"I wholly disapprove of what you say but will defend to the death your right to say it."—Voltaire.

Volume XXXV.

Tahoka, Lynn County, Texas, Friday, May 19, 1939

Number 40

## County Covered By Fine Rains

Mixed with considerable hail in spots, rain in widely varying amounts visited every section of Lynn county Tuesday. In most localities good rains are reported. It was heavy in some places and extremely light in others.

At Tahoka, the rainfall Tuesday and Tuesday night measured 1.36 inches according to Uncle Sam's yard-stick. For a few minutes early in the morning the rain was accompanied by a heavy downpour of hail, though the pellets generally were small and the damage was negligible.

Certain sections also received good rains Wednesday morning.

Reports received from Wilson were that an inch of rain fell there Tuesday and W. H. May southeast of Wilson reported an inch at his place.

Good rains were received at O'Donnell and throughout the south west quarter of the county. Wash Hickerson thought as much as three inches fell at Three Lakes and C. T. Tankersley reported two inches at West Point. Dee Sanders says that the rainfall over the T-Bar pasture varied from a half inch to three inches. At New Home and in all that portion of the county the precipitation was lighter, probably about a half inch.

Tyne W. Smith says that good rains fell at Midway but that at Joe Bailey it was exceedingly light. Fine rains visited most of the county east of Tahoka, but it was light at Draw.

These rains on the whole are very fine for farmers and stockmen. Much cotton was planted last week. It is believed that much of it will be up within a few days. The remainder of the land in the county is being planted or replanted just as fast as weather conditions permit. The rains were also fine for pasture lands, for the trees, shrubs, plants, and flowers. And as this is written, the prospects are that more rain may yet fall before this paper reaches the reader.

## Mrs. Prohl Heads Drive On Cancer

Mrs. Emil Prohl has been appointed Lynn county captain in the Woman's Field Army for the Control of Cancer by Mrs. Volney W. Taylor, Brownsville, state commander.

Lieutenants will be selected soon in each community of the county and a county organization perfected, Mrs. Prohl says.

This is the third year of the organization's life saving campaign, although this will be the first year the work has been pushed in the county. Cancer, like tuberculosis, can be cured if treated early, it is pointed out, and this organization will attempt to do for cancer sufferers what the tuberculosis organization has done in control of that disease.

Since there were 4,370 deaths from cancer in Texas in 1937, the list of danger signals that may mean you have a cancer has been prepared and issued by the women: Any persistent lump or thickening, especially of the breast.

Any irregular bleeding or discharge from any of the body openings.

Any sore that does not heal, particularly about the tongue, the mouth or lips.

Persistent indigestion, especially when accompanied by distaste for meat.

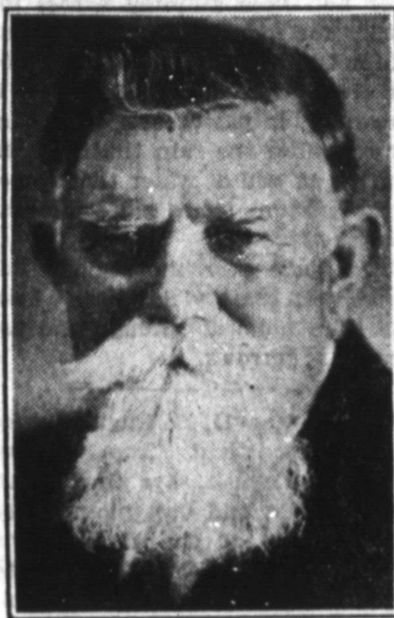

Sudden changes in the form or rate of growth of a mole, wart or wen.

## Rotarians Hear Mother Singers

The P. T. A. Mother Singers gave the program at the Rotary luncheon Thursday. It was a wonderful program of songs. Mrs. Claude Donaldson, the leader, even succeeded in inducing the Rotarians to make an effort at singing.

Besides the ladies, the only visitor Thursday was Mr. Pace of New Home, who will be principal of the grammar school here next year.

## WTCC PRESIDENT

E. K. Fawcett, Del Rio, be-whiskered pioneer sheep ranchman and for many years a West Texas Chamber of Commerce director, was elected president at the close of the three day annual convention in Abilene Wednesday. Though a citizen of Southwest West Texas since 1883, he is still active in civic work, being past president of the Del Rio Chamber of Commerce, president of Southwest Texas Boy Scout council, leads a park improvement program, is chairman of the Del Rio Wool & Mohair Co., and is past president of the Texas Sheep and Goat Raisers Ass'n.

## Women Attend Canyon Meeting

Miss Maurine McNatt, county home demonstration agent, and ten H. D. club women of Lynn county attended a one-day short course at the West Texas State Teachers College at Canyon Wednesday.

The Lynn county group consisted of Misses H. L. Roddy, James Connolly, A. C. Weaver, W. O. Robertson, H. M. Snowden, Francis Gill, Server, and J. K. Woosley, all of Tahoka, Mrs. Paul Johnson of T-Bar and Mrs. Alice Duncan of Midway.

Miss McNatt says that about forty counties constituting districts 1 and 2 situated in the Panhandle and on the South Plains were represented and that possibly 500 women were present. It was generally pronounced one of the best Short Courses in the history of the work.

## School Salary Money Received

As a result of the passage of the salary deficiency bill by the Texas legislature several weeks ago, seven schools in Lynn county will receive additional aid on last year's salary. Mrs. Lenore M. Tunnell, county superintendent states.

Instead of receiving 69 percent of that qualified for, these schools have now received 92.4 percent.

Schools receiving additional funds are: Draw, \$398, New Home \$866, Morgan \$9, Edith \$171, Newmoore \$9, New Lynn \$551, and Grassland \$46.

## West Point Holds Closing Program

West Point school is closing today with an all-day picnic, Ivan McWhirter, principal, reports.

Closing programs was held Thursday night when diplomas of graduation from the grades were presented Billy Barham, Lois Dean Jester, Ila Mae Shaffner, Blair Ramsey, and Ruth Gillespie.

Mr. and Mrs. McWhirter plan to work toward their masters degrees in North Texas State Teachers College this summer.

## ERROR IN COL-TEX AD.

In the rush of printing the special Farmers Co-op gin section in this week's paper, The News force let slip by a bad error in the ad. of Col-Tex Refining Co. Near the bottom of the ad. are some jumbled lines which should read: "We are glad to supply such a progressive, growing cooperative organization. May you continue to grow and prosper." The News apologizes to Col-Tex and the Farmers Co-op for the error.

## Complete Church At O'Donnell

The new O'Donnell First Baptist Church has been completed and a week from Sunday, May 28, the building will be formally opened with appropriate ceremonies, to which all members, former members, and friends are invited, Rev. J. A. Lunsford, pastor, tells The News.

The new building is of brick, two story, modern in design, and is a distinct credit to the fine town of O'Donnell. The main auditorium has a seating capacity of 400 people, and there are 18 Sunday School classrooms. The structure, which surmounts the basement built several years ago, has a value of \$16,000, Rev. Lunsford said.

A number of Tahoka people will probably attend the opening.

## Tahoka Attends WTCC Meeting

Forty members of Tahoka high school band, directed by J. H. Felts, attended the annual West Texas Chamber of Commerce convention in Abilene Tuesday, and played and marched around the public squares in Snyder and Sweetwater on the way to Abilene.

Tom Garrard, local attorney, likewise, attended the WTCC convention Monday and Tuesday, and was elected a director in the organization.

Travis Shelton, high school senior, represented Tahoka in the My Home Town speaking contests.

The band played on the streets of Abilene before nice-sized crowds, and in the four-mile long parade staged at 5 o'clock through the downtown streets, the Tahoka band was among the first in line. They are said to have attracted more than their share of attention. Because of the rain between here and Post, the party returned by way of Big Spring and did not arrive until after midnight.

Accompanying the band were: Bill King, bus driver, Supt. W. T. Hanes, Mr. Felts, George Knight, Miss Hattie Server, and Mesdames W. H. Fulkerson, J. K. Applewhite, H. B. McCord, and Carl Griffins.

## Car Overtakes, Driver Unhurt

As Ray Hickerson of Three Lakes was returning to his home from Tahoka Saturday night, he lost control of his car and it turned over three times before stopping. Ray was uninjured but the car was badly smashed up. Ray says that he was driving at only a moderate speed but that something went wrong with the steering gear. He had purchased the car only a week before the accident.

## Postmaster Smith Greets Jim Farley

Postmaster W. E. (Happy) Smith was in Amarillo Wednesday as a member of the Plains postmasters delegation which welcomed Postmaster General James A. Farley to Amarillo to dedicate the new \$400,000 federal building there.

The celebration was a great occasion. Happy says a great crowd, estimated at 50,000 people, were on hand. Farley made a talk, and was presented a beautiful cow pony by Gene Howe, publisher of the Amarillo News and Globe.

## Farmers Co-op Has Special Section

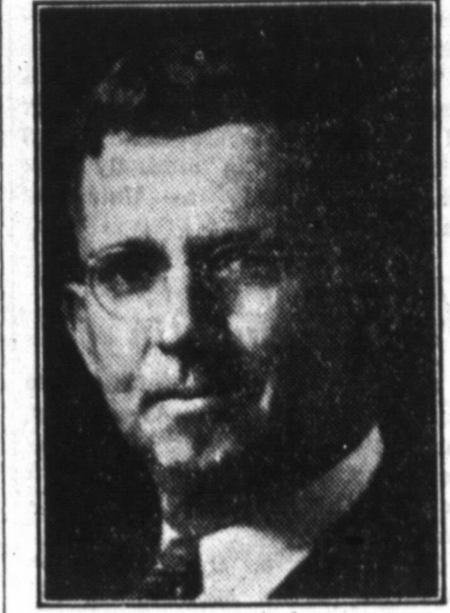

This week The Lynn County News presents a 16-page tabloid size special section, sponsored by the Farmers Co-operative Association No. 1 of Tahoka, celebrating the opening of the farmer-owned filling station, wholesale oil warehouse, and gin office building.

Organized in 1930, the Association bought the Edwards & Lockhart gin at that time; some time later a small service station business was added; last year the West Texas Gin No. 2 was bought; and now this modern building is being added to their assets.

The News calls your special attention to this section, filled with information on the Association, its members and the products it handles.

And, The Lynn County News joins other friends and business associates in congratulation of the organization on its success and its progressiveness.

## WILL SPEAK HERE

Dr. Thomas H. Taylor, president of Howard Payne College, Brownwood, speaks here tonight.

## Pace Principal Of Grade School

A. L. Pace, teacher in New Home Rural High School the past five years, was elected principal of the Tahoka grade school at a meeting of the school board Monday night.

Pace holds a B. S. degree from Texas Tech, and has taught eight years, one of which he was principal at Becton, two at Flomot, and five at New Home. He is also coach at New Home and has produced several county champion basketball teams.

Another teacher elected Monday night was Miss Elizabeth McEwin, Greenville, graduate of East Texas State Teachers College, for the position of combination English-Spanish instruction in the high school. She has had nine years experience, four of which were at Wagner, four at Fate, and one at Royce City.

All vacancies at the present time in the school faculty have been filled with the exception of the coaching job.

