400 Pioneers Attended Reunion Friday

Excellent Rains Fall In County; Crops Good

Five Inches Fell In Tahoka Improving Outlook Here And Over Lynn County

The town of Tahoka and a wide stretch of territory to the east were drenched on Friday night of last week with one of the heaviest rain-falls that has visited this section of the state in recent years.

The downpour in Tahoka during the night and early Saturday morning amounted to 4.66 inches; 1 1/4 of an inch had fallen Friday afternoon, and .20 fell during the next two days, making a total of exactly 5 inches in Tahoka. A few miles east of town, the fall was still heavier. In the Edith community it is believed that full eight inches fell.

Other parts of the county received good rains, running from a half inch to 2 1/2 inches.

These rains, except where the fall was excessively heavy, were fine for the crops, and even the farms on which the heaviest rains fell were helped except where lakes formed.

The crop prospects over the county as a whole are much better than they were two weeks ago. Feed promises to be fine and much of the cotton a looking good. Most of the cotton acreage in the county had to be replanted from one to three times, due to the ravages of winds, hail and heavy rains, the blowing sand doing by far the greatest damage. Much of the cotton that had been left standing had been badly burned and whipped by the winds and sand and presented a most bedraggled appearance. These rains have been a great help to all such crops as well as to the young cotton that had just come up. Farmers need a few days of dry weather now so that they can plow out their crops.

Bob Stuart Is Tahoka Speaker

Denouncing the perpetual politician and the chronic office-holder as being a menace to Texas, Robert A. (Bob) Stuart of Fort Worth, brought his candidacy for railroad commissioner here Thursday afternoon. He was completing a schedule that called for 50 addresses to be made in West Texas cities during the week.

Stuart told of his numerous connections with West Texas. He said he served as Federal Housing Administrator for the West Texas district, graduated from the West Texas State Teachers College at Canyon, is president of the board of regents of the seven Texas State Colleges, three of which are located in West Texas; has law offices at Fort Worth which boasts that it is where the West begins, and was co-author of the bill that created Texas Technological College.

"My opponent, C. V. Terrell, the incumbent, has been railroad commissioner for 14 years and now asks that you make it 20. He has been on the tax payers' payroll for 52 years and has drawn more than \$250,000 from the state in salary and expense money. He is opposed to the old age assistance and fired an employee because he made an address in favor of it.

"I am for paying the old age assistance in full and when I am elected your railroad commissioner, I will conduct the office as to conserve the oil and gas that are being wasted in the field. That will give enough money to take care of the silver haired daddies and the golden haired mothers and leave us enough to let us abolish out right the ad valorem tax."

Stuart predicted he will take 90 per cent of the votes cast in West Texas. He said the oil allowable in Texas should be cut to bring back a revival of business.

Candidates Speak

GERALD C. MANN
Candidate for Attorney General.

R. A. (Bob) STUART
Candidate for Railroad Commissioner.

Mann Speaks To Tahoka Voters

Blasting rackets of all kinds and promising strict law enforcement, Gerald C. Mann, Dallas attorney and former secretary of state brought his vigorous campaign for a attorney general here in a speech Wednesday.

"I am opposed to all racketeering," Mann declared, "but the most insidious of all, the one most damaging to our state, is the political racket. The political racketeer is the influence-peddling lawyer, the self-styled influential politician, the fixer. When I am attorney general those schemers will no longer sit enthroned at Austin. I want to make our capitol a symbol of justice where any man may go and get what he is justly entitled to without aid of any political racketeer."

Pledging strict law enforcement, Mann promised the relentless prosecution of all law violators whether the law breaker be the largest corporation or the most humble citizen. "On the other hand I shall not prosecute a man or set of men for the purpose of gaining public favor nor shall I fail to prosecute for fear of losing it. I would rather be a real attorney general for only two years than be a vacillating, shifting politician. I'd rather be a one-termer than a two-termer."

Mann invited a comparison of his record as an attorney with that of any of his opponents. He declared this was the first time he has sought an elective office and reviewed his past public service when he served by appointments as an assistant attorney general, secretary of state and Washington representative of the Texas Planning Board.

Mann, on a state-wide speaking tour that will take him into every section of the state before election day, came here from Post.

N. M. Bray came in Tuesday morning from Longview to look after his property here.

Select Sponsor For Cowboy Reunion

Mrs. Lena Mae McMillan of Three Lakes has been selected to represent Lynn county as Cow-girl in the rodeo to be held at Stamford on July 4-5-6.

Business men of Tahoka contributed to a fund this week to pay her expenses at the rodeo. Mrs. McMillan is a skillful and graceful rider and will do credit to Lynn county at the big Stamford show.

Right-of-Way For Road Procured

Judge P. W. Goad on Monday procured right-of-way deeds to the last two tracts of land along and over which No. 84 east of Tahoka will pass, with the exception of five tracts which were condemned by court proceedings.

Unless one of the parties whose land was condemned shall appeal from the action of the court, which seems improbable, this completes the right-of-way from Tahoka east to the Garza county line.

While Judge Goad is not prepared to say just when work on the grading and drainage structures on the highway will begin, yet he has assurance that it will begin some time soon—he hopes within the next two or three weeks.

An appropriation of funds has been made also for the grading and drainage structure on this highway in Garza county from Post to the Lynn county line.

Thus it appears that the beginning of the rebuilding of this highway is at last in sight. How welcome should that news be to every citizen of Lynn county, for highway No. 84 is impassable right now at the lake just this side the Sanders store and filling station. It has been impassable, and probably is so yet, just north of Central Church.

Our hats are off to the state highway commission and the W. P. A. for making the hardsurfacing of this highway at an early date a certainty.

Baptists Meet At New Lynn

A workers meeting of the Plains Baptist Association, a branch of the Baptist denomination in Texas, met with the New Lynn Baptist Church last Friday, according to Rev. W. P. Bussell, a Baptist minister of that community, and some interesting discussions were had, in which Mr. Bussell participated. A number of visitors were present from other parts of the Association.

The Plains Association covers almost the entire plains, extending from Amarillo to Lamesa. It represents that faction of the Baptist denomination which split off from the main body about forty years ago in the unfortunate Hayden-Cranfill controversy of the nineties—which, by the way, were not so gay in church circles.

Big Bill Thompson Is Water Bound

Bill Thompson phoned in to the News office Monday afternoon in great distress. He was water bound. He had stood it just about as long as he could.

Bill, as everybody knows, lives on the highway six miles east of Tahoka. The big rain Friday night ran his lake over across the highway, and traffic over that section of the highway is blocked. He was unable to get out through his field to other roads, he said, except on foot. The only way he could get away from home was to walk away—and Bill is not very strong on walking.

"I have been living here 22 years", Bill said, "and this is the first time I have ever been completely water bound." He declares that approximately eight inches of rain fell at his place on Friday afternoon and night and Saturday morning.

Lynn County Pioneers Celebrate

When pioneers made merry Friday at the fourth annual meeting of the Lynn County Old Settlers Association at Tahoka, Sam Papert, Avalanche-Journal staff photographer, was there with his camera. Above, left to right, Waldo McLaughlin, of O'Donnell, who completed a year as president at the time of the Friday get-together; A. Thurman Wells, of O'Donnell, newly elected president; and "Aunt Becky" Roberts, of Tahoka, who became "grand champion liar" of the association, winning over five opponents in the "tall tales" contest. Lower photo shows a portion of the crowd of 400, enjoying a barbecue prepared for the occasion. The association is limited to residents of 36 years or more, and members of their families.

Ropesville Man Is Buried Here

The remains of A. O. Robinson of Ropesville, 84, were buried in the cemetery here at 4 o'clock Wednesday afternoon following funeral services in Ropesville, where he died Tuesday night.

Mr. Robinson lived in the Lakeview community in this county for a number of years but removed to Ropesville a few years ago.

He is survived by the widow and several children. One of the sons, Otty Robinson of Corpus Christi, is a brother-in-law of J. L. Nevill of this city, having married Mr. Nevill's sister, Miss Elma Nevill; and one of the daughters is a sister-in-law of Mr. Nevill, being the wife of Frank Nevill of Lytle, brother of J. L. Both families were here for the funeral and the burial.

County Has One Confederate Vet

Lynn county has at least one ex-Confederate veteran, A. M. Tredway of O'Donnell, who for a number of years was a resident of Tahoka. Mr. Tredway, however, was unable to make the trip to the joint reunion of ex-Confederate and ex-Federal soldiers now being held at Gettysburg, Pennsylvania, where the decisive battle of the Civil War was fought seventy-five years ago. A party of nine South Plains ex-Confederates left Lubbock on Monday to attend the meet. Many Lynn county friends are sorry that Mr. Tredway, who is 92, could not join the party.

Mr. and Mrs. W. M. Harris took their niece, Miss Reba Harris, to Sweetwater Monday for a visit with her sister there for a few days, after which she will return to her home at Marietta, Cass county, for the summer. She has been here visiting the Harrises the past two or three weeks.

Dr. O. R. Hill of Lubbock, optometrist, and Aubrey Dobbs, Lubbock, former editor of the Collinsworth Standard, were pleasant callers at the News office Wednesday.

Barrett Family Leaves Tahoka

W. G. Barrett and family are moving this week from Tahoka to Stamford, where Mr. Barrett will engage in the insurance business.

Mr. Barrett has been superintendent of schools here the past three years, coming to Tahoka from Comanche, where he had been superintendent for ten or twelve years. Early in the year he announced that he would not be an applicant for the position here again as he had made up his mind to go into other business.

Many friends here hope that he will find the insurance business to be a lucrative and pleasant one. Mr. Barrett was active here not only in the educational field but also in civic and church affairs. The Barretts have two fine children, also, and the family will be greatly missed here.

W. T. Hanes, Hermleigh, succeeds Mr. Barrett as superintendent of the schools here. He has had several years of successful experience as a teacher and as a school administrator and no man ever came to the Tahoka schools with higher recommendations than he brings. He is commended by trustees, patrons, and educators alike.

His family consists of himself, wife, and one child. He has been here this week as well as at other times looking for a house, but as yet he has found none. He and family will move to Tahoka immediately, however, since his work as superintendent of the schools begins today.

J. B. Nance Office Is Burglarized

Some culprit broke into the residence of J. B. Nance in the west part of town Sunday night and stole a typewriter, a hammer, and a few other articles of small value.

Entry was effected by raising a window, which the intruder failed to close, making his exit at a back door, which he unlocked, taking the key with him.

It is believed to have been the work of an amateur at the game.

Barbecue Served At Noon; Wells New President

Many Old Timers From a Distance Attended Fourth Annual Convention

The fourth annual meeting of the Lynn County Old Settlers Association held at the grade school building here last Friday was in every way a decided success, in spite of the showery and threatening weather which possibly kept some away.

At noon a lunch of barbecued beef, goat and chicken with all accessories was served the old timers. T-Bar ranch donated one of the loaves.

There were about four hundred persons in attendance, according to W. E. Smith, the secretary. Nearly three hundred registered. Perhaps the most colorful characters present were J. Wright Moor of Snyder, old buffalo hunter and pioneer ranchman, and Rev. White Parker of Lawton, Oklahoma, son of the famous Quanah Parker, Indian chief and himself the son of old Nocona and Cynthia Ann Parker, white woman, who had been captured by the Indians at nine years of age and reared among them. White Parker's accomplished wife and most interesting 13-year-old daughter Cynthia Ann, were also present, as was Rev. A. E. Butterfield of Lawton, pioneer missionary among the Indians.

Former Lynn county residents here from other places included: J. K. Milwee of Lubbock, early Lynn county ranchman; Mr. and Mrs. Don Hatchett of Lubbock; Mrs. Jessie Randall of Brownfield, who was the first teacher in Lynn county, teaching at Lynn; Mrs. C. M. Whipp and Mr. and Mrs. C. M. Whipp of Lubbock, Mr. Whipp being one of the early county officials here; W. H. Robinson of Shallowater, also at one time a county official of Lynn county; Mr. and Mrs. J. W. Joplin of Amarillo, Mr. Joplin having been deputy sheriff here for several years; T. M. Bartley Jr., in the air service at Port Benning, Ga., son of T. M. Bartley, early-day county judge of Lynn county; LaVerne Kershner and Mr. (Continued on Back Page)

Negro Dies From Strange Accident

The body of Eugene Ockelberry, eight-year-old son of Joe and Bessie Wiley, colored, working on the R. R. Adams farm in the Wells community, was buried in the Negro cemetery here Saturday under the direction of the Harris Funeral Home, following funeral services conducted in the colored Baptist Church here by the pastor, Rev. O. D. Hollins.

The boy died in a Lamesa hospital about 4 o'clock Friday afternoon as the result of injuries received about 11:30 o'clock Friday morning when he was accidentally caught in the wheels of a tractor being operated by Melvin Weatherby on the Adams farm.

When caught in some way by the wheel of the tractor, the boy was so fastened that it became necessary to remove the wheel before he could be extricated from the entanglement. The bolts that held the wheel in place had become "banged up" so badly that it was necessary to cut them off with a chisel. The tractor was in the middle of the field at the time, and it was necessary for some one to go to the house and secure a house jack, which luckily was available, and raise the tractor before the wheel could be removed.

