKEN CAPTIVE

LESSON TEXT—II Kings 25:1-12. GOLDEN TEXT—Righteousness exalteth a nation; but sin is a reproach to any people.—Proverbs 14:34.

PRIMARY TOPIC—A Black Man God Cared For. JUNIOR TOPIC—In Time of Danger. INTERMEDIATE AND SENIOR TOPIC—Results of Doing Wrong. YOUNG PEOPLE AND ADULT TOPIC—Nations Accountable to God.

1. The Siege of Jerusalem (vv. 1-3). 1. The time (vv. 1, 2). It began on the tenth day of the tenth month of the ninth year of Zedekiah's reign, lasting about eighteen months. The tenth month, according to the Jew's calendar, corresponds to our December-January, as their calendar began about the middle of March. The reason the exact time is given is that this was to be an event of great importance to the Jews in their exile. In their gloomy exile God directed Ezekiel to utter a parable unto the captives of that day (Ezek. 24).

2. The method (v. 11). Nebuchadnezzar came in person with a large army and encamped against Jerusalem, building forts against it round about. It is thought that several walls were built around the city, shutting it in. On the tops of these walls forts were built from which missiles of destruction could be hurled by their engines of war against the city. With the city thus shut in, its fall was only a question of time.

3. The famine (v. 3). Geikie says, "It was speedily followed, as is always the case, with an outbreak of pestilence. Food was well-nigh gone. There had long been no bread. Mothers were at last driven to murder and eat their children. The richest citizens wandered about searching for scraps in the dung hills." Even outside the city the people were starving. "There was no bread for the people of the land." It is estimated that one-third of the people of Jerusalem died of starvation.

11. Zedekiah's Flight and Fate (vv. 4-7). 1. "The city was broken up" (v. 4). The Chaldeans had succeeded in making an opening in the wall so large that they could make their way into the city in spite of all that the Hebrews could do. Resistance was carried on to the bitter end.

2. Zedekiah's flight (v. 4). The king with his men of war fled by night toward the plain. His object no doubt was to cross the Jordan at Jericho and hide in the mountains east of the Jordan.

3. Zedekiah's fate (vv. 5-7). a. He was overtaken in the plains of Jericho (v. 5). As soon as the Chaldean army discovered the flight they pursued and captured him.

b. He was brought to the king of Babylon at Riblah (v. 6). Riblah was a town north of Damascus. It was the king's headquarters from which he directed his armies against Tyre and Jerusalem. Before Nebuchadnezzar Zedekiah was tried as a criminal.

c. His fate. His sons were slain in his sight. His own eyes were put out. He was bound with fetters of brass and they carried him to Babylon where he remained a prisoner to the day of his death (Jer. 52:11).

111. Jerusalem Destroyed (vv. 8-10). The dismantling of the city was delayed a month, perhaps awaiting instructions from Nebuchadnezzar who was at Riblah. The work of destruction was executed by the officer next in rank to the king.

1. They burnt the house of the Lord (v. 9). This was the sacred temple built by Solomon, with additions and alterations. Before burning it, they plundered it of all its sacred contents.

2. Burnt the king's house (v. 9). This was doubtless the palace built by Solomon.

3. Burnt all the houses of Jerusalem (v. 9). The implication is that the common houses were left for the people (v. 12).

4. They broke down the walls of Jerusalem. The aim in this was to render the walls useless as a means of defense.

IV. The Disposition of the Temple Furniture and Priests (vv. 13-21). 1. The temple furniture carried to Babylon (vv. 13-17). The pillars of brass and the brazen sea were broken into pieces by the Babylonians and together with the utensils were carried to Babylon.

2. Certain officers and priests taken to Riblah (vv. 18-21). These officers and priests and three score men of the land were taken to Riblah, where they were slain by the king of Babylon.

The events recorded in Second Kings cover a period of 308 years. God had said, "If thou wilt, then I will": they had invited disaster by disobedience.

Experience In youth we learn how little we can do for ourselves, in age how little we can do for others. The wisdom of experience is incommunicable.

A Good Man It is better for a city to be governed by a good man than by good laws.—Aristotle.

Nature Nature never stands still, her souls neither; they ever go up or go down.—Doke.

Not Nine, but 50,000 Planets, Says Scientist

The solar system, of which the earth is a part, probably contains not 9 but 50,000 planets, it has been estimated by Prof. Armin O. Leuschner, of the University of California. In addition to the well known ones, Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune, and Pluto, a swarm of lesser objects have orbits around

the sun, most of them in the region between Mars and Jupiter. Nearly 1,900 of the small bodies, or asteroids, have been located since the beginning of the last century, on the first night of which the Italian astronomer Giuseppe Piazzi sighted the first, Ceres.—Literary Digest.

FOOTPRINTS OF DINOSAUR

Miners in a coal mine at Chandler, Colo., recently found the footprints of a giant dinosaur, which must have waded through the mud some 5,000 years ago, reports the Seattle Post Intelligencer.

