Tahoka, Lynn County, Texas, Friday, October 21, 1938.

Number 10

Rural Electric Project Finally Approved

W. D. Nevels Dies After Brief Illness

Not often are the people of a community more deeply grieved than were the people of Tahoka Monday afternoon when they learned that W. D. Nevels, 68, pioneer citizen of Lynn county, had passed away. Death came early in the afternoon within 24 hours after the patient had been taken to a Lubbock hospital for treatment and within less than three days after he had become seriously ill.

Mr. Nevels had been in failing health for many months, suffering at intervals from an affection of the heart, but he made little complaint and bore his sufferings with great patience and fortitude. Early Friday night he had a severe attack of heart trouble and was very sick throughout the next day and night. On Sunday morning he grew worse and in the afternoon he was taken to the Plains Hospital in Lubbock. The skill of physicians and nurses here and in the hospital, however, were unavailing, for pneumonia had developed, making recovery impossible.

Funeral services were conducted in the Baptist Church here at 3 o'clock Tuesday afternoon in the presence of a great throng of friends. Rev. George A. Dale, the pastor, officiating, assisted by Rev. Ben Hardy, pastor of the Methodist Church. A great profusion of flowers attested the esteem in which deceased was held.

Interment was in the Tahoka Cemetery under the direction of the Harris Funeral Home. The active pall bearers were W. B. Slaton, R. P. Weathers, Fred B. Hegel, D. W. Gagnat, E. H. Bouillon, Nelson Howell, G. M. Stewart, and Paul Howell. A great number of honorary pall bearers were named.

Mr. Nevels was one of the pioneers and one of the outstanding characters of Lynn county, having spent 47 years of his life in this section of the state. Though a native of Mississippi, having been born in that state on June 19, 1870, he came in early boyhood with his parents to Brown county, Texas. About the year 1890 or 1891, the family re-

(Cont'd on back page)

Darby's Home Burned Sunday

Fire of unknown origin did much damage at an early hour Sunday morning to a residence situated on the highway a few blocks east of the business part of Tahoka owned by Clay Hughes and occupied by Bill Darby and family. The Darbys were not at home at the time.

The fire was discovered at 3 or 4 o'clock in the morning and the alarm was turned in. The fire department arrived just as the flames were bursting through the roof and soon had them extinguished. Investigation showed conclusively that the fire had originated in a clothes closet in the bath room and it is believed that it had been smoldering for several hours. The walls of the bath room and other interior walls were wholly or partly destroyed and great damage was done by fire and water to the furniture.

Both the building and the furniture were partially covered by insurance.

Fire Damages Barn At Walker Place

Slight damage was done Friday to the barn at the old J. B. Walker place at the southwestern limits of the town when it was discovered to be on fire. The fire department was called and extinguished the flames before damage was done.

The origin of the fire is unknown. Buster Fenton and A. P. Edwards were business visitors in Fort Worth Monday.

Thompson Pays Fine For Assault

In the county court last week, Charley Thompson paid a fine of \$25.00 and costs for aggravated assault. The total amounted to \$48.10. The assault was alleged to have been made with a knife in the hands of Thompson in a difficulty with another man during the rodeo here in August.

Wilson Hotel Burns Down

The Wilson Hotel operated by Mrs. Pinion was completely destroyed by fire early last Saturday night. Origin of the fire has not been determined.

Both the Slaton and the Tahoka fire departments went to Wilson to fight the flames but the building was almost completely destroyed before either truck arrived. The Tahoka truck was a little late in arriving by reason of the fact that it had a flat enroute.

Not only was the building completely destroyed but the personal effects of some of the guests were consumed. We are not advised as to how much of the furnishings of the hotel was destroyed nor did we learn whether or not insurance was carried on the building or its contents.

The hotel was one of the old landmarks of Wilson. It was constructed in 1912 by L. Lumsden, and Mr. Lumsden says that at that time it was one of the largest and most substantial hotel buildings in this entire section of the state. It had been owned and operated the past few years by Mrs. Pinion.

Drunks Caught At O'Donnell

County Attorney Rollin McCord is authority for the statement that 14 persons were arrested in O'Donnell over the week end for drunkenness and fighting. Several paid fines and the others are in jail, he said Tuesday.

Mr. McCord did not state the color nor the nationality of the offenders. Since there are a great many Mexicans and Negroes in the county just now for the cotton picking season, it is presumed that most of the drunks and fighters are more or less dark-complexioned. Officers would probably get very little valuable information from an investigation into who is selling the liquor, but a real campaign on their part to get this information might make a few white bootleggers a little more cautious.

Federal Officer Gets Man Here

Sheriff B. L. Parker and a Federal officer from Louisiana arrested a man out in the country a few miles northwest of town Saturday who was charged with aiding two Federal prisoners to escape from jail at Baton Rouge, Louisiana. The Federal officers left immediately with his prisoner.

It is said that the man was engaged in repairing the jail and took advantage of the opportunity to assist the men to escape.

Mrs. W. T. Clinton, Supervisor of the W. P. A. Renovation project in Tahoka, attended a District meeting of women supervisors of W. P. A. projects in Lubbock Wednesday afternoon. From Lubbock Mrs. Clinton went to Slaton for a few days visit in the home of her niece Mrs. A. E. Whitehead of that city.

4,714 Bales of Cotton Ginned

The five gins in Tahoka reported early Thursday morning that 4,714 bales of cotton had been ginned here this season up to that time.

According to this report they have ginned 1,553 bales the past week. The weather has been ideal for gathering the crop up till Wednesday morning, when the first norther of the season made its appearance. A light shower of rain fell Wednesday night, amounting to .13 of an inch in Tahoka. This retarded picking slightly. The temperature dropped to 46 Wednesday night, reminding folks that winter is just around the corner.

If no killing frost comes before the first of November and the weather remains dry, all the late cotton will make much heavier yield than seemed possible a few weeks ago. Much of this late cotton is just now beginning to open.

School Band Is Looking Good

According to Mr. Felts, band director, the Tahoka band is now improving rapidly enough that they will probably play for our football games before the season closes.

There are approximately 50 members who have instruments and careful selection of instruments has been made in order that we have a well balanced band. Of course their first appearance will be very elementary but none of us who know anything about band work expected to even hear them in concert for several months more. Let's boost our band. There is nothing that will add more to the life of a town than the publicity it gains from a real snap-py band.

Grows Enormous Castor Bean Stalk

Jack and his Bean Stalk made quite a reputation a long time ago but Jack didn't have much on D. A. Parkhurst of this city at that.

Mr. Parkhurst has a Castor Bean stalk in his yard that he says is exactly 10 feet tall. Its spread from tip to tip of leaf on opposite sides of the stalk, Mr. Parkhurst says, is 16 feet and 4 inches; and the circumference at the base of the stalk is 17 inches.

Mr. Parkhurst knows, for he took the measurements himself. If you don't believe it, gentle reader, call and take a look for yourself—or maybe you have a bigger plant on your premises.

Miss Lottie Jo Townes, student in the T. C. U. at Fort Worth, was a week end visitor with her mother, Mrs. C. B. Townes, and her brothers Reed and Charles.

Funds Are Available For Work On Post Highway

County Judge P. W. Goad received a letter the first of the week from Julian Montgomery, state highway engineer, advising that funds had at last been found with which to complete Federal Highway No. 380, which is state highway No. 24, from Tahoka to the Garza county line. He stated that the job could be done either by contract or as a P. W. A. project as the commissioners court might elect. It will probably be done as a P. W. A. project, according to some members of the commissioners court. The hard-surfacing of this at an early date is thus assured.

The completion of the Garza county end of the highway had already been provided for, according to County Commissioner George Small.

Mr. Montgomery gave much of

Hanes Proposes Exes Organization

(By Supt. W. T. Hanes)
Attention Ex-Students of Tahoka High:

Is there any particular reason why Tahoka should not have an ex-students association just as all other wide awake schools have? Is there any individual who does not have a warm spot for the school from which he graduated. There are any number of ex-graduates living in and around Tahoka. Wouldn't it be fun to have one time set aside each year to again get together and talk over the "Good old days at Tahoka High?"

The school officials are anxious to sponsor a home coming this year and will do anything they can do to help organize a permanent ex-students association if the ex-students want it.

It seems fitting that the annual grudge football game with O'Donnell, which will be played here Nov. 11, would be a good time for our get together. This game will probably be played at 10:30 A. M. in order not to conflict with any out of town plans. What about making it a home-coming game and immediately after the game meet and organize a permanent organization? All ex-students who are interested in such an organization regardless of when you finished please let it be known by contacting some school official at once.

Next week's News will carry specific announcements regarding the proposition. In the meantime don't wait for the other fellow, if you are interested, say so out loud.

