Number 41

Paving Project In Tahoka Is Given WPA Approval

Bond Issue Probably Necessary To Qualify For Government Aid On Street Project

Mayor Deen Nowlin received a telegram Saturday from Senator Tom Connolly advising that Tahoka's application for funds for street paving had been approved, and press reports Monday were to the same effect. The Lubbock Avalanche contained the following news story.

"The WPA has announced approval of an allocation of \$32,904 for street improvements in Tahoka. The announcement, reported over the Associated Press from Washington, was made Monday morning by Texas members of Congress, who said they had been informed the President had approved the project."

Application for funds for this project was made by a Big Spring engineer through the Lubbock district WPA office some months ago. To procure the funds allocated, it will be necessary for the City of Tahoka and property owners to furnish almost an equal amount of funds.

Since the project will involve the sealing or re-surfacing of the pavement already done as well as the laying of additional pavement, Mayor Deen Nowlin thinks it will be necessary for the City to issue something like \$25,000 worth of bonds. Such a proposition will have to be submitted to a vote of the people and approved by them before the project can proceed. A portion of these bonds, however, will

(Cont'd. on back page)

Legion Memorial Services Sunday

A memorial service in honor of the Lynn county boys who lost their lives in the world war and their mothers will be held by the members of the Marion G. Bradley Post of the American Legion and the Legion Auxiliary at the Baptist Church here next Sunday, evening at 8:15 o'clock. Jess Eubanks of Lueders is expected to be the main speaker of the occasion.

Preceding the services at the Church the Legion will meet at the Legion Hall at 7 o'clock and will go from there to the cemetery, where they will decorate the graves of their dead comrades. Then they will re-assemble at the hall and go in a body to the Church.

The program at the Church will begin with the playing of The Star-Spangled Banner by the high school band. This will be followed by a song and a prayer by Rev. George Dale.

Post Commander W. E. Smith will preside throughout the service. Mrs. J. K. Applegate will be the pianist.

The Legionnaires will be seated alphabetically with vacant chairs placed for the honored dead, and the Roll Call is expected to be an impressive feature of the program. Helen Belle Pemberton will give a reading entitled "He is not dead; he is just away."

"The Beautiful Garden" will be sung, and Jack Swafford will give a reading, "The Bravest Battle."

The Gold Star Mothers will be recognized and honored, and another musical number, "Crossing the Bar", will precede the address to be delivered by Jess Eubanks.

Following this, there will be a song, "Evening Prayer", by Mary Hand Wells, accompanied by Mrs. J. K. Applegate. Then taps, and the benediction by Rev. George E. Turrentine, pastor of the Methodist Church.

Colored Boys Lose To Amarillo 5-4

The colored baseball club went to Amarillo last Sunday and was defeated by the Amarillo club, 5 to 4.

The boys will play the Plainview club on the Tahoka diamond at 3:30 next Sunday afternoon.

On the "Juneteenth", the colored boys are going to have a rodeo, says Aaron Sales. "Plenty of excitement! Come one, come all." is the invitation extended.

GOOD-WILLERS: Rep. Alvin Allison, right, and Rep. Cecil Rhodes, left, will leave June 15 as ambassadors of good will to Mexico to represent Gov. W. Lee O'Daniel, center, who declined an invitation of the Mexican government himself to visit Mexico this summer. Allison and Rhodes will leave Laredo by train and also will visit in Acapulco on the Mexican coast. The two Texas representatives have been invited to address the national Mexican congress.

County's Pioneers Preparing For Annual Reunion June 24

Special Edition O'Donnell Press

W. G. Forgy is to be congratulated on the special 24-page special Historical Edition of the O'Donnell Press which he issued last week. He was ably assisted in the compilation of facts and the writing of historical articles by members of O'Donnell residents, and particularly by Ben Moore.

The edition contains not only much valuable historical matter but also many photographs of personages, business buildings, churches, residences, and scenes, together with a number of sketches of business men and pioneer citizens.

It is an edition that does great credit to the town and to Lynn county. We doff our hats to Mr. Forgy and the enterprising citizens of O'Donnell upon the issuance of so valuable and interesting edition of the paper.

Delegates Attend Soil Meeting

Deen Nowlin, L. N. Hancock of New Home, H. T. Basinger of Southland, County Judge P. W. Goad and County Commissioners George Small, Tom Hale, Waldo McLaurin, and Sam Holland attended the District 1 soil-conservation meeting at Plainview Monday. Mr. Nowlin was the duly elected delegate to the meeting from Lynn county. Mr. Hancock and Mr. Basinger are members of the county committee from their respective local districts and as such were much interested in the action of the meeting at Plainview. As part of the organization machinery, the county judge and commissioners court are also interested in the program to be worked out, which accounts for their attendance also at the Plainview meeting.

At the Plainview meeting, W. G. Kennedy, a wheat and cotton farmer of Muleshoe, was elected to represent district 1 on the state committee of five members, which is to meet next Monday in Temple. The state is divided into five districts, district 1 comprising 51 counties in northwest Texas. The state committee is charged with the responsibility of putting the soil conservation program into operation in accordance with the recent law enacted by the legislature now in session.

Mr. Nowlin expressed the belief that something effective must be done to save the soil in Texas, and he hopes that the new law may prove to be very beneficial.

R. H. Turner suffered some sudden attack of illness early Sunday morning in the nature of a paralytic stroke and has been seriously ill ever since. His condition is thought to be slowly improving, however.

The Methodist Church at Ropes is preparing to build a parsonage.

Committees are already making plans for the meeting of the Lynn County Pioneers Association here on June 24.

It is hoped that many of the early pioneers of the county now living elsewhere will find it possible to be present at the meeting and that some of them may accept places on the program.

A barbecue will be served and a glorious good time is again anticipated.

All funds collected or donated to pay the expenses of the occasion should be turned in to Truett Smith, the treasurer, or deposited in the First National Bank at least five days before the association meets. We are requested to state.

Committees appointed to make the affair a success are as follows: Finance Committee: J. W. Elliott, A. L. Lockwood, and George Small of Tahoka, Waldo McLaurin of O'Donnell, W. H. May of Wilson, S. L. Williams of Lakeview, J. N. LeMond of Draw, W. B. Edwards of Three Lakes, Terry Noble of West Point, and R. L. Littlepage of Midway.

Barbecue Committee: Claude Wells, Terry Noble, Rudy Neiman; Purchasing committee: George Small, A. L. Lockwood, Terry Noble; Pit wood, water, and grounds: Chester Connolly and J. D. Donaldson;

Entertainment: W. E. (Happy) Smith, Miss O'Berger Forrester, Mrs. Nettie Edwards, Miss Clara May, Mrs. Era Stewart;

Registrars: Mrs. Frankie Fenton, Mrs. Pearl Price.

Plains Visited By Heat Wave

We had some hot, sizzling weather the first of the week, but the temperatures did not register nearly so high here as is reported from some South Plains and other Northwest Texas points.

On Sunday, the mercury here rose to 99, the hottest day of the year thus far. On Monday it registered 98 and on Tuesday 94. Some points near-by reported away over 100, Lubbock claimed 108.

The News keeps a U. S. Bureau thermometer mounted in housing prepared by the Bureau for it, and it is doubtless very nearly accurate. Reports coming from privately-owned thermometers are frequently inaccurate and misleading.

Buffalo Lake Will Open Next Sunday

The Plains country is soon to have another beauty spot, Buffalo Lake, created by the damming of Tierra Blanca creek in Randall county a few miles southwest of Canyon, will be opened Sunday.

This dam was built as a government project. It will impound quite a large lake of water, which in the course of time will be surrounded with trees and made into a beautiful park.

Many Students Are Honored At School's Closing Exercises

Baby Killed In Fall From Bed

The little babe of Mr. and Mrs. C. W. Roberts of Grassland, five months and 24 days old, fell off a bed in the Roberts home Saturday morning, resulting in almost instant death.

