Tahoka, Lynn County, Texas, Friday, June 9, 1939.

Number 43.

City Makes Deal To Buy Sewer System

\$15,000 Price Set For Entire Sewer Plant Here

Tahoka's City Officials Consider Price Low; Deal Is Nearing Completion

Through the kindly offices and business acumen of Mayor Deen Nowlin, the City Council has practically closed a deal with the Southern Sewer Company of San Antonio for the purchase of the sewer system in Tahoka. A few weeks ago the City made an offer to the Company of \$15,000 for the plant, and after some sparring the Company notified the Mayor a few days ago that the offer was accepted.

Judge C. H. Cain represented the City in the legal phases of the matter and it is understood that some technical wrinkles will have to be ironed out and certain legal procedure taken before the deal can be fully consummated. It is not anticipated, however, that there will be any serious hitch in the completion of the deal.

The system originally represented an investment of nearly \$50,000, it is said. Three years ago, it was offered to the City for a consideration of \$25,000, and the city council seriously considered the purchase at that figure at that time. Somebody threw a monkey wrench in the machinery, however, and the deal did not go through.

The members of the City Council feel that they are now getting the plant at a real bargain. They and the mayor in particular, are to be commended for procuring this property at so low a figure.

It is the intention of the city council, we understand, to greatly reduce the rates as soon as possible after the City acquires the property and to then take steps to induce many other property owners in the city to connect up with the system. Many verbal complaints have been made to the mayor and the city council, it is said, respecting numbers of privately owned cess pools scattered over town, some of which have become offensive to the neighbors. Most of these owners and many other residents, it is believed, will be glad to connect up with the sewer system as soon as the rates are reduced.

Fine Jerseys Brought Here

Three registered Jersey Heifers and one registered Jersey Bull were purchased through the Farm Security Administration last week and placed on farms in Lynn County according to County Supervisor, Jack Welch.

The heifers came from Van Alstyne, Texas, and the bull from Dallas out of the C. M. Evans herd. This bull came from the Sybil line of breeding and his full sister was selected for the American Jersey Cattle Club view herd exhibit at the Texas Centennial Exposition.

The bull will be used as a cooperative bull service in the Draw Community. He is located on the Lynn Smith farm 2 miles south of Draw.

50-Year Low For Cotton Predicted

Austin, June 8.—Dr. A. B. Cox, University of Texas cotton expert, today predicted a 50-year low for United States cotton exports this year.

Dr. Cox, director of the University Bureau of Business Research, estimated exports this year at less than three and a third million bales, compared with an average predepression total of nearly eight and a half million.

"The big reason why the United States has lost foreign markets for cotton is that it has not been willing to sell at world market prices," he declared.

Highway 380 Will Receive More Work

The News is publishing this week a notice to the effect that bids for the surfacing of nearly six miles of U. S. Highway No. 380 east of Tahoka will be received by the state highway department on June 20.

The project will begin three miles east of Tahoka and extend eastward from that point a distance of 5.717 miles. The notice calls for bids for roadbed treatment and double asphalt surface treatment.

Just what "roadbed treatment" in this instance means is not made clear.

Mr. F. C. Stanley of the office of Lon C. Ingram, resident engineer at Lubbock, who brought the notice to the News office for publication, stated that three types of road are to be constructed on this 14-mile stretch of highway in Lynn county.

Judge Goad and members of the commissioners court likewise say that three types of road are to be constructed. On one type, pure-dee old blow sand is to be used in lieu of caliche as a base. The sand is to (Cont'd. on back page)

Tahoka Roundup Plans Are Made

In response to a previous call, about fifteen or twenty business men met at the courthouse Wednesday night to discuss matters pertaining to the rodeo to be held here August 24 and 25.

The body decided not to provide a barbecue feast this year as was done last year. It is presumed that the rodeo will be staged, however, as it has been the past two years. Further announcement will be made later.

Burleson Buys Out Parkhurst

W. L. Burleson perfected a deal with D. A. Parkhurst early this week whereby he becomes the owner of the whole Parkhurst block on which the Parkhurst warehouse and the service station are situated.

Mr. Burleson intends to lease out the service station, utilize the unoccupied portion of the warehouse as a workshop, and establish a wrecking yard in the rear. The Weathers grocery store and the cafe being operated in a portion of the building will continue under the same management.

Mr. and Mrs. Parkhurst are planning to leave in their car Saturday for an unannounced destination, to be gone all the remainder of the summer. It is understood that they will be back in the fall. They are retaining their home here.

Two Railroad Officials Resign

Two of the best known railway officials in the Southwest voluntarily retired from service with the Santa Fe Railway System this week.

They are J. N. Freeman, secretary-treasurer of the Panhandle and Santa Fe Railway, and E. E. Machovec, mechanical superintendent of the Southern district, Santa Fe Western Lines. Each has served more than 50 years in the railway business.

Both are residents of Amarillo. Banquets honoring the two executives were arranged by company officials and employees.

Freeman was succeeded in office by Ed F. Browder, and W. R. Harrison, formerly superintendent of shops at Albuquerque, was named to the post vacated by Machovec.

ATTENDING TECH

Carl Nowlin, who teaches vocational agriculture at Grenville, New Mexico, is here staying in the home of N. E. Wood while taking a three weeks agriculture course in the Texas Tech. He and Leslie Browning, the Tahoka agriculture teacher, and J. H. Felts, the band director, go up and come back together each day. The latter also are attending the Tech.

FIRST AID SCHOOL

The First Aid School being conducted in the Boy Scout hall is being well attended by adults as well as boys, according to reports received at the News office, considering the fact that this is the first such school ever conducted in Tahoka. It will continue until Friday night of next week.

WELLS CITIZEN ILL

Mr. James Carpenter, an aged citizen of the Wells community, was taken to a sanitarium in Lubbock Wednesday afternoon in a Harris ambulance for treatment. He was reported to be in a serious physical condition.

O'Donnell Seeks New Highway

A number of prominent citizens of O'Donnell were here last Friday conferring with Judge P. W. Goad respecting a proposed new highway designation from O'Donnell westward via Welch to Seagraves.

The party consisted of Waldo McLaurin, county commissioner, B. M. Haymes, Mayor, Marshall Whitsett, druggist and president of the O'Donnell Rotary club, J. L. Shoemaker, banker, Hervey Gardenhire, business man; Rev. J. H. Crawford, pastor of the Methodist Church, and W. G. Forgy, editor and publisher of the O'Donnell Press.

The original purpose of the O'Donnell citizenship was to make application for a new highway from Seagraves eastward to O'Donnell and thence southeast to Gail in Borden county. It is doubtful if the Gail section of the proposed highway will be urged upon the state highway commission at this time, however. A strenuous effort will be made to secure the designation from O'Donnell to Seagraves. Such a highway would serve many people and it is probable that in the course of time it will be designated and built.

Court Attends O'Donnell Club

The entire membership of the commissioners court consisting of Judge P. W. Goad and commissioners Tom Hale, Sam Holland, Geo. Small, and Waldo McLaurin, together with Aubra Cade, Rollin McCord, Jack Welch, Happy Smith, Bascomb McCord, J. O. Tinsley attended the regular weekly luncheon of the O'Donnell Rotary Club Tuesday.

The boys report that the luncheon was very fine and the program excellent. C. L. Hafer discussed the Aims and Objects of Rotary and Waldo McLaurin reported on the progress being made on efforts to procure designation of a highway from Seagraves to O'Donnell and thence to Gail. He thought the prospects for success were favorable.

Openings In Marine Corps, Smith Says

Postmaster Happy Smith announced that he has been advised that the quota of enlistments for the month of June assigned to the United States Marine Corps recruiting district of Dallas, headquarters for Texas and Oklahoma, has been set at thirty-seven.

Young men between the ages of 18 and 25, of good moral character and who have had high school training are eligible to make application. Application forms may be obtained at the Post Office or by writing to the Marine Corps Recruiting Office, Dallas, the Postmaster said. Those accepted will be enlisted and immediately transferred to the Marine Corps Base San Diego, Calif., for basic instructions preparatory to assignment to regular duty.

COTTON IS UP

Judge and Mrs. J. W. Elliott returned Saturday from a ten days visit to Corpus Christi. The Judge says that crops in the immediate vicinity of Corpus Christi are excellent but as one comes this way they become "spotted" and in places they appear to be almost a complete failure.

AAA MEN HERE

V. L. Cade of Slaton, a member of the state AAA committee and a brother of Aubra Cade, and J. Lynn Mauk, field man for district 2 of the Texas A. & M. College extension service, were here Wednesday conferring with County Judge P. W. Goad.

Get your Bug Stamps at The News office.

Three Jailed For Chicken Theft

Three men were arrested and placed in jail here a few days ago on charges of chicken theft.

The chickens were stolen from Tom Lishman living a few miles north of Tahoka and S. B. Miller residing on the Littlepage farm in the Midway community. Lishman losing 17 from his hen roost and Miller 23.

The fowls were taken to O'Donnell and sold to a merchant there. Complaint was made to the sheriff and Messrs. Parker and Sanders immediately got on the job, with the result that the chickens were located and the accused men cast into jail.

Change Made In Band Schedule

Every musician in Lynn County is invited to attend the band practices and band classes which are being held on the fourth floor of the court house in Tahoka.

Regular band practices are from seven to eight o'clock Tuesday, Thursday, and Friday nights of every week.

Beginners classes will meet as follows: Reed instruments, 9 to 10 o'clock Monday mornings; Brass instruments, 2 to 3 o'clock Monday afternoon. All beginners will meet from 2 to 3 o'clock every Thursday afternoon for full band practice.

Advanced classes will meet as follows: Reed instruments, 10 to 11 o'clock Monday morning; Brass instruments will meet at 3 to 4 o'clock Monday afternoon; Percussion, or drums, 3 to 4 o'clock Thursday afternoon.

Class instruction is free to the general public.

Several instruments are available for rent.

Agents Attended District Meetings

County Agent Dan Turner and H. D. Agent Miss Maurine McNatt attended meetings of the district agents in Lubbock Monday.

A. & M. Extension district No. 2 comprises nineteen counties of the South Plains and adjacent territory and Mr. Turner says that all the county agents except one were present. Most of the home demonstration agents in the district also were present in their meeting, it is said.

The farmers short course and 4-H club work were matters that received the attention of the agents.

RELATIVE DIES

W. E. (Happy) Smith and his mother, Mrs. H. C. Smith, were called to Dudley near Abilene early last week by the illness of his aunt Mrs. Alice Grantham, a sister of his father. She died Tuesday and funeral services were conducted Wednesday. Deceased was 77 years of age. Mr. Smith and his mother returned home on Thursday.

DEE ROGERS IMPROVES

The News is informed that Dee Rogers, who has been practically helpless for a long time, is now able to be up and to walk about the place with no other aid than a walking cane. His power of speech, which was also greatly impaired by a stroke of paralysis two years ago or more, is also much improved.

Miss Madeline Russell is home after having spent several months in the West Texas State Teachers College at Canyon. She hopes to re-enter the college in the Fall.

Old Timers Reunion Saturday, June 4th

The program for the Old Settlers Reunion to be held here on June 24, has been prepared and furnished the News for publication. The program and entertainment committee consists of W. E. (Happy) Smith, Miss O'Berger Forrester, Mrs. Nettie Edwards, Miss Clara May, and Mrs. Era Stewart.

Registration will begin at 9:00 o'clock Saturday morning, with Mrs. Pearl Price and Mrs. Frankie Pentol in charge.

The program will be enlivened with music at appropriate intervals by old-time fiddlers and other musicians.

Gyles Shaw will lead in the singing of the opening songs.

E. T. Wells of O'Donnell will deliver the welcome address, which will be followed by a talk by Judge G. E. Lockhart, now of Lubbock.

Following a business meeting, a barbecue dinner will be served at the noon hour.

In the afternoon, the crowd will be entertained by the noted local fiddlers, Morris and Wells.

A sing-song by the old-timers will be conducted by Mrs. Claude Donaldson.

Prizes will be awarded to the following: The oldest pioneer woman, the oldest pioneer man, and the pioneer who travels the furthest to attend the reunion.

Jim Weatherford will lead an old-time square dance, and a prize will be awarded the best jig dancer. A special musical number will close the afternoon meet.

The old-timers will assemble on the courthouse lawn at 7 p. m. to enjoy a band concert.

A dance at night is scheduled for the old-timers, with Hall Robinson as chairman of the committee.

It is hoped and expected that old-timers from all over the South Plains and from other places will be present to enjoy this gala occasion.

Jester's Injured Hand Healing

We guess every newspaper man feels humiliated when he finds that he has failed to mention a news item that he just simply overlooked. Well, any way, we are glad to report that A. D. Jester's hand is still healing, even though slowly.

Nearly three weeks ago he got his hand caught in the cog wheels of a cotton planter and the thumb was amputated at the first joint. The bones of the upper portion of the thumb were also badly broken.

He underwent a minor surgical operation in the office of a local physician, who has since been treating the injured member. Mr. Jester says that the wound still pains him greatly at times but he is thankful that the whole hand was not lacerated or crushed.

Mr. Jester lives on the Hubert Tankersley place near the west line of the county.

