Fat Stock Show Is Set For March 15

Big Prize List Is Offered Boys

By Robert Warren

Members of the Tahoka Rotary Club are sponsoring a Fat Stock Show for the Lynn County F. P. A. and 4-H club boys to be held here Saturday March 15.

Don Turner, general superintendent, stated that all entries have to be in by March 9. There will be five divisions in the show.

The baby beef division with Jack Welch as superintendent has ten cash prizes, as follows: first, \$20; second, \$15; third, \$12; fourth, \$10; fifth, \$7.50; sixth, \$6; seventh, \$5; eighth, \$4; ninth, \$3; tenth, \$2.

W. W. Hall, fat barrow superintendent, announced ten prizes in his division: first \$10; second, \$7.50; third, \$6; fourth, \$5; fifth, \$4; sixth, \$3; seventh, \$2; eighth, \$1; ninth, \$1; tenth, \$1.

The gilt division offers ten prizes with Leslie Browning as superintendent: first, \$7.50; second, \$6; third, \$5; fourth, \$4; fifth, \$3; sixth, \$2; seventh, \$1; eighth, \$1; ninth, \$1; tenth, \$1.

J. W. Crist is superintendent of the sow division which is also offering ten prizes, in the same amounts as the gilt division.

In addition to the regular divisions one for fat lambs has been created for this year's show with the same prizes as that in the gilt division.

L. M. Hargrove will be the judge for all swine divisions. Ralph Howe will judge lambs and baby beef.

G. R. Bohannon, 63, Buried Thursday

Funeral services for George R. Bohannon, 63, were conducted in the Baptist Church here at 2:30 o'clock Thursday afternoon. Rev. George A. Dale, the pastor, officiating, and the body was laid to rest in the Tahoka cemetery under the direction of a Lubbock funeral home.

Mr. Bohannon died here early Wednesday morning following a long illness. He had been a resident of Tahoka for a number of years and for several years he had been the keeper of the City Park. He took great pride in the park and gave it the very best of attention. In fact, Mr. Bohannon was true to every trust imposed upon him and enjoyed the respect and confidence of a large circle of friends. Especially are the people of Tahoka appreciative of the faithful service which he gave in tending the park.

Surviving are five daughters, Mrs. S. H. Caldwell of Dallas, Mrs. Tommy Shnaubert of Hobbs, New Mexico, Mrs. V. B. Abshire of Lovington, N. M., Mrs. Val Lemastus and Miss Erabelle Bohannon of Boonville, California. Also surviving are two brothers, Joe Bohannon of Coleman and D. P. of Waco. A number of the above-named relatives were here for the funeral.

Assembly of God Meet Next Week

The Church Convention of the Assembly of God Church will convene in Tahoka on Tuesday and Wednesday, March 11-12, according to Rev. Charles Adams, the local pastor.

Several hundred people, he says, are expected to be in attendance. They will be here from all parts of this state and some from other states. "We are expecting a great time with the Lord", the pastor declared.

The first services will be held Tuesday morning at 10 o'clock. Other services will be held at 2:00 p. m. and 7:30 p. m., with able speakers on the program, including Rev. H. M. Reeves, superintendent of the Assembly of God Churches.

A basket lunch will be spread Tuesday at noon. Everybody is invited to come and bring a lunch and enjoy the good times. Especially are all the ministers of all denominations invited to attend, Rev. Adams says.

Interest Good In Baptist Revival

In spite of unfavorable weather a part of the time, good-sized congregations have been in attendance upon every service of the revival meeting in progress at the Baptist Church, and deep interest on the part of many has been manifested. There have been several professions of faith and accession to the church.

The pastor-evangelist, Rev. Tilson F. Maynard of Waco, is bringing some of the strongest messages ever delivered in a revival meeting here, and he holds the almost breathless attention of his audiences.

A great choir, led by Tahoka's own Boswell Edwards, is doing fine work, and the congregational singing is good. The old time-tried hymns of the years are being used in large measure. Mr. Edwards is also doing effective work as a soloist.

On this, Friday, morning a service especially for the elderly folks is to be given. This meeting will be in the basement, which will eliminate the necessity of climbing the steps that lead to the main auditorium.

An innovation Thursday evening was the assembling of the Sunday school of the church followed by a brief period of class work and reports just preceding the regular preaching service. This is to be repeated Friday night.

The pastor, the visiting preacher, and church workers are hoping for great services Sunday and for many professions of faith before the revival closes on Sunday night.

Postal Workers Will Meet Here

The postal workers of the Nineteenth congressional district and their wives are to have their annual "Get-Together" in Tahoka this year. The meeting will be held in the school gymnasium next Saturday night, March 15. About 125 visitors are expected to be here.

The local postal force, the Mayor of the City, the Rotary Club, the school, and other organizations have joined in extending an urgent invitation to all postal workers and their wives to be present.

The banquet will be served by the Band Parents, and Truett Smith will serve as toastmaster. Lloyd Croalin, former secretary to Congressman George Mahon and now assistant county attorney of Lubbock county, will be the speaker of the evening.

Wilson Re-elects Supt. Anthony

H. G. Anthony, superintendent of the Wilson schools for the past six years, was re-elected at a meeting of the board of trustees, of which J. C. Key is president, Saturday.

Mr. Anthony is generally recognized as an excellent school executive and has met with success as head of the Wilson schools, which ranks high among the small town schools of the South Plains. In addition to being a leader in his own community, Mr. Anthony has been active in county and South Plains-wide school circles.

Slover's Brother Died Last Week

Mr. and Mrs. C. W. Slover and son John attended funeral services Thursday of last week for Mr. Slover's brother, M. F. Slover, 71, who died at his home at Whiteflat on Wednesday.

Deceased was a pioneer of the Plains, having moved to Castro county in 1900. Later he moved to Canyon, where he served as sheriff of Randall county.

Mr. Slover was at the bedside of his brother for several days preceding his death.

Six student stutters at the University of Texas held a "stutters' symposium" recently to demonstrate progress in combating the handicap. Sponsoring the symposium was the University's speech correction clinic operated by speech professors.

Robbery Case To Jury; Cow Theft Ring Broken

Four Charged At Brownfield

The sheriff's departments of Terry, Lynn, and Lubbock counties and Frank Mills of this county, special officer for the Caprock Cattlemen's Association, have just unearthed evidence of the operations of a cattle-theft ring, operating chiefly in Terry county for the past year, and have secured written confessions from four men involved.

The confessions relate almost solely to the theft of calves from the Davison Ranch, formerly known as the Green-Lumsden Ranch, lying chiefly in Terry but partly in Lynn county. Complaints have been filed against the four men, some of whom have made bonds.

Perry Sullivan, manager of the Davison Ranch, is alleged to have entered into agreements with the other men involved whereby they should take the calves to market in trucks and then divide the proceeds of the sales with him. Hugh Williams, Cecil Peek, and Dick Turner, residents of Brownfield, each, are alleged to have hauled calves in trucks, trailers, or pick-ups at various times from the ranch to Lubbock and in two instances to Big Spring, where they were sold.

More than fifty calves are shown to have been disposed of in that manner.

Davison, the owner of the ranch, is himself a lawyer and resides in Ardmore, Oklahoma. He visited the ranch only occasionally.

Mills and members of the sheriff's departments did some excellent detective work in unearthing the evidence, it is said.

Teachers Hold Meeting Here

Lynn County Teachers met Wednesday night at 7:30 in the Tahoka school gymnasium for the third get-together of the year.

A question-and-answer contest similar to the radio program, Battle of the Sexes, was conducted with W. T. Hanes acting as quiz master. Games of volley ball and basketball were also played. Final plans and preparations were made for the Interscholastic League Meet which will be staged in Tahoka March 21 and 22.

Teachers brought sack lunches for the picnic-style supper. The Tahoka teachers furnished the drink.

Mrs. Turrentine Buys Portales Drug Store

Mrs. L. E. Turrentine and Mr. and Mrs. Garland (Sug) Edwards have purchased a drug store in Portales, New Mexico, and plan to take charge in about two weeks.

Mrs. Turrentine is a member of an old pioneer family, and widow of the late Dr. Turrentine, and has lived in this county and Tahoka all of her life, as has her daughter, Mrs. Edwards. Mr. Edwards has been associated with his father and brother in an auto parts store here for several years.

Last week, Tom Draper purchased Mrs. Turrentine's home and furnishings.

Many friends and acquaintances will greatly miss Mrs. Turrentine and the Edwards from their midst, but are wishing them much success in their new enterprise.

Carroll Edwards of Brownfield and his son-in-law, Albert Debiak of O'Donnell were business visitors here Tuesday. Mr. Edwards lived in the Three Lakes community for many years but bought a half section of land a few miles north of Brownfield and moved upon it last year. He says he is well pleased with his purchase.

