"I wholly disapprove of what you say but will defend to the death your right to say it."—Voltaire.

Volume XXXV.

Tahoka, Lynn County, Texas, Friday, January 13, 1939.

Number 22.

## New State Officers

W. LEE O'DANIEL  
Governor Elect of Texas

GERALD C. MANN  
Attorney General

COKE STEVENSON  
Lieutenant Governor-Elect

BASCOM GILES  
Commissioner General Land Office

G. A. (Jerry) SADLER  
Railroad Commissioner

# County Drenched By Fine Rains

## Great Inaugural Ceremony Planned

Final preparations are now being made for the inaugural ceremonies to be held in the University stadium next Tuesday when Wilbert Lee O'Daniel will be inducted into the office of governor and Coke Stevenson into the office of lieutenant governor.

Immediate throngs from all sections of Texas are expected to be present, especially if weather conditions are not too unfavorable. The prospective crowd has been estimated at all the way from 50,000 to 100,000 persons. There will be no official inaugural ball, but the ceremonies will doubtless be attended by much enthusiasm and demonstrations of confidence and affection for the incoming governor.

The legislature and the citizens of the state await with much interest the address of the new governor and the recommendations that he shall make. The main interest, of course, centers around old-age pensions and taxes.

The legislature convened last Tuesday and on Wednesday heard the farewell address of Governor James V. Allred, who leaves for Houston immediately following his retirement from the governorship to enter upon his duties as a federal judge.

Upon the convening of the legislature Tuesday, Representative Emmet Morse of Houston was elected Speaker of the House without opposition. Lieutenant Governor Woodul of Houston is presiding over the Senate until the incoming lieutenant-governor, Coke Stevenson, is inaugurated next Tuesday. Senate committee appointments announced by Woodul were really dictated by Stevenson.

After passing the bill appropriating funds to pay salaries and incidental expenses, both houses are marking time until the new governor shall be inaugurated.

Other state officials took office the first of January or thereabout.

## Nelsen Appointed To Committees

Austin, January 12.—Selection of Senator G. H. Nelson of Lubbock as a member of nine important Senate committees was announced this week by Lieutenant Governor-elect Coke Stevenson.

Senator Nelson was named chairman of the judicial districts committee, and vice-chairman of the commerce and manufactures committee.

He was appointed a member of the highly important state affairs committee which will consider all old age pension bills, tax measures, liquor control, and other subjects of state-wide importance.

Nelson was appointed to the highway and motor traffic committee which will consider the question of raising the 7,000 pound load limit on trucks.

Other committees to which Nelson was appointed were counties and county boundaries, representative districts, senatorial districts, and state institutions and departments.

"I am pleased with my appointments which will put me in a position to serve my constituents and to adequately protect and advance the interests of my district," Nelson said.

## Second Hand Store Moves To Seagraves

Immediately following Christmas, the Sims Second Hand Store in the old Larkin building moved to Seagraves.

Mr. Sims came to Tahoka less than a year ago.

The compartment which he vacated is the only vacant business house in Tahoka with the exception of the Cole Theatre building which was also vacated just before Christmas, there being two other picture shows here.

## Large Terracing Program In Lynn

Schedule of terracing and contour demonstrations for Lynn county farmers will keep V. F. Jones, county agent, busy for the next two months.

The county has six levels and they are in constant use. Farmers borrow them for running terrace and contour lines.

There is more demand this year for terrace lines than for contour lines. "I believe there will be more terracing this year than ever before," V. F. Jones, county agent said.

Farmers who cannot run their own lines and need the assistance of the county agent are asked to contact the agent at an early date. The conserving of moisture by contouring and terracing has proven to be a good practice and often means the difference between a good crop and a poor crop, a dry year.

## Storm Damages Farm Buildings

Considerable damage was done to houses, barns, sheds, and other property by the high winds which accompanied the rain of last Saturday night.

In Tahoka, one house situated in the colored residential section, belonging to Henry Sayles, was completely wrecked and damage was done to other buildings.

Reports coming from Three Lakes, Draw, Gdassland, New Lynn and other localities state that considerable damage was done in these communities. One barn was blown down, several others were badly damaged, windmills torn up trees uprooted, and other damage done.

## J. W. Norman Has Share Of Troubles

J. W. Norman has been the victim of a streak of bad luck recently.

On December 3, he underwent an operation for appendicitis in a Lubbock hospital. On December 31, three horses belonging to him and his son Ray, strayed away or were stolen. Then, on the night of January 3, someone stole four wheels from a trailer at his place.

He's hoping that's the end of his troubles for a while.

Mr. and Mrs. J. H. Edwards were here the first of the week from Kilgore. Mr. Edwards is one of the truck and bus inspector for the state railroad commission.

Mary Louise Fenton, daughter of Mr. and Mrs. Jack Fenton, had her tonsils removed Friday.

## Extension Service Given To Half Of Farm Families In Lynn County

Extension service given to half of Lynn County's farm families.

One half of the farm families of Lynn County have been definitely influenced with some type of extension service work during the last year, a summary of the work accomplished in 1938 by the two extension service agents show.

Miss Lillith Boyd, home demonstration agent, spent 96 days in the office and 197 days in the field; V. F. Jones, county agent, spent 160 days in the office and 140 days in the field. The county agent devoted 167 days of his time to Agricultural Conservation Adjustment programs.

There were nine 4-H girls clubs in the county with an enrollment of 133 girls, and two boys 4-H clubs with an enrollment of 35 boys. Of the 168 boys and girls enrolled in 4-H club work, 88 were engaged in first year work, 58 in second year work, 19 in third year work, 2 in fourth year, and one in fifth year work. The 168 boys and girls were enrolled from 136 different farm families of the county.

## New Representative

ALVIN R. ALLISON of Levelland took the oath of office Tuesday as representative in the Texas Legislature from the 119th District, which includes Lynn county. Allison is the outgoing county judge of Hockley county.

## O'Donnell Lady Died Tuesday

Mrs. Alice Belle Platt, 57, wife of B. G. Platt of O'Donnell, died at her home in that city Tuesday night of tuberculosis. She had been confined to her bed from this malady for eight years.

Funeral services were conducted in the O'Donnell Methodist Church by the pastor, Rev. Crawford, at 2:30 o'clock Wednesday afternoon. Burial was in the O'Donnell cemetery under the direction of the Harris Funeral Home of this city.

Besides her husband, deceased leaves four sons, all of whom reside at O'Donnell.

## W. D. Smith Sells Station Business

W. D. Smith has sold the Phillips 66 Service Station to H. B. McCord, and the latter has already taken charge. Mr. Smith has not announced his plans for the future but will probably remain in Tahoka.

Mr. Smith purchased this station about nine months ago. Mr. McCord was formerly engaged in the retail oil and gasoline business in Tahoka for eight years and for sometime has also been engaged in the wholesale business. He is also local Pontiac car dealer.

## IMPROVING STORE

Terry Thompson, who last week bought the Ross Variety Store, has remodeled the interior of the building and built a balcony in the rear, greatly improving the looks of the building.

## County Farmers Name Committees

H. W. Calaway is chairman of the Lynn County AAA committee for 1939, having been elected by delegates from the districts. J. R. Strain was named vice chairman; A. H. Hood, third member; W. P. Lester was named first alternate, and Claud Wells second alternate.

County committeemen are: Community No. 1, James H. Robbins, chairman; R. J. Maeker, vice chairman; A. M. Jackson, regular member; C. H. Haire first alternate, and Fritz Nieman, second alternate.

Community No. 2: R. W. Barton, chairman; Vernon Willhoit, vice chairman; J. W. Norman, regular member, and H. O. Hargett first alternate.

Community No. 3: Lonnie Williams, chairman; R. L. Littlepage, vice chairman; W. W. Caswell regular member, and E. W. Holloway first alternate.

Community No. 4: Fred McGinty, chairman; Lon Light, vice chairman; F. O. Cabbiness regular member; J. R. Thomas first alternate, and D. L. Harris second alternate.

Community No. 5: Fritz Speckman, chairman; F. M. Middleton, vice chairman; G. W. George, regular member; Henry Bulman, first alternate, and Claud Wells, second alternate.

## Pioneer Citizen Dies At Post

Mrs. Ira Duckworth, one of the pioneer women of West Texas, died at her home in Post Wednesday night, according to A. L. Lockwood, a friend of the family for more than fifty years.

Deceased was the mother of George Duckworth, ranchman, Ira L. Duckworth, banker, and Walter Duckworth, coal and grain dealer, all of Post. She had been a resident of that city for many years. Prior to that time she resided at Snyder. Mr. Lockwood, also a former resident of Snyder says that he remembers when Mrs. Duckworth came to Snyder as a bride, when that was little more than a mere trading post, in the "wild and woolly West." Funeral services were to be held in Post Thursday.