All this caused a delay of thirty minutes to an hour, during which time the child remained fastened in the tractor wheel, suffering great agony. Upon being released from the entanglement, he was rushed to O'Donnell for treatment; where it was decided best to take him on to a sanitarium at Lamesa. At the (Continued on Back Page)

PRIMING MONEY FLOWS

First Grants and Loans Announced by PWA Covering Hundreds of Projects in Every State

John Roosevelt, youngest son of the President, and his bride, the former Anne Lindsay Clark, leaving the old church in Nahant, Mass., where they were married.

Edward W. Pickard
 SUMMARIZES THE WORLD'S WEEK

Some for Every State
 NO SOONER had President Roosevelt signed the pump priming measure than the flood of federal money was released. The Public Works administration of which Secretary Ickes is the head, made public two lists of grants and loans covering 590 projects in every state in the union with a total estimated cost of \$148,795,895.

Four more lists were ready, and these, PWA officials said, would complete the "first push" toward a \$2,000,000,000 construction program to provide work and stimulate industry. Officials further estimated that these initial groups of projects may run as high as 1,500 or 2,000 with a cost of \$600,000,000.

Federal grants under the PWA procedure cover 45 per cent of the cost and, when a PWA loan is made, 55 per cent. The difference between the estimated over-all cost of the projects and the sum of loans and grants made by PWA is supplied by the various applicants.

The 291 projects in the first group to cost \$92,520,374 will be financed by the PWA to the extent of \$41,632,715 in grants and \$50,887,659 in loans while the second list of 299 projects to cost \$56,275,521 will receive federal grants of \$5,280,413 and loans of \$1,900,500. Thus the amount of government assistance to 590 projects estimated to cost \$148,795,895 will amount to \$75,814,623.

The President, when he signed the act, told the press that business conditions were not as bad as popularly believed, and said he looked for a definite pickup in the near future.

Roper Is Optimistic
 THAT there will be a business upturn, certainly by autumn and possibly earlier, is the prediction of Secretary of Commerce Roper. "Natural economic factors," he said in a prepared statement, "coupled with the influence of constructive legislation, point the way to an early favorable trend in the business cycle for which business should immediately make adequate preparation."
 The railroad situation, Roper said, is the most disturbing factor in the present economic picture, and it may make necessary a special session of congress. He declared the condition of the roads is getting progressively worse and is very serious. He saw hope, however, in prospect of bumper crops in the Midwest which would increase the demand for transportation.

Group for Labor Survey
 NINE men and women were appointed by the President as members of a special commission that will study the workings of the British labor disputes law and Swedish labor relations. Most of them already are in Europe ready to begin their work.
 The group is composed of Lloyd K. Garrison, dean of the University of Wisconsin law school; Robert Watt, American Federation of Labor representative; Gerard Swope, president of the General Electric company; Henry I. Harriman, former president of the Chamber of Commerce of the United States; William H. Davis, chairman of the New York labor mediation board; Mrs. Anna M. Rosenberg, regional director of social security for New York; Charles R. Hook, president of the American Rolling Mills company; Miss Marion Dickerman,

principal of Todhunter school, New York, and William Ellison Chalmers, assistant American labor commissioner in Geneva.
Louis K.O.'s Schmeling
JOE LOUIS of Detroit, the "Brown Bomber," stands the undisputed heavyweight champion of the world. His amazing victory over Max Schmeling of Germany in the Yankee stadium at New York gave him that status. In less than one round the challenger was hammered to the floor three times by the crashing blows of Louis, and his seconds threw the towel into the ring, for the German was quite helpless. The referee declared Louis the winner by a technical knockout.
 The loser said his defeat was caused by a blow over the kidney. X-ray examination of the German after the battle showed a projection from a vertebra was broken. The blow was not a foul for it was not struck in a clinch.
 Eighty thousand persons witnessed this epochal battle, the shortest heavyweight championship bout in history. Louis got 40 per cent of the gate and 20 per cent went to Schmeling.

Charming Midsummer Styles

THE play suit is practically guaranteed to give slim young things a good time at the beach or in the country, because it's so gay and so flattering. And the 3 1/2 yards of 39-inch material for the cape-skirt; 3 yards for the play suit. Head kerchief takes 1/2 yard.

1532 is designed for sizes 36, 38, 40, 42, 44, 46, 48, 50 and 52. Size 38 requires 4 1/2 yards of 39-inch material for short sleeves; 5 1/4 yards for three-quarter sleeves.

Success in Sewing.
 Success in sewing, like success in any other field, depends upon how you approach the task in hand. To help you turn out clothes professional looking in every detail, we have a book which plainly sets forth the simple rules of home dressmaking. The beginner will find every step in making a dress clearly outlined and illustrated within its covers. For the experienced sewer there are many helpful hints and suggestions for sewing short cuts. Send 15 cents (in coins) today for your copy of SUCCESS IN SEWING, a book every home dressmaker will find of value.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

Chair or Buffet Set In Filet Crochet

Pattern 6091
 Distinctive — this easily crocheted set, its picturesque motif and initial set off by lacy K-stitch. Excellent for scarf-ends, too! Pattern 6091 contains charts and directions for making the set and 3 1/2 by 5 inch alphabet; illustration of stitches; materials needed.

To obtain this pattern, send 15 cents in stamps or coins (coins preferred) to The Sewing Circle, Household Arts Dept., 259 W. 14th St., New York, N. Y.
 Please write your name, address and pattern number plainly.

Latin American Cities

Tegucigalpa, Honduras, with 40,000 inhabitants, and Buenos Aires, Argentina, with 2,290,788 inhabitants are the smallest and the largest capital cities in Latin America.

UNA and INA at Cousin Kate's Wedding...

"There's the Doorbell Again"
 SUPPOSE daily to your door came the butcher, the grocer, the clothier, the furrier, the furniture man, and every other merchant with whom you deal? What a tedium of doorbell answering that would mean!

● It would be even more impractical for you to visit daily all these stores to find out what they have to offer and the price. And yet you need those merchants' service quite as much as they need your patronage. Contact between seller and consumer is essential in the supplying of human needs. Before a sale can be closed the goods must be offered. Every week, through the advertising columns of this newspaper, the merchants of this city come to your home with their choicest wares. Easily, quickly, you get the news of all that is worth while in the market-places of the world.
 ● They are not strangers at the door, but merchants you know and trust. You are surer of high quality and fair price when you buy an article advertised by a reputable firm.

Toast to a Woman

Here's to the woman who has a smile for every joy, a tear for every sorrow, a consolation for every grief, an excuse for every fault, a prayer for every misfortune, an encouragement for every hope.—Sainte Faix.

NO MORE SLOUCHING

Professor Charles Muntz's "Nulife" "tor-turite" shoulder brace instantly straightens a rounded shoulder, compels deep breathing, relieves fatigue and expands the chest. It is so comfortable that you completely forget you have it on.
 Just draw a Nulife brace and Nulife does the rest. It makes you stand, sit, and walk correctly, gives you a strong, erect appearance. Regardless of your age, weight, size, or present condition, Nulife instantly gives benefit to the old and improvement to the young. Weighs about an ounce.

Washable, sanitary, and soft, Nulife is the tested and approved method of straightening up slouched posture. It has been acknowledged by the public for many years. Sizes for men, women, and children.
 Don't put off correcting the slovenly appearance that slouched shoulders always give. The size of your waist regulates the state of your health. Reduce your waist instantly by several inches without any pressure by firming the spine, unstraining the abdomen, and relieving internal pressure. Nulife belt puts you in good form, by slenderizing the waist line. Professor Charles Muntz's Abdo-Vibro Abdominal Belt is the tested and approved method of straightening up slouched posture. It has been acknowledged by the public for many years. Sizes for men, women, and children.
 Enclosed find money order for \$5.

CHAPTER IX—Continued

"What has Lou got to do with it?" Howard asked. "He's one of the gang that did this. We caught him. He's our prisoner now. A hostage, you might say. If anything happens to Miss Ruth, it's all off with him."

"What d'you mean, he's one of the gang that did this? Lou doesn't go around carrying girls up into the hills, if that's what happened, though so far I can't make head or tail of it." Howard looked reproachfully at the L C man. "You hadn't ought to talk that wild, lawless way, Dan. About stringing up Lou, and crazy talk like that. Be reasonable. First off, tell us the story. Begin at the beginning. Let's hear what happened."

more than you do," Howard cut back sharply. "And I won't have you saying I do, Dan. There's one thing more I'll say. My boy Lou isn't in this. If you—or Lee—or any of his riders—do that boy any harm, I'll never quit till I've cleaned up the whole Chiswick nest. You can put that in your pipe and smoke it."

"All I'm saying is that you'd better find Miss Ruth and get her home," Brand replied, frowning at him. The foreman turned and strode out of the room. "Is it your idea to throw down on Morg?"

Jeff Gray had to fight down an impulse to hurry. It would be folly to wear out the horses getting to that Kansas had sent them on a wild-goose chase. After all, the man was one of the gang. What more likely than that, under instruction of Norris, he had been trying to direct the pursuit in the wrong direction when he freed Nelly?

"Much farther?" Gray asked once, his mouth set to a grim straight slit. "Not so far," Sorley answered. "That's Crowfoot over to the left. We're swingin' round it now."

and cold. "One of them stayed here," He pointed at the still body. A pulse of excitement hammered in the scrawny throat of the linerider. "Beggory, you're right. There has been a fight, and one of them got killed."

The younger man differed. "Not a fight, but a murder. For some reason Norris made up his mind to get rid of Kansas. He did so, and then lit out. I'm going down."

"Where is Wild Horse basin?" Sorley pointed to the north. "Up in the high hills, back thataway. Say, how would the girl know where he was heading for?"

"Yes, I have a hunch the girl did that writing. Morg never would have thought of it." Sorley looked down at the dead man. "I hate not to bury him before we go, even if he was a scawleg. But we've got to jump. It will be night soon."

A new ice age, the third, in geologic history, is being indicated by measured risings of parts of the eastern hemisphere, according to Prof. F. X. Schaffer of the University of Vienna, writes a Berkeley, Calif., United Press correspondent.

lifting its crest into a sky of violet haze. Behind a crotch of the hills the sun was setting. Already dusk had softened the vivid tints of orange and scarlet to a faint pink glow. Night soon would sift down upon the highlands.

The pursuers dropped down into the basin, came to a little stream tumbling down through the rocks. Sorley pulled up his horse. "No use going any farther," he said. "Got to wait till we can see. All we'd do is get lost if we kept traveling."

Gray read the despondency in the old linerider's voice. He understood it because his own heart was sick. What Pat said was true. They might as well throw off and make camp. "There's one thing," he said. "If they came here, Norris would camp on a creek. Maybe on this one, since it's the first he would come to in the basin. You fix up something to eat while I drift up along the bank for a ways."

Norris rose, stretched himself, and yawned, his arms above his head. The man's evil smile looked down on her. He opened his mouth to speak, but words were frozen on his lips. From out of the brush came a chill crisp order.

Oysters are prolific. The Atlantic coast species spawn five or six times during the season—from May to August. An oyster may discharge as many as one-half billion eggs in a season. Only a few survive. Less than one per cent hatch and reach maturity. The eggs hatch and the young begin to swim in a few hours. At the end of the day they form a bivalve shell, then attach themselves permanently to rocks or other submerged objects. They feed on microscopic water life and grow rapidly.

He pushed through the brush for half a mile.

Morg to get him. You had better get you a horse and trail along with one of the posses. You'll find it's doggoned good insurance against a few years in the pen at Yuma."

CHAPTER X

Jeff Gray had to fight down an impulse to hurry. It would be folly to wear out the horses getting to that Kansas had sent them on a wild-goose chase. After all, the man was one of the gang. What more likely than that, under instruction of Norris, he had been trying to direct the pursuit in the wrong direction when he freed Nelly?

With a heavy heart Jeff admitted to himself that this was very likely a job that could not be done in a hurry. He might have to sleep on Norris' trail for a week. The fellow knew every pocket in these hills. If Kansas were false-carding, they might not find the outlaws at all.

WHAT TO EAT and WHY

C. Houston Goudiss Discusses

CALCIUM

The Captain of the Minerals

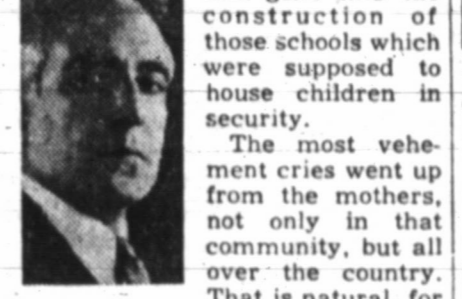

Nationally Known Food Authority Explains How to Include This Vital Food Element in the Daily Diet

By C. HOUSTON GOUDISS

6 East 39th Street, New York City.

A FEW years ago there was an earthquake in the Far West. When the tremors were over, the frightened people looked in dismay upon the damage that had been done. In some places they were saddened by the loss of a great number of their buildings, and in one community, mingled with their sorrow—almost crowding it out of their emotions—was indignation ANGER.

On every side, the cry of indignation arose. It was all too plain that poor materials had gone into the construction of those schools which were supposed to house children in security.

The most vehement cries went up from the mothers, not only in that community, but all over the country. That is natural, for all mothers believe they have the children's welfare at heart. Unwittingly, however, they may be doing them irreparable harm by failing to feed them the foods that will construct sound bodies, able to withstand the stress and strain of life.

