### Clean-Up Drive Launched By Tahoka Civic Organizations

#### More Beautiful City Is Goal

Friday, May 24, to Friday, May 31 was selected as Clean-Up Week by a group of citizens representing various civic clubs in Tahoka Monday night. Mayor Deen Nowlin will officially designate the time.

The meeting was called by W. T. Hanes, who had been selected as director of the campaign by the Rotary club on the solicitation of the Business and Professional Women's club. Also present were Mayor Deen Nowlin, Happy Smith, spokesman for the Scout Council and the American Legion, Raymond Weathers, Rotarian, Mrs. Gladys M. Stokes, BP&W club, Mrs. G. M. Stewart, Phebe K. Warner club, Mrs. Guy Stroud, president-elect of the P.T.A. and Mrs. Myrtle Rochelle, BP&W club, who is handling publicity.

Mr. Hanes will divide the city into zones, and each zone will be assigned to a club or clubs for the most extensive campaign ever staged in Tahoka for Clean-Up Week. Mr. Hanes has selected Henry Sayles to have charge of the clean-up in the colored district, and he has promised their cooperation.

On the last four days of the campaign, trash will be hauled off free of charge. One day will be set aside for each section. Trash will not be hauled free except on that date, to be announced next week.

Every citizen of the town is urged to cooperate by cleaning his premises, sacking the cans, etc., or putting them in some kind of container in the alley for quick pickup by the trucks. Only through concentrated cooperation can the campaign be a success. For that purpose, pledges will be distributed, which citizens will be asked to sign offering their cooperation. A copy of the pledge will be found at the conclusion of this article, and everyone who is interested should sign it and leave it in one of the boxes posted in the various grocery and drug stores of the town.

#### DURING CLEAN-UP WEEK, MAY 24-MAY 31

I will cooperate in the Tahoka Clean-Up Campaign. I will do my part by cleaning up my home and premises. I will clean or have cleaned any vacant lots in my possession within the city limits of Tahoka, and I will encourage my neighbors and my friends to cooperate in making Tahoka the cleanest little city in West Texas.

#### Great Battle Is Raging On French-German Border

As our forms closed Thursday night, the latest news from Europe was to the effect that the German and Allied armies were engaged in a titanic struggle in Belgium and along the French border, probably the greatest battle of all history.

After an unprecedented bombardment for five days, the Germans had utterly crushed Holland and that country capitulated Tuesday. They had broken through the Belgian fortifications and pushed on deep into the heart of that country, reaching the French border at the South. At a few points they had broken through the northern extension of the Maginot line and were at death grips with the French.

England had also thrown many men into Belgium to assist in repelling the invaders. The outcome of

#### CROWD AT SALE HERE ON MONDAY

Shown above is a part of the big crowd which attended the farm auction Monday afternoon, sponsored by the merchants of Tahoka. Plans are to hold an auction each second Monday.

#### Public Free Library To Be Started In County

As result of a move started recently by women's clubs of Lynn county a county library will be established soon in the court house for the benefit of all people of the county.

Lynn county commissioners court Monday authorized establishment of the library in a room in the court house basement as soon as AAA offices are moved to the new agriculture building. The library will be sponsored by the women's clubs, service clubs, schools, and others. The court also will aid the library financially, contributing \$50.00 now to aid in opening the same to the public. WPA will furnish a librarian, Mrs. McAskill, district supervisor of WPA library work, has promised.

The library movement was started in Lynn county originally by the Phebe K. Warner club, women's study organization, in 1922. For several years they operated a library but the past few years the library has not been in operation.

Mrs. G. M. Stewart of the Phebe K. Warner club who has been active in the work most of the time, is likewise a leader in the movement for the establishment of the county-wide free library.

This club will donate their library to the county library, the Tahoka Book-of-the-Month Club has promised their books, and many individual citizens of Lynn county are expected to contribute books or money with which to buy books. Anyone having books they wish to donate to the library may bring the same to the Lynn County News office, to Mrs. Stewart, or to any of the various women's clubs in the county.

Meeting with the commissioner's court Monday to explain and endorse the library movement were representatives of several of Lynn county ties, Tahoka Baptist and Methodist Home Demonstration clubs, Tahoka Business and Professional Women's club, Tahoka Rotary club, Phebe K. Warner club, Wilson Study club, Wilson Women's Missionary Society, Missionary societies, Legion Auxiliary, P. T. A., and possibly other organizations. The plan for the library was discussed by Mrs. Stewart, Frank Hill, Mrs. I. M. Draper of Midway, Mrs. Garland Pennington of the Baptist W. M. S., a lady from Wilson and Mrs. R. W. Penton, Sr., of the Methodist W. M. S.

Date for the opening of the library has not been set, but sponsors hope to get the library going soon.

J. M. Jones' white leghorn hens are doing their part to feed the country if one egg he found a few days ago is a fair sample. It measured eight inches around the short way and seven inches around the long way and contained a normal egg within the larger egg.

#### Good Crowd At First Auction

Tahoka's first Trade Day drew quite a good-sized crowd of farmers from many communities of the county Monday afternoon and the Auction Sale conducted by Col. Talamus Bowden was a pronounced success for the first one.

Col. Bowden described it as a Five Hundred Dollar Sale and he was well pleased with the results. He said that it was attended by the largest crowd he had ever had at a first day sale.

A Second Monday Sale and Trades Day is scheduled for the second Monday in June.

Farmers are invited to bring anything and everything they may have for sale and it will be sold at public auction free of charge. Business men of Tahoka are sponsoring the sale and paying the expenses.

The names and the business of each of these was called by Col. Bowden Monday afternoon, and he stressed the point that the sale was being sponsored by the business men for the convenience and benefit of the farmers of Lynn county.

