### ODDS AND ENDS

By Bee Eye the Elder

The News editor has never conducted a "colyum", mainly because he has never felt competent for the task.

Up at the meeting of the State Press Association in Lubbock last week, a very wise editor remarked that while nearly every country newspaper man these days is undertaking to conduct a column most of these columns are very "bum", or words to that effect. We almost agreed with him.

Later on, another newspaper man observed that the value of a column lies in the fact that an editor can put into it what he can not appropriately put anywhere else in the paper. With us, that remark stuck.

A newspaper publisher is supposed to put news in the news columns and the personal opinions of the editor in the editorial columns. In a "colyum" he can put any and everything that is printable and readable. He can mix his news and his comments thereon to beat the band if he chooses to do so. And he can put into a "colyum" all kinds of odds and ends, personal and otherwise.

So here goes—for a week or two at least. This column, which we have dubbed "Odds and Ends", perpetrated by the old boy that Andrew Jackson Stricklin of the Terry County Herald and others have dubbed "Bee Eye", may not last long; it may not come out regularly while it does last; but whenever we have some odds and ends which we may fancy would not look too bad in print, this column will appear.

That press meet which we attended was a good one. Due to the fact that newspaper people are very busy folks and that many of them each year must travel long distances to attend a state convention. (Cont'd. on back page)

### Baze Elected To Monahans School

M. L. H. Baze, superintendent of schools at Brownfield and formerly at Tahoka, has been elected head of the Monahans schools, according to announcement made Thursday.

The Monahans-Wickett district is said to be one of the best financed districts in Texas, practically all of its income being from oil field development. There are about 1,350 scholastics and the district employs 47 teachers.

Mr. Baze was superintendent of the Tahoka schools five years, in the Pampa system a while, and has been at Brownfield four years.

Emmett Smith, former Brownfield high school principal who has been in the grocery business there for the past year, will succeed Baze beginning July 1.

### Next Sunday Is "Fathers Day"

Next Sunday is Fathers Day—the day when we are supposed to pay tribute to our fathers. Mothers Day has been observed rather generally for some time but scant attention has been paid to Fathers Day.

It's a fine thing to revere the memory of our parents dead and to honor those who are living.

The News this week received some verses written in honor of "Father" by one of our fine school girls. We highly commend the spirit and attitude of the young authoress, but like most other newspapers we have made it a rule not to publish such contributions. The sentiment of the young lady is far more beautiful than the verbiage in which she clothed it.

### Softball Games Started Monday

Softball got well underway again in Tahoka this week, one game having been played each night except Wednesday. Eight or nine teams have entered the league.

Monday night Grassland defeated Simmons' Young Baptist 19 to 9 and Tuesday night T-Bar and the Rotary Club engaged in a fast and furious game which the Rotarians finally won 10 to 5. Thursday night Orange Crush was to play the Farmalls, and there will be another game tonight.

### H. C. Calahan, 79, Died Saturday

Funeral services for Herbert C. Calahan were held at the family residence in west Tahoka Saturday afternoon, following his death early that morning. Services were conducted by Rev. Geo. A. Dale, pastor of the Baptist Church, and burial followed in the Tahoka cemetery.

Mr. Calahan, who was almost 79 years old, had been in failing health for some time and for several weeks was in a serious condition.

He was born in Lauderdale county, Alabama, June 19, 1860, and therefore would have been 79 next Monday. He was married to Miss Sarah Hubbard in Falcon, Tennessee, October 31, 1886, and he and his family had lived in Idabel, Oklahoma, DeQueen, and Nashville, Arkansas, before coming to Tahoka August 16, 1937, when his daughter, Miss Ethel Calahan, became a clerk in the Tahoka postoffice. He was a member of the Presbyterian Church and of the Woodmen of the World.

Besides his wife, the deceased leaves a son, Luther Calahan of Idabel, Okla., and two daughters, Miss Ethel Calahan and Mrs. Iva Scott, Tahoka, six grandsons and two granddaughters.

While not a citizen of this town for but two years, he had made many friends who deeply sympathize with the bereaved members of the family.

### Attends Music Teachers Meeting

Accompanied by her husband, Mrs. J. K. Applewhite went down to Mineral Wells Monday to attend the State Music Teachers Convention. They returned home Wednesday night.

Mrs. Applewhite presented the report of the South Plains Music Teachers Association, of which she is the retiring president. She has long been prominent in the Music circles of this section of the state.

### Rotarians Hear Young Ladies

Rotarians were entertained Thursday at noon with piano music by Miss Marjorie Wells, readings by Helen Belle Pemberton and Eleanor Reba Damagan, and a song and tap dance by Nancy Ray Weathers. In observance of Flag Day, Aubra Cade asked a number of questions in regard to the American flag and its proper usage.

Guests included Dr. J. W. Sinclair and Mr. Prohl.

### FRACTURES ARM

Gene Patterson, young son of J. E. Patterson, of the Tahoka Motor Co., and Mrs. Paterson, sustained a fracture of the left arm while playing in the park here Thursday of last week.

