Number 40

Second Tornado Strikes In Lynn County

Closing Exercises Of School Are Tonight

Dr. H. C. Pender Of Tech Will Give The Address

Tonight, at the high school building, thirty-five Seniors will receive their diplomas of graduation from the president of the Tahoka school board.

Scholarships will be presented by Superintendent W. G. Barrett.

The class address will be delivered by Dr. H. C. Pender, head of the Government Department of the Texas Technological College.

It will be a proud hour in the life of these young people. Some of them are planning to enter college next fall. For some of them, no doubt, their school days will close when the curtains ring down tonight. How wonderful it would be if all of them could attend college! While that may not be possible, it is possible for all of them to make good citizens and to fill well their places in life. It is hoped that every one of them, each in his or her respective sphere, will throughout life reflect credit on the class and on the school.

On Thursday night closing exercises for the seventh grade were held. Thirty-three of them received their certificates of promotion and next fall, it is hoped, every one of them will enter high school. Quite a goodly number of the members of the seventh grade, for some reason or other, failed to pass and will be retained in that grade another year. This is most regrettable, but it is better that they be required to take the work again and master it than that they be promoted when not really prepared for the higher work. Certificates of promotion were delivered to the thirty-three successful members of the class by the president of the school board.

The class address was delivered by Elder J. L. Nisbett, minister of the Church of Christ, and it is said to have been a most excellent address.

Following the invocation pronounced by Rev. Ben Hardy, the salutatory address was given by Wanda Lee Tinsley.

Joe Elton Wells and Wayne Shawn gave a duet entitled "In a Little Dutch Kindergarten."

The valedictory address was given by Mary Beth Roddy.

"Caint You Hear Me Callin' Caroline" was rendered as a quartet by Grace Bartlett, Billie Lee Burleson, Mary Beth Roddy, and Bette Ruth Wyatt.

(Continued on back page)

Speaking At South Ward Called Off

Due to the fact that commencement exercises of the Tahoka high school will be held tonight and the further fact that many of the South Ward residents plan to attend, the candidates have decided to postpone indefinitely their speaking engagement there. It had been announced that they would speak there tonight.

The candidates spoke at New Home last Friday night and at Grassland on Tuesday night. They report that they had a large crowd and a good hearing at each place. Several of the district candidates attended each of these speaking. Both announced candidates for district judge, Hon. W. W. Price of Brownfield and Judge Louis Reed of Lamesa and three of the candidates for Representative in the legislature, Judge Alvin Allison of Levelland, Prof. T. W. Montgomery of Wilson, and Hon. W. F. Florence of Slaton, were among the speakers at the Grassland meet.

The next meeting will be held at Morgan next Tuesday night.

4-H Style Show Is Saturday

Nearly one hundred 4-H club girls from nine Lynn county clubs will participate in the annual 4-H Club Style Show at the high school auditorium in Tahoka Saturday afternoon at 2 p. m. The show is open to the public.

Clothing to be modeled includes kitchen aprons, slacks and shirts culotte dresses, work dresses, house coats, and smocks, all made by the girls from cotton materials.

Mrs. Ruth Perry, home demonstration agent of Lamb county, will judge the contests. Local home demonstration agent, Miss Lilith Boyd, is director of the event. Mrs. Boswell Edwards chairman of the sponsors, will be in charge of the program.

Mrs. R. W. Fenton sr., of the Tahoka Home Demonstration Club is this week scoring clothes of the girls, and their clothes closets scores has a part in determining the winners of the style show.

Attorney General Candidate Here

Lewis M. Goodrich of Shamrock, candidate for Attorney General, spent Wednesday night here as the guest of Rollin McCord.

Mr. Goodrich is serving his third term as district attorney of the 31st judicial district in the Panhandle. He has visited all parts of Texas in his campaign for the office of attorney-general. He is now concentrating for a few weeks on West Texas, feeling that this section of the state can put him in the runoff.

He has the endorsement of the entire bar of his district, which is composed of Wheeler, Roberts, Lipscomb, and Gray counties, Pampa being one of the cities in his district. The newspapers of that section of the state, including the Amarillo Daily News, give him high praise.

Goodrich is an affable gentleman and is reputed to be an able prosecutor as well as a clean, honest man. The people of Texas might do much worse than to elect him.

Durham Child Has Second Operation

Little Margaret Durham, daughter of Dr. and Mrs. K. R. Durham, underwent a second mastoid operation Tuesday morning. Two weeks ago she underwent a similar operation on one side of the head, an operation for mastoid trouble on the other side becoming necessary later. Her condition Wednesday was said to be satisfactory.

Dr. Durham himself has been very sick this week with a case of influenza, and other members of the family have not been well.

Mrs. Rhea Goes To State Hospital

Mrs. Maggie Rhea, 69, wife of W. T. Rhea of the Magnolia community, was adjudged to be of unsound mind by a jury in the county court Monday. She was taken to the State Hospital at Wichita Falls Tuesday by Deputy Sheriff Ed Sanders.

Mrs. Rhea had undergone treatment in this institution once before, being released about three years ago.

A. L. Lockwood left Saturday for Los Angeles and San Diego, California, on a business mission.

Completing Plans On Rural Light-Power Line

Will Be 175 Miles Long And Extend Through Three Counties

Plans for the construction of an electric light and power line 175 miles in length, beginning at Meadow and spreading out over portions of Terry, Lynn and Garza counties, are apparently about to materialize, according to information given to the News by John Heck of Wilson, chairman of the local board of directors.

On Thursday of last week Mr. Heck received instructions from Washington for the board to select an attorney to represent it in all legal matters that might arise in connection with the administration of the project.

On Friday he received a letter accompanied with blank forms and (Cont'd. on page 2)

Bovell Bakery Sold To Arizonan

T. J. and W. T. Bovell last week sold the Bovell Bakery here to B. G. Clinton, late of Safford, Arizona, and the new proprietor took charge of the business Monday. Mrs. Clinton will assist in the operation of the bakery.

Already the interior of the front room has been treated to a new coat of paint, new cases will soon be installed, and other improvements are contemplated.

While Mr. and Mrs. Clinton came here from Safford, Arizona, they are really West Texas people. Mr. Clinton formerly resided at Slaton and Mrs. Clinton in Lubbock. They will be warmly welcomed into the business and social circles of Tahoka.

The Bovells have been in the bakery business here eight or ten years and have done a thriving business. For the past few years T. J. has devoted most of his time to his farming interests and will doubtless continue to do so. W. T. has been actively in charge of the bakery. He has not yet announced his plans for the future.

G. C. Grider Enters Race For Judge

Judge G. C. Grider announces this week as a candidate for county judge, subject to the action of the Democratic primaries.

Judge Grider served as county judge of Lynn county for four years, from 1929 to 1932 inclusive, the first four years of the depression. The Judge calls attention to the fact that the tax valuations of the county were reduced approximately two million dollars during his administration.

He also says that during the first year of his administration he organized the County Judges and Commissioners' Association of West Texas and became the "daddy" of the organization. This organization has grown in numbers until it is now almost as large and important as the state association.

Judge Grider has announced the following platform on which he will make this race. He stands for: Reduction of taxes, good roads, economy in all county affairs.

If elected, he promises to give the tax payers a quarterly report of money on hand and expended.

He says that he will render like service to all.

Judge Grider has been a resident of this county for fifteen years. For several years he followed the occupation of farming in the T-Bar community and in the vicinity of O'Donnell, serving at intervals as an auctioneer. Then he was elected county judge, serving for two terms. He is now engaged in farming in

Seven Plead Guilty In \$28,000 Robbery Committed In City

Seven men pleaded guilty in the Federal Court in Lubbock Monday to complicity in the theft of about \$28,000 from a mail car while it was stopped in Tahoka about November 5, 1937, on its way south from Slaton to Lamesa. The mail sack which was taken from the car here contained money sent by the Federal Reserve Bank at Dallas and consigned to the First National Bank of O'Donnell where it was to be used chiefly in the payment of cotton pickers. The sack and its contents never reached their destination, and immediately upon report of its loss federal and local officers started an investigation which ultimately resulted in the arrest of eight men and a woman.

Those who entered pleas of guilt in the federal court Monday were: Jack Cathy, 44, of O'Donnell, who had confessed to taking the money (Cont'd. on page 2)

Old Days Recalled; Team Runs Away

People on the streets of Tahoka early Thursday morning were waddled back in memory to the horse and buggy days, when a team hitched to a wagon came tearing up the street in wild abandon.

They started somewhere near the southwest corner of the square and proceeded northward three blocks circling the Methodist church and then turning south a block or two west. When last seen by the excited spectators, only the running gear of the wagon was all that remained attached to the excited animals. Somewhere in the round they had lost the bed of the wagon.

The team and vehicle belonged to Oliver Green and were used by him in hauling trash and junk from town to the city dumping grounds. Just what caused them to get excited and run was not learned. Mr. Green had left them at the time to get some trash from a place of business.

The run-away caused as much excitement as the arrival of an automobile in town thirty years ago, is the way one man expressed it.

Minors Visit In Bell County

Mr. and Mrs. A. J. Minor drove down to Temple Sunday, accompanied by Curtis Stevens, taking Mrs. Stevens to a hospital there to go through the clinic. It is not yet known just when Mr. and Mrs. Stevens will return.

A. J. is a native of Bell county, and he and Mrs. Minor spent Sunday night in the home of his grandmother in Killeen. It was the first time he had seen her for twenty years. All the kin-folks gathered in—and A. J. says there was a bunch of them—and all had a great time.

He reports an abundance of rain in that section of the state. It was claimed that sixteen inches of water had fallen at Killeen in the past two weeks, he says.

Mr. and Mrs. T. E. Parks and Mr. and Mrs. Sam Bartley left Wednesday afternoon for Cooke county to attend the funeral of Mrs. Allen, the aged mother-in-law of Mrs. Bill Allen who is a daughter of Mr. and Mrs. Parks. Mr. and Mrs. Bartley are expected to return home today or tomorrow but Mr. and Mrs. Parks will remain for a visit of several weeks.

He will make a thorough canvass of the county and will see as many of the voters personally as practicable. If he should fail to see any, he desires to state that he will appreciate their support and influence just the same.

Women Attend Short Course

Eighteen Lynn county home demonstration club members and the home demonstration agent, Miss Lilith Boyd, attended the Short Course at the West Texas State College at Canyon on Thursday of last week.

Clubs represented were O'Donnell, Wilson, Hackberry, and Tahoka. Hundreds of club members coming from all parts of the Panhandle and Plains were present. Most of the counties in northwest Texas were represented.

Lynn county women attending were: Mrs. John Earles and Mrs. Ben Moore of O'Donnell, Mrs. H. G. Cook and Mrs. B. W. Baker of Wilson, Mrs. Buford-Jones of Hackberry, and Mesdames W. S. Anglin, Mill Finch, Claude Wells, P. W. Goad, James Connolly, Chester Connolly, Lee Baldrige, Harold Edwards, H. L. Roddy, Garland Pennington, J. O. Patterson, J. B. Oliver, and Miss Floyce Sherrod of Tahoka.

Piggly Wiggly Enlarges Store

The floor space of the Piggly Wiggly store has been considerably increased recently. Following the removal of the Co-Ed Beauty Shop, the store has been extended to cover the space formerly occupied by that business. It now probably has more floor space than any other grocery store in Tahoka, its dimensions being 50 by 62½ feet.

The balcony has also been rearranged and Mr. Young is preparing to have the fixtures at the front rearranged also. Ned turnstills will be installed, and the entire interior will be repainted. Mr. Young plans to make this store one of the most attractive in town.

Mrs. A. M. Daniel Makes Statement

The News is authorized to place the name of Mrs. A. M. (Dan) Daniel in its political announcement column this week as a candidate for county treasurer of Lynn county.

Mrs. Daniel is the widow of the late A. M. Daniel, who died here several months ago, and she has been a resident of Tahoka for several years. She has been in a position to meet many of the people of the county, and has friends scattered throughout the county. She respectfully solicits their support as well as the support of the other voters of the county.

Mrs. Daniel has had about fifteen years experience in routine office work, having served three years of the time in this county. She is familiar with the duties of a county treasurer and feels that she is capable of filling the office in a most efficient manner. In making her announcement, she said:

"I am entering this campaign because I need the office as a means of livelihood for myself and my son, and I feel that I am competent to handle the work. I ask the careful consideration of each voter in this county, promising that if I am elected I will spare no time nor energy toward attending to the duties of this office. Any influence or assistance you may render in behalf of my campaign will be deeply appreciated. And until I can see each of you in person, please take this announcement as my request for your vote and influence."

Mr. and Mrs. W. A. Cox of Seminole spent last week end as guests of Mr. and Mrs. H. L. Roddy.

Damage Is Slight But Rains Are Welcomed

Winds Do Damage To Farm Buildings But No Lives Are Lost

Much indefinite information regarding a twister that swept across a portion of the county from the vicinity of O'Donnell to the northeast through the Midway and Edith communities late Wednesday afternoon poured into Tahoka early Thursday morning. Several barns and chicken houses and at least two residences are reported to have been blown away but so far as we were able to find out no one was hurt.

It is said that a small house near O'Donnell with a woman and a child in it was blown down but neither was hurt. The barn and chicken house of L. B. Bury in the Edith community were among those destroyed and about a dozen chickens of Mr. Bury's were killed. The family was not at home at the time.

A negro shack on the Forsythe place in the New Lynn community was also demolished but no one injured.

A barn on the Earl Odum place was also blown away.

The top was lifted from the new garage of Lonnie Williams in the Joe Bailey community and demolished.

A destructive hail covered much of the territory, destroying what crops were up. Deen Nowlin lost 400 acres of cotton. Mr. Burk lost a smaller acreage, and many other farmers suffered losses.

The storm followed a northeast direction but was much wider and less concentrated than the twister which did so much damage in Dawson and Lynn counties a few weeks ago.

Rains Monday night and Wednesday afternoon and night covered most of the county. It was very heavy in some localities, the heaviest fall Monday night being reported at Grassland, where from two to three inches are reported. The rain gauge shows 2.15 inches in Tahoka this week. About an inch was reported at Draw Wednesday afternoon and night and about the same amount at New Home.

The rains have been very fine for the farm lands where crops were not destroyed by hail. Many farmers in the hail district and where the heaviest rains fell will be compelled to plant their crops over, however.

