Great Throngs Attend Tahoka Roundup

Rodeo Packed With Rotary Meeting Good Performances

Famous Cowboys In Riding, Bulldoging, Roping Contests

Volume XXXIV

Cowtown atmosphere has prevailed in Tahoka the past few days, particularly during the Tahoka Roundup rodeo Wednesday and Thursday, when one of the biggest shows of its kind ever produced on the South Plains was seen by huge

crowds through four performances. Many thrills and spills, near-record times in steerriding and bulldogging, and ideal weather, all together made the rodeo most success-

Charlie Copeland, Plains, was director, assisted by Carl Dykes, Fort Worth, known everywhere rodeos are known. Day premuims totaled \$300 each day, and a \$100 roping saddle will be given the Tahoka Roundup champion cowboy. All first place winners received \$39.00, second

\$20.00, and third \$10.00. First day results were as follows:

Brone Riding: Texas Kid Jr., Fort Worth, first A. C. Wike, San Angelo, second. John Henry, Copperas Cove, third Brahma Steer Riding:

Harold Dickson, Carlsbad, Mexico, first.

Wilkinson, Throckmorton, and Mutt Ray, Houston, tied for second.

Geo. Mahon Back From Capital

Colorado, Sept. 8.-Congressman George Mahon returned from Washington Friday and opened his office office in order to maintain direct contact with the Government Departments. Mahon stated that after about ten days in his Colorado office he would spend much time in ferring with the people.

In referring to the past session of the tariff which for many years property rights for themselves? has accorded special privileges to If this phase of the matter should industry and raised the prices to be presented to the people of Texas the consumers. This will be in ad- generally, they might hesitate a dition to the subsidy payments on long time in conveying this property highway a mile east of Alvarado cotton, provided in the closing days if fee simple to Uncle Sam. of the session, which will tend to guarantee the farmer a total of about 12c per pound for cotton.

In adopting a substitute for the Visits In Tahoka present farm program, Mahon said that great care would have to be exercised in order to prevent discrimination against West Texas because the problem here is different from

that of the old South. Mahon said that the farm tenancy program which was adopted would be of little effect for some time, but he praised the expansion of the vocational education program gold. He is an honor to the Bench in the schools which made possible and Bar of this state. We do not

SHANGHAI FEARS PLAGUE

Cholera Adds to Death Toll . . . Chinese Planes Bomb American Liner . . . Britain Protests Attack on Envoy

SUMMARIZES THE WORLD'S WEEK

'Black Death' in Shanghai

A S IF there were not horror enough in Shanghai, the illfated city found itself face to face with a new peril-bubonic plague. The outbreak of the disease, first discovered in the French concession, where most of the American population lives, was traced in large part to the sanitary difficulties in removing the bodies of Hongkew civilians killed by bombings, artillery shelling and machine-gun fire.

Sanitary officers in the concession and the international settlement fought frantically to check the spread of the dread cholera. They were hampered by Japanese military forces which insisted upon keeping closed areas where there still remained bodies to be buried.

Admiral Harry Yarnell, commander of the United States Asiatic fleet, canceled all shore leaves for sailors and ordered Chinese hands off American ships. With the port of Shanghai closed to American shipping other than warships, because of the ever-increasing danger of bombs and artillery fire, 500 Americans who had intended to leave on the next liners out of port were stranded, making a total of 2,000 American inhabitants who remained exposed to the double dangers of warfare and cholera.

Announcement by the Japanese that they had perfected a plan for bombing every air base in China was regarded as a warning to foreign nationals throughout the 3,000,-000 square miles of Chinese territory that they had better evacuate if they were to be safe.

Evacuation of Americans from Shanghai was difficult with the ban on shipping. Warships appeared the logical means of rescue, but there were few in the Shanghai area capable of taking aboard large loads of passengers. Accordingly, a cruiser squadron of six ships was being prepared to leave the United States, steam to Shanghai and remove those stranded there.

The Japanese embassy warned foreign nations that they had better advise the Japanese navy of movements of ships into the vast blockaded area, lest these be mispeople get by, it may be because | taken for Chinese supply ships. The embassy intimated that cargoes of ammunition and military supplies might be denied admittance and advised foreign ships that it might be a good idea to permit Japanese aubefore entering the blockade.

*

International Crises

O NE grave international crisis followed another in the new Sino-Japanese war. Britain was still awaiting reply to her protest over the wounding of His Majesty's ambassador to China by a Japanese airman when four airplanes, identified as Chinese, swooped down upon the American liner. President Hoover, flagship of the Dollar line, dropping bombs which killed one person aboard and wounded eight.

The President Hoover, having deposited a load of refugees in Manila, was nearing Shanghai to pick up another load when the bombs struck, tearing 25 holes in the ship above the water line. The ship immediately notified Admiral Harry E. Yarnell, commander of the American fleet, who took command of all American shipping in the emergency. He ordered the President Hoover to continue to Japan, and radioed other vessels that they must not enter "hostile" waters off the Woosung and Yangtze lightships. It was only a few days before the President Lincoln, another Dollar liner, had had to run a gauntlet of artillery fire to get 160 American refugees on their way to Manila.

China's ambassador in Washington, Chenting T. Wang, lost no time in making complete apology for his government in the Dollar liner incident to Secretary of State Cordell Hull. He said the President Hoover had been mistaken for a Japanese transport by a Chinese aviator. He offered to make full financial redress immediately. It was indicated that a court martial was in store for the erring airman.

More spectacular, but only because of the importance of the person it involved, was the shooting of Sir Hughe Montgomery Knatchbull-Hugessen, British ambassador

to China. Britain's note to Tokyo was couched in stringent terms. It said,

"The plea, should it be advanced, that the flags carried on the cars were too small to be visible is irrelevant. There would have been no justification for the attack even had the cars carried no flags at

Trouble Ahead for Ford

TOHN L. LEWIS' magic touch effected a compromise between warring factions of the United Automobile Workers of America sufficient to permit the election of officers, but that failed to cover up the fierce dissension in the C. I. O. af-

filiate's Milwaukee convention. Several times only a fortunatelytimed adjournment saved a day's meeting from breaking up in a riot The clashes were between the "progressive" faction of the union, headed by President Homer Martin, and the "unity" faction, containing most of the "left" members, who opposed Martin's program. In the end, the Lewis compromise forced thorities to inspect their cargoes Martin to retain several unity group officers he had apparently been anxious to depose. New officers added were, however, chiefly adherents of Martin, and it was believed his faction still held control of the executive board.

Of chief importance in the convention was the decision to go shead with the campaign to organize the employees of the Ford Motor company. A special tax of \$1 per member, which would bring in a net of something like \$400,000, was voted for the purpose. Lewis predicted, Some day Henry Ford is going to be so very tired he will be willing to accord to his employees the rights that are due them."