Little Gene miscalculated the distance between a bench on which he was standing and a limb for which he was reaching and fell, it is said.

### SCOTT DAVIS UP AGAIN

Many of Scott Davis' friends were glad to see him on the streets again this week. It is the first time in many months that he has been able to come to town.

### Survey Is Begun For Telephone System

Mayor Deen Nowlin and city officials this week started a survey which will determine whether or not telephone users of Tahoka want a new common battery system in Tahoka in place of the system now in use.

All indications to date are that the people want a change. Nowlin said 90 cards had been signed up to Wednesday favoring the proposed change and only one opposed the proposition. Signatures of at least 90 percent of the users must be received before the change will be made.

Officials of Southwestern Associated Telephone Company, which owns the local system, indicated that in case sufficient signatures are received quickly they might start construction of the common battery system at an early date.

Rates on the common battery system would be slightly higher on rural phones, the rate remaining \$2.00 for wall set, \$2.25 for desk set, and \$2.50 for hand set.

In town, nothing but hand sets will be used. The present rate on (Cont'd. on back page)

### Aggie Students Given Awards

Four Lynn County 4-H Club boys, Don Burkhalter, J. D. Norman, Buddy Gene Bragg and Ellis Brewer have been named as winners of an essay contest sponsored by Sears Roebuck Co., Donald Turner, county agent announces. Each of these boys received a prize a registered Berkshire gilt, to be used in their 4-H demonstration work.

The winning boys for both 1938 and 1939, together with Donald Turner, were guests of Sears Roebuck at a luncheon in Lubbock Monday.

Each winner agrees to feed and care for the gilt under the direction of the county agent, and to permit the selection of the top gilt from the first litter of pigs, which pig will be used as one of the prizes in the county next year.

Arthur Wensel, breeder of Wilson, Lynn county, showed some of the ribbons he and his sons have won as breeders in recent years. He also showed pictures of his boys and their animals. "Feed plenty but don't get them too fat," he advised the boys.

Among those present from Lynn county were: Don Burkhalter, Tahoka; Ellis Brewer, Wilson; J. D. Norman, Tahoka; Bobby G. Bragg, Tahoka; Glenn Lloyd, Tahoka; Connally Unfred, Tahoka; Courtney Seiwert, Slaton; Don F. ### WILL ENTER JOHN TARLETON COLLEGE

Eloise Roberts of Tahoka has received notice that she has been accepted by John Tarleton College, Stephenville, Texas, as a student for the coming year, 1939-1940. This announcement was made by Charles S. Wilkins, Registrar, after receiving a transcript of the high school credits of Miss Roberts.

### New Pastor For Presbyterians

Rev. James I. McCord from Rusk is the new pastor of the Tahoka Presbyterian Church, according to J. L. Heare, and will preach his first sermon here Sunday.

He succeeds, Dr. W. K. Johnston, Lubbock, who is transferring to another field after having served this and other Presbyterian churches in this section for many years.

In the future, the local church will have services twice each month, Rev. McCord dividing his time between Tahoka and Levelland, where two services will be held likewise each month.

The new pastor is a young man. He graduated from Austin College, Sherman, in 1938, and this past year he attended the Presbyterian Seminary in Richmond, Va.

Services will be held here morning and evening Sundays, June 18 and 25.

### Jim Carpenter Buried Sunday

James R. (Jim) Carpenter, 83, well-known bachelor resident of the Wells community, was buried here Sunday. Rev. A. A. Brian, Baptist minister, conducting the services. He died in a Lubbock sanitarium at 8:50 p. m. o'clock Saturday from Bright's disease, having been carried there in a critical condition several days previous to his death.

Mr. Carpenter was well known and much loved by many citizens of Tahoka and O'Donnell and the south part of the county. He had lived by himself on a farm in the Wells community about 17 years. Recently he had repented of his sins and joined the Baptist Church much through the influence of his friend, Rev. Brian.

The deceased was born May 30, 1856, in DeSoto county, Mississippi. He came to Texas when a youth, settling in Dewitt county. Later he moved to old Fort McKavett, Menard county, and for some time freighted between that old abandoned U. S. Army post and San Angelo. In 1922, he came to Lynn county.

He is survived by a brother, two sisters, and a number of nephews and nieces. W. T. (Bill) Carpenter, himself a pioneer of the old Fort McKavett country, is the brother, and Mrs. G. W. Hill and Miss Lillie Nowell, San Angelo, the sisters. Many friends deeply regret the passing of this pioneer of the West.

### Tahoka Tigers Winners Again

Tahoka Tigers, colored, went to Brownfield Sunday and came back with the long end of a 27 to 8 score in a lop-sided ball game.

The colored boys say they feel like they are now ready to take on Snyder and Stanton Sunday and Monday, respectively, when teams from these cities will be here for the big celebration and rodeo. In addition to the ball games, there will be rodeo events, and the boys say they are going to ride anything that has hair on its back. The festivities start at 1:30 each day.

