A. Lawrence, secretary of the A. A. A. county board.

The parity payments, which are now being received and distributed, will approximate \$490,000.

The soil conservation checks, which will begin to arrive, he says, within the next thirty days, will probably amount to \$580,000.

Parity checks are being received steadily. The number received up to Thursday morning were 1559 for 973 farms, aggregating \$263,467.85. This is somewhat more than half of the total parity payments.

The total sum of parity and soil conservation checks will be the equivalent of more than 20,000 bales of cotton at 8 cents per pound together with the seed, without any expense for raising and gathering the crop having to be deducted.

## Odds and Ends *See Eye, the Elder*

"It's the older generation that's got us into this mess and now it's up to the younger generation to get us out of it."

How often do we hear expressions from public speakers and others similar to that? We heard a very intelligent man make just about that statement a few days ago.

Well, usually when men use that and similar expressions they are referring either to the "depression" and unemployment or to the war that is blasting Europe and threatens to spread to the Western Hemisphere.

As for the depression, what has the "older generation" or any generation done or neglected to do, either ignorantly or wickedly, to bring it on?

Does anybody know? There are a few who undertake now to explain it all. One says this and another says that brought it on. Some of them may have figured it out correctly, but few of them foresaw what was coming.

Perhaps a few financiers and economists did foresee it. But either there were too few of them who were wise enough to foresee it or they foresaw it too late. Not a sufficient number of the wisest economists, statesmen, and financiers foresaw it in time to forestall it.

So, why blame the "older generation" for a thing that practically no-

body was able to foresee in time to prevent it?

The fact of the business is that this country had suffered a number of "depressions" prior to that of 1929.

If you will read your histories you will find that there have been financial panics and business depressions at varying intervals from the very beginning of our nation. You will find also that all other civilized countries have had similar experiences.

One of the gravest financial panics this country has had was back in 1837, more than a hundred years ago, when hard-headed old Andy Jackson was President. It burst suddenly upon the country about the time he went out of office and his successor, Martin Van Buren, was left with the bag to hold. Jackson got the blame for the panic, however, but it was doubtless due to an unsound banking system. Wildcat banks in the West had issued large amounts of currency, and the people were paying for the public lands sold to them by the Government in this kind of money. Jackson was afraid of this rag money issued by irresponsible banks and therefore he ordered all payments for public lands to be made in gold and silver. About the same time Congress ordered that the surplus that had piled up in the treasury amounting to about \$5,000,000—not a small sum for that day—be distributed among the states as a loan. This money was in Eastern banks and when the banks were called on for the money they were forced to call in their loans and curtail their credit.

So, these two acts—the repudiation of this "wildcat" currency in the West and the forced curtailment of credit by the banks in the East—brought on the worst panic the country had ever seen. Wild excitement swept the country and many business men went broke.

Then there was the financial crash of 1873, right in the middle of the administration of President Grant. Some say this panic was caused by an over-expansion of

credit on the part of the banks and a period of unhealthy speculation; some say it was caused by the "democratization" of silver and the resumption of specie payments together with the veto of an Act of Congress by President Grant providing for the issuance of a hundred million dollars in paper currency. At all events, the panic broke suddenly and banks were forced to close their doors, factories were thrown into bankruptcy, railroads went into receiverships, small business men went broke, and all classes of people suffered financial hardships.

Just twenty years later another financial panic hit. It came near the beginning of the second administration of Grover Cleveland but followed closely on the heels of the administration of Benjamin Harrison. It was doubtless due to legislation enacted during the Harrison administration but Cleveland got the blame for it. Whatever the cause, a terrible business depression gripped the country for a few years. In 1894, good middling cotton sold for as low as four cents per pound.

It was only thirteen years after that date that still another financial crisis came. That was in 1907. The popular and progressive Theodore Roosevelt—the man who carried a "big stick"—was President at that time. This panic was not as serious as the preceding ones mentioned, but we can distinctly remember that, in order to prevent runs on the banks, the amount of money that any one man could draw out of the bank was limited to a fixed amount per day—we believe it was ten dollars. People who had larger deposits in the bank than we had can probably remember the amount better than we can. The limitation didn't affect us much. It was just twenty-two years from that date until the depression of 1929 spread like a pall over the country.

So, our readers, if any, can readily see that depressions and money panics are no new thing in this country.

Were the people to blame for these depressions and panics? Possibly they were. Possibly they speculated too freely on borrowed money. Possibly they were too extravagant. Possibly the banks granted credit too freely.

And there might have been other causes.

If the older generation did "get us into this mess", this period of business depression and unemployment, it was because of the fact that they were mere human beings, with human frailties and limitations. Some of them became too optimistic and venturesome and "plunged" too wildly. Nobody deliberately and wickedly brought on the depression. Nobody did it through gross ignorance or mismanagement.