MRS. GLADYS STOKES IS GIVEN FREE TRIP

Mrs. Gladys Stokes will leave early next week for the convention of Southwestern Life Insurance Agents, which meet this year in Colorado Springs, Colorado.

Each local representative of the Company who has written \$100.00 worth of life insurance during the past year will be given a free trip to the convention with all expenses paid while there. Mrs. Stokes has earned a free trip to the state convention each year for the past several years. This is the first time that the state convention has met outside of Texas.

The condition of Mr. H. D. Calahan, 79, who has been seriously ill for several days, is said to have taken a turn for the worse Wednesday afternoon and it was doubtful if he would live through the day Thursday.

Craft Sent To Rotary Meet

Leonard Craft, president-elect of Tahoka Rotary Club, will be sent to the annual convention of Rotary International, which meets this year in Cleveland, Ohio, June 19-23, the Club decided at its regular meeting Thursday noon. He will leave the middle of next week. The club also voted to buy "sweat" shirts for a Rotary Club team in the city softball league. Rollin McCord furnished the principal number of the program, in the form of questions and answers, which was somewhat educational and humorous and exposed the Rotarians' ignorance. edprin shw receivesto Dswolm Assistant Attorney General M. C. Martin of Austin was McCord's guest, Bob Spikes the guest of his father, Houston Spikes, and M. L. H. Baze was a visiting Rotarian. Supt. W. T. Hanes also expects

to attend Rotary International while he and his family are en route to the New York World's Fair.

Terracing Pays Large Dividend

Lamesa, Texas, June 8.—Comparing records for several years prior to 1931, L. R. Earnest found that his 120-acre farm nine miles south of Lamesa was yielding about \$175 less annually than was an adjoining farm of about the same area. Since both farms are of sandy loam soil and he and his neighbor were using practically the same farming methods, Earnest set out to determine why his income was constantly lower than that of his neighbor. Observations during heavy rains revealed to Earnest that a lot of the water was running off the slopes on his farm and was being lost for use in growing crops on his land. Run-off water on the neighbor's farm was far less because on the slopes were not near so steep. Then Earnest observed that this run-off water not only was being lost for crop use, but also that the rush of water during heavy rains was cutting gullies in his fields and was resulting in moderate sheet erosion.

Earnest saw the need for conserving water and soil if he was to prevent his farm from becoming less productive. In 1931, he terraced his field and then started growing cotton in annual rotation with soil-conserving crops such as sorghums. "Since my field was terraced the loss of water through run off has been practically eliminated," Earnest stated. "My crop yields have been greatly increased and erosion has been practically eliminated. The growing of soil-conserving crops in rotation with cotton gives me feed for my livestock and a cash crop, too. I have found that by conserving practically all the water that falls on my land, I have greater assurance of producing a crop during years of low rainfall and that I have crops of more uniform stand. "Since 1931, when I terraced my field, my farm has been providing as much or more cash return than my neighbor is getting from his more level field which he has continued to farm in straight rows," Earnest declared.

This year Earnest is entering into a cooperative agreement with the Soil Conservation CCC camp at Lamesa whereby he will carry out a complete program of better land use and erosion practices. He believes that the use of additional conservation practices may make his farm even more productive.

Mrs. Price Thomas of Grassland is sick this week of the measles. In fact she contracted the disease last week, we understand, but did not know the nature of the disease until about the first of this week. Truett Cooper, who has been a student in the Texas A. & M. College the past year, is home for the summer. He is the son of Mr. and Mrs. E. J. Cooper. John Heck of Wilson reports that he has the earliest crop this year he has had since he has been on the Plains. Too, he has not had to plant over but 40 acres. Not yet.

F. C. Stanley of Lubbock, a former citizen of Tahoka, was here Monday on business for the state highway department. Mrs. Tom Reid and sons, Herman and Charles, are on a visit to East Texas and Arkansas. They expect to be gone about two weeks.

Gas Gas All Time
Mrs. Jas. Filler says: "Gas on my stomach was so bad I couldn't eat or sleep. Gas even pressed on my heart. Adlerika brought me quick relief. Now, I eat as I wish, sleep fine, never feel better."

Women Answer From 12 States

To date, Touring Reporters have visited the principal cities of 12 Southern states; have asked 1297 users their famous question: "Did CARDUI help you?" Of those 1297 users, 1206 said they were definitely benefited by CARDUI. That's 93 out of every 100. What a record! CARDUI is a good stimulator for lagging appetites, a real aid to digestion and assimilation. That's why its proper use enables so many women and girls to build up physical resistance, and thus helps them avoid the periodic pain of functional dysmenorrhea due to malnutrition.

Mrs. Roosevelt Is For Field Army

Mrs. Franklin D. Roosevelt, first lady of the land, urges support for the Women's Field Army in a statement made public here today by Mrs. Emil Prohl.

Mrs. Roosevelt's full statement follows:

"The Women's Field Army of the American Society for the Control of Cancer is doing good work against one of the most serious disease threats to health and life. Through meetings, radio programs, and conferences, the Army teaches men and women the symptoms of cancer and the vital importance of early diagnosis and treatment.

"The Army seeks not only to teach the individual how to protect himself but also to interest the community in all aspects of cancer control, including diagnosis and treatment, research, and the needs of the underprivileged victims of the disease.

"The goal of the Field Army is an excellent one and its methods of work have been carefully planned. Education is a slow process, but eventually the Army hopes to save thousands of lives from cancer. I share this hope and urge that each one give the Army some measure of support."

Mrs. Roosevelt is honorary Chairman of the National Advisory Board of the Women's Field Army Against Cancer.

Robert Spikes, son of Mr. and Mrs. Houston Spikes, is home from Lubbock, where he has been attending Texas Tech.

Lee Dodson, Tahoka high school principal, is in West Texas State Teachers College this summer doing work on his Master's degree.

Larue North of Harper has been visiting Mrs. Jim Wetzel the past week.

Anglers are reminded that it is now illegal to fish from bridges on roads in Texas maintained by the State Highway Department. The bill providing this was passed recently by the state legislature as a safety measure when it was pointed out that several hundred persons were killed or injured last year while fishing off bridges. It is also illegal to leave fish on bridges.

Mr. and Mrs. Carl Prohl arrived Saturday from Dallas, where he has been attending Baylor Dental School, to visit about two weeks with his brother, Dr. Emil Prohl, and wife.

Try a News classified ad.

Mrs. F. E. Redwine and daughter, Miss Jewell, are visiting the former's sister at Farmington, New Mexico, and have been visiting a brother at Belen. They expect to be away several weeks.

CALL 255 WE DEDIVER

ELDER DRENNON'S NOTES

We had a fine day last Sunday with a fine married man surrendering his life to Christ. What a fine thing to do!

Our subject last Sunday morning was, "Our Duty to Self". How many realize the great debt we owe ourselves that no one can discharge but us. While we are discharging that debt, we must not forget the debt we owe others. I think our present sad plight is due to the fact that many people do not realize their obligation to society and that to a certain extent we are our brother's keeper. We talk much about personal liberty but our personal liberty ends when it infringes on the liberty of others.

Selfishness is one of the causes of most of our national and international troubles. What a fine thing it is to learn to live with and for others and to treat them as we would like to be treated.

While the political pot is boiling the better citizens had better be thinking. One of our great needs is for people to think for themselves. We have too long let the politician do our thinking for us. While we throw up our hands in horror at Hitler and his tactics, yet I am afraid we will get in similar condition as Germany if we do not do some serious thinking and vote intelligently.

Right here in our fair Texas look at conditions at Austin. Some of our legislators act like school boys. We need to be more careful who we send to Washington and Austin to make our laws, and the better citizens need to take more personal interest in our government and its work.

I want to commend Editor Hill on his stand against the Catholic priest and his hand in our racial problem and we might add political problems as well. We Protestants sit idly by and let them take money out of the public treasury to run their private schools. Why should not they uphold our free public schools? They make a great howl when we want to read the Bible in our schools and have had it ruled out in many states and yet want us to support their church schools. I don't think it fair.

Another great problem that confronts us is the teaching in our great state schools. It seems that in some of them things are being taught our boys and girls that are not best for our great free government and Christian homes. We need to safeguard our teaching because teaching shapes our lives.

Yours for more people who are not ashamed or afraid to do right every time. Visit the friendly church where friends meet and greet.—R. P. Drennon.

CARD OF THANKS

We wish to express our deepest thanks in appreciation to Dr. Thompson and each of our friends and neighbors who assisted us in any way during the illness and death of our dear mother and grandmother, Mrs. J. W. Reid. Your deeds of kindness and words of sympathy will be long remembered. May God's richest blessings rest on each of you.—Mrs. Emma Hatchel and boys; Mr. and Mrs. C. T. Levens and children; Mr. and Mrs. J. E. Reid and children; Mr. and Mrs. W. W. Reid and daughter; Mr. F. B. Reid and children.

Robert Maddox and Joy Edwin Brown left Tuesday for Ruidoso, New Mexico, where they expected to find employment for the summer.

NOTICE OF DISSOLUTION OF PARTNERSHIP

Notice is hereby given that the partnership between R. K. Wootten, Effie D. Wootten, J. W. Simmons, Rebekah Simmons, G. A. Simmons and T. B. Simmons (or any of them) under the firm name of Quannah Cotton Oil Company, was dissolved on May 31, 1939. The business will be continued in the name of Quannah Cotton Oil Company, a Texas corporation. All debts and obligations owing by the partnership should be presented to the partnership at Quannah, Hardeman County, Texas.

This notice is published once each week for four consecutive weeks in each of the counties where the partnership has a place of business, as required by Article 6132 of the Revised Civil Statutes of Texas. Dated at Quannah, Texas, May 31, 1939.

Quannah Cotton Oil Company, a partnership, By

J. W. SIMMONS, Rebekah Simmons, G. A. Simmons, T. B. Simmons, Surviving Partners.

John B. Wootten, Executor and trustee of the estate of R. K. Wootten, deceased.

Effie Wootten Siddons, Executor and trustee of the estate of R. K. Wootten, deceased, and as executor and trustee of the estate of Effie D. Wootten, deceased.

Annie Victoria Durand, Executor and trustee of the estate of Effie D. Wootten, deceased. 43-4tc.

Farmers from various parts of the county report that most of the cotton is either up to a good stand or is coming up. Some report that some of their plantings are not up yet, and most of the farmers would like to see a good rain now. In Tahoka, not quite three inches fell during the entire month of May, which is somewhat below normal for the month.

W. A. Reddell and family left Friday to bring Miss Anita home from Belton, where she has been a student the past year in Baylor College. They returned home Sunday.

Regimental Colors Serve as Official Army Record

The Lancashire Fusiliers wear roses in their hats when celebrating to recall the battle of Minden, where the Twentieth Foot, East Devonshire regiment (which became the Lancashire Fusiliers in 1881) fought in rose gardens, says a writer in Pearson's London Weekly. The Royal Welch Fusiliers wear the "flash," a black silk rosette. It once protected the red coat from the powdered pigtail.

The Gloucestershire regiment, the old Twenty-eighth, wear their regimental badge on the back as well as the front of their caps. This is because in the Peninsular war they were once attacked both from the front and rear and had to face about to repel the enemy.

The Royal Fusiliers, Buffs and Royal Marines have the exclusive right of marching with bayonets fixed through the city of London, because they were formed in the Seventeenth century out of the city's trained bands of militia.

But it is generally on the regimental colors that the regiment writes its history. For instance, the king's color of the South Wales Borderers bears a silver wreath in memory of the lives that were given to save it from capture at Isandhlwana. The Queen's, Royal West Surrey, have a Paschal lamb on the regimental flag. It was the crest of Queen Catherine of Braganza, in whose honor the regiment was raised by King Charles II to garrison Tangier.

Regiments with a record of service in Egypt have a sphinx on their flag; a tiger means that the unit fought in Bengal; a castle surmounting a key represents the fortress of Gibraltar; the regiments with it on their flag served through the four years' siege of 1779-83.

A rose below a crown denotes the six British regiments which fought in the Dutch service in the Seventeenth century.

In fact, the regimental color is the regiment's record and it is to honor these deeds from a great past that people take off their hats when the colors are carried by

Breath Bad, Logy? You May Need This

Just as the lighthouse flashes a friendly warning to sailors, so Nature sends out headaches, bad breath, biliousness, which often warn of constipation.

Too many misunderstand or neglect these symptoms and thereby may invite a host of constipation's other discomforts: sour stomach, belching, loss of appetite or energy.

Be wise. Take spicy, all vegetable BLACK-DRAUGHT tonight by simple directions and clear your bowels gently, promptly, thoroughly. This intestinal tonic-laxative helps give tone to lazy bowels. Its long life and popularity testify to BLACK-DRAUGHT'S merit.

Mrs. W. C. Cowan and daughter, Mrs. Birdie Humphries, of Canyon visited relatives and friends here Saturday.

Miss Lottie Jo Townes arrived home Tuesday from the T. C. U. at Fort Worth, where she has been a student again the past year.

H. L. Roddy and family left Wednesday to spend the week end with relatives at Yorktown, th. former home.

NOTICE TO THE PUBLIC
Any erroneous reflection upon the
reputation or standing of any indi-
vidual, firm or corporation, that
may appear in the columns of The
News will be gladly corrected when
called to our attention.