### AAA Employees Are Selected

About forty applicants took the examination here Wednesday seeking to qualify for positions with the County Agricultural Committee to measure the lands of the farmers and to check compliance on the part of farmers with the AAA program.

Out of the number who passed the examination, the county committee will select and employ the twenty men required for the work. The county committee is composed of J. R. Strain of New Home, H. W. Calaway of Draw, and A. H. Hood of Magnolia.

A school of instruction was conducted here Tuesday for the benefit of applicants for the above-named positions. The instructors were Everett Williams of New Lynn, who will be county supervisor of the work, Donald Turner, and C. A. Lawrence.

The applicants consisted of farmers, teachers, and college boys now out of school. Twenty will be employed and it is estimated that it will require this corps of workers about 45 days to measure the lands and check compliance.

### Build Tabernacle At O'Donnell

Rev. H. L. Braswell of O'Donnell was in Tahoka Thursday soliciting funds for the erection in that city of a Congregational Methodist church tabernacle.

Rev. Braswell says a revival meeting was started by the church on Wednesday night which will continue for about two weeks.

Work has already been begun on the tabernacle.

### Fire Is Averted In Nick Of Time

W. L. Knight came near having a serious fire in one of his rent houses Monday afternoon while papering and redecorating the interior of the house.

A strip of wallpaper was laid over the stove to keep the latter clean, and Mr. Knight and the paperhanger were preparing to leave the house when they discovered burning paper in the kitchen. They promptly extinguished the blaze but possibly just in time.

A pilot light had been left burning on the stove, which fact they did not note, and the paper caught fire from this.

### Big Spring Rodeo Boosters Here

Dressed in flashy cowboy regalia, honking car horns, and firing cap pistols, 125 Big Spring boosters invaded Tahoka Wednesday afternoon to advertise the sixth annual Big Spring Cowboy Reunion and Rodeo June 23-25. The trip was sponsored by the Big Spring Lions club.

The boosters were accompanied by a string band which rendered a concert on Main Street.

Subscription paying time is here!

### Survey Is Being Made Earlier This Year

Will Give Farmers Privilege Of Destroying Excess Cotton Planted This Spring

"We expect to start checking farms for compliance in the 1939 farm program about June 19th," says C. A. Lawrence, secretary of the Lynn County Agricultural Conservation Association, in a statement issued to the farmers of Lynn county through the columns of The News.

"It is necessary that we check farms at an early date this year in order that a farmer may have the privilege of destroying any excess cotton that he may have above his allotted acreage.

"The regulations provide that the farm operator or his representative be present when the farm is measured. For this reason no farm will be checked unless the farmer or his representative is present. By this means we hope to eliminate any dissatisfaction over measurements. As soon as it is determined just who will be the farm checker for a community, any producer who is ready to have his farm checked should contact this checker and advise him that his farm is ready to be measured.

"We want to ask that all farmers be as patient as possible about having his farm measured. It will take probably four or five weeks to measure all farms and we are just as anxious to get the farms measured as the farmer is. Just as soon as the farm is checked and the measurements are computed in this office we will notify the farmer of his acreage. If the farmer will wait for this notification instead of coming to the office, it will greatly aid the work in the office."

### Negroes Staging 'Juneteenth' Rodeo

Tahoka negroes expect to play host to many South Plains colored folks here Sunday and Monday at the annual "Juneteenth" celebration.

A rodeo each day at 1:30 p. m. at the rodeo grounds in the northwest outskirts of town will be the feature of the entertainment bill. There will be bronc riding, steer riding, wild mare race, goat roping and bulldogging by negro performers. Following the rodeo each day will be a baseball game, and there will be a dance at night.

Aaron Sayles, Fred Washington and Henry Hood are in charge of the event.

### HARRY WOODS BETTER

Harry Woods of the Edith community, who has been confined to his bed many weeks, is now able to be up part of the time, his condition being much improved. Mrs. Woods has been sick during the past week, however.

### Magnolia Blooms On South Plains

West Texas has its magnolias, too!

Maybe they're not so prolific as those of South and East Texas, but we've got 'em just the same—and they're blooming now.

Mrs. W. M. Harris called The News Tuesday and stated that one of the two-year-old magnolias she planted in her yard five years ago had a beautiful bloom on it and that another bloom was about to blossom forth.

So, if you are one of those Plainsmen to whom a blooming magnolia is as strange as growing cotton is to a resident of North Dakota, we suggest that you drive by the Harris place and see Mrs. Harris' magnolias.

We understand that Mr. Beck carried no insurance. Beck said he had left the shop for a few minutes to go to his house nearby, and when he came out of the house the shop was on fire all over.

It is also illegal to leave fish on bridges.

## EIDER DRENNON'S NOTES

The wind is mighty high and sand gets in our hair and eyes, but Lynn county is a fine place to live after all. I have lived in Tahoka and O'Donnell long enough to know what I am talking about.

