"I wholly disapprove of what you say but will defend to the death your right to say it."—Voltaire.

Volume XXXVII

Tahoka, Lynn County, Texas, Friday, June 13, 1941.

Number 44

D. F. Draper, 68, Buried Sunday

Funeral services for David Fanning Draper 68, were conducted at the Church of Christ here at 2 o'clock Sunday afternoon, followed by burial in the Tahoka cemetery under the direction of the Harris Funeral Home. The services were conducted by Elder M. V. Showalter, minister for the local congregation.

Mr. Draper died in the Phillips-Dupre Hospital in Levelland at 7:30 o'clock Thursday afternoon, June 5. His body was brought to Tahoka that night by Harris ambulance and prepared for burial. Funeral services were delayed until Sunday, however, awaiting arrival of two sons, James and Weldon, who reside in California.

Mr. Draper had been making his home since early in November with his brother, I. M. Draper, and family a few miles south of Tahoka. He had been in ill health for a number of years and especially for the past few months. Diabetes was the cause of his death.

Mr. Draper was a native of Williamson county, Texas, having been born at Florence on September 28, 1872. There he grew to manhood, and in March 1903, he was married to Miss Beattie Queen at Georgetown. Of this marriage four sons were born, all of whom survive. They are James E. Draper of Richmond, California, Weldon and Jack of Los Angeles, and Foy of McChord Aviation Field, Tacoma Washington. James and Weldon arrived here Saturday night for the funeral services which were to follow.

Two sisters also survive, Mrs. P. N. Robertson of Taylor and Mrs. M. V. Robertson of Fort Worth. I. M. Draper of this county was the only brother.

Early in life Mr. Draper was baptized into the Church of Christ and for some time served as an elder and minister in the church. A splendid tribute was paid to him by Elder Showalter, who conducted funeral services Sunday afternoon. Sick and afflicted since coming to this county, he was not well known here but his brother I. M. Draper and family are among the most widely known and most highly respected families of this section of the state. The deceased himself had spent most of his life at Florence and Georgetown but had also lived in later years in Fort Worth, San Antonio, and Austin.

A large congregation assembled at the Church Sunday afternoon to pay their respects to the good man whose spirit had departed and to the bereaved relatives. Numerous and beautiful were the floral offerings banked about the casket, as evidence of the esteem in which the good man had been held.

Jane Donaldson, daughter of Mr. and Mrs. Claude Donaldson, returned home Tuesday from a few days visit with her friend, Mary Ann Jones, daughter of Mr. and Mrs. V. F. Jones of Amherst.

"The Growl" Wins Highest Award

The Growl, student newspaper of Tahoka High School, has been selected as the most improved high school paper in this section of Texas during the past current school year.

Announcement of the paper's superior rating was made this past week by Mr. Cecil Horne, head of the Journalism school at Texas Technological College.

Selection was made according to the improvement made by the papers from October, 1940 to April, 1941. They were judged on attractive make-up, coverage of news sources, news writing, and headline writing.

The Growl was published by the High School Journalism class under the supervision of Miss Ruby Nell Smith. The staff included Greta Applewhite, editor; Helen Belle Pemberton, associate editor; Jim McDonald, art editor; Gene Brower, business manager, and Lenora Sargent, sports editor.

Schools in the contest other than Tahoka High School were Lamesa, Lubbock, Wilson, Morton, New Deal, Amarillo, and Pampa. The Growl improved 165 points and the next most improved was the Plainview paper with 80 points.

Paving Work Is Near Completion

Work of pouring hot-topping over the caliche base of Tahoka's city paving project has been resumed this week following a long delay caused by the continued rains.

Topping is being placed this week on West North Third Street from the High School east to Main street.

Paving of many new streets the past two years has greatly improved Tahoka's general appearance, and many citizens have expressed the hope that the City can see its way to pave other streets in the near future.

School Funds Were Received Monday

Mrs. Lenore M. Tunnell, county superintendent, reports that another payment of state aid funds in the sum of \$1,005 for the common school districts of Lynn county was received early this week.

This represents the sum of one dollar for each scholastic in these districts. Three additional dollars per pupil are yet to be received, she states.

Fire Truck Followers Given Warning By Chief, Mayor, and City Marshal

The Tahoka Volunteer Fire Department has made plea after plea to people of this city to please not block the streets or follow the fire truck to and from fires.

As stated above this is a volunteer fire department, and when the fire whistle blows it is to notify all firemen that there is a fire, and to notify the public to clear the streets. Instead when the fire whistle blows everybody jumps in their cars and speeds to the fire station congesting all the streets so that firemen are delayed in getting to the fire station, and after they get there the streets are so congested that it is impossible for the fire truck to leave without endangering the lives of the fireboys and spectators. Not only that, but the firemen lose precious minutes getting to the fire, which is gaining momentum every second.

Nearly Run Over
Delayed by congested traffic, several times fireboys have reached the station about one-second after the truck had left the station and in trying to catch the truck have nearly been run over.

Girl Scouts Will Attend Camp

Eighteen, and possibly more, Tahoka Girl Scouts are expecting to spend seven days at the Girl Scout Camp at Mayhill, New Mexico, soon, Mrs. Lloyd Edwards, the new counselor announces. They will leave here about June 21st.

Members of the local troop will make a drive Monday, filling on housewives of Tahoka, for donations of minor camp needs, and the girls will appreciate canned goods or other groceries or anything that housewives might wish to contribute. Many of the girls are also working to help raise the necessary funds to make the trip, it is said.

Mayhill is in the Sacramento Mountains east of Cloudcroft, where Roswell Girl Scouts maintain a large camp consisting of headquarters, bunk houses, library, hospital, and bath houses. The Tahoka girls have been invited to attend, this camp on payment of actual camp operation expenses, which is about 20 cents per day per girl. However, the girls must furnish their groceries, quilts and blankets, transportation, etc. The girls already have a fund to take care of the transportation and possibly some other expenses.

The Tahoka girls will be carried to the camp and chaperoned by Mrs. Lloyd Edwards, Mrs. H. L. Roddy, Mr. and Mrs. A. L. Pace, Happy Smith and Acie Bailey of New Home. George Reid is also sending his car.

Mrs. Edwards states that she has 25 girls in the local Girl Scouts at this time. The committee directing the Scout work is composed of Geo. M. Reid, Mrs. R. P. Weathers, Rev. G. E. Turrentine, Mrs. Era Stewart, and Miss Georgia Taylor.

Wins High Honor

Miss Joe Alice Brooks, daughter of Mr. and Mrs. L. R. Brooks of Tahoka, who recently received her diploma from the school of nursing at the Lubbock Sanitarium and who was awarded the Krueger Prize of \$50.00 as the most capable and efficient nurse of her class, has been offered a number of attractive nursing positions, according to her mother, but has not yet decided whether to accept.

(Continued On Back Page)

Garza-Lynn Singers Will Meet At Midway

Lynn and Garza county singers will meet at Midway, south of Tahoka, Sunday, June 15, beginning at 10:30 a. m. Every one is invited to come, bring a basket lunch and spend the day singing and visiting.

Harrison Davis of Garnolia is president of the organization, and Sue Baker of Post is secretary.

Four More Men Entering Service

Lee Dodson principal of the Tahoka High School, and Harris Frasier, son of Mr. and Mrs. L. F. Frasier, a graduate of the T. H. S., are scheduled to leave here Monday morning for Fort Bliss for training under the Selective Service Act.

Two other young men who registered here but who have transferred to other places are expected to fill Lynn county's quota of four men to fill this call. These are Willie Eugene Scroggins, who has been transferred to Delta county and will be inducted at Cooper, and Willard Wood, who has been transferred to McKinley county, New Mexico, for induction.

At Wednesday noon, questionnaires had been mailed to all registrants up to and including order No. 1163. Mrs. Lois McMahon, clerk for the draft board, stated that she hoped to get 200 additional questionnaires mailed Thursday.

We understand that one of the other high school teachers will substitute for Mr. Dodson during his year's absence and that the position which he leaves will be waiting for him when he returns. He has been a very valuable man in our school system.

Rotarians Hear C. A. Lawrence

Clint Walker was in charge of the Rotary program Thursday.

C. A. Lawrence was a guest speaker for the day. He used only a few minutes, however, explaining briefly the Triple-A program.

Melvin Ratheal, the new educational director at the Baptist Church, was a visitor and led the singing. There were a few other visitors present.

Frank Hill, president elect of the Club, announced a tentative list of the committees for the ensuing year beginning on July 1.

Dr. K. R. Durham, president for the past year, announced that it would be impossible for him to attend the Rotary International Convention in Denver next week, but Frank Hill and Travis Hanes indicated their intention of attending and Charles Townes stated that he might go. The convention will begin on Sunday night and continue through the following Friday.

In discussing the Triple-A program Mr. Lawrence stated that the program was started in 1933 as a crop reduction program while the present program, he explained, is primarily a soil-conservation program.

Under this program, the total sum of approximately \$1,084,000 was paid to the farmers of Lynn county last year, he pointed out. "But the farmer did not keep this money", he stated; "he spent it with the business men; and thus the program not only helps the farmer directly but it helps the business man indirectly."

A number of out-of-town visitors were present.

Gerald Mann Is To Speak Here

Attorney General Gerald Mann, candidate for the United States Senate to fill out the unexpired term of the late lamented Morris Sheppard, will speak in Tahoka at 3:45 P. M. on next Thursday, June 13.

This will be just ten days preceding the election and will be the only opportunity that most Lynn county people will have to hear our able young attorney general.

The men and the women of Lynn county, therefore, are cordially invited and urged to take advantage of the opportunity to hear him on this occasion.

Mr. Mann has seven speaking appointments on the plains for that day. Beginning at Canyon at 9:30 in the morning, he will speak at Tulsa at 10:45, Plainview at 11:45; Brownfield at 2:45; Tahoka at 3:45; Lamesa at 5:00; Lubbock at 8:00.

He will begin the week at Decatur on Monday and will spend the entire week in West Texas.

Dr. and Mrs. Chase Thompson and little son of Detroit, Michigan, all former residents of Tahoka, are here for a few days visit with friends.

Mr. and Mrs. W. O. Robertson and daughters, Misses Beryl and Edith, left Thursday morning for a visit with relatives at various points in East Texas.