It seems evident to us that the
state highway department is mere-
ly experimenting with a cheap type
of road on U. S. highway No. 380
from Tahoka to the Garza county
line. Whether this experiment
proves to be a success or a failure,
nobody should hold the commis-
sioners court responsible in any
degree, for the highway commis-
sion and not the commissioners
court determines the type of road
to be built. The county judge and
the commissioners court have work-
ed faithfully and hard to get work
started on highway No. 380 and
are to be commended for their ef-
forts. We hope that the road, when
completed, will be one of the best
in the West, as the commissioners
believe. Furthermore, we confess
that we know practically nothing
about roadbuilding, but when we
are told that blow sand is to be
used as a base on a part of this
road and a "sol mixture" on an-
other part, and since we know of
no other roads that are being con-
structed or have been constructed
in West Texas recently in such
manner, we must conclude that this
is an experiment. The highway
commission, it will be remembered,
experimented in the construction of
this same highway west of Tahoka
a few years ago. It soon became
necessary to patch and partly re-
surface this road, and that portion
of it extending from the Lynn coun-
ty line to Brownfield is still a very
sorry highway. We hope the
experiment to be made east of Ta-
hoka proves to be more satisfactory.

We never know what a day may
bring forth, but as this is written
early in the week it does not seem
probable that the House of Repre-
sentatives will agree to submit to
the people the resolution adopted by
the Senate providing for a combi-
nation sales and natural resource
tax. It seems to us that the Lower
House is right. The legislature has
the power to levy either a sales tax
or a natural resource tax without
any Constitutional Amendment.
Why write such taxes into the Con-
stitution when they will be but
experiments at the best? It may be
that after a sales tax is tried a year
or two, the people will want to get
rid of it. To do so, if it is written
into the Constitution, it will then be
necessary for a new amendment to
be submitted and adopted. Why
not pass a sales tax bill and a
natural resource tax bill and put
them to work immediately without
waiting several months for the
matter to be submitted to the peo-
ple? Why is Governor O'Daniel in-
sisting on a constitutional amend-
ment when the same end could be
reached much more quickly by
direct action of the legislature? If
he is so eager to help the old peo-
ple, why has he adopted a course
that means delay?

**THE BUGS WILL GET YOU IF YOU
DON'T WATCH OUT**

By T. C. Richardson, Associate
Editor Farm and Ranch
Breeder-Feeder Association

All insects are not bugs, strictly
speaking, but we can't be too tech-
nical in a few words. When we use
the short and ugly term "bugs"
every farmer knows we are talking
about one of his most persistent
enemies, though it may appear in
many forms and under a variety of
names.

Just at this season the cotton flea
hopper is a timely subject. It is one
of the most destructive and most
widely distributed cotton pests in
the Southwest, and yet is one of
the least understood, most difficult
to find, and therefore often robs

When this paper reaches the
readers, King George VI and Queen
Elizabeth of England will be guests
of the United States, the first reign-
ing king and queen ever to visit this
country. They will no doubt be ac-
corded demonstrative receptions
wherever they may appear, not
because the American people are
fawning or sycophantic in spirit in
the presence of Royalty but because
the King and the Queen are the
titular heads of a great country, a
country whose people too are close
kin to us and who have the same
democratic ideals in a large measure
as do the people of the United
States. We hope that their visit
may be most pleasant, unmarred by
a single unhappy or unfortunate
circumstance. Long live the King!
God bless the Queen!

Announcement was made along
about Friday of last week that
Vice-President John N. Garner
would actively seek the Democratic
nomination for the Presidency.
Then the Sunday papers carried the
announcement that ardent friends
of President Roosevelt would push
his candidacy for a third term. He
is preparing to make a trip to the
west coast at an early date to at-
tend the San Francisco Fair and to
make a side trip up to Alaska.
While it is not expected that he will
mention his probable candidacy, yet
everybody figures that this trip
across the country will have great
political significance. We are go-
ing to have hot times next year.

Judge Manton, a federal circuit
judge up in New York, has been
convicted of selling "justice". The
evidence it is said, shows a studied
course of bribery and corruption in
which he has been involved. We are
glad he got caught. A corrupt judge
is worse than a traitor. He is in
the same class as Benedict Arnold
and Judas Iscariot. Our courts
above all things should be kept
pure.

the grower of the early part of his
crop before the presence of the
pest is recognized. Farmers cannot
have a trained entomologist at beck
and call, but they can learn for
themselves to recognize the presence
of the pest and when to apply con-
trol measures.

No way has been found by which
to forecast with certainty whether
flea hoppers will cause damage or
when. When they do occur in dan-
gerous numbers they may be numer-
ous in one part of the field and
absent or scarce a few yards
away. They winter in the egg stage
and hatch out on weeds. As soon
as wings develop they can migrate
to cotton, which seems to be their
favorite summer host plant. Both
the winged, or adult, and the
nymph, or young, insect suck at the
embryo buds and cause them to
drop off, thus destroying the early
"set" before it reaches the "square"
or boll stage.

The nymphs are tiny active light
green or yellowish insects; the
adults look like pale, greenish white
flies about one-eighth inch long.
Dr. F. L. Thomas of the Texas Ex-
periment Station tells us that both
nymphs and adults are usually to
be found on horsemint in bloom or
the little low-growing yellow prim-
rose in spring. Shake the weed on
some clean surface and the flea
hoppers, if present, can be readily
distinguished from other small in-
sects. After learning what to look
for, anyone can identify the flea
hoppers on the cotton plant.

Look for the adults on the upper
surface of the foliage. Look for the
nymphs in the terminal buds, by
carefully opening the bud cluster
with thumb and finger. The nymph
if present, will show activity when
disturbed. If twenty or thirty hop-
pers are found to the hundred
plants it is time to get busy with
dusting sulphur. Examinations
should be made in different parts of
the field, and at least every week
until the crop is safe.

When cotton has six to eight true
leaves (not counting the two which
first "come up") it normally begins
to form fruiting buds, and should
set a new bud for every new branch.
If buds are not, "setting" where
they should be, or are falling off
before developing into "squares,"
it is a pretty safe guess that flea
hoppers are responsible, whether
the grower can find the insect or
not.

This is the stage (when the cot-
ton has about six true leaves)
when the grower must begin to
watch his crop for insects, and the
date may vary considerably in the
same community or even on the
same farm if there are different
plantings.

By this time, also, the boll weevils
which have survived the winter
may be coming out of hibernation
into the cotton fields. If weevils are
present at the same time flea hop-
pers are getting in their deadly
work, a combination dust (one-
third calcium arsenate and two-
thirds dusting sulphur should be
used, killing both insects with one
operation. Use a machine which
will shoot the dust with consid-
erable force right down through the
terminal buds of the cotton plants.

SOCIETY

Club and Church News

WAR DECLARED

All previously enlisted are called to arms, to report for duty not later than 9:45 a. m. Sunday, June 11th, ready for any and all duties pertaining to the greatest cause on earth. New recruits must be had. Volunteers are wanted for every department of service. Every Loyal Soldier urged to go afield to wake up, stir up all the careless, indifferent and unenlisted. "Go out into the high-ways and hedges and compel them to come in, that my house may be filled." This is the order from our Great Commander-in-Chief.

The First Baptist Church has declared war on the "Summer Slump" and is calling all members, all organizations, all departments to arms. How about you, departmental Superintendent, can we depend on you? Will you report next Sunday morning with a well organized department ready for war on the "Summer Slump"? How about you Adults? How about you Men's Bible Class? We are counting on you. This is the time for all good men, women, boys and girls to come to the aid of their church.

No less than 250 in Sunday School on any Sunday will be considered a victory; any less a battle lost.

The B. T. U. and the W. M. S. your church calls you. We need YOU! Be true to the colors, not a slacker, not yellow, but brave and ready at every call. Our motto: "They Shall Not Pass" until that much dreaded Monster is overcome.

Mr., Mrs., and Miss, you are invited to the "Neighborhood Church" for Neighborly People." Organized for your convenience with a class for every age, married or single. Air-conditioned rooms, comfortable seats where people step light and the music is soothing and you will go away quite refreshed and better for your having come.

Place: First Baptist Church. Time: Sunday School 9:45, preaching 11 a. m., B. T. U. 7:15 p. m., preaching 8:15 p. m. Prayer meeting Wednesday 8:15 p. m. These hours for service will be observed throughout June and July. We are not after you if you are attending some other church, but if not you have a welcome here. — Geo. A. Dale.

HOME ECONOMICS NEWS

Almost fifty Home Economics girls are taking summer work. A full month is planned. Under this plan there are two types of work; one is class work which includes improvement of the department and the other is home work which covers a wide range. Some girls are taking yard improvement, some clothing, and others cooking.

A Carlsbad trip is planned later in the month and other activities include a swimming party at Lubbock. When the month's work is all completed, June 30, an achievement day will be held so that all of the girls may see what the other girls have accomplished.

Officers for the Home Economics club have been elected for the next year as follows:

- President, Lenore Anglin.
- Vice-President, Mildred Cooper.
- Secretary, Letha Frances Wyatt.
- Treasurer, Dorothy Holland.
- Parliamentarian, Vasti Warren.
- Librarian, Ely Loyd.
- Reporter, Ida Botkin.

ANNOUNCEMENT MADE OF COMING MARRIAGE

Announcement has been made of the engagement and approaching wedding of Miss Ruth Ward of Willson to Mr. Kelly Hill of this city. The wedding is to take place next month.

Miss Ward is the daughter of Mr. and Mrs. W. W. Ward of Gordon and is a sister of Mrs. Vernon Davis of Tahoka. She is a Willson high school graduate. Mr. Hill is the son of Mr. and Mrs. I. B. Hill, Dixie community, and for the past year or more has been a valued employee in the office of the Farmers Cooperative Society No. 1 in Tahoka.

METHODIST CHURCH

The laymen of the Methodist Church will have charge of the services Sunday morning and Rev. Ben Hardy will preach at night, according to announcement given The News. There will be a special musical program in connection with the laymen's service.

Rev. G. E. Turrentine, the pastor, and his family are away on a little vacation this week. It is understood that they are visiting their old home in Georgia.

H. D. CLUB BOYS IN CONTEST

Four registered gilts will be awarded to four Lynn Club boys at the close of a contest being sponsored by Sears & Roebuck and to be decided by County Agent Don Turner and two other judges selected for the purpose. The decision may be rendered about the end of this week or early next week.

Contestants are required to write and submit to the judges an essay on The Cow, Hog, and Hen Plan of Farming. The essay counts 40 points and other considerations, such as the boy's attitude, industry, ambition, interest in the work, equipment, and his home surroundings, count for 60 points. Judges are supposed to take all these things into consideration in rendering their decision. The four boys making the highest grades are awarded the pigs by Sears & Roebuck.

The only string tied to the award is that when the gilt brings her first little of pigs, one sow pig must be given back to Sears & Roebuck.

Mr. Turner stated Tuesday that ten boys had already entered the contest in this county and it was believed that still others would enter.

Similar contests are being sponsored by Sears & Roebuck in at least four other South Plains counties and considerable interest in them is being aroused, Mr. Turner says.

DIXIE H. D. CLUB

The Dixie Home Demonstration Club met Thursday, June 1, in the home of Mrs. T. D. Lishman.

"Spending Leisure Time" and hobbies were the subjects for discussion. Reading, as a hobby, was

discussed by Mrs. G. B. Sherrard and Mrs. S. B. Francis, and Mrs. T. D. Lishman talked on the subject of "Service for Others".

An auction sale was held at which a number of useful articles, made by the members, were sold. The proceeds to be used to send a delegate to Short Course.

Mrs. Buel Draper resigned as club reporter, and Mrs. Lishman was elected to fill the unexpired term.

Refreshments of lemonade and cookies were served to the following members: Mesdames E. J. Cooper, G. B. Sherrard, B. C. Aycox, S. B. Francis, J. H. Knight, A. L. Dunagan, R. F. Janak, H. H. Nash, A. C. Aycox, J. T. Carlisle, T. D. Lishman.

One visitor, Edna Janak. The next meeting will be with Mrs. H. H. Nash on June 15.

Mr. and Mrs. A. A. Mourfield left Tuesday morning for Willard, New Mexico, to visit his brother. They also expected to visit Hot Springs and other points of interest in that state.

Mrs. A. M. Cade and daughter, Miss Iris Dean, went to Friona Wednesday to take her father, G. W. Taylor, to his home there. He had spent the winter here with the Cade family.

Deputy Sheriff Ed Sanders went to Lubbock a few days ago and brought back a local citizen on a charge of wife and child desertion.

Royal Misters

The eldest son of the king always bears the title of Prince of Wales and ranks next to the king in male precedence, but younger sons of the sovereign, though born princes, have no precedence beyond their near relationship to the king, until a dukedom is conferred upon them, when they become peers of the realm, says London Fit-Bits Magazine. Only the children, the brothers and sisters, the sisters or daughters-in-law, and the uncles and aunts of the king are entitled to be addressed as "Royal Highness." In the past this title has passed on indefinitely to all direct descendants of a king's son. But by the ruling of King George V in 1917, the title is confined to the children and grandchildren of the sovereign. The result will be that certain members of the royal house may in the future be plain Mr. or Miss Windsor.