O'Donnell is noted for its fine treatment of those in need and distress. It is one of the best places I have ever lived in, in that respect. One of our citizens burned out recently and the people gave until they said "Enough."—Also, one left our midst last week and they showered her until my mother said it was the largest she ever attended.

I hope if misfortune overtakes me it will be while I am living in O'Donnell. That is a fine spirit, and the Master said "It is more blessed to give than to receive." There is so much selfishness in the world that it is refreshing to see the people helping others. I often think of that Scripture: "Give, and it shall be given unto you; with what measure ye meet is shall be measured to you again," and "Cast thy bread upon the waters, for thou shalt find it after many days." It seems if we believed these Scriptures we would do more along that line.

I see Editor Hill is still wanting information on why have a Constitutional amendment on sales tax instead of direct legislation. If you will listen most any Sunday morning you can learn. Friend Hill. The old pension plan is a constitutional amendment. Don't you think voters enough to have a right to settle this thing. Brother Hill?

I see the old-timers reunion will be held again. While I am not old enough to qualify for the barbecue dinner, yet I think I shall attend Heaven and Earth is trying to move and I think I shall attend to agree to this Resolution. Such

it is a fine thing for the old-timers to come together and reminisce some. I remember distinctly how my father loved to meet old friends and talk of by-gone days. What a debt we owe the pioneers!

Our services here the last two Lord's Days have been fine, with two precious souls being saved. The Church has just one mission in the world and that is the saving of souls. One more month and I will be out in the harvest fields gathering sheaves for Jesus.

Yours for more people who will search the Bible to see if the things they hear preached are so or not. Visit the friendly church.—R. P. Drennon.

Ed. Note: Sorry the editor is such a thorn in your flesh, Brother Drennon. We can't even mention "Brother" O'Daniel without your getting "het up." "The old pension is by Constitutional Amendment, is it not," as if that were a clincher. Why certainly, Brother, and it's the old Constitutional amendment under which we are operating today. It's under the old Constitutional Amendment that we enacted the present pension law and under which the present legislature amended it so as to greatly broaden its scope and increase the number of pensioners from 40,000 to 85,000 persons. Under this old Constitutional Amendment the legislature, if it chose to do so, could levy taxes with which to pay the additional pensions. The House enacted a couple of bills to that end and the Senate turned them down. The Senate passed a Resolution for an additional Constitutional Amendment providing for a sales tax with which to pay pensions; and "Brother" O'Daniel is trying to move Heaven and Earth to get the House to agree to this Resolution. Such

an amendment would have to be submitted to the people, and if it carried, it would then be necessary to call a special session of the legislature to pass a law in pursuance thereof, and such a law could not be expected to go into effect for several months yet, at the very earliest; whereas, the legislature, without any additional constitutional amendment, already has the power to enact just such a tax law as is provided for in this proposed Constitutional Amendment. Why doesn't Brother O'Daniel urge the Senate to pass the House bill and thus begin providing funds at once with which to pay the increased pensions? Why should he be "cussing" the House and urging it to adopt the Senate Resolution calling for a new amendment to the Constitution, thus delaying the matter several months and possibly many months? Can you and "Brother" O'Daniel explain that over the radio some Sunday morning, Brother?

The following out-of-town friends attended the funeral of H. C. Calahan. Luther Calahan, Idabel, Okla., Mrs. Josie Puckett, Hartselle, Ala., Mrs. Roby Jones, Mr. and Mrs. J. C. Redus, Miss Frances Scott, Dallas, Texas, Harrel Scott, Wetzelka, Okla., and Mrs. C. H. Wintringham, Lamesa, Texas.

Mr. and Mrs. W. J. Sellers and grand daughter, Miss Claudia Wright, of Coolidge, Limestone county, were here Monday and Tuesday visiting their old time friends, Mr. and Mrs. J. K. Callaway. Mr. Sellers said he and J. K. had been friends since 1888.

I. M. Draper has as a guest over the week-end, his brother, P. F. Draper, of Austin.

**To Query Women All Over South**

Touring Reporters have now asked over 1,200 women and girls of leading Southern Cities the now famous question: "Were you helped by CARDUI?" Averaging all replies so far shows that 98 out of every 100 users questioned declared CARDUI benefited them!

Users by thousands are eager to tell how CARDUI has given them their appetite; helped them gain strength; has thus relieved them of the symptoms of functional dysmenorrhea due to malnutrition. Many also say that, when symptoms indicate the need, CARDUI in larger doses helps "at the time" to soothe pain.

**Headache, Bad Breath May Be Your Warning**

The sea's thrilling S. O. S. means "Help is needed now!" And, so do most of those headaches, that biliousness, coated tongue, or bad breath which are often signs of constipation. To disregard these symptoms may bring on a host of other discomforts from sluggish bowels: sour stomach, belching, loss of appetite. home of Ila Mae Schaffner, Wednesday June 7, at 9:00 a. m.

Eggs are needed in growth and repair of muscles, bone, and blood, because of their value in the building and repairing of tissues, eggs should be included in dietaries, particularly those of growing boys and girls, and of convalescents and undernourished persons.