## First Aid Will Be Taught Here

W. A. Reddell announces that a Red Cross First Aid school will be held in Tahoka, beginning Monday night, June 5, and extending through June 12, five nights each week. The school will be open to the general public.

Dr. J. W. Sinclair has been appointed Lynn county instructor by the American Red Cross, and will conduct the class work. Text books will be available to those desiring to take the course at a reasonable price. Those interested in the work should see Mr. Reddell or Dr. Sinclair soon.

## Man Fined For "Cold-Checking"

H. C. Logan was found guilty of swindling by worthless check by a jury in county court Monday and County Judge P. W. Goad assessed a fine of \$10 and costs. Logan is an appliance salesman out of Lubbock.

County Attorney Rollin McCord represented the state.

## PUBLISHING SPECIAL

The O'Donnell Press' historical edition will appear this week. W. G. Forgy, editor, announces. The edition is expected to be of much interest to the people of O'Donnell and the county generally.

## 40 Tahoka Seniors Graduate Tonight

### Lightning Strikes Dr. G. W. Williams

During the rain and electric storm that visited Tahoka early Tuesday morning, a bolt of lightning crashed into the dining room of Dr. and Mrs. G. W. Williams as the doctor sat at the breakfast table, knocked him from his chair and left him prostrate on the floor. A physician was hurriedly called, and in the meantime Earl Grider and Mr. Jones assisted Mrs. Williams in an effort to restore him. With the physician's assistance he regained consciousness and the use of his limbs within thirty or forty minutes, and on Wednesday he was able to be up town, feeling very sore from the experience.

The lightning is thought to have followed an electric light wire into the room. It knocked all the biscuits and the gravy as well as most of the dishes off the table, according to reports. The doctor admits that he doesn't enjoy having his meals so rudely disturbed.

## Soil Committee Named Monday

Farmers of the four commissioners precincts Monday night selected county advisory board committees for the new soil conservation set-up. T. H. Basinger will represent precinct 1, Deen Nowlin precinct 2, Lamar McLaurin precinct 3, and L. N. Hancock precinct 4.

Wednesday afternoon this committee met in Tahoka and elected Nowlin delegate to the district meeting in Plainview next Monday, at which meeting a member of the state advisory board will be selected, this member to attend the state meeting in Temple May 29.

Details of the soil conservation plan have not been announced. County Agent Don Turner says, but the plan of the state government is to give aid to those areas in which at least 66 2-3 percent of the farmers vote to co-operate. One or more counties may be so organized as a conservation district and become qualified for soil conservation aid.

## O'Donnell Class Program Tonight

Graduation exercises of the O'Donnell public school are being held this week, beginning with the commencement sermon given last Sunday morning by Elder R. P. Drennon of the Church of Christ.

Thursday night, seventh grade exercises will be held, Rev. J. A. Lunsford of the Baptist Church delivering the address.

Following is the program of the high school exercises Friday night: Processional, Mrs. Gibbs, Invocation, Rev. Cummings; Salutatory, Clarence Simpson; Music, Allie Jo Scholer; Valedictory, Mozell Cox Wiginton; Address, Rev. J. A. Lunsford; Presentation of Diplomas, Supt. S. F. Johnson; Benediction, Elder R. P. Drennon; Recessional, Mrs. Gibbs.

## New Lynn Boys Organize Club

County Agent Don Turner has completed the organization of a new 4-H boys club at New Lynn with 28 members.

This brings the total membership in boys' 4-H clubs in Lynn County to about one hundred. Clubs are now operating at Wilson, New Home, West Point, Draw, Wells, and New Lynn.

## BOY SCOUT CAMP

Several Boy Scouts from the local troupe are planning on attending the annual encampment at the Boy Scout Camp near Post May 28 to June 3.

## Dr. Tom Taylor Is Class Speaker

Twenty-one boys and nineteen girls will be presented diplomas of graduation tonight, Friday, at the annual commencement exercises.

Dr. Thomas H. Taylor, president of Howard Payne College, Brownwood, will deliver the address. Dr. Taylor is noted over Texas as a clever speaker and a prominent citizen. He is a past district governor of Rotary International, is associate director Texas Good Roads Ass'n., member of the Southern Baptist Education Commission, and twice has been vice-president of the Baptist General Convention.

The program in full follows: Processional—Band.

Invocation—Elder J. L. Nisbett. Song, "A Perfect Day" — Mary Bland Wells, Betty Lou Frazier, Julia Snowden, Greta Applewhite. Clarinet Quartet, "Cross and Crown"—Joyce Lynn Maassen, Patricia Hill, Billy Jack Edwards, Carl Griffing Jr.

Song "The Bells of St. Mary's"—Odean Millman, Finis Connolly, D. F. Reddell, Travis Shelton. Baritone solo, "Toreador Song"—Joyce H. Felts.

Address—Dr. Thomas H. Taylor. Vocal solo, "Indian Love Call"—Mary Bland Wells.

Vocal quartet, "Dear Alma Mater" (Amer.: Dvorak's Humoresque)—Odean Millman, Finis Connolly, Travis Shelton, D. F. Reddell. Special Awards — Supt. W. T. Hanes.

Certification of Graduates — Principal Lee Dodson.

Presentation of Diplomas—Frank Hill, president of school board.

Benediction—Elder J. L. Nisbett. Dick Bosworth will be honored as valedictorian, having made the highest grade of any member of the class, and June Pender, second highest, will be salutatorian.

Among other awards are a medalion and eight medals which the

(Cont'd. on back page)

## Band Continues Thru Summer

Tahoka's band will continue work throughout the summer months as result of arrangements made between the Tahoka school board and J. H. Felts, teacher of band in the high school, on a half-time basis.

Mr. Felts expects to conduct regular classes in band throughout the summer months. Adults in the town not members of the band will be given opportunity to play with the organization.

A public concert will be given one evening each week, Mr. Felts says.

Details of the summer band program will probably be announced at an early date.

## Draw Graduates Five Seniors

Draw-Redwine High School has been very busy the past week with graduation exercises, County Supt. Lenore M. Tunnell says.

The baccalaureate sermon was Sunday, grammar school graduation will be tonight, and high school exercises were held Thursday night, with Hon. Tom Garrard of Tahoka delivering the address.

Graduates are: Truett Giles, L. L. Tyler, Charles Uzzle, Leota Jones and Weldon Greenwood.

## Crop Loans Are Available To June 1

Application for emergency crop loans should be made immediately to Mrs. Lucille Knight or A. L. Lockwood, Fred N. Warren, field supervisor, stated Tuesday on his regular weekly visit to this county.

In all probability, he says, no applications will be accepted after the last day of May.

### National Paper Tells Of Local Farmers Paper

Recently, the National "News for Farmers Co-operatives" magazine, published in Washington, D. C., carried the following story under the heading "Small Local Co-op Issues House Organ":

"Co-op-o-gram" is the catchy name of a monthly house organ published by the Farmers Cooperative Association of Tahoka, Texas. The area served by this association is limited to the local trade territory. Cotton ginning is the main enterprise, with a healthy sideline business in gas and oil. The association has approximately 200 members.

"CO-OP-O-GRAM" is mimeographed on the four pages of a sheet of legal-size paper folded once. It is mailed in an unsealed envelope to each of the 200 members and patrons once each month. The postage costs 1 1/2 cents a copy, and the cost for envelopes, paper, and mimeographing amounts to approximately another 1 1/2 cents per copy—a total of 3 cents a copy, or 36 cents a year for each member. Their experience has shown them that it is worth the money in realizing its objective—that of informed membership.

"News published in the house organ consists of information about the association which the management feels will be of interest to the members, such as periodic financial sheets; notices of meetings; announcements of dividends; price information; new equipment installed; additional services started; local news of general interest, with philosophy sandwiched in between. A recent issue carried the following:

"Sound Cooperative Principles: (1) Cash terms, (2) open books, (3) strong capital, (4) ample reserves, (5) patronage returns, (6) accurate accounting, (7) one member—one vote, (8) special favors to none, (9) limitations on stock ownership, (10)

### R. W. Fenton Is At Home Again

R. W. Fenton Sr., who had been a patient in the West Texas Hospital for eight weeks, was released from that institution and brought back to his home here Monday. Although he is still unable to sit up except for a few minutes at a time in bed, his condition is much improved and it is hoped that he will continue to grow better.

Mr. Fenton was taken to the hospital for a minor operation on Tuesday, March 21, and underwent the operation the next day. He was apparently recovering nicely when he was stricken with pneumonia.

Physicians and nurses battled heroically to conquer the disease but he has suffered two other attacks since the first one, and it has been a hard struggle. It is truly remarkable that he now seems to be on the road to recovery.

### MRS. CLINTON EXPRESSES THANKS

Mrs. Grace Clinton, Supervisor of the local W. P. A. Renovation Project, has asked us to express her hearty thanks for the co-operation of the Tahoka people in her work. She wishes to express her thanks especially to Mr. Terry Thompson for displaying the Renovation Exhibit in his window; to Mr. Jake Leedy for the sign; the Lynn County News for publicity; and all of the people of the county for their donations of clothing, shoes, hats, furniture, toys, and so many other things which are such a help in the Project.

### GENTRY IS CONFIRMED

Brady P. Gentry, Tyler, was confirmed Wednesday by the Texas Senate as chairman of the state highway commission. He was Gov. W. Lee O'Daniel's fourth appointee. Gentry has long been interested in highway matters.

### METHODIST CHURCH

We will have a male quartet to sing Sunday. Our choir is adding more talent and the Summer should see some attractive song services. Sermon on Education in the morning. Vacation Bible school begins Wednesday.

### Wallace Will Speak

C. A. Lawrence, assistant county agent, announces that Secretary Henry A. Wallace will speak in Little Rock, Arkansas, at 10:30, a. m. Friday, May 26, on the cotton situation. The address will be broadcast.

The News this week received an S. O. S. call from H. M. Larkin, who is in Jacksonville, Florida, asking that we rush him four-bits worth of the Lynn County News. We imagine H. M. is getting homesick for a good old "West Texas sandstorm. Hurry on home, H. M.

quality and service, plus savings." The April, 1939, issue of the same magazine carried a feature picture of the gin plants.

### Miss Marion Draper Wins Scholarship

Announcement has been made that Miss Marion Draper, daughter of Mr. and Mrs. I. M. Draper of Midway near Tahoka, who will graduate at the Texas Technological College in June, has won the Mrs. Estelle B. Sharp scholarship, one of the two scholarships in Home Economics offered by the University of Texas.

Miss Draper will attend the University next year as a graduate student.

This scholarship, established by a bequest from the late Will C. Hogg of Houston, carries an annual stipend of \$750, "an unusually large amount", according to University authorities.

### University Prof. Farmers Bulletin

Edward J. Lossin, professor in University of Wisconsin, Green Bay, has written for copies of the Farmers Co-op. Association house organ for use in his courses in "Co-operatives".

Compliments on the publication have come from such prominent persons as: C. E. Bowles, specialist in co-operative marketing, Texas A. & M.; P. E. Lichte, cotton gin specialist of the same school; Roy B. Davis, secretary, and Jno. B. Jones, vice president and treasurer, Houston Bank for Co-operatives; A. B. Emmert, general manager, Texas Cotton Growers Association; and Homer D. Wade, secretary, Texas Cooperative Council.

