Club and Church News

### MIDWAY GET-TOGETHER PRESENTS PROGRAM

The Midway Get-Together met Friday night, February 25. A large crowd was present.

A three-act play was presented, entitled "Simple Simon Simple", which everyone seemed to enjoy. Musical numbers were presented between acts.

We were glad to have our new county agent, Mr. Turner, with us; also some visitors from Plains and Harmony.

Miss Boyd was presented a gift of an electric coffee pot set, by the Midway clubs.

We are inviting every one to the Midway Get-Together Friday night, March 24.—Reporter.

Mr. and Mrs. B. H. Baker of Clovis, N. M. visited Mr. and Mrs. D. V. Smith here last Sunday.

### METHODIST CHURCH

Sunday morning we will have a sermon related to the Communion of the Lord's Supper followed by the Communion.

The pastor has the church letters of Mr. Donald Turner, county agent, Mrs. Chase Thompson, wife of Dr. Chase Thompson, who is the successor to Dr. L. E. Turrentine, Mr. Jack Welch, Supervisor of the Federal Security office here, and his wife. There are others who are to be received upon presentation of themselves at church, by letter and baptism.

The League meets at 6:45 and Sunday School at 9:45.

Sunday night there will be no services as we give way for the Baptist meeting. Rev. Ben Hardy is teaching "The Invincible Advance" on Wednesday, 7:30 p. m.—George E. Turrentine, Pastor.

### CHURCH OF CHRIST

"Christ's Church: The one we read about in the New Testament", will be the subject of the sermon Sunday morning. Too little is known and taught today about the institution which Christ shed his blood to purchase and establish. There is a wide-spread belief that if one lives a good moral life, treats his family and his neighbors right, and is honest in business, he will be ushered into the eternal Home of the soul when it comes his time to depart this mortal life, regardless of what his attitude was toward Christ and His church. It is not at all unusual to hear "You don't have to be a member of the church to be saved; the church won't save you". True, the church will not save, Jesus Christ is the Savior, but the question is, "Of what is Christ the Savior?" He is the "Savior of the body" (Eph. 5:23) which is the church. (Col. 1:18, 24; Eph. 1:22-23) "The Purity of the Church" will be the subject for discussion Sunday evening. Inasmuch as actions speak louder than words, the sermons we will give will have a greater influence than the ones we preach.

Everyone is invited to attend these services this coming Lord's Day. Bible study at 10:00 o'clock, and worship at 10:50 in the morning. The young peoples' training class meets at 6:30 in the evening, and 7:30 is the evening hour of worship.

Come and bring your friends! A hearty welcome awaits you!

### METHODIST W. M. S. MEET WITH MRS. PROHL

The M. E. Woman's Missionary Society met Monday, February 27 in the home of the president Mrs. E. Prohl.

After the devotional led by Mrs. Fred Bury the guests were entertained with various games, some of which revealed the age, address and family history of anybody present. This led to the amusing game of "Confessing why we got married." Refreshments consisted of Angel Food cake and coffee with Jonquils for favors.

### MRS. E. S. EVANS TO ENTERTAIN PHEBE K. WARNER CLUB

Announcement is made that the Phebe K. Warner Club will meet with Mrs. E. S. Evans on Tuesday, March 14.

Mrs. Myrtle Holland, who has been with Jane's Beauty Shoppe for the past several months, has accepted a position with a Lubbock Beauty Shop.

Miss Mary Seroyer, who has been at Clovis, N. M. since Christmas has returned home very much improved in health.

### Lubbock Will Be Host To Baptists

Hundreds of Baptists from more than twenty counties of the South Plains and contiguous territory, comprising district No. 9 in Texas, will meet in general convention in the First Baptist Church in Lubbock on Tuesday and Wednesday of next week to discuss and promote the many causes fostered by the denomination.

Representatives of the Women's Missionary Union, Baptist Training Union, the Sunday School, and the Laymen's Organization will be present and have programs.

In addition to local speakers a number of the denominational leaders in the state will deliver addresses and sermons. Among these are Dr. R. C. Campbell, state secretary, Dr. T. C. Gardner, Dr. Thomas H. Taylor of Howard Payne College, Dr. Hal Buckner of Buckner Orphans Home, Hon. Herman C. Pipkins of Amarillo, and numbers of others.

Separate conferences will also be held by the various organizations, with many of the leaders in the district on the programs.

Lynn county people having a place on one or another of the various programs include Rev. George A. Dale, Miss Clara May and Mrs. B. W. Baker of Wilson.

### Plan National 4-H Club Encampment

College Station, Texas.—Willie Lee Ulrich of the Lyons 4-H club, Burleson county, and Joe Doyle, Shallowater, Lubbock county, will represent Texas 4-H club boys at the National 4-H Club Encampment in Washington, D. C., June 14-21, according to an announcement made by L. L. Johnson, state boys' club agent of the Texas A. & M. College Extension Service.

Ulrich, 18, has been in 4-H club work for five years, and has specialized in crops, poultry, and swine production. His 1938 sales returns include \$220 from corn, \$385 from swine, \$40 from dairying, \$290 from cotton, \$32 from sale of beef calves, and \$549 from poultry.

He was a member of two Burleson county teams that won state contests at A. and M. cotton classing in 1936 and plant propagation.

### CARD OF THANKS

We take this method to thank our friends and neighbors for their acts of kindness, words of sympathy and beautiful floral offerings, during our recent bereavement the saddest time in our lives. In the loss of our dear son, husband and brother May God's richest blessings be on each of you.