Cut the Gordian Knot

Alexander Gordius, a peasant, being chosen king of Phrygia, dedicated his wagon to Jupiter, and fastened the yoke to a beam with a rope of bark so ingeniously that no one could untie it. Alexander was told that "whoever untied the knot would reign over the whole East." "Well, then," said the conqueror, "it is thus I perform the task," and, so saying, he cut the knot in twain with his sword. Hence, to cut the Gordian knot is to get out of a difficult or awkward position by one decisive step, to solve a problem by a single brilliant stroke.

Costliest Stage Production

"The Miracle," the play which opened at the Century theater in New York city on January 15, 1924, was the costliest production ever presented on the American stage, says Collier's Weekly. Before a ticket was sold for this drama, requiring eight principals and 700 supernumeraries, the entire interior of the gigantic theater, including the seats, was made to resemble the inside of a large Gothic cathedral at a cost of \$400,000.

ANGLINS WILL ATTEND OLD HANKINS' REUNION

Mr. and Mrs. W. S. Anglin and family will leave Sunday for Gordon, where they expect on Monday to attend the reunion of ex-students and teachers of the old Hankins Normal School.

This school was established in about 1903 by J. H. and J. F. Hankins, twin brothers, who now reside in Lubbock, and was operated as a private institution up to 1913. At one time, it is said, there were 500 students enrolled, but the institution closed its doors after operating for ten years.

Mr. Anglin attended the school, as did a number of other citizens now living in this immediate section.

Mrs. Aubrey Thomas and daughters, Cona and Corinne, of McAllen accompanied the former's brother, J. D. Donaldson, home on Thursday of last week and will spend about a month here with her parents, Mr. and Mrs. John Donaldson, and other relatives. J. D. had been attending the State Medical College at Galveston.

Chickens - Turkeys

Keep them Healthy—Give Star Sulphurous Compound in their drinking water or feed. It will kill germs contained in things they eat—preventing diseases practically all caused by intestinal germs and worms.

Also keeps them free of blood-sucking lice, mites, fleas and blue bugs; system toned; appetite, health and egg production good—Costs very little—Money back if not satisfied.—Wynne Collier, Druggist.

Headachy, Breath Bad? Make This Check-Up

The Police Siren means "Look-out!" And so do Nature's signals—headaches, biliousness, bad breath, which are often symptoms of constipation. Don't neglect your sluggish bowels, for a host of constipation's other discomforts may result: such as, sour stomach, loss of appetite or energy, mental dullness.

Help your lazy bowels with spicy, all vegetable BLACK-DRAUGHT. Acts gently, promptly, thoroughly, by simple directions. BLACK-DRAUGHT'S principal ingredient is an "intestinal tonic-laxative." It helps impart tone to lazy bowel muscles. Next time, try this time-tested product!

Mrs. C. A. Lawrence of Idalou was here Monday visiting her husband, who is assistant county agent. Mrs. Lawrence runs their farm while Mr. Lawrence is assisting others with their farm operations.

Mr. and Mrs. Dee Rogers have just had their home east of town remodeled and repapered throughout on the inside and repainted on the outside.

Miss Peggy Salem of O'Donnell spent the week end here with her friend Miss Iris Dean Cade.

O. R. O.

will rid your fowls of blue-bugs, fleas, and lice; also worms in stock and poultry, running fits of worms in dogs; mange or any skin disease; now 67c. Your money back if not satisfied. For sale by Wynne Collier, Druggist.

TIPPITT-FINCH
Miss Linnie Tippitt and Mr. Roy Finch were united in marriage at Lamesa Tuesday night, according to reports reaching the News office.

The bride is the daughter of Mr. and Mrs. T. I. Tippitt, who live about three miles east of town, and has been a teacher in the Tahoka public schools the past several years.

Mr. Finch is the son of Mr. and Mrs. C. M. Finch of the Edith community and has resided in that community and in Tahoka most of his life.

The couple have hosts of friends here who extend to them best wishes.

BAPTIST W. M. S.
The Bible lesson brought to the members of the Baptist W. M. S. by the pastor, Rev. Geo. A. Dale, at the Church Monday afternoon, was from the second General Epistle of Peter.

All three circles were represented at this interesting program as follows: Mmes. McIntyre, Caviness, Reese, Howell, C. Connolly, Dale, Coleman, Edwards, Oliver, Henderson, Holland, Hill, Pennington, McCord, Gaither, Durham, Paul Howell, and Rev. Dale.

Mrs. J. C. Roberts of Denon is here visiting her daughter, Mrs. Claude Donaldson, and family. Mr. and Mrs. Donaldson went to Altus, Oklahoma, for her last Saturday, where she was visiting another daughter, Mrs. Lincecum. Roberts Lincecum, the latter's son, also accompanied them to Tahoka and is the guest this week of his cousin, Claude Donaldson Jr.

Elder W. B. Robertson of Omaha and his daughter, Miss Una Robertson, a teacher in the Ennis High School, are here for a visit of several days with W. O. Robertson and family. The visitors are the father and the sister respectively of W. O. Robertson. This is their first visit to Tahoka. Elder Robertson is a minister of the Primitive Baptist Church.

Miss Mauryce Giles, daughter of Mr. and Mrs. J. A. Giles of Redwine, returned to the Tech Monday morning for the summer term. She expects to complete her junior year work there this summer and will be a senior next fall. Miss Mauryce has been making a good record in the Tech and enjoys the work very much.

James Foster and Paul Casebeer, who were students the past year in the New Mexico Eastern Junior College at Portales, are home for the summer. They are well pleased with the school, which they say is growing rapidly. About 800 students enrolled the past year.

J. D. Donaldson, who has been attending the University of Texas Medical College at Galveston, arrived home last week end and has again gone to Lubbock where he will spend the summer getting some practical experience in the Lubbock Sanitarium.

Mr. and Mrs. Liff Taylor and the former's parents, Mr. and Mrs. W. E. Taylor, left Friday to visit Mr. and Mrs. F. A. Robinette at Robstown. They expected to be gone a week or ten days.

Mr. O. L. Kidwell and Mrs. Lee Holden and baby of Rochester spent the week in Tahoka visiting his son and her brother, W. T. Kidwell. They returned home Sunday afternoon.

Mr. and Mrs. J. A. Giles of Redwine expect their son Bruce to be home Saturday. He has been a student in the Panhandle Agricultural College at Goodwell, Oklahoma, the past year.

Mrs. Daisy McCain of Roby left for her home Thursday morning after a six weeks visit with her daughter, Mrs. Dee Sanders out at the T-Bar headquarters.

Mr. and Mrs. W. S. Skiles and son, Billy, of Dallas, arrived Wednesday for a few days visit with Mr. Skile's sister, Mrs. C. A. Thomas, and family.

NEW HOME F. H. A. HAS MEET

The New Home Future Homemakers Club met at 2:00 p. m. June 5.

The following officers were elected for the coming term:
President, Wanda Weyrick.
Vice-President, Nell Shadden.
Secretary-Treasurer, Ethel Kyzer.
Reporter, Thelma Ruth Strain.
Song Leader, Wanda Weyrick.
Pianist, Thelma Ruth Strain.
Parliamentarian, Colene White.

The object of the meeting was to report on summer projects students are taking. These projects include making if quilt tops, testing recipes, making summer wardrobes, poultry and garden work.

There were five visitors present: Mrs. W. W. Ponter, Mrs. Jasper Reid, Mrs. Gannaway, Mrs. L. R. McCormick and Mrs. Ponters' little daughter.

Refreshments were served and pictures were taken by our instructor, Miss Joye Pace. It was enjoyable as well as profitable. The next meeting will be June 13.—Reporter.

LEGION AUXILIARY

The American Legion Auxiliary will meet at the Legion Hall Tuesday, June 13 for a district report and a school of instruction.

Miss Ethel Norris, daughter of Marshall Norris, an employee of the Burleson Grain Company and who lives in southeast Tahoka, was taken to a Lubbock hospital Friday night suffering from appendicitis. Upon arrival her appendix was found to have ruptured and much pus had formed. She is in a very critical condition but hopes for her recovery are held.

Robert Maddox is home from Austin, where he has completed his second year as a student in the University of Texas. He thinks the University is a great school.

BE A BETTER COOK

with a new **GAS RANGE**

YOU can make all sorts of exciting new dishes on one of these marvelous new Gas Ranges. Boiling's a cinch with the smokeless broiler. Ovens have a whole new bag of tricks. They give higher heat than ever before—and hold a lower temperature as well.

You can make vegetables more delicious the "waterless" way on the simmer burners.

Visit your dealer and see these handsome new Gas Ranges. They are so sparkling, smart, modern. He will be glad to show you the many different models.

For quick results, try a classified ad. in The News.

HIGHWAY NO. 380 WILL RECEIVE MORE WORK

(Cont'd. from page 1)
 be procured from the sand beds that extend across the country two or three files north of Tahoka.

On another type, a soil mixture is to be used for the base, and on the third type, caliche will probably be used.

These types of highway are to be constructed, according to the county judge and the commissioners, after thorough and long-continued chemical tests of the soil along this route have been made in the chemical laboratory of the A. & M. College under the direction of state highway engineer Julian Montgomery.

Nobody knows yet what the probable cost will be but Judge Goad expressed the opinion that the construction would be rather expensive, and he says he has been assured by the highway department that this will be one of the best highways in West Texas.

What the actual results will be remains yet to be seen.

In the meantime, work is proceeding slowly on this highway Garza county. The Garza section of this road is being built as a P. W. A. project and a caliche base is being laid. Six miles of base remains yet to be laid, we are informed. Local officials are informed, however, that it is hoped that the entire length of the highway from Tahoka to Post may be completed before cold weather comes again.

Somewhere in Texas a small lizard may be alive today because Dr. A. J. Nicholson, game department manager of region 4, saw a big king snake swallow it near Bastrop recently and was interested form a scientific standpoint in ascertaining the nature of the reptile's food. Dr. Nicholson killed the snake and when he slit it, out scampered the lizard and it raced for the woods.

J. D. Martin of Draw, father of Mrs. H. C. Story, has been critically ill for several days and the family are very anxious about his condition.

Miss Mary White, journalism student in Texas Tech, is home for the summer.

Don't Sleep When Gas Presses Heart

If you can't eat or sleep because gas bloats you up try Adlerika. One dose usually relieves stomach gas pressing on heart. Adlerika cleans out BOTH upper and lower bowels. WYNNE COLLIER, DRUGGIST

Feeding Tests Are Being Made

The United States Dry Land Experiment Station, Big Springs, Texas has been conducting feeding experiments at this point for a number of years. These tests have been planned with the object in view of finishing West Texas cattle on West Texas grown feed.

This year, feeding tests will be completed June 16, at which time a feeders' Day meeting will be held. The morning will be devoted to looking over the cattle, having them appraised by a packer representative, and general visiting. Lunch will be served at noon, after which, the program will follow. The result of this test will be discussed at this time.

Mr. J. M. Jones, Chief of Division of Animal Husbandry of Texas Experiment Station of A. & M. College, and other members of the Texas A. & M. Experiment station staff, will discuss other problems connected with the feeding of cattle.

Winter Knight returned Tuesday from a week-end visit with his family at Ruidoso, N. M.

1206 Women Say "Yes" to Query

If 93 out of 100 users picked at random declare they were helped by a medicine, would you believe in its merit? Record of the famous Query among women of leading cities in 12 Southern States shows 1206 out of 1297 users queried say CARDUI helped them. That figures 93 out of 100! What a record! Women all over the South are eager to tell of their experiences with CARDUI. They were weak, rundown, nervous. Those are symptoms of functional dysmenorrhea due to malnutrition, which CARDUI helps to relieve by stimulating appetite and digestion and building physical resistance. Try CARDUI!

Mr. and Mrs. Sam Holland and daughter Dorothy went to San Saba Wednesday of last week to see her uncle Will Squires, who was seriously sick. He died Friday and was buried Saturday, and the Hollands returned home Sunday.

Mr. and Mrs. B. H. Howard and Grady Howard of Lubbock visited Mr. and Mrs. Harley Henderson and Mr. and Mrs. Frank Hill Sunday and Monday.

Skills Thomas, who has just finished his second year in the Medical College of the University of Texas at Galveston, is home for the summer. He is the son of Mr. and Mrs. C. A. Thomas.

City Makes Deal To Buy Sewer System

Old Timers Reunion Saturday, June 4th

The program for the Old Settlers Reunion to be held here on June 24, has been prepared and furnished the News for publication. The program and entertainment committee consists of W. E. (Happy) Smith, Miss O'Berger Forrester, Mrs. Nettie Edwards, Miss Clara May, and Mrs. Era Stewart.

Registration will begin at 9:00 o'clock Saturday morning, with Mrs. Pearl Price and Mrs. Frankie Fentol in charge.

The program will be enlivened with music at appropriate intervals by old-time fiddlers and other musicians.

Gyles Shaw will lead in the singing of the opening songs.

E. T. Wells of O'Donnell will deliver the welcome address, which will be followed by a talk by Judge G. E. Lockhart, now of Lubbock.

Following a business meeting, a barbecue dinner will be served at the noon hour.

In the afternoon, the crowd will be entertained by the noted local fiddlers, Morris and Wells.

A sing-song by the old-timers will be conducted by Mrs. Claude Donaldson.

