"I wholly disapprove of what you say but will defend to the death your right to say it."—Voltaire.

Volume XXXV.

Tahoka, Lynn County, Texas, Friday, October 28, 1938.

Number 11

Many Are Victims In Series Of Accidents

Boys Injured In Car Wreck

John Stokes of O'Donnell, about 14, was seriously hurt last Sunday night when a Hudson car driven by Tex McLaurin turned two or three somersaults on state highway No. 9 six miles south of Tahoka. McLaurin, the driver, also about 14 years of age, was practically unhurt. The car was almost utterly demolished.

The two boys were coming north in the car of county commissioner Waldo McLaurin, father of the car driver, and were just rounding the curve at this end of the lake which lies across the old highway at this point, when young McLaurin saw, or thought he saw, a post at or near the edge of the pavement ahead of him. He suddenly threw on the brakes with such force as to completely lock the wheels, according to his version of the affair and according to the opinion of those who inspected the scene of the wreck, and immediately the car began turning somersaults. Only the strength of the top, it is thought, saved the boys from instant death or fatal pieces.

A broken piece of wood protruding from the top of the tumbling car penetrated the body of young Stokes and ploughed its way along the colon, making a terrible and painful wound. The boy was brought by a passing Mexican to the office of Dr. Prohl in Tahoka for treatment, after which he was able to be returned to his home. An operation after a few days will be necessary, we understand, to assure the healing of the wound.

Two Children Badly Scalded

Ethel Gollihar, 14, and Freddy, 5, children of a transient family occupying one of the rooms at the Max Tourist Camp, were seriously scalded in their camp about 5 o'clock last Saturday afternoon as the result of an unavoidable accident.

Ethel, the daughter, was sitting on the floor preparing some beans for cooking and Freddy was on the bed. Mrs. Gollihar, who is partially paralyzed, had lifted a kettle of boiling water off the stove and was in the act of passing by Ethel when Freddy fell from the foot of the bed striking the kettle of hot water, causing almost the entire contents to be spilled.

Practically the whole back and one arm of the girl was badly scalded as was also one ear, a portion of the neck, and one shoulder of the little boy. The burns were deep, causing agonizing pain.

On account of their destitute condition, however, the parents did not call for a doctor. On Monday morning Rev. Geo. A. Dale, hearing of the accident and the family's plight, interested himself in the case, with the result that the county physician, Dr. Turrentine, went over and dressed the wounds and has been looking after the cases since. Mrs. Dye, we understand, has been nursing the cases.

The father, it is said, was picking cotton but was earning a bare subsistence for his family, and they are in a pitiable plight.

Mexican Drunks Are Arrested

When booze gets inside a Mexican, a Mexican is likely to get inside a jail.

Anyhow that is what happened to about twenty-seven of them in this county Sunday. At least, twenty-seven of them were arrested. Some of them might have paid off before being juggled.

The arrests were made at O'Donnell. The Mexicans had been picking cotton in that vicinity and at the week end they evidently met one or more bootleggers.

Man Is Attacked By Mad Polecat

Bob Cunningham, who resides just east of the railroad near the Santa Fe station, was the victim of a vicious attack by a polecat Tuesday night. He was severely bitten on the leg and in many places on the hands but finally succeeded in killing the belligerent little brute.

Dr. Turrentine was called to treat the wounds and he advised that the head be sent the Pasteur Institute in Austin for an examination to determine whether or not the animal was afflicted with rabies.

The attack occurred when Mr. Cunningham went out to investigate a disturbance in his chicken house. He could see the form of some small animal on the ground but in the darkness was unable to determine what it was. As he approached a little closer, the animal suddenly sprang at him, biting him on the leg. Mr. Cunningham grabbed it and it then began biting him on the hands. He began beating it with his fist and finally succeeded in killing it.

The doctor found the hands of the afflicted man badly lacerated. Mr. Cunningham has been suffering from tuberculosis for a number of years.

Joe Bovell Gets Finger Cut Off

Joe Bovell knows how it feels to get a finger cut off.

On Monday last week he was showing the boys how to operate a feed grinder and admonishing them not to push the fingers down too deep into the "innards" of the machine, when Wow! The thing had caught his own finger and ground off about an inch of it before one could say scat. Joe probably said some other things immediately thereafter, however. It was the ring finger on the left hand but luckily Joe was not wearing his big diamond ring that day. After perusing the wreckage for a few minutes Joe naturally decided that the best thing to do was to come to town and get a Tahoka doctor to patch it up. The doctor did patch it up nicely but held out no hope that a new tip could be grown on the stub.

All that was bad enough, but the worst part came on Thursday, when the wound became infected and the inflammation and the pain became terrible. Other trips to the doctor have been made and the infection apparently has been brought under control, but the suffering that Joe has undergone is no laughing matter.

Sticking one's finger down into a feed mill while it is running is just about as unnecessary as stepping out onto the highway in front of an approaching car.

Tahoka Plays At Brownfield

Tahoka Bulldogs, the High School pep squad, and football fans journey to Brownfield this afternoon, where the former will play the Brownfield High School team at 2:30 o'clock.

Though the local team is in good shape for the game, the Terry county team is doped to be a better one. The Tahoka boys are expected to live up to their name of "game scrappers", however, which in itself will assure a good football game.

Commenting on a little item in the "25-Years Ago Column" in the News last week, R. C. Wood says that the feed he shipped from Tahoka to Hubbard City at that time was the cause of a number of families from that section removing to Lynn county. The abundance of fine feed attracted their attention and a little investigation resulted in their coming. They are still here.

Dan Hays Of Wells Is Dead

Dan Hays, 72, a resident of the Wells community for almost 19 years, died suddenly at his home at 12 o'clock Wednesday night. A stroke of apoplexy is supposed to have been the cause of his death. A physician was called when he became ill but he died before the physician arrived.

His wife, who is also 11, was down at Donna in the Lower Rio Grande Valley with a daughter for her health at the time of her husband's death. She had not reached home at the time our forms closed Thursday afternoon, and for that reason funeral arrangements had not been completed.

Mr. W. O. Robertson, funeral director, says it is probable that funeral services will be held in the Baptist Church here either Friday or Saturday afternoon, for burial will be in the cemetery here.

Further data as to his life and the circumstances of his death are unavailable at this time.

Draw Gin Plant Burns Saturday

The Thomas Brothers Gin at Draw was completely destroyed by fire at an early hour Saturday morning. The fire broke out in the feeders or the press at about six o'clock while the first bale of the day was being ginned. It spread throughout the gin almost instantly and completely destroyed the plant in about fifteen or twenty minutes. About thirty tons of seed were also destroyed.

After the gin had been practically destroyed a call came to the Tahoka Fire Department for help, as destruction of 125 tons of seed was threatened. A number of the boys responded, taking the truck, and got there in time to save the larger portion of the seed.

This gin belonged to Thomas Brothers of Grassland. It was a five-stand 80-saw gin and one of the best in the county. It was partly covered by insurance.

The Gin will be rebuilt.

SPEAKS TO SCHOOL BOYS

Rev. Geo. A. Dale spoke to the boys at the high school at 2:15 Thursday afternoon.

His subject was: How to Determine What is Right.

Rev. Ben Hardy Plans To Retire

Rev. Ben Hardy, pastor of the Methodist Church here the past two years, expects to be superannuated at the meeting of the Northwest Texas Conference next month, but he is planning to remain a citizen of Tahoka.

Except for some minor details, he has closed a deal for the Buford Swan residence and will make it his home. Many friends here will be delighted that he and Mrs. Hardy are to remain in Tahoka.

Brother Hardy has had a long and fruitful ministry in West Texas and he has numerous friends all over this section of the state. Both he and Mrs. Hardy have made many many friends here in the short time that they have been in our midst, and possibly they haven't an enemy in the world.

While it is regrettable that Brother Hardy is retiring from the pastorate of the church here, Tahoka is fortunate to have him and his good wife remain as citizens.

6,361 Bales Cotton Ginned In City

Ten gins in Lynn county, including five in Tahoka, two at Grassland, two at New Home, and one at New Lynn, had ginned 14,756 bales of cotton from this year's crop up to Thursday morning, according to reports given the News.

There are 16 other gins in the county. These include five in O'Donnell, three in Wilson, and one each at New Moore, Wells, T-Bar, Gordon, Hackberry, Hardberger, Petty, and Draw (recently destroyed by fire but to be rebuilt). A conservative estimate is that these sixteen plants have ginned in the neighborhood of 17,000 to 18,000 bales. It would seem, therefore, that approximately 32,000 bales have been ginned in the county, though this estimate may be a thousand or two, thousand bales too high.

The five gins in Tahoka had ginned 6,361 bales; two at Grassland, 3,843; two at New Home, 3,478; and one at New Lynn, 1,074.

It is believed that the crop this year will be somewhere between 50,000 and 60,000 bales.

Mrs. John Minor became ill the first of last week but is now very much improved, we are informed.

Lawrence Manager Of Lyntegar Project

Former Citizen Mutilates Self

Word reached Tahoka early this week that the Los Angeles woman who recently punched out one of her eyes and cut off one of her hands was the former Mrs. Pete Kelsey of this city, who resided here a number of years.

The Kelseys separated while living here. Mrs. Kelsey and the two children occupied a house situated near the Nazarene Church which was destroyed by fire about two years ago. She had left the children at the residence and was not at home when the fire broke out. She worked for a time at the sewing room. Something more than a year ago she and the two children removed to Los Angeles.

Mrs. Kelsey is said to have committed the rash act under the belief that she was doing the Lord's will. "If thy right hand offend thee cut it off, and if thy right eye offend thee, pluck it out" is the Biblical injunction which she is said to have interpreted literally. It is said that even while she was here she was a victim of strange impulses, experiencing periods of deep religious emotion. Newspaper accounts indicate that she was under the influence of deep religious fervor when she decided to expiate her sins, if any, by this form of self punishment.

School Board Asks WPA Work

Tahoka's school grounds will undergo extensive improvements next spring and summer, if plans now being made are fulfilled.

Tuesday the school board employed J. A. Pruitt, Big Spring engineer, to draw plans for building a football stadium, a bus house, levelling and landscaping the campus, and possibly other projects.

Whether or not the work will be done depends on the outcome of an application for WPA labor which will be filed in the near future. However, district WPA supervisors have given the trustees assurance of that organization's cooperation.