Mr. and Mrs. W. T. Luttrell  
Mrs. Morrow Luttrell  
Mary Gene Luttrell  
H. M. McCullough and family.

in 1937, has served as president of his 4-H club, the Burleson county wide 4-H club, and the Burleson Registered Hog Association. Doyle, 17 a freshman at Texas Tech, spent eight years in club work. His demonstration brought him a sales return of \$3,252. He specialized in crops, including cotton, poultry, swine, and beef calf feedings.

He has been president of his 4-H club, is a Gold Star Winner, and the excellence of his work has brought him trips to Texas A. and M., the Centennial, and Chicago. Both boys have rendered signal service to their communities in various lines and ability for leadership was one factor considered in their selection, Johnson said.

Texas has nine fish hatcheries which last year produced approximately 4,000,000 fingerling fish for distribution. Texas ranks fourth among the States in warm water fish production. According to available records, production lost at Texas hatcheries 11 years ago was 47 cents per fish; production cost last year totaled seven-tenths of one cent per fish.

# New Band Uniforms Arrived Thursday

Tahoka's six months old band received its uniforms Thursday noon. A dress parade on the down town streets will be held possibly Monday.

The uniforms are West Point cadet style in blue and white. Uniforms were bought for 47 members of the organization, and are being paid for through benefit programs, band fees, etc.

The band was started last September, and has made wonderful progress under the direction of Joyce H. Felts, teacher of band music in the schools.

## MIDWAY

Mr. Pharies Stephens of the Midway community was taken to the Levelland Sanitarium last Sunday. Mr. Stephens has been seriously ill for sometime. His condition was gradually improving last Monday. Mr. and Mrs. C. W. McClintock and family visited in Lamesa Sunday with Mr. McClintock's parents, Mr. and Mrs. W. L. McClintock.

Mr. and Mrs. B. F. Rainey and family accompanied by Miss Evelyn McDonald visited relatives in Littlefield last Sunday.

Miss Ruby Gray of Lubbock spent the week end with her sister, Mrs. V. P. Carter.

Mr. and Mrs. Harold Everson and children visited relatives in Brownfield Sunday.

Burt Stephens was brought home from school Tuesday with influenza.

Although first in area, fifth in population, and first in wildlife resources, Texas ranks 23rd among the States in the amount of money provided for wildlife conservation. In Texas, conservation funds come from the sale of hunting and fishing licenses. Under the present law, resident hunting and fishing licenses are required in only 22 of the 254 counties of the State.

The game and fish law enforcement staff of the Game, Fish and Oyster Commission is inadequate. It consists of about 80 men. Each patrols from two to six counties.

## English Speaker At Rotary Club

D. B. English was the principal speaker at the Rotary luncheon Thursday. He discussed the history and present status of the show business.

The first kind of screen show he ever saw, he recalled, was a magic lantern show in a country school house when he was a boy. Then came the silent pictures in about 1903 and the talking pictures in 1928. Television apparatus is to be installed in a hundred theatres this year.

Mr. English thought that the cleanest and highest type of pictures in the history of the industry are being shown today.

Wynne Collier was appointed by President Ray Weathers to head an On-to-Big Spring movement for the district meeting of Rotary International in May.

Edd McLaughlin of Ralls, past Rotary governor for this district, was unanimously endorsed for membership on the directorate of Rotary International.

A report on the prospect of getting an up-to-date telephone system installed here by the Southwestern Associated Telephone Co. was made by Deen Nowlin and briefly discussed by a few of the members. A representative of the Company is expected to be present next Thursday to lay the whole matter before the Club.

New members recently received into the club are: Donald Turner, county agent, W. C. Mathis, county clerk, and Dr. Chase S. Thompson. Conway Clingan, agent for the Texaco Oil Company, was voted in Thursday.

Tom Cobb of Brownfield was a visitor.

The Texas coast is 400 miles long as the Crow flies, but counting islands, bays and inlets it has a 2,000-mile shoreline—a wonderful feeding ground for fish and waterfowl.

Read The Ads And Profit.

## Music Festival Begins Saturday

Schedule for the theory contests to be held Saturday, March 4, at Lubbock in connection with the annual Music Festival sponsored by the South Plains Teachers Association has been announced by the general contest director, Miss Gertrude Rasco of Brownfield.

Mrs. Herschal Coffee of West Texas State Teachers College, Canyon, will conduct oral examinations for students eight years and under in room No. 192 at the Senior High School; and Mrs. Guy Wood of Wayland College, Plainview, will conduct written examinations for students nine years and over in room 252 in the same building.

These examinations will begin at 9 o'clock Saturday morning.

The festival proper will be held March 16, 17, 18 at Lubbock. Judges will be as follows: piano, Claude Herndon of El Paso, Miss Gladys Kelso of North Texas State Teachers College at Denton, and Miss Anna Bess Chambers, supervisor of public school music, Abilene; violin, Herschal Coffee of West Texas State Teachers College, Canyon.

Guy Woods will broadcast the tests Saturday.

Mr. and Mrs. R. W. Fenton returned Friday from Kent, Culberson county, where they spent the past several weeks with relatives. Before returning home they visited many points of interest in the Davis Mountains, including the recently constructed McDonald Observatory. Mr. Fenton says that the springs at Balmorhea are a sight themselves.