Mr. Roberts operates a filling station at Grassland and Mrs. Roberts left the residence and went to the station for a few minutes, and when she returned she was struck with horror and consternation to find the little one lying on the floor dead.

The parents could hardly believe, however, that the infant was really dead and a Post physician was summoned. They met him with the body on the highway, and upon examination he found that the child was lifeless. It was doubtless killed almost instantly.

Funeral services were conducted at 2 o'clock Sunday afternoon in the Methodist Church at Grassland, Rev. John Ferguson and Rev. D. W. Reed officiating. The remains were laid to rest in the Grassland cemetery.

Surviving are the parents and two little sisters of the deceased. The broken-hearted family have the deepest sympathy of a great circle of friends.

Twelve Graduate At New Home

Twelve seniors of the New Home High School received diplomas in the commencement exercises held Tuesday night of last week. The program was put on by the students themselves.

Jennie Mae McClure was honored as valedictorian, having made the highest grade of any member of the class, and Roy D. Randolph, second highest, was salutatorian.

Members of the class are: Jennie Mae McClure, Roy D. Randolph, Gertrude Bulman, Wallace Gannaway, Ruth Anderson, Clyde Ashcraft, Gertrude Pinkert, J. D. Prather, Leta Turner, John Timmons Jr., Buddie Smith, and Curtis Bates.

Mr. Waymon Smith presented the diplomas.

The seventh grade exercises were held last Thursday night.

Winona Izard was valedictorian and Joyce Huff was salutatorian. Thirty-five students graduated. The students put on the program.

Students Visit Carlsbad Cavern

The Seniors of the New Home High School together with a number of the teachers and others went to Carlsbad, New Mexico, last Friday to see the cavern. The seniors had put on a play to cover the expenses of the trip.

Those going on the trip were: Mrs. L. M. Mears, Mrs. S. C. Ashcraft, Mrs. J. B. Anderson, Mr. J. T. Carter, Mr. William Hall, Mr. and Mrs. Clyde Ashcraft, Mr. Billy Hill, Ruth Anderson, Daphne Mears, Gertrude Pinkert, Jennie Mae McClure, Gertrude Bulman, Leta Turner, Miss Ruth Poff, the senior sponsor, J. D. Prather, Roy D. Randolph, Curtis Bates, John Timmons, Wallace Gannaway, Bernhard Ernst, Harold Burkhalter, Hubert Newman, L. H. Moore, W. A. Fulford, Mr. and Mrs. Claude Mears and son.

H. B. McCord Buys Station Building

Bascomb McCord closed a deal last Saturday for the building in which the Phillips Service Station is situated. The consideration was \$7,500.

This is very valuable property. Situated at the intersection of U. S. highways 380 and 87, it is one of the best locations in town.

More State Aid Received Here

Mrs. Lenore M. Tunnell, county superintendent, reports that she received an additional apportionment of public school funds from the State Monday morning amounting to \$3,336.

This represents the thirteenth and fourteenth dollars of the State's apportionment of \$22 per pupil.

Lightning Plays Freakish Tricks

During the thunder shower here Wednesday afternoon, lightning struck in several places and scared a lot of people out of their wits but did little real damage.

Mrs. Eden, however, who with her husband operates a laundry in the rear of Craft's Tailor Shop, was knocked down and considerably shocked by a bolt that came into the building over a wire.

An electric light post near the Tahoka Metal Works was struck and splintered up. L. G. Wilson, a Blacksmith in McKaughan's shop, says that a bolt struck his forge and knocked fire everywhere and literally bounced him off the ground. In numerous business houses lightning flashes seemed to play over the wires or the ceiling through the air. All this was attended by a series of crashing sounds coming in quick succession as if a number of separate bolts followed one another in a moment's time.

The rainfall in Tahoka amounted to .68 of an inch. Wilson is reported to have gotten about an inch, and other localities received good rains.

Farmers Busy Planting Crops

All the farmers are in the fields this week planting.

Much of the cotton which had been planted before the rains last week is being planted over. Some of it had not come up to a good stand and was having a hard time breaking through the thick crust that had formed on the surface. Some of it had come up and was looking pretty, but the weeds had come with it, and many farmers figured that it was better to plant over than to attempt to clean out the crop that was up.

One tractor drawing a four-row have been busy. And it seems that nearly every farmer has a tractor now.

One tractor drawing a four-row planter, running day and night, as most of them do, can plant from a hundred to a hundred and twenty acres a day.

Deen Nowlin took the editor out to one of his farms Tuesday where he had three tractors running, each planting four rows at a time. He had two shifts of drivers, one for

(Cont'd. on back page)

Rev. Hardy Conducts Cornerstone Service

Rev. Ben Hardy conducted a cornerstone service for the Methodist Church at Seminole last Sunday afternoon in the presence of a large congregation. He also preached at the morning and the evening services there. He was accompanied by Mrs. Hardy, and they spent Sunday night with the Methodist pastor and his wife. Brother Hardy says that when they got ready to leave Monday morning, his host placed a big fine ham in their car.

Brother Hardy says that the church building was completed some time ago but the cornerstone had never been placed. It is a rock veneer building and Brother Hardy says it is one of the most attractive little churches he ever saw. It was erected at a cost of about \$8,000.

Dr. Tom Taylor Is Speaker At Final School Program

Rotary Club Presents Awards To Outstanding Citizen And To Leading Students

The 1938-1939 term of Tahoka schools came to a close last Friday night when the forty members of the Senior class conducted their final program and received their diplomas.

The class consisted of 21 boys and 19 girls. Dick Bosworth was the valedictorian and June Fender the salutatorian. The class rendered a number of musical selections. Dr. Thomas H. Taylor, president of Howard Payne College, Brownwood, made the class address, and it is said to have been an unusually fine one.

The diplomas were delivered to the members of the class by Frank P. Hill, president of the school board.

A number of scholarships given by various colleges and a number of awards given by the Tahoka Rotary Club were presented by Superintendent W. T. Hanes.

Mrs. J. K. Applegate was awarded the Rotary Medallion for the most distinguished service rendered the schools by a citizen.

Scholarship awards and Rotary medals were awarded to the following students: Dick Bosworth, valedictorian; June Fender, salutatorian; Lenore Anglin, as the best all-round girl; Max Minor, as the best all-round boy; Ida Botkin, the best sophomore student; and Eleanor Dudgeon, the best freshman student.

The seventh grade closing exercises were held on the preceding night, when 59 pupils were promoted to the high school. Principal Lee Dodson delivered to them their diplomas, and the Class address was made by District Attorney Truett Smith, which was pronounced very good. The entire program was excellent.

On this evening, about one hundred awards of various kinds were made to pupils of the Tahoka schools for outstanding work of one kind or another.

The 1938-1939 session of the Tahoka schools has been a very successful one. Probably more real progress has been made this school year than during any preceding one.

Coach Elected By School Board

Leo Jackson, coach at Flomot, Motley county, was elected Tahoka high school head coach Monday night at a meeting of the school board. His election came after the board had spent more than a month interviewing and considering applicants.

Flomot is a consolidated high school, at which Jackson has been coach and high school principal two years. The first year Flomot went to the regional playoff in football, and last year was defeated by Spur for the district championship. Jackson has also had success as a basketball coach. He is a graduate of West Texas State Teachers College, where he was a stellar athlete. He is a married man.

Miss O'Berger Forrester was re-elected to teach private expression lessons in the schools.

A. H. Baborn Buys Geo. Hogan Home

A. H. Baborn, who has the Chevrolet agency and business here, has purchased the home of George Hogan Jr. He and Mrs. Baborn are now having the house redecorated inside and will move into it within a few days.

George and family expect to remain here temporarily.