The prospects are that this Trades Day and Auction Sale will soon become a big event each second Monday in Tahoka.

#### TWO ARE HONORED WITH BIRTHDAY LUNCHEON

#### Tahoka Round-Up Mass Meeting Is Called For Friday at 2:30 P. M.

Business men of Tahoka and other interested citizens are urged to meet in the county court room this afternoon, Friday, at 2:30 o'clock to discuss plans for this year's Tahoka Round-Up.

R. W. Penton Jr. of the Round-Up Association announced Thursday at the Rotary Club luncheon that a balance of \$600 was carried over from last year's show.

Supt. W. T. Hanes at the Rotary Club meeting presented Max Minor with a plaque honoring him for his athletic and scholastic prowess in Tahoka High School. Minor, who

#### Tragedy Again Stalks Highways

Henry Paradise, 29, a plumber of Big Spring, was so badly injured in an automobile accident that occurred between one and two o'clock Sunday morning on U. S. Highway 87, one mile north of Tahoka, that he died at about 10 o'clock Sunday night in the West Texas Hospital in Lubbock without regaining consciousness.

His injuries consisted of a broken back, broken jaw, crushed chest, and internal injuries. His wife and another man, Alvin Viareggi, who were riding in the car with him, also received painful but not serious injuries.

Paradise and wife and Viareggi were coming south on the highway in a 1936-model Plymouth car when the tire on the right front wheel blew out. He had driven off the pavement on the right side of the road, removed the tire, and started to drive on to Tahoka on the rim, according to Sheriff B. L. Parker, who investigated the accident. He had scarcely gotten back onto the pavement and was driving at a speed of only 15 or 20 miles per hour, when the rear end of his car, on the left side, was struck by another car, driven by J. W. Curtis of O'Donnell, who was also coming south.

The terrific impact of the Curtis car, which was a 1937-model Plymouth, caused the Paradise car to somersault across the highway, stopping just off the pavement on the east side.

Henry Maassen soon came along in a pick-up and Curtis and his nephew who was accompanying him, assisted in placing the injured man in the pick-up. Parker says, and Maassen hurriedly brought Paradise to a physician's office. After receiving first-aid treatment, he was taken to the Hospital in a Harris ambulance. Upon his death, the body was taken to Big Spring for burial.

Mr. Curtis, whose car struck the one in which Paradise was riding, told Mr. Parker that the lights on the Paradise car were out and to that reason he did not see it in time to avoid a collision. Viareggi, however, who was driving the Paradise car, maintained that the lights were burning.

The front car was badly wrecked. The Curtis car was also badly damaged, but the occupants were only slightly injured.

#### MRS. TUNNELL ATTENDS DINNER IN LUBBOCK FOR DISTRICT SUPERINTENDENTS

Mrs. Lenore M. Tunnell attended a dinner given at the Hilton Hotel in Lubbock at 8:30 o'clock Monday evening for the county superintendents of District No. 2, which includes many South Plains counties.

Mrs. Tunnell is secretary of the organization.

Mr. and Mrs. J. T. Balch and Mr. and Mrs. A. J. Shadden spent the weekend in Hagerman, N. M.

#### TREASURER HERE

Charley Lockhart, state treasurer, was a visitor here for several hours Wednesday en route to the West Texas Chamber of Commerce convention at Big Spring.

Lockhart has been in Lubbock for the past several days and made a talk to the Knights of Pythias lodge meeting Tuesday night.

#### Schools Receive \$2.00 Per Capita

Mrs. Lenore Tunnell announced the first of the week that she had just received \$2.00 per capita of the state apportionment of school funds for the schools of Lynn county. This amounted to \$1,970 for the common schools. She was unable to give the exact figures for the independent schools. This makes a total of \$16,000 per capita received thus far this scholastic year. Six dollars more per capita are yet to come.

Mrs. Tunnell also received an additional 25% of the transportation apportionment for this county. Fifty per cent had been received heretofore. Fifteen or twenty per cent of it is expected to come within the next few weeks. About 90 or 95% of the apportionment will be paid.

#### Savings Bonds Investments Are Popular

Postmaster W. E. Smith has furnished The News with information just given out by Secretary of the Treasury Morgenthau, Washington, D. C. to the effect that the total sales of savings Bonds through March 31, 1940, aggregated in maturity value more than \$3,860,273,475 and that purchases have been made by approximately 1,987,374 investors.

The total represents average purchases of \$2,495,325 for each business day since March 1, 1935, when these bonds were first placed on sale.

The total maturity value of purchases for the calendar year 1939 was \$1,104,060,000, an average purchase for each business day of last year of \$3,667,975.

Postmaster Smith says that the local post office ranks 90th out of 222 second class Texas offices listed, in the amount of purchases made. "Interest of the public in the purchase of Baby Bonds is increasing," Mr. Smith stated to the News Wednesday. "Patrons use this plan for various purposes — some as just a

## Odds and Ends *See Eye, the Elder*

It's terrible the way those little old nations of Europe have been kicking Hitler's big old German Police Dog around these past few months.

First it was the Czechs. They got to abusing and mistreating the Germans who lived in Czechoslovakia, so Hitler charged, and he warned them that they must quit it. They paid no attention to his warnings and finally they got so bad that he just had to send his armies over into that country to make them behave themselves. That—we say it modestly—was lie No. 1001. He had told a thousand big ones before. And by way of punishment, he just wiped that country off the map of Europe.