Farmers all over the county will be exceedingly busy the next two or three weeks planting their crops.

House Destroyed By Fire Sunday

A small house belonging to County Superintendent H. P. Caveness situated just across the street south of the Caveness home and occupied by L. F. Morton and family was totally destroyed by fire at about 4 o'clock Sunday morning.

The fire had made great headway before it was discovered by the family and they barely escaped in time to avoid death or serious injury, it is said. Nearly all of their household effects were destroyed.

The origin of the fire is undetermined but it caught in the kitchen. The building was partially covered by insurance. There was no insurance on its contents. J. T. "Slim" Elliott and Charles Walden circulated a subscription list for the benefit of the Morton family Monday and about \$230.00 was raised.

Sonny Brown arrived Tuesday from Austin, where he has been taking a business course. He is going to Pittsburg, Penn. to be a salesman until September, then he will continue his work in Austin.

Early Payment On Cotton Promised

Early payment of the 1937 cotton bounty of two cents per pound has been approved by the Senate in adopting the amendment of Senator Tom Connally of Texas to the agricultural appropriation bill. When the bill is finally enacted into law the department will start immediate preparations to make payments upon proper proof of compliance. Senator Connally has been advised.

The benefit payments to cotton farmers are made possible by the Connally-Jones amendment to the agricultural adjustment act of 1935. This amendment, which was sponsored in the Senate by Senator Connally, provided that a percentage of the revenue from customs duties should be used by the Secretary of Agriculture to pay bounties to farmers and otherwise aid in the increase of agricultural exports.

Last August Senator Connally offered a resolution in the Senate tracking provisions for benefit payments to cotton farmers on their 1937 crop under the terms of the Connally-Jones plan. It was finally put into effect but provided that payments should go only to farmers who cooperated in the 1938 program. The Comptroller General ruled that such payments could not be made until the end of the 1938 crop year and officials of the Department of Agriculture said it would be December before farmers would get their checks. Senator Connally then introduced his amendment providing that the payments should be made just as soon as a farmer shows he is complying with the 1938 program. Approximately \$130,000,000 will go to cotton farmers as benefit payments under the provisions of this amendment.

OUTLOOK FOR ADVERTISING

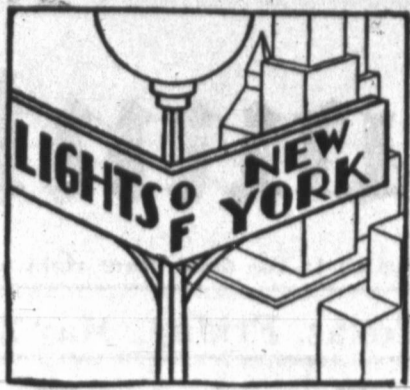

A poll just completed by the Association of National Advertisers, Inc., reveal that 77% of those participating plan at the present time to expend as much or more in advertising in 1938 as in 1937. Participating in the poll were some 150 of the leading national advertisers from coast to coast, comprising what is believed to be a true cross section of the larger manufacturers of the country who use advertising as an aid to selling.

The replies received to the questionnaire sent out by the Association, according to Paul B. West, president, reveals that while manufacturers are anxiously watching the business situation and attempting to gauge the duration of the present recession, they are facing the new year with real courage and a determination to go ahead in the hope that the downward trend will reverse itself in the not too distant future.

Montie Ray Keltner of Globe, Arizona, has been here this week visiting relatives and friends. His mother, Mrs. C. B. Keltner, came with him as far as Seagraves, where Mr. and Mrs. Harley Wells have been residing. They are moving to Wink this week, however, where Harley has a position in a grocery store.

Roger B. Street, son of Mr. and Mrs. B. B. Street of O'Donnell and a nephew of Mrs. N. M. Wyatt of this city, has been elected to the faculty of Quitaque high school for next year. He is a graduate of Tahoka high school, and will receive his degree from Tech in June.

Arabia is a land without a river, a forest or a lake, yet it is an area almost four times the size of Texas.

By L. L. STEVENSON

Various attempts have been made to solve the problem of New York's many late theater comers. Curtains advertised to go up at 8:40 are held until 8:50 or even 9 o'clock and still the tardy ones, usually with seats in the center of a row, come straggling in to the vast annoyance of those already in their places. Now, according to Variety, managers of legitimate houses are contemplating going into a huddle with the Broadway association to see if there isn't some remedy for the nuisance. The idea in mind is the 9:30 or 10 o'clock curtain. To make up for the lost time and to bring the final curtain near the usual hour, the plays would be "streamlined" by shortening or doing away with intermissions.

Two main causes for theater tardiness are given. One is the increasing habit of late dining. More and more New Yorkers are taking to the habit of eating in the continental fashion. That is, leisurely. The result is they do not think about the theater until the first act is well under way, or is at an end. Frequently the movies are a compromise, the late shows in various mid-town houses, especially Radio City Music hall, attracting white-tie and ermine audiences. The other main cause for lateness is traffic congestion. The theaters are mostly west of Broadway or very close to Broadway. The smart dining places are on the East Side. At theater hour, cross-town traffic is a series of jerks with long waits in between.

In a number of establishments, "theater dinners" are served. The head waiter is notified as to what play is to be visited. From his time-table, he ascertains the curtain time and then conveys with the chef to get the diners out in due season. In a number of mid-town establishments, curtain time-tables are displayed. But all that entails hurry and New Yorkers, when dining, don't like to hurry no matter what their habit may be on other occasions. So they move for the late curtains. And if they do go into effect, the usual number of show-offs will continue to stumble over feet and seats in the middle of the act. At least, that's my guess.

New York kitchens contain many gadgets despite their small size. There are electrical appliances of various kinds, from orange juicers to clocks, of course. The latest I've noted is a two-door vegetable bin. When I was a youngster, the vegetable bin was in the cellar and it was my spring job to go down there and sprout and sort the potatoes. But New Yorkers don't have cellar storage space except for trunks, etc. Also, New Yorkers move frequently and like to take their belongings with them. That applies to vegetable bins as well as suction ventilators for kitchen windows.

One thing I've never been able to understand is why New York landlords do not furnish window screens. We've lived in apartments in several different locations and in each we've had to supply our own fly barriers. A few tenants, with long leases or careless of expense, install screens on their own. The rest of us buy the extension kind which can be moved to another location. But which are not very efficient in keeping flies out.

In the Brill building, an old man is employed as a janitor. Nevertheless, he is one of the town's busiest music critics. He is a close friend of the composers and arrangers of Ray Block's staff and when a new song or an arrangement is completed, it is rushed to him. If, after looking it over carefully, he declares it will click, it does and if he says it won't, it doesn't. At least, that is the report. But the funny part of the whole thing is that the old man can't read a note of music.

Makes Own Tractor
North Loup, Neb.—Dan Vogel, farmer, has constructed his own tractor. He used the radiator from one car, the motor from a second and the rear end from still another. He claims a maximum speed of 20 miles an hour.

India's Insects Kill 1,500,000 in Year
Calcutta.—Insects cause the loss of more than 1,500,000 human lives and do damage estimated at \$750,000,000 a year in India. These figures were given by Mohamed Afzal Hussain in his presidential address to the entomology section of the Science congress here. The number of existing species of insects in India could not be less than 2,500,000, he said. Of these only 40,000 species, it was estimated, had been studied in India.

RESOLUTION.

At a meeting of the local advisory Committee of the American National Red Cross held at O'Donnell, Texas on May 14th, 1938, the following Resolution was offered by Committeeman, C. H. Doak, and the same was unanimously adopted, to-wit:

Whereas, on April 26th, 1938, a tornado swept across a portion of the northern part of Dawson County and the southeastern part of Lynn County taking the lives of three of our people, seriously injuring and wounding about twenty-five others and leaving a large number of families without home or shelter, besides doing other great property damage; and,

Whereas, within a few hours after such disaster, the American National Red Cross had its representative, Mr. Robert Bridge, on the ground directing relief of all immediate suffering as far as possible, and providing medical aid, food and shelter to the destitute, which was followed, under his direction, by measures to prevent future suffering resulting from said disaster; and,

WHEREAS, each case has been thoroughly, efficiently and impartially investigated and reported by the excellent case workers, Mrs. Myrta Montgomery and Miss Marjorie Wright, and substantial relief has been provided in forty cases at an expenditure of approximately \$10,000.00 by the Red Cross, besides a large quantity of food, clothing and labor that has been contributed directly by citizens, so that in every case the necessary medical aid and hospitalization has been provided for all who could not provide it for themselves, and necessary shelter and clothing has been provided to enable all those in destitute circumstances caused by the tornado to cultivate their crops and follow their usual vocations:

THEREFORE, BE IT RESOLVED by this Committee, on behalf of

those who were stricken by the tornado, that it appreciates the relief and assistance rendered by the American National Red Cross in this disaster, and the efficient and equitable manner in which it was administered; and that we commend Mr. Robert Bridge for his untiring efforts which made such administration possible, and especially do we commend Mrs. Myrta Montgomery and Miss Marjorie Wright for their very efficient services as case workers and also Mr. Arthur Fifer, the genial and efficient accountant.

BE IT FURTHER RESOLVED that we are deeply appreciative of the citizens of the towns and communities of Lynn and Dawson and adjoining counties for the excellent

manner in which they responded to the call of the Red Cross with funds, for it is this spirit that makes the noble relief work of the American National Red Cross possible; and we greatly appreciate the food, clothing and labor contributed by the people directly and their cooperation in the work of relief.

BE IT FURTHER RESOLVED that a copy of this resolution be mailed to the headquarters office of the American National Red Cross, that a copy thereof be delivered to Mr. Robert Bridge, Mrs. Myrta Montgomery and Miss Marjorie Wright, and Mr. Arthur Fifer, respectively, and that a copy of the same be furnished to the press of Lynn and Dawson counties.

T. W. Montgomery Gives Platform

T. W. Montgomery, member of the public school faculty of Wilson, announces his candidacy for state representative for the 119th legislative district. "I wish to present my candidacy to the voters of Lynn County, of the 119th district," he said.

College Work At Teoh

"I was reared as a native Texan and educated in the Texas schools. All of my college work was done at Texas Technological College and I was graduated with Bachelors degree in 1931. I have been teaching for the past ten years with this representative district."

"Having made a study of government and economics in college and taught those subjects in high school, and having studied and observed the affairs of our state, I feel the duties and responsibilities of this state office."

"I am coming out strictly on my own initiative in the name of the common people, not in the interest of any corporation or company. My aim is to execute faithfully the duties of a legislator and to give the greatest amount of service to the greatest number of people if I am elected."

Platform Announced

1. There is an urgent demand for rigid economy in the administration of government. There should be elimination of waste, abolition of needless boards and agencies. I advocate grouping and consolidation of similar agencies, to foster governmental savings.

2. I favor the old age pension and will cooperate with the legislature to work out a plan to finance it. This is a constitutional mandate and must be carried out in the interest of the aged people.

3. I favor abolishment of the poll tax law and a substitution of free voting like that which is practiced in several other states in the Union. This free registration of voters will bring out a vote of all the citizens, making for complete democracy. The character of our government demands that everybody participate. The poll tax law hinders and prevents about one-fourth or one-third of our people from voting.

4. I oppose the sales tax, because it would mean additional taxes. It is an unjust, troublesome tax. A shift to the sales tax would increase taxes. Those states that have it are in grief, and nine have repealed it.

Booster For Education

5. Realizing that a safe democracy rests upon an educated citizenship and that education is the

Texas Farm Account Keepers In Money

Seven Texas 4-H boys placed in the Fourth National Farm Account Contest recently judged in Chicago by a Committee of Agricultural Extension Specialists. Accounts covering a full year's business on a farm were entered by 549 Clubsters in 35 states. They were required to show all receipts and expenditures, an opening and closing inventory, and suggest means of improving the net farm income.

Ted Kreuz, 18, of Corus Christi, a \$25 winner kept his record on a 75-acre home farm which he believes can be made to yield a higher net income by producing and feeding better balanced rations to live stock and poultry and providing a larger home food supply for the family. Wallace Krueger, 18, of Encinal, won a \$10 prize on the record he kept on the 200-acre home farm, and the following won \$5 prizes: R. E. Dillard, Ackley; Robert C. Hawk, Shamrock; Jack Hoover, Post; Henry Keton, Abernathy, and Harley Wallace, Post. The contest was conducted by the State Extension Service and all awards were provided by the International Harvester Company, which is offering 805 prizes totaling \$8,500 in the 1938-39 contest now under way. The national prize of \$500 went to Donald Mosher of DeKalb, Ill. and 541 other boys and girls won prizes amounting to \$6,565.

DID YOU KNOW

South America boasts a population of more than fifty million people; Brazil is more than 200,000 square miles larger than the entire United States. Argentina is as big as all the states east of the Mississippi. Rio de Janeiro is one of the most beautiful cities in the world. South American steel will not rust in Lake Titicaca. A million square miles of territory still awaits the eye of the explorer. The world's finest opera house is in Sao Paulo.

cornerstone of government, I favor the amount per capita for each school child to be \$22 in order to lighten the burden of local taxation, and in order to extend education.

6. I am bitterly against trusts, monopolies, and corporation government. I believe in the fair trade acts and equal opportunities to all alike. If you send me to the legislature, I will represent you, not as a frontier district, but as one of the fastest growing industrial and educational sections of the state in need of careful legislation.

Yours respectfully,
T. W. MONTGOMERY.

Political Announcements

The News is authorized to announce the following as candidates for the offices indicated, subject to the action of the Democratic primaries in July and August of this year:

For Representative, 119th Dist.:
ALVIN R. ALLISON of Hockley, JOHN VICKERS of Lubbock, R. H. MARTIN, of Lubbock, T. W. MONTGOMERY, of Lynn

For District Judge, 106th District:
LOUIS B. REED of Dawson Co., W. W. PRICE of Terry County.

For District Attorney:
TRUETT SMITH (re-election)

For District Clerk:
HATTIE SERVER (re-election)

For County Judge:
P. W. GOAD (re-election)
G. C. GRIDER.

For Tax Assessor-Collector:
A. M. CADE (re-election)
FRED BUCY

For Sheriff:
B. L. PARKER (re-election), J. H. (Jim) IZARD

For County Clerk:
VIOLA ELLIS, GARLAN G. McWHORTER, DANIEL C. DAVIS, WALTER M. MATHIS

For County Superintendent:
MRS. LENORE M. TUNNELL, H. P. CAVENESS (re-election), AUBREY McWHIRTER

For County Treasurer:
MRS. JEWELL WELLS, GERTRUDE BISHOP, MRS. MILT FINCH, MRS. A. M. DANIEL.