A child should have an egg every day and adults should have not less than five eggs a week, and one a day is better.

Those present were: Ila Mae Schaffner, Pauline Gillespie, Pauline Hale, Mable Brown, Jo Barham, Dorothy Rusk, Bernice Bartley, Bennie Dale, and Bonnie Mae Flint, Nita Bragg, Ruth Gillespie, and Altha Wayne Jennings, sponsor. Visitors were Mildred Cox, Mrs. Iva Jean Steel, Betty Noble and Mrs. A. D. Schaffner.

**COME AGAIN "COUSIN GEORGE"**  
We are glad that Washington  
and New York as well as other  
places visited gave the King and  
Queen a tumultuous welcome—a real  
American welcome.

We are glad that our own John  
Garner, without any hint of fawn-  
ing or flattery, conversed with the  
King as man to man, just as he  
might converse with any distinguis-  
hed citizen of our own country.

We are even glad that Con-  
gressman Nat Patton of Texas  
greeted the King and Queen as  
"Cousin George" and "Cousin Eliza-  
beth."

We are glad that the people on  
the streets, shouted their greetings  
to the Royal couple in the lan-  
guage of the street, in our good old  
democratic fashion, for we are a  
democratic people.

We are glad that few, if any  
exhibited any hostility or even  
rudeness, toward the Royal visitors.

The people of America have  
several times as much English blood  
in their veins as German, French,  
Nordic, and Italian all put together,  
and the same democratic spirit  
that wrested Magna Carta from  
King John and made the English a  
free people has also made and kept

the American people free and in-  
dependent. By race and nationality,  
we are close kin to the English,  
while in spirit, both peoples are  
intensely democratic.

And it is up to these two nations  
primarily to stop Hitler, to stop  
every other dictator who attempts  
to blot out freedom of speech, free-  
dom of the press, freedom to wor-  
ship God according to one's own  
conscience, freedom to publicly as-  
semble and discuss matters of state,  
freedom to exercise their voices  
and their votes respecting their  
own governmental affairs, the free-  
dom and integrity of the courts,  
the right of trial by jury, and  
other rights held as inalienable by  
both the English and the American  
people.

We are glad that Cousin George  
and Cousin Elizabeth came. The  
King, it is said, impressed many as  
a serious-minded business man,  
while the Queen was so gracious  
and so human and so lovely that  
she captivated the hearts of the  
people everywhere. The King and  
the Queen exhibited none of that  
snobbishness that is said to be  
characteristic of the upper classes  
in England and that has cooled the  
admiration of so many Americans.

Now we hope that President and  
Mrs. Roosevelt may find it possible  
soon to return the call.

We sometimes think that we  
the people sometimes elevate  
young men to high station too  
early in life, but that young  
man Gerald Mann certainly is  
demonstrating the fact that he is  
a full-grown man in the office of  
attorney-general. He has exhibited  
a degree of courage, independence,  
intelligence, and integrity in the  
administration of his office that  
are rarely combined in one man.  
Gerald Mann will do to watch. He  
is destined to go up higher.

It is now rumored that Govern-  
or Lee O'Daniel may try for a seat  
in the United States Senate two  
years hence. He may be elected,  
since he has been such a rip-roar-  
ing success as governor.

What this country needs in state  
and nation is less class legislation  
and a stricter adherence to the  
Constitution and to democratic  
principles.

We may be out of tune with the  
spirit of the times, but we feel  
that any free American citizen who  
employs laborers in his business has  
the right to hire and fire whomso-  
ever he pleases, and that it is no  
business of any N. R. L. A. board  
or any other board or commission  
why or when he fires any employee  
that doesn't suit him. This is our  
brand of Americanism.

In one of the front page pictures  
of the "Royal visitors and their  
hosts, president and Mrs. Roosevelt,  
last week, we noted that the king  
was hidden behind the graceful  
form of the lady of the White  
House. Was that merely another  
example of the First Lady running  
true to form or was it a joke per-  
petrated by the photographer?

As a mere example of the cruelty  
and inhumanity of the man who  
now lords it over Germany and  
neighboring peoples, Hitler's ex-  
pulsion of those 900 Jews from his  
realm, setting them on a boat at  
sea with nowhere to go, is one of  
the most remarkable acts of in-  
tolerance and heartlessness in  
modern history.

As much as we admire the talents  
of some Negroes and as much as we  
deplore intemperate race prejudice,  
we still think it decidedly improper  
for the wife of the President, to en-  
tertain Negroes in the White House.

## GRASSLAND 4-H CLUB

"Eggs have many uses in the family diet," stated Miss Maurine McNatt, home demonstration agent, at the regular meeting of the Grassland 4-H club at the home of Ruby Greer Friday, June 2, at 9 a. m.