PROCLAMATION

WHEREAS, the Government of the United States, through the Secretary of the Treasury, has caused to be issued Defense Bonds for public subscription, and these bonds are now being sold throughout the Nation; and

WHEREAS, the people of this City have always been patriotic and supported in every way the Government of the United States; and

WHEREAS, Saturday, June 14, 1941, is National Flag Day when we as a free people pause to consider and to prepare against the menace to our national security; and

WHEREAS, the President of the United States has declared an Unlimited National Emergency, and it behooves the people of this City to investigate and consider the purchase of Defense Bonds in order that the security of our Nation may be maintained; and

WHEREAS, the bonds so issued give a fair return on the savings; and

WHEREAS, at this time attention of the people is directed to the needs of our Government for financial support, and our citizens are urged to buy a share in America by purchasing these Defense Bonds;

NOW, THEREFORE, I, Dean Nowlin, Mayor of the City of Tahoka, Texas, do proclaim Saturday, June 14, 1941, FLAG DAY; and with equal significance, also proclaim that said day NATIONAL DEFENSE BOND DAY.

Done at the office of the Mayor, this the 11th day of June, 1941.

Dean Nowlin
Mayor, City of Tahoka

Storm Damage Over West Texas Great

Old-Timers Plan Annual Meeting

Tuesday, June 24 is the date of the annual Pioneers Reunion in Tahoka, the time when all old timers who came to this county 30 or more years ago get together for a yearly fun festival and barbecue.

The officers and directors of the Lynn County Pioneer association, sponsors of the celebration, have been requested to meet this morning (Friday) at 10:00 o'clock in the county courtroom for the purpose of completing plans for the program for the annual affair. The meeting was called by W. H. May of Wilson, president, and E. T. Wells of O'Donnell, secretary of the association, who were Tahoka visitors Monday.

All officers are urged to be present at the business meeting this morning.

Three Injured In Car Accident

Latest reports received by the News are to the effect that the three young people who were critically injured when cars in which they were riding collided on the highway seven miles west of Post on Sunday night, June 1, are slowly recovering.

The injured were Wayne Martin, son of S. I. Martin of the Midway-Redwine community, Miss Freda Gerner, daughter of Pete Gerner, who resides near the line of this county just east of Central Church, and Miss Bernice Nelson of Post. One leg and one arm of Wayne Martin were broken; Miss Gerner suffered fractures of the left foot and right hip, injuries to the pelvis, bruises and lacerations; and Miss Nelson's injuries included a fracture of the skull, one hip, and one arm.

All were taken to hospitals in Lubbock following the accident, where they are being treated. Miss Nelson, it is said, did not fully regain consciousness for several days.

Miss Gerner, her two brothers and a sister were riding in one car and Mr. Martin and Miss Nelson in the other. The collision occurred when one of these cars attempted to pass a third car on the highway, the Gerner and Martin cars meeting head-on. Both cars were badly demolished.

Tahoka Ladies At B-PW Meet

Five members of the Tahoka-O'Donnell Business and Professional Women's club who attended the President's dinner at the convention of the state federation in Lubbock last Saturday night, heard Dr. Minnie L. Maffett of Dallas, national president, enumerate the principal duties of business women in the national defense program. Dr. Maffett represents the federation on a defense committee appointed by the War Department.

Most important, Dr. Maffett said, is that business women, as well as all citizens, keep their heads. Then in order of importance she placed doing well their jobs, keeping their minds alert, organizing local women's training, and working toward raising the nation's health standard. Dr. Maffett deplored the state of health of the nation, which has caused 45 per cent of would-be draftees called up for service to be rejected for physical disabilities. She said 3,000 Texans had been rejected for that reason.

Those who attended the dinner and most or all of the convention sessions were Miss Claire Ruth Nichols of O'Donnell, president-elect, Miss Hattie Server, past president, and Mesdames Inez Knight, Lois Daniel and Myrtle Rochelle. Mrs. J. W. Sinclair president, attended the Friday night sessions.

Hall Robinson is reported to be making satisfactory improvement following major surgery last Saturday in the West Texas Hospital.

Rainfall Total 20 Inches Here

Big News! It has not rained in Lynn county for four days! Farmers have been busy this week replanting their cotton crops or scratching the top soil so as to enable the tender plants to break through the crust.

Many have reported that their cotton is up to a fine stand as is cotton in up to a fine stand or is if the county is not hit by another flood, the crisis on many farms will have been passed, so far as the little matter of getting the crop up is concerned.

Many have been compelled to plant their crops two or three times this year; for just about the time they would get one planting finished here would come a gully-washer and cover the sprouting seed so deep that they wouldn't have a Chinaman's chance.

As we went to press last week we reported that it was raining again. But the rain that day, Thursday, amounted to only .15 of an inch, but .28 additional came that night.

On Sunday night, .33 came. On the preceding Sunday, June 1, a hard dashing rain, already reported, amounting to .83 of an inch fell. The total precipitation thus far this month therefore is only 1.59 of an inch; but 11.09 had fallen during the month of May. The total this year is right close to 20 inches, 19.96 to be exact. As stated heretofore, it has been three or four inches heavier in some localities. Even on last Sunday night, when Tahoka received .33 of an inch, the northern and northwestern portions of the county seem to have received from three-quarters of an inch to a full inch.

But, as abundant as the rains have been in this county, the people here are really fortunate as compared with some other sections.

Torrential rains at Plainview and in that section last week put White River Draw on a rampage and flooded some residences in the town: One man was drowned in the flood waters.

On Sunday night a tornado swept across the north central plains, seriously injuring several persons at Spade near Littlefield, killing one aged man and critically injuring his wife at Kress, where a number of buildings were torn to splinters, killing the wife of the dean of Clarendon Junior College and injuring a number of other people in the city of Clarendon as well as doing property damage estimated at a half million dollars.

A cloudburst at and above Albany Monday night swept away the dam of Diller Reservoir on Hubbard Creek at 1:30 Tuesday morning and the released waters came rushing down through the little city sweeping many houses downstream and taking a toll of a dozen lives.

Reports of flood damage come from many other places in West and North Texas. Some houses in Lynn county are still sitting out in the edge of lakes, a few of them still wholly surrounded with water. But no lives have been lost in this county, and property damage outside of crops has been comparatively light.

Gilbert Gollehon Opens Station

Gilbert Gollehon of Post has opened the Sinclair Service station located at the junction of the highways, and is personally supervising all service to customers there.

Mr. Gollehon is an experienced service station man, having owned and operated a station in Post the past eight years. He will retain his station there, which will be managed by his brother.

Mr. Gollehon is well known to many Tahoka people, having formerly lived and worked here.

He has always been a leader in civic affairs in Post, has served as president of the Rotary club, and would definitely be an asset to any community.

Food Preservation Importance Told

With all America defense minded, makes canning an important item in the program. The Farm Security Administration families have always been encouraged to do canning, but it is being stressed more this year than usual.

The standard Farm Security Administration canning program requirements are that each family can from 75 to 100 quarts of vegetables per person in the family, excluding children under 5 years; and 10 to 20 quarts of fruit per person. This is the standard, but plan to can more than this. "Certainly hundreds of quarts of good food stored away in home pantries are important to both family and national preparedness."

An extensive canning program cannot be carried on unless you have the equipment to work with. The Farm Security Administration has loaned money to many families in Lynn county to buy canning equipment with. According to Miss Can-

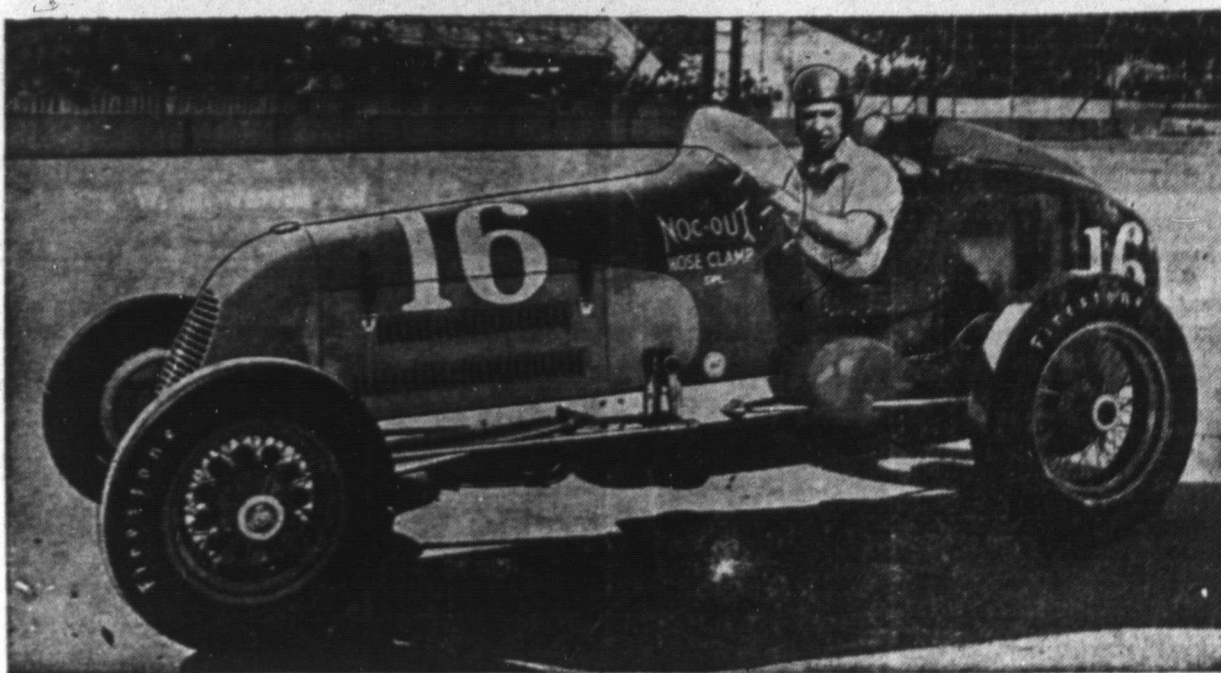

SANTA FE BUSINESS SHOWS INCREASE

The Santa Fe Railway System carloadings for the week ending June 7, 1941, were 23,005 compared with 19,585 for the same week in 1940. Received from connections were 7,084 compared with 4,742 for the same week in 1940. The total cars moved were 30,089 compared with 24,327 for the same week in 1940. The Santa Fe handled a total of 28,800 cars during the preceding week of this year.