Then Poland got to acting ugly. In fact, it just got to running over Germany something awful. Germans in Poland were subjected to all sorts of persecution. Hitler told all the world about how the Poles were kicking his big German pup around and he deftly suggested that to soothe his ruffled feelings the Poles might hand over to him the city of Danzig and the Corridor. When they became so rude and headless as to decline, he was compelled in sheer self-defense to send his big war machine over into Poland to straighten the Poles out. To do so it was necessary for him to bombard that city, ravish the country, and then gobble up at one gulp all that portion of the country which he was not compelled to hand over to his confederate in

crime, old Joe Stalin. So, compressing all the fabrications concerning Poland into one, that was lie No. 1002.

Great Britain and France had warned Hitler that they would not stand for his assaults upon and dismemberment of Poland, and so when he marched into Poland they declared war upon him, but both sides were stalemated at the border and the war was being waged mostly on and under the sea. Hitler was gradually being "bested" at this game and then he suddenly discovered that Great Britain was about to invade Norway. So, again, in self-defense, he just had to beat Old Neville Chamberlain to the trigger, and lo and behold! Norway one morning found itself filled with German troops who had been dropped from the clouds or landed from camouflaged German transports on Norway's shores. Norway was doing her best to remain neutral. So intent was she upon this policy that she would not even go to the help of her little neighbor Finland while that country was being ravished by the bewhiskered Bolsheviks. She had never done Germany an injury in her whole history. On the contrary, as a neutral, she was carrying on commerce with Germany and furnishing her such supplies as the British could not intercept on the Baltic. She was likewise friendly with Great Britain and France and neither country had the slightest intentions of jumping onto her and gobbling her up. So that pretense of der Fuehrer's, politely speaking, was lie No. 1003.

A similar pretense was made respecting Holland and Belgium and hence the unprovoked assault upon them. That false pretense was lie No. 1004.

The truth of the matter is that Hitler and his warlords have been preparing for this war of conquest ever since Hitler came into the picture several years ago. As chancellor of Germany, he did not obtain dictatorial powers by intimidating the members of his cabinet and of the German legislative body, the Reichstag. He was given these powers for a purpose. That purpose was to build up the greatest war machine in history and to make Germany the strongest military power on the face of the earth. For ten years Germany has been bending every energy to this end. A few years ago, in order that she might have free rein, she tore loose from the League of Nations, to which she had been admitted several years previously. When she felt that her military strength was equal to the task, she began to feel her way along and to become more and more aggressive. Her first real coup was the annexation of Aus-

tria. That was the beginning of a campaign, deliberately planned, to make herself the master of Europe, wreak vengeance on her old enemies, Great Britain and France, to regain her far-flung lost colonies, and finally to become mistress of the world.

In the pursuit of this purpose, she has already subjugated and annexed Austria, Czechoslovakia, half of Poland, and all of little Denmark. Sweden is at her mercy, and Norway is virtually in her grasp. She is now struggling to subdue and annex Holland and Belgium. That done, she will be in fine position to conquer Great Britain and dismember the British Empire. If she succeeds, India will probably become a colony of Germany instead of Great Britain. Australia and Canada will either fall into her power or will become free and independent nations. Canada will be able to remain free only through the intervention of the United States. The Belgian Congo in Central Africa, all of British South Africa and all of the Dutch East Indies will become German possessions. Germany will repossess herself of all her former colonies throughout the world. In addition to that, having acquired the East Indies, it will be only a stone's throw, so to speak, to the Philippines, wards of the United States. All British and Dutch possessions in the West Indies and in South America will become hers.

All this is mere speculation, you say. Maybe it is, but it will be a miracle if it does not happen substantially as we have outlined if Germany wins this war.

And that will not be all of it. She will then begin to work from the inside in South America—in Brazil and Argentina and Bolivia and Peru and the others.

She will be the most powerful empire in all the world, and as an avowed enemy to Democracy and individual rights she will be the greatest menace to the United States we have ever faced.

We may confidently and persistently feel and assert that that war in Europe is no concern of ours, but Great Britain and France are today fighting our battles nevertheless as well as their own. They are today standing between us and the greatest enemy to our ideals, our institutions, and our independence that has arisen since Burgoyne surrendered at Yorktown. If they lose in this struggle, a similar struggle in the course of time will loom in the Western hemisphere.

Mrs. Garland Pennington and daughter, Rae Fern, and Mrs. Moman Johnson and children left Friday for San Saba, where they spent the week-end with their parents, Mr. and Mrs. John Russell.

Mr. and Mrs. Donald Ballew returned last week from a month's visit with her sister, Mrs. Chester McCown, at Siloam Springs, Arkansas.

GEORGE MAHON  
Candidate for Congress  
19th District, Re-Election

Washington, May 17—Gratification over the successful fight in which he had joined with Marvin Jones and others from agricultural areas seeking parity payments for farmers was expressed by Congressman George Mahon last week as the House of Representatives approved an item in the Agricultural Appropriation Bill providing \$212,000,000 for these payments. Continuing the fight begun when the bill was considered earlier this session, Mahon again made a plea to the House to accept a Conference Committee report including the \$212,000,000 parity payment item, which had originally been omitted by the House and approved by the Senate and again brought before the House by Conference Committee report.

Although final vote on the entire bill had not been taken at the time his story was written, Mahon said that the favorable vote on the parity payment item insured its being included in the bill and that final passage was assured.

The farmers' disproportionate share of the national income, his need for an offset to the advantage held by industry through the tariff, and equal recognition of his problems with the problems of labor for whom minimum wage and hour laws have been enacted were cited by Mahon as justifying an appropriation by Congress for parity payments.

Mr. and Mrs. Arley E. Moore visited in Wichita Falls and Rising Star this week.

## Elder Drennon's Notes

I guess I had best send in a few notes, as I have had several requests and also an invitation by the editor.

I must have spring fever as I am sure tired these spring days. It surely can't be laziness.