Tahoka's part of the project will be to furnish material for the work, and the board proposes to secure this from the old South Ward building and possibly the older portion of Central Ward building.

Absentee Voting Now Possible

County Clerk H. C. Story asks that we call attention to the fact that the period of absentee voting is now on. Any legal voter now in the county or temporarily out of it who expects to be out of the county on election-day may make application for a ballot and cast the same at any time between this date and November 3, Mr. Story says.

The ballots for Lynn county were printed in the News office and were placed in the hands of the county clerk several days ago.

OVID LUALLIN UNDERGOES OPERATION

Ovid Luallin suffered an attack of appendicitis Tuesday night. He went to a Lubbock hospital Wednesday for an examination and it was announced that he would undergo surgery Thursday morning. No further word has come from the hospital at the time this is written Thursday afternoon.

Mr. Luallin had suffered a number of light attacks of appendicitis heretofore. The Tuesday night attack was the severest one he had had.

Happy Smith and Wynne Collier went to Lubbock Thursday to attend a joint meeting of the Rotary, Kiwanis, and Lions clubs and to hear Senator Tom Connolly speak.

Electric Co-operative Will Headquarter In Tahoka

Upon approval of the appointment by Washington authorities, C. A. Lawrence, assistant county agent here for several years, will become superintendent of the Lyntegar Rural Electric Co-operative, Inc. His approval is expected within the next few days. His successor as assistant county agent has not yet been announced.

Mr. Lawrence's work as assistant county agent has been solely in connection with the various Government agricultural programs. He is capable and efficient and is believed to be eminently well qualified for the position to which he has been appointed by the Lyntegar board of directors.

Harry N. Roberts of Lubbock, who prepared the plans and specifications for the Lyntegar project, has been officially named as the engineer. John Heck of Wilson is president of the board of directors and Hon. Tom Garrard of Tahoka is attorney for the concern.

The project takes its name from the fact that it lies principally in Lynn, Terry, and Garza counties. One line will also extend into Hockley county.

Headquarters are to be in Tahoka, as this is the most central point.

It is hoped that actual construction work may begin about January 1.

It has also been announced that there will be some slight change in the work of the local county agent's office, but according to Mr. Jones and his assistant, Mr. Lawrence, such change will be confined to minor details, and about the same office force will be required as heretofore.

With 988 subscribers and 326 miles of electric lines extending into four counties at an estimated cost of \$304,000, the Lyntegar project is one of the largest of its kind in Texas.

Harley Sadler Coming Monday

Harley Sadler's New Stage Show, which appears here for two nights, brings many new features, and is considered one of the biggest and best companies that Mr. Sadler has ever carried. In addition to the regular line of vaudeville, orchestra and special plays, the company has contracted for Lew Childre, nationally known radio, stage, and recording star, with his River Recorders, famous radio band, which includes Wiley Walker, and his famous fiddle. Among other vaudeville features are: Mary Layne, acrobatic dancer; the Glendale Quartet; Jackie Phil singer and dancer; Munde and Jent, jugglers; Jean Oxford, singer and dancer; Colin, Jr., ventriloquist; Bob Silver, vocal soloist; The Musical Troubadour offer an entertaining presentation. Special scenery is carried for each play. Prices have been reduced, ten cents for the kiddies, twenty-five cents for adults, chairs fifteen cents extra. The show will be here for two nights only. Doors will open at 7:15 and curtains will rise at 8:15. The opening play will be "The Woman Tamer" and a new variation of "Trail Of Lonesome Pine" will be featured.

The company is playing under the auspices of the Tahoka Fire Department.

County Tax Collections Good

County Tax Assessor and Collector Aubra M. Cade says that tax collections are surprisingly good so far this season, far better than he had expected.

People are probably in better shape than they have been for several years with the possible exception of last year. Most people are good for their taxes when they have the money.

"ORPHANS OF THE STORM"

Fleeing a tornado near Clyde, Texas, parents of these babies were killed, their automobile tossed a quarter-mile away. Hours later a telephone lineman heard a child's whimper in a roadside ditch. There he found 3-year-old Jesse Donald Rutledge, water up to his chin, holding his 3-month-old brother Darryl's head above water. Relatives being unable to care for the orphans, Red Cross workers arranged a maintenance fund to support them until they are 16. A Texas college promised scholarships and ranchmen started a herd of cattle for their benefit. The Red Cross will help the boys make adjustments as they grow older.

REPORTS FROM THE COUNTY CLUBS

Miss Lilith Boyd, H. D. Agent

T-BAR DEMONSTRATOR IMPROVES LIVINGROOM

"We did all of the work in improving our living room and this reduced expenses", said Mrs. I. L. Johnson, living room demonstrator in the T-Bar Home Demonstration Club.

"I have a light background now. The woodwork has been refinished and the walls repapered. I added new shades and drapes. The linoleum rug was worn some and I varnished it. The cracks in the floor around the rug were rather wide but two coats of paint on it served as a filler.

"I refinished the radio table. The radio, wall clock above and a chair form one unit in the room.

"I made a wash stand into a desk by removing the rollers and the back portion standing above the top. The drawers had to be repainted. Two shelves made from new material were added on the wall above the desk. The desk, shelves and chair were finished to match. The upholstery in the chairs was made of the same material as the couch cover. Tones of brown were used in the background and a bit of bright colors in the furnishings."

Mrs. Scotty Groce and children spent Saturday and Sunday visiting relatives and friends at Andrews.

H. D. WOMEN REPORT IMPROVEMENTS MADE

"I added new drapes, rug and recovered cushions on my divan", said Mrs. Jim Dye at a meeting of the Tahoka Home Demonstration Club, in the home of Mrs. Garland Pennington, October 26 at 3:00 p. m.

"Mrs. Sam Holland reported having moved her living room and sanded the floor, added a new rug, curtains and radio.

"I revamped my French doors", said Mrs. A. M. Cade.

Mrs. W. S. Anglin had added a new couch and chair, and Mrs. H. L. Roddy reported a new two piece living room suite and rocker.

Mrs. P. W. Goad's improvement consisted of a new rug, picture and floor lamp. Mrs. R. W. Fenton added a rug and chair.

Mrs. A. C. Weaver re-finished her floor, added a rug and a set of encyclopedias.

Mrs. Garland Pennington, living room demonstrator, exhibited her improved living room.

Members present were: Meses. Russell Vernon, G. W. Forsythe, R. W. Fenton, P. W. Goad, H. L. Roddy, A. C. Weaver, Sam Holland, J. P. West, Garland Pennington, A. M. Cade, Jim Dye, W. S. Anglin, Milt Finch and Miss Lilith Boyd.

WINDBREAKS AND SWEET POTATOES

Mr. and Mrs. B. W. Baker of the Wilson community utilized the space in their windbreak this year by planting it in sweet potatoes. The windbreak was started in the spring with small trees; the potatoes planted between the rows of Chinese elm, red cedar and desert willow were cultivated and irrigated as the trees were. They have sold eleven bushels, other than the amount used at home and given to neighbors, and have one row yet to dig.

The sweet potato has a high fuel value. It is rich in proteins and carbohydrates. It contains iron, potassium and vitamins A, B, C and G.

WINS PRIZE AT DALLAS FAIR

Mrs. A. C. Weaver, member of the Tahoka Home Demonstration Club, was notified Wednesday morning that she had won third place on her entry of five jars of snapped beans at the State Fair in Dallas last week.

Accompanying the letter of notification was a beautiful white ribbon, properly inscribed, evidencing the third place award.

Of course Mrs. Weaver is very proud of the fact that among all the exhibits of this kind she was able to place third in the entire state.

ATTEND STYLE SHOW

Mmes. A. C. Weaver, Milt Finch, Jim Dye, Sam Holland, J. B. Oliver, H. L. Roddy, and J. O. Patterson, members of the Tahoka Home Demonstration Club, and Miss Lilith Boyd, C. H. D. A., attended the Style Show in Lubbock October 21 under the direction of Jane Aigen, Chicago Stylist.

Disasters Strike 41 States During Year

Red Cross Aids 420,000 Persons Following Catastrophes

That the past year has not been an easy one for the American Red Cross is shown in a recent report listing disasters necessitating Red Cross relief throughout the United States during the past twelve months.

The report reveals that 129 domestic disasters called for Red Cross aid in 247 counties of 41 states, and that assistance was given to 420,000 persons who were disaster victims.

"That this has been a very active year is obvious when one compares this year's operations with the average of 92 disasters requiring Red Cross aid annually for the past 15 years," Chairman Norman H. Davis said in commenting on the Red Cross Disaster Relief Service report.

These catastrophes included cloud-bursts, cyclones, epidemics, fires, floods, forest fires, hailstorms, mine explosions, a school bus accident, a shipwreck, tornadoes, typhoons, and wind storms.

"Disaster relief was the first humanitarian work of the American Red Cross after its organization in 1881," Mr. Davis said. "In the ensuing 57 years the flag of the Red Cross has flown upon every scene of major disaster in the United States. The Red Cross has carried relief—food, clothing, shelter, medical aid, rehabilitation of homes and families—to more than 2,200 scenes of disaster at home and abroad, and has expended over \$140,000,000 contributed by the American public in this work of mercy."

The Red Cross policies of relief, the national chairman pointed out, have been established over a period of years through actual experience of its workers in the field. Relief is given on the basis of need of sufferers—not of losses. Loans, he pointed out, are never made, but relief is a gift from the Red Cross in the name of its members and contributors to its work.

"It would not be possible for the Red Cross to carry out such widespread relief activities without the help of thousands of volunteer workers," Mr. Davis said. "Volunteers are the mainstay of the organization, and in the past year's work assistance from many cooperating agencies has made it possible for us to answer the many calls for help."

While relief was being given to victims of natural catastrophes, the Red Cross was not unmindful of the necessity for preparedness plans to meet emergencies that may arise in any American community. Red Cross chapters in hundreds of counties, have organized disaster preparedness committees charged with responsibility to map relief plans in advance of need, and to organize resources of communities to prevent duplication of effort and waste of materials when calls for help are received.

These plans are proving especially advantageous in localities subject to frequent floods, tornadoes, or hurricanes, and actual tests of such planning have demonstrated the necessity for such measures.

