## Annual Bailey County Farm Bureau Monday Nite Meeting In Auditorium

The members of the Bailey County Farm Bureau met Monday night for their annual meeting at the high school auditorium. The meeting was presided over by Mrs. Bill Garrett, Hub King of Brownfield, District II director, gave the invocation. Bill Millen, president of Bailey County Farm Bureau, presided over the meeting.

The guest speaker was C. H. De Vaney, director of district VI, who has been vice-president of Texas Farm Bureau for years, and also legislative director at Austin. He gave a very interesting and instructive speech on where Farm Bureau has been, where it is now, and reminded the people where it is going is up to them. He told that the First R. E. A. was a County Farm Bureau that couldn't get the private utilities to build them a line, so they built their own, proved that they could do it, and showed that it was economically sound. Six years later Edward Oneal, president of American Farm Bureau convinced President Roosevelt and Congress to try it on a National scale, with the Government loaning the money to the farmers to accomplish this.

He told of the different farm programs that Farm Bureau originated, sponsored, and later rejected when they didn't prove feasible. Of the different Farm Credit systems that loan money to farmers, of the rural roads system sponsored by Farm Bureau and many other things too numerous to mention.

He told how the labor unions are organizing the Mexican nationals in Mexico, and causing more stringent housing regulations, with wages forced up to \$1 an hour, as their objective, with the unions acting as their official bargaining agents here. It was revealed that James G. Patton, president of the National Farmers Union, had congratulated the labor unions for its constructive work to solve a troublesome situation.

He informed the group that National Farm Bureau in order that leaders throughout the cotton area may get a more thorough understanding of the cotton situation and the proposed alternatives, the American Farm Bureau has scheduled four area meetings. The meeting in this area is scheduled for Wednesday, April 24 at Baker Hotel, Dallas, and urged Bailey county to send some representatives.

Following the main speaker, Joe Sooter gave an interesting report of our affairs at Austin, as representatives from Bailey county found them, when they were down to Austin several weeks ago. There are many laws being pushed by large private interests that are spending huge sums of money to further their own selfish interests, that vitally affect farmers. If it wasn't for Farm Bureau would probably be passed unnoticed by many of our legislators. He cited the discriminations against the REA that is being heavily pushed by some large private power companies. He said that we can be thankful for the sincerity, fairness and honesty in which our district is being represented both in the Senate and House of Representatives.

**Commend Action**  
After his talk the members passed a unanimous resolution that we direct our president to convey the following message to Honorable Andy Rogers, and the Honorable Jesse M. Osborn:—We, the members of the Bailey County Farm Bureau, assembled in Annual Convention this 15th day of April, 1957, hereby, extend to Senator Andy Rogers and Representative Jesse M. Osborn our sincerest thanks and deepest appreciation for the valiant fight which they are waging to defend rights of the Electric Cooperatives against some power companies.

We further urge them to keep up the good fight until a just victory is won and the Electric Cooperatives are assured a fair chance to exist under the American system of Free Competitive enterprise.

A satisfactory financial report was given by office secretary Jerry White.

**Elect Directors**  
After this, eight directors were elected to serve the County Farm Bureau for two more years.

### Tot 'N Teen Shop Winners Named

Winners in the Tot 'N Teen Shop formal opening last Friday and Saturday have been announced by the owners, Mr. and Mrs. J. G. Glenn.  
Mrs. W. F. Harrison of Rt. 2 won first prize; second prize was won by Mrs. Lillian Sims of Rt. 4, and Mrs. E. A. Testerman of Rt. 1, Sudan, won third prize.

Those elected were Partin Austin, Jinks Meyers, J. D. "Pete" Black, Lester Howard, W. T. Parker, Cass Stegall, Sam Hopper, and Jim Claunch.

At the closing, Ray Carter, Bailey County Farm Bureau Service agent gave many beautiful, useful and valuable gifts, donated by businessmen of Muleshoe, which were greatly appreciated. The county Farm Bureau also gave away some nice gifts.

## Outstanding Educator Will Address TSTA

E. L. GALYEAN

E. L. Galyean, director of Research and Records for the Texas State Teachers Association, is scheduled to speak at a meeting of the Bailey County Unit of TSTA on April 29, at the Muleshoe high school cafeteria. The meeting will be held at 7:30 p.m. Mr. Galyean will discuss benefits that derive from membership in TSTA and NEA.

Galyean has had a total of 26

Cause me to hear Thy loving-kindness in the morning; for in Thee do I trust; cause me to know the way wherein I should walk, for I lift up my soul unto Thee.—(Psalm 143, 8.)

Those who begin each day by thanking God for His love and His blessings and for a new opportunity to serve Him by loving and helping others, will find joy and strength abundant; obedient to His will, they are guided into righteousness.

years of experience in the public schools of Texas, having served as elementary school teacher, elementary school principal, high school principal, school superintendent, deputy state superintendent, and director of school census and statistics in the State Department of Education. He has been serving in his present capacity as director of research and records at TSTA for the past six years.

Mr. Galyean has a B. S. degree from North Texas State College, a Master of Education degree from Southern Methodist University, and holds a professional teacher's certificate and administrator's certificate. He is a member of local, state and national professional organizations, a Mason, and a member of Phi Delta Kappa, professional fraternity for men in education.

**Bonnet, Bunny and Basket**—And what else could this mean but Easter for little Donna Kay of Methodist Home in Waco. Last Sunday afternoon, Donna Kay and all the rest of the Home family enjoyed the Methodist Home choir's presentation of a special cantata for Palm Sunday. Other special pre-Easter services will be held on Wednesday, Thursday and Friday evenings. And the annual Easter morning sunrise service will be one of the highlights of Methodist Home's Easter Observance.

In addition to the many religious activities, the children at Methodist Home will celebrate with traditional Easter egg hunts and, from the looks of Donna Kay, it seems that she has an early start on the rest of the children.

## Texas Fights Cancer

Since the advent of radioactive isotopes—benign by-products of the atomic bomb—have scientists been tracing the myraid reactions which go on in

cells and tissues. A Texas scientist has traced much of the chemistry of the genes of the lymphatic cell, which normally manufactures blood, and the genes of the leukemic cell which is its cancerous counterpart.

He has found that whereas the normal cell follows a gene chemistry which enables the cell to produce energy for useful work, the leukemic cell pursues a gene chemical course of uselessness. From chemicals excreted in urine, the chemist can tell with fair accuracy which course the lymphatic cell genes in each person are taking. He is trying to make possible ways of altering the gene chemistry of leukemia as a possible treatment.

Help Texas scientists fight cancer. Address your contributions today to: CANCER c/o Postmaster, Muleshoe.

## SLIPPED DISC SEVERE PAINS IN LOWER BACK

Case History: Lady, Age 36; Symptoms and Case History: Patients' statement: "My lower spine and hip joints hurt me very much. Occasionally, the pain is so bad, it is unbearable. Also, my leg gets numb and pain is so severe it hinders me from doing my work."

After an examination in the Chiropractic Clinic, the primary cause of her condition was found. The X-ray pictures of her spine showed misalignments, distortions and displacements of vertebrae. The nerve test analysis determined the amount of pressure on nerves in the spinal column. She decided to take a series of Chiropractic Health treatments to correct the cause of her condition. She is now able to do her work free of pain.