For County Attorney:
ROLLIN McCORD (re-election)

For Commissioner, Prec't. 1:
GEO. W. SMALL (re-election)
PAT SWANN

For Commissioner, Precinct 2:
SAM HOLLAND (re-election)

For Commissioner, Prec't. 3:
WALDO McLAURIN (re-election)
JOHN A. ANDERSON

For Commissioner, Prec't. 4:
TOM N. HALE (re-election)

For Justice of the Peace, Prec't. 1:
V. S. SWAN (re-election)
JIM DYB

For Pub. Weigher, Prec. 2 (Wilson)
CLYDE SHAW (re-election)

For Public Weigher, Prec't. 3:
(Draw-Grassland)
A. W. BRATCHER (re-election)

District Legion Meet This Week

Lubbock, May 18.—Post Commander Tom Hale of Marion G. Bradley Post of The American Legion at Tahoka has been appointed on the reception committee to serve at the 19th District Convention of the Legion and Auxiliary to which Allen Bros. Post at Lubbock will be host Saturday and Sunday, May 21st and 22nd, according to announcement by J. A. Raley, Jr. Chairman of the Reception Group. Each Commander has been asked to name an additional member from his Post on the Committee.

Big features of the Convention will be an address by Daniel J. Doherty of Massachusetts, National Commander of the Legion, at Allen Bros. Hall at 8:30 o'clock Saturday night. That meeting will be public and A. C. Jackson, Commander of the Lubbock Post, has extended an invitation to every citizen of the area to attend.

A dance Saturday night at the Hilton Hotel, the option of a Bible Class or golf Sunday morning, a show line at noon Sunday and a business session in the afternoon with a program will be other convention features.

Doherty is to travel by air from Indianapolis, National Legion Headquarters, to Amarillo and by automobile from there to Lubbock. He had planned a visit here several months ago, but cancelled the appearance by advice of his physician. Doherty, it was explained, was still weakened from an illness and had arranged his itinerary without realizing the immensity of distance in Texas.

Also planning to be here for the event are Department Commander W. J. Danforth, Department Adjutant Fred Young, District Commander Jim Willson of Floydada and delegations from New Mexico and adjoining districts in Texas.

The District Convention originally was scheduled at Post. Members of the Legion post there, however, initiated the movement to advance the date and to transfer the meeting to Lubbock after learning of the National Commander's planned visit.

Annual Boy Scout Camp At Post

With less than two weeks left before the opening of the Summer Camping season at Camp Post Boy Scout Camp, Scouts and Leaders are making final preparations for the big event of the year.

According to information from Scout Headquarters, approximately two hundred boys have made preliminary application to attend summer camp and as many more are expected to make application in the next few days.

A bigger and better camp program than ever before is being planned with several added features including archery, Indian lore, nature study and many other of the regular features of camp such as camping, pioneering, bird study, camp fires, handicrafts, swimming, life saving,

and the many other features of camp that appeal to the boys.

Troop 35 at Spur, the winners of the camp cup last year, have a registration record this year of 39 boys to date. Other troops that have good registration records are Troop 21, Tahoka; Troop 45 and 49, Brownfield; and Troop 2, Lubbock.

Scouts and Leaders are urged to get registered as soon as possible so that those in charge of the camp will know the number to prepare for on the opening of the camp on May 29.

STATED MEETINGS of Tahoka Lodge No. 1041 the first Tuesday night in each month at 8:30. Members urged to attend. Visitors welcome.
Borden C. Davis, W. M.
Wynne Collier, Sec'y.

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON

NEW YORK—Meeting Francesco Malipiero at a party in the Royal Danelli in Venice, soon after the World war, I thought he was one of the most charming and brilliant, and, at the same time, most cryptic men I had ever seen. There was in the company another Italian musician, a famous conductor, who was the lion of the evening. I have forgotten his appearance and his name, but everything about Signor Malipiero is vividly remembered.

On the way home in a gondola, I asked the conductor for an appraisal of Signor Malipiero as a musician. There was considerable dissonance in the reply.

Malipiero was gifted but erratic, it was even hinted that he was "unsound," in some deeply subversive sense. But my Virgil eagerly agreed that the signor was a most extraordinary human personality.

As recently as four years ago, a Malipiero opera threw the Royal opera house of Rome into a tumult of howling and cat-calls. Mussolini banned it as "inimical to the faith and sound teachings of the new Italy." But, by this time, Malipiero had become a world-famous musician, and he was soon restored to favor.

This status is unquestioned as his symphony, "Elegiaca," was given its first performance in New York, with Music Now Is Lionized.

For many years, critical opinion discounted him as somewhat of an outlaw and disturber. Now it has caught up with him, as it did with Stravinsky and Richard Strauss. Both the "Fire Bird" and "Salome" were met with cat-calls when they were first produced.

Critics note some mysterious "energizing influence" in Malipiero's new symphony. It may be an afterthought, but the explanation seems clear as I recall my conversation with him. His face saddened and he seemed ten years older when I mentioned the war.

For his ballet, "Pantea," he had written of "the struggle of a soul hurling itself into the struggle for liberty, only to find oblivion and death." The war had been to him a tragic and devastating experience. He said it had profoundly shaken both his art and his life.

Never again would the suave fluencies or banalities of music have meaning for him. He was impelled to a deeper search.

This disillusionment was sublimated in irony. He was suspected of slyly sabotaging the grandiose new Italian state. It was in March, 1934, that his opera, "The Fable of the Exchanged Sons," with the text by Luigi Pirandello, all but caused a riot in the Royal opera house.

So far as I could learn at the time, there was no brash heresy in the work, but, as elaborated by the text, a subtle hint that ultimate truth is forever elusive and supreme power dead sea fruit. That, of course, is dangerous doctrine in a totalitarian state, and it was quickly and savagely resented. The next day, Il Duce forbade another presentation.

Malipiero is a poet and a mystic. Of dominant presence, with sharply cut Roman features and hair brushed back in a thick pompadour, he is at the same time extraordinarily gracious, friendly and unassuming.

He lives in a quaint stone villa, forty or fifty miles from Venice, centuries old, rambling and tumble-down. Cut in the stone door lintel there is a Latin text, "To the obscene, all things are obscene." That was his answer to the critics of one of his operas.

The art of living engrosses him as much as the art of music and he studiously maintains a relationship of courtesy, dignity and friendly intimacy with the creatures in his retreat—he has a gift for friendship with animals and thinks that much of the trouble of mankind is due to its insensitiveness to the subhuman and superhuman. His music is apt to range into those zones.

He was born in Venice in 1882, beginning his violin studies in his sixth year. His father was a political exile and the family was in Germany for many years. Wagner was a crashing strain of modernity which profoundly affected his work.

O. K. FOR PUMP PRIMING
House Passes Three Billion Spending Bill With Only Few Alterations

Congresswoman Mary T. Norton of New Jersey, chairman of the labor committee, affixes her signature—the first one—to the petition which was signed by 217 other house members to force house consideration of the revised wage-hour bill. With Mrs. Norton are, left to right, Congressmen R. J. Welch of California, J. Burwood Daily of Pennsylvania, Arthur Healey of Massachusetts and Edward Curley of New York.

Edward W. Pickard
SUMMARIZES THE WORLD'S WEEK
Western Newspaper Union

Three Billion Bill Passed
BY A vote of 328 to 70 the house representatives passed the President's three billion dollar spending bill and sent it on to the senate. This action came during a turbulent session.

A motion to send the bill back to committee so that state administration of relief might be substituted for federal supervision was defeated. In addition to direct appropriations calling for the expenditure of 2 billion 519 million dollars, the measure carried authorizations to spend an additional 635 millions of dollars, making a total of 3 billion 154 million dollars which may be spent by the administration in an endeavor to fight the depression.

The biggest fight came on a move to strike from the bill a section allowing states and municipalities to exceed their constitutional debt limitations. This motion was defeated, 90 to 86.

The farm bloc put over two amendments. One makes farmers eligible for relief whether or not they are found to be in need if they can prove they are out of work. The other provides that farmers need not be in needy circumstances to benefit from free fertilizer provided by the WPA.

At the last moment the members added 100 million dollars to the authorizations in the bill to be spent for rural electrification projects.

British Policy Attacked

FROM two sources the British policy of "realism" followed by Prime Minister Chamberlain and Foreign Secretary Halifax was

Haile Selassie, former emperor of Ethiopia, was present in person to address the council, and he handed in a long note purporting to show that his country was far from conquered by Mussolini, less than one-quarter of it being occupied by the Italians. He asserted the Ethiopian troops actually were gaining ground despite the use of poison gas by Italian airmen, and that thousands of Italians have deserted.

The "Lion of Judah" had nothing to hope for in the way of direct aid, but his mere presence was decidedly disconcerting to the British diplomats. He demanded that his protest be taken up by the league assembly.

No vote was taken on the question of recognizing the Italian conquest, but Chairman Wilhelm Munters of Latvia, summing up the declarations of the member nations, said:

"The great majority of members of the council, despite regrets, considers that it is the duty of members of the league to determine individually their own attitude in the light of their own situations and responsibilities."

Haile Selassie strode from the chamber without a word. His last chance was gone.

Julio Alvarez del Mayo, foreign minister of the loyalist Spanish government, also attacked the policy of Britain, and of France, and denounced the absurdities of the international accord for nonintervention in the Spanish war. "Both from the trenches and from the seat

of government," he said, "we have watched day by day the incomprehensible desertion of certain democracies. We have watched them conspire with the aggressors. They have signed agreements with the aggressors which legalize this intervention in Spain."

He proposed that the league send a committee to investigate charges of Italian and German aggression in Spain. In this he was supported by W. J. Jordan, New Zealand delegate, and Maxim Litvinov of Soviet Russia.

Hull Not to Resign

SECRETARY OF STATE HULL characterized as "absurd and fantastic" published reports that he would resign because of rumored dissatisfaction over President Roosevelt's recent statement praising the spirit of the Italo-British pact.

Japanese Take Amoy

JAPANESE naval forces seized the important port of Amoy, South China, 600 miles south of Shanghai. All foreigners there were said to be safe, but American and British warships were rushed to the island on which the city is situated to protect their nationals.

The Japanese also reported new gains on the Shantung front where they were moving steadily toward the Lunghai railway despite stubborn resistance. Their airmen raided Suchow, killing many Chinese.

Revenue Bill Enacted

THE 300 million dollar revenue act of 1938, as patched up by senate and house conferees, was finally sent to the White House for the President's signature. The compromise measure retains a vestige of the undistributed profits tax, enough to save the administration's face. But the tax is limited to the calendar years 1938 and 1939 and it is expected to die then.

Under the act, corporations earning more than \$25,000 will pay a maximum rate of 19 per cent if no earnings are distributed in dividends and a minimum of 16½ per cent if all earnings are distributed. There is a credit of 2½ per cent against the maximum tax on the amount of dividends paid.

Rail Wage Cut Announced

RAILROADS of the nation and the Railway Express agency served formal notice on chairmen of rail brotherhoods of their intention to reduce basic rates of pay 15 per cent on July 1. The carriers through this action hope to reduce their annual payroll by \$250,000,000. Approximately 925,000 railroad workers are affected by the move.

The long-anticipated announcement brought a defiant warning from the Railway Labor Executives' association that:

"We will fight the action with every resource at our command."

Oil Production Cut

TEXAS and Oklahoma, the two major oil states of the midcontinent, reduced petroleum production drastically to prevent a price collapse. In Texas wells were ordered shut down on Saturdays and Sundays to effect a reduction of 16½ per cent. Oklahoma oil men were ordered to cut production during May 81,000 barrels daily, to 405,000 barrels.

Gov. E. W. Marland of Oklahoma said the states' speedy action to stabilize production was removal of a possible threat of federal regulation.

"This act proves," Marland said, "that the states are capable of handling their own affairs."

WHAT TO EAT AND WHY

C. Houston Goudiss

Discusses the NEED FOR IODINE

Key Substance of the Thyroid Gland--Tells How to Avoid Iodine Starvation

By C. HOUSTON GOUDISS
6 East 39th St., New York City

THE discovery of our vital need for iodine is one of the most thrilling chapters in the long history of scientific research.

Many investigators contributed to our understanding of iodine hunger, but special credit is due to Dr. David Marine and his co-workers; and to Dr. E. C. Kendall of the Mayo Clinics at Rochester, Minn.

Today we know that although it constitutes only about one part in three million parts of the body weight, iodine is so essential that its absence from the diet may have the gravest consequences.

Thyroid—The Gland of Glands

Iodine is necessary for the normal functioning of the thyroid gland, situated in the front part of the neck. The thyroid is so important that it is often regarded as the throttle which governs the human locomotive, and when it fails to function normally, the body machinery may be thrown out of balance.

Thyroid disturbance during childhood may affect mental and physical development, and many children have been accused of laziness who are suffering from thyroid deficiency. Thyroid disorder may be a complicating factor in obesity, and specialists have found that it is associated with many stubborn skin diseases. It is also claimed that iodine starvation influences mental make-up and emotional tendencies.

Disfiguring Goiter

Simple goiter is a common disorder of the thyroid gland. At one time the very mention of this disease terrified girls and women, who feared the unsightly lump in the neck which disfigures the victim. Now, thanks to dramatic experiments, we know that simple goiter is an iodine deficiency disease.

Animal Experiments Point the Way

In 1916, it was estimated that a million young pigs died annually in Wisconsin. Investigation disclosed that their thyroid glands were abnormally large and abnormally low in iodine. When iodine was administered to the mothers, the young pigs were born normal.

Scientists reasoned that if goiter could be prevented in animals, it could be prevented in humans, and undertook the now famous census in Akron, Ohio. A study was made of the thyroid glands of all school girls from the fifth to the twelfth grades. Almost 50 per cent were found to have enlarged thyroid glands.

The girls were given small doses of sodium iodide dissolved in drinking water at given periods over 2½ years. At the end of that time, investigators found that of 2,000 pupils, only 5 developed thyroid enlargement. Of the same number not treated, 500 showed enlargement.