RED CROSS NEEDS CHAIRS

Who has one or more chairs to loan the Red Cross for use in their new work shop?

Red Cross Workers Exhibit Products

Those having completed articles for the Red Cross are holding an exhibit of their work in their new work room on the west side of the square today, Friday, and are inviting all their friends and people in general to call at that place today and view this exhibit.

Eight Men Will Be Called Soon

The Lynn County Draft board has received a call for eight more men from Lynn county, all white, to be inducted into army service on March 19. Up to this time, there have been no volunteers to fill this call.

On Monday the draft board sent out 100 additional questionnaires to registrants. This brings the total up to and including Lynn county order number 463.

A group of six men are to be sent from Lynn county to a training camp on next Monday. Up to Thursday only four men had volunteered for service and unless others offer, it will be necessary to draft two men to fill out this call.

A Negro who had volunteered and who was to have been here Thursday to fill the call for one colored man on that day from this county had not made an appearance before the draft board here at noon on that day. He had been punctual and had gone to considerable trouble, however, in keeping the board informed as to his whereabouts, and Judge Elliott was of the opinion that he had either missed connection somewhere or was trying to hitchhike his way to Tahoka and had failed to get here, as the boy had seemed anxious from the start to get into the army. He had volunteered.

The six white men who will go next Monday, will be sent from Tahoka direct to Fort Bliss, El Paso, it is presumed.

Hanes Attends School Meeting

W. T. Hanes, superintendent of Tahoka schools, returned Sunday night from Atlantic City, N. J., where he attended the annual convention of American Association of School Administrators.

This convention was the largest of its kind in the United States, and featured on its programs the outstanding educators of the United States.

Mr. Hanes with other delegates on the special Texas train stopped in Washington, D. C. For one day where George Mahon, representative from Texas, acted as host to Texas delegates and directed their tour of the sights in the capital city.

Texas delegates were honored with a special Texas breakfast upon their arrival in Atlantic City.

Mr. Hanes returned from Atlantic City to Fort Worth on the special train and arrived in Lubbock Sunday night.

Credit Office Is Opened In City

Lee F. York, secretary treasurer of the Lubbock Production Credit Association, and Harvie D. Pool, district field man of the same organization, were here Saturday in connection with the opening of the branch office in Tahoka for Lynn and Garza counties.

Fred McGinty is manager of the Tahoka office, which is located in the building adjoining the Lynn County News on the south. McGinty is well known over this section, being active in agricultural organizations and a member of the county AAA committee.

The association makes loans to farmers and stock raisers.

Trial Attracts Much Interest

The case of the State of Texas vs. D. M. Etzler, charged with robbery, which went to trial in the district court here Monday, was submitted to the jury at about 2:15 o'clock Thursday afternoon, and shortly before 5 o'clock, when this form goes to press, no verdict had been returned into court.

Etzler is charged with the kidnaping of George Knight and taking his car about July 12, 1939. Posing as a prospective purchaser of the car, he induced George to go with him in the car for a demonstration, with Etzler at the wheel.

A short distance north of the city limits on the Lubbock highway he stopped the car and got out, making some kind of excuse for doing so, and returned to the wheel with a pistol in his hand. Holding the pistol on George with one hand and driving the car with the other, he sped up the highway at the rate of 80 miles per hour, according to Mr. Knight. Passing through Lubbock without stopping, he put George out of the car a few miles north of the city on the highway, and left him there, after robbing him of \$14.00 in money. He turned his car back toward Lubbock and left.

(Continued on Back Page)

Bread And AAA Rotary Topics

Amid much good-natured heckling, Frank George gave the low-down on Bread at the Rotary luncheon Wednesday. He recounted some of the improvements that have been made in recent years in the making and marketing of bread, which have resulted in a great increase in the use of the bakery product.

Clinton Walker of the Lynn County AAA office force, gave an interesting and illuminating talk on the farm program covering the past eight years. Necessarily he had to be brief and to leave out much that he would have liked to say respecting the program and he is to be congratulated upon being able to condense so much information into a few sentences.

After hearing an announcement by Happy Smith relating to the meeting of postal workers here on Saturday night of next week and a suggestion by Supt. W. T. Hanes, the Club voted to dispense with its regular luncheon next Thursday and to meet with the postal workers in the school gymnasium on Saturday night, March 15. Rotarians may be accompanied by Rotary-Anns at this meet. The purpose is to give a royal welcome to the postal workers who will be here possibly 200-strong from all over the nineteenth congressional district.

Douglas Pounds, a Lubbock Rotarian, and K. N. Clapp, another prominent citizen of Lubbock, and Rev. Tilson F. Maynard of Waco, who is here conducting a revival meeting at the Baptist Church, were visitors at the luncheon Thursday.

O'DONNELL MAN PLEADS GUILTY TO CHARGE

D. E. Harris of O'Donnell, charged with the offense of driving while under the influence of intoxicating liquor, pleaded guilty to the charge in the district court here Thursday after having waived a jury.

Judge Reed fixed his punishment at confinement in jail for five days, a fine of \$150, and suspension of his driver's license for six months.

The offense was alleged to have been committed on August 20, at which time he was apprehended and arrested on the court house square here while apparently in a drunken condition.

The case against one Morris, charged with wife desertion, was scheduled to be called for trial today.

A special venire has been summoned for the trial next Monday of Mrs. Fannie-Lee Porter, who is charged with the murder of her infant child.

Lewis Spears Is On Tech Staff

Lewis (Doc) Spears, former Tahoka High student and the son of Mr. and Mrs. G. H. Spears, who has been trainer for Texas Tech athletic teams for several years, is one of three from the old coaching staff who will be retained in the new Tech coaching set-up.

Head coach Pete Cawthon and assistant Dutchy Smith, as most of our readers know, were released by the Tech Athletic Council recently.

Saturday the Tech board of directors gave contracts to the following: Morley Jennings, for many years coach at Baylor University, athletic director; Dell Morgan, former Tech assistant but more recently at Rice Institute, head football coach; Berl Huffman, moved up to assistant football coach and retaining his position as basketball coach; Walker Nichols, formerly of Lubbock High, freshman football and basketball coach; Lewis Spears, trainer and teacher of physical education; C. C. "Mule" Dowell, assistant to athletic director.

Lewis was practically raised near here and attended Tahoka schools before transferring to Lubbock High, where he was a star athlete. Moving on to Texas Tech, he was likewise a star athlete there, and a good student as well.

While playing at Tech, Lewis received a severe knee injury, which resulted in his invention of a knee brace which has brought him much publicity. On graduation at Tech, he was employed as a trainer for athletic teams, the man who keeps the boys in proper physical condition. In the last two or three years, according to the Lubbock Avalanche, Lewis Spears has come to be recognized as one of the outstanding trainers in the nation. He has appeared on the programs of several national coaches meetings, before clinics, at coaching schools, etc. In addition to his duties as trainer, Lewis teaches classes in physical development.

WOOSLEY'S VISIT HERE

Nathan Woosley of Fort Bliss, El Paso, J. K. Woosley, Jr. of Lubbock, Mr. and Mrs. "Speck" Kendrick and Mr. and Mrs. Dan Davis of Brownfield all were guests of their sister and husband, Mr. and Mrs. F. E. Calvery, and their father, J. K. Woosley, here last weekend.

Our services desire to help you toward this.
Come and worship with us. Visitors always welcome.

METHODIST CHURCH
Next Sunday March 9 will be Young Peoples Day. May we encourage our youth by attendance upon their program Sunday evening at 7:30. The pastor will preach in the morning as usual, but he would rejoice in the turning out of an unusual crowd. Sunday School should also pick up even more than we have done as good weather comes.

Monday evening the church will begin its study of our world program under the leadership of the pastor. Did you miss the Bible study? Then make it up by coming to this class for a few evenings. If you received a credit on the Bible study you should have formed the habit of religious study and add this one to your achievements. Have you attended the good services at the Baptist Church?—George. E. Turrentine.

FELLOWSHIP HOUR
The young people of the Baptist Church met in a fellowship hour in the home of Mr. and Mrs. J. L. Nevill after church Tuesday night. About thirty attended including Pastor and Mrs. Geo. A. Dale, Supt. and Mrs. W. A. Reddell, Mrs. Jim Burleson, Supt. Young People's Department and guests, Rev. T. F. Maynard and Mr. and Mrs. Boswell Edwards.

CARD OF THANKS
We wish to thank our friends for deeds and words of kindness during the illness and on the death of our beloved mother, Mrs. Mary Jane Kindrick, May God bless you all.—J. W., Sam. T. W., and A. F. Kindrick; Mrs. F. E. Worley, Mrs. Guy N. Shortz, Mrs. W. W. Berry, Mrs. C. E. Howell, and I. H. Rainbolt.