I think the idea of a free public auction for Tahoka is a good thing. We are having a rodeo here every two weeks. The last one increased the sales at the store where I work 25 per cent. The people will go anywhere there is something out of the ordinary going on. Keep it up.

The biggest advertisement for Tahoka lately is that given by Max Minor in his fine feats on the athletic field. Little did I think he would ever do that when I visited him after his major operation. It just goes to show what one can do when they have the will and the grit.

I am to give the address for the Senior Class Friday night. I think I will give Max as an example of what one can do if they will train and try.

A thing I cannot understand: Why fine people will work and vote for an impeached man when they could vote for a Christian gentleman.

I also think that Jerry Sadler did not help his chances by hiring Leon Huff away from our friend O'Daniel. The most of the papers I read are against O'Daniel but advise their readers to put their money on him. I hope he gets enough votes in the first election so we will not need a run-off; like it was the last time.

Thompson seems to be like Italy—on the fence. My advice is for both of them to stay where they are if they don't want to lose. I think most of the candidates against O'Daniel are making a lot of noise, for the same reason a negro whistles when going through a graveyard.

Friend Hill, you asked for it and there it is. The next time you are in O'Donnell, come to see me, unless the Baptist ritual forbids it.

Yours for more people who will stick when the going gets hard and smile. — R. P. Drennon.

(Ed. Note: Fine, Brother Drennon. When O'Daniel comes again into his kingdom he certainly ought to give you a seat at his right hand. We'll head a petition to get you a place at the head of some good O'Daniel table if he is re-elected; for no booster of his has been more loyal and zealous than you. We shall be delighted to see you any time we are in O'Donnell. The Baptist Church has no ritual, and it has no ordinances forbidding us to associate with ordinary publicans and sinners, O'Danielites, Fergusonites, Sadlerites, Thomponites, or any other likes named or unnamed in Holy Writ.)

Mrs. George Eden returned last Friday from Mineral Wells, where she had been taking treatment in a sanitarium.

## H. D. Clubs Hold Educational Exhibit

Lynn county Home Demonstration Club women had an interesting and attractive educational exhibit among others at the Dairy Show in Plainview last week, according to current comment and mention in some of the State daily papers.

"Milk Around the World," was the title of the Exhibit with a background showing pictures of the milk animals used in various parts of the world, as the camel, the goat, the cow and so on.

The mechanical cow used in the exhibit attracted people who at closer range, inspected charts and exhibits showing the amount of milk, butter and cheese that one person should have in his diet during one year, one week, and one day.

Mmes. Doyle Terry of New Lynn H. R. Tankersley of West Point, I. L. Johnson of Wayside and John Kirkwood of Three Lakes arranged this exhibit, Mmes. Johnson and Kirkwood set it up and had charge of it during the Dairy Show which closed last Friday.

## Freeman Family Holds Reunion

The A. G. Freeman family and relatives from Terrell planned to hold a family reunion on a stream near Brady, but the well-laid plans materialized in surprises and disappointments and even in sorrow for most of the group.

On Thursday the Terrell relatives went down and established the Camp and got busy stowing away dressed squirrels and other good things to eat in the camp refrigerators. Friday afternoon Mr. and Mrs. Freeman, with Mr. and Mrs. W. M. Willcutt went down, but failed to carry the specific directions for reaching the other relatives, so remained in Brady until Sunday and returned home.

Saturday night the remaining members of the family, Mr. and Mrs. Loyd Conwill and Harvey Freeman left, reaching the camp about 4:00 A. M. Sunday. Upon arrival they were surprised that the parents and party had not arrived or been heard from. But they did not have long to worry over that matter for early Sunday morning a message was received that a niece of Mrs. Freeman had died following the birth of twin sons, Saturday night.

Mr. and Mrs. Conwill, Harvey and several of the other relatives immediately started for Terrell, and the funeral was postponed for a time. They attended it in Forney, about four-thirty Sunday afternoon, then started on the return trip arriving here about ten o'clock Monday morning.

## 4-H Club Has Slumber Party

About 80 club girls from eight clubs and some ten or twelve mothers and sponsors enjoyed an outing at the Grade School Gymnasium last Saturday night.

Arriving late in the afternoon the visitors first got acquainted and enjoyed a number of out-door games. A picnic supper brought from home was eaten in the gymnasium, which was followed by entertainment furnished by each Club, such as a song, music, reading or a skit, until all had given a part. Then came a style show in which each girl modeled some garment she had made in her Club work this year.

Then the girls chose "sides" and played two games of basket-ball on the in-door court.

The girls who remained over night left for their homes early Sunday wishing that such good times came oftener.

Clubs represented were: New Lynn, T-Bar, Wells, New Moore, O'Donnell, Midway, West Point, and New Home.

Miss Maurine McNatt, Home Demonstration Agent, was in charge of the program.

**ON THE NEUTRAL FENCE**

Charley Guy, editor of the Av-  
alanche-Journal publications, who  
writes a most interesting column for  
these papers, thinks that not only  
should our government remain neu-  
tral in this European war but that  
the people of the United States in-  
dividually and collectively, should re-  
main neutral in their sympathies.  
Our good friend Charley should take  
a dose of the same medicine that  
he prescribes for others. We have  
rarely seen anything in his column  
in denunciation or even criticism  
of Adolf Hitler but he has literally  
filled it with jibes and criticisms di-  
rected at the British. Their leaders,  
especially Neville Chamberlain, have  
been subjected to frequent and un-  
sparing criticisms in Avalanche edi-  
torials and in his column.

The occasion of Charley's latest  
outburst was a talk made recently  
before the Lubbock Rotary Club by  
"a gentleman of English birth" in  
which he is alleged to have "told his  
listeners many interesting things  
about Great Britain, its war problems  
and how the Allies are set up to win  
the war without a doubt." The thing  
that seems to have irked Charley  
most was the fact that at the con-  
clusion of his speech, "Rota" is ap-  
plauded warmly.