And it makes no difference how well and how completely we may finally pull out of it, our unhappy experience will not render the next generation immune to the same disease. The oncoming generation will have its problems just the same and may have its own financial panic and business depression.

In fact, in spite of the recent depression, we believe that the generation now growing up knows less about thrift and economy than any generation that has gone before.

The wide-spread unemployment that has prevailed during this period has been due largely to the general depression. Some claim that it has been augmented by the constantly increasing use of labor-saving machinery. Others claim that it has been further augmented by the entry of so many women into the commercial and industrial life of the nation, thus crowding many men out of jobs.

We do not pretend to know all the factors that brought on the depression and this wide-spread unemployment, but we do assert that the Government has fought harder to end this depression and to remedy this condition of unemployment than ever before in the history of the

### Way "Build-up" Helps Will Interest Women

The cause of a woman's periodic suffering from headache, irritability, cramp-like pain, may be functional dysmenorrhea due to malnutrition, a condition that is often helped by CARDUI.

Principal way CARDUI helps is by stimulating appetite and the flow of gastric juices. Thus it may aid digestion; help build up a woman's strength, energy and nerve-force; so increase physical resistance to periodic discomfort.

It also helps reduce periodic distress for many who take it a few days before and during "the time." Your confidence in CARDUI is invited by its 50 years of popularity.

country. It has tried—almost every conceivable remedy, the WPA, the FWA, the AAA, the FHA, the RFC, and innumerable other agencies of Government. It has all been bundled together and labeled the "New Deal".

Some of these Government activities doubtless have been unwise; some of them extravagant; some of them futile; some of them paternalistic and possibly unconstitutional; but certainly nobody can charge that the Government has been indifferent or neglectful. It has been on the job. It has been doing something about it.

If the "older generation" is responsible for this "mess" that we have gotten into, this same "older generation" together with many younger men, acting through the agency of government, certainly have been trying to get us out of this "mess".

And we do not think that the younger generation or the oncoming generation will have any right to throw stones at the "older" generation until they prove their ability to run this country better than their fathers and mothers have done.

Not only has this generation been doing more to oust the depression and banish unemployment than has any former generation, but it has likewise been doing more to abolish poverty, to care for the needy aged, to help crippled children, to relieve the distressed, and to educate all the people than any dozen preceding generations have done.

"Mess"? what mess? Why, as a matter of fact, the major portion of this younger generation doesn't know a thing about hard times. It never went barefooted in cold weather for lack of shoes. It never ate corn pone for breakfast. It never walked through the snow four miles to school and then sat shivering on a home-made bench by a cold-stove in a one-room shanty used as a schoolhouse.

# Bulldogs Win From Crosbyton 12 to 0

Sparked by Co-Capt. Earl Adams, Cecil Curry, and "Rusty" Waldrep, the backfield positions put everything they had into the game last Friday night to defeat the Crosbyton Chiefs 12 to 0.

The Bulldogs were pretty ragged for the most part of the game, but managed to pull themselves together fairly well in the punches. Many rough spots will have to be smoothed out if the Bulldogs are to be a real contender for District honors, for they have a sure enough hard row to plow.

The first half of the game was rather slow since both teams showed to be better defensive players than they were offensive. However, things changed after the halfway mark was reached and the Bulldogs came back out with a determination of winning the old ball game and early in the third quarter Earl Adams broke over the line and with the help of some beautiful blocking (which was a very rare thing) trotted down the field 58 yards for a touchdown making the score 6 to 0 and the attempt to converge failed.

The two teams then battled on for a few minutes and on into the fourth quarter at the same old usual grind and then "Rusty" Waldrep heaved one of those spot passes to Cecil Curry who tucked it under his arm and headed for pay dirt but he encountered a couple of enemies on the way which caused him to be little behind schedule on his 45 yard sprint.

The only time the Chiefs ever really threatened was late in the fourth quarter. After the Bulldogs were penalized twice for 15 yards the Chiefs drove down to the 8 yard line and at that point bogged down.

Other outstanding players for the Bulldogs were "Hoss" West, A. G. Deason, "Sonny" Roberts and Co-Capt. Truman Hines.

The outstanding men for the Crosbyton Chiefs were Dwight Simmer, Edd Blackwood, Raymond Tillson, Ural Justice, and Co-Captains Ross Cash and Chs. Freeman.

### Statistics

The Bulldogs made 264 yards rushing, and lost 21 yards. They made 6 first downs and were penalized two times for 15 yards and made 74 yards passing.

The Chiefs made 127 yards rushing and lost 11. They made 7 first downs and were penalized twice for 5 yards. They made 4 yards passing out of 10 attempts.

### O'Donnell Loses To Levelland, 25-6

LEVELLAND, Sept. 24. (Special)—The Levelland Lobos got off to an impressive start in the District 5-A conference tonight with a 25 to 6 victory over the O'Donnell Eagles.