Mrs. Alta Boswell and little daughters, Mary Nell and Johnny Rose, of Dallas left Monday for their home in Dallas after having spent a few days here visiting Mrs. Boswell's mother, Mrs. Ella Davis.

Mr. and Mrs. Fred Anderson returned last Friday afternoon from Geenville, where they visited several days with his mother, who is ill.

Vegetable Laxative With Proved Feature

The punctual, satisfying relief from constipation and its headaches, biliousness, bad breath, so often experienced by users of this laxative, is mainly due to its combination of purely vegetable ingredients.

BLACK-DRAUGHT'S principal ingredient has high medical recognition as an "intestinal tonic-laxative"; helps impart tone to lazy bowel muscles.

A little of this spicy, aromatic product by simple directions at bedtime, generally allows time for a good night's rest; acts gently and thoroughly next morning.

Next time, take time-tested, economical BLACK-DRAUGHT.

Jim Dye's Mother Died Thursday

Funeral services were conducted for Mrs. J. L. Craig, 74, mother of Justice of the Peace Jim Dye of this city, at the Church of Christ in Plainview on last Friday afternoon, Elder W. L. Wharton officiating.

Mrs. Craig died in Plainview on Thursday at 3:30 p. m., following a protracted illness.

She left surviving her three sons and two daughters, the sons being W. O. Dye of Olton, J. M. Dye of Turon, Kansas, and J. E. Dye of this city; the daughters, Mrs. R. Q. Silverthorne and Mrs. G. J. Clements, both of Plainview.

Mr. and Mrs. Dye of this city had been at Mrs. Craig's bedside for several days preceding her death.

Tahoka friends who attended the funeral services Friday included Mr. and Mrs. Russell Vernon, Mrs. A. M. Cade, Mrs. Ott Patterson, Floyd Jaynes, Mr. and Mrs. J. B. Nance, and Miss Viola Ellis.

The body was buried in the Plainview cemetery beside the grave of her husband who died several years ago.

Born in Cooke county in 1866, deceased was married the first time to J. W. Dye, whose death occurred in 1892. J. E. Dye of this city was born of this marriage, as were others of the children.

She was married the second time to J. L. Craig in 1900, and he died in 1928.

Deceased had been a resident of the Plains for 50 years and of the city of Plainview for the past 35 years. She was an active and faithful member of the Church of Christ and was noted for her life of service to others.

Many friends here deeply sympathize with Mr. and Mrs. Dye in their great loss.

STUDENT MAKES MARVELOUS RECORD

Mrs. F. L. Kelly received a newspaper clipping containing a news story from College Station a few days ago setting out the wonderful record that one of her grandsons is making in that institution. William Galloway of Throckmorton, her grandson, who is a sophomore in the A. & M., has received all A's in all his courses in each of the reports made on his progress since he entered the college. That is a record which only about 14 other students out of the more than six thousand enrolled can match, it is said.

In addition to his regular school work, young Galloway finds time to hold a part-time job in the registrar's office, which enables him to earn part of his expenses.

Mrs. Kelly says that William is only eighteen years of age and that he was valedictorian of his class when he graduated from high school.

Scrapbook

Myrtle Rochelle

When Senator Wheeler made the statement Tuesday that "an overwhelming majority of the American people are against the Lend-Lease Bill", we wondered if he had ever heard of the Gallup poll.

In every case where time or other circumstance has had an opportunity the Gallup poll has proved itself a true gauge of public opinion. In a recent magazine article, Mr. Gallup revealed that his poll showed that 85 percent of the citizens of the U. S. were for all-out aid to Britain when a poll was taken just a short time after Britain's entry into the war—long before any measures were introduced into Congress—and recent polls show a slight increase in that opinion. But probably Senator Wheeler isn't acquainted with the Gallup poll.

The reddest face in Tahoka recently was worn by a merchant who wanted to prove to a customer that a plastic shade on a lamp he was showing her was not easily broken. He dropped it on the floor, and it smashed into about a thousand pieces. (P. S. He sold the lamp, but HE bought the shade.)

West Texans are essentially optimists... they always plan to buy after the crop is gathered what they couldn't afford this year.

Her acquaintances will miss Ona Lee Shockley, when she leaves next week for Galveston, where she will serve as typist in the Engineering office of the War Department... but they congratulate her on her better job and better opportunity... 'Tis said the scarcity of young men due to the draft, is already having its effect on those left at home. Their sudden popularity seems to be going to their heads—if any.

Mrs. W. E. Sikes is visiting her daughter, Mrs. Preston Strasser and family in Bakersfield, California.

OLDSMOBILE DEALERSHIP

OFFERS UNUSUAL OPPORTUNITY TO ESTABLISH
A PERMANENT PROFITABLE BUSINESS OF YOUR OWN

OLDSMOBILE

TAKE a look at the record! Oldsmobile sales have doubled since 1938. That means Oldsmobile dealers are making money—and should continue to show a substantial profit in the years to come. Right now, Oldsmobile has an opening for a new dealer in this town. Oldsmobile's broad line of cars—including three Sixes and three Eights, covering the low-price field, the popular-price range, and the lower-medium price market—gives you an opportunity to sell practically every automobile buyer in town. Actual experience in the automobile business is not necessary. What is more essential is a demonstrable record in general business, plus the financial ability to invest a modest amount of capital. Investigate this opportunity. Wire or write to the address below. The strictest confidence will be observed.

Whooping Cough Dangers Told

What causes whooping cough? Bad weather guesses the man in the street, for the disease seems more common in the early Spring with its changeable weather.

No, answers the scientist, it's caused by microbes, for whooping cough is a communicable (catching) disease.

Microbes plus carelessness, insists the health officer who knows that parents carelessly allow sick children to give the disease to others.

Of the diseases with which health officials have to deal, whooping cough is one of the hardest to control. Why? you ask. It is highly contagious. It is catching during the week or ten days before it can be recognized by the "whoop." Even then a physician sometimes is not called. Often children are allowed to play with others when they are known to be sick.

What are the facts? Whooping cough may be very dangerous. It causes more deaths than scarlet fever, and nearly all the deaths occur among babies and tiny children under three or four years of age. It goes especially hard with delicate children.

It is spread from one child to another, takes from nine to twelve days to develop, and remains infectious for at least four weeks after symptoms begin.

Whooping cough begins much like an ordinary cold, with a dry cough and running nose. The cough becomes more persistent and shows a tendency to occur in "spells." If, after one or two weeks, the cough becomes worse, especially at night, and vomiting follows spasms of coughing, one may look for the "whoop," an indrawn gasping breath with a scraping or crowing sound.

Do everything you can to protect children from whooping cough. Keep them away from playmates who cough or appear to have colds, especially when whooping cough is prevalent. Teach children not to put into the mouth things that others have handled. See that little hands are well scrubbed with soap and water before meals.

The doctor can do much to relieve the patient's distress if treatment is begun early. He will advise you about diet, rest, exercise, and fresh air for the youngster.

Whooping cough may leave the patient run down and subject to other diseases. Have the doctor give your child a thorough going over when he has recovered. Health examinations should be continued each year.

Since there are now a number of cases of whooping cough in this county, all parents who have children with this disease should cooperate in an effort to protect others from catching it.

Still Is Re-elected At Wells School

Hamilton Still, superintendent of the Wells school, was recently re-elected to that position, according to citizens of that community. He has served five terms already as superintendent of this school.

Mr. Still was formerly from Garza county and is a graduate of the Texas Technological college. He is highly appreciated by the students and ex-students of the Wells school as a teacher and a gentleman, people of the community say, and in addition to his school room duties, he is also scoutmaster of the Boy Scout troop No. 101 at Wells.

Formby Head Of Rural Aid Body

A young West Texan who used to walk nearly three miles to a three-teacher country school has been named Chairman of the highly important committee in the Texas Senate to handle the \$16,000,000 Rural Aid bill for 1942 and 1943. Senator Marshall Formby of McAdoo, of this senatorial district, is Chairman of the five-member subcommittee which will handle the bill in the Senate to dish out about \$8,000,000 per year for the next two-year period.

Senator A. M. Aiken, Jr. of Paris, also appointed on this Committee Senators Clem Fain of Livingston, Claude Isbell of Rockwall, Vernon Lemens of Waxahachie, and R. C. Lanning of Jacksboro.

It is reported that all appropriation bills will be passed out of the Senate almost two months earlier than usual this year. The appropriations for the Judiciary already are ready for passage in the Senate.