After perfunctorily saying that  
"while we detest Adolf Hitler and  
Joe Stalin and everything they stand  
for", Charley shoots another broad-  
side at the British and French for  
their alleged "nose-thumbing" of  
the United States following the  
world war and for their conduct re-  
specting the smaller nations of Eu-  
rope that Hitler gobbled up. "One  
only has to read of Poland, of Fin-  
land, of Norway, of Austria and the  
others to realize that the British and  
the French also are wholly selfish  
and are masters of the double-cross."  
No condemnation of Germany for  
shooting and bombing these nations  
to death.

And a little further on he sums his  
position up in these words: "We  
can't see any great amount of nobil-  
ity in either side of the current Euro-  
pean mess."

In other words, Charley thinks it  
is merely a case of dog eat dog. He  
thinks that the British and French  
leaders are actuated by no higher  
motives than are Hitler, Ribbentrop,  
et al. and therefore he is perfectly  
neutral, perfectly indifferent as to  
the outcome of the war.

Charley seems to be utterly un-  
able to see—at least he utterly ig-  
nores—the fact that Hitler is making  
war upon everything that Americans  
stand for; that he is engaged in a  
species of international banditry,  
holding up the little nations of Eu-  
rope and robbing them of their in-  
dependence, their liberty, and their  
freedom in order to exploit them,  
just as the highway robber holds up  
his victims; that he is destroying de-  
mocracy, freedom of speech, free-  
dom of the press, freedom of relig-  
ious worship, every right that Amer-  
icans cherish, wherever his armies

go. Whatever may have been the  
sins of Great Britain and France in  
the past, they are not doing this.  
They are fighting to preserve the in-  
dependence of the small nations and  
the cherished rights that their own  
people as well as those of our coun-  
try enjoy.

Charley may sit by and see in-  
ternational robbery and murder and  
rapine like this go on without feel-  
ing any emotion of sympathy for the  
oppressed and without feeling re-  
sentment against the criminal, but  
we can't do it and we don't want to  
do it.

We plead guilty, Charley, to being  
in sympathy with Hitler's victims and  
their Allies. Are you in sympathy  
with Hitler? No? Well, are you in-  
different in a fight like this? Are  
you really on the fence? or on the  
other side of the fence?

We believe that very few Germans  
in this country are in sympathy with  
Adolf Hitler. Most of them or their  
forefathers came from Germany to  
America because they felt that Am-  
erica offered them more freedom

and better opportunities than they  
had in the old country. Here they  
have made good American citizens  
and possibly no class of our citizen-  
ship has been more deeply devoted to  
the principle of freedom and of per-  
sonal rights in which our govern-  
ment is founded than have the Ger-  
mans. We do not think they would  
tolerate a dictator in this country,  
and we are sure they would not like  
one in Germany.

We believe that the time has come  
when peace officers and courts and  
juries should become more hard-  
boiled in dealing with drunken driv-  
ers. There have been numerous fatal  
automobile accidents on the South  
Plains the past few months and in  
a number of them it was rumored  
that the driver was drunk. Every  
drunken driver is a potential mur-  
derer. We have a law against the op-  
eration of an automobile on the high-  
ways by persons under the influence  
of liquor. A farce is being made of  
this law. If the guilty are ever ar-  
raigned in court at all, they usually  
are let off with a suspended sentence

or with very light punishment, and  
the offense is steadily becoming more  
common. Something has got to be  
done about it.

Marvin Jones of the Amarillo dis-  
trict made a speech in Congress the  
other day in which he announced  
that he would soon retire from Con-  
gress. As is well known, he has been  
appointed by the President to a place  
on the U. S. Court of Claims. In the  
speech, Mr. Jones took occasion to  
advise that the present members of  
Congress be re-elected. This is  
probably good advice as a general  
rule. Mr. Jones gave as his reason  
the fact that at this particular time  
experienced men are needed in Con-  
gress to guard against the encroach-  
ments of the executive branch of the  
government upon the functions of  
the legislative department. That's  
right down our alley. That is what  
we have been saying the past few  
years. Congress is the legislative body  
and it should not delegate its func-  
tions to heads of departments and  
heads of "alphabetical" organizations.  
Mr. Ickes and Mr. Wallace and Mr.

Hopkins et al are not legislators.  
They have no legislative functions.  
Congress is the legislative body of  
this country, under our constitution,  
and it should not be horn-swoggled  
out of this function by the heads of  
anything. Marvin Jones spoke a wise  
and timely word.

## Panhandle-Plains Museum Will Build Second Unit of Building At Early Date

Already one of the finest museums of its kind in the country, the museum of the Panhandle-Plains Historical Society at Canyon will be almost doubled in size, directors of the organization decided at a meeting in that city Friday. The addition will be two stories, 98 by 90 feet and will cost \$75,000 to \$100,000. A drive for funds has already been started to make the addition, and Plains school children, citizens, and organizations are being asked for donations in the form of common brick and "gold brick".

John L. McCarty, head of the common brick committee, stated 250,000 brick would be needed, and he already had 19,511 by Monday night. Citizens are asked to gather up stray bricks from the streets, alleys, their premises, or donate funds for such brick. Each brick donated is an important key to the completion of the building. Anyone in Lynn county desiring to contribute to the construction of Pioneer Hall may do so by bringing their bricks or other donations to The News Office.

The first two units of the Museum were erected at a cost of nearly \$100,000, much of which was raised through donations from pioneers and other public spirited citizens. It houses collections of pioneer relics, Indian artifacts, fossils, habitat cases, art; in fact, almost everything from prehistoric animals and mustache cups to printing presses, ox carts, and McCormick's first reaper.