Calcium Starvation

The mineral calcium is to the human body what steel and stone are to a building. It is necessary to construct the bony framework. The mother who fails to consume adequate calcium before her baby is born, or fails to give the child adequate calcium throughout the growing years, is as guilty as the contractor who constructs a school building of poor materials.

Without sufficient calcium, the bones become soft and porous. They break easily and knit slowly after they are broken. They may bend and twist during growth, so that the child who is a victim of calcium deficiency may become bow-legged and deformed, with a malformed chest or enlarged forehead. Rickets—that horrible deficiency disease which causes stunted mis-shapen bodies—may develop. And so may tetany—an other scourge of childhood.

Crooked Defective Teeth

The teeth, too, depend upon calcium for the soundness of their structure. When this precious mineral is inadequately provided, the baby teeth may soon decay; the permanent teeth may come in crowded and unsightly—and quickly develop cavities.

Adults Require Calcium

Adults have a vital need for calcium. A lack of this mineral not only results in defective teeth, but may also be responsible for nervousness, quivering and twitching of the muscles and defective heart action.

Send for This Free Chart

Showing Iodine Content of Various Foods

You are invited to write C. Houston Goudiss for a chart showing the foods rich in iodine and those which are poor in this substance. It will serve as a valuable guide in preparing balanced menus.

You Need This Free List of FOODS RICH IN CALCIUM

Write to C. Houston Goudiss, 6 East 39th Street, New York City, for his list of calcium-rich foods. Use it daily as a guide in planning family menus.

must eventually become, the ordeal of birth would be too difficult for both mother and child.

Easily Lost From Body

The homemaker's task of providing adequate calcium is complicated by the fact that the body loses large amounts of calcium every day, and this loss is greater during sickness, especially in fever or when one is worried, overworked or has taken too strenuous exercise.

Outstanding nutritionists unanimously agree that the American diet is more deficient in calcium than in any other element. And it is squarely up to the mothers and homemakers to correct this tragic state of affairs, which is undermining their own efficiency and threatening the present health and future happiness of their children.

How to Obtain Calcium

Milk is an outstanding source of calcium. That is why it should form the cornerstone of every balanced diet. Cheese, which is milk in concentrated form, is likewise notable in this respect, and one and one-fourth ounces of American Cheddar cheese are the approximate equivalent of an eight-ounce glass of milk. Leaf and stem vegetables are richer in calcium than other vegetables or fruits, but while their calcium has been found to be well-absorbed by adults, it is not so readily available to children.

Among the vegetables, however, there is a wide variation, turnip tops and dandelion greens providing unusually large amounts.

List of Calcium-Rich Foods

I have prepared a list of foods rich in calcium which I shall gladly send to homemakers upon request. I urge every woman to write for this list and use it in planning the daily diet of herself, her husband and children.

You really need such a list in order to avoid the grave consequences of calcium deficiency, for so many of our common foods are calcium poor that it is possible for a diet to be abundant and varied, and still be inadequate in respect to calcium.

The list of calcium-containing foods will help you do a perfect job of building strong, fine bodies for your children. There is no joy like the joy of creating perfect, healthy children. The architect and the sculptor stand in awe before the realization of their dreams. But you, the mothers of children, the builders of their bodies, you are the mightiest of all. A diet adequate in calcium, for you and your children, will help you build beautifully, wisely and well. Your reward will be the joy, the pride, the heart-warming satisfaction of having accomplished a worthwhile purpose.

Questions Answered

Mrs. F. R. T.—There is no such thing as a specific brain food, but nutritionists are convinced that the quality and efficiency of the functioning of the mind depends partially on the character of the food consumed. Mental efficiency appears to be influenced by the quantity and quality of the protein in the diet, and it has been demonstrated that the vegetable proteins, including cheese, milk and eggs are superior in biological value.

C. J. K.—It is a fallacy to assume that garlic is a blood purifier. Garlic improves the taste of food for those who like it, but it cannot be considered to possess special health properties.

Geologist Sees Third Ice Age in Next Two Thousand Years' Period

A new ice age, the third, in geologic history, is being indicated by measured risings of parts of the eastern hemisphere, according to Prof. F. X. Schaffer of the University of Vienna, writes a Berkeley, Calif., United Press correspondent.

Dr. Schaffer, who is an internationally known geologist, said that exhaustive measurements taken at Stockholm show that in the last 50 years Sweden has risen about eight inches, while similar measurements in Finland show that that country has risen 10 inches in 34 years.

"An increase in the altitude of a continent," declared Schaffer, "or even a portion of a continent by approximately 600 feet lowers the annual average temperature by one degree, centigrade. We know that a decrease in the present temperature of Scandinavia by about three degrees centigrade would start a glaciation in Europe as big as that of the Quarternary, in which period the last ice age took place."

"During the last period of glaciation ice covered one-fourth to one-fifth of the present area of continents. Before that time man had appeared on the eastern hemisphere and he moved south ahead of the

LET THE CANDIDATES ANSWER

The Fort Worth Star-Telegram Sunday carried an editorial setting out facts and conclusions that every voter in Texas should ponder.

"Most of the State, district and legislative candidates," says the Star-Telegram, "are committing themselves unqualifiedly to liberalization of pensions and to greater governmental economy as a saving to the taxpayers without explaining exactly how they will reconcile these two promises that lead in opposite directions. It is no more than fair that a candidate for office tell the voter, who is also a taxpayer, definitely how he would increase public expenditures through more and larger pensions while at the same time lowering taxes, or even maintaining taxes at their present level."

The Star-Telegram then recites that according to the comptroller's annual report, the State had total revenue receipts for the year 1937 amounting to \$154,120,021. Of this amount, highways took \$53,194,207, or as we figure it, 34.51 cents of the State's Dollar. Schools took \$44,804,271, or 29.07 cents of the State's Dollar. Pensions required \$20,519,716, or 13.31 cents of the State's Dollar. These three items alone took 76.89 cents of the State's dollar, leaving only 23 cents for all other state purposes.

Of this 23 cents, 5.33 cents were required for maintenance of the state eleemosynary and correctional institutions. Only 2.33 cents were required for administrative and executive purposes, and only 1.42 cents for the courts. There is little to this howl therefore about the courts and the administration of our various boards and commissions being expensive. Little could be saved there.

Other portions of the State's dollar are parceled out to debt servicing, public health and other departments, which are already notoriously low, the Star-Telegram points out.

Call 137 for pickup and delivery
MRS F. L. PRATER
North of Grade School

How then can pensions be increased without increasing taxes? Would the pension howlers take the money away from the schools? Would they curtail highway construction? How are they going to get the money?

When you hear a candidate promising to increase pensions by millions of dollars and at the same time cut-down your taxes, ask him how he is going to do it.

A saving of a few hundred thousand dollars here and there, in fact a saving of the entire amount we are paying out to boards and commissions, would be only a drop in the bucket as compared with the vast sums that would be required to pay everybody over 65 years of age a pension of \$30.00 per month, half of it to come out of the state treasury, or even to pay this full amount to each of the pensioners now on the rolls.

When you hear a candidate making these wild pension promises and declaring at the same time he will reduce taxes, just write him down as either an ignoramus or a demagogue.

Two and two make four, and only four; you can't make six or eight out of it.

President Roosevelt put the country on notice Friday night in his "fireside chat" that he expects to take part in the Senatorial and Congressional campaigns in some of the states. He indicated that he would make no fight on a Senator or a Congressman who had opposed him on only one issue, but those who have consistently opposed a number of his proposals may look out. He divided both the old parties into two groups, the "liberals" and the "conservatives", and he appealed to all the "liberals" for help regardless of their present party affiliation. Some political writers are construing this to mean that he hopes to bring about a new alignment in party organization by 1940, enlisting the "liberals" of all parties under his banner and driving all the "conservatives" into another party. If so, he has undertaken a herculean task. A gigantic struggle within the Democratic party itself seems to be impending.

We have no fault to find with anybody for supporting any candidate "he pleases for lieutenant governor, but we wish to call attention to the fact that some of those in this state who are most active in behalf of Coke Stevenson have always been in favor of race horse gambling and of the open saloon. There is no doubt but that a fight will be made in the next legislature for the return of both these institutions, and those favoring their return feel, no doubt, that their best bet lies in the election of Mr. Stevenson.

The candidate who wants to pay a pension to everybody is not the friend of the man or woman who really needs pensions. Those who would dissipate the pension funds by paying millions of dollars to persons who are wealthy or are in good circumstances are thereby robbing the needy of the funds intended for them. The News is strong for liberal pensions for the needy, and it is just as strong against the squandering of these funds on people who are not needy. Isn't that just and right?

BOOTS, SPURS AND CHAPS

(Terry County Herald)

Two or three weeks ago, we made a little comment about an article or articles written by neighboring editors, about the awe inspiring sandstorms, and chose to differ a bit with some, who thought that Great Jehovah got out bridle and saddle, his spurs, boots and chaps every time a cloud came up and rode around over the country smashing things in general, and maybe next day bring out His sunshine and a gentle breeze. Well that little article certainly brought E. I. Hill of the Lynn County News out of his usual placidity, and made him a hell roaring weather prophet and a Bible student all in one, but before he finished his long winded article of some two columns, he shelled down the corn with the statement "figuratively speaking." OK Hill, that suits us as the Bible uses many figures of speech through the old and the new testament. For instance, Christ is referred to as both a lion and a lamb and many other ways, describing his many characteristics.

But here is the conclusion of the whole matter. When the God of heaven finished the sun, moon, stars and the earth, he had not finished a mere human task, when he flung them into space, and brought precision, beauty and symmetry out of chaos. They were not built on a "T-M" Model bases. They never have to be refilled with gasoline, or have a tire pumped up, water in the radiator, or even a greasing to make them spin into space without interfering in the least with the travels of other planets. So far as scientists know the north and south poles have always been cold, and the tropics hot. There has always been some sections of deserts, and some with swampy conditions. The former has from almost nothing to just a few inches of rainfall a year, while some portions of India has as much as 150 inches of rainfall annually. If God is literally riding around tinkering with the natural laws which he made perfect, why don't he occasionally change the deserts into swamps and vice versa? Why does lightning seek a sharp steepled building to strike more often than a flat roof? Just one of the immortal laws of nature.

Way back some 500 years ago, the Psalmist said: "The law of the Lord is perfect, converting the soul." Like at the beginning when the Maker brought into existence the planets, the new testament Christianity had to be brought in by miracle, and Christ's apostles were allowed unlimited power from on high to do them. But, we have people on earth today that says they can do anything the apostles did, when Paul plainly said miraculous things would pass and did pass with the written New Testament to guide them into all truth. Indeed we have people today who say the doctrine of Christ and the Apostles is out of date and they add to and take from to suit themselves. We maintain that God's laws for the human race is like his law of nature, unchangeable. It is a fact that the Chinese by cutting the timber off the mountain sides of that downtrodden country, has released rather than retarded water rushing down into the Yellow and other rivers, thus creating frequent floods. But we don't hold God responsible for the silly acts of man.

Mr. Hill, you and this writer moved to this section knowing full well that around 20 inches of rain on an average was all we would get here, no matter how much we bellowed and prayed over the matter. If we went to north Texas, Oklahoma and Kansas, we should expect frequent tornadoes. Yes, sir, old friend, the old world is pretty much like the Master made it in the beginning. It never busts a mainspring, nor blows out a tire.

Yes, sir, Editor Hill, we agree that God is the author of the laws of nature. He made male and female, and the ladies still bear the children same as in the beginning. Never been a change. And we prefer to believe Him a perfect Maker. Not an off again, on again, gone again, Flanagan kind of God.

Ed. Note: Because of the length of the above editorial, we will reserve our comment thereon until next week.

The minister certainly has a task these days. He is compelled to compete with the automobile and numerous places and kinds of amusement. If he can get a respectable number of young people or older people either to attend the services of the church, especially the night services, he is a remarkable success. A "father-and-son" service was held at the Baptist Church Sunday night, but not too many fathers and only a few sons were present. We often wonder what church attendance will amount to on the part of the next generation after this.

A NEW LIGHT IN THE HEAVENS

W. Lee O'Daniels is a new light that has flashed into the political heavens. He blazed forth so suddenly as to startle all the old-time politicians, and we believe he was a bit surprised himself.

Whether this light will wane and fade away before the primary election or will continue to grow brighter has all the political prognosticators guessing. It now looks as if he might get in the run-off.

If he gets in the run-off, he might be the next governor; who knows? If he becomes governor, it will be impossible, of course, for him to make good on his major promises. Of course he would not be a great governor, but we have had governors before who were not great.

He has advanced one idea, moreover, that if carried out would either help him to be a better governor than he otherwise could be or it would result in his becoming somebody's tool. He proposes, if elected, to select a cabinet, with whom he might counsel and advise. Of course this could only be an unofficial cabinet, for whatever Mr. O'Daniels' half-baked ideas about the matter may be, neither the law nor the Constitution of this state makes provisions for any such body. This cabinet would be of his own choosing and would be unpaid.

