PAULINE McCORD, TOM MOTT MARRY

Miss Pauline McCord became the bride of Tom Mott at 11:00 o'clock Saturday night at the home of the Methodist pastor, Rev. G. E. Tur-

rentine. They left Sunday morning for Fort Worth, where they plan to make their home in the future.

Mrs. Mott is the daughter of Mr. and Mrs. R. B. McCord, and is a graduate of Tahoka high school. Mr. Mott was the manager of the Tahoka Bakery until recently, when it was sold.

The couple were attended by Mesdames Homer Harrison, Carlise Edwards, and E. S. Evans.

PHIBE K. WARNER CLUB HAS FIRST MEETING

The Phebe K. Warner club enjoyed the first meeting of the year Tuesday when they were entertained at the home of Mrs. J. K. Applewhite with a buffet luncheon.

The retiring president, Mrs. H. C. Story, introduced the new officers. Mrs. Truett Smith, incoming president, outlined the year's work, stressing two aims of the club; namely: working toward establishment of a county library and a club house.

The treasurer reported that the student loan fund is now available for another student. The student who used the money last now has a good position. By means of this fund, she was able to finish her college work.

Ernestine Story played two piano solos, "The Rustle of Spring" by Sindling, and "The Rosary" by Nevlin.

Guests and members present were: Mesdames Armstrong, A. P. Edwards, E. S. Evans, J. H. Felts, R. W. Fenton, Sr., T. T. Garrard, Walter Mathis, Emil Prohl, R. L. Richardson, Truett Smith, H. M. Snowden, Spikes, G. M. Stewart, Story, Terry Thompson, G. E. Turrentine, L. E. Weathers, J. C. Hardy, Chase Thompson, Pace, J. W. Sinclair, Miss Ernestine Story, and the hostess, Mrs. Applewhite. New members were Mesdames Sinclair, Pace and Chase Thompson.

GRASSLAND H. D. CLUB

"There's only one reason to punish a child", Miss Maurine McNatt told the members of the Grassland Home Demonstration club Tuesday afternoon, September 12, 1939, at the home of Mrs. Claud Thomas.

"The only reason for punishing a child is to make him understand not to do the naughty thing again. But before you punish, you must be sure that what he is doing is really naughty. It is not naughty for a child to be noisy, move about and get hold of things."

Mrs. C. M. Greer was appointed year book chairman.

Plans were made to have a Ball Jar contest first meeting in October.

There were nine members present, two new members, Mrs. Johnny Ray and Byron Terreal, and two visitors, Mrs. A. S. McNatt of Greenville and Miss McNatt.

PETTY 4-H CLUB

"Odd numbers are always more interesting than even ones, said Miss Maurine McNatt, home demonstration agent, at the Petty 4-H club meeting at the Petty school building Wednesday, September 13.

"Rick-rack or bias tape are good trimmings for kitchen aprons. When these are used for decoration odd numbers of rows are much prettier than two or four."

New officers elected are as follows: Bonnie Harrison, president; Junice Ensor, vice-president; Geraldine Jones, secretary-treasurer; Elisen Baker, reporter; Maxine Watkins clothing demonstrator. The poultry demonstrator will be selected later.

The next meeting will be Wednesday, September 27, with the sponsor, Mrs. J. W. Lowry, in charge.

Mr. and Mrs. A. C. Rylander of Corpus Christi and Mrs. C. K. Fraser of Kingsville were visitors in the home of Mr. and Mrs. L. C. Haney from Saturday to Tuesday. Mrs. Rylander, Mrs. Fraser, and Mrs. Haney are sisters.

Miss Flay Perkins of Brownfield spent the week end with her sister, Mrs. Henry Stewart.

PARENTS MUST KNOW PROBLEMS OF HEALTH

College Station, September 15 —Thousands of Texas children, armed with a shiny new pencil case and a book strap, are trudging back to school this month. Fresh hair cuts and new clothes will be evident for the first morning of school, and anxious mothers will be making numerous last-minute preparations.

But Dirca Hale, specialist in parent education and child development for the A. and M. College Extension Service, points out that there is a deeper readiness than this—the readiness parents have been slowly building throughout the child's infancy and pre-school years.

"If the child is to give the most and get the most from this new school world, he will need the best possible health to work hard and play hard," Miss Hale says. "Parents need now to know the special needs of their own children—especially the amount of food and rest which they require."