### Back Trouble

Case History: Man, age 31, came to the Chiropractic Clinic after reading an ad describing a condition similar to his. He had been confined with extreme back pain which was aggravated by a spinal tap which in turn started terrific headaches. He was medically diagnosed "Slipped discs", and was told it would take a year or more to recover. In an effort to avoid an expensive and dangerous spinal fusion operation, he consulted us. After an examination consisting of nerve analysis and spinal x-ray at the clinic, this man began corrective spinal adjustments. His pain was lessened from the first adjustment. His condition continued to correct rapidly until now he is doing heavier mechanic work than ever before. He urges everyone to TRY

Chicago, a pioneer little settlement 125 years ago, is a lusty giant now. My mind is too feeble to figure how they made so much money in so short a time, money evidenced by great buildings, great parks, great museums, great parks, great everything. If you will tune in next week we want to tell you, at the risk of boring those who know more about it than I do, more about this most practical, most business like of all cities.

## Sheriff Warns Of Blasting Caps In Hands of Children

Blasting caps can maim, blind and kill.  
With that grim note, Sheriff Dee Clements today issued a warning about the danger of blasting caps to all youngsters and their parents.

Every year scores of boys and girls are hurt in blasting cap accidents, the sheriff pointed out. He sternly warns children: "If you find a blasting cap, leave it where it is and call me or some other grownup. Don't pick it up. Don't touch it — not even with a ten-foot pole."

The sheriff described caps as being small, metallic cylinders about as big around as a lead pencil and varying in length from one inch to five and one-half inches. One type has an open end and is fired by flame from a fuse. Another has two covered wires coming out of one end and is fired by electric current. Both kinds are DANGEROUS. Shock, heat or careless handling can set off the caps which are loaded with a sensitive explosive.

Blasting caps are needed to explode dynamite to build roads, dams and skyscrapers, and to mine coal and metals. They are vital, too, in laying pipe lines and farmers use them frequently in clearing fields and removing boulders.

But only an experienced person knows how to handle the caps safely. When one explodes, hundreds of small pieces of sharp metal fly out in all directions, sometimes as far as 200 feet; and even at that distance they can cause serious injuries.

Sheriff Clements, who is pressing this safety drive at the request of the National Sheriff's Association and the Institute of Makers of Explosives, has this safe and sound advice for parents: "Teach your children to know a blasting cap at sight. Insist they shun a cap as they would a rattlesnake. That's the only way to play safe with a blasting cap."

### BAKERS ON TRIP TO CANADA AND NORTHEAST

Mr. and Mrs. E. O. Baker picked up a new car at Detroit Wednesday, then were to drive through Canada to Maine, then down the eastern shore, visiting for a time with friends in Martha's Vineyard, Mass. Their itinerary called for a tour of New England, a visit to New York, Philadelphia, and Washington, D. C., and arrival in Muleshoe about April 30.

They were accompanied on the train to Chicago by Mr. and Mrs. J. M. Forbes, who returned home Wednesday. The four spent two days seeing the landmarks of Chicago, including the Board of Trade, Merchandise Mart, Adler Planetarium, Marshall Field department store. They took a rubberneck tour along Lake Shore Drive, rode the Elevated and the subway. Forbes and Baker made up their Rotary Club attendance by visiting Rotary International's No. 1 club, the Rotary Club of Chicago, which has 850 members.

### EASTER HOLIDAYS

Easter holidays for school children in Bailey county begin tomorrow, Friday, and school will resume Tuesday morning. A round of traditional egg hunts will mark the final day of school today for children in the elementary schools.

A "RENOIR" FOR EASTER SUNDAY — Inspired by this painting by famous French artist Auguste Renoir, "Young Girl With a Rose," is this flower-laden Easter bonnet. Called by its designer "Flower Shower," the hat combines leafy pink and red roses with white wood violets on a silk net base. This millinery masterpiece is but one of a series in the designer's Renoir collection, capturing the mood of the painter's work.

## Patricia Joy Broyles Becomes Bride of Phillip Wendell White, Saturday April 6

MR. AND MRS. PHILLIP WHITE

Before an improvised altar decorated with commadore fern and baskets of white gladioli and chrysanthemums, flanked with candelabra holding white tapers, Miss Patricia Joy Broyles became the bride of Mr. Phillip Wendell White, Saturday, April 6 at four o'clock in the afternoon.

The impressive double ring ceremony was performed by Rev. Homer C. Akers, of Portales, New Mexico, at the home of Mr. and Mrs. Morris McKillip. Mrs. McKillip is a sister of the bride.

The bride is the daughter of Mr. and Mrs. Edgar Broyles of Muleshoe. The bride-groom who resides in Dallas, is the son of Mr. and Mrs. J. E. White of Dimmitt.

Given in marriage by her father, the bride wore a sheath dress of teal blue cristoline with matching crepe semi-fitted jacket with three-quarter length sleeves. The collar, cuffs and pockets of the jacket were trimmed with a bias binding of the cristoline. She carried a white prayer book topped with a corsage of white gardenias.

Maid of honor was Miss Ann Broyles, sister of the bride. She was gowned in pink cotton satin with basque waist and full skirt of unpressed pleats. Her corsage was white gladioli.

Best man was Mr. Lawrence K. White, of Dimmitt, brother of the bridegroom, candle lighter was Bobby Broyles, brother of the bride.

Recorded wedding music was played: Always and Lohengrins Wedding March.

The bride is a graduate of Muleshoe High school, class of 1952. She attended Baylor College at Waco two years, and received her degree from Tech college at Lubbock where she majored in Interior Decoration. Following her graduation she

# Mahon Confident Congress Will Cut \$3 Billion From President's Budget

## E. H. Danner New President Of General Phone

E. H. DANNER

WASHINGTON, April 18 — (Special) — Rep. George Mahon of the 19th District of Texas said here this week he is confident Congress will cut a minimum of three billion dollars from President Eisenhower's budget.

The Congressman, in his capacity as Chairman of the House Subcommittee on Military Appropriations, has been conducting hearings on the President's request for 38 billion for the Army, Navy and Air Force since late in January.

Mahon said "we will reduce the defense budget as far as this can safely be done. Of course, we must proceed with caution and no reduction can be permitted to imperil the security of the United States."

Defense officials have declined to recommend any cuts in the Defense budget, but they are preparing at Mahon's request a statement showing how a three and a half billion dollar reduction would be applied if made by Congress.

The House Appropriations Committee, of which Mahon is a member, has upon his motion approved bills at this session reducing the President's overall

budget in the sum of one billion dollars.

The West Texan noted that he had been "much encouraged" over the widespread demand among the people generally for reduced spending and more efficiency and economy in government. This is a good sign and if the people will remain on the warpath their efforts will prove very helpful", Mahon said.

He added that "while no one knows just what the final reduction in the President's budget may be, I feel confident the Congress will whack off a minimum of three billion dollars."

Mahon feels that consideration of tax cuts should be postponed until more progress is made in reducing government spending.

The budget as originally submitted by the President called for 72 billion dollars for the fiscal year beginning July 1, 1957.

## Bible Comment:

### Jews Understood Past Mistakes in Babylonian Exile

LET us look back a moment on the political history of the Jewish people up to the time of the Babylonian exile. The kingdom of an undivided Israel as we might think existed under David or Solomon was broken up after Solomon's death by the revolt of Jeroboam.

Ten tribes followed him to establish the Northern Kingdom, or the Kingdom of Israel. Two tribes remained loyal to Rehoboam to continue the Southern Kingdom, or the Kingdom of Judah.

The Northern Kingdom was swept away in 722 B.C. when Sargon, the Assyrian conqueror, overthrew the kingdom and carried its people into exile, never to return. It is to this that we refer today when we speak of "the 10 lost tribes."