The date has passed for introduction of bills in the 47th Legislature without special permission. The remainder of the session will be taken up with consideration of the bills already introduced. More than 200 bills have been introduced in the Senate, and more than 600 bills in the House.

WAYSIDE H. D. CLUB STUDIES TEXTILES

"In buying textiles a label should give in detail the construction of the material," stated Miss Maurine McNatt, home demonstration agent, when the Wayside Home Demonstration Club met in the home of Mrs. Doris Lee February 27, with nine members present.

"To say a material is 95% or 100% wool isn't definite enough because it should tell what kind of wool is used.

"New wool is usually called virgin wool, but old wool which has been woven and dyed over and over is shoddy. The government will permit a manufacturer to substitute 10% metallic substance or cotton in any color other than black before it has to state 'weighted' on the label. Fifteen per cent of other material.

"A vat-dyed piece of material is the best silk on the market. Pure dye doesn't mean all silk but indicates that pure dye was used. Celanese and Bemberg do not tell what the material is made of but how to care for it."

The club will meet with Mrs. Levitt March 13.—Reporter.

Mrs. R. B. Floyd returned Saturday afternoon from a week's visit with her daughter, Mrs. Floyd Walters and family at Levelland.

Girls Are Advised To Build-Up For Relief

Lack of knowledge causes many a weak, undernourished girl a lot of suffering!

Many others, however, know how the headaches, nervousness, cramp-like pain of functional dysmenorrhea due to malnutrition are helped by the proper use of CARDUI.

Some take it a few days before and during "the time," to help ease periodic distress. But CARDUI's principal use is to help increase appetite; stimulate the flow of gastric juice; so aid digestion, assist in building up physical resistance and thus help reduce periodical distress. Women have used CARDUI for over 50 years.

No—We didn't call the FIREMEN to come put out our RED HOT PRICES that we have on our groceries this week-end— But somebody may call the POLICE to take us to the BUG HOUSE for selling our groceries at such unheard of LOW PRICES—OR we may call out both Departments to come to our rescue with so many people rushing our store to get first choice of the many FOOD VALUES listed below.

Advertising Rates on Application

NOTICE TO THE PUBLIC
Any erroneous reflection upon the reputation or standing of any individual, firm or corporation, that may appear in the columns of The News will be gladly corrected when called to our attention.

We believe that the people in this part of the country are getting fed up on the long-winded speeches and dilatory tactics being employed by Senator Wheeler and a few of his pals in the interest of Herr Hitler et al. Everybody believes in free speech in this country, and the same principle holds good in the United States Senate, but surely that great body has the right to control its procedure to the extent that it may curtail discussion and proceed to vote at any time it may wish to do so on any proposition before that body. We certainly think that the Senate would command more respect among the people of this country if it would show to the world that it can and will shut off the wind-jammers as occasion may demand and proceed with its legislation.

Strikes being staged by labor unions in the big plants which have contracts for the manufacture of National Defense armament and munitions smack of disloyalty. Bills pending in congress to outlaw them should be passed promptly. The claim is made by some that the strikes are justified by reason of the fact that the owners of the plants are reaping enormous profits. If that is so, somebody representing the Government has been lax or possibly buncoed in the making of contracts. And if so the matter should be investigated and the contracts rescinded if the facts should justify such action. But there should be no strikes allowed that may hold up the completion of national defense contracts.

If there are any big industrial concerns in this country that are profiteering off the government at this time of stress, as has been intimated, by reason of fraudulent misrepresentations or other sharp practices, they should be exposed and their contracts canceled. In fact that should be done in such case at any time. Any person who will deliberately cheat or defraud his government at any time is made up of the same kind of stuff that traitors are made of and should be punished.

Members of labor unions in this country who are staging or fomenting strikes are as a rule persons who are tintured more or less with communism or some other foreign ism, and yet if they were employed in Russia or Germany and should stage a strike against Stalin or Hitler they would get shot so quick that they would think that lightning had struck them. This kind of cattle ought to have to live in Russia or Germany for about five years; they might then come back to this country better Americans.

For brooder house sanitation disinfect before the chicks arrive with Dr. Salsbury's DIP-SAL. Past, efficient, 4 times as strong as pure carbolic acid.

WYNNE COLLIER, Druggist

"Build-Up" Good News For Suffering Women

Much of women's periodic distress may be unnecessary!

Many who suffer from headaches, nervousness, cramp-like pain, other symptoms of functional dysmenorrhea due to malnutrition are helped by CARDUI.

Main way it helps relieve periodic distress is by increasing appetite and flow of gastric juice. Thus it often aids digestion; helps build strength, energy, resistance to periodic disturbances.

Others find help for periodic discomfort this way: Start a few days before and take CARDUI until "the time" has passed. Women have used CARDUI more than 50 years.

ADVERTISING RATES

Troup Banner: The weekly newspaper editor gets quite a thrill out of reading the rates paid for advertising in some of the larger publications of the country. It seems like the answer to an editor's prayer. A page advertisement in the New York Daily News costs, according to report, \$2,400, in the Detroit News \$1,205, in the Saturday Evening Post in black ink \$8,000 or in color \$15,000. Life receives for a page \$5,700 and for the back covers in color \$10,545.

State Press in The Dallas Morning News: Advertising pays, even at the prices above quoted. If it were not for advertising, most newspapers would be organs politicians or servants of special interests, as in many parts of Europe today. Advertising revenue enables the publisher to own his business and his opinions, free of direction or compulsion from outside authority. Furthermore, advertising revenue enables the publisher to sell his paper at a lower price to subscribers. This puts the product into the hands of the people and it is the people who are informed, educated and entertained by the press. Moreover, advertising rates have to be adjusted to the quality of the publication. If the quality is not high, it commands a lower subscription rate and a lower advertising rate. Sometimes the quality becomes so poor the publication loses its advertising and then has nothing to fall back on for support. Even the national magazines which have to charge high rates for their space sometimes fail. The cost of magazine manufacture and distribution is very high. Indeed, the cost of any high-quality publication always runs close to the revenue derived.

JUST A PESSIMISTIC WAIL
Author Unknown

I came back to Lynn county in Nineteen and twenty, where it rains once a year and sand-storms aplenty.

I bought me some three-quart cows, as I had heard that dairying pays; but they'd only give a quart every three days.

So I bought me some white hens and crossed them up with fleas, and it wasn't very long until you could not hear the chickens sneeze. So I doctored with everything in despair, as the fleas wouldn't flee but stayed right there.

So if you make a bum crop you needn't shed any tears, for you'll make a bumper about every twenty years.

Ed. Note: The author of this literary gem was so tarnally pessimistic that he wrote at the close these foreboding words, "Doomed for the waste basket." And here it is right here in the paper.

CARD OF THANKS . . .

We wish to thank our friends for the many kindnesses shown us during the recent illness and upon the death of our loved one, Mr. Dye's mother, expressed in words and deeds and flowers. We greatly appreciate these tokens of sympathy and friendliness.—Mr. and Mrs. J. E. Dye.

Mrs. Dayton Short of Draw accompanied by her mother, Mrs. T. G. Dulin of Wayside, went to Dallas recently to bring home the little daughter of the former, who had been receiving treatment in Scottish Rite Hospital there. While there they enjoyed a visit with Mrs. Dulin's other daughter, Mrs. Naomi Tadlock of Houston.

Tillie McGuirk will return to Roswell, New Mexico this weekend after spending two weeks here at the home of his brother and wife, Mr. and Mrs. Gail McGuirk, recuperating from an appendectomy.

Miss Madeline Russell of West Texas State College visited her mother, Mrs. Essie Russell, and her sister, Joyce, Sunday.

Connally Favors Lease-Lend Bill

Senator Tom Connally in his speech in the Senate last week in favor of the Lease-Lend bill, called upon Congress to present a united front to those who would destroy democracy and free government, and a united front to those who are rallying and defending and fighting for their lives and for free governments.

Speaking as a majority representative of the powerful Foreign Relations Committee, Senator Connally said, "Powerful and militant forces now arrogantly decree the extinction of freedom and democracy wherever their armies of conquest and plunder can march, wherever their swarming fleets of the skies can fly.

"The dictators, Hitler and Mussolini, and their totalitarian governments, after conquering peaceful and neutral nations in Europe and enslaving their people, whose only crime was that they had possessions and they had freedom, have proclaimed their determination to establish a "new world order".

"The dictators speak of democracy and free government with scorn and arrogant contempt. That attitude reflects what they will do when and if they feel their arms strong enough to reach into the western world.

"Great Britain, with superb gallantry, is pouring out the blood not alone of her soldiery but of her civilian population in stemming the tide of world dominion and establishment of a new world order.

"The pending bill proposes to furnish supplies and munitions but not men, to Great Britain, and the other free governments which are resisting the aggressors".

