NOTICE TO THE PUBLIC
Any erroneous reflection upon the
reputation or standing of any individual,
firm or corporation, that may appear in
the columns of The News will be gladly
corrected when called to our attention.

Col. Ed House, the silent Texan
who became famous as the unofficial
adviser of President Woodrow
Wilson, has recently been very ill
and is apparently rapidly approaching
the end of his days. This fact has
occasioned the revival of the stories
about his great influence over the
President and the power he wielded
in national and international
affairs. It has revived also some
of the stories as to his power in
Texas politics before he became a
national figure. His influence over
the President and power in national
and international affairs during
the Wilson administration evidently
were great, but there seems to be
little foundation for the stories that
he had likewise dominated the
politics of Texas. General M. M.
Crane of Dallas, who was active in
Texas politics prior to World War
days, having served as attorney
general and been a candidate for
governor, recently published a story
in the Dallas News giving a history
of some of the major legislation in
Texas in those days and thoroughly
debunking and discrediting the
stories as to the part that House
had played. We would not take
from Colonel House one iota of
credit that is due him but we are
glad that Crane deflated these false
stories in the interest of truth and
history. Mr. Crane himself was a
power in those days, an able
lawyer and an honest, forward-
looking man who would have made
a great attorney general of the
United States if he had been given
the position.

Our guess is that Hitler is riding
for a fall. Likewise Mussolini; and
Stalin. Dictators may ride high and
handsome for a time, but not indefinitely.
Remember the Kaiser?

That government farm colony
over at Ropesville held "Open
house" last Friday, March 4, giving
a barbecue to the visitors. To those
who may not be acquainted with
this project, we might state that
the Government financed the purchase
of a large tract of land, subdividing
it, building small but well-appointed
farm houses, and selling the
improved tracts to farmers on long
time, requiring only nominal cash
payments. The project was a part
of the Government's rehabilitation
program. We do not know how
expensive this project has been to
the Government nor whether it was
done economically or extravagantly,
but we do think that the policy of
making it possible for the destitute
to acquire homes of their own, to
get a new start in life, is one of the
most beneficent ways in which the
government may help the farmers.
If it is feasible, we should like to
see this done on a vast scale
throughout the entire agricultural
sections of this country. At Ropesville
thirty-three farm families are
already located on this project and
forty-eight other places are now
being improved. About eighty farm
families are therefore being given
a new start in life.

"Public office is a public trust."
That was the Laconic statement of
a great Democratic president, Grover
Cleveland. We should put it into
practice, and we should require our
officials to so regard it, national,
state, and local. The trouble is that
we are always ready to condone an
excuse and even to lionize public
officials accused of petty graft or
even large-scale graft, and to condemn
the fellow who makes the accusation.
We should keep our minds open
when such charges are made until
the evidence is in, and if it shows
guilt the guilty man should be
unmercifully kicked out, whether
he holds a high position or a low
one. "Public office is a public trust,"
and we should require all officials
to be honest in office.

If providing houses for those
who need homes is a governmental
function, then we feel that there is
a great opportunity for service in
this field on the part of the government.
We understand that the cost of
completed houses in the North and
East is so high as to be almost
entirely out of reach of even well-
paid laborers. If this is true, and if
the government can build homes for
the homeless at much lower cost,
it can thereby render a real service
to a large portion of the population.

Those Japanese are a fine people
in many respects, for Pagans, but
they are obviously about the most
cheerful and artistic perverts that
ever figured in international
affairs.

If the Government can rightfully
and constitutionally pay out many
millions of dollars each year in aid
of agriculture, then we believe it
should go just as strong in helping
worthy tenant farmers and share-
croppers in procuring homes of
their own. This would be of much
more permanent value, we believe,
than the helping of those who already
own their homes.

If you were called upon to define
an inch, or a pound, how would you
do it? Well, for 150 years Congress
has declined to tackle the job. But
a New York Democrat recently introduced
a measure defining an
inch as 25.4 millimeters, which is
about 2 millionths short of the present
American inch, it is said. Is it
possible that he is trying to sell
the American people short?

Spring, apparently, is here. Birds
are singing, buds are bursting, and
tiny green leaves are appearing on
shrub and tree. But be not deceived.
It would be just like Old Winter to
stage a come-back any day and
destroy all this with one blast of
his icy breath. In fact, this may
have happened before this item gets
into print.

And still kidnapers continue to
ply their nefarious business, and
it seems there is little that civilized
society can do about it. Drastic
methods may be adopted to stamp
out this crime some day, regardless.
We are for law and order always,
but a few lynchings up about New
York and Chicago might help some.
Mr. Wagner.

About two inches of moisture
deposited in the soil of Lynn county
during the last month has made the
crop outlook at this time very promising.
Wonder if old Mother Nature
is preparing to bring us another
bumper cotton crop in spite of all
that Congress and Mr. Wallace have
undertaken to do to curtail production.

Marker To First Rural
Route Erected

(From The Record, LaGrange)
The marker commemorating the
establishment of the first rural
mail carrier's route in Texas was
placed on the new post office lawn
last week.

A bronze plate, on the front side
of the granite stone, bears the following
inscription:
THE FIRST U. S.
POSTAL RURAL MAIL ROUTE
IN TEXAS
AUTHORIZED EFFECTIVE
AUGUST 1, 1899
LA GRANGE, FAYETTE COUNTY
ERECTED BY THE STATE OF
TEXAS
1936

"Fayette County Rural Letter
Carriers' Association" is inscribed
in a circle on the back of the monument.
Inside the circle is the likeness
of a letter, with the figure of an
old time mail wagon and team
inscribed within its borders.
No definite plans for a dedication
ceremony have been made as yet.
The marker was made and erected
by L. W. Stolz Memorials.

The class in Biology was experimenting.
The worm thrived in water but
when put in alcohol it wiggled a
few minutes and died.
Teacher—What does this demonstration
prove?
Robert—If you always drink alcohol
you will never have worms.

A WISH TO YOU—

If I could make a wish for you,
And then could make that wish
come true,
I'd wish that you might always be
A blessing to humanity—
That you might have less loss than
gain;
More days of happiness than pain;
That in the years that are to come,
You'd always have a happy home.
When trials come as come they
must,
You'd face them with a steadfast
trust.
For they who battle for the right
Are sure to conquer in the fight.
And may your friend and leader be
The glorious Man of Galilee.
—Selected.

Americanism: Feeling poor when
we are pinching pennies to make
ourselves richer; feeling rich when
we are blowing in money to make
ourselves poorer.

Courtesy is the grease that oils
the machine of business. Courtesy is
not lip service. It's merely treating
the other man as you'd like to be

treated. There must be sincerity
behind your courtesy. You must
feel it.—John R. Tunis, author, in
the Rotarian Magazine.

Mr. and Mrs. C. T. Oliver and
family recently visited her brother,
Mr. Seroyer, and family, in Cleburne.
It was the first time Mrs.

Oliver had seen her brother in four
years, she says.

The Progressive Store Where You Dress Stylishly for Less

New BREAD DIET maintains energy while reducing

LOSS of weight can only be accomplished
by burning up body fat faster than
the body stores it. Excess fat normally
comes from over-eating, particularly
of foods high in caloric value. To get
quick results, most extreme diets cut
down too much on energy and protective
foods, forcing the body to function almost
exclusively on its own fat.

The new Bread Diet avoids all such
extremes. It is based on four years of
research in leading American universities
and laboratories and offers a safe, sane
and efficient way to reduce.

Unlike extreme measures, bread is
included because it is a food high in energy,
not of itself fattening. It is an almost
perfect combination of carbohydrates and
protein—especially important while
reducing. It supplies the carbohydrate
necessary to burn up completely
the fat you lose, without leaving any
harmful residue.

With bread included in this diet, excess
fat is safely changed into energy. Muscle
and nerve tissues are sustained. So
carefully has each daily menu been
planned that you scarcely miss those
things you shouldn't eat. And the
pounds roll away!

BOVELL'S BAKERY

SOCIETY

Club and Church News

MRS. GALYEAN HOSTESS TO THREE LAKES H. D. CLUB

"Milk has more food value than any other one food," said Miss Boyd in her talk on utilization of Dairy Products in the home of Mrs. C. F. Galyan, March 3rd.

After talking on the importance of milk and milk products in the diet, Miss Boyd prepared four different dishes using milk and milk products.

The members present were: Mrs. Amos McMillan, Mrs. G. W. Hickerson, Mrs. Fred McGinty, Mrs. Cox, Mrs. I. L. Johnson, Mrs. C. F. Galyan, Mrs. Wright Edwards, and one new member, Mrs. O. C. Sikes; two visitors, Mrs. W. E. Sikes and Mrs. Riley of Tahoka.

Our next meeting will be March 17th with Mrs. G. W. Hickerson.

NEW HOME BAPTISTS SHOWER PASTOR'S WIFE

The good ladies of the New Home Baptist Church treated their pastor's wife, Mr. S. K. McCulloch, to a gift shower a few days ago, consisting of a number of packages, one package to be opened by her each day until March 18. They also gave notice that more packages were coming.

Mrs. McCulloch has been sick a long time.

MISS LOTTIE JO TOWNES MAKES HONOR ROLL

Fort Worth, March 9.—Miss Lottie Jo Townes of Tahoka is one of 231 students at Texas Christian University whose names appeared on the scholastic honor roll for the first semester of 1937-38.

PRESBYTERIAN SERVICES SUNDAY

As days of calm and brightness often break into days of clouds and sandstorms, so are the ways of life. All the days are not calm and cloudless. The call is to work on whatever the weather or its changes might bring any day. This keeps business going. It also helps the Sunday School and Church hour, all over West Texas, to find the people making the grade, Sunday after Sunday, regardless of the weather.

They are doing this, they tell me, in Tahoka. Thanks for all-weather-proof Christians, in times like ours; for the grand enterprise of the Sunday School hour and worship. Be in our services Sunday, both at the Sunday School and the Church hours.