Exhibits are valued at several hundred thousand dollars, and are the most complete of any in the southwest part of the United States. Judge James D. Hamlin of Farwell will contribute his \$60,000 art collection to the museum as soon as the new unit is built, he announced at the meeting in Canyon Friday.

Principal speakers at the meeting were Clinton P. Anderson of Albuquerque, New Mexico, director of the Coronado Cuarto Centennial Celebrations, and former president of Rotary International, and Dr. W. C. Holden, professor of History at Texas Tech.

Officers of the Panhandle-Plains Historical Society are: Judge James D. Hamlin, Farwell, re-elected president to serve his third year; W. T. Coble, Amarillo, first vice-president; Dr. J. A. Hill, Canyon, second vice-president; L. F. Sheffy, Canyon, secretary; W. H. Patrick, Clarendon; Col. R. P. Smythe, Plainview; John L. McCarty, H. C. Pipkin, and Floyd V. Studer, Amarillo; Fred Hobart and C. F. Buckler, Pampa; and Frank P. Hill, Tahoka.

## BRIDES OF YESTER-YEAR ENTERTAINED

The Dorcas Sunday School Class of the Baptist Church entertained their mothers and friends in the beautiful home of Mr. and Mrs. H. P. Cavness, May 10.

The program, beginning at 8:15 P. M. was a pageant depicting the life of a woman from her wedding day to advanced age.

Participating in the wedding scene in the living room were: Mrs. Jim Burleson, reader, Mrs. F. C. Stanley, of Lubbock, soloist, and the bridal party who descended the stairs to the strains of "Lohengrin".

Mrs. K. R. Durham, the bride carried an arm bouquet of shell pink roses and wore white lace dress with long white veil as she entered on the arm of her father, H. P. Cavness. Mrs. F. C. Stanley, who had sung "Believe Me If All Those Endearing Young Charms", preceding the bridal march, sang "O Promise Me", after the party entered.

The years of married life were appropriately recalled by Mrs. Jim Burleson who read timely and clever poems such as "The First Baby", "School Days", "Off to College", "The First Engagement", and closing with "Memories", giving these as high points in the life of a mother.

Many Lynn county Methodists attended the district conference of their church in Seagraves Tuesday, at which delegates from 35 churches in the district overflowed the church in that city.

Bishop Ivan Lee Holt of Dallas brought a powerful sermon at 11 o'clock in the morning.

Dr. O. P. Clark of Lubbock, district superintendent, of the new combined denomination of Methodist churches, presided. Outstanding among the reports was that which revealed the Methodist Churches in this district had added 1,030 new members the first six months of this year, and that there had been 1,000 conversions, with the goal of the year set at 2,000 and six months to go.

Attending from the Tahoka Church were: Rev. G. E. Turrentine, pastor, Rev. Ben Hardy, Mr. and Mrs. A. L. Lockwood, Judge and Mrs. H. C. Cain, John Slover, Frank Hill, and W. E. (Happy) Smith.

Mrs. W. J. Burkhardt was brought home Thursday from the Lubbock Sanitarium, where she had spent a week and had been given a complete check-up.

Mrs. Burkhardt had received an injury on the head in a small "twister" that destroyed a cricken house at her home on April 16.

The trip to the hospital was occasioned by her slow improvement but the check-up revealed no broken bones nor blood clots and it is thought that her recovery, while slow, will be complete.

## Lynn County Registers 333 Trucks, Pick-Ups

AUSTIN, MAY 14 — "More than 1,700 Lynn county residents depend either directly or indirectly upon operation of the Texas motor transportation industry for their livelihood," Lynn B. Shaw, general manager of the Texas Motor Transportation association, reported today.

"This number," Shaw said, "does not include allied industries."

Shaw stated that 333 commercial trucks and farm vehicles were registered in the county this year.

### MORE FISHERMEN

C. A. Thomas and Fred Bucy, Elmer Lagrone of the Newmoore community, Leon Clark and H. L. Clark of Lubbock returned Saturday night from a three-day fishing and hunting trip on the Concho river between Christoval and San Angelo. They report fishing luck not so good, but their luck was better at shooting squirrel.

Nacogdoches County women, when they entertain District 9 of the Texas Home Demonstration Association in Nacogdoches on April 26, will lend emphasis to the Use More Cotton campaign in Texas by wearing cotton dresses. In addition they have asked that all women planning to attend the meeting come attired in cotton, according to Mrs. J. Y. Welch, vice president for District 9.

### Girls Are Advised To Build-Up For Relief

Lack of knowledge causes many a weak, undernourished girl a lot of suffering!

Many others, however, know how the headaches, nervousness, cramp-like pain of functional dysmenorrhea due to malnutrition are helped by the proper use of CARDUI.

Some take it a few days before and during "the time," to help ease periodic distress. But CARDUI's principal use is to help increase appetite; stimulate the flow of gastric juice; so aid digestion, assist in building up physical resistance and thus help reduce periodic distress. Women have used CARDUI for over 50 years.

## For District Attorney

TOM L. PRICE  
Of Post

TO THE CITIZENS OF LYNN COUNTY:

After very careful thought, I have decided to submit myself as a candidate for District Attorney, subject to your action in the Democratic Primary in July. Some delay has been caused in making this announcement due to serious illness in the hospital, but my doctors have assured me that I have completely recovered, and I myself feel better than I have in a number of years. This makes me feel safe in asking of you this important office.

Most of the citizens of this County and District know me personally. Since the early part of 1925 I have lived in your District and of course practiced my profession and during this time from 1927 to 1933 you permitted me to serve you as your District Attorney. My work as your former District Attorney is a matter of record in every County in this District. During this time I, of course, prosecuted and secured convictions in many felony cases; among them being one death penalty case which was appealed to the Court of Criminal Appeals.