## First Semester Of School Ends

Students of Tahoka High School and the intermediate grades have been busy this week with their mid-term examinations. High school classes were dismissed Thursday in order that teachers might grade papers and complete their record-keeping work, but classes were to be resumed this morning.

Second semester work begins Monday of next week.

School buses have had hard going this week due to the muddy roads.

## Rev. Dale Attends Bible Conference

Rev. George A. Dale is attending a pastor's Bible Conference in Brownfield this week when the weather permits.

He reports that the meetings Monday and Tuesday were very fine. Most of the pastors of the Brownfield Baptist Association were in attendance. The conference consists of a morning service, an afternoon service, and a night service.

At each service, Dr. Connor, teacher of Bible in the southwestern Seminary at Fort Worth, gives a Bible lesson. Rev. P. D. O'Brien of Stamford preaches, and Dr. I. E. Reynolds, head of the Music department in the Seminary, lectures on Church Music.

Miss Rose Wood has bought a beauty shop in Sudan recently, her father, R. C. Wood, reports. Miss Rose recently completed a beauty course in Dallas.

## Ground Ready For Plowing

"The finest January rain we ever saw in Lynn county" is the universal verdict of our people respecting the downpour which came last Saturday, Saturday night, and Sunday morning.

The rain gauge here measured 2.49 inches of rainfall in this period of time, and the rain was general over all this broad expanse known as West Texas. Some portions of Lynn county report as much as three inches. According to reports, the rainfall was even heavier than

Additional rain began falling early Wednesday morning and continued several hours, followed by snow that melted as it fell. The total precipitation amounted to .53 of an inch; total since Saturday morning amounting to 3.02. The skies were still overcast Thursday afternoon, presaging more rain.

This in Dawson county and sections south of us. Nearly two inches fell at Plainview, but the rainfall on the North Plains was not as heavy as it was on the South Plains. It was sufficient, however, to save the wheat crop and tide it over for several weeks.

The rain over this entire section of the state was as unexpected as it was welcome. For six months or more there had been very little rainfall and the soil was very dry. Since very little rain falls in the winter months, as a rule, nobody here expected the drouth to be broken at this time. The rain was preceded by high winds on Tuesday and Wednesday of last week, which picked up considerable quantities of dust and sand, though the disturbance hardly reached the intensity of a real sandstorm. By Friday the outlook was more promising, and a drizzling rain began falling early Saturday morning. The precipitation amounted to a quarter and possibly a half inch by night-fall. About eight or nine o'clock, the clouds got down to real business. The rain must have continued most of the night, and it was accompanied at times by flashes of lightning and peals of thunder, just as if it were May or June. The rain did not cease until about 10 o'clock Sunday morning. During the night the wind did some damage to outhouses and other property, but most of the rain fell slowly enough to be absorbed by the soil. Nevertheless, after the clouds had cleared away, a large portion of both field and pasture lands was covered with water. In some localities the lakes were pretty well filled.

This fine rainfall will enable farmers to finish breaking their lands and preparing them for planting in the spring. It will also insure early spring grass. Best of all, it will make good crops possible on much less rainfall in the summer months. The 1939-crop outlook just at this time is very rosy, whereas just last week it was rather dark. A little water in this country, properly applied and properly distributed through the year, can work wonders—and often does.

## Diphtheria And Scarlet Fever Here

Several cases of scarlet fever and possibly a few cases of diphtheria are reported in this area.

Two or three cases of diphtheria have been reported from the Three Lakes community in the Bartley family. However, no new cases have shown up and the malady is thought to be under control.

Scarlet fever cases have also been reported in that community and also at T-Bar and in Tahoka.

People are warned by local doctors to exercise every care to prevent spread of the disease, and, particularly, to observe quarantine regulations to prevent a general epidemic.

**DR. DURHAM IS SPEAKER AT DENTAL MEETING**

Dr. K. R. Durham was one of the principal speakers at the meeting of the Dental Association of the Thirteenth District at Wichita Falls on Tuesday of this week.

Dr. Durham has become recognized as one of the best informed dentists respecting his profession in the state and is often called upon for a discussion of some topic relating to dentistry.

Not long ago he was on the program of a Louisiana dental association at Shreveport.

**LYNN COUNTY PEOPLE MOVE TO ROPESVILLE**

Lee Short came in Thursday and ordered his paper sent to Ropesville, having moved to one of the places on the Government farm project near that place.

Others who have recently removed from Lynn county to this project includes Arthur Murphy, who resided on the Will Montgomery place, and A. W. Arnold, who resided on the Boyd Rice farm. Mr. Arnold is also a subscriber to the News.

Little Gordon Truett Smith, the year-old son of District Attorney and Mrs. Truett Smith, was sick the first of the week but is now improved.

**MANY VISITORS AT ROTARY CLUB**

County Judge Perry Goad was the principal speaker at the Rotary Club luncheon Thursday, giving many facts and figures respecting the business and the financial affairs of the county.

He made a somewhat detailed report of the county's expenditures as well as the revenues received from ad valorem and car license taxes and showed that the expenditures last year considerably exceeded the income. He explained that it was therefore imperative that the expenditures be curtailed, and with all the county commissioners present he declared that the commissioners court was determined not to increase taxation but to curtail expenses.

The News will probably publish the substance of this report next week.

Many visitors were present. Two of these were distinguished baseball stars: Jack Knott of Brownwood, pitcher for the Chicago White Sox, and Sam West of Lubbock, Center fielder for the Washington Senators.

Other visitors were: Arch Bucy of Brownwood, a state highway contractor, Carl Roundtree and W. J. Beckham of Lamesa, Superintendent M. L. H. Baze of Brownfield, John Reagan of Floydada, Jimmy Rankin, editor of the Slatonite, Slaton, Walter H. May of Wilson, the four county commissioners, George Small, Waldo McLaurin, Sam Holland, and Tom Hale, and two new business men of Tahoka, A. H. Raborn, the new Chevrolet dealer, and Terry Thompson, proprietor of Thompson's Variety Store.

The program on Thursday of last week was featured by a discussion by Charles Townes of the postal system.

Rev. Ben Hardy reported the marriage of a Big Spring couple at his residence Sunday night but we were requested later to withhold the names from publication.

**Sir Edmund Andros Was Able Colonial Governor**

Sir Edmund Andros was born on the island of Guernsey, in the Channel islands, on December 6, 1637, and died in London in February, 1714. His family belonged to the feudal aristocracy of that island. As a friend of the duke of York, he came to New York as governor in 1674, remaining there until 1681. Five years later, says a writer in the Detroit News, he returned to the colonies, to carry out James II's idea of consolidating the New England colonies into one royal province.

When they heard of the landing of William of Orange in England in 1688, the people of Boston rose and seized the royal officers, including Andros himself. He was returned to England for trial but acquitted, and in 1692 was appointed governor of Virginia, where for five years he had considerable success. From 1704 to 1706 he was lieutenant-governor of Guernsey. "The Dictionary of American Biography" states that "though not popular with advocates of democratic government, nevertheless, he was one of the ablest English colonial governors of the Seventeenth century." He was essentially a soldier, and where solidly qualities were needed his rule was excellent; but he lacked understanding of business affairs and of Puritan psychology. That England valued his services is shown by his long years in office and his appointment to difficult posts.

**Polar Eskimos Friendly**  
Polar Eskimos are a friendly, happy people who live farther north than any other human beings. They rove the Arctic from Greenland to Alaska. Skin tents are their habitation during the brief summer; snow igloos their winter homes. Their food, save for a few birds' eggs and berries, is exclusively flesh—the seal, bear, fox, whale, walrus and reindeer being the provider. They are prodigious eaters, hence their plumpness and perhaps their good nature.

Mr. and Mrs. R. B. McCord returned Thursday from Hot Springs Arkansas, where he took baths for rheumatism, and Tascaloosa and Birmingham Alabama, where they visited relatives. They were gone about a month. Mr. McCord is reported to be much improved in health.

Optician: Weak eyes, eh? How many lines can you read on that chart?  
Patient: What chart?

**Jungle Is Termed Safer Than Cities by Priest**

Cleveland.—After 32 years in the Amazon jungle, Brother Raphael Haag is bewildered by the multitude of automobiles on the streets of modern American cities.

The rush of motor traffic so confused him that he gained the impression there were more automobiles than pedestrians on the city streets.

Brother Haag made his first trip to America since 1905 to visit a brother, Herman Haag. The priest is a teacher in the mission school of the Holy Ghost fathers in Tefe, Brazil, on the Amazon river.

Being a missionary is the safest occupation at Tefe, Brother Raphael is convinced. "The Indians distrust all white men," he explained, "but they respect the priests for the long, white cassocks we wear. One day, one of the brothers ventured into the jungle without his cassock but dressed in native garb of white shorts and shirt. He soon was dodging missiles fired at him from blow guns."