March is the month for every membership canvass for local and benevolent causes of the Church for the ensuing year. April all Presbyterial dues are due.

We seldom worry about church finances in Tahoka. We just look more or less distressed about them at times, pay them, and move on to something better.

Thanks to Mrs. John Evans and her helpers for raising the cash of \$50 and paying one whole year of our Ministerial Annuity Fund. One of the few churches in this Presbytery paid up one year in advance. I felt so good over this I should have had my picture taken right then.

Preaching service at 11 a. m. Sunday School hour as usual. Come. Morning theme: "Putting them in Remembrance." God often appeals to memory.

Women's Bible class Monday afternoon. Last lesson in Book of Ephesians. This women's Bible study has been fine.

Glad to have you in all our services.—W. K. Johnston, Minister.

Poorly Nourished Women — They Just Can't Hold Up

Are you getting proper nourishment from your food, and restful sleep?

A poorly nourished body just can't hold up. And as for that run-down feeling, that nervous fatigue,—don't neglect it!

Cardui, for lack of appetite, poor digestion and nervous fatigue, has been recommended by mothers to daughters—women to women—for over fifty years.

Try it! Thousands of women testify Cardui helped them. Of course, if it does not benefit YOU, consult a physician.

MRS. FAIRES HAS WELCOME VISITORS

Mr. Editor: This is the old shut-in pest coming again, asking for space to report another pleasant surprise by a number of the Sunshine ladies on March 4.

By ten o'clock Friday morning the first ladies began to arrive and by noon there was a nice crowd present, each one bringing the best of eats and dainty gifts.

Our crowd was not very large but a jollier bunch one seldom sees. Our Gracie Allen the Second was with us again and with her ever-ready wit kept the ball of fun rolling almost continually. I hope every one went home feeling refreshed in mind by forgetting the cares of life for a little while, and I hope in the future they have pleasant memories of March 4, 1938.

None but those who have been a complete shut-in for seven years knows how to appreciate these little birthday parties and gifts. It proves to us we are not forgotten. Very Respectfully, Mrs. W. J. Palres Route 1.

REVIVAL MEETING FOR BETHEL ANNOUNCED

Rev. S. K. McCulloch of New Home announces that he will conduct a revival meeting at the Bethel Church, situated between the Midway and Joe Bailey communities, beginning the first Sunday in April and running through the second Sunday. Rev. Walter Brian of Plainview will lead the song services.

Rev. McCulloch preached at Bethel last Sunday afternoon, when arrangements for the revival were made. A Sunday School superintendent also was elected and a Sunday School will be started next Sunday morning, beginning at 10:30 o'clock. A song service and prayer meeting will also be held at night and each Sunday night hereafter. Everybody cordially invited to all these services.

Rev. McCulloch is the pastor of the New Home Baptist Church and he reports good services there last Sunday morning.

NEW HOME COUPLE ARE MARRIED SATURDAY NIGHT

Rev. S. K. McCulloch of New Home reports that J. L. Kitchen and Miss Opal Mae McCoy of that community were united in marriage at his residence Saturday night.

These young people have the best wishes of many friends.

Howard Davis, James Applewhite, and Miss Doris Lawler returned Sunday from a brief visit with the W. C. McKinzie family near Fletcher, Oklahoma. Jim says the McKinzie's are well pleased with the country, having removed there recently from Tahoka.

Mrs. Joe Boles of Cross Plains, the former Miss Lola Belle Edwards, left Tuesday after a week's visit here with her parents, Mr. and Mrs. W. B. Edwards, and other relatives.

TIPS to Gardeners

Locating Vegetables
GARDENERS can grow a fairly good crop of vegetables in almost any kind of soil, as long as there is good sunlight and moisture.

To those, however, who have a choice of soil available, the following information will be of assistance in locating crops.

In heavy or clayey soils grow beans, beets, broccoli, Brussels sprouts, cabbage, cauliflower, corn, kale, peas, pumpkin, rhubarb, spinach, squash, Swiss chard and rutabaga.

In light or sandy soils: Asparagus, carrot, celery, collards, Chinese cabbage, cucumber, egg plant, endive, kohlrabi, lettuce, cantaloupe, watermelon, mustard, okra, onion, parsley, parsnip, radish, tomato, turnip, and most herbs.

In muck: Onions, celery, spinach, Chinese cabbage, radish, turnip, carrot, kale, lettuce, mustard, parsley, parsnip, rhubarb, spinach, Swiss chard, and herbs. Onions and celery are particularly good muck crops.

SORE THROAT WITH COLDS Given Fast Relief

Take 2 Bayer Tablets with a full glass of water.

Crush 3 Bayer Tablets in 1/2 glass of water—gargle twice every few hours.

The speed with which Bayer tablets act in relieving the distressing symptoms of colds and accompanying sore throat is utterly amazing... and the treatment is simple and pleasant. This is all you do. Crush and dissolve three genuine Bayer Aspirin tablets in one-third glass of water. Then gargle with this mixture twice, holding your head well back.

This medicinal gargle will act almost like a local anesthetic on the sore, irritated membrane of your throat. Pain eases promptly; rawness is relieved.

You will say it is remarkable. And the few cents it costs effects a big saving over expensive "throat gargles" and strong medicines. And when you buy, see that you get genuine BAYER ASPIRIN.

Without Horrors
War is delightful to those who have had no experience of it.—Erasmus.

FREE 4 cups of GARFIELD TEA to show you the easy way to KEEP CLEAN INSIDE!

You'll like the way it maps you back, overnight, to the feeling of "rain" to go" fitness and inside cleanliness. Hides all the left-over wastes that hold you back, cause headaches, indigestion, etc. Garfield Tea is not a miracle worker, but if CONSTIPATION bothers you, it will certainly "do wonders" (10¢ and 25¢ of dependence)—WRITE FOR FREE SAMPLES OF Garfield Tea and Garfield Headache Powder to GARFIELD TEA CO., Dept. 10A, Brooklyn, N. Y.

Pride Offends
The proud are always most provoked by pride.—Cowper.

WNU-L 10-38

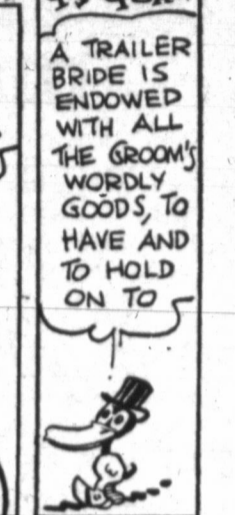

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.
Symptoms may be nagging headaches, persistent headaches, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder may be burning, stony or too frequent urination.
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

How Often Should Your Furniture Be Polished?

Housewives differ on the question of "when to polish their furniture." Some have no set time for it—polishing when they think of it—or when, casting a glance about, they decide that the furniture can "stand it." Others, polish every cleaning day—which ordinarily occurs once a week. Others dedicate but one day a year to this important procedure. And still others, polish the furniture in their home regularly, once a month. This last group is the largest—but their schedule is not sufficiently frequent. Furniture can not be polished too often! True, the outward benefit of the best oil polish—the luster—will last through a single week—and more—but this same polish, with its light oil base, preserves and "feeds" the furniture, revives it, prolongs its life! So that every application is highly beneficial to woodwork and the various pieces of fine wood in the home. Our advice, therefore, for the sake of endurance, as well as appearance, of your furniture, is "polish up" with a good oil polish at least twice a month!

Floyd Gibbons' ADVENTURERS' CLUB

HEADLINES FROM THE LIVES OF PEOPLE LIKE YOURSELF!

"Words From the Tomb"
By FLOYD GIBBONS
Famous Headline Hunter

HELLO EVERYBODY:
Well sir, Old Lady Adventure has played some queer tricks on the human race from time to time, and here's the story of a strange one that she played on Homer X. Keenan of Barracks No. 8, Veterans Administration, Wisconsin.

Homer got into an adventure in May, 1927—an adventure that looked as though it was going to end in tragedy for Homer because his life had been saved eleven years before, down on the Mexican border, by two birds named Bill Inman and Pancho Villa.

Don't try to figure that one out. It doesn't make much sense until you've read the story.

In 1916, Homer was an enlisted man in the Army Signal corps, on detached service and stationed at Columbus, N. M. It was a telegraph station, and Bill Ingram, who was in charge, always tried to get recruits who came under him to learn the Morse code and become telegraphers.

"Learn the Morse Code," Said Bill.

It seemed to Homer that Bill was hipped on the subject of telegraphy. Time and again Bill told the boys, "Learn the Morse code and some day it may save your life or someone else's." But until March 9, Homer didn't pay much attention to Bill Inman.

On March 9, Pancho Villa's bandits crossed the border and raided Columbus. The telegraph wires summoned help, and by the time Villa's men got through shooting up the town, Homer began to see that Inman was right, and that a knowledge of how to operate that little brass key might well save a life—or a hundred lives.

As Homer puts it, "Before it was over, I wanted to learn telegraphy and everything else I could cram into my head."

And now we'll leave Homer, while he goes through the World war and one or two other adventures, and pick him up again in 1927 at Everettsville, W. Va., where he has a job in a coal mine.

It was almost quitting time. Homer was on his way to oil the pumps for the next shift when suddenly a great roar filled the under-

He Started Hammering on the Pipe.

ground passages. An explosion! The thing that every mine-worker dreads. Men trapped, in catacombs two miles under a mountain, with fire raging, and marsh gas seeping through the galleries—and no air.

Homer Was Half-Buried in Debris.

"When it hit me," Homer says, "the mountain was rocking like a small boat on a rough sea, and the roar of the flames sounded like Niagara falls. I was knocked unconscious and stayed out for several hours. When I came to again, I was half buried under a mass of heavy timbers and tons of slate and dirt. Somehow I managed to free myself and crawled along the floor.