At my own expense I followed this case and made oral arguments before the Higher Court. This case was affirmed and the accused paid with his life. During this time I lost only 12 or 14 cases in the six counties in six years. Naturally, in the many felony cases I tried, I went up against many of the ablest and shrewdest lawyers of the State. This experience, as well as a number of years as a defense attorney in both the State and the Federal Courts, I think will give me an opportunity to serve you better than before and enable me to render you valuable service in this responsible office.

In this campaign I shall not undertake to secure your sacred votes by any schemes or misrepresentations, but solely and alone upon my own merits and my record as your former District Attorney. I will not undertake to be elected on the demerits of any other candidate. I have no "axe to grind" nor any person "to get even with." My only desire is to put all my time on this job, using my past experience as your former District Attorney, and with your help and that of your officers to make this District a dreaded place for the professional criminal.

I found while serving you that the most common ways the criminals depredated upon your rights are by theft, burglary, and various crimes of swindling including "Hot Check" writing. No excuse can be given for such crimes. With good roads and fast moving automobiles and trucks, we are facing a situation when our ranchmen, our farmers, and our business men never know when the professional thief or burglar will, during the night, load his trucks to the ground with your property and by daylight be far away or even in another State where apprehension is very difficult. If elected your District Attorney I expect, with the help of your sheriff and other peace officers and the good citizens, to do all I can to stop some of this depredation upon your property. Another crime, one for which there is no excuse, is driving cars on our public roads and highways while intoxicated. Nothing is more dangerous to you and your family. Such practice should stop. Of course the crimes of personal violence such as murder and other personal violence should be prosecuted with

severely, because if our citizens are not secure in their rights to life and liberty, then the very foundation of our existence is threatened.

It will be impossible for me to see and talk with each of you personally, but if elected to this important office you will find your office door always open to you, and I will always be available to you when your rights in any way are being imposed upon by the professional criminal or crook.

If my work before you as a lawyer, and as your former District Attorney meets with your approval; then I welcome an opportunity to further serve you in this important and responsible office. Finally, when the time comes for me to hand back to you your Commission; I promise to hand it back as clean and white as when received: unsullied and unstained by any corruption in office. The crowning glory of my life will be the realization that I have performed this sacred trust to your satisfaction and that you will feel that your votes for me were well cast.

Respectfully submitted,  
TOM L. PRICE,  
of Post, Garza county.

## Soil Erosion Checks Used To Prevent Sand Storm

AMARILLO, May 16—"Steps to check dust storms next year can and should be taken now," declares E. R. Henson, land use coordinator of the U. S. Department of Agriculture in the Southern Great Plains. "Prolonged drought and resultant crop failures last year left thousands of acres in condition to blow this spring. Emergency tillage is about the only weapon farmers have to check soil blowing on these barren acres at this time of the year. Vegetation is necessary to check erosion and farmers now can take steps to produce crops that will help to prevent dust storms next winter and spring," the coordinator points out.

Contour tillage operations, strengthened by terraces where necessary, will catch and hold moisture from spring rains evenly over the field, it is explained. This even distribution of moisture tends to insure an even stand and better yields.

Experimental data in the wind

erosion area show that crop yields may be increased as much as one-third by the use of soil and water conservation practices.

With maximum assurance of producing crops through conservation of all available rainfall this year, farmers will have crop stubble and residues to furnish protection against soil blowing next year, Henson says.

During the severe blowing periods this spring, farmers have observed that where a crop was produced last year and sufficient protective stubble left on the field, there has been little soil lost. On the other hand, fields that produced no crop or that were left without a protective stubble have been subject to severe soil losses in many instances.

"It must be remembered that emergency tillage operations are costly and that their effectiveness in checking wind erosion is only temporary," the coordinator declares. "Agriculture cannot be placed on a long-term, safe and sound basis in the Southern Great Plains until the necessity for emergency operations to control wind erosion each year has been eliminated."

### A NUMBER OF SCHOOLS CLOSE THIS WEEK

Among the schools closing this week in addition to those in Tahoka and O'Donnell, according to Mrs. Lenore Tunnell, county superintendent, are the schools at Draw, Wells, West Point, New Lynn and Gordon. Mrs. Tunnell was scheduled to speak to the seventh grade graduating class at Wells on Thursday night. She had announced that she would speak on some phase of Opportunity.

### W. P. A. Sewing Room Holds Open House

The Tahoka and O'Donnell W. P. A. sewing projects, co-sponsored by the city and county governments, will hold open house throughout next week, which has been designated and proclaimed as "This Work Pays Your Community" Week, running from May 20 to May 25 inclusive, according to announcement made by Miss Evelyn Richter, district director, Professional and Service division.

These projects are participating in the nation-wide open-house observed on every such project from coast to coast throughout next week.

The local sponsors are inviting the citizens of the county to see for themselves what these projects are doing for these communities.

There is a two-fold purpose in operating sewing projects: First, to give employment to needy persons chiefly women who are able to do the work assigned; and second, to produce articles and garments needed by welfare agencies for free distribution to needy families and tax-supported institutions.

A variety of articles are made on these projects, chiefly clothing for men, women, and children, layettes for infants, etc.

There are two sewing projects operating in Lynn County, one at O'Donnell and one at Tahoka.

The one at O'Donnell is employing 33 women, with Mrs. Tessie Coleman as project supervisor. During the six months period from October 28, 1939, to April 27, 1940, a total of 2,493 garments and other articles were made, consuming 4,130 yards of textiles furnished by W. P. A. The cost of textiles was \$575.96, 30, making a total Federal cost of \$3,208.75. Expenditures by sponsors were \$379.08.