To control red bugs or chiggers on lawns, dust the lawn each 10 to 14 days with finely ground dusting sulphur (cotton dusting type) at the rate of one and one half pounds per thousand square feet.

non. County HM Supervisor, 65% of the Farm Security Administration cookers which are loaned to Farm Security Administration borrowers. So the Farm Security Administration families in Lynn County are prepared for an extensive canning program this year.

Driving his teammate's car from 15th place to a spectacular victory in one of the most dramatic races ever held at the historic Indianapolis Speedway, Mauri Rose won his first 500-mile race on May 30th.

Starting the race in the coveted pole position by reason of his high-

est qualifying speed of 128.691, Rose was well up with the leaders when his car developed engine trouble after 155 miles and was forced out of the race. Lou Moore, owner of the car which Rose had been driving, asked Rose to relieve Floyd Davis, who was driving another one of

Moore's car and Rose drove to victory at an average speed of 115.117 miles per hour without a tire change or tire trouble of any kind. This was the 22nd consecutive year that Firestone Tires have been on the winning cars in this great race.

NEW HOME CHURCH OF CHRIST IMPROVED

Two class rooms have been constructed in one end of the building of the Church of Christ at New Home and classes were conducted in these new rooms for the first time last Sunday according to Eugene Long, minister for the church there.

These rooms have been neatly finished and furnished and add much to the convenience of the members of the congregation.

The church is planning to pebble-dash the exterior of the stuccoed walls and to paint the roof at an early date, Mr. Long states.

There are about fifty or fifty-five members of the congregation there, consisting of residents of that and neighboring communities.

Mr. Long preaches there the first three Sundays of each month. He states that The Gospel Proclaimer, a religious journal published in Austin, is being mailed each month into the homes of members and citizens of the New Home community, as well as neighboring communities.

CARD OF THANKS

We desire to express our genuine appreciation of the flowers sent to the bedside of Thurman Jester while he was suffering from the unfortunate accident recently that almost proved to be fatal and of the numerous other kindnesses shown him and us. We shall never forget the thoughtfulness and the kindly assistance given by our friends—Mrs. R. R. Roberts, Mr. and Mrs. E. D. Crouch, the Jester families, and other relatives.

SHERIFF'S SALE

THE STATE OF TEXAS
COUNTY OF LYNN
NOTICE IS HEREBY GIVEN That by virtue of a certain Order of sale issued out of the Honorable County Court of Lynn County on the 28th day of May, 1941, by W. M. Mathis, County Clerk of said County for the sum of \$287.61 Dollars and costs of suit under a judgment in favor of Lee Northcross in a certain cause in said Court, No. 804 and styled Lee Northcross, Plaintiff vs. D. A. Parkhurst, placed in my hands for service, I, B. L. Parker as Sheriff of Lynn County, Texas, did, on the 29th day of May 1941, levy on certain Real Estate, situated in Lynn County, Texas, described as follows, to-wit:

All of lots one to eight 1-8 inclusive in Block 3, of original town of Tahoka, Lynn County, Texas. All of Lots 3 and 4 in Block 20 original town of Tahoka, Lynn County, Texas, and all of Lots 7 and 8 in Block 13, Shook addition to town of Tahoka, Lynn County, Texas, all of which said property was heretofore on the 26th day of April 1941 levied on by me under a writ of attachment issued out of the county court of Lynn County, Texas, in favor of Lee Northcross against the said D. A. Parkhurst and levied upon as the property of D. A. Parkhurst and that on the first Tuesday in July, 1941, the same being the 1st day of said month, at the Court House door of Lynn County, in the town of Tahoka, Texas between the hours of 10 A. M. and 4 P. M., by virtue of said levy and said judgment and order of sale I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said D. A. Parkhurst.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Lynn Co. News, a newspaper published in Lynn County.

Witness my hand, this 28 day of May, 1941. B. L. Parker, Sheriff Lynn County, Texas.

(Successor to Elbert Rogers)

MRS. STOKES AWARDED MEDAL AT CONVENTION

Mrs. Gladys M. Stokes returned from Galveston last Sunday, where she had been attending the 37th annual convention of the agency force of Southwestern Life Insurance Company as guest of that institution.

Mrs. Stokes was signally honored during the convention for outstanding conservation work in this territory the last year, and for having attained a mark of a million dollars or more of insurance in force. The medal awarded her on this occasion is indeed a thing of beauty and she is very proud of it.

Three Ohio State University scientists reported that fresh cabbage rank high among foods containing vitamin C, which helps prevent tooth decay, bone softening and muscle weakening.

There are about 13,500,000 persons in the United States who depend directly upon cotton for a living.

Steam-pressure cookers need to be rechecked each year to see that the pressure gauge registers correctly.

Just give it Air— and it'll give you Action

MAYBE you didn't know that an efficient gas mixture for your car has about 9,000 parts of air by volume for every one part of gasoline.

That being so, you can see how important air-handling capacity is to your power plant.

Take this stunning Buick FIREBALL straight-eight, with Compound Carburetion! stepping-up its horsepower.

Ordinarily, this engine purrs along sweetly with only one of its two carburetors functioning.

But step down on the gas treadle and what happens?

A second carburetor opens up. Doubles the air-handling capacity. Steps up power, lift, life, action. You

go swooshing off like a scared boy with a bee behind him.

Would feeding more gas accomplish the same result?

After a fashion, yes—but why be spendthrift? Why feed your engine gasoline when what it wants is air?

Why not enjoy power as you want it and when you want it—plus gas economy that runs as high as 10% to 15% over last year's Buicks?

For that matter—why get less room, less style, less comfort, less value than Buick offers at such little prices?

See your nearest Buick dealer now—and at least get the delivered figures.

\$930

for the Business Coupe (illustrated above) including Compound Carburetion,

delivered at Flint, Mich. State tax, optional equipment and accessories—extra. Prices and specifications subject to change without notice.

Tahoka Scouts High In Rank

Four Tahoka Boy Scouts are attending the Post encampment this week and working for higher awards in Scouting.

"Tiny" Jolly, who is now Life Scout, is doing work in an effort to gain the coveted Eagle Scout award, the highest possible ranking in Boy Scout work. Wayland Hughes and H. B. McCord Jr., Star Scouts, are working for the Life Scout award, and Second Class Scout Jim E. Poir is taking test for First Class Rank.

Scoutmaster A. R. Milliken has also been at the camp part of the time, and he hopes to complete work of the Brotherhood award in the Order of the Arrow, an organization of scouters similar to fraternal orders.

A. R., himself a former member of Tahoka's Troop 21, says much interest is being taken by the local boys in Scout work. He hopes to take the troop to Ruidoso, in the New Mexico mountains, later in the summer.

COLORED METHODISTS HAVE BABY SHOW

Members of the Colored Methodist Church of Tahoka under the leadership of Rev. T. A. Amos, pastor, conducted a Baby Show recently, with a number of entries and much interest shown by parents, according to information given the News by a member of that church.

The five babies scoring highest with the amount awarded each was given as follows:

- Baby Rubynell Densy, \$9.04.
- Baby Bobby Jean Washington, \$5.00.
- Baby Shirley Marie Belvin, \$3.00.
- Baby Bennett Lubbs, \$2.40.
- Baby Charlesetta Malone, \$2.08.

Mrs. Myrtle Holland of Lubbock visited her parents, Mr. and Mrs. T. E. Dikes, Mrs. C. N. Woods and other friends here Thursday before returning to work in Lubbock after spending most of her vacation in Mineral Wells.

Mr. and Mrs. Grady Howard of Falls visited here Monday and Tuesday with his sisters, Mrs. Harley Henderson and Mrs. Frank Hill.

HOME ECONOMISTS ORGANIZE CLUB

Working in cooperation with established agencies such as Home Demonstration clubs, Home Economics departments in the several high schools of the county, the Farm Security Administration, and with the various committees of the AAA and the State Extension Service, the recently organized Economist Club will aid in emphasizing the Texas Food Standard and the greater use of cotton in the homes of the county.

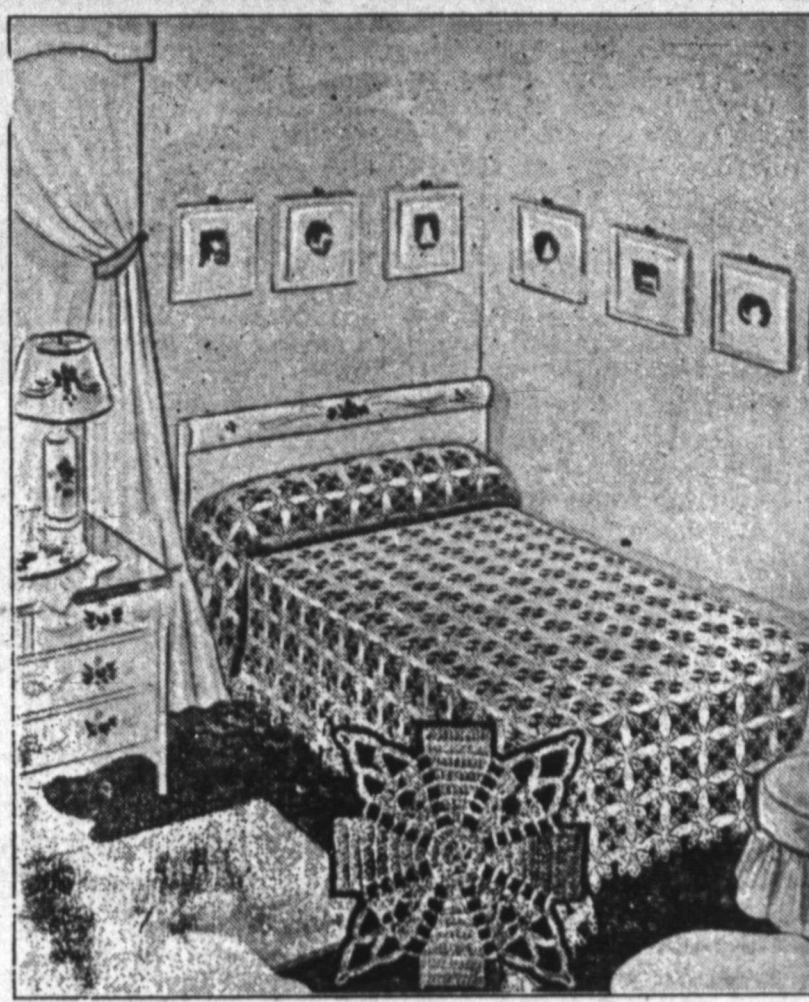

In an informal program, given on Wednesday afternoon, Misses Masten of Wilson and Pace of New Home discussed their summer projects with girls; Miss Lucille Wright of Tahoka and Mrs. Oleta Moore Smith of O'Donnell discussed methods of suggesting greater use of cotton in the home. Miss Myrle Cannon, Home Supervisor of the F. S. A. told how some of the F. S. A. families are growing year-round gardens by irrigating frame gardens with tin cans reclaimed from the rubbish heap.