"I didn't dare stand up, for deadly carbon monoxide gas filled the upper part of the gallery and only near the floor was the air clear. I was hunting for a sump hole full of water, where pump lines ran to the surface, but my lamp was broken and I was in the dark, so I had to feel my way. Gropping, my hands fell on dead mules and dead men—parts of mules and parts of men.

"Fire was sweeping through the mine, and coal strata were igniting all around me. Finally I found the sump hole and built a stopping between me and the fire. I settled down to wait."

But Homer wasn't to spend much time in inactive waiting.

"It's a funny thing," he says, "how many thoughts can pass through your head in a short time when you're staring Old Man Death in the face. I thought of what Bill Inman had told me years ago on the Mexican border. 'The Morse code may some day save your life.'

His Hammered Message Went Through.

"There I was beside that pump with a two-inch pipe line running to the surface, and a twenty-four-inch wrench at hand. I started hammering away on that pipe with all the vim of a brass pounder.

"A lot of time had passed down there under ground," says Homer. "I didn't know what time it was or even what day it was. It might be night time with only a few people waiting at the top. But all the time I kept hoping some one would understand what I was trying to do and go for a telegraph operator."

And then, after an hour, Homer heard faint clicks on the pipe. He read: "I am operator for the B. & O. railroad at Fairmont. Got your message. Who are you? Is any one else with you? Is any one else alive in the mine?"

Homer tapped out an answer. He was all alone. If there was any one else alive in the mine, he didn't know it. (There were seventeen men alive down there, but Homer didn't find that out until later.) Up above, the Fairmont operator was tapping a message from the mine superintendent.

"Trying to get main fan in operation. Will have air for you soon." And in answer, Homer tapped, "Mine on fire. Air will cause another explosion. For God's sake, don't start fan!"

The super asked Homer how long he could live. Homer replied: "Not long. It's so hot down here my face and hands are blistering." But he told him that, if he'd connect a blacksmith's bellows to the pipe, they could send him a little air! In a few minutes, air was coming down the pipe.

"And it was the most welcome air I ever breathed in my life," Homer says. "When it started coming down, I just went to sleep. And when I woke up I was in the hospital at Fairmont, and I thought again about what Bill Inman told me—that some day the Morse code might save my life."

But I think Pancho Villa had something to do with it, too.

Wear Mourning Teeth
In certain parts of Asia many persons wear black teeth while in mourning. Those with real teeth merely enamel them. Those with false ones, says Collier's Weekly, have a special set of black teeth made for this period of grief.

Invented Banjo Clock
The banjo clock was invented in 1801 by Simon Willard and so-called because of its shape. It was an eight-day, non-striking pendulum clock. Willard obtained a patent for it in 1802.

Earliest Mechanical Time Measure
The earliest mechanical time measure was a water clock, containing water which was allowed to escape through a small hole, marks on the side indicating the lapse of time.

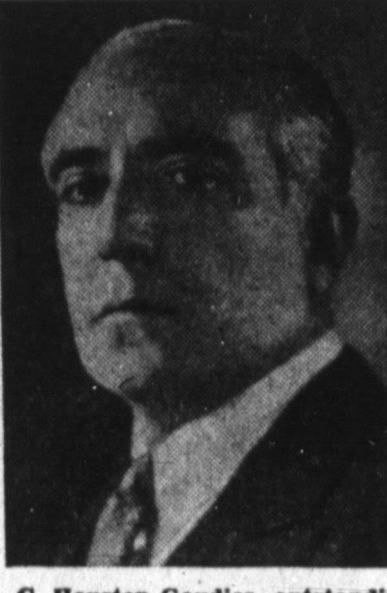

Pioneer Educational Magazine
The pioneer educational magazine of America was the Academician, a small semi-weekly edited by Albert and John W. Pickett and published by the Incorporated Society of Teachers of New York. The first number appeared February 7, 1818.

Caused Downfall of Napoleon
Receipt in France of the news of Sedan's fall in the Franco-Prussian war of 1870 caused the downfall of Napoleon III and the proclamation of the third French republic.

Rio de Janeiro, Brazil
More than 400 years ago Andre Concalves, a Portuguese navigator, discovered the bay on which is situated the great city of Rio de Janeiro, Brazil, traveling from Portugal in a tiny ship of perhaps a bare 300 tons burden.

WHAT TO EAT AND WHY

Food Provides the Key to Mental and Physical Power

C. Houston Goudiss, outstanding food authority, author, and radio lecturer, author of "What to Eat and Why." He knows food from soil to serving, from table to tissue. Watch for his articles each week.

You Can Be Strong, Beautiful, Wise, Rear Healthy Children Only If You Know How to Combine the Right Food Materials in the Diet

By **C. HOUSTON GOUDISS**
6 East 23rd Street, New York

SINCE the world began, food has been man's first consideration. For it he has fought and died. To find it he has traveled over great continents and braved unknown dangers. His quest for food has changed the map of the world and colored the history of nations. But in all of these historic struggles, he has been motivated solely by the desire to get enough food to satisfy hunger.

Today, actual hunger is rare. But hundreds of thousands of people starve in the midst of plenty because they do not realize the tremendous power of food for good or for evil.

They do not realize that as a man eats, so he is, and that his choice of food materials gives or takes away the power to live vigorously—to think clearly—to feel warmly—to be strong, healthy and wise.

It can be truly said that your food is your fate. It has the power to shape your body—to make it strong and beautiful, or weak and ugly. It has the power to influence your language, your gait, your tone of voice, in short—your life. With the right food, life becomes a glorious adventure, for it increases your leadership, intensifies your magnetic qualities, strengthens your morale, and increases your physical defenses and resistance. Without it, one drags through miserable days—never realizing even half of his potential mental and physical powers.

Food—the Fuel of Life.
The human body is a machine, far more complex than any machine devised by the mind of man. Food is the fuel which runs this amazing machine. Food is also the material used to repair worn-out parts, and to keep the intricate mechanism in good working order.

The body machine cannot be run efficiently without proper food fuel any more than a car could be run without gas, or a house could be heated without oil, coal or wood.

Food also has the power to speed up or slow down the workings of the mind. It likewise influences the state of our nerves, the warmth of our affections, the type of characters we possess.

Finally, the power to have born strong, healthy children is based on proper food. And nutritional scientists have discovered that the wrong food can even take away from us the greatest blessing that Nature has bestowed—our earthly immortality. For it can deprive us of the ability to bear children who will carry on after we are gone.

Six Groups of Food Substances.
What food substances are necessary to build and maintain top health—to develop the greatest physical and mental power? There are six groups of food substances which must be included in the balanced diet which promises increased health, happiness and longevity:

- 1. PROTEINS** which build and repair body tissues. These are found in such foods as milk, eggs, meats, fish, cheese and nuts.
- 2. FATS** which yield heat and energy. The fats are represented by butter, cream, oils and the fat of meats.
- 3. CARBOHYDRATES**—the starches and sugars. These also supply heat and energy, and are found chiefly in such foods as bread, potatoes, cereals and sweets.
- 4. MINERALS** which build, repair, protect and regulate. Among the minerals which are absolutely necessary to health and vigor are calcium, phosphorus, iron, copper, iodine, sulphur, manganese, magnesium, sodium and potassium. These are found in varying amounts in milk, eggs, fruits, vegetables, whole grain cereals and meats.
- 5. VITAMINS** which are necessary for body regulation, and as a protection against dread deficiency diseases. Six have been discovered to date—A, B, C, D, E and G.

The Homemaker's Responsibility.

Every wife and mother is therefore faced with the tremendous responsibility of keeping her family mentally and physically fit. Her husband must have the right kind of food in order to earn a living. Her own diet must be adequate and well-balanced if she is to have the energy, wisdom, and patience required of a mother at all hours of the day. Her baby will not grow into a healthy man or woman unless he or she has the right nourishment from the moment of birth. And school children can't keep up with their classes without the right food.

If you will follow this series of articles, and put into practice the principles of correct eating that I advocate, I can promise that you will increase both mental and physical efficiency, and as a result, achieve greater health and happiness for every member of your family.

Food Affects Your Body and Mind

Each morning when you awake, a new life is ahead of you. Whether that day and the days to follow will be better or worse than those that went before, depends largely upon what you eat. For nothing short of a miracle is performed at every meal.

Within a few hours the bread, meat, vegetables and liquids that you swallow are transformed into your personality. They begin to think, feel and act. They become YOU. What was food yesterday, today is carrying on the important business of the world, running banks, operating machines, pouring over school books, or carrying on that most important of all works, the making and keeping of a home.

Each meal that you eat helps or hinders the efficiency and ease with which these various duties are performed. That is why it is true that as you eat, so you are. And that is why I say that three times a day, at your table, you **SIT DOWN TO LIFE**.

Are Women Better Shoppers than Men?

GRANTING a woman's reputation for wise buying, let's trace the methods by which she has earned it. Where does she find out about the advantages and details of electrical refrigeration? What tells her how to keep the whole household clean—rugs, floors, bathroom tiling—and have energy left for golf and parties? How does she learn about new and delicious entrées and desserts that surprise and delight her family? Where does she discover those subtleties of dress and make-up that a man appreciates but never understands?

Why, she reads the advertisements. She is a consistent, thoughtful reader of advertisements, because she has found that she can believe them—and profit thereby. Overlooking the advertisements would be depriving herself of data continuously useful in her job of Purchasing Agent to the Family. For that matter, watch a wise man buy a car or a suit or an insurance policy. Not a bad shopper himself! He reads the advertisements too!