#### Vegetable Laxative Makes Happy Friends

Here's a laxative that usually acts thoroughly as harsher ones but is a gentle persuader for intestines when used this way: A quarter to a half-teaspoonful of spicy, aromatic BLACK-DRAUGHT on your tongue tonight; a drink of water. There's usually time for a good night's rest, with a gentle, thorough action next morning relieving constipation's headaches, biliousness, sour stomach, bad breath.

BLACK-DRAUGHT is a splendid combination of vegetable ingredients, chief of which is an "intestinal tonic-laxative" that helps impart tone to lazy bowel muscles. It's economical. 25 to 40 doses: 25c.

Acid Indigestion, Gas on Stomach, Heartburn, are usually caused by injudicious eating or drinking. Try Alka-Seltzer for relief. Alka-Seltzer also relieves the distress of Headache, Colds, Neuralgia, and Muscular Aches and Pains, because it contains an analgesic, (sodium acetyl salicylate). Your druggist sells Alka-Seltzer in handy packages and by the glass of the soda fountain. Try it.

**These Soil Conservation Practices Can Check Next Year's Dust**

Agricultural workers in the wind erosion area of the Southern Great Plains point out that now is the opportune time to start the fight against dust storms of next year. This spring there are many thousand acres of barren land subject to both wind and water erosion like the field at the upper left. Contour tilling, strengthened by terraces where necessary, (upper right) will place the land in condition to catch and hold practically all available moisture during spring and summer. These contour rows and terraces hold the water evenly over the field (center), with the result that a uniform and usually more profitable crop results (lower left). Stubble left on the land when the crop is harvested and properly protected from overgrazing (lower right) provides a safeguard against soil blowing during the winter and spring. The county agricultural agent will furnish additional information about wind erosion control practices which may be seen in actual use in Soil Conservation Service demonstration areas and soil conservation districts, and for which AAA benefit payments may be received.

**7 MAIN REASONS WHY - "I'd rather have a Ford"**

**1 GOING POWER** — the kind of power that only the V-8 engine can give me—instant response, lightning acceleration, marvelous economy, and swift, smooth, faithful performance. 6,000,000 Ford V-Eights—more than all other Eights combined—say this is the power plant for me!

**2 STOPPING POWER** The big hydraulic brakes of the Ford V-8 are far and away the biggest in the low-priced field—a safety factor I've got to have in the new car I buy.

**3 SMOOTHNESS** Not only is amazing power does the Ford V-8 engine excel, but in the smoothness that gives *valvet quiet*. Why should I do without the supreme luxury of 8-cylinder smoothness which no car of fewer cylinders can match?

**4 COMPLETE ECONOMY** The combination of low price, low cost of operation, high trade-in value and more extras at no extra cost, makes the Ford the great Economy Buy for 1940.

**5 POWER TO HOLD THE ROAD** No car in any price field excels Ford in roadability—in keeping "all four feet on the ground" under all driving conditions. This means safety!

**6 STAMINA** In staying power, there's no car that can take the rough with the smooth like Ford. There are more Fords on the highway than any other make of car! This sturdy Ford is made to take it.

**7 STYLE** Ford set the current modern trend in beauty of lines. And Ford's unequalled paint job makes its beauty permanent.

Tahoka figured in state wide news the past week—aside from Max Minor and our Midway champ, Cotton Davis.

Mary Wynn, feature writer for the Star-Telegram, was down at Nacogdoches, covering the anti-aircraft maneuvers going on down there—Texas' big play war. Quote:

"I saw a demonstration of those anti-aircraft weapons that lock anti-everything. At Battery B's headquarters for instance, we came upon a gun crew of eight operating one of the things. The fuse cutter was Homan Edwards of Tahoka."

Howdy, Homan!

Then Tommy Ruth Anderson sent a graduation invitation down to Dallas, and the Dallas News tells the trouble she started:

"The Harold M. Youngs and the Harold H. Youngs, who constantly get their mail, their bills and sometimes their tempers mixed up due to the similarity of their names, were at it again last week."

Harold H. Young, the attorney and third-term-for-Roosevelt leader, received an invitation from Miss Tommy Ruth Anderson inviting him to the graduating exercise at Tahoka High School, Tahoka. He doesn't know Miss Anderson, so he passed it on to Harold M. Young, district manager of the United States Bureau of Foreign and Domestic Commerce.

The letter was a complete mystery to Harold M. Young, so he scanned all his addresses of relatives. As a last resort he went to the telephone directory. He moved down the list of Youngs and then came on Harold B. Younger, dentist in the Wilson Building.

Dr. Younger proved to be the right man."

**WAR...**

this battle may determine the fate of Europe.

In view of the alarming situation in Europe, President Roosevelt went before Congress Thursday and made

a strong appeal for approximately a billion dollars with which to strengthen our army, navy, and air forces. Especially did he propose that the United States should enter immediately upon the task of building 50,000 military airplanes. His address and proposal were received with great enthusiasm by both the Democrats and the Republicans and the sum asked for will probably be voted without undue delay.

Savings account, other as a plan to help finance the expense of their children for college, while still others buy certain amount each month in order that in 10 years, which is the maturity date of these bonds, they will have a steady income which will mature monthly."

Purchases of Savings Bonds at the Tahoka post office during the year 1939 aggregated \$15,018.75. Mr. Smith says.

United States Savings Bonds are sold on a discount basis, according to the Morgenthau statement, and mature in ten years for one-third more than their purchase price. For example, \$75 is the purchase price of a \$100 face value bond, which matures at the end of ten years. Records of the sale for the individual post

offices authorized to sell Savings Bonds are tabulated in cash value.