Senator Connally in analyzing the bill disapproved the contention that the bill establishes a dictator. He pointed out that the bill (1) does not deprive any citizen of any of his American liberties, (2) it limits the actions of the President to defend the national defense of the United States, (3) it continues the control of the purse in the hands of Congress, and (4) it sets the termination date of the bill on June 30, 1943, or sooner if Congress so desires.

"We cannot be indifferent to the fate of other nations," continued Connally, "Every time a free nation goes down in ruins the repercussions cross the ocean and beat upon our own shores. Every time liberty in a nation is destroyed it weakens the fabric and the ability of every other free government to advance democracy and defend itself. I hope Senators by supporting the bill will present a united front to those who would destroy democracy and free government".

Everett Dale of Dallas visited his parents, Rev. and Mrs. Geo. A. Dale, here during the week-end. Mr. and Mrs. Troy Dale, and daughter Suzanne, Mr. and Mrs. George T. Dale, and Mr. and Mrs. G. R. Kennedy and little daughter Dorothy Dale, all of Lubbock, also visited in the Dale home here Sunday.

N. C. Parker left Sunday for Los Angeles, California, on a combined business and pleasure trip.

J. L. Brooks of the Standard Auto Parts Co. underwent an operation for an abscess on the head just back of the right ear in the Plains Hospital Sunday morning. He was able to return to Tahoka and to be back in his place of business here Tuesday.

Fred Barker of Levelland was here Monday visiting friends. He was for many years with the First National Bank of Tahoka but is now associated with a similar institution at Levelland.

CANADA'S PRIDE
Buckley's "Canadiol" Mixture

By far the largest selling cough medicine—in all wintry Canada. Take a couple of doses—feel its quick, powerful, effective action spread thru throat, head and bronchial tubes. Acts like a flash on coughs due to colds or bronchial irritations. On sale here at any good drug store so get Buckley's CANADIOL Mixture today. Over 10 million bottles sold.

TAHOKA DRUG

IT'S EASY TO SEE WHY

Phillips 66

STARTS

cold motors faster

You Don't Have To Be a College Graduate to understand why Phillips 66 Poly Gas starts cold motors faster. It's as simple as ABC.

- A. It is a scientific fact that quick starting in cold weather depends directly on the high test (volatility) of the gasoline.
- B. It is a scientific fact (revealed by our latest available full-year study of gasolines; June 1, 1939 to May 31, 1940) that:
The HIGH TEST rating (Volatility Number) of Phillips 66 Poly Gas is nearly 50% higher than the average high test rating of 19 premium price motor fuels.
- C. See for yourself, if Phillips 66 isn't the greatest self-demonstrating cold-weather gasoline you have ever used. You ought to get at least one trial tankful at regular-price because you simply cannot get such high test in any other gasoline at any price.

This extra high test costs you not a single penny extra, since Phillips is the WORLD'S LARGEST PRODUCER of natural high test gasoline.

Drive in and get that trial tankful at the first Orange and Black 66 Shield.

Miss Beverly Wells Married To W. G. McKnight Thursday

O'DONNELL, Texas, (Special)—Marriage rites for Miss Beverly Wells and Mr. W. G. McKnight of Corpus Christi were read by the Rev. J. H. Crawford of Seminole Thursday night Feb. 27 at 8 o'clock in the First Methodist church in the presence of invited guests. Immediately after the ceremony the couple left for South Texas on a short honeymoon trip.

The bride was given in marriage by her father, E. T. Wells.

Mr. J. L. Adams of Lubbock served as best man and Mrs. Adams, sister of the bride, was matron of honor.

Bridesmaids were Claire Ruth Nichols, Thelma Palmer, Toyler McClinton of Lamesa, Mrs. Harvie Jordan, Mrs. Gilbert Lamb of Abilene and Mrs. Paye Westmoreland. Ushers were Charles Cathey, Sumner Clayton, George Claud Wells of Tahoka, M. J. Whitsett, S. F. Johnson and Harvie Jordan.

Mrs. A. W. Gibbs played both special music and as accompanist to Miss Florence Gary who sang "I Love You Truly." Miss Gary and Mrs. Pauline Campbell were candle-lighters.

Mrs. McKnight was dressed in a gown of satin and lace, and conformed to custom by wearing "something old, something new, something borrowed and something blue." Bridesmaids wore gowns of pastel shades.

A reception was given for members of the bridal party following the ceremony at which a number of friends were also invited.

Guests witnessing the ceremony included relatives and friends of the family from Lamesa, Abilene, Brownfield, Tahoka, Plainview and Lubbock.

The couple are to make their home in Corpus Christi where Mr. McKnight is superintendent of construction in the Navy Yards. Mrs. McKnight has served as secretary of the O'Donnell School Board for the past several years.

South Plains Boxing Tournament Held Here Proves Successful

MISS GARMS' BROTHER IS BASEBALL STAR

Shown above are Debs Garms, Mrs. Garms and their son, of Sunset, Texas, while the young lady is Miss Ruth Garms, popular teacher in the Wilson public schools and sister of the famous baseball player with the Pittsburgh Pirates.

Debs has been dubbed the "Sultan of Swat" by sports writers during the 1940 season.

Debs left last Saturday for San Bernardino, Calif., to enter the Pirates spring training camp.

(Cuts courtesy of Wilson Sun)

Sunday School Teacher: Johnny, why don't you believe Jonah was inside the whale for three days and three nights?

Johnny: Cause he didn't bring back and movie travel pictures of it.

He: "I'm thinking of asking some girl to marry me. What do you think of the idea?"

She: "It's a great idea, if you ask me."

Von Roeder Tells Crop Experiments

Nolan C. Von Roeder, who is making quite a success as a producer of a strain of cotton seed particularly adapted to the soil and climatic conditions in West Texas, on his farm of several sections down in Borden county near the Colorado River, was a business visitor here Monday and made a pleasant call at the News office.

Mr. Von Roeder is featuring the raising of a breed of cotton which he calls the Western Prolific and he had 1800 acres in this strain of cotton last year. He also had a few acres in other strains. His cotton farm down there, at any time after the plant is up, is really something to look at.

Mr. Von Roeder also has an orchard of peaches and plums consisting of 67 acres, from which he produced 3200 bushels of peaches last year.

He confesses, however, that peaches are not a very sure crop and that the plums are not always of the best quality.

But an orchard of 67 acres out in the Windy West—no, we meant the Golden West—is sumpin'.

FRITZ SPECKMAN IS HONORED ON BIRTHDAY

On March 2 friends of Mr. and Mrs. Fritz Speckman enjoyed a picnic style dinner in honor of Mr. Speckman's birthday.

Friends of the Lakeview community who called were: Mr. and Mrs. John Timmons and family, Mr. and Mrs. Bill Timmons and family, Mr. and Mrs. E. E. McManis and daughter, Alma Lee, John Cunningham, Mr and Mrs. Godfrey and son, Mr. and Mrs. Murray Parker and family and Mrs. P. H. Stagg, Mr. and Mrs. A. C. Fillingim and family, Mr. and Mrs. C. P. O'Bar and family, Mr. and Mrs. Olen Poer, and Mr. and Mrs. L. J. Jeter, and Mr. Freeman.

Friends of New Home community who called were: Mr. and Mrs. P. H. Renfro and Mrs. Jack Hale and family.

Mr. and Mrs. Edwin Ehler and family from Wilson and Mr. and Mrs. V. J. Farris from Shallowater also visited.

Mr. and Mrs. Speckman's daughters, one from Lubbock and one from Portales, and Miss Lucy Keck of Lubbock were there to spend the day. Their small daughter, Odeane, who attends school at New Home, also enjoyed the dinner.

A recent study shows that ten cows producing 300 pounds of fat annually makes as much profit as eighteen 200-pound producers.

TAHOKA DRUG

G. Pendleton of T-Bar, while Bartley had won a technical kayo from A. J. Minor of Tahoka.

Tuesday Night

Flyweight: District Golden Gloves Champion LaVern Roach of Plainview decided Sport Pendleton of T-Bar in the finals. Pendleton gave the classy Hale county lad plenty of trouble with his weaving and ducking that kept Roach's right-hand thunder from connecting. But Roach kept piling up points with his left, and there was no doubt at all about the decision.

Featherweight: District Golden Gloves Champion Buford Bradshaw of Littlefield carried not at all in winning his final match with Ted Shaekiwitz of Texas Tech, stopping the collegian with a first round right-hand shot that laid him low midway in the round.

Lightweight: Another district Golden Gloves winner, Alvin McCarty of Littlefield, won in this weight by a second round technical knockout of J. R. "Rooster" Gilbert of Lubbock. The first round was very close, with the boys swapping punches on even terms.