### New Lynn Seventh Grade Has Program

Graduation exercises for the New Lynn seventh grade were held Thursday night, according to J. B. Bolin, superintendent.

The following were presented diplomas: Terrell Nash, Oleta Gary, Edith Hart, Theston Withers, Ruth Evans, Othell Meeks, T. A. Stone, Odessa Young, D. L. Young, Audra Mae Thompson, Houston Bain, Venell Walker, Helen Bain, Doris Duckett.

### ALVIN ALLISON IS NAMED AS GOOD WILL AMBASSADOR

Austin, May 9.—State Representatives Alvin R. Allison of Levelland and Cecil T. Rhodes of Hearne will go to Mexico City about June 15 as "ambassadors of good will," Gov. W. Lee O'Daniel said today. The two legislators will repay a visit by several Mexican officials to the Texas capital early this year.

### HARDY TO SEMINOLE

Rev. Ben Hardy, Methodist minister, has been invited to preach at the Seminole Methodist Church, Sunday, the occasion being the laying of the cornerstone for their new church building.

Bro. Hardy will preach at both the Sunday morning and night services and will participate in the cornerstone laying in the afternoon.

Miss Nancy Jenkins of Tucson, Arizona, is here visiting her sister, Mrs. Jack Corley. Miss Jenkins formerly was from Georgia, but came west a year or two ago for her health and likes the country so well she has decided to remain in the West. For the past several months she has been superintendent of a hospital in Tucson. She will visit here several weeks.

Mr. and Mrs. A. M. Cade and Iris Dean left early this week for Galveston, where they are attending the annual convention of county assessors and collectors.

Mr. and Mrs. A. J. Brown are happy over the arrival Wednesday of a 7 1/2 pound baby girl in their home.

### TO THE PUBLIC:

On March 17th, this year, we insured our home and furniture thru A. B. Griffith, owner and operator of The Griffith General Agency of Slaton, Texas, for \$1300.00.

On the 2nd day of May, about forty-five days later, the house was struck by lightning and everything we had burned.

On May 11th, Mr. Griffith delivered checks for the entire amount of insurance.

Our policies burned with the house but Mr. Griffith paid the full amounts without any hesitation whatsoever.

We appreciate the splendid insurance service rendered us and take this means of expressing our appreciation.

Signed:  
Mrs. G. F. Shattuck  
Leon Tamplen  
Route 1, Tahoka, Texas.

### Tahoka Girl Is Honored At Tech

Lubbock, Tex., May 9.—Mary White, arts and sciences junior at Texas Technological College, has been elected secretary-treasurer of the Philosophy club. She is the daughter of Mr. and Mrs. G. E. White of Tahoka.

Miss White is reporter for the Texas Tech Young Women's Association and reporter and magazine salesman for the Baptist Student Union.

### LET IT BE "CO-OPT"

In Mr. Webster's dictionary is a word "co-opt" which means chosen by mutual consent of equal owners or partners. Such as a president is "co-opt"—chosen by the co-operators. The word comes from "co" meaning together and "opt" which arises from the idea of choosing.

It's close kin to "adopt" which means you chose to take something to yourself.

Now, isn't life better when farmers "co-opt" things rather than "sop" them. "Sop" means you just soak up the stuff others leave or place on a table for you to take as they give it to you?

Mr. and Mrs. W. O. Henderson returned last week from a stay of several weeks in Austin and at Christoval.

The government has filed charges against a manufacturer of long spaghetti. It will probably be a strung out case.

### IMPROVE RANGES BY CONTOUR FURROWS

Recent rains in the Lamesa Camp area have been very beneficial to the pastures. However, much of the rainfall was lost on pastures that were not furrowed on the contour.

S. N. Allen a cooperator with the Soil Conservation Service has a ranch 15 miles east of Lamesa and has proved that contour furrows are necessary to increase the density of the grass. Mr. Allen states "I made a test of moisture penetration after a good rain where water had been running across my pasture for more than twelve hours and moisture had not penetrated over five inches deep." Mr. Allen is furrowing his pasture on the contour to utilize the rain that falls on his grass as well as water that comes on the pasture from an adjacent water shed.

Tests made over the region has proved that grass yields have been more than doubled through the use of contour furrows.

Mr. and Mrs. D. B. English came in Tuesday night from Dallas, where Mr. English says they dated all the newest and best pictures for early showing at the English and Ada Theatres. Mrs. English had been visiting her mother at Corsicana for several days.

At least one-third of the 48 states—including several in the South—have laws taxing heavily cottonseed-oil products, according to a survey made by the National Cotton Council of America.

Mrs. A. D. Haney of O'Donnell was here Monday gathering data for a talk on the history of Lynn county before a study club in that city.

Mr. and Mrs. G. T. Carrell of Route 4, are the proud parents of a son, weighing eleven pounds, born on May 12. The young man will be known as Kirby Wayne.

Miss Lea Horstmann of the Lubbock Sanitarium visited this week in the home of Mr. and Mrs. I. M. Draper.

Club and Church News

## MIDWAY 4-H CLUB

"Every poultry raiser should be sure to have enough nests for his hens," Miss McNatt told the Midway 4-H Club girls in the home of Mrs. R. L. Littlepage, at 9 o'clock, Thursday morning May 11.

"There should not be more than five hens to a nest, three is better, but five can use it pretty good," continued Miss McNatt. The most popular (the one that is used most) nest is the one with the open top. It is made of apple boxes and the sides are only two inches high. The "Dark Nest" is another good nest. It is made of either boxes or lumber. To make the nest you leave a space of about twelve inches between the wall and the nest. Put a board in this place so it will be easier for the hens to get in the nest. Fix these nests just like you would any other nest and then turn it around where it faces the wall. The back can be fixed where it will raise up. This will enable you to get the egg more easily and it will be easier to clean out the nests.

Members present were: Reba Phillips, Clara Faye Nordyke, Clovis Williams, Mary Louise McDonald, Clara Lee Henry, Marciene Stephens, Bessie and Mary Louise Rainey.

## RUTH CLASS

The new roadside park north of town was the scene of a most enjoyable picnic and supper by the Ruth Class of the Baptist Sunday School Friday evening.

After cooking and enjoying their supper at one of the picnics units, the class enjoyed lively games.

Mrs. D. V. Smith, teacher, and sixteen girls attended.

Mrs. Will Humphries spent last week end here visiting her nephew, T. Cowan, and his family as well as other relatives and friends. She is now residing temporarily with her mother, Mrs. W. C. Cowan, at Canyon, who accompanied her as far as Lubbock, where they visited T. B. Cowan and family there.

## TWO WORDS TO THE WISE

1. STEPPED UP IN MILEAGE  
2. STEPPED DOWN IN PRICE

YES - you get Goodyear's famous "G-3" All-Weather Tire - for years FIRST in sales and FIRST in service! AND NOW you get a tougher tire - better-riding and longer-lasting than all previous "G-3" record-breakers!

BUT - YOU PAY LESS MONEY FOR MORE MILES OF SAFE MOTORING. This latest and greatest "G-3" is STEPPED UP IN MILEAGE, STEPPED DOWN IN PRICE. See it - TODAY.

Now at new money-saving prices!

## FAMILY REUNION AT JIM FENTON'S

Mr. and Mrs. Jim Fenton, who reside at the old Fenton home place a mile east of Tahoka, had as their guests on Mothers Day the following relatives: Mrs. Fenton's mother, Mrs. Rassic Barnes, and Mrs. Barnes' daughter-in-law, Mrs. Roscoe Perriman, and the latter's two daughters; Mrs. Barnes' daughter, Mrs. Virgie Rogers, and the latter's two sons; all of McCaulley; Mrs. Barnes' daughter and her husband, Mr. and Mrs. "Red" Gilliland, and a third daughter, Mrs. Dora Sanders, all of Sweetwater; Mrs. Fannie Bartley, aunt of Mrs. Barnes, and Mrs. Bartley's daughter and son-in-law, Mr. and Mrs. A. L. White of Tahoka.

All enjoyed a great noon-day feast in the Fenton home. Mr. and Mrs. Sam Bartley of Tahoka were also afternoon guests.

## DEMONSTRATION GIVEN MIDWAY H. D. CLUB

A demonstration on furnishing the living room was given to the Midway Home Demonstration Club at Mrs. Pete Curry's May 11 by Miss Maurine McNatt, Lynn county home demonstration agent. She told the ladies that every living room should have a center of interest. The other interests necessary are: Reading, writing, conversation, play, and music centers. They should be subordinated to the center of interest.

To have beauty and orderliness in the living room, attention must be given to unity, a oneness that holds all parts together; to balance, informal balance is the most interesting. This is the use of articles different in size and that do not have the same power of attraction. To rhythm, so the eye may be taken gradually from one part of furniture to another; to design, for the design in furniture should follow the structural lines in the room.

Members present were: Mesdames Otis Curry, Sam H. Floyd, R. L. Littlepage, Alice Duncan, Rufus Slover, K. W. Phillips, and Pete Curry.

The next meeting of this club will be with Mrs. Otis Curry on May 25.

Andrew Randolph of Moran has been here several days visiting his sister, Mrs. Beecher Sherrod.

## LOTTIE MOON CIRCLE

The Lottie Moon Circle of the Baptist W. M. U. held a business session in the home of Mrs. Deen Nowlin Monday afternoon with 11 present. Mrs. Homer Harrison is the new circle chairman and she, with other officers and committees, is planning for a good year's work. All young married women of the Baptist Church will find a welcome in the Lottie Moon Circle.

Mr. and Mrs. A. M. Cade and Iris Dean, and Mr. and Mrs. J. T. Tippit attended a family reunion honoring Mrs. S. R. Cade of Pecos at the home of Mr. and Mrs. V. L. Cade of Union, Lubbock county, Sunday. Barbecue lunch was served and there was a musical program in the afternoon.

Mr. and Mrs. A. C. Weaver went over to Levelland Tuesday afternoon to visit his parents and family and to attend the Senior Class play that night, in which his sister was to participate. A heavy rain and hail storm, however, prevented the staging of the play.

Mr. and Mrs. Rollin McCord have moved into their new home in the northwest part of town.

Born to Mr. and Mrs. J. C. Wells of Route 2, a six pound daughter, Dorothy Janet, May 12.

## Women Answer From 12 States

To date, Touring Reporters have visited the principal cities of 12 Southern states; have asked 1297 users their famous question: "Did CARDUI help you?" Of those 1297 users, 1206 said they were definitely benefited by CARDUI. That's 98 out of every 100. What a record! CARDUI is a good stimulator for lagging appetites, a real aid to digestion and assimilation. That's why its proper use enables so many women and girls to build up physical resistance, and thus helps them avoid the periodic pain of functional dysmenorrhea due to malnutrition.

## Magazine Quotes Farmerr Bulletin

Claude Donaldson, manager of the Tahoka Farmers Co-operative Society No. 1, and his board publish an interesting little four-page news letter to all members each month, called the "Co-Op-O-Gram" and it is a wonderful asset to the co-op, published with a mimeograph for about three cents a copy including mailing costs. Donaldson's new year message to members was this:

"On previous occasions we have mentioned the high class and type of farmers who were members of this association. That is the way it has been able to go forward. The same thing can be said of our new members and accounts, and we want you to know how we feel about it. No organization is stronger than the individual members and officers, who have the ability as well as the success of the association in your hands. Will you be loyal and true co-operators during the year 1939. Patronize your co-operative, boost it among your friends (especially new farmers) and may you all have a prosperous and happy year." —The Producer-Consumer.