War May Soon Be Luxury

O NE good argument for peace is that the rising costs of raw materials are making war more expensive than ever. This was demonstrated when London financial circles revealed that parliament will be asked to vote supplementary funds to carry out Great Britain's armament program for the present

In February experts figured the cost of armaments at \$7,500,000,000 over a five-year period. Now it is apparent that many more millions will be required. The cost of antimony has increased from \$385 to \$465 a ton, copper from \$265 to \$275, heavy scrap steel from \$18.75 to \$22.50, tin from \$1,135 to \$1,295, and zinc from \$105 to \$115. Steel ship plates a year ago cost \$46.75 a ton; now they are \$57.

Jersey Kids Picket Mayor

THE next thing you know babies will be picketing their cradles for more milk. Spurred on by frequent accounts of industrial strike picketing-or by the encouragement of disgruntled politicians-several hundred boys between the ages of seven and thirteen years rose in revolt against the city fathers of Jersey City, N. J.

Shouting their war cry, "We want playgrounds!", the youngsters tied up traffic with their parade. They dug up cobblestones from the streets, sprinkled the pavements with broken glass, built barricades of boxes and stones which made driving hazardous for automobilists.

The boys directed their campaign against Mayor Frank Hague and United States Senator A. Harry Moore, upbraiding them with placard mottoes condemning their alleged failure to provide sufficient playgrounds for the safety of children. Police dispersed them gently at first, but when they reorganized and resumed the picketing, the offiduct of hostilities which internation- | cers were forced to seize 15.

around the CAPITAL By Carter Field

Washington.-Never very potent, either as an orator on the floor or a manipulator behind the scenes in the senate, Joseph F. Guffey is being advised by close friends to run for governor of Pennsylvania. They contend, as diplomatically as they dare in their advice, that following Guffey's denunciation over the radio of the "ingrates" among his colleagues, his effectiveness in the upper house is destroyed.

Guffey is a very unusual figure in public life. His importance for years was due largely to a general conviction that he played along with Tammany Hall in the days when Tammany was pretty nearly New York. At any convention he was much sought after, on the theory that he would "throw" the Pennsylvania delegation whichever way New York decided to go, and it was much easier to get a deal or a story, according to whether the inquirer was a politician or a newspaper man, from Guffey than from any of the tight-lipped New York leaders.

So Guffey was always in the news, in the days just before and during a national Democratic convention. After the convention he subsided into comparative obscurity, save for occasional visits to national headquarters, when he would tell every politician and every newspaper man with whom he talked that Pennsylvania would be "in the bag" for the Democratic nominee if only he could get a liberal cash donation from the national committee.

His success in wheedling contributions for these forlorn hopes was astonishing. In 1928, for instance, he had John J. Raskob convinced that Al Smith could carry Pennsylvania if Raskob would just let Guffey have enough money.

"It's surprising," said the late Joseph T. Robinson, down at Hot Springs, Ark., for his notification ceremony, "what favorable reports we are getting from Pennsylvania. I believe we are going to carry that state."

"Don't let Guffey kid you," said | Fight Only Beginning a newspaper friend. "He just wants some of Raskob's dough.'

Four years later, however, the sun really began to shine on Guffey's political fortunes. Right at the outset he came out for Franklin D. Roosevelt, breaking the hoary tradition (never apparently very much justified by developments) of his alignment with Tammany. He was credited with winning a majority of the Keystone state's delegates for Roosevelt. In a way-assuming he could have delivered the same number of delegates to any one of the "allies"-he nominated Roose-

For all of which Jim Farley was profoundly grateful. And so was Roosevelt. Guffey rolled in campaign contributions for Pennsylvania. He didn't carry it, but the gratitude carried on. He was given so much patronage that there was a real revolt among the Pennsylvania Democratic representatives, led by no less a personage than Pat Boland, of Scranton, now whip

of the house. As senator, Guffey has simply been another pro - administration vote. His speeches had a canned flavor. He was accused of having them written for him by the Brain Trusters, and he has never denied

it. But he fumbles the reading! Now he has arraigned against himself every Democratic senator who revolted on the Supreme court enlargement, and, less openly, every Democratic senator who has revolted on anything. They don't like this reprisal idea. They suspect the President is accurately represented by Guffey, but that does not endear the Pennsylvania senator to them. So Guffey may decide to accept the advice of some of his friends,

and run for governor. Garner Manipulates Bill

Vice President John Nance Garner's holding of the sugar bill after all the formalities had been complied with - preventing President Roosevelt from getting it in reasonable time for a veto, was one of the most interesting, if unnoticed, developments of the closing of the session of congress.

Garner held that bill until late Saturday afternoon-virtually Saturday night-before sending it to the White House, although if he had been in a real hurry to get it there it could have been delivered Friday evening.

The point of course is why Garner did it. It must be remembered that the President had sharply rebuked Senator Pat Harrison, chairman of the senate finance committee, for his proposed "compromise." The President had publicly denounced the lobby of the refiners in mainland America as one of the 'most pernicious' in history. When the final compromise was put through, in form totally unsatisfactory to the President, it merely provided that the provisions affecting the refining of sugar should expire ten months before the end of the

three-year period during which the quota system should prevail.

Questioned on the floor as to why this had not been made a full year, Senator Harrison frankly admitted that it was because he intended to induce congress, if possible, to extend these provisions in that first two months of the third year. In short, as Senator Harrison and his friends viewed the situation, it was not a compromise at all, but the winning of all they contended for the first 26 months of the law's life, with a chance to win everything also for even the remaining 10 months.

Vice President Garner doesn't talk very much, but he knew what the President had been saying and how the President felt. Also he knew the temper of congress during those last few days. And he knew the extreme probability was that, if the President should receive that bill on Friday night he would veto it. In that event, Mr. Garner figured, there was little doubt as to what would happen-congress would rush the bill through over the President's veto.

This would have been another setback for the President's prestige. It is the kind of thing that a good party man does not like. Garner is above everything else a good party man. Whether he sympathizes with the President's ideas or not has nothing to do with the case, in most instances. The paramount motive with Garner always is that the Democratic party must be suprememust continue to present as solid a front as possible to the foe.

So smart "Cactus Jack" decided to give the President a breathing spell to cool off. The President of course would know that congress had passed the bill in the form he did not want. Secretary of the Interior Harold L. Ickes could be depended on to rush to the Chief Executive with a little oil for the fire even if no one else carried the bad news. But the President could not veto the bill without having the bill to veto, and Garner saw to it that the White House did not get the document.

As a matter of fact, if the President had vetoed the bill when Garner let him have it, assuming the veto message was dashed off within five minutes of receipt, the messenger with the veto message would have had to hurry to get to the capitol before the final gavel. And at that stage Garner could probably have gaveled his way to adjournment without most of the senators knowing what the "message from the President" was all about.

President Roosevelt's legislative program for the congress, as outlined in a conference with senate and house leaders on June 5, is very interesting reading how, but it would have been a rash prophet indeed who would have dared predict any such percentage of failure as actually developed.

Not that this means permanent failure. Many of the things that were caught in the stampede for adjournment or went over for other sound reasons may be enacted next year. Only two defeats seem sure. One was actual enlargement of the Supreme court. The other was reorganization of the federal departments and bureaus.