Middleweight: Tom Douglas, Texas Tech football fullback, got the worst end of it from Jim Bob Curry of Tahoka for a minute and a half of the first round, but then he seemed to tire of that old foolishness and put away the home town boy with a hard right to the head.

Light Heavyweight: Jesse Ramsey of Littlefield added the South Plains title to his District Gloves crown by flattening Sproles of Wilson in the second.

Heavyweight: Joe Albright of Texas Tech won by default.

Bantamweight: The next to the last fight of the evening featured Tahoka's favorite, G. W. White, and Slaton's R. C. Brackeen. Though the scrap was close, there was no doubt about the winner, G. W. White.

Welterweight: Junior "Tech" McLaurin of O'Donnell decisively defeated his old foe, Dale Odum, Lubbock high quarterback, in a scrap that kept the crowd on its feet from start to finish.

This was the last fight of the tournament.

Mattresses made in Cherokee county under the 1940 cotton mattress demonstration program totaled 2,140.

Landscaping Of City Park Starts

O'DONNELL, March 6. (Sp.)—Preparations for the landscaping of the proposed city park here northwest of town are now underway, and all fences and buildings formerly on the property are being removed.

While the park plan of beautification has been decided upon, work will proceed in a gradual manner in order to "get the most for the money," so said B. M. Haymes, Rotary club president, Thursday.

The finance committee, made up of Rotary club members, are now working on plans of financing necessary expenses.

Mr. and Mrs. J. J. Waldrep of Wells returned Sunday from a visit of a few days with Mr. and Mrs. R. H. Turner at Uvalde. They reported that Mr. Turner is enjoying better health than he had here through the fall and that they are doing just fine. Lots of rain all the way.

A Negro woman applied for relief in Florida during last winter's cold spell.

"Have you any children?" asked the investigator.

"Yes, sah, Ah's got foah."

"How old are they?"

"Well, now, let's see—Ah's got one lap child, one creeper, one porch chile, and one yard young'un."

Hubby: "I'm going to ask you a riddle. What makes my life miserable?"

Wife: "You've got me."

Hubby: "That's right."

Odds and Ends *See Eye, the Elder*

Greece, glorious Greece, famed for her ancient philosophy, literature, and art, whose heroes and statesmen and poets have been immortalized in story and song, a land of mountains and valleys and crags of inlets and islands and bold promontories, a land of great scenic beauty—Greece is now to become a land of carnage unless she yields to the demands of the vulture Mussolini, at the behest of the big bully of the North. Hitler's hordes are on the march.

About mid-way up the eastern shore-line of Greece, stands lofty Mount Olympus, fabled home of the gods, overlooking the fruitful land and the placid sea. Nearly ten thousand feet she rises above the waters of the Aegean to the east. Her summit for many months in the year enshrouded in snow.

Here the earlier generations of the ancient Greeks believed that their chief god Zeus, known as Jupiter in Roman mythology, and all the other major gods of the Grecians had their abode. Here from his lofty throne Zeus watched over the affairs of men, and here in his mo-

ments of anger, he hurled forth his mighty thunderbolts. But Zeus, or Jupiter, shared his power with others. As he became the god of the land, so Neptune became the god of the sea, and to Pluto fell the lot of presiding over Hades, the underworld, the realm of the dead.

The Greeks had no conception of one great Supreme Being who created the heavens and the earth and ruled the universe. On the other hand, they had innumerable gods—imaginary, of course—and clothed them with human passions and frailties. Jealousy and hatred and even immorality characterized many of them. There was constant bickering and quarreling and intrigue among the fancied inhabitants of the humanly inaccessible summits of Mount Olympus.

They even married and produced offspring, just as human beings do, and in their love affairs, they seemed to have even more "triangle" troubles than human beings have. Their doings at times would have shamed a Hollywood. A god became jealous of his goddess wife, or may be it was the other way around, and the intriguing and the trickery that followed made many a thrilling story.

It may be that the husband and the wife "fell out and fit" and "cussed" each other in lurid terms on occasion; and it may be that they sometimes got "teased up" a bit, for we still read of "wine fit for the gods".

But there is one human weakness that we never heard attributed to any of the gods: We have never heard of their women folks smoking cigarettes nor of the men folks throwing their cigarette stubs on the floor nor spitting tobacco juice on the sidewalk. We have never even heard of their filling their spittoons with a mixture of cigar stubs and "amber" juice. They at least seemed to be neater in their habits than most of us human beings are.

Zeus' first wife was Metis, goddess of wisdom; but fearing that their expected child would become wiser than its father, Zeus swallowed his wife alive to prevent such a catastrophe. But the scheme didn't work, for from the head of Zeus sprang the goddess Athena, full grown. She is known as Minerva in Roman lore. In her honor the Greeks named their most sacred city, Athens. It became the seat of wisdom and learning and philosophy, and it is still the capital of Greece, Beautiful Athens.

Bible readers will remember that when Paul, the great Apostle to the Gentiles, came to Athens on his second missionary journey, he found the city filled with idols representing every god and goddess that the fertile imagination of the Grecian mind could conjure up, and on one altar he found the inscription To The Unknown God. Thereupon he began to preach to them the truth about this "Unknown God", the Creator and Ruler of the Universe, to whom all men are responsible, and to tell them about the Christ, who had come to earth as the Savior of men.

But he made little impression on those idol-worshippers, who had peopled the heavens with little gods as numerous as the stars that shone above them.

After Zeus had made way with Metis, his first wife, he married Hera, the Roman Juno, queen of heaven. He did not stop even there. He became a polygamist, with many many wives. One of these was Leto, and to her and Zeus (Jupiter) twins were born, Apollo and Diana, a boy and a girl.

Apollo became the god of light and purity and manly strength. He was one of the most popular of the Grecian gods. His temples were built in many places. The Colossus of Rhodes is reputed to have been built in his honor, and was listed as one of the seven wonders of the world, being a huge bronze figure of the god standing astride the harbor of Rhodes—Rhodes being one of the larger islands in the Aegean Sea.

Apollo's twin sister, Diana, was the goddess of the hunt, and she is often represented as wearing a crescent and armed with a bow and arrows. Many temples were built throughout the Grecian world in her honor, the magnificent Temple of Diana in Ephesus being listed as another of the Seven Wonders of the ancient world.

Bible readers will also remember that when Paul came to Ephesus in Asia Minor—now Turkey—on one of his missionary journeys, he found the people given almost wholly to the worship of Diana. There was a

certain silversmith there, Demetrius by name, who had many craftsmen employed in making shrines which he sold to the worshippers of this goddess, and thus he had become prosperous.

After Paul had been preaching there a couple of years, Demetrius discovered that his business was gradually falling off. A little investigation convinced him that the strange doctrine which Paul and his associates had been preaching in Ephesus and the towns round about was responsible for his slump in business, and he decided that something must be done about it.

And so he called a meeting of his employees and others engaged in the same craft—it must have been a sort of ancient labor union—and he laid the whole matter before them. He soon worked them up into a state of great frenzy and sent them out to arouse the city. "Great is Diana of the Ephesians" is the shout that they raised as they paraded the streets and sought for Paul and his associates. They finally caught two of Paul's companions and rushed them into the theatre, where a great crowd immediately assembled. In their confusion and excitement, some cried one thing and some another, and there was a terrific uproar. Paul himself tried to rush into the theatre to the assistance of his companions but friends caught him and would not permit him to enter, fearing for his life.

Finally, some friendly Jews, put Alexander up to speak to the frenzied mob, who quieted them by the beckoning of his hand, but when he attempted to speak they discovered that he too was a Jew and pandemonium broke loose again. They yelled and shouted their Diana stuff for two full hours longer and were quieted again only when the city

clerk arrived and elbowed his way to the platform.

After gaining their attention, he admonished them tactfully to keep their shirts on, reminded them that these men who were the objects of their wrath had violated no law, and warned them that the great Roman Government of which they were subjects was likely to hale them into court for their conduct. Having put the fear of Rome into their hearts he dismissed the crowd and they went slinking out of the theatre.

But that man Demetrius had proved that he was a great labor leader and rabble rouser. We think that our own John L. Lewis must have taken lessons from him.

Greece long ago junked her ancient gods and has become nominally a Christian nation. The Grecians for the most part are members of the Grecian Orthodox Church. The old Grecian colonies in Asia Minor, however, long ago came under the sway of the Terrible Turk, and the Turks are fanatical Mohammedans. Now Hitler, who believes in no religion except that which bears the insignia of the Swastika, is planning to put his heel on both Greece and Turkey, and the Lord only knows what will happen next.