**50-Year Photography of Sun Planned by Experts**

San Jose, Calif.—A photographic mapping of the entire sky which will take 50 years to complete soon will be undertaken at the Lick observatory on Mount Wilson, Dr. Joseph H. Moore, assistant director, has revealed.

The project has been made possible by the donation of \$65,000 which will be used in the construction of the largest star camera in the world. The instrument will have a 20-inch lens.

The carrying out of the 50-year program will make possible the measurement of the rotation of the entire stellar universe.

**Spice of Health**  
During the Middle Ages it was as drugs rather than flavoring mediums that spices were used, and as such were commercially of great value. They were also prized because of their aroma which counteracted the evil smells prevalent, for disease was commonly supposed to be the outcome of bad odors. Spices are a safeguard against disease, for now we know that they have a definite antiseptic value, says London Tit-Bits Magazine. Oil of cloves, for instance, acts as an antiseptic even in as weak a dilution as 2 parts in 1,000, cinnamon bark oil in a solution of 4 parts in 1,000, though carbolic acid ceases to have any antiseptic value when 5.6 parts are mixed in 1,000 of water.

# C. C. Connolly Sells Chevrolet Agency

Coming as something of a surprise was the sale last week of the Connolly Chevrolet agency and business here by Chester Connolly and associates to A. H. Raborn of McAllister, Oklahoma, and his associates. Mr. Raborn is the manager in charge. The new company is known as the Raborn Chevrolet Incorporated. Mr. Raborn himself has been a district manager for the Chevrolet people for a number of years at McAllister.

The new company was not prepared, when we interviewed Mr. Raborn, to make announcement as to the sales force and the corps of employees in the mechanical department, but it was stated that Jeff Connolly, Ovid Luallin, and Beecher Sherrod would be among those retained in their respective positions.

Neither was Mr. Connolly prepared to state what his plans were for the future, but he will remain here temporarily at least. Eventually he will probably move to some other field of activity. Mr. Connolly's retirement from business here has evoked many expressions of regret. He has been engaged in the automobile agency business here for twenty years and bears the confidence and friendship of our entire citizenship.

Mr. Raborn and family are preparing to move to Tahoka at an early date. His family at present consists of his wife, one daughter, Jane, who is a high school student, and Ruth, who is in school in Oklahoma City. He and wife also have one married son.

Mr. Raborn is a man of pleasing personality and much business experience, and he and family will be welcomed to Tahoka.

### INVALID LADY HAD A GREAT CHRISTMAS

Mr. Editor, friends and readers of our home-town paper: I did not intend being so late letting you good people know what a fine Christmas many kind thoughtful people helped make for Dad and I. December 19th greetings began arriving in four to seven a day up to noon Christmas eve. December 20th several ladies and children of Grassland surprised me with a miniature Christmas tree and all the trimmings and a number of nice gifts.

The children said speeches and two young ladies sang "Silent Night" very sweetly. Dad and I get much pleasure listening to children sing and say speeches. It took me back to the time when I spoke my first piece "Twinkle, Twinkle, Little Star".

December 22nd Mamma Claus came in with a basket full of good cats, a bag of fruit and believe me, Mamma Claus is a fine cook.

Saturday morning the grand kiddies came with their gifts. Saturday night fruit and candy galore. Prince Albert for Dad and a package from our son at Rankin, Texas.

Saturday morning a fruit cake for me and a pie for Dad from a friend and former neighbor of the Grassland neighborhood. A cake for Dad Christmas morning.

Monday evening another feast of cakes, pies, turkey and the trimmings from a close neighbor. My, it was all so good.

Tuesday another box of fine cakes. I had the pleasure of eating a piece of cake that came all the way from New York.

Christmas eve. Sister D. W. Reed came with five of her seven granddaughters and put on a program of songs for us. My, how well she has those little tots trained to sing. They sang Silent Night very sweetly closing their program with, Jingle Bells.

Wednesday evening after Christmas more fruit cake, fruits and a pretty pot plant all a bloom from Grassland.

I hope I haven't missed any one in this Christmas report but I see I have it mixed up a bit and hope you will pardon the mistakes of an old woman sixty-five years old who has been sick with a cold the past month.

Thanks to each and every one who helped to make our Christmas so fine. A happy and prosperous New Year to every one.—Mr. and Mrs. W. J. Faires.

### CITATION BY PUBLICATION

The State of Texas,

To the Sheriff or any Constable of Lynn County, Greeting:

You are hereby commanded to summon Herschel Fowler by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Lynn County, to be held at the Court House thereof, in Tahoka, on the Second Monday in February A. D. 1939, the same being the 13th day of February A. D. 1939, then and there to answer a petition filed in said Court on the 9th day of August A. D. 1938, in a suit, numbered on the docket of said Court as No. 1243, wherein Maggie Fowler is Plaintiff, and Herschel Fowler is Defendant, and said petition alleging that plaintiff resided in Lynn County, Texas, more than 3 months next preceeding the filing of her petition, and that she had been a bonafide inhabitant of the State of Texas for a period of more than 12 months prior to filing of her petition herein. That she and the defendant married in Baylor County, Texas on the 20th day of January, 1924 and lived with defendant until the 26th day of July,

1934, at which time defendant voluntarily abandoned plaintiff with the intention of abandoning her for ever, and since which time plaintiff and defendant have not lived together as husband and wife. That defendant is a non-resident of the state of Texas. That there was born of this marriage one child, a girl by the name of Mary Francis, who is 13 years old. That at all times when plaintiff and defendant lived together as husband and wife, she conducted her self with propriety and forbearance, and treated her husband with kindness and forbearance, but regardless of this defendant abandoned plaintiff as aforesaid on said date, and will not live with the defendant but has totally abandoned her for more than three years and has not supported her self and said child. Wherefore plaintiff prays that defendant be cited to appear and answer this petition, and on final hearing she have judgment of divorce, custody of said child, and for such to her relief, both general and special, in law and equity that she may be entitled to.

Herein Fail Not and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under My Hand and the Seal of said Court, at office in Tahoka, Texas, this the 3rd day of January A. D. 1939.

Hattie Server, Clerk, District Court, Lynn County. 21-4tc.

STATED MEETINGS of Tahoka Lodge No. 1041 the first Tuesday night in each month at 7:30. Members urged to attend. Visitors welcome.

**NOTICE TO THE PUBLIC**  
Any erroneous reflection upon the  
reputation or standing of any indi-  
vidual, firm or corporation, that  
may appear in the columns of The  
News will be gladly corrected when  
called to our attention.

Some of the Republican leaders  
are bitterly criticizing President  
Roosevelt's proposal for a greatly  
enlarged navy and air force. They  
say we are in no danger of attack  
from any nation. That may be  
true now; but suppose we should  
let such nations as Japan, Hitlerized  
Germany, and fascist Italy far  
outstrip us in naval and aerial  
strength. It would not be long until  
one or more of these nations would  
sweep down upon some of our  
South American neighbors and even  
upon Mexico like a hawk on a  
brood of helpless chickens. With  
these countries subjugated and  
under their power, it would be easy  
for them, with their superior air  
force, to bombard and devastate  
our cities and work havoc in this  
country. The United States should  
be prepared at any and all times to  
meet and repel the attack that any

and all dictator nations of the Old  
World might make upon us or upon  
other countries on this continent.

Bruce Barton, noted political  
writer and commentator and now a  
member of congress, recently called  
attention to the fact that the so-  
called liberals in the Democratic  
party are exactly the reverse, in  
their thinking and their policies, of  
the original liberals. It certainly is  
true. Jefferson was the outstand-  
ing liberal of his day in this coun-  
try. He believed, as he stated, that  
that government is best which  
governs least. Webster defines a  
liberal as "one who favors greater  
freedom in political or religious  
matters". The so-called liberals of  
this day are constantly seeking to  
enlarge the powers of the national  
government and to regulate all the  
business activities of the citizen.  
They are digging into the private  
affairs of the citizens and limiting  
their freedom of action as never  
before in the history of this coun-  
try. The "liberalism" of these fel-  
lows would make Jefferson turn in  
his grave.

President Roosevelt has asked for  
an increase in relief funds. He  
wants 875 million dollars with  
which to operate the WPA until  
June 30. So, it seems there is to be  
no end of relief. On the other hand,  
the relief fund is increased with  
each succeeding appropriation. But  
many Congressmen are in rebellion.  
Even some of those who have  
faithfully supported the President  
are now doubting the wisdom of  
perpetually increasing relief ap-  
propriations. The perpetuation of  
such a policy will eventually draw  
us into the whirlpool of commun-  
ism, if we don't watch out. We  
guess it will be all right if prop-  
erly safeguarded. We hope that a  
lot of good roads may be built while  
the spending spree is on.