The Kingdom of Judah continued until 586 B.C. when it was conquered by Nebuchadnezzar. The people were exiled to Babylon, but the overthrow of that country by Cyrus in 538 B.C. eventually led to the return of the Jewish exiles to their homeland.

What the Jews suffered during the 50 years of their exile in Babylon is vividly portrayed in the 137th Psalm, beginning, "By the rivers of Babylon, there we sat down, yea, we wept, when we remembered Zion."

There they discovered what they had lost in acquiring divine enemies and in turning from the ways of God. The songs of Zion had a new meaning for them when they could no longer sing them in their homeland or in a strange land.

The comfort that the prophet of the Book of Isaiah brings to this afflicted people is no shallow optimism. He comforts them by reviving their hopes, faith and vision. He assures them that God has not cast them away. They have paid the penalty for their sins.

SOME union leaders predict a four-day work week within a few years and some employees wish that they could get four days of work from their employees right now.

A rooster is a regular passenger aboard a bus in Bratsboro, Calif. Fellow across the desk from us says that the bus he takes to work each day is for the birds, too.

To All Qualified Voters of The City of Muleshoe, Texas, who own Taxable Property in Said City and Who Have Duly Rendered The Same For Taxation:

TAKE NOTICE that an election will be held on the 27th day of April, 1957, in the City of Muleshoe, Texas, in obedience to a resolution and order duly entered by the City Council of said City on the 9th day of April, 1957, which is as follows:

**Resolution And Order For City Bond Election**  
The STATE OF TEXAS: CITY OF MULESHOE: COUNTY OF BAILEY:

ON THIS, the 9th day of April, 1957, the City Council of the City of Muleshoe, Texas, convened in SPECIAL session at the regular meeting place thereof in the City Hall, there being present and in attendance the following members, to-wit:

W. T. Bovell, Mayor; Houston Hart, Alderman; Lloyd S. Alsop, Alderman; Horace L. Blackburn, Alderman; and Morris Douglass, Alderman.

AND WITH THE FOLLOWING absent: Ernest Kerr, constituting a quorum; and among other proceedings had, were the following:

The Mayor introduced a proposed resolution and order which was read in full by the City Secretary. It was moved by Alderman Douglass and seconded by Alderman Alsop that the same be passed and adopted. Thereupon, the question being called for, the following voted "AYE": Aldermen Hart, Alsop, Blackburn, and Douglass; and none voted "NO".

**THE RESOLUTION AND ORDER** is as follows:  
WHEREAS, the City Council of the City of Muleshoe, Texas, deems it advisable to issue the bonds of said City for the purpose hereinafter stated; therefore

**BE IT RESOLVED AND ORDERED BY THE CITY COUNCIL OF THE CITY OF MULESHOE, TEXAS:**  
**SECTION 1:** That an election be held on the 27th day of April, 1957 which date is not less than fifteen (15) nor more than thirty (30) days from the date of the adoption of this resolution and order, at which election the following proposition shall be submitted to the qualified electors of said City who own taxable property therein and who have duly rendered the same for tax-

ation;  
**PROPOSITION I**  
"Shall the City Council of the City of Muleshoe, Texas, be authorized to issue Ten Thousand Dollars (\$10,000) general obligation tax bonds of said City for the purpose of constructing street improvements in and for said City; said bonds to mature serially over a period of years not to exceed thirty (30) years from their date, and to bear interest at a rate not to exceed FOUR AND ONE-HALF PER CENTUM (4½%) per annum, payable annually or semi-annually and to provide for the payment of principal of and interest on said bonds by levying a tax sufficient to pay the annual interest and to create a sinking fund sufficient to redeem said bonds as they become due?"

**PROPOSITION II**  
"Shall the City Council of the City of Muleshoe, Texas, be authorized to issue ONE HUNDRED AND SIXTY THOUSAND DOLLARS (\$160,000) general obligation tax bonds of said City for the purpose of constructing improvements and extensions to the City's Water System in and for said City; said bonds to mature serially over a period of years not to exceed thirty (30) years from their date, and to bear interest at a rate not to exceed FOUR AND ONE HALF PER CENTUM (4½%) per annum, payable annually or semi-annually and to provide for the payment of principal of and interest on said bonds by levying a tax sufficient to pay the annual interest and to create a sinking fund sufficient to redeem said bonds as they become due?"

**PROPOSITION III**  
"Shall the City Council of the City of Muleshoe, Texas, be authorized to issue FIVE THOUSAND DOLLARS (\$5,000) general obligation tax bonds of said City for the purpose of constructing improvements and extensions to the City's Sanitary Sewer System in and for said City; said bonds to mature serially over a period of years not to exceed thirty (30) years from their date, and to bear interest at a rate not to exceed FOUR AND ONE HALF PER CENTUM (4½%) per annum, payable annually or semi-annually and to provide for the payment of principal of and interest on said bonds by levying a tax sufficient to pay the annual interest and to create a sinking fund sufficient to redeem said bonds as they become due?"

**SECTION 2:** That said election shall be held at the City Hall in the City of Muleshoe, Texas,

**SECTION 3:** That the following named persons are hereby appointed officers of the election, to-wit:

Mr. Walter Witte, Presiding Judge; Vivian McAdams, Judge; Opal Robinson, Clerk; Allie Barbour, Clerk.  
**SECTION 4:** That said election shall be held under the provisions of and in accordance with the laws governing the issuance of municipal bonds in cities, as provided in the General Laws of the State of Texas, and only qualified electors, who own taxable property in the City, and who have duly rendered the same for taxation, shall be qualified to vote.

## THREE WAY NEWS EVENTS Junior Senior Banquet At Portales On April 12

By Mrs. Frank Griffith  
The Junior-Senior banquet was given in the Cay Boykin Hotel in Portales Friday, April 12. A red and white color scheme with red and white roses were used for decorations. A TV theme was carried out with each speaker part a popular television program. George Taylor acted as M. C. Other juniors on the program were Jack Reeves, Ken Donald, Jo Ann Hodges, Janice Latimer, and Bonnie Battaes. Speakers from the junior class were Jim Johnson and Lawrence Taylor. Mr. John Criner, high school principal, was the main speaker.

Mrs. Nan Dyer, junior sponsor, was presented a corsage from the class.  
Besides the juniors and seniors attending the banquet were the school faculty and their husbands and wives, the members of the school board and their wives.  
The menu was chicken fried steak, salad, baked potatoes, green peas, hot rolls and cherry cobbler.  
Lawayne Battaes underwent surgery at Levelland Friday. He is reported to be doing fine.

**Wedding Shower**  
A miscellaneous wedding shower honoring Peggy Underwood, bride-elect of Bud Daily of Hobbs, N. M., was given in the home of Mrs. Frank Griffith Sunday, April 14 from 3 to 5 p.m. Hostesses were Mmes. J. G. Ann, Haskel Kirby, M. L. Fine, Jim Simpson, Amos Sedgwick, Hugh Dupler, D. S. Fowler, Jimmie Cook, Bill Beck, Thurl Lemons, Archie Sims, Carl Pollard, Everett Sowker, Bud Warren, and Griffith.  
The serving table was laid with a lace cloth over pink, centered with a miniature altar with the archway entwined with fern and pink ribbons and aqua flowers completing the altar decorations. Crystal candleholders with pink candles flanked the center piece.  
Bell shaped cookies with aqua and pink decorations were served with pink punch and candy mints. Miss Frances Sowder presided at the crystal punch bowl. She was assisted by Paula Griffith and Sue Warren. Peggy Fowler and Betty Ann registered guests.  
The hostess and guest of honor wore kitchen gadget corsages and they were presented to Miss Underwood at the close of the shower.  
Mr. and Mrs. Amos Sedgwick visited in the Thurl Lemons home Sunday.