The specialist points out that many children start to school every fall with handicaps that could be corrected or greatly improved by proper treatment. Among these handicaps are weak lungs and hearts, defective eyesight or hearing, diseased tonsils or teeth.

Proper health habits are pointed out as remedies to many of the school child's defects. Order and regularity are as important for a child's well being as are sunshine and good food, Miss Hale believes, and she adds that sound health habits are not developed in an atmosphere of worry, hurry, and strain.

She concludes: "There must be that comradeship between parent and child which maintains order and regularity without too much rigidity and which makes allowance for personal preferences and unusual circumstances."

John Coughran and Elmer Coughran and family from Oregon who have been visiting J. E. Ketter of Tahoka and Finley Coughran of Abilene came through Tahoka Monday on their way back to Oregon.

They were accompanied home by Uncle George Coughran and his wife, mother and father of Elmer Coughran.

Mr. and Mrs. Beckham of Lamesa visited Mr. and Mrs. W. M. Harris Monday.

W. L. Palmer of O'Donnell was here Monday and stated to a representative of the News that in his opinion his cotton crop would average in the neighborhood of a half bale per acre. Some of it, he thought, would make two-thirds of a bale. He was counting on at least 800 to 900 bales.

A daughter weighing 8-1-2 pounds was born to Mr. and Mrs. H. D. Owens here Monday at noon. Mrs. Owens is the daughter of Mrs. Effie Russell.

Mrs. Hope Haynes attended a style show in a Lubbock hotel Sunday, and purchased new stock for her store while there.

Mr. and Mrs. Claud Houston have moved here from Amarillo.

METHODIST CHURCH

Beginning Sunday there will be a change in the hour of evening worship by moving it up to 7:45. This will necessitate the change of League to meet at 7. A new class in the Adult Division should prove popular to the numerous couples of the church. This Class will meet the needs of the Young Adults who heretofore have not had a class of their own. We have a capable teacher for the Class, but this group is capable of electing their own teacher and are asked to meet Sunday for this purpose. A teacher of the lesson Sunday will be present. NOTICE TO THE PUBLIC
Any erroneous reflection upon the
reputation or standing of any indi-
vidual, firm or corporation, that
may appear in the columns of The
News will be gladly corrected when
called to our attention.

A bunch of Hitler sympathizers
in this country—and that seems
to include the editors of two or
three newspapers on our exchange
list—are fine at fighting straw
men. They imagine or pretend to
imagine that there is a powerful
group of people in this country,
including many of the country
newspaper publishers, who are
trying to push this country into
war, and then proceed to pound
the wicked war instigators un-
mercifully. If there are any people
in this country who want to get
into war with any other nation
we have not yet met them. War is
a horrible thing and our people
want none of it. On the other hand
most of our people, including
most of the newspaper editors and
publishers, loathe the brute who
for some infernal reason would
plunge his and other countries
into war, and who has no com-
punctions of conscience in mur-
dering women and children and
sending non-combatant ships
bearing hundreds of passengers to
the bottom of the sea. We are
glad that there are still plenty of
people in this country who have
the intestinal fortitude to de-
nounce that sort of thing.

Sad indeed was the self-inflic-
ed death of Claude Teer, chair-
man of the State Board of Con-
trol, when he ran and threw him-
self in front of a moving train re-
cently. Claude Teer was reputed to
be one of the most capable and
conscientious men in the public ser-
vice in this state. He had long
served in one capacity or another.
For a number of years he had
served as a member of the Board
of Control. His duties and respon-
sibilities were many and arduous
and he took his job seriously. Fi-
nally, under the strain he suffered
a nervous breakdown. Just for a
rest and with the hope of regain-
ing his health and poise, he went
for a visit with a friend, the head
of a hospital for the insane in
San Antonio. It was while there
that he suddenly broke away from
his nurse and cast himself in the
path of death. All of which shows
how little we know about the oth-
er man's problems and troubles.
A mere politician or a crook in
office, who does not take his of-
fice seriously except as a means of
self aggrandizement or financial
gain, deserves no more sympathy
than the ordinary man, but the
individual in a responsible position
who feels the weight of his re-
sponsibilities and industriously
and conscientiously seeks to per-
form his duties well always de-
serves our help and sympathy and
consideration. O that we might
be able to distinguish between
these two classes of officials.