The President has not given up on either of these. Actually in the Supreme court case he has won, though he is not claiming victory. He has the substance, but he wanted terribly to have the technical knockout, shadowy as such a victory might possibly have proved.

On government reorganization, as predicted in these dispatches many times, he can have a great deal when congress finally gets around to voting on the bill-but not the things he particularly wants, notably executive control over such independent commissions as interstate commerce and federal trade.

Wages and hours regulation will of course go through next session, but the chances are now that the bill even then will be much more moderate than the President wished. The little sawmill and factory owners of the South have felt their oats, so to speak, and will be even more outspoken from now on about things they do not like.

Crop control was not mentioned at the June 5 conference. It really was on the agenda all the time, but intended by the White House to come after the bill enlarging the Supreme court had passed. Obviously the only satisfactory plan for contracts not to grow crops with individual farmers would not pass the hurdles set up in the old AAA decision until the court was changed. But the probability now is there will be sufficient change on the court before any such measures can be gotten through the next session to assure fair promise that this legislation will be upheld.

Indeed the President for quite a time was for holding back the wages and hours legislation until the court bill had become law.

National planning, as to water resources for the various regions of the country, was another item on that June 5 program. While the President has not specifically endorsed Senator George W. Norris' seven TVAs measure, this is generally understood as being in accordance with his ideas.

On that bill there will be a real fight next session, but the President has a better chance of victory there than on getting his own tax ideas enacted.

Ask Me Another A General Quiz

1. What is the cost of the paper used in printing United States cur-

2. In baseball what do the following letters stand for: AB, R, H, O, A, E, and BB? 3. How much is a skein of wool-

en yarn? 4. What is the significance of

edelweiss? 5. How is the air in Carlsbad

caverns kept fresh? 6. What was the boudoir parliament?

7. What state collects the most money in sales taxes?

8. How much of the retail business of the United States is done on a cash basis?

Answers

1. The distinctive paper used in making United States currency costs the government 37 cents a pound. It is estimated 1,743,236 pounds will be used in 1937. 2. At bat, runs, hits, outs, as-

sists, errors and base on balls. 3. It is equivalent to 256 yards. 4. The flower is an emblem of purity in literature and painting. 5. No artificial means is neces-

sary. Some undiscovered natural process keeps the air fresh and pure. The temperature remains about 56 degrees Fahrenheit at all times.

6. This is a reference to the great influence which Mme. de Maintenon had on Louis XIV and his advisers.

7. In 1936 California ranked first in sales tax collections, with a total of over \$70,000,000. Illinois was second with receipts of over \$61,000,000, and Michigan third with over \$45,000,000.

8. The domestic commerce division of the Department of Commerce says that 67.8 per cent of all retail sales are for cash on the counter or cash on delivery.

Electrocuting Whales

The newest method of killing whales is with an electric harpoon. The current goes by wire to the head of the harpoon, spreads through the body of the animal and returns through the water to the negative pole on the side of the ship, thereby completing the circuit and causing instant electrocution.—Collier's Weekly.

GET RID OF **BIG UGLY PORES**

PLENTY OF DATES NOW...DENTON'S FACIAL MAGNESIA MADE HER SKIN FRESH, YOUNG, BEAUTIFUL

Romance hasn't a chance when big ugly pores spoil skin-texture. Men love the soft hness of a fresh young complexion. Denton's Facial Magnesia does miracles for unsightly skin. Ugly pores disappear, skin becomes firm and smooth.

Watch your complexion take on new beauty Even the first few treatments with Denton's Fecial Magnesia make a remarkable difference. With the Denton Magic Mirror you can actually see the texture of your skin become smoother day by day. Imperisotions are washed clean. Winkles gradually disappear. Before you know it Denton's has brought you entirely new skin loveliness.

EXTRAORDINARY OFFER

— Saves You Money

Ton can try Denton's Facial Magnesia on the most liberal offer we have ever made—good for a lew weeks only. We will send you a full 12 cs. bottle (retail price \$1) plus a regular sized box of famous Milneda Waters (known throughout the country as the eriginal Milk of Magnesia tablets), plus the Denton Magic Mirror (shows you what your skin specialist sees) . . . all for only \$1! Don's miss out on this remarkable offer. Write today.

DENTON'S

CHAPTER XI-Continued

Memory slashed into her self-congratulation. Mrs. Gregory had witnessed a will a week before Mrs. Dane had died. Where was it? Should she go to Jed Stewart at once and tell him what she had heard? But he knew. He had asked

Mrs. Gregory to say nothing about it. Why hadn't he told her? What did it all mean? It gave her a panicky feeling, as if she were wandering blindly in the dark on the edge of a precipice. She poked the fire vigorously. It was a physical outlet to her turmoil of mind.

"Take care, Miss, or you'll set the chimney afire," Henri warned from the threshold. "I think not. It was thoroughly cleaned when I came here to live.'

Why was he puttering? He was drawing the hangings over the windows, pulling a rug in place, refolding the morning newspaper on the desk, fussing about the parrot's cage, a parrot who had lost half of his tail and all his self-assurance since his excursion into the outer world.

He cleared his throat and drew long bony fingers over his slack mouth.

"I-I've been wanting a chance to talk with you since-since wewe found the parrot, Miss." He was avoiding mention of the

tragedy at the filling-station. Why? "What have you to say to me?" He drew his fingers across his mouth. "It's about that-what happened at the filling station. You know I went to the movies that evening, came home and went to bed. Miss Lucette and the others saw me when I came down to find out what the noise was I heard. You know that after that I dressed and went out to hunt for the parrot, that I brought him in with me, but the police want to check up on me every minute. You can help me very much, Miss."

"How?" "By swearing that I was in this house at the time of the-the rob-

bery at the filling station."
"But, as I remember it, you weren't, Henri. You said that you were hunting for the parrot." The butler emitted a sound like

the snarl of a savage beast at bay. "You'd better say I was, Miss, or-or I'll tell how I found this in your desk." He drew a folded paper from his pocket.

"Mr. Sam has overlooked grand dramatic material right here, Hen-You would steal the show as the villain in his comedy. Just what is 'this'?" Her voice was tinged with amused unbelief. "Take it, Miss."

Brooke thought of the fangs of a wolf as he smiled his secretive smile. She unfolded the paper and noticed that a tiny corner of the sheet was missing. Mary Amanda Dane's writing! Mrs. Gregory's signature! Henri's. Clotilde's. Was it the will of which Mrs. Gregory had spoken only a few moments ago? How had it come in Henri's possession?

"You say you found this in my desk?"

The butler's greedy eyes glit-tered like black beads. "Yes, Miss. I'm prepared to swear to that in court unless we can come to

terms." "Why didn't you take it directly to Mr. Trent or Mr. Stewart?" Was her voice as icy as her body felt?

"I thought it was too bad to do that until I found out if you and I couldn't work together. Mr. Mark tried to get me in wrong with the old madame." Hatred flamed in his eyes and voice. "Why should I help him?"

"Will this-this-help him?" "Read it, Miss."