Danger Periods

This demonstration aroused the interest of the scientific world and

Send for This FREE CHART Showing the Iodine Content of Various Foods

YOU are invited to write C. Houston Goudiss for a chart showing the foods rich in iodine and those which are poor in this substance. It will serve as a valuable guide in preparing balanced menus.

Just ask for the Iodine Chart, addressing C. Houston Goudiss, at 6 East 39th Street, New York City. A post card is sufficient to carry your request.

Nature's Storehouse of Iodine

It is the duty of every homemaker to learn where the necessary iodine can be obtained and to include iodine-rich foods in the daily diet, but it is especially important for those living in "the goiter belt." This area stretches along the Appalachian mountains, as far north as Vermont, westward through the basin of the Great Lakes to the state of Washington, and southward over the Rocky Mountain and Pacific states.

Iodine-Rich Foods

The sea is the great storehouse of iodine and hence, the most abundant sources are sea food, including salmon, cod, crabmeat and oysters; cod liver oil; and salt.

Fruits and vegetables grown near the sea contain varying amounts of iodine, depending upon

Graceful Butterfly New Crochet Idea

Pattern No. 6031.

There's graceful beauty in every stitch of this butterfly which you'll find charming for a chair set, buffet set or scarf ends. Crochet it in string . . . the same medallion makes the center of each wing and arm rest. Fascinating pick-up work that's easy to do. In pattern 6031 you will find directions for making a chair or buffet set, and scarf; illustrations of the chair set and of all stitches used; material requirements; a photograph of the butterfly.

To obtain this pattern, send 15 cents in stamps or coins (coins preferred) to The Sewing Circle, Household Arts Dept., 259 W. 14th Street, New York, N. Y.

Have You a Question? Ask C. Houston Goudiss

C. Houston Goudiss has put at the disposal of readers of this newspaper all the facilities of his famous Experimental Kitchen Laboratory in New York City. He will gladly answer questions concerning foods and diet. It's not necessary to write a letter unless you desire, for post card inquiries will receive the same careful attention. Address him at 6 East 39th Street, New York City.

the water and soil, and the season, the iodine content being at a maximum in the autumn and winter.

In general, it may be said that the leaves of plants contain more iodine than the roots, and that leafy vegetables and legumes store more than fruits, with the exception of cranberries, which are a good source. When the soil is rich in iodine, watercress becomes a fine source of this substance.

Iodized Salt

One of the most satisfactory methods for adding iodine to the diet, especially in goiterous regions, is through the use of iodized salt. In Detroit, a city-wide test of iodized salt reduced the prevalence of simple goiter from 36 per cent to 2 per cent. Similar figures have been cited for other localities. Iodized salt costs no more than ordinary table salt and is an excellent safeguard against simple goiter.

Iodine in Drinking Water

Even in early times, it was believed that there was some relation between goiter and drinking water, and recent evidence has disclosed that there was a sound basis for this belief. Two investigators found that the water in a large part of the northern half of the United States falls into a low-iodine classification.

Several communities have given consideration to the prevention of goiter by the addition of iodine to the water supply. This method is commendable, but it must be borne in mind that wherever iodine is taken in forms other than food, careful supervision by the physician or the public health authorities is necessary.

To those homemakers interested in planning the best possible diet for their families, I shall gladly send lists showing which foods are rich in iodine and which are poor in this substance.

Questions Answered

Miss C. T.—Agar-agar is a non-irritating, indigestible carbohydrate. As it is not digested, its caloric value is zero, and it could not possibly be fattening.

Mrs. B. R. S.—The average meal leaves the stomach within four hours, though a large meal may stay for five hours. However, the length of time food remains in the stomach is only a fraction of that required for the entire digestive process, which varies in normal individuals from 12 to 47 hours. Carbohydrates leave the stomach most quickly, proteins are next, and fats require the longest period.

Miss S. G.—There is no justification for serving toast at every meal instead of bread. It is true that proper toasting changes some of the starch to dextrose which is quickly and easily digested. But laboratory experiments reveal that the proteins of toasted bread and crusts have a lower digestibility, and animals gain less weight when fed on them than on the untoasted bread and the inside crumbs of the loaf.

West Texas Field Day At Spur

The annual feeders' day at the Spur Experiment Station, a branch of the Agricultural and Mechanical College of Texas, will be held at Spur on Friday, June 3. The occasion is the completion of the current year's cattle feeding experiments. The theme of feeding studies at the Spur Station is intelligent utilization of West Texas feeds in fattening native cattle, placing special emphasis on silage crops and products of the cotton farm.
 In order for West Texas to become a profitable feeding center it is becoming generally recognized that with our limited production of grain it is necessary to develop a feeding program in which large quantities or rough feed may be used. This means the use of rations high in roughage supplemented by generous amounts of cottonseed meal or cotton seed. One hundred thirty head of experimental cattle on feed at the Spur Station show that well finished cattle can be produced on silage and the products of the cotton farm without the use of grain.
 Other features of the feeding experiments are a thorough study of vitamin A deficiencies occurring under Texas conditions, and the possibilities of fattening calves from the small dairy herds on farms.
 Those interested will have the opportunity to go over the soil and water conservation and pasture improvement experiments.

Kansas Red Wheat Came From Two-Gallon Hoard

In 1874 a colony of Mennonites, seeking religious freedom, departed from Caslov, Crimea, to find homes in Kansas. A patriarchal and agricultural people, knowing nothing of the conditions which they must face in the new country, they took along everything they thought they might need, including household goods, implements, and what at the time may have seemed unimportant, but later was to prove most important of all, two gallons of the peculiar hard red wheat of the Russian steppes. This wheat was of the type familiar to them, recites a writer in the Kansas City Times, and they had no way of knowing it would be an innovation in America. Those two gallons of grains were literally hand-picked, one grain at a time, by Mennonite children, each grain being examined for color, conformity and the necessary flinty hardness.
 Near Hillsboro, Kan., the wheat was planted. At that time soft wheat was the type grown in this section and in the high plains it was a crop so unreliable that attempts to grow it had practically been abandoned. Surprisingly to the American neighbors of the Mennonites, the "Turkey Red" wheat, as it was known, flourished remarkably. Additional acreage was sown the following year, from the seed furnished by the first crop, and its success was so great that American farmers began to acquire the seed and sow it. Mills had formerly been of the burr type in Kansas; they now began to be converted into the roller type necessary for the harder grain.
 By 1885 the demand for the new wheat was so great that a Mennonite miller sent to Russia for an entire carlot of it for distribution. The Kansas State college agricultural department experimented, developed and cross-bred the original "Turkey Red" into a variety of improved forms.
 Land which had been considered fit only for grazing was broken in western Kansas, Nebraska, Oklahoma, and in the Texas Panhandle and eastern Colorado. By the time of the World war, the Southwest could literally lay claim to being the "bread basket of the nation."

Fifty-One Irish Kings Died a Violent Death
 Between A. D. 4 and A. D. 1172, there were 78 kings of Ireland and, on the average, they reigned only 6½ years.
 Of these 78 Irish monarchs, 51 died a violent death, four became monks and one died on pilgrimage at Joppa. Fourteen Irish kings were slain in battle and 21 were assassinated, usually by their successors. Nor were the assassinations polite, asserts a writer in the Kansas City Star. One monarch was thrown into a lake and drowned, another was choked in a bog, a third had a spear thrust through his eye, another was poisoned by his sister, another—such was the Irish etiquette—was suddenly set upon by three unruly nephews.
 Three kings were killed by thunderbolts. One of them had fled for safety to the Alps. But the thunderbolt got him, A. D. 421.
 Even the great King Cormac-Ul-fhada, "a prince of most excellent wisdom who kept the most splendid court that ever was in Ireland," was choked by the bone of a fish at supper, A. D. 253. Among those Irish kings, you never could tell what would happen next.

Crows Steal Eggs
 Tame or wild, crows are great "snatchers." They stick their sharp beaks through other birds' eggs, carry them away as on a spear. In India, they are so bold that cooks must often fight with them for possession of food cooking on the kitchen stove. From India comes a 3,000-year-old story of how a crow destroyed a serpent that had been eating its young, by stealing a king's anklet. The canny bird dropped the ornament in the serpent's lair. There the king's men found it, and killed the snake.

Crocodiles, Alligators
 Crocodiles and alligators are so closely allied zoologically that many laymen cannot distinguish between them. Hence alligators are frequently accused of attacking and killing men when, in reality, the killers are crocodiles. Naturalists who have spent their lives in the study of these reptiles, says Collier's Weekly, state that they have never heard of an authentic case of a human death caused by an alligator.

John Ruskin Saying
 When men are rightly occupied, their amusement grows out of their work, as the color petals out of a fruitful flower; when they are faithfully helpful and compassionate, all their emotions are steady, deep, perpetual, and vivifying to the soul as is the natural pulse to the body.
 —John Ruskin.

Gulfweed From Gulf Stream
 Gulfweed is an olive-brown seaweed of the genus Sargassum, found in large patches in the Gulf Stream and the Sargasso sea. It was formerly thought to cover the sea entirely but actually occurs only in drifts. Numerous air sacs that look like berries make the weed float on the water.

Servel Broadcasts March Of Time

Sponsoring the popular "March of Time" for the second consecutive year, Servel, Inc., is on the air again in 1938, according to D. W. Gagnat. Servel, electrolux dealer in this vicinity, according to information received from Geo. S. Jones, Jr., vice-president and general sales manager of Servel, Inc. This outstanding program which dramatizes news-events featured in the headlines of newspapers, is being broadcast over an N. B. C. coast-to-coast network for thirteen Thursday evenings.
 "As those in this vicinity who make a practice of listening to the 'March of Time' already know, the broadcast consists of a graphic studio presentation of outstanding headline news events throughout the world as they happen, and thus the program is of paramount interest to everyone," said Mr. Gagnat. "A large company of actors assembled in the studio of the National Broadcasting Company enact scenes dramatizing these news events after scripts have been prepared by experts in radio broadcasting."
 "So well done are the impersonations of leading personalities in current history, through simulation of their voices and gestures, that all the important news of the world is brought to the fireside with a skill.

When You Need a Laxative

Thousands of men and women know how wise it is to take Black-Draught at the first sign of constipation. They like the refreshing relief it brings. They know its timely use may save them from feeling badly and possibly losing time at work from sickness brought on by constipation.
 If you have to take a laxative occasionally, you can rely on
BLACK-DRAUGHT

SHIRLEY TEMPLE COMING IN "REBECCA OF SUNNYBROOK FARM"

You would never know the old farm now—it's a streamlined Radio Center with Shirley Temple on a happiness hoop-up in the tile roll of "Rebecca of Sunnybrook Farm," her best-of-all 'musical supported by her starriest cast, sunniest songs, swiftest dances, and a hey-hey-hey load of laughter in this new 20th Century --Fox musicomed hit opening Sunday at the English Theatre for a three day run.
 When radio appears down by the old mill stream it raises a bumper crop of song and fun with Randolph Scott and Gloria Stuart united in romance, Jack Haley and Slim Summerville making merry, and tap-king Bill Robinson and Shirley at tap-speed. Phyllis Brooks, Helen Westley, and the Raymond Scott Quintet, Alan Dinehart, and J. Edward Bromberg also are featured, and when all is said and

sung, could you ask for anything more?
 To the roster of romancing stars, dancing stars, comedy stars and singing stars are added six sunny new song hits.

The odds against holding a straight flush in poker are 64,973 to one.

Funeral Is Held For T. C. Mason

Thomas C. Mason, 84, father of Mrs. Ben Jones died at about 11 o'clock Wednesday night as the result of an injury sustained in the afternoon when he fell or possibly was blown down by the wind at the Jones residence, striking the head against some hard object and fracturing the skull near the base.

A physician was called and everything possible was done to save the aged man's life but the wound and the shock were too severe for him to survive the ordeal.

Funeral services were conducted at the Harris Funeral Home here at 2:30 Thursday afternoon, Rev. Ben Hardy officiating. The body was taken to Post for burial beside the grave of his wife, who died several years ago.

Mr. Mason was a native Texan, having been born in Erath county December 8, 1853. Recently he had been making his home here with his son-in-law and daughter, Mr. and Mrs. Ben Jones. He leaves surviving him two other daughters, one residing in Amarillo and the other in Hobbs, New Mexico.

He was an excellent Christian gentleman and had lived a useful life. The News joins many friends in condolences to the relatives.

realism, and picturesqueness that makes listeners feel that they are actually present when the events portrayed take place. Kings and Queens, dictators, presidents, generals, and others in the public eye throughout the entire world become familiar to those who tune in their radios when this popular broadcast is on the air.

"Thus thousands upon thousands of radio listeners find that an ideal way to keep abreast of the world is to listen to the 'March of Time'."

Mrs. M. H. Edwards accompanied two of her piano pupils, Mary Bland Wells and Verda Bartlett, to Brownfield Wednesday night, where they had been invited by Mrs. Dallas of that city to render some piano numbers in her music recital. Mrs. Edwards reports a most enjoyable recital, and of course the Tahoka girls did "just fine".

Snore Cycles Mark Life of the Average Person

It has been established that there are snore cycles in the life of the average person, writes Margaret McEachern in Hygeia, the Health Magazine.

Infants snore commonly. Between the ages of ten and thirty years, snoring is rare. But after thirty it increases. This may be because at this age period, people become a little careless about their physical well being. And unless the physical condition which is causing the snoring is corrected, it will increase with the passing of each ten years.

Generally, snoring indicates disturbances in the breathing apparatus, especially an obstruction in the nose that prevents the individual from sleeping with his mouth closed. The obstruction may be a result of polypi, tumor growths, enlarged turbinates, bony deformities, sinus infection or a deviated septum which encroaches on the air space of one nostril.

Strange but true, certain foods may cause a person to snore. Many men and women are sensitive to certain proteins. If they eat tomatoes, for instance, the mucous membranes of the nose have a tendency to accumulate secretions. Chronic inflammation of the nasal linings also may cause an enlargement of the tissues sufficient to obstruct the nose.

In children, snoring commonly is an indication of enlarged adenoids. According to conservative estimates, one out of every eight persons snores more or less regularly. No doubt every person snores occasionally, but the one out of eight is

Air Mail Picked Up Thursday

Just a little more history was made here Thursday noon. The first mail ever brought to Tahoka by airplane was delivered to T. T. Garrard, a clerk in the postoffice here, by A. F. Holt, pilot of an airmail plane sent out from Lubbock Thursday morning to deliver and gather up the mail at several towns in this section.