When a nation junks religion
and the Bible and turns to the
wiles and the powtr of the devil
to accomplish its ends, it is going
to run into serious trouble not far
down the road. We believe that
the preachers and some of our
wisest statesmen are right when
they say that Christianity is the
only sure cure for the ills of the
world. If all the soldiers in Europe
now engaged in aggressive warfare
for mere pillage and conquest
should this day fall down on their
knees and begin to pray God to
show them what is right and
should firmly resolve to do his will,
we wonder how long the war
would last. In our opinion it would
be over already and Hitler would
be on his way to tall timber.

If this country ever again enters
a European war it will be our
after the strongest sort of pro-
vocation. There was strong pro-
vocation and plenty of justification
for our entry into the World War
in 1917, but the results of victory
in that war have been so disap-
pointing to the American people
and war now is likely to be so
much more horrible even than the
conflict in Europe twenty-odd
years ago, that we would probably
be willing to suffer many insults
and injuries before again resorting
to arms. War not only is horrible
in its savage destruction of life
and property but there is danger
of its utterly blotting out civiliza-
tion itself. We want none of it.
We will have none of it unless and
until we are almost compelled to
fight. There is a better way to
settle difficulties, as a rule.

Of course everybody understands
that the local business men are
not responsible for these rising
prices. Somebody higher up either
has become jittery or is delib-
erately seeking to profiteer. We are
glad that the President is taking
note of the situation and is seek-
ing to do what can be done by
him about the matter.

**WHAT HAPPENED TO MAN TOO
STINGY TO TAKE HOME PAPER**
A man who was too stingy to
subscribe for his home paper, sent
his little boy to borrow the copy
taken by a neighbor. In his haste
the boy ran over a \$4 stand of bees
and in 10 minutes looked like a
warty summer squash.
His father ran to his assistance

and, failing to notice the barbed
wire fence, ran into that, ruining
a \$5 pair of trousers.

The old cow took advantage of
the gap in the fence and got into
the corn field and killed herself
eating green corn.

Hearing a racket, the wife ran
out, upset a four gallon churn of
cream into a basket of little chicks,
drowning the entire batch. In her
haste she dropped a \$35 set of
false teeth.

The baby, having been left alone,
crawled through the cream into
the parlor, ruining a brand new
\$25 carpet.

During the excitement the oldest
daughter ran away with the hired
man, the dog broke up 11 setting
hens and the calves got out and
chewed the tails off four fine shirts
on the clothes line.
Don't borrow your neighbor's pa-

per. It's too risky. Play safe by or-
dering this newspaper sent direct
to you.—Adapted.

"Take Profit Out Of War"—Mahon

Lubbock, Sept. 7. — Congressman George Mahon in discussing the war situation in his Lubbock office early this week, made the following statement:
 "The first order of business when Congress reconvenes should be the passage of legislation designed to take the profits out of war in the event America should become involved. We should make certain at the very outset of this world crisis that in case America gets into the war nobody in this country should profit financially therefrom. In the World War we drafted our men, but we did not draft our capital and our resources. It has been often pointed out, to the shame of our nation, that while American soldiers were giving their lives abroad more than 22,000 Americans were becoming millionaires at home. There is an additional threat to our peace as long as our entry into war holds out the lure of huge profits to large numbers of our people."
 "Legislation on this subject has been advocated for years by veteran organizations and by many Americans generally. Among other members of Congress I have advocated such legislation. Some progress has already been made. Several bills are now pending and there should be no delay in enacting this proposal into law."
 "To stay out of the European war is now the greatest task before us. If we will lay our plans carefully and determine with all our hearts to do so, I have every confidence that we will stay out. As a Representative in Congress of a quarter-million West Texans, I shall make every possible contribution toward that end."

Dr. J. W. Sinclair reports the birth of a son to Mr. and Mrs. Willie Fisher Saturday afternoon at 3:15. The young man weighed in at 9 pounds, 8 ounces.

Mrs. Lawrence Harvick received treatment last week for infection of her hand.

Just as the lighthouse flashes a friendly warning to sailors, so Nature sends out headaches, bad breath, biliousness, which often warn of constipation.
 Too many misunderstand or neglect these symptoms and thereby may invite a host of constipation's other discomforts: sour stomach, belching, loss of appetite or energy.
 Be wise. Take spicy, all vegetable BLACK-DRAUGHT tonight by simple directions and clear your bowels gently, promptly, thoroughly. This intestinal tonic-laxative helps give tone to lazy bowels.