The editor accompanied Mrs.  
Hill to Rogers last week, where her  
father was ill with bronchial pneu-  
monia. The writer returned to Ta-  
hoka Sunday but Mrs. Hill re-  
mained to care for her father for  
possibly 10 days or two weeks  
longer, who is recovering from the  
attack. Not much rain fell while we  
were in that part of the state but  
good rains had fallen during the  
Christmas holidays, which put  
the soil in fine condition and saved  
the grain crops. More rain fell after  
we left.

In less than a week now Wilbert  
Lee will give us the low-down on  
how to finance old-age pensions  
for most everybody. We are patient-  
ly waiting for the dope.

For quick results, try a News  
classified ad.

Mussolini has issued a call im-  
ploing Italians in other lands to  
return to Italy. Funds have been  
appropriated and machinery set in  
motion to induce the wanderers to  
return home. Mussolini estimates  
that there are ten million of them.  
He needs them as man power in  
the home country and to give him  
an excuse to start further wars of  
conquest to provide more lands for  
his subjects. Well, so far as we are  
concerned, there are plenty of  
Italians in this country that  
Mussolini can have. Goodbye Wops,  
we wish you well. But better be  
careful not to start anything on this  
side the pond, and not to get too  
fresh on the other side.

That fellow McDonald, who got  
licked for a second term as land  
commissioner because of some raw  
deals he pulled, executed another  
coup just two or three days before  
retiring from office. He made some  
oil leases to a friend, and already  
the new attorney-general, Gerald  
Mann, is filing suit to cancel the  
leases. We are proud that we never  
did vote for that bird, McDonald.

**ELDER DRENNON'S NOTES**  
Here we are again in a brand  
new year. We feel that last year  
was good to us, and we hope to do  
more for our blessed Lord and  
his cause this year than last.

The church here started off the  
new year in a fine way with two  
large crowds the first Lord's Day,  
and although last Lord's Day was  
very damp the crowds were fair.  
Here is our report for last year,  
which we think is fine for a small  
congregation. Some \$2,000 was  
raised for all purposes; \$600 worth  
of improvements was put on the  
parsonage and \$200 was given to  
charity. Seventeen new members  
were added, and the congregation  
has peace, harmony, and brotherly  
love prevailing in their midst. We  
are hoping to surpass that this  
year.

I have never lived and labored  
with a congregation where the whole  
membership lived cleaner lives or  
got along with each other better.  
We were happy to see Editor  
Hill put our friend Lee O'Daniel's  
picture on the front page last week.  
Keep the good work up; he may  
make a good governor yet, who can  
tell?

What a fine rain! How good God  
is to us and how unappreciative  
many are. It is as the song goes:  
"Count your blessings, name them  
one by one, and it will surprise you  
what the Lord hath done", and  
then count what you do for Him  
and it will surprise you what little  
you have done.

I see by the Sunday Avanteche  
that a lady is bragging about keep-  
ing a diary five years without miss-  
ing a day. That is hardly worth  
mentioning. I have kept one for  
twenty-five years without missing  
a day, then three years with only  
one day out, and two years when I  
did not get my diary first day of  
the year but kept a perfect record  
after. Who can beat that?

"A father of eight sons gave the  
following report on their interests  
and achievements: The first son  
grew up to be a lawyer; the second  
would not tell the truth either. The  
third became a doctor, and the  
fourth also stayed out all night.  
The fifth is a school teacher, and  
the sixth is broke too. The seventh  
is a preacher, and the eighth will not  
work either."

Yours for more people who spell  
work with a capital W.—Minister of  
the friendly church, R. P. Drennon.

**ALBANY HAS NEW PAPER**  
The Shackelford County Leader  
is a new newspaper published at  
Albany as a result of a partnership  
formed between C. A. Fryer, for-  
mer editor of the Albany News, and  
John H. McGaughey, editor and  
owner of the Moran News.  
Andrew Randolph, brother of  
Mrs. Beecher Sherrod of Tahoka,  
who worked several weeks for The  
Lynn County News preceding  
Christmas, will operate the Moran  
News.

Less trying days!

MONTH in, month out, many  
women and girls obtain two-  
way benefit from Cardui. It aids in  
building up the whole system by  
helping women to get more energy  
from their food—and so increases  
resistance to the strain of func-  
tional periodic pain. Try it!

**CARDUI**

**BUY OUR PAPER**

John Baze while out on the  
streets soliciting business for The  
Record told a customer that sta-  
tionery printed at this office con-  
tinues to give the best of satisfac-  
tion.  
Last week we printed a thousand  
statements for a man who has since  
collected a small fortune from a  
dead aunt. Two months ago we  
sold a young man some paper to  
use in writing to his sweetheart.  
A month later we printed wedding  
announcements for them. Last week  
we printed sale bills for the bride's  
father, and this week we printed  
postal cards for Sheriff Gregory who  
is looking for the whole bunch.  
Another young man stole some of  
our paper for cigarette wrappers  
and he is dead.

By using our stationery and  
printing you can collect old ac-  
counts, tell fortunes, make rain,  
change the color of your hair, be  
successful in business, triumph over  
your enemies and get elected to office.

Try some.—Colorado Record.

**IT PAYS TO ADVERTISE**

An Arkansas woman advertised  
for a husband. She got one at the  
cost of \$9.00. He enlisted in the  
army and was killed. She got \$3,000  
insurance and a widow's pension for  
the rest of her life. Yet some  
will tell you that advertising doesn't  
pay.—Colorado Record.

"If you are a friend of man  
Let him know it  
If you want to help, and can,  
Why not show it?  
Your good will expressed in deed  
May just meet another's need  
But what good is any need  
Unless you sow it,  
Mary Mitchell in the Beaver Bulletin.

Postmaster General James A. Far-  
ley announced recently that postal  
revenues and mail volume for the  
1938 Christmas period were the  
highest in the history of the Postal  
Service. Based on reports from the  
largest post offices in the United  
States.

**Tahoka Sends  
38 To Tech**

Lubbock, January 12. — Texas  
Tech students list 465 names of  
towns, cities, villages, as their  
homes. Lubbock leads the list with  
734 enrolled. Sixty-three students  
are from Amarillo and 53 from Fort  
Worth.

Eight next ranking towns are:  
Dallas, 51; Lamesa, 45; Tahoka, 38;  
Littlefield and Slaton, 36 each; Big  
Spring and Brownfield, 35; Floyd-  
ada, 34.  
All parts of Texas are represented,  
from the most southern point in  
Cameron county, to extreme north-  
ern in Dallam and Lipscomb.  
Students from El Paso and Red  
River counties bring east and west

together on Tech campus. From the  
gulf coast region come Galveston  
and Houston students; from the Rio  
Grande border, those of Del Rio  
and Eagle Pass. Kermit, on the  
New Mexico border, and Childress,  
where the Panhandle joins Okla-  
homa, complete the territorial re-  
sources of Tech's enrollment.  
Out of state students number 105.

**CHEER UP BIG BOY, DON'T BE SICK  
ALKA-SELTZER DOES THE TRICK**

Why don't you try Alka-Seltzer  
for the relief of—  
**HANGOVER**  
Stomach Gas, Headache, Acid Stom-  
ach, Colds, Neuralgia, Fatigue, Mus-  
cular, Rheumatic and Sciatic Pains?  
Alka-Seltzer has a pleasant, refresh-  
ing, tangy taste. It contains an anal-  
gesic (Acetyl-Salicylate, a Sodium  
Salt of Aspirin) which relieves pain  
and discomfort, while its vegetable  
and mineral alkalis help to cor-  
rect the cause of those minor ail-  
ments associated with hyperacidity  
of the stomach.  
At your drug store, at the soda foun-  
tain, and in 30c and 60c packages for  
home use.

**BE WISE-ALKALIZE!**

**For Bronchial  
Coughs, Colds**

You Can't Go Wrong  
On Buckley's Mixture  
One little sip and the ordinary cough is  
eased—a few doses and that tough old  
hang-on cough is "on its way"—It's really  
wonderful to watch how speedily hard  
coughing stops and how the chest  
feels better. Buckley's Mixture  
away that tightness begins to loosen up—  
the bronchial passages clear—you're on  
your toes again and breathing easier.  
Get Buckley's—by far the longest selling  
cough medicine in all solid Canada—Costs but  
little at drug stores everywhere.

