Tahoka, Lynn County, Texas, Friday, June 14, 1940

## Cow Testing Service Is Offered Farmers

### Rains To Aid Crops Over Lynn County

#### Hail Damages Some Sections

Most of the county has been covered by light showers this week, with heavy rains and destructive hail falling in some localities.

Crops on a number of farms in a territory covering parts of the Midway, Redwine, and Draw communities were either wiped out or badly damaged by hail Tuesday afternoon. Fred Mathews estimates that four inches of rain fell at his place, and the hail destroyed his cotton. The crops of Buck Martin, Mr. Tyler, W. W. Caswell, L. L. Morris, Wes Luttrell, Elliott Harris and others in that vicinity were badly damaged and in some instances completely destroyed.

It is reported that the I. M. Draper, L. M. Nordyke, and other farms in the Midway community were also hard hit.

A number of crops out northwest of Tahoka in the Dixie community are also reported to have been destroyed or damaged the same afternoon.

Rains from a light sprinkle to heavy downpours are reported from many communities. In Tahoka, a shower fell Monday afternoon amounting to .15 of an inch and on Tuesday afternoon amounting to .19.

Reports from over the county indicate that most of the cotton acreage had been planted and the major portion of it was up. Some was doing well while some of it was badly needing rain.

Barring the areas visited by hail, crops have been helped by the rains that have fallen and the prospect is almost normal, for both cotton and feed.

#### Fall Of Paris Believed Near

Latest reports from the battlefields of Europe indicate that the German army is slowly but surely advancing on all fronts and is gradually closing in on Paris.

The French army has been giving dogged resistance all along the line but has been unable to stem the German tide. The losses on both sides have evidently been terrific.

Most of the civilian population has left Paris and Government officials the first of the week moved to Tours 150 miles to the South. Paris may hold out several days, or it may have fallen into the hands of the Germans before this paper reaches the reader.

It is possible that the French and the British may feel compelled to give up the fight and to ask for the best terms they can get, but the general opinion is that they will never surrender. If the war is long-drawn-out, it seems reasonably certain that in the end the Allies will win.

Italy's entry into the war was a distinct blow to the Allies. It aroused the ire, however, of both the British and the French and caused the United States to speed up its program to furnish airplanes, munitions, and supplies to the Allies. Whether this aid is coming early enough to save the day for the Allies remains yet to be seen.

President Roosevelt's speech in which he denounced Mussolini for leading his country to enter the war and described his action as that of "stabbing a neighbor in the back", expressed the sentiment and met the approval of the people of the United States.

Washington is making feverish haste on her national defense program.

Mr. and Mrs. Bun Nixon of Albuquerque, New Mexico, spent the week-end with his parents, Mr. and Mrs. D. M. Nixon of Grassland.

#### Haynes Added To Tahoka Faculty

Hope Haynes, former teacher at New Home and before that in Haskell county, Monday night was elected to teach in the Tahoka schools by the school board. He will teach mathematics and act as assistant coach.

Haynes holds a B. A. degree from Hardin-Simmons and had eight years experience as a math. teacher.

#### Second Free Auction Held

Col. Talmus Bowden, who conducted the second free auction sale here last Monday on the block just west of Higginbotham - Bartlett Lumber yard, reports that a good-sized crowd was present including a number of women.

He says that the cattle which were brought in sold well. He desires to thank all who brought articles to be sold as well as the business men who sponsored the sale.

Since the business men are paying the expenses of this free auction sale, he insists that the people who are benefitted thereby shall give these business men first consideration in the purchase of the necessities of life.

#### Rotary Club Makes Study Of Flag

Dr. E. Prohl, who had charge of the program at the Rotary luncheon Thursday, gave a quiz on the Stars and Stripes that proved to be very entertaining as well as informative.

All sorts of questions were asked about the flag, from the date of its adoption to flag etiquette.

The quiz revealed the fact that there are many questions respecting the flag which few people can answer, and the Rotarians learned much about it that should be helpful to them on all patriotic occasions. The program was given in view of the fact that today (Friday) is Flag Day.

#### Dawson, Lynn Land Reported Leased

Fifteen thousand acres of land in Lynn and Dawson counties adjacent to O'Donnell, have been leased for oil development, since January 1, according to C. J. Beach of Beach & Son, agents.

Most of the Lynn county land lies north of O'Donnell, while the Dawson land is south and west of town. Five major companies have purchased the leases, according to Beach.

Mr. and Mrs. Elmer Adams of Gadsden, Alabama, are here visiting Mr. and Mrs. R. B. McCord and other relatives. Mrs. Adams is a niece of Mrs. McCord's. Mr. Adams is an employee of the Republic Steel Corporation, and he says that company is running at full force due to demands caused by the war.

M. L. Short of Grassland, who has been in bad health a long time, is now suffering a broken foot. Mrs. Short reports.

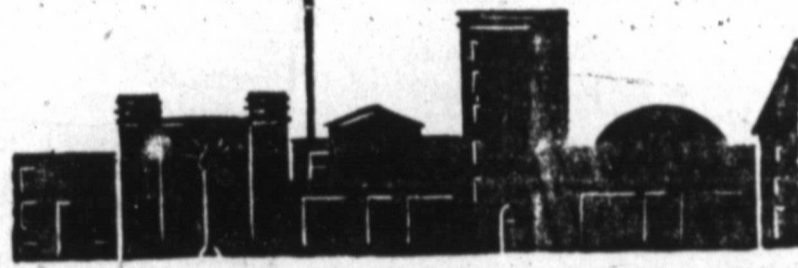

Mrs. J. T. Grisham of Riverside, California, is here visiting her daughter Mrs. E. J. Cooper and other relatives.

Mrs. Fred Bucy and daughter, Ethelene, visited Mrs. Bucy's mother and other relatives in northern Mississippi, the past three weeks.

"... the flag was still there."

We pledge allegiance to the Flag of the United States, and to the Republic for which it stands; One Nation, indivisible, with Liberty and Justice for all.

#### Softball Season Gets Underway

Gaignat's John Deere team won the opener of this year's softball schedule Monday night on the local diamond, when they downed New Lynn, with a score of 26 to 8. The game scheduled for Tuesday night was called off on account of rain. Coach Jackson's boys were slated to meet Orange Crush.

The games are being played on the new diamond just northeast of the utilities plant.

Tonight Grassland and Crossroads will meet for the third game of the season.

Teams entered are the Tahoka Bakery Doughboys, John Deere, New Lynn, Conoco, Rotary, Orange Crush, Coach Jackson's boys, Grassland, Crossroads and probably Phillips 66.

It was announced that a definite schedule would be given this week. The entry of two additional teams caused a change of program, and dates will be announced next week.

#### RETURNS FROM HONEYMOON TRIP TO SCENIC WONDERS

Everton Nevill and bride returned Wednesday from their honeymoon trip of ten days which took them as far west as Flagstaff, Arizona, and the Grand Canyon.

Other scenic wonders which they visited were Monument Valley, the Painted Desert, the Petrified Forest, and last, the Carlsbad Cavern.

This would have been a wonderful trip for any couple at any time.

#### Lubbock Man Killed In Car Accident

Rufus E. Hardberger of Lubbock, 61, sustained fatal injuries Monday afternoon near Baird when the car in which he and his brother were riding plunged into a ditch when the driver tried to dodge another vehicle, it is said. He died in a Cisco hospital Tuesday afternoon.

The body was brought back to Lubbock and funeral services were held there Thursday afternoon.

Mr. Hardberger had been a resident of Lubbock 15 years and had operated a gin at Morton in Cochran county and at O'Donnell and Wayside in this county.

Surviving are the widow, four sons: L. E. of Silverton, Homer of O'Donnell, George of Brownfield, and Billy, a student of the Texas Tech; two daughters: Mrs. Pleas Childress and Mrs. J. L. Littleton, both of Osona; three sisters: Mrs. R. E. Speck of Lamesa, Mrs. C. D. Neal of Fort Worth and Mrs. Ben Davenport of Decatur; and two brothers, George of Knox City and J. H. of Lubbock.

J. W. Lawrence, independent oil man of Amarillo, was in Tahoka Wednesday campaigning in behalf of the candidacy of Baker Salsbury for a place on the Texas Railroad Commission board. While here he had lunch with Mr. and Mrs. Eugene Long and family.

Mrs. Fred Bucy returned Monday from a three weeks vacation in Mississippi.

#### Have A Book You've Read? Donate It To The Library!

Mrs. G. M. Stewart, chairman of the board of the new Lynn County Library which will open in two or three weeks, assisted by Mrs. Bertha McDonald and Miss Estelle Huffman, are preparing a room in the basement of the court house, gathering and cataloguing books preparatory to opening the library.

Individuals and clubs of the entire county are urged to bring or send any books they may have to the library. Many donations already have been received, but many more books are needed. Incidentally, the library will be a free library; or, in other words, no charge will be made, except in a few cases, for reading its books.

Books of fiction, including detective stories, western stories, etc., biography, history, religious, etc. are needed. Nearly every family has some such book that has been read and which the family has no further need. Such books donated to the library would be available to all of the people of the county. The names

of all book contributors will be published in The News.

A total of ninety-six books were contributed to the Public Library at a Book Tea given in the home of Mrs. Lenore M. Tunnell Tuesday afternoon with the Tahoka women's civic clubs as sponsors.

Those who called or sent books, with the number of books contributed were Mesdames Ben Hardy, 3, P. D. Server, 1, G. E. Turrentine, 2, R. L. Richardson, 1, Myrtle Rochelle, 4, W. S. Taylor, 1, E. Prohl, 1, Guy Stroud, 2, W. M. Mathis, 1, L. E. Weathers, 1, J. K. Woosley, 1, Rogers, 2, W. T. Hanes, 1, E. E. Callaway, 4, Tunnell, 20, H. C. Story, 2, Mattie Bradley and N. W. Alphin, 9, W. O. Thomas, 4, D. W. Gaignat, 1, E. H. Boullioun, 1, G. M. Stewart, 2, H. M. Snowden, 2, Gladys M. Stokes, 2, W. O. Henderson, 6, and Misses Hattie Server, 4, Mary Beth Roddy, 1, Myrna Dean Gaignat, 1, Echo Milliken, 2, and Gertrude Bishop, 11.

Other books have been promised.

#### Tahoka Roundup Dates Are Set

Wednesday and Thursday, August 29 and 30, are the dates set for the fourth annual Tahoka Roundup. These dates were set at a meeting of the board of directors of the organization last Thursday night.

Directors discussed plans for this year's celebration and organized for the promotion of the affair.

R. W. Fenton Jr. will act as manager, J. K. Applewhite chairman of the finance committee, A. H. Raborn publicity, Wiley Curry, tickets and concessions; Wayne Chandler and Tom Anderson, grounds; W. L. Burleson, parade and booster trips.

#### Lyntegar Builds Many Extensions

The wire has been strung over practically all of the new extensions of the Lyntegar electric lines in Lynn Garza, Borden, Dawson, and Terry counties, according to Garland Pennington, the manager, but the lines have not yet been energized. One or two other extensions are now under consideration.

The extensions recently constructed embrace about 10 miles with approximately 25 customers in the vicinity of Wilson two miles at Central Church with six members, two miles just east of Grassland with seven members, three miles in the T-Bar community with 10 members, and six miles in the Newmoore community with 65 members, making a total of 23 miles with approximately 65 members in Lynn county; 40 miles with 110 members in Hockley county; 12 miles with 35 members in Terry county; 20 miles with 56 members in Garza county; 30 miles with 74 members in Borden county; and 190 miles with 580 members in Dawson county.

#### Moore Leaves For Mission Work

Elder and Mrs. Arley E. Moore and little son left here Monday morning for Hammond, Oklahoma, where they expected to visit a couple of days with relatives and then start on a long journey to the city of Seattle, Washington, where Elder Moore is to do missionary work thru the summer.

Their journey will lie through Salt Lake City, Utah, and Carson City, Nevada, and their first real stop will be at Portland, Oregon, where they will spend a few days and where Elder Moore will preach on Sunday, June 23. He has several revival meetings booked in and around Seattle with others in prospect.