"The administration of such relief for disaster victims is made possible by annual memberships of millions of Americans in all walks of life," Mr. Davis pointed out. "The extent of Red Cross aid to such sufferers is entirely dependent upon unselfish sharing on the part of all of us."

Opportunities In Dairying Offered

United States Civil Service examinations are now being offered to applicants for positions in dairying under the Bureau of Indian Affairs, according to A. C. Weaver, clerk at the local post office and secretary of the United States Civil Service Board of Examiners here. The Lubbock post office is the nearest point however, where such examinations are being held. The following paragraph gives some idea of the nature of the employment.

Dairyman-Farmer, \$1,860 a year. Junior Dairyman-Farmer, \$1,500 a year, Bureau of Indian Affairs, Department of the Interior. Recognition college training, with major study in agriculture, is required; and certain dairyman and farming experience, except for the partial substitution of agricultural teaching experience, dairy herd improvement work or agricultural college graduation. Applicants must not have passed their forty-eighth birthday. The closing dates for receipt of applications are November 22, if received from States east of Colorado and November 23, if received from Colorado and States westward.

For full information see Mr. A. C. Weaver at the Tahoka postoffice.

NEW HOME F. F. A. INITIATES CHAPTER

The New Home Future Farmers met October 11 in order to initiate the Chapter. A committee was elected to initiate the other members, and after their election the advisor chose another group to initiate the committee. We went through the ceremony before the initiation started.

We played basketball for amusement, and the superintendent of the school, Mr. Carter, popped popcorn for the boys.

The reason for the initiation was to initiate Wilson on November 1. We plan to have a good program worked out for them.—Reporter.

Mrs. S. E. Whitehead of Slaton accompanied Mrs. W. T. Clinton back to her home here last Friday and spent the night with the Clinton family. Mrs. Clinton is an aunt of Mrs. Whitehead and had been visiting the latter there.

Red Cross Nurses Aid Million Sick

Red Cross public health nurses made more than one million visits to or on behalf of the sick during the fiscal year 1937-38.

The patients live in mountain communities, on islands off the coast, in isolated swamp regions, and in crowded industrial sections. During the same period the nurses inspected 659,187 school children for health defects in cooperation with local physicians, and gave instructions in home hygiene and care of the sick to 58,754 mothers and young girls.

Mrs. Mittie Robertson of Groesbeck spent a few days here this week visiting her brother, G. M. Duckett. She came out to Lubbock about two weeks ago to be with her son, who lives at Littlefield, while he was recovering from an operation in a Lubbock hospital.

woman is wise to men.
 Edwin, you must not let those gangster pictures scare you speechless. You ain't saying much lately.

Girls watch your bets with the boys on the Tahoka-O'Donnell game. Odean, you know some of your closest friends live in Scotland.

Lucille, it's better to love a short man than to never love a tall. Give Leta Frances enough rope and she'll try to pull something.

The only thing Mr. Harlow could get out of college was himself. Some people love to go to the movies and Mary Bland and Randall go to the movies to love.

Mrs. Hegi, you can improve the work of your cooking class by making them eat what they cook.

Clarence, just always remember that courtship makes a man spoon, but marriage makes you fork over.

Olga Faye, must you always reply, "Oh! he came for me but I didn't want to go", when they mention having a date the night before.

GRADE SCHOOL HONOR ROLL

First Grade
 Margaret Durham, Donald Barton Edwards, Dale Gandy, Wayne Hinkle, Laura Maye Howell, Veima Ruth Howell, Billy Jolly, Lola Fern Kelly, Doris Laverne Richter, Joan Slover, Jimmy Dumas Small, Willie Mae Willet, Gerald Whitaker.

Second Grade
 Laquita Anderson, Phil Barrington, Lewis Mack Bostick, Bobbie Louise Cowan, Jane Donaldson, James Hardy Eubanks, Sina Findley, Charles Fulkerson, Billy Travis Hanes, Frances Marion Haney, Mary Ann Jones, Vanita Merie McDonald, Eudelle McKee, Della Ruth McMillan, Barbara Jean McPherson, Bobby George Oliver, Wilburn Reagan, Wayne Sherrod, Roxie Lee Spruiell, Joretta Shawn, Savannah Lou Tunnell, Barbara Wells, Helen White.

Third Grades
 James Cleave Barrington, Jine Booher, W. L. Burleson, Leroy Clinton, Gloria Dyer, Lloydine Edwards, Opal Virginia Findley, Winfred Findley, Mildred Grubbs, Imogene Hargett, Joan Henderson, Mary

Lee Johnson, Duane Howell, Mavey Lee McMillan, Natt Parks, Leonard Richter, Ervin Ross, George Haurice Small, Charles Stevens, Alton Warren, Nancy Ray Weathers.

Fourth Grades
 Geraldine Frazier, Virginia Ray Jones, Irvin Lehman, Jeannine Smith, Ruth Evelyn Story.

Sixth Grades
 Dorothy Jean Applewhite.

ACTIVITIES OF THE GRADE SCHOOL

The first grades took an "Experience Trip," to the grocery store in correlation with several school subjects. They are also taking a great interest in football.

A Traffic-Safety moving picture was shown to the second grades. They too took an excursion trip as the culminating activities to their first six weeks work. They made their trip to the Curry farm for a study of farm life.

The third grades have made a study of Indians. The most interesting of the activities was the actual building of a miniature Indian village.

GRADE SCHOOL MUSIC PROGRESS AND PLANS

The first six weeks' music work of the fourth, fifth, and sixth grade children consist of learning to sing well many state, national, and folk songs—songs every child should know.

This six weeks more songs will be learned, song material will be more difficult. The majority of the fifth and sixth grade pupils will have "Tonettes" to learn to play. The "Tonette" a musical instrument made of bakelite, black in color, about nine inches in length, was built specially by music educators for children in the lower grades to test and develop music ability. Many parents would like for their child to take music but would like to know first if the child has ability or interest justifying an expenditure that a worthwhile band or orchestra instrument would mean. A "Tonette" provides this opportunity to the parent. The instru-

ment, made of bakelite, is not easily broken, is easily cleaned, has no keys to get out of order, plays eleven tones easily with good intonation, sounds much like a flute, and costs not over one dollar and fifty cents, including a very attractive music book. Should the parent decide later to give the child lessons on another instrument, piano, band or orchestra, the child will have nothing to "unlearn. The fingering on the Tonette is the same as saxophone or clarinet and the child will have learned much about reading music and playing with others. That alone will save parents dollars in music lessons later. In the classroom, where the work with Tonettes will go along side by side with singing, much necessary material is learned this interesting way. Reading music, playing with others, part-singing are a few of the problems studied with Tonettes.

Art classes alternate with music classes. Fourth and fifth grades are making posters, learning to cut letters, cut silhouettes, and to picture ideas they hear in other classes. Last six weeks some superior work was done in the fourth grades. Although no prizes are given, several pieces may be exhibited at the State Teachers' meeting in Dallas in November.

TAHOKA WARD TEACHERS VISIT NEIGHBORING SCHOOLS

The teachers of the Tahoka school visited schools in Brownfield, Big Spring, Lamesa, and Lubbock last Thursday and Friday. In the primary department Mrs. Craft, Mrs. Dunagan and Miss Herring visited in Brownfield. One of the most valuable items was the foundation chart, showing the work expected in each grade, so the child will come to the next grade better prepared. Miss Collier spent the day in the first grade rooms in Lamesa. She found the first grade in the same building with the high school, as a

very large enrollment this year has made the present school plant inadequate. However, plans are under way for a new building and when completed will give them plenty of room.

Miss Davis and Miss Tippit spent last Thursday in the College Heights ward school in Big Spring. They reported one of the most ideal modern school buildings has been completed there, and some very excellent work is being done in the primary department.

In the intermediate department Mr. Smith, Mr. Kirkwood, and Mr. Bostick have observed work in the Lubbock physical education, elementary mathematics, and social study classes. Miss Taylor was in

Lamesa visiting the music and art classes while Mrs. Kromer visited Language arts in Big Spring. This work is on the home room basis and not departmental sections.

Though we gained some valuable ideas that were quite helpful, and saw some very useful teaching projects and devices we are proud of the opportunity, buildings, co-workers, pupils, and patrons we are to work with in our own school. In order to keep up with what our neighbors are doing as well as to gain new ideas of progressive education.

Mr. and Mrs. Ira S. Doak of Lubbock visited friends in Tahoka Tuesday.

SOUTHLAND BEATS TAHOKA B TEAM

The second team of Tahoka High was beaten by Southland on the field Friday afternoon.

Southland kicked off to Tahoka, but Tahoka lost the ball on downs and Southland scored her first touchdown after five minutes of play.

Tahoka threatened the Southland goal line once in the third quarter and in the last quarter J. W. Weathers passed to H. A. Maasen for the Bulldog's only score.

Southland scored three times in the first period, two in the second quarter, with one touchdown and a safety in the third.

Weathers and Lehman did most of the running for Tahoka, with Maasen and Green catching several passes.

FRESHMAN NEWS

The Freshman class is glad to report Helen Bell Pemberton is back in school.

Our Home Economics class has elected class officers, which are the following girls: Wanda Lee Tinsley, Josephine Stephens, Helen Bell Pemberton, Aleta Lois Stewart, Dorothy Holland, Vinita Cooper, Mary Beth Roddy, Neida Savage, Betty Ruth Wyatt.

ADVICE TO THE LOVELORN

Geometry Class, one part of a domestic triangle is generally a curve leg.—Dodson.

Doris Laverne, I believe that you'll need some help in getting that diamond off your finger.

The wisest of men are foolish over women, but the most stupid

NOTICE TO THE PUBLIC
Any erroneous reflection upon the
reputation or standing of any indi-
vidual, firm or corporation, that
may appear in the columns of The
News will be gladly corrected when
called to our attention.

Although we believe this to be
the best and greatest government on
earth, yet all can see that there is
room for improvement. While many
people are extremely poor because
they are shiftless or are mentally
weak, yet it ought to be easier for
the ordinary man to own a home
and earn a livelihood, and it ought
to be harder for brainy but un-
scrupulous men to accumulate great
wealth at the expense of the less
fortunate. As one concrete example
of what we mean, it ought to be
easier for the industrious tenant
farmer to acquire a farm home, and
it ought to be less profitable for
any individual to own or to lease
bodies of land. As another ex-
ample, it ought to be impossible for
the owners of the King ranch, who
are already wealthy, to receive
\$112,000 in one year as a subsidy
from the government for company
ing with the AAA program. Great
landowners or lease-holders should
not be allowed such special benefits
from the government. Such benefits
should be limited to the ordinary
farmer and should not be extended
to men who lease large bodies of
land in order to get the Govern-
ment subsidies and benefits.