**HOW DIPHTHERIA CAN  
BE PREVENTED**

Before the development of  
antitoxin, diphtheria was re-  
garded as one of the greatest  
menaces to child life—a large  
proportion contracting the  
disease died.  
With antitoxin treatment,  
such deaths have been re-  
duced to a small fraction of  
the former mortality.  
Nevertheless, thousands of  
children die every year from  
diphtheria, largely because a  
physician is not called prompt-  
ly. Children may be ill with  
diphtheria and not show  
alarming symptoms. Some  
remedies are tried, and the  
consequent delay in calling a  
physician and administering  
antitoxin may result in death.  
"Prevention is better than  
cure," and means are now  
available for protecting child-  
ren against diphtheria, just  
as is possible with smallpox.  
Treatment with Park Davis  
Diphtheria Toxin or Diph-  
theria Toxin-Antitoxin Mix-  
ture will immunize practically  
all children so that they will  
be protected for several years  
and probably for life. In  
those sections of the country  
where these immunizing mea-  
sures have been generally  
adopted, they have greatly  
reduced fatalities from dip-  
theria.  
Your physician will gladly  
advise you regarding these  
methods of safeguarding your  
children against diphtheria.

**GOLD MEDAL "Farm Tested" EGG MASH  
PAYS BACK MOST PER \$ SPENT**

**Increases Hatchability**  
Another source of increased profit  
for the GOLD MEDAL users is the  
increased hatchability of eggs from  
GOLD MEDAL fed hens. This is a  
direct result of the improved health  
which GOLD MEDAL EGG MASH  
produces in the adult hens. The  
hatchability of eggs is a yard stick  
by which one can measure the  
physical condition of the hens that  
laid them. And the only way that  
one can increase this hatchability  
in a mature flock is to improve the  
hens physical condition.

## Club and Church News

### ALEX NEVILL AND MISS PAULINE RILEY WED

Alex Nevill and Miss Pauline Riley were united in marriage Sunday afternoon in the presence of a number of relatives and friends at a little station just on this side of the Texas-New Mexico state line on the Dal-Paso highway east of Hobbs.

Accompanied by Miss Jennie Revia Nevill, Miss Johnnie McClintock and W. J. Riddle, the party drove first to Hobbs, where they enlisted the services of the Baptist pastor at that place and where they were joined by Mr. and Mrs. Curtis Crouch and Mr. and Mrs. Edd Welch, and the entire party then drove back over on the Texas side of the line, where the marriage ceremony was performed.

Alex is the son of Mr. and Mrs. J. L. Nevill and the bride is the daughter of Mr. and Mrs. R. Riley. After returning from a honeymoon trip to the Carlsbad Cavern, the couple will make their home here.

### GRASSLAND 4-H CLUB

At a meeting of the Grassland 4-H Club January 6, at nine o'clock at the school house, the Home Demonstration agent, Miss Lillith Boyd, suggested that the members use sacks or unbleached muslin for making cup towels.

The material should be torn to remove all uneven edges and selvage.

The club is making plans to give a play soon.

New members were: Cloeta Hicks, Bernice Huffaker, Wanda June Hicks, Beatrice Hudgens.

Members present were: Frances Aten, Maxine Cash, June Cooper, Mary Ruth Edwards, Kittle Glenn, Billie Greer, Rubie Greer, Pauline Hudgens, Eula May Laws, Joy Lanell Moore, Neida Lois Moore, Marie Norman, Beth Shepherd, and Margie Shepherd.

Mrs. N. M. Wyatt who was so seriously ill several weeks and who underwent a major operation is now able to be up and is rapidly regaining her accustomed strength and health, to the delight of her many friends.

### Texas Jackson Day Speaker

William O. Douglas of Washington, D. C. Chairman of the Securities and Exchange Commission, will be honor guest and principal speaker at the official Texas Jackson Day dinner to be held in Dallas, Saturday, January 7, at the Adolphus Hotel. Marion S. Church of Dallas, Chairman of the Jackson Day celebration, expects the coming of Mr. Douglas to Texas to result in the greatest rally of Democrats in the history of the Southwest. Mr. Douglas, who until his appointment, was a professor of law at Yale University, is one of the outstanding figures in world finance today.

## THE PATHFINDER

is the one and ONLY publication with the knowledge, experience and courage to give you every week the first-hand, inside information which is positively necessary for you to have. It is the ONE publication which is under no obligations to the big moneyed interests or czars of trade—none of those fatal tie-ups with the selfish cliques who gamble in the very life blood of the people. That is why the Pathfinder is in a position to tell you the unvarnished facts in the plainest possible English. You can depend on every word it says—and there is no substitute for reliability.

EVERY WEEK FROM WASHINGTON, D. C.

Washington is now the news center of the entire world. It is the one place in the country where a strictly unbiased and reliable publication can be issued. That is why the Pathfinder is located there. The same clear sighted vision which led to the selection of the National Capital as the home of the Pathfinder over 40 years ago is the backbone of every single issue of the Pathfinder today.

It is our privilege for a limited time to offer you at a greatly reduced bargain price the greatest and most popular national weekly—The PATHFINDER—together with THIS PAPER, both a full year—52 weeks—for

Only \$1.75  
THE LYNN COUNTY NEWS

### METHODIST CHURCH WILL RECEIVE MEMBERS

Our Church School with additional workers announces it's morning session at 9:45 and evening sessions at 6:15. There will be meetings for Intermediates and another for Seniors and Young People. All will meet in the League room for combined worship.

Sermon Sunday morning at 11 on Peter's Confession. Tre Rock Under the Church. Evening worship at 7 on Prayer. Thirteen members are yet to be received into the fellowship of the church and it is to be hoped that a full attendance of the church may greet them on Sunday morning. Get your copy of church goals Sunday.

District Missionary Institute will be held January 10, 1939 in Asbury Church, Lubbock, at 10. The pastor's and other cars will leave the church at 9 o'clock Thursday for the Institute.

The following members are to be received Sunday:

Mr. and Mrs. O. A. Conley, Rural Carrier; Mrs. Laverne Newton; Mrs. J. M. Jones, Maurice Jones, Odell Jones, Morrell Jones, Wyonell Jones,

all of whom live on the Windham farm; Mr. and Mrs. Terry Thompson who have the Thompson Variety Store; Miss Hattie Server, and her father and mother who reside in the house they moved to Tahoka, across from Geo. Reid, on the Brownfield highway. Last week we received Mr. and Mrs. Conway Clingham of the Texico Oil Company.

Duane Howell, little son of Mr. and Mrs. L. D. Howell, was taken back to the Lubbock Sanitarium suffering from a new attack of

pneumonia. Although he has been very sick, his condition Wednesday was reported to be slightly improved.

### NEW LYNN CLUB NEWS

A balanced diet for the family will be the result of systematic meal planning, Miss Boyd told the members of the New Lynn club Tuesday, January 3, 1939, in the home of Mrs. Doyle Terry. Miss Boyd also gave some information on the amount of foods of different types needed for the family for a period of one year.

A refreshment plate was served to the following members: Mesdames John Meeks, Leroy Baker, H. A. Winkler, E. B. Terry, P. K. Fleming, J. A. Jaynes, R. W. Barton, Newman Bartley, Doyle Terry, the agent, Miss Boyd, and one visitor, Mrs. Nelson English.

The next meeting will be with Mrs. Barton, Jan 17.

TAHOKA, TEXAS

### Heart Disease Health Problem

Austin, Jan. 10.—The steadily increasing rise in deaths attributable to heart disease represents a major health problem. That certain childhood infections such as scarlet fever, diphtheria, rheumatic fever, and even measles frequently are responsible for undermining the heart and thus causing it to weaken in later life is generally recognized," states Dr. Geo. W. Cox, State Health Officer.

"The well directed efforts by physicians and health officers to reduce the number of these serious afflictions of youth through the application of preventive methods, early diagnosis, quarantine, and proper care during illness and through convalescence, all should have a marked influence eventually in reducing heart disease from those causes. Syphilis, which also is one of the main, if not the greatest heart-crippler, is being waged against energetically," Dr. Cox further states.

"However, in spite of the public health problems associated with heart disease, and the successful attacks being made against them, many of the premature deaths caused by ailments of this organ could be eliminated if the factor of intelligent personal cooperation were more generally applied.

"One's life habits sometimes influence the heart. For example, if stimulants are excessively used, and susceptibility to their influence is more than average, the effect over a long period of time can result in heart impairment. Again, over exercise or any other undue strain on the adult heart, can affect it seriously. Moreover too much fondness for food by those of middle-age or beyond who already are overweight certainly is no boon to the heart, and with other causes may be a contributory factor in embarrassing its action.

Or to express it positively, the application of the rules of hygienic living aids in keeping the bodily mechanism, including the heart, in good condition. And if to a sensible routine of living be added an annual physical check-up by a physician, mature cases of fatal heart disease could be avoided.