"I'll wait until I'm alone. The paper is torn. Did you tear it when you-pulled it from my desk?" Henri's teeth showed between suddenly pallid lips.

"I-I-didn't pull it, Miss. I-I took it careful."

The last word was a whisper. What was there about a torn corner of a sheet of paper to terrify him? "I'll talk with you about it later, Henri; perhaps—perhaps, as you suggest, we may be able to work together."

"I thought you might see it that way, Miss, but-don't take too long."

Brooke stood rigid, listening until she heard the door to the china closet swing. Curious how she had come to know every sound in this house which had been hers for so short a time. Hers! Was it hers? What was in the paper which Henri would swear he had found in her desk? She had pretended to consider his proposition that they work together merely to get time to decide

what she should do. She raced up the stairs, switched on the light in her boudoir, locked

the door behind her. She spread out the paper on her desk, shut her eyes hard, drew a long breath before she looked. There was not much on the page, but what there was, was in Mrs. Dane's fine writing. The date was that of a week before she died. The words burned into Brooke's mind as if

written with a red-hot poker: "I don't know how to word a formal will, but I hereby give and bequeath all my property real and personal-which I left in a previous will to Brooke Reyburn-except

By Emilie Loring

@ Emilie Loring. WNU Service.

be given to my faithful servants, Henri and Clotilde Jacques, to my nephew Mark Trent, to have and to hold during his life and to dispose of as he wishes. I know now that my ideas of right and wrong should not deprive him of his rightful inheritance. He was a wonderful son. He has been a devoted nephew. I make him sole executor without bonds of my estate. I ask him to provide an income sufficient for frills and fun for my dear young friend, Brooke Reyburn.'

Brooke studied the signature. Mary Amanda Dane's without a doubt, unless it was a clever forgery, Anne Gregory's name sprawling under it, and Henri's and Clotilde's tight, foreign writing.

Suppose she destroyed this paper which would deprive her of a fortune? A lighted match under it and

Was She Two Persons?

would know? Who would believe Henri against her? Wasn't he already under suspicion in the filling station hold-up? Suppose he did try blackmail? He wouldn't get far with

What terrible thing was she thinking? The eyes of the white faced girl who stared back at her from the mirror were big with horror. Was she two persons? Had her other self turned craven? Had that thought changed her face? For an instant she had been a criminal at heart. She, Brooke Reyburn, who considered her personal standards of honor and decency of the highest. After this she would understand temptation as she never had understood it before.

A car! Lucette and Sam. She must hurry and dress. Sometime during the evening she would give the paper to Mark Trent. That would be her answer to Henri Where could she put it meanwhile? She would tuck it inside her frock.

She was fastening the corsage of green orchids Mark Trent had sent her to the front of her gleaming silver frock when she met her brown eyes in the mirror. She dropped the flowers as if they had burned her fingers. She couldn't wear his gift until she was sure that he believed that she had not known until this evening of his aunt's change of mind. Why hadn't he come directly to her when he had heard Mrs. Gregory's story? Because he believed she knew where the will was, that she was dishonest, that was why. Perhaps he was right. What would he think of her if he suspected that for a split second she had thought of burning it?

She would wear Jerry's gardenias; she had chosen Mark the Magnificent's orchids first, simply because he was her host, she assured herself.

She added more color to her white cheeks, to her lips, dusted her face with powder, anything to switch her mind from that nightmare instant of terrifying suggestion.

She waited until she beard her brother's and her sister's doors close before she opened hers. Sam popped his head out and called: White tie tonight, Brooke?"

"Of course, Sam. Our promising young playwright must be swanky. I've had your top hat ironed and there's a gardenia in a box on your dresser.

She heard his groan of resignation as she started down the stairs. She stopped on the threshold of the living-room she loved. Now it would be torn up by the roots, all her father's treasures would go back to storage. And her gorgeous flower - windows would be but a dream. Would she be obliged to return the money she had spent? That would mean dragging a ball and chain of debt the rest of her life. Cheerful .prospect. Could Mary Amanda Dane's "little friend, Brooke Reyburn," see herself accepting from Mark the Magnificent an income sufficient for "frills and fun"? Never. She would have to hunt for a job. But she wouldn't have to hunt-she wouldn't! The Palm beach offer! Had the position the amount as stated in said will to | been filled? She would send a night

letter. Better do it now before Sam

and Lucette came down. As she waited for the telephone call to go through, she told herself that she had learned one inestimable lesson: she had learned that for every person the gateway to success was in himself; that achievement was a matter of keeping on keeping on, of giving one's best and trying, everlastingly trying to make that best better. She was returning to business equipped with that knowledge.

She gave her message and turned to the fire. She didn't really mind going back to work, she had loved it, but she had planned to do so much for her mother, for Lucette, for Sam.

Sam! Nothing must happen to distract his mind from the production of the play. If she were to produce that will now, the neighborhood, to say nothing of the cast, would palpitate with excitement, the Reyburns would have to leave Lookout House at once. She knew nothing of law except that it was as relentless as a juggernaut. What the court decreed had to be done. A producer from New York was coming to see Sam's comedy. The Boston manager wouldn't bring him down unless he thought Sam had talent. The performance was only 48 hours away. Could she keep Henri quiet until then? If she couldn't she was the world's worst actress, and Sam had said that she was good. After the play Mark Trent was to keep open house for cast and audience. She would stay until the last guest had departed, then she would give this will, burning against her skin, to him and fade gracefully from the picture. Better lock it up in her desk until then. It wouldn't be safe to carry it around with her.

Back in her boudoir she locked the paper in an inside drawer of her desk and slipped the key into her bag of silver sequins.

Returning to the living-room, she paused before the portrait above the mantel. "This all means that you and I will be on the move again," she said in a low voice. "On the move, but with banners, Duchess! With banners!" She threw a kiss to the woman in green satin and emeralds who looked back at her gravely.

Sam appeared in the doorway. and Brooke quickly asked: "Have you heard any more particulars about-about what you call the crime wave?"

She perched on the arm of a big with one elbow on the mantel. "Nope, nothing except the usual

lot of wild yarns which roll up like snowballs at a time like this. Have you ever thought that one of her ex-lovers might have bumped off the fair Lola?'

"Sam! Where did you hear that?" "Didn't hear it. That ex-lover motif is a plot, a little thing of my own. It's my conception of what should have occurred to put claws, tearing, digging, ravening claws into the Filling Station Mystery. May use the idea sometime; that's why I asked you to clip all the accounts of the police activities and confessions, if there were any. Have you done it?"

"I have, from every paper I could get hold of. When you want them they are in a manila envelope in the lower right-hand drawer of my desk. I haven't said anything to you about it but I was afraid that after what had happened, Mark Trent might feel that he could not

go on with the play." "Afraid! That's putting it mildly. I nearly had heart failure till he assured me that he would keep his part. He'll make 'Islands Arise.' He does more than play the lead, he puts glamour into the comedy and warmth and strength and vitality. I told him he was a fighting lover. He looked queer for a minute; perhaps he was thinking that he didn't put up much of a battle for that wife of his who walked off with the French count. Why should he change his plans for a woman like that? The shock of the tragedy has practically worn off. Spirits are picking up and by day after tomorrow everyone will be keen to make whoopee, to get the thing out of their minds. Two days! Boy, but I get cold feet when I think of all that night means to me.'