SOCIETY

(Club and Church News)

NEW HOME COUPLE ARE MARRIED

The marriage of Miss Doris Shadden and Clyde Ashcraft, which took place last Thursday evening at 7 o'clock at the Baptist parsonage at New Home, was attended by Miss Ruth Landell Shadden, sister of the bride, and Mrs. E. R. Blakley. Rev. E. J. Cobb officiated.

Miss Shadden was elected as the most popular girl in the high school last year.

Following their trip to the Carlsbad Cavern, they are making their home at New Home.

Miss Beatrice Estes, daughter of Mrs. A. J. Kaddatz, who recently graduated at a business college in Lubbock, is now employed by the Retail Merchants Association of that city. Mrs. Kaddatz says that her daughter is just delighted with the work.

Headache, Bad Breath Tell of More to Come

Just as Paul Revere's famous ride warned of the Redcoats' coming, so Nature's messengers—headaches, biliousness, bad breath—often warn of faulty elimination.

Neglecting these signs may cause a host of constipation's discomforts: sour stomach, belching; no appetite or energy; mental dullness.

It's so easy to wake up your lazy insides. Just take spicy, all vegetable BLACK-DRAUGHT. Its unusual help comes from its principal ingredient—an intestinal tonic-laxative which imparts tone to lazy bowel muscles.

Millions of packages used testify to BLACK-DRAUGHT'S merit. Try it.

CHURCH OF CHRIST NOTES

"The Whole Duty of Man" will be the subject of the sermon this coming Lord's Day morning.

There is too little fear of God in the world today, and consequently a wholesale disregard for Divine Law is characteristic of too many people. True, the first and greatest motive for obedience should be love to Him who first loved us; and surely the Savior said, "If ye love me ye will keep my commandments." Then it is also true that if we love God we are going to fear His displeasure at our indifference. His wrath at our disobedience. I believe that when fear of God is entirely absent from the heart of a man that strict adherence, on his part, to the law of God can hardly be expected. I believe that Christians would not engage in the sinful, nor even the questionable things that many of them partake of, if they had the proper amount of Godly fear in their spiritual make-up.

"Amusements, Good and Bad," will be the subject for discussion at the training class for young people which meets at 7 o'clock Sunday evening. An effort will be made to help young people in solving problems of amusements. We should ever be alert to assist them in equipping themselves with the ability to choose between wholesome entertainment and questionable amusements; we should be ever busy in placing before them the proper influences, and removing the obstacles to Christian living that the world carelessly and many times intentionally places in their pathway.

If the Lord wills, I shall preach at Midway Sunday afternoon at 3 o'clock.—J. Luryl Nisbett.

Mrs. G. W. Douthit is sick of pneumonia. Last reports were that she was doing as well as could be expected.

DRAW 4-H CLUB

"Trap hens" nests may be used if one wishes to keep an accurate laying record of the hens," stated Miss Maurine McNatt, home agent, at the regular meeting of the Draw 4-H club, May 22, at 2:30 o'clock in the home of Sylvia Busby.

An accurate laying record of each hen can be kept by the use of a leg band with a number. When the hen is trapped on the nest it is easy to know how many eggs each hen lays. A check could be made at the beginning of the laying period and again at the end and an average season estimate made from these readings.

The next meeting will be in the home of Jo Williams, Wednesday, June 21, at 2:30 p. m.

George and Winter Knight went out to Ruidoso, New Mexico, Saturday to spend the week end with their wives and the kiddies. They returned to Tahoka Monday. Geo. says that Judge and Mrs. G. E. Lockhart of Lubbock had also been out there a few days but returned home Sunday. The Judge and the boys went exploring among the white sand hills Saturday and got stuck in the sand going down a steep hill. They had to walk six miles to get a truck to pull them out. Lots of pleasure seekers are now flocking into Ruidoso, George says, and his and Winter's folks are having a great time.

Mrs. J. H. Coltenback returned to her home here Sunday after having visited her daughter, Mrs. Grissom, near Lamesa following a longer visit with relatives at Mullins and other places. Mrs. Coltenback says that Mrs. Grissom's limb, which was broken several months ago and which has given her much trouble since, is now improving satisfactorily.

Miss Marietta Montgomery, who taught in the Brownfield high school the past year, returned to the home of her parents, Mr. and Mrs. Will Montgomery, here Saturday. Miss Lois, who has been attending the Texas Tech, came home Wednesday, and Miss Grace, who has been teaching at Sylvester, will be home Saturday.

Texas Businesses Increase Employees

Austin, Texas, May 26—Some 3,000 Texas business establishments during April increased their number of employees 1.1 per cent with a gain of 0.2 per cent in aggregate pay rolls, the University of Texas Bureau of Business Research reported today.

Manufacturing concerns employed more than other types of business showing a gain of 1.5 per cent over March, but reporting a drop in pay rolls of 0.8 per cent.

In comparison with April, 1931, total employment was up 0.8 per cent, while manufacturing workers gained 1.5 per cent in number. Pay rolls slumped 2.2 per cent from April last year, and manufacturing pay rolls dropped 3.6 per cent.

Miss Kate Rosser received a severe shock from lightning as she sat on a steel couch in the telephone office at Post during an electrical storm Tuesday of last week. She received medical attention immediately, after which she was put to bed for a few days of complete rest. She was improving Thursday, according to the Post Dispatch.

Tom Garrard says he put in the whole day Monday at hard labor on the farm. After it was all over he found out that Monday had been an unusually warm day. If he had known it in time he probably would have puffed and sweated much more than he did. Tom claims he enjoyed the work but we notice he never puts in many days at such labor in succession.

Work on the Payne-Shotwell Hospital in Littlefield was begun last week.

They Learn from Southern Women

Touring Reporters, now conducting a Query among women of the South and West, report remarkable agreement as to the benefits secured by users of CARDUI.

Of the 1297 users who were asked: "Were you helped by CARDUI?" 1206—or 93 out of every 100—answered "Yes."

The word of users everywhere is given to show how CARDUI helps to improve appetite and digestion, and thus build up physical resistance. In this way it also works to relieve the headaches, nervousness, depression, that attend functional dysmenorrhea due to malnutrition. Have you tried CARDUI?

First Aid School Draws Interest

Considerable interest is being shown in the First Aid school to be conducted here soon under the auspices of the Boy Scout organization, according to Scoutmaster W. A. Reddell and others.

Mr. Reddell thinks that this is a rare opportunity not only for the boy scouts and the cubs but for the adult population of Tahoka as well to get some very valuable information.

Dr. J. W. Sinclair, who has been appointed instructor for the American Red Cross, will give the instruction and it will be absolutely free of charge.

Most of us never know what to do in case of a serious accident, and we frequently do the very thing that we ought not to do, Mr. Reddell says. The purpose of this two weeks course is to give the people instruction regarding these matters, so that whenever an accident of any kind occurs, they may be able to act intelligently. What information, he asks, could be more important to you in case of an emergency?

Beginning at 7:45 Monday evening, June 5, at the Boy Scout hall situated in the old Central Ward school building, lessons of 45-minute duration will be given from Monday night till Friday night inclusive for two weeks, ending Friday night, June 17.

Mr. Reddell says that the adult people of Tahoka are not only invited to attend these lectures; they

Chickens - Turkeys

Keep them Healthy—Give Star Sulphurous Compound in their drinking water or feed. It will kill germs contained in things they eat—preventing diseases practically all caused by intestinal germs and worms.

Also keeps them free of blood-sucking lice, mites, fleas and blue bugs; system toned; appetite, health and egg production good—Costs very little—Money back if not satisfied.—Wynne Collier, Druggist.

are urged to attend, for their own benefit.

Boy Scouts who take the course and pass the examination at the close will be given all the first-aid credits that can be awarded boy scouts for such work.