Prisoners Taken To Penitentiary

B. L. Parker left Sunday with four prisoners to be placed in the penitentiary. Three of them, Billy White, Odell Cochran, and Alva Holland, were convicted of felony offenses at the recent term of the district court. The fourth prisoner was Henry Reed, who had been brought from the penitentiary to testify as a state witness in the Oscar Summers case.

Pays Fine On Liquor Charge

Gilbert Hood, colored, was assessed a fine of \$25.00 and costs in the county court a few days ago for having in his possession a quantity of "non-tax-paid liquor," according to County Attorney Rollin McCord.

Liquor is a bad thing for a Negro—or a white man either—to have on, about, or in his person, tax-paid or non-tax-paid. Any man who fools with liquor much will, sooner or later, get into bad trouble of one kind or another.

Child Has Series Of Misfortunes

Two years ago, little Jimmie G. Giddings, son of Mr. and Mrs. E. C. Giddings residing eight miles north of Tahoka, then three years old, underwent major surgery, one of his kidneys being removed.

Last winter, the little fellow had a serious attack of pneumonia but lived over it.

A few weeks ago he fell and broke one of the bones of the left forearm. The wound was splintered up and recently the cast was removed. On the same day, the little fellow fell and broke both bones of the same arm. He is now recovering from this injury.

V. A. Boys Enter Pig Contest

Leslie Browning, teacher of vocational agriculture in the Tahoka High school, reports that two Tahoka F. F. A. boys are in Kansas City this week attending the national F. F. A. convention. They left last Saturday and expect to return today.

The boys also expected to visit the Royal Live Stock Show, which is being given there this week. Mr. Browning states that two of his F. F. A. boys will each enter a pig in the Sears-Roebuck contest to be held on the fair grounds at Lubbock Saturday. These boys are Lester Adams and Leroy Johnson.

One F. F. A. boy from Wilson and one from New Home will also enter a pig each, as will also four of County Agent V. F. Jones' 4-H Club boys.

Eight boys from each of five South Plains counties are expected to participate in the contest, with one pig each.

Calvary Store Is Re-Opened

C. E. Ross of Brownfield has purchased the bankrupt stock of goods of the defunct Calvary's variety store, and is opening the same for business. He has also purchased another bankrupt stock in another city and is adding it to the stock here.

Mr. and Mrs. G. H. Holmes formerly of Brownfield and Mrs. Lou Calvary will be in charge of the new business here, which will be known as the Ross 5c-10c-25c Store.

Mr. Ross is now engaged in the automobile business in Brownfield but he has had ten years experience in the dry goods business.

Mr. and Mrs. Holmes are also experienced business people, and Mrs. Lou Calvary has had long experience as a sales lady.

Our readers will note the full page ad. in this paper this week.

Unusual Disease Fatal To Stock

Buel Draper of the Dixie community was in town Monday afternoon and reported that in the last few days he had lost two cows and two heifer yearlings from a disease which had been diagnosed as hemorrhagic septicemia.

This is a form of blood poisoning which is marked by chills, fever, prostration, and inflammation of the serous membranes of the lungs, kidneys, and other organs.

Mr. Draper was afraid that he might lose still other cows from the disease. He has a small herd of very valuable Jerseys.

Martha Ann, the 21-months-old daughter of Dr. and Mrs. E. Prohl, is sick this week with scarlet fever. This is the only case in the county at this time, but there were a number of cases a few weeks ago. Quarantine regulations are being observed at the Prohl home.

326-Mile Line Will Serve Farmers In Territory

Final approval was given the proposed 326-mile Lyntegar Rural Electric co-operative light and power line Wednesday by the federal REA commission, John Heck, Wilson, president of the cooperative, was informed by wire Thursday morning.

The entire project as applied for by the organization was approved. Mr. Heck said, the project calling for line totaling 326 miles in length for which the government has approved an expenditure of \$304,000.00. Between 800 and 900 farmer customers will be served with electricity.

Mr. Heck has called a meeting of officers and directors in Tahoka for next Monday to complete line building plans. A contract will be let at an early date and construction started. Harry N. Roberts, Lubbock, is engineer and Tom Garrard, attorney of the organization.

Tahoka is expected to be headquarters for the cooperative, and a man will likely be kept here in charge of the office.

Construction of the line is expected to be a big factor in revolutionizing farm life in this section. Light and power will be made available to a large percent of the farmers in Lynn county especially.

Roughly the line as planned will cover the following territory: Beginning in the Ropesville Re-settlement Project, the line reaches to Meadow, where a branch extends southward through Terry county to Gomez.

From Meadow, the main line enters Lynn county by way of the Lakeview community, serves Petty, New Home, and Wayside. Between the latter place and Wilson a loop reaches to the north three miles. From Wilson, the line goes through the Morgan, Gordon, Garlyn communities, and drops back to New Lynn, thence south to Highway 84; west along the highway to within two miles of Tahoka, with another branch covering the Edith community and extending through the territory of the T. I. Tippit and Windham farms.

Another branch extends through Central Church, Grassland, Redwine, and Draw sections; thence west just north of O'Donnell to two miles west of Wells.

In Garza county practically all of that county on top of the cap-rock will be serviced.

Pride Enters Dawson Group

The Pride school district, which lies in three counties, Lynn, Terry, Dawson, has been grouped recently with two districts lying wholly in Dawson and one district lying in Terry for high school purposes, and a new high school building is to be built near the center of the grouped district, according to County Superintendent H. P. Caviness.

The site of the proposed building is about four or five miles southwest of Pride and lies in Dawson county. The cost of the structure is estimated at about \$60,000, according to the architect, Mr. Hodges of Lubbock.

The administration of the schools in the entire grouped district will be under the supervision of Dawson county. Heretofore the Pride district has been under the supervision of Lynn county although the major portion of the district lies in Dawson county and a majority of the pupils reside in that county.

Elementary schools will be maintained in each of the districts as heretofore.

Mr. and Mrs. R. D. DuBose of Yorktown were here last week visiting Mr. and Mrs. H. L. Roddy and family.

Tell Benefits From Rotary

Benefits derived from the work of the Rotary Club by the town, by the school, by the individual, and by the Boy Scouts were briefly discussed by E. I. Hill, W. T. Hanes, L. F. Craft, and Happy Smith at its luncheon Thursday.

Wynne Collier conducted a quiz, President Ray Weathers and Secretary Charles Townes being the quizzees, pertaining to Rotary International. The boys acquitted themselves most creditably.

Visitors present included Walter B. Collins, a business man, and Joe Alexander, a newspaper publisher, both of Lamesa and Jim Becker of Lubbock.

COCKRUM DEATH

The remains of Mrs. Marion Cockrum, long time resident of Post and mother of Jack Cockrum of this place, who died in a Lubbock hospital early Sunday morning were carried to Goldthwaite Monday for burial. Mr. and Mrs. S. H. Holland and daughter, Dorothy, together with Mr. and Mrs. Jack Cockrum returned from Goldthwaite Tuesday night. Mrs. Cockrum was Mr. Holland's Aunt.

Among the out-of-town visitors here Tuesday attending the W. D. Nevels funeral, we noted the following: Mr. and Mrs. Luther Nevels of Plains, E. A. Moore, a daughter and two nieces of Lampassas, Judge and Mrs. G. E. Lockhart, Mr. and Mrs. E. R. Allen, Mr. and Mrs. J. B. Walker, all of Lubbock, Mrs. Spurgeon O'Neal of Big Spring, and Judge Madison Yates of Lamesa. There were others whose names we did not get.

CARD OF THANKS

We sincerely thank the many friends for their kindnesses and expressions of sympathy extended us in our great bereavement. We deeply appreciate the lavish floral offerings, and very much regret that we can not send acknowledgements to all the donors for the reason that the cards were lost from some of the sprays. We shall never forget your kindness.

Mrs. W. D. Nevels
Mrs. L. O. (Ruth) Sparks
Mrs. C. C. (Willie Lois) Hoffman.

Reports from the Sanitarium Thursday morning were to the effect that Grady Goad's condition was satisfactory. He underwent an operation in the Lubbock Sanitarium at 11 o'clock Tuesday morning for appendicitis. It was an emergency case, but the operation seems to have been entirely successful.

Wells Edwards is taking treatment for a severe pain in the head that recently developed and that has been giving him much trouble. It is thought possible that the affection is the result of an injury received several months ago.

Jim Weatherford and daughter, Mrs. Webb Williams, of Sierra Blanca were here Tuesday attending the funeral of W. D. Nevels. Mr. Nevels and Mr. Weatherford had been intimate friends for more than forty years.