He frowned at his younger sister who, in a diaphanous white evening frock sprinkled with gold leaves, appeared in the doorway.

"Lucette, when Jerry Field quotes 'Islands Arise,' look as if he were saying something serious, not as if he were inviting-

"I've followed exactly the business in my sides, Master Reyburn." "Don't apologize." "I'm not apologizing. I'm explain-

ing. "Remember, kiddo, that tomorrow night will be the last rehearsal."

"For which blessing, praise be to Allah! I'll tell you right now, Sam Reyburn, you'll never get me in another play of yours."

"Boy, I won't want you! 'Islands Arise' will be a smash hit! I'll have the best actors in New York camping on my trail for a chance in it! I'll-" He looked at his sisters watching him with fascinated eyes. Dark color surged to his hair. "I suppose you two girls think I'm a

Lucette made a little dash towa him and patted his arm. (TO BE CONTINUED)

Lesson for September 12 A NATION NEEDS RELIGIOUS

HOMES. LESSON TEXT - Deuteronomy 6:4, 5;

11:18-25.

GOLDEN TEXT—Train up a child in the way he should go: and when he is old, he will not depart from it. Prov. 22:6.

PRIMARY TOPIC—At Our House.

JUNIOR TOPIC—At Our House.

INTERMEDIATE AND SENIOR TOPIC

What Makes a Home Christian? -What Makes a Home Christian?
YOUNG PEOPLE AND ADULT TOPIC
The Influence of Christian Homes in a Na-

Home! The very word stirs our hearts and quickens the most precious of memories. Toward its comforting threshold turns the one who has borne the heat and the labor of the day. Within its portals are those who gladly give themselves in sacrificial service that it may indeed

be a haven of rest and comfort. The inroads of modern life and of our so-called civilization are doing much to break down home life. All too frequently home has become the place to which one goes when there is nowhere else to go; a place to sleep, and sometimes to eat; an address for mail; a tele-

phone number. Shall we then abandon the effort really to maintain a true home-one that is in touch with God, and therefore ready to serve man? No; for now as never before we need the influence of a home life empowered by the worship of the true God and guided by his Word. None of us, who are engaged in the determined effort to maintain such a home in the midst of the driving intensity of present day living, speaks too easily on this subject. We know the difficulties; we have heavy-heartedly tasted failure; but we also know the sweetness of victory. By God's grace we press on.

In his dealings with Israel God presents to us an example of what a godly home may be, and what it will accomplish for the community and for the nation. Such a home-

I. Worships the True God (vv. 4, 5). This is "the first and great commandment" of the law, according to our Lord Jesus. (Matt. 22:36,37.) It is an important part of the Scripture repeated twice daily by all orthodox Jews. In its context, in Deuteronomy 6, it is clearly associated with the home. It is there that he who is the "one Lord" is to be loved, which means far more than that he is vaguely recognized or distantly respected.

II. Honors God's Word (vv. 18, 19). Loving God and his Word is not a matter for theological speculation or for sanctimonious discussion in some dark cloister. Thank God the Christian faith is at its best in the ordinary affairs of life. It finds its proper place in the tender relationship of parent and child. Its teachings are pure, delightful, simple, and entirely appropriate to any occasion, whether one sits or rises, walks, or lies down. God's words are the words to be laid up in the heart and in the soul, to be taught to our children, to be the constant and normal subject of conversation. III. Testifies to the Community

(vv. 20, 21). We may not, as did the pious Jew. fasten a little container bearing God's word on our doorpost, but we may make the home itself and the life of its inhabitants an effective testimony for God before our neighbors. It is obvious that the home either speaks for or against God. A profession of faith in him, an outward reputation for adherence to religious principles which does not vitally touch our dealings with one another and with the community in which we live-these clearly testify not for God but against him.

IV. Serves the Nation (vv. 22-25). God promised that if Israel diligently kept his commandments, loved him and walked in his ways, they would be a nation that would overcome and dispossess their enemies, and prosper in every good

Statesmen clearly see that the home is the unit of society. It was established upon the earth before the nation, in fact, before the church. No nation can ever really prosper without homes of the highest type.

But a house without God is not really a home, even though it stand in the midst of a garden. Neither the school teacher, nor the pastor of a church can take the place of a God-fearing father, and of a mother who not only knows God but who can tenderly lead the steps of trusting childhood in the paths of righteousness. Our lesson title is right: "A Nation Needs Religious Homes," or, better, "America Needs Christian Homes."

Faith that Overcometh There is no more enviable condition than that of him who has made the pressure of adverse things the means of a deep faith.

A Divine Mission Know that life is a divine mission. for which you have received and shall receive divine power.

A Mother's Love No language can express the power and beauty and heroism and majesty of a mother's love.

"Didn't you say your dog's bark was worse than his bite?"

"Then for goodness' sake don't let him bark. He's just bitten me."

Something Else

"Yes."

Chorus Girl-I stand in front of my mirror for hours admiring my beauty. I suppose you'd call that vanity?

Friend-No-imagination.

CONSIDERATE

Wife-There's a mistake of 50 cents in the butcher's bill today. Husband-I'll go around and see

about it at once. Wife-The mistake is in our favor.

Husband-Oh, we'd better not pay any attention to it. We might get somebody in trouble.

Said a police court defendant: "I was not committing an assault. I was merely emphasizing the facts of the ease." But perhaps he put too much punch into it?

Handy

"Hullo, Brown! Where are you going with that empty golf bag?" "To the greengrocer's. My wife wants a head of celery and a bundle of rhubarb."

QUICK! STOP CHILLS AND FEVER!

Take This Good Old Medicine for Malaria!

When you've got chills and fever, you want real and ready relief. You

old misery. Grove's Tasteless Chill Tonic is what you want to take for Malaria. This is no new-fangled or untried preparation, but a medicine of

Grove's Tasteless Chill Tonic contains tasteless quinidine and iron. It quickly relieves the chills and fever and also tends to build you up. That's the double effect you

The very next time you have an attack of chills and fever, get Grove's Tasteless Chill Tonic and start taking it at once. All drug stores sell Grove's Tasteless Chill Tonic, 50c and \$1. The latter size is the more economical.

A Lie Without Foundation A lie has wings and can fly far but has no feet and cannot stand.-Chinese Proverb.

Room for Courtesy Life is not so short but that there is always room for courtesy: —Emerson.

Needed Ingredient Patience is a necessary ingredient of genius.-Disraeli.

constituted legislative body, not the President, not the head of some department, not some "brain-truster"

We should guit cussing congressmen for showing some independence. on the other hand, we should praise the congressman who thinks for himself and who has the courage to vote his convictions regardless promised rewards or threatened rereprisals, even though we may not agree with his conclusions.