D. C. Robertson of Hobson situated near San Antonio has been here the past several days visiting his brother W. O. Robertson and family. This is Mr. Robertson's first visit to the plains in eighteen years and he expressed amazement at the development that has occurred here. Especially was he astounded at the growth of Lubbock, which he saw eighteen years ago as a small West Texas town.

## Local Citizens At Historical Meeting

Canyon, Ma 13.—The Panhandle Plains Historical Society reviewed at its annual meeting here Friday an eventful year and re-elected its present group of officers, headed by Judge James D. Hamlin, Farwell, as president.

The society was told that through co-operation of the Works Progress Administration and West Texas State Teachers College the organization's museum had received thousands of fossils and artifacts of much educational and scientific value; that many gifts and loans were received; that habitat cases were built and a number of extinct animals restored, and that 35,000 persons visited the museum in the last twelve months.

Floyd V. Studer, Amarillo insurance man, discussed archaeological excavations which he directed, and Prof. C. Stuart Johnson reported on Paleontological finds in the Panhandle field.

The society voted to participate in the Colorado Quarto Centennial Celebration now taking form. Dr. E. E. Dale, head of the history department of the University of Oklahoma, was the principal speaker at the annual banquet at night. Other officers are: W. T. Coble,

Amarillo, and Dr. J. A. Hill, Canyon, vice presidents; Dr. L. F. Sheffy, Canyon, executive secretary; W. L. Vaughan, Canyon, treasurer; and W. H. Patrick, Clarendon, Col. R. P. Smythe, Plainview, John L. McCarty, H. C. Pipkin, and Floyd V. Studer, Amarillo, Frank P. Hill, Tahoka, Judge H. E. Hoover, Canadian, C. P. Buckler, and Fred Hobart, Pampa, directors. Frank Hill and Harley Hender-

son from Tahoka attended the meeting.

STATED MEETINGS of Tahoka Lodge No. 1041 the first Tuesday night in each month at 8:00. Members urged to attend. Visitors welcome.

**THE TARIFF RACKET**

We think that Mr. Haines of the  
Texas A. & M. College Extension  
service hit the nail squarely on the  
head when he spoke here one night  
last week analyzing the ills that  
now afflict our nation. He may not  
have been absolutely correct in  
everything that he said, but we  
think he surely rang the bell when  
he put his finger on the high pro-  
tective tariff as the chief cause of  
the depression in the first place  
and the chief obstacle to national  
economic recovery ever since.

This high tariff wall, he pointed  
out, dammed up the natural flow  
of commerce and made it impossible  
for the great consumer nations of  
the world to long continue to buy  
our goods. They had only two  
kinds of wealth with which they  
could buy; one was gold, the other  
was their own goods, chiefly the  
products of their own factories.

But, ever since the beginning of  
the World War, the balance of  
trade with the great consumer na-  
tions of Europe had been in our  
favor; that is, we had been selling  
to them, more than we had been  
buying from them. That, gradually  
drained these countries of their  
gold, and that process continued  
until they practically had no gold.  
We now have buried or hidden  
within this country 85 percent of  
all the monetary gold of the world.

These countries therefore could  
no longer buy our goods unless we  
would buy theirs. The only sensible  
thing for us to have done therefore  
was to lower our already high tariff  
walls and encourage trade with the  
nations of the world.

Did we do that? No. When Con-  
gress met in January 1929 following  
the election of Mr. Hoover in No-

vember, 1928, the first thing the  
Republican leaders in Congress did  
was to introduce a tariff bill, known  
as the Smoot-Hawley bill, increas-  
ing instead of lowering the tariff  
rates, then in force under the For-  
ney-McCumber Act, which was also  
a Republican tariff measure. The  
bill passed and President Hoover  
signed it. It erected the highest  
tariff wall around this country the  
nation has ever seen. It was erected  
not for the purpose of encouraging  
foreign trade but for the confessed  
purpose of destroying it. Instead of  
admitting foreign goods with which  
the Europeans might pay for our  
cotton and wheat and corn and  
meat, it effectually barred the ad-  
mittance of foreign goods—all in  
the interest of the American man-  
ufacturer.

Great Britain, and France, and  
Germany, and Italy, and Japan,  
and other nations therefore had to  
begin looking around for other  
places where they might procure  
their food supplies, their cotton,  
and other raw materials, and the  
American farmer speedily lost his  
foreign markets for the cotton, his  
wheat, his cattle, and other prod-  
ucts of the farm.

In 1927, Mr. Haines pointed out,  
the United States shipped to Ger-  
many approximately 2,750,000 bales  
of cotton. In 1938, she shipped less  
than three quarters of a million  
bales. There was a similar de-  
crease in shipments to Great Brit-  
ain, France, Italy, Japan, and  
other nations.

So, Mr. Haines scathingly ar-  
raigned the Smoot-Hawley tariff  
act as the "No. 1 racket of Amer-  
ica". Furthermore, he quoted Sec-  
retary Henry A. Wallace as saying:  
"Such legalized thievery (the tariff)  
is probably working more harm to  
the people of the United States  
than all other forms of robbery put  
together."

To us it seems clear that we can  
not restore prices for farm prod-  
ucts, especially cotton, until we  
restore foreign markets.

We can not restore our foreign  
markets until we tear down these  
high tariff walls.

Why, then, has not the Demo-  
cratic party torn them down?

Because too many Democratic  
Congressmen come from districts or  
sections of the country where the  
manufacturers, who have grown  
rich under the protection of high  
tariff walls, live and vote.

We have scarcely read a real  
Democratic speech on the tariff  
question by any Democratic Senator  
or Congressman since the Demo-  
crats came into power. With the  
exception of a few bricks knocked  
off the Smoot-Hawley tariff wall  
by Secretary Hull, who has helped  
some by effecting trade agreements  
with a number of foreign countries,  
that grim, forbidding wall still  
stands, in all its iniquity, with a

million financial wrecks lying pro-  
strate at its base.

Why, then, hasn't President  
Roosevelt demanded that Congress  
wreck that tariff wall?

Well, you answer that one.

In view of the vast amount of  
communist and totalitarian prop-  
aganda being propagated by aliens  
and un-Americanized American  
citizens in this country, we believe  
that it is high time our government  
were doing something about it—  
something constructive. It seems to  
us therefore that immigrants should  
be required, before they enter this  
country, to take an oath that they  
are coming with the purpose of  
making good American citizens. Then,  
after they enter they should be  
required to take a course in  
civil government and Americanism  
before they are allowed to take out  
naturalization papers. They should  
be taught the fundamentals of our  
Constitution, of representative gov-  
ernment, of its three separate and  
distinct departments, and many  
other things pertaining to our  
system. They should be grounded  
in the principles set out in our Bill  
of Rights, including such vital  
matters as religious freedom, free-  
dom of speech, freedom of the  
press, trial by jury, etc. This in-  
struction should be offered to them  
free of charge, but it should be  
as thorough as their varying in-  
tellects may be able to digest. If  
they willfully refuse to take such a  
course within a given time, they  
should be sent back to the countries  
from which they came. If they  
comply, they should be admitted to  
citizenship upon passing an exami-  
nation as to their knowledge of our  
system and the fundamentals of  
our government and upon taking  
the oath to uphold the Constitution  
of the United States. As it is, too  
many immigrants come to this  
country with confused and distort-  
ed ideas as to our form of govern-  
ment. They come loaded down with  
communist ideas or fascistic ideas  
and are wholly unprepared to make  
good, loyal American citizens.

Mussolini took his turn Sunday  
at blustering and bragging and  
trying to bluff the world. But with  
all of his bluster and thunder he be-  
trayed the fact that he and Hitler  
feel that their hands have been  
called. "There are not at present  
in Europe problems big enough or  
acute enough to justify a war",  
he roared in a tone that would  
make one think he was declaring  
war. Great Britain and France have  
warned the two dictators to keep  
their hands off of Poland and  
Tunisia, and the old boys are bellow-  
ing and keeping their hands off.  
The truth is, they have had their  
hands called, and when the show-  
down came they didn't have the  
guts to fight.

This is graduation week with  
hundreds of high schools in West  
Texas. This week forty students are  
expecting to receive their high  
school diplomas from the Tahoka  
school board. There will be others  
at O'Donnell, Wilson, New Home,  
and Draw. Some of these students  
will leave high school with a good  
knowledge of the subjects they have  
studied; others will have only super-  
ficial knowledge. Some will leave  
with a determination to attend col-  
lege some time; others will have no  
ambition to attend college. Some of  
these who do have the ambition  
will have no opportunity to do so.  
Some will leave high school with  
high purpose, determined to make  
their way through life; others will  
leave feeling that the world owes  
them a living and they expect to  
collect it without doing any more  
real work than is absolutely neces-  
sary. Some of those who will leave  
are honest, industrious, and thrifty;  
others will not hesitate to use any  
means at their command, fair or  
foul, to "get by" through life. Some  
are serious-minded, thoughtful, well-  
behaved young people; others are  
frivolous, silly, cigarette-sucking  
little sissies or vulgar, evil-minded  
boys, who will never amount to a  
thing in the world. It is believed  
and hoped that most of these high  
school graduates belong to the first  
class, but it is as sure as sin that  
at least a few of them belong to  
the latter class. Young man, young  
woman, in which class have you  
enlisted?

We are persuaded that if they  
had given us the right kind of New  
Deal on the tariff ten years ago no  
other kind of New Deal would have  
been necessary.

Swat the candidate for the legis-  
lature next year who comes before  
you promising to successfully ride  
two horses at the same time going  
in opposite directions.

The fellow who starts out in life  
believing that the world owes him a  
living usually collects a very poor  
living.

The union of the three branches  
of the Methodist Church is now an  
accomplished fact. Nearly all the  
members of each branch entered  
heartily, apparently, into the union,  
though there were a few defections.  
With the exception of some changes  
in nomenclature and procedure, we  
anticipate that there will be little  
change in the work, for there was  
little duplication of the work of  
the three branches, in the South at  
least. The main thing with all  
churches should be to spread the  
gospel, to inculcate Christian prin-  
ciples in the hearts of the members  
and promote their practice. All  
church organizations are mere  
means to this end.

As long as a big bully believes  
that everybody else is afraid of  
him, he is going to continue to be  
a big bully. Until some other strong  
fellow whips the whey out of him  
or calls his hand in a tone that he  
knows means business, he will con-  
tinue to strut his stuff and to  
lord it over his neighbors. It is so  
in the realm of nations. That's  
why we want Uncle Sam always to  
be prepared to take on any Hitler  
or Mussolini or combination of  
Hitlers and Mussolinis that may  
decide to bump up against the old  
boy and rub his nose with their  
fists.

This new state soil conservation  
law can be made a farce or a bow-  
ling success, depending on whether  
the farmers treat it as a joke or  
as a great opportunity for service  
to this and future generations.