Our good friend Rev. R. P. Den-
non took us to task gently last week
for our occasional criticism of his
pet hero, W. Lee O'Daniel. Then he
calls attention to the fact that there
are two kinds of criticism, destruc-
tive and constructive. "I believe in
the constructive kind", he says,
leaving the inference that he doesn't
believe in the destructive kind.
That is a strange position for the
good preacher to take. Isn't he con-
stantly criticising the works of the
devil, in the pulpit and out of it?
Hasn't he persistently and constan-
tly criticised the liquor traffic,
violation of the Sunday laws, law-
lessness and immorality of all
kinds? Isn't this destructive criti-
cism? Wouldn't he destroy all these
evils if he could. Didn't Jesus in-
dulge in a lot of destructive criti-
cism, Brother Drennon? How he
burnt up those hypocritical scribes
and Pharisees! What a tongue lash-
ing as well as a physical lashing he
gave those money changers in the
Temple! We believe both in destruc-
tive and constructive criticism,
destructive of the works of the devil
and all manner of error and evil,
constructive in behalf of righteous-
ness and justice and all manner of
good.

We do not know how much
reliance is to be placed in the testi-
mony of that U. S. army deserter
and confessed spy bearing the Ger-
man name of Guenther Gustav
Rumrich, who is now a Govern-
ment witness in the federal court in
New York which is trying two men
and a woman on charges of espion-
age, but if he is telling the truth it
is high time for this Government
and all loyal American citizens to
be on the lookout for foreign spies
in our midst. Facts being brought
to light in this trial and in the
investigation being made by Con-
gressman Dies' committee, indicate
that some organizations in this
country are shot through and
through with some foreignism and
with disloyalty to our own govern-
ment. Any foreign-born citizen who
can not appreciate the liberty and
the opportunities that he enjoys
under this government and who
wants to make a communistic Rus-
sia or a Nazi Germany or a Fascist
Italy out of America, should be sent
back to the land from which he
came.

When voters go to the polls on
November 6, they will be called upon
to vote on a constitutional amend-
ment, which if adopted would
modernize the oath of office requir-
ed of state, district, county and
precinct officials. The Constitution
now requires all such officers to
swear that they have never fought
a duel, nor acted as a second to
persons fighting a duel, etc. Dueling
has been outlawed and out of
fashion so long that such an oath
seems ridiculous. Let's vote for the
amendment and modernize the
oath.

Maybe the world is growing worse.
But the other day we read a brief
story of the great evangelist, Dwight
L. Moody. He was born in 1837, 101
years ago. His parents were poor
people with a large family of child-
ren. Dwight was only four years old
when the father died. Debt hung
over the head of the bereft widow,
and the creditors took all that she
had, even the stove wood with which
she cooked the meals for herself and
children. Could anything be more
heartless? Not all of our ancestors
were princely gentlemen by any
means.

Uncle Sam, it seems, is preparing
to greatly increase the size and ef-
ficiency of his navy and his air
fleet. The nations of Europe are
likewise launching similar building
campaigns. All this calls for the em-
ployment of much additional labor
and capital. Scarcity more pros-
perous times, the great automobile
companies or this country are like-
wise speeding up production, which
calls for more laborers. The big-
wigs in industry and finance there-
fore are predicting that a period of
great prosperity is just around the
corner. So may it be.

**Weary?
Not now!**
... thanks to Black-
draught. Often that
droopy, tired feeling is caused
by constipation, an everyday
thief of energy. Don't put up
with it. Try the fine old
vegetable medicine that sim-
ply makes the lazy colon go

BLACK-DRAUGHT...
"An old friend
of the family."

FEED 'EM IN THE SOUTHWEST
A million head of feeder calves
and hundreds of thousands of lambs
are annually shipped from Texas to
the corn belt. Oklahoma and New
Mexico contribute many more
thousands of heads to this north-
ward movement and now Arkansas
and Louisiana are getting into the
livestock business. The cattle and
lambs moved into the corn belt
from the Southwest provide a profit-
able market for corn belt produced
feed stuffs and are a major factor
in increasing the fertility of the soil
in those states. While this is going
on, Southwestern farmers are pro-
ducing millions of tons of feedstuffs
in the form of grain sorghums, corn,
oats, sweet sorghums and hays
which they vainly endeavor to sell
for cash on a glutted market. In the
meantime, if our citizens wish to
give a banquet to prominent vis-
itors, they must first send to Kansas
City or Chicago for the good steaks
cut from Southwestern produced
cattle, but fed on corn belt feeds,
before they can print their menu.

Why should we send all of our
cattle and lambs to the corn belt
for finishing when it has been
demonstrated beyond a shadow of
doubt that we can do as good job
at home at smaller cost? It is true
that we have not developed our
markets sufficiently to absorb all of
our cattle and lambs; and we ex-
pect to continue to meet the demand
of corn belt feeders for well-bred
livestock, but we should lose no time
in providing our own people with
high quality meat, and in developing
markets in the eastern industrial
area.

The feeding of livestock for the
market can not be developed to
perfection overnight. It is going
to take time, but the Southwest is
fortunate in having a large number
of men who know how to feed and
many thousands of 4-H club boys
and vocational students who are
rapidly learning. Farm and Ranch,
sponsor and supporter of the Breed-
er-Feeder movement, believes that
ultimately the Southwest is destined
to become the greatest feeding area
in the country as it is now the great-

est producing area.—Texas Farm
and Ranch.

It seems that Great Britain and
France are now jittery over what
Hitler may do next. They are afraid
he is going to demand that all the
colonies which were taken away
from Germany at the close of the
World War be returned to her. In
that event they are debating
whether to surrender or seek a
compromise. In the meantime they
are feverishly building their war
machines. It is clear that they are
as fearful of Germany as mice are
afraid of a bulldog. It seems that
both Germany and Russia have
stolen a march on these Democra-
cies. They have been steadily and
quietly building up huge war ma-
chines while the countries of Western
Europe apparently have been asleep.
It is to be hoped that Uncle Sam
will never be caught napping in the
same way.

Homecoming For Tahoka Exes

Because of the unanimous opinion of all Exes we have heard from, the O'Donnell football game at Tahoka November 11 has been officially designated as the Homecoming game for all ex-graduates of Tahoka High School.

The Junior Class with their sponsor, Mr. Armstrong, asked for the opportunity to help sponsor this event, which we hope will be the beginning of a permanent occasion of this kind. When these students contact you ex-students during the next several days, just fall right in line with them and you will be helping to add another progressive mile post to the traditions and ideals of this, your school.

The game will be played at night, if weather permits, and in the daytime otherwise. But definite announcement of the hour of the game will be made in time for all to make plans accordingly. Either before or after the game a general meeting of all exes will be held to discuss a permanent organization. Watch and listen for this announcement.

Quiz Features Rotary Program

Two members of the Rotary Club were "put on the spot" at the Rotary luncheon here Thursday, D. B. English and Charles Townes.

Each was subjected to a lengthy quiz conducted by K. R. Durham, Frank Hill, and Dr. E. Prohl. Questions prepared beforehand covering almost every character of subject, some of them serious and some comical, were propounded. We do not know whether the quizzes had been prompted beforehand or not but they acquitted themselves most creditably. In fact we would say that each scored 100 per cent on this examination. The program evoked much merriment.

Plans for better attendance were set in motion by President Ray Weathers, and it is expected that there will be quick results.

Who will be here Monday and Tuesday with Harley Sadler's tent theatre.

Tahoka's Key Rate Reduced

Fire Chief Pete Coleman reports that fire insurance agents received notice this week that Tahoka's key rate had been reduced from 48 cents to 43 cents.

Business men in the mercantile district also get an additional deduction of 3 cents.

Our property is penalized 8 cents, however, for not having an adequate building law. Such an ordinance rigidly enforced would reduce fire insurance rates in the business section 8 cents.

Mr. Coleman says that the reduction in the key rate is the result of the recent visit of a state fire inspector to our town. Our increased water supply and better fire fighting equipment are responsible for the reduction.

Carbon Disulphide Will Destroy Ants

College Station—Five thousand dollars spent for carbon disulphide, or high life, and used for cut ant control during the early part of 1932 resulted in the eradication of 12-029 cut ant towns and saved crop damage estimated at \$65,912, according to R. R. Reppert, entomologist of the Texas A. and M. College Extension Service.

Cut ants are pretty well scattered over the entire state with the exception of the Panhandle and the High Plains, Reppert says, and take an annual toll in excess of a million dollars. A single cut ant town has been known to clean up the crop on several acres.

Control is effected by pouring 25 gallons of water into the main entrance to the town and adding a quart of high life, washed down with water. When the entrances are closed, the ants are suffocated with the fumes. Best control is obtained during the winter and early spring months when egg laying is at a standstill.

In many counties, county agricultural agents have helped farmers to buy high life on a cooperative basis and to stage community-wide eradication drives, Reppert indicated.

G. G. Aycox of Lubbock was Tahoka visitor Thursday.

Underground Water Meeting In Lubbock

The legislative committee appointed by the chairman of the Texas Planning Board will hold one of its regional meetings in the ballroom of the Hilton Hotel in Lub-

bock on Monday, November 7, at 2:30 P. M., to discuss the provisions of the tentative draft of a bill which the committee is preparing to present to the legislature at the approaching regular session.

The purpose of the committee is to draft such a bill as will protect

both the supply and the quality of the underground water supply in this state. Information respecting the water supply in this part of the state will be sought at this meeting and the tentative draft of the bill will be explained.

It is desired that representatives

from every county and section of the plains country be present to give their views and hear these discussions. Especially should those attend who are best acquainted with our underground water supply.

Cooper Raises Fine Cotton

E. J. Cooper has a cotton record that will be hard to beat this year—not only in amount raised per acre, but in quality and length of staple. Tuesday he brought in five bales. Four of them were strict middling, 1 and 1-8 inch staple, and he received a government loan of 10.60 cents per pound. The fifth bale was 1 and 1-16 inch staple and strict middling. The highest price possible under the government loan is 10.75 cents, we are told. The bales averaged 500 pounds each and were ginned from 1300 pounds of seed cotton.