We should

the official servant of all the people. If by the force of logic and reason his rights. A great President will do. often do that very thing. But a great President will not undertake advertising that was given us last into line" by threats, intimidation, or reprisals

Furthermore, a great President will not undertake to purchase favor ing special favors to this group and that because they are numerically strong or politically powerful.

We wish that we might get the almighty dollar out of our eye, as important as it is, long enough to get again a true perspective of the structure of our government and a and powers of its three different branches and that we might reamong themselves.

WAR: THERE AINT NO SUCH ANIMAL

China and Japan are in the death struggle of an undeclared war.

These war cursed nations are too foxy to declare war. So far as other nations are concerned. China and The President has no constitu- Japan are technically at peace with

If either of these two nations were nan Congress is our duly us all they need so they don't de war, both parties would soon fighting on empty stomachs.

Under recent laws passed by Congress in the hope of preserving peace there was no war in China. We are in the position of the farmer when he first saw a giraffe: "There aint no sich damed animal." But at the same time: they are killing each other by the thousands. To keep in practice, they are killing English, Americans and others who happen

to be good targets. Some might say: "What are English, Americans, and other foreigners doing in China? Why don't they stay out?" The answer might be: 'What are Japs, Chinamen, English, Germans and others doing in this is on the warpath. He is now after country?" It can be answered, that the scalp of his former friend

I'M IN EARNEST-MORE MILEAGE FOR YOU IS MY LIVING

I'm in business all for myself. I can't afford to lose customers. The finest way to hold them, is by having an oil that isn't always making you add another quart, and keeps the engine quiet. That's why I specially want to tell you about my Conoco Germ Processed oil and the improvement you get. Now your everyday oil naturally just flows around. It can't stay up through the engine all by itself. But Germ Processed oil absolutely does. It forms the nearest thing to a permanent layer of oil—a real plating of oil, which doesn't keep getting all used up. And it can't ever fail to keep real good lubrication on every last part of your engine, all the while you use Conoco Germ Processed oil. Nootheroil can Oil-Plate your engine. Which gives my station quite an edge with folks wanting to be economical but safe on their oil.

Be An Up-To-Date Farmer

Tractor Farming has come to stay. It's a far cry from the bronco busting days of a generation ago when countless cattle roamed the range to the big-scale farming days that are with us now, when mighty gasoline tractors scurry across expansive fields drawing modern plows that turn many acres of rich soil each day, and that are used to cultivate vast fields of cotton and maize. Tractor farming indeed has come to stay.

The McCormick-Deering Farmall Tractor

This year has demonstrated its worth. If you are in doubt, ask any one of the hundreds of farmers in Lynn county who are using them. They know. When in Tahoka drop around to our place of business and take a look at our line of tractors.

SUPREME DICTATOR-ELECT, LOYAL ORDER OF MOOSE

Cleveland, Ohio, September 3 .-William J. Egan, Assistant Attorney General of New Jersey, was today unanimously elected Supreme Dictator of the Loyal Order of Moose by the delegates to the 19th Annual International Convention of this fraternity. His one-year term of office begins immediately.

Mr. Egan is fully qualified for this important office, the highest elective post in the Moose. He has had much experience in serving his fellow men by assuring their security and comfort. While Director of Public Safety for the City of Newark, N. J., he was daily concerned with their welfare. As Supreme Dictator of the Moose, he charges himself with the additional responsibility of helping to care for widows and orphans and for the aged-two vast missions of this world-wide fraterlity, as expressed in the Moose hild city of Mooseheart, in Illinois and in Moosehaven, the Moose home for the aged in Florida.

eastern side. Hence, while others three years. went far afield to seek fortune, Mr. Egan found his horizon, figuratively,

Watermelon Feast At

Members of the Baptist Church enjoyed their annual watermelon feast on the beautiful and spacious church lawn Tuseday night

E. J. Cooper and Homer St. Clair had hustled or rustled for the melons and had eighty big, round yellow-meated melons in waiting. though not all of them were needed.

The occasion was used for a double purpose, to welcome the new public school teachers to our town and the new members into our church and to honor Mrs. J. B. Walker, who has been a member of this church for more than thirty years and who is about to remove to Lubbock.

The pastor and one of the deacons spoke a few words of welcome members, and Dr. K. R. Durham and Miss O'Bera Forrester spent a few minutes each in "razzing" Mrs. Walker good-naturedly. Dr. Durham closed his remarks by presenting to Mrs. Walker on behalf of the women a nice set of dishes. A beautiful bed-spread was another gift. Mrs. Walker responded in her char-

acteristic and inimitable manner. Mrs. Homer St. Clair, another early-day member of the church. spoke most appreciatively of Mrs. Walker's service and faithfulness in the work of the church, as did al-

so the pastor. Then followed the melon feast. Mrs. R. C. Forrester was director of games but most of this part of the program was dispensed with on account of threatening rain.

Herman Kornegay, public weigher at New Home, recently had a batch of cotton tickets printed in the News office. He is confident that a bumper crop of cotton will be harvested in the New Home country but is uncertain as to the amount of it that will pass through the public weigher's hands. He was in Tahoka Monday afternoon accompanied by L. W. Roscoe, who will assist him in the

"Shows 'Em"

Joe Bovell came in Monday and purchased a few extra copies of the News to send to some of his friends who reside in the vicinity of Dallas. Joe was reared in that country and he says some of his good friends down there have been warting him about living out here in the "dust bowl". He just wanted to show them what we have in this country and thought a copy of the News would get the job done. The News goes to many subscribers in other parts of the state each week. We say it modestly but we believe a good newspaper is worth many times as much to a town as a chamber of organizations are.

By the way, our old oil scout friend, J. B. Nance, sends one or more copies of the News to friends elsewhere nearly every week.

Use for Old Shaving Brush-A discarded shaving brush makes a splendid blacklead brush, as it penetrates parts which are difficult to reach with an ordinary stove-brush.

Rhubarb Charlotte-Wash and stew rhubarb but not to breaking point. Fill dish alternately with rhubarb and sponge cake and cover with lemon jelly. Leave to set and serve with whipped cream.

Eggs and Mushrooms-Put 2 ounces of fresh butter into a stewpan; break over it 4 fresh eggs, and add 3 spoonfuls chopped mushrooms, 1/2 teaspoonful salt, 1 saltspoonful ground white pepper. Stir the mixture with a wooden spoon over a clear fire until of a thickish consistency, and serve very hot on buttered toast.

Laundry Hint-Transfer marks left after a piece of embroidery is completed may be taken out before the article is squeezed through in warm water by rubbing gently with a piece of cotton wool moistened with methylated spirit.

When Dressmaking-Keep a bottle of eucalyptus oil handy, as it removes grease and machine oil from any fabric.

Removing Tea Stains-Tea stains on china are best removed by rubbing with damp salt.

For Boiled Ham-When boiling ham add a small teacupful of vinegar and a few cloves to the water. This will improve the flavor. If the ham is allowed to cool in the water in which it was boiled it will be moist and sweet.