### PHEBE K. WARNER CLUB COMPLETES YEAR

The Phebe K. Warner Club, women's study club, will complete its year's work with its regular meeting next week.

Copy has been turned over to the Lynn County News for next year's club book. The study next year will be "Masterpieces," which will include study and programs on art, sculpture, music, and literature.

The following are officers for the coming year: Mrs. Truett Smith, president; Mrs. A. P. Edwards, vice president; Mrs. E. S. Evans, secretary-treasurer; Mrs. G. M. Stewart, corresponding secretary.

The following members are listed: Active—Mes. J. K. Applewhite

### TAHOCA GIRLS WILL ATTEND SUMMER CAMP

A group of Tahoka girls are planning to spend about two weeks at Sunnyvale Girls Camp, near Grand Prairie, beginning June 12.

Among those who have already expressed their intentions of attending the camp are: Billie Lee Burleson, Myrna Dean Gaignat, Nell Barrington, Peggy and Mary Beth Fenton, Betty Sue Roberts, Aleta Lois Stewart, and Joann Edwards.

Several other girls are also considering attending the camp.

Joann Edwards, who is valedictorian of the seventh grade graduating class, is being presented a

hoka. I have heard them play and believe in preventional measures. Much depends on how they spend their leisure time, and some times we parents do not give enough thought to this side of their lives. Mother's Day has passed and now children how are we going to treat our mothers the rest of the year? Those who live a distance from mother, don't forget to write her. I make it a rule to write every Monday to my mother. Won't you do the same? If you could see the pleased look on mother's face when she gets the letter I believe you would. May God bless our mothers and may we show them that we ap-

preciate them while they live. I was up to see the senior editor last Saturday and the office force said he was home sick. Hope he is up and going again. While I think he treats my friend O'Daniel a little bad sometimes, yet I think he is a good scout and I love him just the same. Yours for more people who think for themselves and yet grant others the same right. The editor and myself could use a frying chicken or two, any color will do.—R. P. Drennon.

VOLUME XXXV TAHOKA, TEXAS, FRIDAY, MAY 19, 1939. NUMBER 40

# Farmers Co-op Ass'n. Expands Plant

Service Station Will Be Formally Opened Saturday

Members, friends, and the public generally are invited to the formal opening of the farmer-owned service station, gin office and two gins of the Farmers Co-operative Association No. 1, Inc., of Tahoka Saturday of this week.

The modern commodious station and office building has been completed and officials of the co-op are anxious that all may visit the plant.

The station will cater not only to co-op members, but is making a bid to the general public for patronage. Some special prices are being offered for the opening day, as will be seen in the co-op's ad.

### Station Located On Highway 87

The new office, filling station, and wholesale building facing U. S. Highway 87 on the property of the Farmers Cooperative Association No. 1 of Tahoka is modern in every respect and is a credit to the town and county.

The building houses the gin office, filling station office, manager's office and board of directors room, wash and grease compartment, and the wholesale storage department.

In an L-shape, the white stucco and frame structure faces 70 feet on the highway and 60 feet on the street which runs down the west side of the two blocks on which the gins are located.

The double-drive filling station has three pumps, and an office in which there are plate glass windows allowing a clear vision from the interior in three directions. There are large, modern rest rooms for ladies and men. Immediately east is the enclosed wash and grease room 24x26 feet in size, and just east of this room is the 30x32 wholesale storage rooms. Also, there are four wholesale pumps, and storage for 9,000 gallons of gasoline.

North of the filling station office, are the general offices and lobby, 16x38 feet in size, in which are located the bookkeepers' desks, weigher's desk, etc.

New 34-foot Howe scales will be installed to serve both gins.

The manager's office and director's conference room is 12x16 feet in size, and also contains a large storage closet for records and supplies.

All office rooms have Celotex ceilings and walls, with wainscoting floors, and other woodwork in natural finish.

About twenty trees have been planted on the gin property, and other improvements will be made from time to time. Both gin plants will be repaired, reconditioned and improved before the fall season.

**ASSETS \$91,000**  
The Farmers Co-op Association on December 31 had total assets of \$91,077.62—with only \$26,048.84 in payable notes and other items, \$10,889 in depreciation reserves, \$29,096 in stock to members and \$24,973 in surplus and reserves. The 1938 business was 20% over 1937 at the oil station.

Cotton is the fibre of American prosperity. Consumption is the barometer that tells what price level a commodity will reach.

### B. J. Emanuel Is Co-op President

Much of the success of the Farmers Cooperative Gin Association is due to the untiring efforts, interest and far-sightedness of B. J. Emanuel, prominent farmer of the Magnolia community, who has been president of the organization since June, 1934.

Mr. Emanuel is a firm believer in a balanced farm program, and he not only preaches diversification but practices it. He follows the Government balanced farm program, and then goes just one step further than the Government demands.

"Our cows and chickens pay our way. Then if our cotton crop makes good we have a profit; if not our farming expenses are paid, anyway," he says. He thinks the one-crop idea will ruin a farmer and ruin the country.

Mr. and Mrs. Emanuel have about 150 laying White Leghorn hens, and at the present time they have 350 fryers, 225 of which are pullets. They expect to keep most of these another year.

They also have six Jersey milk cows and one fine Jersey bull, of which they are very proud, and like the chickens they are very profitable. All the Jerseys are subject to registration.

Mr. Emanuel has not done any beef stock feeding yet, but he intends to put in a silo this year to

B. J. EMANUEL

G. L. COBB

### Gion L. Cobb Is Vice-President

Gion L. Cobb, who lives seven miles up the Lubbock highway north of Tahoka, is one of Lynn county's outstanding farmers, and is vice president of the Farmers Co-op Assn.

His home, and that of his mother, Mrs. J. H. Cobb, with whom he farms co-operatively, are among the better farm homes. The premises are well-kept, equipment is modern, and diversification is practiced.

(Cont'd. on back page)

take care of his feed crop and to carry on a small feeding project next winter. He thinks such a program is the salvation of the South Plains farmer.

Both Mr. and Mrs. Emanuel were raised and married in Parker county, later moved to Frederick, Oklahoma, and moved with two of their sons to Lynn county in 1919, settling in the Magnolia community, one of the best farming areas of this county. They bought 160 acres of raw land and a house the Double-U company had built thereon.

They have been improving the place ever since, until it is now one of the best improved farm places

**THE TARIFF RACKET**

We think that Mr. Haines of the  
Texas A. & M. College Extension  
service hit the nail squarely on the  
head when he spoke here one night  
last week analyzing the ills that  
now afflict our nation. He may not  
have been absolutely correct in  
everything that he said, but we  
think he surely rang the bell when  
he put his finger on the high pro-  
tective tariff as the chief cause of  
the depression in the first place  
and the chief obstacle to national  
economic recovery ever since.

This high tariff wall, he pointed  
out, dammed up the natural flow  
of commerce and made it impossible  
for the great consumer nations of  
the world to long continue to buy  
our goods. They had only two  
kinds of wealth with which they  
could buy; one was gold, the other  
was their own goods, chiefly the  
products of their own factories.

But ever since the beginning of  
the World War, the balance of  
trade with the great consumer na-  
tions of Europe had been in our  
favor; that is, we had been selling  
to them more than we had been  
buying from them. That gradually  
drained these countries of their  
gold, and that process continued  
until they practically had no gold.  
We now have buried or hidden  
within this country 85 percent of  
all the monetary gold of the world.

These countries therefore could  
no longer buy our goods unless we  
would buy theirs. The only sensible  
thing for us to have done therefore  
was to lower our already high tariff  
walls and encourage trade with the  
nations of the world.

Did we do that? No. When Con-  
gress met in January 1929 following  
the election of Mr. Hoover in No-

vember, 1928, the first thing the  
Republican leaders in Congress did  
was to introduce a tariff bill, known  
as the Smoot-Hawley bill, increas-  
ing instead of lowering the tariff  
rates then in force under the Ford-  
ney-McCumber Act, which was also  
a Republican tariff measure. The  
bill passed and President Hoover  
signed it. It erected the highest  
tariff wall around this country the  
nation has ever seen. It was erected  
not for the purpose of encouraging  
foreign trade but for the confessed  
purpose of destroying it. Instead of  
admitting foreign goods with which  
the Europeans might pay for our  
cotton and wheat and corn and  
meat, it effectually barred the ad-  
mittance of foreign goods—all in  
the interest of the American man-  
ufacturer.

Great Britain, and France, and  
Germany, and Italy, and Japan,  
and other nations therefore had to  
begin looking around for other  
places where they might procure  
their food supplies, their cotton,  
and other raw materials, and the  
American farmer speedily lost his  
foreign markets for the cotton, his  
wheat, his cattle, and other prod-  
ucts of the farm.

In 1927, Mr. Haines pointed out,  
the United States shipped to Ger-  
many approximately 2,750,000 bales  
of cotton. In 1938, she shipped less  
than three quarters of a million  
bales. There was a similar de-  
crease in shipments to Great Brit-  
ain, France, Italy, Japan, and  
other nations.

So, Mr. Haines scathingly ar-  
raigned the Smoot-Hawley tariff  
act as the "No. 1 racket of Amer-  
ica". Furthermore, he quoted Sec-  
retary Henry A. Wallace as saying:  
"Such legalized thievery (the tariff)  
is probably working more harm to  
the people of the United States  
than all other forms of robbery put  
together."

To us it seems clear that we can  
not restore prices for farm prod-  
ucts, especially cotton, until we  
restore foreign markets.

We can not restore our foreign  
markets until we tear down these  
high tariff walls.

Why, then, has not the Demo-  
cratic party torn them down?

Because too many Democratic  
Congressmen come from districts or  
sections of the country where the  
manufacturers, who have grown rich  
under the protection of high  
tariff walls, live and vote.

We have scarcely read a real  
Democratic speech on the tariff  
question by any Democratic Senator  
or Congressman since the Demo-  
crats came into power. With the  
exception of a few bricks knocked  
off the Smoot-Hawley tariff wall  
by Secretary Hull, who has helped  
some by effecting trade agreements  
with a number of foreign countries,  
that grim, forbidding wall still  
stands, in all its iniquity, with a

million financial wrecks lying pros-  
trate at its base.

Why, then, hasn't President  
Roosevelt demanded that Congress  
wreck that tariff wall?

Well, you answer that one.

In view of the vast amount of  
communistic and totalitarian prop-  
aganda being propagated by aliens  
and un-Americanized American  
citizens in this country, we believe  
that it is high time our government  
were doing something about it—  
something constructive. It seems to  
us therefore that immigrants should  
be required, before they enter this  
country, to take an oath that they  
are coming with the purpose of  
making good American citizens.  
Then, after they enter they should  
be required to take a course in  
civil government and Americanism  
before they are allowed to take out  
naturalization papers. They should  
be taught the fundamentals of our  
Constitution, of representative gov-  
ernment, of its three separate and  
distinct departments, and many  
other things pertaining to our  
system. They should be grounded  
in the principles set out in our Bill  
of Rights, including such vital  
matters as religious freedom, free-  
dom of speech, freedom of the  
press, trial by jury, etc. This in-  
struction should be offered to them  
free of charge, but it should be  
as thorough as their varying in-  
tellects may be able to digest. If  
they wilfully refuse to take such a  
course within a given time, they  
should be sent back to the countries  
from which they came. If they  
comply, they should be admitted to  
citizenship upon passing an exami-  
nation as to their knowledge of our  
system and the fundamentals of  
our government and upon taking  
the oath to uphold the Constitution  
of the United States. As it is, too  
many immigrants come to this  
country with confused and distort-  
ed ideas as to our form of govern-  
ment. They come loaded down with  
communistic ideas or fascistic ideas  
and are wholly unprepared to make  
good, loyal American citizens.