The Lobos featured power drives down the field, rolled up 34 yards from running plays and making 21 first downs, to smother the Eagles, but they had trouble suppressing the O'Donnell backfield star, Junior McLaurin, who made things tough all the way.

Levelland scored in the first quarter after a 62 yard drive, featured by Green and Johnson, the latter going over for touchdown. Early in the second, Levelland's kick was returned to the 13 yard line, and an O'Donnell punt went wrong. On seven plays, the Lobos scored, Taylor going over.

Johnson sparked a 55 yard drive in the second quarter, himself once running 24 yards, and Wylie scored the touchdown. In the fourth, the Lobos drove 60 yards and Green scored from the 5 yard line.

With two minutes left, Teeters passed to McLaurin, who raced 60 yards for a touchdown.

### Floydada Runs Wild Over Slaton 50-7

SLATON, Sept. 24 (Special)—Led by the rebounding running and accurate passing of Co-Captain R. E. Goughly, the Floydada Whirlwind drubbed Slaton's Tigers thoroughly last Friday night 50 to 7.

Handicapped by the injury of Fullback Elzo Collier, early in the game Coach Stumpy Hamilton's boys were never able to get going. It was the second successive defeat for Slaton, the opening game for Floydada.

### New Home Wins Over Draw Team

Playing her first game of six-man football, New Home defeated the Draw Longhorns at New Home last Friday afternoon 18 to 13.

Coach J. W. Partin, states he expects a successful season even though the schedule consists of teams with one or more years experience; as Draw, Wilson, Tahoka, and Welch.

New Home scored 6 points in the first quarter but was closely followed in the first part of the second quarter by Draw scoring a touchdown and an extra point. At the half the score was 7 to 6 in Draw's favor.

In the 3rd quarter Draw scored again to lead by a score of 13 to 6. New Home then came back for a quick touchdown and then with four minutes left to play they scored the winning touchdown to win by a score of 18 to 13.

A strong pep squad led by Jane Edwards, Colleen White and Marjorie McWhorter backed the New Home team.

Draw's starting line-up was: Ends, Dulin and Giles; Center, Barnes; Halts, Florence and Bratcher; Full Crawford.

The next game will be with Tahoka, at Tahoka, September 28.

Draw will play Wilson Friday September 27, at Draw.

### Tahoka 6-Man Team Wins Game

Tahoka was victor by a score of 25 to 6 in the first game of six-man football ever played by a Tahoka team, when the local team met Wilson at Wilson last Thursday on the Wilson gridiron.

Although several rural schools have had six-man teams for a year or so, Tahoka has not had a team until this year. The team is made up of five lighter boys from the regular team and the pick of the junior football team. Other games have been tentatively scheduled, and will be announced later. Coaches Leo Jackson and Hope Haynes are training the boys.

# Tahoka Meets Strong Lamesans Tonight

The next game scheduled for the Tahoka Bulldogs is now on hand as they prepare to invade the Lamesa Tornados stronghold for their third non-conference game of the season tonight.

The Tornados are hoped to be the toughest team on our schedule for the Bulldogs this season. Lamesa is in a higher conference and have started the season off with two victories over two strong teams, winning over Slaton their first game 19 to 0 and Roswell, N. M. last Friday night 12 to 7.

The Bulldogs were defeated their first game of the season by the strong Monahans Green Wave 19 to 6 and then they nosed out the Crosbyton Chiefs last week 12 to 0.

Coaches Leo Jackson and Hope Haynes have been working with the boys over this week trying to cor-

rect the errors that seemed to hamper the boys last Friday night.

There wasn't any injuries inflicted upon the Bulldogs in the game with Crosbyton except a few bruises and scratches that are naturally received in any ball game.

With no other games in this section tonight a large crowd is expected to go to Lamesa to back the Bulldogs 100 per cent and if you remember the Lamesa game was one of the most thrilling games of the season last year.

The Tahoka high school band and the girl's pep squad expect to make the trip to Lamesa tonight.

Game time is 8 o'clock.

Mr. and Mrs. Roy Askew of Amarillo spent the week-end here with Mr. and Mrs. Eugene Long and children.

### MITCHELL RELATIVES VISIT HERE

Mr. and Mrs. Loyce Ferguson and baby from Ore City, Texas, were here Sunday visiting his niece, Mrs. L. O. Mitchell and family. Mr. and Mrs. Mitchell accompanied them to Brownfield for a visit with Mrs. Mitchell's mother, Mrs. J. W. Oliver.

Mrs. Mitchell says that her mother is one of 18 children 17 of whom are living, this Uncle being another, and that all live in East Texas except her mother. Her grandfather was married twice and he and both the first and second wife have passed on leaving these seventeen children whose ages range from 71 to 24.

Mr. and Mrs. W. V. McElroy are the proud foster parents of a five-weeks-old baby girl adopted into their home Sunday, weighing 6 7-8 pounds. They christened her Jan McElroy.