Peggy Fowler of Enochs spent Saturday night with Paula Griffith who was home from ENMU, at Portales, N. M.

**Injured In Accident**  
Wesley Warren, son of Mr. and Mrs. Bud Warren received a broken ankle when he fell from a car Friday night, when the door came open. Wesley had just recently had a cast removed from his other leg that was broken in a motor scooter accident. He has had one arm broken and was also a victim of polio a few years ago. He is a high school sophomore.

The pupils of Three Way school went to Muleshoe Friday for free polio shots.

The school annuals have arrived and a party was given Friday afternoon in the school gym for the purpose of autographing the annuals.

Congratulations to the seniors on the production of the school year book. It was dedicated to their parents. This is the first class to begin and graduate at Three Way.

Visiting in the Dolly Ann home last weekend were Mrs. Ann's brother and family of Childress, Texas.  
Frank Griffith and Bailey visited relatives at Shallowater and Anton Sunday.

The Bible Study Club members went to Lubbock Thursday to see the movie, "Ten Commandments."

Mrs. Louis Henderson, Mrs. Jack Lowe and Mrs. Lewie Jordan went shopping in Clovis last week.

**Senior Trip**  
The high school seniors are planning a trip to Miami, Fla. They will leave Lubbock by train on May 2, and will be gone about ten days.  
Mrs. Cecil Cole was hostess to a products party given in her home Wednesday, April 10. Mrs. Betty Jackson, of Muleshoe, gave a demonstration.  
Mrs. Thurl Lemons guessed the amount of sales. Mrs. Lewie Jordan's name was drawn for Lucky Lady. They each received a gift.  
Cookies and punch were served

to Mmes. Florence Bailey, Dolly Ann, Lewie Jordan, Conrad Williams, Jack Lowe, Thurl Jackson, and Leon Reeves, Lemons, Frank Griffith, Betty

**ANNIVERSARY DINNER**  
Mr. and Mrs. E. E. Engelking were honored with a dinner Sunday, April 14, in observance of their 25th wedding anniversary. The dinner was held in the home of Mr. and Mrs. Floyd Embry

and sons. Others present were Dolly Ann, Lewie Jordan, Conrad Williams, Jack Lowe, Thurl Jackson, and Leon Reeves, Lemons, Frank Griffith, Betty

**To Baltimore, Maryland**  
Mr. Charles E. Kaufman left Monday afternoon by train to visit his daughter and family, Mr. and Mrs. John Kramer and children. He plans to stay about two weeks.

## THERE'S AN ELECTRIC HEATING METHOD FOR EVERY HOME NEED!

Electric Heating is CLEAN, MODERN, AND SAFE!

Now, instantaneous, comfortable heating—of course, it's electric! Whether you are building your new home, remodeling or adding a room to your present home, you can use electric heating. The advantages you have with your electric working appliances are also yours with electric heating. Electric heating is the cleanest form of heating known. Now is the time to solve your heating problems for next winter and years to come. For information, without obligation, see your Public Service Company manager.

YOUR PRESENT HOME  
YOUR NEW HOME

- \* CEILING HEATING UNIT WITH CIRCULATING FAN  
Ceiling heating units are ideal for bathrooms, hallways or kitchens. They can be used as the main heat source or as auxiliary heating. A flip of the switch gives you heat where you want it and, if desired, a controlling thermostat can be added for automatic operation.
- \* RADIANT-CONVECTION WALL HEATERS  
This type of electric heating you've seen many times either in portable heaters or in wall-mounted units. Such electric heating units are inexpensive, can be thermostatically controlled and are easily installed. One answer to the problem of heating a room added on.
- \* RADIANT GLASS, METAL or CERAMIC PANELS  
Nearest thing to the warmth of the sun's natural heat rays is electric radiant heat. Heating coils are imbedded in a heat conducting material which, through radiance, warms your family, floors, furniture. These units, mounted on wall, near floor, come in various sizes, up to 50½ inches long.
- \* HEAT LAMPS  
Heat lamps are used where quick spot heating is desired—over work benches, in garages, working on the family car, etc. A heat lamp can be inserted in place of a regular lighting bulb, or it can be installed permanently in bathroom ceilings, etc.
- \* BASEBOARD HEATING UNITS  
Electric baseboard heating is completely inconspicuous since it can be painted to match or contrast with wall colors. In practically all homes the heating requirement is met by installation along outside walls only. Furniture can be placed anywhere without interfering with your heating.
- \* EMBEDDED CEILING CABLES OR PANELS  
As in all electric heating your furnace is miles away (at the electric power plant). You turn on a switch and get completely clean electric heat. Continuous coils are run back and forth across entire ceiling area and then covered with plaster or texture paint material. Heating system is completely out of sight.
- \* THE AMAZING NEW HEAT PUMP  
Here's the amazing "heat pump" which uses the principle employed in your electric refrigerator to "pump" heat to you in winter and cool air in the summer. It's a combination central unit which costs approximately the same as the central heating and cooling units in conventional use. No matter the outside weather, the "heat pump" adjusts immediately to give you the weather you want inside your home.

## Electricity Works For Sorenson From Egg to Egg

VETERAN POULTRYMAN PREDICTS BRIGHT FUTURE FOR EGG PRODUCERS.

From egg to egg electrically defines the success of Nels Sorenson, pioneer hatcheryman and egg producer, Amarillo area.

Nels entered the poultry industry when it was "egg money" for the farm housewife. Through 36 years in the poultry industry, he has developed many electric appli-

cations for profitable and efficient chicken and egg production.

He depends on electricity to incubate the eggs, brood the chicks, warm the water, operate an automatic feeder, and provide 14 hours of light per day and egg refrigeration. In addition, Sorenson employs Reddy Kilowatt to grind and

mix his feed, pump his water, and keep water pipes thawed. The veteran poultryman's electric operation is coupled with strict sanitation practices and a mandatory vaccination program.

Sorenson's poultry raising activities have progressed from selling hatching eggs to being one of the major egg and chicken producers in the area. His thermostatically controlled incubators can hatch 9000 eggs per week, and he has space in his electric battery brooders for 15,000 chicks.

Sorenson is optimistic about the egg picture despite the current low price in eggs. He bases his favorable outlook on the reduction in the number of chicks put down this spring.

"Seventeen percent less laying pullets are being put down in the Southwest than a year ago, Sorenson remarked, "and it indicates a high egg market next fall and winter."

From electric incubator to electric home where the future laying hens will live for the next three weeks. Sorenson's loss during this brooding is less than 1/2 of 1%.

Controlled breeding and electric incubation gives Nels Sorenson an 87 to 90% hatch. Picture shows him examining and counting one of his bi-weekly hatches.

### Revival At Progress Methodist Church

A series of inspirational meetings Monday through Friday are being observed this Holy Week at Progress Methodist church. Meetings are at 8:00 each evening, and everyone is urged to attend. Speakers include Jim Burkhead, Monday; Bill Moore, Tuesday; John Thomson, Wednesday; Rev. Bruce Matthews of Lazbuddie Thursday, and Rev. Clarence Stephens on Good Friday.

At 6:00 a.m. Easter morning, the senior and intermediate youth will present an Easter sunrise pageant. Everyone in the community is invited. Afterwards, those who wish may bring cocoa, coffee and doughnuts for a fellowship breakfast. Regular Easter services will be at 10:00 for Sunday school and 11:00 a.m. for church, with the pastor in bringing the message. Evening fellowship classes are at 7:00 p.m., and at 8:00 p.m. Ralph Cooper, McMurry student will preach.