If the body should consist of wise and unselfish individuals and they could agree among themselves on policies, they might help the governor a great deal. If some one individual of the group should have an axe to grind and should be strong enough to dominate the others and the governor, he might make a mere stalking horse out of the occupant of the governor's mansion. In either event, O'Daniel would probably have little influence over the legislature, and that body has the responsibility of enacting, amending, and repealing laws, after all, subject to the governor's veto. The probabilities are that he would not be able to do much good, but with the veto power he might do considerable harm.

Anyway it's a strange light that we are seeing in the political heavens.

Ex-Senator Pink Parrish of Lubbock was here Monday working in the interest of Tom Hunter for governor.

Ample Funds Available At Low Cost

Crop and livestock production loans on a sound basis are available to members, also to farmers and stockmen eligible to become members of the Lubbock Production Credit Association of Lubbock. Interest is charged at the rate of 5% only for the time the money is actually used by the borrower.

Information will be given and applications accepted by Deen Nowlin, Local Representative, Tahoka, or by the home office at Lubbock.

Lubbock Production Credit Assn.

Lynn County

History

As Revealed by the Files of the Lynn County News of Friday, July 4, 1913.

"Five inch general rain for Lynn county. Commencing Sunday morning county gets steady down-pour for nearly 24 hours. 5.37 inches registered". "Reports from different parts of the county vary from three to six inches."

"Mr. and Mrs. Monk Eley left on the Wednesday morning train for their old home near Wheeling, Arkansas. Mr. and Mrs. Eley with their two children have been living with Mr. and Mrs. G. W. Snider for about a year, and liked the Plains all right but since it began to rain so much they became home sick and when Monk's feet had been wet for three weeks it was just simply more than he could resist."

From the Northeast Corner of the County

By Wm. M. (Pap) Moore

There was quite a little gathering at Mrs. Beulah Shaw's Sunday. There were present: Mr. and Mrs. D. H. Hatchett, Mr. and Mrs. E. N. Milliken and children, Mr. and Mrs. W. E. Emery and children, Mr. and Mrs. W. H. Robinson and children, and the off colors that were there were E. E. Emery and your humble servant, Mrs. Shaw had a splendid dinner and then E. N. Milliken ground out a freezer of ice cream in

the afternoon. This with some of Mrs. Shaw's cake was simply delicious.

Rev. J. R. Miller, of 12 miles north of Tahoka, brought in two buggy loads of extra nice flavored peaches this week.

Will Izard, of ten miles north of Tahoka, phoned in to the News today that his cotton has fully opened blooms on it.

Six silos for Terry County unloaded here.

The following party left yesterday in Autos, enroute for Littlefield, on the Coleman-Cutoff west of Lubbock, to spend the glorious fourth: Paul Miller, Joe Stokes, J. H. Edwards, Geo. Small, Geo. Shumake Tom Preston, J. B. Burleson, G. E. Lockhart, Ira Doak, Dee Rogers, and Marcus Edwards.

Mrs. J. V. Randolph and children, of Moran, who have been visiting Mrs. Randolph's brother County Clerk, J. W. Elliott, left for their home on the Tuesday morning train accompanied by Grandma, Mrs. P. E. Elliott.

Eastland is planning to stage a big horned frog derby at its Fourth of July celebration next Monday. It is said that 500 frogs will be entered in the contest. Eastland gained much notoriety a number of years ago by a live horned frog being taken from the corner stone of the court house when it was torn down, according to the story told by "eye witnesses". "Old Rip" is now dead, however, and will not be present at next Monday's show.

Little Nancy Ray Weathers of Tahoka came last Wednesday night for a visit with her aunt, Mrs. O. P. Rutledge and family while her parents, Mr. and Mrs. R. P. Weathers are in California to attend the Rotary convention. — Floydada Hesperian.

Many Farmers Have No Cows

College Station, June 22.—Almost one-fourth, or 121,000 of Texas' farm families, have no milk cows, according to E. R. Eudaly, dairy man of the Texas A. & M. College Extension Service.

This means, the dairyman pointed out, that Texas needs an additional quarter million dairy cows if farm families are to have sufficient milk for home needs, and also that dairy production for home use can expand considerably in Texas and in the South in general without competing with commercial dairy areas.

Eudaly based his statement on census figures and estimates of the Bureau of Agricultural Economics which show that 24.2 percent of Texas farm families do not have a milk cow and that over the 12 Southern states as a whole, only 71 percent of the farm families keep cows for milk.

There is an average of only 2 milk cows per farm over the cotton belt as a whole as compared to an average of nearly 4 for all farms in the United States and more than 16 per farm in Wisconsin. Texas, with an average of 3.2 cows per farm, leads all the cotton belt states except Oklahoma in this respect.

The dairyman does not believe that AAA programs tend to force cotton farmers into dairying in competition with commercial dairying centers. "There were 5,562,000 dairy cows in the 12 principal cotton producing states in 1932, before the AAA," he said. "On January 1, 1938, there were 5,896,000 an increase of 334,000 milk cows. This is an average increase of 30,000 dairy cows per state, or an average increase per state of 5,000 for each year since the AAA came into existence.

"Nutritional specialists of the Extension Service tells me that the average farm family of five needs two good milk cows for home use. Thus in Texas alone we could add 242,000 dairy cows without increasing our commercial output to any noticeable extent."

Mr. and Mrs. John Cox and daughter Margaret of Houston left for their home Tuesday after a day's visit here with his parents, Mr. and Mrs. S. L. Cox, and his sister and family, Mrs. Jim Wetzel.

EDITORIALS CONTINUED

CLEVELAND VETOED RELIEF LEGISLATION

It is a far cry from the democracy of Grover Cleveland to that of Franklin D. Roosevelt.

There was a devastating drought in Texas in 1887. The farmers of West Texas in particular were hard hit. Congressman Samuel W. T. Lanham of Weatherford, afterwards governor of Texas, introduced a bill to authorize the distribution of free planting seeds among the farmers in the drought-stricken areas. It was passed by both the House and the Senate and went to the President for his approval or disapproval.

President Cleveland vetoed the measure. In his message he said:

"I can find no warrant for such an appropriation in the Constitution, and I do not believe that the power and duty of the general government ought to be extended for the relief of individual suffering which is in no manner related to the public service or benefit. A prevalent tendency to disregard the limited mission and power of this duty should, I think, be steadfastly resisted to the end that the lesson should constantly be enforced that though the people support the Government, the Government should not support the people."

That may be a cold-blooded view, but there can be no doubt but that it was in accord with the original spirit and intent of the Constitution and lucidly expressed the time-honored position of the Democratic party respecting the Constitution and the limited power of the Federal Government.

The Roosevelt view is more humanitarian but less true to the Constitution.

Colonel Thompson and General McCraw have both come out in favor of an adequate publication law for Texas. This sounds good to the newspaper men of Texas. With the single exception of Arkansas, Texas has the poorest publication law of any state in the union. Tax gathering agencies may collect taxes, or fail to collect taxes; may spend the people's money and report on this expenditure, or fail to report on the expenditure; may do almost anything else that they please without making a report. The newspapers and many citizens believe that reports should be published by all governmental agencies, especially of all delinquent taxes; of all receipts and expenditures. The amount necessary to publish these reports is very small as compared to the good the reports will be to the public.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

Lesson for July 3

A CHOICE OF LOYALTIES

LESSON TEXT—Joshua 1:2-6; 24:14-21. GOLDEN TEXT—As for me and my house, we will serve the Lord. Joshua 24:15.

"Lives of great men all remind us," according to the poet, that we too may make our lives sublime, and thus leave our footprints in the shifting sands of time.

During the next three months we are to share in the study of the life stories of great men and women which will not only stimulate ambitions, but which also reveal what God can do through those who are ready to follow Him.

Moses, God's great leader for Israel, having brought them out of the land of bondage and through the terrible wilderness, is about to leave them. God's workman is about to die, but His work is to go on. God is not taken by surprise.

I. A Prepared Man Takes Command (1:3-6).

"Moses is dead; now therefore arise." Life is like that. "The king is dead; long live the king," is the cry of those who live under monarchies, as one ruler dies and his successor takes over the throne.

1. Promise (vv. 2-4). God gave the land to Israel. Every place that Joshua planted his foot upon was to be his possession, even as God has promised Moses. A river lay between; there were walled and armed cities to be taken; there were even giants in the land, but God promised it to Joshua; and he took it by faith.

God has given us many promises, too. If we are fearful, poverty-stricken, powerless Christians, it is because we do not believe God.

2. Power (v. 5). No man is able to stand against God's servant who is doing God's will, in God's way, in God's time. It was true of Joshua; it is true today. Men set up their opposition to God's plan and program with the assumed belief that because they have position, power, or money, they can readily crush the poor little band of Christian workers. Russia tried it. They even "abolished" God. But religion thrives in Russia, secretly perhaps, but none the less sincerely and successfully.

3. Courage (v. 6). To serve God means to be assured of His help. Faith lays hold of that fact and the whole man becomes courageous.

II. An Experienced Man Gives Counsel (24:14-21).

More than two decades have passed since the appointment of Joshua to lead Israel. God has fulfilled every promise. Israel is in the Promised Land. Before the aged leader dies he calls the leaders of his people together to urge them to continue in the way of faith and loyalty to God. This he does by:

1. Example (v. 15). "As for me and my house, we will serve the Lord." No man can honestly and effectively call others to devotion to the Lord unless he sets them an example.

2. Instruction (vv. 16-19). Remembering God's dealings with them, the people declare their determination to serve the Lord. They spoke rather glibly. Joshua instructs them. God is not interested in lip service. He does not need them so much as they need Him. He does not look upon their confession of Him, if they continue to live in sin.

3. Warning (v. 20). God will visit His judgment on His people if they forsake Him and turn away—such is Joshua's warning. We who look back to the history of Israel know that they did forsake Him, and that the judgment of God is still upon them. "Be not deceived; God is not mocked; for whatsoever a man soweth, that shall he also reap" (Gal. 6:7) is God's warning through Paul to the Christian.

Be a Torch-Bearer The poorest can be God's torch-bearer as well as the richest. The little candle may do more good in the world than the flaming beacon.

Giving Up Faults Most people do not mind their faults being spread out before them. But they become impatient if called upon to give them up.—Goethe.

Living He lives long that lives well, and time misspent is not lived, but lost.

Farm Champions on the Air

AMONG the Champion Farmers of America who are being featured on Firestone's series of 26 "Voice of the Farm" programs, is this representative group of leading crop growers and stock raisers. Each program in the series presents a farm champion in an interview with Everett Mitchell, popular farm commentator who has been heard on the National Farm and Home Hour for the last eight years. Each champion tells the fact story of his climb to championship rating in his particular branch of farm operation.

Top from left—Albert Schroe-

der, pioneer user of rubber tractor tires; Sarah-Ann and John Tolan, champion Aberdeen-Angus breeders; Darwin Neal, champion poultry raiser; Paul Fisher, champion hog producer. Lower row—L. E. Mathers, champion Shorthorn breeder; Harry L. Chadwick, potato champion; Adolph Pirani, champion cotton grower; Ralph L. Heilman, champion corn grower; Paul Stiefboldt, plowing champion.

Many a man has the wolf at his door because his wife will have a silver-fox round her neck!

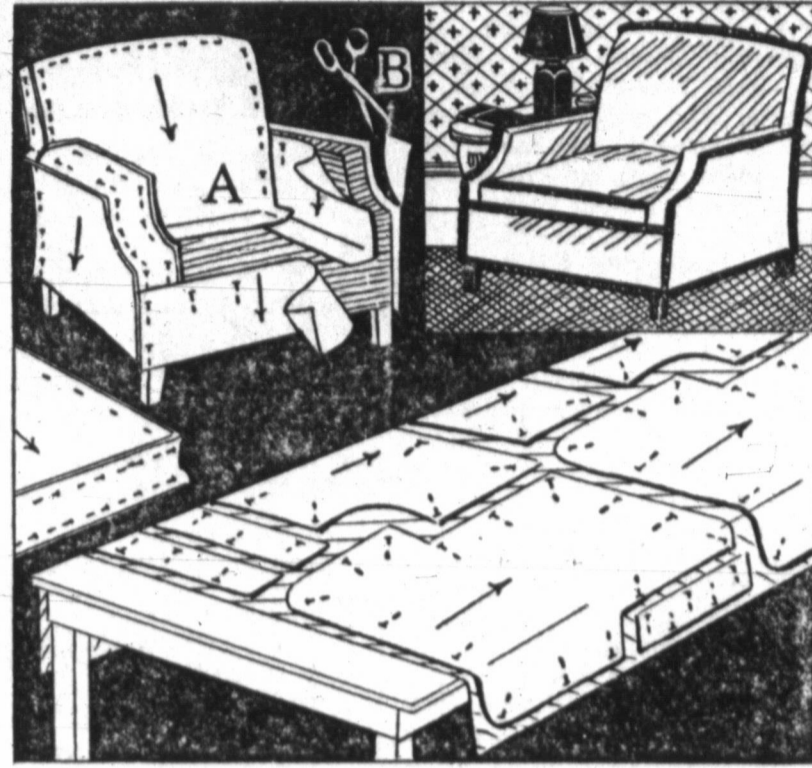

When you're in a jam, it's soon spread all over the place.

Paradox: It's only when a man comes clean that he spills the dirt.