Elder Moore had been minister for the Church of Christ here only since the first of the year, but he had made many warm friends here who hope that his work in the Northwest may greatly prosper.

The Church here has made arrangements for Eugene Long to fill the pulpit here on Sundays for an indefinite period of time. Mr. Long

#### Grass Is Planted At Grade School

Supt. W. T. Hanes reports that the grounds in front of the Tahoka grade school building have been plowed, graded, and planted in grass as a part of the school grounds beautification program.

With the landscaping previously done on the grounds, this is expected to add greatly to the appearance of both the building and campus.

Another rose bed also was planted on the high school campus a few months ago, and these plants are doing fine.

Dr. and Mrs. K. R. Durham and children plan to leave Sunday for a two or three weeks trip through northwestern states.

#### Bangs Disease Program In Lynn County

Plans are now under way for a Bangs Disease (contagious abortion) eradication program in Lynn County, according to County Agent Don Turner, who has been working to secure the aid of the Federal government in stamping out the disease among the cattle of Lynn county herds. This is the disease that causes undulant fever in human beings by coming in contact with infected cattle or by drinking raw milk from infected cattle.

Under the eradication plan, the Federal government will blood test the cattle at no cost to the owners. If no infection is found on the first test, the herd will not be retested until four months later. If this test is negative, no retest will be made until one year from date of first test. But, if the test shows infection, the herd must be retested every 30 to 60 days until it has passed five or six consecutive tests that are negative.

Before the test can be made the owner must sign an agreement with the government that he will sell for slaughter, under government supervision, within 15 days, any and all animals that show to be reactors, and that all such animals to be slaughtered shall, until removed from the premises, be kept separate from non-reactors. After the test and removal of any reactors, the owner agrees that he will at his own expense clean and disinfect his premises as required by the inspector. The owner further agrees to confine additions to the herd to cattle from herds officially certified to be free from Bangs disease.

The disease in Lynn county is becoming rather common, County Agent Turner states. A number of reactors have been found in previous private tests, and several cases of undulant fever among the people have been reported. The services of the government can not be secured unless the people cooperate to the extent that a large number of the herds of the county are included in the eradication program.

All cattle owners who wish to cooperate in the program are urged to contact the County Agent who has the necessary agreement forms for signature. The program is not intended for the person who wishes to have his cows tested once or twice, but for those who desire to completely eradicate the disease by continuous testing until the herd can be acclaimed free.

#### Benefit Dance For Red Cross

The Business & Professional Women's Club of Tahoka will give a benefit dance at the skating rink, Monday night, June 17th, the proceeds to go to the Red Cross for the benefit of the war sufferers in France. Mr. Sales manager of the skating rink, is donating \$22.50 to the club in the use of the skating rink. C. A. Rogers' orchestra of Lubbock will furnish the music and they are likewise donating half their services. Tickets will be \$1.00 per couple. Every one is invited and urged to be present and make this donation to a very worthy cause.

Business & Professional Women's Club

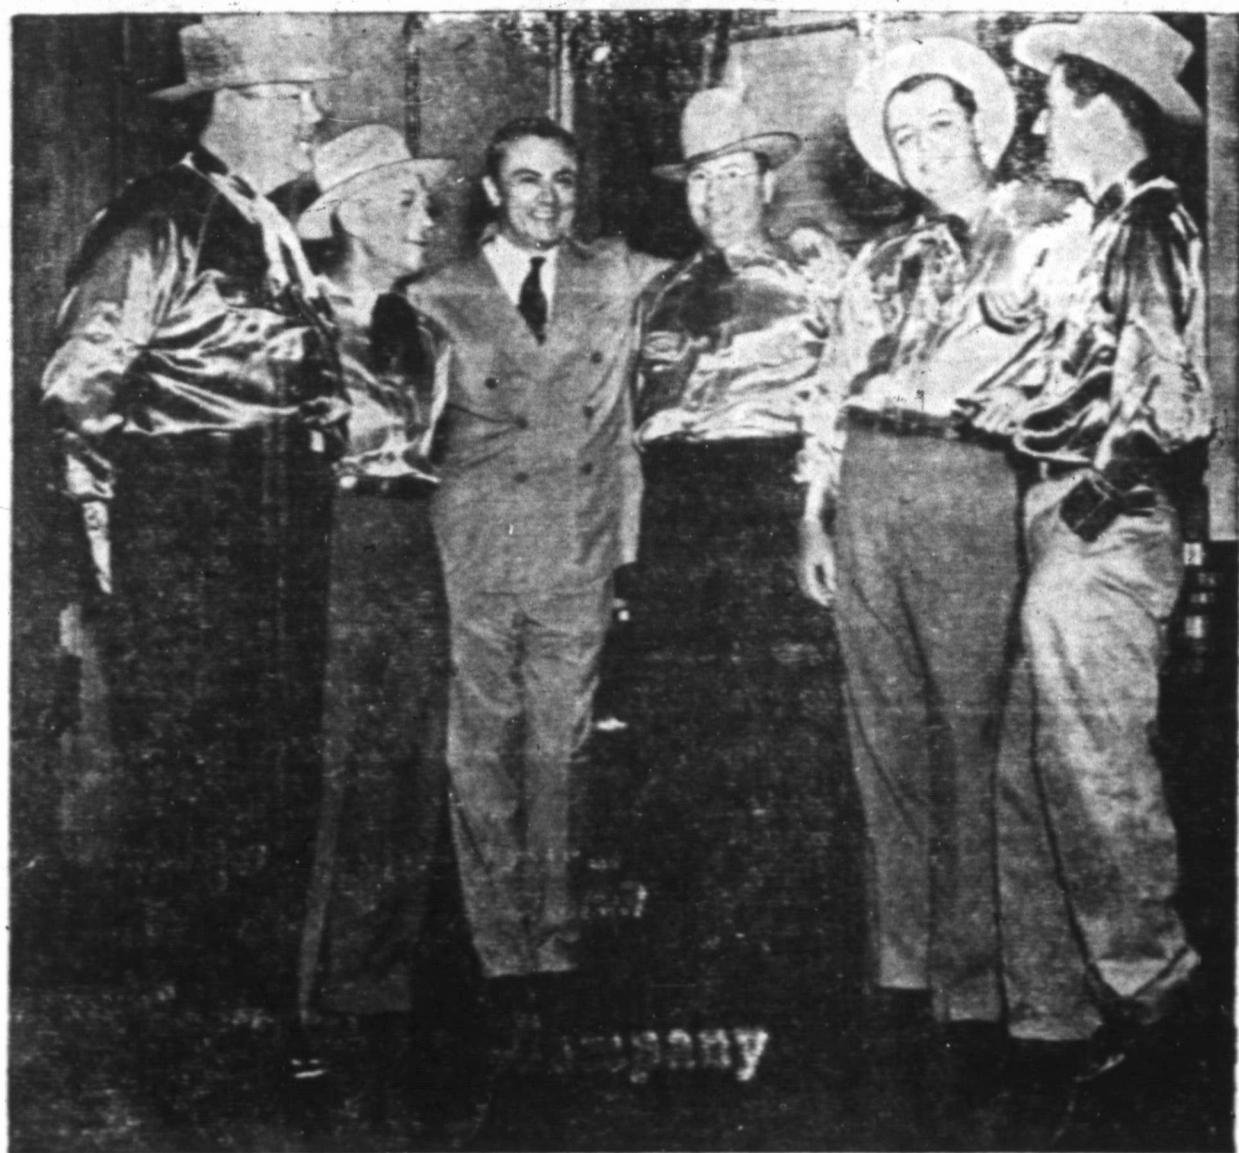

#### Group Hospital Plan Offered

H. D. Woods of Lubbock, manager for the Group Hospital Service in this section of the state, was here Wednesday and announced that Miss Hattie Server had been appointed local representative.

The group Hospital Service, Incorporated, offers a plan whereby hospitalization may be afforded to groups of individuals and to families at an economical cost. Miss Server will be glad to explain the plan to any who are interested.

### GOVERNOR GREETSS LEVELLAND BOOSTERS

Governor W. Lee O'Daniel gave the five Levelland men in the above picture a warm welcome at the State Capitol June 3 when the official committee personally invited the Texas Governor to Levelland's 15th Ann-

versary Celebration July 4, 5 and 6th. In the picture are (left to right) Fletcher Benbow, County Democratic Chairman; Harold Clingan, secretary Hockley County Board of De-

velopment; the Governor, W. Lee O'Daniel; R. H. Hester, president Hockley County Board of Development; J. D. Saunders, Chairman of the Lions Rodeo Committee and Judge Alvin R. Allison, candidate for State Senator.

### Howard - Bishop Rites Solemnized Sunday

Last Sunday morning at 9:30 o'clock there was a quiet home wedding at the residence of the bride's parents when Mr. Jack Bishop and Miss Audrey May Howard were united in marriage, Elder D. W. Reed officiating.

Mr. J. B. Reece, Jr., of Tahoka, acted as best man and Miss Fredoche Slatter as bridesmaid.

The bride was lovely in blue and white with a bouquet of pink carnations. She is the daughter of Mr. and Mrs. Elmer Howard of Post.

The groom's home is in Levelland, where the young people will make their home.

The guests were: Mrs. Bishop, mother of the groom, Levelland; Mr. Ace Bishop, Mrs. Roy Curry and children, Tahoka; Mr. and Mrs. J. J. Bishop, Lubbock; Mr. and Mrs. J. P. Howard and son Harvey, Post; Mr. and Mrs. Donald Pennell and children, Post; Mr. and Mrs. Carl Cederholm and son Sterling, Amarillo; Mrs. Billie Gowan and Miss

Lorain Gowan, Post; Mr. E. L. Howard, Lubbock; Miss Inez Drewery, Elaton; Mr. and Mrs. Albert Howard, Post.—Contributed.

Visiting Mrs. Martha Ray this week are her daughter, Mrs. Cora Curry of Tulsa, Oklahoma, and grand-daughters Mmes Alma Coe and J. W. Stockley and the latter's son Francis Blevins all of Alamogordo, New Mexico.

Mr. and Mrs. P. A. Nowlin and two daughters left Monday for California for two weeks vacation.

### Strange Things Still Happen

Twenty-three years ago Pete Coleman was down at the Rich Aviation Field at Waco preparing for service overseas. He and a young fellow named Walter Beech were fast friends in fact they were pals and worked and played together. Before leaving the field they built an airplane and Pete is generous enough to give Beech the credit for its being a dandy piece of flying machinery.

After leaving Rich Field they lost sight of each other.

A few weeks ago Pete was down at Dallas and met up with some of his pals. One of them asked him what ever became of Walter Beech. Pete didn't know. A third member of the group spoke up and said that he was manufacturing air planes and was the head of the Beech Aircraft Corporation of Wichita, Kansas.

Upon arriving home, Pete wrote Beech a letter, and very promptly he received a reply. His old pal Walter Beech sure enough is head of the big Beech Aircraft Corporation, which is doing a thriving business Furthermore, Beech sent Pete a catalogue of his products, containing various types of flying machines. One of his machines was taken by Byrd to the South Pole.

Beech invited Pete to come up and see him, and one could tell by the longing look in Pete's eye that he was just dying to go. We'll bet he and Mrs. Coleman would enjoy such a visit more than any thing.

And what if this country gets into war and they need men in the aviation service? We know where Pete will land. At least we have an idea where he will take off—and what make of machine he will take off in, if he has his way about it.

Mr. and Mrs. D. C. McGrew and Mrs. Mary Talley of Hot Springs, Arkansas, are here visiting Mrs. Belle Mathews of the Grassland community. The three ladies are sisters, and Mrs. McGrew is a teacher, having taught in the same county in Arkansas for more than thirty years.

Mrs. Fred B. Hegl returned Tuesday from Williamsburg, Virginia, where she attended the national Conclave of Kappa Omicron Phi, a home economics Greek letter honor society.