Prizes will be awarded to the following: The oldest pioneer woman, the oldest pioneer man, and the pioneer who travels the furthest to attend the reunion.

Jim Weatherford will lead an old-time square dance, and a prize will be awarded the best jig dancer. A special musical number will close the afternoon meet.

The old-timers will assemble on the courthouse lawn at 7 p. m. to enjoy a band concert.

A dance at night is scheduled for the old-timers, with Hall Robinson as chairman of the committee.

It is hoped and expected that old-timers from all over the South Plains and from other places will be present to enjoy this gala occasion.

Jester's Injured Hand Healing

We guess every newspaper man feels humiliated when he finds that he has failed to mention a news item that he just simply overlooked. Well, any way, we are glad to report that A. D. Jester's hand is still healing, even though slowly.

Nearly three weeks ago he got his hand caught in the cog wheels of a cotton planter and the thumb was amputated at the first joint. The bones of the upper portion of the thumb were also badly broken.

He underwent a minor surgical operation in the office of a local physician, who has since been treating the injured member. Mr. Jester says that the wound still pains him greatly at times but he is thankful that the whole hand was not lacerated or crushed.

Mr. Jester lives on the Hubert Tankersley place near the west line of the county.

MRS. GLADYS STOKES IS GIVEN FREE TRIP

Mrs. Gladys Stokes will leave early next week for the convention of Southwestern Life Insurance Agents, which meet this year in Colorado Springs, Colorado.

Each local representative of the Company who has written \$100-worth of life insurance during the past year will be given a free trip to the convention with all expenses paid while there. Mrs. Stokes has earned a free trip to the state convention each year for the past several years. This is the first time that the state convention has met outside of Texas.

The condition of Mr. H. D. Calahan, 79, who has been seriously ill for several days, is said to have taken a turn for the worse Wednesday afternoon and it was doubtful if he would live through the day Thursday.

Three Jailed For Chicken Theft

Three men were arrested and placed in jail here a few days ago on charges of chicken theft.

The chickens were stolen from Tom Lishman living a few miles north of Tahoka and S. B. Miller residing on the Littlepage farm in the Midway community, Lishman losing 17 from his hen roost and Miller 23.

The fowls were taken to O'Donnell and sold to a merchant there. Complaint was made to the sheriff and Messrs. Parker and Sanders immediately got on the job, with the result that the chickens were located and the accused men cast into jail.

Change Made In Band Schedule

Every musician in Lynn County is invited to attend the band practices and band classes which are being held on the fourth floor of the court house in Tahoka.

Regular band practices are from seven to eight o'clock Tuesday, Thursday, and Friday nights of every week.

Beginners classes will meet as follows: Reed instruments, 9 to 10 o'clock Monday mornings; Brass instruments, 2 to 3 o'clock Monday afternoon. All beginners will meet from 2 to 3 o'clock every Thursday afternoon for full band practice.

Advanced classes will meet as follows: Reed instruments, 10 to 11 o'clock Monday morning; Brass instruments will meet at 3 to 4 o'clock Monday afternoon; Percussion, or drums, 3 to 4 o'clock Thursday afternoon.

Class instruction is free to the general public.

Several instruments are available for rent.

Agents Attended District Meetings

County Agent Don Turner and H. D. Agent Miss Maurine McNatt attended meetings of the district agents in Lubbock Monday.

A. & M. Extension district No. 2 comprises nineteen counties of the South Plains and adjacent territory and Mr. Turner says that all the county agents except one were present. Most of the home demonstration agents in the district also were present in their meeting, it is said.

The farmers short course and 4-H club work were matters that received the attention of the agents.

RELATIVE DIES

W. E. (Happy) Smith and his mother, Mrs. H. C. Smith, were called to Dudley near Abilene early last week by the illness of his aunt Mrs. Alice Grantham, a sister of his father. She died Tuesday and funeral services were conducted Wednesday. Deceased was 77 years of age. Mr. Smith and his mother returned home on Thursday.

DEE ROGERS IMPROVES

The News is informed that Dee Rogers, who has been practically helpless for a long time, is now able to be up and to walk about the place with no other aid than a walking cane. His power of speech, which was also greatly impaired by a stroke of paralysis two years ago or more, is also much improved.

Miss Madeline Russell is home after having spent several months in the West Texas State Teachers College at Canyon. She hopes to re-enter the college in the fall.

O'Donnell Seeks New Highway

A number of prominent citizens of O'Donnell were here last Friday conferring with Judge P. W. Goad respecting a proposed new highway designation from O'Donnell westward via Welch to Seagraves.

The party consisted of Waldo McLaurin, county commissioner, B. M. Haymes, Mayor, Marshall Whitsett, druggist and president of the O'Donnell Rotary club, J. L. Shoemaker, banker, Hervey Gardeshire, business man, Rev. J. H. Crawford, pastor of the Methodist Church, and W. G. Forey, editor and publisher of the O'Donnell Press.

The original purpose of the O'Donnell citizenship was to make application for a new highway from Seagraves eastward to O'Donnell and thence southeast to Gall in Borden county. It is doubtful if the Gall section of the proposed highway will be urged upon the state highway commission at this time, however. A strenuous effort will be made to secure the designation from O'Donnell to Seagraves. Such a highway would serve many people and it is probable that in the course of time it will be designated and built.

Court Attends O'Donnell Club

The entire membership of the commissioners court consisting of Judge P. W. Goad and commissioners Tom Hale, Sam Holland, Geo. Small, and Waldo McLaurin, together with Aubra Cade, Rollin McCord, Jack Welch, Happy Smith, Bascomb McCord, J. O. Tinsley attended the regular weekly luncheon of the O'Donnell Rotary Club Tuesday.

The boys report that the luncheon was very fine and the program excellent. C. L. Hafer discussed the Aims and Objects of Rotary and Waldo McLaurin reported on the progress being made on efforts to procure designation of a highway from Seagraves to O'Donnell and thence to Gall. He thought the prospects for success were favorable.

Openings in Marine Corps, Smith Says

Postmaster Happy Smith announces that he has been advised that the quota of enlistments for the month of June assigned to the United States Marine Corps recruiting district of Dallas, headquarters for Texas and Oklahoma, has been set at thirty-seven.

Young men between the ages of 18 and 25, of good moral character and who have had high school training are eligible to make application. Application forms may be obtained at the Post Office or by writing to the Marine Corps Recruiting Office, Dallas, the Postmaster said. Those accepted will be enlisted and immediately transferred to the Marine Corps Base San Diego, Calif., for basic instructions preparatory to assignment to regular duty.

COTTON IS UP

Judge and Mrs. J. W. Elliott returned Saturday from a ten days visit to Corpus Christi. The Judge says that crops in the immediate vicinity of Corpus Christi are excellent but as one comes this way they become "spotted" and in places they appear to be almost a complete failure.

AAA MEN HERE

V. L. Cade of Slaton, a member of the state AAA committee and a brother of Aubra Cade, and J. Lynn Mauk, field man for district 2 of the Texas A. & M. College extension service, were here Wednesday conferring with County Judge P. W. Goad.

Get your Bug Stamps at The News office.

Highway 380 Will Receive More Work

The News is publishing this week a notice to the effect that bids for the surfacing of nearly six miles of U. S. Highway No. 380 east of Tahoka will be received by the state highway department on June 30.

The project will begin three miles east of Tahoka and extend eastward from that point a distance of 5.717 miles. The notice calls for bids for roadbed treatment and double asphalt surface treatment.

Just what "roadbed treatment" in this instance means is not made clear.

Mr. F. C. Stanley of the office of Lon C. Ingram, resident engineer at Lubbock, who brought the notice to the News office for publication, stated that three types of road are to be constructed on this 14-mile stretch of highway in Lynn county.

Judge Goad and members of the commissioners court likewise say that three types of road are to be constructed. On one type, pure-dee old blow sand is to be used in lieu of caliche as a base. The sand is to

(Cont'd. on back page)

Softball Will Be Revived

The first softball game of the season was to be played here Thursday night after this paper had gone to press. The young men's class of the Baptist Sunday School, of which G. W. Simmons is the teacher, was to be matched against the Grassland team.

Mr. Simmons this week raised a sufficient amount of money among the business men to pay the cost of having lights installed on the softball grounds, and everything is ready for the season's run.

All who are interested in the organization of a team for the summer are requested to assemble on the courthouse lawn about dusk Friday night. It is hoped that several teams may be organized at that time, Ray Weathers says.

Carrier Meeting Is Next Week

H. L. Roddy and other local mail carriers are making plans for the entertainment here on Saturday, June 17, of the carriers of the 19th Congressional district.

The general meeting will be held in the First Baptist Church at 7:30 p. m. followed by a meeting of carriers and a meeting of the Ladies Auxiliary.

Mr. Klattenhoff of Slaton is president of the district organization.

Among those attending the meeting will be Inspector McCullough of Fort Worth and President E. E. Smith of Colorado of the Texas Rural Letter Carriers Association.

ATTEND OLD SETTLERS REUNION AT WHITE FLAT

Mr. and Mrs. Borden Davis and daughter Gwynelle, Mr. and Mrs. Vernon Davis, and Mr. and Mrs. Eugene Roland and two daughters, Leta Dell and Verna Lois, attended an Old Settlers Reunion down at White Flat fifteen miles east of Sweetwater last Sunday, where the Davis brothers and Mrs. Roland resided as children.

Borden says that his Sunday school teacher when he was a member of the "card" class was there and called the roll of her former pupils and a dozen of them or more were present and answered to their names, and he declared that the woods were full of old-timers.

Miss Eloise Roberts, daughter of Mr. and Mrs. Oscar Roberts, left Monday for Stephenville, where she is to spend six weeks as a student in John Tarleton College. She is preparing to enter the T. C. U. in Fort Worth in the fall.

Tahoka Roundup Plans Are Made

In response to a previous call, about fifteen or twenty business men met at the courthouse Wednesday night to discuss matters pertaining to the rodeo to be held here August 24 and 25.

The body decided not to provide a barbecue feast this year as was done last year. It is presumed that the rodeo will be staged, however, as it has been the past two years. Further announcement will be made later.

Burleson Buys Out Parkhurst

W. L. Burleson perfected a deal with D. A. Parkhurst early this week whereby he becomes the owner of the whole Parkhurst block on which the Parkhurst warehouse and the service station are situated.

Mr. Burleson intends to lease out the service station, utilize the unoccupied portion of the warehouse as a workshop, and establish a wrecking yard in the rear. The Weathers grocery store and the cafe being operated in a portion of the building will continue under the same management.

Mr. and Mrs. Parkhurst are planning to leave in their car Saturday for an unannounced destination, to be gone all the remainder of the summer. It is understood that they will be back in the fall. They are retaining their home here.

Two Railroad Officials Resign

Two of the best known railway officials in the Southwest voluntarily retired from service with the Santa Fe Railway System this week.

They are J. N. Freeman, secretary-treasurer of the Panhandle and Santa Fe Railway, and E. E. Machovec, mechanical superintendent of the Southern district, Santa Fe Western Lines. Each has served more than 50 years in the railway business.

Both are residents of Amarillo. Banquets honoring the two executives were arranged by company officials and employees.

Freeman succeeded in office by Ed F. Browder, and W. R. Harrison, formerly superintendent of shops at Albuquerque, was named to the post vacated by Machovec.

ATTENDING TECH

Carl Nowlin, who teaches vocational agriculture at Grenville, New Mexico, is here staying in the home of N. E. Wood while taking a three weeks agriculture course in the Texas Tech. He and Leslie Browning, the Tahoka agriculture teacher, and J. H. Felts, the band director, go up and come back together each day. The latter also are attending the Tech.

FIRST AID SCHOOL

The First Aid School being conducted in the Boy Scout hall is being well attended by adults as well as boys, according to reports received at the News office, considering the fact that this is the first such school ever conducted in Tahoka. It will continue until Friday night of next week.

WELLS CITIZEN ILL

Mr. James Carpenter, an aged citizen of the Wells community, was taken to a sanitarium in Lubbock Wednesday afternoon in a Harris ambulance for treatment. He was reported to be in a serious physical condition.

\$15,000 Price Set For Entire Sewer Plant Here

Tahoka's City Officials Consider Price Low; Deal Is Nearing Completion

Through the kindly offices and business acumen of Mayor Deen Nowlin, the City Council has practically closed a deal with the Southern Sewer Company of San Antonio for the purchase of the sewer system in Tahoka. A few weeks ago the City made an offer to the Company of \$15,000 for the plant, and after some sparring the Company notified the Mayor a few days ago that the offer was accepted.

Judge C. H. Cain represented the City in the legal phases of the matter and it is understood that some technical wrinkles will have to be ironed out and certain legal procedure taken before the deal can be fully consummated. It is not anticipated, however, that there will be any serious hitch in the completion of the deal.

The system, originally represented an investment of nearly \$50,000, it is said. Three years ago, it was offered to the City for a consideration of \$25,000, and the city council seriously considered the purchase at that figure at that time. Somebody threw a monkey wrench in the machinery, however, and the deal did not go through.

The members of the City Council feel that they are now getting the plant at a real bargain. They and the mayor in particular, are to be commended for procuring this property at so low a figure.