Buckingham Fountain

The Buckingham Memorial fountain is the gift of the late Miss Kate Buckingham of Chicago, art patron, in memory of her brother, Clarence, a former trustee and benefactor of the Art Institute of Chicago. The fountain cost \$1,000,000 and is set in a garden 600 feet square with three basins rising in a central pool surrounded by four minor pools. When in full play the fountain flows about 5,500 gallons of water a minute, one column rising to a height of 75 feet. It is beautifully illuminated at night in five different colors.

HOW TO SEW
by Ruth Wyeth Spears

Make a Pattern for a Slip Cover

THE most economical way to cut a slip cover is to make a pattern first. Do this before you buy the material, then fold several bed sheets the width of the fabric you wish to buy, and lay the pattern pieces on them to estimate the amount of goods needed.

Some of the pattern pieces may be made of paper, though unbleached muslin is better for parts that must be fitted. Allow 1 inch at all seam lines to insure an easy fit, and 3 inches for a tuck-in all

around the spring seat as shown here at A. Cut the sections with straight edges, then pin them in place and shape them to follow the lines of the chair as at B. Also mark each pattern piece with an arrow, as shown, to indicate which way the grain of the goods should run. The lower sketch shows the pattern pieces pinned on the slip cover material. Brush fringe accents the main lines of this slip cover. The top of the fringe is stitched in place at the same time the seams are sewn.

NOTE: Every homemaker should have a copy of Mrs. Spears' book SEWING, for the Home Decorator. It contains forty-eight pages of step-by-step directions for making slip covers and curtains; also dressing tables; lampshades and other useful articles for the home. Price 25 cents postpaid (coin preferred). Address Mrs. Spears, 210 S. Desplains St. Chicago, Ill.

Glass Train

With the exception of the roof, the exterior of a train made in England is all of glass and more than 120,000 pieces of a special type were used to construct it. In the interior are glass floors and walls, a glass bathroom and pictures made of glass. The train was constructed by a Lancashire (England) firm of glassmakers to advertise its products.

ASK ME ANOTHER ?

A Quiz With Answers Offering Information on Various Subjects

- The Questions**
1. Who was the first President to speak over the radio?
 2. What are the primary human emotions?
 3. What state has existed under six flags?
 4. What six were they?
 5. How big is the largest parachute?
 6. From whom did we derive the custom of handclapping?
 7. In what city in the United States do the people scrub the streets for special occasions?
 8. How did the United States acquire New Mexico?
 9. What was the Gadsden purchase?
 10. Where is the Baseball Hall of Fame?

9. An addition cession forming part of New Mexico and Arizona, for which the United States paid \$10,000,000 to settle a boundary dispute.
10. Baseball's Hall of Fame is a colonial building at Cooperstown, N. Y., where Abner Doubleday first introduced the game. Bronze plaques, representing the immortals of the game, are placed in the hall, which was created in 1935, largely through the efforts of Ford Frick, president of the National league.

- The Answers**
1. Warren G. Harding first broadcast over the radio in 1923.
 2. Fear, anger, and love.
 3. Texas.
 4. The Spanish, French, Mexican, its own, Confederate and the United States flags.
 5. The largest parachute ever made was 90 feet in diameter and contained 1,000 yards of pure silk.
 6. The Romans.
 7. The people of Holland, Mich., scrub the streets in preparation for their annual tulip festival.
 8. By cession from Mexico, most of it by conquest in the Mexican war.

400 PIONEERS ATTENDED REUNION FRIDAY

(Continued on back page) and Mrs. O. G. Kershner of Lubbock; Mrs. Lola Donaldson Thomas of McAllen; Norvel Redwine of the north plains; Mrs. Pearl Davis, Shallowater; Mr. and Mrs. J. P. Manley of Post; Mr. and Mrs. W. A. Guinn and Mr. and Mrs. Billy Sanders of Tatum, New Mexico; Mrs. Faye George Wigginton of Lubbock; Mr. and Mrs. Joe Baldridge of Lubbock; Mr. and Mrs. Jack Blankenship of Brownfield; Ed Zedlitz of Borden county, and others.

A. M. Tredway of O'Donnell was awarded the prize as the oldest man present, being nearly 92 years of age; and Mrs. A. S. Coughran of Tahoka was the oldest woman, though we failed to get her age. It seems passing strange that a woman could win in a liar's contest, but at any rate first honors went to "Aunt Becky" Roberts. District Attorney Truett Smith placed second. Truett, doubtless, was not in a "lying" mood at the time. The collection of relics and of pictures taken in an early day which were displayed by Mrs. Tom Gardner attracted much attention and were the subject of much comment. Truett Smith was the principal speaker of the day, recalling in an interesting manner the hardships and the exciting experiences of the pioneers.

Mr. Morris and two sons of Dixie and P. M. Williams and two sons of Tokio furnished some peppy fiddle and other instrumental music, while Giles Shaw and Mrs. Jerene Shaw Swann did their stuff in a duet performance. J. W. Weathers, son of Sam Weathers, proved himself to be an artist with a French harp. Jim Weatherford was in his glory as he called for an old-time "square dance" staged as the last number of the program.

In addition to the instrumental music, there was a sing-song conducted by Giles Shaw and Kary Mathis of Lubbock, with Mrs. M. H. Edwards as piano accompanist. The entire musical program was under the direction of Mrs. Nettie Wells Edwards and Mrs. Era Small Stewart. Mrs. J. W. Elliott was general program chairman and presided in the afternoon while the program was being rendered.

At the business meeting in the forenoon, Thurman Wells of O'Donnell was elected president for the ensuing year, succeeding Waldo McLaurin of the same city. Walter May of Wilson was elected first vice president and D. M. Estes of O'Donnell second vice president. Mr. May succeeds himself while Mr. Estes takes the place of J. D. Donaldson of Tahoka. Truett Smith was chosen as secretary-treasurer, succeeding W. E. (Happy) Smith.

Friday night there was an old time square dance at the skating rink, with Jim Weatherford "calling the figures."

An even bigger and better reunion is already being planned for next year.

Mr. and Mrs. Sam Price, Mr. and Mrs. Daniel Davis, and Miss Peggy Woosley spent Sunday in Brownfield visiting relatives.

Political Announcements

The News is authorized to announce the following as candidates for the offices indicated, subject to the action of the Democratic primaries in July and August of this year:

For Governor:
Wm. McCRAW, of Dallas.

NEGRO DIES FROM PECULIAE ACCIDENT

(Continued from Page 1)

sanitarium an x-ray revealed that the left leg was broken just below the hip and below the knee and the right leg was broken above the knee. The flesh of the right leg was terribly mangled. The broken bones were immediately set and the patient seemed to be resting as well as could be expected under such circumstances until about four o'clock, when a change for the worse was noted, and at 4:10 the boy died.

Doctors, nurses, and attendants at the sanitarium are said to have given all the attention and aid that Medical skill could give to save the child's life but the injuries and the shock had been too great.

The heavy rain Friday night filled the lake at the G. C. Watson residence a few miles east of Tahoka and the water kept rising until it covered the floor of the house three or four inches deep. The Watsons moved out until the lake level sinks sufficiently for them to again occupy the house.

When You Feel Sluggish (Constipated)

Take a dose or two of Black-Draught. Feel fresh for a good day's work. Work seems easier, life pleasanter, when you are really well—free from the bad feelings and dullness often attending constipation. For nearly a century, Black-Draught has helped to bring prompt, refreshing relief from constipation. Thousands of men and women rely on it.

HARRY N. GRAVES
Who is a candidate for Judge of the Court of Criminal Appeals.

Mr. and Mrs. John M. Scott and Miss Ethel Calahan have as their guests two aunts and a cousin, Mrs. W. H. Vaughn of Dallas and Mrs. Josie Puckett of Hartzell, Alabama, aunts, and Miss Sue Jones of Dallas, a cousin. The three ladies accompanied Mr. and Mrs. Scott to Tahoka recently upon their return from a visit in Dallas and Fort Smith, Arkansas.

STATED MEETINGS of Tahoka Lodge No. 1041
the first Tuesday night
in each month at 8:30
Members urged to attend.
Visitors welcome.

Health-Wrecking Functional PAINS

Severe functional pains of menstruation, cramping spells and jangled nerves soon rob a woman of her natural, youthful freshness. PAIN lines in a woman's face too often grow into AGE lines!

Thousands of women have found it helpful to take Cardul. They say it seemed to ease their pains and they noticed an increase in their appetites and finally a strengthened resistance to the discomfort of monthly periods.

Try Cardul. Of course if it doesn't help you, see your doctor.

New Dormitory For Texas Tech

A new men's dormitory for Texas Techological College to cost \$350,000 is assured in dispatches just received from Washington notifying college authorities of the approval of application made in 1935 to the Public Works Administration. Of the total amount \$157,909 is in the form of a grant and \$193,000 loan.

A similar application is pending for funds to construct a dormitory for women, according to W. T. Gaston, college business manager, who is under authorization by the

board of trustees to direct procedure with the P. W. A. authorities.

The dormitory for men will house approximately 320 and will be of similar construction and materials as the present dormitories. An added feature of the new building will be a dining room lounge which is needed to avoid congestion in the halls before meal time. Also the front elevation will be somewhat higher and more decorative.

The new structure will be located just east of the present men's dormitory and will face College avenue.

Special Water Irrigation Rate**

Please Clip and Sign the Following Contract
This Special Irrigation Rate will be Effective on July Meter Reading

Cont. No. _____
SPECIAL IRRIGATION CONTRACT
Date _____

NAME _____
In consideration of the special rate granted herein for watering and beautifying my home lawns and gardens (other domestic use included), and not for commercial purposes, I hereby agree to pay the City of Tahoka the minimum service charge as set forth below on each monthly bill issued to me for water used from and after the June meter reading and to continue indefinitely, which minimum entitles me to the use of 10,000 gallons without extra charge, and I agree to pay for all additional water used at the rate set forth as follows:

First 10,000	\$2.50 Minimum
All over	15c per 1000 gal.

All charges to be subject to a ten per cent discount for payment within ten days from date of bill.
This contract is signed with the distinct understanding that the City Council reserves the right to discontinue this special irrigation rate at any time they deem it necessary. In case I wish to be taken off the irrigation rate, I agree to send or present to the City Secretary a written statement authorizing her to put me back on the regular water rate.

This contract does not cancel the contract I now have with the City of Tahoka for water service but supplements the same and is subject to all the ordinances and regulations of the City not in conflict herewith.

The Lynn County News

Volume XXXIV

Tahoka, Lynn County, Texas, Friday, July 1, 1938.

Number 46

Tahoka Businesses Will Close Monday, July 4th

Mail Change Is Effective Today

According to contract made by the Post Office Department several weeks ago the mail schedule into and out of Tahoka changed today.

No longer will the mails be transported into or out of Tahoka by train but all will be brought in and carried out by truck and bus.

The truck will arrive from Big Spring at 9:25 each morning, bringing all classes of mail. Truck will arrive from Lamesa at about 1:15 p. m. carrying first class mail only and will proceed from here to Lubbock, arriving there at 2 p. m.

The Big Spring truck will leave Tahoka for that city at 8 p. m. carrying all classes of mail, and will arrive there at 10:05 p. m.

The bus running between Tahoka and Post will continue to carry first class mail as heretofore.

There will be no mail of any class going directly from Tahoka to Wilson and Slaton nor from those places to Tahoka.

Probably we will like the new arrangement when we get used to it.

Good Crowd At Indian Program

A goodly crowd of Tahoka church people augmented by others from various neighboring communities gathered in the Methodist Church here at 3 o'clock last Monday afternoon to hear Rev. White Parker, Methodist minister and son of the noted Quanah Parker, relate his experiences among the Comanche Indians. He told of their customs and beliefs, sang Indian songs, and beat the Indian tom-tom.

He was accompanied by his cultured wife, who is a full-blood white, and their charming 13-year old daughter, Cynthia Ann II; also by Rev. A. E. Butterfield of Iowa Park, pioneer Methodist preacher, who has spent almost a life-time as a missionary among the descendants of the fierce tribes that in an earlier day often brought consternation to the white settlements by their hideous war-cry.

Mrs. Parker told the story of Cynthia Ann Parker and her son, Quanah. She also sang a solo while her daughter demonstrated the song in Indian sign language.

Rev. White Parker, three-fourths Indian, is himself a son of Quanah, the last chief of the fiercest of the tribes, the Comanches. He is thoroughly Christianized, however, and has done much for the conversion of other members of his race. His story and his discussion in the Church here Monday afternoon is said to have been most interesting.

The meeting was sponsored by the Woman's Missionary Society of the local Methodist Church.

Monday at noon the Parkers were guests of Mrs. Jack Alley at lunch. For two or three days previous they were guests of Mr. and Mrs. Ben Moore of O'Donnell.

Mr. Parker was very much interested in this section, since this was once the home of his father Chief Quanah Parker, and of his grandfather, Chief Nocona.

MRS. CLINTON ASKS DONATIONS FOR PROJECT

We are asking again for donations of discarded articles, such as furniture, shoes, hats, clothing, buttons, scraps, rags of all descriptions, clean or dirty. We renovate these articles and make them very attractive as well as useful.

We remodel the garments that are good. We make quilts and rugs from the worn ones and the new scraps. We make filling for pillows out of the tiny pieces. Nothing is wasted.