### Officers Told That Thefts Decrease

DICKENS, JUNE 11.—Sheriff B. L. Parker pointed to a 75 per cent decrease in cattle thefts since organization of West Texas Peace Officers association as its evidence of success at the bi-monthly meeting of the group here today.

The association deferred election of officers until next meeting Aug. 13, which was awarded to Clairmont. The fact that primary elections will be conducted this spring led to a general contention that a later date should be set for naming officers for the coming year.

**Cultists Are Discussed**  
Sheriff Parker is president and District Attorney Truett Smith, also of Tahoka, is secretary.

Approximately 150 persons including 59 members of the organization, were served barbecue at the city park in Spur at noon. The session here was conducted in Dickens county courthouse, with Johnnie Koonsman, Dickens county sheriff, as host.

Discussion of recent uprisings due to public feeling against "Jehovah's Witnesses" brought agreement that tolerance should be used against members of the religious cult. No law gives officers the right of arrest of the cultists.

Members of the group said, recent campaigning of the Witnesses was nothing aside from the ordinary meetings conducted by the religious group during peacetime.

First report of cattle thefts, Sheriff Parker said, was compiled by the association 11 months ago and the number was 73. It dropped to slightly more than 50 the ensuing month and finally to 18.

At the barbecue at Spur, several persons made brief welcome addresses. T. E. Milan, O. L. Kelley, O. B. Ratliff, O. C. Arthur and Mayor F. W. Jennings welcomed the group to Spur. Representative C. L. Harris praised work of the peace officer.

A welcome to the county was extended by County Judge Marshall Formby who pointed to the work done by the peace officers in enforcing law during modern times and

in reduction of cattle and sheep theft in West Texas.

### MISS FAYE MASSENGALE TO WED SUNDAY

Announcement has been received by friends here that Miss Faye Massengale, daughter of Mrs. Jesse J. Massengale, of Los Angeles, California, will be married to William Joseph Welser Jr., in a Los Angeles Methodist Church, next Sunday. The Massengales lived here for a number of years and Miss Faye has many friends here who will wish her every possible happiness.

**Drennon's Notes**  
(Delayed)

A few more notes; just too lazy to write last week.

The people all around me are in such an unsettled state of mind it is hard to keep our spirits up, but I have decided there is just one thing to do, and that is to have faith in God and put my trust in him.

If there ever was a time in the world's history when people needed to get back to God and his teaching it is now.

While editor Hill is emphasizing preparedness from a military stand point I think there is a preparedness far more essential than that, and that is spiritual.

While I am not against Uncle Sam getting ready for a foreign enemy. I think he has some at home that needs looking after. After all our preparedness, God will finally decide who will win. I believe the people of our fair land need God more than they need airplanes. I hope my readers will not misunderstand me, while I believe in our making ample preparation, yet I believe if God is not for us, we will fail.

The political pot is boiling. I can hardly go anywhere that a candidate does not give his card and ask for my support, and one thing I notice, is that they take more interest in me on election years than any other time. I wish some of them would show a little more interest after they are elected. I am amused at the way some of them react when I ask them how they stand on the governor and his principles. I wish we had more men of O'Daniel's type running for our offices. I think we need to mix religion with our politics. I can't see how it could hurt it, and I feel it would help some.

I don't find many down our way for Grandpa and Grandma Ferguson. I think they are "has beens" and that Jerry Sadler "never was".

I want to thank Mrs. Minor for her kind letter, she said she would give me some flowers now while I me that too many of us give them too late for the recipient to enjoy. late for the recipient to enjoy.

Our work with the church here

is very pleasant, the attendance and interest is holding up for vacation time. While we have some citizens not up to par, some of the best people any where are to be found here.

Yours for more people who will watch themselves as close as they watch others.

Visit the friendly church next Lord's day and hear the Gospel of Christ preached.—R. P. Drennon.

**MRS. H. D. HEATH DIES.**  
**AT OLNEY**

Friends here learned a few days ago that Mrs. H. D. Heath of Yoakum county had died on Tuesday of Mrs. Heath was the wife of H. D. Heath for many years active and prominent in the ministry, serving for a long time as one of the state missionaries for the Baptist denomination. She with her husband lived in this county a number of years, owning a farm in the Dixie community. Their son, L. C. Heath and family also lived here, L. C. being engaged in the practice of the law, removing a few years ago to Brownfield.

Her husband retired a few years ago from active work in the ministry and they have since engaged in stock farming on a large scale in Yoakum county.

Mrs. Heath was the finest type of wife and mother and her life was an inspiration to untold numbers. She had been in bad health the past few years but kept her sweet, cheerful disposition. Many friends here are grieved at her passing.

**WYMAN JOHNSON AND MISS ODESSA HALFORD MARRIED**

Wyman Granville Johnson, Ralls, and Miss Ruth Odessa Halford of New Home were united in marriage last Saturday and will make their home at Ralls, where Mr. Johnson is agent for the Singer Sewing Machine Co.

Mr. Johnson is the son of Mr. and Mrs. J. M. Johnson of Tahoka and the bride's parents are farm people of the New Home community.

**Today is Flag Day.**

One hundred and forty three years ago today, on June 14, 1777, the 13 stars and stripes were adopted by congress as the official flag. Today there are 13 stripes, representing the original colonies, and 48 stars representing a powerful nation—the first successful democracy, and the protector of the Americas.

How much do you know about the code of the flag? Here are a few questions to test you.

1. Is there a particular star in the flag that represents Texas? If so which one?
2. When and how should the U. S. flag be saluted?
3. Is it proper to use a facsimile of the flag to decorate cushions, handkerchiefs, paper napkins, or in any form of advertising?
4. How should the U. S. flag and the flag of other nations be displayed together?
5. What is meant by the term "to strike the flag"? To "tip" it?

When Jehovah's witnesses or any other religious factions refuse to salute the flag, they should be told that they cannot then expect its protection. Or maybe the solution reached in Waxahachie would be more effective. To prevent the passing of unpatriotic literature, the city council has passed an ordinance making it necessary to procure a license to distribute pamphlets or similar literature. The punishment is a fine ranging from \$10 to \$100.

**ANSWERS TO QUESTIONS**

1. Texas is the twenty-eighth star, reading from left to right, or the lower left star of the central four.

Nu-Way Cleaners

Each state has a definite star in the flag.

2. During a ceremony of hoisting or lowering the flag, or when the flag is passing in review or in a parade, all persons should face the flag, stand at attention, and salute. Those in uniform should render the right hand salute. When not in uniform, men should remove the head-dress with the right hand, and hold it at the left shoulder. Women should salute by placing the right hand over the heart. The salute to the flag in the moving column is rendered at the moment the flag passes.

3. According to a code adopted by the American Legion, it is not proper to use the flag in any of these ways.

4. When flags of two or more nations are displayed, except when in war against each other, they should be flown from separate staffs of the same height, and the flags should be of the same approximate size.

5. To strike the flag is to haul it down in surrender, to dip it is to lower it slightly and then run it up again, a form of salute.

**Slaton Plans For Rodeo**

SLATON, JUNE 12—With completion of chutes and arena, preparations for the South Plains Roundup June 28 and 29 are going forward at top speed.

C. F. Anderson, president of the rodeo association, reports that the grounds committee has just finished a 6 foot wire fence around the playing field of the local football plant. Chutes and pens have been built on the south end of the field with the catch pens on the north end. The bleachers, grass and lights of the athletic field will add to the pleasure and comfort of all spectators by affording good seats, clear lights for the night performances and elimination of dust.

Special attractions have been booked and entries and inquiries are coming in rapidly. Special prizes are being offered for floats to appear in the parade. Slaton business firms have agreed to have a girl sponsor to ride for them. A girl sponsors

contest will include local and out of town girls. Representatives are expected from many West Texas cities. Attractive prizes will be offered in this division.

Bill Lyons, of Petrolia, Texas, outstanding rodeo producer, is furnishing the stock to be used during the two day celebration. This same contractor is furnishing most of the stock for the Cowboy Reunion at Stamford; thus the spectators will be assured of lots of excitement and thrills. This is an amateur show and attractive prizes will be offered the boys taking part.

Plenty of amusement and fun awaits those who come to Slaton during this two day affair, for there will be three big dances, parades and good music.

"Just like a man—with his superior air—he'd keep telling me any gasoline is the same as any other. But I argued there couldn't be much to lose, as long as they give you the Conoco Mile-Dial perfectly free.

"They certainly wouldn't tease you to take a thing that strictly counts up the mileage from their own gasoline, unless they're awfully sure of themselves. So I steered to the first Conoco station and in half a second the Mile-Dial was on the dash. Looks smart. Free, too.

"The total mileage on your speedometer goes on the Mile-Dial, so you know the start of your test. And you know the amount of your gasoline, by starting with just a full tank of Bronz-z-z. Then going along buying your 10 gallons more, or maybe 8, or 15 let's say, your Mile-Dial keeps count.

"Let's look. I'm up to 53 gallons. And... wait a second... it's 928 miles since starting this test of Conoco Bronz-z-z. Now watch this

flip of the Mile-Dial. There!—it says better than 17 1/2 miles from a gallon of Bronz-z-z, with a car this big. And do I hear any pooh-pooh?

"Even Henry won't say it's just luck any more, after all the different driving tests he's kept doing with this Mile-Dial... Luck?... It's just bad luck using mixed breeds of gasoline when Conoco Bronz-z-z is game to let you dial its true mileage. A smaller car like yours might even beat 17 1/2.

"If you're a consumer that wants 36 inches in a yard, and real facts on everything, you certainly want the true count of mileage from your open-face Conoco Mile-Dial..."

Get your own certified Mile-Dial today at Your Mileage Merchant's Conoco station... FREE. There's a heavy demand—go now. Continental Oil Company

TRUCK OWNERS who lack fancy cost-systems find Conoco's Mile-Dial the best thing yet.

# Census Figures For Many Plains Towns

Preliminary census figures on town population of the 48 towns in the 19th congressional district show 27 of them made gains during the decade from April 1, 1930 to April 1, 1940; 16 showed a loss, three showed population where none was recorded and two more towns are yet to be reported.

These 48 towns made a net gain in population of 22,936 persons.

### Lubbock Is Largest

Lubbock is the largest town, with a population of 31,588, a net increase of 11,068. Big Spring ranks second with 12,604, but this is 1,131 under that of ten years ago. Plainview ranks third with 8,257, a loss of 577 from previous figures; Lamesa ranks fourth with 6,019, an increase of 2,491; Colorado City places fifth with 5,187, an increase of 566 persons.

Sixth places goes to Brownfield with 4,003, an increase of 2,096 over the 1,907 found there ten years ago. This is the greatest percentage of increase among the larger towns. Snyder follows closely with 3,807, a 799 gain; Littlefield is just below with 3,791, an increase of 573; Slaton ranks ninth with 3,583, a loss of 293; Seagraves, oil field town, is tenth with 3,290, an increase of 2,785 in population. Haskell is 11th with 3,050, a 428 gain and Levelland is 12th with 3,045, a gain of 1,384.

### District Is Divided

The District was divided into sections with Robert H. Bean of Lubbock, supervisor in the north half, and A. G. Bearden of Lamesa, supervisor in the south half.

No figures have been announced for Denver City, Yoakum county oil field town that was a pasture just a little over a year and a half ago. Ropesville also has not had its figures announced.

For that section of Texas west of Fort Worth, Lubbock ranks third; Big Spring, sixth; Plainview, ninth; Lamesa, eleventh; and Colorado City 12th. Sweetwater has not been announced.

Other rankings are: Amarillo, first; Wichita Falls, second; Abilene, 4th; San Angelo, 5th; Pampa, 7th; Borger, eighth; Childress, tenth; Midland and Odessa, as well as Denver City, are yet to be reported.

The district is comprised of 25

counties, Andrews, Bailey, Borden, Cochran, Crosby, Dawson, Dickens, Floyd, Gaines, Garza, Hale, Haskell, Heckley, Howard, Kent, King, Lamb, Lubbock, Lynn, Martin, Mitchell, Scurry, Stonewall, Terry, and Yoakum. Ten years ago these counties reported 254,367 population.