The plane was met at the field a mile south of town by Postmaster W. E. Smith and clerks T. T. Garrard and A. C. Weaver and the latter's wife, also by W. S. Anglin, James Connolly, E. I. Hill, and several others, including a number of women and children.

We did not learn the number of pieces of mail delivered here but about 350 pieces were dispatched from the Tahoka postoffice.

Three other planes were sent out of Lubbock Thursday morning over other routes to distribute and collect airmail.

This is being done in various parts of the country in observance of Air Mail Week.

A mare belonging to J. E. Sparks of Three Lakes was killed by lightning Wednesday night. Mr. Sparks says she was about the best animal he had. She was standing partly under a shed when killed. The bolt apparently struck on the hips or rump and went down the hind legs, mutilating the hoofs.

Mrs. T. H. Grisso of Fort Worth is here visiting her brother and sister, C. W. Conway and Mrs. Roy E. Poer, and their families.

Negro Injured In Cutting Scrape

Velma Morris, a negro who drives a truck wagon for John Boydston, was stabbed and slashed with a knife in the hands of another negro when a dispute arose Wednesday night while these and two other negroes are alleged to have been gambling in a little house on the premises of the Sunshine Inn.

Morris was "stabbed to the hollow" in the back just below the right shoulder, was slashed in the back several times, and cut in two places, on the left arm, one above and one below the elbow. The stab below the shoulder is thought to be a very serious wound.

Richard Thomas, a negro who works for a produce house, is in jail charged with the assault. He and two other negroes, Willie Green and John Willie Mitchell, are alleged to have been engaged in a "crap" game with Morris and they have pleaded guilty to the charge, according to Sheriff B. L. Parker. Green paid his fine Thursday afternoon, which together with the trimmings amounted to \$14.00.

If Morris should die, a murder charge will be filed.

G. O. Threet left Thursday for Middle Tennessee to visit two brothers whom he has not seen for fifty years. He has spent most of these fifty years in Kentucky, coming later to West Texas—and now his heart turns back to Dixie.

3.25 INCHES EAST OF TOWN
Marshall Stewart, who resides eight miles east of Tahoka, reports that his rain gauge has registered a fall of 3.25 inches this week.

SENIORS HAVE PICNIC

About five or six cars of Seniors went to Lubbock Wednesday, chaperoned by Mrs. Lenore M. Tunnell and Mrs. H. B. Howell, for a picnic in the park.

Picture taking, games, etc., were enjoyed until about five o'clock in the afternoon, when they were forced to return home by the rain-storm.

Superintendent W. G. Barrett was a business visitor to Stamford and Abilene Tuesday. He is planning to

remove to Stamford following the close of his work here.

CHIROPRACTIC

Wisdom is simply an accumulation of knowledge. The wise add to their fund of knowledge by investigation. Chiropractic should be thoroughly investigated by those who are sick or by those whose dear ones are suffering from disease. It will pay you to investigate a science which is based upon logical principles.

WILLIAM MACLEOD RAINE'S

To Ride the River With

COPYRIGHT WILLIAM MACLEOD RAINE—WNU SERVICE

SYNOPSIS

Ruth Chiswick of L. C. ranch, obsessed by fear of danger to her outspoken father, Lee, from a band of lawless rustlers headed by Sperm Howard, decides to save him by eloping with young Lou Howard, Sperm's son, and comes to the town of Tail Holt to meet him...

CHAPTER V—Continued

"He didn't whop me," blustered Howard. "Didn't you hear me say he jumped me when I wasn't looking?" "I heard you," Curly said with a skeptical grin...

CHAPTER VI

Frank called "Come in," and Jeff Gray walked into the bedroom. "What are you doing here?" Frank demanded, jumping to his feet. "Like to have a few words with you," Gray said...

killer and a thief. Say I'm paying off a grudge I owe Lou Howard and Morg Norris. That would make me a double-crosser. Put it any way you like. But get this through your yore head. If you stick around here another day, you'll go home in a wagon covered by a sheet...

"I wouldn't believe anything in the world you told me," Frank answered. "Then don't believe it because I tell you. Use your head. Young Howard is no-account, but right now dangerous as a trapped rat you try to pet..."

"Smart as a whip, you are," Gray drawled. "You'll never find out whether I am all the kinds of skunk you claim, because inside of 24 hours Morg Norris will blast you off the map..."

"Maybe he sent you here to scare me. If he did, you go back and tell him I don't scare worth a cent..." "I give up," Gray said, putting away his weapon...

"No. I didn't really see him—He's lit the hay."

stuff. If you have any last messages you had better write them out. Norris will get your wire. Don't get any other notion. You won't be one-two-three with him..."

An irritable resentment filled young Chiswick. He had an uneasy feeling that he had been an ungrateful boor. This was absurd. Gray was a villain. He had come here for some evil purpose of his own. No point in letting him fool another of the family...

Frank decided to take as few chances as possible. He would sidestep any attempt of Norris or Lou Howard to get him into a quarrel. Tonight he would stay in his room. It came to him later that perhaps Gray had been sent by Sperm Howard in the hope of driving him out of town...

shoulders. He would not have to play a lone hand any longer. A man coming into the house stepped to one side to let Frank out. The man was Jeff Gray. "Wait a minute, Chiswick," he said urgently...

"Come back, you fool!" the crook-nosed man ordered. "They're posted in the cottonwoods over there." Chiswick did not believe him, but a queer chill ran up and down his spine...

From the cottonwoods across the road a rifle cracked. Another boomed behind the echo of the first explosion had died. Frank flung himself at the adobe wall and clambered over it...

He dared not let himself be trapped in the stable. Better go over one of the side walls. He caught sight of a figure on top of the wall. A man was astride of it. His gun flashed twice...

"Up the stairs," Gray ordered, stooping to pick something from the ground. The two men ran up to the loft. Gray handed Chiswick a crowbar...

"Get to work and knock a hole through the wall," he said. "We're going out that way." Frank pushed aside the hay and began to drive the crowbar into the crumbly adobe bricks...

"Who are you?" the same man called to them. "L. C. men," Gray replied, still in the heavy voice. "All well armed." "Send down Chiswick and we'll let the rest of you go..."

A bullet crashed up through the floor. Gray fired one down in the direction from which it had come. There was a whispered conference below. "Better give up," the spokesman advised...

Gray played for time. The crowbar was tearing into the wall. "Will you promise not to hurt us if we do?" he asked. (TO BE CONTINUED)

History of Earth Divided Into Five "Eras," Seven "Ages" and 22 Periods

The divisions of time established by geologists are based upon the formations of strata and the advents of different forms of animal life. The history of the earth is divided into five "eras," seven "ages," 22 "periods," and the last two periods are subdivided into seven epochs...

Dresses for Street and Home Wear!

TWO dresses, as practical as they are pretty—one for shopping and general street wear, the other ideal for round the house, and made on slenderizing lines. Notice that they both use the smart front closing. Both these patterns are quick and easy to make up...

Frook With Girdled Waistline. Fashion says everything must have a certain amount of soft detailing this season, and this charming tailored dress obeys with draping at the neckline, the girdled waist, and bust fullness beneath smooth shoulders...

mer. Silk crepe, silk print (in that case, have a plain-colored girdle effect) sharkskin, linen and shantung are good fabric choices for this.

House Dress for Large Women. It's a diagram dress, so that it may be made in just a few hours. The long, unbroken, unbelted line, the utter simplicity, the v-neck, make this dress extremely becoming...

The Patterns. 1489 is designed for sizes 14, 16, 18, 20, 40 and 42. Size 16 requires 4 1/2 yards of 39-inch material, plus 3/4 yard of contrasting for girdle...

Spring-Summer Pattern Book. Send 15 cents for the Barbara Bell Spring and Summer Pattern Book which is now ready. It contains 109 attractive, practical and becoming designs...

Stoning Raisins.—To stone raisins easily, first place them in boiling water for a short time. Improving Fudge.—If you will add a small spoonful of cornstarch to the next batch of fudge you make, you will be amazed at the improvement in flavor...

Stuffed Eggs.—To stuff eggs, put them into cold water as soon as taken from the stove. This will keep the whites in better condition. Cooking Dried Fruit.—Soak and cook slices of lemon with dried apricots, prunes or peaches. One thin slice of lemon will be enough for each two cups of dried fruit...

Varnish Straw Articles.—All articles made of straw, such as baskets suitcases, matting, will last longer if given an occasional coat of white varnish. For a Flakier Crust.—One-half teaspoonful of vinegar, added to the water when making pie crust, will assure a flakier crust...

Stretching the Salad.—When the salad is limited and you wonder if it will go around comfortably, scoop out tomatoes and use the salad as a filling. Then you will surely have enough.

AROUND THE HOUSE. Stoning Raisins. Improving Fudge. Stuffed Eggs. Cooking Dried Fruit. Varnish Straw Articles. For a Flakier Crust. Stretching the Salad.

ARE YOU ONLY A 3/4 WIFE? Men can never understand a three-quarter wife who is loving for three weeks of the month—but a half-out the fourth. No matter how your back aches—no matter how kindly your nerves scream—don't take it out on your husband...

**JUSTICE HUGHES RISES TO
REMARK**

Speaking before the American Law
Institute recently, Chief Justice
Charles E. Hughes made some obser-
vations and at least one suggestion
that are very pertinent just at this
time.

His suggestion was that lawyers,
and particularly bar associations,
use their influence to procure the
election or appointment of judges
of our courts who are fit. While
praising the judiciary as a whole,
he stated that "some judges, with
conspicuous ineptness, do harm."

He also emphasized the importance
of maintaining the independence
and impartiality of the courts.

We believe that a great majority
of the judges of our courts are
honest, learned, able, and impartial.
They probably fill their respective
positions more conscientiously and
with more distinction than any
other class of office-holders.

But we can not be too careful in
the selection of our judges. When
we do find one who is dishonest,
or incapable, or otherwise unfit for
the position which he holds he
makes a mess of things and tends

to bring our whole judiciary system
into disrepute.

Our judges should not only be
honest, conscientious, and capable,
but they should also be courageous
and absolutely independent of polit-
ical influence and the power of
wealth. A judge who can be awed
by political or financial interests is
not fit to be a judge. A judge who
would render a decision in any case
primarily to please some financier,
or some politician, or some legisla-
tive body, or some President, or even
the people themselves is not fit to
sit on the bench. It is his business
to correctly and impartially interpret
the law as it is written, or the con-
stitution as it is written, and when
he permits his judgment to be
warped by self-interest, political or
financial, or by the criticism of some
President or some Government De-
partment head, he just isn't the
right man for the job, that's all.

And a corollary of that is that
Presidents, and Department heads
and labor leaders, and politicians
should quit trying to influence the
decisions of our courts by criticism
or other means.

Justice Hughes is right. We
should select only the most fit as
judges of our courts, and then we
should quit trying to make cowards
of them on the bench. Let's main-
tain the integrity and the independ-
ence of our courts.

The Tahoka schools close this
week. Public schools all over our
great country are closing. We doubt
if many of the pupils fully appre-
ciate the wonderful opportunities that
have been afforded them the past
nine months. Only those who at-
tended the ordinary rural or small
town school of forty or fifty years
ago, we are persuaded, can fully
realize the enlarged opportunities
of the child of the present day. With
well trained teachers, a greatly
broadened curriculum, modern
equipment, each teacher in the
lower grades required to teach only
one or two grades and teachers in
the high school required to teach
subjects in which they are supposed
to have had special training, it is
no wonder that the ten-year-old
boy or girl of today knows more
than the 20-year-old boy or girl of

Lynn County

History

[As Revealed by the Files
of the Lynn County News
of May 23, 1913.]

"Married in Lubbock, Sunday,
May 18, at 6 o'clock in the after-
noon, W. J. Montgomery of Tahoka
and Miss Essie Bellah of Rising
Star." And then the colorful story
proceeds to relate how Will Mon-
gomery hitched up his steeds to his
buggy—for those were still the horse
and buggy days, remember—and
slipped off up to Hale Center, where
Miss Bellah was visiting, without
arousing anybody's suspicions. At
Abernathy on the way back, he
telephoned a Lubbock friend to have
the preacher ready when he arrived.
The preacher met the couple on the
outskirts of the town and escorted
them to his home, where the marriage
vows were read. W. J. and his
bride had already moved into their
home just northwest of Tahoka
when the paper came out on Friday.

Crops over a large territory east
of Tahoka had been damaged, roofs
riddled, and window lights broken
out by a severe wind and hail storm.
Named among those sustaining the
greatest losses were Guy King, Rube
Lewis, J. V. Dyer, G. W. Samford,
J. B. Reece, Dr. Ben R. King, C. J.
Campbell, Joe Sanders, A. S. Barnes
and M. M. Anthony.

Rube Lewis took refuge under his
planter but his right arm was ex-
posed, and he was in town the next
day, carrying it in a sling. His arm
and hand were badly swollen from
the pelting they had gotten from
the hail.

C. J. Campbell and A. S. Barnes
reported pigs and chickens killed by
the hail, and a calf belonging to Mr.
Campbell was killed. M. M. Anthony
declared that halibones as large as
coconuts fell at his place, some of
them bouncing as far as a hundred
feet.

A. G. McAdams Lumber Co. and
Higinbotham-Harris Lumber Co.
had yards here.

G. W. King and Son were operat-
ing livery stable north of the square.

a half century ago knew. And yet
it seems to us that there is still
something lacking in our public
school system. Most high school
students of the present day know
something about many things but
they rarely know anything thorough-
ly. They study many subjects but
they master few of them. Their
knowledge in too many instances
seems meager and superficial. We
are wondering if our schools are
not sacrificing thoroughness to
spread. We don't know; we are just
wondering.

Pa couldn't run and Ma wouldn't
run, but Cousin Jim could, and de-
cided he would. So we have another
Ferguson in the race for governor.
His name is James A. Ferguson.
He is some sort of cousin of James
E. He resides in Belton and is en-
gaged in the real estate business.
Though 68 years of age he has
never before run for office. His
campaign manager is also named
Jim and is also a native of Bell
county. He is Jim Hair, a San
Antonio lawyer. It so happens that
this writer was intimately acquaint-
ed with all three of these Jims when
they were all very young men.
Whatever may be your opinion of
James E. Ferguson, take it from us
that James A. Ferguson is a dandy
good fellow. At least he used to be.
We never heard an evil word spoken
of him in all our life, we believe.
Does he have any chance to be
elected? We hardly think so. Would
he be another proxy governor if
elected? We don't know; probably
he would. Any way, we guess the
race is still between Bill McCraw
and Ernest O. Thompson, with all
the winds blowing in favor of the
former.