Eggs are used in the following ways: first as important food; second, as a thickening agent in such foods as custards, sauces, and fillings for pies; third, as a leavening agent in omelets, souffles, and sponge cakes; fourth, to improve flavor and texture in muffins, cakes, cookies, and other mixtures; fifth, as a coating agent—as in preparing food for deep fat frying.

Miss McNatt gave a demonstration on the use of eggs in a dessert. The next meeting will be June 16, in the home of Billie Greer.

## FAREWELL PARTY

## GO TO COLORADO

Miss Lucille Collier, first grade teacher, and Mrs. S. H. Assiter, teacher of commercial subjects in the Tahoka High school left Thursday morning for Boulder, Colorado, where they will attend school this summer doing work toward their M. A. Degrees.

## H. D. CLUB WILL HAVE PICNIC

Tahoka Home Demonstration club will hold its annual picnic Tuesday of next week at 7 p. m. in the City Park. Mrs. J. B. Oliver, club reporter, informs The News

## TAHOKA H. D. CLUB

"After yeast bread has been kneaded, the dough should be formed into a ball, and put into a greased bowl to rise, stated Miss Maurine McNatt, home agent, at the meeting of the home demonstration club Wednesday, June 14, at 3:00 p. m. at the home of Mrs. J. B. Oliver with Mrs. Russell-Vernon acting as co-hostess.

The dough should be turned once or twice in a lightly greased bowl to keep the surface from drying and cracking, a clean cloth and a plate over the bowl will help to control temperature to keep out dust and to prevent drying.

To raise the temperature of the dough, the bowl may be placed in a pan of water between 95 and 98°F. When the dough has risen double its bulk, it should be tested with the finger to determine whether it is ready to punch down for a second rising.

Delegates elected to attend A. & M. short course, were Mrs. H. M. Snowden, and Mrs. J. K. Wooley. The annual club picnic will be Tuesday, June 20th at 7:00 p. m. in the City Park.

There were 18 members, one visitor and two new members present. The visitor was Mrs. G. W. Finch, and the new members were Mrs. Elbert Rogers, and Mrs. W. O. Robertson.

The club will meet with Mrs. P. D. Server, June 28, at 3:30 p. m. Program topic, will be, "The use of Leisure Time."

## JOE BAILEY CLUB STUDIES EGG COOKERY

"Eggs should be cooked slowly and at a low temperature", Miss Maurine McNatt, home demonstration agent told members of the Joe Bailey 4-H club at their meeting Tuesday, June 13, at the home of Ona Lee Warren.

Heat coagulates the protein of eggs. The point at which albumen or protein coagulates is below the boiling point of water. This property of eggs, makes them useful in cooking, as thickening agents. High temperature toughens the coagulated protein of eggs. It is better therefore, to cook eggs slowly and at a moderate temperature.

There were five members and three visitors present. The visitors were Mrs. Norvel Cunningham, Mrs. Troy Richey, of Joe Bailey and Miss Maxine Oliver of Tahoka.

The next meeting will be in July, at this time there will also be a picnic—Reporter.

## NEW LYNN H. D. CLUB

"A well set table, in perfect balance and order requires very little table ornamentation, said Mrs. Wayne Barton, when the New Lynn Home Demonstration club met with Mrs. Jim Jaynes, June 6th, at 2:30 p. m.

Mrs. Barton said one must be careful lest the table look heavy and crowded. A few well-arranged flowers are more lovely than a mass of flowers. If well chosen a mixed bouquet is very pleasing. The bouquet should be low so that the guests may see across the table.

There were twelve members present: Mmes. Doyle Terry, Fleming, Susie Bartley, Lee Roy Baker, Walker, Wayne Barton, Roy Kelley, Kitty Bartley, Newman Bartley, Bill Rowland, Terry and the hostess.

Grandma Fleming and Mrs. Nicholson were visitors.

The next meeting will be Tuesday, June 20th, at 2:30 o'clock with Mrs. Hub Stalcup.

Visitors welcome.—Reporter.

Yates, Mr. and Mrs. John Fulford and family, Billie and Jean Barham, son and daughter of Mr. and Mrs. Newt Barham, and Willie Marie Yates, daughter of Judge Madison Yates of Lamesa, attended a Yates family reunion at Glen Rose Saturday. ## GRASSLAND H. D. CLUB STUDIES BREADMAKING

"Yeast breads are ready to be kneaded when the flour and liquids are thoroughly mixed and no longer sticks to the sides of the mixing bowl," said Miss Maurine McNatt, home demonstration agent to the Grassland H. D. club which met in the home of Mrs. A. L. Shepherd, June 13, at 2:30 p. m.

The main purpose of the kneading is to develop gluten. This first kneading should be thorough. If the bread is to be kneaded by hand it should be worked quickly with the palms of the hands until it is soft, smooth and elastic. Only a thin film of flour should be used on the board for as the gluten develops the stickiness which was noticed at first disappears.

One visitor, Mrs. Nellie Baker present. Members present were: Mmes. A. A. Lawson, Henry Heck G. C. Watson, D. G. Cook, R. E. Appling, E. A. Thomas, H. B. McCord, C. E. Short, C. M. Greer, A. L. Shepherd, L. H. Kenley, Paul Lawson.