In the northern district 15 towns showed population gains, 11 showed losses and one town was new; in the south district, 12 towns showed an increase, five towns showed losses and two were new towns.

Towns showing gains totalled 27,483 population; losses were 3,302; new towns without comparative figures, 1,507, making the total 4,547. Leaving a net increase of 22,936.

What proportion of the county populations went from the farms to the towns can only be speculated upon.

Lubbock county showed an increase from 39,104 to 51,490; Terry an increase from 8,872 to 11,025; Haskell from 2,632 to 3,050, while Crosby decreased from 11,023 to 10,050 and Floyd from 12,409 to 10,655.

Population figures for other counties have not been announced but are expected to be in a short time. Likewise supervisors state they hope to show the number of farms in each county as compared with 1930 and 1935.

### COMPARATIVE FIGURES FOR DISTRICT SHOWN

Nineteenth district population in 1940 by towns, with comparative figures for 1930 are given below.

TOWN	1940	1930
Abernathy	847	858
Amherst	750	964
Andrews	616	000
Anton	548	400
Aspermont	1,041	769

Haskell	3,050	2,632
Idealou	503	538
Jayton	766	623
Lamesa	6,019	3,528
Levelland	3,045	1,661

# Forty Fair Reflections

Beautifully mirrored in the placid pool of the Court of Flowers is the massive Triumphal Arch at the 1940 Golden Gate International Exposition. Decked in its finest holiday dress, and literally covered by thousands of blossoming flowers, Treasure Island will open its portals to the world.

# Pastors Challenge False Report

We understand that a report has been circulated widely in Tahoka to the effect that pupils in the Methodist and Baptist Sunday Schools have been placed in classes according to their ability to dress well.

We wish to take this opportunity to brand as absolutely false all such statements. Nothing of the kind has ever been done in our churches, and we now wish to assure every one in the community and every one who will likely visit Tahoka that you are not only welcomed to all the services of the church, its Sunday schools, and Missionary bodies, but you are invited and urged to come.

There are no requirements of faith or action or no contributions demanded of those who wish to attend these services. Opportunities are given for contributions freely made but no compulsion is exercised. No one need be embarrassed because of clothing or inability to make a contribution.

We consider one of the marks of a true church to be that it continues to bring the Gospel to those who can not fully support its messengers and the upkeep of its buildings and programs. Furthermore we give yearly hundreds of dollars to the spread of the Gospel, to charity, hospitalization, and other worthy enterprises from which we never expect to receive any other compensation than the joy we receive in doing good. We have also joyfully and freely assisted many needy families in our town and made it possible for their children to come to church and Sunday School.

The Prophet Isaiah wrote that one of the marks of the Spirit of the Lord upon the promised Messiah would be that "The poor have the gospel preached unto them". Any one who would deliberately accuse a preacher falsely of failing to do this can not rightly be considered to have the mind of Christ or the good of the people at heart. There may be room, brother, for your Gospel as you understand it, but never room for false statements.

We take this opportunity to invite one and all to every service of the Church.

George E. Turrentine

# Burleson Is Erecting Large Feed Plant

Jim Burleson is busily engaged in building an immense new structure for his grain and feed business immediately north of the present plant.

Built on a concrete foundation, the new building will be 80x132 feet in size with 10-foot inside walls. The floor of the building will also be of concrete, eight inches thick.

Inside will be grain bins and elevators, and the most modern machinery will be installed, including a thrasher, cleaner, grinder, syrup mixer, tubing machine, etc.

When finished, it will be possibly the most complete business of its kind in West Texas, and one of the largest.

Mr. Burleson has long come an immense feed and grain business here and he is preparing to serve the public even better than he has done heretofore.

### BIRD SENSE

Many sportsmen and naturalists credit birds with reasoning power, because they learn from experience, they point out that an experienced pheasant, for instance, is very difficult to flush, the bird learns that any noise coming towards him may be a signal of danger, and, instead of flushing, he will creep along the ground, or run, refusing, until forced, to rise into the air where he might become a target for a sportsman's gun, or a bird of prey, for this reason, spaniels are the best dogs for hunting pheasants, they will crowd the bird until it flushes, instead of pointing them.

# Congratulations

Mr. and Mrs. James Applewhite of O'Donnell are the parents of a 7½-pound son born Thursday morning at 11 o'clock in West Texas hospital. He will be known as James Kenneth Applewhite.

Recent research has shown that the summer decrease in egg size is due largely to the high temperatures encountered during the season. Protection against the excessive summer heat, especially in the form of dens in the form of larger eggs, floor line ventilation, will pay dividends in the form of larger eggs. County agricultural and home demonstration agents have information on floor line ventilation.

Charls Gagnat was examined about three weeks ago at Fort Sill, Oklahoma, for re-entry to West Point Military Academy, and he has received word that he is physically fit, and will enter training September 1st. Until that time he will continue to go to school at Texas Tech, where he will enter the aviation school this summer.

WHILE WIFE AWAY, ALL THE KIN VISIT HUBBY

Mr. and Mrs. P. Coleman were called to Ballinger Thursday night of last week, where Mrs. Coleman's mother, Mrs. S. M. Seay, was confined in a hospital after a fall at her home.

After Mr. Coleman returned home, his brother Hall Coleman, wife and son James came from Brownwood Friday for a visit.

On Sunday, not knowing that Mrs. Coleman was away from home, S. H. Chumley and granddaughter Jo Marie of Bronte, Miss Olive Chumley, Mrs. R. E. Lee, and son Robert Swan Lee of Big Spring, all relatives of Mr. Coleman, came to visit them.

Pete says that luckily the Sunday visitors brought their lunch with them, having a premonition that the Colemans might not be at home, and so he was saved the embarrassment of undertaking to prepare the noon meal.

Mr. Coleman's brother and wife had gone to Lubbock Sunday morning to spend the day and the other visitors had left when they returned Sunday afternoon, so they and Pete hastened on to Big Spring to visit them there.

TAHOKA GIRLS ATTEND SUMMER ASSEMBLY

Misses Valerie Bartley, Francis Jane Mitchell, and Lenore Anglin spent last week in Abilene attending the Summer Assembly at McMurray College.

This is a training school for the young people of the Methodist Church held each year at the College.

The Tahoka girls report that they had an exceedingly pleasant week and gathered much information and inspiration that will be helpful to them in the work of the Epworth League in the local Methodist Church.

While in Abilene they were shown many courtesies by Dr. and Mrs. E. E. Callaway, Mrs. Callaway having been their Sunday School teacher while she was a resident of Tahoka.

D. P. Reddell returned Sunday from a week's visit with the J. R. West family at Wingate.

News Want Ads Are Little Salesmen!

FLORENCE BOYS JUST OUT OF HOWARD PAYNE

Two sons of Mr. and Mrs. W. Z. Florence of Draw have been attending Howard Payne College at Brownwood the past year.

Willie, who was a junior in the college the past session, has accepted employment as a mail clerk for this summer for the Southwestern Telephone Company in that city.

He is a letterman of the 1940 track team and was winner of the discus throw in the annual Texas conference track and field meet held at Abilene May 10.

Charles Florence, a brother to Willie, has just returned from Brownwood, where he attended Howard Payne. He will be a junior next year.

Roy Hicks visited his parents at Rochester over the week-end. He was accompanied back to Tahoka by Miss Jeanette Kidwell, who will spend some time here with her sister and brother, Miss Dorothy and W. T. Kidwell.

Midway News . . .

Mr. and Mrs. Healy of Meadow and Mrs. Herbert Nash of Tahoka visited Mr. and Mrs. B. F. Rainey Sunday.

Mrs. Beavers of Justiceburg spent the week-end in the home of Mr. and Mrs. George Henry.

Miss Hazel Kitchen of Lorenzo has been visiting Miss Ina Faye Minor.

Mr. and Mrs. Cecil Davis of Dixie have been visiting their parents, Mr. and Mrs. Davis and Mr. and Mrs. Williams, both of this community.

Mrs. Guy Bell of Sayre, Oklahoma, has been visiting in the home of her sister, Mrs. H. V. Everson.

Mr. and Mrs. L. R. Stephens visited Mr. Stephens' niece, Mrs. C. B. Henderson, and their son Burt who is employed in Brownfield.

Mr. and Mrs. A. L. Hibdon of Roswell, New Mexico, visited in the home of Mr. and Mrs. Pharis Stephens.

Mrs. W. E. Slaughter has been

visiting in the home of her sister, Mrs. Minor.

NEW LYNN LEAGUE HAS INTERESTING PROGRAM

Meeting Sunday evening at 8:00 o'clock, the program of the Epworth League of the New Lynn Methodist Church was in charge of three delegates to the Summer Assembly at Abilene, Mr. J. E. Fleming, Miss Sue Young, and Miss Maggie Mae Baker. Another delegate, T. A. Stone will give his report next Sunday eve.

The delegates reported a very nice time and they felt that they had accomplished a lot and been helped in many ways. They felt that they knew more about how to carry on the League work, and also more about the church and how to carry it on.

We hope we can inspire others to join our League and help carry it on, and that it may be a help to people, League, and Church.—Publicity Superintendent.

Mrs. H. A. Maasen in company with her parents, Mr. and Mrs. W. E. Taylor of Sand, returned Monday afternoon from a few days visit with relatives in Coleman county. Mr. and Mrs. F. A. Robinette of Robstown were also there. Mrs. Maasen reports that much rain fell there Saturday night and Sunday, putting the country in fine condition. Mr. Robinette is district supervisor for the Southwestern Associated Telephone system at Robstown.

Rev. J. P. McBeth, pastor of the Baptist Church at Dumas in the north Panhandle, was here Tuesday and Wednesday visiting his brother, F. M. McBeth. A number of years ago he was pastor of the Baptist Church at Ropesville and was well known here. He reports his work progressing at Dumas.

Mr. and Mrs. Jack Fenton and Mr. and Mrs. Claud Wells went down to Fort Worth and Waxahachie Thursday, returning Saturday.

**OUR WAY OF LIFE IS ON  
THE SPOT**

It is an astonishing thing that a  
good many people remain in this  
country who look upon the struggle  
in Europe as just another battle for  
supremacy among three or four  
great powers, lacking in any spec-  
ial interest or significance to us  
Americans in particular—just an-  
other of the endless series of wars to  
which Europe has been addicted for  
centuries. Colonel Charles A. Lind-  
bergh, in his recent radio speech  
revealed himself as one of these. He  
doesn't think it means a bit of dif-  
ference to us which side wins.

This attitude is singularly lack-  
ing in vision. Those who assume it  
miss the real significance of what  
is happening in Europe. They fail to  
grasp the fact that it isn't just an-  
other war, but a world revolution.

In starting his latest blitzkrieg  
against the French this week, Adolf  
Hitler made this quite clear. He said,  
in effect, that the first rosy tints of  
a new dawn, a new world order,  
could be discerned. What he meant,  
clearly enough, was that Adolf Hit-  
ler, the self-created apostle of the  
New Day, hoped to impose his will  
and his methods on all the world.  
He is not content with winning new  
elbow-room; with an evangelistic  
fervor he wishes to spread his gos-  
pel by the sword throughout the  
world.

Just as Stalin does, for instance,  
and as Mussolini does to a lesser de-  
gree.

That means world revolution. The  
Nazi pattern differs only in degree,  
not in kind, from the communist and  
fascist. The aim is to destroy the  
last vestiges of democracy in the  
world and substitute therefor the to-  
talitarian theory of government in  
which the state is everything and  
the individual—whether a single per-  
son or 100,000,000 people—is noth-  
ing.

The various fifth column move-  
ments in this country and through-  
out the world are evidence of this  
aim. The citizen of a democracy  
such as ours doesn't give a hoot what  
form of government another people  
prefer, just so they leave his own  
alone. But the totalitarians are not  
satisfied to use their own medicine  
exclusively; they wish to force it  
down the gullets of all mankind. It  
already has been forced on many of  
the free peoples of Europe, such as  
the Danes and the Norwegians and  
the Dutch and Belgians, by the  
sword. It is being forced on other  
peoples by economic and political  
means. It will be forced on every  
nation on earth in one form or an-  
other unless they resist to the last  
ditch.