The News is informed that Rev. J. N. Campbell has resigned the pastorate of the Baptist Church at Meadow to accept the pastorate of the church at Dimmitt, which is one of the leading churches of the denomination on the plains.

Mr. and Mrs. Dayton Nance of Waukegon, Ill., are here this week visiting the former's father, J. B. Nance. The younger Nance is employed in an A. & P. grocery store at Waukegon and has been for many years.

Mrs. J. R. McIntyre has recently had her home remodeled so as to comprise two apartments. She occupies one apartment and rents the other.

Mr. and Mrs. Jordan of Fort Worth spent the week end here with their son-in-law and daughter, Mr. and Mrs. A. P. Edwards.

Judge G. C. Grider was a business visitor in Brownwood Wednesday.

NOTICE TO THE PUBLIC
Any erroneous reflection upon the
reputation or standing of any indi-
vidual, firm or corporation, that
may appear in the columns of The
News will be gladly corrected when
called to our attention.

We had the pleasure of attending
the cake show in the Jack Apple-
white Co. building on the east side
of the square last Saturday after-
noon. There we not only saw an
array of wonderful cakes baked by
H. D. Cluo women, but what im-
pressed us more was the fine ap-
pearance of the women themselves,
who had come from various com-
munities in the county. Texas prob-
ably has not made much progress
in any other line in the last genera-
tion or two as it has made in the
dissemination of knowledge, culture,
and grace among the women of our
rural sections. The country districts
have always contained many women
of the highest intelligence and
gentility but there have also been
among them many with an inferi-
ority complex and appearance.
From her personal appearance, one
can not distinguish the rural woman
of today from her city or town
sister. Present at the cake show
Saturday from many communities
in the county, were the finest types
of womanhood that can be found
anywhere. Of course the home
demonstration club work is partly
responsible for this. We do not think
that our country is going to the dogs
as long as we can produce so high
a type of womanhood.

Instead of going out to the flying
field Sunday afternoon to see that
fellow chute the parachute, we
rested by taking a leisurely drive
over a large portion of the north-
western quarter of Lynn county. We
found marvelous crops of feed
everywhere and cotton that ran all
the way from poor to excellent.
Most of the cotton in the territory
visited was good. Much of it ap-
parently will make a half bale per
acre or more. In some fields four
or five acres will be required to
make a bale. While the cotton in
this section will, not average as
good as that in the east half of the
county, the yield will be above the
average. Lynn county farmers this
year should consider themselves
most fortunate, in so far as crop
yields are concerned.

It was really refreshing a few
days ago to read a news item from
Germany that did not pertain to
war and that did not mention the
name of Hitler. It seems that Ger-
many has traffic problems the same
as the rest of us. A campaign to re-
duce the number of fatal or serious
accidents was proving fruitless and
so a new remedy was being suggest-
ed. Traffic cops, it was said, would
be instructed to deflate the tires,
right on the spot, of any car whose
driver was found violating any of
the traffic laws. It surely would be
a little disconcerting to a road hog
to be stopped by a cop out on a
highway and have all the wind
taken out of his tires with no
remedy except to patch them and
pump them up himself. But we bet
it would make a believer out of him.

BLACK-DRAUGHT..
"An old friend
of the family."

A columnist on the Scurry County
Times stated last week that during
the past 90 days a total of 251,000
Texans in the hope of finding
temporary employment. We suppose
that the said columnist had counted
them since he seems to speak with
authority. About 101,500 of them
must have come on to the plains to
pick cotton on our "spotted crop-
lands", as he dubs them, but we
make no claim as to accuracy of the
number. The "spotted croplands" of
Lynn county, however, will probably
produce two or three times as much
cotton and feed this year as the
fertile lands of Scurry county. Cot-
ton pickers come in streams through
Scurry county right on to the plains
almost every year to help gather
our crops. We are really sorry that
more of them do not find em-
ployment in Scurry County, for
really we do seem to have a super-
abundance of them just now.

News comes from Washington
that a stupendous spending program
such as we have not yet dreamed
of is about to be launched. They
call it a rearmament program. They
also call it a recovery program. They
expect to bring back prosperity by
pouring millions and millions into
the coffers of the big industries.
They expect to expend a billion for
in expanding the public utility
power plants and transmission lines.
They expect to expend a billion for
the rehabilitation of the railroads.
They plan to spend another billion
for the rehabilitation of big in-
dustrial plants, in the chemical
automobile field, the construction of
airplanes and the building of heavy
industry machine-making plants, all
purportedly for the better defense
of the country in case of war. This
seems somewhat like going back to
the Hoover idea of helping big
business so that it can give employ-
ment to idle labor.

Delighted with the flowers that
were exhibited along with the
cakes at the cake show here Sat-
urday, Miss Lillith Boyd suggests
that it would be a fine thing for
some ladies civic club or clubs to
sponsor a flower show to be given
next year in connection with the
cake show. It seems to us to be a
capital idea. With an abundant
water supply Tahoka can assemble
a great array of marvelously beau-
tiful flowers of many varieties and
provide a real show. Why not?

Forty years is a long time for one
man to own, edit, and publish a
country newspaper, but that is the
record made by C. W. Taylor of
Rogers. Forty years ago this week
he acquired the Rogers News and
he has been at the helm ever since.
In addition to this, many years ago
he found time to serve a term in
the senate from the district com-
prising of Bell and several neigh-
boring counties and he made a good
hand at the job. Congratulations to
Editor-Senator Taylor.

Foreign-born citizens in this
country who join up with any com-
munist outfit or any Nazi or
Fascist bunch that favors a dicta-
torship in this country should be
promptly deported. If our present
laws do not authorize this govern-
ment to take such action, such laws
should be promptly passed. Any
man that loves Hitlerism or Lenin-
ism better than he loves the stars
and stripes has no business in this
country. At least he should have
none.

That the people of Tahoka are
progressive is attested by the
character of her public buildings.
She has probably the best and most
attractive school plant to be found
anywhere on the plains south of
Lubbock, an attractive and well-
kept court house and yard, and the
best church buildings of any town
anywhere near its size in this en-
tire section of the state.

NEW HOME GROWING

We drove out through New Home
Sunday afternoon and were surpris-
ed at the progress the little town
has made recently. We noted that a
number of small residences had
been constructed and a new church
building recently completed by the
Church of Christ. Also two cotton
warehouses have been built.

Many Mexican cotton pickers
were in town, some of whom ap-
parently had just come into the
country.

Kent Galen Gibson is a new ar-
rival in Tahoka. He was born in the
Lubbock Sanitarium early Tuesday
morning of last week, to Mr. and
Mrs. R. H. Gibson of Tahoka. The
mother and babe were released from
the hospital and brought home
Sunday. The little fellow weighed
six pounds and five ounces. Both
mother and babe are doing well. He
is Mr. and Mrs. Gibson's first child.

NOTICE OF EXECUTION SALE

The State of Texas, County of

Lynn.

By virtue of an execution issued
out of the justice court of Precinct
No. 1, Place No. 2 in Lubbock
county, on a judgment rendered
in said court on the 18th
day of June A. D. 1929, in cause No.
101, wherein G. E. Lockhart, was
plaintiff, and A. C. Samford, was
defendant, I did on the 18 day of
October, A. D. 1938, at ten o'clock
A. M., levy upon the following
described land and premises, situat-
ed in the County of Lynn and the
State of Texas, levied on as the prop-
erty of the defendant A. C. Sam-
ford, to wit: the North 79 acres of
the SE 1/4 of Section No. 484, Block
No. 1, Cert. No. 463, to satisfy a
judgment amounting to the sum of
\$177.52, with interest thereon from
the date of said judgment at the
rate of ten per cent per annum,
and cost of suit, and on the 6 day of

December A. D. 1938, being the
first Tuesday in said month, be-
tween the hours of ten o'clock A. M.
and four o'clock P. M. on said day,
at the court house door of said
county, I will offer for sale and sell
at public auction, for cash, all the
right, title and interest of the said
A. C. Samford in and to the above
described tract of land.

Dated at Tahoka, Texas, this the
18 day of October, A. D. 1938.
B. L. Parker, Sheriff Lynn Coun-
ty, Texas. 10-31c.

Mr. and Mrs. Roderick and
their granddaughter, Miss Martha
Chancellor, and also John Chancel-
lor were all here from Lubbock last
Friday. Miss Martha is time-keeper
for the W. P. A. sewing room in
Lubbock and says that project has
become a regular factory. She was
time-keeper for the House-keeping
Aide project here before removing
to Lubbock a few weeks ago.