The Home Demonstration Club women in cooperation with local grocery stores will begin a series of educational exhibits on foods soon. One such exhibit will appear in the window of a local grocery store each Saturday for twenty weeks, rotating so that each store will in turn have an equal number of the exhibits, Miss McNatt, Home Demonstration Agent, reported. Both Miss McNatt and Miss Cannon and the women working with them are distributing copies of the Texas Food Standard through grocery stores and other available agencies.

A picnic lunch on the courthouse lawn concluded the meeting which was attended by Misses Masten of Wilson, Pace of New Home, Wright of Tahoka, and Mrs. Oleta Smith of O'Donnell, each heading the Home Economics department in her community, and by Mrs. E. I. Hill of Tahoka.

Mrs. Gladys Davis, and Misses Ruth and Elizabeth Link went down to El Paso Sunday, returning Tuesday. On Thursday Mrs. Davis and Miss Elizabeth left for Wichita Falls, where they will spend a few days. Mrs. Davis' children, who have been visiting there, will return with them.

Bedspreads Compete for Crocheting Honors

THERE'S a frosty freshness to this hand-crocheted bedspread, appropriately named "Jenny Lind." Its design is based on a single motif, which is simple to do, and costs just 2¢ to make. Working from the center outward, a combination of single and double crochet is used to form the spike and petal design. To bring out the beauty of the design and for long wearing qualities, use mercerized cotton with a high luster, in white or colors. You can also enter the finished spread in the Fifth National Wide Crochet Contest this Fall, where bedspreads will occupy an important place in the final judging. Directions for crocheting this spread and details of the Contest may be obtained by sending a stamped, self-addressed envelope to the Needlework Department of this paper, specifying design No. 67.

TRAVIS INMON WEDS AT SNYDER

Travis Inmon, son of Mr. and Mrs. W. P. Inmon of Snyder, former residents of Tahoka, was married recently to Miss Susie May Reep, daughter of Mr. and Mrs. Joe Reep, near Snyder, according to the groom's sister, Mrs. T. Cowan of Tahoka.

Travis was reared principally in this county, and he has the best wishes of many friends here.

Billie Jo Cowan is spending the week with her aunt, Mrs. M. M. Shearer, at Key.

Texas Almanac Valuable Book

A book of 576 pages, The Texas Almanac for 1941-42, just off the press, is the largest volume in the long history of this biennial publication of the Dallas Morning News. A number of new features are included in addition to the usual chapters and statistical tables on such topics as agriculture, industry, population, history, soil and water resources, weather, minerals, manufacturing, transportation, wholesaling and retailing, government, education and civic affairs.

Has Texas really had more than six flags? How has the relationship of rural and urban population changed since 1930? When were the tapir, sabre-toothed tiger and camel found in Texas? Who was Governor in 1893? What facilities has MacKenzie State Park at Lubbock? Who won the Dixie Series in 1931? What are the total retail sales of Brady, Texas? These are typical of the wide variety of questions that can be answered from the page of the new book.

New census figures on population, manufacturing, agriculture, wholesale and retail trade and service businesses are included. The historical chapter has been supplemented by a number of supplementary topics including a long list of Texas historical landmarks. There are especially complete chapters on highways and parks in anticipation of increased tourist trade in Texas during the next two years. The usual large folded maps, showing railroads and highways respectively, have been brought up to date, and there is an individual map of each of the 254 counties of Texas accompanying the county articles. New developments in Texas, including the defense industries, chemistry, conservation programs, changes in farm and farm tenantry, aviation, new army and navy camps and posts, and political activities are covered. There are more than 50,000 separate and distinct facts about Texas in this "Encyclopedia of Texas."

ATTEND REUNION AT GORMAN - W. S. Anglin and family and R. L. Pirtle of Draw on last Monday attended a reunion of the former students of the Hankins Normal School at Gorman, the school having become defunct many years ago. Mr. Anglin was a student in the institution in 1910-1911, he states, and his visit convinced him that thirty years can work wondrous changes. He had to be introduced to many of his former schoolmates, and vice versa.

Mr. Anglin had a place on the program—and, needless to say, he had a wonderful time.

Mrs. M. C. McKeehan and daughter Marlene, of Fayetteville, Arkansas, are now visiting in the home of the former's brother, Dr. K. R. Durham. Her son Maclyn has been staying with the Durhams and attending high school here the past year. They will remain here until the husband and father comes for them two or three weeks hence.

PROPER TREATMENT OF DISEASED ELMS GIVEN

LUBBOCK—Have you noticed black, irregular spots on the leaves on your Chinese elms since the rains have come?

Have the leaves ceased to grow, turned yellow, and dropped from the tree?

If so your trees are on a "Gnom-jaulme!" binge according to O. B. Howell, professor of horticulture, at Texas Technological College.

In the layman's language, a fungus disease has attacked your trees. There is a cure. Trees should be sprayed with Bordeaux mixture in the standard ration, which is 4-4-50.

Moreover, all fallen leaves should be raked and burned. The tree should be well fertilized and watered frequently. Unless leaves on the ground are burned, fungus will con-

SANTA FE RAILWAY ORDERS MORE BOX CARS

An order for 2,000 fifty-ton box cars was placed today by the Santa Fe Railway Company with the Pullman-Standard Car Manufacturing Company. The cars will be 40 feet six inches in length and of steel construction. They will be built at the Michigan City plant of the car manufacturers.

The new order is in addition to 1700 freight cars ordered by President Edward J. Engel last April, when purchase of another 5400 horsepower Diesel-electric freight locomotive and 23 stainless steel passenger cars was announced.

It is expected that the new cars will continue to develop and attack trees as long as it is wet and windy.

Howell said that if trees just looked puny, fertilizer and plenty of water through the summer would help.

WE MEAN THAT SMILE

We mean it when we smile. Come in for a windshield wipe, an oil test or free air and nothing else. We'll still smile because we're glad to see you. That's what makes this the most popular service station in town. Let us condition your car for Summer Driving before you start on that fishing trip.

STRIKES

At long last our President has done something about one outfit of strikers in this country. Monday he sent some of Uncle Sam's boys down to Ingleswood on the outskirts of Los Angeles to take charge of the plant of the North American Aviation Corporation. The soldiers drove the strikers back and army officials took charge of the plant. They invited all the workers to return to their jobs. Many did go on that day and it was believed that many others would do so. At the same time, the Selective Service headquarters in Washington ordered draft boards to re-classify strikers who refused to return to work so as to make them subject to immediate draft. But hot on the heels

of this action by the Government came rumors of impending strikes in other big plants having Government contracts in other parts of the country. It seems that many labor leaders are determined to give the Government all the trouble possible. The apparent purpose is not merely to get a boost in the wages of employees but chiefly to obstruct and retard our defense program. Many of the labor leaders in fact are communists or Nazi sympathizers. That detestable Harry Bridges is one of the leaders who had a dirty finger in that Ingleswood strike. The time has long since past for Government officials to throw grass at disloyal labor leaders seeking to retard our Defense program; it is high time to throw stones. President Roosevelt is to be commended for his belated action with respect to Ingleswood. We hope that he acts promptly hereafter respecting other such strikes.

Just from reading the newspapers, hearing radio reports and listening to people talk, we honestly believe that this race for the senatorship is going to turn out to be a race between Governor O'Daniel and Attorney General Mann. We also believe that Governor O'Daniel has lost much of his former support. Mann has a real chance to be elected. Texas could scarcely do better. Mann is the only man in the race who has proposed an effective measure to put an end to strikes in Defense industries. He is a real and not a mere pretended supporter of the President's policies in the main, but he would not be a mere rubber stamp in the United States Senate. Neither would he be a mere stage-player. On the other hand, he has the stuff in him to become, in time, a leader in that great body. In our humble opinion, Mann's the man.

In a country in which freedom of the press has been destroyed and in which the few newspapers which are printed are rigidly controlled by the Government; in which free speech has been destroyed and in which citizens who dare to criticize those in authority are imprisoned or shot; in which every radio broadcast is strictly censored and in which citizens are prohibited on penalty of imprisonment or death from listening to foreign radio broadcasts; in a country where no individual has any rights that must be respected and where the Government is everything it is easy for a dictator in such a country to feed his people continually on lies and to misinform and mislead them. That has been the situation in Germany the past several years, and if there are any people in this country who like that sort of thing we think that they should be invited to leave our shores and hurry off to the land they love in a language that they can readily understand. We have no room for Hitler helters in this country.

We hereby take the authority to invite everybody everywhere who has been bitten by the travel bug to come out to the Plains and take a look at our dust bowl. We'll admit that the thing has been just about ruined, but the ruins are worth traveling miles to see. Lakes of water nearly all the fields the waters of which in many places, are still licking the edge of the pavement on our highways. Here and there a house or a barn sitting out in a lake. Some of the fields, we will admit also, are a little wolfish due to the superfluity of moisture and the infrequency of sandstorm visits during the past few weeks. But with these tractors running on every farm the weeds will all be turned under and the cotton and feed will

"POETRY" NOT ACCEPTABLE FOR PUBLICATION

As deeply as the publishers of this paper sympathize with all persons who suffer sorrow in the death of a loved one, we can not accept for publication verses written in praise or in memory of these loved ones.

We received such a contribution this week which was much better than the average of these productions, but if we were to accept one we would be compelled to accept all. Some of these, though expressing the deepest and most tender emotions on the part of the writers, meet none of the elements of real poetry. While, to us, there is no form of expression as beautiful as real poetry, there is no form so grating on the sensibilities as crude imitations of poetry.

Long ago, therefore, we adopted the rule of declining to accept for publication the productions of amateur poets. We have rarely broken that rule. We hope, therefore, that those who submit "poetry" for publication in this paper, even though it may possess considerable merit, will not feel disappointed if their productions are rejected.