Mrs. E. D. Crouch is recovering at home from recent surgery at a Temple Hospital. Mrs. Crouch was accompanied to that city by her husband and little son and her sister, Mrs. C. H. Jackson of Post.

Two good mixers are better than one

THERE you sit, watching the long road ahead as it dips and rises.

Under your feet there's a quiet whispering, to let you know that all eight able Buick cylinders are happily on the job.

You're giving not a single thought to what's happening under that long bonnet nosing out in front, but here's what's going on:

Instead of the single, compromise-size carburetor you find on most cars, this Buick FIREBALL eight with Compound Carburetion* has two good mixers on the job.

A single one of them—the front one—keeps

you rolling smoothly, easily, quietly, on the very minimum rationing of gasoline.

But the other carburetor is alert and ready for any sudden need. Just tramp down on that accelerator pedal—it goes into instant action, giving you more fuel and more power for any emergency purpose!

It's almost like having two engines—one to handle normal requirements thriftily, another to team up with the first for extra oomph and wallop when you want it.

That kind of teamwork pays.

And owners by the thousand will tell you it's more economical too—as much as 10% to 15% more economical.

If you haven't experienced what it feels like to have that under the bonnet of your automobile, better go have that Buick demonstration now.

*Standard on all Buick SUPER, CENTURY, ROADMASTER and LIMITED models, available at slight extra cost on all Buick SPECIAL models.

Filled Salmon Loaf

Broadcast by Mary Lee Taylor
February 27, 1941

1/2 cup rice
6 cups boiling water
2 1/2 teaspoons salt
2 cups flaked salmon, cooked or canned (1-lb. can)
1 1/2 cups Pet Milk
1/4 teaspoon pepper

2 tablespoons finely cut onion
2 tablespoons butter or other shortening
2 1/2 cups drained peas, cooked or canned (No. 3 can)

Wash and drain rice. Boil 30 minutes, or until tender in 6 cups boiling water and 1 1/2 teaspoons salt. Drain and rinse with hot water. Grease a loaf pan measuring about 8 x 4 x 3 inches deep. While rice cooks, mix together thoroughly the salmon, 1/2 cup milk, 1/4 teaspoon salt and 1/4 teaspoon pepper. Reserve 1/4 of mixture. With back of spoon press larger amount of salmon mixture on bottom and sides of greased loaf pan. Let stand. Cook onion and shortening together for 5 minutes. Add cooked rice, remaining 1/2 cup milk, 1/4 teaspoon salt and 1/4 teaspoon pepper. Cook rice mixture slowly about 5 minutes, or until milk is absorbed. Remove from heat, fold in drained peas. Put in salmon-lined pan. Cover with remaining salmon mixture, spreading evenly. Bake in moderately slow oven (350°F.) about 40 minutes, or until firm. Remove from oven, let stand 5 minutes before turning out. Serve with mushroom sauce. Serves 6.

Spring Time Is Landscaping Time

Spring time is landscaping time. Have you made your plans yet? The tenant purchase families in Lynn County are making their plans now. You don't have to have an expert to do your landscaping. You can do many things yourself. You can

begin by cleaning the yard and surroundings; make the necessary repairs on the fences, gates, doorsteps and screens; level the yard to prevent low places when water stands; and dispose of unsightly appearances.

Then you are ready to begin the beautification part. The beauty of shrubbery and flowers can not be fully appreciated when the surroundings are not attractive.

Lynn County is handicapped by the water supply, but there are some flowers and shrubs that grow well here. Attractive cannas, sunflowers, zinnias and marigolds have been grown here. Privets, euonymus, bird-of-paradise, and barberry are shrubs which came from seed and grow well here. Decide what flowers and shrubs you want and make arrangements to do your landscaping soon. The three general things to remember in planning your landscaping or the location of shrubs are convenience, comfort, and beauty.

Mr. and Mrs. L. M. Conwill visited in Lueders Sunday, meeting relatives there for a brief visit.

HARLEY HENDERSON

National Defense Is School Problem, Too

By W. T. Hanes
Superintendent of Schools
(Editor Note: The following three articles Mr. Hanes is writing for The News on gleanings from his recent trip to Atlantic City, educational trends, the place of the school in national defense, etc. Our readers should find his articles of great interest.)

The statement, "I'm proud to be an American", has meant more to all of us during the past several months than probably at any other time in our lives.

It means infinitely more to me now than it did a short two weeks ago. I travelled some 4000 miles with 300 school men from all parts of Texas to the National convention of school administrators which met in Atlantic City, New Jersey. At Atlantic City we spent several days in convention with 15,000 school administrators from all parts of the United States.

After that association, one would have to be very helpless indeed if he did not receive inspiration, pep, imagination, and a determination to be a worthy member of his profession. Space will only permit a glimpse at what, to me, were the high lights of the meeting.

The theme of the convention was: To Provide for the Common Defense, to Promote the General Welfare, To Secure the Blessings of Liberty.

"We the people of the United States, in order to form a more perfect Union, establish justice, insure domestic tranquillity, provide for the common defense, promote the general welfare, and secure the blessings of liberty, to ourselves and our posterity, do ordain and establish this constitution for the United States of America."

In times such as these it is well for educational leaders to reconsider the role of education in promoting national security. The safety of America lies not alone in formidable armaments. Back of the tanks and the guns there must stand a people united—not only for war—but also for the continuous improvement of our American Democracy.

What the schools can do for these most fundamental aspects of national security was the primary theme of the 1941 convention. Just what is it that we wish to defend in America? Again and again through out the convention this question was asked and answered. It is a set of ideals and traditions. It is our natural resources, property, economic wealth. It is the safety and happiness of those who now live under the Stars and Stripes. But, more than all of these, it is the protection—today, tomorrow, and forever—of an American Democratic way of life.

Recent events throughout the world received attention. Frequent reference was made of the destruction of liberty among the peoples of many nations. The substitution for liberty of force, persecution, and hatred has given new meaning to Patrick Henry's famous exclamation "Give me liberty or give me death". Through sharing the loss of liberty abroad, we have come to a better appreciation of the liberties which we have long enjoyed. But liberty carries with it obligations as well as opportunities. These were frequently mentioned in convention discussions.

Education must help children and youth appreciate the significance of liberty. Education must help young people to use their liberty without trespassing unfairly upon the liberty of others. Education must help youth build communities wherein liberty exists as an integral part of the American way of life.

To neglect education at this time would be economic folly. Such neglect would be equally foolish from the angle of morals because: "One of the greatest contributions America

can make to the world in this dark hour is HOPE.

We are the land of the American dream. Our fathers from generation to generation have been fired with the dream of a land wherein life shall be richer, and better, with opportunity for every person. For us to lose that faith now would be to extinguish one of the last beacons in our darkening world. Youth MUST be made to feel there is a tomorrow worth working for."

The Association gives whole-hearted approval to the policy of the United States Government in furnishing to those nations which are now resisting the ruthless aggressions of totalitarian nations, the fullest material assistance consistent with our own ultimate safety.

MRS. ELLA DAVIS HAS VISITORS

Sunday visitors in Mrs. Ella Davis' home included her daughter, Mrs. Alta Boswell and daughters of Dallas, Mr. and Mrs. E. B. Gaither and family of Tahoka, Mr. and Mrs. John Howard and son Gene of Brownfield, Mr. and Mrs. Henry Miller and Tom B. Davis of Seagraves, Mr. and Mrs. George Whitley of Gomez, O. M. Davidson, Mr. and Mrs. Jack Parnell of Santa Ana, Calif., Jimmie Ray McMillan, Tahoka, Mrs. Beula Atkins, who lives with her mother, had been visiting in Brownfield but came Saturday afternoon and was present on Sunday, also.

CHILD GUIDANCE CLUB

The Child Guidance Club, in continuing its programs on health, heard Mrs. Jack Welch discuss "Checking Up on Health" and Mrs. P. A. Nowlin discuss "Building Good Health Habits," when they met in the home of Mrs. K. R. Durham Tuesday afternoon.

Attending were Meses. James Clinton, Coy Fielder, E. Roy Edwards, Happy Smith, Welch, Calloway Huffaker, R. H. Gibson, Nowlin, Rollin McCord, Wynne Collier, and Truett Smith.

Mrs. Jack Penton was a guest. Mrs. Craig Tefteller and little son Sammie left Sunday for Los Angeles, California, where her husband is employed and where they expect to reside indefinitely.

Advertising Well Directed, Motto Successful Firm

DETROIT, March 5.—Thirty years of "advertising well directed" are being celebrated by the Campbell-Ewald Company during February, for it was in this month in 1911 that the company was incorporated at Lansing, Michigan.

This anniversary makes this advertising agency the oldest in Detroit, and one of the few agencies in the country to have retained its corporate identity and its directing head for so long a period.