STATED MEETINGS of

SOCIETY

Club and Church News

LUBBOCK WEDDING OF INTEREST HERE

A most happy event was the church wedding of Mr. Bedford Caldwell of Tahoka and Miss Pauline Phillips of Lubbock in the First Christian Church in that city at 4 o'clock last Sunday afternoon. Rev. Harrell Rea of Fort Worth, life-long friend of the bride, read the double-ring ceremony.

The bride was given in marriage by her father, H. D. Phillips. The bride's sister, Mrs. B. G. Clinton of Tahoka, was the matron of honor. Bridesmaids were Misses Allie Havia of New Orleans, La., and Ruby Lee Leary of Lubbock.

Charles Caldwell of Hays, Kan., attended his brother, the groom, as best man. Another brother, Ralph Caldwell, and Gurahel Gilligan of Ballinger were groomsmen. H. D. Phillips Jr. and H. R. Caldwell Jr., brothers of the bride and groom respectively, served as ushers.

Following a brief bridal trip, the couple will be at home to their friends in Tahoka.

Mr. Caldwell is a salesman for J. K. Applewhite and Co. of this city dealers in tractors and farm implements. He is the son of Mr. and Mrs. J. R. Caldwell of Farwell and is a former student of the Texas Technological College, where he was a member of the Wranglers fraternity. He has made many friends in Tahoka since coming here a few months ago.

The bride is the daughter of Mr. and Mrs. H. D. Phillips, 1626 Sixteenth Street, Lubbock, and is a

sister of Mrs. B. G. Clinton of this city. She is also a sister of Dr. C. M. Phillips of the Dupre-Phillips Hospital recently opened at Levelland. She is a graduate of the Lubbock High School and of the Texas Technological College and was a member of the Ko-Shari club at Tech.

LUZELIAN CLASS

The monthly business and social meeting of the Baptist Euzelian Class was held in the home of Rev. and Mrs. George A. Dale, Tuesday evening.

After a brief devotional brought by Mrs. Dale, business was taken up and plans made for extending the work of the Class. Mrs. G. H. Hines was added to the list of new officers as Stewardship Chairman. Our Class members all give to the Budget, but our goal is "Every Member A Tither".

After the business, games and contests furnished fun and relaxation and at a late hour a plate of delicious refreshments was passed to Mesdames George A. Dale, E. J. Cooper, G. H. Hines, W. T. Hanes, G. C. Shaffer, G. W. Simmons, W. A. Reddell, H. L. Roddy, J. L. Reese, R. C. Forrester, J. E. Dye, Pledger Coleman, T. B. Burroughs, our teacher, Mrs. Carl Owens and Bro. Geo. A. Dale.

New members and visitors are always welcome in the Euzelian Class at the Baptist Church. Come meet with us!

52 Rats--Not a Scream

King Rodent's Reign of Terror over helpless femininity is on the wane. Instead of emitting the usual panic-stricken screams, these two girls from Texas State College for Women, Denton, work calmly with fifty-two of these white rats three hours daily, weighing, feeding, and making various tests on them. Miss Frances Welch, Denton, (left) is giving Texas-grown sweet potatoes to one group and Irish potatoes to another, in an effort to determine which food is more beneficial. Miss Allie Mae Tipps, Wichita Falls, is demonstrating the effects of the best possible diet for farm families in comparison to the average diet.

Legion Auxiliary Elects Officers

In closing the year's work, the American Legion Auxiliary met at the Legion Hall October 13 for the purpose of electing officers for the ensuing year.

Preceding the election, an elaborate three-course banquet was served to all members present and in honor of our Gold Star Mother, Mrs. Mattie Bradley, she being the only Gold Star Mother present.

The table was beautifully decorated with roses and nasturtiums and was efficiently served by the third year Home Economics girls under the direction of Mrs. Fred B. Hegli. Following the banquet, the color bearers presented the flags, and several songs were enjoyed, one being in honor of Mrs. Bradley.

The following officers were elected: Mrs. Rafe Richardson, president; Mrs. Charles Walden, first vice-president; Mrs. Jim Dye, second vice-president; Mrs. R. C. Forrester, secretary; Mrs. Sam Holland, treasurer; Mrs. J. B. Oliver, sergeant-at-arms; Mrs. Happy Smith, historian; Mrs. Aubra Cade, reporter; and Mrs. H. M. Snowden chaplain.

With these efficient officers, many plans were made for a successful year. Our district president, Mrs. Higbee of Lubbock, will be present to install our new officers. Also our state president, Mrs. Wyatt, has expressed a desire to visit our auxiliary in the near future. This should be a stimulus for all members to be present at each meeting and to encourage others to join us. —Reporter.

TAHOKA W. M. S. MEET WITH BETHEL CHURCH

The Baptist W. M. S. of Bethel Church with Mrs. L. M. Nurdyke, as president was hostess to a group from the Tahoka W. M. S. on Monday afternoon.

The visitors, led by their president Mrs. Garland Pennington, rendered a program from "Royal Service", covering fifty year of foreign mission work. Besides Mrs. Pennington who conducted the devotional, the following Tahoka members participated in the program: Mesdames R. C. Wells, W. H. Kinley, Wylie Fortenberry, J. W. Nelson, H. M. Snowden and Miss Margaret Preston. Other Tahoka members attending were: Mesdames J. L. Nevill, George A. Dale, Carl Owens, P. W. Goad, Guy Stroud, A. O. King and E. I. Hill.

DRAW MISSIONARY SOCIETY MEETS

The Draw Missionary Society met at the Church on Monday, October 10.

Mrs. Jack Thompson directed the of the first and second chapters of the Book, The American City and its Church.

All members are asked to attend: These lessons are very interesting.

Present Monday were: Mesdames Jack Thompson, C. C. Jackson, W. T. Luttrell, R. R. Luttrell, John Berry, A. E. Proctor, A. E. McDaniell, and Wes W. Caswell. — Mrs. W. T. Luttrell, Reporter.

Miss Sallie Callaway of Fort Worth left Thursday to visit relatives at Abilene, Wichita Falls, and other places after spending a few days here with Mr. and Mrs. J. K. Callaway. She is a niece of Mr. Callaway.

REDWINE BAPTIST CHURCH BUILDS S. S. ROOMS

The members of the Redwine Baptist church are launching a campaign to build three Sunday School rooms as an addition to their church building. The money is now being raised and building probably will be started in a few days. The rooms are each to be 10x14 feet in size and are to be built on to the back end of the church according to Mrs.

John Berry, one of the most active members.

Rev. J. W. Braswell of Lamesa, who has been pastor of the church for many years, has been ill the past few months and suffered a stroke of paralysis in August. He is improving, however, and it is hoped that he may be able to fill his appointments again before long.

Rev. Herschel Hinkle of Lubbock filled the pulpit last Sunday morning, Mrs. Berry reports.

College Students Discusses New Developments

Miss Mildred Cox of Three Lakes, who is a student in the North Texas State Teachers College at Denton, recently prepared and read a paper before one of the organizations of that institution in which she discussed some of the marvelous scientific developments that seem

to be just around the corner. This paper at least shows what many of our college students are thinking about and it is probable that most of their dreams will in time come true. A copy of the paper has been furnished the News for publication. It follows:

Probable Scientific Developments.
The research laboratory is trying to improve methods, improve products, and branch out in new directions. And one thing you learn in such a laboratory—a thing the general public doesn't realize—how fast these changes are coming, how swiftly the frontiers of our knowledge are being extended.

What is now a rare chemical in laboratories may some day keep you from dying. Because of a new way of burning fuel we may live in entirely different types of houses ten years from now. Because of a new metal contraption we may have fresher fruits and vegetables brought to our homes. A new use of heat may some day restore children to health.

We probably wonder just how these things will be developed. But if we knew the answer we would be doing them right now.

At present, shipping vegetables from Arizona to Boston is quite expensive. A car is loaded and iced. On the way north it will probably have to be iced again. This is very expensive and takes a lot of time. A gasoline engine with air-conditioning arrangement would solve the problem. But this can't be done because of the great danger of gasoline. Suppose some one should develop an engine without the disadvantage of the gasoline engine.

Two things have held back the air-conditioning of houses. By that I don't mean simply air-cooling but truly air-conditioning: 1. Lack of suitable power plant, and 2. Queer and defective building of homes before air-conditioning was thought of.

If we can solve the first problem the second will take care of itself, but how? By rebuilding two-thirds of the American homes within the next fifteen years. By 1950 people will be no more willing to live in 1938 houses than they are to drive 1925 cars now.

The unemployed? We shall need more extra men to do the work than the millions now on relief rolls.

Such are the things we as young people have before us, yet we complain that all the work has been done, all inventions made. We should quit being afraid of the future. Change is the law of life.

Thirty years ago, electrical people knew a self-starter could not be developed, yet we see what has happened.