THE HORSE CLIPPERS

#### A Mile

The measurement to which we usually refer by this name is what can be more particularly called the statute mile. It equals eight furlongs each of 220 yards, or 5,280 feet in all. There is another mile—the geographical or nautical. This mile is one-sixteenth of a degree of latitude, or 6,085 feet. The word comes to us from the Latin word "mille," meaning a thousand, says London Answers Magazine. The Roman mile was 1,000 paces. They measured a pace as the distance between the points where the same heel came down in making a stride. The Roman pace—which we should regard as two paces—was reckoned at about five feet. This made the Roman mile—5,000 feet—noticeably shorter than the mile measurement we use today.

#### Insects Have Own Tools to Bore Holes in Wood

Insect egg-laying requires many tools, of which some are surprisingly like man-made tools. The Sirex saw-fly, for example, says a writer in Pearson's London Weekly, uses a gadget very like a gimlet, with which it bores holes in wood to house its eggs. Another type of saw-fly has at its tail two tiny saws fitted with sheaths. These cut slits in stems or leaf veins in which the eggs are placed.

The ichneumon fly works hard for an hour to drill a hole more than an inch deep in tough wood.

And the ichneumon fly is well aware, in a way mysterious to us, that it will strike a grub in the wood on which to lay its egg. Its young will then have living food to eat when they are hatched.

Also there is a locust which lays its eggs in the earth by boring the soil with a tool like the cobbler's awl, and working on the same principle.

The hypodermic syringe of the surgeons injects fluid under the skin; so does the sting of an insect. Actually, when we knock the bee off our skin, his sting, and part of his body, are left behind. Consequently, the bee soon dies. And that is why it was thought bees could sting once only.

But, given time, the bee can remove his sting and fly off to do more damage with it. The remarkable apparatus he uses to inject poison has barbs which attach it securely to our flesh.

The wasp, as it happens, stings a caterpillar, not to kill it, but to paralyze it—as by our anesthetics.

#### Pioneers in Smoking

The Encyclopedia Britannica says that the introduction of the tobacco pipe to Europe is generally ascribed to Ralph Lane, first governor of Virginia; in 1586 he brought an Indian pipe to Sir Walter Raleigh and taught that courtier how to use it. Another authority, "The Social History of Smoking," says that the honor of having first smoked a pipe of tobacco in England is divided among several claimants, Captain William Middleton, Captain Price and Captain Koet having smoked together in London. The same author states that pipes were smoked in England before 1584, the plant having been introduced into Europe about 1560 and been under cultivation in England by 1570. Raleigh first brought the practice of smoking into common use and it is probable that he was initiated in the art by Thomas Hariot, whom he had sent out to Virginia for the specific purpose of inquiring into and reporting on the natural productions, including of course tobacco.

#### Growth of the Flea

Fleas, like all insects, go through stages, from egg, through grub and pupa, to adult insect. The grub feeds on the bodies of dead beetles and other stray animal matter. Then it turns to a pupa, which never eats, but just lies in the dust, in cracks and crevices in the floorboards in houses. It is very sensitive to vibration. Directly a footstep touches those boards, the vibration makes all the pupae wake up and hatch out. From each pupa a hungry flea.

Mrs. Bill Sewell and baby of Lubbock visited her parents, Mr. and Mrs. R. P. Weathers, here the first half of the week. Bill got lonesome Wednesday afternoon and came down and took them back home with him.

### New Home FFA Has Holiday Program

Thursday night December 22, the Department of Vocational Agriculture and Homemaking sponsored a Christmas tree at the New Home School gymnasium. The boys and girls drew names and exchanged gifts. Edward Miller, one of the agriculture boys, impersonated Santa Claus. The program was opened by the regular F. F. A. opening ceremony. Pop corn balls were made and served by the Homemaking girls.

A cooperative vocational program has been planned by the heads of the two departments and the superintendent Mr. J. T. Carter, and is being carried out. The Vocational teachers have exchanged classes one day and Miss Pace, the Homemaking teacher, gave the boys in-

struction on Manners, and Mr. Hall, the Agriculture teacher, gave the girls instruction on Home Beautification. Mr. Hall has given the Junior and Senior Agriculture boys and Junior and Senior Homemaking girls a demonstration on cutting up beef for canning. The Agriculture boys and Homemaking girls are selling pop and candy cooperatively at the basketball games. A radio program is planned to be given over KPYO, February 8, at 1:30 to 1:45 o'clock.

Mrs. H. B. Howard and son Grady of Lubbock were here Tuesday visiting her daughter, Mrs. Frank Hill and Mrs. Harley Hederson.

Mr. and Mrs. Frank Edwards and Mr. and Mrs. Harold Edwards made a trip into New Mexico last week.

## Batteries . . .

Now is the time to trade that old weak battery off. We have just received 25 new—

### PHILLIPS BATTERIES

From the factory. We give a written guarantee on every one of them. The price is in line with all standard batteries. We will give \$2.00 for your old battery on our low price battery, or \$2.50 on our better battery,

SPARE RIBS HOT BARBECUE FRESH OYSTERS

Postmaster General James A. Farley recently issued a fraud order against Leo C. Browne and L. C. Browne, at New Orleans. Evidence showed that Browne was soliciting remittances from persons in the U. S. over a period of more than fifteen years in an enterprise involving the sisal industry of Yucatan, Mex.co.

### WPA Grant For Historical Work

CANYON, Jan. 3.—West Texas State College will be sponsor of a new WPA historical project for which an allotment of \$26,094 has just been made.

The federal announcement said that the work would be done to prepare the materials, collected from 26 Panhandle counties, for display and study in the Panhandle-Plains Historical Society museum here. Dr. L. F. Sheffy, head of the College history department, will be the sponsor's supervisor in charge. No writing will be involved, but much collecting and copying will be made possible. Work will start almost immediately, but only in a few counties at first. It will be necessary to choose a non-relief superintendent and to train the WPA historical workers for their task.

The allotment includes funds for preparing the material for display and study in the museum here. It is not a writing project. Much clerical and other office work must accompany the field activities.

Announcement of the allotment was made to Dr. J. A. Hill, president of the College by Senator Tom Connally while Prof. Sheffy was in Chicago attending a meeting of the American Historical Association.

Mr. and Mrs. M. E. McCord of Plains came over Monday afternoon and visited their son and daughter, Travis McCord and Mrs. Homer Harrison, spending the night with the latter. They report that the rain over in Terry and Yoakum was about the same as here.

### Make College Reservations Early

Youngest donors to the fund for a campus chapel at Texas State College for Women, Denton, are Misses Anita Lee Voelkel, 3 years, and Patricia Sue Voelkel, 8 months, who sent contributions of one dollar each. Prospective students of 1952 and 1955, the two small philanthropists are daughters of Mr. and Mrs. Kermit E. Voelkel of Austin and nieces of a present student at the college, Miss Minnie Mae Voelkel. The chapel will be about fifteen years old when they attend TSCW.

### MISS HUFFAKER IS WED AT WILSON

Plainview, January 2.—The marriage of Miss Chloe Huffaker of Plainview, daughter of Mr. and Mrs. W. C. Huffaker of Wilson, and Peyton Reese of Floydada, son of Mr. and Mrs. W. H. Reese of Plainview, was performed at 8:30 o'clock Sunday morning at the home of the bride's parents, Rev. C. R. Hooten, presiding elder of the Sweetwater Methodist district, officiating.

Miss Eva Payne Huffaker of Ropesville, aunt of the bride, sang "At Dawning" (Cadman) as a prelude to the ceremony with Mrs. Jim Johnson of Lubbock, another aunt, at the piano.

Mrs. Layton Lawson of Wilton was matron of honor and Billy Pierce of Plainview was best man. The bride wore a dusty pink costume suit with claret accessories and a corsage of red roses. She is a graduate of Texas Technological college and for two years was home

demonstration agent in Hale county. Mr. Reese is a pharmacist at Floydada where the couple will be at home after a wedding trip to Albuquerque, N. M.

W. M. Yates, son of W. A. Yates of West Point, was sworn in for his second term as county judge of Dawson county at Lamesa last week.

Tom W. Beauchamp, recently appointed secretary of state by Governor-elect W. Lee O'Daniel, was a boyhood schoolmate of J. B. Nance of this city, the later reports.

### For 372,000 Jobs Secured

Austin, Jan. 12. — With the launching of the third year of unemployment compensation in Texas, Orville S. Carpenter, chairman-director of the Commission, recounted some of the high spots of the year just past.

Most important of the tasks of the Unemployment Commission is that of job-finding for the unemployed. Figures for 1938 show that 372,000 persons have been placed in suitable jobs by the Texas State Employment Service, a division of the commission.

According to a statement by Frank Persons, director of the United States Employment Service, Texas leads all other states in job placements as well as in rapidly with which unemployment compensation claims are handled. During 1938, 316,000 persons filed first claims for benefits, while more than 1,700,000 continuing claims were filed. Two out of three claims were approved.