We are wondering what a country
newspaper would look like if the
publishers would one week publish
all the free publicity that comes to
the office—propaganda in favor of
candidates, schools, government
projects, government departments,
office holders, corporations, politi-
cal parties, liquor, and multitudes
of other interests too numerous to
mention. Boy, that issue would be
a whopper—and nobody would read
any of it.

One thing we admire about Tom
Hunter: he has persistence.

M. M. Anthony reported that he
had planted cotton on June 6 the
year before and on September 10
Brown Bishop picked 300 pounds
in one day from the field.

Tahoka was then a wool shipping
point, a carload consisting of 17-
810 pounds having left for San
Angelo on May 21.

Prof J. B. Walker was selling real
estate and serving as deputy sheriff.
He had just effected the sale of the
Marchbanks place of 800 acres seven
miles northeast of Tahoka at \$9.50
per acre, and also a section of land
situated 14 miles northwest of Ta-
hoka at \$8.50 per acre.

A. R. Groves plowed up a com-
plete human skeleton on his farm a
few days ago, it was stated, but it
cumbled into dust when moved.

Brick Work on the new buildings
on Main Street were completed Sat-
urday. These buildings have been
wired throughout for electricity and
complete sewerage and water sys-
tems have been installed, another
item reveals.

"Dr. L. E. Turrentine, who was
appointed county health officer by
the commissioners court last week,
requests that all the citizens of Ta-
hoka get together and clean up the
town." The date set for the clean-
up was June 2.

Tahoka's slogan was given as
"Nothing short about Tahoka but
its past".

At Three Lakes the Sunday School
had just been re-organized with J.
M. Noble as superintendent and W.
A. Yates as assistant. Miss Eula
Yates was secretary.

Mack Noble of West Point, had
just entered the Three Lakes public
school. Prof Brown Bishop was the
teacher and was planning an "en-
tertainment" for the close of school
on June 6.

THE PENSION SCANDAL
Payment of old-age assistance
checks to hundreds of thousands not
entitled to them under either the
social security law or common
justice threatens to become a major
American scandal. In almost every
State, unscrupulous politicians have
been bidding for votes of the aged
by promising all of them places at
the gravy bowl. Vast numbers of old
folks without any claim to public
assistance have been urged by ward
heelers to "go down to the county
courthouse and give 'em your name
and address and start gettin' your
pension."
The situation is much worse in
some States than in others. New
York, with many impoverished people
in its industrial cities, has 130 of
every 1,000 old people on the pen-
sion rolls. But Missouri has 402 of
every thousand, and Oklahoma 600.

In Butler County Missouri, the last
census showed 603 persons of more
than 70 years. But old-age assis-
tance checks have been going to
654 in that county.

One result of this scandalous
policy is to make pension checks too
small for those who really need and
deserve help. Instead of the con-
templated \$30 a month, Missouri
has not yet paid more than \$15.53.
Another harmful result is that
many States are robbing the poor
by means of high sales taxes to
obtain funds for politicians to use
in luring old people who do not need
public aid.

The first mistake was made when
pork-hungry Congressmen failed to

include all social security workers in
the civil service and turned most of
the administration over to the
States without sufficient precau-
tions against misuse of funds for
political purposes. Most of the
blame, however, rests on State of-
ficials. The Oklahoma situation has
become so intolerable that Federal
aid has been withdrawn pending re-
form. Similar drastic action may
be necessary in other States if the
present trend toward Townsendism
continues.—Dallas News.

Relates History Of Senior Class

There may be some who would say that we who are graduating high school have not yet participated in any events of great enough importance to be written down and called history. If we could turn the calendar ahead twenty or thirty years it is possible that the eyes of the world may be focused upon some one who sits as a member of the senior class of 1938. Perhaps when the great Charles Lindberg graduated from high school there was little thought that he some day would be known, respected, praised, and idolized by men, women, and children of every country. Perhaps when he left high school no one took the care to make a record of events in his life of interest at that time. Now that he has come into prominence everything he ever did in all his life has suddenly become interesting to everybody.

Let us remember that to an individual person there are perhaps many events pleasant in his memory which are never given recognition by anyone else. Let us remember that some of those events considered now so insignificant may in the future be the topic of editorials for national publication. No one can say which, if any, of my fellowclassmen is destined to become a national figure. No one can say which of the recent acts of these people may sometime become an American tradition.

We of the graduating class wish to start life with an aim in mind.

In September, 1927, twenty fond mothers took their little ones by the hand and lead them to school to turn them over to the efficient and capable Mrs. Craft to teach them the essential fundamentals of school life. I feel assured that she is happy to know that through her guiding start we are about to attain our first goal in life. Along the path of knowledge we have traveled and have arrived to gain the finishing touch by the hand of our lovely sponsor, Mrs. Tunnell. Those twenty first-graders that have clung together these past years are: Levi Billman, Keith Connolly, Truett Cooper, Reginald Frazier, Wade Howell, Alex Nevill, G. C. Price, F. E. Redwine, Hiram Snowden, George Wright, David Weathers, Arvel Akin, J. C. Womack, Travis McCord, Percy Dean Tippet, Jo Belle Milliken, Joe Alice Brooks, Mary Ellen Conway, Marjorie Wells, and Pearl Rogers.

At various other dates others came into our welcoming midst and fifteen have remained with us. In the third grade came our pet monkey, James Foster. Our most popular boy, Paul Casebeer, met us in the seventh grade. Carl Godsey made his ap-

pearance in our freshman year. We greeted Jack Weathers and Howard Davis as sophomores. During our junior year we found our number greatly increased by: Loverne Allen, Mermia Boyd, Ruth Hale, Kingston Crouch, Willis Edwards, Edith Robertson, Mary Margaret Tunnell, Madeline Russell, Wyman Johnson, and Harold Cathey.

In this class of nineteen thirty-eight you will find some very great.

Of all the funny things you hear Ask Howard if marriage is near.

The style show was won by Madeline Russell.

Does she predict the return of the bustle?

Long before the clock struck four Jo Belle was ready for a peppy "go."

Captain Travis has won a big game. As well as Levi of boxing fame.

Faul, Willis, G. C., and Hiram Play foot ball assisted by Manager Wyman.

Kingston Crouch, our tennis star. Can knock a ball very far.

And Hermia Boyd, listed in B. Would like to grade A, just ask J. G.

Does Detective Redwine. Retire each night by nine?

Washington D. C. called one of our boys last year. And Wade Howell on the Scout grounds did appear.

Arvel Akin of baker fame lived up to Bovell's good name.

Percy Dean's sweet voice could be heard. In our choral club singing like a bird.

Carl Godsey a man of the Screen At the picture show may be seen.

J. C. Womack noted for his smile. In track events, won the mile.

David has a turn for society. Tips the light fantastic till three.

Jack Weathers playing a banjo. Is called by the girls "Domeo."

Mary Ellen Conway, our favorite girl. Sets men's hearts in a whirl.

Oh my! Oh my! What a pity! Only Truett Cooper went to Kansas City.

Harold and Alex, our F. F. A.'s Will tell you how farming pays.

George will sing by day and night. But somehow he was in the Wright.

"Droupy" in his slow but silent way. Is a football star this very day.

Loverne Allen in her quiet way Absorbs knowledge with little to say.

For outstanding work she has done A gold medal by Pearl was won.

Ruth Hale in an arithmetic class Was always sure to pass.

Keith Connolly is our typist of renown And James Foster is our monkey clown.

Joe Alice and Marjorie of the "Skyline" Have turned out an edition ever so fine.

Mary Margaret and Edith Scholarships in hand. Will return with degrees an honor to our band.

PEARL ROGERS, Class Historian.

CONTRACTORS' NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 41,348 miles of highway, 15,528 miles Seal Coat and 25,820 miles Double Asphalt Surface Treatment from 2 miles North of Wellman to Gaines County line, Highway 51 Terry county. From 2.6 miles South of Lamessa East to Borden County line, Highway 15, Dawson County. From Terry County line to Tahoka, Highway 380 Lynn County on Highways No. 51, 15, and 380, covered by contracts 228-1-5; 295-1-5; and 297-5-4, in Terry, Dawson and Lynn counties, will be received at the State Highway Department, Austin, until 9:00 A. M., May 24, 1938, and then publicly opened and read. The attention of bidders is directed to the Special Provisions concerning prevailing and minimum wage rates and hours of employment included in the proposals in compliance with House Bill No. 54 of the 43rd Legislature of the State of Texas, and House Bill No. 115 of the 44th Legislature of the State of Texas. The prevailing wage rates listed below shall apply as minimum wage rates on this project.

- Title of "Laborer" "Workman" or "Mechanic" and Prevailing Minimum Per Diem Wage (Based on Eight (8) Hour Working Day)
- Carpenter \$8.00
- Shovel Operator \$8.00
- Crane Operator \$8.00
- Powder Man \$8.00
- Mechanic \$8.00
- Crusher Operator \$4.00
- Asphalt Raker \$4.00
- Roller Operator \$4.00
- Distributor Driver \$4.00
- Distributor Operator \$4.00
- Tractor Operator \$4.00
- Blade Operator \$4.00
- Broom Operator \$4.00
- Truck Driver (over 1 1/2 tons) \$4.00
- Finisher \$4.00
- Form Setter \$4.00
- Air Hammer Operator \$4.00
- Blacksmith \$4.00
- Fireman (Asphalt Plant) \$4.00
- Mixer Operator \$4.00
- Compressor Operator \$4.00
- Pump Operator \$4.00
- Spreader Box Operator \$4.00

John Vickers Gives His Platform

A 10-point platform stressing greater economy in government and reduced taxation was announced this week by John Vickers of Lubbock, candidates for the democratic nomination for the legislature from the 119th district.

Counties in the district are Lubbock, Crosby, Hockley, Cochran, Lynn, Terry, Yoakum, Dawson, and Gaines.

- Steel Setter (Reinforcing Steel) \$4.00
- Gilder \$4.00
- Weigher \$4.00
- Truck Driver (1 1/2 tons & less) \$3.20
- Flagman \$3.20
- Unskilled Laborer \$3.20
- Teamster \$3.20
- Dumper \$3.20
- Form Setter's Helper \$3.20
- Watchman \$2.80
- Cook \$2.80
- Water Boy \$2.40

Overtime and legal holiday work shall be paid for at the regular governing rates.

Plans and specifications available at the office of R. T. Roane, for Terry County, Brownfield, Texas; Lon C. Ingram for Lynn County, Lubbock, Texas; and J. C. Kerr, for Dawson County, Lubbock, Texas and State Highway Department, Austin. Usual rights reserved. 39-26

Statement Is Given

He accompanied his platform with the statement: "I have lived in Lubbock county all my life and have made a special study of government, agriculture and law. I am a graduate of Lubbock High School and hold degrees from Texas Tech and the University of Texas law school. I feel I am familiar with some of the problems that confront us. This is the first time I ever have sought public office. I promise honest service and unstinted attention to the duties of the office if elected representative."

His platform follows:

- "(1) A constitutional limitation on the amount of appropriations. If this is not done there will be a continued increase in state taxes.
- "(2) Reduce state expenditures; abolish needless bureaus; create a budgeting and accounting department with supervision over state finances.
- "(3) Redistrict the state so as to give West Texas its fair share of representation. The average district has 40,000 population; whereas the 119th has in excess of 100,000.
- "(4) Prompt payment of old age assistance benefits to the needy.
- "(5) Liberal support of our educational institutions.
- "(6) The state should provide for the payment of its share of the

Teachers Retirement Fund.

"(7) A strict curb upon the professional lobbyist.

"(8) Real estate is bearing too heavy a share of our tax burden, and must have relief. Taxes must be reduced.

"(9) All state institutions of higher learning should share in the income from the University lands.

"(10) I am against new taxes or more taxes; the return of legalized gambling; the sale of liquor by drink; or any increase in the expenditures of the government.

IMPROVED UNIFORM INTERNATIONAL SUNDAY School Lesson

By REV. HAROLD L. LUNDQUIST, Dean of the Moody Bible Institute of Chicago, © Western Newspaper Union.

Lesson for May 22

SERVING THROUGH CHRISTIAN CITIZENSHIP

LESSON TEXT—Mark 12:13-17, 28-34. GOLDEN TEXT—Thou shalt love thy neighbor as thyself.—Mark 12:31.

"For God and Country" is a rallying cry that well summarizes the spirit and duty of the Christian citizen. So clear and inspiring are the teachings of God's Word regarding the relationship of the Christian to his country that one marvels that national leaders who are seeking to stimulate civic loyalty do not promote a revival of the study of the Bible.

Our lesson presents our Lord on Tuesday of His passion week, when He met His adversaries in their cunning efforts to entrap Him in His words so that they might condemn Him.

I. The Christian Citizen Loves His Country (vv. 13-17).

The Pharisees, who hated Rome for its domination of Palestine, and the Herodians, who supported Rome in its control of the land, were enemies, but they joined forces to tempt Christ. They knew that if He said "Yes" to their question the Jews would be angry, and if He said "No" He could be condemned as a traitor to Rome.

The trap was set, but it caught only the crafty hunters. Taking their own pocket money he declared that if they used Caesar's money they ought to pay taxes to Caesar. The coin stood for an orderly government, benefits of which they enjoyed and which they ought to support.

II. The Christian Citizen Loves God (vv. 20-30).

Although this point comes second in our lesson it comes first in experience. It is the man who renders unto God the love of the heart, soul, mind, and all of his strength (v. 30) who is ready really to love his country as he should.

The scribes loved to dispute about which was the greatest of the 613 commandments which they recognized. Jesus astonished them by referring to the passage of Scripture most familiar to the Jews (Deut. 6:4, 5), which declares the unity and absolute exclusiveness of the Lord our God. It may be well for us to stress this truth even in our time, for most folk regard the worship and service of God as optional.

III. The Christian Citizen Loves His Neighbor (vv. 31-34).

The scribe did not ask for the second commandment but Jesus presents it as an unavoidable corollary of the first. The man who really loves God will love his neighbor.