Mr. Cooper has something over 100 acres of this cotton, which is of the Acala variety, that will make one-half bale per acre. He says it not only has a good staple length, but that the cotton stood the drought this summer much better than other varieties planted nearby under similar conditions.

This year's crop has made a believer out of E. J. Cooper in the fact that it pays to raise a better grade of cotton on the plains.

Ed Sanders Does Detective Work

Ed Sanders dropped down to O'Donnell Saturday night just to take a look at the town.

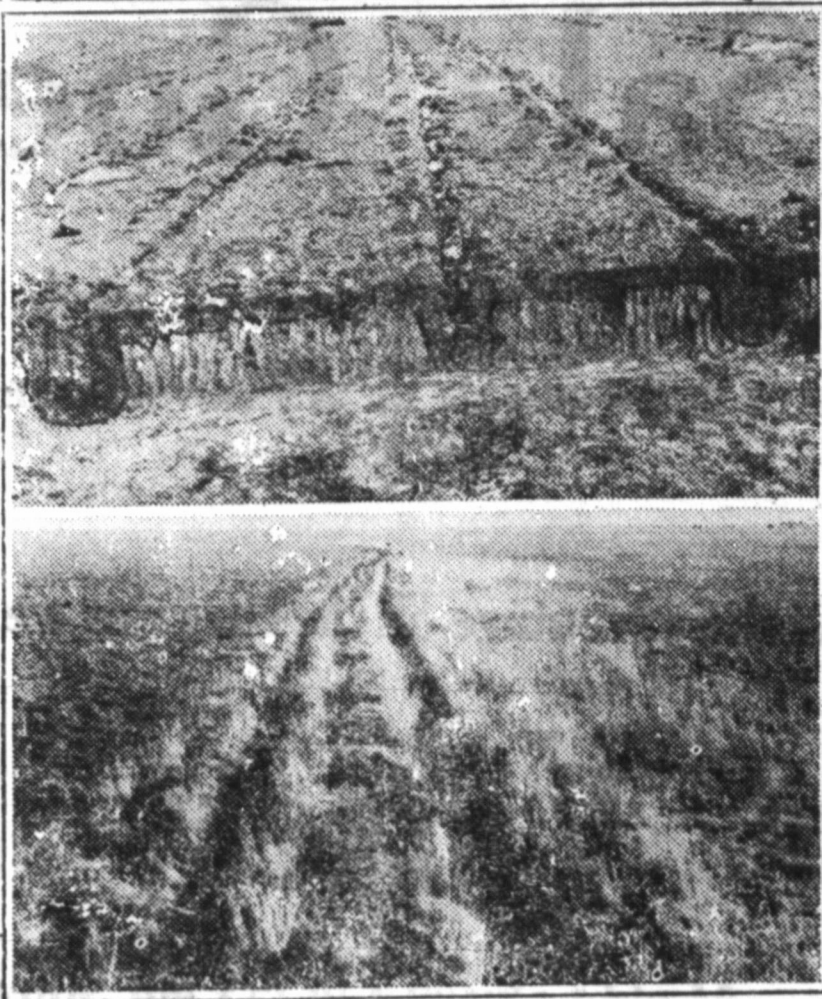

Before starting, however, he dressed himself up in the togs of a working man, all of which Ed is not, and also donned a pair of big colored glasses. His rig is said to have been such as to deceive the smoothest bootlegger.

This garbed, he walked into a Mexican barber shop and called for some of the boys to get him a pint of whiskey. "Be quick about it," he admonished, "for I am working at a gin over here and must hurry back."

Two or three Mexicans almost fell over barber chairs to see which one could get the liquor to their prospective customer first, it is said. Pretty soon one of them came with the desired refreshments, and then Ed invited the gentleman to go with him to jail.

Tuesday morning the gentleman from the land of the Montezumas told the judge he was guilty and

Conserved Water Aids Grass

Contour furrows and ridges catch and hold water where it falls so it can soak into the soil to become available for grass growth. In the upper picture a cross-section of a furrowed area is shown. The outlined dark area at the top shows the depth of moisture penetration. Observe that moisture has penetrated much deeper near the furrows. Bottom picture shows increased grass growth resulting from furrows in a Soil Conservation Service demonstration area.

begged for a light fine, but Judge good answered One Hundred Bucks. Not having that much money in his possession, the swarthy-faced brother had to go back to the little iron-barred room on the top floor of the temple of justice.

MISS RUTH McCULLOCH WILL WED M. LUTTRELL

The engagement of Miss Ruth McCullough, daughter of Mr. and Mrs. H. M. McCullough of 1903 Eighth street, to Morrow Luttrell, son of Mr. and Mrs. W. T. Luttrell of near Tahoka, is being announced by the bride-elect's parents. The wedding will take place at 10 a. m. November 6, in Lubbock.

Methodists Dedicate O'Donnell Church

Quite a number of Tahoka Methodists attended the services at the Methodist Church in O'Donnell Sunday night, the occasion being the dedication of the church building.

Among those attending were judge and Mrs. C. H. Cain, Mr. and Mrs. A. L. Lockwood, Mr. and Mrs. W. S. Swan, Mr. and Mrs. Charles Walden and daughter, Miss La Ruth, Mr. and Mrs. J. D. Donaldson, and Mr. George M. Reid.

Bishop Ivan Lee Holt of Dallas preached the dedicatory sermon. Presiding Elder O. P. Clark of Lubbock presided. Tahoka people attending the services report a great sermon and a great service. The church was organized in

Allison Helps To Get Highway

In reporting the action of the state highway commission two or three weeks ago in designating and agreeing to make a survey of a highway from Tahoka to Slaton and thence on north, we neglected to state that Alvin R. Allison, representative-nominate for this district, rendered material assistance in procuring the designation.

Mr. Allison happened to be in Austin at the time and volunteered to help the Lynn county commissioners in this matter. Mr. Allison is giving every evidence that he will be vigilant and active in behalf of the people of this district as their representative in the next legislature.

COOPERATIVE LAWN MOWER GIVE STUDENTS EMPLOYMENT

Lubbock, Texas, Oct. 27.—Latest wrinkle in student employment at Texas Technological College is a cooperative lawn mower, purchased by the alumni and Ex-Students association and loaned to workers students by the half day. Grass-cutting jobs have increased fifty percent since 'odd job' boys can furnish their own tool, according to Calvin Hazelwood, secretary of the alumni group and assistant in the dean of men's office.

You'll know prosperity has returned when that old item begins reappearing in the newspapers: "Mr. Scandso has resigned to accept a more lucrative position."

The new upsweped coiffure being what it is, a good many of the gals are going to win—or lose—by a neck.

1911. The first church building was erected in 1920. The present building was erected in 1929. In 1935 the outstanding indebtedness was \$4,300, we are informed. This debt has since been liquidated, the final payment having been made recently. Approximately \$4,500 has been raised by the church, for all purposes, during the present year.

Adams Family In Car Accident

The collar bone of Carl Adams, 35, was broken, and his wife, Mrs. Clara Adams, 32, sustained many body bruises about six o'clock Thursday afternoon when they were thrown from the fender of a car and then run over by the car in a field in the T-Bar community.

They were brought to the office of Dr. Turrentine here, where the broken bones were set and the other wounds dressed, after which they returned to their home three miles west of T-Bar school house.

Elbert Adams, brother of Carl and Elbert's wife were in a coupe and Carl and his wife were riding on the fender, being taken through a field to their home by Elbert and wife. The car accidentally struck a maize rick and threw Carl and wife off in front of the car, which then passed over them.

It is not believed that their wounds will be permanently serious.

Rev. Ira Harrison, pastor of the Baptist Church at Snyder, spent Friday night here with his cousin, Homer Harrison. He was on his way to Alamogordo, New Mexico, to conduct a revival meeting.

Mr. and Mrs. R. H. Turner have again gone to Uvalde to spend the winter. The News will go to their address there.

H. A. Macha Develops New Variety Storm-Proof Cotton

"It's an ill wind that blows nobody good."

That's an old proverb that you have probably doubted many times. Nobody at the time, for instance, thought that any possible good could come from that Thanksgiving sandstorm of 1926. Remember it? Thousands of bales of cotton still unspiced at that time were blown from the bolls of cotton and buried with sand. Many farmers never attempted to gather the rest of their crops. Most of those who did used sleds. But some of them dug cotton out of the dirt at intervals all winter and until late in March the next year.

H. A. Macha was one of the number who used sleds. One day as he was sledding his cotton, he noticed a stalk with the cotton still firmly in the boll. Most men would have paid no attention to it. But Mr. Macha instantly stopped his team and inspected the plant. Immediately he had an idea. Might it not be possible to develop a breed of cotton that would resist the ravages of the fiercest storm?

The result is the "Macha Storm-proof Cotton", 101 acres of it, that may be seen on the Macha farm today, scarcely a lock of it on the ground, scarcely a lock of it strung out on the stalk. It is as compact in the boll almost as if the fiber were saturated with glue and the locks glued to the burr. It can not be picked. It must be snapped. But the open cotton will remain in the bolls, little injured by wind or sand or hail, until all of it has time to open. Then it can be snapped and ginned as other cotton.

Mr. Macha gathered the cotton from that stalk left unhurt by the terrific Thanksgiving sandstorm of 1926. The next year he planted the seed. The next fall he carefully selected the seed from the cotton, preserving for planting purposes only that which was found to be tight in the boll like that on the present stalk. This he did each year. But he lost all his seed in 1929 by reason of three summer hailstorms that wiped out his crop that year.

So, he had to begin over. The next year he carefully selected a few seed of this type and planted them separate from his other cotton. He continued to do this eight years in succession. Last year he gathered two bales from this little patch of cotton and had them ginned at New Home. The cotton ginned beautifully. So he planted the seed this year and he now has 101 acres of fully matured cotton on his farm. He brought a few stalks to town Tuesday and left some bolls at the News office. We were so interested that we went with him out to his farm to see his crop.

All doubting Thomases as to the storm-proof qualities of this cotton should go out to the Macha farm at once, one mile north and one mile west of Dixie school house, and see this cotton for themselves. They should go soon, for Mr. Macha expects to begin harvesting the crop next week.