Chairman Carpenter reported that more than a million benefit checks were mailed to eligible unemployed averaging \$8.95 each. Total amounts of benefits was \$9,400,000. Under the law, an eligible jobless worker may receive benefits for as many as sixteen weeks during the year with a maximum of \$15 a week and a minimum of about \$5. Employers of Texas built a jobless fund, by contributions for the years 1936, 1937, and 1938, which with interest accruals, is more than \$2 million dollars. Eighteen million came in during 1938 alone. Mr. Carpenter and members of the commission regard this substantial figure as necessary for protection against drainage in the event of severe economic conditions. A depression would double or triple unemployment and cut down contributions at the same time.

The cost of administering the law during 1938 amounted to \$97 per covered worker. All costs of the jobless insurance program in Texas are financed by the Federal government, not by the State.

Elwayne Beard, 7, son of Mr. and Mrs. T. C. Beard, was brought home Friday from a Lubbock hospital, where he had been under treatment for a severe attack of pneumonia. For several days his condition was very grave. Of course his condition was much improved when he was brought home.

### SORE-THROAT TONSILITIS

Your Doctor would recommend a good mop and our Anesthesia-Mop is unexcelled for affording quick relief from pain and discomfort of sore-throat and tonsillitis. Every bottle guaranteed. Tahoka Drug Co. 18-13c.

To enjoy work, a woman must feel well. CARDUI aids in building up the whole system by helping women to get more energy from their food—and so increases resistance to the strain of functional periodic pain. Try it!

### CARDUI

Dr. J. R. Singleton is now recovering from an attack of influenza and bronchitis, of which he became ill more than two weeks ago. For several days he suffered much pain and annoyance.

Virgil Donaghey, who underwent an operation for appendicitis in the Lubbock Sanitarium on Wednesday of last week, is said to be recovering satisfactorily.

### Senior Progress

The Senior class as a whole reports a very merry Christmas and a happy New Year. We the seniors of '39 are indeed grateful that we are once more assembling for classes in dear old T. H. S. and that mourning over the loss of a classmate. As a city, Tahoka has been very careful going to and from holiday visits and in their homes. The school, along with the city, is very proud of this record of no deaths. "A minute lost is better than a life lost."

### The Seniors Message To Tahoka High School

The Christmas holidays round up all of the holidays this semester for the school students. The past semester has been interrupted all season by football games, holidays, special programs, and such as to interfere with the progress made in studies. This coming semester is almost full semester with few, if any, holidays, and few special programs and ball games.

The County Interscholastic League Meet is the most important event for the ensuing semester. The senior class is going to enter the County Meet events, with a large percentage of the total enrollment.

The O'Donnell Eagles have won the Meet two years in succession and if they win the Meet another time, they will become the permanent owners of the loving cup.

If the classes of the Tahoka High School cooperate in this meet as they have in the past, the meet is in the bag.

What has O'Donnell High got that we haven't got? Are they just born victors over Tahoka? These two questions are for each individual in T. H. S. to answer and the right answer will be known after the County Meet.

The town is behind you Tahoka High and they can and will help you win the Meet but the cannot win it for you. That is your job.

"Where there is a will, there is a way," as the old adage goes, and it is very true. There is a will to beat O'Donnell and there is a way. The

way is to try; to try means to work, and work means the defeat of O'Donnell. Tahoka can and will beat O'Donnell in the County Meet.

We are from Tahoka High. Our ambition reaches to the sky. We can beat you if we try. "Down with O'Donnell", is our cry.

We lost to you before. We will lose to you some more. This year we are going to even the score.

For your defeat we have in store. We know that we are just a blowing but to that goal we are rowing. For your defeat is our aim. For that honor we shall sustain.

### "BLACK SHADOW"

O'Donnell boys have a new song to the tune of "California Here I Come." The name of it was "Tahoka Bleachers, Here We Come."

Poor Travis and Turner are still in competition. They've done every thing down to fighting and still can't seem to settle things.

Charles Walden really enjoys reading. Or is it that reason you make so many visits to the library, Charles?

Miss Wilkins returned from the Christmas holidays with a big diamond, rather seven diamonds. Is it an engagement or not? We wonder.

Well, Iris Dean can have and keep one boy friend with no trouble or worry, she has no competition.

Baby Tot is really keeping the road hot to O'Donnell. This is 1939 Baby Tot, and you can't bring back the past.

So sorry we couldn't have made it to Olton and Brownwood, I'll bet we really would have got the lowdown on—better not call any names.

Genalee, never cry on anyone's shoulder. You see boys haven't enough sense to appreciate your tears.

### WONDER WHY'S

Wonder why W. H. was with Helen Bell on Christmas day. Maybe it was because George tried to muscle in on a new girl of his.

Wonder why Coach burns when anyone sends him a definition of a kiss.

Wonder why Coots Jones is never seen with Hazel Thomas anymore?

Wonder why Lucille, Sam Edwards Lynette, J. G., Wanda Lee and Jack Edwards like to run around so much for? J. G. also on special occasions goes with Lynette. That was the case last Dec. 24. Wonder where Adeline was? Looks like Adeline would have been with J. G. on that day.

Wonder why Suitease runs around with small girls. Such as Jean's little sister. —by George and Elbert.

### HOME ECONOMICS PARTY

One of the nicest parties of the year was that of the Home Economics girls given December 22. The girls have "sunshine sisters" to whom they gave gifts, and the girls also brought gifts and drew names. A beautiful tree was placed in the center of the gym and Santa Claus came and gave out the gifts and passed around fruit and candy. Everyone had a very nice time. The Home Ec. girls have been doing very nice work this year and have made many improvements on the Home Economics department. They wish to thank their instructor, Mrs. Regl, for these new improvements and better work.

Rev. Geo. E. Turrentine, new pastor of the Methodist Church.

### SOPHOMORE SERENADE

The Sophomores serenaded the town December 23. Their songs were really enjoyed by everyone. The Sophomores all seemed to have enjoyed themselves very much. After the serenade they returned to the gym for refreshments. They had as their guest Mrs. J. K. Applewhite.

### CHAPEL PROGRAM

For the chapel program before the holidays we had a musical program. Mary Bland Wells and W. H. Fulkerson sang a Christmas carol. Mr. Felts played several different instruments for us. The Girls Chorus, directed by Miss Taylor, sang several numbers. The program was ended by a group of songs played by our high school band.

## NEW LYNN

Yes Sir, We are going to do like these here radio announcers and preachers and such they been de-claiming about fer the past two weeks. That is out here at New Lynn we are. Ain't no use in all of em wastin all thet good breath fer nothin.

All of us out here at New Lynn sirs going to make all those people right glad they spent so much time a talking about reserlutions and sech. Right now we aim to make a reserlution (that is if the Editor of this paper will give us the room) to let everybody know about the things we do out here at New Lynn cause we think we do things most good as anybody and lots better'n some.

Wy, we have the best women's club anywhere, (if you don't think so just come out and partake of some of our cooking); the best of Rural Churches (You know, this here League of Young people is the best in 3 counties cause they keep the Lubbock District Banner most of the time); and then there's a a-a-afly-er, anyway a school thet teaches just like they do in town up to 9 grades, and, and, well, we hev lots we are proud of and we are going to let you here from New Lynn right often during this next year. Which is our reserlution.

Bye til next time.—New Lynn Correspondent.

Miss Lorene Reese is again able to be up after two weeks illness.

## 6 1/8 Hat won't fit 7 1/2 Head

### Wrong Size Lamp Bulbs Are MISFITS Too!

Your eyes are too valuable to risk with dim light. Scientific tests have proven that eyestrain, fatigue and headaches CAN result from dim light. Easy seeing depends upon sufficient light.

So here's a tip to follow for better lighting: See that every reading lamp has at least one 100-watt Mazda lamp, two 60's, or three 40's.

Because different sockets have different needs, we have prepared a special carton of one 40-watt, two 60-watt, one 75-watt, one 100-watt and one 150-watt lamps for only 95c. Or a carton of six 100-watt, or any size smaller, for 90c. All Mazda lamp purchases will be added to next month's service bill if desired.

### Haynes Attends Austin Meeting

W. T. Hanes, superintendent of schools, attended a state-wide school administrators' conference held in Austin Thursday and Friday of last week. He made the trip in company with Supt. J. T. Carter of New Home and a group of Lubbock educators.

The program featured health, physical, and safety education.

### MRS. BERRYHILL IN EUREKA SPRINGS HOSPITAL

Mrs. J. A. Berryhill of the Lakeview community was taken to the Baker Hospital in Eureka Springs, Arkansas, about three weeks ago for treatment for cancer.