Cut Your Tillage and Planting Costs with John Deere Power Equipment

HYDRAULIC POWER LIFT

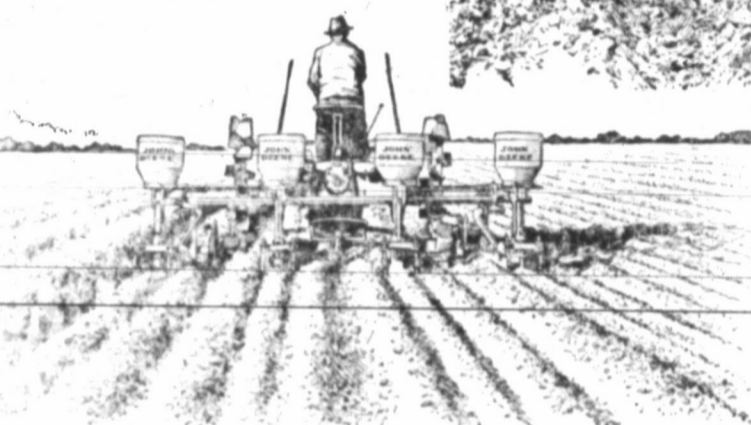

Left: John Deere has pioneered in the manufacture of tractor bedders with the result that the bedders now available for the owner of a John Deere Model "A" or Model "B" General Purpose Tractor are outstanding in the field. These bedders are famous for their great strength, ease of handling, and the excellent quality of the work they do. Scene shows Model "A" with John Deere No. A-102 Two-Bottom Bedder.

Right: John Deere Model "B" General Purpose Tractor and John Deere B-21 One-Bottom Bedder. For light work, the Model "B" Tractor will handle two bottoms; the Model "A" Tractor three bottoms.

Left: When planting time comes, the John Deere owner simply replaces the bedder bottoms with John Deere planting units. These planting units are equipped with the famous John Deere Exact-Tooth Type Steel Flinger Wheel for planting cotton, the accurate John Deere Natural-Drop Seed Plates for corn, and other seeds.

Consider EQUIPMENT when you invest in a new tractor. If you already own a John Deere Model "A" or "B" Tractor you are ALL SET to reduce your tillage, planting, and cultivating costs with John Deere Hydraulic Power Lift Equipment.

Now Is The Time To Buy That New John Deere Tractor

If your tractor is a JOHN DEERE, you need never worry about high fuel bills. Thanks to two-cylinder engine design, JOHN DEERE owners burn the low-cost fuels and save the Difference.

Don't overlook the outstanding economy of the JOHN DEERE—particularly when you get all the other advantages you look for in a tractor.

Don't take any salesman's word for the good quality of JOHN DEERE Tractors—their low cost of operation—their low cost of repair and upkeep, but do talk to your neighbor who owns and operates one.

Let Us Figure With You Before You Buy. We Are Ready To Trade

Horses, Mares, Mules and Cows For Sale or Trade

- Other John Deere Features:**
- *Adjustable rear wheel tread.
 - *Straight-line draft in plowing
 - *Clear view of work.
 - *Light weight—well balanced.
 - *Four Speeds forward.
 - *Operator can sit or stand.
 - *Easy handling.
 - *Simple, sturdy construction—all parts easy to get at.

If you are planning to buy a New or Used Car see us before buying. We have the New Dodge and Plymouth and a goodly number of good Used Cars priced low.

W. W. HANCOCK VICTIM OF CAR ACCIDENT

(Continued from First Page)

ty, later removing to O'Donnell. He had engaged in farming and stock raising but had retired from active pursuits several years ago. He was a good man and a good citizen, and had long been a member of the Baptist Church. The esteem in which he was held was attested by the great throng of people who crowded into the church at the funeral services. And of course there were hundreds of friends in this section of the state who were unable to attend.

Deceased is survived by his wife, Mrs. Lydia Hancock; two sons, W. E. Hancock, superintendent of schools at Chillicothe, and H. W. Hancock of O'Donnell; and two

daughters, Mrs. Carl Richter, the former Miss Roxie Hancock, of Los Angeles, California, and Miss Iva Dimple Hancock of O'Donnell; and by four brothers and three sisters. The News joins hosts of friends in expressions of condolence to all the bereaved.

THE PATHFINDER

Number 30

Nelson Forces Economy Issue Into Campaign

Dallas, March 9.—Declaring that the problem of "making government more efficient and less expensive will be a major issue in the race for Lieutenant-Governor," Senator G. H. Nelson of Lubbock this week carried into North Texas one of the most active campaigns for the Lieutenant-Governorship in the history of the state.

"Ever since I was a little boy, I have heard politicians lament the high cost of government as they promised to do something about it, yet during my lifetime this cost has steadily mounted and nothing has been done, either to improve the efficiency or to reduce the cost of government," Senator Nelson pointed out.

"The way to cut the cost of government is to make it more efficient. If you have an efficient business organization or farm or school or automobile, then the cost of operation will be low. This same situation is true of government. Give us an efficient government, and we will have one that doesn't cost much to operate," he said.

Lobbyists vs. Efficiency

"The people are realizing this, and that is why the movement to give Texas a one-house legislature is sweeping the state. I often hear the paid lobbyists crying for efficiency in government, yet I find them organized to fight the one-house legislature. Why? Because they really do not want an efficient government—one which will carry out the people's wishes," he declared.

"The two-house system is a lobbyist's paradise. Under this system he can block the people's program in the secrecy of conference committees which write all important legislation. The buck-passing and filibustering and parliamentary parlor-tricks of the two-house system are made to order for him," Senator Nelson emphasized.

"Under a one-house system, where the legislature will work out in the open, where there can be no buck-passing, no filibustering, and no secret conference committees, we could have an efficient and economical government. This the lobbyists do not want, but this is exactly what the taxpayers want and it is what they are demanding—a smooth running, efficient, one-house legislature," Senator Nelson asserted.

Nelson Speaks In Southeast Texas

Senator G. H. Nelson of Lubbock stopped over here a short time Thursday morning on his way to Beaumont, where he is to address the high school debaters of southeast Texas and their coaches in a meeting at Lamar Institute Saturday afternoon.

He expects to also visit Orange, Galveston, Houston, Brenham, Waco, Temple, and other cities in the interest of his candidacy for the office of lieutenant governor.

At Gatesville he will address the Chamber of Commerce at its annual banquet on Tuesday, March 22, and he will address the county judges and commissioners convention at Brownwood on Friday, March 25, and on the next day he will attend the ceremonies of the laying of the corner stone of the new post office building at Lamesa.

Mr. Nelson stated that he would be here the next day for the homecoming and cornerstone exercises at the Baptist Church.

He will formally open his campaign for lieutenant governor on Saturday, April 2, at Hughes Springs in Cass county, where he was born and reared. Following that he will fill a long schedule of speaking engagements, speaking about three times daily.

Judge W. W. Price of Brownfield, candidate for district judge, was here Thursday on legal business and incidentally visiting his brother Sam. The Judge says that he has been pinch-hitting this week for both the county attorney and the district clerk at Brownfield during their absence from the county.

Makes Plea For Texas Cripples

Charles F. Ashcroft

Easter Seal sales for Texas crippled children commenced April 1 and last until Easter Sunday. Charles F. Ashcroft, President of the Texas Society for Crippled Children urges that every one wishing to help a crippled child, buy seals. Each Texas County is being organized for this humanitarian purpose. Funds will be spent in Texas.

Cotton Crop Will Exceed 150,000

Without being able to give the exact figures, we are prepared to state that more than 150,000 bales of cotton of the 1937 crop have been ginned up to date.

The five gins in Tahoka had ginned 30,580 bales up to Thursday morning. There are a few hundred bales in the county to be gathered yet if the weather will permit.

We will probably be able to give the final government report next week.

Midway

Miss Ora Anderson of Plains, home demonstration agent of Yoakum county, visited Sunday in the home of Mr. and Mrs. R. L. Littlepage.

Mr. H. T. McDonald of Seagraves was the week end guest of his brother, Mr. W. P. McDonald.

The people of the Midway community cordially invite the people of other communities to meet with them at the Midway school house every Sunday night for a short program and a singing hour.

At the present time the people of the community are having an attendance contest, with the school children on one side and the outsiders on the other, to see who can get the most people to attend the Sunday night gathering. The losers will be expected to entertain the winners near the close of school.

Every Sunday night some kind of religious program is given. The school children and the outsiders have charge of the program on alternate Sunday nights.

Also some new song books have been ordered and we plan to have some well known singers with us to help us learn the new songs.

Rev. Geo. A. Dale received a copy last week of the Houston Press containing the picture of his son, Paul Dale, in the act of presenting the keys of a Studebaker car to the winner in some kind of soap contest.

Mr. Dale represents some nationally known soap manufacturing company as salesman to the jobbers, which is a most important position and commands a good salary. At the end of the contest it became his duty to present the car to the winner, a young lady of Houston.

Mrs. Gladys M. Stokes, who has been at Mineral Wells and Dallas recuperating the past few months, returned to Tahoka last week. She expects to return to her office about the first of next month. She is the local representative of the Southwestern Life Insurance Company. Mr. H. L. Skinner of Abilene, the district agent, will be here next week, she says, to assist with the local business.

G. E. Jones and son, W. B. Jones, of Abilene were here Tuesday taking a look-in at the Jones Dry Goods Store which is under the efficient management of G. W. Simmons. Mr. Jones reports that business is comparably better here than at other points in the West where Jones stores are located.

Tahoka ... 25 Years Ago

(Ed. Note: For a few years we ran items in this paper under the above or a similar heading. We discontinued the column several years ago. We are now resuming its publication, believing that it will be of great interest to all the old settlers in the county as well as to many of the more recent arrivals.)

The items below are taken from The Lynn County News of March 14, 1913.

Sunday evening, March 4, another of Tahoka's progressive young business men joined the ranks of the benedicts, when Mr. Elmer Coughran, of the North Side Barber Shop, and Miss Kate Ketner, the daughter and enterprising book-keeper of J. E. Ketner, repaired to the Methodist parsonage at eight o'clock and Rev. Jos. P. Callaway pronounced them man and wife.