How about the yield? some one may ask.

Well, apparently this cotton will make from two-thirds to three-quarters of a bale per acre.

Mr. Macha has not gathered any of it yet, except a few hundred pounds from which he expects to start the development of another desirable feature. He is gathering only those bolls which turn down. The water will drip out and the sand will shift out of these bolls better than it will out of bolls standing face up. So he expects in time to develop this desirable feature in this cotton also.

Whether one likes this type of cotton or not, all must admit that Mr. Macha is a thinker and an adventurer in the business of raising cotton. That's why he has ever been one of the most successful farmers in Lynn county.

NOTICE OF EXECUTION SALE

The State of Texas, County of Lynn.

By virtue of an execution issued out of the justice court of Precinct No. 1, Place No. 2 in Lubbock county, on a judgment rendered in said court on the 18th day of June A. D. 1929, in cause No. 701, wherein G. E. Lockhart, was plaintiff, and A. C. Samford, was defendant, I did on the 18 day of October, A. D. 1938, at ten o'clock A. M., levy upon the following described land and premises, situated in the County of Lynn and the State of Texas, levied on as the property of the defendant A. C. Samford, to wit: the North 79 acres of the SE 1/4 of Section No. 484, Block No. 1, Cert. No. 463, to satisfy a judgment amounting to the sum of \$177.52, with interest thereon from the date of said judgment at the rate of ten per cent per annum, and cost of suit, and on the 6 day of December A. D. 1938, being the first Tuesday in said month, between the hours of ten o'clock A. M. and four o'clock P. M. on said day, at the court house door of said county, I will offer for sale and sell at public auction, for cash, all the right, title and interest of the said A. C. Samford in and to the above described tract of land.

Dated at Tahoka, Texas, this 18 day of October, A. D. 1938.

B. L. Parker, Sheriff Lynn County, Texas. 10-30c.

Keith Connolly, son of Mr. and Mrs. James Connolly, is now out in California with the hope of finding employment. He left Tahoka about two weeks ago, going to Los Angeles.

ELDER DRENNON'S NOTES

Another week with responsibilities and also its opportunities! After all, it is great to live, but how sad, many just exist and fail to live.

As I went through the country yesterday afternoon and saw the large shocks of grain and the white cotton fields I was made to rejoice at God's wonderful plan for our material welfare; but as I sat at the Lord's table in the morning I was more than overjoyed at His ample provision for our spiritual well-being.

How many are thinking only of the material, when Jesus put the emphasis on the spiritual. I think one of our great problems today is to get people to put the spiritual above the material.

I want to endorse the editor's editorial on foreign-born citizens and their attitude toward our government. I think, like him, that laws should be passed to make them behave and have respect for our fine government or be deported.

Several years ago when I was in business in Denison, an Italian occupied part of the building with me. He run down our government and I called his hand and exposed him to his customers. It surely made a believer of him. He took out naturalization papers and made a loyal citizen.

Yesterday was a fine day with us. The morning crowd was the largest in some time, but I was set to thinking when some one said, "If every member would come to the same service the house would not hold the people." I thought if it is necessary for one to come, why not for all to come? What a power the church would have if every member would attend every service. And to you members that are not attending services: Why are you a member any way?

I was told that our officers arrested twenty or more drunks over

the week end. As I saw one old Mexican being dragged off to jail I thought of how we decent citizens were in a way responsible for it, in that we did not create enough public sentiment to put the bootlegger out of business and run the illegal prescription writer out of town. Yours for more people who will realize we are our brother's keeper and do something about it.—R. P. DRENNON.

UNCLE AND NEPHEW HAVE HAPPY REUNION HERE

The Fords Tell Their Plans

for 1939

IF WE KNEW anything better we could do for the country than make good motor cars, we would do it.

By every one doing his best in the job he thinks most useful, this country is going to regain its momentum. We have tried to do our best in our job.

When business was suddenly halted in its recovery more than a year ago, we determined that we should keep going anyway, if not at full-volume motor car production, then at getting ready for greater motor-car values that would help future production.

EXPANDING FOR THE FUTURE

We began to build 34 million dollars' worth of new plants and equipment. We felt that if we could not employ all our men building motor cars, we would employ as many as we could building better production facilities.

We were told, of course, that this was no time for expansion, that a wiser business policy would be to "hold everything"—which means, stop everything. But no one ever got anywhere standing still.

Besides, we are not defeatists. We do not believe this country has seen its best days. We believe this country is yet in the infancy of its growth. We believe that every atom of faith invested in our Country and our People will be amply justified by the future. We believe America is just beginning. Never yet have our People seen real Prosperity. Never yet have we seen adequate Production. But we shall see it! That is the assurance in which we have built.

Business is not just coming back. It will have to be brought back. That is now becoming well understood in this country; for that reason 1939 will be a co-operative year. Manufacturers, sellers and buyers will co-operate to bring back the business that is waiting to be brought back.

This construction program is almost completed. It has increased activity and payrolls in a number of related industries. It has given us better facilities for building better cars and trucks, and eventually our new tractor which is being perfected.

THIS MEANS MORE VALUE

The current program has provided a new tire plant, which will turn out a part of our tire requirements... a new tool and die plant that will help us cut the cost of dies... and a steel-press plant that will enable us to make more of our own automobile bodies. These are in addition to the plants we already had for producing glass, iron, steel, plastics, and many other things.

We don't supply all our own needs, of course, and never expect to. The Ford engine is one thing

Henry and Edsel Ford, on the occasion of the 35th anniversary of the founding of the Ford Motor Company, June 16, 1938

that no one's hand touches but ours. Of nearly everything else we use we build some quantity ourselves, to find, if possible, better and more economical ways of doing it. The experience and knowledge we gain are freely shared with our suppliers, and with other industries.

We take no profit on anything we make for ourselves and sell to ourselves. Every operation, from the Ford ships which first bring iron ore to the Rouge, is figured at accurate cost. The only profit is on the finished result—the car or truck as it comes off the line. Some years, there is no profit for us. But we see to it that our customers always profit. A basic article of our business creed is that no sale is economically constructive unless it profits the buyer as much as or more than the seller.

Our new plants have helped us build more value into all our cars for 1939. That means more profit on the purchase to the purchaser.

We have not cut quality to reduce costs. We simply will not build anything inferior.

NEW TESTING EQUIPMENT

While we were putting up new plants to produce cars, we constructed new equipment to test them. The first weather tunnel of its kind ever built for automobile research went into operation at our laboratories this year.

It makes any kind of weather to order. The weather it delivers every day would take months to find in Nature. Our cars are weather-tested to give you good service in any climate anywhere.

In other tests, every part of the car is punished unmercifully. Then our engineers tear it down to see if they can find abnormal wear or any sign of weakness.

The money we spend on tests saves you money on repairs. And your family car is safer and more dependable when we put it in your hands.

THE NEW CARS

We have two new Ford cars for 1939—better cars and better looking—but we also have an entirely new car.

It's called the Mercury 8. It fits into our line between the De Luxe Ford and the Lincoln-Zephyr. It is larger than the Ford, with 116-inch wheelbase, hydraulic brakes, and a new 95-horsepower V-type 8-cylinder engine.

We know that our 1939 cars are cars of good quality. We think they're fine values in their price classes.

With new cars, new plants, new equipment, the whole Ford organization is geared to go forward.

FORD MOTOR COMPANY, Dearborn, Michigan

TO enjoy work, a woman must feel well. Cardui aids in building up the whole system by helping women to get more energy from their food—and so increases resistance to the strain of functional periodic pain. Try it!

Lynn County

History

[As Revealed by the Files of the Lynn County News of October 24, 1913.]

Farmers Prosperous
 Tahoka is shipping out cotton and cotton seed, maize in the head, baled sorghum, cream, poultry, and eggs. Everything brings the highest market price.
 The Tahoka cotton gin has turned out right at 600 bales of cotton so far this year, and Tahoka buyers have paid as high as 14.40 for cotton this week, and cotton seed is bringing \$24.00 a ton. The deposits in the First National Bank have increased from \$73,803.24 on the 9th day of August to \$107,989.31 on October 21. Come to Lynn county where everybody can and most everybody does have a bank account.

County Has First Frost
 Sunday night we had our first frost for this season—a light one. Monday night was a repetition, but neither frost did any harm so far as we have been able to learn.

Two Silos Erected
 W. D. Williams of Waco, agent for the Champion silos, left for his home Monday morning, after having erected two silos for W. N. Lazenby of Waco on his ranch in the north part of Lynn county.

Santa Fe To Give Demonstration
 Announcement is made that the Santa Fe's "Educational Special" train will be in Tahoka two hours on November 21, at which time lectures on Better Farming on the Plains, Our Farm Poultry, Dairying and Silos, and other subjects will be discussed.

Announcement is made the Rev. Chalmers Kilbourn of Lamesa will fill out the time of the Rev. L. M. Wood, the Presbyterian pastor here, and that he will preach at the Methodist Church here Sunday.

Rev. W. H. Terry, Presiding Elder of the Big Spring district held quarterly conference at the Methodist Church here Wednesday night. The report was one of the best ever made by the Tahoka Methodist Church. J. N. Thomas was re-elected Sunday School superintendent for another year.

Hon. and Mrs. G. E. Lockhart left Monday morning in their car for Lubbock, where they took the train for Dallas and the Fair.

J. W. Elliott, the county clerk, left on the Monday morning train for Hereford to look at a bunch of heifers. He was accompanied by Perry Clayton, and they came in Thursday with 50 head of choice twos and threes.

Mrs. W. S. Swan of North Tahoka left on the Monday train for Woodward, Oklahoma, in response to a telegram received Sunday telling that her mother, Mrs. Shook, was very ill.

Tuesday morning while the north-bound train was switching at O'Donnell the track spread, and let a couple of the engine drive wheels

Men in Majority At Texas Tech

Lubbock, Texas, Oct. 27.—Sixty four per cent of the 3,507 students enrolled at Texas Technological College this fall are men, an increase of two per cent over last year. Normal increase over last year's enrollment is shown in each division of the college. Total agriculture enrollees is 473, an increase of 59 over fall of 1937; 821 engineers this year shows a gain of 85; 422 home economics majors gives that division an increase of 22 students; and 1,791 students in all the arts and science shows an increase of 194. Graduate students in all divisions total 89 this year, as compared with 63 in the fall of 1937.