Last week Mr. Berryhill was notified that her condition had become very critical and he rushed to her bedside. He left her Saturday somewhat improved, and on Monday morning he telephoned to the hospital and was told that she was very much better. Physicians thought that she would be able to return home within ten days or two weeks.

Dr. and Mrs. L. E. Turrentine left Sunday to spend the week at Corpus Christi, just resting up.

### "Windy" Nicklaus Is College Coach

"Windy" Nicklaus, former coach of the Tahoka Bulldogs, has been appointed head football coach of Oklahoma Baptist University, Dr. John W. Raley, president, announced the first of this week.

Nicklaus coached at Tahoka in 1928 and 1929 and was one of the best coaches the local school has ever had. He went from here to a coaching position in Amarillo Junior High School, then was coach at Amarillo Junior College until that school dropped football competition. The past three years he has been head coach at Altus, Okla. Junior College. He was a star in Amarillo high school, and had just graduated from Texas Tech, where he was likewise a star, when he was elected to his first coaching position in Tahoka.

Many friends here wish him success as a senior college coach. Local citizens take pride in the fact that several other former coaches are climbing the ladder of success. Cecil Peoples, who left here in 1924, is now president of Lon Morris Junior College, Lem Stone is high school principal at Pampa, Don Shiflet has long been high school principal at Midland, and Nig McCarver is assistant coach at Howard Payne.

### Mayas' Interest in Gold Revealed by Earthquake

It was once believed that the Mayas alone were among the ancient races that did not know the value of gold. Very little gold was found in their great ruined temples that vie for sun with the chicle trees in the Yucatan and Central American jungles, and although nuggets have been found lying near the sites of the southern Maya cities, the working of gold jewelry and religious objects is not been considered a part of their culture.

When an earthquake broke open a temple at Copan, Honduras, and disclosed tombs filled with gold ornaments, the Central Americans were placed in the same category as the Aztecs, Toltecs, and Peruvians of the Inca empire for appreciation of the yellow metal.

In Old World annals, the story of man's quest for gold has been traced back to at least 2900 B. C. in Egypt, when under the first dynasty there occurred the first recorded washing of gold. It was not long before man was aware that gold is to be found in practically all rocks—and in the sea water as well.

It is fairly definite that the Mayas were in touch, commercially, with people of a somewhat similar culture in Costa Rica, who made the delicately carved gold frogs and butterflies that are in a New York collection. Little by little, notes a correspondent in the Detroit News, the theory is being established that the pre-Columbian peoples of Central and South America carried on a flourishing international trade, not unlike that of later times, and it seems probable that the gold found in the Maya country was an import from other shores.

### Elephant Seldom Licked in Battle With Animals

The story of the elephant is a story in superlatives. Not only is he the largest land animal, but careful checking of facts points to the elephant as the probable real king of beasts, according to Guy Murchie, Jr., in the Chicago Tribune. There are few reports of his having been defeated in mortal combat by other creatures. He is almost invulnerable to attack and clever in his actions.

Among his peculiar attributes are his trunk, which serves both as arm and nose; his great tusks, which have been known to attain a length of 11½ feet and to weigh 293 pounds; his pillarlike legs, which appear jointless as he stands erect; his thick hide, which gives him the name pachyderm, and his head, in which his smallish brain is protected by so many surrounding bony cavities that only a very carefully aimed bullet can reach it.

### Friction Matches Were Invention of Druggist

The friction match was invented in 1827 by John Walker, a druggist living at Stockton-on-Tees in Durham, England. His matches were made of a compound of chlorate of potash and sugar mixed with powdered gum arabic to make it adhesive when applied to a splinter of wood. They were ignited by drawing them rapidly and under considerable pressure through a piece of folded sandpaper. Such matches were first sold in London under the name of lucifers. Lucifer, often used as a general name for matches, is one of the names of Satan and is derived from Latin "lux," (light), and "fero," (to bring).

An Englishman named Isaac Holden made crude sulphur matches about 1833. A French physician and chemist named Saugrain, who settled in St. Louis about 1800, showed William Clark and Meriwether Lewis how to make matches before they started on their long journey up the Missouri river in 1804. The Frenchman dipped sulphur-tipped splinters of wood into phosphorus and produced flames without difficulty. He then sealed a supply of phosphorus in tin boxes for safety and showed the explorers how to make their own sulphur-tipped sticks. These, of course, were not true friction matches.

### Ransom Note

Some inhabitants of New Amsterdam, whose children and kindred were held by the Indians, petitioned the city court, on March 20, that means be raised "by a general collection or otherwise" for ransoming the captives. The court at the time approved and recommended the matter for speedy action to Stuyvesant and the council. The latter now order a contribution in cloth to be made by each merchant of the city for this purpose.—From Stokes's Iconography of Manhattan Island, dealing with the year 1656.

Mr. and Mrs. John Reagan of Floydada are here visiting her sisters, Mrs. Harley Henderson and Mrs. Frank Hill, and families.

Subscription paying time is here:

The Baptist Workers Conference of the Brownfield Association which convened here last Thursday was one of the best that has been held yet, according to the host pastor, Rev. Geo. A. Dale. The attendance was good and the program was well rendered and much enjoyed. And of course the luncheon prepared by the ladies of the local church was such as to meet every requirement.

### CHEER UP, BIG BOY, DON'T BE SICK ALKA-SELTZER DOES THE TRICK

Why don't you try Alka-Seltzer for the relief of—  
**HANGOVER**  
Stomach Gas, Headache, Acid Stomach, Colds, Neuralgia, Fatigue, Muscular, Rheumatic and Sciatic Pains?  
Alka-Seltzer has a pleasant, refreshing, tangy taste. It contains an analgesic (Acetyl-Salicylics, a Sodium Salt of Aspirin) which relieves pain and discomfort, while its vegetable and mineral alkalis help to correct the cause of those minor ailments associated with hyperacidity of the stomach.

At your drug store, at the soda fountain, and in 3c and 6c packages for home use.

### PENNSYLVANIANS ARE VISITORS IN TAHOKA

Mr. and Mrs. J. H. Lightner of Shirleysburg, Pennsylvania, and daughter, Mrs. Carl Byers of Altoona Penn., are here visiting Mr. and Mrs. J. H. Felts and children. Mrs. Felts is also a daughter of the Lightners.

This is the Lightners' first visit to Texas and the Southwest and Mr. Lightner says he is already convinced this is a great country with a great future. He says he particularly enjoys the hospitality of the people in this section.

Mr. Felts is teacher of band music in the Tahoka schools.

Mrs. Prentice Walker, suffering from an attack of scarlet fever, was brought home from the hospital last Saturday but is still under quarantine. Her condition is much improved.

**Matthews Hit By Bad Luck Streak**

Fred Matthews, wife and little three weeks-old daughter of Draw were in town Tuesday, the first time the young lady had been so far away from home.

While rejoicing over his good luck and the fine rain, Fred reported that plenty of bad luck also had come his way recently. He had been hit both by fire and wind.

On Monday of last week, fire destroyed the wash house and a washing machine together with various and sundry other articles at the home of his mother, Mrs. Felle Matthews, near Grassland.

Then on Saturday night, the fine rain was accompanied by a high wind, which Fred thinks was a tornado, and it blew down a shack at his place 10 by 20 feet in size, tore away part of the barn, and killed five or six of his choice hens. Fred thinks it was plenty of bad luck for one night.

Fred says this was within two miles of the path of the tornado which killed three persons, injured several others and destroyed much property in Dawson and Lynn counties last spring.

**Relatives Parted 54 Years Meet Again**

J. B. Halle, aged local citizen, has been a little more cheerful the last few weeks than usual because of the fact that three nephews he had not seen in 54 years have been to see him.

Along in October, Columbus Halle of Amarillo came down to see Mr. Halle. In November Utilis Halle of Canyon was a visitor, and last Thursday Burder Halle of Clarion called on his aged uncle Mr. Halle had last seen the three brothers in Montague and Cooke counties in 1884, but for many years he had not known their whereabouts.

A few months ago he met a stranger in Woodworth's barber shop, and this man asked Mr. Halle how he spelled his name, whereupon the stranger said he had a friend at Amarillo who spelled his name the same way whose given name was Columbus. Mr. Halle remembered the name as being that of a nephew and so told the stranger. Not long afterward Columbus Halle visited his uncle and returned home to tell his brothers, who have since visited Mr. Halle.

**MISSION BAND TO GIVE PROGRAM AT REDWINE**

The Mission Band of Wayland College will give a series of programs at Redwine Saturday night at 7 o'clock, Sunday morning at 11, and Sunday afternoon at 3, according to Mrs. John Berry of the Redwine Baptist Church.

The band consists of nine members, three young women and six young men.

The general public is cordially invited to attend all these meetings.