This is a county-wide project. The needy throughout the county will be benefited by it.

I want to thank all the churches in town and many individuals for their cooperation. Phone 34 or drop me a card. I will be glad to call and get any contribution.—Mrs. W. T. Clinton.

Post Office Will Close Monday

Uncle Sam will give his boys a holiday on July 4. The post office here will be closed all day long. In fact it will be closed from Saturday noon, July 2, to Tuesday morning, July 5.

Of course mail will be dispatched and the box mail will be placed in the boxes during this period of time, but the windows will not be open.

Harley Sadler Is Speaker Here

Harley Sadler, popular West Texas showman, spoke at the First National Bank corner Tuesday afternoon in the interest of his cousin, Jerry Sadler of Longview, who is a candidate for state railroad commissioner.

With Mr. Sadler were two members of his corps of entertainers, who gave a musical program preceding the speech. Both the program and speech apparently were greatly enjoyed by a crowd of men and women who had gathered to hear the address.

Harley very earnestly presented the cause of his kinsman. He charged that the monopolies are controlling the railroad commission and are fighting his cousin, Jerry, in this campaign. He read a telegram he had received from Jerry giving his position on the truck-load limit, pledging himself to do everything in his power to protect the interests of the farmer and stock-raiser and the independent truck operation as opposed to the interests of the monopolies.

Harley apparently greatly impressed his hearers and doubtless made votes for his cousin.

Funeral Held For J. H. B. Kyle

J. H. B. Kyle, 76, former prominent citizen of Lynn county, died at his home at Portales, New Mexico, Wednesday night and the body was brought to O'Donnell for burial Thursday. O'Donnell citizens met the body at Clovis and attended it from that point to O'Donnell.

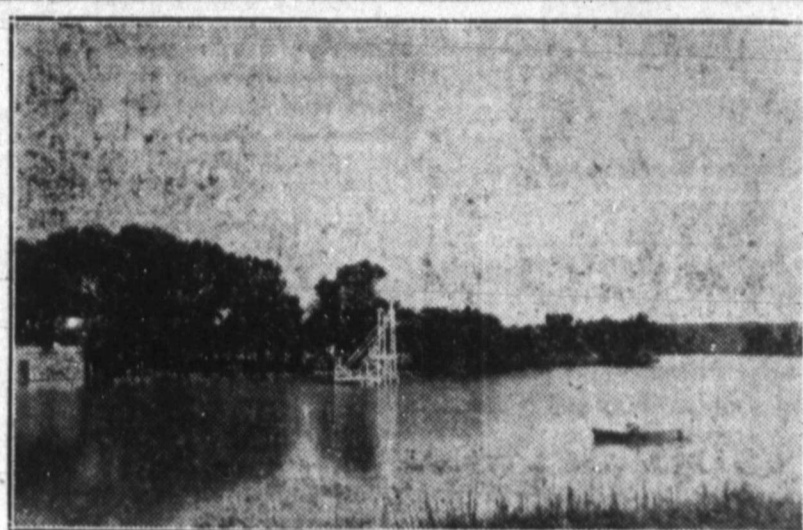

Funeral services were held in the Methodist Church in O'Donnell at 3 o'clock Thursday afternoon. The remains were buried with Masonic honors.

Mr. Kyle came to O'Donnell from Elkhart, Anderson Co., about fifteen years ago and resided there until three or four years ago, when he removed to Portales. He was a prominent Mason and was well known in Masonic circles through this entire section of Texas. He had many friends in Lynn county who mourn his departure.

COTTON SCHOOL

Farmers of Lynn county are invited to attend the annual Cotton Classing School at Texas Technological College, which begins on July 5.

Pay up your subscription to The Lynn County News now!

Above is pictured beautiful Two Draw Lake, Post, Texas, where thousands of people of the South Plains will gather July Fourth to celebrate Independence day, and enjoy a full day of free entertainment, climaxed by a glittering fireworks display at night. The lake, recently filled with fresh water, affords splendid swimming, boating and fishing. Hundreds of beautiful shade trees provide ideal camping grounds. Residents of Lynn county are cordially invited to the celebration.

I didn't get to go and see the ball game last Sunday and so I don't know much about how the Blue Socks played, but from the looks of the score it must have been pretty lousy. The score was 9 to 1 in favor of Colorado.

Jake says the field was too wet to play on, but they tried to do the best they could.

There's a certain blond-headed boy that plays for the Blue Socks that doesn't like my column. If you don't like it, Dub, don't waste your time reading it.

If you boys don't get out there and practice every afternoon and

keep in shape to play ball, it is my opinion that you will have a tough time whipping anybody. You haven't done bad so far; you have won two games and lost two. But it seems to me you should win all of them.

BLUE SOCKS PLAY EUNICE NERT SUNDAY

The Blue Socks are going to cross the state line for their game Sunday so let's all go over and help them beat Eunice, New Mexico.

When Eunice was over here they cleaned the Blue Sock's plover. So let's go over there and clean theirs this time and make them and the people of Tahoka believers in the Blue Socks.

Similarity of Names Causes Confusion

Many people become confused, we are told, when they hear the names of these two gentlemen mentioned. Therefore, they have respectfully requested that we help the people to differentiate between the two.

Garland G. McWhorter, principal of the school at Petty, is a candidate for county clerk.

Aubrey McWhirter, who is also a teacher, is a candidate for county superintendent.

The two men, of course, are not related. They spell their names differently. Garland G. McWhorter, candidate for county clerk, has resided in the New Home community a number of years. Aubrey McWhirter, who claims West Point as his home, has been a resident of the county only a little more than two years, though he has resided in this section of the state for many years.

Don't confuse the two men.

Mrs. Stanley Carmichael of Hamlin left Saturday for her home after visiting here a week with Mrs. E. S. Evans.

Former Educator Here Wednesday

Pat Bullock, now a citizen of Lubbock, was here Wednesday in the interest of Superintendent S. R. LeMay of Athens, candidate for state superintendent of public instruction.

Mr. Bullock was himself an unsuccessful candidate for this office two years ago, having theretofore served for a time as an assistant in the state department of education. Prior to that time Mr. Bullock had taught for a number of years in Scurry county and had served several terms as county superintendent of that county.

Being a long-time friend of the editor, he dropped in for a visit in Mr. LeMay's behalf Wednesday. Mr. Bullock thinks that a very large majority of the teachers of Texas favor the election of Mr. LeMay. In scholarship, ability, and familiarity with the school problems of Texas, Mr. LeMay is by far the best equipped man in the race, Mr. Bullock thinks.

Try a classified ad. for quick results.

Finishing Work On Tech Library

Finishing work on the new \$275,000 library of Texas Technological College is now underway, and according to Miss Elizabeth H. West, librarian, the structure will be handed over to the college July 15.

Plastering, painting, and trimming are practically completed and workmen are starting acoustical work. Air conditioning is being installed in reading rooms, stack rooms, and part of the basement.

Rotary Installs New Officers

The program of the Rotary Club Thursday consisted of reports from Ray Weathers, Charles Townes and Wynne Collier of their recent trip to the Rotary International convention in San Francisco. The three gentlemen, Mrs. Weathers, and Mrs. Collier arrived home Wednesday.

Their reports were all most interesting, not only respecting the meetings of the convention but other incidents occurring there and en route.

Since this was the last meeting of the Rotary year, the new officers assumed their duties, to-wit: Ray Weathers, president, succeeding Wynne Collier; and Charles Townes, secretary-treasurer, succeeding Deen Nowlin.

The working committees will be announced at the next meeting of the club.

W. T. Hanes, new superintendent of schools here, was a visitor.

Special Edition Palo Pinto Star

W. P. Pitts, new mail carrier on one of the routes out of Tahoka, loaned the News a copy of the Anniversary Edition of the Palo Pinto County Star published last week commemorating the sixty-second anniversary of the founding of the paper.

This paper is unique in that every word and letter printed on its 32 pages were hand-set, and the entire paper was printed on its old hand press now 100 years old. It is a five-column publication.

It is neat and attractive in appearance, and the print is remarkably good. Though done on this old-time 100-year-old hand press, not much better printing could be done today on the modern presses of a big daily newspaper.

The contents of this paper also is very interesting. It contains valuable historical matter as well as current news. On the front page is a greeting from Eleanor Roosevelt, wife of the President of the United States. On the front page also is a picture of the press on which the paper was printed.

The Palo Pinto County Star was established on June 22, 1876, by J. C. Son, who died on June 14, just a little more than a week before this special edition was issued, almost 90 years of age. He edited and published the paper for more than 57 years, selling it to the present owner and publisher, Mrs. Mary Whatley Dunbar, in 1934.

Mrs. Dunbar has performed a remarkable feat in the publication of this special edition.

WILSON PASTOR WILL VISIT IN COLORADO

Rev. J. T. Howell, pastor of the Methodist Church at Wilson, Mrs. Howell, and his two sons, Merrell and John, expect to leave next Monday for Colorado Springs, Colo. They will visit Brother Howell's eighty-three year old mother and his sister, Mrs. E. J. Moore, and her husband. They expect to be back home by the following Sunday.

Miss Mattie Sue Howell of Wilson, teacher of English in the Oton high school, is working on her master of arts degree in Southern Methodist University this summer.

Mr. and Mrs. Craig Tetteller and son returned a few days ago from a trip out to the mountains.

Celebrate Holiday With Neighbors

In accordance with an agreement entered into several months ago to close on certain holidays, the business men of Tahoka will close their stores, shops, and offices, and other places of business Monday and enjoy the "Glorious Fourth" in the manner which each individual shall choose.

No public gatherings have been planned here, but there will be celebrations at Slaton, Post, Big Spring, Stamford, and other places that will doubtless attract many of our people.

The News hopes that everybody may have a good time, that nobody will be so foolish as to mix liquor and gasoline on that day, that all drivers will drive carefully, and that no serious accidents may befall any of the people of Lynn county.

County Asked To Enter Contest

Tom Garrard received a communication this week inviting Lynn county to enter a West Texas Soil and Water Utilization contest being promoted by the West Texas Chamber of Commerce.

It is hoped that most of the agricultural counties of West Texas will enter. The winning county is to receive a prize of \$500 and the second best \$300. It costs nothing to enter.

The rules and regulations of the contest have been forwarded to Mr. Garrard and may be found in his office.

It was suggested that a committee be appointed to act for the county. Mr. Garrard named a tentative committee to work with him in this matter, as follows: J. K. Applewhite, who is the representative of Tahoka on the executive board of the West Texas Chamber of Commerce; V. F. Jones, county farm agent; P. W. Goad, county judge, and O. W. Small, Tom Hale, Waldo McLaurin, and Sam Holland, county commissioners; Judge J. W. Elliott, land owner and former county judge; Leslie Browning, vocational agriculture teacher in the Tahoka schools; W. W. Hall, vocational agriculture teacher at New Home; and the incoming vocational agriculture teacher at Wilson.

Mr. Garrard expected to procure a meeting of this committee Thursday afternoon.

If it is decided to enter this contest, Lynn county should make a strong effort to win, as it is one of the leading agricultural counties in Texas.

Mr. Garrard made it plain that when the committee meets other names may be added to it if such action is thought desirable.

SACRED HARP SINGERS MEET AT BROWNFIELD

The News has been requested to announce that the North and West Texas Sacred Harp Singing Convention will meet Saturday and Sunday, July 2-3, at the Methodist Church in Brownfield.

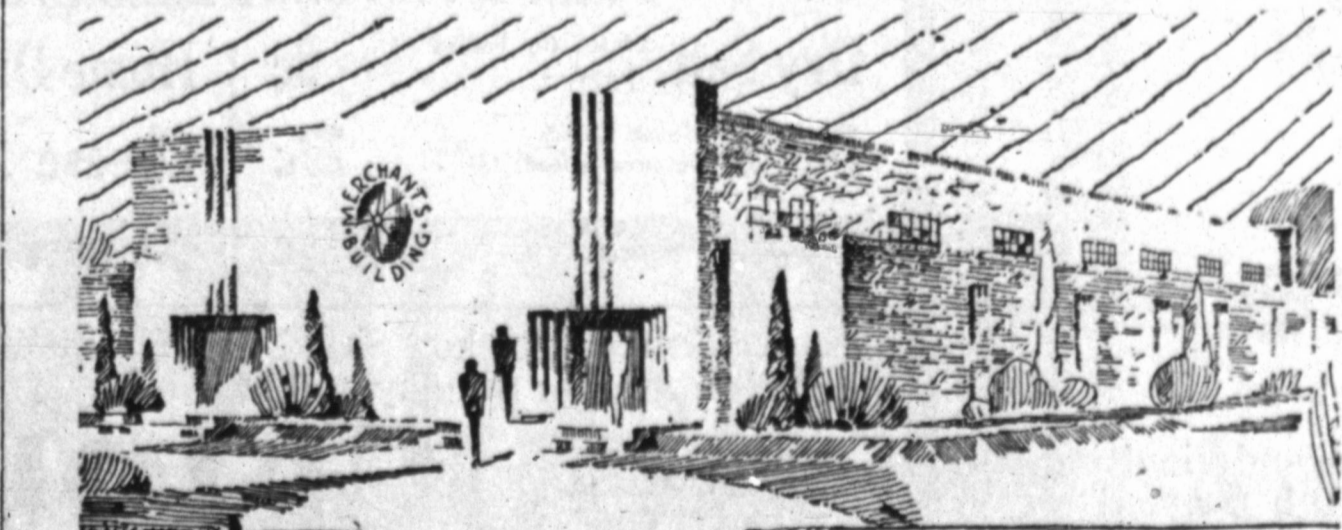

Ed Ward of Brownfield is the president.