It is the intention of the city council, we understand, to greatly reduce the rates as soon as possible after the City acquires the property and to then take steps to induce many other property owners in the city to connect up with the system. Many verbal complaints have been made to the mayor and the city council, it is said, respecting numbers of privately owned cess pools scattered over town, some of which have become offensive to the neighbors. Most of these owners and many other residents, it is believed, will be glad to connect up with the sewer system as soon as the rates are reduced.

Fine Jerseys Brought Here

Three registered Jersey Heifers and one registered Jersey Bull were purchased through the Farm Security Administration last week and placed on farms in Lynn County according to County Supervisor, Jack Welch.

The heifers came from Van Alstyne, Texas, and the bull from Dallas out of the C. M. Evans herd. This bull came from the Sybil herd of breeding and his full sister was selected for the American Jersey Cattle Club view herd exhibit at the Texas Centennial Exposition.

The bull will be used as a co-operative bull service in the Draw Community. He is located on the Lynn Smith farm 2 miles south of Draw.

50-Year Low For Cotton Predicted

Austin, June 8.—Dr. A. B. Cox, University of Texas cotton expert, today predicted a 50-year low for United States cotton exports this year.

Dr. Cox, director of the University Bureau of Business Research, estimated exports this year at less than three and a third million bales, compared with an average predepression total of nearly eight and a half million.

"The big reason why the United States has lost foreign markets for cotton is that it has not been willing to sell at world market prices," he declared.

Craft Sent To Rotary Meet

Leonard Craft, president-elect of Tahoka Rotary Club, will be sent to the annual convention of Rotary International, which meets this year in Cleveland, Ohio, June 19-23, the Club decided at its regular meeting Thursday noon. He will leave the middle of next week. The club also voted to buy "sweat" shirts for a Rotary Club team in the city softball league. Rollin McCord furnished the principal number of the program, in the form of questions and answers, which was somewhat educational and humorous and exposed the Rotarians' ignorance. edprin shw receivesto Desouini Assistant Attorney General M. C. Martin of Austin was McCord's guest, Bob Spikes the guest of his father, Houston Spikes, and M. L. H. Baze was a visiting Rotarian. Supt. W. T. Hanes also expects

to attend Rotary International while he and his family are en route to the New York World's Fair.

Terracing Pays Large Dividend

Lamesa, Texas, June 8.—Comparing records for several years prior to 1931, L. R. Earnest found that his 120-acre farm nine miles south of Lamesa was yielding about \$175 less annually than was an adjoining farm of about the same area.

Since both farms are of sandy loam soil and he and his neighbor were using practically the same farming methods, Earnest set out to determine why his income was constantly lower than that of his neighbor.

Observations during heavy rains revealed to Earnest that a lot of the water was running off the slopes on his farm and was being lost for use in growing crops on his land. Run-off water on the neighbor's farm was far less because on the slopes were not near so steep. Then Earnest observed that this run-off water not only was being lost for crop use, but also that the rush of water during heavy rains was cutting gullies in his fields and was resulting in moderate sheet erosion.

Earnest saw the need for conserving water and soil if he was to prevent his farm from becoming less productive. In 1931, he terraced his field and then started growing cotton in annual rotation with soil-conserving crops such as sorghums.

"Since my field was terraced the loss of water through run off has been practically eliminated," Earnest stated. "My crop yields have been greatly increased and erosion has been practically eliminated. The growing of soil-conserving crops in rotation with cotton gives me feed for my livestock and a cash crop, too. I have found that by conserving practically all the water that falls on my land, I have greater assurance of producing a crop during years of low rainfall and that I have crops of more uniform stand. "Since 1931, when I terraced my field, my farm has been providing as much or more cash return than my neighbor is getting from his more level field which he has continued to farm in straight rows," Earnest declared.

This year Earnest is entering into a cooperative agreement with the Soil Conservation CCC camp at Lamesa whereby he will carry out a complete program of better land use and erosion practices. He believes that the use of additional conservation practices may make his farm even more productive.

Mrs. Price Thomas of Grassland is sick this week of the measles. In fact she contracted the disease last week, we understand, but did not know the nature of the disease until about the first of this week.

Truett Cooper, who has been a student in the Texas A. & M. College the past year, is home for the summer. He is the son of Mr. and Mrs. E. J. Cooper.

John Heck of Wilson reports that he has the earliest crop this year he has had since he has been on the Plains. Too, he has not had to plant over but 40 acres. Not yet.

F. C. Stanley of Lubbock, a former citizen of Tahoka, was here Monday on business for the state highway department.

Mrs. Tom Reid and sons, Herman and Charles, are on a visit to East Texas and Arkansas. They expect to be gone about two weeks.

Gas Gas All Time

Mrs. Jas. Filler says: "Gas on my stomach was so bad I couldn't eat or sleep. Gas even pressed on my heart. Adlerika brought me quick relief. Now, I eat as I wish, sleep fine, never felt better."

Women Answer From 12 States

To date, Touring Reporters have visited the principal cities of 12 Southern states; have asked 1297 users their famous question: "Did CARDUI help you?" Of those 1297 users, 1206 said they were definitely benefited by CARDUI. That's 93 out of every 100. What a record! CARDUI is a good stimulator for lagging appetites, a real aid to digestion and assimilation. That's why its proper use enables so many women and girls to build up physical resistance, and thus helps them avoid the periodic pain of functional dysmenorrhea due to malnutrition.

Mrs. Roosevelt Is For Field Army

Mrs. Franklin D. Roosevelt, first lady of the land, urges support for the Women's Field Army in a statement made public here today by Mrs. Emil Prohl.

Mrs. Roosevelt's full statement follows:

"The Women's Field Army of the American Society for the Control of Cancer is doing good work against one of the most serious disease threats to health and life. Through meetings, radio programs, and conferences, the Army teaches men and women the symptoms of cancer and the vital importance of early diagnosis and treatment.

"The Army seeks not only to teach the individual how to protect himself but also to interest the community in all aspects of cancer control, including diagnosis and treatment, research, and the needs of the underprivileged victims of the disease.

"The goal of the Field Army is an excellent one and its methods of work have been carefully planned. Education is a slow process, but eventually the Army hopes to save thousands of lives from cancer. I share this hope and urge that each one give the Army some measure of support."

Mrs. Roosevelt is honorary Chairman of the National Advisory Board of the Women's Field Army Against Cancer.

Robert Spikes, son of Mr. and Mrs. Houston Spikes, is home from Lubbock, where he has been attending Texas Tech.

Lee Dodson, Tahoka high school principal, is in West Texas State Teachers College this summer doing work on his Master's degree.

Larue North of Harper has been visiting Mrs. Jim Wetzel the past week.

Anglers are reminded that it is now illegal to fish from bridges on roads in Texas maintained by the State Highway Department. The bill providing this was passed recently by the state legislature as a safety measure when it was pointed out that several hundred persons were killed or injured last year while fishing off bridges. It is also illegal to leave fish on bridges.

Mr. and Mrs. Carl Prohl arrived Saturday from Dallas, where he has been attending Baylor Dental School, to visit about two weeks with his brother, Dr. Emil Prohl, and wife.

Try a News classified ad.

Mrs. F. E. Redwine and daughter, Miss Jewell, are visiting the former's sister at Farmington, New Mexico, and have been visiting a brother at Belen. They expect to be away several weeks.

WE DEDIVER

ELDER DRENNON'S NOTES

We had a fine day last Sunday with a fine married man surrendering his life to Christ. What a fine thing to do!

Our subject last Sunday morning was, "Our Duty to Self". How many realize the great debt we owe ourselves that no one can discharge but us. While we are discharging that debt, we must not forget the debt we owe others. I think our present sad plight is due to the fact that many people do not realize their obligation to society and that to a certain extent we are our brother's keeper.

Selfishness is one of the causes of most of our national and international troubles. What a fine thing it is to learn to live with and for others and to treat them as we would like to be treated.

While the political pot is boiling the better citizens had better be thinking. One of our great needs is for people to think for themselves. We have too long let the politician do our thinking for us. While we throw up our hands in horror at Hitler and his tactics, yet I am afraid we will get in similar condition as Germany if we do not do some serious thinking and vote intelligently.

Right here in our fair Texas look at conditions at Austin. Some of our legislators act like school boys. We need to be more careful who we send to Washington and Austin to make our laws, and the better citizens need to take more personal interest in our government and its work.

I want to commend Editor Hill on his stand against the Catholic priest, and his hand in our racial problem and we might add political problems as well. We Protestants sit idly by and let them take money out of the public treasury to run their private schools. Why should not they uphold our free public schools? They make a great howl when we want to read the Bible in our schools and have had it ruled out in many states and yet want us to support their church schools. I don't think it fair.

Another great problem that confronts us is the teaching in our great state schools. It seems that in some of them things are being taught our boys and girls that are not best for our great free government and Christian homes. We need to safeguard our teaching because teaching shapes our lives.

Years for more people who are not ashamed or afraid to do right every time. Visit the friendly church where friends meet and greet.—R. P. Drennon.

NOTICE OF DISSOLUTION OF PARTNERSHIP

Notice is hereby given that the partnership between R. K. Wootten, Effie D. Wootten, J. W. Simmons, Rebekah Simmons, G. A. Simmons and T. B. Simmons (or any of them) under the firm name of Quannah Cotton Oil Company, was dissolved on May 31, 1939. The business will be continued in the name of Quannah Cotton Oil Company, a Texas corporation. All debts and obligations owing by the partnership should be presented to the partnership at Quannah, Hardeman County, Texas.

This notice is published once each week for four consecutive weeks in each of the counties where the partnership has a place of business, as required by Article 8132 of the Revised Civil Statutes of Texas. Dated at Quannah, Texas, May 31, 1939.

Quannah Cotton Oil Company, a partnership, By J. W. SIMMONS, Rebekah Simmons, G. A. Simmons, T. B. Simmons, Surviving Partners. John B. Wootten, Executor and trustee of the estate of R. K. Wootten, deceased. Effie Wootten Siddons, Executor and trustee of the estate of R. K. Wootten, deceased, and as executor and trustee of the estate of Effie D. Wootten, deceased. 43-4tc.

Farmers from various parts of the county report that most of the cotton is either up to a good stand or is coming up. Some report that some of their plantings are not up yet, and most of the farmers would like to see a good rain now. In Tahoka, not quite three inches fell during the entire month of May, which is somewhat below normal for the month.

W. A. Reddell and family left Friday to bring Miss Anita home from Belton, where she has been a student the past year in Baylor College. They returned home Sunday.

CARD OF THANKS

We wish to express our deepest thanks in appreciation to Dr. Thompson and each of our friends and neighbors who assisted us in any way during the illness and death of our dear mother and grandmother, Mrs. J. W. Reid. Your deeds of kindness and words of sympathy will be long remembered. May God's richest blessings rest on each of you.—Mrs. Emma Hatchel and boys; Mr. and Mrs. C. T. Levens and children; Mr. and Mrs. J. E. Reid and children; Mr. and Mrs. W. W. Reid and daughter; Mr. F. B. Reid and children.

Robert Maddox and Joy Edwin Brown left Tuesday for Ruidoso, New Mexico, where they expected to find employment for the summer.

Regimental Colors Serve as Official Army Record. The Lancashire Fusiliers wear roses in their hats when celebrating to recall the battle of Minden, where the Twentieth Foot, East Devonshire regiment (which became the Lancashire Fusiliers in 1881) fought in rose gardens, says a writer in Pearson's London Weekly. The Royal Welch Fusiliers wear the "flash," a black silk rosette. It once protected the red coat from the powdered pigtail. The Gloucestershire regiment, the old Twenty-eighth, wear their regimental badge on the back as well as the front of their caps. This is because in the Peninsular war they were once attacked both from the front and rear and had to face about to repel the enemy. The Royal Fusiliers, Buffs and Royal Marines have the exclusive right of marching with bayonets fixed through the city of London, because they were formed in the Seventeenth century out of the city's trained bands of militia. But it is generally on the regimental colors that the regiment writes its history. For instance, the king's color of the South Wales Borderers bears a silver wreath in memory of the lives that were given to save it from capture at Isandhlwana. The Queen's, Royal West Surrey, have a Paschal lamb on the regimental flag. It was the crest of Queen Catherine of Braganza, in whose honor the regiment was raised by King Charles II to garrison Tangier. Regiments with a record of service in Egypt have a sphinx on their flag; a tiger means that the unit fought in Bengal; a castle surmounting a key represents the fortress of Gibraltar; the regiments with it on their flag served through the four years' siege of 1779-83. A rose below a crown denotes the six British regiments which fought in the Dutch service in the Seventeenth century. In fact, the regimental color is the regiment's record and it is to honor these deeds from a great past that people take off their hats when the colors are carried by.

Breath Bad, Logy? You May Need This. Just as the lighthouse flashes a friendly warning to sailors, so Nature sends out headaches, bad breath, biliousness, which often warn of constipation. Too many misunderstand or neglect these symptoms and thereby may invite a host of constipation's other discomforts: sour stomach, belching, loss of appetite or energy. Be wise. Take spicy, all vegetable BLACK-DRAUGHT tonight by simple directions and clear your bowels gently, promptly, thoroughly. This intestinal tonic-laxative helps give tone to lazy bowels. Its long life and popularity testify to BLACK-DRAUGHT'S merit.