Born to Mr. and Mrs. J. H. Edwards of North Tahoka, Saturday, March 8th, a son, J. H., says that if he can hold the sheriff's office for 21 years he will be able to hold it as long as he lives and then hand it down to one of his sons.

Geo. Small, Dr. S. H. Windham, and Marcus Edwards left in Mr. Small's car Monday for Post City, where they took the train for the Fat Stock Show at Fort Worth. Mr. Small goes as representative of the Tahoka Commercial Club.

J. M. McGill announced the sale of his drug business and his intention to move to Post.

Mr. and Mrs. W. H. May of Post were Tahoka visitors Tuesday.

County Attorney C. H. Cain was out driving at Lynn Sunday afternoon.

Miss Weebell Hargett entertained the "42" club at the home of Mr. and Mrs. W. C. Wells.

Mmes. Boyce and D. H. Hatchett of Lynn community visited in Post.

After a slow one-inch rain Lynn county is in fine shape to begin the crop planting season; only have to wait till the weather gets a little warmer.

A community meeting and "plenty of speaking" was announced for Three Lakes for Friday night, March 21. Prof. Phillips, Prof. White, Prof. J. B. Walker, and Judge J. L. Stokes were to make educational talks. The school took last Friday for the purpose of planting trees and shrubbery in the school yard.

Announcement is made of the forthcoming play to be given by the graduating class of the Tahoka high school, "The Merchant of Venice Up-to-Date." It is admitted by all who are good judges that this is one of the best and most popular comedies.

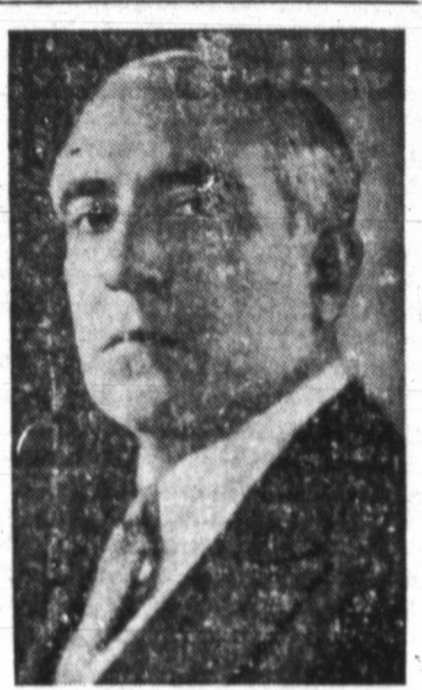

The Professional column carries the names of Dr. E. H. Innon and Dr. L. E. Turrentine, physician and surgeons; Dr. A. W. Thompson of O'Donnell, physician and surgeon; G. E. Lockhart, attorney-at-law; and C. H. Cain, lawyer.

Ads are carried by Miss Cryte Wright Milliner at the Fair; Miss Bess Madison, Milliner at Ketner's; Thomas Bros. Drug; McGill's Drug; Bigham & Snyder, feed, grain, flour etc.; Joe Baldrige's store; S. N. McDaniel's Feed Store; G. W. & B. C. King, Livery Stable; D. A. Parkhurst's Broken \$ Store; Wade Ray's Tailor Shop; and others.

W. B. Slaton, cashier of the First National Bank, had just renewed his subscription to the News, as had also Mrs. L. McGregor, and G. G. Vaughan living "four miles this side of O'Donnell." C. L. Williams, the new confectioner on the West Side of the Square, was a new subscriber.

Pay up your subscription to The Lynn County News now!

America's Greatest Food Authority Now Writes for This Paper

C. Houston Goudiss

We announce with pride a new feature in this issue, "What You Eat and Why," by C. Houston Goudiss, noted food authority, radio speaker, author and lecturer famous as the man who knows food "from soil to serving, from table to tissue."

One of these articles will appear each week, and we know housewives and mothers will look forward to them for the accurate worthwhile information they contain on foods and their relation to health. This is not a recipe column. Mr. Goudiss has designed it to serve as a link between laboratory and layman in the food field, interpreting modern scientific knowledge in the language of the home maker, giving her the elemental facts regarding new discoveries and the part played by food in building and maintaining health.

Every woman wants to know what foods will benefit her family and why, and that is just the information that Mr. Goudiss will give. Watch for the articles each week, make a scrap book of them for ready reference. They contain valuable information every home maker has been wanting.

Mrs. Kershner Dies At Lubbock

Mrs. LaVerne Kershner of the Lubbock Nurseries, 49, died Wednesday after a long-continued illness and the remains were buried Thursday afternoon.

Surviving are the husband, four sons, a daughter, and other relatives.

Mr. and Mrs. Kershner were married in Lynn county and lived here a number of years, having many friends in this county both among the pioneers and the more recent arrivals, who will deeply regret her untimely death.

Newmoore

O. C. Cox has been seriously ill the past ten days with bronchial pneumonia and complications, but seems to be slowly recovering. We hope that he will soon be in normal health again.

The Wells baseball teams came over last Wednesday. Our girls defeated the Wells girls, but our boys were defeated.

Misses Margie Rogers and Jean Brandon spent Saturday night in the home of Mr. and Mrs. Joe Rogers.

Mr. and Mrs. Claude Senn, A. H. Senn, and Mrs. May Senn of Rotan spent Sunday in the home of Mr. and Mrs. Edwards Simpson.

The Newmoore school was in session last Saturday.

The Pride ball teams played the Newmoore teams at Newmoore last Friday.

The elimination of the declamation and story-telling contestants will be held in the school building Tuesday night.

LaRue Crutcher is ill with influenza.

Messrs. W. A. Nix, C. O. Gilbreath, and H. L. Stephen, all of Stephenville, were here Thursday representing the Curtis Publishing Co. All of these gentlemen have known our fellow townsman, W. M. Lee, for many years and they proceeded to give us the low-down on that gentleman. But right here we bring off.

Slaton Rotarians Coming Next Week

President Wynne Collier announced Thursday that the Slaton Rotary Club would be here at 7:30 on Thursday evening of next week to give the program. The regular meeting of the local club therefore will be deferred from the noon hour till 7:30. Every Tahoka Rotarian is expected to be present.

Dr. K. R. Durham put on an amusing stunt, after which Frank Hill made a brief talk on fossil remains of plant and animal exhibiting many specimens. He called attention to the fact that this section of West Texas is one of the richest fossil fields in the country, some of the leading museums of the nation procuring specimens from this section almost every year.

ATTEND BANQUET OF POSTAL WORKERS

W. E. (Happy) Smith, postmaster, T. Garrard and Charles Townes, of the local office, and Mack Noble, postmaster, and wife, and W. E. Suddarth of O'Donnell attended the banquet of postmasters and postal employees held at Lubbock Saturday night.

Among those on the program were Bruce Luna of Dallas, "Tanlac" Strange of Big Spring, Sen. G. H. Nelson and Postmaster Amos Howard of Lubbock.

CLIFFORD BRATCHER WEDS LUBBOCK GIRL

Mr. and Mrs. L. E. Jordan of Lubbock are announcing the marriage of their daughter, Viola, to Clifford C. Bratcher of Tahoka, which event took place in Clovis, N. M., Friday, March 4, at 11 p. m. Rev. J. F. Nix, pastor of the First Baptist Church of Clovis, read the ceremony.

The couple was attended by Miss Ruby Bratcher, sister of the groom, and Tom Calaway, both of Tahoka. Mrs. Bratcher is a graduate of the Friendship High School, Wolf-orth, and for the past month has been employed at Post.

Mr. and Mrs. Bratcher are making their home at Draw, this county, where he is employed.

Implement Building Is Being Erected

A. P. and A. J. Edwards are erecting a large corrugated iron building, with a concrete floor, on Highway 84 three blocks east of the intersection of No. 84 with Highway No. 9. They expect to have the building completed in the next few days.

The Edwards have taken the agency for J. I. Case farm machinery and expect to hold a formal opening of their business Tuesday, March 22. They are already doing business, however.

A complete line of machinery and parts will be installed, and skilled mechanics will be able to handle all service jobs.

PHEBE K. WARNER CLUB HAS FEDERATION PROGRAM

The Phebe K. Warner Club met in the home of Mrs. Ben Hardy with Mrs. G. M. Stewart as co-hostess. A very interesting Federation program was given.

History of Texas Federation—Mrs. L. C. Haney. Sketch of Life of Phebe K. Warner—Mrs. Truett Smith.

Poems of a Texas Writer—Mrs. H. C. Story. Mmes. Stewart, Weathers, and Fenton reported on their trip to Canyon.

Refreshments were served to 12 members and one guest, Mrs. Reed of Lamesa.

The club meets next with Mrs. A. P. Edwards March 21st.

Miss Lida Straner has accepted a civil service appointment as clerk typist with the Farm Security Administration in the Federal Building in Lubbock. She recently completed the stenographic course in a business college in San Antonio. She is a graduate of the Tahoka High School.

J. S. McKaughan has been sick several weeks with the flu and complications.

Red Blooded Adventure!

TO RIDE THE RIVER WITH

AN EXCITING NEW SERIAL OF WESTERN JUSTICE BY William MacLeod RAINE

Mystery rode the Arizona plains when Jeff Gray appeared. He was the strangest man Lee Chiswick had ever seen, a friend one moment, a foe the next. First he saved Ruth Chiswick, Lee's beautiful daughter, from a drunken cowboy. Then he tried to kill Lee... and later he stole Lee's cattle. A scoundrel, to be sure, but Ruth Chiswick knew her faith in Jeff Gray would some day be vindicated. Somehow those deep, clear eyes were essentially honest. You'll solve the mystery of Jeff Gray by reading "To Ride the River With" serially in these columns.

REPORTS FROM THE COUNTY CLUBS

Miss L. H. Boyd, H. D. Agent

TAHOKA CLUB MET WITH MRS. CORLEY

The Tahoka Club met in the home of Mrs. Jack Corley, with Mrs. M. H. Crawford, assistant hostess, on March 9th.