When motor cars were first coming in, 17 days were required to paint a car. The manufacturers finally cut it to 13 days. But Kettering said "That isn't enough. It should take an hour." They all thought he was crazy but that didn't stop him. Later he saw a curious sort of paint in a cheap shop and traced the maker of it to a little shop in New Jersey. He explained to Mr. Kettering that it would be impossible to use the paint for cars because it dried too fast and that it was impossible to make it dry slower. Then he remembered that the manufacturers said that it was impossible to make their paint dry quicker, so he got the two together and in less than two years had the answer.

What is the most important research problem now? "To find out why grass is green." May be this won't be solved during our life time but it is probable that some day this will be solved because it is the fundamental problem of man's existence on earth. Some little engine in the green of grass and leaf has the mysterious gift of capturing energy from the sun's rays and storing it. If we knew that

Contour Rows Conserve Water

Contour tillage supported by terraces where necessary, holds practically all the water where it falls on the land and permits moisture to soak into the soil for use of growing crops. Residues and trash from crops provide effective protection from wind erosion. Contour rows in this field on a Soil Conservation Service demonstration project are full of water several hours after a heavy rain.

secret we could build enough engines to transform enough radiation from the sun into heat or chemical energy or electricity to run our machinery. Then the conservation of our natural resources would not be so important as it is now.

When people say that depression and unemployment are caused by "too much science and invention" they forget that there are two kinds of inventions, labor-saving inventions and labor creating inventions. They think only of labor-saving devices, forgetting that the other kind have created millions of jobs in industries which didn't exist 30 years ago.

Any book-keeper can understand the labor-saving inventions, but only a man of imagination can understand a labor-creating one. We are told that the depression cost us billions of dollars, and yet a billion dollars a year would keep 500 or 600 research laboratories going full time, turning out ideas which would develop into new industries to stay off depression. We haven't enough trained men now, but if we had, and this plan were carried out for a few years, there would be a

"Help Wanted" sign on every factory door in America; and after all, that's what we want.

SPONGE CAKE SHOW

One hundred three sponge cakes were exhibited at the Home Demonstration Clubs Cake Show October 15 at Tahoka in the J. K. Applewhite building.

Miss Lida Cooper, District Agent, judged the cakes. Miss Bess Edwards, Assistant State Home Demonstration Agent, attended.

The Home Demonstration Council gave first, second and third place prizes to the clubs winning the most points at the show. Tahoka won first; New Lynn second and Wilson third. Grassland, T-Bar and Hackberry were close to third place scoring.

Educational exhibits "Cakes For Special Occasions" were displayed by the following clubs: Grassland, Hackberry, Midway, New Lynn, O'Donnell, Tahoka, T-Bar, Three Lakes, and Wilson.

Pay up your subscription to The Lynn County News now!

MIDWAY H. D. CLUB MEETS WITH MRS. LITTLEPAGE

The Midway Home Demonstration Club ladies met with Mrs. R. L. Littlepage, Oct. 17, to study the selection and hanging of pictures.

Miss Lilith Boyd Home Demonstrator said "one's ability to select pictures depends on study or association with good pictures."

A reproduction is a better selection than an original, the originals are generally expensive.

Remember not to use oil paintings and water colors in the same room, it is better to have the plain wall than something not appropriate or that we do not appreciate.

The average living room should contain no more than three pictures one dominating picture.

The frames be such that will not detract from the picture.

Use blind hangings for small pictures, hang at an eye level when standing, and where it will seem a part of the furniture below it.

If the room contains modernistic furnishings hang the picture at eye level when seated.

A large picture is hung from the moulding or border with perpendicular hangers, place pictures against the wall.

There were five entries, containing an acid and a non-acid food in the Ball jar contest. Mrs. Rufus Slover had the best entry.

Members present were: Mesdames John Thomas, Sam Floyd, I. M. Draper, Rufus Slover, and R. L. Littlepage.

What Do You Mean VITAMIN?

Vitamin A.

An important aid to the respiratory, digestive, and urinary tract membranes. Often called "Disease resistance" vitamin.

Vitamin B.

Stimulates appetite and prevents pellagra and nervous disorders.

Vitamin C.

Of particular use in defective tooth development.

Vitamin D.

The 'sunshine vitamin' prevents rickets. Important in the formation of strong teeth and bones. Of special value to children and expectant and nursing mothers.

Vitamin E.

Plays a role in normal reproductive function.

Let us supply your Vitamins at reasonable prices.

THE PATHFINDER

is the one and ONLY publication with the knowledge, experience and courage to give you every week the first-hand, inside information which is positively necessary for you to have. It is the ONE publication which is under no obligations to the big moneyed interests or Czars of trade—none of those fatal tie-ups with the selfish cliques who gamble in the very life blood of the people. That's why the Pathfinder is in a position to tell you the unvarnished facts in the plainest possible English. You can depend on every word it says—and there is no substitute for reliability.

EVERY WEEK FROM WASHINGTON, D. C.

Washington is now the news center of the entire world. It is the one place in the country where a strictly unbiased and reliable publication can be issued. That is why the Pathfinder is located there. The same clear sighted vision which led to the selection of the National Capital as the home of the Pathfinder over 40 years ago is the backbone of every single issue of the Pathfinder today.

It is our privilege for a limited time to offer you at a greatly reduced bargain price the greatest and most popular national weekly—The PATHFINDER—together with THIS PAPER, both a full year—52 weeks—for

WE DELIVER

ELDER DRENNON'S NOTES

And still the beautiful weather continues. Where does California excel us? O yes, we have a few sandstorms in the spring, but why bring that up?

I spoke yesterday morning on "Seeing the Best". Think what it would mean if all of us would look for the best in people and things. The faultfinder and knocker are a greater menace to our country than the communist teaching here. I am training myself to look for the best in people and then commend instead of condemn. I guess some of you who have been reading my articles will think otherwise.

There are two kinds of criticism, constructive and destructive. I believe in the constructive kind; by it we are helped and without it we will not improve much, but it is hard to take. I was handed some yesterday by the officers of the church and had to get out and think it over before I was benefited by it. The sad thing is that too many will not receive it as they should in order to get the benefit.

In keeping with the above remarks I will answer the editor's note of last week. No, Editor Hill, I do not want you to be insincere or to face about either, but I have just been thinking if you might not see some good in Brother Lee O'Daniel and give us something along that line, as I don't think I have seen anything along that line yet, but maybe I overlooked it.

Glad to say that as I write these lines I hear the sound of the hammer and the saw, which has not been heard as often the last few years as they should. As I went to Lubbock yesterday, I could see improvements being made all along the way, which reminds me that West Texas is coming to the front fast, and I am glad that I live in this fine country. In fact, it is the best part of Texas.

In addition to preaching here, I will preach at Newmoore at 3:00 p. m. next Sunday.

Yours for more people who will give flowers to the living as well as the dead, or who practice pre-in-stead of post-mortem praise.—R. P. DRENNON.

Ed. Note: Well, we will say a good word for Brother O'Daniel: He is probably a much better man than the editor. And when we find out something real good about him, we'll mention that too.

METHODIST CHURCH NOTES

(Ben Hardy, Pastor)
Friday night, October 21, at 7:30 our fourth quarterly conference will be held at the church. We are approaching the end of the year and are very desirous of rounding out in good shape.

Be in your place next Sunday at 9:45 for Church School and then for the preaching services.

A male quartet was much enjoyed Sunday morning. Messrs. Patterson, Patterson, J. Fred Bucy, and Clyde Sargent.

A solo Sunday night, by Jim Ed Poer. Jim Ed sings like a mockingbird.

Mr. and Mrs. A. N. Norman of El Reno, Oklahoma, spent the weekend here visiting relatives. They were accompanied by Dick Dickson, who came to see friends. Mrs. Norman was the former Miss Audra Mae Aycox.

J. W. Russell of Slaton and his son-in-law Moman Johnson of Ralls were here Sunday visiting relatives. Both formerly lived here but moved away several years ago.

DRAUGHON'S COLLEGES

Lubbock, Wichita Falls, Dallas, Abilene, Texas

POSITIONS: Every week brings good positions, increased incomes, and inspiring promotions to Draughton-trained young people. Moderate rates; convenient terms; and opportunity to earn part of expenses to limited number. Call, phone, or write at once for full particulars. (Also teach by Mail.)

**Weary?
Not now!**

... thanks to Black-Draught. Often that droopy, tired feeling is caused by constipation, an everyday thief of energy. Don't put up with it. Try the fine old vegetable medicine that simply makes the lazy colon go back to work and brings prompt relief. Just ask for

BLACK-DRAUGHT..
"An old friend
of the family."