The Texas Game, Fish and Oyster Commission is one of the few wildlife conservation agencies in the Nation that does not have authority to regulate seasons and fix bag limits. Many emergencies arise that must wait for Legislative action, and necessary management practices cannot be applied without authority to make regulations that would assure maximum benefits from these practices.

A good grain mixture for a milk cow is four pounds of ground corn, maize, barley or other grain and one pound of cottonseed meal, according to E. R. Eudaly, dairyman of the Texas A. and M. College Extension Service.

## Human Heart Is Powerful Organ

Austin, March 2.—The fact that the human heart contracts more than 30,000,000 times a year, 86,000 times every twenty-four hours, discounting the additional beats caused by violent physical and emotional efforts, is little known to the average person," states Dr. Geo. W. Cox, State Health Officer.

"The heart expels from its left side approximately 2,000 gallons of life-sustaining blood every day, or 730,000 gallons annually. Thus it takes little imagination to realize the astounding amount of work that

a fifty-year-old heart has behind it, though the source of this remarkable energy is unnoted to many. "Assuming that the heart is sound at middle-age, it should continue to perform satisfactorily for many more years, barring serious illness or accident. But this is no excuse for failing to realize that one who has lived fifty or more years has a heart, however unconscious of the heart's effort one may be.

Texas has more landowners in the business of producing game for profit than any other State. Many areas of little value to agriculture have been put to the profitable production of wildlife.

**MISS JUANITA HAYNES IS TEACHER IN SEAGRAVES**  
Seagraves, Feb. 28.—Miss Juanita Haynes of Miami, daughter of Mr. and Mrs. R. B. Haynes, owners of the Miami Chief, has come here to teach in the fifth grade.

Miss Haynes is to receive her B. S. degree in music in June from Texas Technological college. She has recently completed her work there. The local school plans to add public music next term.

The research department of the Commission is not adequately staffed. Bird and mammal research and studies of inland and coast waters has just started.

**NOTICE TO THE PUBLIC**  
Any erroneous reflection upon the  
reputation or standing of any indi-  
vidual, firm or corporation, that  
may appear in the columns of The  
News will be gladly corrected when  
called to our attention.

The Supreme court of the United States on Monday held the sit-down strike to be unlawful and that such strikers have no standing in court. To lawyers and laymen alike, we think this decision will appear as sound and just. Yet it was not a unanimous opinion. Five of the justices, including all the old members of the court, including both the "liberals" and the conservatives, joined in the majority opinion. The most recent appointee of the President, Felix Frankfurter, did not participate in the decision. The other two Roosevelt appointees, Justices Black and Reed, rendered dissenting opinions seeking to justify the sit-down strike. They are probably perfectly sincere and honest in this view, but such a view will not appeal to the lawyers of the country generally nor to unbiased, thinking laymen. In our humble judgment, their opinions prove the banality and unwisdom of appointments made for a specific purpose and the vice of undertaking to pack the Supreme Court.

That the Texas farmer is continuing to lose his foreign cotton markets is indicated by a news item from Galveston published in the Dallas News Monday showing that only 687,294 bales of cotton had been shipped from Galveston to foreign ports this season as compared with 1,051,499 bales last year. Victor Schoffelmayer, agricultural editor of the Dallas News, sees a silver lining to this black cloud, however. He says that we are entering the chemical age and that even if we lose our entire foreign market for cotton, the new science of chemistry will find uses for our products—cotton, pine, sugar cane, and numerous other farm products—and countless manufacturing industries will soon be established here to convert them into valuable commodities. We always did like an optimist, and we hope the silver lining which Mr. Schoffelmayer sees has plenty of real silver in it.

We believe thoroughly in according every person freedom of speech as guaranteed by the Constitution and laws of our country and our state, holding every person responsible for the abuse of that right. Freedom of speech, however, doesn't mean that a man may slander his neighbor without being held accountable for it. Neither does it mean that he can speak treason against our country without becoming accountable for that. Any citizen of this country, native or naturalized, who denounces our form of government and advocates its abolishment in favor of communism, fascism, or nazism, is approaching dangerously near the deadline of treason. Any individual or any bund that would hoist the swastika upon or above the American flag should be speedily convicted that the clause in our Constitution denouncing treason as a crime is just as vital and vital as that clause guaranteeing freedom of speech.

Governor O'Daniel continues to insist that his transaction tax proposal be given serious consideration by the legislature. Conceding that he is honest and sincere and without impugning his motives in the least, we make bold to assert that this is the most monstrous tax proposal ever made to a Texas legislature. Any one who will take time to do a little careful figuring will soon see that it would pile up taxes mountain-high on the ultimate consumer, seriously hamper business, and cripple or destroy manufacturing interests in this state.

The cattle business, like nearly every other business, has its periods of depression and prosperity. Many a time the cow man has gone bankrupt only to stage a comeback within a year or two that set him on top of the world. Just now cattle are commanding a high price and the cow man is wearing a smile. With an abundance of cheap feed, many South Plains farmers are finding it profitable to fatten a few cows for the market even if they have to purchase the cows.

The movement to abolish the Liquor Control Board in the interest of economy is really a movement to abolish it in the interest of the liquor sellers. Nearly all of them are lawbreakers, and in many counties they would have the sympathy of local enforcement agencies while in others they would be able to buy off the officers. The Liquor Control Board is a thorn in their flesh and naturally they want to get rid of the thorn.

One of our merchants has suggested revival of Dollar Day for Tahoka. Why shouldn't the leading business establishments of our town join in such a movement?