"Milk is the most nearly perfect food and should be used freely in meal planning. If all groceries and supplies are purchased, at least one-fifth of the total amount should be spent for milk and milk products. These facts were brought out by Miss Boyd in her demonstration on the utilization of dairy products.

As a part of her demonstration, she prepared two milk drinks, a vegetable salad, and a fruit salad, using cottage cheese, cabbage with cheese sauce, and a vegetable and cheese casserole.

As many members as possible are

urged to attend the District Home Demonstration meeting at the Lubbock Hotel beginning at 10:30 Saturday morning.

The next meeting, on March 23, will be at the home of Mrs. Lloyd Edwards, with Mrs. Sam Holland as co-hostess.

Mrs. Garland Pennington joined the Club.

The following members were present: Mmes. A. C. Weaver, S. H. Holland, P. W. Goad, H. L. Roddy, James Connolly, Milt Finch, J. B. Oliver, Jack Fenton, Lee R. Baldrige, Lloyd Edwards, Garland Pennington, J. H. Edwards Jr., R. W. Fenton Sr., W. S. Anglin, Jim Dye, M. H. Crawford, C. E. Bennett, Jack Corley, H. M. Snowden, Chas. Nelms, and Miss Boyd.

DAIRY PRODUCTS IN THE DIET, WILSON SUBJECT

The utilization of dairy products in the diet was demonstrated by Miss Boyd to the Wilson Home Demonstration Club at the home of Mrs. H. G. Cook March 2.

Milk is one of the most perfect of all foods. It is the best source of calcium which is needed in building bone and teeth; it is also a good source of protein. Milk is deficient in iron. The vitamin content of milk depends upon the feed given to the cows, especially green feed. Butter and cheese are other dairy products that may be used in the diet.

Mrs. Bill Swann was elected reporter after Mrs. Jack Miller's resignation was accepted.

Mrs. C. C. McCormick and Mrs. L. L. Lawson were new members.

Visitors were Mmes. J. R. Houston and H. C. Hemmeline.

Members present were: Mesdames Douglas Finley, W. H. May, H. B. Crosby, D. A. Hill, Huffaker, P. D. Server, J. W. Lamb, B. W. Baker, C. C. McCormick, Edwin May, L. L.

Lawson, M. C. Brandon, H. G. Cook, and S. G. Anthony and Miss Clara May.

T-BAR WOMEN MEET WITH MRS. TOWNZEN

The T-Bar women met at Mrs. R. E. Townzen's last Wednesday, Feb. 23, and organized a home demonstration club. Miss Boyd met with us. The club will meet on the second and fourth Friday in each month.

Officers elected are as follows: President, Mrs. Alvin McMullan. Vice president, Mrs. R. E. Townzen.

Secretary-treasurer, Mrs. Lucille Barnes.

Reporter, Mrs. Joy Lindley.

Parliamentarian, Mrs. C. C. Coffee.

Council delegate, Mrs. Paul Johnson.

Living room demonstrator, Mrs. I. L. Johnson.

Home food supply demonstrator, Mrs. Barnes.

Members of the club are: Mmes. A. E. Leverett, Frank Sargent, Alvin McMullan, R. E. Townzen, Lucille Barnes, I. C. Dárman, Dick Frankland, Cecil Yeatts, C. Bolch, John Moore, M. B. McMullan, L. T. Smith, H. P. Lindly, C. C. Coffee, Paul Johnson, I. L. Johnson, O. C. West, Earl Billings, and C. H. Harris. Club reporter: Joy Lindly.

WELLS 4-H CLUB MEETS AT SCHOOL BUILDING

At a meeting of the Wells 4-H Girls' Club March 3 at 10:30 p. m. at school, Emma Jo Hinkle, cooper-ator in the club, explained how she finished her kitchen apron without leaving raw seams.

"As my apron was made with several gores, I was careful to baste before stitching on the machine. Then I trimmed the raw edges after basting and stitching before turning to make the finished French seam", said Emma Jo.

Members present were: Geraldine Askew, Billie Etter, Vona Lee Simpson, Lois Fay Yeager, Fay Johnson, Dorothy Dunn, Mary Lou Lindly, Georgia Lou Lindly, Emma Jo Hinkle, Clota Rae Jones, Margaret Barret, Wanda Jean Tyler, and Sponsor, Mrs. John Etter.

GRASSLAND 4-H CLUB MET MARCH 4

"I used the ends of an apple box and a mop stick to make my shoe rack", said Marie Norman, cooper-ator in the Grassland 4-H Club, which met at the school house on 8:45.

"I have applied two coats of white paint and I intend to add another one," said Marie.

Members present were: Viola Roberts, Beth Shepherd, Billie Greer, Nelda Moore, Dollie Gatzki, Margie Shepherd, Parsena Hudgens, Lorene Parrish, Francis Aten, Beatrice Hudgens, Joy Moore, Bernice Huffaker, Eula Mae Laws, Marie Norman, Alta Bess Reeves, Jennie Jo Reeves.

GRASSLAND H. D. CLUB MET MARCH 8

The Grassland H. D. Club met in the home of Mrs. R. E. Appling March 8.

"It is practically impossible to provide enough calcium for the growing child without including fairly large amounts of milk in the diet", said Miss Boyd, Home Demonstration Agent, who gave a demonstration on the Utilization of Dairy products.

Members present were: Mmes. C. E. Short, W. A. Greer, R. E. Appling, B. N. Durham and Douglas Greer.

MRS. LUTTRETT HOSTESS TO DRAW-REDWINE WOMEN

The Draw-Redwine Home Demonstration Club met Friday afternoon with Mrs. W. T. Luttrell. There were eleven members present.

Miss Boyd gave a demonstration of Utilization of Milk in the Diet. Mrs. Dudley Martin joined the club.

Next meeting, March 18th, will be with Mrs. R. L. Pirtle.

ROBOT-WRECKING FUNCTIONAL PAINS

Severe functional pains of menstruation, cramping spells and jangled nerves soon rob a woman of her natural, youthful freshness. PAIN lines in a woman's face too often grow into AGE lines!

Thousands of women have found it helpful to take Cardui. They say it seemed to ease their pains and they noticed an increase in their appetites and finally a strengthened resistance to the discomfort of monthly periods.

Try Cardui. Of course if it doesn't help you, see your doctor.

Production Creates Employment

By RAYMOND PITCAIRN

National Chairman Sentinels of the Republic

Employment, as every American knows, depends on production.

When production booms, jobs and purchasing power flourish. When production is curtailed, jobs decrease and relief rolls mount—as is happening in America today.

Obviously then the way toward increased employment is to encourage production. And, conversely, the way to swell relief rolls is to discourage production.

This is no new idea. America has realized it throughout her history, and has progressed in general well-being as sound production has increased. Out of this process have come great cities, great areas of cultivated lands, great industries, great states, a great nation.

Every American of voting age can remember the part played by three young and growing industries—the automobile, the motion picture and the radio—in helping to lift us from the post-war depression of the early twenties to new heights of production, employment and general prosperity.

That was because the production and employment which such activities represented were widely encouraged. The progress they assured would have been impossible under a barrage of punitive taxes and abuse, against which the group of small business men who met in Washington recently voiced their protests.

Neither then, nor in other days of prosperity, was America wealthier in lands, in equipment, in resources, or in the intelligence and ability of her people, than she is today.

Wider education and scientific advancement have opened still further the door to progress.

America can go forward, and is straining to do so. What she needs is a readiness at Washington to strike off the shackles with which unreasonable taxes and bureaucratic regulations have bound her giant limbs.

Let this be done and the road to increased production, increased employment, increased purchasing power and greater national well-being will be opened again.

MAXINE LINDLEY TELLS OF EQUIPMENT FOR SEWING

"In equipping my sewing box I bought pins, tape measure, six inch ruler, thimble, and measuring gage".

said Maxine Lindley cooper-ator in the T-Bar 4-H Club at a club meet-March 4 at 8:45.

"I had on hand scissors and pin-cushion. A friend gave me my emory bag," said Maxine.

Members present were: Johnnie Mae Anderson, Mary Jo Anderson, Tommy Ruth Anderson, Mayrene Boales, Betty Jean Davis, Genevra Kirkland, Callie Faye McMullan, Olive McMullan, Pauline McMullan, Ollie Lee McMullan, Emmajean Moore, Mina Rhea Waldrup.

F. H. Hancock residing a few miles northwest of Tahoka suffered a heart attack Sunday morning and another lighter attack Monday. Tuesday, however, he was cheerful and claimed that he would be out again within a few days.

President I. A. Overman, of the Seventh District, had a red face. He went to a farm home and seeing the lady of the house in bed he asked, "Are you having the flu?" She replied, "No, it is a boy."—The Kansas Carrier.

Treasure Island Portals

The 100-foot high South Tower of the 1915 Panama-Pacific International Exposition on Treasure Island in San Francisco Bay. Tower foreground is entrance to the Palace of Homes and Gardens while tower in the rear leads to the Palace of Mines, Metals and Machinery and the Hall of the Mineral Empire.

ELDER DRENNON'S NOTES

A few more notes from O'Donnell, where the streets get bad when it rains, and it has done that two weeks out of the three I have been here.

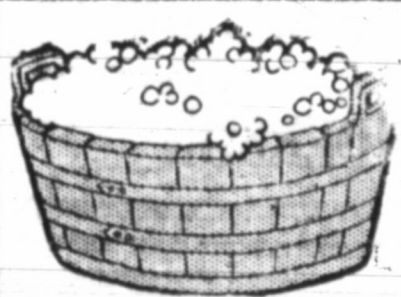

I am just getting ready to go to Mr. W. W. Hancock's funeral, which brings to our minds how uncertain life is, or the time we are to leave this world, and yet so few give it a thought or act as if they did.