NEW LYNN H. D. CLUB STUDIES SEWING

"The manner in which the seams of a dress are finished makes the life of the garment longer", stated Miss Maurine McNatt, county home demonstration agent, to the New Lynn Club, which met with Mrs. R. W. Barton June 4.

"There are several different kinds of seams that can be used in making clothes, but the most practical is the pinked seam."

In addition to the discussion of seams, Miss McNatt also gave many ideas on attaching collars, putting in zippers, and working button holes.

Mrs. W. W. Rowland was elected as a delegate to represent New Lynn club at the short course in College Station.

There were twelve members present and one visitor Mrs. Pete Wetzel of Henrietta.

The next meeting will be with Mrs. Caveness, June 17.

CARD OF THANKS.

We want to take this way of thanking everyone for their dear and loving kindness through the illness and death of our darling Mother and Grandmother. May God bless each of you who expressed a kind thought or deed—Mr. and Mrs. A. L. White and family, Mr. and Mrs. Sam Bartley and family, Mr. and Mrs. L. N. Bartley and family, Mr. and Mrs. D. E. Patterson and family, Mr. and Mrs. W. F. Bartley and baby, Mr. and Mrs.

be up by the time most of our visitors from the black-waxey and the piney-woods can get here, and so again we invite all Texans who have the urge to travel to hop into their Chevies, V-8's, Model T's, Cadillacs, or what have you and come out and take a look at the great Dust Bowl of the plains.

The Plainsman in the Avalanche the other day suggested that our young men are not really as bad off physically as the figures showing the number rejected for military training on account of physical defects would indicate. He opines that most of those rejected would be accepted into the armies of almost any other country. The Plainsman is right. If a young man has a weak eye, a crooked finger, or a boil on the nose, he may be rejected for military service in the armies of Uncle Sam; but to tell you the truth we would hate to meet one of these fellows out in the open with blood in his eye and a gun in his hands. The rejected boys in this country, if properly trained and armed, could make a lot of Hitler helters take to their heels, we'll bet.

FIRESTONE TIRES WIN AGAIN

IN 500-MILE INDIANAPOLIS RACE

MAURI ROSE, Co-Winner With Floyd Davis in the 500-Mile Indianapolis Race May 30th, Averaged 118.17 Miles per Hour on Firestone Gum-Dipped Tires Without a Tire Change or Tire Trouble of Any Kind.

FLASHING down the straightaways at speeds as high as 160 miles an hour, Mauri Rose streaked to victory in the 1941 Indianapolis Sweepstakes without a tire change. 500 miles of grinding, pounding, torturing speed—and not one tire failed! Here's proof of safety—proof of blowout protection—proof of endurance—proof of tire superiority backed not merely by claims, but by PERFORMANCE! For 22 consecutive years all the winning drivers in this great classic of speed and endurance have driven to victory on Firestone Tires. Why? Because race drivers know that their very lives depend upon the safety of their tires. They have made it their business to know how tires are built. And they know from experience that the patented and exclusive construction features found only in Firestone Tires provide the extra strength and durability necessary to safety and victory!

Every Firestone Tire Carries a Lifetime Guarantee

LIBERAL ALLOWANCE ON YOUR OLD TIRES
 Come in TODAY!

The same super-safety and dependability that are built into Firestone Tires for the speedway are also built into the new Safti-Sured Firestone DeLuxe Champion Tires for the highway. Both are Safti-Sured against blowouts by the patented Safety-Lock Gum-Dipped cord body. Both are Safti-Sured for longer wear by the exclusive new Vitamic rubber compound. Profit by the experience of famous race drivers. Equip your car today with a set of these new Firestone DeLuxe Champion Tires—the world's first and only tires that are Safti-Sured.

WE DARE TO MAKE THIS 10-YEAR GUARANTEE

BECAUSE SERVEL FREEZES WITH NO MOVING PARTS!

The Gas Refrigerator Stays Silent... Lasts Longer.

HERE'S FINAL PROOF that the Gas Refrigerator means more for your money when you buy—more for your money in the long run.

Now—with our 10-year guarantee—you get iron-clad assurance of this longer, carefree service and greater savings!

Read This Guarantee on complete refrigerating system. We guarantee to the original purchasers of 1941 Servel ElectroLux Gas Refrigerators to refund without cost any defective burner, control or refrigerating unit for a period of ten (10) years from date of installation. (You pay only cost of installing parts.)

- ▶ "NO MOVING PARTS" means
- ▶ PERMANENT SILENCE
- ▶ CONTINUED LOW OPERATING COST
- ▶ MORE YEARS OF DEPENDABLE SERVICE
- ▶ SAVINGS THAT PAY FOR IT

Other Models Operate on BUTANE, BOTTLED GAS, KEROSENE

Stays silent... lasts longer
SERVEL ELECTROLUX GAS REFRIGERATOR

What Users Say Is Better Than a GUARANTEE!

"We have been using our Servel constantly over 6 years and it has never had to be serviced. It still costs only about 2 1/2¢ daily to operate. Thank goodness for its silence, which is a comfort, after using other types."
 —Mrs. DAVE FINNEY, Brownfield, Texas.

"Our gas bill is about the same as before we installed the Servel. Saving of leftover food will more than pay for it in the 1 1/2 years we have owned it."
 —JNO. S. POWELL, Brownfield, Texas.

EGGS NEED GOOD CARE

College Station, June 12.— Good care of eggs on the farm will be making a valuable contribution to the food-for-defense program. Geo. P. McCarthy, Extension poultry husbandman, says careful handling means more eggs for defense food supplies and additional income for poultry producers.

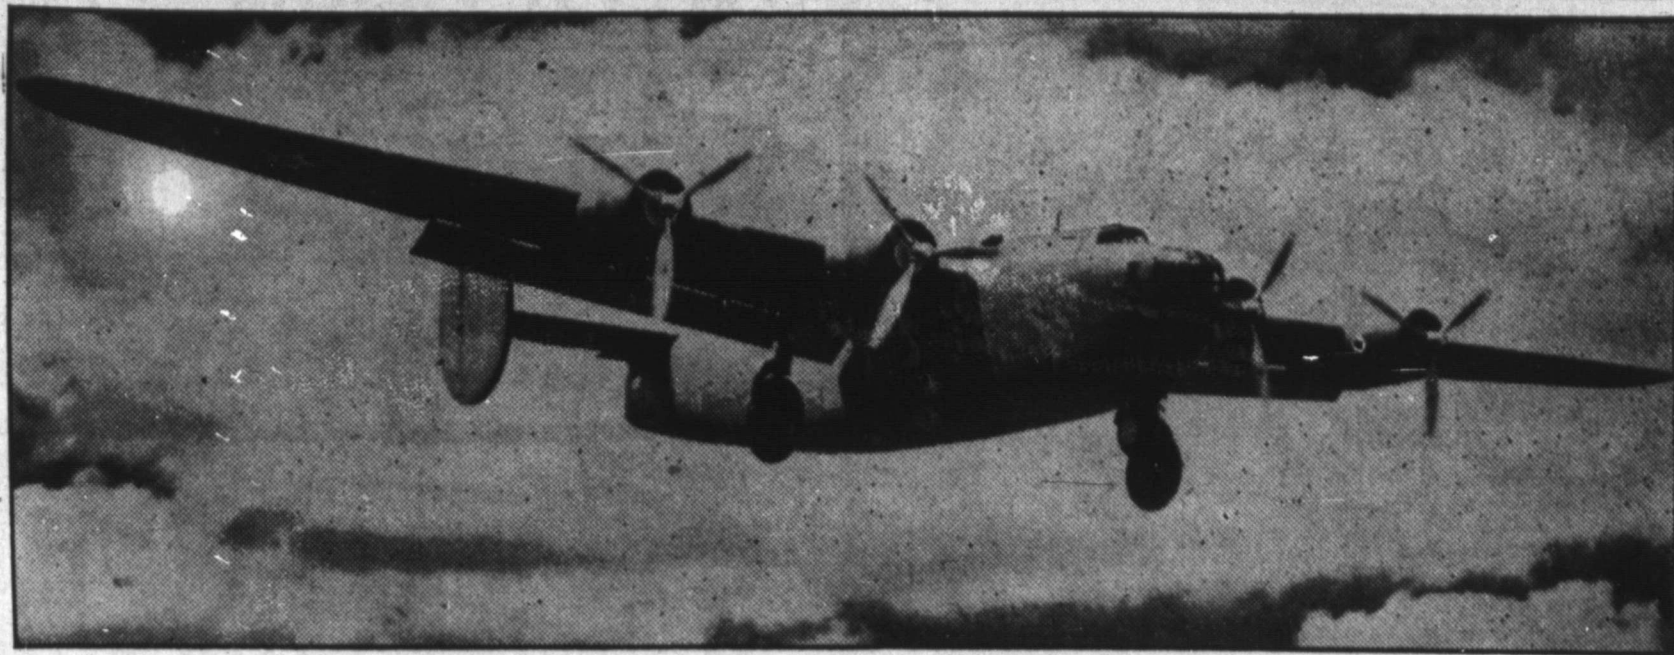

But care of the finished product is only a part of the poultryman's job. Proper quality food for producing quality eggs is just as important.

Efficient egg production, McCarthy says, is influenced by the amount of feed it is possible to induce each laying hen to eat daily. Normally one hen will eat about 80 pounds of feed a year, approximately half of which should be mash and half grain for best results.

Egg mash, or laying mash is the important portion of the feed for hens that are expected to lay. Laying mash is a combination of feeds which are high in protein and other ingredients essential for keeping the hens in good health, as well as for producing a maximum number of eggs.

Laying mash must constitute one half, or 40 pounds, of the yearly ration. The usual mixtures for laying rations comprise 100 pounds protein supplement and 200 pounds of home-grown grains to make a

Army's Newest Bomber Comes Out of the Clouds

This big aerial dreadnaught coming out of the clouds for a landing at Ford Airport is the new Consolidated B-24. It is regarded by the U. S. Army as the World's

most formidable bomber. The Ford Motor Company, under government contract to produce sub-assemblies and parts for five complete B-24D bombers a day, is

erecting an \$18,000,000 plant for the job, 25 miles from here.