NOTICE TO MEMBERS OF LYNTGAR ELECTRIC COOPERATIVE, INC.

We wish to advise all members of the Lyntgar Electric Cooperative, Inc. who wish to borrow money from the Cooperative to wire their houses or to install plumbing and fixtures that the necessary papers

are available at the office of the Cooperative in Tahoka, Texas.

It will be necessary for these members to secure these papers from the office in Tahoka or through their electrical or plumbing contractor. We recommend that this be done at your earliest convenience so that you will be ready to use the electricity when it is available which will be in the very near future. 41-11c.

Mr. and Mrs. W. G. Lyons of Galveston are here this week visiting Mrs. Lenore M. Tunnell. Mr. Lyons is Mrs. Tunnell's uncle.

VACATION TIME

Vacation time is here again. Hooray! 'Tis a pleasant time to hear and say

We now can put our books away, And all go dashing out to play.

No longer will we have to do A single thing they ask us to; No longer will we have to cram To pass that math or history exam.

We've stuffed our heads so full of knowledge,

Until we're almost in a swoon, And if it doesn't stop real soon We'll all go crazy as a loon.

But, oh! it hasn't been so bad When we think of all the fun we've had, 'Twill make us all feel awfully sad To see the end—instead of glad.

And at this time we sophs of 38 and 39.

Would like to say in one brief line, We thank each one for all they've done

To help us in the race of life that we must run.

We'll be back in three months short And as Juniors for the start.

We'll attain to do our part, Till then, "Happy Vacation" and adieu

To all of you.

When I die bury me deep, Put my English at my feet, Put my history at my side

And tell Mrs. Assiter why I died. Put my algebra on my head

And tell Mr. Dodson I'm glad I'm dead, Put my Home Ec. on my chest

And tell Mrs. Hegl I did my best. Please! Please! Do not cry,

For I met my death at Tahoka High.

"Grandpa" Hajle has been ailing several days, and became so sick the first of the week that he was taken out to the home of a daughter near Draw.

Tahoka Teachers Off For Summer

The teachers of the Tahoka schools will engage in various activities through the summer months.

Superintendent W. T. Hanes and family will remain here most of the summer, but he will spend a part of his vacation either attending a Visual Education Conference to be held in Chicago in June or attending an Educational Conference in California.

Principal Lee Dodson will leave this week end for Detroit and will bring back with him a new car, following which he will enter the summer session of the West Texas State Teachers College at Canyon where he will do work on his Master's degree. He will be here a part of the summer.

Mrs. Assiter and Miss Collier have been considering attending the Colorado State University at Boulder but had not definitely made up their minds a day or two ago.

Mr. Felts, the band director, will attend the Tech summer school in the morning, and teach the Band here in the afternoon, beginning June 5.

Leslie Browning, teacher of agriculture, will remain here through the summer but will take a three-weeks course in the Tech.

We understand that John Kirkwood will attend school during a part of the summer.

Mrs. Craft will probably attend the summer term of Hardin-Simmons University in Abilene.

Mr. Leo Jackson, the newly-elected coach, will spend the summer here.

We have no information as to the plans of other teachers, but a number of them who reside here will probably spend the summer here, while some who reside elsewhere will probably spend the summer at home.

Mrs. A. C. Rylander of Corpus Christi, Mrs. A. C. Scott of Abilene, and Mrs. Agnes Stone visited Mr. and Mrs. L. C. Haney from Tuesday until Thursday of this week.

Wells Citizen Dies Here

William Jefferson Wagner, 76, a citizen of the Wells community since January, 1926, died here at about 3 o'clock Thursday morning.

Due to disease and the infirmities of age, deceased was being kept here temporarily until a place could be found for him in a state hospital.

Death was attributed to general debility. It had been necessary for a physician to feed him through the nose for several days preceding his death.

Funeral services were conducted in the Methodist Church in O'Donnell Thursday afternoon, Rev. J. H. Crawford, the pastor, officiating. Burial was made in the O'Donnell cemetery under the direction of the Harris Funeral Home of this city.

Mr. Wagner was born in Kentucky on September 18, 1862. He united with the Methodist Church early in life. He was married to Mrs. Maxie McMakin Lyon at Canton, Van Zandt county, Texas, on December 20, 1913. He leaves surviving him the widow and three step-children: F. M. Lyon, who resides in California, Miss Retta Payne Lyon of the family home, and Mrs. Eloise McKenzie of the Wells community.

The bereaved family have the sympathy of numerous friends.

Two Are Arrested For Cow Theft

Two O'Donnell Men were arrested and placed in jail here Monday on charges of cow theft. The two accused men, Mose Cox, and Luther Prazier, are alleged to have stolen two cows about a month ago from Marvin Herman, who resides in this county a few miles east of O'Donnell.

The charges will be investigated by the next grand jury. Prazier was sent to the penitentiary from this county for cow theft last year. Sheriff B. L. Parker states.

Colored Boys To Stage Rodeo

The colored population of Tahoka are planning to have a two-days celebration here on June 18-19, consisting of a rodeo, baseball games and other amusements.

So far as we know, this will be the first rodeo staged in this part of the state by the Negro race. On the program are the usual rodeo features, such as riding wild broncs and Brahma cattle, bull-dogging, goat-roping, etc.

Following the rodeo, there will be baseball games each day. Scheduled to play are the Plainview Black Bears vs. Matador, the Tahoka Tigers vs. the Amarillo Panthers, Brownfield vs. Snyder, Post vs. Slaton, and Stanton vs. Spur.

Visitors are expected from many points in West Texas.

Aaron Sayles is listed as manager, Henry Hood as captain, and Fred Washington as secretary.

A number of white people have agreed to furnish stock to be used in the rodeo.

Mrs. A. D. McDonald and Mrs. Charles Curry spent the week-end visiting in Knox and Haskell counties. Mrs. McDonald visited her parents in Munday and Mrs. Curry visited relatives in Rule, Haskell and Stamford.

A big paving project in Seagraves will be completed by the first of June. More than thirty blocks have been finished already.

Mrs. L. A. Nance of Paris is here visiting Mr. and Mrs. J. B. Nance. She is their sister-in-law.

ELDER DRENNON'S NOTES

The chirping of the birds, the budding of the trees, and the blooming of the flowers remind us that spring is here. The heat of the last few days reminds us that summer is just around the corner. This will be followed by autumn and the gathering of our crops, then the howling winds of winter.

Thus the years roll around, which reminds me of the four periods of life. First, the childhood, from one to ten years. These are fateful years in life, yet few parents realize that the fundamentals are taught during these years that largely determine the life.

Then comes youth, from ten to twenty. What happens during these years? Responsibility shifts from parents to child. He must choose a life work, companions, and it is in this age that habits are formed and fixed that make or un-make him.

Then comes manhood with its trials and triumphs. Around 40, appetites are stronger, lusts harder to control. The idealism of youth is lost and dreams give way to stern realities. It is around 40 or 50 that we need to be on our guard, when we find the world false and things are not what they seem. Don't misunderstand me; I am not a pessimist but I'm stating a truth, and we need lots of faith in ourselves, in our fellowmen, and above all in God, if we make the grade and come off victorious in old age.

If we shoot the rapids around forty or fifty and come through without being embittered against men, without allowing passions and lusts to destroy us, if we have not grown discouraged, then we will have fairly smooth seas until we

pull up around the shores of sixty. Then several very definite things begin to happen. First of all, lines begin to tangle, memory grows dull (How well I know!) around this period, and the world begins to cast us off. This is true, speaking of the average; there are exceptions, of course. The average preacher has a hard battle if he holds after sixty.

If one can keep his balance and remain sweet during the age when the lines tangle and the world casts off, if he can be demoted graciously and sweetly and let others have his place, then the rest of his sailing will be over smooth waters, and people will love him for his grace, and his last hours will be like the glory of a summer sunset.