In addition to those mentioned last week, Mrs. Carl Griffing also attended the funeral of Mr. H. B. Steele in Abilene on Wednesday.

**AMERICANISM**

The Fort Worth Star-Telegram  
quotes from an editorial appearing  
in a student newspaper emanating  
from an un-named higher education-  
al institution asking what is Ameri-  
canism. The writer pretends to think  
that the term is so indefinite and  
nebulous that nobody knows what  
it means. He speaks of it, says the  
Star-Telegram, as an "elusive bit  
of intangibility in the sleight-of-  
hand which looms today as a positive  
threat to the democratic welfare of  
all America and all Americans."

"At what point does patriotism  
become un-Americanism?", the col-  
legian blatantly inquires. "At what  
point does conscientious objection  
become treason? ... What is A-  
mericanism? Others beside Webster  
would like to know."

"All Americans know the answer,"  
observes the Star-Telegram. "When  
the answer is not forthcoming it is  
because an 'ism' has interrupted the  
natural train of thought. American-  
ism is the healthy application of all  
the privileges and liberties contained  
within the Declaration of Indepen-  
dence, the Constitution, and the Bill  
of Rights, under the Theodore Roose-  
velt preachment and practice. Any  
person not willing to die for his  
country is not fit to live in it."  
That ought to enlighten the young  
gentleman a bit.

It's a shame how those tender-  
hearted German war lords are just  
compelled to bomb the civilians of  
London in retaliation for the inhu-  
man bombardments that the British  
have made upon Berlin. It's true the  
Germans began bombarding London  
several days before the British ever  
reached Berlin but Hitler and his  
pals evidently knew that the British  
were coming sooner or later and so  
they wanted to be sure that they  
got in their retaliatory work in time.  
We've noticed all along that the  
Germans have been very loath to  
fight. They just hated to gobble up  
Czechoslovakia but they simply had  
to do it. They regretted that they  
had to dismember Poland but they  
had no other alternative. It nearly  
broke their hearts because they had  
to overrun Norway and Denmark and  
Holland and Belgium and finally  
France. They did so purely in self  
defense. It makes them shed great  
tears to have to drop bombs on the  
civilians of London, the men, women,  
and children, even upon the sick  
in the hospitals, but they must do  
it in defense of their homeland and  
in retaliation for the atrocities com-  
mitted by the British in Berlin. We  
are really sorry for the way those  
Hitlerites have been pushed into this  
war.

COUNTY NEWS—YOUR PAPER

We are often told that we need  
a two-party system in this state.  
If there were something like a bal-  
ance between the two great parties  
in Texas, then Texas would get  
more consideration at Washington,  
it is argued. That may be true, but  
there is another side to the question.  
The fact that we have virtually on-  
ly one party in this state, enables  
that party to keep its best and abest  
representatives in Congress for a  
long period of time. And it is due  
to long service that our Congress-  
men and Senators become chair-  
men of so many important commit-  
tees when our party is in power at  
Washington. This gives Texas and  
other one-party states an influence  
in Congress and in the councils of  
the nation that they would not have  
otherwise. Just look at the impor-  
tant committees in Congress that  
have had Texans as chairmen dur-  
ing the past seven years.

Disparaging the efforts of Wendell  
Willkie to raise the scarecrow of a  
dictatorship because of his aspira-  
tions for a third term, President  
Roosevelt asserted the other day  
that there is no danger of a dicta-  
tor appearing in this country as long  
as the people have in their hands  
the power of the ballot. Especially  
is that true as long as the people re-  
fuse to be corrupted or intimidated  
by powerful selfish interests or to  
be dominated by the powers-that-  
be in Washington or elsewhere. We  
do not think that the temper of the  
American people is such that a dicta-  
torship would now be possible in  
this country, but we must ever be  
watchful and alert to guard against  
corruption at the ballot box. If the  
country as a whole ever becomes as  
rotten politically as some of our  
larger cities seem to be, then there  
might be danger of a dictator ris-  
ing to power.

**COTTON GINNING**

WASHINGTON, Sept. 25, (Spl.)—  
The Census bureau reported today  
that cotton of this year's growth  
ginned to September 16 totaled 1-  
804,490 running bales, including 40  
round bales counted as half bales,  
and excluding linters.

Ginnings to that date were 3,875-  
703 running bales including 53,938  
round bales, last year, and 3,634,922,  
including 37,743 round bales, two  
years ago.

Ginnings by states to Sept. 16  
with comparative figures for a year  
ago, include:

Arkansas 34,568 and 342,215; Loui-  
siana 80,301 and 382,598; New Mex-  
ico 2,021 and 3,099; Oklahoma 17-  
015 and 127, 619; Texas 935,299 and  
1,485,415.

**ELDER DRENNON'S NOTES**

A few notes about our life out  
where the East and West meet. We  
are living about on the dividing line  
Albuquerque is on the line, I think.