Mussolini took his turn Sunday  
at blustering and bragging and try-  
ing to bluff the world. But with all  
of his bluster and thunder he be-  
trayed the fact that he and Hitler  
feel that their hands have been  
called. "There are not at present  
in Europe problems big enough or  
acute enough to justify a war",  
he roared in a tone that would  
make one think he was declaring  
war. Great Britain and France have  
warned the two dictators to keep  
their hands off of Poland and  
Tunisia, and the old boys are bellow-  
ing and keeping their hands off.

The truth is, they have had their  
hands called, and when the show-  
down came they didn't have the  
guts to fight.

Mussolini took his turn Sunday

Tunisia, and the old boys are bellow-  
ing and keeping their hands off.

The truth is, they have had their  
hands called, and when the show-  
down came they didn't have the  
guts to fight.

This is graduation week with  
hundreds of high schools in West  
Texas. This week forty students are  
expecting to receive their high  
school diplomas from the Taboka  
school board. There will be others  
at O'Donnell, Wilson, New Home,  
and Draw. Some of these students  
will leave high school with a good  
knowledge of the subjects they have  
studied; others will have only super-  
ficial knowledge. Some will leave  
with a determination to attend col-  
lege some time; others will have no  
ambition to attend college. Some of  
these who do have the ambition  
will have no opportunity to do so.  
Some will leave high school with  
high purpose, determined to make  
their way through life; others will  
leave feeling that the world owes  
them a living and they expect to  
collect it without doing any more  
real work than is absolutely neces-  
sary. Some of those who will leave  
are honest, industrious, and thrifty;  
others will not hesitate to use any  
means at their command, fair or  
foul, to "get by" through life. Some  
are serious-minded, thoughtful, well-  
behaved young people; others are  
frivolous, silly, cigarette-sucking  
little sissies or vulgar, evil-minded  
boys, who will never amount to a  
thing in the world. It is believed  
and hoped that most of these high  
school graduates belong to the first  
class, but it is as sure as sin that  
at least a few of them belong to  
the latter class. Young man, young  
woman, in which class have you  
enlisted?

The union of the three branches  
of the Methodist Church is now an  
accomplished fact. Nearly all the  
members of each branch entered  
heartily, apparently, into the union,  
though there were a few defections.  
With the exception of some changes  
in nomenclature and procedure, we  
anticipate that there will be little  
change in the work, for there was  
little duplication of the work of  
the three branches, in the South at  
least. The main thing with all  
churches should be to spread the  
gospel, to inculcate Christian prin-  
ciples in the hearts of the members  
and promote their practice. All  
church organizations are mere  
means to this end.

As long as a big bully believes  
that everybody else is afraid of  
him, he is going to continue to be  
a big bully. Until some other strong  
fellow whips the whey out of him  
or calls his hand in a tone that he  
knows means business, he will con-  
tinue to strut his stuff and to  
lord it over his neighbors. It is so  
in the realm of nations. That's  
why we want Uncle Sam always to  
be prepared to take on any Hitler  
or Mussolini or combination of  
Hitlers and Mussolinis that may  
decide to bump up against the old  
boy and rub his nose with their  
fists.

This new state soil conservation  
law can be made a farce or a bow-  
ling success, depending on whether  
the farmers treat it as a joke or  
as a great opportunity for service  
to this and future generations.

We are persuaded that if they  
had given us the right kind of New  
Deal on the tariff ten years ago no  
other kind of New Deal would have  
been necessary.

Swat the candidate for the legis-  
lature next year who comes before  
you promising to successfully ride  
two horses at the same time going  
in opposite directions.

The fellow who starts out in life  
believing that the world owes him a  
living usually collects a very poor  
living.

The young college graduate who  
launches out into the world rely-  
ing on his sheepskin to bring him  
success will soon find out that a  
sheepskin alone is little better than  
a sheep's head.

Tobe Kennedy, manager of Hig-  
ginbotham Bartlett company, is  
increasing the size of his home in  
South Taboka and remodeling the  
entire house.

## PHEBE K. WARNER CLUB COMPLETES YEAR

The Phebe K. Warner Club, women's study club, will complete its year's work with its regular meeting next week.

Copy has been turned over to the Lynn County News for next year's club book. The study next year will be "Masterpieces," which will include study and programs on art, sculpture, music, and literature.

The following are officers for the coming year: Mrs. Truett Smith, president; Mrs. A. P. Edwards, vice president; Mrs. E. S. Evans, secretary-treasurer; Mrs. G. M. Stewart, corresponding secretary.

The following members are listed: Active—Mmes. J. K. Applewhite, V. D. Amstrong, A. P. Edwards, E. S. Evans, Joyce Felts, R. W. Fenton Sr., T. T. Garrard III, L. C. Haney, Ben Hardy, Fred B. Hegl, W. O. Henderson, Walter Mathis, E. H. Prohl, W. B. Slaton, Truett Smith, H. M. Snowden, Houston Spikes, G. M. Stewart, H. C. Story, Terry Thompson, G. E. Turrentine, L. E. Weathers, and R. L. Richardson. Associate members—Mmes. L. F. Craft and Miss Maurine McNatt. Honorary member—Mrs. E. E. Callaway, Abilene.

## TAHOKA GIRLS WILL ATTEND SUMMER CAMP

A group of Tahoka girls are planning to spend about two weeks at Sunnyvale Girls Camp, near Grand Prairie, beginning June 12.

Among those who have already expressed their intentions of attending the camp are: Billie Lee Burleson, Myrna Dean Gaignat, Nell Bairrington, Peggy and Mary Beth Fenton, Betty Sue Roberts, Aleta Lois Stewart, and Joann Edwards.

Several other girls are also considering attending the camp. Joann Edwards, who is valedictorian of the seventh grade graduating class, is being presented a free trip to the camp by her classmates and a few business men.

## ELDER DRENNON'S NOTES

I had a very pleasant day last Sunday; had the privilege of preaching the baccalaureate sermon to the class here. I consider it a rare privilege to address the boys and girls that are finishing in our high school because they are the citizens of tomorrow.

As I sat looking at the class, I began wondering what and where they would be twenty, thirty or forty years hence. As my girl was in the class, I was more interested than usual. I am afraid that the average family does not give enough attention to the trainings of their children.

While I was preaching the sermon one of my listeners house was burning down and, strange as it may seem, I was urging the class to have courage under trials and the lady whose house burned down was listening attentively, and was helped to bear up under her trial.

Life is a strange thing. While some are having a pleasant, easy time, others are having trials and sorrows. But, after all, the most of us are far better off than we think we are. We can always look around us and see many in far worse shape than we.

In last weeks issue of the News were two pictures that interested me very much. One was the high school band of 47 pieces which is a credit to any town the size of Tahoka.

## T-BAR CLUB MEETS

"The large pieces of furniture must follow the structural lines of the room" stated Miss Maurine McNatt, home agent, at the regular meeting of the T-Bar Home Demonstration Club in the home of Mrs. E. R. McGregor Friday, May 12th at 2:30 P. M.

Rugs askew and large pieces of furniture across the corners or at right angles to the wall give a sense of confusion and disorder to the room, only the small objects such as the chairs may vary from the lines of the room.

The rugs, scarfs and table covers should also run parallel with the lines of the room. When this rule is followed the room appears more spacious and restful.

Mrs. John Earles of O'Donnell reported on the district business meeting at Lubbock May 6th.

After the meeting was over, Mrs. McGregor was hostess to a sunshine shaver in honor of Mrs. M. A. Boles.

The games were directed by Mrs. Ellis Barnes, and Mrs. Boles won a beautiful basket full of gifts.

There was one visitor, Mrs. W. O. Boles of Lamesa, and two new members Mrs. J. J. Taylor and Mrs. R. A. Poindexter.

There were nineteen present in all.

Program material was given out for the next meeting which will be May 26th at Mrs. Alvin McMillan's.

The subject for the next meeting will be "Table Service."

## MOTHER SINGERS ARE ACTIVE IN PROGRAMS

The Mother Singers, a chorus of about twenty voices, has been very active the last few weeks, and are showing much progress and improvement.

The organization recently appeared by invitation before the district P. T. A. convention at Crosbyton. One Sunday recently they sang a special number at the Methodist Church, and last Sunday they sang several numbers at the Baptist Church. This Thursday they are scheduled to present the program at the Rotary Club.

This is an organization that may mean much to the town and to the individual members. The organization is sponsored by the Parent-Teachers Association.

## FAMILY REUNION HELD AT TREDWAY HOME

Mr. and Mrs. E. J. Tredway were hosts Sunday at a family reunion at their home north of town.

After an appetizing meal at the noon hour, the day was spent in visiting. Present for the occasion were Mr. and Mrs. Howard Tredway of Kermitt, Mr. and Mrs. Tobe Burdett and children of Lubbock, Mr. and Mrs. Melvin Isaacs and family and Mr. and Mrs. Will Ed Tredway of O'Donnell.—O'Donnell Index.

hoka. I have heard them play and believe in preventional measures. Much depends on how they spend their leisure time, and some times we parents do not give enough thought to this side of their lives.

Mother's Day has passed and now children how are we going to treat our mothers the rest of the year? Those who live a distance from mother, don't forget to write her. I make it a rule to write every Monday to my mother. Won't you do the same? If you could see the pleased look on mother's face when she gets the letter I believe you would. May God bless our mothers and may we show them that we appreciate them while they live.

I was up to see the senior editor last Saturday and the office force said he was home sick. Hope he is up and going again. While I think he treats my friend O'Daniel a little bad sometimes, yet I think he is a good scout and I love him just the same.

Yours for more people who think for-themselves and yet grant others the same right.

The editor and myself could use a frying chicken or two, any color will do.—R. F. Drennon.

Get your Egg Stamps at The News office.

# THE GROWL

EDITED BY THE STUDENTS OF TAHOKA HIGH SCHOOL

## CONTENTMENT IN TAHOKA

Below is an editorial written especially for "The Growl" by Congressman George Mahon at the request of Wayne Coffee.

One of the popular songs now frequently heard contains this line: "I am on my merry way to Honolulu." We are often inclined to feel that though we are miserable and discontented where we are, we would be inordinately happy if we were somewhere else—if we were on our merry way to Honolulu, or some other so-called—land of dreams. Well, I have been in Honolulu. I found it quite a lovely place but not so marvelous. The beach at Waikiki is far inferior to the "old swimming hole". I am inclined to think that anyone who is not, as a rule, happy in Tahoka would not be happy in Honolulu or anywhere else.

There is no use to deny that external things—things outside one's self—have important influences. However, by and large, I think that happiness and content come from within one's own mind and heart. And one who is properly adjusted in mind and spirit is, in all probability, reasonably happy wherever he is. One who has little within him and who must depend entirely upon external things for happiness may be happy on rare occasions, but there will be little of abiding

satisfaction for him.