These are some musings I had in bed this morning. I hope they will be ready and meditated upon, if worthy. Life is a serious thing to us all.

Yours for more people who will love the almighty God more than the almighty dollar. Visit the friendly church and hear for yourselves—R. P. Drennon.

L. M. Nordyke of Midway says that he never had a prettier crop in his life. He has 150 acres of cotton and 300 acres of feed already up and knifed out. Some of the cotton he says, has five or six leaves. He would have had more of this early cotton but the neighbors accused him of being nutty and he was afraid the sheriff would come and get him. But Nordyke is one of our best farmers and nearly always makes a crop.

Mr. and Mrs. Vernon Davis are vacationing this week in San Antonio, Corpus Christi and other South Texas points.

THE FORGOTTEN MAN
A great hue and cry has been
raised by great statesmen, Republic-
ans, and cattle raisers because
President Roosevelt recently author-
ized the Navy to purchase a little
dab of canned beef from Argentina.
The President in justification has
stated that the Argentine product
is much better in quality and much
cheaper in price than the beef can-
ned by our own packeries. He ex-
plained that the Argentinians can
much of their best beef whereas our
packers use only the inferior
grades for canning. Hence, he con-
tended that in buying Argentine
beef he struck a great bargain for
the government.

His contention is unanswerable.
But if the Government is right in
buying where it can get the best
bargain, then the private citizen
should have the same privilege. Mr.
John Consumer, battling against
the high cost of living, should not be
hindered by Government-built tariff
walls from buying the meat for
his wife and seven children at the
best price obtainable.

A tariff on beef may help the
packers and the cattle raisers in
this country but it certainly is
tough on John and Mary who must
buy meat for themselves and their
kids. So a tariff on dry goods and
clothing may be fine for the
American manufacturers of these
articles but it is hard on all us
folks who have to buy britches and
aprons. And when a high protec-
tive tariff is placed on nearly every-
thing that the ordinary citizen has
to buy, it is no wonder that we are
tormented day and night with the
high cost of living.

And yet there seems to be no
probability of our getting rid of
this protective tariff system any
time soon. It has become strictly a

log-rolling, pork-barrel business.
You protect my "dogie" and I'll
help to protect your mills and
factories.

Yet these protective tariff walls
which bar from our shores the
goods produced by other countries
are making it impossible for these
other countries to buy our goods.
They have practically destroyed
our foreign markets for cotton.
They are ruining the Southern cot-
ton farmer, unless we intend to
continually increase his "benefit"
payments and to make this a
permanent governmental policy.

What we ought to do is to quit
clamoring for legislation for this,
that, and "tother particular class,
repeal all class-legislation laws, and
try legislating for a spell for the
benefit of the whole people. The
interests of the whole people are
superior to the interest of any par-
ticular class. When we are called
upon to legislate for the benefit of
some particular class of producers,
we should remember that there are
ten times or a thousand times as
many consumers of that particular
product as there are producers.
The consumer is the long lost "for-
gotten man" in this country.

A SPLIT WOULD BE HURTFUL
We have no desire to become a
participant in any way with the
controversy which disturbs the
Southern Baptist convention now
in session in Oklahoma City, nor
to become involved in any way with
any denominational squabble.

In the case of the Southern Bap-
tists, it is wholly a matter for them
to decide whether the Rev. J. Frank
Norris of Fort Worth can force a
split within their church.

However, we believe that South-
ern Baptists everywhere might do
well to ponder the wisdom of one
of the oldest of axioms, that "in
union there is strength." Especially
should this be borne in mind at a
time when the world is so in need
of strength within its Christian
churches; when there is such need
for examples of tolerance toward
one another and of the spirit of
give and take.

There appears no reasonable
justification for a division within
Southern Baptist ranks. Such a
misfortune would do far more harm
than the mere weakening of one
denomination. It would weaken the
entire Christian church structure
which is the cornerstone for the
finest civilization the world has
known.—Lubbock Avalanche.

The Avalanche need not worry.
Any Baptist minister who cooper-
ates with the great Southern Bap-
tist Convention, which includes
about 90 per cent of the Baptist
pastors of the South, could have
informed the Avalanche editor that
the antics of J. Frank Norris at
Oklahoma City are nothing new or
unusual. He has been pulling simi-
lar stunts at every convention since
he was kicked out several years
ago. Twenty years ago or more

Norris began a campaign of criti-
cism and abuse of Baptist leaders
in the South and led his church at
Fort Worth to withdraw coopera-
tion with the great organized body
and to withhold contributions at
every convention. Finally he made
himself so obnoxious and nauseat-
ing that the body kicked him out.
He has not been a member of the
convention since; neither has his
church cooperated in any way. On
the other hand, he has overlooked
no opportunity to knife it in the
back. He got just about as much
real results at the Oklahoma City
convention last week as he has been
getting heretofore, which is practi-
cally none. Frank Norris was seek-
ing exactly what the Avalanche
gave him and what we are giving
him now, publicity. He ought to
be thankful to both papers.

The Dies committee has been
adducing some so-called startling
evidence as to plots and counter
plots against our form of govern-
ment. One James E. Campbell and
one Dudley Gilbert seem to have
been plotting to bring about a dic-
tatorship similar to the dictatorships
in Germany and Italy. They claim
that their activities were merely to
counteract an expected Red revolu-
tion. They claimed to have knowl-
edge of a plot by communists to
overthrow the Government and
establish communism in this coun-
try. In our opinion, there is little
danger from either bunch of plot-
ters. They are made up mostly of
lop-sided, hair-brained visionaries
and radicals who could get nowhere
except in jail in any violent at-
tempt to overthrow this govern-
ment. There may be a sprinkling of
foreigners and a few radical natives
of this country who would not
hesitate to engage in such a move-
ment but they are in such a pitiful
minority that they would never get
to first base. Still, it is well for
law-abiding American citizens to
know what is going on under cover
in this country and the Dies com-
mittee is doing a good work. We
hope that it brings to light all the
ramifications of these plots.

Senator G. H. Nelson who has
been fighting the county judge's
bill, labeling it as a bondholders
steal, has been digging up other
interesting information. The fable
that there was \$10,000,000 surplus
in the Road District Indebtedness
fund was exploded and he declares
it will be 1950 before counties can
hope to secure any aid from this
fund. He has found the Board of
County and Road District Indebt-
edness has invested nearly \$2,000-
000 of county trust funds in county
highway bonds, with the greater
sum in Cameron and Hidalgo coun-
ty bonds which are mighty poor in-
vestments.—Big Spring Weekly
News.

Facts and figures are usually
very dull, but THE TEXAS WEEK-
LY recently published some which,
it seems to us, our statesmen should
take into consideration in shaping
our tariff laws and our policy re-
specting foreign commerce. The
WEEKLY carves out a territory
embracing all the countries of
Central Europe with an area of
874,574 square miles with a popula-
tion of 227,000,000, or 259 people to
the square mile. He compares this
with the most populous portion of
the United States embracing twenty-
two states east of the Mississippi
and three contiguous states west of
it, with an area of 874,898 square
miles and containing a population of
91,487,000 people, or 105 persons to
the square mile. The density of
population in the European terri-
tory, it will be noted, is two and a
half times as great as that in this
section of the United States. In a
portion of this European territory
embracing Germany proper, Czecho-
Slovakia, Austria, and Italy, there
are only 101,498,000 acres of arable
land, THE WEEKLY says, but the
population mounts to 128,000,000,
about three-quarters of an acre of
arable land for each person. The
point is that these teeming popula-
tions can not rely on agriculture as
the chief source of a livelihood.
They must rely on manufacturing
enterprises. When we erect tariff
walls against the importation of the
products of their factories, we make
it all but impossible for them to
buy the products of our farms.
Naturally they turn to other coun-
tries for their cotton and other
agricultural products. This is why
our foreign cotton markets have
been practically destroyed. These
high protective tariff walls should
be torn down. Why doesn't the
Democratic party do it?