Lynn county singers and lovers of Sacred Harp music are invited to attend.

Mrs. D. E. Nichols and son Charles, who have been visiting their sister and aunt, Mrs. J. E. Dye, for the past ten days, left Thursday for Wichita Falls and other points in that section to visit relatives.

Mrs. Max Salmon and daughter, Tony Maxine of Amarillo are here spending the week with Mr. and Mrs. Otho Thomas. Mrs. Salmon is Mrs. Thomas' niece.

Mr. and Mrs. G. W. Simmons went to Abilene Sunday and brought home Jerry Jean, who had been visiting her sister, Mrs. Veletto, in Abilene.

This is the architect's drawing of the new Merchants Building to be constructed on the Panhandle South Plains Fair grounds at Lubbock. Contract for the spacious building was let Monday of this

week. Fifty or more exhibit booths with removable partitions and other attractive facilities will present interesting displays to this year's fairgoers. The new building will contain much wider aisles than the old

structure, better lighting and ventilating systems, and will be one of the outstanding attractions of the 25th annual fair and silver jubilee which will open its gates on Monday, September 26, closing Saturday, October 1, 1938.

South Ward Man Captured Armadillo

Another rare animal was captured, or rather it was killed in the effort to capture it, Monday morning by T. W. Owens of the South Ward community, an armadillo.

Mr. Owens brought the strange animal to the News office Monday afternoon just to see if the editor was familiar with this particular kind of "varmint". We accompanied Mr. Owens over to a produce house to see what the gentleman in the armored coat would weigh. He was apparently fat and tipped the scales at 10 1/4 pounds. The produce house hardly thought they could use him in their business, however. We probably made the mistake of not taking him to a chilli joint. Seriously, Webster's Unabridged says that their flesh is good for food, and they are said to constitute a favorite dish in Mexico.

This gentleman was found prowling around Mr. Owen's cow lots Monday morning. When Mr. Owens approached, he undertook to climb up that gentleman's "britches" leg on the inside. Mr. Owens objected, and in his excitement he struck the intruder a harder lick on the head than he intended, killing him instantly.

A few other armadillos have been killed and captured in this country but they are not numerous here. They are a harmless animal.

F. M. Billman is visiting down at Glen Rose this week.

LEISURE TAKES ON NEW

It takes a "heap o' living to make a home." Every member of the family enjoys staying at home when all the discomforts of summer heat are eliminated by air-cooling. All homes become the center of full enjoyment of leisure after being air conditioned.

They still believe in witchcraft in some communities in Indiana. Mrs. Irene Ray, an Indian woman 60 years of age, was asked by the residents to leave Rochester because they believed that her "witchcraft" had made many persons ill and because she had "hexed" a young girl. She was arrested and placed in jail on a charge of vagrancy but was released when she agreed to leave town with her white husband.

REPORTS FROM THE COUNTY CLUBS

Miss Lillian Boyd, H. D. Agent

MIDWAY CLUB GIRL WINS FIRST PLACE

Idaphene Stephens, poultry demonstrator in the Midway 4-H Club, won first place in the county on her demonstration. Freddie Smith, New Home, placed second and Mary Gene Luttrell, Draw, won third.

Mrs. R. W. Fenton, cooper in the Tahoka Home Demonstration Club, judged the demonstrations. She considered the following points in her scoring: standard breed of poultry, poultry house and yard, sanitation, poultry equipment, records, scrap book, pictures of demonstration and narrative.

The poultry demonstrations were all in their beginning. The 4-H Club Sponsors felt that a trip to Short Course should be offered the winning poultry demonstrator though since the winning clothing demonstration was awarded this honor. Much more will be accomplished with these flocks and the other flocks by fall.

4-H CLUB MEMBERS ATTEND PICNIC

Almost one hundred 4-H Club members and sponsors attended the annual picnic in Lubbock, McKenzie Park, June 22. Most of the time was spent in recreation but a short period following lunch, was spent weaving gimp belts. 4-H Clubs represented were: Midway, New Home, Draw, T-Bar, Wells, O'Donnell, Petty and New Lynn.

County Home Demonstration Agent Miss Lillian Boyd spent Thursday in Lubbock judging sponge cakes for the Lubbock county home demonstration clubs.

Sam Holland and family returned Sunday from Goldthwaite, where they spent several days visiting relatives. They were accompanied home by Sam's mother, Mrs. W. D. Holland, who came to visit here a month. Sam says crops are fine down in Mills county—fine wheat patches, fine oats, fine roasting ears, and fine yellow-legged chickens. They also raise lots of fine turkeys there and Sam says the sheep and goats are thriving on the fine grass and weeds. Everything was tip-top but the fishing. The streams were all muddy and the fish refused to bite.

Periscope Is Old

Johann Hevelius constructed the first periscope in 1637, his object being to provide armies with an instrument by means of which they could observe the enemy from cover, as, for instance, from a trench. He called it a "polemoscope" and it consisted of a field glass equipped with two plain mirrors inclined at an angle of 45 degrees. During the World War it was called a "trench-mirror." Rear row spectators use them at games and parades.

Fifth Avenue of Copenhagen

New York may have its Fifth avenue, Paris its Champs Elyse, Berlin its Unten der Linden, but Copenhagen, in Denmark, has its Stroget, the Stream, a twisting, winding, narrow little street through which you can saunter, for nobody walks or runs, in 20 minutes. It connects two important squares and is the center of the shopping district—artistic, cafe and pastry shopping.

Founded Ottawa, Canada

Nicholas Sparks, a young man from Woburn, Mass., founded Ottawa, capital city of Canada, early in the Nineteenth century, and one of the principal streets of the city bears his name. Ottawa is regarded as one of the most beautiful cities in the world and the parliamentary buildings are among the best examples of Gothic architecture.

Jack Alley Robinson returned to his home at Wichita Falls last Sunday following a two or three days visit here with his parents, Mr. and Mrs. Hall Robinson. Mrs. Robinson accompanied him home and has spent the week there, returning to Tahoka Thursday. Jack Alley is not enjoying very good health just at this time.

O. D. Brown of Littlefield, 68, was recently struck and instantly killed by a passing automobile on the highway a half mile east of that city. Charges of drunken driving and failure to stop and render aid were filed against the 20-year-old youth who was driving the car.

A small tornado is said to have struck near Anton early Saturday night destroying a chicken house and injuring Mrs. B. Foreman, 40, who was near by. No other buildings were damaged and no other persons injured in the vicinity.

SHERIFF'S SALE

By virtue of a certain Order of Sale issued by the Clerk of the District Court of Potter County, on the 9th day of June 1938, in a certain cause wherein J. I. Case Company is plaintiff, and C. A. Clem is defendant, in favor of the said plaintiff for the sum of Six Hundred Forty Two and 66-100 (\$642.66) Dollars, with interest thereon at the rate of 8 per centum per annum, from date of judgment, together with all costs of suit, that being the amount of a judgment recovered by the said J. I. Case Company plaintiff, in the District Court of Potter County, on the 18th day of May 1938, I have levied upon, and will on the first Tuesday in July 1938, it being the 5th day of said month, at Tahoka, Texas, within legal hours, proceed

to sell for cash to the highest bidder all the right, title and interest of C. A. Clem in and to the following described property, levied upon as the property of C. A. Clem to-wit: One CC Tractor open wheel serial number C 307733; One CC2ARC lister; One XCC2H11 Cultivator.

The above sale to be made by me to satisfy the above described judgment for Six Hundred Forty Two and 66-100 (\$642.66) Dollars, in favor of J. I. Case Company, together with the costs of said suit, and the proceeds applied to the satisfaction thereof.

B. L. Parker, Sheriff Lynn County, Texas.
By Doris Connolly, Deputy, Tahoka, Lynn County, Texas. 44-3tc.

MAKE FUN OF THE SUN AND STAY

WITH AIR CONDITIONING

The seashore . . . the mountains . . . or wherever it's cool, usually attracts vacationists. But "be it ever so humble, there's no place like home." This summer make your home a vacation resort with air cooling. Air conditioning—whether it is evaporative, attic ventilation, or completely mechanical—is now within the reach of every one.

While air cooling is healthful and comfortable in the home (and well worth the price) it has become a necessity in business. Increased business and profits, drawn from competitors' non-air conditioned stores, will more than pay for your cooling equipment. See your evaporative cooler dealer today. He will gladly furnish a survey of your cooling needs. No obligation, of course.

KUYKENDALL-PITTS MARRIAGE ANNOUNCED

Mr. and Mrs. A. F. Pitts announce the marriage of their daughter Jewell to J. D. Kuykendall. The marriage ceremony was read on February 20 at Clovis, New Mexico, by Rev. J. T. Lewis of that city.

The couple will reside in Plainview, where Mr. Kuykendall is employed by the Texas-New Mexico Utilities Co. He was formerly employed by the same company here, transferring to Plainview a few weeks ago.

The bride has been employed for many months as bookkeeper for the Tahoka Motor Company operated by W. L. Bursleson. She is a graduate of the Tahoka high school and an accomplished young woman. The couple have the best wishes of many friends.

TAHOKA HIGH SCHOOL TEACHER IS MARRIED

J. L. Browning, teacher of vocational agriculture in the Tahoka High School, and Miss Etta Fern Harkins, daughter of Mr. and Mrs. F. E. Harkins of Colorado, were married at the bride's home at 8 o'clock Sunday morning. Elder Woodie Holden of the Colorado Church of Christ officiated.

Following a wedding trip to El Paso, the couple will come to Tahoka, where Mr. Browning will resume his work for another year as vocational agriculture teacher. He came here a few months ago when Chester Huffstader resigned to take work with the United States Government. He recently received his B. S. degree from the Texas Tech College. He was reared at Fluvanna in Scurry county.

The bride was reared at Roscoe and Colorado. She is a graduate of the Colorado High School and also attended the Tech. She is a cousin of L. C. Haney of this city.

TAHOKA EPWORTH LEAGUE MEMBERS ATTEND RALLY

A number of the members of the Tahoka Epworth League attended the District League rally held at the First Methodist Church in Lubbock Saturday and Sunday.

Registration began Saturday afternoon at 4 and continued until 8 o'clock.

A banquet and program sponsored by Lubbock was held Saturday night in the basement of the Church.

On Sunday morning at 8:30 a business meeting was conducted in the main auditorium of the church, and then all were dismissed for Sunday School and Church, which completed the program.

Among those who attended from Tahoka were: Lenora Anglin, Valarie Bartley, Rudell Prater, Louise Park, Eva Douthit, Pauline Riley, Leta Frances Wyatt, Travis Shelton, G. C. and James Price.—Publicity Superintendent.

METHODIST CHURCH NOTES

(Ben Hardy, Pastor) Several of our young people went to Lubbock Saturday and Sunday for the District meeting.

G. L. Price gave a fine account of the Assembly at McMurry at our evening hour Sunday.

We are thankful for the good rain. Let's be in our places at both hours Sunday morning and then again at the evening hour. We are counting on you to be there.

Misses Mary and Myrtle Dunn, Lubbock music teachers, visited Sunday in the home of Mr. and Mrs. J. D. Donaldson. They formerly lived here, their father, being pastor of the Methodist Church here about twenty or twenty-five years ago.

W. LEE O'DANIEL

Dark horse candidate for governor of Texas, politically unknown, who is the cause of much worry to other candidates for this office.

ELDER DRENNON'S NOTES

And still it rains. I believe Lynn county has gone wet. But God doeth all things well. We have a song in our books that we all ought to learn and sing. It is entitled "Farther Along". The thought expressed in the song is, We'll understand it all by and by. If we could only realize God's hand is in the affairs of men! And what a consoling thought to us Christians that His hand is guiding our destinies. If we will let Him lead us all will be well. It is only when we rebel and refuse to let Him have his way with us that trouble begins.

We want to reciprocate to the editor's note last week and say that I enjoyed the friendly tilt we had on religious matters. The editor was very fair to us and we like his frank attitude.

As that matter is closed, we will have to pay a little attention to his political views, especially as to the governor's race. He asked what qualifications Lee O'Daniel has to make a good governor. I want to give him a few.

First, he is a high-class Christian gentleman, I have been informed, and I think correctly so.

Second, he has made a success of his own business, as I see it.

Third, he had fifty-seven thousand requests to run, and there were forty-three thousand of us who did not write in. I don't think the judgment of one hundred thousand is to be sneezed at.

Fourth, while not a good qualification, perhaps, yet I think it entitles him to some consideration, it is the song "Beautiful Texas" he gave us. It at least shows he loves Texas and his heart is on our beloved state.

I don't know if these qualifications are sufficient for you to consider him or not, but I ask you what other candidate is any better qualified along these same lines?

Fourth of July will soon be here, and I am wondering if we appreciate the liberty for which it stands. It seems to me that many of Uncle Sam's children do not realize what a fine old man he is and many are not treating him right. We are

taught in the Bible to pray for all those in authority that we may lead a quiet and peaceable life in all godliness and honesty. How many Christians do that?