Droopy? Not now!
 . . . thanks to Syrup of Black-Draught.
 When your child is less keen and lively than usual, it may be a warning of constipation. If so, try Syrup of Black-Draught. It's pleasant to taste, and there's nothing in it that can harm a child's delicate intestinal system when given according to the directions.
 Ask for Syrup of Black-Draught.

down on the ties, but no serious damage was done.

John S. Powell, the Terry county sheep man, returned Wednesday from Fort Worth, where he sold a couple of cars of sheep that he had shipped from Tahoka. He found the market off and got only 4.45.

S. H. Howell had a very narrow escape from getting his neck broken Monday. While working with a heavy scraper, a lever was thrown and struck Mr. Howell on the head, splitting the left ear and rendering him unconscious for a short time.

LEW CHILDRÉ

When the Harley Sadler show appears here under the auspices of the fire department they will present as one of their feature vaudeville numbers, Lew Childre, the boy from Alabama, who has gained national fame as a radio entertainer and recording artist. Lew has appeared as a sustaining feature on various programs on the major stations throughout the Southwest and east coast. Not only does he play and sing, but is an excellent dancer.

College Students Church Affiliates

Lubbock, Texas.—Of the fourteen denominations represented on the campus of Texas Technological College, Methodist students lead in numbers, with 1,203, and Baptists are second with 1,113. Only 248 or 7 per cent of the 3,507 students enrolled indicate no-church preference.

Other churches and the students affiliated with them are: Church of Christ, 268; Presbyterian, 261; Christian, 224; Roman Catholic, 71; Episcopal, 63; Christian Science, 25; Lutheran, 18; Jewish, 5; Assembly of God, 4; Latter Day Saints, 3; Nazarene, 3.

Burckharts Are Guests Of Fair

Nearly three weeks ago Mrs. W. J. Burckhart left for a visit with relatives in Missouri. After a most pleasant time spent at St. James and Springfield, Mo., she arrived back in Fort Worth last Friday. Mr. Burckhart met her at the home of their son Bryan Burckhart, and on

Saturday they attended the Golden Jubilee Celebration at the State Fair in Dallas.

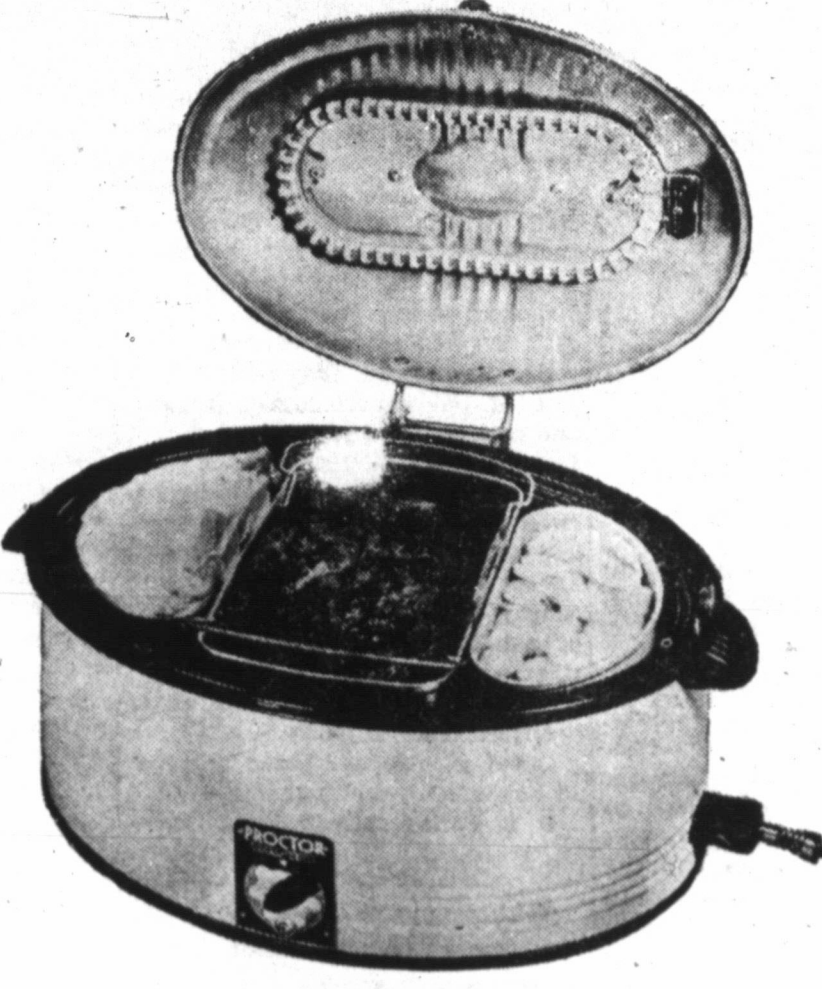

Mr. Burckhart says that Dallas showed them marvelous hospitality. A committee of women met them at 10 a. m. and showed them over the city and extended many other courtesies during the day.

The occasion was the honoring of couples who had been married more

than fifty years. They came from all parts of the state. Mr. Burckhart says that some of them had been married more than 60 years, and he says that they were just like a bunch of spring chickens.

Mr. and Mrs. Burckhart returned home Saturday night.

There's no finer cooking — done so easily

Again the magic of electricity brings added ease in preparing meals. The new Roast-or-Grille cooks anything . . . any way . . . any place. You merely plan and supervise. The grill, which is built into the lid and easily inserted or removed, is perfect for broiling and browning.

The Roast-or-Grille is complete with the detachable grill . . . three heavy aluminum section pans . . . trivet and a folding adjustable food rack. Visit our office and see this sensationally new Roast-or-Grille for only **\$15.95**

Ask any employe about our overnight trial and easy terms.

Texas-New Mexico Utilities Company

ALL YOUR CURIOSITY satisfied by Your Mileage Merchant... Ask him exactly how you're sure of fast winter starting and extreme oil economy by changing now to WINTER OIL-PLATING

IS OIL-PLATING just a different name? . . . No. OIL-PLATING is what Conoco Germ Processed oil does! The out-and-out difference is this: OIL-PLATING will stay firmly attached—plated—clear to the topmost point in your engine, while any plain mineral oil drains clear down the crankcase at every stop.
 Exactly where is your gain? Well, in starting up again—next day or next month—the coldest OIL-PLATED engine is always oiled in advance . . . pre-lubricated before any oil down in the crankcase could ever stir. OIL-PLATING

thus keeps every engine part constantly slippery. The starter speeds . . . the battery lives and so does the engine, free of fierce starting friction.
 But is there any oil saving? Why? . . . Because less engine wear puts more miles between quarts. And OIL-PLATING itself never passes out during the use of Germ Processed oil. Only the Germ Process, patented, creates OIL-PLATING, the sensible reason for you to switch to Your Mileage Merchant today.

Switch in Time!

CONOCO GERM PROCESSED OIL
 OIL-PLATING GUARANTEED to lubricate before any oil can circulate

SOCIETY

Club and Church News

BALDRIDGES CELEBRATE 50TH WEDDING ANNIVERSARY

Mrs. Ben Moore of O'Donnel and Lee Baldridge of Tahoka attended a family reunion at Breckenridge Sunday, the occasion being the celebration of the fiftieth wedding anniversary of their parents, Mr. and Mrs. H. E. Baldridge. They report that all seven children were present: Mrs. Annie Mayfield of Clovis, New Mexico, Mrs. Ben Moore of O'Donnel, Mrs. H. D. Terry of Abilene, T. E. and H. T. Baldridge of Clovis, Lee Baldridge of Tahoka, and Mrs. Harmon (Crocket) Shankle of Brownwood.

Mr. and Mrs. Baldridge were married at Buffalo Gap in 1888. They came to Tahoka when the town was much younger than it is now and lived here quite a number of years.

Remembering how Mr. Baldridge used to step out around Buffalo Gap and kill a deer when he so desired, Buddy drove up into Colorado recently and bagged a thousand-pound bull elk for this anniversary occasion. So, they had venison, or elk meat, in addition to all the other viands served on this occasion. Mrs. Moore says it was a most happy family reunion.

THE MARTHA SUNDAY SCHOOL CLASS HOLD REGULAR SOCIAL

Mrs. Loyd Edwards and Mrs. Ira B. Krebs entertained the Sunday School class Tuesday afternoon in the Edwards home. During the business meeting new officers were elected as follows: Mrs. J. B. McPherson, president; Mrs. John Glover, secretary; Mrs. Ira B. Krebs, treasurer; Mrs. Loyd Edwards, reporter.

Games were played and gifts for Mrs. Darby were opened.

Refreshments were served to the following members and guests: Mesdames A. L. Smith, Fred Bucy, Hubert Tankersley, Bill Darby, Mill Finch, Earnest Evans, Harold Edwards, J. O. Tinsley, Marvin Munn, Morton, McPherson, Pemberton, Mitchell, and the hostesses.

Red Cross Volunteers Assist War Veterans

Red Cross workers in chapters, in hospitals and on posts of the Army Navy, Coast Guard, and Marine Corps, assisted 122,355 active service men or veterans or their families during the past 12 months. Red Cross service to these men included such persons help as letter-writing, shopping and recreational leadership, but it also included financial assistance to their dependents, help in locating missing members of their families, and assistance in filing necessary applications for pensions, disability pay, hospitalization, or for discharge from active service because of home needs. The average number of men assisted by Red Cross workers each month was 10,196, according to a recent report.

WOMEN ATTEND O. E. S. GRAND CHAPTER

Mrs. E. I. Hill, worthy matron, Mrs. H. A. Maasen, associate matron, and Miss O'Berger, conductress, of the local chapter of the Order of the Eastern Star, left early Monday morning to attend the Grand Chapter in session in Houston on Tuesday, Wednesday and Thursday of this week.

They were accompanied by Mrs. J. B. Oliver, who went to visit relatives in Houston, and by Mrs. H. M. Snowden, who went as far as Austin to visit relatives there. The entire party were expected back home Friday night or Saturday.

SEWING CLUB MEETS

The All-Sew Club met Thursday afternoon in the home of Mrs. H. C. Story. Eleven members and two guests were present.