Henry Ford examined this huge bomber when it visited Dearborn

recently. It weighs 56,000 pounds loaded and carries four tons of bombs at a speed of 300 miles an hour. The ship has a cruising range of 3,000 miles.

SHELTERBELTS MAKE IDEAL PICNIC SPOTS

"Shelterbelts are serving as ideal picnic spots in many areas of the Panhandle," stated Wm. S. (Bill) Greene of the U. S. Department of Agriculture's Forest Service office in Memphis, recently. After the long siege of rainy weather, farm and town folks alike are seeking the shade of the long green lanes of shelterbelts for their outings.

Greene declared that hot, sunny days following continual rainy spells have made the cool interiors of the green shelterbelts particularly inviting. The temperature differences vary as much as twenty degrees. When the thermometer reads 90 degrees in the sun, the green canopy often cools the temperature to 70 degrees under the tree.

Many of the belts planted in 1936-38 make ideal spots. The cottonwood and some of the Chinese elm trees reach 15 to 30 feet up. Many of the other species are also rapidly increasing in height. The green protective walls of the shrub and field rows keep the hot wind out, making the interior of shelterbelts ideal for picnic.—Memphis Democrat.

FOUR NEW TECH DIRECTORS APPROVED

Lubbock, June 12.—Four appointments to the directorate of Texas Technological College have been named by Gov. W. Lee O'Daniel and confirmed by the Senate, as follows:

James M. West of Houston, president chairman of the board, for another six-year term.

John B. Collier, Jr., of Fort Worth for a six-year term.

A. J. Riddle of Denison to fill the unexpired term of the late Joe T. Sneed of Amarillo, ending Feb. 19, 1945.

Chancellor Weymouth of Amarillo for a six-year term.

Other members of the board are: Spencer A. Wells, Lubbock, vice-chairman; C. C. Thompson, Colorado City, treasurer; L. L. Steele, Mexia; Mark McGee, Fort Worth; and Milburn McCarty, Eastland.

Approximately 146 pounds of wool are required for the peace-time uniform equipment of every man in the U. S. Army. This represents the wool of approximately 18 sheep.

Mrs. M. E. Harms of Chico is here for a visit of several weeks with her daughter, Mrs. W. A. Reddell.

Mrs. R. C. Forrester has been confined to her home again this week with an attack of the flu.

RICHARD YOUNG RECOVERS FROM PNEUMONIA

Richard Young of Hobbs, N. M., who recently recovered from pneumonia, visited with his wife in the home of her parents, Mr. and Mrs. N. M. Wyatt here Sunday. They were accompanied back to Hobbs by Bette Ruth Wyatt, Mrs. Young's sister, who plans to visit a week or two there.

Mrs. Wyatt said the incident of her son-in-law's illness convinced her that the Lynn County News sure gets around. Not only did a host of local friends phone to learn about Mr. Young's condition after his illness was mentioned in the News, but a sister, in Abilene, who does not take the paper, heard of his illness from a friend, who does, and phoned to learn of his condition. The family had not intended to tell the sister of her brother's illness until he was better and were very surprised that she should find out. But now she knows that any news that gets in the News certainly gets around, Mrs. Wyatt said.

M. L. Penn, supervisor of this 24-county district of the National Youth Administration, was a visitor in Tahoka Wednesday. He was high school principal here several years ago.

ODDS & ENDS

by Eec Eya,
the Elder

The announced decision of Chief Justice Hughes to retire from the Supreme Court on the first of July has created some speculation as to who will be his successor. Most commentators are agreed that Attorney General Robert H. Jackson will be appointed. It is possible, of course, that one of the present associate justices will be elevated to the Chief Justiceship and that Jackson will be appointed to take the place of the man who is thus promoted. But, in any event, the decision of the President will be made known within a few days.

Jackson doubtless is well fitted for a place on the court. He is a stronger man than some of the present members. Of course, like most of the present members, he is a "liberal" in his construction of the Constitution. By that it is meant that he is a loose constructionist.

This country has always been divided into two schools of thought respecting the Constitution, the strict constructionists and the loose constructionists. Some of the strict constructionists have been so strict

and have tried to be so straight in their construction of that instrument that they have actually leaned backward. Some of the loose constructionists, on the other hand, have been so loose that they have not permitted that instrument to stand between them and anything that to them seemed at the moment to be desirable. These loose constructionists have made a mere shoestring of the Constitution.

At the time of the adoption of the Constitution and throughout our history since that time until recent years, Democrats as a rule have been strict constructionists. The old Federalists and then the Whigs and finally the Republicans have always been loose constructionists. No, not finally, for since the inauguration of the New Deal, a majority of the Democrats seem to have become the loosest among the loose. Our President himself must be listed in that category.

We do not wish to revive old controversies among our fifteen or twenty readers, but it was because of the fact that the Supreme Court a half dozen years ago was not loose enough in its construction of the constitution respecting New Deal measures to suit the President that he sought to change the complexion of the Court entirely by proposing that it be so enlarged that the new members which he would appoint would over-rule the decisions that the Court had recently made.

We thought at the time and we still think that this proposal was one of the most daring and dangerous ever made by any President. Be it said to the credit of the country that many Democrats refused to follow him into such un-American and un-American paths and defeated his proposal.

It was no credit to the President that later he boasted that he had practically accomplished his purpose by appointments to vacancies that occurred on the Court. When a man is appointed to any Court for a specific purpose, the confidence of the people in the integrity of that court is by no means enhanced. If all our judges were appointed for some specific purpose—to render decisions this way or that, on questions that were expected to be brought before them, regardless of what a painstaking study of the law might lead them to believe respecting those matters,—who would have any confidence in or respect for the opinions of the courts?

Charles E. Hughes was first appointed an associate justice of the Supreme Court by President Taft in 1910. He resigned in 1916 to accept the Republican nomination for the Presidency. In the contest which followed he was defeated by President Woodrow Wilson by a narrow margin, but during the years following he continued to be a world figure. On February 3, 1930, he was appointed Chief Justice of the Supreme Court by President Hoover.

Always regarded as a progressive in politics, he was also regarded as a liberal respecting the Constitution. But he was not a radical. Nor was he one of those who regarded the Constitution lightly. He had a profound respect for it. As a member of the Court, he has sometimes differed with the strict constructionists like McReynolds, Vandevanter and Butler, but he has also often differed with the extreme loose constructionists appointed by President Roosevelt. He has steered a middle course; and while sometimes he may have been wrong, he undoubtedly has been one of the greatest justices that ever sat upon that Court.

John Jay, appointed by President George Washington in 1789, was the first chief justice of the court, and the demands upon it were light. Chief Justice Jay was a man of great ability and attained consider-

able distinction as a jurist, but after six years of service he resigned to become governor of New York. He retired from the court feeling that under the set-up at that time the Court could never become a very important or distinguished tribunal.

Washington then appointed John Rutledge of South Carolina as Chief Justice. Rutledge was a brilliant man and a jurist of some note. He had served as associate justice of the U. S. Supreme Court and as Chief Justice of the Supreme Court of South Carolina, but soon after his appointment as Chief Justice to succeed Jay, he became insane, and his appointment was never confirmed by the Senate.

Oliver Ellsworth of Connecticut was then appointed by Washington. Thus, it will be noted, that Washington not only appointed the first three chief justices of the Supreme Court but all of the associate justices who served during his two administrations as President.

Ellsworth was regarded as an able jurist. He had served in high judicial positions in his own state; like Rutledge, he had been a member of the Constitutional Convention which framed the U. S. Constitution; had later served as United States Senator, and was chairman of the committee which framed the whole system of Federal Courts. But he served as chief justice only three years, resigning in 1799.

It fell to the lot of President John Adams to appoint the fourth Chief Justice. He seems to have taken his time to do it. Probably the business before the Court was not pressing. At any rate it was in 1801 just before he retired from the Presidency, that he appointed John Marshall of Virginia.

Chief Justice Marshall served for a period of 34 years, longer than the period served by any other Chief Justice in the 150 years of the history of this court. The decisions which he and his Associate Justices rendered during this time construing different provisions of the Constitution of the United States were numerous, and they were among the most important decisions which this great tribunal has handed down.

Marshall was considered a liberal constructionist in his day, and he was a liberal as opposed to the strict construction views held by Thomas

Jefferson and most of the Democratic leaders in that period of our history.

His decisions, however, have been generally accepted as lucid and logical, and he is regarded today as the most distinguished jurist who ever served as a Justice of the Supreme Court.

Chief Justice Marshall died while Andrew Jackson was President of the United States. Andrew Jackson thereupon appointed as Marshall's successor Roger B. Taney of Maryland. Taney had been Jackson's attorney general and had stood by the President in his fight on the U. S. Bank. Jackson had also appointed him secretary of the treasury later to carry out his Bank policies, but the Senate refused to confirm the appointment. But when Jackson appointed him to the Chief Justiceship of the Supreme Court following the death of Marshall, his appointment was confirmed and he became Chief Justice in 1836, and he served 28 years.

He was a strict constructionist of the Constitution, and as such he rendered the famous Dred Scott decision, thereby infuriating those who were opposing the spread of slavery and contributing powerfully to the acrimony and animosities that finally led to the Civil War.

Chief Justices who have served since that time include Salmon P. Chase, who was appointed by President Lincoln and served until his death in 1873; Morrison R. Waite, appointed by President Grant in 1874, serving till his death in 1888; Melville W. Fuller, appointed by Grover Cleveland in 1888 and serving till he died in 1910, a period of twenty-two years; Edward D. White of Louisiana, a Democrat, appointed by President Taft in 1910, who served till his death in 1921; then William Howard Taft himself, appointed by resident Harding in 1921 and serving till his death in 1930, being succeeded by Charles Evans Hughes.

Most if not all of these were able jurists. Especially may this be said of Fuller, White, and Taft. Chief Justice Taft bears the distinction of being the only man in the history of this country who has served both as President of the United States

and as Chief Justice of the Supreme Court.

Justices of the Supreme Court usually have been men of the highest ability and integrity. The fact that they are appointed for life or during good behavior has usually made them independent of political considerations. This independence of thought and the intellectual honesty that has characterized most of them have created a deep and abiding respect for this court and made it the greatest and most distinguished judicial tribunal in the world.

Chemists in the U. S. Department of Agriculture have been experimenting with the use of peanut flour in delicious cookies, bread and pound cake.

More than 5 percent cottonseed meal in hens' rations will make the yolk of the eggs mottled after they have been in storage several months. The whites may turn slightly pink from too much cottonseed meal.