One more thought I must get out of my system this cold Monday morning; and that is loyalty to our own community. Too many do not give to their own community their best. They divide their help and attention to others too much. Now don't misunderstand me; I don't mean to be selfish, but I do mean our home base should have first consideration. In the church, the person that runs around and visits every Sunday is not much help to the home congregation, and that holds good in every phase of community life.

Moral: Advertise in the home paper and trade at home when at all possible.

Yours for more people who put right above might.—R. P. DRENNON.

Ed. Note: Almost thou persuadest me, Brother Drennon, to be an O'Danielite. But we will have to look into the matter a little further. At any rate, no political debate for us just yet. Thanks for the trade-at-home item.

NEW LYNN EPWORTH LEAGUE

A very interesting program was rendered at the meeting of the New Lynn Epworth League last Sunday evening by Miss Mezzie Mae Baker.

The League had a business meeting in which a sponsor and a treasurer were elected.

There was one new member.—Publicity Superintendent.

To The Friends and Customers of—

CICERO SMITH LUMBER COMPANY

We want to express to each and every one of you our sincere appreciation for your patronage and friendship during the past years. The writer of this article is leaving this week for Lamesa, and it is with regret that we sever our relations with the organizations, and contacts with our good friends, of this trade territory.

Mr. Carl Owens, who is to succeed the writer as manager of this organization, comes from Mangum, Oklahoma. He has been in our employ about eighteen years. Carl is interested in the development of his chosen community and will always be ready to co-operate in any worthy civic enterprise. We are glad to commend him to you as an honest, entergetic and capable business man, worthy of your friendship and patronage. An favors socially or in a business way you may see fit to show Mr. Owens and his family will be appreciated both by the company and the writer.

THANK YOU!

HUSER-MACHA RITES PERFORMED

Miss Leubusha Victoria Macha, daughter of Mr. and Mrs. Victor Macha of Wilson, became the bride of Robert Huser of Lubbock, son of Mr. and Mrs. J. H. Huser of Granger, at 7:30 o'clock Tuesday morning at St. Elizabeth's Catholic church, Lubbock, Rev. Gabriel Diamante, officiating.

The bride, who was given in marriage by her father, was attended by her sister, Mrs. W. L. Bednarz. Mr. Bednarz was best man.

The bride wore blue marquisette with white gloves, hat and shoes and a corsage of white rosebuds. She carried a white prayer book tied with white streamers on which a rose was placed.

Tuesday afternoon 26 guests, friends and relatives who had attended the wedding, attended a luncheon at the Macha home. Featuring the meal was the four-tiered wedding cake, surrounded with smaller cakes.

The couple has gone to Monterey for a two weeks trip and will be at home in Lubbock where Mr. Huser is manager and field worker of the Swift hatchery. He is a

graduate of the Texas Technological college.

Mrs. Huser, a senior student at Tech, taught for two years at the Dixie school in Lynn county.

MAURICE COWAN WEDS AMARILLO GIRL

At 6 o'clock last Saturday evening, marriage vows were read for Maurice Cowan, a former Taroka boy, and Miss Rena Belle Roddy at the home of the bride's parents twelve miles east of Amarillo, by Rev. Hubert Thompson, pastor of Tenth Avenue Methodist Church, Amarillo.

Maurice is a son of Mr. and Mrs. T. B. Cowan of Lubbock, former residents of the South Ward community in this county. The family were among the pioneer settlers here. After attending school here Maurice entered the Tech College, where he later received his degree, since which time he has been employed as laboratory technician for the Borden Company in Amarillo.

The wedding was attended by various members of the T. B. Cowan family. Preceding the ceremony, the groom's sister, Miss Christia Cowan, sang "I Love You Truly," accompanied by Mrs. Coleman Cowan. Another sister, Mrs. Eva Lane, played the "Bridal Chorus" from Lohengrin as the processional.

The couple left immediately after the wedding on a trip to Colorado, Texas. They will reside in Amarillo.

MRS. LEE KING IS HOSTESS TO CLUB

Mrs. Lee King Was Hostess Wednesday afternoon to the Stitch and Chatter club. After a short business meeting, the afternoon was spent in needlework and conversation.

Refreshments of cheese sandwiches, congealed salad, potato chips, olives, cake, and iced tea were served the following members: Mrs. Clarence Williams, Boyd Smith, Jack Minor, Liff Taylor, Dewey McDonald and the hostess, Mrs. King.

The club will meet with Mrs. Ivan Cathcart next Wednesday at 3 o'clock.

FRED MCGINTY IS CHOSEN AS ESCORT

After the story respecting Mrs. McMillan having been selected as Cowgirl and Lynn county's representative to the Stamford Reunion and Rodeo had been placed in type, the News was informed that Fred McGinty of Three Lakes had been selected as her escort for the big ball which will attend the festivities.

Mrs. McMillan, Mr. McGinty, and others will leave early Monday morning for the big three-days celebration.

After a month's visit here with her daughter, Mrs. K. R. Durham, Mrs. J. S. Hutchison of Shreveport, Louisiana, left for her home Monday morning. She was accompanied by her little grand-daughter, Margaret Durham, who will visit there several weeks. Dr. and Mrs. Durham are planning to go down for a visit in August, when they will bring Margaret back home.

W. E. Butcher, district safety supervisor for the W. P. A. with headquarters in Lubbock, visited the Housekeeping Aide and other W. P. A. projects in this vicinity Wednesday.

Jungle Is Termed Safer Than Cities by Priest

Cleveland.—After 32 years in the Amazon jungle, Brother Raphael Haag is bewildered by the multitude of automobiles on the streets of modern American cities.

The rush of motor traffic so confused him that he gained the impression there were more automobiles than pedestrians on the city streets.

Brother Haag made his first trip to America since 1905 to visit a brother, Herman Haag. The priest is a teacher in the mission school of the Holy Ghost fathers in Teffe, Brazil, on the Amazon river.

Being a missionary is the safest occupation at Teffe, Brother Raphael is convinced.

"The Indians distrust all white men," he explained, "but they respect the priests for the long, white cassocks we wear. One day, one of the brothers ventured into the jungle without his cassock but dressed in native garb of white shorts and shirt. He soon was dodging missiles fired at him from blow guns."

50-Year Photography of Sun Planned by Experts

San Jose, Calif.—A photographic mapping of the entire sky which will take 50 years to complete soon will be undertaken at the Lick observatory on Mount Wilson, Dr. Joseph H. Moore, assistant director, has revealed.

The project has been made possible by the donation of \$65,000 which will be used in the construction of the largest star camera in the world. The instrument will have a 20-inch lens.

The carrying out of the 50-year program will make possible the measurement of the rotation of the entire stellar universe.

Governors Get Bibles

Springfield, Mo.—A women's church club here has sent Bibles to governors of the forty-eight states and asked that they be read daily in the state penitentiaries.

NEW CHIROPRACTOR

Dr. T. O. Morris, chiropractor, late of Norman, Oklahoma, has located in Tahoka for the practice of his profession. He is opening an office in the larkin building.

Dr. Morris says he has had twenty years experience in this profession.

A newspaper photographer at Knoxville, Tennessee, calmly snapped his camera and took the photograph of a man who was shooting at him a few days ago, and then kidded the fellow for being a bad shot. He was uninjured.

A small farm house has been rebuilt on the ruins of the large residence on the Redwine farm two miles east of town that was destroyed by fire a few weeks ago. The place is occupied by Mr. and Mrs. Maurice Small.

Mrs. E. H. Smith returned Tuesday from a visit of several days with her mother at Lamessa.

Subscription paying time is here!

Poorly Nourished Women — They Just Can't Hold Up

Are you getting proper nourishment from your food, and restful sleep?

A poorly nourished body just can't hold up. And as for that run-down feeling, that nervous fatigue, — don't neglect it!

Cardul, for lack of appetite, poor digestion and nervous fatigue, has been recommended by mothers to daughters — women to women — for over fifty years.

Try it! Thousands of women testify Cardul helped them. Of course, if it does not benefit YOU, consult a physician.

Mr. and Mrs. Ben Gleason and son Arnold, all of Hico, and Miss Sallie Alford of Dallas, came in Sunday to visit in the H. L. Roddy home, leaving Wednesday morning accompanied by their parents, Mr. and Mrs. A. Alford, of Hico, who had been visiting their daughter, Mrs. Roddy for the past two weeks.

Miss Lucille Collier of Post, teacher in the public school here, has been spending the week here with Mr. and Mrs. W. O. Thomas. She is Mr. Thomas' niece.

"Jai-Alai," Ball Game, Rivals the Bull Fight

"Jai-alai," better known as "pelota" (meaning ball in Spanish), is a game somewhat similar to handball, which originated in the Basque provinces of France and Spain. In parts of Spain, it rivals bull fights in popularity, says a writer in the Detroit News. Originally "pelota" was played with hand, naked or gloved, or with a stick, but now a stout basket-work gauntlet, called a "cestus" or "chistera" is used. This basket, a Basque invention first used at Ascain, France, revolutionized the game by increasing the propelling power of the players and the carrying force of the ball.

The game may be played either indoors or outdoors and requires a cement court, 200 feet long and 65 feet wide, with at least two walls 36 feet high. Four walls may be used. There are usually four players and among the professionals are men who have done little else since boyhood. The ball is of solid rubber, small and weighs about four ounces. During play, the ball is bounded from wall to "cestus" and must be kept in motion. The game is very popular in the Basque provinces, Spain, Cuba and South America. According to the Americana Encyclopedia, "It is claimed for this game that it requires a better eye, more speed, activity and surer control over every muscle of the body than any other sport."

Original Glass Bottles Valuable

It has been commonly acknowledged that glass bottles, shortly after their invention, were "worth their weight in gold." But an item in the American Magazine indicates that these transparent containers were valued much more highly than the yellow metal in old Egypt, where a price of \$3,500,000 was set and paid on one glass bottle. Originally made only by master craftsmen and used in the packaging of rare attars and cosmetics, glassware required 40 centuries of study and refinement to reach its present superiority and inexpensiveness. The common foodstuff bottles on our shelves today are more perfect by far than the crude bottles of long ago—yet they cost us practically nothing!

Ancestry of Cameos in Doubt

The earliest ancestry of the cameo will always be a matter of conjecture, according to Cyril Dawson of the British museum whose book, "Cameos," is the illuminating result of extensive study and research. But for really skilled work, we need not go farther back than to the Egyptian scarabs, which were seals with the backs cut into the semblance of the sacred beetle. The outline of the scarab cameo persisted for a long time.

Mr. and Mrs. L. A. Stephens visited Monday in Brownfield with Mr. Stephen's niece, Mrs. Claude Henderson.

Mr. and Mrs. Bradshaw of Tahoka spent the weekend in the home of Mrs. Bradshaw's parents, Mr. and Mrs. Sam Kitchen.

Cleveland and Walthal Littlepage and Lee Willingham left Tuesday for San Antonio. Cleveland and Walthal will visit relatives, and Mr. Willingham expects to go on to Corpus Christi.

Mr. and Mrs. John Thomas of this community visited Sunday in the home of Mr. Thomas' brother, Claude Thomas, of the Newmoore community.

Mr. and Mrs. A. T. Thomas recently visited relatives in Denton, Ennis, and Strawn.

WANTED

Local business man to handle one of General Motors' fastest selling lines of cars

Pontiac Motor Division of General Motors Sales Corporation offers some able, ambitious, and far-sighted man in Tahoka—the opportunity to become the local dealer for the big, economical, low-priced, fast selling Pontiac Six and Eight.

Pontiac, today, is one of the largest producers of cars in the General Motors Corporation. Pontiac cars are priced near the lowest, enabling a dealer to compete strongly in the field where 87 per cent of all automobiles were sold last year. Pontiac's extra value is so obvious that buyers readily pay a few more cents a day to get a Pontiac instead of other low-priced cars of inferior size and quality. This is an opportunity that seldom occurs and it is exceptionally valuable because a General Motors franchise is involved—and General Motors products are handled by the largest group of satisfied dealers in the automotive industry. Moreover, the Pontiac franchise includes special features which assure maximum rewards for able men.

Many Pontiac dealers in towns the size of Tahoka have doubled and tripled their business in the past few years—proving that men who take the franchise of the right low-priced car can look forward to an expanding business and steadily increasing profits.

The 1933 Pontiac line has scores of features which make them exceedingly easy to sell. It includes a full line of Sixes and a full line of Eights. The Pontiac is everywhere recognized as America's finest low-priced car and the most economical car of its size and weight on the road today.

Pontiac's 1933 features include the finest hydraulic brakes in use today (triple-sealed), Unisteel "Turret-Top" Bodies by Fisher, Improved Knee-Action, Fisher No-Drift Ventilation, great economy, and that finest of new advancements—Safety Shift Gear Control. Its reputation for dependability is recognized as being unmatched.

The investment required to open a dealership is not large. Previous automobile experience (either as a salesman or a dealer) is desirable but not essential, since we are in a position to provide you with every assistance in establishing your business and in helping you get started in selling cars on the right basis. Able men will recognize this as a genuine ground-floor opportunity of exceptional value. For further facts, communicate with