The school house and the home, and may I say the church, are good places to develop those inward virtues of mind and spirit that prevent unhappiness and boredom that make one rich even in the midst of poverty, that supply one always with a "pocketful of dreams."

Some people are not happy anywhere; other people seem to be happy everywhere. Truly there is a significant reason for this. May we say then that the source of happiness is even closer than one's own front door.

## SENIORS ENTERTAINED

The Seniors were entertained in the home of Mr. and Mrs. Carl Owens on the evening of Monday, May 15, with a formal party.

Decorations and refreshments were carried out in silver and old rose. The senior colors. A variety of games were played.

Those enjoying the evening were: Misses Jennie Reba Nevill, June Fender, Genell Fortenberry, Eloise Roberts, Laura Jane Milliken, Doyce Chapman, Avis Shelton, Billie Swafford, and Pauline Owens; Herman Reid, Allen Luallin, Odean Millman, R. L. Bosworth, Bryan Wright, Felix Macha, Buster Pitts, James Price, J. G. Adams, Dick Bosworth, Lester Adams, Wayne Coffee, Frank McGlaun, J. H. Dyer, D. F. Reddell, Finis Connolly, Tom Hale, and Mr. and Mrs. Owens.

## FRESHMAN NEWS

Last Wednesday the Freshman class had a masquerade, their party of the year. Most of the class were there and they reported a very good time.

We wish to thank the town and parents for their cooperation the year around.

We have enjoyed this school year as much or more than any other year. We feel sure that we will enjoy our Sophomore year as much as the past year.

Mr. and Mrs. Lloyd Bradshaw of New Home are the proud parents of a seven-pound girl, born this week.

## VALEDICTORIAN WINS

### READER'S DIGEST AWARD

Lee Dodson, principal of the Tahoka High School, announces that the coveted Reader's Digest Award for Scholastic Achievement has been won by the valedictorian of the class of 1939, Dick Bosworth, Route 1, this city.

He will receive an engrossed parchment certificate upon graduation.

The Reader's Digest confers this annual award as encouragement to young men and women throughout the nation who, by their scholastic achievement, give promise of growing into leadership in their communities.

## TAHOKA GRADE SCHOOL GRADUATES TOTAL 59

Eual Akin, Leroy Bartley, Cecil Bostick, Elbert, Boulloun, Bob Bosworth, Cecil Curry, Darrell Burkhalter, Gwendolyn Adams, Nattie Ruth Alexander, Lillie Mae Eaton, Joan Edwards, Peggy Fenton, Gracie Crouch, Myrna Dean Gagnat, Bobbie Star Grayson, Jean Hill, Beatrice Grubbs, Georgia Grubbs, Miriam Turrentine, Joan Boydston, A. G. Deason, Aaron Alexander, Robert Harvick, W. C. Harvick, L. C. Holt, Raymond Knight, Leland Mitchell, Charles Reid, James Roberts, Noble Rumbo, Tommy Sparks, Sammy Tefteller, Horace West, Elmer Dillard, E. L. Short, Dale Hogan, Sarah Jane Jones, Sylvia June Jones, Mona Raye Lewis, Lena Evelyn Morgan, Bessie Lee Munn, Joan Owens, Lois Parker, Lanoyle Richardson, Verna Lois Roland, Evelyn Ruth Sanders, Fay Shadden, Jean Slover, Allene Warren, Imogene Williams, Jewell Young, Louise Young, Wanda Cruce, Duane Reeves, Yvonne Kyle, Elsie Lanier.

## TAHOKA HIGH SCHOOL GRADUATES HONORED

Edith Robertson and Mary Margaret Tunnell, 1938 graduates of Tahoka High School, were presented Tuesday night at Texas Tech in special recognition services for women students. These two young ladies are among the twenty highest ranking members of the Texas Tech Freshman class which has a total of about 1,000 enrolled. Mr. and Mrs. W. O. Robertson and Mrs. Lenore Tunnell and little daughter, Savannah Lou, attended the service.

## CARD OF THANKS

We wish to thank the doctor, nurses, neighbors and other friends for the many kindnesses shown us during our recent sorrow, the illness and death of our beloved husband and father, W. E. Sikes. For the watchful care given by the doctors and nurses, the beautiful floral offerings, the delicious food, the comforting words and other expressions of sympathy we are especially grateful. May God bless each of you.

Mrs. W. E. Sikes  
Mr. E. L. Sikes and family  
Mr. and Mrs. J. R. Sikes and family  
Mr. and Mrs. T. M. Ellis, Jr. and family  
Mr. and Mrs. C. R. Riley and family  
Mr. and Mrs. Clint Sikes  
Mr. and Mrs. Preston Strasner and family  
J. W. Glenn, and Jack Hickerson.

Little Reta Fae Wyatt, daughter of Mr. and Mrs. A. J. (Bill) Wyatt, who underwent a fourth operation for osteomyelitis, a bone infection, on May 8, was brought home from the hospital the next day and at last reports was feeling much better.

Mr. and Mrs. M. L. H. Baze of Brownfield visited Mr. and Mrs. I. M. Drapen Sunday.

## Breath Bad, Logy? You May Need This

Just as the lighthouse flashes a friendly warning to sailors, so Nature sends out headaches, bad breath, biliousness, which often warn of constipation.

Too many misunderstand or neglect those symptoms and thereby may invite a host of constipation's other discomforts: sour stomach, belching, loss of appetite or energy.

Be wise. Take spicy, all vegetable BLACK-DRAUGHT tonight by simple directions and clear your bowels gently, promptly, thoroughly. This intestinal tonic-laxative helps give tone to lazy bowels.

Its long life and popularity testify to BLACK-DRAUGHT'S merit.

## Negro Ball Team Will Play Amarillo

Tahoka's colored Tigers ran wild to defeat Stanton 24 to 6, the game being played at the latter city.

The negro boys report the game to us as follows:

"The Colored baseball club has decided they are plenty tuff. They went to Stanton last Sunday and won another game by the score of 24 to 6. So they decided that they could not find a team around here to interest them. They are going to the North Pole Sunday, May 21. They will play the Amarillo Bears Sunday in Amarillo. Fred started the game for Tahoka but could not get control. Mgr. Aron Sayles went in and kept Stanton in their place."

## DR. SHEPHERD BUILDING BRICK BUSINESS HOUSE

Higgingbotham-Bartless Lumber Company here is this week placing material on the ground for a handsome new tile and brick building which is being constructed for Dr. O. H. Shepard. Mr. Bill Phillips is contractor.

The building will be 25 90 feet in size, with brick and glass front, concrete floor, located on Doak street between the post office building and Blocker's Grocery. Dr. Shepard said Tuesday that it will be rented for a mercantile establishment.—O'Donnell Index.

Mr. and Mrs. F. T. Carson of Washington, D. C., are expected to arrive Friday of this week for a visit here with Mrs. Carson's parents, Mr. and Mrs. W. L. Knight, and sister, Mrs. J. Emory Nance.

## Itching Skin Eczema Torture

Now that clean, powerful, penetrating Moore's Emerald Oil is available at first-class drug stores all over the country, thousands have found helpful relief from the distressing itching and torture of rashes, eczema, itching toes and feet, poison ivy and other externally caused skin troubles.

Not only does the itching, burning or stinging quickly subside, but healthy healing is promoted.

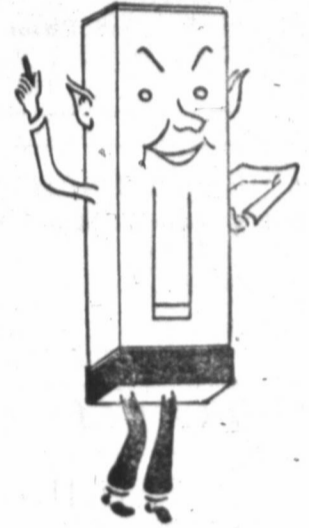

Ask your druggist for an original bottle of Emerald Oil—greaseless—stainless. Money cheerfully refunded, if not satisfied.

TAHOKA DRUG

J. F. Stuart reports that Mrs. Stuart is making regular trips to Lubbock for treatment and observation at a hospital.

## MEET OUR COMPLETE WATER HEATER FAMILY

Yes, sir, folks, I'm the pappy of 'em all. You can put me anywhere in your house and you will never know I'm there on the job—always giving you plenty of hot water. That's my trouble. I'm so safe, silent, and dependable that everybody takes me for granted. I'm not bragging, but you'll be surprised the many nice things millions of users say about me.

Just because I am not as big as pappy, I am just as efficient and will do a swell job of heating water. I'll fit into the 'scheme of things' anywhere—just plug me into any socket and that's all! No fuss—no muss. I'm not bragging, either; but thousands of people need me in their homes and offices.

Yeah, man! My name is T. Kettle of the latest line of Kettles. Everybody knows how useful us Kettles have always been. I may be little, but, boy—I get hot and hold for you in a jiffy. And if I get too hot, I'll kick the plug out, so you don't have to worry about me burning up. And when a man can do that—he has a right to brag, hasn't he?

Drop by our office and visit with our family.  
AUTOMATIC THERMOTYPE at \$4.95  
TWO-GALLON NON-PRESSURE HOTPOINT WATER HEATER at \$24.95  
ANY SIZE STORAGE TYPE WATER HEATER (30-52 gal.) at \$103.00

### Writer Tells Of Tahoka Meeting

When Paul Haines spoke here one night last week to a group of Lynn county farmers, he was accompanied by Joe Storms of the Extension Editorial Room of the A. & M. College, and he promised to furnish us a story of the Haines speech. This story did not reach our office until Saturday, but it is so much better and fuller than the account we published last Friday that we gladly give space for it.

(By Joe Storms)  
Lynn county farmers at the school house here last week found out some things about the tariff, freight rates and taxation, and have begun to organize themselves in an effort to do something about it.

Speaking under auspices of the County Agricultural Association, Paul G. Haines, farm organization specialist of the Texas A. & M. College Extension Service, branded the tariff a racket, "The No. 1 racket of America", and showed how it operates to beat the farmer out of half of what he produces.

Haines recognized what he called the "splendid work of the Extension Service in the past" and said that it must branch out farther into the field of distribution and markets before it will be able to get the real job done.

He said he didn't feel right that farmers have had to enter a control program while the world is at war for the products being dammed up behind the tariff wall, but granted that AAA "is as necessary as our next meal."

Observing that this section pays an unjust freight rate differential of 75 percent, he concluded that an equitable adjustment of rates would be worth more to Lynn county farmers than the farm program benefit payments.

Haines said that the popular belief about the tariff protecting the standards of living of American workers is false. He shows that the 39 most highly-protected industries pay their workers from \$400 to \$600 less wages annually than 39 industries on the free list.

He also charged the tariff with loss of foreign markets for American farm products.

"Europe is at war for the products which we have piled up as surpluses over here", he asserted. "We can't trade with them because the tariff makes it necessary for us to hand over half of our goods when we get back to Galveston. The world can't go on this way in peace. Either we are going to feed Europe as we used to or we are going to fight them."