Lynn County

[As Revealed by the Files of the Lynn County News of October 17, 1913.] History

Woods Ship Maize
Tahoka has already shipped 75 cars of maize heads and Percy Woods of Hubbard, who has bought 30 of them and shipped down to his part of the state, says he will ship at least 50 cars more before the season is over. Mr. Woods has bought and shipped two cars of baled sorghum at \$10 per ton, and if it does not rain too much 8 or 10 cars more will be shipped from here.

Three Gasoline Pumps in Tahoka
The Thomas Bros. Drug Co. has installed a gasoline pump this week, making the third one for Tahoka. The Tahoka Hardware Co. got theirs first, then came the Parkhurst Broken \$ Store, and now Thomas Bros. Drug Co. Who will be next?

South-Bound Train Stalls
Wednesday afternoon when the south-bound train got a few miles this side of Slaton the engine began to give out on them and they had barely enough steam to get back to Slaton on. This train should have been in Tahoka by four-twenty, but did not get in till six-forty. They brought down nineteen freight cars besides the two coaches when they did come however.

Slover Buys Flock of Sheep
C. W. Slover of two miles south of Tahoka arrived home Friday of

last week with 400 head of sheep which he drove through a distance of 70 miles in five days. Mr. Slover has an ideal ranch for sheep; plenty of grass, water and dry rocky hills, and with muttons selling at \$5 a head he should have no trouble making good.

Post Office Moves
Last Saturday night the post office fixtures were moved from the old wooden building on the north side of the square, where it has been for years, to the lower floor of the new A. D. Shook building at the corner of Main and Harper streets. Jack Alley, the postmaster, is arranging everything so as to be able to handle the work expeditiously and accurately.

Takes Exhibit to Dallas Fair
W. J. Crouch left on the Tuesday morning train for the Dallas Fair where he will have charge of the Lynn County exhibit that was shipped Monday. We have a splendid exhibit.

O'Donnell Wants Station Agent.
Wednesday morning the town of O'Donnell shipped out on the north bound train four cars of maize, one of cotton seed; and another car we did not learn what it was. Six cars on one train is not so bad. No wonder they are clamoring for a station agent. It is reported that

they will get one too in a few days.

Nine Inches of Rain
For the month so far we have had 9.85 inches of rain. These rains we are having now are damaging feed stuff and cotton, but the water is soaking deep into the soil and will help out wonderfully next year.

Slaughter Ships Steers
Tuesday afternoon 450 head of John B. Slaughter U lazy 8 steers were loaded at the stock pens here and shipped to Fort Worth.

Ships Cattle to Kansas City
Seventeen cars of cattle were shipped out of here Thursday night for Kansas City by Billy Brandon and Box Cathey. The train that took them out had thirteen cars from Lamesa also.

Dr. Windham Has Fine Bulls
About the end of this month Dr.

Less trying days!

MONTH in, month out, many women and girls obtain two-way benefit from Cardui. It aids in building up the whole system by helping women to get more energy from their food—and so increases resistance to the strain of functional periodic pain. Try it!

CARDUI

S. H. Windham will put 49 or 50 show purposes. He expects to take whiteface bull calves into a pen some prizes with them at the National Stock Show in March.

SLATON CRUSHES
TAHOKA 28-0

A strong Slaton High team overpowered the Bulldogs by 28 points on the Slaton High field.

The Slaton team was heavier, but they won the game chiefly on reverse plays and reserve strength. Dyer and Minor reeled off some good runs but the Bulldog line was overpowered by a heavier Slaton line.

The Bulldogs tried to Complete several passes but most of them fell incomplete; therefore end runs made most of the gains for Tahoka.

Alvin White, a Bulldog guard, was forced to leave the game in the second quarter with a bad leg and a cut through his lip.

Earl Adams was injured in the second quarter but stayed in the game until the end of the third quarter.

There were very few substitutions for the Bulldogs and most of the starting lineup finished the game.

J. H. Dyer a Bulldog halfback, also suffered an injury in the Slaton game. His left hand was badly swollen and possibly broken.

The Home Economics girls are helping to put money into the Home Economics treasury for the department improvement. They prepared and served a dinner to twenty women at the American Legion Hall Thursday night.

The girls contributed old clothes for a rummage sale which was held Saturday.

LIBRARY CLUB

The Librarians met Tuesday October 11, and formed a Library Club. The first thing that took place was the electing of officers: The following were elected: President, Mary

Bland Wells; Vice-President, Jennie Reba Nevill; Reporter, Betty Sue Roberts; Secretary & Social Chairman, Greta Applewhite.

This is the first club of its kind to appear in Tahoka. The purpose of this club is to help students in their need of books. The students can cooperate and help us in many ways and we know that they will, because we plan to cooperate and serve them the best we can.

The following are librarians: Greta Applewhite, Mary Bland Wells, Jennie Reba Nevills, Betty Sue Roberts, Ida Botkins, Ouida Weathers, Johnnie McClintock, Vasti Warren, Frances Jane Mitchell, Lenora Anglin, Kathleen King, Dorothy Kahl, and Alice Holcomb. Sponsor, Miss Simpkins.

PUPPIES FALL BEFORE
BROWNFIELD CUBS

The Tahoka Puppies met the Brownfield Cubs last Thursday afternoon at 2:15 on the local gridiron for four quarters of infant football. The Pups outweighed the Cubs as a team but lacked the experience that the Cubs possessed.

In all possibility this Puppy team of "1938" will become the District Champions of future years.

Although inexperienced the opposing teams played football to the best of their ability.

This game is one of the series of games to be played between Tahoka and the teams or surrounding cities this season.

These Puppies are going to have all the advantages that this school and Tahoka can give them. They are going to compose a team that has influence, backbone, and determination.

Citizens of Tahoka and surrounding villages, as well as students in Tahoka Public Schools, we, in order to have a football team must start them out young and back them. If the right spirit can be started in the grades among future players, then we will possess a football team that any one would be proud of.

Folks, for Tahoka's future football name, back the Pups, for they are going to bear Tahoka's colors in the near future.

Come and see their next game. At what time or with whom the game will be played is, at present unknown, but you will be notified.

ECONOMICS NEWS

The court session which has been going on the past week in the Economics class came to a close Monday October 17, 1938 with the jury finding the defendant guilty. The case was that D. F. Reddell osculated Isaphene Stephens on the night of September 30, 1938 when the Economics class went to O'Donnell on a skating spree. The prosecuting attorney for the defendant was Travis Shelton; the lawyer was Paul Cox. The State prosecuting attorney was Doris Laverne Lawler. She was assisted by the lawyers Laura Jane Milliken and Frank McGlaun. Real court procedure was used throughout and there was reasonable order in the court room until the last day when the judge, James Bearden, exercised his lungs by calling order in the court. The verdict decided on by the jury was fifty years of hard labor at Tahoka High School.

ADVICE TO THE
LOVELORN

Donnie, why not make up your mind about who you come to visit at Tahoka High School. You've got us all a wondering. You come up here with Jean and you say you've come to see Frank yet all of your attention goes to Finis.

Students, don't you ever get tired of school? There were three cars of you behind our football bleachers Sunday nite. Some of you boys wouldn't fight with the O'Donnell boys. Was it because you were at school or because you were afraid?

Poor Runt, I don't see why you put up with your brother, Coots.

Poor Coots, why would anybody have to be punished by having a brother like you have?

The Freshmen have two chips off the old blocks. But there is nothing like an early start off for a Cooper and a Dyer.

Don't you wish you had taken my advice and pleaded guilty. D. F. Now it has been proved which makes it all the worse.

Students, if you are ashamed of something you've done or do not want your Mom and Pop to know about it, then let me know before this report goes in and do not come around to fuss at me after it's already in the paper.

Mr. and Mrs. C. A. Thomas returned Tuesday afternoon after nearly four weeks spent in Galveston, Houston, Corsicana and Dallas. Going down to Galveston to enter their son, Skiles, in the State Medical College there, they were accompanied by Mrs. Thomas's mother, Mrs. S. J. Harris, who visited in Dallas and returned home with them. Mr. and Mrs. Thomas say that they had a wonderful trip but are glad to be back home. By the way, Mr. Thomas says that Skiles did his first day's work in the Medical college on his twenty-first birthday.

Miss Billy Rowland of Tahoka, a graduate of the Tahoka High School in 1937 and now a sophomore student in McMurry College, Abilene, was recently pledged by the T. I. P. Sorority in that institution. Last year while a freshman she was elected to the Whataysee.

Robert Holloway, sophomore student in the Agriculture division of the Texas Tech, was here Friday and Saturday, spending Friday night with his parents, Mr. and Mrs. E. W. Holloway at Redwine. Robert says he is delighted with his work in the Tech.

Mrs. E. N. (Mother) Weathers who has been very ill is able to be out again to the delight of her friends.