During each of these years the company has had an average yearly billing of more than \$10,000,000, despite the fact that it did not reach an annual billing of a million dollars until many years after it was organized.

Newspapers Good Medium
A large percentage of this money has been spent each year in newspapers, for Mr. H. T. Ewald, the president of the company, is a firm

believer in this medium of advertising.

"Today, the newspaper, one of the oldest mediums of advertising, continues as a truly great and powerful force to sell goods," he states, "and will continue to be a spearhead of most advertising effort as long as it remains a free press".

ACALA COTTONSEED

Ginned exclusively on one gin; cleaned; Ceresan treated; State Certified; Government tested, 92% germination. Approved and handled here by Government Export Program for 2 out of 3 years. Vegetable Laxative Makes Happy Friends

Here's a laxative that usually acts thoroughly as harsher ones but is a gentle persuader for intestines when used this way: A quarter to a half-teaspoonful of spicy, aromatic BLACK-DRAUGHT on your tongue tonight; a drink of water. There's usually time for a good night's rest, with a gentle, thorough action next morning relieving constipation's headaches, biliousness, sour stomach, bad breath.

BLACK-DRAUGHT is a splendid combination of vegetable ingredients, chief of which is an "intestinal tonic-laxative" that helps impart tone to lazy bowel muscles. It's economical. 25 to 40 doses: 25c.

Typifying the prominence of livestock in District 2 of the A. & M. College Extension Service, Hale County 4-H Club boys in 1940 fed and shipped to the Kansas City market 142 calves and 240 lambs. This stock, which a group of the boys accompanied to the stockyards, was valued at about \$16,000. It is estimated that more than 200 calves in several South Plains counties will be concentrated and sent to market in a group in 1941.

New Lynn Lady Buried Sunday

Mrs. Mary Jane Kindrick, 82, resident of the northeast section of Lynn county for twelve years, died in Mercy Hospital, Slaton at 3:10 p. m. Friday following an illness of nine days resulting from a fall in which she had received a broken hip.

Mrs. Kindrick had been making her home with her son, J. W. Kindrick, who has been at New Lynn the past year and who lived near Southland about eleven years previous to moving to Lynn.

Funeral services were held at the New Lynn Methodist Church Sunday, Rev. A. O. Graydon of Lubbock, pastor assisted by Rev. R. T. Peek, Slaton, Assembly of God Church assisting. Burial was in Tahoka cemetery.

The deceased was born in Siloam Springs, Ark., Nov. 15, 1858, and was therefore 82 years, 3 months, and 15 days of age at the time of her death. Her husband, the late Chas. N. Kindrick, died at House, New Mexico, Aug. 2, 1914. To this union were born four daughters and four sons, of whom two daughters and three sons survive. There are also 28 grand children and 12 great grandchildren surviving.

Surviving children are: J. W. Kindrick, Tahoka; Mrs. F. E. Worley, Claremore, Okla.; Sam W. Kindrick, Albuquerque, N. M.; Mrs. Guy N. Shortz, Philadelphia, Penn.; T. W. Kindrick, Kansas City, Mo.; and A. F. Kindrick, Fort Worth, the latter being a step-son.

All these children, except Mrs. Shortz, were present when death came and attended the funeral. Also present were her only surviving sisters, Mrs. W. W. Berry of Gentry, Ark.; and Mrs. E. E. Howell of Albuquerque, N. M.; and brother, I. H. Rainbolt, Hobbs, N. M.

Mrs. Kindrick had spent a long and useful life and was much loved by a host of friends. She was converted in the Christian Church at the age of 22, and after nine years she went into the Methodist Church and remained in that faith until her death, fifty-one years.

Robbery Case . . .

(Continued from Page 1) George made his way to a near-by farm house and got a man to drive him back to Lubbock.

About two hours after the robbery Etzler was arrested in the car by officers at Tulsa.

In the trial here, Etzler's attorney filed an application for a suspension of any sentence that might be imposed and sought to show by the evidence that at the time of the robbery he was suffering from some sort of mental lapse caused from an injury received the day before in an alleged fall from a freight train at Sierra Blanca. Two physicians of that city were placed on the stand by defense counsel to corroborate that theory.

The trial here elicited much interest and large crowds were present throughout the trial.

Nelson and Brown of Lubbock, representing the defendant, had first filed a motion for a change of venue and introduced many witnesses in an effort to show that on account of the general publicity that had been given the case a proper jury could not be obtained in this county. Judge Reed over-ruled this motion, however, and the case went to trial Tuesday, but much time was consumed in procuring a jury.

District Attorney Rollin McCord was assisted by County Attorney Calloway Huffaker in the prosecution.

Miss Christine Wencil recently began work as assistant bookkeeper at the Lyntegar office. She formerly lived at Wilson.

Mother of Mrs. Donaldson Dies

Mrs. Melinda Jane Roberts, about 82, mother of Mrs. Claude Donaldson of this city and a frequent visitor here the past few years, was buried beside the body of her husband, the late Judge J. C. Roberts, in the Crowell cemetery Tuesday morning at 10 o'clock.

Mrs. Roberts had died Sunday night in the home of another daughter, Mrs. M. T. Lincecum, in Altus, Okla., with whom she has made her home the past fifteen years. She was the victim of a stroke on February 7 and had been in a critical condition since.

An old timer in that section, Mrs. Roberts was greatly loved by a host of friends, vast number of whom attended the last rites and brought or sent a great floral offering.

"She was born in Missouri March 29, 1859, and was married to J. C. Roberts at Rosston in Cooke county, Texas, March 18, 1880. Soon afterward, she and her husband moved west to Hardeman, where Mr. Roberts became that county's second county judge. He and his wife helped organize Foard county, and he became that county's first county judge. The Judge died in 1912, but both have long been known as among the prominent people of that section, and there are a number of people in Lynn county now who knew them back in the Crowell section.

She was a kindly lady, and a Christian character, whom, many Tahoka people came to know and love on her visits here.

Besides the two daughters, there were seven surviving sons, 23 grandchildren, four great grandchildren, and a step daughter by her husband's former marriage, and a number of step grandchildren. Several of the latter likewise attended the funeral.

Many friends here deeply sympathize with the Donaldsons and the other bereaved members of the family in the loss of this beloved kinsman.

FAREWELL PARTY GIVEN FOR MISS SHOCKLEY

Mrs. Ray Hickerson was hostess in the home of her parents, Mr. and Mrs. A. H. Raborn, at a farewell party and linen shower for Miss Ona Lee Shockley, who leaves this weekend for Galveston to enter Civil Service, Monday evening.

After the gifts were opened, a salad plate was served to Mesdames Reed Parker, Vernon Davis, Norman Parker; and Misses Ellen Nixon, Earlene Norman, Myriene Cannon, Velma Boyd, Hattie Server, Lorene Reese, Gertrude Bishop, Viola Ellis, the honoree and hostess.

From a very small seed planted indoors about January 1, one can grow within a 12-month period a papaya tree-like plant ten feet in height which may produce 100 or more melon-like fruit.

Teachers Plan District Meet

By Ruby Nell Smith

Faculty members of the Tahoka schools are planning to attend the West Texas Teachers Convention which is scheduled for March 14, 15 at Big Spring, Texas.

Two speakers which appeared on the N. E. A. Convention program recently in Atlantic City have been secured for the West Texas meeting. These speakers are Dr. George S. Counts of Columbia University, New York, and Dr. A. J. Stoddard, Superintendent of City Schools, Philadelphia, and past president of N. E. A. Dr. W. B. Irwin of Lubbock and president of the Texas State Teachers Association will also appear on the program.

Mr. W. T. Hanes, superintendent of Tahoka schools, is secretary of the district executive committee of district four.

The general theme for this annual meeting is "Education for National Security". Convention headquarters will be the Settles Hotel in Big Spring.

There are 3,286 home demonstration club women and 2,578 4-H girls enrolled in 16 counties of Extension Service District 2.

Thin egg shells often are due to absence of enough limestone or oyster shells in the diet.

MINOR MAKING GOOD AT TEXAS UNIVERSITY

From Collier Parris' sport column in the Lubbock Journal:

Blair Cherry has invited Goober Keyes to attend the closing days of the University of Texas spring training session . . . "We've been working on some pretty hot stuff, and I think you can use some of it to advantage," suggests Cherry . . . So The Goob is going to take in the last few days of it . . . Dana Bible, the head man at the Austin school, thinks mighty highly of Max Minor, the former Tahoka High school flash, who has "grewed up" to a 180-pound dynamo and "the best all-round sophomore prospect we have coming up." . . . Max does the hundred in ten flat, wearing football shoes, and is "the best sophomore football prospect I've seen in years," quoting Baldy Bible.