Texas has a greater variety of climate and environment than any other state, and as a result has more species of bird and animal life. The song and insectivorous birds of Texas are worth \$40,000,000 annually to agriculture.

**—SENSE OR HYSTERIA?**  
It was a motley crew of citizens who appeared before the legislature this last week demanding the passage of the transaction tax. Several negroes were in the crowd. The leader was an imported Townsendite.

Since Governor O'Daniel is responsible for stirring up all of this pension mess, he should take into consideration those who will pay these taxes, rather than appeal to the prejudices of those who are to receive the benefits of the taxes. Most all classes of citizens of Texas might be induced to accept monthly checks from the state treasury, provided the other fellow paid the tax bill. Even newspaper men might consider they were entitled to a monthly pension after years of hard labor in their profession should some unwise portion of the profession start such a movement and could figure out how a tax could be settled on the utilities or natural resources of the state for the benefit of this particular class.

And so on it goes. We are all willing to accept from the state, but how many will volunteer to pay in the money which the state must have before making these monthly distributions.

It appears to The News that the just and equitable method is to consult those who are going to pay the taxes, rather than attempting to cram down their throats a big tax bill for the benefit of a few. After all, only about 150,000 people in Texas are qualified under the constitutional amendment for old age assistance, out of a population of 6,000,000.

Calling out the band and raising a great commotion will not raise taxes. Defying the taxpayers will only cause resentment. This whole pension problem will be equitably settled if only sense and reason, instead of hysteria, can prevail. The people of Texas approve old age assistance, but do not want to see the problem made a football for budding politicians.—Canyon News.

To dry a cow off give her nothing to eat except dry hay such as Johnson grass, sorghum, prairie, or sudan, and water. Milk the cow once a day for two or three days, then once every other day a couple of times, then quit milking. The cow should be perfectly dry after two weeks of this treatment.

**Droopy? Not now!**  
... thanks to Syrup of Black-Draught.  
When your child is less keen and lively than usual, it may be a warning of constipation. If so, try Syrup of Black-Draught. It's pleasant to taste, and there's nothing in it that can harm a child's delicate intestinal system when given according to the directions.  
Ask for Syrup of Black-Draught.

**ADULT PROBATION**  
The present State Legislature has a proposal before it to devise an adult probation system as an auxiliary function of the trial courts, under authority conferred in a constitutional amendment adopted in 1935. That amendment states: "The courts of the State of Texas having original jurisdiction of criminal actions shall have the power, after conviction, to suspend the imposition or execution of sentence and to place the defendant upon probation, and to reimpose such sentence, under such conditions as the Legislature may prescribe."

One of the sponsors of the pending enabling legislation is District Judge Langston King of Houston, who told a House committee that "sometimes we judges make more knaves than we hang." He argued that the court, with sufficient information of the background of a defendant, might well substitute probation in many cases where prison sentences are now meted out by juries. At first thought, this plan would seem to provide another loophole for offenders to escape punishment. Legal reformers can not, however, be halted by such assumptions, particularly since the people of Texas have adopted the probation system by voting a constitutional amendment.

Anyone who has attended many trials in the state courts is impressed by the force of Judge King's remarks that: "It is sickening to sit on the bench and not know more about a man's background. We just know that he is convicted, tell him to stand up and take his sentence. It is just like a doctor treating a patient without knowing his ailments."

In other words, the law, wisely or

not, restricts the evidence in a criminal case to the "issue before the court." The procedure has been evolved from many centuries of experience. One of the disadvantages is that a defendant's fate is often made a pawn in the battle of wits between opposing counsel. In most trials after the testimony is completed, curious persons looking beyond the mere surface of the case at bar wonder what was the real story behind the crime. The real story would show the kind of person the defendant is, what have been the influences in his previous life to lead up to the crime, and what was the deep-seated motive, not merely the legal reason, for commission of the crime.

favored by Judge King and others goes to the bottom of crimes in which men are convicted, then it should afford a more enlightened, humane justice than courts today administer. A prisoner before the bar is a human being entitled to the more comprehensive appraisal promised by the adult probation proposal.—Fort Worth Star-Telegram.

ELDER DRENNON'S NOTES

The sand is up and getting in my eyes, which reminds me that it is a fine time for even sand to stay in its place; but it is like lots of folks, up in the air, especially down at Austin. We have this to console us, that is, the sand will finally lie down, but not so with some people.

As we spent some time in the Lubbock Sanitarium last week I was made to realize that this body is subject to many diseases, which set me to thinking about the disease of the soul, sin.

As the doctor examined my wife so carefully to find the disease I thought what a fine thing it would be if we would give our inner man a careful examination and then apply the only remedy for sin, which is obedience to the gospel, Romans 6:17-18.

I see editor Hill still has his eyes closed to my relationship to O'Daniels. Just listen to the following: "We are also thankful that every man, even the preacher, has the legal right to fall down and worship any other man he chooses." Brother Hill, shame on you. I infer from that that you think I worship O'Daniels. I want to assure you that you are mistaken. I respect him but do not worship him, for God has said, "Worship Him Only".

Last week I charged you with sarcasm. This week I charge you with misrepresentation. You said you were keeper of your conscience. I want to say you are doing a poor job of it, if this charge does not hurt it, unless it is seared. If not please retract your implication of my falling down and worshipping O'Daniels. We shall see what we shall see.