The Trouble When a man is in love he says what he thinks—and more.

A Threat That a man shall reap as he sows is too often seen as a threat rather than a promise.

BEAUTIFICATION PROGRAM STARTED BY LUNCHEON CLUB

(Cont'd from first page)

the women in the beautification project.

It was explained that the state highway authorities suggest the kind of trees to be used and supervise the planting of them. The local people are asked only to furnish the trees and shrubbery if any is desired. These trees are usually planted in groups at favorable intervals, and after a few years growth they add much to the attractiveness of our highways.

Officers of the women's organization in charge of this campaign are as follows: Mrs. G. H. Nelson, county chairman; Mrs. E. I. Hill, local chairman; Mrs. L. C. Haney, Roadside Beautification Chairman; Miss Sylvia Robb, Beautification Chairman of Public Buildings and Grounds; Mr. and Mrs. Frank P. Hill, Committee to mark Historic Spots; Mrs. L. E. Turrentine, committee on Sanitation.

Buster Fenton made a report for the membership committee, suggesting a six weeks membership contest in charge of two group captains. The report of the committee was adopted and Mr. Fenton and Rev. H. C. Smith were named as the group captains.

W. T. Bovell was appointed to act as toastmaster and to have charge of the program next Tuesday.

LOST AND FOUND

FOUND—Pocket book. Owner may have same by describing.—Jim Wetsel.

LOST—A billfold containing greenback, between Gordon and Magnolia, on country route. Reward.—R. P. Bohanan. Watkins man.

WANTED

MANUSCRIPT COVERS—\$1.50 per box of 100, or two covers for 5c.—The News.

Jeffries Sisters With Harley Sadler

Harley Sadler and his company of entertainers will open a week's engagement here Monday night November 4, under the auspices of the American Legion.

The company has all new plays this year, and some unusually fine vaudeville acts, which include the Jeffries Sisters juvenile artists. Music will be furnished by Duke Arthur and his 12 piece band.

Mr. Sadler has been coming to Tahoka for many years, and knows many Tahoka people, who will welcome his return. They know that they are assured good clean entertainment when Harley and his capable entertainers hold the stage.

Many people are under the impression that Mr. Sadler is with the circus. Mr. Sadler hasn't missed appearing in his tent show in seventeen years, and he will appear in every performance next week.

The opening play will be "Where The River Shannon Flows," a rewritten version of the famous Irish play "Peg O' My Heart".

PCA Stockholders Hold Meeting

Plans for the annual stockholders meeting of the Lubbock Production Credit Association in January and a tentative educational program for prospective members were discussed at a meeting of the board of directors of the association held in Lubbock, recently.

Dr. V. P. Lee, Vice President of the Production Credit Corporation of Houston was in attendance and addressed the meeting. Production Credit Associations, of which there are 38 in Texas, have advanced more than \$8,000,000 to Texas farmers and stockmen and are preparing for the rush of next season's business.

More and more stockmen and farmers, Dr. Lee said, are coming to a realization of the many advantages offered by production credit loans with their low rate of interest which at present is 5 per cent.

One of the important actions at this meeting was the appointment of membership committees in the several counties composing the territory of the association. These committees will function to develop greater interest in the association among the members and assist in informing non-member farmers and stockmen about Production Credit services. The committee members also expect to stimulate interest in the annual stockholders meeting in January when officers and directors of the association will be elected. Committeemen in this territory include the following:

Mr. A. M. Jackson, route 2, Post; Mr. F. M. Page, route 3, O'Donnell; Mr. C. W. Krebs, route 1, Wilson; Mr. R. F. Janak, box 612, Tahoka; Mrs. E. E. McManis, route 4, Tahoka; Mr. G. C. Grider, route 3, Tahoka.

Jujube, New Fruit, Grows Well Here

R. W. Fenton presented to the editor Tuesday two specimens of jujube fruit grown on a tree on their premises. Mrs. Fenton, who has long been a leader in home demonstration club work, secured or was furnished a jujube plant a few years ago and they planted it out just as an experiment. This year it is bearing, and Mr. Fenton says they have several gallons of the strange fruit.

But what is a jujube tree? Well, it belongs to the buckthorn family. Like the date, it has great food value, and whole peoples have been known to live on it. It is indigenous to Southern Asia and Northern Africa and it has been identified as the lotus tree of ancient Libya. The Lotus-Eaters are frequently mentioned in the legends of ancient Greece, and in Homer's Odyssey the fruit of the lotus tree is depicted as having a peculiar effect upon those who ate it. A languorous feeling stole over them and a dreamy, vacant expression came into their eyes, and the victims desired to remain forever where they happened to be and feast on the magical fruit.

But, we can assure you, dear reader, that the fruit of Mr. and Mrs. Fenton's tree will have no such effect upon those who eat it. This

Mrs. Clay Bennett, who underwent an operation in the West Texas Hospital one day last week but had returned to her home here, was taken back to the Hospital Wednesday for further treatment. She was reported Wednesday night to be showing improvement.