Every social injustice would be wiped out and every cause for strife removed if all men loved their fellow-man as they love themselves. Such a condition will never prevail, however, until men love God. It is too much for the flesh to put others before self. Only the grace of God is sufficient for that. Hence the real solution of the problems of capital and labor, the "haves" and the "have nots" is to win the men and women on both sides of the struggle to a true love for God through Jesus Christ our Lord. In other words, we come again to the inevitable conclusion that what our nation needs is a revival.

Social panaceas, revolution either by force or by law, dictatorships, all these are destined to failure. Men must learn to know and love God supremely and thus come to love their neighbors as themselves.

The crossroad Sunday-school teacher, the missionary in the city slums, the preacher of the gospel, whether in the great city or on the countryside, the faithful Christian living out the love of Christ daily in kindly word and deed—these are the real forces for social as well as spiritual good. Let us do all we can to prosper their ministry!

Sufficient Unto the Day Do not look forward to what might happen tomorrow; the same everlasting Father who cares for you today will take care of you tomorrow, and every day.

Living Wisely Let no one think that the way to gain the next world is to despise this one.

Little Courtesies In the stir and hurry of life how careless we are of little courtesies!

Treatment of Peptic Ulcer

By
DR. JAMES W. BARTON
 © Bell Syndicate.—WNU Service.

There are apparently fewer operations now for stomach or intestinal ulcer in proportion to the number of cases than there were a few years ago. This is not because surgery does not give results in emergency cases, but because medical treatment combined with treatment of the patient generally (not just the stomach or intestines) gives good results with less after-effects.

The thought in the minds of physicians now is that the ulcer patient is of the type who, if cured of one ulcer by medicine or surgery, is quite likely to simply go ahead and "grow" another ulcer unless he changes his habits of life.

The patient with stomach or intestinal ulcer is usually of the nervous type and slender in build. While this, in itself, may not cause ulcer, it predisposes to ulcer, so that it is like having paper and wood all ready to start a fire; the fire will not start unless a match—irritation, infection from teeth and tonsils or other causes, is applied. Individuals of different build or physique with the same irritation or infection would not be as likely to develop an ulcer as these slender, nervous individuals.

Quiet Life Essential.
 Thus when the ulcer patient consults his physician his own history and his family history is learned before the usual tests, including X-rays, are made.

"An attempt is made to prevent, besides cure, peptic ulcer (as stomach and intestinal ulcers are called). Patients with an irritable stomach or family history of ulcer should be advised to live a 'sensible' life and be placed on a mild ulcer regime or plan—bland diet, regular meals, thorough chewing of the food, a short rest (lying down) before meals, and a short rest after meals either sitting up or lying down on right side."

This quietness or calmness of mind means less disturbance of the muscular walls of the stomach, less chance of irritation and ulcer formation. The avoidance of all infection from teeth, tonsils, sinuses or elsewhere, may also prevent the formation or reappearance of ulcer.

Tests for Diabetes.
 One of the best bits of work our insurance companies are doing is the free annual examination of their policy holders.

One of the tests regularly made is for sugar in the urine, which, if present, is a sign of diabetes in two of every three cases. If there is really no sign of diabetes present—drinking a great amount of water, and passing a great amount of urine—it can readily be seen that an early diabetic would not likely have discovered that he had diabetes had not the urine been tested by the insurance examiner.

Many factors have been suggested as entering into the cause of diabetes. Heredity, overweight, hardening of the blood vessels (arteriosclerosis), gall bladder disease, nervous strain, disease of the pituitary gland which lies on the floor of the skull, thyroid gland disease, and other conditions have been examined.

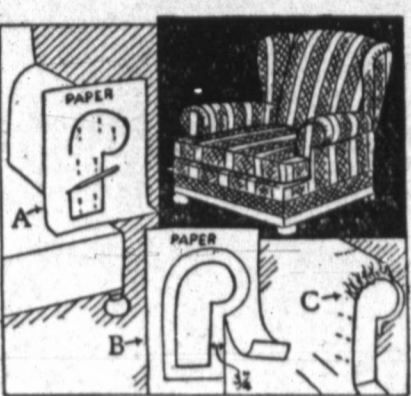

Men and women should have the urine tested once or twice a year. Cutting down on starch foods should prevent overweight and the development of diabetes in those who inherit the tendency toward it. It should also do away with the need for insulin in early cases of diabetes.

Scotland Took Irish Name
 Scotland takes its name from a tribe of Irish people called the Scots, who crossed the Irish sea at the end of the Fifth century and settled on the west coast of Scotland from the Clyde river to the Ross. Legend says that this tribe was named for Queen Scotia, the wife of a king of Ireland. Originally the Romans called Scotland Caledonia and its people the Caledonians. But by 843 Kenneth MacAlpin, a chief of the tribe of Scots, had united all of the country north of the Firths of Forth and Clyde under his rule. Within the next hundred years the name of his tribe came to be applied to all of this territory and it was called Scotland. Nova Scotia, is, of course, New Scotland.

First Printer in United States
 The first printer in the United States was Stephen Daye, who came to Massachusetts in 1638 under contract to Rev. Samuel Glover, who brought a printing press, but died on the voyage to America. Daye set up the press in Cambridge and there, in 1639, issued as a broadside, "The Freeman's Oath," the first piece of printing in the Colonies.—Washington Star.

HOW to SEW By RUTH WYETH SPEARS

STRIPES are popular for slip covers this season. Don't forget to center a striped pattern in the back and the seat of a chair. The crosswise use of stripes may also have possibilities as for the bottom of the chair shown here. Generally the main pieces of a slip cover are fitted and cut right

on the piece of furniture with a generous allowance for seams and a tuck in around spring seats. For small shaped sections, such as the fronts of some chair arms and parts of some wing chairs, paper patterns may be made to use in cutting the fabric.

Pin the paper to the part of which you wish to make a pattern, as shown here at A, then mark the outline on the paper feeling your way along the edge line with the side rather than the tip of the pencil point. Cut the pattern 1/4-inch outside the outline as shown at B. This allows for a seam and slight ease in the slip cover which should never be taut at any point. When gathers are needed to shape

the fabric over rounded parts, gather the edge and arrange the gathers with the cover piece pinned in place as shown at C.

Directions for making various types of slip covers are given in my book, SEWING, for the Home Decorator; also many types of dressing table covers, seventeen different types of curtains, bedspreads, and numerous other useful and decorative things for the home. I shall be glad to send you a copy upon receipt of 25 cents (coins preferred). Address Mrs. Spears at 210 S. Desplains St., Chicago, Ill.

Thought Governs All

Impossible Conditions

What would happen if an irresistible force hit an immovable object? The only answer to this old question is that it presupposes impossible conditions, the two terms being mutually exclusive. You cannot conceive of a force that is irresistible being stopped by any object, nor can an immovable object be moved by any force. As the existence of the two conditions at the same time is impossible, it is also impossible to say what would happen if they did exist.

Have You Entered This Cake Recipe Contest?

IT'S EASY TO WIN A CASH PRIZE
 Nothing to buy . . . No Letter to write

Have you submitted a recipe in the big Cake Recipe Contest now being conducted through this newspaper by C. Houston Goudiss, author of our "WHAT TO EAT AND WHY" series? If not, take time today to write out your favorite cake recipe, and send it to him, attaching the coupon below.

What Is Your Specialty?
 There are no restrictions as to the type of recipe that may be submitted. A simple loaf cake has an equal chance with an elaborate layer cake, provided it's good! So send along the recipe for that cake which never fails to delight your family. Enter that special cake you reserve for parties and church suppers. Or the one your children say is the best cake in town.

First Prize	Five Second Prizes	Ten Third Prizes
\$2500	\$1000 Ea.	\$500 Ea.

No Letter to Write.
 You'll agree that this is one of the easiest contests you ever entered, because there is nothing to buy, no letter to write. And it won't take more than a few minutes to write out your recipe and fill in the coupon.

Enter your recipe in this contest today. Mail recipe and coupon, properly filled out with your full name, address, town, state, and the trade name of the shortening, baking powder and flour used in your recipe, to C. Houston Goudiss, 6 East 39th Street, New York City.

Contest Closes May 31st.
 You won't have long to wait either, to know the outcome of the contest. For all recipes must be postmarked not later than May 31, 1938, and prize winners will be announced as soon as possible thereafter.

Prize winning recipes, together with those receiving honorable mention from the judges, will be printed in a booklet to be distributed nationally.

Cake Recipe Contest

C. Houston Goudiss
 6 East 39th Street, New York, N. Y.

Please enter the attached cake recipe in your contest.

My name is.....
 My address.....
 Town..... State.....
 My recipe calls for..... (Brand name of shortening)
 My recipe calls for..... (Brand name of baking powder)
 My recipe calls for..... (Brand name of flour)

16 Cash Prizes.
 The winning cakes will be selected by experienced home economists on the staff of the Experimental Kitchen Laboratory maintained by C. Houston Goudiss in New York City. The recipe adjudged the best will win \$25 for the lucky housewife who submits it; there will be five second prizes of \$10 each and ten third prizes of \$5 each.

"HERE'S MORE SMOKIN' JOY FOR YOUR MONEY"

Eddie Nichols tunes in on Bruce Williamson's remarks about the "makin's" tobacco that's extra-rich and double-mellow

PRINCE ALBERT
 THE NATIONAL JOY SMOKE
 70 fine roll-your-own cigarettes in every 2-oz. tin of Prince Albert
SO MILD SO TASTY

EDDIE NICHOLS is no new hand at spinning 'em up out of Prince Albert. "Why, you know, most every cigarette roller around here goes for Prince Albert," he tells you. "Why not—that big red tin is just chock-full of happy 'makin's' smokes. Tastes better, rolls quicker—there's no spillin', no blowin' away, no bunchin'." "Fancy tobacco as to taste," adds Bruce, "but nothing fancy about the cost of those 70 ripe, tasty 'makin's' smokes in a P. A. tin. When it comes to smokin' joy, I say Prince Albert is downright generous." (P. A.'s the National Joy Smoke for pipe-smokers too.)

GET ON TO THAT P.A. MONEY-BACK OFFER QUICK AS YOU CAN!

THERE'S NO COST IF P.A. DOESN'T WIN YOU
 Roll yourself 30 small cigarettes from Prince Albert. If you don't find them the finest, tastiest roll-your-own cigarettes you ever smoked, return the packet tin with the rest of the tobacco in it to us at any time within a month from this date, and we will refund full purchase price, plus postage.

SURPRISE BIRTHDAY DINNER IN HOME NEAR GRASSLAND

The attractive farm home of Mr. J. B. Thompson was the scene of a surprise birthday dinner celebrating his 60th birthday March 15.

Those attending the delicious and attractive dinner were, Mr. J. B. Thompson, Miss Marcellan Joy Odem, Mr. and Mrs. Authar Morris and daughter, Sudie Loverne of Post, Mr. and Mrs. Brent Thompson and children Lois Marie and Brent Jr. of Slaton, Mr. and Mrs. Guthrie Thompson of Brownfield, Mr. and Mrs. C. W. Roberts and daughters, Melba Jean and Myrna Dean of Grassland, Mr. Dillard Thompson and nephew J. D. Morris of Brownfield, J. B. Pete, and Rosalie of the home.

Those who called at the tea hour were Mr. and Mrs. Melvin Abernathy and daughter Peggy, Mr. and Mrs. Harold Brown of Slaton.

Afternoon guests were Mr. and Mrs. D. W. Morris and Mr. and Mrs. D. C. Morris of Post.

R. W. BARTON AND FAMILY ENJOY FAMILY REUNION

(Delayed from last week.)
R. W. Barton and family and his brother, O. O. Barton, all of New Lynn drove down to Coleman one day last week and remained over Sunday visiting their parents and other relatives.

A family re-union was held in the park at Coleman Sunday. Among those present were Mr. Barton's parents, Mr. and Mrs. F. S. Barton, and Mrs. Barton's parents, Mr. and Mrs. J. M. Hinds.

Another most pleasurable event of the visit was a party given by Mrs. Barton's sister, Mrs. A. C. Sparks, to which about twenty couples had been invited. The twenty couples, Mr. Barton says, were all young people together in the same community in Coleman county and most of them were married within a year or two years time. So, he came back feeling just like a boy again.

Mr. Barton says that the pastures are fine all the way from Post to Coleman.

CHURCH OF THE NAZARENE

We had a very good attendance in Sunday School last Sunday in spite of other special services in town. We feel encouraged over the work here.

We have met new people in almost every service. We want every one to feel that there is always a hearty welcome at the Church of the Nazarene. Come and be with us next Sunday and enjoy good singing and hear the gospel preached.

Our regular services:
Sunday school at 9:45 Sunday morning.

Preaching at 10:45 a. m.
Sunday night services: N. Y. P. S. at 8 o'clock, preaching at 8:30.

Wednesday night prayer meetings, 8 o'clock.—Pastor Miss Betty Ellis.

EDINGTON-HOLTON

W. D. Edington and Miss Maxine Holton of Lubbock were united in marriage last Saturday night at the Methodist parsonage here, Rev. Ben Hardy officiating. The couple were accompanied by a number of other young people.

G. T. Evans and family of Dalhart were here over the week end visiting C. B. Evans and family. The two men are brothers.

ELDER DRENNON'S NOTES.

I want to express my thanks to all who made our visit to Tahoka last Lord's Day morning so pleasant. We were indeed happy to visit and worship with the brethren whom I had labored with so long. And the baccalaureate services were so well arranged. The singing was inspirational and well rendered. A fine feature about the class was the fact of the great number of boys who had reached the top.

As to my part, it was made easy because of the great host of friends I had to speak to, and the eager manner in which they received my sermon. It was a banner day for me as I have dreamed, hoped, and prayed that I might preach to a thousand people at one time, and we were informed that almost that number was present, or at least away over the half way mark. All in all it will be a bright spot in my memory in the years that are before me. At the night services here one precious soul was saved; so that made it a perfect day for me.

I want to commend one editorial in last week's issue of the News, the one about beer ads. I hope the readers will get your paper and read it again. The two reasons the editor gave for not running them were as strong and sound as the rock of Gibraltar. O that we had more men who would take a stand against the evils of the day, and strong drink heads the list. I hope the editor lives many more years to champion the cause of prohibition.

I have been honored with an invitation to deliver the Commencement address here and at Mesquite this week. What an opportunity for the gospel preacher to raise the ideals of our future citizens and make our country a better and safer place to live.