Our spring meeting started off fairly well last Sunday. Our beloved brother Johnson was taken to Lamesa and operated on Saturday night, which put a damper on the meeting Sunday. We are glad to report he is getting along as well as could be expected. Brother Gobel is giving us some fine lessons. The meeting will continue over next Lord's day, with three services Sunday: preaching at 11 a. m. and 7:30; old fashion singing at 2:30 p. m. Come be with us at the singing if you can not get to the preaching.

Yours for more people who love Jesus enough to do what he commands. Visit the friendly church.—R. P. Drennon.

Ed. Note: We are sorry you lost your temper, Brother Drennon. Of course we didn't mean that you worship Governor O'Daniel in the same sense that you worship God. We certainly hope that Mrs. Drennon is much improved and that it may not become necessary for her to return to the hospital soon.

Mrs. Lenore Tunnell, county superintendent, returned Tuesday night from Austin, having gone down last Saturday on official business.

SAVES FOOD
Modern gas ranges are fully insulated and not only enable you to cook foods most economically but actually SAVE gas.

CLEAN
The modern gas range with hi-speed non-clog burners and insulated oven bring new CLEANLINESS to your kitchen.

SAVES Time
Automatic oven control, non-clog burners, and automatic lighter bring you hours of LEISURE—save your time for other things, away from your kitchen.

REPORTS FROM THE COUNTY CLUBS

Mrs. Lillie Boyd, H. D. Agent

MRS. GILLIAM HOSTESS TO T-BAR H. D. CLUB
T-Bar Home Demonstration Club met in the home of Mrs. Gilliam.

There was one visitor and seven new members present. The visitor was Mrs. N. C. Weatherbee of Allred.

New members: Mmes. John Earles, Ben Moore, T. R. Tune, O'Donnell, J. G. Hale, George Lindly, B. L. Akins, C. J. Kincaide of T-Bar.
Roll call: The vegetable I grew last year which my family enjoyed most was answered by each one of the members.

Program Leader: Mrs. Overman. Varieties of seed, explained by our President Mrs. Paul Johnson. How to plant early and late vegetables by Mrs. Leverett. How to have a successful home garden by Mrs. C. C. Coffee. The "why" of winter greens by Mrs. Townzen.

After the business hour, a 42 party was planned for the 17th of March, to raise funds for the club. Tickets are to be sold for the plates. The Hostesses Mmes. Gilliam and Weatherbee served a refreshment plate to each of the following Mmes. John Earles, Ben Moore, T. R. Tune, J. G. Hale, Paul Johnson, George Lindly, B. L. Akins, C. J. Kincaide, E. R. McGregor, H. T. Lindley, Ellis Barnes E. O. Overman, A. E. Leverett, R. E. Townzen, Frank Sargent, I. C. Dorman Alvin McMillan, C. C. Coffee, M. B. McMillan, Clarence Overman, and W. A. Arms.

The club will meet with Mrs. Haygood March 10th.

MIDWAY CLUB MEMBERS PREPARE COLD FRAMES

A group of enthusiastic gardeners composed of the Midway H. D. Club met at the home of Mrs. Curtis Driver February 23, 1939. One member reported a cold frame 6 feet by 46 feet ready for planting. Several others will prepare cold frames soon.

Mrs. John Thomas gave information as to varieties of garden seed suited to our climate. In round table discussion all agreed that the cold frames is the only solution of the early garden problem.

Next meeting will be March 9, at the home of Mrs. I. M. Draper.

Members present were: Mmes. Fete Curry, Alice Duncan, G. A. Edwards, R. L. Littlepage, John Thomas, K. Phillips, H. C. Warren, H. V. Everson, and the hostess Mrs. Curtis Driver.

DRAW REDWINE H. D. CLUB

The Draw-Redwine home demonstration club met at the home of Mrs. John Berry February 17, with seven members present.

Mrs. Graham Hensley vice president presided. The program subject "Eat Vegetables Every Day."

The meeting adjourned for recreation led by Mrs. Dodson. Games were enjoyed by all present.—Club Reporter.

Do not give cows high protein feeds such as cottonseed meal for two weeks prior to freshening nor for 10 days after freshening. Too much feed high in protein at this time might result in milk fever. Texas A. and M. College Extension Service dairymen say.

Political Announcements

The following are candidates for officials of the City of Tahoka, election April 4, 1939:
FOE CITY MARSHAL:
GUY SHERROD.
JIM VAN DYKE.
A. F. McGLAUN.

NEW LYNN H. D. CLUB DISCUSSES EARLY GARDENS

The New Lynn Home Demonstration Club met with Mrs. P. K. Fleming Tuesday, February 21.

"Early Gardens" was the subject under discussion. Much attention was given to frame gardens, some of our members have been very successful with this type of planting. Recent copies of various farm magazines have articles on frame gardens with sub-irrigation. This is a source of first-hand information, showing what can be done with a minimum of water and a maximum of wind and sand.

Members present: Mmes. R. W. Barton, C. B. Caveness, Joe Thurman, J. A. Jaynes, Doyle Terry, E. B. Terry, John Meeks, LeRoy Baker, Alton Fleming, Miss Maizie Mae Baker, and a guest, Mrs. Otis Cash of Grassland.

MIDWAY 4-H CLUB

"Let's every girl keep her goals up to date," said Mrs. R. L. Littlepage to the Midway 4-H Club girls Thursday.

Mrs. Littlepage gave a demonstration on "Storage place for garments." Each girl should have a shelf or drawer for her folded garments and a closet for her unfolded garments.

She also checked the garments we had made and talked about the club girls slumber party, which is to be the third Friday night in April.