### Dress Revue Planned

The girls of the Progress 4-H club are planning a dress revue in July. At their meeting last Wednesday in the John Thomson home, they made plans and set a tentative date. They will meet twice monthly on second and fourth Wednesdays to work on their garments.

Subject of the meeting April 10 was "Choosing Patterns". Linda Cooper gave pointers on selecting the correct pattern for your figure type. All the girls chose patterns for their contest garment. The president, Mary Gross, led a business session. Mary Ellen Wedel and Pat Thomson led games. Refreshments of cookies and frosted Cokes were served. Those present included a new member, Euzette Bourlan, and members: Trudy Davis, Jane Ellen and Wanda Wedel, Judy Williams, June Gray, Doris Frances, Linda, and Sandra Cooper, Kay and Pat Thomson, Linda and Mary Gross. Adult sponsors present were Mmes. Lloyd Williams, Albert Davis, and John Thomson. The next meeting will be held April 24 in the James Wedel home.

### Vacation Church Schools

Both Baptist and Methodist Sunday schools in Progress are planning to hold Vacation sessions soon after school is out. Baptist workers will attend a clinic in Muleshoe next Monday, April 22. Methodist teachers will attend their training session in Dimmitt April 25.

### Royal Service Program

Members of the WMU met at the Progress Baptist church on Monday afternoon, for their Royal Service program on Mission work. Billy Ruth Downing was in charge of the program. The president, Mary Marrow, afterwards held the business session. The WMU will not meet next

Monday because of the vacation school clinic.

### From Denver

Mr. and Mrs. Billy Mixon and children of Denver, Colo., arrived Tuesday to visit his half-brother and family, Mr. and Mrs. Leonard Griswold and sons.

### New Neighbors

Many new families are moving into the community. More than this reporter can keep up with, especially on the newly opened ranch lands to the southwest. The Cecil B. Ferguson family moved here from Stegall about two weeks ago. They have four children. Two Hickman families live near them too. Just south of the former C. S. Otto farm. The C. H. McAlister family are fairly recent arrivals, too, and live west of Sherman Inman. Mr. and Mrs. Leon Perry and children moved last Monday to the Marion E. Little place on farm road 1760.

We hope this community will greet these new neighbors and others, and will welcome them into their social and religious groups.

### BAKE SALE SATURDAY

On Saturday April 20, the ladies of the Progress Methodist Church will have a bake sale beginning at 10:00 AM at Piggy Wiggly and Cashway grocery stores. Plan to buy your Easter desserts from them.

On Sunday Mr. and Mrs. J. J. Redwine spent the day with her brother and wife, Mr. and Mrs. J. P. Armstrong of Hart.

The Herbert Meads recently returned from a trip to Stamford.

Mr. and Mrs. Homer Redwine and daughter Vicki were here Sunday visiting her parents, the H. T. Pughs, and other relatives.

Mr. and Mrs. Billy Don Barber and children of Clovis visited here Sunday with her mother, Mrs. Anna Hill, and other relatives.

Mr. and Mrs. Owen Powell spent the weekend in Lubbock with their son and family, Mr. and Mrs. Goodwin Powell and children.

Mr. and Mrs. H. P. Vandiver and family of Odessa visited here Sunday with her brother and family, Mr. and Mrs. Aron Blair and children.

Mr. and Mrs. Jack Jones and children of Dimmitt were Sun-

day guests of her brother's family, Mr. and Mrs. D. M. Kirk and son.

The J. E. Wilhites are building a new three-bedroom home on their farm about three miles southwest of Progress.

Rev. Roy Haven preached a sermon Saturday night at the Y. L. Methodist Church during their protracted meeting.

Mr. and Mrs. Joe Walker and John G. of Hobbs spent last weekend here with her parents Mr. and Mrs. Byron Gwyn. They were accompanied here by Stevie Roebuck, who remained to spend the week with his grandparents, Mr. and Mrs. Albert Davis, and other relatives.

The Shankles home is nearing completion on their farm.

The Raymond Scotts are adding two rooms on to their home on the old Halley place.

Hi, Neighbor, Watch the Parade (a guest editorial)

Who doesn't enjoy seeing a parade, especially the annual Easter one? Let's stand on this

corner and watch. Here march dainty girls and clean-cut lads; lovely ladies and distinguished men; handsome couples and adorably dressed children. After days of careful preparation, each is ready to see and to be seen.

But what a surprise it would be if, instead of well-dressed ladies, we could see each other souls, each clad in raiment we have provided for it!

Look, the brunette in the orchid costume has only a few tattered rags of self-righteousness to dress her soul. And that gray-suited young man has his cramped in rompers of childish religious fancies. That attractive elderly couple still drape theirs in threadbare church memberships from a town where they lived long ago—even though they could exchange for new ones in this town any time.

That lace-and-silk dressed little girl wears only a brief garment of scanty moral instruction on her young soul—that's all her parents have provided. The man in the comfortable linen suit has his soul most uncomfortably choked in a strait-jacket

of narrow beliefs. And the pretty girl in pastel hues has made her soul a garment of violently colored prejudices.

We could stand on this corner longer and see more, both good and bad. But now let's look at ourselves . . .

Neighbors, what clothing will your soul wear this Easter?

**the river that flows on wheels**  
More petroleum moves over Santa Fe than over any other railroad in the country

The 2,384,000,000 gallons of petroleum that Santa Fe moves every year is the river that flows on wheels.

It's so large that it makes Santa Fe the No. 1 petroleum railroad in the country.

This flood tide of oil gives heat and power to farms, factories, military installations and homes all over the nation.

The tremendous demand for petroleum, in all its forms, poses special problems for Santa Fe. For it requires speed and service to keep that river flowing full force. Here are a few of the ways we get the job done:

We move empty tankers just as fast as full ones, so no vehicle will stand idle.

As new oil fields are opened up, we stand ready to serve them. And when new developments take place within the industry, we adapt ourselves to take care of them.

As an example, take liquefied petroleum gas. The demand for it has skyrocketed in the last 10 years, because with this "bottled gas" rural families can cook and heat with gas just like city people. And the railroads have made it possible for them to get it.

Santa Fe runs special LPG trains when the demand for this product requires it. In a year, these trains carry enough LPG to heat over 500,000 homes from November through April.

This is just a part of the story of the dependable transportation service Santa Fe is providing to essential industries that contribute so much to the welfare of our country.

## COUNTRY PLAYERS

LES CARROLL

WITH so many country songs becoming pop hits, and rock 'n' roll entering the field, the misnomer, "hillbilly music," is being succeeded by "rock-billy" and "pop-billy."

Sonny James, who scored a big hit in both fields with "Young Love," has a strong follow-up release in "First Date, First Kiss, First Love" and "Speak to Me." Wanda Jackson also bids for both listings with "Don't Wanna" (both Capitol). And for Elvis Presley's latest bid, what could be a better title than "All Shook Up" (RCA).

In the inspirational field, Tennessee Ernie's album, "Spirituals," is an excellent collection of 12 of his most requested spirituals, including "Stand By Me," "Get On Board, Little Children," "Were You There?" and "I Want to Be Ready" (Capitol). Doris

of which will be welcomed by his fans.