To say that we have no interest  
in what goes on in Europe is to  
adopt the ostrich attitude which led  
to the downfall of many of the free  
peoples of Europe. They couldn't be  
bothered, either; they were strictly  
neutral and they trusted in the  
promises of the dictators—to their  
sorrow.

As the biggest, richest and freest

**Way "Build-up" Helps  
Will Interest Women**

The cause of a woman's periodic  
suffering from headache, irritabil-  
ity, cramp-like pain, may be *functional  
dysmenorrhea* due to malnutri-  
tion, a condition that is often  
helped by CARDUI.

Principal way CARDUI helps is  
by stimulating appetite and the flow  
of gastric juices. Thus it may aid  
digestion; help build up a woman's  
strength, energy and nerve-force;  
so increase physical resistance to  
periodic discomfort.

It also helps reduce periodic dis-  
tress for many who take it a few  
days before and during "the time."  
Your confidence in CARDUI is in-  
vited by its 50 years of popularity.

of democracies the United States of  
America cannot hope that this storm  
of the world revolution will pass it  
by. It would be idiotic to assume  
that they will leave us alone. We  
shall have to fight with every weap-  
on we have to preserve our democ-  
racy—maybe not this year, maybe  
not next year, but inevitably sooner  
or later if Hitler triumphs in Europe.  
To think otherwise is to blink all the  
known facts, all the evidences of  
recent history.

Whether we know it or not we have  
a fight on our hands. We must begin  
the battle by making ourselves in-  
ternally united and strong. Then we  
must build our defenses to withstand  
any possible assault from without.  
Our way of life is on the spot, and  
to preserve it we must gird our loins  
and prepare to fight for it to the  
last ditch.—Ablene Reporter News.

**FAVORABLE TO NERO**

Lynn County News (Tahoka): In  
wanton cussedness Nero burned  
Rome. A modern invading army  
leaves nothing but death and des-  
truction in its wake. If all the  
criminals in America were turned  
out of prison and told to rob and  
murder and destroy to their heart's  
content, they could not do a tenth  
as much damage in a year as a mod-  
ern army can do in a week. The man  
who deliberately makes war for gain  
of power or fame or for any other  
purpose except to defend himself or  
other defenseless people is worse  
than the meanest criminal ever hung.  
May America never be dominated by  
an arch criminal.

Nero has had a bad place in his-  
tory. The historians have their likes  
and dislikes, and poor old Nero was  
unanimously disliked by the chron-  
iclers. State Press is not a historian,  
at least not a book historian, a  
formal historian. Yet he is willing  
to contribute to history, and in doing  
so he wishes to say a word or two  
in favor of Nero. Old 'Ro was an ar-  
tist. He preferred musicianship to  
rulership. Besides, his artistic temper  
sometimes led him to extremes. He  
killed his teacher, and ordered the  
deaths of any number of Christians  
because he suspected they didn't love  
him. Next he killed his mother and a  
bit later his wife. Offering his hand  
in marriage to a nice Roman girl she  
refused it, so he killed her. He simply  
couldn't get along with women. He  
was homicidal by instinct and prefer-  
ence and the women then were like  
they are now. The supposition that  
Old 'Ro fiddled while Rome burned  
hasn't a leg to stand on. It wouldn't  
have even if suppositions had  
legs. It may be that Nero was playing  
a long and somewhat intricate tune  
when the fire broke out and he didn't  
call the wagon until he had finished  
the piece. But that is a very flimsy  
circumstance on which to found a  
long-lasting libel. Finally Nero kill-  
ed himself, not that he had run out  
of other people to kill but just because  
he was tired of Rome.—State Press  
in Dallas News.

This is flag week. Our flag is only  
an emblem. It stands for all the  
great principles upon which our  
great government is founded, espe-  
cially all those sacred personal rights  
which the Constitution guarantees  
to every citizen. Among these are  
the rights of freedom of speech, free-  
dom of the press, freedom of the  
citizen to worship God according to

the dictates of his own conscience,  
the right to a fair trial when accused  
of a crime, the right of peaceable as-  
sembly, the right of petition to the  
government and other invaluable  
rights. How any American citizen  
can fail to appreciate these rights  
guaranteed to us by our constitution  
and seek to destroy them in the in-  
terest of nazism, fascism, or other  
forms of dictatorship is more than  
we can understand. All honor  
to our flag!

The Frankfurter Zeitung of Ber-  
lin, mouthpiece of Adolph Hitler, said  
Saturday: "President Roosevelt's re-  
armament is imperialistic propaga-  
nda. It is nonsense to suppose that  
America has anything to fear from  
a victorious Germany." Hitler has  
made practically the same statement  
about everyone of the countries he  
has conquered thus far. In fact he  
over-run a number of them on the  
plea that he had to do so to protect  
them. Guess he will be offering the  
same kind of protection to America  
if he can just lull us to sleep and  
keep us unprepared. "Will you walk  
into my parlor?" said the spider to  
the fly.

**MRS. TANKERSLEY ATTENDS  
BAYLOR COMMENCEMENT**

Mrs. C. T. Tankersley of the West  
Point Community attended the Bay-  
lor University commencement where  
her daughter Pansy received her  
B. A. degree, and in addition visit-  
ed another section of Texas where  
she had never been.

In telling a representative of the  
News of her trip Mrs. Tankersley  
said in part: "I left here on the  
train May 27 and it began raining  
before we reached Sweetwater and  
was still raining when I reached  
Houston about eight o'clock the  
next morning". In Houston she visit-  
ed in the home of her daughter Mrs.  
Walter Denman and family who  
recently moved there from El Paso.  
They visited the San Jacinto battle-  
field and were shown through the  
monument, from the top of which  
they had an excellent view of Hous-  
ton. They also went on board and  
were shown through a large ship in  
the port of Houston. Another day  
was spent in Galveston seeing the  
sights and bathing in the surf.

On June first Mrs. Denman drove  
with her mother to Waco where they  
attended the baccalaureate service  
Sunday and the graduating exercises  
Monday. Mrs. Denman and Pansy  
brought their mother to Brownwood  
where she entrained for home, the  
girls returning to Houston where  
Pansy will remain for a visit with  
her sister before returning home for  
the summer.

**Simmering Saves  
Vegetable Values**

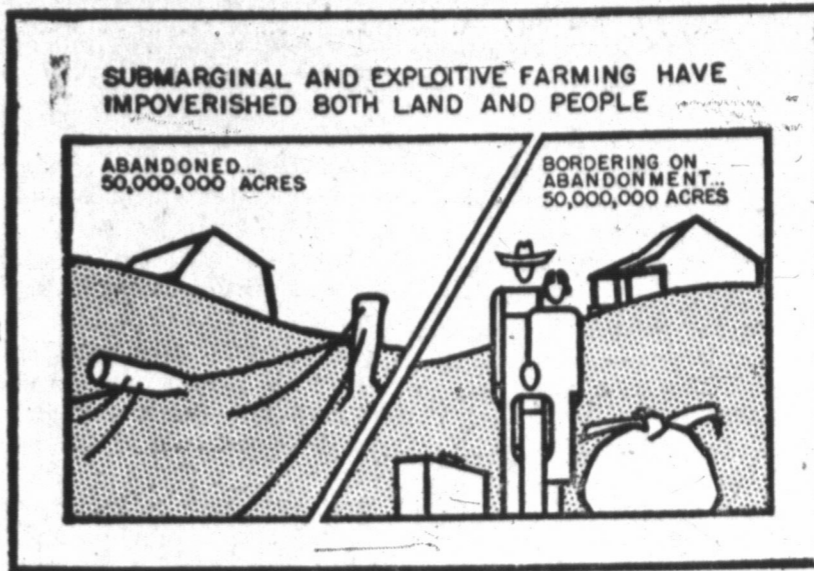

The one satisfactory way to avoid flavorless  
water-soaked vegetables is to cook them  
while fresh by simmering gently. That's why  
the simmer unit of a top burner of the mod-  
ern Gas Range was devised—to save food.

Cook with NATURAL GAS—  
the Quick, Clean, Economical Fuel

**West Texas Gas Company**

**Why America Has A Farm Problem**

One reason why America has a  
farm problem is that too much land  
that should never have been farm-  
ed has been put into cultivation and  
too much fertile land has been farm-  
ed under practices that mine the  
soil of its fertility.

As a result, about 50 million acres  
of American farm land are now  
worthless, and another 50 million ac-  
res border on abandonment.

Conservation of the Nations soil re-  
sources is one of the first steps in  
solving the farm problem. In Texas,  
more than half of the cropland has  
been protected by soil and water

conserving practices and the work  
is spreading to include pastures and  
range lands.

The state soil and water conserva-  
tion district law gives farmers and  
ranchers a tool whereby they can co-  
operate to speed up their conserva-  
tion work. Assistance from many  
sources, including county agriculture  
agents teachers of vocational agri-  
culture, the SCS, CCC, FSA and NYA  
is available, and the first purpose of  
the AAA program is to encourage  
use of practices which build fertility  
and prevent erosion.

Mr. and Mrs. T. M. Dobbins and  
Mr. and Mrs. R. O. Dobbins of Ros-  
coe were Sunday visitors in the home  
of Mr. and Mrs. G. M. Stewart. Mrs.  
Stewart is the daughter of the for-  
mer, and R. O. Dobbins is her broth-  
er.

Alvin Allison of Levelland, Rep-  
resentative in the legislature from  
this district and now a candidate  
for the state senate, made an ad-  
dress in the interest of his candi-  
dacy here Saturday.

Burton Hackney, county attorney  
of Terry county and now a candidate

for district attorney, addressed a  
group of voters on the streets here  
Saturday.

**Lemon Juice Recipe Checks  
Rheumatic Pain Quickly**

If you suffer from rheumatic arthritis or  
neuritis pain, try this simple inexpensive home  
recipe that thousands are using. Get a package  
of Ru-Ex Compound today. Mix it with a quart  
of water, add the juice of 4 lemons. It's easy.  
No trouble at all and pleasant. You need only  
2 tablespoonsfuls two times a day. Often within  
48 hours—sometimes overnight—splendid re-  
sults are obtained. If the pains do not quickly  
leave and if you do not feel better, Ru-Ex will  
cost you nothing to try as it is sold by your  
druggist under an absolute money-back guaran-  
tee. Ru-Ex Compound is for sale and recom-  
mended by

WYNNE COLLIER, Druggist

**IS THIS ANY  
WAY TO RUN  
A HOUSE?**

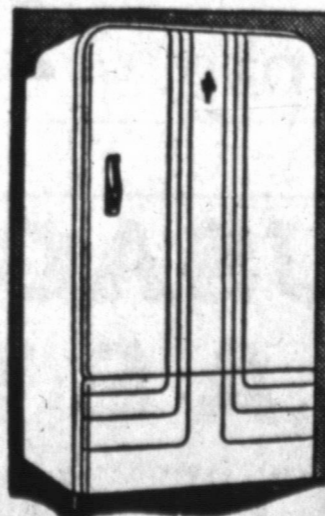

"Bills! Bills! Bills!" It's the first of the  
month again in the home without a Servel Elec-  
trolux. Of course, any husband knows he could  
run the house for a lot less than a woman, any-  
how. "Look at this electric bill! Look at this  
grocer bill! We waste enough to feed two fami-  
lies!" He's got something there—unless you've  
got a Servel Electrolux. And if you have, you  
never hear these squawks about the unbalanced  
budget. It's a nice little  
royalty that Servel pays  
you, month after month,  
in grocery savings and  
operating cost.

Vegetables and fruits stay  
fresh in the two big, roomy  
porcelain vegetable  
freezers.

Let's see what Mrs. J. W. Jackson, Paducah,  
Texas, who used to own another type automatic refrig-  
erator, has to say: "In the summer months, the cost of  
operating it would be \$8.50 a month. Now our Servel  
operates for 60c a month." And Mrs. Travis Fore, of  
Nocona, says, "My ice bill alone ran from \$5 to \$7 a  
month before I owned a Servel Electrolux. It costs  
70c or 80c a month."