It is a wonderful thing, what  
land will do with all the water it  
needs. I was riding along on the  
highway yesterday; on the right  
side of the road vegetation was  
burned up and on the left side  
everything was pretty and green,  
due to irrigation.

The irrigated valley here is about  
three miles wide and fourteen miles  
long. The principal crops in the  
valley are alfalfa, vegetables, and  
fruit. There is one drawback to  
their disposing of their crops; that  
is the transportation problem. They  
depend on truckers coming in to  
take their crops out. Sometimes  
they come and sometimes they do  
not. One of my brethren has a  
great lot of fine Concord grapes  
going to waste because of no sale.

The Santa Fe railroad is the only  
through road to California and it  
surely does the business. I live  
about a quarter of a miles from  
its track, and we count from ten to  
twenty trains a day on it. Mr. Will-  
kie's special train passed by twice

this week. He spoke at Clovis Tues-  
day and at Albuquerque Wednesday;  
it seems he is very popular in these  
parts.

The professional politicians won  
the election last Tuesday. It seems  
that politics is pretty corrupt in  
this state. Living is from ten to  
twenty per cent higher here than  
in Texas, but I guess it's worth it.

We surely did enjoy the last issue  
of The News; it was a dandy. Bur-  
leson seems to be stepping out  
but he is a bully good fellow any-  
how. Tahoka needs more men of his  
type.

As our radio is not connected and  
we are not taking a daily paper, we  
do not know if the war is still on  
or not. "Where ignorance is bliss,  
'tis folly to be wise." I guess this  
holds good with us.

Our schools and Tahoka's are  
about the same in enrollment, 672  
here and 720 there. The buildings  
are about the same, three here all  
on the ground. Tahoka has a better  
courthouse than we, but we have  
some paintings in the corridors that  
are very interesting, depicting the  
history of this state. We also have  
one street light.

Some more things we miss: A  
chat with Editor Hill, Happy Smith's  
broad grin, the sweaters back of  
the bank, and T. Cowan's fat sides  
shaking when he laughs.

Yours for more people who are  
more religious in life than in talk.  
A booster for New Mexico with all  
her faults.—R. P. Drennon.

(Ed. Note: We all miss you on  
our streets and in our shops and  
offices and stores about once or  
twice in a week, Brother Drennon.  
If you get too home sick, or if the  
pesky professional politicians get  
too rantankerous out there, come  
on back to Texas and to Tahoka,  
where the professionals have long  
ceased from troubling.)

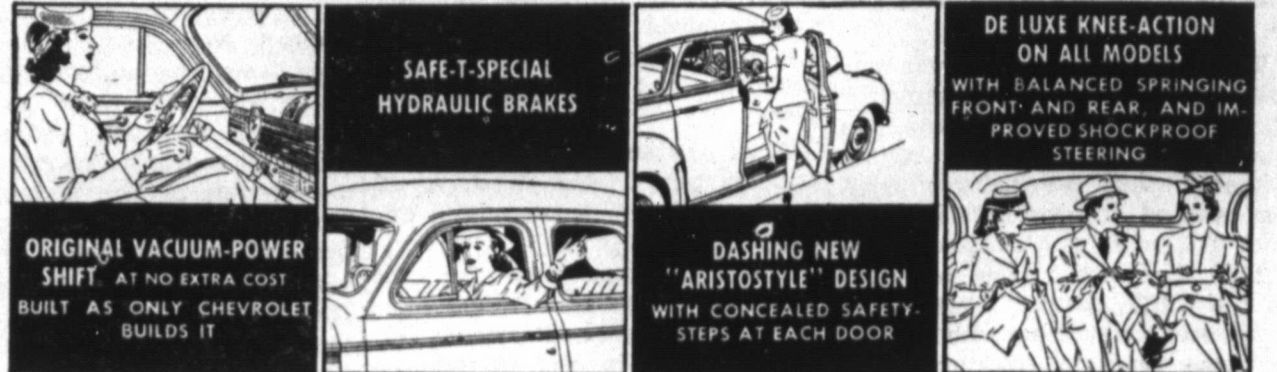

Elder Clarence Bryant of Brown-  
wood filled the pulpit at the Church  
of Christ here Sunday and Sunday  
night.

Mrs. E. S. Davis is visiting her  
daughter, Mrs. Owen D. Fields and  
family at Los Angeles, Calif.

**"FIRST BECAUSE IT'S FINEST!"**

MEET the new Chevrolet for '41, and we are con-  
fident you'll say, "It's first because it's  
finest—Again Chevrolet's the leader!"

For this car is the result and the reward of  
almost ten solid years of Chevrolet leadership in  
motor car sales . . . leadership that has brought  
with it unequalled manufacturing economies  
and unequalled value-giving powers . . . leadership  
that now makes it possible for Chevrolet to offer  
you a motor car which surpasses all previous  
levels of luxury in the lowest price field.