King George and Queen Eliza-
beth of England had the pleasure
Monday of meeting five little
Canadian queens, the Dionne quin-
tuplets, at Toronto. The five little
ladies, now five years old, behaved
elegantly. Each curtsied and then
kissed both the king and queen.
The interview that followed lasted
nearly twenty minutes. Our guess is
that while the royal couple will not
regard this as the most important
meeting they had on their visit to
North America they will remember
it as the most pleasurable. "What
beautiful children!" was the queen's
comment.

J. W. Jaquess, who has been jan-
itor of the High School Building
ever since it was constructed about
twelve years ago, left Tuesday
morning for a thirty days visit with
relatives in Tennessee. He has an
uncle at Harriman in that state
whom he has not seen for 26 years,
he said before leaving.

Soil Conservation Program Explained

Responsibility for beginning and carrying out a coordinated program of soil and water conservation under the recently enacted State Soil Conservation Act is placed squarely upon the landowners themselves by the terms of the Act. This information went to Texas county agricultural and home demonstration agents in a letter prepared by C. Hohn, soil and water conservation specialist of the Texas A. and M. College Extension Service, and which contained a summarized explanation of the new act. The summary was drawn up by Paul Walsler, state coordinator of the U. S. Department of Agriculture's Soil Conservation Service, who is stationed at A. and M.; M. R. Bentley, Extension Service agricultural engineer, and Hohn.

First step in starting the program—the election of precinct committeemen and selection of county delegates to the district convention, has already been carried out as a result of the elections of May 15. These delegates met in the five district conventions on May 22 and elected the members of the state board.

These board members will meet at Temple on May 29 to set up the state organization. In addition to the five elected members, the board consists of five advisory members—Dr. T. O. Walton, president of Texas A. and M.; Clifford Jones, president of Texas Tech; Robt. Marine, state vocational agriculture director; J. E. McDonald, State commissioner of agriculture; and Walsler.

In its May 29 meeting, and subsequent sessions, the board will consider the location of its office, creation of soil conservation districts, assistance to the districts and coordination of the districts, assistance of federal and state plans to secure cooperation and agencies, and the dissemination of information.

Districts may not exceed 3,000 square miles in size—slightly less than the area of Reeves county or Tarrant, Parker, Hood, and Johnson counties combined—and the initial step in organizing a district comes in the form of a petition for election signed by any 50, or a majority of landowners within the proposed districts.

Following such petition, the state board will hold a public hearing within the proposed district, and, on the basis of the hearing, may call for an election. A two-thirds majority of the landowners voting is necessary to create a district. Districts may be enlarged by the same procedure.

When a district is created, two supervisors are appointed by the board to secure a state charter and to provide for the election of three district supervisors. All supervisors must be landowners within the district and must be actively engaged in agriculture.

Supervisors may engage district employees as needed, will keep records, carry out control measures on state lands and on other lands with the consent of the owner, enter into cooperative agreements with governmental agencies and landowners, and present land-use regulations. Such regulations or ordinances, to be put into effect as binding upon the landowners within the district, must receive a favorable vote of 96 percent of landowners voting upon them.

The district supervisors may also acquire, maintain, and dispose of property in the name of the district, administer erosion control projects, and require contributions in the form of services, materials, and so on from landowners.

Districts may be discontinued after five years upon petition of 50 landowners within the district and by simple majority of votes in the ensuing election.

Hohn pointed out that the summary necessarily left many points unexplained, and said detailed information concerning the operation of the state soil conservation law entailed a study of the act itself.

STATED MEETINGS of Tahoka Lodge No. 1041 the first Tuesday night in each month at 8:00. Members urged to attend. Visitors welcome.

Desperate Escape Attempt Is Made By Car Thief

Deputy Sheriff Ed Sanders was placed in possession of information a few days ago to the effect that the car thief whom he captured about ten miles west of town two or three months ago in a wild chase from Tahoka up the Brownfield highway made a desperate attempt a couple of weeks ago to escape from the Travis county jail, where he was incarcerated on other car theft charges.

The young fellow, 22, whose name is given as Calvin Bailey, it will be remembered, stole the car of Mr. and Mrs. Morton Smith in Lubbock. The alarm was sent out and Ed Sanders got in his car here to help run down the thief. Just at that instant he discovered the culprit as he darted around the John Evans corner here and started west on the Brownfield highway. Ed gave chase and finally got in shooting distance, when he began firing and causing it to overturn. The thief was captured and the car recovered and turned over to the owners the same afternoon.

Then Mrs. Smith became sympathetic. The thief was just a "kid" and she wanted him turned loose. Officers refused to release him and Ed said that Mrs. Smith finally became so wrought up over their refusal that she threatened to bring suit against him for damages to her car. Somebody made bond for the kid, and next thing heard of him was that he was in jail in Austin. Newspaper reports are that he had stolen about five cars there before he was apprehended. While in jail he watched for his opportunity and assaulted a deputy sheriff in an effort to escape. The alarm was sounded and the police force and other officers surrounded the jail and frustrated Bailey's attempted escape.

It now transpires that Bailey had been released from the penitentiary in January just before the Lubbock car theft. He had also served a term in the "Reformatory" for the theft of a Lubbock car when he was just a boy.

All of which goes to show that some mighty good, kind-hearted but mis-led people sometimes give officers a world of trouble for merely attempting to do their duty.

Rev. Ed Hawthorne Is Canyon Speaker

Announcement was made in the Canyon News last week that on Sunday night Rev. Ed Hawthorne would preach the Commencement sermon for the graduating class of the Canyon high school. He is pastor of the Baptist Church at Happy.

Ed, as his many friends here know him, is the son-in-law of R. Bosworth and a brother-in-law of Deen Nowlin. Up till a few years ago he was a farmer boy in this county, and after he was married he answered the call to preach and entered college to prepare himself for the ministry. His many friends here will be delighted to know that he is succeeding.

Waco, Texas, May 18—Miss Pansy Tankersley, student in Baylor University from Tahoka, was elected fall term president of the Peer Club, girls' social organization, at a recent meeting.

O. R. O.

will stop BAD FOOT ODOR with three applications, at night only, or your money back. ATHLETE'S FOOT quickly healed. Guaranteed for RINGWORM, POISON IVY, INSECT BITES, ECZEMA, CONJUNCTIVITIS, SORES, CUTS, etc. Sold by WYNNE COLLIER, DRUGGIST

Headache, Bad Breath May Be Your Warning

The sea's thrilling S. O. S. means "Help is needed now!" And, so do most of those headaches, that biliousness, coated tongue, or bad breath which are often signs of constipation.

To disregard these symptoms may bring on a host of other discomforts from sluggish bowels: sour stomach, belching, loss of appetite. See how much better you feel the day after taking spicy, all vegetable BLACK-DRAUGHT. By simple directions, it acts gently, cleanses promptly, thoroughly.

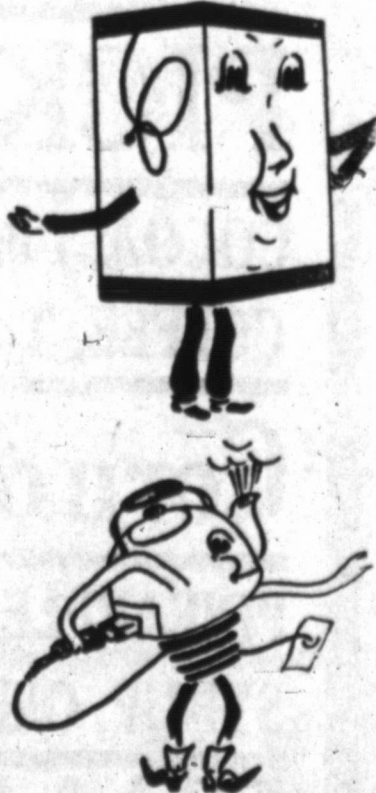

Its principal ingredient is an intestinal tonic-laxative; it imparts tone to lazy bowel muscles. Next time try BLACK-DRAUGHT!