The following officers were elected: president, Mrs. Co. O. Carmack; vice-president, Mrs. E. Prohl; secretary, Mrs. C. E. Woodworth; treasurer, Mrs. A. L. Lockwood.

Delicious refreshments of pumpkin pie and coffee were served by the hostess.

The next meeting will be with Mrs. C. A. Thomas.—Reporter.

BAPTIST W. M. S. MEETS AT CHURCH

The Baptist W. M. S. met in regular business meeting Monday afternoon at the Church.

The society agreed to help the colored people get their W. M. S. organized. Several members met with the Negro group Monday night.

Plans were made for the group social to be held next Monday afternoon in the home of Mrs. Belton Howell. Ladies from all Circles are urged to attend.

S. S. CLASS HAS PARTY

Mrs. Luallin's Sunday School class of 14 year old girls had a party in the home of Mrs. Carl Owens Monday night at 7:30.

There were thirteen girls present, including Misses Jewell Young, Billie Lee Burleson, Dorothy Fulkerson, Ethel Goad, Dorothy Threet, Billie Margaret Riddle, Dorothy Conway, Betty Lou Ivey, Vinita Cooper, Doris Latham, Joan Owens, and Mary Beth Roddy.

Mrs. S. H. Woods and son Frank, who reside in the Edith community, accompanied her brother, H. C. Hillyard of Rails, to San Angelo Saturday night, where they went to meet a cousin, Hillyard Cook, who has been employed in Brazil for a mining company for the past several years and who is now back in Texas spending his vacation. Of course they had a most pleasant visit.

Dr. E. E. Callaway of Abilene spent a couple of days here the first of the week looking after business matters. He was accompanied by his brother, who is an attorney in Fort Worth.

"Calling All Americans..."

American Red Cross Roll Call Poster for 1938.

RED CROSS SEEKS LARGER MEMBERSHIP

"A larger Red Cross membership more in proportion to the population of Texas is necessary for expansion of services within the state this coming year," Tom Garrard chairman of the Lynn County chapter, said today. He pointed out that Red Cross membership in Texas now represents 2.9 percent of the population while nationally the enrollment has risen to 4.38 percent.

Mr. Garrard expressed confidence that an increase of more than 50,000 members will result when the 239 Texas chapters offer residents in every community an opportunity to join the Red Cross this coming Roll Call, from Armistice Day to Thanksgiving. Last year, 172,067 Texans answered the Roll Call of their local chapters, an increase of 36,000 over the preceding year.

"Local chapters are dependent upon their membership enrolled each year for volunteers as well as for funds to carry on disaster relief and other Red Cross safety, health, educational and welfare services in their respective communities," he said. "The greater portion of membership funds are retained by the chapter for use locally in its community and only fifty cents, not fifty percent of each membership, is paid to the National Organization for administration of Red Cross work throughout the nation.

"This national allotment also reverts back to Red Cross work in individual communities," Mr. Garrard explained. "In the last three and one-half years to date, for example, the national organization made \$253,773 available to supplement the \$172,146 raised within Texas for emergency relief and rehabilitation of Texas families stricken by disasters occurring in this state. "During the first nine months of this year the Red Cross assisted 5,029 Texas families, which included more than 13,000 persons, who suffered losses following six tornadoes and three floods. The \$63,125 contributed by Texas was supplemented by \$56,017 from National Organization funds to provide the necessary medical care, food, clothing, shelter, replacement of household

goods, livestock, implements and other equipment to enable stricken families to again establish themselves on a normal living basis.

"Equal assistance made possible by division of membership funds is forthcoming to local chapters in all other Red Cross services. The National Organization provides experts to extend first aid and life saving programs; trained personnel to administer welfare work among U. S. Army and Navy service men, veterans and their families; and service directors to assist chapters in developing needed Red Cross services within their territories.

"It is this national aspect of the Red Cross that makes it possible to render immediate and efficient aid to communities stricken by major disasters, such as the recent New England hurricane and the Ohio and Mississippi river flood of last year.

"Texans have demonstrated their willingness to assume responsibility through the Red Cross whenever disasters have reached proportions of a major calamity," he said. "Assistance given after the San Saba river and its tributaries inundated bordering counties last July was a case in point as well as the O'Donnell and Lynn county cyclone sufferers in April. Opportunity will be given more Texans than ever before to actively share in this work throughout the coming year during this approaching Roll Call membership drive which starts November 11. "All should come in and help" says Mr. Garrard, County Chairman, and A. L. Lockwood, Roll Call Chairman.

Canyon Ex-Students Meet At Lubbock

Seventy former students of West Texas State College, Canyon, residing in this section, organized a South Plains Ex-Students association at a banquet in the Hilton Hotel, Lubbock, Monday night.

Dr. J. A. Hill, president of the college, and Mrs. Hill, and R. A. Stuart, Fort Worth, chairman of the state teachers colleges board of regents, Mrs. Tommie Montfort and Clarence Thompson, both of Canyon, were speakers on the program. Almost every class since the college was established in 1910 was represented at the meeting.

Officers elected were: Enoch Dawson, Lubbock, chairman; Frank Hill, Tahoka, vice-chairman, Miss Marie Miles, Lubbock, secretary; and Boone Horne, Lubbock, reporter.

The organization plans to hold an annual meeting in Lubbock.

Mr. Lee Dodson and Mr. and Mrs. Frank Hill of Tahoka attended the banquet.

Mrs. Duell Cheatham, who has been in the hospital at Lamesa for treatment, was brought home Saturday. She is very much improved.

CHEER UP, BIG BOY, DON'T BE SICK ALKA-SELTZER DOES THE TRICK

Why don't you try Alka-Seltzer for the relief of— HANGOVER

Stomach Gas, Headache, Acid Stomach, Colds, Neuralgia, Fatigue, Muscular, Rheumatic and Sciatic Pains! Alka-Seltzer has a pleasant, refreshing, tangy taste. It contains an analgesic (Acetyl-Salicylate, a Sodium Salt of Aspirin) which relieves pain and discomfort, while its vegetable and mineral alkalies help to correct the cause of those minor ailments associated with hyperacidity of the stomach. At your drug store, at the soda fountain, and in 3c and 6c packages for home use.

Contour Aids In Saving Water

Amarillo, Texas, Oct. 27.—Contour furrows and ridges have aided in storing millions of gallons of water from the recent heavy rains in the range lands on the Southern Great Plains where the moisture will be available for grass growth next spring, the Soil Conservation Service technicians point out.

By using contour furrows at intervals dependent upon the soil type and slope, farmers and ranchers of the wind erosion areas are finding they can hold a large percentage of the water on the land where it falls. Tests following recent heavy rains revealed that the penetration in and near the furrows was several times as great as on nearby untreated pastures.

Rainfall trapped and held on the land is prevented from running off and adding to flood dangers, and gully and soil losses are checked at the same time, it is pointed out.

Since contour furrowing has become a widespread conservation practice in the Great Plains region, farmers and ranchers are finding that the first green grass appears along the furrows, and that vegetation in the treated areas remains green from two to three weeks longer than on nearby untreated areas. At the same time, the taller and more dense grass is found along the furrows, which accounts for the fact that livestock usually may be observed grazing along the strips where vegetation has been increased.

W. A. Bowles who has contour furrowed his 250-acre pasture in cooperation with the Soil Conservation Service CCC camp at Lamesa, reports that the grazing value of land has been doubled as a result of the treatment. L. B. Stuart, in the same area, says the carrying capacity of his range has been greatly increased by similar treatment.

"Contour furrows have doubled the grass yield of my pasture," states Joe Evans of the Soil Conservation area at Hereford.

J. A. Brown, a cooperater of the Littlefield CCC camp, reports that grass has reached a height of 12 inches along contour furrows on his pasture.

Thousands of acres of range land in the Great Plains area already have been contour furrowed, and many farmers and ranchers are planning to adopt this soil and water conservation practice next year, according to reports.

Robt. Reids Are Visiting Here

Mr. and Mrs. Robert Reid and daughter, Miss Wanza Jane are here from Mercedes this week visiting Robert's brothers, George and J. N. Reid and other relatives.

Robert reports that he has recently joined the highly honored and honorable Order of Grandfathers. The oldest daughter, Miss Annabel, married two years ago and she and husband have a little son in their home. Robert just getting fatter and fatter since breaking into the grandpa class.

He also brings the news that their son, Eura, married a few weeks ago.

The Reids brought some fruit along with them and they report a heavy crop in the Valley this year, but they say it is not really ready for the table yet.

American Legion Installs Officers

At a meeting of the Marion G. Bradley Post of the American Legion Tuesday night, officers for the ensuing year were installed. District Post Commander Jim Wilson of Floydada conducted the installation ceremonies.

Officers installed were: W. E. (Happy) Smith, post commander; Ivin Stewart, vice-commander; C. M. Walden, post adjutant (re-elected); Aubra M. Cade, service officer; C. W. Conway, chaplain; Pete Coleman, house custodian; and Bob Luttrell, sergeant-at-arms.

Auxiliary Entertains
Following the installation, the American Legion members repaired to the beautiful back lawn of Mrs. Annie Forrester, where they were entertained by the American Legion Auxiliary with a Halloween party. Mrs. Forrester having been invested with the duty of seeing that every one should have a good time.

The program committee took charge and games were played until a late hour. A real weiner roast,

prepared on the furnace recently erected by Mrs. Forrester in her back yard, was served from tables dressed in Hallowe'en motif and laden with many good things to eat, such as hot finger rolls, toasted weiners, onions, pickles, potato chips, tomatoes, good hot coffee, and doughnuts. Ice cold water melons also were served.

About forty people were present, including several visitors, among whom were the editor of the Lynn County News and District Commander Jim Wilson of Floydada.

After eating all we could—for there was plenty of it left—all expressed themselves as having had a wonderful time, for which we are truly grateful to our hostess.—Reporter.

Two Good Children Have Appendicitis

Grady Goad, son of Judge and Mrs. F. W. Goad, who underwent an operation for appendicitis in the Lubbock Sanitarium on Tuesday of last week, was released and brought home Thursday of this week.

On the same day, their daughter Ethel was taken to the hospital for an examination and probably an operation. She was stricken with an attack of appendicitis at the school building where she attends school about thirty minutes after school had opened. It is probable that she will undergo surgery Friday morning.