Johnnie and Jack belt out a pair of real toe-tappers in "All the Time" and "Pleasure Not a Habit in Mexico" (RCA). "Hey, Mr. Mailman" is a fine novelty number by Billy Jack Willis (MGM) as is Charlie Walker's "Dancing Mexican Boy" (Mercury-Starday). A very unusual and tricky number is "I Am Music" by Skeets McDonald (Capitol).

In the ballad field Benny Martin has two fine sides, "That's the Story of My Life" and "Look What You've Done" (RCA) and Bobby Bare's "Life of a Fool" and "Darling, Don't" are very pleasant listening (Capitol).

In these days of gadgets and tricky styles Jennie Rodgers has done something startlingly different—she just sings beautifully, without frills, the pretty ballad, "What's the Use to Take You Back Again" . . . very pleasant listening (MGM).

Among the albums, Hank Snow's "Country and Western Jamboree" and Jim Reeves' "Bimbo" offer a collection of 24 of the top hits in the country field for the past few years and are a fine addition to a record library (RCA).

**OTHER FINE RELEASES** are "One-Way Train" (Helo Brown, Capitol); "Gentle Love" (Charlie Walker, Mercury); "Sundown" (Mac Wiseman, Dot); "Goin' Home All by Myself" (Hank Locklin, RCA); "I Loved and Lost" (Billy Jack Willis, MGM); "I Can't Leave" (Don Gibson, RCA); and "I Slipped Off My Wedding Ring" (Judy Lynn, ABC-Paramount).

Akers' "These Old Bones" is a must for collectors, and Porter Wagoner has two fine sides in "Who Will He Be?" and "Good Mornin', Neighbor" (RCA).

MGM has released two fine inspirational numbers by the late Hank Williams, "Ready to Go Home" and "We're Getting Closer to the Grave Each Day," both

### Seven A Day Killed In 1956 Accidents In Texas According To Safety Report

Today seven persons were killed tomorrow seven more persons will die in traffic accidents and so on throughout the year until we reach the end of 1957 when our 1956 death count of 2,611 will be exceeded.

The report, compiled by Chief N. K. Woerner of the department's Statistical Division, shows that in addition to an average of seven persons being sent to their graves daily in Texas 305 persons suffered injuries.

The annual statistical breakdown of Texas motor vehicle traffic accidents for 1956 was released in booklet form today by Col. Homer Garrison, Jr. director of the Texas Department of Public Safety.

The report, entitled "7 A DAY" got its name from the fact that an average of 7.13 persons per day were killed during the year 1956. In regard to this Col. Garrison took stock of the fact that the statistical picture probably will look no better during the current year.

In 625 daily accidents. And in what is termed a constructive es-

### Officials Proclaim IOOF-Rebekah Week Observance April 22-28 Here

Oddfellow and Rebekah week in Texas, April 22-28, in Bailey County, and in Muleshoe, has been proclaimed by Governor Price Daniel, Judge Glen Williams and Mayor W. T. Bovell, respectively.

The week of special observance will be climaxed with an all day meeting of the South Plains Association of Oddfellows and Rebekahs in Muleshoe on April 27.

The meeting will be held in the high school auditorium, according to Raymond Gage, Grand Master of the Lodge in Texas.

The proclamations of all three officials are similar to the one written by Judge Glen Williams, as follows:

**GREETINGS:**

The independent Order of Oddfellows was founded on April 26, 1819, and is one of the oldest service organizations in America. For many years it has been engaged in the worthy endeavor of maintaining homes for the

widows, orphans and the aged in Texas and throughout the United States. In this work it has been ably assisted by the Rebekahs.

The year 1957 is the 138th anniversary of the IOOF in America and the 119th year of the Order in Texas.

Therefore, I as County Judge of Bailey County, Texas do hereby designate the week of April 22-28, 1957, as ODDFELLOW AND REBEKAH WEEK in Bailey County, and urge our citizens to participate in its observance.

In official recognition whereof, I hereby affix my signature this 29th day of March, A.D. 1957.

Glen Williams  
County Judge, Bailey County.

**HOSPITALITY ON THE HIGHWAY**

imate, the report states that the average dollar loss per day during 1956 was just short of two-thirds of a million dollars.

Even though 64 more persons were killed in Texas motor vehicle traffic accidents in 1956 than in 1955 the statistical information does suggest a chance for improvement in the future. There were five deathless days in 1956, as compared with three the previous year, and two of those days fell together on June 5 and 6.

In rural fatal accidents the effects of better highways evidenced in the fact that head-on collisions were reduced from 27.8 per cent in 1950 to 20.9 per cent in 1956. Woerner said this decrease was due primarily to an increase in the number of rural miles of divided highways.

A reduction in the number of

sharp curves on rural highways has helped in reducing the "run-off-roadway" accidents from 28.8 per cent in 1950 to 22.2 per cent in 1956.

Younger drivers and newer vehicles were involved in more than their share of accidents. Of all drivers involved in rural accidents, 44.8 per cent were under 30 years of age—this group represents 31.2 per cent of the licensed drivers in Texas.

One-third of the vehicles involved in rural accidents were one year old or less. This is emphasized by the fact that 60 per cent of rural fatal traffic accidents involved only one vehicle. On this point Woerner concluded that possibly drivers are placing too much confidence

in their newer cars.

November 24 was the black day in Texas last year with 29 persons killed — the greatest number of any day in 1956. This number, with an additional 9 killed November 25, made that weekend the deadliest on Texas Highways for the year with 38 persons killed in 24 accidents.

In reviewing the traffic accident information in "7 A DAY" the state police director said speed continues to be the leading causative factor in traffic accidents.

"In 87 per cent of the rural accidents last year, one or more traffic law violations was a causative factor. At the top of the list driving too fast for conditions resulted in more accidents than any other violation."

### The Choice That is Never Challenged!

Drive a Cadillac over any period of time you wish—and the odds are that no one will ever question your choice of a motor car.

Who could drive a new Cadillac and not pronounce it the crowning achievement of automotive engineering?

For almost everyone understands the instincts that lead a man to Cadillac. Rare is the motorist, in fact, who does not have his own heart set on the "car of cars".

Certainly, this is as it should be. For Cadillac's virtues are simply too numerous to be overlooked—and too apparent to be misunderstood.

Who, for instance, could behold a new Cadillac and not proclaim it the most beautiful and majestic of automobiles?

Who could ride in a new Cadillac and not recognize its extraordinary luxury and comfort?

And who—knowing of Cadillac's many economies of ownership could fail to recognize it as the finest investment in all motordom?

Indeed, the reasons for choosing Cadillac are as valid as they are numerous—and we urge you to visit your dealer at your first opportunity and discover all of them for yourself.

Why not spend an hour at the wheel—and select your favorite Cadillac model as your own?

You can rest assured—the whole world will approve your choice!

# Pat Childers Home on Elm Has Comfort and Style

DINING ROOM of the Childers home on Elm street. Note the maple furniture & charming wall map and antique silver cruet service.

DEN OF THE CHILDERS HOME, where Mary and Pat spend many pleasant hours viewing TV. Here Pat keeps his guns, and enjoys remote tuning of his TV set.

MRS. PAT CHILDERS pours a cup of coffee in the kitchen of her new home in Lenau addition. The countertops are tile in an oatmeal color, and the cabinets are birch.

Pat and Mary Hart Childers are almost newlyweds, having been married less than a year. They live in a brand new seven room brick home on Elm avenue in the Lenau addition. The house is on a corner lot and is built in an el shape to take advantage of the topography. The brown tones of the Coleman brick are offset nicely by a pleasant shade of tan trim. This is home for the Childers, and after a hard day on his farm, Pat likes to come home to a house, which, as we shall see, was designed for comfort as well as smart styling.