MY EARS BURN

When a million users say so many nice things about me. They all say that I am safe... good looking... as safe... as modern as an electric light... and require no attention at all. But the sweetest music to my ears is for them to say that I am economical and dependable—because that is all anyone could ask of any water heater.

Such modesty, Pappy. You don't have a thing on me because I am just as efficient and accurate, too! I heat only the water that is drawn off... and do not waste a single penny's worth of low cost electric current.

Tch! Tch! What have you all got that I haven't got? I kick out my plug after I get the job done. What's more, I'll boil a quart of water in less than five minutes for only three cents! Humph—who said anything about economy?

Come by our office and see us on display.

Texas-New Mexico Utilities Company

CLASS IMPROVING GROUNDS OF O'DONNELL CHURCH

The Men's Class of the Methodist Sunday School at O'Donnell is improving the church premises, according to Rev. J. H. Crawford, pastor of the church, who was here Tuesday.

The teacher of the class is R. O. Stark. The committee directing the improvements consists of B. M. Haymes, W. E. Suddarth, and J. L. Shoemaker.

The committee is planning a number of other church improvements in the near future.

Club and Church News

LAWLER-APPLEWHITE

James Applewhite and Miss Doris Lawler surprised their many friends Monday night by driving to Lamesa, procuring a marriage license, and engaging a minister to administer the rites making them husband and wife.

Of course not many of their friends were very greatly surprised but few if any of them knew that the happy event was to occur at that particular time.

The facts seem to be that James and Miss Doris drove over to Brownfield to witness the marriage of Howard Davis and Miss Rosa McKenzie, who formerly resided in this county, Miss Rosa in Tahoka and Howard at Grassland. This marriage having been consummated, both couples proceeded on their way to Tahoka. Arriving here, they soon departed for Lamesa, where the second wedding ceremony was read.

The bride and the groom are away at the present enjoying a brief honeymoon trip.

The bride is the daughter of Mr. and Mrs. Ernest Lawler and for several years has been one of the

most popular pupils of the Tahoka high school. The groom is the son of Mr. and Mrs. J. K. Applewhite of this city and was reared here. He graduated in the Tahoka high school a few years ago at a very early age, being one of the brightest youths that ever received a diploma from this institution. He is now associated with his father in the tractor and implement business.

The couple have the best wishes of many friends, as do also Mr. and Mrs. Howard Davis, both of whom have many friends here.

FIDELIS UNION TRAINING SCHOOL AT O'DONNELL

Rev. J. H. Crawford, pastor of the Methodist Church at O'Donnell, who was here Tuesday, reported that the training conference of the Fidelis Union of the Methodist churches for this section of the South Plains was in session there.

This is a young people's organization of the Methodist Church. Travis Shelton of Tahoka is the president of this division, which extends from Tahoka to Spang. Rev. Geo. E. Turrentine, Edward Turrentine and James Price of Tahoka have also been attending.

VACATION BIBLE SCHOOL AT METHODIST CHURCH BEGINS

A Vacation Bible School was begun at the Methodist Church at 4 o'clock Thursday afternoon, with Mrs. H. C. Story as instructor, according to Rev. Geo. E. Turrentine, the pastor.

The school is for the benefit of children in the intermediate grades and all children of this age, regardless of denomination or church affiliation, are invited to attend. The school will run through next week.

DRAW-REDWINE H. D. CLUB

The fundamental rules that govern table setting were given by Mrs. Marvin Eldridge to the Draw-Redwine H. D. Club at its meeting May 19 at 2:30 p. m.

The table is set according to the type of service used. If there is no maid, set the table to make the service simple and easy. All silver, china, and dishes for a cover are placed where they are most convenient and so that the cover is a balanced unit. A bouquet of flowers is a necessary addition to every meal.

Others taking part on the program were Mrs. Ralph Cates and Mrs. R. L. Pirtle.

The business session was presided over by Mrs. Graham Hensley, the club president. A report was given by the council delegate, Mrs. W. Luttrell.

The next meeting will be at the home of Mrs. Herman Crawford, June 2 at 2:30 p. m. A demonstration of yeast bread will be given by Miss Maurine McNatt, H. D. agent.—Reporter.

Just before our forms closed Thursday afternoon, we were informed that Mrs. Gladys Stokes was coming in on the bus from Big Spring that night. Mrs. Summer Knight had stopped over in Abilene to attend the commencement exercises of the Hardin-Simmons University. The two ladies were just returning from a cruise of several weeks over the Gulf and the Caribbean and out into the Atlantic as far as the Virgin Islands.

Mr. and Mrs. Terry Thompson and little daughter returned Tuesday from a combination pleasure and business trip to Palestine and Houston.

Mrs. B. H. Baker of Clovis, New Mexico, spent a few days here this week visiting her friends, Miss Mary Seroyer and Mrs. D. V. Smith.

Compress Manager Is New Resident

Mr. and Mrs. E. R. Edwards late of Bartlett, were here Tuesday looking for a house in which to reside but we are informed that they have failed so far to find one.

Mr. Edwards will be the manager of the cotton compress to be erected here by Arch Underwood of Lubbock.

Mr. Underwood and E. V. Milner manager of the Underwood cotton warehouse here, were also here Tuesday. Mr. Underwood says that a little material for the compress in being unloaded here every week and preliminary work preparatory to the construction of the plant is still being done.

Mr. Underwood owns a number of cotton compresses elsewhere in the state, and on Thursday he left Lubbock, accompanied by a number of friends and South Plains newspaper men as his special guests, to attend the big annual fiddlers contest to be held at Athens Friday. Frank P. Hill, associate editor of the News, was one of the number.

Rotarians Hear Telephone Plans

The regular program of the Rotary Club was dispensed with Thursday to enable the members to hear an explanation of the New telephone system which the Southwestern Associated Telephone Company is planning to install here.

Mr. C. R. Hermence of Lubbock, general superintendent, and Mr. E. C. Throop of Brownfield, district manager, were the speakers. They had already appeared before the city council with their proposal, which was approved by the council.

Mrs. J. K. Applewhite made a report of the "My Home Town" contest at the W. T. C. C. convention in Abilene, making some recommendations as to our future participation in these contests, which were very appropriate and timely.

Home Builders Offered Instruction

Austin, Texas, May 26—Home builders as well as professional architects are offered a course in domestic architecture at The University of Texas this summer, when Prof. W. T. Rolfe and his students delve into the Mexican background and adaptations of the southwestern type of building design.

Emphasized will be the construction costs, design, aesthetics and social problems of the Spanish type architecture, as well as special explanation of the type building now appropriate for Texas, Rolfe said.

GARZA COUNTY PIONEER DIES

Judge Ira Weakley, prominent citizen of Post for many years, died at his home in Post Wednesday night after a prolonged illness, according to reports reaching Tahoka Thursday morning.

Judge Weakley had been a citizen of Post for thirty years or more. Soon after coming to Post he was employed as a pharmacist in the Collier Drug Store. Later he was elected county clerk, in which capacity he served several terms. Then he was elected county judge and served two or three terms.

He was well and favorably known throughout this section of the state and had many friends in Tahoka and Lynn county.

Mr. and Mrs. O. J. Warren and their son and daughter-in-law, Mr. and Mrs. Norman Warren, are leaving today for a week-end visit with O. L.'s father and grandfather at Rotan. The grandfather, J. W. Warren, will be 94 years of age next Monday, and the family are preparing to celebrate the event one day in advance, Sunday. It is expected that five generations of Warrens will be represented at the gathering.