This new Chevrolet for '41 is a much bigger car  
in all ways—with longer wheelbase and greater  
over-all length—with longer, larger, wider Fisher  
Bodies—with exceptionally comfortable interiors  
giving "3-couple roominess," or ample space for  
six passengers, in the sedan models.

Your Chevrolet dealer cordially invites you and  
your family to visit his showroom . . . invites you  
to make a thoroughgoing test of the finest motor  
car Chevrolet has ever built . . . invites you to eye  
it, try it, buy it—today!

**The Scrap Book**

We can't vouch for the veracity of this story, but those who tell it say it's the absolute truth. According to the tale, Mrs. Craft asked one of her beginners on the opening day of school if he knew the alphabet.

"Heck, no", said the young hopeful, "I haven't been in school but 15 minutes."

Probably Mrs. Craft was as amused as Mrs. R. W. Fenton when a girl approached her. It seems the rooms were contesting to see which might get the most members for the P.T.A. But this little girl got her wires crossed and asked Mrs. Fenton to join the W.P.A.

Prize boner of the past several weeks was pulled by a high school student, a saucy and attractive blonde, standing near us at last Friday night's ball game. The teams were all piled on top of each other and the ball when the timekeeper shot the gun to signify the close of the first quarter.

"What happened? Did the ball explode?" cried our heroine with eyes popping.

We've just learned: That the word we always thought of as slang, and if we had ever written, would have spelled "sashay" is really a good word, spelled chasse and is a gliding dance step, or as a verb, to glide as in a dance. Butterflies are said to have formerly been called flutter-bys, until some wit switched letters. We think the original name the most fitting. Bouffante, which we always thought of as meaning something frilly, means bulging, or puffing out.

Nomination for the neatest business lady is Elizabeth Wyatt, who apparently changes her dress twice daily.

**WAYSIDE**

Well, we received about one and one fourth inches of rain Saturday night. We think it will be a great help to the late feed; also it will help the cotton bolls to mature.

Mr. and Mrs. John Hardburger and Mr. and Mrs. Foreman visited in Spur Sunday.

Joe Davis left Saturday morning for California, where he plans to attend an airplane mechanical school.

Mr. and Mrs. L. Johnson and son spent the weekend in Stanton visiting relatives.

The Wayside Club will meet Thursday, September 26, with Mrs. Busby. There have been some very nice mattresses made at the Joe Stokes center.

We believe that winter is not far around the corner for these mornings have a look and feel of Autumn in them.

Mrs. V. E. Ranson's mother, Mrs. Snyder of Seymour, visited in the Ranson home several days of last week.

What is the newest thing in our little burg? John Hardburger's new Pontiac.—Wayside Reporter.

**MANY FAMILIES MEET FOR BIG DINNER**

A host of relatives gathered in the home of Mr. and Mrs. Claude James Sunday for a feast no one present will forget soon.

At noon the good "eat's" were spread on a large trailer under the shade of the trees and every one stood around and ate as in good old camp meeting days.

Throughout the day singing was the main entertainment. Everybody enjoyed the occasion very much.

Those present were: Mr. and Mrs. Henry Beshears and little daughter, Mr. and Mrs. Pink Beshears and little son, of San Antonio; Mrs. S. A. James of Post, sister of the Beshears boys; Mr. and Mrs. J. M. James and family of Post, Mr. and Mrs. Melvin James and family of New Home, Mr. and Mrs. Johnny Inman and Patricia of Tahoka, Mr. and Mrs. Rudolph Snowden of Tahoka, Mr. and Mrs. Pete Etheridge and sons Harold and Kenneth Roy of Grassland.

Mr. and Mrs. Jesse Wilkins of Tahoka, Mrs. L. W. Gandy and sons Clinton and Dorman of Tahoka, Mr. and Mrs. James Brooks and children of Brownfield and some friends, Mr. and Mrs. L. V. Waggoner and children of Brownfield; and Mrs. Waggoner's little sister, Norene Brooks of Post spent part of the day.

Mr. and Mrs. Jesse James of Post Mr. and Mrs. Claude James and daughter Gloria Ellen of Grassland. There were fifty-five in all present. We all hope to meet again some time.

## The Santa Fe's 80th Birthday

The Santa Fe was born September 17, 1860, in a tiny, one-story brick building in Atchison, Kansas. There thirteen men met to form "The Atchison and Topeka Railroad Company," with Cyrus K. Holliday, founder of Topeka, Kansas, as its first President.

### Beginnings

Cyrus Holliday envisioned a great railroad that would supplant the slow and dangerous traffic over the old Santa Fe Trail—a railroad reaching deep into the prairie, piercing the mountains, ever serving and growing with the Southwest.