Our recreation leader resigned so we elected Reba Phillips to take her place.

Members present were: Mary Lou McDonald, Clovis Stephens, Marceline Stephens, Cara Faye Nordyke, Reba Phillips, Clara Lee Henry, Fessie and Mary L. Rainey.

CARD OF THANKS

We wish to express our sincere thanks and appreciation to our pastor and to our many friends and neighbors for the comforting words, acts of kindness, and beautiful floral offerings during the recent illness and death of our beloved husband, father and brother. Mrs. Fritz Nieman and children and sisters and brothers.

Weary? Not now!
... thanks to Black-Draught. Often that droopy, tired feeling is caused by constipation, an everyday thief of energy. Don't put up with it. Try the fine old vegetable medicine that simply makes the lazy colon go back to work and brings prompt relief. Just ask for BLACK-DRAUGHT... "An old friend of the family."

Texas hunters shoot more shot-gun shells than those of any other State—almost one tenth of the total shot in the entire Nation.

STATED MEETINGS of Taboka Lodge No. 1041 the first Tuesday night in each month at 7:30. Members urged to attend. Visitors welcome. V. F. Jones, Sec'y. H. A. Maassen W. M.

The Safety Sensation of 1939!
THE NEW Firestone CHAMPION
The Only Tire Made with the NEW SAFETY-LOCK CORD BODY and NEW GEAR-GRIP TREAD...
NEVER before in our experience has a tire met with such instant and unanimous approval as the new Firestone Champion Tire. It's the Safety Sensation of 1939! Our customers have started a word-of-mouth campaign that is making this the biggest selling tire we've ever had. Motor car manufacturers have been so impressed by its superior performance that they have adopted it for their 1939 models.
Why? Because the Firestone Champion Tire is an entirely new achievement in safety engineering.
Stronger Cord Body. This is accomplished first, by the use of a completely new type of tire cord called "Safety-Lock," in which the cotton fibers are more compactly interwoven to assure cooler running and provide greater strength. Then, the fibers in each individual cord, the cords in each ply and the plies themselves, are all securely locked together by a new and advanced Firestone process of Gum-Dipping which provides amazingly greater strength. And greater strength means greater safety.
More Non-Skid Mileage. The new Safety-Lock cord construction provides the extra strength needed for the use of the new, thicker, tougher, deeper Firestone Gear-Grip tread which delivers remarkably longer non-skid mileage. This sensational new tread is called "Gear-Grip" because of its unique design—it has more than 3,000 sharp-edged angles which grip the road with a sure-footed hold to protect against skidding and assure a safe stop.
Drive in today and equip your car with a new set of Firestone Champion Tires—the only tires made that are safety-proved on the speedway for your protection on the highway.

# Material Arriving Tahoka Compress

Arch Underwood of Lubbock dropped into the News office just as our forms were closing Thursday afternoon and stated that four cars of machinery had just been unloaded here for the construction of a compress. Work will begin soon.

Mr. Underwood was accompanied by Flint Dupre, a newspaper man formerly connected with the Dallas Journal.

There are millions of acres of favorable wildlife habitats in Texas that are producing virtually none of the species for which they are suited. There are other millions of acres on which better land practices would restore habitat conditions and result in large wildlife crops. This opens a fine field for educational efforts and for wildlife rehabilitation.

Sportsmen of Texas, through their license fees, are footing virtually the entire bill for the control of water pollution in this State, although the chief beneficiaries of this program, including industry, agriculture, municipalities, and the citizenship as a whole, contribute little or no cash support to it.

Milk cows will do better if they have plenty of salt and calcium. A mixture of two pounds of pulverized limestone or oyster shell flour and a pound of salt, placed in the pasture where cows can lick it when they desire, will bring results.

Mr. and Mrs. Otto Kountze of Longview were guests of Mr. and Mrs. L. C. Haney Thursday of last week.

For quick results, try a News classified ad.

Texas is one of two States in the Union in which a leading college carries on wildlife educational programs among the farmers through a full time wildlife specialist. This service is maintained by Texas A. & M.

Texas sportsmen each year spend \$25,000,000 for guns, ammunition, fishing equipment, clothing, automobiles, gasoline, food, hotel accommodations, and other goods and articles necessary to hunting and fishing trips.

Texas is the No. 1 Deer and Wild Turkey State in the Union. Last year approximately 30,000 bucks and thousands of Turkey Gobblers were killed, with no damage to the seed stock.

Mr. and Mrs. Joe Curry and Miss Gladys Curry of Rule were the guests Tuesday of Charlie Curry and family, Charlie being their brother. They were returning from Littlefield, where they had gone Monday to visit a sister.

J. O. Tinsley and family visited their son-in-law and daughter, Mr. and Mrs. Leon Martin, at Silverton Sunday.

W. E. Suddarth of O'Donnell had business in Tahoka Monday afternoon.

Mrs. Bill Buck, the former Miss Ema Faye Edwards, has been sick this week.

A milk cow should be dry for around 60 days each year to give her a chance to rebuild her body. This is one reason the average farm family needs two cows.

When on pasture, a 500 gallon milk cow should have five pounds of grain mixture a day.

Try a News classified ad.

## MISS BOYD GIVEN SHOWER

On Wednesday evening, February 22, at 7:30 o'clock, the Lynn County Council and home demonstration clubs met at the American Legion Hall for a Colonial reception in honor of Miss Lillith Boyd, home demonstration agent, who is the bride-elect of Mr. Albert Fiescher, Kansas.