Mr. and Mrs. Childers are gracious hosts, and the visitor is met at the door leading into a charming foyer with sandalwood walls and deep carpet in a color called French carmel. A house warming gift—a syncwood wall shelf and fruitwood barometer—are decorative touches in the foyer.

#### Living Room

To the left is the living room, measuring 14 by 24 feet, with the same wall and floor colors as are to be found in the foyer and several other rooms in this delightful home. Color scheme here is tan brown and green, and this is carried out in the silk drapes, which the owners are quick to point out are the only drapes in the house not made of cotton. Pat is a cotton farmer, and insists on using cotton fabric wherever practical.

All told there are 2185 square feet of usable floor space in this new home, which has two bedrooms, kitchen, dining room, den, two baths, utility and living room.

All furniture and carpet came from E. R. Hart Company, and Stockard and Maguire built the home using material from Willson-Sanders Lumber in Muleshoe.

The living room features French provincial and early American furniture, grouped around an oval couch.

There are 12 closets in this house, and showers are in both baths which do not have tubs.

#### Bedroom

The guest bedroom is in turquoise and sandalwood, with modern furniture in bisque and turquoise accessories. A double closet with sliding doors is in this room, adjacent to a cedar lined linen closet, one of two such.

The first bath is in dusty rose and blue, with ceramic tile shower stall and dressing table top.

The master bedroom is done in green and black, with black modern furniture, two double closets and a Vibra-Matic mattress which the owners enjoy.

The kitchen includes birch cabinets, built-in GE range, oven and dishwasher, GE refrigerator and ceramic clay tile countertops in oatmeal. The floor is covered with corlon tile, which is also used in the adjoining utility room-laundry-office combination.

#### Mud Room

Pat's bathroom, which he calls his "Mud Room", is decorated in a sporting scene motif, and shades of tan and green. Clay tile is used here also, to make it easier for him to change after coming in from the farm.

A double garage, features a radio controlled overhead door double closets, and a lawn tool closet, opening out into the backyard.

The serpentine patio opens off the den, which has early American furniture, wingback chairs, a couch that opens into a single or double beds, and the TV set, which Pat likes to control with a chairside remote gadget. Here, too, Pat keeps his fine guns, which he treasures.

The dining room is delightful

#### BULA NEWS BRIEFS

### Bula School Holidays Thursday Thru Monday

By Mrs. John Blackman

Dinner guests Sunday in the Luke Walden home were Mr. and Mrs. Roy Mullinax, Mr. and Mrs. T. L. Harper, and also Mr. and Mrs. Billy Walden of Springlake.

Mr. and Mrs. J. D. Kyle of Morton visited Sunday afternoon in the F. L. Archer home.

Mr. and Mrs. J. R. Teaff, Mr. and Mrs. C. S. Hague and Mr. and Mrs. J. L. Latham attended services at the Hicks Chapel Baptist church Tuesday night. Rev. B. F. Smith is in a revival there. Mr. Smith was pastor of the Bula church for several years.

#### WSCS Circle Meets

Ladies of the WSCS Circle met Wednesday afternoon at the church for their regular meeting. The hour was spent in a business meeting. Ladies present were Mmes. L. H. Millin, F. L. Simmons, Paul Young, George Whilman, H. J. Kyle, D. T. Johnson, P. M. Lancaster and C. K. Holt.

#### Receive Degrees

Mrs. Claude Morrison, Bula FHA chapter sponsor, has announced that seven freshmen girls have received their junior degrees in FHA work and two sophomore and two junior girls received the chapter degrees and one junior girl to receive the state degree.

Mrs. Ocie Wilson accompanied the students from Bula to the regional interscholastic league contest Saturday at Texas Tech. Betty Hallford was entrant in typing, Carol Cook in ready writing, Sandra Augel in extemporaneous speaking and Shirley Cox in poetry reading. No first place or second places were brought back but the experience was good for the students.

Norvel Roberts, freshman pupil, won third in the Class B 100 yard dash at the regional track meet in Lubbock Saturday.

#### Easter Holidays

The Bula school will dismiss for Easter holidays Thursday afternoon, April 18 and will not have classes until Tuesday morning, April 23.

Visiting this week in the home of Mr. and Mrs. W. B. Gage are Mr. and Mrs. Lee Layman from Upland, Calif., aunt and uncle of Mrs. Gage.

#### Annuals Arrive

The senior class have received the 1957 annuals, "The Bula Bulldogs". A very attractive white leather book with the big red bulldog on the face cover.

The annual staff were: editor, Myrlene Nichols; assistant editor, Junior Austin; business manager, Sharon Holt; photographer, Jim Pat Claunch, and sports editor, Burley Roberts.

The annual was dedicated to both boys and girls of Bula

with maple furniture, a framed old map, and an antique silver cruet.

The house was started December 20, 1956, and completed 45 days later. Crushed marble roofing sets off the dark color of the walls and trim.

#### Today's Meditation

Read Matthew 26:36-46. "My Father, if it be possible, let this cup pass me. Yet, not what I will, but what thou wilt." (Matthew 26:39, Moffatt.)

In our prayer life, we must come to the point of self-surrender if we want to have our prayers answered. We know that the will of God is always best. We know also that we can trust Him because He loves us. Even so, it is not easy to say, "Thy way, not mine, O Lord" or to pray as our Saviour did in Gethsemane. "Not what I will, but what thou wilt." At an institute for youth, I had the great joy and opportunity to pray with and lead a young man to Christ. One day I got a letter from him. He told of his joy during the first days after giving his heart to Christ.

Later he wrote to say that his mother had taken seriously ill. Darkness displaced his joy. He said to God: "If Thou lettest my mother die, I cannot believe Thou art a loving Father and then I cannot love Thee." A storm was in his heart. But at last he prayed: "O Lord, I cannot leave Thee. Thou must do with my mother what Thou knowest is best." He had so grown in faith that he could both trust God and love Him.

#### PRAYER

O Lord, I know it is often hard to say, "Thy will be done." But I also know that Thy will is always the best for me. So I will say today: Thy way, not mine O Lord. In the name of Jesus Christ, my Saviour, Amen.

# Custom Combine Operator Gives Views On Sesame As Cash Crop

Cecil Taber, custom combine operator, has helped to make Sesame a great new money-making crop for the irrigated High Plains, a crop which in 1956 grossed more than \$110 per acre for many growers.

"Combining is my business", says Taber—who lives here. "I follow the wheat crop from Texas to Canada, swing back to combine maize on the High Plains, and end up the season threshing Sesame."

Taber, who holds the record for the amount of Sesame which he harvested on the Plains in 1956, says, "Sesame looks like a real good crop to me." I had just as soon thresh it as any other crop, and I know from personal experience that all of the tough harvesting problems have been solved. Harvesting goes smoothly now and there is just no seed loss."

Using two Model 90 self-propelled Massey Harris combines, Taber harvests about 50,000 pounds of seed in eight hours of running time. He charges 60 cents per hundred pounds of seed for threshing small fields and 50 cents per hundred for threshing big fields.

"We drive all our own combines and the Sesame grower furnishes the crew to push the shocks on the platforms", Taber said. "These platforms really do a fine job. You don't waste any seed and the platform take a lot of work out of the job besides."

Taber started the Sesame harvest early in October. He did the threshing for Allan Haley, Mar-

shall Head, Leon Lewis, Bill Bell and L. D. Sanderson, all of Muleshoe, plus the 525 acres for Clayton and Sam Sanders in the Farwell section. Three weeks were required to combine the big crops of Clayton and Sam Sanders.