I have also been honored with an invitation to hold a meeting at Monument, New Mexico, with several congregations helping. It will begin next Lord's Day morning, so my notes next week will be from there. You that love the Lord send up a petition to the Father for the success of the meeting.—R. P. Drennon.

Mr. and Mrs. J. B. McPherson and children, his mother, Mrs. Walter McPherson of Crosbyton, and his uncle, W. J. Burckhart of Edith, made a trip down to Cleburne Saturday night, returning Monday night, to attend the fifty-seventh wedding anniversary celebration of Mr. and Mrs. G. W. James of that city. Mrs. James is J. B.'s aunt, and a sister of Mrs. McPherson and Mr. Burckhart. There were about fifty relatives present.

Up in the Morning Feeling Fine!

The refreshing relief so many folks say they get by taking Black-Draught for constipation makes them enthusiastic about this famous, purely vegetable laxative. Black-Draught puts the digestive tract in better condition to act regularly, every day, without your continually having to take medicine to move the bowels.

Next time, be sure to try

METHODIST CHURCH NOTES

(Ben Hardy, Pastor)

Next Sunday will be Aldersgate Sunday. We will preach on the great doctrine of Assurance and the 'Witness of the Spirit'. We trust that every member of our church, if at all possible, will be there.

On the next Tuesday night, May 24, we will have another service in commemoration of the heart warming experience that came to John Wesley May 24, 1738, in Aldersgate Street Chapel. The pastors at Wilson, O'Donnell, and Draw-Grassland will be with us, and many of their people. We are expecting a great service. Don't miss it, and be with us next Sunday.

Our third quarterly conference will be May 20. Dr. Clark will preach at 11 o'clock and hold conference in the afternoon.

CARD OF THANKS

We wish to extend our sincere thanks to the people of Tahoka for the aid, both in acts of kindness and financial assistance, given us following the destruction of our little home by fire last Sunday morning. We hope that we can in some way some time show you how much we appreciate your aid.—Mr. and Mrs. L. F. Morton and son.

Donner Lake Named for Party of '46 Emigrants

Lying high near the summit of the Sierras in California is Donner lake, named for an ill-fated emigrant party headed by George Donner, which suffered privation and even death in its attempt to cross the mountains toward the Pacific in the fall and winter of 1846.

Donner's party, formed in July, consisted of 87 persons—36 men, 21 women, and 30 children. Their wagon train was delayed by hardships encountered in crossing the Nevada desert. It was not until late October that it began the ascent of the Sierras. Early snows impeded its progress. The way was blocked completely when the party reached the shores of the lake which now bears its name.

Through the long winter the emigrants fought starvation and disease, many perishing before help reached them in the spring. A monument on the shores of Donner lake is dedicated to the memory of those who suffered and died on its shores.

Rivers Belong to States Where They Are Located

Rivers are the property of the states in which they are located. The limited jurisdiction of the federal government over navigable streams is merely incidental to its constitutional power to regulate and improve navigation for interstate and foreign commerce.

When a river forms the boundary between two states the title of each state is presumed to extend to the middle of the main channel, provided there is no legal arrangement to the contrary. Sometimes two states agree, for police purposes, to exercise concurrent jurisdiction over a river which forms the boundary between them.

The Ohio, Chattahoochee and Potomac rivers are notable exceptions to the general rule. Kentucky and West Virginia have absolute jurisdiction over the entire Ohio river along their shores as far as the low-water mark on the Ohio, Indiana and Illinois banks. If a person commits a crime on that river near the Illinois, Indiana or Ohio shore he is amenable to the laws of Kentucky or West Virginia. This boundary line has been judicially recognized many times by the Supreme court of the United States and the Supreme courts of the states involved.

The Northwest territory, from which Illinois, Indiana and Ohio were carved, was ceded to the federal government in 1784 by the commonwealth of Virginia. The resolution of cession retained title and jurisdiction over the Ohio river to the low-water mark on the northern bank, and these rights were transmitted to Kentucky and West Virginia when they were later formed from Virginian territory.

Don't put up with useless PAIN

PAIN
Get rid of it

When functional pains of menstruation are severe, take **CARDUL**. If it doesn't benefit you, consult a physician. Don't neglect such pains. They depress the tone of the nerves, cause sleeplessness, loss of appetite, wear out your resistance. Get a bottle of Cardul and see whether it will help you, as thousands of women have said it helped them.

Besides easing certain pains, Cardul aids in building up the whole system by helping women to get more strength from their food.

McKAYS THANK THE PEOPLE

We want to thank the good people who contributed of their means to our assistance and helped us in many other ways following the great misfortune which befell us in the recent storm. There must be no better people on earth than our neighbors and friends in Lynn county. We are also grateful to the Red Cross and the Red Cross officials who have so generously restored to us that which was swept away.—Mr. and Mrs. Louis McKay.

Louis McKay of Draw, whose baby daughter Irene, 14 months old, was so seriously hurt in the tornado which reduced their residence to splinters, says that the little girl is steadily improving and he believes that in the course of time

she will be sound and well. Her recovery seems almost like a miracle.

Mrs. A. I. Thomas became suddenly and seriously ill Monday but is reported to be recovering.

SEVEN PLEAD GUILTY IN MAIL THEFT CASE

(Cont'd. from first page)
sack from the mail car and placing it in his automobile near the stock pens in Tahoka and driving away with it. He was sentenced to confinement in the federal penitentiary at Leavenworth for four years.

Roy Cathey, 23, cousin of Jack Cathey, and son of Mat Cathey residing a few miles west of O'Donnell, on whose place a part of the stolen money was found. He was given 15 months in Leavenworth.

James O. Petty, O'Donnell, alleged go-between in the disposal of a part of the money. He drew 18 months in Leavenworth.

James T. Morris, Kerrville, another alleged go-between. His punishment was fixed at two years in the federal penitentiary but sentence was suspended during good behavior. At the end of three years, if his behavior has been satisfactory, sentence may be set aside.

Sidney A. Miller, Spur and Dallas, alleged purchaser of a large block of the stolen money at a reduced price. He was fined \$1,000 and sentenced to Leavenworth for 30 months.

Carl E. Williams of Brownwood, another alleged purchaser of a portion of the money; 30 months in Leavenworth.

Rufus H. McNurlen, Borger, purchaser, 2 years in Leavenworth.

Matt Cathey, father of Roy Cathey on whose place a portion of the money was found, was indicted but the indictment against him was dismissed by Judge William H. Atwell, who sat on the trial of the cases, upon the recommendation of Clyde O. Eastus, U. S. district attorney.

Miller and his wife were arrested in Atlanta, Georgia, and were brought back to Texas charged with complicity in the crime but the charge against Mrs. Miller was later dismissed.

Williams and Miller said that they had purchased approximately \$21,000 of the money at 50 cents on the dollar. After being brought back to Dallas, Miller took officers to a spot where he claimed he had buried \$6,000 of the money, but the money was not found. About \$16,000 or \$17,000 of the stolen money has never been recovered, it is said.

Six of the men convicted, Jack Cathey, Roy Cathey, James O. Petty, Sidney A. Miller, Carl E. Williams, and Rufus H. McNurlen, were taken by federal officers to the penitentiary at Leavenworth Tuesday.

Judge Atwell commended the work of officers in unraveling the crime and bringing the criminals to justice. Sheriff B. L. Parker of Tahoka and his deputies worked in conjunction with federal officers on the case.

Tom Garrard of Tahoka represented one of the defendants in the case, Roy Cathey of O'Donnell.

Harold Cooper, 11, son of Mr. and Mrs. Noel Cooper, who has been so seriously ill of double pneumonia, is thought to be improving, according to E. J. Cooper. The boy is exceedingly weak, however, and is not yet out of danger by any means. He is in a lubbock sanitarium.

The Earliest Diamonds

It was a Dutch farmer who discovered the first diamond, says a writer in the Philadelphia Record. To him it was simply a pretty stone with which some children were playing. He showed it to a trader. Neither of them knew what it was. But the French consul in Cape Town, a jeweler, pronounced it to be a diamond and valued it at \$2,500. At this price it was bought by the governor of the colony. The profits were honorably divided between the owner and the trader. The same farmer paid all that he had—500 sheep, 10 oxen and a horse, to a native witch doctor for a stone four times as heavy which he was using as a charm. This the farmer sold for \$56,000. It was the famous "Star of South Africa," valued at \$125,000.

Many Species of Eucalyptus

The eucalyptus semiphloia, Australian Graybox, attains a height of 90 feet, and is distinguished by its persistent, grayish and somewhat wrinkled bark, which often peels in long strips from the branches. There are about 300 species of eucalyptus, all native to Australia. Considering that a tree can acquire a height of upward of fifty feet, within so short a span as five or six years, it is no wonder that it has a personality of great appeal. The name is derived from eu, well; and kaluptos, to cover as with a lid. It refers to the calyx, which covers the flower before expansion and afterwards falls off in one piece in the shape of a lid or cover.

Colorado's No-Man's Land

No-Man's Land in Colorado is a tract of about 1,700 square miles in the north central part of the state, about 80 miles from Denver. Lying between lands included in the Louisiana Purchase and in the Texas Panhandle purchase, it is not part of either, but was obtained in the cession of the Ute Indians under the treaty of March 2, 1868. It was included within the boundaries of Colorado when that state was admitted to the Union in 1876. On August 9, 1936, at Breckenridge, Colo., Gov. E. C. Johnson proclaimed American sovereignty over this land.

Hairless Squirrels

Hairless fox squirrels are not unusual, although they are not common. Generally they are alone while feeding or resting. Others of their family seem to shun them. They are not as active as squirrels in good fur and are constantly scratching themselves. Some have been found even with their tails devoid of hair and they appear more like a light brown rat than a squirrel.

COMPLETING PLANS FOR FARM LIGHT LINES

(Continued from First Page)
supplies instructing the board to procure the right of way.

On Saturday instructions came for the board to select the bank which was to handle the funds.

The board met accordingly on Monday afternoon in the court house here and selected Hon. Tom Garrard as its attorney and the First National Bank of Tahoka as the depository for the funds.

The board of directors are going over the territory this week and will meet here next Monday to select the tentative route of the line. It will then proceed with the task of procuring right-of-way.

Mr. Heck says that the board has been instructed by the Washington authorities to make it plain to property-owners that no funds will be available for the purchase of right of way. The lines must and will be located where the right of way is donated. Therefore if any landowner on the proposed route re-

fuses to donate the right of way, the route will be changed so as to miss his land. Customer density must average at least three to the mile over the entire network of lines.

Mr. Heck does not anticipate that the board of directors will encounter any serious difficulties in procuring the right of way. He points out with respect to the Lubbock county project that where the lines were run the value of the property was at once enhanced, even though it would not be served by the proposed line. Construction was started on the Lubbock project Monday.

It is hoped that all the preliminaries may be disposed of promptly and that work on the Lynn-Terry-Garza line may begin without unnecessary delay.

The board of directors is composed of John Heck of Wilson chairman, A. Baysinger of Gordon, and A. R. Hensley of Draw representing Lynn county, two directors in Terry County and two in Garza county.

Mrs. Scott Davis underwent a major operation in a Lubbock hospital last Saturday morning. She is said to be recovering satisfactorily. The condition of Mr. Davis, however, who has been seriously sick for a long time, shows no improvement.

RELIEVES PAIN of PILES

Thornton & Minor's Rectal Ointment, a doctor's formula, is for quick, temporary easing of pain, itching, surface soreness and other symptoms occurring in piles not calling for immediate surgical attention. An effective, soothing palliative. Get a tube today. **75¢**

CLOSING EXERCISES OF SCHOOL ARE TONIGHT

(Continued from Page 1)
Then came the class address, followed by the presentation of diplomas.

"One Fleeting Hour" sung by the class ended the program.

The "Baccalaureate" exercises in the high school auditorium last Sunday morning were most beautiful and impressive.

The program opened with the singing of the great old hymn, "Lead On, O King Eternal," by the choir.

Mrs. M. H. Edwards gave the professional and Rev. Ben Hardy of the Methodist Church pronounced the invocation.

The Scripture reading was given by Elder J. L. Nisbett of the Church of Christ.

The congregation joined in singing "O Love Divine," after which announcements were made by Superintendent W. G. Barrett.

The choir, directed by Mrs. Claude Donaldson, rendered the beautiful anthem, "Hark! Hark! My Soul." The Commencement discourse was delivered by Elder R. P. Drennon, now minister of the Church of Christ at O'Donnell but for five years pastor of the flock here. This sermon was pronounced one of the very best ever heard here on a similar occasion.

The congregation joined in singing another of the great old hymns "Come Thou Almighty King" and then came the solemn recessional, rendered by Mrs. M. H. Edwards, while the graduates marched out with slow and stately tread as they had marched in an hour before.

The benediction was pronounced by County Superintendent H. P. Caveness.

The Tahoka schools have done good work the past year. All of the teachers have been re-elected to

their respective positions. Superintendent W. G. Barrett announced several months ago that he expected to retire from the profession at the close of the present school term, and the board of trustees thereupon elected W. T. Hanes, superintendent of the Hermleigh school, as his successor. School people and others voluntarily gave Mr. Hanes unusually strong recommendations, and it is believed that he will prove to be highly successful in the administration of school affairs in Tahoka during the next year.

The following seventh grade pupils were promoted to the high school:

Lanelle Maddox, Hazel Marie Jenkins, Aleta Lois Stewart, Mary Ruth Hargett, Jolly Joe Dyer, Douglas Henderson, Vinita Cooper. Dorothy Mae Tippit, Grace Elisabeth Bartlett, Dorothy Virginia Fulker, Ethel Goad, Dorothy Conway, Pershing Alexander, Imo Jo Jollyson, Clarice Thompson, Mary Beth Roddy, Betty Lou Ivey.

Billie Margaret Riddle, Bette Ruth Wyatt, Helen Bell Pemberton, Claud W. Slover, Wayne Shawn, Dorothy Threat, Mary Nell Brooks, James Elton Wells, Billie Lee Burleson, Dorothy Ann Roberts, Olan Rice, Thomas Fender, Fayne Clark, Carolyn June Chandler, Wanda Lee Tinsley, Dorothy Mae Holland.

Miss Willie M. Chappell, who is attending a business college in Lubbock, spent the week end here with her mother, Mrs. Val Morris.