Guests were greeted at the door and given programs by Meses. Lloyd Edwards and Cecil Weaver, who were lovely in evening dresses of the present day mode. They were invited by Mrs. Mill Finch to take a street down Memory Lane, who in her clever way introduced them to little George Washington (Bobby George Oliver), Colonel George Wash. (Wilbert Finch), and finally to George and Martha Washington (Mrs. Snip Taylor and Mrs. J. B. Oliver in Colonial costumes) who presided over the bride's table, which was cleverly decorated with a Colonial doll dressed as a bride in bride's veiling, among the folds of which were found the favors of little red hatchets.

The bride's book was presided over by Miss Oera Forrester. Mrs. H. M. Snowden in Colonial costume next led the guests to the punch table, which was presided over by Mesdames Henry Heck and Claude Thomas in evening dresses. As they were seated the Southern cotton pile was passed presided over by several little pickaninnies, Bobby and Kenneth Weaver, Janice and J. H. Edwards, and Bobby George Finch.

The following program was rendered:

Piano duet by Mrs. R. L. Richardson and Miss Betty Lou Frazier, vocal duet by LaVoyle Richardson and Miss Betty Lou Frazier; Reading, "Hats Off" by Billy Joe Oliver dressed as a cub scout, while Col. George Wash. (Wilbert Finch) in army uniform stood in state and little George Washington (Bobby George Oliver) in a Colonial costume stood by a cherry tree and held a hatret; A medley of old plantation tunes; Solo, The Little Old Lady, by Miss LaVoyle Richardson, silhouetted by Misses Gloria Dyer, Delores Nowlin, and Loy Deen Edwards, in Colonial costume; vocal duet, "Sweet Mystery of Life" by Misses Julia Snowden and Betty Lou Frazier.

The climatic point of the program was reached when Mrs. J. K. Woosley gave a reading which was pantomimed by W. H. Pulkerson Jr. and Miss Julia Snowden on an improvised screen, depicting a love scene and a proposal from Albert to Lillith.

The bride's table was moved and a lovely array of gifts was revealed for his bride-to-be.

## MIDWAY GIRL IS 4-H GOLD STAR GIRL

The Home Demonstrations work has been a means of improving the homes of the counties that are, may we say, progressive enough to have this work. Every phase of homemaking is covered. Landscaping the home grounds, making the living room an attractive place where the needs of every member of the family is considered, improved bed rooms, convenient kitchens and most important of all, the serving of balanced meals which is essential to the health of the family.

But of still greater importance is the training which the girls, the future home makers, receive in 4-H club work.

Heretofore 100 girls have been selected from the State for special recognition, awarded a Gold Star pin. From this group of 100 the two highest ranking contestants are awarded scholarships to the National 4-H Club Encampment at Washington, D. C. A college scholarship is also awarded each year. For 1939 the rules have been changed, allowing each county to elect a Gold Star girl. A girl to be eligible for this honor must have had two years of club work, conducted a successful demonstration, not previously received the Gold Star award, and has been selected by her club as eligible for this honor. The committee then selects from the names submitted from the various clubs of the county the girl who has done the best work for the year.

Excellent work has been done in this county and it has required close study to decide from the reports submitted and also inspection of the work done to make the award. Marceline Stephens of Midway has been selected Gold Star girl of Lynn county for 1938.

Mrs. R. W. Fenton, Chairman Education 1938.

## County Clubs Plan Broadcast

Miss Maurine McNatt, county home demonstration agent, announces that the H. D. 4-H, and boys clubs of Lynn county will broadcast a playlet featuring the family relations of a successful family over station KFYO, Lubbock, at 1:45 Friday, March 10.

Everyone is invited to tune in and hear this program.

## New Electric Shop Opening

R. G. (Bob) White of Lubbock was here Wednesday, accompanied by his father Frank White, making arrangements to open an electrical appliance and repair shop here next week.

The rear compartment of the Texaco oil building owned by W. E. Suddarth has been procured. Mr. White is an experienced electrician. He and his wife will be welcomed to Tahoka.

Rev. and Mrs. George E. Turrentine and Mrs. R. W. Fenton Sr. went to Canyon and Amarillo today to hear three natives of China and India who were delegates to the World Missionary Conference at Madras, India. They are to be accompanied by their daughter, Miss Mary Jane Turrentine, from Canyon to Amarillo.

WYNNE COLLIER, DRUGGIST

## O'Donnell Plans Rotary Club

Rollin McCord of the Tahoka Rotary Club has been authorized by the Chicago office and by District Governor Estes of Wichita Falls to represent the latter in the organization of a Rotary Club at O'Donnell, same to be sponsored by the Rotary Club here.

Mr. McCord has already secured the names of twelve of the leading business men of O'Donnell to enter into the organization, and he thinks as many more will sign up. Twenty members are necessary.

Mrs. G. E. White was called Thursday to the bedside of her mother, Mrs. J. V. Dyer, who is seriously sick at the residence of a daughter, Mrs. W. T. Shepherd, near Post.

Texas' wildlife resources are valued at \$93,000,000 annually.

MILK COWS, now fresh and
springer heifers for sale. A. C.
Aycox, 4 miles north, and 1 west of
Tahoka. 26-1tp

B. T. Smith Has An
Interesting Hobby

B. T. Smith, principal of the
Edith School, who was reared in
the northwest part of the county,
has a hobby which he frequently
turns to profit. In fact, he has
several related hobbies.