NOTICE TO THE PUBLIC

Any erroneous reflection upon the
reputation or standing of any indi-
vidual, firm or corporation, that
may appear in the columns of The
News will be gladly corrected when
called to our attention.

It seems evident to us that the
state highway department is mere-
ly experimenting with a cheap type
of road on U. S. highway No. 380
from Tahoka to the Garza county
line. Whether this experiment
proves to be a success or a failure,
nobody should hold the commis-
sioners court responsible in any
degree, for the highway commis-
sion and not the commissioners
court determines the type of road
to be built. The county judge and
the commissioners court have work-
ed faithfully and hard to get work
started on highway No. 380 and
are to be commended for their ef-
forts. We hope that the road, when
completed, will be one of the best
in the West, as the commissioners
believe. Furthermore, we confess
that we know practically nothing
about roadbuilding, but when we
are told that blow sand is to be
used as a base on a part of this
road and a "soil mixture" on an-
other part, and since we know of
no other roads that are being con-
structed or have been constructed
in West Texas recently in such
manner, we must conclude that this
is an experiment. The highway
commission, it will be remembered,
experimented in the construction of
this same highway west of Tahoka
a few years ago. It soon became
necessary to patch and partly re-
surface this road, and that portion
of it extending from the Lynn coun-
ty line to Brownfield is still a very
sorry highway. We hope the
experiment to be made east of Ta-
hoka proves to be more satisfactory.

We never know what a day may
bring forth, but as this is written
early in the week it does not seem
probable that the House of Repre-
sentatives will agree to submit to
the people the resolution adopted by
the Senate providing for a combina-
tion sales and natural resource
tax. It seems to us that the Lower
House is right. The legislature has
the power to levy either a sales tax
or a natural resource tax without
any Constitutional Amendment.
Why write such taxes into the Con-
stitution when they will be but
experiments at the best? It may be
that after a sales tax is tried a year
or two, the people will want to get
rid of it. To do so, if it is written
into the Constitution, it will then be
necessary for a new amendment to
be submitted and adopted. Why
not pass a sales tax bill and a
natural resource tax bill and put
them to work immediately without
waiting several months for the
matter to be submitted to the peo-
ple? Why is Governor O'Daniel in-
sisting on a constitutional amend-
ment when the same end could be
reached much more quickly by
direct action of the legislature? If
he is so eager to help the old peo-
ple, why has he adopted a course
that means delay?

**THE BUGS WILL GET YOU IF YOU
DON'T WATCH OUT**

By T. C. Richardson, Associate
Editor Farm and Ranch
Breeder-Feeder Association

All insects are not bugs, strictly
speaking, but we can't be too tech-
nical in a few words. When we use
the short and ugly term "bugs,"
every farmer knows we are talking
about one of his most persistent
enemies, though it may appear in
many forms and under a variety of
names.

Just at this season the cotton flea
hopper is a timely subject. It is one
of the most destructive and most
widely distributed cotton pests in
the Southwest, and yet is one of
the least understood, most difficult
to find, and therefore often robs

When this paper reaches the
readers, King George VI and Queen
Elizabeth of England will be guests
of the United States, the first reign-
ing king and queen ever to visit this
country. They will no doubt be ac-
corded demonstrative receptions
wherever they may appear, not
because the American people are
fawning or sycophantic in spirit in
the presence of Royalty but because
the King and the Queen are the
titular heads of a great country, a
country whose people too are close
kin to us and who have the same
democratic ideals in a large measure
as do the people of the United
States. We hope that their visit
may be most pleasant, unmarred by
a single unhappy or unfortunate
circumstance. Long live the King!
God bless the Queen!

Announcement was made along
about Friday of last week that
Vice-President John N. Garner
would actively seek the Democratic
nomination for the Presidency.
Then the Sunday papers carried the
announcement that ardent friends
of President Roosevelt would push
his candidacy for a third term. He
is preparing to make a trip to the
west coast at an early date to at-
tend the San Francisco Fair and to
make a side trip up to Alaska.
While it is not expected that he will
mention his probable candidacy, yet
everybody figures that this trip
across the country will have great
political significance. We are go-
ing to have hot times next year.

Judge Manton, a federal circuit
judge up in New York, has been
convicted of selling "justice". The
evidence it is said, shows a studied
course of bribery and corruption in
which he has been involved. We are
glad he got caught. A corrupt judge
is worse than a traitor. He is in
the same class as Benedict Arnold
and Judas Iscariot. Our courts
above all things should be kept
pure.

the grower of the early part of his
crop before the presence of the
pest is recognized. Farmers cannot
have a trained entomologist at beck
and call, but they can learn for
themselves to recognize the presence
of the pest and when to apply con-
trol measures.

No way has been found by which
to forecast with certainty whether
flea hoppers will cause damage or
when. When they do occur in dan-
gerous numbers they may be nume-
rous in one part of the field and
absent or scarce a few yards
away. They winter in the egg stage
and hatch out on weeds. As soon
as wings develop they can migrate
to cotton, which seems to be their
favorite summer host plant. Both
the winged, or adult, and the
nymph, or young, insect suck at the
embryo buds and cause them to
drop off, thus destroying the early
"set" before it reaches the "square"
or boll stage.

The nymphs are tiny active light
green or yellowish insects; the
adults look like pale, greenish white
flies about one-eighth inch long.
Dr. F. L. Thomas of the Texas Ex-
periment Station tells us that both
nymphs and adults are usually to
be found on horsemint in bloom or
the little low-growing yellow prim-
rose in spring. Shake the weed on
some clean surface and the flea
hoppers, if present, can be readily
distinguished from other small in-
sects. After learning what to look
for, anyone can identify the flea
hoppers on the cotton plant.

Look for the adults on the upper
surface of the foliage. Look for the
nymphs in the terminal buds, by
carefully opening the bud cluster
with thumb and finger. The nymph
if present, will show activity when
disturbed. If twenty or thirty hop-
pers are found to the hundred
plants it is time to get busy with
dusting sulphur. Examinations
should be made in different parts of
the field, and at least every week
until the crop is safe.

When cotton has six to eight true
leaves (not counting the two which
first "come up") it normally begins
to form fruiting buds, and should
set a new bud for every new branch.
If buds are not, "setting" where
they should be, or are falling off
before developing into "squares,"
it is a pretty safe guess that flea
hoppers are responsible, whether
the grower can find the insect or
not.

This is the stage (when the cot-
ton has about six true leaves)
when the grower must begin to
watch his crop for insects, and the
date may vary considerably in the
same community or even on the
same farm if there are different
plantings.

By this time, also, the boll weevils
which have survived the winter
may be coming out of hibernation
into the cotton fields. If weevils are
present at the same time flea hop-
pers are getting in their deadly
work, a combination dust (one-
third calcium arsenate and two-
thirds dusting sulphur) should be
used, killing both insects with one
operation. Use a machine which
will shoot the dust with consid-
erable force right down through the
terminal buds of the cotton plants.

- "CRISPY" sees to it that your fresh vegetables are kept garden-fresh.
- "BUTCH" does the big job of keeping all of your meats as fresh as your butcher can.
- "PORTY" controls the cold at 40 deg., the right temperature for almost anything.
- "HEALTHY" keeps all dairy products fresher, longer, and better.

Visit our office and see how these mighty little fellows do their jobs to give you better refrigeration as only Westinghouse can give

**Texas-New Mexico
Utilities Company**

ing you will fully realize that it is not a low-grade tire made to look attractive... but a one-price, one-quality tire in a class of its own. And when, eventually, you figure MARATHON'S cost-per-mile, you get the clinching proof of its extra value!

DON'T GAMBLE WITH SAFETY
At current low prices, it's certainly cheaper to put MARATHONS on now than to wait and take chances with dangerous old tires. **DRIVE IN TODAY!**

SOCIETY

Club and Church News

WAR DECLARED

All previously Enlisted are Called to Arms, to report for duty not later than 9:45 a. m. Sunday, June 11th, ready for any and all duties pertaining to the greatest cause on earth. New recruits must be had. Volunteers are wanted for every department of service. Every Loyal Soldier urged to go afield to wake up, stir up all the careless, indifferent and unenlisted. "Go out into the high-ways and hedges and compel them to come in, that my house may be filled." This is the order from our Great Commander-in-Chief.

The First Baptist Church has declared war on the "Summer Slump" and is calling all members, all organizations, all departments to arms. How about you, departmental Superintendent, can we depend on you? Will you report next Sunday morning with a well organized department ready for war on the "Summer Slump"? How about you Adults? How about you Men's Bible Class? We are counting on you. This is the time for all good men, women, boys and girls to come to the aid of their church.

No less than 250 in Sunday School on any Sunday will be considered a victory; any less a battle lost.

The B. T. U. and the W. M. S. your church calls you. We need YOU! Be true to the colors, not a slacker, not yellow, but brave and ready at every call. Our motto: "They Shall Not Pass" until that much dreaded Monster is overcome.

Mr., Mrs., and Miss, you are invited to the "Neighborly Church for Neighborly People." Organized for your convenience with a class for every age, married or single. Air-conditioned rooms, comfortable seats where people step light and the music is soothing and you will go away quite refreshed and better for your having come.

Place: First Baptist Church. Time: Sunday School 9:45, preaching 11 a. m., B. T. U. 7:15 p. m., preaching 8:15 p. m., Prayer meeting Wednesday 8:15 p. m. These hours for service will be observed throughout June and July. We are not after you if you are attending some other church, but if not you have a welcome here. — Geo. A. Dale.

HOME ECONOMICS NEWS

Almost fifty Home Economics girls are taking summer work. A full month is planned. Under this plan there are two types of work; one is class work which includes improvement of the department and the other is home work which covers a wide range. Some girls are taking yard improvement, some clothing, and others cooking.

A Carlsbad trip is planned later in the month and other activities include a swimming party at Lubbock. When the month's work is all completed, June 30, an achievement day will be held so that all of the girls may see what the other girls have accomplished.

Officers for the Home Economics club have been elected for the next year as follows:

President, Lenore Anglin.
Vice-President, Mildred Cooper.
Secretary, Letha Frances Wyatt.
Treasurer, Dorothy Holland.
Parliamentarian, Vasti Warren.
Librarian, Efy Loyd.
Reporter, Ida Botkin.

ANNOUNCEMENT MADE OF COMING MARRIAGE

Announcement has been made of the engagement and approaching wedding of Miss Ruth Ward of Wilson to Mr. Kelly Hill of this city. The wedding is to take place next month.

Miss Ward is the daughter of Mr. and Mrs. W. W. Ward of Gordon and is a sister of Mrs. Vernon Davis of Tahoka. She is a Wilson high school graduate. Mr. Hill is the son of Mr. and Mrs. I. B. Hill, Dixie community, and for the past year or more has been a valued employee in the office of the Farmers Cooperative Society No. 1 in Tahoka.

METHODIST CHURCH

The laymen of the Methodist Church will have charge of the services Sunday morning and Rev. Ben Hardy will preach at night, according to announcement given The News. There will be a special musical program in connection with the laymen's service.

Rev. G. E. Turrentine, the pastor, and his family are away on a little vacation this week. It is understood that they are visiting their old home in Georgia.

H. D. CLUB BOYS IN CONTEST

Four registered gilts will be awarded to four Lynn Club boys at the close of a contest being sponsored by Sears & Roebuck and to be decided by County Agent Don Turner and two other judges selected for the purpose. The decision may be rendered about the end of this week or early next week.

Contestants are required to write and submit to the judges an essay on The Cow, Hog, and Hen Plan of Farming. The essay counts 40 points and other considerations, such as the boy's attitude, industry, ambition, interest in the work, equipment, and his home surroundings, count for 60 points. Judges are supposed to take all these things into consideration in rendering their decision. The four boys making the highest grades are awarded the pigs by Sears & Roebuck.

The only string tied to the awards is that when the gilt brings her first little pig, one sow pig must be given back to Sears & Roebuck.

Mr. Turner stated Tuesday that ten boys had already entered the contest in this county and it was believed that still others would enter.

Similar contests are being sponsored by Sears & Roebuck in at least four other South Plains counties and considerable interest in them is being aroused, Mr. Turner says.

DIXIE H. D. CLUB

The Dixie Home Demonstration Club met Thursday, June 1, in the home of Mrs. T. D. Lishman. "Spending Leisure Time" and hobbies were the subjects for discussion. Reading, as a hobby, was

discussed by Mrs. G. B. Sherrod and Mrs. S. B. Francis, and Mrs. T. D. Lishman talked on the subject of "Service for Others".

An auction sale was held at which a number of useful articles, made by the members, were sold. The proceeds to be used to send a delegate to Short Course.

Mrs. Buel Draper resigned as club reporter, and Mrs. Lishman was elected to fill the unexpired term.

Refreshments of lemonade and cookies were served to the following members: Mesdames E. J. Cooper, G. B. Sherrod, B. C. Aycox, S. B. Francis, J. H. Knight, A. L. Dunagan, R. F. Janak, H. H. Nash, A. C. Aycox, J. T. Carlisle, T. D. Lishman.

One visitor, Edna Janak. The next meeting will be with Mrs. H. H. Nash on June 15.

Mr. and Mrs. A. A. Mourfield left Tuesday morning for Willard, New Mexico, to visit his brother. They also expected to visit Hot Springs and other points of interest in that state.