Those were stern, hard times on the raw frontier. The drought of 1860, the Civil War and the post-war chaos, prevented construction until November, 1868, when ground was broken at Topeka. On June 28, 1869, the first Santa Fe train was operated from Topeka to Carbondale. The line was extended to Emporia in August of 1870.

### Westward

Settlement quickened along the new right-of-way, as Santa Fe's land and immigration department pushed surveys west of Emporia. The rails reached Newton in July, 1871, and Hutchinson, Great Bend, Larned, Dodge City and the Colorado line in 1872.

### San Diego, Galveston, Chicago

After 1876, many branch lines were constructed in Kansas. Settlers poured in. The main line was projected across New Mexico, Arizona and California.

Colonization continued westward into those areas and into Texas and Oklahoma. Santa Fe, New Mexico, was reached in 1880; San Diego, California, in 1885; Galveston, Texas, in 1886, and Chicago in 1887. Thousands of tourists followed the early settlers. The Santa Fe became the outlet for the innumerable products of a vast Southwestern area.

### Today

Today, with 41,000 employees and 13,414 miles of track, the Santa Fe directly serves Illinois, Iowa, Missouri, Kansas, Oklahoma, Texas, New Mexico, Colorado, Arizona and California.

### The Santa Fe and the Southwest

Down through the years the Santa Fe has endeavored to develop Cyrus Holliday's dream—a great pioneer's dream of that swift, sure transportation without which no frontier, no matter how rich, can hope to fulfill its destiny. In that effort we have marched shoulder to shoulder with the people of the Southwest, in good times and bad, in friendship and understanding.

On our 80th birthday, we of the Santa Fe pledge a continuation of the service ideals of its founders.

**JACK APPLEWHITE ENTERTAINS EMPLOYEES WITH BARBECUE**

There's a current idea about town that when Jack Applewhite manages anything it's managed well. Accordingly, when a few days ago he announced to the employees of his three stores that he was staging a barbecue in their behalf, they knew what to expect.

When they all met in the Applewhite back yard a few nights later, it was hard to tell whether they appreciated the Applewhite hospitality or the barbecued lamb and beef most. Anyway, served with all the trimmings and presided over by two uniformed ladies of the colored race, spiced by comical quips and tales of unusual happenings told by Fred Johnson, Tip Edwards and the host himself, it was a very gay affair.

Highlight of the occasion came when Mr. Applewhite complimented each employee and told of his appreciation of them. Each one felt a little closer to "Boss Jack" after the occasion and resolved to fill his place a little better.

Those enjoying this event were: Mr. and Mrs. Tip Edwards and son, Mr. and Mrs. Buck Brown, Mr. and Mrs. Alton Webb, Mr. and Mrs. Olin Chapman, and Hoyt Willingham of the Brownfield store; Mr. and Mrs. Jimmy Applewhite and son, Mr. and Mrs. Bedford Caldwell and son, Mr. and Mrs. Doval and two children, Mr. and Mrs. Mack Pressley Mr. and Mrs. Aubrey Manes of the O'Donnell store; and Mr. Ed N. Watson, Mr. and Mrs. Prentice Walker and son, Mr. and Mrs. W. C. McKenzie and son, Mr. and Mrs. James Clinton and daughter, Mr. and Mrs. Jesse Benson, Mr. and Mrs. Roger Bell and two sons, and Doc Johnson of the Tahoka store; Fred Johnson, wife and sons of Lubbock, Mr. and Mrs. S. R. Kemp and Simeon of Garnolia, and Mr. Applewhite's sister and her husband Mr. and Mrs. Ben Peek of Lampasas.—Contributed.

Hundreds of thousands of boys and young men read THE AMERICAN BOY Magazine every month and consider it more as a living companion than as a magazine.

"It's as much a buddy to me as my neighborhood chum," writes one high school senior. "THE AMERICAN BOY seems to understand a boy's problems and considers them in such a sympathetic and helpful way. It gives advice and entertaining reading on every subject in which a young fellow is interested. It is particularly helpful in sports. I made our school basketball team because of playing tips I read in THE AMERICAN BOY."

Many famous athletes in all sports credit much of their success to helpful suggestions received from sports articles carried in THE AMERICAN BOY Magazine. Virtually every issue offers advice from a famous coach or player. Football, basketball, track, tennis, in fact every major sport is covered in fiction and fact articles.

Teachers, librarians, parents and leaders of boys' clubs also recommend THE AMERICAN BOY enthusiastically. They have found that as a general rule regular readers of THE AMERICAN BOY advance more rapidly and develop more worthwhile characteristics than do boys who do not read it.

**GOARDS ATTEND FAMILY REUNION**

Judge and Mrs. P. W. Goad and daughter Ethel returned Monday from Waxahachie, where they attended a family reunion Sunday.

The reunion was held in the spacious beautiful park there, and Judge Goad says that a larger number of the kin-folks were present than were ever together before. There were 58 Goads present and numerous other relatives. They came from several Texas counties from Oklahoma, New Mexico, Arizona, and California.