Thought Wields Great Influence in Our Lives

Practically all the ills in life spring largely from our ignorance

of the working of mental laws. Most of us have no idea that thought has more to do with determining our conditions, with shaping our circumstances and environment, bringing us poverty or wealth, attaining our ideal or driving it from us, than any other thing.

Most human beings could be living in comfort and happiness, if they only knew the powers locked up in themselves and had learned the secret of using their minds to back up their efforts on the material plane.

Genius

Genius is a reward paid to men who develop their resources. You can develop genius by work. The genius in your shop, in your office, in your plant, is the man who

ADVENTURERS' CLUB

HEADLINES FROM THE LIVES OF PEOPLE LIKE YOURSELFI

> "Breath of Life" By FLOYD GIBBONS

Famous Headline Hunter TELLO EVERYBODY:

I'll bet you'd have felt pretty tough, too, if this had happened to you. If you were lying at the door of death-depending for your very life on the efforts of two or three of your pals who were trying to save you—and you heard one of them say, "Aw, heck, fellows, we're not getting anywhere with this. Let's give it up for a bad job,"—well—in a case like that I wouldn't blame any man for getting discouraged. And so was Don Ward discouraged, on that day back in May, 1932, when that identical thing happened to him.

Don has a job now at the Pilgrim State hospital at Brentwood, N. Y. He doesn't go out any more to shoot trouble among the electric wires and cables of Long Island, but in 1932 he was a lineman employed by a firm of electrical engineers in Northport, L. I., and worked with a gang of six men, stringing wires all over the surrounding country.

Chris Anderson was the boss of that crew, and there's another lad in that outfit whom we might as well mention now as at any other time, because he played a big part in this story of Don's. His name is Kelly, and he had a couple of sore feet and a stubborn disposition, and if he hadn't had both of those things it's a different yarn we'd be telling today.

Kelly's Sore Feet Started It All.

The crew was running a new street light circuit in Stony Brook, L. I. Don and Kelly were working together. They had strung seven or eight sections of wire when Kelly began to complain about his feet. He had on a new pair of shoes that day, and climbing up and down the poles made them sore. So Don told Kelly to stay on the ground. He'd take over the part of the work that called for climbing.

Don went up the next pole. There were a lot of other wires strung on it-old ones from which the insulation had worn off until they were practically bare. Don admits he should have been more careful in tack-

"I Struggled and Wriggled With All My Might."

ling that mess. There were safety devices in their truck that he could have used. But the fellow who works on even the most dangerous job gets careless once in a while, and this was Don's day to do it.

Don was passing one of the two new wires he was stringing over the cross-arm of the pole when it happened. His left arm rubbed one of the worn live wires, and at the same time his right leg rubbed against an iron brace. It made a direct short circuit and sent TWENTY-THREE HUNDRED VOLTS through his body.

"It held me fast," Don says. "I was powerless to break the contact. The only way I can describe the feeling is to say that it seemed as though some monstrous being like King Kong had me held at arms length and was shaking the daylights out of me. I could hear the generators throbbing in my ears as though I was right in the powerhouse. I struggled and wriggled with all my might, but it wasn't any use."

In the meantime Don's partner, Kelly, had walked down the road a few hundred feet. Suddenly he heard a moaning sound and turned, to see Don hanging on that cross-arm, his clothes burning and his face contorted in a look of terrible pain. He raced back to the pole, climbed up it and cut the wire that was feeding juice into Don.

They Thought Don Was Done For.

Don, in the meantime, had slumped down unconscious, with only his safety belt holding him on the pole. Kelly took a rope from his belt, looped it under Don's arms, and lowered him to the ground. The other linemen came running from down the road a piece and gave Kelly a hand. They stretched Don out on the ground and looked him over. He wasn't breathing—and it seemed as if his heart had stopped. It looked bad for Don, but the boys went to work on him giving him artificial respiration.

For twenty minutes they worked on Don, taking turns at pressing with their hands to force a little air in and out of his paralyzed lungs. Twenty minutes and no sign of life! But though there was no sign of it, life was still there. Just a few seconds before, consciousness had started to return to Don. He was trying to get his lungs to work again-doing his best to help those fellows who were doing his breathing for him. He couldn't move a muscle-couldn't speak or even open his eyes-but he knew he would be all right if his pals worked on him a little longer.

And then came the most disheartening moment of Don's life. Out of a clear sky Don heard one of the fellows say: "It's no use. boys. HE'S GONE. We might as well quit and take him back to the truck."

Saved by Kelly's Stubbornness.

Don wanted to scream, but he couldn't breathe by his own efforts. Were they going to give up and leave him to die? All the terror of a lifetime was packed into his heart in that one brief moment. But the man astride his back still kept on pressing away, forcing the air in and out of his lungs. Again the first fellow made this terrifying suggestion. "Let's quit and take him into town." And this time Don could hear the man who was working on him reply. It was Kelly-and Kelly

was sticking to his job. For five minutes-ten minutes-Kelly worked on, stubbornly refusing to give up his battle for his friend's life. Maybe Kelly remembered that it was his own aching feet which had been the cause of Don's climbing up that pole in the first place. Maybe Kelly figured that the least he could do to a man who had almost died doing him a favor was to exert every effort to save his life Anyway, Kelly kept on—and in another two or three minutes Don started to breathe.

They flagged a passing car and took Don to a hospital, and they kept him there seven weeks. Kelly was cited for bravery and received a medal from the company for saving Don's life. But I think Don ought to get some sort of a medal too, for living through a twenty-three-hundred-volt shock of electricity. The electric chair up at Sing Sing, I'm

told, only has twenty-two-hundred. @-WNU Service,

Seminoles Are Citizens The Office of Indian Affairs says, that the Act of June 2, 1924, conferred citizenship on all Indians born within the territorial limits of the United States who had not previously acquired that status. The act referred to is in broad compass and is equally applicable to the Seminoles in Florida as well as to the other Indians "born within the territorial limits of the United States." It is or was not a matter of election or choice with the Indians, says the Philadelphia Inquirer, that citizenship was thereby cast upon them whether they desired it or not, and regardless of

their individual wishes in the mat-

Male Fish Nurse Babies

With fish, like other animals, the female's job is to see that the young are properly born and given their earliest care. But there are some notable exceptions. The male Bettas and Gouramis banish the fe-males when the eggs have been produced and give them good trouncings if they so much as venture near the parental nest again. And the youngsters get expert care from their dad until they are able to fend for themselves. The African Mouthbreeder male is the one to take the eggs in his mouth and keep them there against all odds until they hatch. Among the Cichlids both sexes share the parental du-

Clothes Due for a College Course

By CHERIE NICHOLAS

FOR going-away-to-school daughters the hectic days have come that are tense with the excitement of assembling a voguish, and as practical as voguish, wardrobe that will carry them through with sartorial honors on campus, in classroom and at college "prom."