And about food savings, here's the story from  
Mrs. W. E. Tosh, Stamford, Texas: "My grocery bill  
has been cut to almost half. There is no more food  
spoilage whatever."

dred average homes like yours, where they spent \$40  
to \$50 a month for food:

- Saved on leftovers, per month . . . . . \$2.82
- Saved on food spoilage, per month . . . . . 2.60
- Saved on buying bargains, per month . . . . . 3.61
- Saved on FOOD ALONE . . . . . \$8.98

Now add what you now spend for ice or elec-  
tricity to run the refrigerator you have in your kitchen now.  
Then subtract 2 or 3 cents a day, which is plenty for  
the operating cost on a Servel Electrolux here. Then  
see if he doesn't say, "Great Scott, we're paying for  
one—let's get it!"

But wait... He doesn't know yet that Servel  
Electrolux is the refrigerator—the only automatic  
refrigerator—with no moving parts in its freezing  
system. No, not a one. Nothing to wear; to get rusty  
and noisy, to lose efficiency, to let you down without  
refrigeration in August or September, while you wait  
for the service man. He won't believe this "no moving  
parts" at first; so bring him to us. We'll show him.  
Just a tiny little SILENT gas flame.

And as Mrs. Henry Brooks, Paducah, Texas, says, too—  
any home, anywhere, can en-  
joy Servel Electrolux refrigeration. Yes, town farm or  
ranch. She says, "The beauty of Servel Electrolux is, if  
you move to the country you don't have to trade it off; it  
operates on butane or kero-  
sene, as well as natural gas." And if you live on a farm or  
ranch now, by all means come in and see how you can  
have ice cubes, ice cream and perfect city refrigeration—the  
same identical Servel Electrolux that a million city families use,  
except it uses butane, or kero-  
sene. And no matter—town or country—we can sure  
make it easy to own one. Come in and find out these  
things for yourself—or phone us and we will come to  
see you.

Flexible gas releases ice  
cubes instantly—no wasteful  
melting under the freezer.  
And plenty of ice all  
the time!

- NO MOVING PARTS in its freezing system
- PERMANENT SILENCE
- CONTINUED LOW OPERATING COST
- MORE YEARS OF DEPENDABLE SERVICE
- CONTINUED SAVINGS THAT PAY FOR IT

### Odds and Ends *Ecc Eye, the Elder*

There are evidences that many people in this country are becoming unduly excited and jittery over the war situation.

They are wondering if Hitler will take us on next.

Having read of German bunds and "fifth columns" and other un-American activities in this country, they are becoming over-suspicious of most

everybody who doesn't bear the name of Smith, Jones, Johnson, Williams, Brown, or other good old common English names.

It is high time all right that we get busy looking after those who are engaging in un-American activities and spreading subversive doctrines in this country, but in our present frame of mind it is easy for us to do injustice to persons who are perfectly loyal to our own government.

We should be careful not to spread nor to repeat mere unfounded rumors lest we do great injustice to good citizens and good men. Let us do unto others as we would have others do unto us under similar circumstances.

Most of the Germans in Texas, we believe, are loyal to the United States. In the event of a war between this country and Germany, they would loyally fight for the Stars and Stripes. They would enthusiastically defend this country against the tyranny of the swastika. There are exceptions to the rule, of course, and these exceptions should have the attention of Government officials, but we should not suspect the great body of German people in our midst on account of the disloyalty of a few.

The Germans of Texas are honest, thrifty people, as a rule—made up for the most part of industrious farmers and conservative business men. They enjoy and appreciate the freedom of thought and speech and action vouchsafed them by our constitution, even as you and I. All honor to the loyal, appreciative Germans in this country.

People sometimes wonder why there are so many persons of German birth and extraction in Texas and so few in other Southern States.

The answer probably lies in the fact that just at the time that Texas threw off the yoke of Mexico and became a free and independent republic, there was great unrest and dissatisfaction in Germany.

By the congress of Vienna the people of Germany had been promised constitutional government but it had not been granted, Prussia and Austria were striving for mastery and just at that time Austria had the upper hand. The spirit of revolution was in the air.

Princes and people alike were at sea, and many of them longed for an opportunity somewhere where they could have a new deal.

Among the nobility was one Prince Carl of Solms-Braunfels of Nassau in Southwestern Germany who had heard of the far-away land of Texas.

He and other noblemen conceived the idea of colonizing the new country with Germans. Whether he had any purpose other than to afford a haven for the disappointed and discouraged and oppressed citizens of his own country or not, we do not know. He must have been a great dreamer, somewhat after the order of Columbus, and he must have been a leader of men.

However that may be, we find him in 1843 planning to bring a colony to Texas. We find him organizing what he called the "Association for the Protection of German Immigrants in Texas." There were no immigrants in Texas with the exception of one little colony in Austin county founded in 1842, and we are at a loss to know just what protection they needed, or what protection his association could afford to any colonists he might bring to Texas. Any way, that was the high-sounding name under which he proposed to operate: and he purchased a body of land known as the Fisher-Miller grant lying north of the San Saba River. And then we see him signing up his German families to make the great adventure.

There were three shiploads of the immigrants. Just how many individual that included we do not know. They landed at Galveston in 1844 and then proceeded by schooner to a point on Matagorda Bay about fifteen miles south of the present town of Port Lavaca. There they disembarked and set out for the promised land. They were not familiar with Texas distances, however, and by the time they reached Victoria some forty miles away, they were ready to strike camp to await further developments.

Discouraged, Prince Solms-Braunfels set out on horseback to San Antonio to make inquiry for some "Utopia, nearer by than the banks of the San Saba. There he was told about the marvelous Comal springs 25 or 30 miles to the northeast of San Antonio and of the fertile lands in that vicinity. There must have

been some land agent there on the job. The Prince rode over to the springs to inspect the country. He was delighted. He struck a deal with the Spaniards who owned the property for enough land to suit his purposes and took the news back to the German camp at Victoria. It was March, 1845, however, before the immigrants reached the Springs. They too must have been pleased, for there they settled "for good", and the new town became known as New Braunfels.

A town also soon sprang up at the point on Matagorda Bay where the immigrants had landed and it was given the euphonious name of Carl's Haven, suggested of course by the admirers of the Prince. But for some reason the name was afterwards changed to Indianola, more euphonious still. Indianola prospered and soon became the second most important seaport on the Texas coast, Galveston holding first place. It was destroyed by a Gulf storm in 1875 and was never rebuilt.

Braunfels' "Association" continued to function through the years 1845, 1846, and 1847, and thousands of German immigrants came swarming across the Atlantic and the Gulf to the shores of Texas. And today, spreading over several counties in south Texas, they have a veritable little German empire. Including Austrians, who are of German blood, there are 200,000 of them in Texas. Every twentieth white person in Texas today is a German. But they are loyal American citizens, more loyal to the flag that gives them freedom, we believe, than to the black flag of any dictator.

Strange as it may seem, the negira of Germans to Texas back in the forties of the last century was stimulated by the new doctrine of "socialism" or "communism" just then being propagated by the author of the doctrine, Karl Marx of Rhenish Prussia. The terms "socialism" and "communism" seem to have been used interchangeably in those days.

Marx was born in western Germany down near the French border in 1818. He graduated at the University of Bonn in his own home state and then in Berlin far to the northeast. He then started a paper at Cologne and began to preach his new doctrine to the distressed and disturbed populace. In a few years the paper was suppressed by the Government, but not before Marx had made many disciples.

Among his followers were many students in the universities. A number of these conceived the idea of establishing a communist colony in Texas. They were encouraged and assisted by Prince Solms-Braunfels. So they came over, procured a tract of land on the Llano River near the spot where the fine little town of Llano now stands, and started their colony. They called it Bettina. They were going to prove that communism is a howling success. There was plenty of howling all right but not much success. The outfit broke up after two or three years trial. Some of the young men settled in San Antonio and some went back to "fadder and mudder" in Germany.

There were several other communist colonies founded in Texas in those days. One that still survives as a town but not as a communist colony is Utopia down in John Garner's home county, Uvalde. It was founded by communists from Alsace situated on the French-German border. Alsatisians and Poles founded two or three other communist colonies in that section but all of them soon played out.

Russia tried out communism but with it they also got despotism and atheism, either of which is enough

to destroy any people.

We sometimes wish that we had political or governmental laboratories in this country in which we could test out some of the isms that are proposed without doing serious harm to the people of our entire country.

We suggest that California or

Kansas, where most of the isms seem to originate, should test out the Townsend Plan, for instance, so that the rest of us could see how it works without getting our own fingers burnt.

In the meantime, in spite of what happens in Europe, let us keep right on being good American citizens,

turning a deaf ear to all the hateful isms that afflict the eastern hemisphere, keep wedded to the great and righteous principles on which this government is founded, prepare for the worst, show the door to any "fifth columns" that may arise in our country, and whip the whey out of any ration that dares to jump on us.

**ONE MILLION Texans**

One million Texans would have to find other means of livelihood if the Texas petroleum industry were to shut down tomorrow.

Steady employment, good working conditions, reasonable working hours and fair wages are the industry's responsibilities to its workers and their families—a million Texans in all.

It must maintain production, find and develop new fields, meet competitive markets for its products and pay its total expense bill of 750 million dollars a year, which includes its payrolls.

The Texas petroleum industry now has to pay 97 million dollars a year in taxes to Federal, State and local governments before it can consider wages and employment.

When expenses must be cut to satisfy increasing tax demands, employment suffers, and with it, the buying power that employment creates in our State.

**TEXAS MID-CONTINENT OIL AND GAS ASSOCIATION**

### FSA Encourage Dairy Herds Production

Increased incomes, better diets, and more properly balanced operating programs are found on many farms of Farm Security Administration borrowers in Lynn county as a result of additional subsistence dairy herds, according to Wyman J. Welch, FSA supervisor.

Maintenance of enough dairy cows to supply milk, cream, butter, and cheese for family consumption, with a surplus for market, is encouraged as an important part of successful farming, Mr. Welch said.

Although the FSA is making it possible for many low-income farmers to purchase dairy cows to meet their immediate subsistence needs, it was explained, this agency also encourages farmers to use good sires for their herds and increase the

quality and production of their milk cows.

"Because well-bred bulls are a prohibitive expense for owners of small dairy herds," Mr. Welch said, "the Farm Security Administration encourages groups of farmers to use the services of good sires and to share the expense."

He said loans are made either to a group for joint ownership of a sire, or to an individual who agrees to make the services available to his neighbors at a reasonable charge.

#### NEW LYNN H. D. CLUB HEARS TALK ON BRAISING

"Braising is one of the three methods of cooking by moist heat and is used in the preparation of those cuts containing considerable connective tissue," stated Miss McNatt, home demonstration agent, at the meeting with Mrs. Newman Bartley June 4, at 2:30 p. m.

"To braise means to brown meat in a small amount of fat, then to cover, cook slowly in juices from the meat or in small amount of liquids. This added liquid usually is water but may be milk, cream, meat stock, diluted vinegar, or juices from vegetables. Less tender cuts are cooked by braising."

Mrs. John Meeks was elected as delegate to the A. & M. Short course.

Members present were: Mmes Newman Bartley, Paul Walker, Roy Kelley, John Meeks, R. W. Barton, Susie Bartley, E. B. Terry, T. Reed, P. K. Fleming, H. A. Winkler, and Home Demonstration Agent Miss McNatt.

J. Q. Warmick of Lubbock is here visiting his grand-parents, Mr. and Mrs. G. W. Small.

Miss Grace I. Neely, specialist in Food Preservation, of the A. & M. College Extension Service, was here Wednesday, the guest of Miss Maurine McNatt.

### Political Announcement

### VACATION BIBLE SCHOOL AT METHODIST CHURCH

On Wednesday of this week a Daily Vacation Bible School began at the Methodist Church and will continue through Friday, June 21, except for Saturday and Sunday. The hours are from 4:00 to 5:30.