Haines said that the Constitution of Texas provides that all property should be assessed and taxed in a fair and equitable manner, yet 49 percent of the property—notes, mortgages, liens, and securities—are not even on the tax rolls. He favored a law making null and void all securities not on the tax rolls in 30 days. He figured that would make it necessary to put a guard

### Mahon Works On AAA Check Problem

Washington, May 17. — Congressman George Mahon announced this week that he had conferred with Comptroller General Brown and officials of the Department of agriculture and the Commodity Credit Corporation in Washington regarding the issuance of 1938 AAA compliance checks to producers who, it is claimed, are indebted to the Commodity Credit Corporation by reason of the fact that cotton placed in the loan during the 1937 season was allegedly overgraded. The cotton in question was stored in certain warehouses at Jayton, Haskell, Lorenzo, Snyder, O'Donnell, and Hamlin. Mahon stated that, in cases where the Commodity Credit Corporation was demanding a set-off because of alleged overgrading of cotton, considerable delay had occurred in College Station and that it had been held that these cases had to come to Washington for an additional audit before final payment. Hundreds of producers throughout many West Texas counties are affected by this action.

"However, it now appears," Mahon said, "under procedure worked out this week, that when these cases are cleared at College Station and referred to Washington final approval of payments can be secured very promptly here. Last fall producers and I myself were assured by the Commodity Credit Corporation that where farmers signed set-off agreements or paid alleged deficits in cash there would be no delay in the issuance of checks for compliance with the 1938 AAA program. Chairman of the Farmers Committee Joe Rose of Dickens, Secretary of the Committee, Judge Marshall Formby of Dickens, and hundreds of farmers have joined me in demanding that this promise be kept. Moreover, we are expecting every effort to cooperate in securing more prompt delivery of all the other AAA checks which are still outstanding in many localities."

### Four Attending Baptist Meeting

Rev. and Mrs. George A. Dale, Mrs. P. W. Goad and Miss Mary Se-rover left Monday morning to attend the Southern Baptist Convention which is in session in Oklahoma City this week. This convention is made up of messengers from all the Southern States from Virginia to Arizona, including Southern Illinois, and is usually attended by 5,000 to 7,000 or 8,000 people.

Texas was represented at the April 13 and 14 conference of rural and urban women at Washington, D. C., by Mrs. W. G. Kennedy, home demonstration club woman of Muleshoe, Bailey county.

around the tax assessor to keep him from being trampled to death by the holders of securities rushing down to get them on the rolls.

### Corn Suitable For Deep Sand

Farmers in the western part of Dawson and in Terry and Gaines Counties where the soils are of a deep sandy nature have been depending largely on corn when there was too much soil movement to permit them to get a stand of cotton or hegarl. These two crops have a weak germination and if a slight accumulation occurs in the seed beds it is necessary to replant in order to get a stand.

In order to solve this problem many resort to planting corn which will come up to a fair stand even though it may get covered inches deep. Corn has proven very unsatisfactory in this area for several reasons. It will not withstand drought, conserve soil and is usually damaged by insects. These causes usually cause a short crop or a complete failure and leaves the soil unprotected for the windy season.

According to Firestone of the Soil Conservation Service, black hull kaffir has a strong germination and can be covered deep, but is different in every respect. It is the best drought resisting plant grown in this section, offers good protection to the soil and usually yields higher than other crops. Like all other varieties of sorghum, it is susceptible to smut, but this can be prevented by treating the seed with Capper Carb which costs less than one cent per acre.

This crop is seldom damaged by insects and can be harvested by a combine, binder or hand headed. It will stand longer than other sorghum crops and can be harvested at a convenient time in the fall if grain only is to be saved, but should be cut in the dough stage if the foliage is to be used. When cut with a binder stubble should be left to protect the soil against wind erosion.

### 339 In Senior Class At Tech

Lubbock, May 18. — Candidates for spring graduation at Texas Technological College totals 339. Registrar W. P. Clement announces. The Rev. L. N. Lipscomb of Lubbock will deliver the baccalaureate sermon May 28, and President T. O. Walton of Texas A. & M. college the commencement address May 29. Degrees were conferred on 325 graduates at spring commencement last year.

The class gift will be presented to the college and dedicated during commencement week, according to Joe Alford, senior class president. Eight electric lights, on tan granite stands 11 feet high, costing approximately \$750 will be placed in the circle in front of the Administration building, as the class' parting gift.

Included in end-of-school activities are the president's reception May 26, senior day, and the alumni and ex-students banquet May 27.

### Trailer Vacationists Warned Of Danger

Austin, May 18.—Added Highway hazards created by the spring rush of Trailer vacations today became the target of State Traffic Police.

Colonel Homer Garrison, Jr., State Police Director, said the annual spring migration of tourists, campers, boaters and fishermen with heavily-loaded trailers are a greater problem this season than in previous years, and warned that trailers should be properly lighted at night and be towed in such a manner as not to endanger other traffic by weaving from side to side.

He urged drivers of trailer cars to lower their speeds enough to have control over their mobile equipment.

"We don't want trailer travelers to spend their vacations in hospitals," he said.

A Mr. Wagner, an elderly gentleman residing between T-Bar and O'Donnell, was adjudged insane by a jury in the county court Thursday morning. At times, it is said, he becomes violent. He is being taken to the State Hospital in Wichita Falls for safe-keeping.

### Chickens - Turkeys

Keep them Healthy—Give Star Sulphurous Compound in their drinking water or feed. It will kill germs contained in things they eat—preventing diseases practically all caused by intestinal germs and worms.

Also keeps them free of blood-sucking lice, mites, fleas and blue bugs; system toned; appetite, health and egg production good — Costs very little—Money back if not satisfied.—Wynne Collier, Druggist.

### Tech Experiments In Vegetable Oils

Lubbock, Tex., May 18.—Seeds for vegetable oils, safflower, Perilla, Chia, and castor beans are being planted by the Texas Technological College plant industry department in experimental plots, to determine if they may be grown on the South Plains. Lintless cottonseed is also being tested.

Two pounds of Perilla, a seed from Japan, and two pounds of Chia from Mexico were received recently from a paint and varnish group, said Dr. A. W. Young, department head. Oil from these seeds is used in manufacture of paints, varnish, and lacquer.

Forty-five selections of castor beans will be planted, using both dry and irrigated lands, to permit a wide variety of tests for both types of farming. Castor bean oil is now being substituted for tung oil, Young explained.

Seven varieties of safflower are also being tested. The plant has the appearance of a thistle and its oil is widely used in paints. Last year the college tried out safflower with a few seeds; the present planting will yield a good test.

The income of one out of every five persons in the United States is affected directly by consumption and price of cotton. National Cotton Week is a step toward answering the consumption problem.

### Don't Sleep When Gas Presses Heart

If you can't eat or sleep because gas bloats you up try Adlerika. One dose usually relieves stomach gas pressing on heart. Adlerika cleans out BOTH upper and lower bowels.

### Lay Water Line To Compress Site

Arch Underwood, cotton compress owner, was here Monday inspecting work at the site of the new Tahoka compress. Grounds have been leveled, siding built, and machinery placed on the grounds.

At a meeting with the City Council, Mr. Underwood was given authority to lay 1500 feet of 6-inch water pipe to connect with the city mains. He will bear the expense of

laying the pipe and will be allowed credit thereon by the city on his compress water bills.

**DR. THOMAS H. TAYLOR IS CLASS SPEAKER**

(Cont'd. from page 1)  
Tahoka Rotary Club will present. The medallion will be presented some citizen, who will be announced at the P. day night program, for distinguished service to the schools this year.

Medals will be presented the highest ranking member in each class, Freshman, Sophomore, Junior, and Senior, in scholarship, to the best all-round girl and boy citizens in high school, the salutatorian, and to the valedictorian.

The past week has been filled with a round of school closing exercises.

Last Friday night, music pupils of Mmes. M. H. Edwards and J. K. Applewhite were presented in recital.

Saturday night, the annual Junior-Senior banquet was held in the gymnasium.

Sunday night the commencement sermon was delivered in the High School auditorium before a packed house by Rev. Geo. E. Turrentine, pastor of the Methodist Church.

Monday night, Miss Valerie Wells, piano student of Mrs. M. H. Edwards, and Miss Greta Joyce Applewhite, violin student of Miss Beulah Dunn of Lubbock, were presented in recital.

Seventh grade exercises are being held as The News goes to press Thursday night. District Attorney Truett Smith is scheduled to deliver the address. Joann Edwards is valedictorian and Peggy Fenton is salutatorian.

The forty members of the high school graduating class are:

Boys: Lester Adams, J. G. Adams, James Bearden, Dick Bosworth, R. L. Bosworth, Wayne Coffee, Finis Connolly, J. H. Dyer, T. W. Hale, Allen Luallin, Felix Macha, Frank McGlaun, Odean Millman, Reid Parker, Buster Pitts, James Price, D. F. Reddell, Herman Reid, Robert Sanders, Travis Shelton, Bryan Wright.

Girls: Allene Bartley, Doyce Chapman, June Fender, Martha Fleming, Genell Eyrtenberry, Grace Greathouse, Alice Holcomb, Laura

Jane Milken, Jennie Reba Nevill, Pauline Owens, Eloise Roberts, Sarah Lou Rumbo, Avis Shelton, Rosalie Thompson, Baby Tot Wetsel, Allene Williams, Claudine Williams, Clariece Lackey, Billie Swafford.

Grade school graduates are: Eual Akin, Leroy Akin, Edward Bartley, Cecil Bostick, Elbert Boulion, Bob Bosworth, Cecil Curry, Dannie Sue Eaton, Darrell Burkhalter, Gwendolyn Adams, Matie Ruth Alexander, Lillie Mae Clinton, Joann Edwards, Peggy Fenton, Gracie Crouch, Myrna Dean Galinat, Bobbie Star Grayson, Jean Hill, Beatrice Grubbs, Georgia Grubbs, Miriam Turrentine, Joan Boydston, A. G. Deason, Aaron Alexander, Robert Harvick, W. C. Harvick, L. C. Holt, Raymond Knight, Leland Mitchell, Charles Reid, James Roberts, Noble Rumbo, Tommy Sparks, Sammy Tefteller, Horace West, E. L. Short, Elmer Dillard, Dale Horgan, Sarah Jane Jones, Sylvia Jenkins, Mona Raye Lewis, Lena Evelyn Morgan, Bessie Lee Munn, Joan Owens, Lois Parker, Layoyle Richardson, Verna Lois Roland, Evelyn Ruth Sanders, Fay Shadden, Jean Slover, Alline Warren, Imogene Williams, Jewell Young, Wanda Cruce, Louise Young, Duane Reeves, Yvonne Kyle, Elsie Lanier, Lois Sproles.

W. O. Henderson reports that his wife's health improved greatly during their stay in Austin. He came back feeling better also, having lost some of his surplus flesh. He admitted, however, that he got sick nearly every time he visited the legislature, and after hearing him talk awhile we verily believe that he would have lost his health completely if he had been compelled to visit that body every day.

Mrs. R. E. Shewmake, who resides in East Tahoka, was reported Wednesday to be seriously ill of pneumonia.

Mr. and Mrs. Roy Young and baby visited relatives in Jones county the first of the week, returning home Monday. Roy says it certainly did rain heavily in that section of the West.