Mr. Goad says that he has nine brothers and one sister, all married, and that all were present, the sister coming from Los Angeles.

Misses Dale Hogan and Gwendolyn Adams of Big Spring came up Friday afternoon for the football game and visited with Miss Joan Owens and other friends here until Monday morning.

**JACK APPLEWHITE ENTERTAINS EMPLOYEES WITH BARBECUE**

There's a current idea about town that when Jack Applewhite manages anything it's managed well. Accordingly, when a few days ago he announced to the employees of his three stores that he was staging a barbecue in their behalf, they knew what to expect.

When they all met in the Applewhite back yard a few nights later, it was hard to tell whether they appreciated the Applewhite hospitality or the barbecued lamb and beef most. Anyway, served with all the trimmings and presided over by two uniformed ladies of the colored race, spiced by comical quips and tales of unusual happenings told by Fred Johnson, Tip Edwards and the host himself, it was a very gay affair.

Highlight of the occasion came when Mr. Applewhite complimented each employee and told of his appreciation of them. Each one felt a little closer to "Boss Jack" after the occasion and resolved to fill his place a little better.

Those enjoying this event were: Mr. and Mrs. Tip Edwards and son, Mr. and Mrs. Buck Brown, Mr. and Mrs. Alton Webb, Mr. and Mrs. Olin Chapman, and Hoyt Willingham of the Brownfield store; Mr. and Mrs. Jimmy Applewhite and son, Mr. and Mrs. Bedford Caldwell and son, Mr. and Mrs. Doval and two children, Mr. and Mrs. Mack Pressley Mr. and Mrs. Aubrey Manes of the O'Donnell store; and Mr. Ed N. Watson, Mr. and Mrs. Prentice Walker and son, Mr. and Mrs. W. C. McKenzie and son, Mr. and Mrs. James Clinton and daughter, Mr. and Mrs. Jesse Benson, Mr. and Mrs. Roger Bell and two sons, and Doc Johnson of the Tahoka store; Fred Johnson, wife and sons of Lubbock, Mr. and Mrs. S. R. Kemp and Simeon of Garnolia, and Mr. Applewhite's sister and her husband Mr. and Mrs. Ben Peek of Lampasas.—Contributed.

**AMERICAN BOY IS THE COMPANION TO THOUSANDS**

Hundreds of thousands of boys and young men read THE AMERICAN BOY Magazine every month and consider it more as a living companion than as a magazine.

"It's as much a buddy to me as my neighborhood chum," writes one high school senior. "THE AMERICAN BOY seems to understand a boy's problems and considers them in such a sympathetic and helpful way. It gives advice and entertaining reading on every subject in which a young fellow is interested. It is particularly helpful in sports. I made our school basketball team because of playing tips I read in THE AMERICAN BOY."

Many famous athletes in all sports credit much of their success to helpful suggestions received from sports articles carried in THE AMERICAN BOY Magazine. Virtually every issue offers advice from a famous coach or player. Football, basketball, track, tennis, in fact every major sport is covered in fiction and fact articles.

Teachers, librarians, parents and leaders of boys' clubs also recommend THE AMERICAN BOY enthusiastically. They have found that as a general rule regular readers of THE AMERICAN BOY advance more rapidly and develop more worthwhile characteristics than do boys who do not read it.

Trained writers and artists, famous coaches and athletes, explorers, scientists and men successful in business and industry join with an experienced staff to produce in THE AMERICAN BOY, the sort of reading matter boys like best.

THE AMERICAN BOY sells on most newsstands at 25c a copy. Subscription prices are \$2.00 for one year or \$3.50 for three years. Foreign and Canadian rates 50c a year extra. To subscribe simply send your name and address and remittance direct to THE AMERICAN BOY, 7430 Second Blvd., Detroit, Michigan.

*Announcing the big*  
**NEW FORD**  
**1941 FORD**

In some years, some cars take a big jump ahead. *The Ford does that for 1941.*

It has jumped ahead in size. It's the biggest Ford we've ever built, *inside and out. It's wider. It has a longer wheelbase. Its seating room is wider by as much as 7 inches. It has new wide doors and semi-concealed running boards.*

You'll notice also a new beauty, achieved by a skilful blending of mass with *longer flowing lines. Larger windshield and windows give better vision all around.*

One of its biggest advantages is the *new soft ride.*

New, slower-action springs give a slow, gentle, gliding movement. A *newly designed stabilizer* helps absorb road shocks, and maintains balance on sharp curves and in cross winds.

*More rapid acceleration* to match its familiar speed and power makes this new Ford an even livelier car to drive.

These are only a few of this new car's outstanding features. It represents all the rich experience gained in building more than 28 million motor cars.

Any Ford dealer can give you many good reasons for making this your 1941 car.