The following are the faculty:  
 Superintendent — George Reid  
 Pastor Helper — Geo. E. Turrentine  
 Beginners — Mrs. James Clinton and Mrs. Walter Mathis.  
 Primary — Mrs. H. C. Story, Mrs. C. A. Thomas, and Mrs. L. E. Turrentine.  
 Juniors — Mrs. Irvin Stewart, Mrs. Harley Henderson and Mrs. Lum Haney.  
 Intermediates — Mrs. W. E. Smith and Mrs. A. O. Conley.  
 Refreshments — Mrs. Lou Calvery and Mrs. Sam Price.

### WOMEN'S BIBLE CLASS

Twenty two women, young women and children were present when Mrs. A. E. Waters brought the Bible lesson to the Bible Class at the Church of Christ Tuesday afternoon. The class is studying the book "Ideal Womanhood" at present.  
 Among those attending Tuesday's meeting were Mmes: J. K. Calaway, A. E. Waters, Beacher Sherrrod, C. E. McKnight, Kelley Hill, Tobe Kennedy, Eugene Long, D. A. Stevens, A. Lindley, Wright, M. R. Pemberton, and Misses Joycelyn Maasen, Helen Pemberton and Nellie Richards.  
 The class holds its meetings at the Church each Tuesday afternoon at three thirty.

### "Old Glory" on Treasure Isle

Magdalena Derzoff, as Betsy Ross, in Treasure Island's historical pageant — "America! Cavalcade of a Nation" — sews on the first American flag. The new "Cavalcade" at the 1940 Golden Gate International Exposition will dramatize the story of America from the landing of Columbus through the first 13-star flag to the gas stove.

### Lyntegar Seeks New Members

To the Farmers in the Area Served by the Lyntegar Electric Co-operative:

We have just received a letter from Mr. C. O. Falkenwald, Director of the Examining Division of the Rural Electrification Administration at Washington, which reads as follows:

"Dear Sir: With your help and the support of Congress, tremendous strides have been made in rural electrification during the past few years. The program has been so successfully carried out through cooperative efforts that Congress has just recently provided \$100,000,000 for rural electrification for the fiscal year 1940-'41.

"Now is the time to act to round out our existing systems and to complete our area rural electrification program. Very truly yours, C. O. Falkenwald, Director Examining Division."

Section A of this project consists of 330 miles of electric lines which are now in operation. Section B, which is now under construction, consists of 350 miles of line. Beginning this week, as portions of the line are completed they will be energized, and the entire section will be energized by the 1st of July. We are beginning an intensive campaign for new members on our present lines and we are also beginning work on new extensions for Section C of our project. We are required to have three members per mile or a revenue of \$7.35 per mile. If you are interested in working up an extension in your community get in touch with one of the following directors: Frank Harris, Route 1, Ackerly, Texas; James F. Daniels, Meadow; J. F. Maxey, Route 1, Post; Bert Eads, Levelland; C. M. Burton, Lamesa; A. R. Hensley, Route 2, Tahoka; the writer, or

### "Black-Out" In Tahoka, June 21

There will be a general "Black-Out" in Tahoka next Friday, June 21—not caused by an invasion of Hitler—but a silhouette contest picture.

turing profile views of Tahoka business men.

The page of pictures, all showing prominent local business men or women, with a clue in the form of a slogan or fact pertaining to their business will help you identify them.

First place winner in identifying silhouettes will be awarded \$5.00 cash prize, and other suitable awards will be given.

someone at the Cooperative office at Tahoka.

It is the desire of this Cooperative, as well as the Rural Electrification Administration of Washington, to serve every farmer that is possible for us to serve, and when we can be of any service to you please feel free to call on us.

Yours very truly,  
 JOHN HECK, President, Lyntegar Electric Cooperative, Inc.  
 Tahoka, Texas June 12, 1940.

### Eva Douthit Weds Tuesday

Miss Eva Douthit, daughter of Mr. and Mrs. Henry Douthit, became the bride of Clinton S. Walker, son of Mrs. Ella Walker of 2319 15th Street, Lubbock, in a ceremony read Wednesday morning at 8:30 in the First Methodist Church in Tahoka. Dr. L. N. Lipscomb, pastor of the First Methodist Church of Lubbock, officiated with a single ring service.

Miss Imogene Webster of Lubbock played the Lohengrin wedding march and Herbert's "Ah, Sweet Mystry of Life". Preceding the service Miss Ruth Elna Sprull of Lamesa sang "Because". During the ceremony Miss Webster played "Liebestraum".

The bride was given in marriage by her father. She wore a navy two-piece suit with long sleeves and navy and white accessories. She carried a bouquet of white roses.  
 Miss Rilla Catherine Payne of Colorado, former roommate of the bride, was the only attendant. Noel Bryant of Lubbock was best man.

Mrs. Walker is a graduate of Tahoka High school and of Texas Technological college, where she received her degree in public school music this June. She was very active in music circles in the college, serving as president of the college chorus her senior year.

Mr. Walker is also a graduate of Texas Tech, having received his degree in electrical engineering in 1939. He is now a professor of engineering at the University of Alabama in Tuscaloosa.

Immediately following the ceremony the couple left for Columbus, Ohio, where Mr. Walker will do work on his masters degree this summer in the University of Ohio. In September they will be at home in Tuscaloosa.

In five years the Rural Electrification Administration has financed the building of a quarter of a million miles of new rural power lines. This was brought about mainly through loans to rural electric cooperatives.

In a report on honey sources made to the United States Department of Agriculture, Texas beekeepers listed cotton, horsemint, mesquite, hualillo, catclaw, and marigold.

**1 bale of cotton gives**

218 hours of work to a cotton farmer

Making this cotton into 1,270 yards of cloth gives

126 hours of work to a textile-mill operative

Making this cloth into 13,600 5-lb bags gives

106 hours of work to a bag-factory employee

**cotton bags mean jobs**

In these hours of work American labor earns its wages, builds up its purchasing power, increases its effective market for the retailers who sell their product in bags, creates business on which the income of many related American businesses depends. The cotton dollar, whether it goes to farmer or mill hand, is cash on the barrel head spent quickly, spent powerfully by a vast group of buyers whose consumption habits — and consuming ability — guides the economy of not only the Cotton Belt but also the sections who sell to the Cotton Belt.

No substitute for cotton in bagging spreads work and wages over as broad a consumer base as cotton does. No other dollar reacts as powerfully in American business as the cotton dollar. Fellow consumers would do well to insist that the articles they buy are packed in cotton bags.

Mrs. Borden Davis and daughter Gwynelle returned Wednesday from Rule, where they visited Mrs. Davis' parents, Rev. and Mrs. J. F. Curry. They went down Saturday. Horses can stand heat better if they have free access to common salt.

All grass that grows is not good grass—some has seven times the feeding value of others.

1. If you remember your high school physics you know that a moving body tends to continue in uniform motion in a straight line. Some drivers forget this rule, only to be reminded of it most painfully when they try to take a curve too fast. There is an art to negotiating a curve safely without losing too much time, an art which requires applying the brakes — (a) before you reach the curve (b) as you enter the curve (c) while you are in the curve.
2. If you want to qualify as an expert you will always drive at a speed which will allow you to stop, under any conditions — (a) within 500 feet. (b) within three car lengths. (c) within the assured safe distance which you can see. (d) within one car length.
3. Approximately three times as many persons are killed in automobile accidents as in airplane accidents. True (—) or False (—).

## 25 YEARS AGO

(From Files of Lynn County News) 1915

June 5, 1915

### INCORPORATION ELECTION JUNE 12

Shall we incorporate? Make up your mind, for you will be called upon to decide Saturday, June 12.

Thursday evening Prof. and Mrs. G. G. Hazel entertained with a picnic at Guthrie Lake in honor of Miss Anita Jaeggie, who is visiting them.

Those present were: Prof. Carl Montgomery and Miss Anita Jaeggie, Prof. St. Clair and Miss Rescola McDaniel, James Crie and Miss Pauline Ramsey, N. B. Beard and Miss Lillie Harrison, Otho Thomas and Miss Robbitt Chisum, and Prof. and Mrs. G. Q. Hazel. Mr. and Mrs. Henry Harper piloted the float.

H. C. Crie, weather observer, reported that by June 8, that year, 15.99 inches of rain had already fallen. Over 30 inches fell during the last nine months of 1913 and 28.07 inches fell in 1914.

Months bringing the heaviest rainfall were June, 1913, when 10.93 inches were recorded; October, 1914, with 7.12 inches; and April, 1915, with 8.16 inches. The heaviest rain he had ever recorded was 8 inches in 8 hours on June 1, 1913.

The News had received a communication from Capt. J. T. Lynn of Dallas regarding orphanage work in which he was engaged. Captain Lynn, says the News, is the son of G. W. Lynn, one of the heroes of the Alamo for whom, it was stated, Lynn county was named. He has a grand-daughter, Miss Bulah Murrain, who is a resident of the county in the neighborhood of Wilson.

**JUNE 11, 1915**  
A column on the front page described the opening program of the South Plains Summer Normal with Prof. Bishop as conductor, Judge C. H. Cain and Judge J. L. Stokes gave addresses, to which Prof. Bills

of Gall, one of the teachers, responded.

J. V. Dyer, president of the school board, was quoted as stating that Prof. Zornes of Post had been elected superintendent of the Tahoka school. Miss Maggie King, principal; Prof. St. Clair, high school teacher; Miss Woods and Miss Jaeggie. One other teacher was to be elected.

A. D. Shook was getting ready to build a two-story frame building 45 x 125 feet, extending from Porterfield and Main north one block to Harper and Main.

The Snider warehouse on the house track just south of Lockwood Street burned Wednesday night.

A clipping from the Lubbock-Avalanche chronicle the death of W. E. (Ed) Robinson, prominent and well-beloved Lubbock business man. He was a brother of Hall Robinson of Tahoka.

J. D. Donaldson had just returned from Moody, accompanied by his father, W. W. Donaldson. Mr. Donaldson had been to Moody to attend the funeral of his mother.

H. A. Patterson had just visited the News office, bragging on the fine crop he had. He had just moved here six months before from Cooke county, having bought a section of land here.

The prohibitionists of Lynn county defeated John Barleycorn Saturday by a vote of 3 to 1.

Frank Nevils, son of Mr. and Mrs. Joe Nevils of Tahoka, and Miss Erma Robinson living six miles east of Meadow were married at the home of her parents Sunday May 30.

J. H. Edwards had completed the foundation for a handsome residence on east side of town. Two business houses were being built on Main Street and others were contemplated.

**Mothersills**  
STOPS TRAVEL SICKNESS BY SEA, AIR and TRAIN

### BAPTIST W. M. S.

The three circles of the Baptist W. M. S. met together in the church Monday afternoon for their missionary program from Royal Service. Mrs. Coy Flieder was program leader and conducted the devotional.

The subject "Consider Africa" was discussed from several angles by Mmes: C. T. Oliver, George A. Dale, W. T. Kidwell, H. P. Caveness, Floyd Goad and W. M. Harris.

W. M. U. president, Mrs. Garland Pennington presided over a short business session.

Attending the meeting were Mmes: W. M. Harris, P. W. Goad, C. T. Oliver, Misses Mary Seroyer and Elizabeth Preston, Mmes: A. J. Edwards, Garland Pennington, H. B. Howell, Doss, Carl Owens, George A. Dale, H. D. Henderson, H. L. Roddy, J. R. McIntyre, W. Fortenberry, H. P. Caveness, J. L. Nevill, Coy Flieder, W. T. Kidwell, Floyd Goad, and W. H. Kenley.

This is hospital month and all who wish to contribute either cash or linens should get in touch with Mrs. S. H. Holland, Benevolent Chairman or with one of their circle chairmen at once. Let us make a worthy offering to this phase of our work.—Publicity Chairman.

**ANSWERS**

1. a. before you reach the curve. A car is steadier on a curve when the engine is pulling. A driver should enter the curve slowly enough to enable him to accelerate slightly when actually rounding it. If you have to use your brakes on a curve you label yourself an inept driver.