Another thing people have a hard time learning, and that is that crime doesn't pay. As I read of the court's actions at Tahoka I am made glad of one thing, and that is the treatment drunken drivers get. I hope Truett Smith and Judge

Reed give them the limit of the law, and I believe they will.

My hat is off to the law enforcement officers in our county. I hear some complaint but those who complain ought to live in East or Central Texas and know how corrupt it is, as I know it, and then they would be proud of the way we do it out here.

I want to take issue with our good editor on the actions of the students at Texas University in their stand about war. I think they did right. Our last effort in going across the pond did not do the world much good as I see it. No, I am not a Communist or a Red either, but I believe we ought to discourage war every time we can, and it seems that the nations in Europe are bent on fighting. I believe in letting them fight it out among themselves. What you said about helping the little boy against the bully, will, if we carry it out every time, in time get us to where we will need some one to help us now, Brother Hill, before you reply to this, pray over it and ask what would Jesus say do, as you claim to be a follower of his. Yours for less fighting at home as well as abroad.

Isn't it the sensible thing to send your wash where efficient machinery and effective chemicals transform soiled fabrics into fresh and clean clothes? Our process harms only dirt. It's easy on your property—and easy on YOU.

Helpy-Selfy Laundry
A. W. FUQUAY, Owner

"My Skin Was Full of Pimples And Blemishes From Constipation" says Verna Schlep: "Since using Adierka the pimples are gone. My skin is smooth and glows with health." Adierka washes BOTH bowels, and relieves constipation that so often aggravates a bad complexion. Wynne Collier, Druggist.

Famous Big Ben Is Not a Clock But Giant Bell

Big Ben is not a clock! It is a giant bell, weighing 13 tons, with a four hundredweight hammer, on which the Westminster clock, built by Frederick Dent and fixed in the tower in 1858, strikes the hours. The first blow on Big Ben denotes the correct time.

Largest striking, most accurate and powerful public clock in the world, says London Tit-Bits Magazine, Westminster's Time Dictator has four faces, each 23 feet in diameter, the centers being 180 feet from the ground. The figures are 2 feet long, the minute spaces one foot square, and the copper minute hands are 14 feet long, weighing about 2 hundredweight each. They travel a distance equal to 100 miles a year. The gunmetal hour hands, nine feet long, weigh about six hundredweight. The 13 foot pendulum, beating two seconds, has a bob that weighs 4 hundredweight, and the clock weights are nearly 2½ tons. Big Ben's young brothers, the four quarter bells, account for nearly eight tons.

Winding is done by electric motor three times a week, but, contrary to popular belief, the clock is not automatically synchronized or controlled, although twice a day it telegraphs its time automatically to Greenwich observatory for checking. Its accuracy is astonishing. Out of 270 days checked, the error of signal was not greater than two-tenths second on 118 days, from two-tenths to five-tenths second on 105 days, five-tenths to one second on 42 days and only greater than one second on five occasions. To get to that clock room you must climb 292 steps.

Celery Traced Back to the Ancient Egyptians

The ancient Egyptians are credited with the growing of celery long before the coming of Christ. However, the white, crisp vegetable that we have on our dinner table is used in a different way. Where we enjoy eating it, the Egyptians used it in their funeral rites. According to information from a breeding institute, Egyptologists found a garden of it on the breast of a mummy of the twentieth dynasty discovered at Sheikh-abad-el-Kureh, near Thebes. This would make it approximately 3,000 years old.

The celery which we eat resembles wild celery which thrives all over Europe and Asia. However, wild celery is slightly acrid in taste. Ancient records of this vegetable are rather indefinite. So it is doubtful if celery was cultivated for eating purposes until the Middle Ages. It is supposed that the Selinus mentioned by Homer in the Odyssey was wild celery. Dioscorides distinguished forms of the plant. Much later, in 1629, Parkinson wrote that "sellery" was rare in England.

Apparently the garden vegetable was introduced into Great Britain from Italy. Italy probably began the actual cultivation of "garden celery" or "eating celery." During the Seventeenth and Eighteenth centuries the English referred to it as "smallage," and the French called it "ache." However, these terms have become obsolete.

Practical, Practicable
Practical means that which is adapted to actual conditions; that which experience has proved to be useful. While the others were wondering what to do, Jones took practical steps to stop the leak in the boat. Evangeline was a dreamer, Joan a practical kind of girl. Practicable denotes that which may be practiced, used, or followed with good results. Some solutions to material problems are all right in theory, but are not practicable in actual practice; in other words they cannot be carried out. To leave a room all you need do is to go out by the door—but if the door is locked on the outside that method of leaving is impracticable.

Early Use of Osage Orange
In the early days farmers turned to osage orange for wood to make fellows (or rims) of wagon wheels. Pioneer wives used to make a yellow dye from the wood of the tree, while a tanning mixture can be made from the bark. Indians used the osage as wood for their bows. The tree was called Bois d'Arc (wood of the bow) by the French in the South. So valuable was an osage bow that sometimes a horse and a blanket represented the price of a good one of excellent grain and finish.

Historic Nyon
Nyon is picturesquely situated on the lake of Geneva, Switzerland. It is a very ancient little town, for it was founded by the Romans in 46 B. C. The chateau, which forms Nyon's crowning diadem, was first heard of in 1289, but the main part of the building dates from the end of the Sixteenth century.

Ambergris for Tea
Much of the world's ambergris is washed up on the Tanaland coast of Kenya Protectorate, Africa. It is ejected by the Cachalot whale, whose habitat is far from here. Its value in perfume is very high, averaging \$25 per ounce. The wealthy Arabs of Morocco use it to flavor their tea.

Chain Store Tax Being Collected

For the first time, Texas business houses must pay a chain store tax. That fact came home to local merchants this week when D. H. Porter, of the State Comptroller's department tax collection bureau, visited the local business house.

Each business that has any commodity for sale must pay the tax, said tax increasing as the number of stores operated by one individual or firm increases.

For one store, the owner must pay \$1.50, for a second, \$6.50, for the third, fourth and fifth \$25.50 each; 6 through 9 add \$50.50 each; 10 through 19 add \$150 each; 20 through 34 add \$250 each; 35 through 50 add \$500 each; and for all stores over 50, the owner must pay a tax of \$750 on each. Thus, it may be seen, the tax becomes exceedingly heavy on such large chains as the J. C. Penny stores, Woolworth, Sears, Montgomery Ward, A. & P., Safeway, and other such big concerns which do business in the state without leaving much in return in the communities where they operate.

A. P. Edwards has been confined to his room most of the time the last two or three weeks with the flu.

The condition of W. L. (Uncle Will) Brown is said to be gradually improving.

CURTIS PUBLISHING COMPANY has opening in this territory for two men with cars. We pay expense allowance and commission. See W. A. Nix at Tahoka Hotel Saturday from 12 o'clock to 3. 1tp

The Blue Goose
Until only a few years ago, the blue goose was generally looked upon as the mystery bird of the American flyways. It traveled freely with snow geese, and in the fall flights was always associated with them. In the spring, the two species were often together, which caused bird people to conclude that the snow goose was nothing more than a blue goose grown up, according to a writer in the Detroit Free Press.

The Italian Language
The Italian language is a development of the Latin which was spoken during the days of the Roman empire. As spoken by educated people it is derived from the Florentine dialect which was the language of Dante. This was the form taught in the schools and used in all Italian dictionaries. But the common people do use dialect forms which vary slightly in the north and south of the country.

Colorful View of 1939 World's Fair on S. F. Bay

Here nations of the world will display their treasures at the Golden Gate International Exposition on Treasure Island in San Francisco Bay. In center of this sketch by Ernest Bueche is the Court of the Nation on which faces the \$1,500,000 Federal Building (in background) and a beautiful lagoon. At right, State of California buildings and at left, some of the buildings being erected by nations of the Pacific.

MRS. BILLINGSLEY WRITES FROM OLD NEW ORLEANS

When the weather is good and skies are blue, a shack with only a camp stove for warmth may be "home, sweet home," but its vastly different when it rains, and when we left Port Lavaca it was raining. A cold norther was blowing. A grey waste of water stretched away on either side of the bridge and causeway—more than three miles long—which spans Lavaca bay. Scores of wild duck dotted the surface of the water, bobbing up and down with the motion of the waves.

Our stop in Houston at a comfortable tourist court that had plenty of gas stoves and hot water was enjoyed to the utmost, for it was there we got thoroughly thawed out. We sprawled in big easy chairs like contented cats.

Then on through the "piney woods" of East Texas, past water-soaked farm lands, along the rice and sugar cane fields of Louisiana, and so to New Orleans.

The rains had evidently extended across the South, for there was mud or water everywhere, and B. N.'s remark: "That buzzard would alight if it could find a place," was not far wrong. It was, as my father used to say, "more truth than poetry."

In the meantime, Mardi Gras Carnival is on, and that means a lot to the people here, and there are no half-way measures in the way they go about its celebration.

There are, also, many old his-

S. F. Fair Sets '39 Fashions

The 1939 Golden Gate International Exposition, to be held on Treasure Island in San Francisco Bay, already is setting the styles for next year. Here Beth Cleve displays a "Treasure Island" bracelet designed by Marie Ayraut and hung with pirate charms. Note the dress print worn by Miss Cleve, showing some of the World's Fair towers and palaces.

toric spots in the city. I hope to tell more about them sometime, but just now I am busy seeing things

L. V. Alexander and Hollis Deats, students in the Texas Tech, were week-end visitors here of A. R. Milliken.

County Grand Jury Issues Report

To the Honorable Judge of the District Court of Lynn County, Texas:

We, your grand jury for the February term, 1938, of said court, report into open court through our foreman, a quorum thereof being present, that we have spent five days as a grand jury this term of court in the investigation of crime. During our deliberations we have returned 25 felony bills of indictment.

During our deliberation as a grand jury we have investigated many violations of our criminal laws, including forgery, theft, assault with intent to murder, swindling and driving while intoxicated, and we have voted bills of indictment in those cases where we thought the evidence sufficient. Among the many law violations called to our attention was that of forgery and driving while intoxicated.