## GIRLS SCOUT PICNIC

The Girl Scouts of New Home went on an all day picnic at the McKenzie State Park at Lubbock Friday. The girls went to Tumble In in the evening. Mrs. George Hancock taught the girls some of the first requirements in learning to swim. The Girl Scouts are working on their second class Girl Scout test. They must learn to swim to pass this test.

Those attending the picnic were Mrs. A. L. Pace, the Girl Scout leader, Mrs. George Hancock, lieutenant, Wilma Weyrick, Natalie Bailey, Bobbie June McCormick, Helen Balch, Juanita Anderson, Aleene Hilton, Evelyn Barron, and Armenta Weyrick.

Dr. and Mrs. E. E. Calaway of Abilene are here to visit their numerous friends and look after business matters, having arrived Wednesday.

A. D. Drager and Mr. and Mrs. Ernest Drager visited relatives at Littlefield Sunday.

Mr. and Mrs. Pledger (Pete) Coleman were business and pleasure visitors in Dallas and Sulphur Springs last week. Pete says he saw John Thomas in the latter city and that the former Tahokan certainly was glad to see some one from home. Mr. and Mrs. Thomas have many, many friends here. Mrs. Tom Reid and sons, Herman and Charles, accompanied the Colemans as far as Sulphur Springs en route to Arkansas to visit relatives.

Mr. and Mrs. B. E. Faulkner and Mr. and Mrs. Frank Fenton and their two children came down from Socorro, New Mexico, last Friday to visit relatives here and to remove Mr. and Mrs. Fenton's household goods to Socorro. The Fentons went to Socorro only recently.

## MARY EUGENIA TIPPIT AND CLAUDE NOWLIN WED

Using the beautiful ring ceremony, Rev. George A. Dale united in marriage at the Baptist Pastor's home at 7 o'clock Sunday morning Miss Mary Eugenia Tippit and Mr. Claude Nowlin. Claude's twin brother Carl acted as best man and his wife as Matron of Honor. Among the witnesses were the bride's sister Percy Dean, and her brother, J. W. Tippit.

The bride is the daughter of Mr. and Mrs. E. S. Tippit, who reside a few miles east of Tahoka, and is a graduate of the Tahoka High School.

Mr. Nowlin was reared in the Edith community east of town but for the past few years had been engaged in business here.

Immediately following the wedding, the bride and groom left for Tucumcari, New Mexico, where Mr. Nowlin expected to open a service station this week.

### T-BAR 4-H CLUB MET

"An adult as well as a child should have an egg in the diet every day" stated Miss Maurine McNatt, home demonstration agent, at the regular meeting of the T-Bar 4-H club Friday, June 9, at 1 p. m. at the home of Mrs. H. F. Lindley.

Eggs are especially rich in the minerals that are needed by the body. These minerals are iron, phosphorus and calcium. They occur in egg yolk in a form that is very easily used by the body.

Mara Lee Coffey of Loraine, was a visitor at the meeting.

The next meeting will be August 11, at Mrs. Lindley's home.

## Swing and Classic Artist Young Composer Rewarded

Singing, composing and playing her way to collegiate fame, Miss Lois Pinson of Forney was selected the most outstanding student in the largest graduating class in the history of Texas State College for Women. The Leman Memorial Award given each year for noteworthy achievements in some particular field was presented by Dr. L. H. Hubbard at the Commencement Exercises. Miss Pinson, in addition to being the school's leading pianist and interpreter of the classic masterpieces, has composed numerous popular songs, the most successful one being "Campus Shadows," a refrain which has been featured at all the college dances and has already found a wide sale.

### MIDAWY CLUB REPORT

"A hard wheat flour is best for making yeast breads because it contains proteins, that combine in the presence of moisture to form strong gluten, Miss Maurine McNatt, Lynn County H. D. Agent told the Midway club ladies June 8, at 2:30 p. m. when they met with Mrs. Sam H. Floyd.

The bread making value of different types of wheat flour depends on the quantity and quality of the gluten that can be developed in them.

Flours are called "strong" or "hard" if they have a comparatively large quantity and good quality of gluten, and "weak" or "soft" if their gluten is low in quality.

The nature and amount of gluten in flour depends on the kind of wheat from which the flour is made and on the milling. The elasticity of dough is due to gluten which expands and holds gas bubbles given off as yeast ferments in the dough.

Mrs. John Thomas will go to College Station for the short course in July.

Fifteen were present at this meeting.

The next meeting of this club will be June 22 at 2:30 p. m. with Mrs. G. A. Edwards.

### SUMMER HOME-MAKING CLASS TAKING FIRST AID COURSE

Under the supervision of Dr. J. W. Sinclair, the students of the summer homemaking class are taking a course in First Aid. The course is the same that the Boy Scouts are receiving.