O'DONNELL MAN CELEBRATES 93RD BIRTHDAY

It was a joyous day they spent last Sunday in the home of Ellis J. Tredway just on the outskirts of O'Donnell celebrating the ninety-third birthday of that venerable pioneer, A. M. Tredway, the patriarchal head of the tribe.

Mr. Tredway, we believe, is a native of Tennessee, but he located on a ranch down here in Borden county about 1900 or soon thereafter, and in the early twenties he moved to Tahoka. After residing here several years, he went to O'Donnell to reside with a son.

Dinner was served at the Ellis Tredway home Sunday noon buffet style, and the honoree in the afternoon was presented with a large number of gifts. The four grandchildren unable to attend sent nice gifts and messages.

The family members present were as follows: The honoree and Mr. and Mrs. E. J. Tredway, Mr. and Mrs. W. A. Tredway, and Tom Tredway, sons, O'Donnell Mrs. E. T. Burdette, granddaughter, and her husband, Lubbock; Mrs. Earl Lubbock, granddaughter, and her husband, Lubbock; Mr. Vance Tredway, grandson, and his wife, Stanton; Mrs. Otis Harris, granddaughter, and her husband, O'Donnell; Mr. Howard Tredway, grandson, and his wife, Kermit; Mr. Will Edd Tredway, grandson, and his wife, O'Donnell; Mrs. Ira. B. Krebs, granddaughter, and her husband, Tahoka; Cecil Tredway, grandson, Seagraves; S. H. Jones, nephew, Canyon; C. B. Morrison, nephew, and his family, O'Donnell; and the following great-grandchildren: Harold Burdette, Nell Jean and Donald Krebs, and Stanton D. Harris.

Mr. and Mrs. W. O. Thomas returned Friday night from Eagle Nest, New Mexico, where they spent the summer. Mr. Thomas says they had a wonderful time out there fishing and just enjoying the scenery and the climate. He admits that there are a few fine mountain trout still left in the Red and the Canadian.

Mr. and Mrs. Emory J. Stoops and three children were here over the week end from Amarillo to visit her sisters, Mrs. Elmer Richey and Mrs. Julia Houston.

Mrs. Sam Weathers, who is quite ill, is undergoing treatment in a Lubbock hospital.

FFA ORGANIZES

The first meeting of the year for the Future Farmers of America was held Wednesday night at the high school.

Plans were made for work during the year, and officers were elected. Names of officers will appear in the News next week.

There are from sixty to sixty-two agriculture students this year, nearly double last year's enrollment of thirty-six. It is expected that greater interest than ever before will be manifest in the club and its work.

Mr. and Mrs. W. C. Blaisdell and Mr. and Mrs. J. V. Kelley, all of Houston, spent several days here last week visiting in the I. M. Draper home in the Midway community. Mr. Kelley is a nephew and Mrs. Blaisdell a niece of Mrs. Draper.

Miss Marian Draper plans to leave Saturday for Austin, where she will be a student during the coming session in the University of Texas. She will have a room in the Scottish Rite Dormitory near the University campus.

Mr. and Mrs. Jack Link and son, Jackie, returned to Brownsville Monday after spending two or three weeks here visiting Mr. Link's father, John Link, Mrs. Link's mother, Mrs. Hancock, and other relatives.

Accompanied by Rev. George A. Dale, Miss June Fender went to Plainview Monday where she entered Wayland College. Miss June was a member of the class which graduated in the high school here last spring.

Boyd Smith has recently constructed three small tenant houses on his lots on East Third Street near the former H. P. Cavness home. The buildings are already occupied.

Mr. and Mrs. Howard Wheeler of Royalty visited relatives here last weekend.

CHARLES NELMS IS RAISING THE CORN, ANGLIN SAYS

Walter Anglin was as restless as a hungry wolf the first half of this week.

Mrs. Anglin, Lenore and Sonny, accompanied by Miss Dama of Lubbock and Miss Hazel of Farwell, left Saturday night for a few days visit with her daughter and son-in-law, Mr. and Mrs. Charles Nelms, at Artesia, New Mexico, leaving Mr. Anglin and Herman to hustle as best they could, and the visitors did not return until Wednesday.