"If the Sesame is shocked properly, the combining is much better and much cheaper", Taber says. He recommends 20 to 25 bundles per shock, and believes the bundles should be as small as the binder will make them. Thick planted Sesame makes smaller stalks and is easier to combine. He says the shock rows should be in line from one end of the field to the other so that the operator does not have to cross the rows with his combine.

"The Sesame grower makes more Sesame when the stand is thick", Taber commented. "It looks better when the stalks are skippy but the seed just don't run into the grain tank the way they do when the stands are heavy."

He says that Sesame is a better crop than maize and is easier and cheaper to combine than Sudan, and added: "If you take the cost of hauling into consideration, 1,000 pounds per acre Sesame doesn't cost the farmer much more to thresh and haul to the elevator than 5,000 pounds per acre Milo, because you don't have as many pounds of Sesame seed to haul."

When asked what recommendations he had for a new Sesame grower, he said: "Just use the recipe which produced 1,250 pounds of seed per acre on 300

acres for Clayton Sanders in 1956. Clayton's formula was worked out in cooperation with the Texas Sesame Seed Growers' specialists. It boils down to about four points: good farming practices, thick stand, high fertility and plenty of irrigation water."

## Deferred Grazing Bill Passed In U. S. Senate

Senator Lyndon B. Johnson's deferred grazing bill, a major drought relief proposal aimed at preventing excessive grazing of drought damaged pastures, passed the Senate this week. A similar bill in the House of Representatives was modified to conform with the Senate's version and sent to the White House for Presidential approval.

"This is very basic to drought relief", the Senate Majority Leader said, "and absolutely essential for an effective program. It not only directly benefits the farmers and ranchers in the drought sections, but also provides much-needed safeguards for our precious soil assets."

Senator Johnson pointed out that if stock were permitted to graze the land—much of it already ground and trampled into a fine powder—permanent pasture damage could result. "Soon the land would become barren and sterile, fit for nothing except melancholy lectures on how we lacked wisdom", he said.

The bill provides payments for deferred grazing at rates equal to the fair rental value of the land. The payments would apply only to non-federally owned land and to native rangeland, and the amount of payments would be limited to \$5,000 for any individual for any year. "Fair rental value" would be determined on the basis of normal grazing capacity of the land during periods of adequate precipitation.

"We were faced", Senator Johnson said, "with the choice of either keeping our stock off this land or losing our soil resources for decades to come. The direct impact will be felt in the Great Southwest, but beneficial effects will be shared by the whole nation and by generations ahead."

A U. S. government war loan to Britain of 88 million ounces of silver increased in value from \$62,480,000 when the loan was made to \$72,940,000, its current market price, when it was returned.

According to best estimates, no more than 14 per cent of the Texas voting population is out-and-out Republican.

North Koreans, who had no military planes at the close of the Korean War, have established a substantial air force with both jet and conventional aircraft.

Here's the Answer

## Parmer County Farm Bureau

Once in a while there is some good news for people who have to buy insurance. After May 1, all Texas companies will cease making an extra charge for insureds who have of age who drive their passenger cars. Boys under twenty-five will still cause you to pay more than you would otherwise. This is not intended as an insult to young men drivers, but results from the fact that girls usually drive only incidentally on errands, etc., while boys have to furnish the car for dating as well as showing off between dates to show their ability to cope with various traffic conditions. Anyway, the change will provide relief in some family instances. Farm Bureau requested that the age for additional charge for both sexes be changed from twenty-five to twenty-one. The request was not granted.

A note to people who claim road tax refund in farm used gasoline: In the past we have kept a small supply of affidavits for making such claims. Then, if you forgot yours, or were making your first claim, we loaned or gave you one. Our last request for a supply of the forms was answered with a very nice letter from Mr. Calvert, in which he referred us to the regulations of his department. The regulation says that you are to request a form from the comptroller if you are making your first claim. In the request you are supposed to tell what you use the fuel for and for. An affidavit will be forwarded to you. When you receive your refund check, an additional affidavit will be enclosed, with

An attempt to capitalize on a still-unperfected but potentially great agricultural advance—the Sudan-Johnson grass hybrids—is posing a threat of serious eradication problems to unwary Texas farmers.

Sudan-Johnson Grass hybrids, still in experimental stages are being falsely promoted as true varieties by people who somehow acquired seed from experimental stations. The product they are trying to sell is most likely a mixture of undesirable strains, containing Johnson Grass mixtures, Johnson Grass Hybrids and segregates from Johnson Grass.

These so-called hybrids, if planted, could be as difficult to eradicate as Johnson Grass itself.

One such "hybrid" seed, being promoted as "Perennial Sweet Sudan", is of very doubtful value since "Perennial Sweet Sudan" has not been formally released to farmers or seedsmen by the Texas Agricultural Extension Service.

The Texas Department of Agriculture Seed Laboratory has been unable to determine any difference between true Johnson Grass seed and some of the seed in question.

The Extension Service, which is working hard on the Sudan-Johnson Grass hybrid program, hopes to have some true variety developed after this year's crop is in. Preliminary results indicate that the new hybrids will be very beneficial for grazing and hay, having uniform juiciness, sweetness and structure.

All of our directors, past and present are grieved at the passing of another who served on the Farm Bureau board for several years, Hadley Reeve. Many letters pertaining to farmer's interests bear Hadley's signature, affixed while he served as secretary in PCFB's earlier years.

CONSIDER THIS: It is not for kings, O Lemuel, it is not for kings to drink wine; nor for princes strong drink: Lest they drink, and forget the law and pervert the judgement of many of the afflicted. Prov. 31:4-5.

## Stilbestrol and Antibiotics Tested In Fattening Rations at Spur Station

Combination of stilbestrol and antibiotics in yearling steer rations gave higher, more economical gains and heavier carcasses on extended feeding trials than either stilbestrol or antibiotics alone, report Experiment Station Animal Husbandmen.

Only slightly higher gains, however, were noted in a 96-day feeding trial when cattle were fed dual combinations of stilbestrol and terramycin, aureomycin or iotycin. It was only in a 140-day test that specialists detected a decided advantage for the antibiotic additives. Here steers responded with 29 extra pounds at market over those fed stilbestrol alone and they averaged 94 pounds more than a control group receiving neither form of supplement. Carcass weights of the combination-fed steers were generally more satisfactory than those from animals fed single additives.

Yearling steers in a 96-day experiment fed only stilbestrol at a 10 milligram per head daily rate went to market carrying 44 pounds more than a control group receiving none. Carcass weights were 31 pounds heavier. In similar tests extended to 140 days, comparable steers weighed 65 pounds more at market than the control group and dressed out 31 pounds heavier. In a separate 96-day trial conducted with steers carrying more flesh before entering the feedlot, the stilbestrol-fed group averaged only 27

pounds more at market and a lower dressing percentage dropped carcass weights 3 pounds below those animals receiving no hormone.

Cattle fed only the antibiotics terramycin, aureomycin or iotycin at a daily rate of 75 milligrams per head made higher gains than control animals, but lower gains than stilbestrol-fed cattle in either the 96 or 140-day tests.

Spayed yearling heifers made lower gains in a 96-day feeding trial, but graded two-thirds of a grade higher and sold for the same price as steers comparable in age and feed treatment. Beefmaster steers made higher gains in the feedlot and had a higher dressing percentage than Hereford steers, but the carcass grades were lower than for Herefords. PR 1923, available from the Agricultural Information Office at College Station contains details of the test.