Mrs. A. M. Cade and daughter, Miss Iris Dean, went to Friona Wednesday to take her father, G. W. Taylor, to his home there. He had spent the winter here with the Cade family.

Deputy Sheriff Ed Sanders went to Lubbock a few days ago and brought back a local citizen on a charge of wife and child desertion.

Royal Misters

The eldest son of the king always bears the title of Prince of Wales and ranks next to the king in male precedence, but younger sons of the sovereign, though born princes, have no precedence beyond their near relationship to the king, until a dukedom is conferred upon them, when they become peers of the realm, says London Tit-Bits Magazine. Only the children, the brothers and sisters, the sisters or daughters-in-law, and the uncles and aunts of the king are entitled to be addressed as "Royal Highness." In the past this title has passed on indefinitely to all direct descendants of a king's son. But by the ruling of King George V in 1917, the title is confined to the children and grandchildren of the sovereign. The result will be that certain members of the royal house may in the future be plain Mr. or Miss Windsor.

Cut the Gordian Knot

Alexander Gordius, a peasant, being chosen king of Phrygia, dedicated his wagon to Jupiter, and fastened the yoke to a beam with a rope of bark so ingeniously that no one could untie it. Alexander was told that "whoever undid the knot would reign over the whole East." "Well, then," said the conqueror, "it is thus I perform the task," and, so saying, he cut the knot in twain with his sword. Hence, to cut the Gordian knot is to get out of a difficult or awkward position by one decisive step, to solve a problem by a single brilliant stroke.

Costliest Stage Production

"The Miracle," the play which opened at the Century theater in New York city on January 15, 1924, was the costliest production ever presented on the American stage, says Collier's Weekly. Before a ticket was sold for this drama, requiring eight principals and 700 supernumeraries, the entire interior of the gigantic theater, including the seats, was made to resemble the inside of a large Gothic cathedral at a cost of \$400,000.

ANGLINS WILL ATTEND OLD HANKINS REUNION

Mr. and Mrs. W. S. Anglin and family will leave Sunday for Gordon, where they expect on Monday to attend the reunion of ex-students and teachers of the old Hankins Normal School.

This school was established in about 1903 by J. H. and J. P. Hankins, twin brothers, who now reside in Lubbock, and was operated as a private institution up to 1913. At one time, it is said, there were 500 students enrolled, but the institution closed its doors after operating for ten years.

Mr. Anglin attended the school, as did a number of other citizens now living in this immediate section.

Mrs. Aubrey Thomas and daughters, Cona and Corinne, of McAllen accompanied the former's brother, J. D. Donaldson, home on Thursday of last week and will spend about a month here with her parents, Mr. and Mrs. John Donaldson, and other relatives. J. D. had been attending the State Medical College at Galveston.

Chickens - Turkeys

Keep them Healthy—Give Star Sulphurous Compound in their drinking water or feed. It will kill germs contained in things they eat—preventing diseases practically all caused by intestinal germs and worms.

Also keeps them free of blood-sucking lice, mites, fleas and blue bugs; system toned; appetite, health and egg production good—Costs very little—Money back if not satisfied.—Wynne Collier, Druggist.

Headachy, Breath Bad? Make This Check-Up

The Police Siren means "Look-out!" And so do Nature's signals—headaches, biliousness, bad breath, which are often symptoms of constipation. Don't neglect your sluggish bowels, for a host of constipation's other discomforts may result: such as, sour stomach, loss of appetite or energy, mental dullness.

Help your lazy bowels with spicy, all vegetable BLACK-DRAUGHT, by simple directions. BLACK-DRAUGHT's principal ingredient is an "intestinal tonic-laxative." It helps impart tone to lazy bowel muscles. Next time, try this time-tested product!

Mrs. C. A. Lawrence of Idalou was here Monday visiting her husband, who is assistant county agent. Mrs. Lawrence runs their farm while Mr. Lawrence is assisting others with their farm operations.

Miss Peggy Salem of O'Donnell spent the week end here with her friend Miss Iris Dean Cade.

O. R. O.

will rid your fowls of blue bugs, fleas, and lice; also worms in stock and poultry, running fits of worms in dogs; mange or any skin disease; now 67c. Your money back if not satisfied. For sale by Wynne Collier, Druggist.

TIPPITT-FINCH
Miss Linnie Tippitt and Mr. Roy Finch were united in marriage at Lamesa Tuesday night, according to reports reaching the News office. The bride is the daughter of Mr. and Mrs. T. I. Tippitt, who live about three miles east of town, and has been a teacher in the Tahoka public schools the past several years. Mr. Finch is the son of Mr. and Mrs. C. M. Finch of the Edith community and has resided in that community and in Tahoka most of his life. The couple have hosts of friends here who extend to them best wishes.

BAPTIST W. M. S.
The Bible lesson brought to the members of the Baptist W. M. S. by the pastor, Rev. Geo. A. Dale, at the Church Monday afternoon, was from the second General Epistle of Peter.

All three circles were represented at this interesting program as follows: Mmes. McIntyre, Cavness, Reese, Howell, C. Connolly, Dale, Coleman, Edwards, Oliver, Henderson, Holland, Hill, Pennington, McCord, Galtner, Durham, Paul Howell, and Rev. Dale.

Mrs. J. C. Roberts of Denton is here visiting her daughter, Mrs. Claude Donaldson, and family. Mr. and Mrs. Donaldson went to Altus, Oklahoma, for her last Saturday, where she was visiting another daughter, Mrs. Lincoecum. Roberts Lincoecum, the latter's son, also accompanied them to Tahoka and is the guest this week of his cousin, Claude Donaldson Jr.

Elder W. B. Robertson of Omaha and his daughter, Miss Una Robertson, a teacher in the Ennis High School, are here for a visit a several days with W. O. Robertson and family. The visitors are the father and the sister respectively to W. O. Robertson. This is their first visit to Tahoka. Elder Robertson is a minister of the Primitive Baptist Church.

Miss Mauryce Giles, daughter of Mr. and Mrs. J. A. Giles of Redwine, returned to the Tech Monday morning for the summer term. She expects to complete her junior year work there this summer and will be a senior next fall. Miss Mauryce has been making a good record in the Tech and enjoys the work very much.

James Foster and Paul Casebeer, who were students the past year in the New Mexico Eastern Junior College at Portales, are home for the summer. They are well pleased with the school, which they say is growing rapidly. About 800 students enrolled the past year.

J. D. Donaldson, who has been attending the University of Texas Medical College at Galveston, arrived home last week end and has again gone to Lubbock where he will spend the summer getting some practical experience in the Lubbock Sanitarium.

Mr. and Mrs. Liff Taylor and the former's parents, Mr. and Mrs. W. E. Taylor, left Friday to visit Mr. and Mrs. F. A. Robinette at Robstown. They expected to be gone a week or ten days.

Mr. O. L. Kidwell and Mrs. Lee Holden and baby of Rochester spent the week in Tahoka visiting his son and her brother, W. T. Kidwell. They returned home Sunday afternoon.

Mr. and Mrs. J. A. Giles of Redwine expect their son Bruce to be home Saturday. He has been a student in the Panhandle Agricultural College at Goodwell, Oklahoma, the past year.

Mrs. Daisy McCain of Roby left for her home Thursday morning after a six weeks visit with her daughter, Mrs. Dee Sanders out at the T-Bar headquarters.

Mr. and Mrs. W. S. Skiles and son, Billy, of Dallas, arrived Wednesday for a few days visit with Mr. Skile's sister, Mrs. C. A. Thomas, and family.

NEW HOME F. H. A. HAS MEET

The New Home Future Home-makers Club met at 2:00 p. m. June 5. The following officers were elected for the coming term: President, Wanda Weyrick. Vice-President, Nell Shadden. Secretary-Treasurer, Ethel Kyzer. Reporter, Thelma Ruth Strain. Song Leader, Wanda Weyrick. Pianist, Thelma Ruth Strain. Parliamentarian, Colene White. The object of the meeting was to report on summer projects students are taking. These projects include making if quilt tops, testing recipes, making summer wardrobes, poultry and garden work. There were five visitors present: Mrs. W. W. Ponter, Mrs. Jasper Reid, Mrs. Gannaway, Mrs. L. R. McCormick and Mrs. Ponters' little daughter. Refreshments were served and pictures were taken by our instructor, Miss Joye Pace. It was enjoyable as well as profitable. The next meeting will be June 13.—Reporter.

LEGION AUXILIARY

The American Legion Auxiliary will meet at the Legion Hall Tuesday, June 13 for a district report and a school of instruction. Miss Ethel Norris, daughter of Marshall Norris, an employee of the Burleson Grain Company and who lives in southeast Tahoka, was taken to a Lubbock hospital Friday night suffering from appendicitis. Upon arrival her appendix was found to have ruptured and much pus had formed. She is in a very critical condition but hopes for her recovery are held.

Robert Maddox is home from Austin, where he has completed his second year as a student in the University of Texas. He thinks the University is a great school.

 ad. in The News.

**HIGHWAY NO. 380 WILL
 RECEIVE MORE WORK**

(Cont'd. from page 1)
 be procured from the sand beds
 that extend across the country two
 or three files north of Tahoka.

On another type, a soil mixture
 is to be used for the base, and on
 the third type, caliche will probably
 be used.

These types of highway are to be
 constructed, according to the coun-
 ty judge and the commissioners,
 after thorough and long-continued
 chemical tests of the soil along this
 route have been made in the chemi-
 cal laboratory of the A. & M. Col-
 lege under the direction of state
 highway engineer Julian Mont-
 gomery.

Nobody knows yet what the prob-
 able cost will be but Judge Goad
 expressed the opinion that the con-
 struction would be rather expen-
 sive, and he says he has been
 assured by the highway depart-
 ment that this will be one of the
 best highways in West Texas.

What the actual results will be
 remains yet to be seen.

In the meantime, work is pro-
 ceeding slowly on this highway
 Garza county. The Garza section of
 this road is being built as a P. W. A.
 project and a caliche base is being
 laid. Six miles of base remains yet
 to be laid, we are informed. Local
 officials are informed, however,
 that it is hoped that the entire
 length of the highway from Tahoka
 to Post may be completed before
 cold weather comes again.

Somewhere in Texas a small lizard
 may be alive today because Dr.
 A. J. Nicholson, game department
 manager of region 4, saw a big
 king snake swallow it near Bastrop
 recently and was interested form a
 scientific standpoint in ascertain-
 ing the nature of the reptile's food.
 Dr. Nicholson killed the snake and
 when he slit it, out scampered the
 lizard and it raced for the woods.

J. D. Martin of Draw, father of
 Mrs. H. C. Story, has been critically
 ill for several days and the family
 are very anxious about his condi-
 tion.

Miss Mary White, journalism stu-
 dent in Texas Tech, is home for
 the summer.

**Don't Sleep When
 Gas Presses Heart**

If you can't eat or sleep because
 gas bloats you up try Adlerika. One
 dose usually relieves stomach gas
 pressing on heart. Adlerika cleans
 out BOTH upper and lower bowels.

**Feeding Tests Are
 Being Made**

The United States Dry Land Ex-
 periment Station, Big Springs, Tex-
 as has been conducting feeding ex-
 periments at this point for a num-
 ber of years. These tests have been
 planned with the object in view of
 finishing West Texas cattle on West
 Texas grown feed.

This year, feeding tests will be
 completed June 16, at which time a
 feeders' Day meeting will be held.
 The morning will be devoted to
 looking over the cattle, having them
 appraised by a packer representa-
 tive, and general visiting. Lunch
 will be served at noon, after which,
 the program will follow. The result
 of this test will be discussed at this
 time.

Mr. J. M. Jones, Chief of Division
 of Animal Husbandry of Texas Ex-
 periment Station of A. & M. Col-
 lege, and other members of the
 Texas A. & M. Experiment station
 staff, will discuss other problems
 connected with the feeding of cat-
 tle.

**1206 Women Say
 "Yes" to Query**

If 93 out of 100 users picked at
 random declare they were helped
 by a medicine, would you believe
 in its merit? Record of the fa-
 mous Query among women of
 leading cities in 12 Southern
 States shows 1206 out of 1297
 users queried say CARDUI
 helped them. That figures 93 out
 of 100! What a record!
 Women all over the South are
 eager to tell of their experiences
 with CARDUI. They were
 weak, rundown, nervous. Those
 are symptoms of functional dys-
 menorrhea due to malnutrition,
 which CARDUI helps to re-
 lieve by stimulating appetite and
 digestion and building physical
 resistance. Try CARDUI!

Mr. and Mrs. Sam Holland and
 daughter Dorothy went to San
 Saba Wednesday of last week
 to see her uncle Will Squires, who
 was seriously sick. He died Friday
 and was buried Saturday, and the
 Hollands returned home Sunday.

Mr. and Mrs. B. H. Howard and
 Grady Howard of Lubbock visited
 Mr. and Mrs. Harley Henderson
 and Mr. and Mrs. Frank Hill Sun-
 day and Monday.

Skills Thomas, who has just fin-
 ished his second year in the Medi-
 cal College of the University of Tex-
 as at Galveston, is home for the
 summer. He is the son of Mr. and
 Mrs. C. A. Thomas.