I enjoy housework!

To enjoy work, a woman must feel well. Cardui aids in building up the whole system by helping women to get more energy from their food—and so increases resistance to the strain of functional periodic pain. Try it!

CARDUI

NOTICE OF SALE OF REAL
ESTATE UNDER EXECUTION

The State of Texas County of Lynn:

In the Justice Court of Precinct No. 1, Lynn County, Texas.

G. E. Lockhart, Plaintiff Vs R. W. Lewis, Defendant, No. 222.

By virtue of an execution issued out of the Justice Court of Precinct No. 1, Lynn County, Texas, on a Judgment rendered in said court on the 17th, day of January 1938, in favor of the said G. E. Lockhart, and against the said R. W. Lewis, I did on the 22 day of September A. D. 1938, at 10 o'clock A. M. levy upon the following described tracts and parcels of land situate in the County of Lynn, State of Texas, to wit: All of the SW 1/4 of Section No. 473, in Block No. 1, E. L. R. R. R. Co., original grantee, and containing 160 acres of land; also all of Lot No. 2, in Block No. 64, of the North Tahoka Addition to the town of Tahoka, Lynn County, Texas levied on as the property of R. W. Lewis, and on the 4 day of November A. D. 1938, being the First Tuesday in said month be-

tween the hours of ten o'clock A. M. and four o'clock P. M. on said day, at the court house door of said county I will offer for sale and sell at public auction, for cash, all the right title and interest of the said R. W. Lewis in and to said property to satisfy said judgment. Interest and cost.

Dated at Tahoka, Texas, this the 22 day of September, A. D. 1938.
B. L. Parker, Sheriff Lynn County, Texas.

Mr. and Mrs. W. G. Lyons of Galveston came in Sunday to spend a few days with their niece, Mrs. Lenore M. Tunnell.

SCHOOL OF NURSING

Tahoka Defeats Lamesa Team

Tahoka defeated Lamesa on the gridiron Thursday afternoon, believe it or not!

But the game wasn't between the high school elevens.

Tahoka grade school "Pups" won 13 to 0 over the Lamesa grade school "Little Tornadoes".

This was the second game for the local grade school boys, they having lost to Brownfield recently.

Former Resident Has Broken Leg

Word came to Tahoka that Mrs. C. B. Grissom of Lamesa better known here as Miss Reta Lols Colenback, fell Tuesday and sustained a serious fracture of one leg. Her back gave way, it is said, while she was carrying her baby. Further details of the accident are not known here.

Mrs. Grissom is the daughter of Mrs. J. H. Colenback of this city and is a graduate of the Tahoka high school. She was reared here.

Paul Casebeer and James Foster, who are students in the New Mexico Easter Junior College at Portales are each making excellent records, according to reports received by Mr. and Mrs. L. P. Craft. The Tahoka Rotary Club made it possible for Paul to enter school, having created a fund to be used in this way.

Little Thomas Deen Nowlin, 3, son of Mr. and Mrs. Deen Nowlin, either fell or jumped from a swing Monday night with painful consequences. He sustained a cut on the chin which required three stitches to close.

Robert Maddox, who is employed in a Midland drug store, is here this week visiting his parents. Robert is planning to re-enter the State University at Austin after Christmas.

Mrs. Martin Nichols, daughter of Mr. and Mrs. Bartlett, was released from the hospital in Lamesa and brought home Tuesday. She had undergone a major operation a week before.

Mr. and Mrs. J. O. Jones of Lubbock were here Sunday visiting Mr. and Mrs. W. T. Clinton, and their son, R. B. Jones and family. Mr. Jones is the W. P. A. director for this entire south plains district.

The Dallas Semi-Weekly Farm News and The Lynn County News, both papers, one year for only \$1.50.

Glass Was Discovered on the Coast of Palestine

The origin of glass is lost in myth and romance but there are many legends told in regard to it. One of these credited to Pliny, notes a writer in the Los Angeles Times, is that it was accidentally discovered by some Phoenician merchants who landed on the coast of Palestine and cooked their food in pots supported on cakes of niter taken from their cargo. They were greatly surprised to find this solid matter had become a fluid and mingling with the sand had produced a transparent substance now called glass. Cold fact says the temperature of the fires could not have been great enough to melt the sand, but science has ever had a way of interfering with romance.

America began its story of glass before the Pilgrims landed at Plymouth Rock. A glass house was established in the English settlement at Jamestown, Va. This was the first factory built on this continent. Its first products were bottles. Later a considerable trade was established with the Indians in supplying them with colored beads with which they were greatly enamored. Years later glass factories were established in Massachusetts, New York and other New England and mid-Atlantic states, but it was not until after the American Revolution that the glass industry really took root here.

Over three centuries have passed since the first rough bottles were produced at Jamestown. Today we take all manner of glass products as a matter of course which in the early days of the industry would have seemed impossible to produce.

Three Methods Are Used in the Curing of Pork

There are three methods of curing pork—the sweet pickle process, the dry salt method, and the dry cure, states a writer in the Chicago Tribune. In the first, used for hams, the meat is soaked in vats containing salt brine, a sweetening agent, and nitrate of soda. The cure requires 20 to 75 days and a constant temperature of 36 to 40 degrees must be maintained.

The second method consists of putting layers of salt between piles of meat. The third is used largely for bacon and consists of soaking the meat in a light brine containing sugar and nitrate of soda. To finish off the cure the meats are placed in smoke from burning hardwood which adds to the flavor and color.

The salt used prevents spoilage, the sugar offsets the taste of the salt, and the nitrate preserves the color.

Lard is made from hog fat, either by boiling in an open kettle or through a steam pressure method. It is cooked, filtered, and chilled, the cooking separating the meat fibers from the fat. The remainder, cracklings and tankage, is used as stock and poultry feeds.

Subscribe now to The Lynn County News, your home paper, only \$1.00 a year.

MARJORIE WELLS ON THE AIR SATURDAY

Miss Marjorie Wells of Tahoka takes part in a radio broadcast over WBAP Saturday morning, Oct. 22. The program will be broadcast from the auditorium of John Tarleton College at Stephenville.

Miss Wells is a member of the Tarleton chorus which will render several numbers. The program is a regular monthly feature.

Aubra Cade is tearing down his old barns and building new ones out on his farm in the Morgan community, according to his wife. He is preparing to take care of this wonderful feed crop.

In cooking red and white vegetables such as beets, cauliflower, etc., cook with container covered as this holds the acid in and the vegetables retain their color.

Rosebud seed planted in pots now will come up in the spring and be large enough to transplant to the yard in the fall. They grow from 10 to 20 inches the first year.

Cochran, county girls find that eating a raw carrot each day from their cold frame gardens helps keep their complexions free from blemishes.

Polar Eskimos Friendly

Polar Eskimos are a friendly, happy people who live farther north than any other human beings. They rove the Arctic from Greenland to Alaska. Skin tents are their habitation during the brief summer; snow igloos their winter homes. Their food, save for a few birds' eggs and berries, is exclusively flesh—the seal, bear, fox, whale, walrus and reindeer being the provender. They are prodigious eaters, hence their plumpness and perhaps their good nature.

Silver Whitest of Precious Metals Silver is the whitest of precious metals. It is susceptible of a lustrous polish and has excellent working qualities. In its pure state it is too soft for uses wherein it is subject to wear; so it is usually alloyed with copper. The terms "sterling silver" and "coin silver" indicate alloy proportions. Sterling silver is alloyed in proportions of 925 parts pure silver to 75 parts copper. Coin silver contains 900 parts pure silver to 100 parts copper—this is the standard for United States coinage.

New Lynn Youth Injured By Wire

Thomas Young, about 19, son of Mrs. J. O. Young of New Lynn community was lacerated in many places on the left arm, shoulder, back, and other parts of the body Monday, when a horse which he was riding became unmanageable and ran through a barbed wire fence with him.

The wounds were dressed by a Tahoka physician and apparently are healing satisfactorily.

1939 FARM PROGRAM

College Station.—With Texas Agricultural Conservation Association committeemen and state AAA workers back to their Texas A. and M. College headquarters after a regional conference in Fort Worth, field men went to work this week on a simplified farm program for 1939.

Chairman George Slaughter of the state committee said the bulk of 1938 cotton acreage allotments will be calculated and sent to the farmers by December 1, well ahead of planting time, and in broad contrast to the situation which aroused criticism last year.

Because of late amendments to the farm act of 1938, allotments this past spring could not be calculated until April 7, or after most Texas cotton had been planted. Slaughter observed.

"Getting allotments to farmers around December 1," he said, "will give farmers the benefits of full facts before the marketing quota referendum, expected to be set in the forepart of December."