The girls are exhibiting greater interest in making neat bandages than any other phase of the course. A team of five or six girls is to be chosen to compete against a team of Boy Scouts. Much interest is being shown in planning for the contest demonstrations.

The First Aid class meets from ten thirty until eleven thirty each morning after the regular home-aphysiation and drowning. It is making class. Several mothers have

**SURVEY BEGUN FOR TELEPHONE SYSTEM**

(Cont'd. from first page) this is \$2.50 per month on a one-party line and this rate will be continued on the new system, but the \$2.00 wall and \$2.25 desk rate will be discontinued. On the two-party line, the new rate will be \$2.00 per month, whereas the present charge is \$1.75 for wall phone, \$2.00 for desk, and \$2.25 for handset. The latter is actually 25 cents lower than the present rate for the handset.

Business service phones, however will be slightly higher. The wall phone now costs \$3.50 per month, the desk \$3.50, and the handset \$4.00, whereas the new rate would be \$4.25. Two-party selective service, heretofore not offered business institutions will be available at \$3.25 per month. Rural business phones will remain at the present rate.

In case the new system is installed, Tahoka may expect far better telephone service, and until new equipment is installed the town cannot expect much better telephone service than is now being rendered.

Southwestern Associated Telephone Company for the past few weeks has been engaged in rebuilding the lines in the city and are removing lines to the alleys where possible. New wire is being strung, new poles put in, and the system otherwise improved. With installation of the common battery system, Tahoka should have as good telephone service as any town of like size in this area.

**ODDS AND ENDS**

(Cont'd. from first page) the attendance is not as large usually as might be desired. The attendance at Lubbock, however, was up to par and the program was excellent.

The newspaper boys were there from the murmuring pines and the red hills of old East Texas, from the gentle slopes and the rich valley of the deep, black waxey, from the drainage ditches and the bathing beaches of the coastal plains, from the orange groves and the cabbage patches of the Lower Rio Grande, and possibly a few from the rugged regions of the Trans-Pecos country as well as the Dust Bowl and the bleaching bones of the reaches of the Panhandle.

A West Texas man served as president of the Association the past year, and West Texas men occupy other important positions in the organization. A number of West Texans were on the program. And Charley Guy and other members of the Avalanche-Journal force, Dick Shinkle of the Lubbock Chamber of Commerce, President Clifford Jones and members of the faculty of the Texas Tech, the management of the Lubbock and Hilton Hotels, and other citizens of Lubbock did a fine job of entertaining. Personally, we greatly enjoyed the meetings which we attended and had a jamb-up good time meeting old friends and making new acquaintances.

By the way, what is more pleasant than the unexpected visit of an old-time friend? We had such an experience last Saturday. It was like a burst of sunshine on a wintry day, like the springing-up of cool breezes at the close of a blustering afternoon. Unseen until the door opened, Paul Harkins of Colorado City quietly stepped into the office and greeted us with a friendly smile and a warm handshake that made us glow from the raven locks that adorn our crown to the blasted old corns that have moved in and taken possession of our toes. We first knew Paul in Bell county, where both of us were reared. Then we came west and located at Roscoe, and lo and behold Paul was there. For several years we lived as neighbors. For two or three terms he served his people as county commissioner of Nolan county, and he served them faithfully and well.

Personally, we never asked him a favor but that he granted it. In fact, he granted many favors that we never asked for. And then we moved to Tahoka and Paul moved to Colorado City. Don't think we had seen him for fifteen years. So, when he walked into our office Saturday afternoon looking hale and hearty, though the snows of many winters have lodged in his thinning locks, we felt just like kin-folks had come to see us. What a wonderful thing it is to have real friends!

We had another surprise visit Saturday afternoon B. E. Falkner, a former citizen of Tahoka but now a resident of Socorro, New Mexico, walked into our office for a friendly chat. B. E. and his son Hubert are operating a filling station at Socorro, and B. E. says that the tourist crop is one of the biggest crops of that state. Situated on the Rio Grande River 200 miles north of El Paso and 60 miles southwest of Santa Fe, where the highways converge, tourist traffic there is growing.

But the chief industries, B. E. says, are mining and lumbering. There are numerous sawmills, big and little, in that vicinity. They saw up the pine trees in the mountains and the cottonwood trees that grow in the Rio Grande valley. B. E. says that the cottonwood jungles along the river are almost impenetrable. Who would have thought it? Jungles out there in the arid West! But the sands that imbed the Rio Grande are saturated with water for quite a distance back from the river on either side so that when the lands are cleared up, deep-rooted vegetation will not live. Other vegetation thrives, and alfalfa and some vegetable crops are produced in marvelous quantities.

We are not boosting New Mexico, however, and B. E. doesn't boost it too much. "Greasers" infest the county and shrewd, polite, well-educated "Spanish-Americans" rule it, B. E. says. And that does not exactly suit the ordinary plainsman from Texas. He thinks he has a mighty good thing there financially, however, and that fact covers up a multitude of faults that he might find with the country.

Enough for this time. Maybe we will stay in Texas next week.