2. c. within the assured safe distance which you can see. Road, light, weather and traffic conditions vary greatly, making 50 miles an hour safe at times and 20 miles an hour dangerous at others. No matter how straight the road, how good the car or how dry the pavement, if headlights carry only 200 feet you must drive in the dark at a speed which will allow you to stop, in an emergency, within 200 feet. Likewise, in daylight, you must drive at a speed which will allow you to stop in time should the car ahead, should another emerge suddenly from a side road, or should a child dart suddenly into the road ahead of you.

3. False. 115 times as many persons are killed in automobile accidents as are killed in airplane accidents.

**"Build-Up" Important  
Protector of Women**

A weak, undernourished condition often enables functional dysmenorrhea to get a foothold; thus leads to much of woman's suffering from headaches, nervousness, and other periodic discomfort.

CARDUI's principal help for such distress comes from the way it usually stimulates appetite; increases flow of gastric juice; thus aids digestion; helps build energy, strength, physical resistance to periodic pain for many.

Another way, many women find help for periodic distress: Take CARDUI a few days before and during "the time." Women have used CARDUI for more than 50 years!

**JACK DOUGLAS ENTERS  
REPRESENTATIVE RACE**

Jack Douglas, vice president and general manager of the South Plains Automobile Club, local affiliation of the American Automobile Association, operating in 59 counties in Texas, has announced his candidacy for representative to the Texas Legislature from the 119th district comprising of Gaines, Dawson, Lynn, Terry, Yoakum, Cochran, Hockley, Crosby, and Lubbock counties. His is the second announced candidacy for the district post.

Jack Douglas is well known over the South Plains, having lived in various cities throughout his territory for the past eleven years. According to his national office in Washington, D. C., he has done an outstanding job in building up a very fine membership in the Automobile Club of more than 3500 members from the time he began pioneering in 1929, and at the present time the Club maintains seven branch offices besides the one located at 1020 Main Street in Lubbock, and is known to motorists everywhere as the AAA, and since his coming to Lubbock, Douglas has been active in business and civic affairs, particularly safety education and driver training in the elementary school system of Texas, as well as a number of colleges where safety education has been installed through his efforts. Douglas' business with the AAA extends over the entire South Plains, and his concern for public interest is therefore not confined to any one county or locality. As a legislator, he intends to visit and study the needs of each county in the district repeatedly.

Douglas is past president of the Lubbock County Young Democrats Club. In 1939, Douglas was honored with the distinction of being chosen as ambassador from Texas for the New York World's Fair, and was presented with a very beautiful plaque. He won this honor over several who were mentioned because of his wide acquaintance and untiring efforts in promoting nation-wide travel.

Douglas has been active in highway and motor tax legislation through his organization for the past fourteen years in as much as the AAA is the only active representative in legislature both state and national, taking a stand in the interest of the automobile owner.

Douglas said that he was vitally interested in the district and inasmuch as he was not depending on remuneration offered through the office of representative, he will spare no effort in presenting legislation which will be beneficial to the district. He plans to make an active campaign for the office.

**Howells Return  
From Tennessee**

Mr. and Mrs. S. H. Howell of Tahoka and Babe Howell and children Joy and Maurine of Seminole, returned Tuesday from a three weeks visit with relatives at Columbia, Tennessee. They were accompanied on the trip by Miss Mary Pearl Jones of Seminole.

Mr. Howell says that they had a wonderful visit there and he would have enjoyed staying longer. On one Sunday they attended the dedication of the Pickwick Dam, one of the big dams built across the Tennessee River for flood-control, irrigation, and electric light and power. The governors of Tennessee, Alabama, and Mississippi were there and each made a speech. Of course thousands of people were present.

Mr. Howell says that while in that section he visited all three of the dams, the Pickwick, the Joe Wheeler, and the Wilson, the Wilson being situated at Muscle Shoals and being the largest of the three.

Mr. and Mrs. Everett Weaver and little daughter Nancy of Houston visited Mr. and Mrs. C. A. Thomas here from Thursday of last week until Sunday morning. They were on their way back from Pike's Peak and went from this place to Carlsbad to visit the great Cavern. On Thursday evening Mr. and Mrs. Thomas entertained their visitors in the MacKenzie State Park in Lubbock. The Weavers are life-time friends and distant relatives of the Thomases.

Mrs. Sam Holland and daughter Dorothy came in Tuesday night from Fort Worth, where her brother had undergone a major operation in the All Saints Hospital. They were met at Abilene by Sam Holland who drove home with them from that point. They report that Mrs. Holland's brother was doing as well as could be expected.

**Attend B. P. W.  
Convention**

Misses Hattie Server and Ovel Lytle, B. & P. W. president and president-elect respectively, went down to Dallas as delegates to the state convention of Business and Professional Women's clubs last weekend. Dr. Minnie L. Maffett of Dallas, national president, and Judge Camille Kelley of the juvenile court in Memphis, Tenn. were the principal speakers.

District 1, of which Tahoka is a member, won the distinction of having the most new clubs organized during the year. The Tahoka club was organized this year. Lubbock won the convention for

1941. Judge Sarah T. Hughes is the outgoing president of the state federation, and Miss Meta Meadow of Fort Worth is incoming president.

Mr. and Mrs. Homer Parker, who have been residing at O'Donnell the past few months, have moved back to Tahoka. Homer has been employed by the J. K. Appiewhite Company there. He will begin work for the Edwards Auto Parts company here Monday.

**8 POWERFUL  
ARGUMENTS  
FOR CHOOSING A  
FORD!**

Built in Texas by Texas Workers

A few minutes in this year's Ford will open your eyes to a lot of good things! To roominess and a big-car ride that's a real discovery in low-priced money's worth. To economy that's really amazing. To hydraulic brakes that are the biggest ever used on a low-price car. To easy finger-tip gear shifting of the sort the fine cars use. To roadability and handling ease that make driving lots of fun.

But you'll find the mightiest arguments of all in the 8 fine cylinders under the hood. As 6 million Ford V-8 owners now know, only a Ford adds V-8 performance to low cost and thrift.

Drive a Ford V-8. Before you pick out your new car, let the world's most famous "8" tell you its own matchless story... on the road!

Your Ford Dealer wants your deal... See him today!

**BEST GAS MILEAGE, TOO!**

The 85 h.p. Ford V-8 gave most miles per gallon of all standard-equipped cars in its price class in the 1940 running of the famous official and impartial Gilmore-Yosemite Economy Run! Also... Ford owners are reporting that the efficient, precision-built Ford engine requires no oil added between regular changes!

CHECK EQUIPMENT... See how much more you get in a Ford at an extra cost!

**Speaking Schedule For Candidates**

Prentice Walker, who is acting as chairman at the various candidate speakings in the county, says that good-sized crowds have been attending these meetings and as usual the people have been exceedingly attentive and respectful. The communities are cordially invited out to hear the candidates talk.

There has been one change in the schedule of speakings as last published and two additions thereto.

The candidates spoke at Grassland on Tuesday night of this week in

lieu of their scheduled date on July 16. Joe Stokes and Wells have been added to the list. The dates from this time on out, as revised, are as follows:

Friday, June 14, Three Lakes  
Tuesday, June 18, Morgan  
Thursday, June 20, Joe Stokes  
Friday, June 21, Draw  
Tuesday, June 25, Lakeview  
Friday, June 28, West Point  
Tuesday, July 2, Gordon  
Friday, July 5, Wells  
Tuesday, July 9, New Home  
Friday, July 12, open  
Tuesday, July 16, open  
Friday, July 19, Wilson  
Tuesday, July 23, O'Donnell  
Friday, July 26, Tahoka  
All these meetings will be at night.

**Tahoka Golfers Whip Lubbock**

Lubbock golfers came down last Sunday afternoon and engaged the Tahoka aggregation in a series of contests resulting in defeat for the visitors. At the conclusion of the match, the score stood 13 to 10 in favor of the home crew.

Following are the results of the contests (Lubbock golfers named first each time):

C. E. Boyd dropped Charley Townes, 2 and 1; Manson Allen whipped Wynne Collier, 4 to 3; W. E. Edwards lost to Pete Edwards, 1 up; O. A. Terry was defeated by Fred Bucy, 2 and 1; N. L. Ball lost to Prentice Walker, 3 and 1; W. T. Rogers was defeated by Buddy Stewart, 4 and 3; Archie Foster went down before Clyde Hunley, 1 up on the 18th, one of the better matches of the day; Carl Neil and Dr. Sinclair did not get to finish their match as Dr. Sinclair was called away; Jim Stoh was nudged by Bugs Woosley, 1 up.

Frank Nickols swept another point in for Lubbock with a 3 and 2 decision over W. T. Bovell; Dick Stalcup dropped his engagement to Frank George, 4 and 3; J. D. Duncan edged past Roy Tillery, 2 and 1; Sid Oglesby rumbled over E. S. Evans, 2 up; C. W. Goodgion took W. C. Wharton, 1 up; Troy Peeples was swamped by Lawrence Evans, 5 and 4; Buford Lankford lost to G. A. Edwards, 3 and 2.

Dan Penley took a 1 up triumph over L. E. Robinson; Whacker Barton smothered Eldon Carrol, 7 and 1; E. K. Henderson dropped before Lloyd Edwards, 5 and 4; J. D. McCampbell registered a 1 up decision over Jack Welch; Jack Sims lost to Wade Holland, 1 up; Thomas Jay won over Ray Weathers, 1 up; Sled Allen lost to Jimmie Applewhite, 4 and 3; and Bob Collier and Edwin Rogers halved their match.

**Lubbock Judge's Home Bombed**

The entire city of Lubbock, and to a lesser degree the entire South Plains, has been greatly stirred by the bombing of the home of Judge E. L. Pitts, Judge of the ninety-ninth district court in Lubbock, Wednesday at 1:15 a. m. in the dead hours of the night.

The house was badly damaged. Bricks were loosened in the wall, the concrete floor was cracked, window panes and glass doors were shattered, and other damage done. Even neighboring houses were badly shaken up. No one was injured, however.

Immediately following the explosion, which was heard almost throughout the city, Judge Pitts telephoned officers, who hurried to the scene and began investigations immediately.

Many clues are being run down and officers are doing their utmost to uncover evidence as to the identity of the guilty person or persons.

Public sentiment is placing the blame on violators of the liquor laws. Judge Pitts, just two or three days previously, had assessed fines and jail sentences against seven defendants for contempt of court in that they had violated injunctions enjoining them from selling beer.

The home of County Attorney Robert J. Allen was bombed a little more than a month ago but not so much damage was done as was done to the Pitts home.

**Moore . . .**

(Continued From Page 1)

is foreman in the mechanical department of the Lynn County News. Before coming to Tahoka, he spent three years preaching for the congregations of the Church of Christ at Portales, Arch, Rogers, and Tatum, New Mexico.

He has announced that his subject for discussion next Sunday morning will be, "A Charge to God's Priests". At night: "The Church in Prophecy".

Kenneth Ross, son of Mr. and Mrs. C. C. Ross, enrolled last week at the Texas Tech for a summer course in music and band. He is staying at the Boys Dormitory.

**Auction To Be Held Here Saturday**

Col. Talmus Bowden, who has conducted free auction sales here on the past two second Mondays for certain business men of Tahoka, who have been paying the expenses, will conduct a sale on his own hook here Saturday afternoon and each Saturday thereafter. Associated with him will be Col. Houston Glasson.

They invite and urge farmers to bring in anything that they may desire to sell, from a barlow knife to a farm tractor or from a lousy calf to a prize-winning bull. The seller will be required to pay a reasonable commission.

Sales will be made on the vacant block west of the Higginbotham-Bartlett Lumber yard, as heretofore. D. W. Gagnat has kindly promised the use of his lots, if needed, for the stock that may be brought in.

The folks are urged to bring in their stuff early—livestock, implements, furniture, anything that can be sold.

Col. Bowden says that there will be some out-of-the-county buyers here.