COLORED SCHOOL CLOSES

The closing exercises of the colored school in Tahoka will be held Monday night, beginning at 8 o'clock.

The program will consist almost entirely of recitations, plays, and songs by the pupils of the school. The exercises will be held in the Colored Baptist church. Rev. O. D. Hollins will pronounce the invocation, and a welcome address will be given.

White friends in the town are cordially invited to be present. There are thirty-nine pupils in the school this year. Paralee Sayles is the teacher. So far as we know, the colored folks have had a very successful school again this year.

Mrs. Freeman Is Reported Better

Mrs. Harvey Freeman, who has been critically ill in a Lamesa hospital since she underwent a Caesarian operation Monday morning, was believed Thursday to be somewhat improved. Her fever was still running as high as 104 but it had been as high as 106 earlier in the week.

Becoming ill last Sunday, she was rushed to the hospital Monday morning under the advice of her physician, since an operation had become imperative. The babe, a son, weighed nine pounds and is said to be doing well.

Mrs. Freeman was given a blood transfusion Monday evening, her father Mr. Crume, furnishing the blood, and a second transfusion was given Wednesday evening, Melvin Greathouse furnishing the blood.

Officers Find Loot Of Chico Bank

The sheriff, county attorney, and a group of citizens of Wise county found \$2,211 Sunday of the money which had been taken when the bank at Chico was robbed by two local bandits a couple of weeks ago. On Monday afternoon officers recovered an additional sum of \$200 of the loot, leaving only about a hundred dollars unaccounted for.

The money found Sunday had been hidden between two large trees and covered with bark a short distance from the place where one of the alleged robbers had been captured.

As a business adventure, the escape of those two robbers, now in jail, was a complete failure.

F. L. Prater Barely Escapes Accident

As F. L. Prater was driving a tractor south on highway 380 about four miles south of Tahoka at about 3:30 o'clock Monday morning, his machine was side-swiped by a heavy oil truck coming north on the same highway, resulting in the almost total wreckage of the tractor and some slight damage to the truck. Luckily neither driver was seriously hurt.

Mr. Prater says that he was on the right side of the highway and that all his lights were burning. He thinks that the truck driver had dropped off to sleep. He did not learn the name of the truck driver but the truck belonged to the Holt

Oil Company of Muleshoe. He says that the Company agreed to pay the cost of repairs to his tractor, which amounted to about \$200.

**FARMERS ARE BUSY
 PLANTING CROPS**

(Cont'd. from page 1)
 the day and one for the night. He
 was planting more than 300 acres
 per day.

Many farmers have come to re-
 gard the tractor as a prime neces-
 sity for farming in this country,
 more practical and more necessary
 than in any other portion of Texas.

First, we have the broad, nearly
 level acres, which makes tractor
 farming ideal. Second, the high
 winds often dry out the top soil
 quickly, and seed should be plant-
 ed as soon as practical after a rain
 to insure a stand. Third, the weeds
 often come in such solid masses
 that they must be killed quickly or
 not at all; and that is where a trac-
 tor shines. Fourth, the season is
 often late and it is imperative for
 farmers to get their crops planted
 in the shortest possible time.

On top of all this, the tractor
 doesn't eat, except when it works,
 and even then the farmer has no
 feeding to do after he leaves the
 field at night nor before he goes
 to the field in the morning.

Furthermore, he can plow deep-
 er when necessary and do prettier
 and better work generally with a
 tractor than he can with teams.

So, it looks as if tractor farming
 is about the only kind of farming
 that will be done on the plains
 from here on out.

While an insufficient amount of
 rain has yet fallen in some parts
 of Lynn county, the crop prospects
 generally are very good at this time.

**Tech's Students
 Work Way Through**

Lubbock, May 24.—Approximately
 46 per cent of Texas Tech's 2,131
 men students work while attending
 college, a recent survey shows. Of
 the 973 working, 303 are employed
 by the college as manual laborers,
 office or departmental assistants,
 and 135 are assisted by the Nation-
 al Youth Administration plan.

Off-the-campus jobs vary from
 from driving trucks and buses to
 painting signs, promoting prize-
 fights, preaching, and announcing
 over radio. Wages average 31.5
 cents an hour, and working hours
 average 3.1 daily.

Fifty per cent of the 440 agricul-
 tural students work, 50 of them be-
 ing employed on the college farm,
 at the college dairy, greenhouse, or
 in departmental offices. A maximum
 of 21 working hours per week is set
 for agricultural students, according
 to Dean A. H. Leidigh.

Of the 957 men students enrolled
 in arts and sciences, 454 or 47.5 per
 cent do part time work. Forty-one
 per cent of the 734 engineers are
 employed.

Manual labor affords the largest
 numbers of students expense money,
 83 working as laborers, and 80 as
 house or kitchen helpers. Clerical
 jobs engage 54, and soda fountain
 41. Grocery stores, newspaper of-
 fices, hotels, and theatres offer em-
 ployment to 65 others.

**PAVING PROJECT IN TAHOKA
 GIVEN WPA'S APPROVAL**

(Cont'd. from page 1)
 be taken care of, in the long run,
 by the property owners who reside
 along the streets that shall be
 paved.

It is the plan to require these
 property-owners to pay part of the
 costs of paving. Mayor Deen Now-
 lin estimates that it will cost each
 property owner about \$1.50 per
 running foot; that is, if he owns a
 fifty-foot lot facing a paved street
 it will cost him about \$75 to have
 the paving done.

The first work to be done after
 the funds shall be in hand, Mr.
 Nowlin states, is sealing the present
 pavement in the business part of
 the town and extending from the
 courthouse square to the Santa Fe
 railway.

In addition to this it is con-
 templated that about thirty addi-
 tional blocks will be paved. Just
 what blocks will be paved will be
 determined largely by the attitude
 of the citizens living on each block.
 It is hoped to be able line up a
 string of blocks leading to the
 school buildings. Another, it is
 hoped, may lead by both the
 Baptist and Methodist churches, be-
 ginning at the southeast corner of
 the Baptist Church and thence ex-
 tending along the west and the
 north sides of the City Park to the
 southeast corner of the Methodist
 church, thence in every direction
 from that point, intersecting with
 the Brownfield highway at the
 John Evans corner, with the Lub-
 bock highway at the Fulkerson ser-
 vice station, and extending north
 a block from the southeast corner
 of the church, and thence east a
 block and intersecting with the
 Lubbock highway at the Harris
 corner.

It is hoped that other strings of
 blocks may likewise be lined up, as
 funds will be available with which
 to pave about thirty blocks.

This is by far the best paving op-
 portunity that Tahoka has ever
 had, and it may be the best one it
 ever will have.

It is in line with the policy of
 this government to assist in public
 improvements and to furnish em-
 ployment for labor. That Tahoka is
 in dire need of street paving will be
 conceded by almost every one. It
 would seem that this is her op-
 portunity.

In addition to the mayor, Taho-
 ka's city council now consists of Dr.
 K. R. Durham, T. J. Bovell, N. C.
 Rainey, A. J. Mullins, and W. O.
 Thomas, all conservative men.

**To Query Women
 All Over South**

Touting Reporters have now asked
 over 1,200 women and girls of
 leading Southern Cities the now
 famous question: "Were you
 helped by CARDUI?"

Averaging all replies so far shows
 that 93 out of every 100 users
 questioned declared CARDUI
 benefited them!

Users by thousands are eager to
 tell how CARDUI has given them
 strength; has thus relieved them
 of the symptoms of functional
 dysmenorrhoea due to malnutrition.
 Many also say that, when symp-
 toms indicate the need, CARDUI
 in larger doses helps "at the
 time" to soothe pain.