Cresol solution, commonly used as a stock dip, is recommended by the Colorado State College Experiment Station as a suitable disinfectant for seed-potato cutting knives to prevent spread of bacterial ring rot.

Certified: 13,398 MILES ON A SINGLE 5-QT. FILL OF THIS NEW OIL

5 OTHER GOOD OILS
OUTDISTANCED 74% TO 161%
Impartial test in Death Valley Desert.
6 cars Destroyed to give you
Economy data beyond any Quibbles.

U. S. Patent No. 2,218,132 tells exactly what is new about the new Conoco motor oil named
CONOCO Nth MOTOR OIL

5 quarts of this same new Conoco Nth oil that you can buy today, lasted 13,398.8 miles in a stock coupe—under lock and under scrutiny every minute.

13,398 miles up and down Death Valley. Sand and sagebrush. Lowest land and highest extremes of heat in our U. S. A.

5 other well known oils got the same chance as new Conoco Nth oil. 6 identical new cars were used. Tune-ups, tire pressures, speeds, and all other factors were the same for all—impartially. Engines were under lock. Qualified authorities eyed everything.

The test was simple and stern... Each car got its 5-quart fill of some one competing oil and was run at a 57-mile speed, without added oil, till the engine smashed up. New Conoco Nth motor oil went 13,398 miles. Certified. Not another oil came within 5,683 miles of that and one was outlasted 8,268 miles by new Conoco Nth oil. Certified.

The reasons are straight and simple... New, patented Conoco Nth motor oil contains Thialkene inhibitor, a new synthetic... man-made by Conoco.
Now an inhibition is something that restrains you—checks you. And Thialkene inhibitor checks the effect of poisons always formed in normal engine operation. Instead of "festering," weakening, and passing out, this oil is scientifically prepared to keep its health, so that the engine can do the same—a good way to keep up the oil-level.

While you use Conoco Nth, this OIL-PLATING stays on guard against wear in advance! By OIL-PLATING the engine and inhibiting the worst effect of oil pollution, one fill of new Conoco Nth lasted 13,398 miles. Certified.

You'll not put your car through such a third-degree—any more than you keep starting in high gear just because you could. You'll certainly never want to exceed the recommended distance between crankcase drains. But knowing that new Conoco Nth oil lasted 74% to 161% longer than other oils tested, see how seldom you add a quart. At Your Mileage Merchant's Conoco station today change to your correct Summer grade of popular-priced new Conoco Nth oil. Continental Oil Company—Pioneers in Bettering America's oil with Synthetics

OIL-PLATING, too!... Long the keystone of Conoco success, OIL-PLATING comes from another Conoco synthetic... (U. S. Patent 1,944,941). Magnet-like action bonds OIL-PLATING to engine parts, so it can't all drain down—not even overnight.

CERTIFIED I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

LAMESA-BROWNFIELD HI-WAY CONTRACT LET RECENTLY

The Lee Moor Construction Co., of El Paso, received the contract for a turnkey job of the Brownfield-Lamesa highway recently for the sum of \$140,844.15, according to the Terry County Herald. Work was to have started two weeks ago, but owing to the flooded condition of the country road work had to be deferred until the weather became dryer.

The Commissioners Court had obtained the deeds for the right-of-way, which makes almost an airline toward Welch just over in Dawson county, where the highway will make connection with the Dawson county end, according to the Herald. The Commissioners Court had also obtained three good caliche pits, according to County Judge C. L. Lincoln, which were turned over to the contractors. Many in Brownfield believed that this job would cost around \$200,000.

"This stretch of highway is 17 miles in length, and the contractors will grade, drain, put on some six or eight inch coating of caliche, and hot top. In other words it will be a complete job and the contractors hope to be able to turn the completed road over to the Commissioners Court by October 1st, and they in turn to the State Highway Department. The Levelland road has already been accepted by the State.

"In the meantime, it is hoped that Lamesa and Dawson county will complete their end. They already have some 10 miles completed out of Lamesa this way, and the other seven or eight miles graded and drained. It is hoped that this part will get a hot top by the time ours is completed. Hockey county is now working on their end of the road."

PLANS TALKED FOR COTTON STAMP USAGE

Representatives from the Land Use Planning committee and from the merchants of the county met with agricultural officials at the Lynn County Agriculture Building Thursday morning to discuss the Cotton Stamp Plan soon to be put into effect in this county.

W. H. Seale of Lubbock, area cotton stamp representative, and County Agent Donald Turner were also in attendance at the meeting. According to Mr. Turner, the stamp plan will likely be put into effect soon after the summer land measuring work is completed.

Mr. G. W. Small and Mrs. W. E. Smith went down to Temple for a thorough check-up in the Clinic of the Temple Sanitarium Monday. They were accompanied by Mrs. Small's daughter, Mrs. J. Q. Wernick of Lubbock. Mrs. Small and Mrs. Wernick returned home Thursday. Mrs. Smith expects to return home this week end.

Dale Hogan of Big Spring is here visiting Myrna Dean Gagnat and other friends.

BUFFALO LAKE TO OPEN WITH BIG PROGRAM

Government officials, members of the Panhandle Water Conservation Authority and other dignitaries responsible for the lakes program in the Panhandle will be paid tribute at Buffalo Lake Sunday on the Opening Day Program. There will also be a well-known Panhandle speaker discussing National Defense at the official event.

John McCarty, president of the PWCA and Amarillo publisher, will serve as Master of Ceremonies, it was announced, with A. W. Fanning, Assistant Regional Conservator, speaking on behalf of the Government.

Other than the official opening program, visitors will be busy all day Sunday watching the many entertaining celebration events that include at least eight major races, an All-Girl Diving Revue, Fishing Rodeo, swimming, fast speedboat rides and a host of other events all free. There will be dancing both Saturday and Sunday night.

Everyone wishing to enter the race events, fishing rodeo and other contests may do so without any charge of fees whatsoever. There will be both cash and merchandise awards as well as medals and trophies. Any girl 16 years of age or older may enter the Diving Revue. Scores of extra employees have been hired to accommodate the crowds the lake management has announced.

Safety First is one rule of those familiar with boat and lake activities. Buffalo Lake's management, aware of the necessity of watching out for safety at the opening day celebration Sunday, has left no stone unturned to prevent accidents. However, just in case there are accidents, minor or major, arrangements have been made for that emergency, too.

The Griggs-Thompson Funeral Home of Canyon will again this year maintain a First Aid Tent at the resort to accommodate the thousands who annually celebrate the opening day program. Not only will the tent be equipped with modern first aid equipment and devices but attendants and nurses will be on duty throughout the day to properly treat bruises, cuts sprains and other annoying hurts. They will also have their modern and fast ambulance at the lake in lieu of any major emergency, it was announced.

Aware of the heavy motoring traffic to and from the lake site, Captain Polk Ivy of the Department of Public Safety has announced that patrol cars will be on the alert between Amarillo and the resort to speed up traffic and safeguard the drivers. There will also be patrolmen inside the area to aid the crowds, Captain Ivy said.

Pick-up boats are strategically placed upon the lake water prior to every racing event in case of spills and where the pilots can easily be rescued from the water. Each racing driver is acquainted with the

ELECTRICAL ENGINEERS NEEDED IN ARMY

LUBBOCK—An "urgent need" has arisen in the signal corps of the United States army for a group of men trained in electrical engineering, radio communication and electronics, according to information received by President Clifford B. Jones of Texas Technological College.

Those qualifying would be made second lieutenants and would go on duty for a year, with option to extend the period to two years, and would be exempted from draft under the selective service law, according to the letter received from George W. Bailey, chairman of the radio section, national research council, Washington, D. C. Pay varies from \$180 to \$363 a month. Those interested may apply to Bailey.

many colored flags the starter uses in races and the judge easily controls the activities of the racers by merely waving a flag. All boats are waved off the lake prior to a hydroplane race due to these tricky boats needing lots of space and still waters to run safely.

Senior Life Guards are on duty every hour the swimming area is open and the area for swimmers is enclosed from the boating area of the lake.

Buffalo Lake drivers are trained to be on the alert at all times for boaters in distress and have instructions to tow in all boats deemed unworthy due to wind or water disturbances.

Buffalo Lake is deep and wide. Whitecaps and swells are dangerous and all boaters are requested to report to Dock officials before placing their craft on the lake that record may be made of all those on the lake at all times.

Cupid may be a good shot, but he makes some awful Mrs.—Santa Fe Magazine.

Hay or dry bundle feed should be kept within reach of dairy cows while they are on young green grass.

MANY NEW BOOKS IN COUNTY SCHOOL LIBRARY

The County School Library, starting early last year, has grown rapidly under the supervision of County Superintendent Lenore M. Tunnell, and unlike many libraries all the books are approved by the State Department of Education with just a few exceptions.

Written for school children of all grades and ages, they cover a multitude of subjects and many types of literature. There are now nearly four hundred volumes in this library. Mrs. Tunnell received a consignment of thirty-three books just this week.

"Most of these books", she said to a representative of the News Tuesday, "were bought for the eighth and ninth grade levels.

"About seventy-five children in the Dixie, Gordon, Edith, New Lynn, Redwine, Draw, West Point, Newmoore, and Grassland districts have received county reading certificates for having read fifteen books on the state approved reading list", she continued. "About thirty of these students will be issued state reading certificates for having read thirty books on the state approved lists.

"This program is sponsored for two purposes: The hope of cultivating in the minds of the children a love of reading, for to be able to read well is the first prerequisite to an education; and to furnish to the children of small rural schools ample library books to meet this need.

"Since the library was begun about a year ago, we have bought about four hundred volumes of new books, 90 percent of which are on the state approved reading lists for elementary grades."

These books are purchased with state funds allocated for the purpose. Each school receiving state aid

Most Artistic

Singing her way to recognition, Miss Virginia Halbedel of San Antonio won the Leman Award at Texas State College for Women commencement exercises June 2. Presented annually by Dr. L. H. Hubbard, president of the college, the award goes to the student in each graduating class who has made the outstanding artistic contribution to the college during her four years in school. Miss Halbedel won distinction as a singer and composer.

is required to set aside a small portion thereof as a library fund. These schools are permitted to pool these funds for the purpose of building a county library, available to all the children of all the state aid schools paying in their quota.