Thinking in terms of the college girl who must rank high in swank and at the same time look to the practical in clothes, we are reminded of the stunning costume suits and the smart sports outfits and the glamorous evening gowns displayed recently at the jubilee fashion pageant presented in the open-air lagoon theater on the lake front by the Apparel Style Creators of the wholesale district of Chicago. A full-length cape costume was featured that represents exactly what a college girl should have in the way of an outfit that will serve faithfully and dramatically through the months to come.

See this goodlooking cape costume pictured to the left in the illustration. The newest thing in suits or in costume ensemble is the long-cape model. Very practical are these types since the long cape may be worn all through the autumn as a separate wrap with frocks. The ensemble here shown is fashioned of handsome black woolen with deep yoke collar of black Persian on the cape and a pocket of matching fur on the dress. So well thought of are long cape types many jacket suits add full-length capes, thus achieving an interchangeable outfit that will to the mood of its wearer. The costume ensemble that can be given varied personality via accessories and interchangeable items is well worth considering when assembling a college wardrobe.

If there is one item more than another that proves to be the college girl's delight it is a suede jacket in one of the glorified autumn colorings. Buy it separate or let it be a component part of a suit, for great importance is given to suits that are part suede and part tweed. The costume pictured was entered in the pageant under the title "accent on youth" which goes a long way in describing it. Circularly stitched pockets decorate the rich autumn green suede jacket which tops a skirt of black woolen. The scarf is of matching wool. The cap is a Scotch type with a high feather to give it dash.

Again referring to the great importance attached to suede this season, you can find in the shops most anything you may happen to want in suede-jacket capes, suits all of suede or only partly so. Shoes, hats, bags and belts of suede for suede accessories are ever so smart with either cloth or knitted suits. Any college girl will appreciate the chic a halter front vestee of suede is sure to acquire for her new autumn suit. For evening a hiplength jacket of white suede will prove a treasure in a college wardrobe. All advance fall collections emphasize the fact that suede has undoubtedly come into its own this season.

And here's another hint on fashion trends that leads to style supremacy for the college girl. It pertains to the lavish use of fur on the new fall suits and coats. Fulllength plastron or tuxedo fronts of vary the dress program according fur will immediately class your coat as being distinctly of this year's vintage. The same applies to suits, See the model centered in the group. It is indicative of the new fur opulence decreed for winter,

Western Newspaper Union

SPICES LEND HUES FOR FALL WARDROBE

For years feminine fashions have determined what women would eat, for style has determined the figure -and the diet. Now at last has come a great reversal. Out of the spice jars with which our food is made flavorful and fragrant has come the range of tans and browns with which the well-dressed woman will make herself alluring in the late summer and early fall season. For once, therefore, foods will determine what we wear, according

to the edicts of the nation's stylists. Spice shades, ranging from the yellow-tan of ground ginger to the rich brown of whole cloves, are being shown in light and medium weight fabrics. Cosmetics are being tinted to harmonize with these spice colors and also, incidentally, to make the transition from suntanning to normal skin tones more gradual and more charming.

Fall Hats Go Low in Back Is Latest Word From Paris

The first fall hats shown by Patou indorse the new down-in-back movement, covering the hair and firmly anchored without benefit of elastic. The long back-to-front line is obtained by the forward draping and trimming of toques, while larger shapes emphasize the profile by brims curved sharply up on one side and swooping low on the other.

Multi-Colored Accent

White shantung makes a summer costume with a front yoke of multicolored striped applications. The same bright stripes - reds, greens, blues and yellows - are used on the pockets of the short white shantung jacket.

Belting Ribbon Hats A little hat of belting ribbon, whether black or colored, will add new SISTER DRESSES By CHERIE NICHOLAS

Matching sister dresses are the trend of the hour. Little friends are taking advantage of the matching idea too, and are wearing dresses of same material made alike. The cunning frocks pictured are fashioned of a theme-song print. "In the Shade of the Old Apple 'Tree" is the song from which this particular allover patterning of rosycheeked apples drew inspiration.

Three Maids A-Sewing Go

summer wardrobe. But don't fret, Milady, Sew-Your-Own is right on inch material. With long sleeves the job with sparkling new fashions for you; fashions that will make you forget the past and be remembered in the future. So let's not tarry: let's choose the style terial, with long sleeves, plus 41/2 that's got the most sock for our yards of braid to finish as picparticular figure and join this group that's going a-sewing!

Stadium Model.

Picture yourself in the trimwaisted little model at the left, if you would have an optimistic viewpoint and a head start on style this season. There's nothing younger than this topper with its dainty collar and cuffs, its snappy row of buttons and fetching pephum. The way it takes to the weightier fall fabrics is news, and equally intriguing is this fact: it's easy to sew!

Young 'n' Pretty. Long slender lines of the princess variety make this the lucky number for your first autumn days. Of course you see it's a style to cut in at least two fab rics because it boasts utility plus beauty. If you're going to school you'll want it in acetate jersey or light-weight wool. Neat contrast is here, too, if you wish, in the collar, pocket flaps and buttons. (This is a simple eight-piece pattern.)

A Lift for You.

There's much ado about bodices this fall and unless you have a frock that carries a stylish one you won't feel right. Sew-Your-Own caters to this vogue in its new creation at the right. It is pencil slim and carefully styled to give you that chic young silhouette that distinguishes the lady of fashion. Make this handsome model of silk crepe, sheer wool or jersey and be fit for business or pleasure in town or country.

The Patterns.

Pattern 1376 is designed for sizes 12 to 20 (30 to 40 bust). Size 14 requires 41/2 yards of 35-inch

Pattern 1347 is designed for sizes 14 to 20 (32 to 42 bust). Size 16 requires 4% yards of 35 or 39-

Conceited Beau Brummell

Beau Brummell (1778-1840), the master dandy of all time, was so idolized by the aristocracy of London as an arbiter of dress and manners that, eventually, he became unbearably conceited. One night he even ordered a duchess out of his house, during a reception, because her "dress was cut too low in the back." The gentleman's taste was so offended that he had to cover his eyes while she humbly backed out of the ballroom.-Collier's Weekly.

51/2 yards plus % yard contrasting. Pattern 1258 is designed for sizes 12 to 20 (30 to 38 bust). Size 14 requires 4 yards of 39-inch matured.

ONLY NEWSPAPERS BRING THE NEWS OF VITAL INTEREST TO YOU

Headlines may scream of death and disaster without causing you to raise an eyebrow. But if your son gets his name in the paper—that's real news? It isn't by accident that this paper print so many stories which vitally interest you. For this newspaper was edited for you and your neighbors. News of remote places is stated briefly and interpreted. Local news is covered fully, because all good editors know that the news which interests the readers most is news about themselves.

• Now is a good time to learn more about this newspaper which is made especially for you. Just for fun ask yourself this question: How could we get along without newspapers?

Association Meets

The Brownfield Baptist Association will meet with the New Home Baptist Church on Wednesday and tion rider, Thursday of next week.

There are about fifty churches drix is now engaged in the sale of within the bounds of the association and practically all of them are expected to have messengers present. Reports will be given showing the number of members, the number of additions and losses during the past twelve months, and the amount of money raised and disbursed by each church for home expenses, missions, education, bene-