We cannot express too much condemnation for the man who comes through the county forging checks, and we are glad to report that many of them have been apprehended, indicted and tried at this term of court.

Likewise, we cannot express too much condemnation for the person who so forgets himself that he gets into his automobile or truck while in an intoxicated condition and drives down our public highways and streets, a menace to every man, woman and child that he meets. We deem such person a dangerous person to society.

It has also been called to our attention that in many instances big trucking concerns load their trucks with cotton, cotton seed and other loads in excess of the amount they are permitted to haul under the law, without being molested and small trucking men are being constantly weighed and fined for such violations. We call upon the highway patrolmen who work in this county to investigate this matter and also request the local officers to assist them in such investigation. If a law is on our statute books, we think it should be enforced until it is repealed, and that it should be applicable to all truck men alike,

whether big truck owners or small truck owners.

It has also been called to our attention that certain marble and slot machines are being operated in this county. If such be true, we call upon our officers and good citizens to stop illegal machines. If the public is going to give an inch of ground here and another inch there, it will not be too far distant when our regard for law and order will break down and we will be back to the point where a man's life and his property will not be secure and we will have no social and moral standards worthy of an enlightened Christian civilization.

We have inspected the courthouse and jail and find the same being kept in good and sanitary manner.

We desire to thank our District Judge, our Sheriff, Bailiffs, our District Clerk, our County and District Attorneys for their courtesies extended to us during our deliberation. We also wish to thank the good citizens of Lynn county who came before us and gave their testimony to the end that we might fully investigate all matters called to our attention.

We request that a copy of this report be printed in the Lynn County News and one in the O'Donnell Index.

Having finished our work for this term, we most respectfully ask that we be finally discharged for the term.

Respectfully submitted,
JNO. HECK, Foreman of the Grand Jury.

NEW PHOTOGRAPH STUDIO in town. H. C. Calahan has opened a studio in Tahoka. First residence south of High School. Will be pleased to have the people call on me. I have been in the business 55 Years. H. C. Calahan. 301fc.

13-YEAR GIRLS SUNDAY SCHOOL NEWS

The 13-Year Girls of the Baptist Church elected new officers last Sunday.

They are as follows: President, Betty Lou Ivey. Vice president, Vinita Cooper. Secretary, Lynelle Maddox. Social committee chairman, Dorothy Conway.

Reporter, Dorothy Threet.

We have planned to see all our absent students. We classified as B last Sunday. We are trying to raise this grade. We are also striving to help our Sunday School grow.

A. Y. EDWARD FAMILY MOVES TO TOKIO

After thirty years residence in Lynn county, A. Y. Edwards and family left Thursday for Tokio in Yoakum county, where they will reside in the future.

Deen Nowlin left Wednesday night for Houston, where he expects to spend several days on business.

SPORTS

The girls' volley ball team has been making an excellent showing in the games played this season. The first team has had three match games and so far Tahoka has not been defeated.

Ward School

LEAGUE CONTESTS-

There are a large number of pupils working on the various events for the coming Interscholastic League meet. We have eighteen junior girls reporting to Miss Her-ring as candidates for declamation.

BALL GAMES

The ball teams have played several match games and so far are undefeated. With the amount of interest in each event and the number of pupils taking part, we expect to have a very interesting track meet.

HONOR ROLL

The honor roll for the past six weeks' period:
Sixth Grade: Elbert Boulloun, Sarah Jane Jones, Myrna Dean Gaignat, Peggy Fenton, Joann Edwards.

The Senior boys defeated the Junior boys in a game of softball last Friday afternoon by a large margin. They announce they will "take on" any team that wishes to challenge them.

Spring training and track started last week under the direction of Coach Harlow. All boys that are interested are invited to come out. We need more entries in track.

The tennis contestants of T. H. S. have been practicing for the last few days, and would like to match some games with any of the surrounding schools.

The Tahoka Seventh Grads boys and girls are working hard for the Interscholastic League meet. The sixth and seventh grades compete March 15 in playground ball to see which team will represent Tahoka.

ENROLLMENT IS UP The enrollment of the Tahoka Public Schools is now greater than ever in the history of the school system. The present enrollment is 816. The High School contributed 243; the Ward School 538, and the Colored School 35.

TYPING CONTESTS Last week several typing students accompanied by their coach, Mrs. Harvey Assiter, attended a practice typing contest at the Lubbock High School. They have not yet received a report as to how they progressed, but they hope they won some place of honor.

DEBATE IN CHAPEL The Senior debaters from the Speech Department debated in chapel Wednesday. The boys, David Weathers and Hiram Snowden, had the affirmative, and the girls, Edith Robertson and Mary Margaret Tunnell had the negative.

FIRST GRADE PROJECT The first grades are making some very interesting trips and studies of the town and community home life. A report of one of these trips is given below.

Our Trip To The Post Office We went to the postoffice. We went in the school bus. Our teachers went with us. Mr. Bostick drove the bus. The bus went bumpety, bumpety, bump.

In The Postoffice We saw the big mail bags to send packages and letters away in. The man let us see in the stamp drawers. There were many stamps in the drawers. Some stamps cost three cents. Some stamps cost one cent, and some much more.

The stamps are to be used only one time. Mr. Garrard showed us how they cancel the stamps so they can tell they have been used. A machine cancels the stamps. The letter stamps should be in the top right hand corner.

We saw where they keep C. O. D. packages. C. O. D. means Cash on Delivery. A card on the package tells how much to pay. We saw the boxes for each family's mail. Each box has family names at the back. Each box has a number at the front.

Our School Postoffice We played postoffice at school. We made a postoffice of orange boxes. We painted the boxes red. We covered the top with paper. We cut letters to show where the letters belong.

James Hardy was the postmaster.

When HEADACHE Is Due to Constipation

Often one of the first-felt effects of constipation is a headache. Take a dose or two of Black-Draught! That's the sensible way - relieve the constipation. Enjoy the refreshing relief which thousands of people have reported from the use of purely vegetable Black-Draught.

BLACK-DRAUGHT A GOOD LAXATIVE

We called for our mail. Then other children were postmaster. We got valentines in the mail. We had a party too. Mrs. Craft and Miss Collier gave us red soda pop and heart cookies. We had a good time.

Mrs. J. H. Collenback left Saturday for Mullins, Mills county, to help look after her aged father, who is sick.

Lex A Collins, 41, mail carrier, was recently sentenced at Oklahoma City to 5 years in the state penitentiary when he pleaded guilty to a charge of embezzling \$41,000 from the Oklahoma City Postal Employees Association.

FIGHTING ILLNESS...

Next to your physician the most important thing is the medicine.

What advantage can be gained in seeking the best medical advice, unless the medicine prescribed is compounded by a pharmacist who possesses a high degree of skill?

Suppose the prescription does cost a trifle more when compounded by a good pharmacist. When figured out on a dose basis, the amount is insignificant.

In fighting illness, by all means seek the most competent medical talent because it pays. But do not stop there. Be sure to have the medicine compounded by a pharmacist who uses only the best quality materials, and whose ability in prescription work is on a par with the skill of your physician.

W. M. S. OF BAPTIST CHURCH MEETS

The W. M. S. met Monday afternoon at the church. There were fourteen present with one new member.

The program was as follows:
Song, "The Woman's Hymn."
Prayer.

Song, "Must Jesus Bear The Cross Alone?"

The book, "Fruits of the Years," was taught. Mrs. Burleson gave a review of the first chapters and Mrs. Caviness taught the last chapter.

Prayer.
Business meeting.

J. W. Smith Jr., Glendale, Calif., son of the late Editor J. W. Smith of Lamesa, visited the News force Saturday. J. W. was formerly at Lamesa with the Reporter, but is now operating a shop of his own in Glendale.

Summer Knight has been able to leave his room and come down town in a car several times the past week and one day he went out to the farm. Many friends are hoping that he continues to improve.

G. E. Hogan, who has been sick several weeks, is reported to be slowly improving but is still confined to his bed.

Little Dorothy Kelley of Lubbock spent a few days here the first of the week visiting her aunt, Mrs. Charles Walden.

Mr. and Mrs. W. C. Mathis and son, Don Jack, of Levelland came over Sunday to visit the G. R. Milliken family. Mr. Mathis returned to his home the same day but the wife and son are spending the week here.

Scott Davis is reported to be slightly improved following a light stroke of paralysis which he suffered last Friday. Mr. Davis had been suffering from high blood pressure for many months.

Claude Donaldson Jr., who was sick for two weeks with the flu and bronchitis, was able to re-enter school this week.

Pay up your subscription now!

G. W. Hickerson Jr. of Monahans, son of Mr. and Mrs. G. W. Hickerson of Three Lakes, underwent an operation for appendicitis in a Lubbock sanitarium Monday morning at nine o'clock. Latest reports are that his condition is satisfactory.

Mr. and Mrs. Charlie Boswell are the proud parents of an eight-pound daughter born Monday of this week. The little miss will bear the name of Gracie Charline. Mother and babe are doing well.

E. C. Covington and daughter, Mrs. Truett Chandler of Mount Vernon are visiting his sister-in-law Mrs. W. M. Davis of Central community.

J. K. Woosley, who was so critically ill with pneumonia for several days, is now reported to be much improved. It is believed that his condition will be such that he can be brought home within the next few days. He is in a Lubbock hospital.

C. W. Conway Jr., who has been on crutches several weeks following a bad sprain of the ankle, is now able to walk a little without the use of crutches. He has continued to do his school work, however, notwithstanding his injuries.

Mrs. J. N. Garrison of Houston is here spending the week with her father, J. F. Stuart, and other relatives.

Murray Fuquay has accepted the call of the West Point Baptist Church as pastor. Murray has been studying in Southwestern Baptist Theological Seminary at Ft. Worth.