County Superintendent H. P. Caveness reports that the Midway school dismissed last Friday for a period of two weeks to permit the children to help gather the cotton crop.

Mr. and Mrs. Melton Leslie came in from Dallas two or three weeks ago for a prolonged stay. Mrs. Leslie is better known here as Miss Fern Aycox.

SCHOOLS MAY CLOSE ITCH and IMPETIGO among the pupils. Stop ITCH or IMPETIGO CONTAGIOUS SORES at once with BROWN'S LOTION. You can't lose; this liquid-antiseptic is sold and guaranteed.

WYNNE COLLIER, DRUGGIST

Mrs. E. J. Nolen, who underwent a major operation in a Lamesa hospital two weeks ago, was able to be brought back to her home here Monday.

Two negroes were arrested and placed in jail Saturday on complaints of forgery. They attempted to pass a forged check at Hogan's store, officers report.

Mr. and Mrs. B. H. Baker of Clovis were the Saturday night and Sunday guests of Mr. and Mrs. Yerner Smith and Miss Mary Servey.

Why don't you try Alka-Seltzer for the relief of— HANGOVER

Stomach Gas, Headache, Acid Stomach, Colds, Neuralgia, Fatigue, Muscular, Rheumatic and Sciatic Pains? Alka-Seltzer has a pleasant, refreshing, tangy taste. It contains an analgesic (Acetyl-Salicylate, a Sodium Salt of Aspirin) which relieves pain and discomfort, while its vegetable and mineral alkalizers help to correct the cause of those minor ailments associated with hyperacidity of the stomach.

At your drug store, at the soda fountain, and in 30c and 60c packages for home use.

Two Injured As Result Of Feud

A feud which has existed between members of related families in the neighborhood of the Wayside Filling Station twelve miles north of Tahoka for a number of months and which has heretofore resulted in two or three fist fights broke out anew on Friday, October 14. In the melee which attended a quarrel, Frank Raindl, 22, received a knife wound in the side. He was sent to the Mercy Hospital in Slaton where his wounds were dressed and treated. He was released at the end of three days. The wound has healed and no serious permanent consequences are anticipated.

In the same affray, Albert Novak, about 50, received a cut on the head which was dressed and treated by Dr. Prohl here.

A complaint charging aggravated assault upon Raindl was filed in the county court against Novak, who, on Monday of this week entered a plea of guilty to the charge. Judge Goad assessed the punishment at a fine of \$25.00 but the trimmings ran the total to \$48.10, which the defendant paid.

A complaint of simple assault had also been filed against Frank Raindl, to which he entered a plea of guilty Monday. Judge Goad assessed his punishment at \$5.00, total fine and costs amounting to \$28.10, which was paid.

Complaints charging an affray have also been filed against Frank Raindl Sr., Joe Raindl, and Jim Raindl in connection with the same fight, but these cases will probably be dismissed, according to County Attorney Rollin McCord.

The feud that has existed for some time between these parties grew out of differences respecting some family property, we understand. Novak, one of the parties involved, spent a short time in a state hospital for the insane a few years ago, we are informed.

Book Authors Are Known Here

Among the state text books adopted at the meeting of the state board of education last week were two readers written by West Texas authors.

"First Families of America", written by Miss Anne McDonald, who has been a member of the public school faculty in Amarillo for many years, was adopted for a period of six years as a reader in the fourth grade. Miss McDonald is a niece of A. L. Lockwood of this city.

"In Little America With Byrd", with Joe Hill and his mother Mrs. J. A. Hill of Canyon as authors, published by Ginn & Co., was adopted as a reader in the seventh grade for a period of one year.

Joe Hill, it will be remembered, accompanied Byrd on his trip to the south polar region a few years ago and was the youngest member of the party. Following his return, he appeared here and at many other places giving an illustrated lecture respecting the region of perpetual ice and snow.

Local Youth In Trouble Again

J. B. Price, who entered a plea of guilty in the district court here on Wednesday of last week and whose sentence was suspended by the kind hearted Judge, Louis B. Reed, is in the toils of the law again, according to Sheriff B. L. Parker.

He was arrested by officers in Wichita Falls Saturday night three days after he was released here, and was placed in jail on a charge of burglary committed in that city. Mr. Parker says.

In April of this year Price is alleged to have committed a burglary in California, for which he was later given a suspended sentence.

If Price should be convicted of the burglary charge against him at Wichita Falls, the Court here would be authorized to set aside the suspension order entered last week and sentence the defendant to the penitentiary.

Fire Chief Pete Coleman says that two engineers from the state fire insurance department were here one day last week making inspection of property in the city. Pete says they gave the fire trucks and other equipment of the city a clean bill of health.

W. D. NEVELS DIES AFTER BRIEF ILLNESS

(Cont'd. from page 1)
moved to Borden county. There, W. D. worked for some time on the MK Ranch. He served also for some time as a deputy sheriff under Tom Love, who was another outstanding character of this section of the state. Then W. D. was elected to the office of county and district clerk and served two terms. About the year 1900, the Nevells family acquired a ranch on the line of Lynn and Lubbock counties and moved upon the ranch soon afterwards, probably in the year 1901. They were residing there in 1903 when Lynn county was organized and W. D. had an active part in its organization.

In 1906 Mr. Nevells helped organize The First National Bank of Tahoka and became its first cashier. He has been connected with this institution ever since, either as a director or an active official. For many years preceding his death, he was vice-president. During all these years Mr. Nevells has also been connected with the ranching business, and in spite of occasional depressions and adversities he made a success of it. He has also been prominent in the political, civic, and social life of the county. About twenty years ago he became a member of the Baptist Church and during this time has contributed much to this institution and other worthy causes.

Having lived on the frontier practically all his life, Mr. Nevells never ceased to have the spirit of the pioneer. The rugged virtues of the typical pioneer were his to a

marked degree. Honest, frank, courageous, and out-spoken, he hated deceit and hypocrisy. He made no false pretenses. He professed no false friendships; yet possibly no man in Lynn county had more friends. These he appreciated keenly and they appreciated him. The better his friends knew him the more they loved him, for in spite of the rugged exterior that he sometimes exhibited he had a great heart as tender as that of a child. He was a real man.

It was in June, 1907, that Mr. Nevells was married, the girl of his choice being Miss Annie Moore of Lampasas. She has been a most faithful companion and helpmate through all these years. She and two daughters are left to mourn his departure. The daughters are Ruth, now Mrs. L. O. Sparks of Tahoka, and Willie Lois, now Mrs.

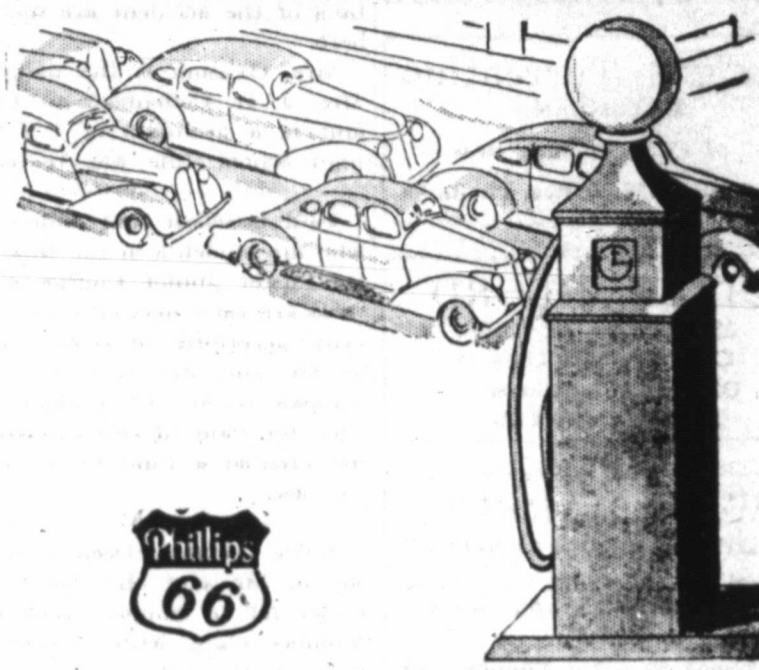

C. C. Hoffman of Slaton. Also surviving are one brother, Luther Nevells, a ranchman of Yoakum county, and one sister, Mrs. Dell Summerville, a teacher in Los Angeles. Mrs. Summerville was formerly well known here as Miss Maude Nevells.

The bereaved family have the deepest sympathy of a great host of friends.

Beauty Shoppe Is Redecorated

The interior of Jane's Beauty Shoppe has been redecorated throughout, which greatly helps its appearance.

A new coating has also been put on the roof recently, as well as on the roof of the adjoining building the News office.