Mr. Anglin visited over there a short time ago and he was telling us about Charles' crop. His cotton was about shoulder high but had little on it. Charles explained that the people over there depend almost entirely on irrigation, but this year, soon after every irrigation a rain would come and the cotton got just too much water. It is all weed and no fruit. But it is in the corn field where he shines. He has eighty acres of corn from which he expects to gather at least 4,000 bushels and maybe a good deal more. Walter says it is as fine as he 3/er saw.

Tahoka friends will be delighted to hear of Charles' success as a corn farmer, especially those who like "corn".

Say, we are about to forget the main thing, Mrs. Anglin and the family went over there to help celebrate the first birthday anniversary of her little granddaughter, Sarabeth, who was one year old Sunday. It was a great occasion for Papa and Mama and Grandma.

OBSERVING JEWISH HOLIDAY

The store of Levine Bros. here, operated by Al Lehman, is remaining closed on Thursday and Friday of this week in observance of Rosh Hashanah, the Jewish New Year, which opened Thursday. According to the Jewish calendar, this is the beginning of the year 5,700, we believe.

Rosh Hashanah is one of the great holidays of the Jews and is always observed with religious ceremonies where there is a Jewish synagogue or place of worship.

OWENS BOY CHARGED WITH BURGLARY

Monroe Owens was charged Thursday morning, and another boy was held in jail after the burglary Wednesday night of the Conoco bulk station here and the theft of three tires from Grassland and Draw stations.

A window pane of the Conoco station was broken making it possible for the window to be raised. Attempts were made to tear up the safe, or otherwise enter it, but were futile. Therefore nothing was taken.

BOOSTS MUSEUM PRINTING EXHIBIT

While in Washington we visited the Smithsonian Institution display of old printing materials. Frankly, we were disappointed in the display. It is not representative of the past history of the printing business. If all Panhandle publishers will give Frank P. Hill of the Tahoka News their full co-operation, a better exhibit will be gathered in the museum of the Panhandle-Plains Historical Society.

Those who have not sent in their old material, and their 1939 photograph are urged to do so at once.—C. W. Warwick in the Panhandle Publisher.

AIRPLANE DAMAGED IN EDITH COMMUNITY

An airplane belonging to Gene White of Lubbock was damaged about noon Sunday when it was driven through a four wire fence at the north side of the Walter Vaughn pasture in the Edith community, according to information given the News.

Motor failure as the ship was attempting to take off caused the accident, it is said. No one was injured. White was down visiting his friend B. T. Smith, principal of the Edith school.

COLLISION

The automobile belonging to H. L. Roddy was damaged when Mr. Roddy struck the back of a trailer belonging to C. T. Tankersley here Wednesday.

Both cars were headed east on the east-west street south of the First National bank bldg., when Mr. Tankersley stopped at the intersection. Mr. Roddy was unable to stop in time to prevent hitting the rear of the trailer.

ODDS AND ENDS

By Bee Eye
(The Elder)

Two weeks ago this usually truthful newspaper stated in a front page story that the cotton crop was suffering terribly under the continued heat assaults but on the editorial page it was stated that in some sections of the county the farmers were still "wallowing in clover".

A few of our readers have since been razzing us about that clover business. They want to know where that clover is. Well, to tell you the truth, folks, the sun just kept on shining and the dry winds just kept on blowing until that clover burned up too.

Still, there are a few farmers yet who say that they believe they will gather a half bale per acre. We don't know; we will just wait and see.

But if the news man was misled, a lot of farmers were too. The only difference was that the News man put his down in black and white to appear in the paper three or four days later, while the farmer merely wasted a little breath in

spending his opinion and could "hedge" any moment. All will agree, however, that much of that cotton for some time did look like a bale to the acre. "My cotton is fully as good as it was in 1937", a lot of them told us. Some said, theirs was better. And then, in just a few days time, it withered and went to the bad. Cotton that had been good for a bale per acre, after the lapse of a week, was good for nothing except what it had already matured or had nearly matured. One man told us that he had been here 34 years and he had never seen such a devastating change in the cotton crop in so short a time in his life. Another man standing by who had been here nearly as long agreed with him. So we all got fooled, but—

There is going to be quite a lot of cotton ginned in Lynn county this year yet.

And let us hope that the price continues to grow better.

This crop, whatever it may amount to, has been made on a rather scant rainfall. We do not know what the rainfall has amounted to in the various localities but it has varied considerably. In Tahoka the rainfall for the year from January to August inclusive amounted to only 10.60 inches. In some localities in the county it has been probably three or four inches more than that while in other localities it may have been an inch or two less than the Tahoka rainfall.