Books received this week include the following: "Down the Fairway", Robert Jones; "Beggars' Revolt", Dekker; "Green Light" and "Forgive Us Our Tresspasses", Lloyd C. Douglas; "My Heart and My Flesh", Elizabeth Roberts; "The Old Curiosity Shop", and "Barnaby Rudge", Dickens; "Mitch Miller", Edgar Lee Masters; "We Are Not Alone", James Hilton.

Perhaps that's why it usually gives a child such refreshing relief when the familiar symptoms indicate a laxative is needed.

SYRUP OF BLACK-DRAUGHT comes in 2 sizes. The introductory size is 25c; the economy size is 50c.

the . . . Scrapbook Myrtle Rochelle

Those of us who attended most of the sessions of the Business and Professional Women's Clubs' state convention in Lubbock last weekend have been able to talk of nothing else since. The whole convention was so interesting and inspiring that one member, Mrs. Inez Knight, is considering attending the National convention in Los Angeles in July.

Marie Womack of Big Spring planned to attend the convention, we were told, but was unable to come. Many Tahoka people who remember Marie as a tiny little red-head who finished high school here several years ago, will be pleased to know she is now dietitian at the state hospital there, an excellent position. . . . Argen Hix of Levelland who started the club year with us in Tahoka before her transfer, attended the Friday afternoon session and said hello. . . . Elsie V. Link, co-chairman of the Elections committee of the convention, is a cousin of our good friends, Liz Link and Mary Wilhoit. . . . We also met a niece of A. H. Raborn's at the Presidents' Dinner Saturday night, from Crosbyton. . . . The incoming state president almost failed to arrive; she and others from Tyler barely escaped death in a serious collision en route, and Miss Spinks, carried on with only one dress, the one on her back, throughout the convention. The others had been left scattered on the roadside.

Dr. Minnie L. Maffett, national president and noted gynecologist of Dallas, is the most beautiful woman of her age we have ever known. She is unusually tall and big-boned, but carried her size with stately grace to set off her perfect complexion, even features, sparkling blue eyes and snow-white hair. Her hair, we are told, turned white over night when she was eighteen years old. . . . Incidentally, and that was a good many years ago, Dr. Emil Prohl is a former student of Dr. Maffett's.

With the possible exception of Dr. Maffett and state President Meta Meadow, Judge Sarah T. Hughes, the only woman district judge in Texas, was undoubtedly the favorite of the convention. Her vivid personality, sincerity and wonderful speaking ability have made her the idol, it seems, of every member of the Texas Federation, and some left over. Judge Hughes' particular interest since 1937 has been the promotion of the campaign for jury service for women, the state federation's project. We thoroughly agree with her arguments in favor of the proposed bill, and believe no one could think otherwise, once they heard her.

MARY LEE TAYLOR'S RADIO RECIPE

No. P-72 Onion Rings

Broadcast by Mary Lee Taylor June 12, 1941 3 large onions 1/2 teaspoon baking powder 1/4 cup all-purpose flour 1/2 teaspoon salt 2 well-beaten eggs 1/4 cup Fat Milk

Cut onions into 1/4-inch slices and separate into rings. Sift flour before measuring. Resift with baking powder and salt. Mix together well-beaten eggs and milk. Stir into flour mixture, beating until smooth. Heat 2 inches of fat hot enough to brown a 1-inch cube of bread in 50 seconds, or to 370° F., on a cooking thermometer. Put several onion rings in batter, lifting out one at a time with a fork. Fry a few rings at a time until brown. Drain on unglazed paper. Serves 6.

Two Young Men Join The Army

Woodrow Brewer and Edgar Simmons of the Joe Bailey community have left for San Antonio, where they will be inducted into service in the U. S. Air Corps and will likely be sent to California.

The two young men were to be called up by the Selective Service this week for possible service in the Army, but they elected to sign up for three years through the Lubbock recruiting office.

Woodrow is the son of Mr. and Mrs. Ed Brewer and was raised in this county. Edgar Simmons was likewise raised in this county and is the son of Mr. and Mrs. T. J. Simmons, who last year moved from the Midway community to Littlefield.

60 BOYS AND GIRLS LEAVE NYA EMPLOYMENT IN AREA

LUBBOCK—A report from Jennings T. Lewis, area director of the National Youth Administration, states that 60 youth have left employment with the National Youth Administration for jobs in private industry during the month of May. This makes a total of 205 boys and girls who have received such employment since the first of the year.

The jobs obtained by these youth include a wide variety of activities. Listed in the jobs are mechanic helper for new Bomber Plant at Fort Worth, truck drivers, farm laborers, housekeepers, stenographers, clerks, filling station attendants, bakers, laundry operators, hall boys at hotels and others. Salaries range from a few dollars per week with room and board to around \$65.00 per month.

Three youth from Lynn county are listed in this group. They are James W. Moore, Tahoka, Edgar Hodge of Tahoka, and A. B. Grubbs of Route 5, Tahoka.

R. H. TURNER IN CRITICAL CONDITION

R. H. Turner, a long-time citizen of Tahoka, is in a critical condition in the Lubbock Sanitarium, where he was taken for treatment on Friday of last week. Physicians, it is said, hold out no hope for his recovery.

Mr. Turner suffered an attack of the flu accompanied by high blood pressure several weeks ago soon after the return of himself and wife from Uvalde, where they spent the winter. He has shown little improvement since, and recently he became gradually worse.

Many Tahoka friends have been visiting the hospital this week and inquiring as to his condition.

Misses Lorene Anglin and Ida Botkin have enrolled in the Texas Tech for the summer term.

Mr. and Mrs. W. T. Hanes and son Billy visited relatives in Henrietta last week end.

H. L. Roddy and family are visiting relatives in Hico this week.

Fire Truck . . .

Continued from Page 1
rowly missed being run over by automobiles recklessly driven, closely following the fire truck.

The fire boys think that if the people do not respect them any more than to endanger their lives when they are trying to save the people's property, there should and will be steps taken to prevent this hazard the general public makes for the fire-fighters.

A Man Fell

There are several reasons why the people should not follow the fire truck to a fire, or anywhere else. For instance, the other night the fire-boys made a practice run, but the fire whistle was not blown, and there were no cars following the fire truck. Soon after leaving the station one of the fireboys lost his footing and fell from the truck to the pavement receiving only a scratch or two, but what would have happened to him if the fire alarm had been sounded and there had been a string of cars dashing along behind and beside the truck? He might have been hit by a dozen cars and more than likely have been killed—by the fire truck chasers. This does not happen often but it may happen at any time. That fire-boy was lucky—PLENTY LUCKY.

We again ask you, you and you to clear the streets when you hear the fire whistle and to please not follow the fire truck unless you belong to the Tahoka Volunteer Fire Department.

W. T. Bovell, Fire Chief
Deen Nowlin, Mayor
W. M. Lee, City Marshal

Wins High Honor . . .

(Continued From Page 1)
she will accept one of them or will enter the Government service.

Until the 24th of this month, Miss Brooks will be doing a little post graduate work in the Lubbock Sanitarium, but after that date she expects either to enter the Government service or to accept one of the positions which have been offered.

Miss Brooks graduated at the Tahoka High School with the class of 1938 and was the salutatorian of her class. Soon thereafter she entered the nursing school at the Sanitarium.

ROY HARVICK TRANSFERRED

Roy Harvick who has been in training at Fort Bliss for the past several months has been transferred to the Air Base Training School at San Angelo, and is leaving for that place today after a week's visit here with his parents, Mr. and Mrs. Bill Harvick.

Billy Hill drove up to Amarillo Saturday night and returned home Sunday, accompanied by his wife and her sister, Miss Juanita Anderson, who is visiting friends at New Home this week. Mrs. Hill had been visiting her parents, Mr. and Mrs. J. B. Anderson, in Amarillo for several weeks.

Tahoka People Hear Johnson

Lynn county was well represented at the Lyndon Johnson speaking in Lubbock Wednesday night. They also got in on a free feed at the Lubbock Hotel preceding the speaking, according to some of the enthusiastic Johnson fans who attended.

The speaking was held in a roped-off section of the street just east of the Hotel, and Loyd Croslin, who presided and introduced the speaker, is quoted as having estimated the crowd at something less than a thousand.

Temporary seats had been arranged for the occasion, but a light shower of rain during the speech drove most of the crowd to shelter. They remained in range of the speaker's voice, however.

Johnson took occasion to make some pointed thrusts at three of his opponents, Marin, Dies and O'Daniel, and proudly confessed to the charge that he was a Roosevelt "Yes" man. As usual, he stressed his support of the President on every issue that has arisen, and it is said he received frequent applause.

Among Lynn county people who heard the speaker were: W. E. Sudarth, Truett Smith, Pete Hegl, Ray Weathers, Joe Heare, Carl Owens, A. C. Weaver, Roy Edwards, C. C. Coffee, W. F. Lindley, John Beard, Harley Henderson, W. E. (Happy) Smith, Claude Donaldson, Terry Noble, W. W. Haigood, D. W. Gaignat and W. V. McElroy.

Texas Almanacs Given Schools

Fifty Texas Almanacs, compiled and printed by A. H. Belo & Company, publishers of the Dallas Morning News, have been received by County Superintendent Lenore M. Tunnell for distribution among the public schools of Lynn county.

Funds with which to purchase the Almanacs were contributed by The First National Bank of Tahoka, the W. M. Harris Hardware and Furniture Co., the Farmers Cooperative Association No. 1, and the Wilson State Bank, Mrs. Tunnell reports.

Mrs. Paul Cook was here from Sundown visiting her parents, Mr. and Mrs. F. O. Greathouse Sunday. Mr. Cook is in business at Sundown.

Bell Countyites To Meet At Buffalo Gap

Announcement has been made that former residents of Bell county now residing in West Texas will hold their second annual reunion at Buffalo Gap, thirteen miles southwest of Abilene, on Sunday, July 6. A very large crowd is expected to be present.

Every person in this section who ever resided in Bell county is invited. Fine shade and water. Take a lunch with you and enjoy the day.

Every person in Lynn county who has ever resided in Bell county is requested to report at once to E. I. Hill, editor of the Lynn County News, whether you think it possible to attend the reunion or not.

Mr. and Mrs. Frank Greathouse and Mrs. Jesse Benson left Wednesday morning for an extended visit with relatives in Oklahoma, Indiana, and Ohio. They will probably be gone several weeks.