Burnett enjoys making things
with his hands, and when he turns
out some product new or unusual
he writes about that product for
some scientific or mechanical mag-
azine. A few weeks ago he sent a
picture to Mechanix Illustrated, a
nationally circulated magazine, and
that picture and the following
comment appears in the April edi-
tion:

"A practical method of mount-
ing a gasoline type washing machine
motor on a bicycle to power it is
shown in the photo on page 14,
which won a \$3.00 prize for B. T.
Smith, of Tahoka, Texas. The mo-
tor is connected to a shaft by means
of a V-belt which actuates a rub-
ber-faced pulley that contacts the
bicycle wheel through a hole cut in
the top of the rear fender, thus
making the friction contact that
causes propulsion. The weight of
the motor plus a small coil spring
provides the necessary tension to
keep the pulley from slipping. Well
done, Smith."

Smith has a workshop in which
he does some wood working, his
latest product being a 12-foot boat
which he floated for the first time
on Slover lake powered by Jess
Lockhart's 8 1/2 horse power motor.

He also is a photo enthusiast and
has a darkroom in which he does
his own finish work.

WANTED TO RENT—nicely furn-
ished, 3 rooms with private Bath.

Lens Placed In
Texas Observatory

Alpine, Feb. 28.—Installation of
the huge two and one-half ton, 82-
inch lens for The University of
Texas' McDonald Observatory will
be completed this week and the
second largest finished telescope in
the world will be ready for use. The
giant lens arrived here last Tuesday
and was carefully transported by
truck 32 miles to the top of Mount
Locke, 6,791-foot high Observatory
site.

The lens is one-foot thick and
accurate to one millionth of an
inch. Scientists predict it will place
The University of Texas and Uni-
versity of Chicago astronomers in
a position to probe the mysteries of
outer space more accurately than
any efforts heretofore.

The McDonald Observatory glass
has been in the process of manufac-
ture and polishing since December
31, 1933.

The late President Harry Yandell
Benedict, himself an astronomer
and mathematician, and President
Robert M. Hutchins of the Uni-
versity of Chicago, in April, 1932, began
negotiations that resulted in an
arrangement that allowed The
University of Texas to plunge im-
mediately into construction with
Chicago, under a 30-year contract,
providing the staff for both the
McDonald and Chicago's Yerkes
Observatory.

In size competition, the McDonald
Observatory telescope, an instru-
ment working on the reflection
principle instead of the better
known refractor type, is outstripped
only by the 100-inch lens at Mount
Wilson Observatory and the 200-
inch eye being prepared for the
Mount Palomar Observatory, both
in California. Competition between
telescopes is eliminated by the co-
operative plan under which astron-
omers pool their resources, each new
instrument being used as a supplement
to existing apparatus.

Dr. Otto Struve, the McDonald
Observatory director, is also direc-
tor of the Yerkes Observatory at Wil-
liams Bay, Wisconsin.

After the University Board of
Regents accept the Texas observa-
tory from the contractors, Warner
and Swasen Company, Cleveland, it
will be used primarily as a labora-
tory for delving into one of the
newer phases of astronomy—astro-
physics. Photography of stars which
are one million times fainter than
the faintest star the unaided eye
can see will be one of the main pro-
jects carried on at the Observatory.

One of the first celestial hunts to
be conducted, Dr. Struve has an-
nounced, will be an attempt to find
more about the mysterious "white
dwarfs" of the universe. The mat-
ter composing these stars is com-
pressed to such an extent that one

Clifford Jones Knows
His West Texas

LUBBOCK, Texas, Feb. 26.—Tex-
as Technological College chose a
man for president who knows his
West Texas. One of the first prob-
lems the ever-practical Clifford B.
Jones will tackle is ridding the
range of mesquite, and he's ready to
put the research of his college
behind it.

"Mesquite is one of the greatest
enemies of the cattleman and is so
thick in some pastures below the
chap rock as to hinder the working
of cattle. The brush not only hinders
the cowboy in his work but it also
saps moisture from the ground, hin-
dering growth of grass.

"When there were a lot of prairie
dogs in this country they ate the
young mesquite trees, but now that
the animal is being exterminated the
mesquite is spreading. We must
work out a practical plan for erad-
icating the mesquite."

Lost Sheep Is
At Home Again

Mrs. Russell Vernon came in one
day last week very much disressed
because her pet lamb had disap-
peared. She inserted a little notice
in our classified ad. department and
on Saturday she came back to the
News office a happy woman. The
lost lamb had been found at the
home of a neighbor.

The innocent animal had under-
taken to follow a Shepherd dog, also
innocent, and the canine had left
the sheep far behind. After wand-
ering about for a time, evidently a
little wool-gathered, the lamb show-
ed up at the neighbor's house, who
read in the News Friday of its dis-
appearance from the Vernon home.
News want ads bring results.

cubic inch weighs several tons.
"The wealth of scientific informa-
tion which will be made available
to humanity through the use of the
82-inch telescope is practically un-
limited." Dr. Struve said today.

\$25 00 REWARD

Will be paid by the manufacturer
for any corn, GREAT CHRISTO-
PHER Corn Remedy cannot remove.
Also removes Warts and Callouses.
35c at Wynne Collier Drug. 31, 22tp

Judge G. E. Lockhart was here
Monday looking after the interests
of his clients in the district court
and incidentally mingling with
friends here.

Milk cows should have access at
all times to an abundant supply of
good, clean, cool water in the sum-
mer and good, clean, warm water
in the winter.