And that reminds us that heavy rains are usually greatly over-estimated. If we were to take the estimates made by some citizens, the rainfall in some localities this year would probably run to 20 or 25 inches. Every heavy rain is a four or five inch rain, according to these estimators. If they should have the experience of keeping U. S. rainfall records as registered in government rain gauges for just one year, they would probably be greatly surprised and disillusioned. It's an awful big rain when as much two inches falls at one sitting. A rain fall of an inch and a half in an hour's time in this country is very unusual, and a rainfall of approximately four inches in one day is so rare that it has happened in Tahoka only two or three times in the fifteen years that we have been keeping weather records here.

That's like estimating the size of crowds. If a thousand people gather together in a single meeting place, most people are willing to swear that at least 2,000 were present—and if it is a political meeting and your candidate for governor or sumpin' was the main speaker you are willing to bet your ears that no less than 3,000 people heard him.

Some little crowds, we will admit, can make a big noise, especially when they get all "het up" in a political campaign, and from the noise they make you would think there is a cowpen full. If's like toad frogs, or Indians. Following any big rain, you know, you think you can hear a million toad frogs making merry in the nearest lake. We never took the trouble to count 'em but we have always suspected that if a U. S. census were taken the actual number of frogs in and about that lake would be terribly disappointing, like the census of most towns taken every ten years.

And those Indians in the years gone by! The Comanches, you know, had a way of yelling that would make you think there were at least a hundred of them when there were in fact not more than a dozen. Their sudden onset accompanied with hideous shrieks in the quiet hours of the night was enough to startle an entire army out of its boots. We'll bet if we

could bring to life a thousand Comanches and in some way turn them loose on old Hitler and his army unsuspectingly some dark night, those Germans would get the scare of their lives.

By the way, we noticed not many months ago that those European dictators were undertaking to justify themselves and to smear Uncle Sam by charging that we too had stolen territory that did not belong to us, referring to our dealings with the Indians and with Mexico in years past.

There is little point to that charge.

Take the Indians, for instance. It is true that many white men did cheat many Indians, but that was because the Indians had no real sense of values. A pony or a few glittering beads or a jug of whiskey had more appeal to him than a whole section of land.

Besides, the Indians had no real title to the land. There were no surveys and no Indian claimed title to any particular tract, as a rule. They were nomadic in their habits, and used only an infinitesimal portion of the land for agricultural purposes. In all of the territory now embraced by the United States there were never at any one time more than a million Indians. That means that if those Indians had settled down, there would have been three sections of land for every Indian in the country, or fifteen sections for every family of five.

Did this mere handful of Indians have the moral or legal right to hold this vast territory, rich in natural resources, out of use, and thus deprive the teeming millions of other countries of the right to establish homes and earn their livelihood on America's fertile soil?

We say No. Other people had a right to settle here and put the land to use; and they had a right to protect themselves against Indian attack. The newcomers probably cheated and otherwise mistreated the Indians in many instances, just as the whites still frequently mistreat one another and just as the Indian tribes themselves mistreated one another.

But the Indians had no right to hold these lands merely as hunting grounds and tomahawk the white families who came here to make their homes when there were millions of civilized people in dire need of food and clothing and shelter.

Practically the same thing may be said respecting the Mexicans. In 1820 all the vast and potentially rich territory which now constitutes Texas rightfully belonged to Mexico, but there were few actual Mexican settlers north and east of the Rio Grande, and the Government granted lands to various American colonizers in order that the country might be settled up. Trouble soon arose, of course, for the Anglo-Saxon brought with him his love for political and religious liberty and all those personal rights which had been written into the Constitution of the United States, and of course they were bound to clash with a Government that had no respect for any such rights. Whether a spirit of rebellion was fostered by the Government of the United States or not, which is sometimes charged but which has little basis in fact, there was bound to be a clash sooner or later between the liberty-loving white man and the cruel, treacherous, adventurous Spaniards who were ruling the half-barbarous natives of Mexico.

The clash soon came, and the result was a complete triumph for Anglo-Saxon ideals and civilization.

If Hitler and Mussolini and their ilk can feel any resentment against us for establishing a marvelous civilization with its great democratic institutions and its high ideals upon the rich hills and valleys and plains of the Southwest, let them enjoy it, but let them keep their unholy hands out of this country.
